HOP ROOTS—FIRST PREMIUM!

J. R. Ray, 106 J street, Sacramento, has for sale a limited stock of those superior Roots, from his old Hop Yard, thirty miles below Sacramento, where the sample sack was raised that took the first premium at the late Fair of the State Agricultural Society.

As much has been said about male and female plants, and often to mystify the subject, it may be well to say that purchasers of Roots will be provided with the proper proportion of each, with directions for planting, if desired.

The plants which we offer roots are five years old, having been brought from one of the best hop yards in the Atlantic States.

As the stock of Roots from my yard is limited this season, it may be well for those contemplating planting to advance me early.

Send for a circular giving direction for cultivation.

Seed and Nursery Warehouse, 106 J street,

Dreadful Wreck—Romantic Incident.

The New York and Liverpool packet-ship Middlesex, which let the latter part on the 18th February with twenty-six seamen, seven officers, and thirty-five passengers, when twenty-one days out sprung a leak during gale, and was nearly foundering, when the master ordered the two lifeboats to be launched, but unfortunately they were both smashed alongside. After one of the lifeboats had been launched, the cook and a seaman got into her, but a sea cat and capsized her bottom upwards. The cook got on the keel, and clung to her until they got out of sight—as the rope had been cut and she was let drift through the confusion that then existed on board. The longboat was then launched, and by hard exertions the captain and fourteen men, including four passengers got into her, (one of them named Dovan, jumped a distance of thirty feet from the ship down into the boat, and as near breaking his limbs,) and abandoned the ship about 5 P. M., on Tuesday, the 12th instant, having to leave the rest of the crew and passengers to their fate. As they were entering or going aboard the boat a very sad incident took place. When abandoning the ship the scene on board the boat, crowded as she was, was frightful. A fine young fello, named Elford Thorpe, a native of Carlisle, was courting a Scotchwoman, a passenger. They were to be united as soon as they should arrive in New York. When the boat was being manued this Thorpe got into her. She rose on the top of a sea. The young woman jumped in order to reach her, but did not succeed, and she fell between the ship and the boat and began to sink. Poor Thorpe leaped overboard, dived, and brought her to the surface, but the rope had been cut, the boat had been drifted to Leeward, and could not pull up to them, and the unhappy pair perished locked in each other's arms. They were then from Tuesday, the 12th, running before a heavy gale of wind, it being very stormy, and continually pouring showers of hail. At one time, the sea running mountains high, they had to "gruge" her—which means, to lash the oars and loose spars together, throw them overboard, and make fast with a line or rope, in order to keep her head to windward, for safety—then all had to lie down and give her chance. Last Saturday morning they saw the Blake Islands, on the coast of Kerry. She came, as one of the Islanders informed me, from seaward, between Teareacht and the Foze, and then ran south through the Big Sound. The wretched crew were so exhausted that when the island boat hrew out a tow-rope they could not pull a stroke to help her. Four of the islanders got into her, and by the most strenuous exertions of all they were just able to get to the landing place. On their arrival a bucketful of water had to be brought to the famished and thirsty creatures, but two of the passengers dropped dead from the sheer fatigue and hardship they had undergone.

FALLING FROM GRACE—A good story is told of a certain Methodist preacher, of the pioneer stamp. He had in some way incurred the displeasure of one of his "charge"—one of those touchy, irascible saints, of which every church has one or more representatives. The preacher had tried in every way to effect a reconciliation; he had "wrestled with the Lord" in the rrring brother's behalf, and had labored personally with him, earnestly, but all to no purpose; so he expelled him. The ex brother then took every occasion to insult the preacher, and wound his feelings. He slandered him, abused him to his face and behind his back, until the poor preacher could stand it no longer. Meeting one day in the post office, where a large crowd was collected, as usual the wretch commenced his abuse. The dominie, as he was leaving the room, made some remark to which the disrevered member responded, "That's a damned lie!" Quick as thought the preacher turned, divested himself of all unnecessary apparel, and stepping up to his astonished enemy, and seizing him by the throat, gave vent to his long pent up feelings as follows: "Don't venture to say that again, you poor, low, dirty scoundrel. I've stood this just as long as I possibly can. I try to be a good christian. I have followed Christ in my weak way for nearly forty years. But I belong to a church that believes in falling from grace. And if you ever insult or abuse me again, by word or deed, in all probability I shall fall from grace; and if I do, you'll get one of the all-firdest thrashings you ever had in your life. I have made up my mind to do just that thing, and I wouldn't advise you to try it on." It is needless to say that the ex-member concluded it was time to "dry up."

When man gives up his claim to earth then earth reclaims her child.

SPROUTING ONIONS.—"How is it you raise so large and nice onions?" I asked of an Iowa farmer, as I was sitting at the table with him, and observing some thereon.

"Well," said he, "we sprout the seed with boiling water, and then plant early in good ground."

"Sprout the seed in boiling water?" I exclaimed, inquiringly. "What do you mean, sir, by that? Won't boiling water kill the seed?"

"Not at all," he replied, "but it will sprout them in one minute's time."

"It will? It looks incredible!" I replied, with surprise.

"Well, you try it," he replied, "when the time comes to plant, and you'll find it just as I tell you."

And sure enough, when Spring came, my neighbor was about planting his onion seed, and being present, I said:

"Jewell, last winter there was a man told me that to pour boiling water on onion seed would sprout it in one minute. Suppose you try it."

"Very well," said he.

And taking the boiling tea-kettle from the stove, he poured the water on the seed, which he had in a tea-saucer. Looking closely at it for a moment, he exclaimed:

"My conscience, you have told rightly. Only look there!"

I looked, and behold, the little sprouts about as large as horse-hairs, were shooting out of the opened ends of the seeds! He did not retain the water on the seeds above three seconds, and in less than half a minute after it was poured off, the sprouts were projected from the seeds.

My Iowa friend assured me that this process would advance the growth of the onion two or three weeks beyond the usual method of planting without sprouting.

A MODEL WOMAN.—"Did you not say, Ellen, that Mr. B. is poor?"

"Yes, he has only his profession."

"Will your uncle favor his suit?"

"No, and I can expect nothing from him."

"Then, Ellen, you will have to resign fashionable society."

"No matter; I shall see more of Fred."

"You must give up expensive dress."

"O, Fred admires simplicity."

"You cannot keep a carriage."

"But we can have delightful walks."

"You must live in a small house and furnish it plainly."

"Yes; for elegant furniture would be out of place in a cottage."

"You will have to cover your floors with thin carpets."

"Then I shall hear his steps sooner."

POPPING THE QUESTION.—It is said that young men, to "pop the question direct," have adopted a style which does not put their courage to as severe a test as formerly. In the course of conversation, a "marrying man" now alludes to the progress of California, her wealth, etc. Finally, he asks his "charmer" if she is in favor of an increased population. The lady, having the welfare of the State at heart, answers, of course, in the affirmative, when the would-be husband exclaims, animatedly: "Well, Miss, why the deuce don't you 'populate,' then!" This hint is sufficient, and the ice being thus broken, the preliminaries are soon arranged, and our census is thereby increased.

INGENUOUS COBBLER.—The Steilacoom Crispin (we have but one) has hit upon a novel and ingenious plan for spelling "Shoe Shop," by which he saves three of the four letters comprising the last word; or rather omits them, and still spells out the two words. The sign denoting his place of business is painted thus:

E
SHO
P

The sign is characteristic of the proprietor, who is known as a man of very few words, whose conversation rarely extends beyond monosyllables, and who is very provident of even them.—Puget Sound Herald.

GIGGLING.—This word conveys, as plainly as language can, what it means, and is one of the most disagreeable things young ladies can do. There is always something of nature's own gentility in young women, except when they get together and fall to giggling. It shames us men to see how much sooner they become polished than our masculine natures. But when a girl falls to giggling, all her gracefulness vanishes. We have known matches to be broken off by men who caught their betrothed giggling in a crowd.

OPEN YOUR WINDOWS when you retire; do not suffocate in a small room. You will die with sins sufficient unrepented of, if you do all you can to promote health. Better to sleep in a barn with plenty of good air than in a splendidly furnished room on a luxurious couch without it.

A wag, observing on the door of a house the name of two physicians, remarked that it put him in mind of a double-barreled gun, for, if one missed, the other would be sure to kill.

An enamored swain, somewhere down east, in an attempt to do the agreeable by way of a midnight serenade, met with a damper that sent him home with a fleec in his ear. He began thus:

"O, cub, cub wid be,
Whed the hood ab beagib—
Cub, cub wid be,
Whed the stars ab gleabig—"

Just then a huge, unwashed face protruded from a garret window, and belowered out, with a melodious nasal twang: "Blow your dose, you dab fool!"

A BITE.—While walking through Church street a few evenings since, "the Subscriber" came up with two negro boys, aged respectively ten and fifteen years. The younger one carried an apple in his hand, and the elder one was using all his eloquence to obtain "just one bite" of it.

The larger one took the apple, opened a mouth that would have been creditable to a hundred and fifty pound catfish, and brought it down on the fruit, leaving but a very small portion on the other side.

"Thunder, Jim!" said the little one, looking up at the operation with astonishment, "just you take the apple and give me the bite, won't you?"

A GOOD STORY.—We have a good story of an occurrence that recently took place in Newburyport, Mass. A servant girl in that town went to Dr. Spofford for advice, declaring her ailment to be a pain in the bowels. The doctor gave her a cathartic, and requested her to call again in a few days, which she did. He asked her if she had taken the medicine, to which she replied in the affirmative. He then asked her, "did anything pass you after taking it?" "Yes, sir," said she, "a horse and wagon and a drove of pigs." The doctor collapsed, remarking "I think you must be better."

It is related of Mr. Lincoln, that recently a gentleman presented himself with the following introduction:

"Mr. Lincoln, I have but a single recommendation to your favor, sir; I am a Republican and do not want an office."

Abraham raised himself to his full height, put on a facetious look, held out his long arms, saying with emphasis: "God bless you, sir! You are refreshing sight. You are good for the sore eyes. Let me give you a word of warning—take care, lest Barnum catch you!"

MY DEAR AMELIA, said a dandy, "I have long wished for this opportunity, but hardly dare speak now for fear you will reject me. But I love you; say you will be mine! Your smiles would shed—would shed—" and here he came to a pause. "Never mind the woodshed," said Amelia, "go on with the pretty talk!"

CORNS.—Apply lunar caustic from time to time, removing the dead skin it produces over the corn until it is cured. Wild turnip scraped and bound upon a corn, pared until it is tender, will generally cure it. Saleratus bound on a corn removes it.

ALL AFLOAT.—"You have considerable floating population in this village, haven't you?" asked a stranger of one of the citizens of a village on the Mississippi. "Well, yes, rather," was the reply, "about half the year the water is up to the second story windows."

A Wisconsin paper, after describing a farm which the advertiser wants to sell, adds: "The surrounding country is the most beautiful the God of Nature ever made. The scenery is celestial—divine; also, two wagons to sell, and a yoke of steers."

NOTHING was so much dreaded in our school boy days, as to be punished by sitting between two girls. Ah! the force of education. In after years we learn to submit to such things without shedding a tear.

"Why, isn't my shirt clean?" quoth one Behemian to another. "Well, yes," was the answer, "it's clean for brown, but it's awful dirty for white."

"Do you like codfish balls, Mr. Wiggin?" Mr. Wiggin, hesitatingly—"I really don't know, Miss, I never recollect attending one."

SOMEBODY advertises for a competent person to undertake the sale of a new patent medicine, and he adds that it will be found profitable to the undertaker.

"Katy, have you laid the table-cloth and the plates yet?" "An' sure I have—everything but the eggs; an' isn't that Biddy's work, sure?"

"That's the rock on which we split," as the man said to his wife when asked to rock the cradle.

By filling out these blanks themselves, parties will be subject to no other expense than the fee for acknowledgment and record.

Political Advertisements.

No advertisement of a political character will be published in the KNIGHT'S LANDING NEWS unless paid for in advance.

FOURTH OF JULY BALL.—Recollect the ball to be given by W. G. Seely, in this place on the Fourth of July next.

At a Teacher's examination held in Cacheville, June 8th, Miss H. E. Dalrymple and Mr. E. N. Dibble were approved, and received certificates of qualification from the Board. Miss Dalrymple is employed in Prairie School District No. 5, and Mr. Dibble in Cacheville District No. 11.

CHANGE OF DAYS.—Until further notice the California Steam Navigation Company's steamer Victor, Capt. Foster, will leave Sacramento for Knight's Landing, Colusa and Red Bluff every Wednesday and Saturday, returning from Red Bluff every Thursday and Sunday. See advertisement.

LANDSLIDE.—About eighty acres, including half of the site of the town of Michigan Bluffs, Placer county, having been undermined by miners, have caved in and slid downwards toward the river, and it is feared that more will follow.

The steamer Golden Age, Capt. Watkins, left San Francisco for Panama, at 9 o'clock, on Tuesday last with 215 passengers, \$953,203 10 of specie, and heavy mails.

DIED.—Mrs. Mary St. Louis, who it will be recollected was badly burned on Thursday night the 30th May, died last Friday night, she was about 80 years old.

PROVISIONS.—The quantity of provisions and other stores at present consumed daily by the troops now in Washington is as follows: 76 bbls pork alternately with 25,000 lbs of fresh beef; 115 bbls of flour; 50 bushels of beans; 2,000 lbs of rice; coffee, 1,200 lbs; sugar, 2,400 lbs; whisky, 625 gallons; vinegar, 200 gallons; candles, 300 lbs; soap, 800 lbs; salt, 13 bushels.

THE COST OF THE WAR.—In a circular, published by Messrs. W. T. Coleman & Co., New York, on the Cost of the War, it is stated:

"The existence of actual war with a prospect of its prosecution on a gigantic scale, and with most disastrous results, has put a complete embargo on all commerce between the Northern and Southern States, and has totally paralyzed trade, except in war and naval materials, and the movement of produce from the West. This, with the stoppage of all payments in the South and West, has entirely ruined many leading manufacturers and merchants, and the effect of the prostration is felt in every quarter. The loss to the Northern States, thus far, is estimated at \$500,000,000, and it must be greatly increased; but they are still rich, strong and confident. To the South the loss is incalculable, and a continuance of the war may tend to completely prostrate all her interests."

"Money is not to be had upon the ordinary grades of paper or securities, and we quote the best names at 10@12 per cent. per annum."

THE NEW SUNDAY LAW.—The following is a copy of this law, passed at the last session of the Legislature, which will go into effect August 1st:

SECTION 1. Any person who shall hereafter keep open, on the first day of the week commonly called Sunday, any store, work shop, bar, saloon, banking house, or other place of business, except as hereinafter especially provided, shall be guilty of misdemeanor, and on conviction therefor shall be punished by fine of not less than five nor more than fifty dollars.

SEC. 2. The provisions of this Act shall not apply to the keeping open of hotels, restaurants, boarding houses, taverns, livery stables, retail drug stores (for the legitimate business of each), or such manufacturing establishments as are necessarily kept in continual operation to accomplish the business thereof; nor to the sale of milk, fresh meats, fresh fish, and vegetables.

SEC. 3. Prosecutions for the violation of this Act may be either by complaint to a Magistrate, or by indictment by a Grand Jury, and all fines collected upon conviction under this Act shall be paid into the Common School Fund of the county.

SEC. 4. This Act shall be in force from and after the first day of August, 1861.

We have heretofore studiously avoided commenting upon the lamentable crisis that is now upon us; and if to remain silent would avert any of the horrors of civil war, we would gladly leave our pen to corrode rather than take it up to chronicle even the stirring events that are now transpiring east of the Rocky mountains; but it will do no good now, except to avoid such sentiments and the utterance of them in such a spirit as is calculated to promote and stimulate the sectional jealousies already too prevalent among our people. The last news by the Pony being up to the 3d instant, leaves no room to doubt a bloody conflict has taken place before this time. Not a conflict between nations, but a conflict among ourselves. The people of the United States at war! Yea, verily, mortifying as it may be and doubtless is to the heart of every American citizen and patriot, it is nevertheless too true. And it is idle to say nobody is to blame for it, or that either the one party or the other is altogether culpable, and that no responsibility whatever should attach to the other; and whether the end be sooner or later, or whatever the consummation, whether a reunion or a total separation, no good can result to the people of any section of our common country. And though we are sorry to have to confess it, yet it is true, that the press in the interest of each, have not abated one jot of the bitter invectives they have so long been in the habit of heaping upon the other, but continue that line of abuse which has done so much to alienate the people of one section from those of the other, and to destroy that fraternal feeling so essential to the preservation of internal peace, and the perpetuity of the institutions of our once glorious Union. The press, however, is not the only instrument which has been freely used in times past to stir up strife and domestic discord; but the pulpit has, in too many instances, been perverted from its holy office to the dirty work of doing partizan service. These are two of the allies which have long been in the service of demagogues and trading politicians, and whose unholy thirst for place and power have now brought us upon the brink of ruin and desolation. These potent instruments for evil should now clothe themselves in sackcloth and ashes, in token of repentance for the unpardonable sins resting upon them.

We now turn from this subject for the time being. We may, in a future number, take up the subject again, and pass under review some of the more prominent causes which have involved us in our present troubles.

THE MINT.—During the two weeks ending June 8th, the gold deposits in the Mint were 53,926.62 ounces. Coinage, double eagles, \$1,600,000.

BEEF.—The contract for supplying the army with beef—to be delivered in Washington—has been let to the lowest bidder, at \$4 48 per 100 pounds.

THE first annual fair of the Tehama County Agricultural Society will be held at Red Bluff, commencing Sept. 11th, and continuing throughout the week.

ADMITTED TO BAIL.—Horace Smith was admitted to bail on Monday last, by L. H. Vanderveer, Judge of the Court of Sessions, at Auburn, in the sum of \$40,000. B. C. Allen, E. M. Hall, J. E. Hale and J. Q. Jackson are the bondsmen.

From the Northern Coast. The steamer Columbia arrived at San Francisco on Monday night last from the Northern coast, bringing papers from Crescent City and Humboldt Bay to the 8th of June.

The Humboldt Times of the 1st of June says: We have news from Lieutenant Collins' command that 15 Indians have been killed since last advices, making in all 45 since the command took the field. Lieutenant Collins has with him 30 regulars and 10 volunteers. They have performed good service since they have been out and will continue to do so. The command is at present on Larrabee creek, but will soon remove towards upper Mad river.

A few days ago the house of Cave Brothers and Storv Brothers, known as "Three Cabins," was fired by Indians, and with contents were consumed. A detachment from Captain Underwood's command gave pursuit as soon as they were apprised of the depredation, but after a march of four days were obliged to give up the chase. Since the battle on Boulder creek they have killed 5. This command is composed of 30 regulars and 10 volunteers. At present they are at Snow Camp. Lieutenant Dillon, with a like force, is on the South Fork of Eel river, but we have no knowledge of his operations.

The great difficulty in conducting this war is the disposition of prisoners. Of course none but warriors are killed, though it is frequently necessary to take squaws and children prisoners, to be retained while the troops are in the neighborhood. Upon the removal of the troops to another locality the prisoners are turned loose, as no provision has been made for sending them to reservations. This matter should be attended to at once by the Indian Agent of the district; if he is powerless to act, then some other means to provide for them should be devised by the Governor of the State.

Dates to June 3d.

We copy from telegraphic dispatches to the Sacramento Union:

St. Louis, via Fort Kearny, }
May 31st—P. M. }

The Evening News of to-day has the following important item:

When the McDonald habeas corpus case came up this morning in the United States District Court, Gen. Harney made return that Captain McDonald had been removed to Illinois, and was now in the military command of Gen. McClelland; that he (Harney) had never had the body of the prisoner under his control; that he consequently was unable to produce him etc. Gen. Harney further stated that, by orders from Washington, dated May 16th, but only received yesterday, he had been removed from his command in this quarter and had no longer any power over the military of the district.

It is understood that Gen. Lyon succeeds Gen. Harney.

The steamer Black Hawk, from the Upper Mississippi, landed at Hannibal on Wednesday, with 600 Mormons, on their way to Salt Lake City.

New York, May 31st.—The special to the New York Tribune says there was a movement of troops for Alexandria, in consequence of a rumor that Gen. Lee was approaching in force.

The prizes brought to the Navy Yard yesterday are valued at over \$30,000.

It is said that with the 3,000 troops near Fairfax there are 1,000 negroes in the capacity of servants and laborers. Provisions are scarce.

Col. Butler returned to Fortress Monroe, bearing the following letter of instruction from the War Department to his brother:

Washington, May 30th, M.—Sir: Your action in respect to the negroes who came within your lines from the service of the rebels, is approved. The Department is sensible of the embarrassments which must surround officers conducting military operations in a State by the laws of which slavery is sanctioned. The Government cannot recognize the rejection by any State of its Federal obligations. Among these Federal obligations, however, no one can be more important than that of suppressing and dispersing any combination for the purpose of overthrowing its whole constitutional authority. While, therefore, you will permit no interference by persons under your command with the relations of persons held to service under the laws of any State within which your military operations are conducted, which remains under the control of such armed combinations, you will refrain from surrendering to their alleged masters any persons who come within your line, and you will employ such persons in the service to which they will be best adapted, keeping an account of such service.

Among the effects seized at Alexandria, are letters of great importance, which were found in the Sentinel office, showing the means by which the secession of Virginia was brought about. Some distinguished politicians are implicated, and the letters show, beyond doubt, that the ordinance of secession was only passed by fraud.

The New York Herald's Baltimore dispatch says there are 20,000 troops at Harper's Ferry, and plenty of heavy artillery at every available point.

General Butler was reinforced yesterday by 2,000 troops.

The New York Times' Washington dispatch states that there are 8,000 troops at Point of Rocks. The troops there are much demoralized, but will make a desperate fight. There were indications of an intention to evacuate the post, but he could get no positive information.

Louisville, May 31st.—Immense quantities of freight for the South are going to Nashville by railroad.

It is rumored that if the Nashville road be stopped the Tennesseans will advance into Kentucky and take possession of the road.

The Memphis Bulletin announces the arrival of Beauregard on the 29th, to take command of the Western division of the Confederate army.

St. Louis, via Fort Kearny, }
June 1st—A. M. }

New York, May 31st.—The Commercial's special Washington dispatch says two captains of the Massachusetts troops at the Relay House have been placed under arrest for extending their pickets without authority.

The Post's special Washington dispatch says preparations are evidently making for a forward movement of the Government troops. They are all under orders, and are ready to march at a moment's notice. The probable object is a sudden concentration upon the rebel forces in Virginia.

The New York Tribune's Washington dispatch says, all is quiet at Fort Monroe. One hundred and fifty negroes were at the fort and the number was increasing.

Washington, May 31st.—The revenue laws require vessels entering a port with informal papers to be seized, but inasmuch as those coming from the South, where the Custom Houses are in possession of insurrectionary parties, where they cannot obtain the proper clearances, the Secretary of the Treasury, with a view of remedying the embarrassment and trouble under the circumstances, has decided that in all cases where it appears that there was no fault on the part of the commander, the latter shall not be com-

elled to go into Court, but on a correct representation of the Collectors where the vessels arrived, the fees and fines shall be remitted.

It is stated that a number of vessels were fitting out here—destination not made public. The following dispatch received at the Navy Yard between four and five o'clock this afternoon, affords an explanation:

"The Keystone State, at noon, reported that, on passing Aquia creek, the Freeborn and Anacosta were engaging the batteries there with success. I shall send the Pocahontas, with her ten-inch guns, to assist.

(Signed) CAPT. DAHLGREEN,
"Commander of the Navy Yard."

Immediately on the receipt of the dispatch the Navy Department ordered two men-of-war forward to support Captain Ward.

The Keystone State witnessed the fight for several hours. It appears there are two batteries there.

Louisville, May 31st.—The Augusta (Ga.) Chronicle of the 28th instant, says that Beauregard issued orders at Charleston yesterday, relinquishing the command of the forces around Charleston to Col. R. H. Anderson, relieving D. R. Jones, who accompanies Beauregard to Corinth, Mississippi.

New York, June 1st.—The movements of Gen. Butler are considered as indicating an intention on his part not to trouble Sewall's Point or Norfolk at present, but to strengthen his position on the other side of James river and in time to move forward to Richmond.

There has been great dissatisfaction in the Massachusetts camp at the Relay House, arising from the unmilitary conduct of Brigadier General Jones. He was burned in effigy last night at their camp.

St. Louis, via Fort Kearny, }
June 2d—P. M. }

The New York Post's dispatch says the Government forces had a conflict with the rebels at Aquia creek. The steamers Freeborn, Anacosta, Resolute, and a schooner opened fire, finally silencing the wharf battery and killing several rebels. The Pawnee and Yankee were sent there this morning.

The dispatch also states that there was a skirmish last night at Falls Church, six miles back of Arlington Heights. Our pickets were attacked, and one soldier wounded.

Later dispatches state that a force of United States cavalry, and forty-five infantry, under Lieutenants Tompkins and Gordon, attacked the rebels at Fairfax Court House. The rebel pickets were met four miles this side, who fled and alarmed the camp. The cavalry then charged on the town, encountering vigorous resistance; people firing on them from the houses. Tompkins' horse was shot from under him, and his cavalry surrounded by rebel infantry, who poured in a continuous fire; but they fought their way through them, taking a number of prisoners. One of the cavalry was killed, and two wounded. Some staff officers of the 5th (New York) regiment were wounded, being with the Federal troops. Lieutenant Tompkins reports 30 rebels killed, and that their force amounted to fifteen hundred. They had previously supposed there were but two hundred there. To-night our troops will advance on Fairfax Court House, and take it.

Philadelphia, June 1st.—The Bulletin publishes from the Richmond Enquirer of Thursday, the details of the journey of President Davis to Richmond, and his speech to the troops collected at the Fair grounds. Messrs. Toombs and Wigfall accompanied him.

HARVESTING MACHINES.

1861.

Russell & Co's Thresher, made at Massillon, Ohio, celebrated throughout the United States as the best Threshing Machine in use—33 and 36 inch cylinders, 10 horse powers.

McCormick's combined Reaper and Mower, 6, 6 1/2 and 7 feet, greatly improved and surpasses all other cutting machines in results and durability.

Manny's combined Reaper and Mower, 6 feet cut, made by W. H. Wood, with his improvement, and has attained universal favor in agricultural countries.

Haynes' Illinois Harvester, cuts 10 feet wide, deposits the heads into a follower, and adjustable to have any required length of stubble—an immensely effective machine.

Wood's Mower, cuts 4 1/2 feet, very light draught; a boy and a pair of mules or ponies can run it—a "Little Giant" in the tall grass. Has taken the Grand Gold Medal of Honor and one thousand francs, at the great National trial at Vincennes, near Paris, June, 1860. At the Mecklenburg exhibition, Ger any, June, 1860. First premium at the Yorkshire Agricultural Society, August, 1860. First premium at the New Jersey and Vermont State Fairs, and the limited number received in California last season gave not only satisfaction, but great gratification that such a machine could be had. The complimentary notices by letters from purchasers numerous. The low price and great efficacy of this machine makes it the farmer's helpmate, and places it within the reach of the smallest cultivators.

Wood's Patent combined Self-raking Reaper and Mower, a new machine, first that have come to California, represented as eminently practical in the self-raking process—a desideratum long sought in cutting machines.

Wood's Swather, a new machine, worked by two horses from behind; can be raised and lowered to suit; delivers the grain in very regular swathes by means of bands revolving over platform, thence gathered into gables by a rake attachment.

Spencer's Threshers, with Perigo powers; these machines, made by D. S. Spencer, are well known, have been in use in California some three years, and are regarded by those who have used them with great favor—30, 33, 36 inch cylinders, with Perigo's ten horse powers.

Treadwell's Eight Horse Thresher, made by Spencer—a splendid machine.

Gove's Patent Hay Press, will press one and a half tons per hour.

Bradley's Patent Horse Rake. A boy old enough to ride a horse can do all the raking for a farm. One very great advantage possessed by this rake over any other, is the iron runners, which are so arranged as to keep the teeth at a proper distance from the ground, which greatly lessens the draught, and prevents the raking in of dirt, dust, old fog, or after-grass.

For the above machines we are the sole agents, and have them in liberal quantities, and can supply them to country merchants by the quantity, and to farmers on liberal terms. Parties requiring any of the above can procure them at our Branch Houses at Marysville, and at 154 and 156 J street, (formerly Stoddard's,) Sacramento, and at Jones & Hewlett's, Stockton.

LABOR-SAVING IMPLEMENTS

FOR THE
HARVEST OF 1861!

BAKER & HAMILTON,

AGRICULTURAL WARE-HOUSE, HARD-

WARE AND SEED STORE,

J Street, between Front and 2d,

SACRAMENTO.

Manufacturers' Agents and Dealers in John A. Pitt's, (Buffalo, N. Y.) Russell & Co's, (Massilon, Ohio,) and other popular

THRASHING MACHINES.

Also, the following REAPERS and MOWERS, improved for the Harvest of 1861:

NEW YORK COMBINED MACHINE,
BURT'S EAGLE "
McCORMICK'S "
HEATH'S EAGLE "
KENTUCKY HARVESTER "
MANNY'S IMPROVED "
ESTERLY'S "
RUGG'S COMBINED "
VERMONT MOWING "
BUCKEYE "

and Sole Agents for the celebrated

KETCHUM'S IMPROVED MOWERS,

manufactured by Messrs Nourse, Mason & Co., Boston, Mass., the BEST MOWING MACHINE IN USE.

BAKER & HAMILTON have imported and sold the Ketchum machine for the past five years, and now that it is the only style now in use that will cut successfully the matted clover of some of our bottom lands. The machine being made entirely of iron, is very durable, and the so sold five years ago, are said to be in as good order now, for cutting, as when first purchased. Some of them have run through the entire season each year. And they do cheerfully recommend them above all others for economy, lightness of draft, simplicity of construction, great strength and compactness, and the ease with which it can be managed by the driver. It cuts well where the ground is uneven. It has a lever for raising or lowering the knives. It will not clog in the heaviest grass or clover; and it does the work better than it can be done with scythes. <
