cropping

# Lead image centering/cropping

## **USER STORY: READER**

When I see an article showing an image awkwardly cropped, I want to be able to fix the position of the image so that the reading experience is improved.

## **CORE INTERACTION FLOW**

1. Open an article which has poorly cropped lead image and tap on that image
2. In full screen gallery view, tap on the edit icon to edit the lead image
3. Update crop of the lead image shown in preview
4. Confirm update to the lead image displayed.

# Jane Notable

Notable person for doing something

[Placeholder text consisting of multiple lines of gray bars, with some segments highlighted in blue]

Open an article which has poorly cropped lead image and tap on that image
