Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public  
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives  
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

[1st Month] **JANUARY,** [last 31 days]

It freezes on ;  
 Till morn, late rising o'er the drooping world  
 Lifts her pale eye unjoyous. Then appears  
 The various labour of the silent night :  
 Prone from the dripping eave and dumb cascade,  
 Whose idle torrents only seem to roar,  
 The pendant icicle; the frost work fair  
 Where transient hues and fancy'd figures rise.

The whit'ning shower descends  
 Broad, wide, and fast, dimming the day  
 With a continual flow. The laborer-ox  
 Stands cover'd o'er with Snow:—The fowls of heaven  
 Tam'd by the cruel season crow'd around  
 The winnowing store, and claim the little boon  
 Which Providence assigns them. The bleating kind  
 Eye the bleak heaven—and sad, dispers'd,  
 Dig for the wither'd herb, through heaps of snow,

# MARCH,

[ hath 31 days.

The loosen'd tempest reigns :

The moutain thunders ; and its sturdy sons

Stoop to the bottom of the rocks they shade :

Low waves the rooted forest, scatter'd by the winds

Assiduous fury, its gigantic limbs—

Thus struggling through the dissipated grove

The whirling tempest raves along the plain.

Th' expansive atmosphere is cramp'd with cold;  
 But, full of life and vivifying soul  
 Lifts the light clouds sublime, and spreads them thin,  
 Fleecy and white, o'er all-surrounding heaven.  
 The softer gales succeed, at whose kind touch,  
 Dissolving snows in livid torrents lost,  
 The mountains lift their green heads to the sky.

**MAY,**

[hath 31 days.

Oh let me wander o'er the dewy fields  
 Where freshness breathes, and dash the trembling drops  
 From the bent bush, as through the verdant maze  
 Of sweet-brier hedges I pursue my walk,  
 And see the country far diffus'd around,  
 One boundless blush, one white-empurpled shower  
 Of mingled blossoms,

— The breathing prospect bids the muse  
 Throw all her beauty forth. But who can paint  
 Like nature? Can Imagination boast  
 Amid its gay creation, hues like hers?  
 Or can it mix them with that matchless skill,  
 And lose them in each other, as appears  
 In every bud that blows.

**JULY.**

[hath 31 days.

'Tis raging Noon;—The mower sinking heaps  
O'er him the humid hay, with flowers perfum'd ;  
And scarce a chirping grass-hopper is heard  
Thro' the dumb mead. Distressful nature pants.  
The very streams look languid from afar ;  
Or thro' th' unshelter'd glade, impatient, seem  
To hurl into the covert of the shade.

— — — — — Attemper'd Suns arise

Sweet beam'd, and shedding oft through lucid clouds  
 A pleasing calm; while broad, and brown, below  
 Extensive Harvests hang the heavy head,  
 Rich, silent, deep, they stand; for not a gale  
 Rolls its light billows o'er the plain:  
 A calm of plenty!

Hence from the busy joy-resounding fields  
In cheerful error, let us tread the maze  
Of Autumn, unconfin'd: and taste reviv'd  
The breath of Orchard big with bending fruit.  
Obedient to the breeze, and beating ray  
From the deep loaded bough a mellow shower  
Incessant melts away.

A sober calm

Pleeces unbounded ether: whose least wave

Stands tremulous, uncertain where to turn

The gentle current. Then is the time

For those whom wisdom and whom nature charm,

To sooth the throbbing passions into peace,

And woo lone quiet in her silent walks.

Then comes the Father of the tempest forth,  
 Wrapt in black glooms. First joyless rains obscure  
 Drive thro' the mingling skies with vapor foul :  
 Dash on the mountain's brow, and shake the woods,  
 That grumbling wave below.  
 Snatch'd in short eddies plays the wither'd leaf  
 And on the flood the dancing feather floats.

Mysterious round! what skill, what force divine,  
 Deep felt, in these appear! a simple train,  
 Yet so delightful mixt with such kind art,  
 Such beauty and beneficence combin'd;  
 Shade, unperceived, so softening into shade;  
 And all so forming an harmonious whole,  
 That as they still succeed, they ravish still.

In order to find the distance from any place, in the foregoing Table and List, to another, deduct the smaller from the larger number of Miles, and the product gives the distance:—thus, do you want to know how far it is from *York* to *Coteau du Lac*, by the Main Road; dedu. 931 from 1253, and there remain 322 miles, the true distance; or, if it be a *Cross Road*, and you want to know how far it is from *York* to another place named—say to *Raleigh*; see how far *York* is from *Halifax* (by the List that is given) and how far *Raleigh* is from *Halifax*—deduct 1253 from 1427 and the result is 174 miles, the true distance from *York* to *Raleigh*.

As these Tables and Lists are taken from those used in the Post Office, it must be presumed they are as correct as the present state of the country will admit of.
