1923 PRICE LIST 1923

—OF—

The Krider Nurseries

(Incorporated)

Capital Stock, \$100,000.00

Established 1902

Incorporated 1922

21st YEAR

VERNON H. KRIDER, Sec'y and Mgr.

GOSHEN, INDIANA, U. S. A.

MIDDLEBURY, INDIANA, U. S. A.

Our Guarantee

WE GUARANTEE our Stock to be Number One in every respect and to reach you in good condition.

We guarantee everything purchased of us to be as represented in this price list and true to name to the extent that we will refund purchase money or replace free, any stock that is proved untrue but are not liable for any further damages.

We do not guarantee the life of the Nursery Stock, but will replace at half price anything that does not live the first year,

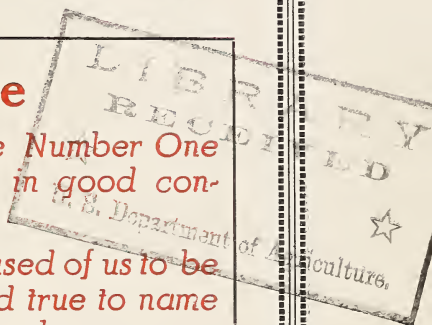

CERTIFICATE OF NURSERY INSPECTION NO. 48.

Date of Issue, Aug. 28, 1922.

This is to certify, That the nursery stock and premises of Vernon H. Krider, situated at Middlebury, Indiana, and Goshen, Indiana, have been inspected by the State Entomologist according to the provision of the law approved March 9, 1907, and found to be free from San Jose Scale or other destructively injurious insects or fungus enemies.

This certificate covers general nursery stock.

FRANK N. WALLACE, State Entomologist

DEAR FRIENDS:—We enclose herewith our 1923 Price List. Since you received our last issue we have become a corporation with \$100,000 capital. We have acquired 128 acres more land lying within the corporation of Middlebury, Indiana. We are erecting thereon this spring a \$12,000.00 packing house under which roof we will have a switch from the New York Central, enabling us to load and unload stock without exposure.

We are erecting a \$10,000.00 green house to take care of our baby products, a modern office and packing sheds. We have been in the nursery business 21 years. Therefore we are 21 years old this spring, old enough to know how and we are determined to give our customers the most modern and up to the minute service to be found in the United States. You all know that Northern grown products are just a little better, contain a little more vigor and produce better results than stock grown farther south. This is an unnecessary statement to my old customers and a trial order will convince any new ones. We are making every effort to give you a little better service than our competitors and at the same time maintain our low standard of prices.

We will employ this season every modern machine known in the Nursery trade thus decreasing our productive cost.

It will be our aim in the future just as it has been in the past to give our customers a little better product for a little less money than he can get elsewhere.

These two factors coupled with the fact that we have never misled our customers, never have sold them worthless novelties at exorbitant prices, has created for us the largest Nursery business in Northern Indiana. We are publishing this season an illustrated catalogue giving greater descriptions to the different varieties, also a landscape guide showing how to beautify your home. A small instruction book showing how, when and where to plant all kinds of fruit and flowers. If they are not included in the envelope with this price list write us at once if you are interested and they will be mailed you free. Please look this price list over carefully for it represents only those varieties which have proven valuable in your section.

There is a constant growing demand for good fruit and we are going to furnish you stock which will produce good results.

I wish I could meet you personally so I could show you better the practical advantages of our course. It has been our custom in the past to spend 10% of our sales in advertising. This year I am going to spend this 10% among my customers. I am particularly anxious to get a customer in your locality and as an inducement for you to be that one I am going to give you a discount of 10% from our regular prices. I can well afford to do this because I know when you have once tried our hardy northern grown stock and have witnessed the wonderful results it will give, you will be so enthusiastic about it that you will recommend us to your neighbors and your friends.

Considering the unusual nature of this offer we are compelled to limit it to March 15, 1923. In order to take advantage of this it will be necessary to send in your order by that time. Get your neighbor's order at our catalog price and make this 10% yourself; a little effort will enable you to get your order free.

Try us, a square deal awaits you.

THE KRIDER NURSERIES, Inc.,

Vernon H. Krider, Sec. and Manager.

General Information

LOCATION — Our Goshen plant is located 5 miles North East of Goshen near the Michigan branch of the L. S. & M. S. Ry. We have 96½ acres of land at this packing house.

Our Middlebury branch is located within the corporate limits of the town of Middlebury and consists of 128½ acres. All orders for spring of 1923 will be filled from the Goshen plant and mail should be addressed to Goshen, Indiana. After August 1st all orders will be shipped from our new packing houses in Middlebury, Indiana.

ORDERING — In ordering be sure to state how you want your orders sent and give your express office. Order early. On all orders of one dollar or more received before March 10, 1923, I will add a Rambler Rose, as a premium, providing you mention it in your order.

SUBSTITUTION — We do not substitute unless requested. When you place your order here you get what you want or money back.

REFERENCES — First State Bank, Middlebury, Indiana; Elkhart County Trust Company, Goshen, Indiana, or any bank or business house in Elkhart county.

SHIPMENT — I commence to ship south about March 10, weather being favorable, and shipping season lasts until May 25th. Will ship order any week you designate in your letter, weather being favorable. I have every means at hand to have your stock reach you in the best condition.

TERMS — Cash before order is shipped. I will book orders when ¼ accompanies the order, balance to be paid before stock is shipped.

CLAIMS — All claims for shortage must be made inside of ten days after goods are received. If stock is not satisfactory complaint must be made at once. No attention will be paid to claims received months after the goods have been received.

50 at 100 RATE. We sell 10 at 100 rate; 500 at 1,000 rate.

PARCEL POST — Strawberry plants can be sent by Parcel Post. If you wish them sent in this manner, add 15c per 100, or we can send them Parcel Post collect, which ever is preferred. Rural carriers collect postage and it is cheaper than express and brings the plants to your door.

REMITTANCES — Make same by express money order, postoffice order, draft or registered letter. Checks from responsible persons are also taken.

Conclusion — We offer our customers 3 essentials necessary to success and embodied in stock grown by us. 1st, extreme hardiness, 2nd, power to bear early; 3rd, true to name. Think it over.

Strawberries

THE QUALITY OF STRAWBERRY PLANTS

In looking through the many catalogues you receive you will notice that many claim to be the largest growers of plants, and that their plants are the best grown. I do not claim to be the largest grower of plants or that they are better than some others, but I have bought plants from some that make such claims in different parts of the country and have never received any better than I send out; In some cases I had to throw away half of the plants as they had the crowns broken or were so small that they were not worth planting. **WE GUARANTEE** the plants we send out to be as large and as fine as you get anywhere (no matter what you pay), and to be put up in as good condition and if grown side by side, under like condition, that they will produce as much and as good fruit.

COLOR SYSTEM—We use a different color wrap for each variety of Strawberry plants, thus assuring you an easy way of keeping the varieties separate when they are unpacked.

Strawberries succeed anywhere if the proper varieties are planted on the right kind of soil. In my description of the different kinds I have tried to make it plain which are best adapted to various soils. You will make no mistake if you select those suitable for your land. These varieties marked imperfect require some variety marked perfect set every third row to insure a crop, the imperfect varieties always bear the largest berries. Perfect berries require no fertilizing. For garden set in hills 18 inches apart and keep all runners off. For field culture set in rows four feet apart and 18 inches in the row. Then allow runners to form a matted row. 7,600 plants are required per acre.

We furnish the following varieties of strawberries at 75c per 100; \$4.50 per 1000.

EARLY MITCHEL, WARFIELD, TENNESSEE PROLIFIC, CLIMAX, AUGUST LUTHER, SENATOR DUNLAP, BURBACH, AROMA, ROUGH RIDER, KLONDYKE, BRANDYWINE, SAMPLE STEVENS LATE CHAMPION, ST. LOUIS,

At \$1.00 per 100; \$5.00 per 1,000.

*HAVERLAND, KRIDER'S BEST, PRIDE OF MICHIGAN, GANDY, GIBSON, *OSWEGO, WM. BELT, *EY OZART, *CHESAPEAK. NORWOOD, *CHIPMAN, BIG LATE, POKOMOKE, DR. BURRIL, KELLOGGS PRIZE.

*These marked * we can furnish only in hundred lots.

Lowell, Mich., Dec. 4, 1922.

Mr. Vernon H. Krider
Goshen, Indiana.

Dear Sir: Back in 1919 I gave you an order for berry plants, strawberries and raspberries. The strawberries were such fine plants that I have not forgotten you, -----

Thos. G. Balkwell

Extra Fancy Common Strawberries

BURBACH NO. 5

(Imp.) — Fruit large and handsome, roundish, conical, bright scarlet, moderately firm, of fair quality. Plant a strong grower, with a large healthy foliage and very productive. Succeeds on light or heavy soil. Desirable for home use or near market. One of the best. Season early to medium. This is an old standby, and is deservedly popular. In plant growth it is vigorous, but does not throw out excess of runners, hence it is best grown in hedge or half-matted rows.

CHARLES FIRST

(Per.) — This new early variety is a seedling found by one of our growers, Mr. Geo. Hann, several years ago, and later introduced by Mr. Baldwin, who gives it this description: "Charles First ripens nearly a week ahead of Michel's Early, and is very productive, yielding more quarts of large fine looking berries than any other early sort. It is a strong fertilizer and a good grower. Berries are large, regular in form, and of good color and quality. This valuable early strawberry continues to produce large, fine looking berries till the last pickings.

HELEN DAVIS

(Per.) — We give the introducer's description: "The plant is a strong, vigorous grower, with tall, healthy foliage, and has never shown any sign of disease.

"The fruit is large and attractive and holds up well in size throughout the season. It commences to ripen with Dunlap and ends with Sample. Have picked berries from it as late as the 4th of July. It is a light crimson color which extends clear through, and has a flavor which cannot be excelled.

"It is a thrifty grower and very prolific bearer, and in favorable weather makes a good market sort."

BEDERWOOD

(Per.) — This is generally conceded to be one of the very best early varieties for home use or market. It is a splendid grower, making a large number of strong runners. It has a perfect blossom, and is **immensely productive**. Fruit of good size, light red, medium firmness and good quality. One of the best to plant with early blooming pistillate varieties.

WILLIAM BELT

(Per.) — This is one of the old standbys which came from Southern Ohio several years ago and was named for the originator and later introduced to the public by that veteran grower, M. Crawford, "Strawberry Specialist."

From the first it has been considered one of the best in flavor and is very beautiful in appearance, being bright red in color. The first berry to ripen on each stem is apt to be cockscombed or "butterfly" shape, and are very large and fill the quarts very fast. The later ones to ripen are more evenly conical.

In plant growth it is superior, making very strong plants with abundant and healthy foliage, and sets just enough runners to make a good fruiting row.

It is a very heavy and abundant bearer of fine appearing fruit of the **very best** quality and we find it much superior to many of the more lauded new sorts.

We have only a fair stock of this variety to offer this year, and would advise placing your orders early.

WM. BELT and BUBACH
DUNLAP and WARFIELD
GIBSON and K. BEST

These six varieties are the cream of the Common Sorts.
 Price, \$1.00 per 100; \$5.00 per 1000.

Everbearing Strawberries

EVERBEARING STRAWBERRIES — We have been growing Everbearing Strawberries for 8 years and have tried 12 varieties. We have eliminated all but 3. These have given us excellent results. They will yield as much as the common varieties in June and will produce well all Summer and Fall.

Many people make a mistake in only growing one variety. Like the common varieties, Fall bearers do best if 2 varieties are planted together. Try Progressive and Indiana. Money back if not satisfied.

CAUTION — Fallbearers require a mulch through the winter to preserve their vigor. These varieties bear the same season set and unless covered with leaves or straw their vitality is weak and plants from unprotected beds give poor results. Our fields are all mulched with straw and our plants will have the necessary vigor to please our customers. In fact, so great is our confidence in these berries that we offer the following guarantee:

Any person purchasing Fall Bearing Strawberry Plants of us this spring and are not thoroughly satisfied can have the amount paid for them replaced in any stock which they may select from our next season's catalogue.

**We grow for those who want the best.
We offer the following varieties:**

PROGRESSIVE (Perfect) — This berry is a seedling of the Dunlap. Dark red in color and immensely productive. Bear 30 days after planting and continues to bear until ground is frozen up in the fall. All through August, September and October the vines are filled with one mass of ripe berries. Per doz, 50c; per 100, \$2.00; per 1,000, \$10.00.

SUPERB (Perfect) — One of the largest of the Everbearers — bears the same season, and ripens earlier than Progressive. Is dark red with bright yellow seeds, making a fine showy appearance. Very productive. Per dozen, 50c; per 100, \$2.00; per 1,000, \$10.00.

INDIANA (Perfect) — This is an improved Superb brought about by selection. Six years ago we had some plants in our Progressive which were large and had many crowns. We set these in a plot by themselves, and by careful elimination we have a strain that bears double what Superb or Progressive does. They make large crowns, each plant attaining the size of a flat gallon crock and we have had this variety on the market every week from July 1st to Nov. 1st, 3,000 plants netted us \$318.00 last season.

We do not have a large stock of this variety, but offer it at the following prices while they last. Per doz, 75c; per 100, \$3.00; per 1000, \$15.00.

Goshen, Ind., Dec. 30.

This is to certify that we have purchased from The Krider Nurseries from one to five cases of Indiana strawberries at \$4.00 per crate every week from July 1st to Oct. 20th. Berries were good quality and as large as any of the standard varieties. — M. Shookman & Son, Grocers.

Plymouth, Ind., March 4.

Mr. V. Krider

Dear Sir:—The Indiana strawberries done fine. Last fall I sold 32 quarts of berries at 50c per quat from the 100 plants bought of you last spring, besides what we ate.

Nick Fleek.

South Milford, Ind., Sept. 17.

The Krider Nurseries, Goshen, Indiana,

Enclosed please find a picture of 1,871 of those plants I received from you last April. I set these plants out May 4th and 5th. September 1st, when the picture was taken, by actual measurement, they were 18 inches wide on top and 7 inches high. This certainly is a fine bed. My old bed (two years old) which I cleaned up after the season is also very good, being 14 inches on top and 5 inches high. The other plants I get from you are in another place and they are as good as these.

Frank Spaulding

We Reproduce Mr. Spaulding's Picture Below

Bronson, Mich., March 29.

Mr. Vernon Krider, Goshen, Indiana,

Dear Sir:—Have not received a price list from you for a long time. If you are still in the business please send me one, as there are a few things we would like to get. Your stock was as good, if not better than any we ever had.

Geo. W. Mallow

Raspberries

Raspberries do well on any good soil and for the past ten years no crop has proved more profitable. For field culture plant five feet apart each way. About 1,800 plants are required per acre. For garden culture set 3 feet apart in rows 5 feet wide.

CUMBERLAND — Largest of late Raspberries. Rather late for early market. Good quality. And an excellent bearer. Color black. Per dozen 50c; per 100, \$2.25; per 1000, \$18.00.

KANSAS — The leading Raspberry for home use and market, hardy and prolific. Color black. Per dozen, 50c; per 100, \$2.00; per 1000, \$15.00.

GREG — Large late black Raspberry, covered with whitish bloom. Becomes red on handling. Not quite hardy. Per dozen, 50c; per 100, \$2.50; per 1000, \$20.00.

PLUM FARMER — This is a new variety of great promise. Large luscious and fine flavored. It bids to take the lead in the future of all black caps. Per dozen, 50c; per 100, \$3.00; per 1000, \$20.00.

COLUMBIAN — Leading red Raspberry; being an enormous bearer of large, solid, meaty red berries. A coming money maker. Per dozen, 50c; per 100, \$3.00.

LOUDON and CUTHBERT — Red Raspberries, too well known to need description. Per dozen, 25c; per 100, \$2.00; per 1000, \$15.00.

GOLDEN QUEEN — Golden yellow, just the thing for the garden. Red raspberry flavor and the prettiest jelly makers ever seen. Per dozen, 50c; per 100, \$2.00.

CONRATH — Noted for its freedom from disease, bears immense crop of berries, resembling Kansas in appearance, ripens its entire crop in about three pickings. The only black berry which bore a full crop this season. Per dozen, 50c; per 100, \$2.50; per 1000, \$15.00.

ST. REGIS — Raspberries for four months. The new everbearing variety. It gives a crop of fruit all summer and autumn fruiting on the old canes in generous quantities until late in August. By this date berries begin to ripen on the young canes and continue until late in autumn. Berries are a bright crimson of large size and of surpassing quality, rich, sugary with full raspberry flavor. It succeeds on all soils, whether light and sandy or cold heavy clay and the canes are absolutely hardy. Per dozen, 50c; per 100, \$2.50; per 1000, \$18.00.

KING — The earliest Red Raspberry on record. No trouble to sell them from 15c to 25c per quart. Everybody wants them. They are not as large as Cuthbert, both are immensely prolific. Per dozen, 50c; per 100, \$2.50; per 1000, \$15.00.

IDAHO — Largest of all Raspberries. Dark red, very solid and meaty, bears a half crop in September. Per dozen, 50c; per 100, \$3.00.

HERBERT — Bright red large size and of the sweetest flavor. If you like red raspberries and want the best for your own use or market try this one. Per dozen, 50c; per 100, \$3.00.

The "Scarff"

THE SCARFF — This new variety was first offered to the public as an "Improved Gregg," by W. N. Scarff, of Ohio, but to avoid confusing it with the old variety of that name, it was thought best to change the name to "Scarff," after the introducer, whose description we give: "In size it compares with the Cumberland, perhaps a trifle larger. In productiveness it is far ahead of any Blackcap we grow. It is absolutely hardy; canes free from disease and strong, upright growers. The canes are cleaner by far than any raspberry that we have ever seen, and we think it will stand heat and drouth better, making an abundance of good strong canes." Per dozen, 75c; per 100, \$3.00.

Blackberries

Blackberries do best on good soil, clay and sand mixture preferred, set in rows 6 feet apart and 2 feet in rows, 3,500 are required pe acre. Blackberries are in great demand now at 20 cents a quart. Give that boy a chance to try his metalby letting him start a patch. He won't have any desire to leave the farm if he is successful in raising fruit. The varieties here given are perfectly hardy and will prove a source of profit. Beware of the Erie, Wilson Jr., Lawton and their like; they will not stand our winters.

SNYDER — The leading variety here; needs no protection, is rust proof and will stand more neglect than any other variety. In fact it is at its best in sod or shade. Per dozen, 50c; per 100, \$2.00; per 1000, \$15.00.

ELDORADO — Largest hardy blackberry grown. Free from rust and the best money maker here. Berries of the Eldorado bring 50 cents per crate more than Snyder on the local market. Price, per dozen, 50c; per 100, \$3.00; per 1000, \$20.00.

RATHBUN — This berry is immense a little ways south of Indianapolis. It is a good berry for the south and west. It is not quite hardy here. Per dozen, 50c; per 100, \$2.00.

BLOWERS — Immensely productive, but berries are not as large as Eldorado and other hardy kinds. Per dozen, 50c; per 100, \$2.50.

Grapes

Why not set a vineyard this spring? No fruit yields greater returns on the investmen than grapes. Prices the past year have been from 5 to 6 cents per pound, and returns have been as high as \$600.00 per acre. Give that boy a chance. Set 8 feet apart in rows 10 feet wide. About 600 vines will set an acre. I grow ten varieties of grapes, but only four are profitable market sort.

Price No. 1 vines, each, 20c; per dozen, \$2.00; per 100, \$15.00.

GREEN MOUNTAIN — Greenish white; skin very thin; pulp exceedingly tender and sweet; vine strong grower, hardy and productive. Originated in the mountains of Vermont. Quality first class and promises to take front rank for garden and vineyard. Ripens early.

NIAGARA — Leading white grape, resembles Concord in size and growth. Quality delicious.

WARDEN — Largest of the black grapes. Sweet and fine flavored.

PERKIN — Leading red grape, fine for eating, but not profitable for market. No grape sells so well as the black Concord. Can also furnish Moore's Early, Delaware, Pochington, Martha, Champion and Ives Seedling.

CONCORD (Black) — Decidedly the most popular grape in America, and deservedly so. Bunch large shouldered, compact, berries large, covered with rich blooms; skin tender, but sufficiently firm to carry well to distant markets; flesh juicy, sweet, pulpy, tender; vine a strong grower, very large, healthy and productive. We advise you to plant the Concord for main crop. It is the best. Price, 10c each; \$8.00 per 100, 2 yr. No. 1; 8c each; \$5.00 per 100; 1 yr. No. 1.

NOTE — THE GOLDEN POCHLINGTON — This is the finest grape grown, greenish yellow, larger than Niagara. Sells for more money on the market than any grape grown. Everybody wants them. Don't fail to order a few stocks of this excellent variety. Price, each, 25c; per dozen, \$2.50.

Gooseberries

This fruit is useful for cooking when green or ripe, and it may be canned with such facility that it is beginning to be cultivated extensively for both home use and market.

It requires about the same care and treatment as the currant.

To prevent Mildew, we recommend spraying the bushes as soon as leaves appear and several times during the summer with potassium sulphide (liver of sulphur) one ounce to four gallons of water.

Gooseberries may be planted between rows of apple or other fruit trees as a filler.

COLUMBUS — Large size, oval, greenish yellow, smooth; of fine quality. Plant a robust grower. One of the best of its class. 35c each; \$3.50 per 12; \$25.00 per 100.

DOWNING (American) — Very popular, large, pale green, good quality; bush vigorous, hardy, requires but little attention. 35c each; \$3.50 per 12; \$23.00 per 100.

HOUGHTON'S — Small to medium, roundish, oval, pale red, sweet, tender, very good, plants spreading; shoots slender. A vigorous grower and abundant bearer. 25c each; \$2.50 per 12; \$20.00 per 100.

INDUSTRY — Berries of largest size, excellent flavor, pleasant and rich, dark red color when fully ripe. 35c each; \$3.50 per 12; \$25.00 per 100.

RED JACKET — Bright red; medium size; healthy and very productive. 35c each; \$3.50 per 12; \$25.00 per 100.

Hedge Plants

Nothing is more beautiful than a well-grown neatly trimmed hedge. They are rapidly replacing fences and are very effective for protection and separation, besides being a delight to the eye.

In starting a hedge, the plants should be set in two rows, a foot between the rows, and the plants set alternate, a foot apart in the row. Pruning should commence as soon as the limbs get large enough to form the required hedge. Frequent pruning will cause the hedge to thicken up.

BARBERIS THUNBERGI (Thunberg's Barberry) — A graceful shrub of low dense habit. Leaves small, bright green, which in fall change to dazzling tones of orange, scarlet and crimson. Large, bright red berries appear in the fall and brighten the stems far in the winter. One of the most beautiful shrubs in cultivation. Makes one of the best hedges.

	Each	Per 10	Per 100
12 to 18 inches -----	\$0.25	\$2.00	\$15.00
18 to 24 inches -----	.50	4.00	34.00

CALIFORNIA PRIVET — Most popular and one of the very best Hedge plants. Stand close trimming exceedingly well. Leaves oval, dark green and glossy. Makes a very desirable hedge.

	Per 10	Per 100
12 to 18 inches -----	\$0.70	\$5.00
18 to 24 inches -----	.90	6.00

AMOR RIVER PRIVET — Hardy upright growing Privet. Shiny foliage and white flowers.

IBOTA PRIVET — Hardest and best privet grown in the north. Excellent for hedges.

Price of Amoor and Ibota Privet:

	Per 10	Per 100
12 to 18 inches -----	\$1.20	\$10.00
2 to 3 feet, Extra Heavy -----	2.50	20.00

Apples

NOTE—We propagate our apples from scions cut from trees that are bearing fruit. Many nurseries use scions from the nursery rows, and trees raised in this manner will not bear fruit until very old. Be sure you get trees that have bearing wood grafted on them.

Apples are going to be valuable in the near future, they bring a handsome price now and when the old orchards are gone they will nearly double the price received now and a good apple orchard will be more valuable than an orange grove. True some of us will not live to reap the benefits, but our children can not have a greater inheritance than a thrifty, bearing orchard which will guarantee them a fine income annually.

We grow forty varieties of apples. Each one having certain characteristics which render them valuable. Those marked with an asterisk (*) are such as are most valuable in Indiana.

We can furnish Dwarf apple at the same price as standard.

PRICES OF APPLE TREES

No. 1, 2 years old, 5 to 7 feet ----- each, 75c; per 100, \$60.00
 No. 2, 2 years old, 3 to 4 feet ----- each, 50c; per 100, \$40.00

10 OR MORE TREES AT THE 100 RATE.

FANCY VARIETIES OF APPLES

The following varieties of apples, are of the newer types and are attracting much attention in various parts of the country. We have only a limited number of these varieties to offer, but while our supply lasts we will be glad to furnish them at the same prices as common varieties.

OPALESCENT — Light in color, shading to deep crimson, has the quality of the Grimes Golden with the keeping qualities of the Ben Davis.

DELICIOUS — Winter apples of peculiar and distinctive shape. Brilliant dark red, shading to golden yellow at blossom end, flesh fine grained, juicy, crisp and melting, flavor sweet with a slight acid taste. This apple is gaining in favor each year as one of the most profitable market varieties. I advise my customers to try a half dozen at least in their young orchards.

BLACK BEN — Fall. A beautiful apple resembling Jonathan, although larger and a deeper red, good quality and a good keeper. Tree bears young and carries full crops. This variety often bears at four years of age.

GOLDEN WINESAP — Delicious golden yellow apple of great promise.

SUMMER VARIETIES

LIVELAND RASPBERRY — Earlies of all apples. Fine cooker.

EARLY STRAWBERRY — Red striped, very early.

***EARLY HARVEST** — Large yellow, excellent quality.

YELLOW TRANSPARENT — Yellow, fine cooking apple.

***SWEET BOUGH** — Yellow, large, good bearer. August.

***RED ASTRACHAN** — Red striped, sour, a good bearer, July.

***GOLDEN SWEET** — Pale yellow, large, strong grower and bearer.

FALL VARIETIES

DUCHESS — Yellow and red striped, fleshy, juicy, valuable for market.

MAIDEN BLUSH — Pale yellow flesh, tender, sufacid, very good.

FALLWATER — Yellowish green, crisp, juicy, good eating apple.

***WAGONER** — Yellow and red striped, excellent for market.

***SNOW** — Red striped, flesh very white, productive.

GOLDEN SWEET — Clear yellow, fine cooker, productive.

WINTER VARIETIES

WOLF RIVER — Large red striped apple. Early and annual bearer.

M. B. TWIG — Dark red, large, excellent quality, good keeper.

***YORK IMPERIAL** — Red striped, large, best cookers and keepers.

***GANA** — Dark red, large size, one of the best winter apples known. February to May.

***BEN DAVIS** — Red striped, always bears, good keeper and seller.

GRIMES GOLDEN — Golden yellow, everybody's favorite, very good keeper.

***JONATHAN** — Dark red, medium size and an extra good winter keeper. One of the best winter varieties. Should be in every orchard.

***ROME BEAUTY** — Striped yellow and red, tender, juicy and good quality.

***WEALTHY** — Striped red, showy, very fine for home and market.

YELLOW BELLFLOWER — Pale yellow; very good, season late.

BALDWIN — Dark red, good quality, December.

***NORTHERN SPY** — Red striped, good quality, delicious flavor.

***R. I. GREENING** — Greenish cast; tender; juicy and rich.

GOLDEN RUSSET — Golden yellow, immense bearer, good keeper.

***WINESAP** — Deep red, good keeper, fine winter apple, good bearer.

WINTER BANANA — Yellow with red cheek, good dessert apple.

RAMBO — Green and yellow striped, small.

***TALLMAN SWEET** — Medium size, yellow and red. Valuable for baking.

***PEWAUKEE** — Striped yellow and red, good grower and bearer.

MANN — Yellow, medium to large, sufacid.

KING — Large red apple, immense bearer, fine dessert apple.

SMOKEHOUSE — Large, good quality apple. One of the best old varieties.

NOTE — Our apples Northern grown as they are will bear younger and more regular than southern trees, but we have a larger percent of small trees each year than the Southern grower, due to shorter seasons.

Therefore, we have 2000 trees 2 to 4 ft. high well rooted that we offer our customers at 25c each, assorted as follows:

300 Delicious	212 Greening	250 Jonathan
80 Y. Transparent	100 W. Banana	200 Grimes Golden
50 Smokehouse	50 King David	56 M. Blush
200 N. Spy	25 Rambo	80 Wealthy
50 Tulpohocka	40 King	150 Tol. Sweet
150 Baldwin	7 Winesap	120 Yel. Bellflower

Above trees will please planters of one year trees.

Peaches

Peaches succeed best on good sandy soil. Peaches may be profitably grown between rows of young apple trees, as they will outlive their usefulness before an apple orchard comes into bearing. Peach trees should be set 16 feet apart each way. 160 trees are required to an acre. A good peach orchard would be a good investment to the average farmer as they require but little time in picking and marketing.

No. 1, 4 to 6 feet -----	each, 40c;	per 100, \$35.00
No. 2, 3 to 4 feet -----	each, 30c;	per 100, \$25.00
No. 3, 2 to 3 feet -----	each, 20c;	per 100, \$15.00

LIST OF VARIETIES

- ALEXANDRIA** — Early, rich, juicy, a good bearer.
- TRIUMPH** — Medium, rich yellow, ripens early.
- ***MT. ROSE** — Large, white, red cheek, free stone, fine early peach.
- CHAMPION** — Large, freestone, white, very good, last of August.
- ***CARMON** — Pale yellow, freestone, ripens after Early River.
- ***EARLY CRAWFORD** — Large, yellow, free, is extensively planted.
- ELBERTA** — Large, yellow, fine for market and home use.
- MATHEW'S BEAUTY** — Golden yellow, very prolific, later than Elberta.
- ***OLD MIXON FREE** — Large, pale yellow, first to middle of September.
- STUMP** — Very large, white, rich, last of September.
- BEERS SMOCK** — Large yellow, fine for market, last of September.
- ***FITZGERALD** — Large fruit, best quality, first of September.
- ***GOLD DROF** — Medium in size, golden yellow, September.
- ***CRAWFORD LATE** — Large, yellow, tree vigorous.
- ***CROSBY** — Large, yellow, very productive.
- ***KALAMAZOC** — Large, uniform in size, ripens with Crawfords.
- ***SALAWAY** — Large fruit, deep yellow, good late variety.
- WONDERFUL** — Large to very large, yellow, late October.

We sell 10 trees of any kind at hundred rate.

Cherries

Cherries succeed on most soil and in nearly all localities throughout the country. No better fruit can be grown for market or home. The trees are free from disease and every farmer should have an abundance of this fine fruit. Note the bargains in first class cherry trees.

PRICES ON SOUR AND SWEET CHERRIES

First Class, 4 to 6 feet, $\frac{3}{4}$ to 1 inch -----	each, \$1.25;	per 100, \$100.00
Second Class, 3 to 4 feet, $\frac{1}{2}$ to $\frac{5}{8}$ inch -----	each, .90c;	per 100, \$80.00

LIST OF VARIETIES

- ***EARLY RICHMOND** — Medium size, sour; immense bearer.
- ***DYE HOUSE** — Medium size; earlier than Richmond.
- ***MONTMORENCY** — Large; sour; valuable for home or market.
- ***GOVERNOR WOOD** — Large; light color; sweet cherry; very fine.
- WINDSOR** — Large; liver color; sweet cherry; very fine.
- BLACK TARTARIAN** — Large; sweet cherry; very good for home and market.
- ***MAY DUKE** — Large, early, dark red, sour, fine pie cherry.
- NAPOLEON BIGARREAU** — Sweet, large, pale yellow, very juicy.
- ***LOUIS PHILLIPS** — Sour, very late, large, red; good bearer.

Pears

No. 1, 2 years, 4 to 6 feet ----- each, \$1.00; per 100, \$100.00
 No. 2, 2 years, 3 to 4 feet ----- each, 75c; per 100, \$75.00

LIST OF VARIETIES

*Bartlett, Lawrence, Duchess, *Flemish Beauty, *Kieffer, *Seckel, *Clapps, Favorite, *Garber, Le Conte, Tyson, Wilder.

NOTE—Dwarf Pears are furnished at 75c each any variety above.

Apricot Trees

Ripening as it does between Cherries and Peaches, usually about the month before the early Peaches, the Apricot is a most welcome fruit, both tempting and delicious. No garden should be without a few trees. In addition to its value as a fresh fruit it is a superior fruit for canning and drying, vast quantities being used for these purposes every year. There is always a market for Apricots at good prices, and the planter need have no fear of over production.

PRICES OF ALL VARIETIES OF APRICOT TREES

	Each	Doz.
Largest Size, 2 year, 4 to 5 feet -----	\$1.00	\$12.00
Medium Size, 2 year, 3 to 4 feet -----	.80	9.00

RUSSIAN VARIETIES

ALEXANDER — A large, oblong, yellow fruit, spotted with red. Flesh is sweet, juicy and very good. July.

ALEXIS — Very hardy, an abundant bearer; yellow, with red cheek, large to very large; slightly acid, rich and luscious. July.

GIBB — Tree hardy, grows symmetrical, productive; fruit medium, yellowish, sub-acid, juicy and rich; the best early variety. Last of June.

J. L. BUDD — Tree a strong grower and profuse bearer, fruit large, white with red cheek; sweet and juicy. The best late variety.

Quinces

Quince trees can be planted on low, damp heavy soils where other fruits do not thrive. They require little attention and are very profitable for market. No home garden is complete without a few quince trees.

PRICES OF QUINCE TREES

	Each	Doz.
Champion and Orange, 2 years, 4 to 5 feet -----	\$1.00	\$11.00
Champion and Orange, 2 years, 3 to 4 feet -----	.90	10.00

CHAMPION — Good bearer; very large; good keeper; very productive. Bears extremely young.

ORANGE—(Apple) — Large; bright golden yellow; excellent flavor. Fine for domestic use. October.

Currants

The Currant is a sure cropper and will produce a good crop in spite of neglect, but they respond quickly to care and are highly profitable. They mature just before raspberries and can be used either raw or cooked. Being very hardy, they do not winter-kill and are of easy cultivation, requiring little care. No garden is complete without them; easy to grow and sure to bear.

PERFECTION — A distinct and very superior variety, producing large, long clusters of large, bright sparkling red berries, of mild superior quality in great profusion. Awarded many prizes and medals. Color bright red; quality rich, mild, sub-acid; plenty of pulp with few seeds; very early in ripening and enormously productive.

BOSKOOP GIANT—A black currant that surpasses all other black currants to as great a degree as the Perfection surpasses all other varieties that produce a red fruit. The berries measure half an inch in diameter and are of sweet rich flavor. A great yielder every year. Ripens early and the entire crop can be gathered at one single picking or they will keep in perfect condition on the bushes for a long time.

RED CROSS — Claimed to be the sweetest of all currants. In making jellies jams, etc., Red Cross requires less sugar than any other variety.

LONDON MARKET — Fruit good size, productive; bush healthy and holds its leaves until snow flies.

FAY'S PROLIFIC — An old standard variety, but being surpassed by new and better varieties.

FILLER — Very large, red, long, compact bunches; fine quality, easy to pick and hangs well on the bushes.

WHITE IMPERIAL — We consider it the best currant, sweet, rich, fine for dessert; hardy and productive. Good for eating fresh and for canning; no superior for jelly.

DIPLOMA — Received World's Fair Diploma. By many considered to be the best and largest of all currants; very vigorous grower and most productive red currant. We consider the Diploma and Perfection the best of all red currants.

CHERRY — Large, deep red, rather acid, very productive. A valuable market sort.

WILDER — Large, brilliant red, fine quality. Strong grower, productive; fruit hangs well to the bushes in good condition after ripening. Ripens early and keeps well.

BLACK NAPLES — Very large, black; valuable, excellent for jellies. Superior quality, good grower, produces abundantly.

FRANCO-GERMAN—One of the healthiest, most productive of red currants very large clusters, holds its fruit in good condition until fall.

PRICE OF CURRANTS

Large First-Class Bushes

	Each	Doz.	100
Perfection -----	\$0.35	\$3.75	\$20.00
Boskoop Giant -----	.25	2.75	15.00

White Imperial and Cherry -----	.25	2.75	15.00

Will furnish 6 at doz; 50 at 100; and 500 at 1000 rates.

All our Currants have the same mass of fibrous roots that our fruit trees have.

Plums

Again we wish to impress upon you that plums should be propagated from bearing trees, to give best results. We have the kind that will bear good crops. Guaranteed to be buds from bearing trees.

Plums do well on any soil. They are very easy to grow and bear abundant crops every year. Why pay so large a price for the fruit when it can be so easily grown?

PRICE OF PLUM TREES

No. 1, 2 years, 4 to 6 feet ----- each, \$1.25; per 100, \$100.00
 No. 2, 2 years, 3 to 4 feet ----- each, \$1.00; per 100, \$80.00

Rhubarb

VICTORIA — The old standard variety, large stalks; medium season. Price per dozen, \$1.00; per 100, \$5.00.

LINNEAUS — One of the leading varieties grown here. Stalks not as large as Victoria, but earlier. Price, per dozen, \$1.00; per 100, \$5.00.

NOTE—For many years an old market gardener near Bristol had the early trade of Elkhart on pie plant, he had the largest, earliest and best flavored pie plant that came to the city. Pies made from it had the flavor of peaches and it was called peach flavored. Since his death I have succeeded in obtaining the entire stock and have at this time 10,000 stalks. I am offering this to my customers at the same price as the common kind, \$1.00 per dozen, \$5.00 per 100. Be sure and send for a dozen of this variety in your order. I call it "Miller's Cream" and I will give \$25.00 for a dozen stalks that will excell it in size, season and quality.

Evergreens

Evergreens listed below have been transplanted two to four times. Are very stocky, with good, fibrous roots and, where handled with balls of earth, can be depended upon to grow.

We advise spring planting.

Ornamental Shrubs

No lawn or yard, whether large or small, is either complete, attractive or homelike without a certain amount of flowering shrubs.

Properly arranged they in no way encroach upon the lawn. They not only add beauty and adornment, but at the same time can be used as screens to cover unsightly objects or fences, and break the foundation line of the house. They are indispensable, besides lending a cheerful homelike effect. A few dollars spent in shrubs will often add more value to a property than hundreds of dollars spent in other ways.

Plymouth, Ind.,

Dear Sirs: Of the 3000 strawberries we bought of you last spring, all but 15 lived. Thank you for sending such good stock.

H. T. Bollinger.

Washington, Ind. Aug. 16.

Dear Sirs: Your shipment of trees at hand and I want to say I am more than pleased. I began buying of you about 12 years ago and have always found your trees superior to those grown in southern states. They make nearly twice the growth here under the same conditions. I have a fine orchard at Charleston, Indiana that came from your nursery, every tree true to name.

I am now county agent here and I am glad to speak a good word for you and your stock.

T. S. McCulloch

Ramblers and Climbers

(Guaranteed to Bloom this Season)

Varieties marked * are for winter and spring delivery only, being mostly plants which we have grown on contract for us at other points and which will not be available for fall shipment.

(a) on own roots.

- o **American Pillar**, rosy-pink, single flowers.
- o **Baltimore Belle**, blush-white, an old favorite.
- o **Climbing American Beauty**, red flowers like bush roses of that name, very strong grower.
- o **Crimson Rambler**, deep crimson.
- o **Dorothy Perkins**, shell pink.
- o **Dr. Van Fleet**, rich, flesh-pink, exquisite shaped buds.
- o **Excelsa (Red Dorothy Perkins)** clear scarlet, similar to Dorothy Perkins.
- b **Flower of Fairfield, (Everblooming Crimson Rambler)**, crimson.
- o **Gardena**, buds bright yellow, flowers cream, very hardy.
- *b **Gloire de Dijon**, fawn, shaded salmon.
- o **Goldfinch**, yellowish.
- o **Graf Zeppelin**, rosy pink.
- o **Hiawatha**, crimson with white eye, single.
- o **Lady Gay**, pink, similar to Dorothy Perkins.
- *b **Marechal Neil**, bright golden-yellow, very large.
- o **Oriole**, yellowish.

(b) budded

- ob **Paul's Scarlet Climber**, vivid scarlet, new.
- o **Philadelphia**, crimson, does not mildew.
- o **Queen of Prairie**, rosy-red.
- o **Red Tausendschon**, similar to Tausendschon, light red.
- o **Seven Sisters**, color varies from white to crimson.
- o **Shower of Gold**, deep creamy yellow, hardy.

Special Bargain Offer

We make you the best offer in these specials, we or any other have ever made you. We sold hundreds of these specials last spring. As many want to plant something each spring and do not know just what, we fix up these specials to please, with the best varieties of fruits and flowers. Many say they are better than if they had selected them themselves. Let us have your order with one or more of these specials, as you get two for one here.

Remember at these prices, the selection of varieties must be left entirely with us. For your selection see prices elsewhere given in catalogue on what you want.

NO. 1. \$10.00 By Express

- 2 Pear trees, 3 to 4 feet.
- 1 Rose

Orleans, Indiana, April 16, 1922

Krider Nurseries, Goshen, Indiana,

Dear Sirs: Strawberry plants arrived OK and I think they are as fine as I ever saw, am sure they could have been no better.

I gave Mr. Carl Brough of Paoli, Ind., the catalogue you sent me and he aims to send you his order soon.

I sure did boost the plants you sent me.

Hoping you success, I am,

Sunrise Fruit Farm

Per N. B. Simmons

Club Offer

We have made this offer a number of years and it pleased many, so we extend the same offer this year and hope many new customers will take part. We offer you ten per cent discount off catalogue prices in cash or in nursery stock, for all the orders you can secure for us among your friends and neighbors at our low prices for good stock. You will have no trouble in securing an order from each of your neighbors when you have time and of evenings. Take this catalogue, show it to them, and see how easy it is. Collect for same and when you get through keep ten percent for your trouble and send the balance to us. If you need more order blanks or catalogues write for them and same will be forwarded by first mail. Will you not try and see how many you can get? Each order is nicely labeled and tagged and no trouble to find each man's order when the stock reaches you. To ship in one box or bale saves much in freight and express.
