WHEN, HOW AND WHERE TO PLANT.

Any good garden soil, avoiding extremes of dryness or heavy clay, will grow Narcissi. In the house those varieties that are fitted for such culture require only water and stones or moss. The strength is stored in the bulb to produce a flower, but to reproduce blubs, it must have food and water during the fall and spring months. Good drainage is essential. Do not grow them where their "feet" are in standing water. Avoid using fresh manure; it will rot the bulbs.

Early fall is the time for planting. August and the first weeks in September, in the northern part of the United States, is the ideal time. The earlier they are in the ground out of doors the better root system they can have. Later planting, even into early November, may be done, but at the expense of the plant and bloom. The whole secret of success in producing the best, largest, most perfect and richest colored flowers and foliage is maximum root development. (A. M. Kirby.)

"No roots, no flowers; poor roots, poor flowers; good roots, good flowers."

Plant six inches apart and cover the bulbs three inches is a general rule. This should be varied according to the size and variety. Use your discretion. Covering the bulb with soil equal to its largest circumference is a rule used by many.

NATURALIZING NARCISSI.

(Planting like wild flowers in fields and woods.)

By naturalizing is meant to plant them in a natural way or as nature plants. Fill your pockets with bulbs and take a spade with you. As you walk about select places where sunshine and moisture may be had and lift the sod or soil with the spade, leaving the spade in the ground until you have thrown a few bulbs under the spade, then remove it and let the earth cover the bulbs. Press the earth firmly by standing on the turf and tramping it down. If you prefer a staff to a spade, provide anything with which a hole may be made in the earth large enough to allow the bulb to be

placed three or four inches below the surface, put in the bulb, fill the hole with dirt and press firmly down, leaving the place level with the surface. Distribute them as you please. Keep in mind that the bulbs will increase from year to year and form colonies. Imitate nature. In choosing varieties for naturalizing, the smaller and more refined ones will give the greatest satisfaction. Such varieties as *Barrii Conspicuous* and *Poeticus Recurvus* are splendid for naturalizing.

Do not plant where the grass will be mown before the leaves have time to dry on the plant. In order to multiply and produce new bulbs the leaves are necessary. The planting of *Narcissi* on estates in the country where they may bloom by the million will add to the beauty of the country homes, as it has in England. Because they need no care and multiply freely they are the least expensive adornment of the landscape.

"This fascinating phase of gardening deserves more attention than has hitherto been bestowed upon it. No sight is more delightful than the fresh brightness of spring flowers growing freely in grass land or lending color to woodland walks, hedgerows, and ditches, here and there nestling at the foot of trees, or establishing themselves on sloping banks." (Barr & Sons, London.)

"To make two blades of grass grow where but one grew before" has been held up as a most praiseworthy effort. How beautiful and how satisfying must be the effort to carpet the earth with a flood of golden color when most needed in the interim between winter and summer. How the dreariness of that transition is relieved when in the very worst weather, when nerves are tired and spirits low, the sight can be fastened upon fields of

"* * Daffodils that come before the swallow dares
And takes the winds of March with beauty."

—Shakespeare.

"A thing of beauty is a joy forever.

* * * and such are daffodils."

—Keats.

THE LARGE TRUMPET DAFFODILS.

(Ajax—Narcissus—Yellow.)

EMPEROR 10c each, \$1 per doz., \$7.50 per 100

"A universally admired variety. It is one of the best and largest of all the yellow daffodils, deservedly popular for pot culture, forcing, naturalizing, and for use in borders. The flowers, borne on long stems, are of immense size, firm in substance and of well-balanced form. The broad trumpet is rich golden yellow, and the petals—broad and rounded—are but slightly lighter in tone. It is a strong, healthy grower and free bloomer, doing its best in a strong, rich, well-drained loam." (A. M. Kirby's Description.)

GLORY OF LEIDEN.....

.....12c each, \$1.25 per doz., \$8.50 per 100

"Dubbed and truly 'The King of the Daffodils.' It is a giant seedling, resembling, but superior to, Emperor, one of its parents. A strong grower, with massive flowers of great substance, boldly tilting upwards on strong stems, challenging admiration and comparison with more modest semi-pendent flowering varieties. Glory of Leiden, big and beautiful, seems conscious of its superiority

in size, strength and durability. It comes unscathed through vicissitudes of unseasonable weather that dim the beauty of more delicate sorts. It can always be depended upon as a 'show flower' and to be the surprise and envy of daffodil-loving visitors. The enormous trumpet is rich yellow, the petals broad and rounded, of lighter shade with deeper yellow pencilings. For pot culture, flower beds and borders it is most effective." (A. M. Kirby's Description.)

GOLDEN BEAUTY.....None for sale

A brilliant yellow perianth, broad segments with an elegant twist, large trumpet with a deeply flanged mouth. (Raiser's Description—Sydenham.)

GOLDEN SPUR 12c each, \$1.25 per doz., \$8.50 per 100

"* * * An extra early, free flowering variety that is a great favorite with the writer, who, if he could have but one daffodil would choose this. It is not the biggest, nor yet the most beautiful, but when you plant a dozen bulbs of it you are pretty sure to get eighteen to twenty-four flowers, all large, perfect and as richly colored as the most fastidious grower could desire. Golden Spur has a vigorous constitution, is easily forced in flats, flowers beautifully in pots, and is perfectly at home in the garden border; and when naturalized, seeds freely and increases correspondingly. The flowers of large size have a spreading megaphone-like trumpet with gracefully rolled brim, perianth large and open. The color, a self-yellow, is almost as deep as that of maximus." (A. M. Kirby's Description.)

HENRY IRVING 15c each, \$1.50 per doz., \$10 per 100

"A fine type of spurius major, with handsome flowers of great substance. Trumpet, rich golden yellow, wide and recurved at the mouth. Perianth broad, spreading and of clear yellow. Excellent for forcing, pot culture, growing in borders and naturalizing in grass. It thrives best in sandy gritty loam." (A. M. Kirby's Description.)

KING ALFRED 25c each, \$2.50 per doz., \$20 per 100

"A new daffodil, perhaps the most beautiful of all yellow trumpets; free and early flowering. The flowers are not only of immense size but are of noble form and great substance. The trumpet is extra large and elegantly frilled at the mouth. The color is a deep, rich maximus yellow. The plant, which has a bluish green foliage, is strong, vigorous and healthy, and grows two feet high. It is a superb variety for exhibition, pot and border culture." (A. M. Kirby's Description.)

LEANDER.....Limited stock; not offered for sale

"Very much like Princeps, but a little larger, a little better, a little later, less twist to the petals and a little better substance than Princeps." (George Ward Lawler's Description.)

LORD ROBERTS.....\$1.00 each, \$75.00 per 100

"Grand trumpet daffodil, flowers of enormous size, golden yellow with broad, massive perianth and noble trumpet; tall grower and free bloomer." (De Graaff's Description.)

MAXIMUS..15c each, \$1.50 per doz., \$10.00 per 100

"Is the recognized peer in coloring among yellow daffodils, being intense golden-orange throughout. The reputation of any daffodil approaching 'maximus color' is established. While the flower is of grand size, form and color, with an immense, beautifully-formed, well-opened recurve-brimmed trumpet and large, gracefully twisted petals, it has one fault—shy blooming, or not blooming at all, excepting under congenial conditions. Those who supply these conditions will glory in the result." (A. M. Kirby's Description.)

MINISTER TALMA 15c each, \$1.50 doz., \$10 per 100

"Rich yellow, fine recurved trumpet, large flower on tall stem; early." (Tromp's Description.)

OLYMPIA...35c each, \$3.50 per doz., \$25 per 100

"This remarkably fine daffodil might be briefly described as a greatly improved Emperor, being much larger in size and of a richer, deeper color. It is a wonderfully strong grower, with fine, broad, blue-green foliage, and its bold, majestic yet artistic flowers are produced very freely. This is surely one of the coming daffodils." (Dreer's Description.)

P. R. BARR...12c each, \$1.25 per doz., \$8.50 per 100

"Perianth primrose, trumpet rich full yellow of fine quality and form, sturdy grower and free bloomer; height 16 inches. We strongly recommend it for cutting and to plant largely in flower beds and borders and in the grass," etc. (Barr & Sons' Description.)

PRINCEPS...10c each, \$1.00 per doz., \$7.50 per 100

"Perianth sulphur, trumpet yellow, very early, fine flowers and foliage." (General Bulb Co.'s Description.) A great favorite for forcing in England.

TRESSERVE...25c each, \$2.75 per doz., \$20 per 100

"A handsome hybrid of Golden Spur crossed with Emperor; flower very large with slightly campanulate canary-yellow perianth and a very bold, rich yellow trumpet with wide expanded brim deeply flanged and measuring 2½ inches across; height 17 inches; fine exhibition variety." (Barr & Sons' Description.) "Fine yellow trumpet and perianth of same color. A very robust and free flowering variety, producing flowers of enormous size. Shape perfect. This is undoubtedly one of the future leading varieties." (Van Zonneveld Bros. & Philipo Description.)

THE FIRST.....Limited stock; none for sale
Description reserved.

VAN'S HYBRID.....Limited stock; none for sale
Description reserved.

VAN WAVEREN'S GIANT..........**35c each, \$3.75 per doz., \$30 per 100**

“Seedling of the well-known Emperor, with the same dependable qualities for forcing; very free flowering. Bright yellow trumpet, cream colored perianth. Flowers facing slightly upwards, strong stems, broad foliage. Its striking color and great size (as big or bigger than King Alfred) immediately attracts the attention of the public. Still too high for cut flower sales, but very profitable if grown five in a pan for the finer flower stores. Extra heavy mother bulb showing two to three perfect flowers.” (M. Van Waveren & Sons, Ltd., Description.)

VAUGHAN'S CHRISTMAS GLORY..........**Limited stock; none for sale**

“Perianth pale yellow and full. Medium size trumpet of rich yellow, well expanded and prettily frilled. Very productive, large bulbs giving from three to six blooms each. A week to ten days earlier than any other in this list (Vaughan's list). Invaluable indoors on account of its earliness and free blooming qualities.” (Vaughan's Seed Store Description.)

THE LARGE TRUMPET DAFFODILS.

(Ajax Narcissus Bicolor.)

CONQUEROR..Limited stock; none offered for sale

“A wonderful bicolor, large white perianth, broad and overlapping segments, bright pale yellow trumpet with wide mouth, nicely recurved.” (Sydenham's Description.)

DUKE OF BEDFORD.Limited stock; none for sale

“A magnificent flower, measuring 4½ inches across, perianth pure white, broad and of great size, trumpet clear soft yellow. It flowers even earlier than Horsfeldii.” (De Graaff Bros., Ltd., Description.)

EMPRESS.....10c each, \$1 per doz., \$7.50 per 100

“Very large, reflected, rich yellow trumpet, broad white perianth of great substance; one of the finest daffodils; forces well.” (R & J. Farquhar’s Description.)

GLORY OF SASSENHEIM.....

.....15c each, \$1.50 per doz., \$10 per 100

“Perianth white, trumpet golden yellow. A very large and substantial flower, splendid forcer, about two weeks earlier than Bicolor Victoria.” (General Bulb Co.’s Description.)

GRANDEE.....10c each, \$1 per doz., \$7.50 per 100

“Late flowering; excellent for succession, blooming nearly two weeks after Empress and Horsfeldii. It is of rather dwarf growth, sturdy and robust, with broad foliage. The flowers are beautifully formed, massive and of splendid substance. Trumpet large and long, of rich yellow. Perianth wide, round petalled and pure white. Planted in shade; it flowers in May. Good cut flower.” (A. M. Kirby’s Description.)

HORSFELDII...10c each, \$1 per doz., \$7.50 per 100

“It is a pity that this grand and popular daffodil could not be popularly known as John Horsfield in veneration of the narcissus enthusiast—a modest Scotch shoemaker—who produced it. It is very early flowering, very free, splendid for forcing, and showy in beds and borders. The large flowers have a rich yellow trumpet and a broad petalled, well-expanded perianth of pure white.” (A. M. Kirby’s Description.)

MADAME PLEMP...10c each, \$1 doz., \$7.50 per 100

“A new late flowering variety of strong growth, producing very large, bold, well-formed flowers of great substance. Trumpet of immense size and of rich golden yellow; perianth white, the petals being large and twisting gracefully; one of the finest daffodils as a garden plant.” (A. M. Kirby’s Description.)

VICTORIA.....10c each, \$1 per doz., \$7.50 per 100

“A comparatively new variety, bearing immense flowers of ideal form and unsurpassed substance. When flowered under glass it is even more beautiful than when grown in the open. It forces easily and is earlier than any other high-class bicolor. As a pot plant it is most effective, the flowers being carried erect on tall, stiff stems, gracefully topping the foliage. The petals are of remarkable breadth, creamy white out of doors, but snowy white under glass; the bright yellow trumpet is very large and broad, beautifully flanged and frilled at the mouth. A variety of great merit, strong and healthy in growth, a free bloomer, and especially noted for its vanilla-like perfume.” (A. M. Kirby’s Description.)

WEARDALE PERFECTION.....

.....35c each, \$3.75 per doz., \$30 per 100

“A giant bicolor, large, broad, creamy-white perianth of great substance, segments well overlapping; large, bold, well-shaped trumpet of delicate primrose yellow; very handsome, refined flower and very vigorous grower; indispensable to exhibitors.” (Robt. Sydenham’s Description.)

THE LARGE TRUMPETS.

(Ajax Narcissus White.)

MADAME DE GRAAFF.....

.....10c each, \$1 per doz., \$7.50 per 100

“A magnificent flower; the perianth is snow white, the large trumpet is slightly tinted with primrose, which changes to white; has been well named ‘the Queen of Daffodils.’” (Dreer’s Description.)

THE LARGE CHALICE-CUPPED NARCISSI.

(Narcissus Incomparabilis.)

BEAUTY.....Limited stock none offered for sale

“A fine, bold flower, perianth sulphur yellow, with a deeper yellow bar down the center, cup

yellow margined with orange-scarlet; tall, strong grower; showy in beds and borders, and a useful variety for naturalizing in grass, woodlands, etc., and for cutting." (Barr & Sons' Description.)

BEDOUIIN.....Limited stock; none offered for sale

"Flower large, perianth broad and white, cup fiery orange-scarlet, elegantly fluted and crinkled at brim; strong, free grower. Award of merit for garden decoration and cutting." (Barr & Sons' Description.)

BERNARDINO.....Limited stock; none for sale

"Very large and beautiful, somewhat after 'White Queen' in shape (which he describes as a glorified Sir Watkin); the cup is more frilled and most beautifully flushed with apricot and orange; sometimes goes white with age, most useful as a mid-season exhibition flower." (Sydenham's Description.)

CROESUS.....Limited stock; none for sale

"A very fine flower of great substance with large rounded and imbricated pale primrose perianth and a wide expanded crown of deep red." (Barr & Sons' Description.)

GLORIA MUNDI.....Limited stock; none for sale

"New. Really glorious flower. Petals bold, rich, bright yellow; crown very large, well expanded, rich deep orange, suffused red. Without doubt the best of the yellow *Incomparabilis* type, whether for exhibition, for the garden or for cutting. A strong, vigorous grower, but late in flowering. (A. M. Kirby's Description.)

GREAT WARLEY...Limited stock; none for sale

"Very fine large and flat creamy-white perianth and a large spreading cup; almost a short trumpet; a flower of great refinement and finish." (Sydenham's Description.)

HOMESPUN.....Limited stock; none for sale

“One of the greatest gems of recent introduction; almost perfect form, and of extraordinary substance, lasting a long time when cut; large soft pale yellow perianth; broad flat overlapping segments, fine expanding cup; the most perfect and refined flower of its class. It has been awarded more prizes and awards of merit than almost any other variety of recent introduction and has become indispensable to leading exhibitors.” (Sydenham’s Description.)

LADY MARGARET BOSCAWEN.....

.....**Limited stock; none for sale**

“A new giant flowered seedling that might be called a ‘bicolor Sir Watkin,’ the flower being of large size with broad, snowy white petals and large, expanded crown of golden yellow.” (A. M. Kirby’s Description.)

LUCIFER.....10c each, \$1 per doz., \$7.50 per 100

“A splendid new Irish seedling. Early, free flowering and a strong grower. Large handsome white petals; cup intense orange-red, very striking.” (A. M. Kirby’s Description.) “A very bright and telling flower, long creamy white star-like perianth, with beautiful long straight orange cup; a great acquisition to the orange red cupped section and worthily received an award of merit. Indispensable to all exhibitors.” (Sydenham’s Description.)

MACEBEARER.....Limited stock; none for sale

“Large creamy yellow perianth, large expanding cup of pale yellow with band of bright orange red.” (M. Van Waveren & Sons’ Description.)

SIR WATKIN...10c each, \$1 per doz., \$7.50 per 100

“This Welch gaint is one of the best, largest and freest bloomers of the Incomparabilis section; it is also very early. When well grown the flowers measure five inches across; the wide spreading petals are pale yellow; the cup bright yellow,

and frequently tinged orange near the mouth; a healthy, strong grower with long stemmed flowers of good substance. The connoisseur many claim the flower is a little gross and coarse—but for flowers and plenty of them it is valuable for cutting, lasting well in water. It forces easily, does well in pots, is very showy when massed in garden beds and borders, and for naturalizing in grass has few equals. It makes large bulbs which multiply rapidly from offsets." (A. M. Kirby's Description.)

WILL SCARLET. 25c each, \$2.75 doz., \$20 per 100

"Fiery orange red, very broad and wide open; one of the most striking daffodils." (De Graaff Bros., Ltd., Description.)

THE SHORT CUPPED NARCISSI.

(*Narcissus Barrii*.)

ALBATROS.....Limited stock; none for sale

"A late large, spreading eucharis-like flower with white petals and a prettily frilled pale citron yellow cup conspicuously edged with orange-red." (A. M. Kirby's Description.) "White perianth; almond-shaped segments, flat, of good substance; pale yellow cup beautifully frilled rim, with deep orange picotee edge." (Sydenham's Description.)

CONSPICUUS.....8c each, 75c per doz., \$6 per 100

"This 'Queen of Chalice Cups' is a general favorite and one of the best of the section. A strong robust grower and very free late bloomer. The flowers are large, of refined and beautiful form and splendid substance, lasting in water longer than almost any other narcissus. Broad soft petals; short wide-mouthed cup of yellow with a distinct rim of orange-scarlet." (A. M. Kirby's Description.)

DOROTHY E. WEMYSS.....

.....20c each, \$2.25 per doz., \$17.50 per 100

"By some considered the best of the *Barrii* section. A strong-growing, late-blooming variety.

Petals pure white, long and wide; cup canary-yellow, conspicuously edged with orange-red." (A. M. Kirby's Description.) "Cream perianth, almond-shaped segments, long canary-yellow cup edged deep orange; a very tall, strong grower." (Sydenham's Description.)

LADY GODIVA 20c ea., \$2.25 per doz., \$17.50 per 100

"Syn. Barbara Holmes. A pretty sport from Barrii Conspicuus, perianth white, cup broad and short, yellow conspicuously edged bright orange-scarlet." (Barr & Sons' Description.)

MASTERPIECE.....Limited stock; none for sale

"A model flower of exquisite symmetry, with very broad rounded cream-white perianth and a remarkably striking brilliant red flattened crown, very beautiful." (Barr & Sons' Description.)

MISS WILMOTT.....Limited stock; none for sale

"New (1911) large firm flower measuring three and a half inches across, perianth white, of good form, crown large, lemon-yellow edged bright orange-red; a vigorous, tall grower and good forcer." (Barr & Sons' Description.)

**THE EUCHARIS FLOWERED-FRAGRANT
NARCISSI.**

(Narcissus Leedsii.)

ARIADNE.....Limited stock; none for sale

"New and of striking beauty. Cup ivory white, very large, saucer shaped, spreading wide at the mouth and prettily frilled. Perianth white." (A. M. Kirby's description.) "A pure white flower with large beautifully fluted flat crown; droops slightly; very refined and quite distinct; flowers early and lasts well." (Sydenham's Description.)

MINNIE HUME...7c each, 75c per doz., \$5 per 100

"Distinct and beautiful. Large and broad pure white petals and a widely expanded pale lemon cup,

rimmed at first with a deeper shade, but eventually passing to pure white." (A. M. Kirby's Description.)

MARY MAGDALINE DE GRAAFF.....

.....7c each, 75c per doz., \$5 per 100

"Often listed as Mary M. or M. Magdaline or M. M. De Graaff. A distinct late-flowering, free-blooming Leedsii with broad white imbricated petals and a broadly expanded cup of cream yellow, often suffused with orange or terra cotta color. Usually bears two flowers to a stem. Very effective and highly scented." (A. M. Kirby's Description.)

MRS. LANGTRY...7c each, 75c per doz., \$5 per 100

"Perianth white and broad, cup opening pale primrose and passing off white, sometimes margined canary-yellow, beautiful; a very free bloomer, each bulb generally producing several flower stems; a fine border variety or to naturalize." (Barr & Sons' Description.)

ST. OLAF.....Limited stock; none for sale

"New (1913), a flower of remarkable beauty measuring $3\frac{3}{4}$ inches across, with very broad rounded white perianth well imbricated and a wide flattened crown, very prettily fluted, measuring $1\frac{1}{4}$ inches across; color cream, delicately margined sulphur and with sulphur shaded center." (De Graaff Bros., Ltd., Description.)

WHITE LADY..10c each, \$1 per doz., \$7.50 per 100

"A charming flower of medium size but perfect form, with broad white perianth and dainty pale canary crinkled cup; delicately scented, it may be gently forced, is a free bloomer and valuable for cutting." (Barr & Sons' Description.) "Large white perianth of good substance, segments broad and well overlapping, a pale canary yellow cup, beautifully crinkled; strong grower, very tall; an indispensable flower for all exhibitors, and very floriferous, throwing two, sometimes three flowers." (Sydenham's Description.)

THE POETS NARCISSI.

(Narcissus Poeticus.)

CASSANDRA...25c each, \$2.75 per doz., \$22 per 100

"A noble and gigantic Poeticus Narcissus of tall, strong growth, flowers of fine substance with broad white perianth, cup deeply rimmed dark red." (General Bulb Co.'s description.)

CHAUCER....20c each, \$2 per doz., \$16.00 per 100

"Very early, pure white perianth of a fine round form, cup large and flat of a vivid scarlet." (General Bulb Co.'s Description.)

DANTE.....20c each, \$2 per doz., \$16.00 per 100

"A new and beautiful large flowered poeticus with broad-petalled perianth of pure white, cup citron-yellow edged with purplish red." (A. M. Kirby's Description.)

EPIC.....20c each, \$2 per doz., \$16.00 per 100

"A large flower measuring three inches across, with broad snow-white perianth, eye canary, with picotee edge of madder crimson, handsome." (Barr & Sons' Description.)

HORACE.....50c each, \$5 per doz., \$40 per 100

"Having a snowy white rounded perianth, and large eye almost entirely blood-scarlet, very beautiful. It can be brought into bloom early by gentle forcing." (Barr & Sons' Description.)

KING GEORGE..10c each, 85c per doz., \$6 per 100

"(Albion) Improvement on Ornatus, having larger and more substantial flower, while its petals are better closed; good forcer." (Tromp Bros.' Description.) "Large poeticus of Dutch origin; flat yellow eye with wire edge of orange." (Sydenham's Description.)

ORNATUS.....8c each, 75c per doz., \$5 per 100

"Early free-flowering robust-growing variety with large handsome round white-petalled flowers

and yellow cups brimmed with red. Blooms three to four weeks earlier than the common poeticus, is good for massing in borders, naturalizing in grass and for cutting. It forces easily if grown cool." (A. M. Kirby's Description.)

RECURVUS....5c each, 50c per doz., \$4.00 per 100

"Pheasant's Eye—The old original form of the poeticus section, white reflexing perianth with red eye, one of the latest to bloom. Very sweet scented and most desirable for planting in woods and borders for late cutting." (Sydenham's Description.)

THE JONQUILS.

(*Narcissus Jonquilla* or Jonquil.)

REGULOSA.....8c each, 75c per doz., \$5 per 100

"Yellow; larger and finer than the common *Campernella*." (Tromp Bros.' Description.)

ODOROUS PLENUS..8c each, 75c doz., \$5 per 100

"A very charming variety, bearing heads of fragrant double yellow flowers of elegant form, on tall graceful stems. It makes an attractive pot and border plant, and will bear gentle forcing." (Barr & Sons' Description.)

ODOROUS REGULOSUS MAXIMUS.....

.....**Limited stock; none for sale**

"A beautiful flower of ideal form, twice the size of the old odorous regulosus, color rich golden yellow." (De Graaff Bros., Ltd., Description.)

JUNCIFOLIUS..10c each, \$1 per doz., \$7.50 per 100

"The Baby Jonquil. * * The single jonquil is well known and highly prized as a cut flower for growing in pots, and it does well out of doors if planted in a warm sunny location, protected, in well-drained or raised beds of rich soil. It blooms late in the season. The deliciously fragrant, rich yellow small flowers are usually borne in pairs, though sometimes in clusters of as many as six. * * * The Baby Jonquil is the smallest narcissus known, with little buttercup-like flowers, only

three-fourths of an inch across from tip to tip of the spreading petals. The cup is usually widely expanded and often perfectly flat. Color, rich yellow, delicately perfumed. It does best when grown in pots or in the cold frame, though it thrives well in gritty soil, in well-drained pockets in rock work or similar situations; it also makes an excellent edging plant when in favorable locations." (A. M. Kirby's Description.)

THE POETAZ HYBRIDS.

(Narcissi Poetaz.)

ADMIRATION **20c each, \$2 per doz., \$15 per 100**

"Perianth sulphur yellow; cup yellow, bordered red; very beautiful. One of the finest of all poetaz varieties." (Carters Tested Seeds, Inc., Description.)

ANTIGONE **Stock limited; none for sale**

Description reserved.

ASPASIA **10c each, \$1 per doz., \$7.50 per 100**

"Producing four to five large bold flowers on a stem with broad solid white perianth and golden cup; very prettily fluted." (Barr & Sons' Description.)

BOUQUET ENORME . . **Limited stock; none for sale**

"New; a giant variety, producing on very stout stems heads of large flowers with broad white perianth and yellow cup." (Barr & Sons' Description.)

ELVIRA **10c each, \$1 per doz., \$7.50 per 100**

"The most popular in this section, white perianth with poeticus segments, small yellow cup sometimes tinged with orange, well shaped and of good substance, generally three to five flowers on a stem." (Sydenham's Description.)

EURYDICE **Limited stock; none for sale**

"Bearing generally about three very large flowers on a stem; perianth broad and snowy white; cup golden yellow prettily fluted." Barr & Sons' Description.)

THE DOUBLE DAFFODILS.

(*Narcissus Telemonius Plenus.*)

DOUBLE VAN SION 10c each, \$1 doz., \$7.50 per 100

"The true trumpet daffodil; there are some good and some very indifferent stocks of this variety, but when properly grown is always popular; and when had from a well-selected stock will often

throw two or three flowers from a bulb." (Sydenham's Description.)

"The renowned old double yellow daffodil. Flowers deep golden yellow; large and very decorative; the most extensively grown of all daffodils for florist use. They are seen to great advantage when planted in clumps in permanent borders or shrubberies, where they can be left undisturbed for several years." (R. & J. Farquhar Company's Description.)

THE DOUBLE DAFFODILS.

(Rose Flowered Narcissi.)

ORANGE PHOENIX. 10c each, \$1 doz., \$7.50 per 100

"Eggs and Bacon. Large double white flowers, with rich orange segments in the center; very effective and desirable for both forcing and outdoor planting." (R. & J. Farquhar Company's Description.)

SULPHUR PHOENIX. .25c ea., \$2.25 doz., \$17.50 100

"Codlins and Cream. Large double white rose-shaped flowers with sulphur center; very chaste and beautiful; much prized for bouquets, vases, etc." (Barr & Sons' Description.)

THE DOUBLE POETICUS.

(The Gardenia-Flowered Sweet-scented Narcissus.)

ALBA PLENA ODORATA.....

.....10c each, \$1 per doz., \$7.50 per 100

"Large double pure white flowers, in sweetness and purity rivalling Gardenia blossoms; valuable for cutting." (R. & J. Farquhar Company's Description.)

THE POLYANTHUS OR BUNCH FLOWERED NARCISSI.

(These are not hardy in the north. If grown out of doors in beds or borders they should be protected with straw or branches of shrubs.)

GRAND MONARQUE 25c each, \$2.50 doz., \$20 per 100

“Large broad white perianth, cup primrose yellow.” (Barr & Sons’ Description.)

GRAND SOLEIL D’OR. 25c each, \$2.50 doz., \$20 100

“Perianth golden, cup deep brilliant orange; early and very showy, producing a bright effect in the garden.” (Barr & Sons’ Description.)

GLORIOSA 25c each, \$2.50 per doz., \$20 per 100

“An excellent early, free flowering sort, producing large trusses of pure white petalled flowers, enlivened with orange-scarlet cups. It is one of the best of this color for early forcing.” (A. M. Kirby’s Description.)

PAPER WHITE GRANDIFLORA

.....**Price varies with market**

* The most important and extensively forced of all varieties of Polyanthus Narcissi for cut flowers in winter. They may be flowered successfully in bowls of water with moss or pebbles. The Polyanthus or Bunch Flowered Narcissi, have tall spikes of bloom, each spike bearing from a half-dozen to a dozen white flowers, and are so well known as to require no description.

WHITE PEARL. 25c each, \$2.50 per doz., \$20 per 100

“A distinct and excellent variety bearing medium-sized pure white flowers with almost white cups. Excellent for early forcing.” (A. M. Kirby’s Description.)

COLLECTIONS OF DAFFODILS.

(For flower borders, pots and bowl culture.)

The following are all beautiful in the flower border, and the selection embracing early and late varieties gives a good succession of bloom. All are suitable for pot culture and will give an equally fine display in the greenhouse or sitting room.
