Pitcher & Manda,
THE UNITED STATES NURSERIES

SHORT HILLS,
New Jersey,
U. S. A.

European Branch,
HEXTABLE,
SWANLEY, KENT,
England.

THE United States Nurseries are situated in Short Hills, N. J., on the D. L. & Western R. R., only seventeen miles from New York City. Frequent trains leave from foot of Christopher or Barclay Streets. For time table see below.

The European branch is situated at Hextable, Swanley, Kent, England.

We are pleased to see visitors at any time. A personal visit will facilitate selection of plants, and afford an opportunity of seeing the extent of our Nurseries.

TERMS: Accounts are made up monthly. Our patrons are requested to remit by checks, express, or P. O. Money Orders, or currency in registered letters, as we cannot be responsible for moneys sent in unregistered letters. From *unknown* correspondents either a remittance or reference is requested with each order.

NO CHARGES are made for boxes, packing, or delivery to the railroad or express office. All plants are carefully packed and may be forwarded safely to any part of the globe.

ORDERS are solicited at as early a date as possible, that we may have ample time for their execution. Please write plainly Name, Post-Office, Express Office, and any other necessary information as to the best method of forwarding.

ADVICES OF SHIPMENT, together with the invoice, are sent the same day goods are forwarded.

COMPLAINTS, if any, should be made on receipt of goods: we promise prompt and just treatment of all claims presented.

HEAD GARDENERS AND ASSISTANTS. We have on our register names of several practical and trusty men for above positions, and will be happy to recommend them to any lady or gentleman requiring their services.

TIME TABLE:

CYPRIPEDIUMS.

It is a well known fact that Cyripediums are the easiest grown Orchids, and that their flowers last longer than any flower known. This is a great recommendation as a cut flower.

The colors are rich and pleasing, and combine well with roses and fine ferns, in fact with anything that they are used with; while if a basket or vase is filled with Cyripediums alone, a unique effect is produced.

For description and culture write for our Orchid Book which is free on application.

PALMS.

Of these we have a grand stock, clean and well grown. Our plants having been grown cool are far better adapted for decorative purposes than those grown in strong heat. The kinds enumerated below are the best known varieties in cultivation.

ARECA Baueri.

—good plants	\$0.75 each	\$7.50 dozen.
—strong plants	1.00 “	10.00 “
—specimen plants	3.00 to	5.00 each.

ARECA lutescens.

—good plants35 each	3.50 dozen.
—three fine plants in a pot75 pr. pot	7.50 “
—extra sizes	2.00 to	10.00 each.

ARECA sapida.

—specimen plants	2.00 to	4.00 “
----------------------------	---------	--------

CHAMAEROPS elegans.

—good specimens	4.00 to	6.00 “
—extra large specimens	8.00 to	12.00 “

CHAMAEROPS humilis.

—good specimens	4.00 to	6.00 “
---------------------------	---------	--------

COCOS Weddelliana.

—extra fine stock well grown.

—fine plants30 each	3.00 dozen.
—strong plants75 “	7.50 “
—half specimens	1.50 “	15.00 “
—extra selected specimens	2.00 to	3.00 each.

CORYPHA australis.

—grand specimens	4.00 to	6.00 “
----------------------------	---------	--------

KENTIAS. This is acknowledged to be the finest palm for all decorative purposes. We have a grand stock in all sizes in the three leading varieties :

- BALMOREANA,
- FORSTERIANA,
- CANTERBURYANA.

We offer the following sizes of each variety.

—nice plants	\$0.75 each	\$7.50 dozen.
—good plants	1.50 “	15.00 “
—strong plants	2.50 “	25.00 “
—fine plants	4.00 “	40.00 “
—half specimens	8.00 “	80.00 “
—specimens	10.00 to	15.00 each.
—grand specimens	18.00 to	25.00 “

LATANIA Borbonica.

—good plants to grow on50 each	5.00 dozen.
—fine plants	1.00 “	10.00 “
—strong plants	1.50 “	15.00 “
—fine decorative plants	2.00 “	20.00 “
—strong decorative plants	3.00 “	30.00 “
—half specimens	4.00 “	40.00 “
—specimens	6.00 “	60.00 “
—fine specimens	10.00 “	100.00 “
—grand specimens	15.00 “	150.00 “

PHOENIX canariensis.

—fine specimens	2.50 “	25.00 “
—extra strong specimens	4.00 “	40.00 “

PHOENIX reclinata.

—fine specimens	4.00 “	40.00 “
---------------------------	--------	---------

PHOENIX rupicola.

—fine plants to grow on85 “	8.50 “
—half specimens	5.00 to	8.00 each.

PHOENIX Senegalensis.

—fine specimens	5.00 to	6.00 “
---------------------------	---------	--------

PTYCHOSPERMA Alexandrae.

—fine plants	1.00 each	10.00 dozen.
—strong plants	1.75 “	17.50 “

RHAPIS flabelliformis. One of the best decorative palms.

—specimens	\$5.00 each	\$50.00 dozen.
—extra strong specimens	6.00 “	60.00 “

The prices of any palms not mentioned in this list will be sent on application.

FOLIAGE PLANTS.

Equally as useful as palms for decorations, filling of vases, and other purposes. Our stock contains large assortments of all that has proven most useful and valuable.

ACALYPHA Macafeeana.

—good plants \$3.00 doz. \$25.00 hundred.

ARALIA Sieboldii.

—fine plants \$0.50 each \$5.00 dozen.

ARALIA Sieboldii variegata.

—fine plants for decoration 1.00 “ 10.00 “

ASPIDISTRA lurida.

—good plants75 “ 7.50 “

—strong plants 1.50 “ 15.00 “

ASPIDISTRA lurida variegata.

—fine plants 1.00 “ 10.00 “

—strong plants 2.50 “ 25.00 “

—large specimens 5.00 to 10.00 each.

ARAUCARIA excelsa.

—good plants to grow on75 each 7.50 dozen.

—fine plants for decoration 4.00 “ 40.00 “

—grand specimens 6.00 to 8.00 each.

ARAUCARIA glauca.

—grand specimens 6.00 to 10.00 “

BROMELIACEOUS PLANTS. Of all the best varieties only, grand for dinner table decorations.

—fine plants \$1.50 each \$15.00 dozen.

—strong plants 3.00 “ 30.00 “

—grand specimens 4.00 to 5.00 each.

CALADIUMS, fancy, named.

—fine bulbs75 “ 7.50 “

CROTONS, in best varieties35 “ 3.50 “

CROTONS, in best varieties, strong50 “ 5.00 “

CRYPTOMERIA elegans. Fine decorative evergreen.

—fine plants, 10 inches high75 “ 7.50 “

CYCAS revoluta

—fine plants \$3.00 to \$15.0 each according to size.

CYPERUS alternifolius. Fine plant for decoration.

—good plants \$3.00 dozen \$20.00 hundred.

CYPERUS alternifolius variegatus.

fine plants \$12.00 dozen.

—strong plants.....	.75	“	7.50 “
ZAMIA integrifolia. Fine plants, better adapted for decoration than Cycas.			
—fine heads with 18 to 25 fronds....	\$1.75	each	\$17.00 dozen.
—grand specimens, 30 to 50 fronds.	3.00	to	6.00 each.

HARDY PERENNIALS OR HERBACEOUS PLANTS.

Within the last few years the growing demand for this grand division of the Florist's requisites has been enormous and is still increasing.

Their worth to Florists who have not handled them, also the "private" party, has been in the past considerably underestimated. Our Nursery, for this specialty alone, last year was unable to supply the increased demand; so to meet the exigencies of the coming season we have almost doubled this department.

Many fine novelties are also added to this section from all parts of the world by our own collector and recent importations.

For those who intend purchasing for cut flowers, quantities of a few varieties are superior to quantities of varieties, while for collections to retail the latter is preferable.

Many species and varieties which are noted have proved excellent for forcing; many more may also prove additions to this section of Herbaceous plants that as yet have not been tried for this particular purpose.

The stock we disseminate is healthy, true to name, and moderate sized clumps, all of which combined are bound to give satisfaction.

You are cordially invited to visit the Nursery at all times, when a better idea of the stock may be obtained.

	DOZEN	HUNDRED
ACHILLEA "THE PEARL." The flowers which are borne upon erect foot-stalks, are of the finest white and closely resemble a pompon Chrysanthemum. A grand acquisition for cutting purposes. Succeeds anywhere, and flowers nearly the whole season.	\$1.25	\$8.00
ACHILLEA TOMENTOSA. Flower heads flat, of an unusually good yellow, remaining a long time in perfection. Excellent for Spring cutting. . . .	1.50	9.00
ACHILLEA ALPINA. A dwarf species, with silvery foliage and heads of white flowers.	2.00	12.00
ADONIS VERNALIS. Very showy, producing in the Spring large yellow flowers set off by handsome fern-like foliage.	1.50	10.00
AGROSTEMMA CORONARIA. An erect branching plant with handsome silvery foliage, covered in summer with bright pink flowers. A valuable border plant.	1.50	10.00

	DOZEN	HUNDRED
AGROSTEMMA CORONARIA ALBA. A variety of the above, with white flowers.	\$1.50	\$10.00
AJUGA GENEVENSIS. A splendid bedding plant, the handsome foliage making a fine mat throughout the year; covered in spring with spikes of bright blue flowers.	1.25	8.00
AJUGA REPTANS. The creeping habit of this plant makes it valuable for carpeting; flowers bloom in May	1.00	6.00
ALYSSUM SAXATILE COMPACTUM. A good plant for early Spring bedding, forming compact tufts with yellow flowers.	1.50	9.00
AMARYLLIS ATAMASCO. A fall flowering perennial with white flowers tinged with pink; excellent for cutting. Height about 6 inches.	1.00	6.00
ANEMONE JAPONICA. One of the most valuable fall flowering perennials, producing showy rose colored flowers on long slender stems. For cutting, or open borders.	1.50	10.00
ANEMONE JAPONICA ALBA. Flowers of the purest white in late fall. A grand flower for cutting.	1.50	10.00
ANEMONE PENNSYLVANICA. Flowers pure white on long slender foot-stalks, produced in great profusion in early summer. A very bright plant in borders, and excellent for cutting.	1.00	6.00
AQUILEGIA CANADENSIS. Flowers scarlet and yellow on slender branching stems. An early spring flower of excellent habit.	1.00	6.00
AQUILEGIA VULGARIS ALBA. A stately plant, the nodding flowers borne on slender erect stems. Showy in borders, and fine for early cutting.	1.25	8.00
AQUILEGIA GLANDULOSA JUCUNDA. A beautiful species with a profusion of flowers on tall erect stems. The flowers are azure blue, and white.	2.00	15.00
ASTER PTARMICOIDES. The finest white-flowering species, blooming in late fall. Excellent for cutting.	1.50	10.00
ASTERS, in many varieties. The brilliancy of these flowers and the late time of blooming, make them valuable for cutting. They range through a variety of shades, and are in bloom from September till October.	1.25	8.00

	DOZEN	HUNDRED
ARABIS ALBIDA. An excellent plant for spring bedding, the dense tufts of white flowers appearing in April.....	\$1.00	\$6.00
ARTEMISIA PONTICA. A good bedding plant with silvery leaves and yellow flowers. Valuable for its aromatic fragrance. Excellent for florists to sell in pots.....	1.00	.00
ASCLEPIAS TUBEROSA. One of the best border plants. Flower heads a fine orange, lasting in perfection a long time. Height 2 feet... ..	1.25	8.00
BAPTISIA AUSTRALIS. The finest tall, blue flowering perennial. The foliage is handsome, and the dark blue flowers hang in graceful racemes..	1.50	10.00
CAMPANULA CARPATICA. A low growing Campanula with large showy blue flowers all summer.	1.50	10.00
CAMPANULA CARPATICA ALBA. Very fine white variety.....	2.00	12.00
CAMPANULA PERSICIFOLIA. A fine border plant, 2 to 3 feet high, with large flowers of showy blue. Excellent for cut flowers.....	1.50	10.00
CAMPANULA PERSICIFOLIA ALBA PLENA. A very beautiful variety with bell-shaped, double white flowers of lasting quality when cut.....	2.00	12.00
CAMPANULA PYRAMIDALIS. A tall growing species with large blue flowers in summer. Good for border.....	2.00	12.00
CAMPANULA GRANDIFLORA. A handsome variety bearing large bell-shaped flowers, 2 inches across, in summer.....	1.50	10.00
CAMPANULA MACRANTHA. A valuable border plant growing 2 feet high, bearing numerous large, dark blue flowers.....	1.50	9.00
CAMPANULA SARMATICA. A distinct and desirable species, with large flowers on a loose raceme.....	1.75	10.00
CARDAMINE PRATENSIS PLENA. A very pretty purple flower rising to over a foot in height....	1.50	9.00
COREOPSIS LANCEOLATA. This is without doubt one of the finest hardy perennials. The flowers are produced in the greatest profusion from June until frost; the branching wiry stems are especially adapted for cutting purposes.....	1.25	8.00

	DOZEN	HUNDRED
COREOPSIS ROSEA. Flowers with rose red rays, and yellow disks.	\$1.00	\$6.00
DELPHINIUM SINENSE. A low growing, branching species with fine showy flowers, white, light and dark blue in loose racemes. A plant of very elegant habit, and fine for cutting.	1.75	12.00
DELPHINIUM BELLADONA. This very fine variety grows to a height of about two feet. The habit is branching, and the spikes numerous and rather loose flowered. Flowers of the finest sky-blue.	1.75	12.00
DELPHINIUM VARIETIES. Very useful and handsome border plants. The plants are of stately habit, and make excellent centres for beds. The flower spikes hold a long time when cut.	1.50	9.00
DIANTHUS BARBATUS. Very effective border plant, and excellent for showy cutting.	1.25	8.00
DIANTHUS HISPANICUS. Large flowers of a bright crimson, produced all the season. An ornamental border plant.	1.25	8.00
DIGITALIS GLOXINIOIDES. A well known ornamental plant, fine for massing and cutting.	1.50	9.00
DIGITALIS GLOXINIOIDES ALBA. The white variety.	1.75	10.00
DORONICUM PLANTAGINEUM EXCELSUM Very fine for winter forcing. Height 3 to 4 feet: flowers heads yellow, 4 to 5 inches across. In the way of D. Caucasicum but much finer.	2.00	15.00
ECHINACEA PURPUREA, A very showy plant, the bright rosy-purple flowers succeeding each other for over two months. Useful for cutting.	1.50	9.00
EUONYMUS RADICANS. A handsome shrubby foliage plant well suited for training over rocks, stumps, etc. Very free growing and useful.	1.50	10.00
EUONYMUS RADICANS VARIEGATA. A variety of the last, with fine variegated foliage. When trimmed it makes a good, stiff border.	1.50	10.00
ELYMUS GLAUCUS. An ornamental grass forming tall clumps, covered with arching glaucous blue leaves.	2.00	15.00
ERIGERON AURANTIACUS. A fine plant with bright orange colored, Aster-like flowers, 2 inches across. A good flower for cutting purposes.	1.50	8.00

	DOZEN	HUNDRED
ERIGERON GLAUCUS. A fine border plant, growing 2 feet in height and producing numbers of lilac-rose rayed heads of flowers.....	\$2.00	\$12.00
ERYSIMUM PULCHELLUM. A prostrate plant with numerous pale yellow flowers, in early summer.....	1.75	12.00
FUNKIA UNDULATA VARIEGATA. A very fine border plant with crinkly foliage, variegated with creamy white. Useful for edging.....	1.50	10.00
GLECHOMA HEDERACEA VARIEGATA. A good plant for hanging baskets. The leaves are prettily variegated, and the habit of the plant is trailing..	1.50	8.00
GERANIUM PLATYPETALUM. A very showy border plant, the deep violet flowers being borne in great profusion. Excellent for cutting in early summer.....	1.50	9.00
HELIANTHUS MULTIFLORUS FL. PL. A valuable species for cutting purposes; an autumn bloomer with large double yellow flowers.....	1.50	8.00
HELIANTHUS MULTIFLORUS GRANDIPLENUS. An improved variety of the last, with very showy flowers not unlike a yellow Chrysanthemum, 4 to 5 inches across.....	2.00	12.00
HELIANTHUS MAXIMILIANI. A large growing, very free flowering species remaining in bloom till late autumn. A valuable species for cutting purposes.....	2.00	12.00
HELIOPSIS LAEVIS. A valuable plant, blooming steadily from midsummer to frost. Flowers large and borne in great profusion. Invaluable for cutting.....	1.50	9.00
HELLEBORUS NIGER This species is very valuable for forcing in the winter; when covered with a frame, the beautiful white flowers may be had at Christmas.....	2.00	12.00
HELLEBORUS MAXIMUS. Larger flowered, free grower, excellent for cutting.....	3.00	22.00
HEMEROCALLIS FLAVA. A beautiful plant, admirable for forcing. The sweet-scented lemon yellow flowers succeed each other for some time,	1.50	8.00
HEMEROCALLIS FULVA. Flowers a tawny color borne all summer.....	1.00	6.00

	1 DOZEN	HUNDRED
HEPATICANGULOSA. An exceedingly bright colored species, the large deep blue flowers appearing in early spring before the leaves. . . .	\$2.00	\$12.00
HIBISCUS MILITARIS. A tall growing border plant, with handsome foliage, and large pinkish white flowers in early summer.	2.00	12.00
IRIS CRISTATA. An exceedingly pretty dwarf species, well adapted for edging. Flowers pale blue, with white markings.	1.00	6.00
IRIS GERMANICA VARIETIES. A highly ornamental species. The stately habit, the brilliancy and variety of the shades and markings make it invaluable for ornamental or cutting purposes. . .	1.50	9.00
IRIS KAEMPFERII VARIETIES. The flowers of this remarkable species are broad and flat and present the greatest variety of color. The plants attain the height of 4 feet.	1.50	9.00
IRIS SIBERICA SANGUINEA. A fine species with narrow leaves, and flowers of a very fine dark blue; one of the best of all the Irises.	1.50	10.00
LIATRIS SPICATA. A very showy plant, with erect stems and dense spikes of purple flowers in late summer.	1.50	8.00
LILIUM CANADENSE. A showy species with nodding yellow or orange flowers.	1.50	9.00
LILIUM CANDIDUM MAXIMUM. The well known white Lilly, with large and broad fragrant flowers much superior to the common type. . . .	1.00	6.00
LILIUM CARNIOLICUM. An early blooming species with nodding orange red flowers.	2.00	12.00
LILIUM DALMATIUM. A splendid variety of Martagon, with black crimson flowers. A rare plant	3.00	18.00
LILIUM MARTAGON. A fine Lily with purple flowers, spotted with black. Elegant habit and showy flowers.	2.00	12.00
LYCHNIS ALPINA. A dwarf plant with bright heads of pink flowers in spring and summer. Good for low borders.	2.00	12.00
LYCHNIS CHALCEDONICA. A brilliantly colored, tall perennial; the flower heads are a bright scarlet and are excellent for cutting.	1.50	10.00

	DOZEN	HUNDRED
