## SACRAMENTO INTELLIGENCE.

**From Murderer's Bar.**—A Man Shot.—The Transcript has been permitted to make the following extracts from a private letter received by a gentleman of that city. The letter bears date, "Murderer's Bar," (on the Middle Fork of the American) Oct. 12, 1850:

"Murderer's Bar is now being tested, and so far as prospected and worked I think it would not be idle to say, that it may be ranked as being first among rich placers in the modern Ophir. The wealth of the bed of this stream is incalculable, and but a very minute portion can be disemboweled this season. One company on Saturday last, received 132 ounces as the result of the day's labor. For ten days the same company has been taking out from 70 to 115 ounces per day. Other companies do equally as well and some even better.

Thursday morning last, Murderer's Bar was the scene of a fearful tragedy, and a pall of gloom has since covered us all. William H. Walker, of Evansville, Ia., and Geo. W. Beck, of Bourbon county, Ky., had a difficulty concerning a lead. A scuffle took place between the parties, in which Beck got the advantage, telling Walker at the time, that that was not the way to settle difficulties, that ten steps was the distance, &c. R. also told him to arm himself, and he would light him, in any manner, W. immediately got a double-barreled shot-gun, and at the distance of 40 yards presented it at B., who in the mean time had received from a friend one of Colt's large revolvers. Both men fired nearly at the same instant, B.'s pistol hung fire, or W. would have undoubtedly been slain, as it was, B. fell to the ground, endeavored to rise and fire again, but death interfered, and poor Beck now lies in his grave. He was shot in two or three places. The wound which proved fatal took effect in the right breast and passed through one lung and the anterior part of the heart. Walker has given himself up, and yesterday accompanied the sheriff to Calloma. I think he will be cleared, though I am of the opinion that the case would be dangerous to him in the States. But I transgress upon your time, and will conclude."

**A Beautiful Specimen.**—Mr. Wm. H. Robinson, of the firm of Robinson & Co., of this city, exhibited to us yesterday a beautiful lump of gold and quartz taken from a spot between two tents in the town of Sonora. The lump weighs 136 ounces, and contains about \$1500 worth of gold. It is a very handsome specimen in two respects, both in appearance and value. We are informed by Mr. R. that a similar piece was taken out a few days since, in the neighborhood of Sonora, which weighed 150 ounces. [Stockton Journal.]

**In a high State of Preservation.**—Lord Palmerston, in his late ministerial defence of himself, spoke for five hours and according to a correspondent of the New York Mirror, without the slightest appearance of effort, unsupported by as much as a glass of water, or the moisture of an orange. So little fatigued was he, that, on concluding, amidst a whirlwind of acclamation, he bundled up about half a hundred weight of documents, tripped up stairs to Lady Palmerston, and carried her off to Carlton Garden, as unconcerned as if he were going to a hornpipe in his patrimonial hall of Ballynabrad. Mem. Palmerston is 67 years of age, according to his baptismal register, but about 27, according to the evidence of one's eyes and ears.

**The island of Cuba pays a larger amount into the public treasury than all of Spain.**

**Dredging for Gold.**—Our readers will be interested in hearing of the progress made by the steamer Phoenix, in her work of taking gold from the bed of the river, by means of dredging machinery. We are informed that she is some six miles above Marysville, on the Yuba river. A trial has been made at that place, which is said to be very satisfactory to the owners. Where the boat now lies, the deposits of gold are not sufficient to pay expenses, it being six miles below where miners are at work; but even here gold has been taken out to some extent, and would undoubtedly pay, were it not for the extraordinary expenses attending enterprises of the kind in a country like this. The Phoenix will be taken higher up the Yuba when the water rises, and put to work upon the place first selected by the company. [Ibid.]

**Taking Time.**—The proprietors of the Canton Hotel, Com-sung and Chuchu, appeared before the Recorder yesterday, and lodged a complaint against a Spaniard named Ignacio Gutierrez, whom they charged with stealing a watch. The language of the Celestials not being very intelligible to his honor the Recorder, the Chinese had recourse to gesticulations. The Spaniard stated that he only wanted to see what time it was, when Com-sung interrupted him with "noo, noo—he do this way," and running to a door, the Chinese commenced sundry bo-peeps, and then advancing cautiously to the partition, he imitated the Spaniard in securing the watch, and then hastening away. The Spaniard, it appears, entered a room in which the Celestials were sleeping, and supposing they were asleep, he laid hands on the watch; but the twinklers of Chuchu were upon him, and he was secured before he got out of the house. [Trans.]

**Three Persons Murdered.**—The bodies of three miners were found close to each other not far from Nevada City. It is supposed that they were murdered for the gold in their possession. They had all been shot. Miners who are about leaving the mines should be well armed, and in parties sufficiently large for their mutual protection. [Transcript.]

**Some thieves entered a room** in which thirteen persons were sleeping, and stole therefrom an iron safe, belonging to a blacksmith. After carrying it to the outskirts of the city, they broke into another smith's shop and stole a sledge-hammer and other tools with which to operate. The safe contained about \$100, and some valuable papers. The latter were recovered, as they had been left by the thieves. [Transcript.]

**KLAMATH GOLD MINES, River and Town.**—One of the most extensive fields for speculation at present in California.

The attention of the public is now called to this very important part of California. The town of Klamath is situated on the bank and at the vicinity of the mouth of a river, upon the numerous tributaries of which the most productive and extensive gold mines have been discovered of any now in existence in California. The Harbor (at the upper end of which this beautiful town site is situated) is both commodious and secure, and possesses the very superior advantage over all the other ports upon the coast between the Columbia river and San Francisco of a perfectly safe entrance. The river is a magnificent stream and navigable by steamers, according to the opinion of steamboat captains and others in every way competent to judge of the matter, at least 70 miles up; at, and even below which point, there is very rich gold mines commence. Merchants and capitalists who are desirous of realizing a handsome profit upon their goods and an enormous return for their capital cannot enter into a better speculation or make a more safe investment of their means in any part of California, from the fact that there are at present about 2000 miners at work upon this river and its tributaries; and there is every reason to believe, from the numerous satisfactory statements of the miners, relative to their success during the last year, that next year there will be many times the number. The immediate rush to these mines from all parts will be immense, and in fact almost unprecedented; and this town, which may be said to be adjacent, in consequence of the water communication into the very heart of them, must and will undoubtedly be insured a speedy and almost magic growth, and by this time next year will be a very respectable rival to (if not totally eclipsing) Sacramento and Stockton. Miners who have, during the last summer expended to such a deplorable extent their useless toil and labor in the southern mines, and have actually lost money in the place of making it, by the unsuccessful and numerous damming operations, and the scarcity of gold there, are strongly recommended to turn their attention to these mines, as the average amount dug last year, putting it at an infinitely lower estimate than from the statements of the miners we would be warranted in putting it, one ounce per day to the man. This alone is sufficient to justify the opinion that there is ample room for more, and when it is taken into consideration that not over one-tenth part of the gold region has as yet been explored, the certainty of room is rendered beyond doubt. The enormous tax upon the miners for packing of provisions will next year be effectually obviated by the aid of water communication, which extends into the very heart of the mines. Goods can be taken from the deck of steamers by the miners in the place of the pack-saddle of the mule, and provisions now furnished at an expense of \$1 50 for the mere packing, can be afforded for ten cents, thus enabling the miner to lay by the fruits of his labor, instead of expending so great a quota for subsistence. To persons wishing to invest capital to an advantage in town lots, an almost unparalleled money making speculation is now open; as lots at the present time can be procured at a comparatively low figure, and the price that they will be disposed of next spring will be high. Arrangements have been made for a steamer to ply between the town and the mines, which will warrant to miners the supply of provisions forthwith.

A map of the town and river can be seen at Messrs. Shultz & Palmer's, foot of Jackson street; at Bullett & Patrick's, corner of Jackson and Sansome streets; and at Worthington, Beale & Bunting's.

CALIFORNIA ADMITTED.

We announce again to our readers, this morning, the glorious intelligence communicated throughout the city yesterday afternoon, in our extra, that California has been ADMITTED INTO THE UNION.

Anxiously we waited for this event, and it comes at last, to greet us with a joyful welcome.

According to previous arrangement, made with the steamers in the event of our admission, the Oregon commenced firing a salute as she entered the Golden Gate, yesterday, about half-past 11 o'clock, and as she sailed up the harbor, continued to fire her guns, the boat being decorated with flags from bow to stern, while stretched across from mast to mast, were the magic words, on canvass, "California has been Admitted!"

The steamer continued on her course to Rincon Point, on the southern extremity of the city, and turning gracefully, as though elated herself at the joyful intelligence, made her way back to her accustomed moorings.

The firing of the guns had awakened our citizens, who were gathering in throngs, and covered the housetops, and as soon as the first authentic information reached shore, the streets presented one continued scene of rejoicing.

Throughout the afternoon, the city was one continued scene of rejoicing, and in the evening the streets presented an appearance that beggars description. Buildings were illuminated, flags decorated the houses, guns were fired at Clark's Point, at Long Wharf, on the Plaza, and at several other places, the drums beat, and the rising generation of California, catching the spirit of the festive occasion, gave vent to their enthusiasm in innumerable species of rockets, serpents, crackers, and all the other brilliant and fiery evidences of rejoicing.

Thus it was throughout the night, and when the small hours crept on apace, still could be heard the fife and drum, the cannon's roar, and the glad plaudits of our citizens. But had we time, we have not space in our sheet to record the evidences of pleasure which marked our city on the occasion.

California is now a sovereign State; acknowledged and recognized by the Federal Government. Her representatives at Washington can speak and act for her interest and guard her welfare. Thousands of miles from her sister states, an empire almost, by herself, she will still be found obedient and faithful to the glorious Charter that binds in one common bond of union, the loved "homes of the free," and will be amongst the first to defend and advance the common interest of the whole.

THE COLUMBUS.—This steamer will sail promptly at 4 o'clock this afternoon, from the wharf next below Clark's point. Passengers should be on board by 3 o'clock

DR. WEBSTER EXECUTED.

ARRIVAL OF JENNY LIND.

Death of Louis Philippe.—Passage of the Territorial Bills.—Great Rejoicing all over the Union.—Members from California Admitted.

The steamer Oregon arrived yesterday about noon, bringing us dates from the States the 13th ult.

The Oregon brings 138 passengers from Panama, and 15 from San Blas. She left Panama on the 28th ult., two days sooner than was anticipated.

The gentlemanly and obliging Captain and the Purser put us under obligations for a list of passengers, marine intelligence, and other news.

We quote liberally from the papers from the States.

The Panama Echo shadows forth something in regard to the movements for a revolution in New Granada.

Rev. C. Greenbenck, of Westchester, N. Y., was accidentally shot on his way up the Chagres river, on the 10th ult. He was traveling with a friend, who had a revolver in his pocket, and attempting to take a paper out, one of the barrels of the pistol was accidentally fired, the ball entering the neck of the deceased, and killing him instantly.

Gen. John P. Gaines, of Ky. has been appointed Governor of Oregon.

Robert Wickliffe, Jr., late U. S. Charge d'Affaires to Sardinia, died at his father's residence.

A great freshet occurred on the Schuylkill river, doing an immense damage to property and life.

CALIFORNIA ADMITTED INTO THE UNION!

We are at last enabled to send the news so long awaited by our fellow citizens on the Pacific coast. California is admitted into the American Confederacy, and takes rank as the THIRTY-FIRST STATE OF THE UNION!

The Bill for her Admission was brought up in the House on Saturday, and after a short discussion passed as it came from the Senate.

The 57 votes against the Bill were all from the ultra-Southern members. The Representatives of California, who have been so long in waiting, will probably take their seats to-day.

The news has been received everywhere with the most unbounded satisfaction. At Washington, 100 minutes guns were fired on Saturday evening, followed by a display of fireworks. In this city, many of the hotels and public edifices hoisted the national flag in token of rejoicing.

The Utah and New Mexico bills have also passed, and the organized members of our Confederacy now span the continent in one unbroken arch, whose base is washed by the world's two great oceans. May it so stand through the coming centuries! [Tribune.]

THE CALIFORNIA BILL.

The Admission of California took place on the 7th of September. The proceedings on that eventful occasion we copy from the New York Herald:

The House next took up the California bill from the Senate.

It was read twice, when Mr. Wentworth, (dem.) of Ill., strove so earnestly for the floor as to cause much laughter. There was much confusion throughout the hall.

Mr. Boyd, dem. of Ky, was recognized. He understood that it was unnecessary to commit it, as it makes no appropriation.

The Speaker also thought that there was no appropriation.

Mr. Boyd then proposed to amend the bill by establishing a territorial government for Utah. He would only remark that it was precisely the amendment which he offered to the Texas boundary bill, and afterwards withdrew.

Mr. Vinton objected to the amendment.

Speaker ruled the amendment to be in order.

Mr. Vinton appealed from the Speaker's decision, and briefly argued that the amendment was not germane to the bill. Mr. McClelland, dem., of Ill., said he would not, at this late day, protract the debate, and moved the previous question.

Mr. Harris, dem. of Tenn., moved to lay the appeal on the table.

The question was taken and decided in the negative.

Yeas, 86

Nays, 116

The decision of the chair was overruled—

Yeas, 87

Nays, 107

So the Utah amendment was declared out of order.

Mr. Thompson, dem., of Miss., rose to move an amendment.

Mr. Meade, dem., of Va., caused one to be read, which he wished to offer. It was, in effect, that the owners of slaves shall have twelve months to remove them from the limits of California, and providing for the recovery of slaves who shall escape into that State.

The Speaker said it could be offered only by unanimous consent, while the gentlemen from Mississippi had the floor.

Mr. Thompson's substitute for the bill was now read. It was similar to that of Mr. Soule's in the Senate, viz: that as soon as California shall have passed an ordinance in convention, relinquishing the right to a primary disposal of the soil, &c., and restricting her boundaries to thirty-six degrees thirty minutes, the President should, without further action, issue his proclamation declaring California a State of the Union. The portion of revenue collected in California, at the time of issuing the said proclamation, shall be paid to that State, and the Senators and Representatives already elected shall be entitled to receive mileage and compensation from the time the California constitution was received by Congress. The substitute further provides for a territorial government, to be called South California, similar to the government of New Mexico, south of thirty-six thirty, to be admitted as a State hereafter, with or without slavery, as the people may desire.

Mr. Orr, dem., of S. C., moved to amend the original bill; but as he could not do so, Mr. Thompson accepted it. It restricted the southern limits of California to 36 30.

Mr. Thompson, of Miss., then briefly advocated the amendment, saying that the limits of California were too large, and showing the gross outrage on the South, if it should not be adopted. It would be the means of restoring peace throughout the Union.

Mr. Richardson thought that the subject had been discussed long enough, and moved the previous question.

Mr. Holmes, dem. of S. C., unsuccessfully moved a call of the House.

The previous question was seconded.

Mr. McClelland raised the cry of "order," and observed that Mr. Thompson could not offer a substitute and an amendment at the same time.

The Speaker said that objection came too late.

The question was taken on the amendment to restrict the California boundary to 30 30, and was disagreed to: yeas 75, nays 132.

The question was now on Mr. Thompson's substitute, which was rejected: Yeas 71, nays 134.

The question being on the third reading.

Mr. Holmes moved an adjournment, but not more than four or five members, voted in the affirmative.

Mr. Thompson, of Miss., said that a decent respect of the House required the bill to be at least read.

The Senate bill for the admission of California, was then read for information.

The third reading of the bill was then ordered: Yeas 151, nays 56.

The bill having been read a third time.

Mr. Featherston, dem., of Miss., moved to lay it on the table, which was not agreed to.

The bill then passed by the following vote: Yeas 150, Nays 57.

Yeas.—Messrs. Albertson, Alexander, Allen, Anderson, Andrews, Baker, Bay, Bennett, Bingham, Bissell, Booke, Booth, Bowie, Bowlin, Brock, Briggs, Brooks, Brown, Indiana; Buel, Burrows, Butler, Penna; Butler, Com; Cable, Ohio; Caldwell, N. lan, Harris, Ill; Raymond, Henry, Hibbard, Houston, Howe, Hunter, Jackson, N. Y.; Johnson, Tenn; Johnson, Ky; Jones, Julian, Kerr, King, R. I.; King, N. J.; John A. King, Preston King, Leffler, Levin, Littlefield, Mann, Mass; Mann, Pa; Marshall, Mason, Matteson, McLernand, McDonald, McLaughly, McKissock, McLanahan, McLane, Md; McLean, Ky; Meacham, Moore, Moorhead, Morris, Nelson, Newall, Ogle, Olds, Peaslee, Peck, Phelps, Phoenix, Pittman, Potter, Putnam, Reed, Reynolds, Richardson, Robbins, Robinson, Root, Rose, Ross, Rumsey, Sackett, Sawtelle, Schenck, Schermerhorn, Scholcraft, Sylvester, Sprague, Stanley, Stevens, Pa; Stetson, Strong, Sweetzer, Taylor, Thompson, Pa; Thurman, Thompson, Ky; Tuck, Underhill, Vandyke, Vinton, Walden, Waldo, Watkins, Wentworth, White, Whittlesey, Wilderick, Williams, Wilson, and Young.

Nays.—Alston, Averett, Bayly, Beale, Bowdon, Boyd, Brown, Miss; Burt, Cabell, Va; Caldwell, Ky; Clingman, Cobb, Ala; Colecock, Daniel, Deberry, Edmundson, Featherston, Green, Haralson, Harris, Tenn; Hayris, Ark; Hilliard, Holliday, Howard, Hubbard, Inge, Jackson, Ga; Johnson, Ark; Kaufmann, LaSore, McDowell, McMullen, McQueen, McWillie, Meade, Milson, Morse, Morton, Orr, Outlaw, Owen, Parker, Powell, Savage, Seddon, Shepperd, Stanton, Tenn; Stanton, Ky; Thomas, Thompson, Miss; Tombs, Venable, Wallace, Wellborn, and Woodward.

Vote by States on the Bill for the Admission of California in the House of Representatives—

Table with columns: Northern or Free States, Southern or Slaveholding States, Yeas, Nays, Total. Lists states like Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Iowa, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Louisiana, Texas, Arkansas, Mississippi, Tennessee, Kentucky, Missouri.

It will be observed that five of the fifteen slaveholding States, viz: Delaware, Maryland, Tennessee, Kentucky and Missouri, gave a majority of their votes in the House in favor of the admission of California, in which slavery is prohibited by the Constitution; while the representatives from eight of the Southern States were unanimous against it, and those from Virginia and North Carolina nearly so.

Washington, Sept. 10, 1850.

CALIFORNIA SENATORS SWORN IN.—Mr. Douglas presented the credentials of Mr. Gwin, Senator elect from California.

Mr. Barnwell presented the credentials of Mr. Fremont. While he had entertained serious constitutional objections to the admission of California, to Mr. Fremont, personally, he had no objection whatever.

Mr. Davis, of Miss., not believing that the constitutional requirements in relation to the election of senators had been complied with, felt it his duty to move a reference of the credentials to the committee on the Judiciary.

Mr. Clay said that, prior to yesterday, California was a State out of the Union. Immediately after the Presidential signature was yesterday affixed to the bill for her admission, she was a State in the Union, and entitled to all the rights and privileges of every other State in the Union.

Among those privileges was that of being represented in the Senate and House of Representatives. He, then, could see no reason why the regular credentials with which she had furnished her senators here, should not be recognized.

Mr. Davis denied that California had been a State out of the Union. After further debate, the motion to refer was rejected, as follows:

Yeas.—Atchison, Barnwell, Butler, Berra, Davis, of Miss., Hunter, Mason, Morton, Pratt, Sebastian, Soule, Turley.—12.

Nays.—Badger, Baldwin, Bell, Benton, Bright, Cass, Chase, Clay, Davis of Mass, Dawson, Dayton, Dickinson, Dodge of Wis., Dodge of Iowa, Ew-

ing, Downs, Douglas, Fitch, Foote, Greene, Hamlin, Jones, King, Mangum, Norris, Phelps, Seward, Sprague; Shields, Sturgeon, Underwood, Wales, Walker, Whitcomb, and Winthrop.—36.

Messrs. Fremont and Gwin received the oath of office and took their seats in the Senate.

The usual formalities of balloting for their respective classes in the Senate were gone through with, when it was found that Mr. Gwin had drawn the long, and Col. Fremont the short term. The term of the latter, therefore, expires on the fourth of March next, and the former on the fourth of March, 1856.

Bills for the Benefit of California.—Mr. Fremont gave notice of his intention to introduce numerous bills for the benefit of California. He also submitted a resolution, which was adopted, directing the Post Office committee to inquire and report upon the expediency of establishing numerous post routes in California.

Notice of an Anti-Slavery Bill.—Mr. Chase gave notice of a bill to prohibit slavery in the Territories.

Mr. Seward offer and amendments to the bill for the abolition of slavery in the District of Columbia, providing that slavery shall forever cease within the District of Columbia, and that the Secretary of the Interior credit and pay to all persons holding slaves within the District, such damages as they shall suffer, and appropriating \$200,000 for this purpose. Pending the discussion of the bill the Senate adjourned.

Adjournment of Congress.—Both houses of Congress have agreed, by resolution, to adjourn on the 30th Sept. Within that period they will have abundance of time to dispose of the unfinished business before them. President Fillmore transmitted a message to the Senate on Monday, accompanied by an official copy of the constitution of New Mexico, in which he observed that, as Congress had passed a bill providing for a government of that Territory, he had no suggestion to make in the matter. This was as much as to say that he would sign the Texas Boundary bill, and, as a consequence, the other Territorial bills also. In fact, all the Territorial bills passed have already been signed by the President.

THANKS.—We take occasion briefly to return our thanks to Messrs. Kelley, Smith and Risley, agents of Miller & Co.'s Express, who were the first to place upon our table files of New York papers, they having received them from the steamer when some two miles off. This promptness and enterprise speak well for this new candidate for public favor. Let them do all their business with equal despatch, and they will find enough to do.

To J. W. Gregory for his prompt delivery of our New York letters and packages.

To the gentlemanly Captain and Purser of the steamer Oregon for the marine intelligence and list of passengers.

To B. W. Comstock, Purser of the Empire City, on the Atlantic side, for files of papers.

To T. O. Larkin, Esq., for similar favors.

To Adams & Co. for letters, papers and packages.

Also to several friends who were passengers in the steamer, for letters and papers.

Captain F. Hsley, of the bark Ella Frances, will find a letter for him at this office, brought by Gregory's Express. Also Master Robert White, a package of papers from Australia.

Mr. John H. Still, the newspaper agent in the St. Francis Building, received yesterday a crowd of papers and new works from the States.

MAIL BY THE COLUMBUS.—The mail for the States by this steamer, which sails this afternoon, will close at the Post Office at 11 o'clock to-day.

The letter from our correspondent "Ariel" is written by an old and esteemed friend, but who, unfortunately, is a little tinctured with whiggery.

Packages and letters for the States will be received by Gregory up to half past three o'clock to-day.

We omit almost everything else to-day, to give place to the glorious news from the states.

Gregory sends \$29,500 in dust by the steamer to-day.

The Democratic State Convention of New York will to-day nominate HORATIO SEYMOUR, of Utica, for Governor of our State. He is a moderate Hunker, in favor of re-uniting the party on the basis of "let bygones be bygones;" is capable, adroit, ambitious and rich, and will "print." He will make a capital run, and be elected, if any Democrat could be.

His Whig opponent will be WASHINGTON HUNT, now Comptroller of the Treasury; not so able, mentally or pecuniarily, but a clever fellow, and popular with his party. Which-ever is supported by the Anti-Renters will probably be chosen.

The Democratic Convention is now composed of about 70 Hunkers to 60 Barnburners, and has been two days settling disputed seats with apparent fairness and impartiality. JOHN VAN BUREN was admitted from the 12th Ward of this city, by the decided vote of 91 to 21. John is one of the b'hoys and a general favorite. Capt. RYNDERS' seat was contested, but to no purpose. If he can't go from the 1st and 2d Wards, who can?

The rabid Hunkers of our city, who demand a clean Hunker ticket, and an endorsement of Senator Dickinson, will not be gratified. The "masses" in the country are for union to "lick the Whigs," and regard this exclusive policy as involving exclusion from office for years to come. They have rather a sharp nose for fodder about these days, as is natural. The resolutions of the Baltimore National Conventions of '40, '44 and '48, will be expressly recognized as party landmarks, but nothing is said expressly in favor of Dickinson, who is the idol of the straight-out Hunkers of our city.

Our city begins to effervesce with ward meetings, looking to the fall election. Fernando Wood expects the democratic nomination for Governor. I guess he can't come it. If Judge Michael Ulshoeffer is nominated, he will make a strong run, and will probably flog any Whig alderman or ex-alderman who is fishing for the post. But if the Whigs take up Zophar Mills, they will elect him.

George Briggs will be re-nominated for Congress. Henry Arcularius will probably oppose him with a good look for success. J. P. Phoenix declines. Underhill will run again if re-nominated, but he can't win. John McKeon wants the nomination in that (IVth) district, and if he gets it he is dead sure of an election.—Not certain yet that Brooks will want to run again up town; not certain he can be nominated if he wants it; not certain he can be elected if nominated; can't say who will be the democratic candidate. Think Gen. B. Hart will run again in the lower district. Yours, ARIEL.

JENNY LIND IN NEW YORK.

The world-renowned Jenny Lind arrived in New York on the 8th ult. and was received with great demonstrations of rejoicing. It is said that 50,000 people assembled on the piers in Liverpool to witness her departure.

On her arrival at New York, inside the gate of the pier, a number of triumphal arches of evergreens and flowers, had been erected, and on the arch fronting the water, was the inscription, "Welcome to Jenny Lind." Jenny and her travelling companions took seats in the carriage of Mr. Barnum, and was driven to the Irving House. On her way up more than two hundred bouquets were thrown into the windows of the carriage.

Her first concert was given at Castle Garden on the 11th ult. and the nett proceeds of her share, \$10,000, was given to various charitable societies. The prize offer of Mr. Barnum brought out 753 contributors, and among them, one from the pen of Bayard Taylor, was selected.

The sale of seats for the first Concert was held at Castle Garden. The first ticket was bought by Mr. Genin, the latter, for \$225! The second brought \$25, the third \$15, and the remainder at various prices, between 15 and \$12. The first 1400 tickets yielded a total receipt of 9,119. The next 2000 sold at an average of \$5.50 each, making \$11,000 more. The entire receipts for the first night, will fall little short of \$30,000.

ONE OF THE POTATOES.—Mr. B. F. Voorhees, the consignee of the schr. Emeline, twenty-three days from Lahaina, has sent us a potato, which is about as large as a good old Democratic victory in the States. It beats all the specimens of the vegetable kind which have yet come under our eyes in California. The entire cargo is remarkable for the excellence of the potatoes, but if the remainder are of the size of the one sent us, it would take but a few of the same sort to fill a vessel.

Below... of the inventions by which old Peel became the founder of a family so eminent in their country. We are inclined to think that the old woman was as hard working, industrious a person, as the grandmother of the American Minister's daughter:

Almost every person has been led to suppose, from the notices which have appeared about him that he was the descendant of some haughty house, the offspring of a lordly race. But this he is not; his great wealth was acquired by the sagacity, enterprise and ingenuity of his grandfather, and the purchase of one useful invention for a very small sum. An account of this will not be uninteresting, as it will enable us to review, briefly, the progress of one art namely, Calico Printing. During the early part of the last century, calico printing was not known in England. This kind of goods derived the name from Calcutta, from which place they were taken to England. Among the men in England who took a lively interest in her rising manufactures, was the grandfather of Robert Peel, a small but industrious farmer of Blackburn, in Lancashire. He was the inventor of the card cylinder for carding cotton, and then he taught himself to print cotton cloth; cutting his own block, making his own colors, printing the goods and then his wife and daughters set to work and ironed them. This was a clumsy way to finish calicoes, but it was the only way known then, and there was abundant sale for them, however coarse their finish. But the old farmer was not satisfied with this slow process, and no doubt he was a considerate man, for he set his inventive faculties to work, and invented the mangle, which at once relieved his wife and daughters of their severe toil, and finished his goods much quicker and far better. He afterwards got other machinery for finishing, kept it secret and produced the best finished goods then in the English market, and he was soon at the head of an extensive business and possessed of great wealth, for he was prudent and economical also. His son, the father of Sir Robert, greatly assisted him, and became a very rich man. He was also a man of great ingenuity, and is accredited as the inventor of calicoes with the pattern engraven on a copper revolving cylinder; impressing the pattern on a cloth which is fed between it and another cylinder covered with a blanket. This was an improvement for great speed over block printing long and successfully competed with all other kinds, and only for the successive quarrels between the printers and their employers, would still be a good and extensive business. In France block printing is still carried on quite extensively. It is stated that Sir Robert Peel's father purchased the secret of making resist paste, from a person named Grouse, for twenty-five dollars, and that he realized fifty thousand times that sum out of it. This paste is printed on white cloth, the cloth then dyed, and afterwards washed when all those parts which have been covered with the paste, appear white—the white and the blue common calico patterns.

**THE CENTURY QUESTION**—One of the Northern papers says:—"Professor Silliman, in his address at the late commencement of Yale College, said there were present three men, (President Day, Professor Kinzie and himself) who had seen the whole of the half century pass while acting their part in the college. In this connection he settled summarily the question about whether the year 1800 was the last of the eighteenth or the first of the nineteenth century. He said, 'I remember lying awake to listen to the last knell of the eighteenth century. I mean the 31st day of December, 1800, not 1799, for I was not fool enough to suppose that 99 makes 100.'"

The Richmond Star says another relic was found in that city, being a dog collar supposed to have belonged to Julius Cæsar, from the fact of having his name engraved upon it.

There is no design settling Oregon, and to such the letter from Hon. Mr. Thurston, the Oregon Delegate to Congress, will be a matter of interest:

Washington, June 29, 1850.  
Gentlemen: I write you this letter on a matter of interest to you. I know not as it is of importance, but I desire to put you on your guard, so you may act as the nature of the case may require.

William H. Aspinwall recently returned from England, where he had an interview with the head officers of the Hudson's Bay Company relative to purchasing some land of them in Oregon. They assured him that they owned all the land in and about Astoria, and that they intended to hold it by virtue of treaty, and offered to sell the whole concern to him, covering as I understand it, your claims. I assured Mr. Aspinwall that the company did not own any land there, and that if he bought he would find himself in hot water. They also wanted to sell him 100,000 acres north of the Columbia, in consideration that he would improve it so as to enhance the value of their other lands south of 49 deg. north. This I call cool impudence, and it is to put you on your guard against the machinations of this company, and those British propagandists, that I write you this letter. It might not be amiss to publish this, to let the people of Oregon know what these men are about. It is not impossible that the people may, if they undertake to swindle in this way, give them leave of absence from Oregon.

I am gentlemen, yours truly,  
SAMUEL R. THURSTON.  
To Col. John McClure, James Welch, and John M. Shively, Esqrs.

**Love, Abduction and Revenge.**—A young and wealthy quadron of New Orleans, named Jaubert, a married man, managed to win the affections of a young Polish Jewess, named Rebecca Bernstein, and abducted her from her parents, under promise of marriage, and the strongest denial that he was married or that he was tainted with negro blood. Her parents applied to the police, and much against her will, Rebecca was sent back to them. But the next day, having been satisfied of the deception that had been practised upon her, she armed herself with pistols, went to his store, induced him to walk with her, and turning suddenly upon him, upbraided him with his falsehoods, and shot him in the face, the ball entering his cheek and shattering his teeth on one side. She drew another pistol and tried to shoot him again, but it snapped. Some of her friends then coming up, she snatched a pistol from one of them, and again tried to shoot Jaubert, but in her ignorance of the weapon, she did not know how to discharge it. A parley here ensued in this singular affair, and Jaubert, before the crowd assembled, declared, that after Rebecca had left her home he had but two interviews with her, both in the presence of others. He expressed himself most penitent for his intended crime and past deceptions, and avowed that he had received but his deserts. These statements appearing satisfactory to the parties, they drove off in a carriage, leaving Jaubert to seek relief for his wound.

**From the Mines.**—A gentleman down from the mining region informs us that a large number of miners are preparing to operate in the dry diggings on Rattlesnake creek. Every evidence exists in this locality to satisfy the owners of claims that they have selected rich diggings. A spot called Oak Flat, on this creek, is known to be rich in oro, and numbers have staked out the whole flat. A large encampment will fix their winter quarters at that spot. The Chinese diggings will also be extensively worked this winter.

The company at Morgan's bar, on the Tuolumne, have repaired their dam since the destruction caused by the recent freshet, and the day our informant was there, which was the first since they have completed their repairs, the company took out in a few hours, with six rockers, five pounds of gold. At the Texan dam, which has also been repaired, equal success was attending the labors of the company there organized.

The new three cent piece, recently issued at the Philadelphia mint has, on one side, the words, "United States of America," in which is a circular wreath, enclosing the numerical "III." On the reverse side is the Liberty Cap, inscribed with the word "Liberty," and surrounded with the rays. Underneath the cap are the figures "1850."

**THE PEOPLE OF THE STATE** of California, District of the County of Santa Clara: Jose De Arnaiz vs Genoveva Garcia Mangel, Emanuel Mangel and Lorenzo Geoffrey. Petition to foreclose mortgage, &c.:

Whereas, JOSE DE ARNAIZ filed in this Court on the 16th day of May, 1850, his petition, showing, among other things, that on the 20th day of December, 1849, Genoveva Garcia Mangel, the wife of Emanuel Mangel, was the owner in fee of a certain house and lot in San Jose, adjoining and in the rear of the house lately occupied by Messrs. Larrain, Benitez & Co., and fronting on Garcia street, did on that day mortgage the same, with the consent of Emanuel Mangel, her husband, to said Arnaiz, to secure the sum of five hundred and sixty dollars, payable four months from date: That afterwards, on or about the 15th day of January, 1850, said Emanuel Mangel and Genoveva G. Mangel executed a mortgage on the same premises to one Geoffrey, of San Francisco, for about fourteen hundred dollars; which said mortgage was falsely dated the 10th of December, 1849, with intent to defeat the prior mortgage lien on said real estate, and to cheat and defraud said petitioner out of his debt. Said petitioner prays discovery and full answer to the above facts, that said mortgage to Geoffrey be set aside as fraudulent, and that said premises be sold to pay petitioner's mortgage, and for general relief.
