Queen Victoria the Good was always an occasion for the demonstration of loyalty during the reign of that illustrious monarch, aid now that she has departed nowhere in the British Empire is her memory held more sacred than here. Victoria has often been described as "a little bit of England on the shores of the Pacific." The more this is considered the more its approach of the shores of the Pacific. # **GROWING DISTRICT**

LOWER COLUMBIA VALLEY COMING TO THE FRONT

Secre tary of Provincial Bureau of Information Returns After Tour of Inspection.

R. M. Palmer, sequency, to the provincial burgein of information, returned last night from an extended our of observation through the lower Columbia valley, in the vicinity of Windermere and Welmer.

This district he informed a Times representative this morning, has a great future before it in the growing of hardy tree fruits and berries. The building of the V. V. & E. railway will provide the necessary transportation facilities, and settlers are looking forward with great hope to the future, mixed farming, is rapidly increasing in mixed farming, is rapidly increasing in value, the old half and quarter section, tracts being sub-divided into smaller areas for fruit culture. It is especially adapted for the growing of small fruits and as the season is somewhat later than in other berry raising districts, the crop will be reaped at a time when the Windermere and Wilmer farmers will practically have the market to

themselves.

Already a good start has been made towards what will certainly develop into a most thriving industry. Rufus A. Kimpton, Toffmerly a merchant of Donald and Golden, has 1,800 trees Donald and Golden, has 1,800 trees bearing, being the pioneer in the Windermere district. Mr. Palmer is quite enthusiastic over the prospects, and holds the opinion that as soon as new settlers are attracted both the places mentioned will become very thriving communities. The great drawbackwant of transportation will soon be overcome, and as these is fulle a large area available for cultivation, the lower Columbia valley will, in a short

Fannus Norwegian Poet and Drama tist Passed Away at Age of 78 Years,

(Associated Press.) Christiania, Norway, May 23.—Hen-rik Ibsen, the Norwegian poet and dramatist, died at 2.30 o'clock this

Henrik Ibsen, the foremost poet and dramatist of Norway, was born at Skien on March 20th, 1828. He began writing at an early age, his first producitions being fugitive contributions to the newspaper edited by Michael Thrane. They were extremely radical, in fact almost socialistic, in character, and Ibsen narrowly escaped arrest when that journal was subpressed. His first drama, "Catalina," produced in first drama, "Catalina," produced in 1850, was a failure, but "The Warriors in Helgoland" (1858) and "The Rival especially among English speaking people, into which language they have all been translated. Prominent among them may be mentioned "The Doll's House," "Ghosts," "Hedda Babler," Ibsen always took a prominent part in politics, and was an important figure in the recent disruption of Nor-

Open Letter No. 3.

We have had a word or two with the krocker who uses Eastern stationery. This time its a round with the maker.

A decision has been handed down to Copland-Chatterson where a Teronto stationer is enjoined from manufacturing their Perpetual Ledger Einder and Sheets. Much is made by this firm in the circular of their patent rights, the persistence of patent rights, the persistence of

statements as to the effect of the fudgment and the uncasiness they experience in excaping further contests.

If this firm would be honest in the matter and drop all interences, the trade would let them alone. We request a denial to the following statement. The right of Copland-Chatterson or any other of the numerous Automatic Binders to their patents on Ledger Binders or patents on Ledger Bluders or File Cases is unquestioned. To sell the tame and dictate the method of refilling is beyond the competence of any court This question has been thrash-ed out in the United States, and no printed form or enlargement upon Commercial Stationery can exist under patent right. This has prevented the forma-tion of a close corporation and the subsequent tying up of Commercial Stationery. We say here that no form, printed or ruled of Copland-Chatterson, or any other maker, can be proor any other maker, can be proor any other maker, can be pro-tected. Canadian Copyright law is defective, nay absent upon this very one point. All the humbusging in Counter Blanks, Sales Blanks, Delivery or Shipping Recepts, is dis-honest, hence the antagonism of the trade. We will duplicate any form made in Canada and protect the firm procuring the protect the firm procuring the acme. We will fit them to the Binders you have on hand, or acme. Sulphuretted Hydrogen a Dangerous Element and Investigation Has Been Ordered:

A dispatch from Ottawa says: Hon, William Templeman, minister of inland revenue, has authorized an investigation by exjects in order to determine the amount of sulphuretted hydrogen Francisch

of its deadly character. The manufacturers of artificial gas use a special plant for the removal of the obnoxious element and submit to periodical, inspection of their works. The discovery of sulphuretted hydrogen always leads to the imposition of a penalty. Those engaged in the marketing of natural gas have hitherto escaped the application of the haw, but it is now proposed that they shall be placed or the same footing as manufacturers of artificial gas. The mautral gas men say there is trees of California has given the gas. The nautral gas men say there is little sulphuretted hydrogen in the product they handle, and that if it was present its removal would require costs section with their presence. Olivia ly and complicated plant? Moreover, ly and complicated plant? Moreover, they claim that they do not furnish gas for illuminating purposes, and in conference with customers there is a provision against it. Nevertheless, in the counties where natural gas is obtained people use it as an illuminant because it is far cheaper' than artificial gas. Has No Intention of Building Up United States Ports at Expense of Canada,

St. Paul, May 22.—James J. Hill said to-day that his object in building a transcontinental line through Canada does not contemplate a diverting of the trade to the United States, and he has no intention of building up American ports at the expense of Canada. At a banquet at Quebec on Saturday, Minster of Justice Fitzpatrick and President Sir Thomas Shaughnessy, of the Canacian Pacific, were quoted as saying that Mr. Hill's Cânadian projects will divert traffic across the line to. will divert traffic across the lir American ports, Mr. Hill added:

#### "I found no Foisons in Steedman's Soothing Powders"

(Evidence of Dr. Chas. J. Fagan, Secretary Provincial Board of Health.)

The jary returned the following verdict at the adjourned inquest on the infant Mey Duval, who died in Victoria, B. C., on Jan. 7th, a Steedman's Soothing Powder being the last medicine given:

"THAT THE CHILD, MAY DUVAL, DIED FROM NATURAL CAUSES, AND FROM THE EVIDENCE GIVEN THERE IS NOTH-ING TO INDICATE THAT THE CHILD'S DEATH WAS CAUSED BY THE USE OF STEEDMAN'S SOOTHING POWDERS."

In consequence of the wide publicity given to this case and the fact that the unduly prolonging of the inquest, has given opponents an opportunity to impugn the composition of the GENUINE STEED-MAN'S (two E.E.'s) SOOTHING POWDERS (Walworth, Surrey, England), the proprieters are desirious of placing the facts before the

## INVESTMENT

Of all investments, a good diamond is the safest and most certain in the increase of its capital value, in addition to the interest which this monarch of all gems gives to yourself and others. During the past three years many friends and customers of ours in the large cities of Western Canada and the Western States, acting on our advice, have made purchases of diamonds; to-day these investments are worth 50 per cent more than on the day of purchase. Diamonds are still gradually rising and from distrustion received we are morally certain they will continue to do so. A purchase made now will increase from 25 to 50 per cent. during the next few years. The better the diamond the larger the increase. All our diamonds are of the highest grade and carry our guarantee; they were purchased before the latest rise, which advantage we give to you in the price-

CHAPTER IL-(Continued.) "This is very interesting, M. de Rilly, but; pardon me, is it safe to say these things openly at court. I am fresh from the country, and anxious not to blunder."

"It is safe for me, because I am nobody at all, and, moreover, I say whatever is in my thoughts, and am looked."

"It is safe for me, because I am no-body at all, and, moreover, I say what-ever is in my thoughts, and am looked upon as a rattlebram, and not taken seriously. But it would not be safe for some. There comes the Queen of Navarre now. She and her ladies have been walking in their garden." A number of ladies were entering the

A number of ladles were entering the gallery from a side stairway, Marguerite de Valois, who ought to have been with her husband, the King of Navarre, at his little court at Nerac, remained instead at the court of France, to be its greatest ornament. She was, alas, its greatest scandal, also, But I admired her none the less for that, as she stood there, erect. among her women, full of color and grace. He spoke to her again, in a low tone, and she cast her fine eyes in my direction. She directed her ladies to fall back out of hearing, and again conferred with Bussy. At the end of this he left her and strode over to me.

"Monsieur," he said, "the Queen of Navarre would like to know your name. I do not remember to have heard it last night."

I had him my name, and he took me by the arm, led me to Marguerite, and

One of the objects which Governor McInnes had in view was the interesting of the Dominion government in the scheme of a water supply to be brought by ditch to be used in the gold washing. The federal authorities have shown their interest in this in a very practical way. Three survey parties are to be sent out to estimate acpractical way. Three survey parties are to be sent out to estimate accurately the value of the ground which would be affected. One of these parties is under the charge of Mr. McConneil, who a few years ago examined a part of the area for other purposes and reported is as very valuable. Upon the report of these parties will depend largely the action which the federal authorities will take. Mr. McInnes 's very sanguine of the results. The last hour of school before Vic-toria Day was fittingly celebrated this morning in all the public schools of the city, with the exception of the Girls Central, which devoted yesterday afternoon to the same purpose.

afternoon to the same purpose.

Probably, the most ambitious programmes was carried out at the Pemberton gymnasium, where the pupils of the Boys' Central gathered at 11 o'clock to listen to an address by Rev. T. W. Gladstone on the day to be celebrated to-morrow. Several patriotic songs were sung. Including "The Red, White and Blue, "The Maple Leaf" and National Anthem. A pleasing feature of the occasion was the recitation by Master Jack Dowler, of Tennyson's well known poem, "To the Queen."

At the Kingston street school, also, Miss Lawson had arranged a fitting by GORGE VISITORS, ATTENTION: Call at the Y. M. C. A. tent at Curtis Point for refreshments.
