

TILIA	LIME-TREE
<i>obliqua</i>	Oblique-leaved Lime
ULMUS	ELM-TREE
<i>campestris</i>	Wych Elm
<i>β. latifolia</i>	Broad-leaved Wych Elm
<i>γ. crispa</i>	Curled-leaved Elm
<i>δ. cinerea</i>	Ash-coloured Elm, <i>new</i> , 1815
<i>suberosa</i>	Narrow-leaved Elm
<i>β. latifolia</i>	Broad-leaved English, or Hert- fordshire Elm
<i>γ. foliis ex albo variegatis</i>	Silver-striped Elm
<i>δ. foliis ex aureo variegatis</i>	Gold-striped Elm
<i>ε. stricta</i>	Cornish Elm
<i>ζ. fungosa</i>	Drooping Elm
<i>n. rubra</i>	Red American Elm
<i>Americana</i>	White American Elm
<i>β. latifolia</i>	Broad-leaved Siberian Elm
<i>γ. Cicestriensis</i> *	Chicester Elm
<i>memoralis</i>	Hornbeam-leaved Elm
VACCINIUM	WHORTLE-BERRY
<i>Myrtillus</i>	Bilberry
<i>stamineum</i>	Green-wooded Whortle-berry
<i>uliginosum</i>	Great Bilberry
<i>frondosum</i>	Blunt-leaved Whortle-berry
<i>resinosum</i>	Clammy Whortle-berry
<i>amænum</i>	Broad-leaved Whortle-berry
<i>virgatum</i>	Green-twigged Whortle-berry
<i>Arctostaphylos</i>	Madeira Whortle-berry
<i>crassifolium</i>	Thick-leaved Whortle-berry
<i>Vitis Idæa</i>	Cow-berry
<i>β. major</i>	Great Cow-berry

* A plant of this rapid growing, and very ornamental Elm, was planted at Catton, in December, 1807, of two years' growth, and 6 feet high. It now (May, 1815) measures 28 feet high and 25 inches circumference.
