## News That Is Interesting

### Items That We Gather from the Doings of Our Fellow Citizens

Richard Pitman was in town Saturday visiting his friends.

Mrs. Vaughn Lloyd and children visited her mother-in-law, Mrs. J. C. Lloyd, last week.

Friday night Rev. Atkinson gave a farewell party to Miss Hayes, who is about to leave town.

The town team met and defeated the Meridian team on the San Jose diamond by a score of 6 to 1 last Sunday.

Rev. H. Trezona has rented a house on Harrison avenue, and will be a permanent resident of Campbell from now on.

R. Allison and family who have been living in town during the fruit season, have moved back to their ranch in the country for the winter.

The October number of the Oriole, the High School Magazine, is a very good one, the drawings, particularly, showing skill in workmanship.

A Hallowe'en party was given to the students of the High School at the home of Miss Phoebe Mitchell on Willow street, last Saturday evening.

Hallowe'en is gone and with it has gone a gate belonging to Mr. E. E. Weeks, who is very desirous of its return. The boys went a little too far with their pranks this year, and did some damage to property. There is no fun to be had in destroying things the way they did the Grammar School out-houses. The Trustees of the Grammar School have offered \$10 reward for the arrest and conviction of the parties who did the damage. On this account school had to be dismissed Monday all day. That is carrying things a little too far, and the young men should remember that they are not hoodlums and destroyers of another person's property.

## PRESS NOTES.

Last Friday the local Grammar school boys went to San Jose and defeated the Gardner school in an exciting contest, the score ending 8 to 3.

Thursday night the Congregational Church gave an old-fashioned New England dinner to the public, which was very good and generally patronized.

The new Methodist minister, Rev. J. C. Bolster, has brought his household goods to town and will soon have his family settled in the parsonage.

Tuesday night a reception was held in the Methodist Church parlors in honor of the Hurlberts, who are moving to Pacific Grove. A very pleasant evening was spent in speaking and conversation.

More territory was taken into the Campbell Rural Delivery last week when the Los Gatos Road, between the Kennedy ranch and Budd avenue was added to Route No. 10

Last Friday evening the Epworth League of the Methodist Church gave a Hallowe'en party in the church parlors consisting of a program by the members and refreshments of tamales and coffee.

Mrs. Edw. Merrill, pianist of the Congregational Church, entertained the choir at her home Saturday evening, as a mark of her appreciation of their faithful attendance and to say good-byes to Miss Hayes. Invitations were extended to only those attending regular choir rehearsals, and the young people spent a very pleasant evening.

Tuesday evening the Countrymen's Club had a very interesting session in the Library building. Mr. C. H. Whitman read a very interesting paper on "Will and Personality," which showed deep thinking and careful preparation. Two new members were added at this meeting, Mr. W. W. Stewart and M. Earle Adams.

Last Monday evening the Improvement Club held its regular session in Cleland's Hall. The meeting was very well attended by the business men and others interested in the town's welfare. The matter of forming a township of Campbell was discussed and a committee appointed, consisting of Messrs. Sawyer and others, to find out if such a plan is feasible and just how to go about getting a township formed. The Improvement Club voted to put \$25 into getting out some literature of the town if \$50 could be raised among the men of the town besides that. Messrs. Kennedy and Curry were appointed a committee to secure the \$50.

## HINTS FOR FARMERS

### Hints on Silo Erection.

Be sure that you have plenty of staves, then follow the manufacturer's directions carefully. The drying out of the staves subsequent to a season's use, followed by tightening of the hoops, may draw the walls inside of the foundation unless the full number of staves are used when first erected. It is better to have the silo larger than the foundation the first year than to have it too small later on.

When the silo has been erected it should be thoroughly stayed by four guy wires from the top hoop to a stout stake set at least thirty feet from the bottom of the silo. This will prevent racking during windy weather when the silo is empty and will greatly increase its period of service. During dry weather use especial care to keep the hoops screwed up tight and do not loosen them when filling the silo. This is undesirable and unnecessary.

Paint the staves on all sides before erecting the silo rather than to paint the exterior later on, since paint put on the outside afterward holds water in the cracks and causes the staves to decay more rapidly—Professor Oeck, Wisconsin Agricultural College.

### Around the Farm.

Weed out the scrub and breed for type, but be sure you have a definite idea as to what type you want and why.

If the cow's teats have a tendency to get hard, keep a bottle of vaseline handy and use it occasionally to soften the parts.

The old brood sow should be kept as long as she remains vigorous. She knows better how to raise her suckling pigs than the younger mother.

If the farm is 100 acres in area it will be found more profitable to sell sheep for mutton rather than to sell them to other people to get ready for the market.

Get rid of your deadhead cattle before the winter months set in. It does not pay to carry them over. Only the producers should be permitted to stay on the farm.—Farm and Ranch.

### Feeding Value of Alfalfa Hay.

It is always a good thing to have something to measure by, says Hoard's Dairymen. The department of agriculture at Washington in bulletin No. 339 gives the following judgment as to the money value of alfalfa and other kinds of hay in comparison:

Alfalfa hay, \$20.16; clover hay, \$14.12; timothy hay, \$9.80; wheat bran, \$22.80; shelled corn, \$20.16.

Now take those figures as a guide line and note how widely at variance from them are the judgments of farmer feeders and general purchasers, yet we believe in the main they are correct. Most people will pay more for timothy hay than they would for alfalfa and clover.

When the farmer gets this question of feeding value down squarely in his mind he will reverse many of his judgments. Alfalfa is a wonderful plant.

### Alfalfa Enriches the Soil.

Alfalfa, like corn and cotton, demands certain conditions of the soil and certain constituents in that soil. Every crop demands certain foods. All crops except alfalfa and the other legumes obtain practically all their food, including nitrogen, from the soil. The latter crops use nitrogen, but get it from the air. Alfalfa takes nitrogen from the soil only during the first few months of its growth, and thereafter not only takes its own necessary supply from the air, but a large surplus which it stores in the soil, available for whatever crop may follow. Other crops take much nitrogen from the soil, but contribute nothing to its enrichment.—From Coburn's "The Book of Alfalfa."

### Profit in the Dairy Herd.

An Ohio dairymen has kept an accurate record of the cost and production of his ten cow dairy for one year, says the "Homestead." The total cost for food and labor was \$388.40, or an average of \$38.84 per cow. There were 58,333 pounds of milk produced, from which 2,624 pounds of butter were made, which sold for an average price of 28 cents per pound, or a total of \$734.72. The calves sold as veal brought within a cent of \$70, and the skinnilk, which was sold at 20 cents per hundredweight, brought \$98.88. The total income was \$903.50, or a gross income of \$90.35 per cow. Deducting the cost of keeping the ten cows 1 leaves a net profit of \$51.51 per cow.

### Dehorning Cattle.

As soon as the flies are out of the way in the fall and from then until they appear in the spring is the time to dehorn cattle. To prevent horns treat the calf when about four days old. As soon as you can feel the horns slip hair off horn place the size of a quarter dollar, wet the spot with water, then wrap a piece of stick caustic potash in paper, one end exposed; rub this on the wet skin until it looks red and somewhat raw; cover the entire spot. Then treat the other horn in same way.—Country Gentleman.

### Care of Farm Tools.

One of the poorest investments a man can make is to buy poor tools. Get the best and then give them the best of care. A man would hardly leave a sum of money along the fence row, out in the weather, yet when he leaves his tools unprotected in the field it amounts to the same thing.

### The Dancing Pea.

Push a pin halfway through a green pea, making the two ends as nearly as possible the same weight—i. e., let the point come a little more than halfway through. Then break off the stem of a common clay pipe, and the toy will be completed. To make the pea dance put it on top of the pipestem, the point of the pin sticking down the bore. Throw your head back with the pipe in your mouth so that the stem may be held vertically and blow gently. This will make the pea rise. Keep blowing harder until the pea rises entirely from the pipe and is supported in the air. It will now begin to spin round and round and turn over and over, all the while bobbing up and down, as long as the current of air is kept up. The dance may be changed by pushing the pin up to its head. The pea will now rise to the top of the pipe and dance slowly and with great dignity around the edge, or if the blast is a little stronger it will spin rapidly unless the blower stops to laugh, when it is apt to fall into the open mouth below.

### A Shy Horse.

Once, long time ago, there was a man who owned a fine horse, which was very shy of an open umbrella and was not safe when he saw one.

He often thought how he could break the horse of this bad habit.

After thinking a long time he decided to put a potato on the end of a closed umbrella, as the horse was very fond of potatoes. He repeated this several mornings until the horse was not shy of it.

Then he opened the umbrella a little more each day until he could open it all the way.

But the horse's master was not sure the plan would do out of doors.

One rainy day he took the horse out of doors and, of course, he soon met some umbrellas. Instead of being frightened he went toward the umbrellas expecting to get a potato.

The horse did not get one, but when he reached home he had several.

After that he never feared an umbrella. So you see it takes kindness and patience to get along with animals.

### The Little Princesses.

There were once three princesses. Their mother, the queen, was dead, and there was going to be a new queen. Now, the question was, Who was it going to be?

Once the three princesses were sitting in the garden. The youngest one, whose name was Irene, said: "I am going to be queen. I am smarter than you are."

"No, I am," said Miriam. "I am twice as smart as you. I am older and more able to rule the people than you are."

The oldest one, Rosa, did not speak thus. She said, "I do not fight with my sisters."

The king happened to pass by the garden where they were sitting. He said, "Rosa, you are queen, because you did not fight with your sisters."

And Rosa was the queen, and a good one at that.

For eighteen years Mrs. Amos Cleaver of Reading, Pa., has been winding string into a ball until it now weighs twenty-six pounds and has a circumference of twenty-nine inches. Mrs. Cleaver's purpose is to show children what may be accomplished by saving what otherwise would be thrown away as useless.

## FOR THE HOUSEWIFE

### Caring For Supplies.

Keep roasted coffee in tin or glass and tightly covered. When exposed to the air or kept too long it loses both aroma and strength. For these reasons it should be bought in limited quantities. On the other hand, green coffee improves with age.

Store salt in a stone jar in a dry place. When desirable to keep butter any length of time wrap each roll in clean muslin, then pack in brine that will float an egg and weight down with a heavy plate.

Cover the top of the jar closely. Lard should be kept in bright tin pails or cans. Soda and baking powder should be left in the original packages and kept in a cool, dry place.

Soap should be purchased in quantities, unwrapped and stacked on a shelf to harden. When well dried out its lasting qualities are about doubled.

### Retriecession of Gums.

Tincture of myrrh may be used to harden the gums or it may be rubbed on them with a soft flannel cloth or brushed on them with a camel's hair brush. In using powder or paste on the teeth be careful to remove every particle from them, just as if it were food.

If the supply of paste or powder gives out make use of castile or some other bland white soap until dental reinforcement can be provided. Soap does not make an agreeable substitute as far as taste goes, but it is clean, and some of the prettiest, whitest teeth seem never to have been cleaned or brushed with anything except soap, with perhaps an occasional interruption of powdered charcoal.

## A Penny Saved Is A Penny Earned

A DOLLAR SPENT AT HOME  
is a Dollar That May Come Back  
to Your Purse

### Bananas and Bacon.

Chill and broil slices of bacon, then transfer it to a hot platter. Have ready two or three large ripe bananas peeled and cut into rather thick rounds. Drain off nearly all the bacon grease, return the frying pan to the fire and turn the bananas into it. Sprinkle lightly with sugar and brown the slices on both sides. Heap the bacon in the center of the platter and arrange the border of the bananas around it. Serve very hot.

### Remedy For Sties.

Sties are annoying small tumors which come upon the edges of the eyelid, and when they recur frequently are caused by some constitutional difficulty that requires internal treatment. Like fever blisters, they give warning of their coming, and if touched in time with nitrate of silver or a gold ring may sometimes be driven away.

### Cheese Straws.

Grate strong cheese till you have one-quarter of a pound, then add one-quarter pound butter, good one-quarter pound flour, a pinch of salt and a dash of cayenne pepper. Mix and roll out and cut in finger strips and bake slowly to a delicate brown.

## Notice of Stockholders' Annual Meeting

Notice is hereby given of the Annual Meeting of the stockholders of the Campbell Water Company, a corporation, to be held in this company's office, in Campbell, Santa Clara County, California on Tuesday, November 9th, 1909, at 10 o'clock p. m., for the purpose of hearing the reports of the officers, electing a board of directors to serve for the ensuing year, and to transact any other business that may properly come before that meeting.

## ORDER BY MAIL

WHY is this method of making purchases becoming more popular every day?

BECAUSE it saves time, and when trading with a first class house, it insures satisfaction.

IT is the most agreeable manner of securing your merchandise without loss of time in going to market.

IS your time worth money? If so, save the time and allow us to quote you prices or submit samples on Dry Goods, fancy Goods, Ready to wear clothing, House Furnishings, etc.

SO many people are busily engaged during the day it is impossible to make personal visits to the various stores, and to these busy folks, we are calling the attention to our efficient MAIL ORDER SERVICE.

REMEMBER that we PREPAY all Transportation charges on all mail orders.

THE CAMPBELL ROCHDALE COMPANY

# NEWS OF WEEK FROM ALL THE COAST STATES

Occurrences Along the Pacific  
Slope Presented in Com-  
pendious Array.

Passing Events Among Your Neigh-  
bors Briefly Told in Short,  
Newsy Paragraphs.

Red Bluff.—The fourteenth annual session of the Teachers' Association of Northern California was held here last week, with about 600 teachers in attendance.

San Francisco.—John Albrecht, foreman of a gang of laborers in Golden Gate park was cleanly scalped by a fall of six feet against the sharp edge of a board. Physicians are trying to restore the scalp.

Oroville.—The district convention of the Epworth League held here last week condemned high school dances as not conducive to the religious welfare of the students, and commended Sacramento's Board of Education for prohibiting dancing in the High School building in that city.

San Francisco.—George B. Chaney, wanted here for fraud since 1901 and recently arrested in Philadelphia, arrived here last week. He was held on \$3,000 bonds and taken to the Alameda county jail. Chaney organized the Standard oil investment company of San Francisco, and is charged with fleecing the public out of some \$15,000.

Winters.—When Postmaster F. C. Hemingway went to open his office a few days ago he found it had been wrecked by safe crackers during the night, the door of the safe being blown off and the contents, consisting of \$500 in coin and \$125 in stamps, being taken. A loud explosion was heard by several people about 2 o'clock in the morning, but no one seems to have investigated it.

Modesto.—Enoch Coburn, a contractor and builder in this city, who has under construction a couple of houses in Modesto, has refused to pay for a building permit and has declared his intention of contesting the right of the city to collect the same. Coburn contends that the ordinance is unconstitutional, because it prevents a man from the right of using his property as he sees fit so long as he does not interfere with the rights of his neighbors.

Spokane, Wash.—Fearing that at some time they may be called upon to take up arms against their native countries, more than a dozen alien students of the Washington state college at Pullman have petitioned that they be not required to enroll in the military department of the school. The faculty has not yet ruled on the petition. The college receives a fund from the government on condition that all students engage in military drill.

Auburn.—In order to improve the conditions of its laboring men and induce them to stay longer with their employment, Erickson & Petterson, contractors on the Southern Pacific Company's \$10,000,000 cut-off in this county, have decided to build a club and reading-rooms at each of their fifteen construction camps between Rocklin and Colfax. There will be a library and writing materials at each clubhouse, together with newspapers and magazines.

Oroville.—Jeremiah Vallentine, a pioneer of Oroville and at one time owner of a large part of the present townsite of Oroville, died at the County Infirmary, of which he had been an inmate for some time. He came to Oroville fifty years ago from Germany. Owing to his liberal nature he was repeatedly called upon by people for aid, with the result that he had to appeal to the county to support him in his declining days. He was 76 years of age.

Arroyo Grande.—The agricultural district fair, which just closed here, was such a financial and industrial success that plans are already being considered for a State fair representing the coast counties of Central California, to be held in San Luis Obispo. At the conclusion of the fair it was reported that the bean crop of this county shows more than the average yield and that the exhibit of seeds at the fair has caused the formation of a new seed company, with more likely to follow.

## MINING MAN SAYS VIRGINIA CITY MAY FALL INTO EARTH

Resting Upon Network of Old Mines in Which Timbers Are Decaying.

Reno, Nev.—That the old mining camp of Virginia City is sinking into the deep canyon on the side of which it is located, and that it has already slipped down hill eleven feet within the last few years, is the startling announcement made by Professor George J. Young, head of the mining and geological department of the University of Nevada. Professor Young states that the steady sinking is due to the old underground timbering in the Comstock mines, placed there fifty years ago, which is gradually crumbling, and is responsible for the phenomena. He also predicts a catastrophe at any moment unless steps are taken to prevent it. Only a few days ago an old "glory hole" caved in and left an opening in the ground several hundred feet in depth.

## Girl Routs Night Riders.

Lexington, Ky.—A slender girl armed with a double-barreled shotgun put to flight forty masked night riders when they broke down the door of her father's house in Mason county. The mob appeared at the home of George Kreitz, evidently with the intention of whipping him, and when entrance was refused the door was knocked in with an ax and crowbar. Kreitz's daughter stood ready with a loaded shotgun and fired both barrels. Kreitz recognized several of the riders. Several arrests have been made.

## Another Giant British Cruiser.

Devenport, England.—The Indefatigable, a larger and improved battleship cruiser of the Invincible class, was launched last week. This vessel will complete the quartet of battleship cruisers of this type designed for the British navy. The Indefatigable has a displacement of 19,000 tons, 45,000 horse-power and a planned speed of twenty-seven knots an hour. Her length is 570 feet. The battleship was laid down in January.

## School Girls Want "Rats" and "Puffs."

New York.—Two thousand girls attending the Erasmus high school, Brooklyn, held a mass meeting at which they decided to ignore an edict issued by the assistant principal prohibiting the wearing of "rats" and "puffs" in their hair. The school faculty has taken a determined stand in the matter, and it is expected that a clash will result between the pupils and the teaching staff.

## Robs a Pesthouse.

Cheyenne, Wyo.—Robbery of the pesthouse was the charge to which Frank Kowalakes pleaded guilty in court a few days ago. Not only did Kowalakes carry off the furniture and carpets, but even loaded the stoves on a wagon and conveyed the stuff to a second-hand man. Kowalakes said he found the door open and took possession.

## Duelist Forgot to Shoot.

Paris.—Henri Bernstein, the dramatist, and Francis Chevassu, a dramatic critic, fought a duel with pistols at Prince park. Neither was injured. M. Chevassu fired and missed, while Bernstein did not discharge his weapon. When he was asked later why he had not fired the dramatist replied, "I forgot to."

## Fought With Fremont.

Monterey.—Jonathan Wright, a resident of this city since 1846, is dead. He was a native of Virginia, aged 88 years. Coming to California with Fremont's regiment, he participated in all the battles fought in this vicinity and later fought in the Mexican war.

## Gold Output From Nome Increases.

Nome, Alaska.—Latest estimates of the season's gold output for the Nome district place the production at \$4,120,000. This is the largest ever secured from dredging operations on the Solomon river.

## Portola Festival Every Year.

San Francisco.—The Portola festival proved such a great success as an advertisement for San Francisco and the entire State that a movement is under way to make the event a yearly one.

## Died of Whooping Cough at 80.

New York.—John Stewart Kennedy, lawyer, financier and philanthropist, died at his home here Sunday of whooping cough. He was within two months of his eightieth birthday.

## Peddlers and Newsboys May Howl.

Chicago.—The city council killed the proposed ordinance prohibiting peddlers and newsboys from crying their wares.

# American Suffragettes Endorse Acts of British Sisters

London.—Mrs. Chapin, a suffragette, furnished an early morning thrill at the Bermondsey by-election, when she smashed a bottle containing corrosive acid on a ballot box. Her intention, evidently, was to destroy the ballots in the box as a protest against the exclusion of women from the right of franchise. What she accomplished was the painful burning of some of the election officers and the assurance of her own arrest.

About the same time a similar outrage was attempted at another booth by a girl who wore the suffragette colors. In the latter instance little damage was done. Both women were arrested.

Later, in an interview, Miss Christobel Parkhurst, while deploring this injuring of the officials, asserted with much emphasis: "It is the government that is responsible. It is the government that drives women to these acts."

It appears that this latest violence was planned by the Women's Freedom League, the members of which glory in what was done. Members of

this same league picketed the house of commons for fifteen weeks. The league's secretary is Mrs. Edith Martyn. In an interview Mrs. Martyn said: "We thought that as Premier Asquith has not shown himself amenable to our requests, the time had come to take more active measures."

Des Moines, Iowa.—The Iowa Equal Suffrage Association adopted resolutions favoring the methods adopted by the suffragettes of England.

"The day for passive methods are past," declared the president, Rev. Eleanor Gordon of Des Moines. "I am for adopting more radical methods."

"And I," added Mrs. Julia Clark Hallam, "would go to jail for the suffragette cause. But if I were arrested, I would resist the officer to the last."

The resolution follows: Resolved, that the women of the Iowa Equal Suffrage Association, wishing to strengthen the cause, do endorse obstructive methods in the legislature, and do further

Resolve, that arrangements be perfected to carry out such methods.

# Beneath Official Dignity to Pay for Water and Phone

Honolulu.—Mayor Joe Fern, chief executive of the city of Honolulu, he who proudly wears in his lower jaw two teeth that he picked from the crumbling skull of his long deceased grandmother, is to be sued by the Superintendent of Public Works for \$300 back water rates.

Mayor Fern does not believe the head of the city and county government should be required to pay water rates, telephone rates and such other obligations as the ordinary citizen has to pay. He thinks the Mayor should be above such trifling things, and he consistently refuses to pungle up for any of them. The telephone company has had to take out his telephone because he announced that the Mayor should not be required to pay a telephone bill.

As a consequence, Fern started a fight against the telephone company and succeeded in getting the Board of Supervisors to turn down a contract with the company which was all ready to be signed and which the city

fathers had agreed to adopt. The consequence of this act will be serious, for it means that the courts will be called upon to decide whether the city and county or the Territory owns the streets of Honolulu, and in the suit a question will be raised as to the validity of the county act, by authority of which the Territory has been divided into counties.

There is said to be a flaw in the county act which has hitherto been carefully ignored, as no one was anxious to have the act declared invalid, but this flaw will now be pointed out, and it is more than possible that county government in Hawaii will be knocked out and the islands will revert to the old form of government under which the territory had control of all public works of whatsoever character.

And all this, it is said, because the telephone company sent Mayor Fern a bill for \$50 for his own private phone, contrary to the peace and dignity of his honor the Mayor.

# Rockefeller Gives a Million to Fight Sloth Germ

New York.—A gift of \$1,000,000 by John D. Rockefeller to fight the "hook worm disease" was announced at the office of the Standard Oil Company here.

A dozen well known educators and scientists, selected in large part from institutions of learning in the south, where the parasite is prevalent, were called in conference with Rockefeller's representatives, and at that meeting Rockefeller's desire to organize a commission to carry on a campaign against the malady was discussed. As a result, the Rockefeller commission for the eradication of the hook worm disease was organized.

"Two millions of our people are infected with this parasite," these men said. "It is by no means confined to one class."

The "hook worm," according to New York medical authorities, is a hairlike parasite, to which is charged a form of anemia, prevalent especially among the poor people of the south.

Dr. Charles Wardell Stiles says that the so-called "laziness" and "shiftlessness" widely observed in certain portions of the south was a specific disease due to the "hook worm."

# Industrious Hen is Country's Great Wealth Producer

Topeka, Kas. — Statistics prepared by the United States Board of Agriculture show that the earnings of poultry in the United States in one year were greater than the value of either the cotton crop, the wheat crop or the swine output. The last report of the department showed that the value of the egg output for a single year amounted to more than \$290,000,000. Twelve years ago the farmers of Kansas began to pay more attention to their poultry, and this State has become the greatest poultry

State in the Union. The product of the hen is rapidly paying off the mortgages on many farms and the business has reached a point where the laying capacity and profit in hens is the paramount question. The State Agricultural College is conducting interesting experiments with poultry, and a recent report shows that the cost of keeping nine hens eight months was \$8.81, whereas the eggs laid in the same period brought in \$26.56, leaving a profit of \$17.75, or \$1.61 for each hen.

# Pallbearers Organize and Will Fight Rate Cutters

Denver.—Alarmed at the dastardly action of the "amateurs" in cutting the regulation fee to 25 cents, their habitual funeral expression deepened by the attack on their pockets, the professional pall-bearers of Denver, hang around the coroner's office to aid in the last rites to the friendless dead, are about to join the ranks of organized labor.

The regulation price for assisting the unclaimed to the grave has been 50 cents, but a few days ago newcomers in the profession cut the rate to 25 cents. The first funeral conducted under the new rate was interrupted by muttered cries of "scab" from the professional pall-bearers, and was followed by energetic personal encounters. Stopped by the police from active measures against the amateurs, the professionals have decided that a union offers the only adequate protection to their profession.

## DEATH DECIMATING RANKS OF FAMOUS OLD SOLDIERS

Taps Sounded for Seven Veterans Who Led in Their Country's Wars.

Washington.—The death rate among the general officers of the army, retired, during the last few weeks far exceeds that of any other period of equal length in the history of the country, and is spoken of as "startling" by the elder officers.

No fewer than seven general officers have died within a few weeks. These were Lieutenant-General Henry C. Corbin, 67 years of age; Major-General Elwell S. Otis, 71; Major-General Alfred E. Bates, 67; Major-General O. O. Howard, 79; Major-General Robert P. Hughes, 70; Brigadier-General R. C. Drum, 84, and Brigadier-General Alfred S. Kimball, 69.

Within the seven weeks there have been a number of deaths among officers of lower rank, including Major Theodore A. Dodge.

## Judge Beats Accused Before Trial.

Quincy.—Justice of the Peace W. P. McHagar of this place administered two kinds of justice to A. A. Bonney, who was accused by the Judge's little girl of misconduct toward her on a lonely path near the county hospital. McHagar gave Bonney a fearful beating, marks of which he will bear for a long time. This was done by McHagar as a citizen and father of the girl who had been mistreated. Then, as Judge, he ordered Bonney to leave Quincy and Plumas county and never return.

## Punished for Wife Desertion.

Los Angeles. — "The maximum penalty for this offense is too light for you in this case." With those words Judge Willis sentenced Neil B. Derry to two years in Folsom for wife desertion, the first sentence to be imposed in this county under the new law making that offense punishable by a term in the penitentiary. It was shown that Derry not only deserted his destitute young wife, but ran away with another woman.

## Five Children Burned to Death.

Lynchburg, Va.—Five children were burned to death in a fire which destroyed part of the Presbyterian Orphan's Home near here. The fire was discovered by Mrs. Priest, the cook, in the basement. She rushed to the third story and brought 15 children down to the second floor. When these children were all safe, Mrs. Priest had to jump for her life, and was badly injured.

## Heinze Must Go to Prison.

New York.—Arthur P. Heinze, who was convicted last June of advising a witness in the United Copper Company investigation to evade the service of a grand jury subpoena, was ordered by the United States Circuit Court to pay a fine of \$250 and be imprisoned ten days in the New York City prison. Judge Ray declined to grant a stay.

## Prison for Bigamist Preacher.

Walla Walla, Wash.—Rev. Frederick H. Ward, pastor of the Baptist Church at Freewater, Or., pleaded guilty to bigamy and was sentenced to five years in the Washington State Penitentiary. Ward admitted having wives in North Carolina, Tennessee and Kentucky, besides the one whom he recently married in Oregon.

## Lived Away Beyond Century.

Napa.—Sonobia Amorisco, a Mexican born of Spanish parents, who for over sixty years had been a well-known character in this city, is dead. Although not even the aged man knew when he was born, he was reputed to be between 115 and 120 years old.

## German Aviator's Success.

Potsdam.—Captain Englehardy, a pupil of Orville Wright, the other day made a flight lasting forty-four minutes and thirty seconds. This is the longest flight, unaccompanied, that has been made by a German aviator.

## Death Rather Than Disgrace.

New York.—William H. Purdy, manager of the Grosvenor hotel, chose death rather than face the consequences of a shortage of several thousand dollars. Purdy's body was found in his room.

## Celebrate Opening of Highway.

Point Richmond.—In celebration of the opening of Macdonald avenue a festa will be held November 20. The highway has been improved at heavy expense.

## To Relieve Stricken Mexicans.

Mexico City.—The government will advance \$1,000,000 to alleviate the sufferings caused by the corn famine among the poorer classes.

# PITHY RESUME OF EVENTS OF ENTIRE WORLD

Brief Paragraphs That Give Busy Readers Review of Week's Happenings.

Summary of News Gathered by Correspondents Located in Every Quarter of the Globe.

Salt Lake City.—Every milk cow in Utah is to undergo the tuberculin test, and all having tuberculosis will be killed.

Colorado Springs, Colo.—Woodland Park, between here and Cripple Creek, is attracting prospectors from both cities as a result of reported valuable gold and radium ore discoveries.

New York.—For the quarter ending September 30th the total earnings of the United States Steel Corporation were \$38,246,907. The directors report unfilled orders on hand September 30th of 4,796,833 tons.

San Antonio, Tex.—If the plans of Wu Ting Fang, Chinese minister to the United States, work out, Chinese colonies probably will be established in Texas. The minister is enthusiastic over the possibilities of rice growing here.

Albuquerque, N. M.—Governor Geo. Curry states that he has forwarded his resignation to Washington and that it will probably take effect next March. He gives as his reason for this action the necessity of attending to his private business.

L'Orient France.—The 18,000-ton turbine battleship Mirabeau was launched here last week. The Mirabeau is one of six battleships ordered, the construction of which was given by the Minister of Marine in 1906. The battleship has a speed of nineteen knots.

Denver.—This city has a divorcee's club. Thirty women are enrolled and a constitution and by-laws have been adopted and officers chosen. One of the qualifications for membership, it is said, is that applicants must be regular recipients of \$100 a month alimony.

Burlington, Vt.—General Oliver O. Howard, last of the Union commanders of the Civil War, died at his home here of heart disease. He was 79 years old. Including General Howard's services in the Indian wars, he probably was in more engagements than any other officer in the United States Army.

Honolulu.—The Young Men's Christian Association of Honolulu and a citizen's committee appointed to assist the organization made a campaign for funds with which to erect a fine association building. In six days subscriptions aggregating \$142,737 were received, and the work of securing a site and erecting the building will be begun at once.

Austin, Tex.—Judge Calhoun of the District Court here entered an order assessing the Security Oil Company with penalties of \$50 a day from July 23d, 1903, to November 6th, 1907, when an injunction was issued stopping an alleged violation of the anti-trust law. The fine aggregates \$75,000. The charter was cancelled and the company perpetually enjoined from doing business in the State.

Omaha, Neb.—Equal suffrage advocates did not get much comfort from the platform adopted at the national W. C. T. U. convention in this city last week. This is how the question was disposed of: "We affirm that the ballot may be an incentive to good citizenship. We believe that the qualifications for suffrage should be based upon intelligence, not upon sex or any other insurmountable obstacles."

Cincinnati, O.—The E. O. Eshelby tobacco company of this city, where E. O. Eshelby is proprietor of the Cincinnati Commercial Tribune, entered suit against the Burley tobacco society for \$196,000 damages. The petition alleges that the Eshelby tobacco company was compelled by a conspiracy in restraint of trade to buy all its burley tobacco of the Burley society, or do without burley, thus sustaining great loss.

Paris.—The will of Francisco Ferrer, who was executed at Barcelona for conspiracy against the government of Spain, has been published here. It charges the executor to continue the publication of Ferrer's works on modern schools and education. The testator stated that history would vindicate his innocence, but he abjured his friends not to bother about his memory, as "in this life only acts count." He added the regret that his body could not be cremated.

### Little Soldiers

In your blood are the millions of corpuscles that defend you against disease.

To make and keep these little soldiers healthy and strong, is simply to make and keep the blood of the right quality and quantity.

This is just what Hood's Sarsaparilla does—it helps the little soldiers in your blood to fight disease for you.

It cures scrofula, eczema, eruptions, catarrh, rheumatism, anemia, nervousness, dyspepsia, general debility, and builds up the whole system.

### Sperry's Flour

SPERRY QUALITY CEREALS

### American-Hawaiian Steamship Company

TEHUANTEPEC ROUTE (Freight Only)

New York to Pacific Coast Ports and Hawaiian Islands Sailings every Saturday.

Seattle, Tacoma and San Francisco to New York, sailing about every 14 days; also taking freight for Mexican and European ports under through rates and through bills of lading.

Local Service—San Francisco to Hawaiian Ports

DEARBORN & LAPHAM  
General Agents, 8 Bridge Street, New York  
WILLIAMS, DIMOND & CO.  
Gen'l Agts, Pacific Coast, 310 Sansome St., S. F.

When writing advertisers, please mention this paper

### The New Flavor Mapleine

(Flavor of Maple)

A flavoring used the same as lemon or vanilla. By dissolving granulated sugar in water and adding Mapleine, a delicious syrup is made and a syrup better than maple. Mapleine is sold by grocers. If not send 3c for 2 oz. bottle and recipe book.

CRESCENT MFG. CO. Seattle, Wash.

### Greatest Cigar in America ROCKY FORD

Yours truly THE NEW SO CIGAR

At your dealer's, or 25 will be sent for \$1.25, post prepaid

M. BLASKOWER  
San Francisco Distributor

### Save the Baby—Use PISO'S CURE

THE BEST MEDICINE FOR COUGHS AND COLDS

Should be given at once when the little one coughs. It heals the delicate throat and protects the lungs from infection—guaranteed safe and very palatable.

All Druggists, 25 cents.

Howard E. Burton, Assayer and Chemist, Leadville, Colorado. Specimen prices: Gold, Silver, Lead, \$1.00; Gold, Silver, Zinc, Copper, \$1.00. Mailing Envelopes and full price list sent on application. Control and Empire work solicited. Reference: Carbonate National Bank.

When writing advertisers, please mention this paper

### "THE OLD RELIABLE" PLANTEN'S C & C OR BLACK CAPSULES

FOR CATARRH OF THE BLADDER, URINARY DISCHARGES ETC.

### SPEEDING THE MESSENGER BOY.

One Plan Among Many the Postal Telegraph Company Has Adopted.

The extinction of the messenger-boy joke is threatened. According to the man who said so last night the reason for it already has disappeared, for according to this informant the legs of 3,000 bearers of telegrams in this city are moving these days as they haven't moved before since the invention of the Morse code.

The explanation is that the Postal Telegraph Company has been installing a new speed system, the New York Sun says. The company wanted to fix it so a person could send a message and get an answer in much quicker time than the public has been accustomed to. To do that it started jacking up the part of the machinery where the most time was wasted, which part, the company cheerfully admits, was the procrastinating messenger boy.

Hereafter the boy will have only one message at a time to care for instead of the bundle that used to be entrusted to him in the populous parts of town. He will have five minutes in which to deliver his telegram or answer his call and get back to his office. If he does the job in the five minutes he will get half a cent extra message. If he fails he must explain to his boss. It's the extra half cent that is expected to effect the boy's conversion from the sinful state of remissness which has brought him to the attention of the comic papers.

A scheme for expediting traffic in the telegraph offices also has been adopted. Heretofore your message, be it ever so urgent, has passed through a dozen hands before it reached the man who put it on the wire. Some of those hands were overburdened and the method of getting the message to the proper operator was clumsy. Under the new system three persons at the most will finger a dispatch. The clerk who receives it from the sender will fire it through a tube to the operating room and the man at the other end of the tube will hand it straight to the operator on the proper wire.

Formerly the operators were scattered around the big room in the Postal building and the messages went through an elaborate process of sorting and pigeonholing before they were distributed to the right men. Now the telegraphers who file for the big cities are seated at a table in the form of a hollow square. In the middle of the square stands the man who gets the slips from the tube. The second he gets a message for somebody in Chicago, say, he hands it to the chap who is running a Chicago wire, and in another second it is being transmitted. If a message is delayed more than five minutes in the operating room the man in charge is called to account.

The Postal official who broke the news to the Sun last night said the average time from the moment a messenger is called for in New York to the moment a message is delivered in Chicago is fifteen minutes. Word can be rushed to Los Angeles and back in forty minutes, and other cities in proportion.

### Why? Because it is annoying, untidy. And mostly, because it almost invariably leads to baldness. Cure it, and save your hair. Get more, too, at the same time. All easily done with Ayer's Hair Vigor, new improved formula. Stop this formation of dandruff!

Does not change the color of the hair.

Formula with each bottle

Show it to your doctor

Ask him about it, then do as he says

Ayer's

The new Ayer's Hair Vigor will certainly do this work, because, first of all, it destroys the germs which are the original cause of dandruff. Having given this aid, nature completes the cure. The scalp is restored to a perfectly healthy condition

Made by the J. C. Ayer Co., Lowell, Mass.

Four hundred leading German sugar refiners and beet growers have formed an association to increase the consumption of sugar in that country, which uses less per capita than most other civilized nations.

A BARGAIN IN PENS

A box containing 144 highest grade steel pens, completely assorted, for 60c, post prepaid. Regular price, \$1.50 per box. Schwabacher-Frey Stationery Co., 42 Sutter Street, San Francisco.

When money is the only egg in the nest, misery is the only bird in the nest.

WALL PAPER

We carry the largest stock of Wall Paper on the Coast. Send for prices and samples. Window Shades, House Linings, Room Mouldings, Linerusts, Paints, Oils, etc. Try our celebrated Granite Damp-proof Roof Paint, 65c per gal. Country orders a specialty. John Quadt Co., 1499 Market St., S. F. Phone Market 695.

About 600 patents are granted each year to British women upon inventions ranging from articles distinctly feminine in nature to motors, railroad cars, flying machines and wireless telegraphy.

SPECIAL NOTICE

To introduce our Reversible Leather and Corduroy Coat, genuine calfskin, high collar, plenty pockets, we will prepare the expressage anywhere in California. Price \$35.00. G. J. Heeseman, The Storm Coat Man, Oakland. Send for catalogue.

It's easy to sit on your cracker barrel and tell the Czar what he ought to do on his powder-barrel.

Men never give flattery outright; it is always a loan.

MAKE YOUR HEADQUARTERS

at the Grand Central Hotel, Market and Tenth streets, San Francisco. Elevator, steam heat, hot and cold water, telephones in every room. First-class cafe in connection. Rates, \$1.00 per day and up. Haight, Market and Valencia street cars from the Ferry stop at the door.

When you pray for rain buy rubbers.

Bread a failure last time? Take no chances—use Port Costa Flour.

A girl can be so sure of her looks that she would know her eyes were blue if they were green.

PHONOGRAPHS

Victor and Edison Phonographs sold on easy payments. Write for free catalogues and terms. Oakland Phonograph Company, 472 Eleventh St., Oakland, California.

Some men know a lot more about hog culture than they do about their children.

Tea at 4 o'clock or any other time tastes better if it's Alta brand.

A man's wealth depends not so much on what he has as on what he could do without.

All Who Would Enjoy

good health, with its blessings, must understand, quite clearly, that it involves the question of right living with all the term implies. With proper knowledge of what is best, each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to living aright. Then the use of medicines may be dispensed to advantage, but under ordinary conditions in many instances a simple, wholesome remedy may be invaluable if taken at the proper time and the California Fig Syrup Co. holds that it is alike important to present the subject truthfully and to supply the one perfect laxative to those desiring it.

Consequently, the Company's Syrup of Figs and Elixir of Senna gives general satisfaction. To get its beneficial effects buy the genuine, manufactured by the California Fig Syrup Co. only, and for sale by all leading druggists.

A Creditable Record.

Miami University at Oxford, Ohio, which will soon celebrate its 100th anniversary, has given to the country 1 President, Benjamin Harrison; 8 Governors of States, 3 cabinet officers, 6 foreign ambassadors, 7 United States Senators, 23 United States representatives, 53 Federal and State judges, 30 college presidents and a host of other distinguished men. Gen. Robert Cumming Schenck, of the class of 1827, was one of the greatest speakers the House of Representatives has ever had. Oliver P. Morton, the famous war Governor of Indiana; Calvin S. Brice, United States Senator and capitalist, and Stanley Matthews, chief justice of the United States, were Miami graduates.

Taking into consideration the proportionate weight, the wing of a bird is twenty times stronger than the arm of a man.

It Cures While You Walk.

Allen's Foot-Paste is a certain cure for hot, sweating, callus, and swollen, aching feet. Sold by all Druggists. Price 25c. Don't accept any substitute. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y.

The distribution of samples of patent or proprietary medicines from door to door in a public place or by mail is prohibited by a new Canadian law, which went into effect on April 1st.

No spice quite so good as Jones-Paddock Company's Alta brand.

Patronize the merchant who advertises. Carefully read all the ads in this paper. You will find many bargains.

Nothing Funny About It.

Scene—A druggist's shop in a small Scotch village, which, as usual with druggist's shops similarly situated, is the general emporium for all sorts of merchandise. Traveling tourist enters and purchases a cigar, after lighting which he attempts to draw the proprietor into conversation, but the latter seems reticent.

The tourist, after passing some remarks on the weather, asked: "Don't you feel trade dull at times in this little village, chemist?"

"Oh, well," replied the druggist, "I canna complain. But, excuse me, maister. I dinna alloo smokin' in my shop."

"Indeed!" said the tourist. "That is strange. You sell tobacco and cigars and still don't permit smoking in your shop. It is really rather funny."

"Ou, man," was the reply, "there's naething funny about it. I sell arsenic, but I dinna alloo ye to commit suicide in my shop!"

Door Plates Out of Fashion.

"Door plates are going out of fashion," said a man whose business it is to make plates of all kinds. "Twenty years ago every man of prominence had his name graven upon a plate and that plate affixed to his front door, that all might know who dwelt within. The daily task of the negro houseman was to rub the door plate until it shone. It took the place of the lares and penates of the Romans, and was attended to just as carefully as were the ancient household gods.

"Everything is changed now, though. I suppose the reason is that people don't have homes as they used to. They simply live in houses and apartments and move around so much that a door plate couldn't possibly endure the peripatetic existence. A collection of brass door plates screwed to the portal of a big apartment building would, I confess, look odd."—Louisville Courier-Journal.

Victorious Even Unto Death.

As most of us know, P. T. Barnum died but a few months after his competitor in the "show" business, Adam Forepaugh.

When Barnum arrived at the party gates he was welcomed by Forepaugh, who exclaimed exultingly, "Well, Pete, I got ahead of you this time!"

P. T. did not answer, but smiled as he pointed to a large bill posted near the main entrance. It read: "Wait for Barnum—Coming Soon."—Success Magazine.

Life is a road and he who rests is likely to be run over.

If it's Your Eye Use Pettit's Eye-Salve for inflammation, styes, itching lids, eye aches, defects of vision and sensitive to strong lights. All druggists or Howard Bros.

Life's darkest roads oft lead to its brightest prospects.

Seed Grain, Black and Red Oats, etc., Grain and Bean Screenings for stock and poultry, for sale at lowest rates. Cash buyers of Grain and Beans. Send us your samples. Correspondence invited. Bray Brothers, 220 Clay St., S. F. Established here in 1855. Members S. F. Merchants' Exchange.

People who ride the high horse will wear the big bandage.

Better be sure than sorry. Avoid disappointment by buying the famous Dan Sully five cent cigar. For sale everywhere.

The United States imported \$65,021,066 worth of raw silk in 1908, as against \$73,000,000 the previous year. Most of it came from Japan, with Italy in second place each year.

Stop guessing! Try the best and most certain remedy for all painful ailments—Hamlin's Wizard Oil. The way it relieves all soreness from sprains, cuts, wounds, burns, scalds, etc., is wonderful.

Calcutta is to spend nearly \$500,000 for a 9,000,000-gallon tank for its filtered water supply. The tank will be elevated 100 feet above the ground on steel columns.

We can sell your live and dressed poultry, butter and eggs, at better prices than you can get from your local market. Our charges are 6%. No cartage. If you do not know us, draw draft for 75% value of your shipment. HARBAUGH CO., Inc., 260 Davis street, San Francisco.

Jones-Paddock Company's Alta Flavoring Extracts possess the true flavor of the fruit.

### Cure Your Dandruff

Why? Because it is annoying, untidy. And mostly, because it almost invariably leads to baldness. Cure it, and save your hair. Get more, too, at the same time. All easily done with Ayer's Hair Vigor, new improved formula. Stop this formation of dandruff!

Made by the J. C. Ayer Co., Lowell, Mass.

Those that are trained like vines certainly possess a distinctive decorative value. In the old days every estate in England worth while had a specimen box tree—a superior example of topiary work—which was pruned to resemble Queen Elizabeth.

In the poor man's garden abroad a trained fruit tree finds its greatest usefulness. No garden is too small for a few trees. The peasant, with a scant six inches or a foot between his walk and his neighbor's fence, still has room to plant a tree and train it against a lattice. While the necessity for maximum returns from minimum acres is not a part of our national point of view, the possibility of the training of trees as a hobby has been very much overlooked.

In Germany you can buy a tree to measure to fill in any space on your garden wall or house, just as we buy a ready-made suit of clothes. While the training of fruit trees has become popular only within ten years, the Formobstbaumschulen, or schools where trees are trained, are now to be found everywhere in Germany. There are commercial nurseries where experts in espalier work are constantly making new forms and creating new marvels. Certain shapes have become standard, such as pyramids, cordons palmottes and so on.

There are practically no nurseries in America that have taken up the propagation and sale of trained fruit trees in a serious way, and there is almost no American literature on the subject; consequently one who wishes to take this work as a hobby will be forced to Germany, France or England for his inspiration and for his stock.

King Edward's Hats.

The king, besides setting the fashion in the wearing of hats is an inventor of head gear. In an entertaining little book called "Hints on Hats," written in 1865 by Henry Melton, the royal hatter of the period, assisted by George Augustus Sala, a felt hat is described and illustrated which was designed by the king, then Prince of Wales, as an improvement on the round crowned hats then in vogue, the London Daily News says.

In shape it very much resembles the soft felts of the present day, but was covered with plaid of the same color as the shooting suit it was to accompany.

At this time the majority of hats were made very heavy and strong. The Earl of Harrington, for instance, whose life had once been saved through his wearing a particularly hard hat in the hunting field, used to test the quality of his hats by standing on them and rejected any that could not bear his weight without a dent.

He was particularly sensitive about their color, and his eccentricity led him to adapt his taste in that particular to the object he had in view. When walking in the garden, says Mr. Melton, he would wear a sage green hat, so as not to frighten the birds.

How to be happy though married. Use Port Costa Flour.

The chief reason a man believes in old-fashioned whipping for the children is his wife doesn't.

### TREES IN ALL SHAPES.

They May Be Made to Fit Any Space or to Take Any Form.

An expert can make a vine of art apple or a pear tree, a tree of goose berry or currant bush, or a snake of either, says Country Life in America. He will twist, pinch and fondle the descendant of some mighty apple tree with its gnarled branches and its forty-foot spread, measuring, planning and nursing until, instead of assuming the shape of its parent, it will grow to fit some space on the side of his house, hugging the wall like a vine or possibly will form a screen to hide his kitchen porch.

In the rich man's garden abroad we see all sorts of curious forms to which fruit trees have been trained. Some are beautiful, some are freakish, but all are wonderful. In vases, lyres shields, crests, monograms, soldiers beautiful maidens the apple or pear tree and the currant bush lose their identity.

Those that are trained like vines certainly possess a distinctive decorative value. In the old days every estate in England worth while had a specimen box tree—a superior example of topiary work—which was pruned to resemble Queen Elizabeth.

In the poor man's garden abroad a trained fruit tree finds its greatest usefulness. No garden is too small for a few trees. The peasant, with a scant six inches or a foot between his walk and his neighbor's fence, still has room to plant a tree and train it against a lattice. While the necessity for maximum returns from minimum acres is not a part of our national point of view, the possibility of the training of trees as a hobby has been very much overlooked.

In Germany you can buy a tree to measure to fill in any space on your garden wall or house, just as we buy a ready-made suit of clothes. While the training of fruit trees has become popular only within ten years, the Formobstbaumschulen, or schools where trees are trained, are now to be found everywhere in Germany. There are commercial nurseries where experts in espalier work are constantly making new forms and creating new marvels. Certain shapes have become standard, such as pyramids, cordons palmottes and so on.

There are practically no nurseries in America that have taken up the propagation and sale of trained fruit trees in a serious way, and there is almost no American literature on the subject; consequently one who wishes to take this work as a hobby will be forced to Germany, France or England for his inspiration and for his stock.

**A Woman Wants The Home Paper**  
MAKE HER HAPPY BY TAKING IT THE YEAR ROUND

The reason why so many men never get used to wearing their sets of false teeth is that they put them in their vest pocket at mealtimes, under their pillow when asleep and most anywhere when at work.

The next worst thing to occupying a lot in the cemetery is for the boy from eight to sixteen to get snagged with the cigarette habit. Fact is, he is a more useful member of society in the former than in the latter capacity.

Instead of driving around a wagon or cart with milk in large cans, the Italian milk vender drives his flock of goats from house to house and milks as much as his patron may want. Milk delivered in this way has the merit of being fresh and undiluted.

Milk production is had at cheapest cost when pastures are flush in the early summer. The recognized best and cheapest substitute for pasture grass is ensilage. If this is to be taken advantage of the coming winter the plans for the silo should be looked up now.

**Washing Pink Garments.**  
The following is a good plan for keeping pink in garments that extremely perishable color. Pour boiling water over a piece of red cheesecloth, let it stand for a few minutes till the color is all out of the cheesecloth, then pour the dye into a pail of cold water and, after washing and thoroughly rinsing the garment, put it into the dye water and allow it to remain for an hour. Then wring it out and hang it to dry. No matter how old and faded the material, this method gives it a perfectly even coloring.

**Combination Chair.**  
The combination dining chair for infants and adults herewith shown is a high chair possessing all the practical features of the ordinary dining chair. It looks like and is an ordinary dining chair when folded, but simply lifts

ing back the seat converts it into a high chair of the standard height, tray and all. When in the latter position the infant's seat is supported by steel bars of the Jack-in-the-box type, and that is what the chair really is.—Popular Mechanics.

**Baby's Bath tub.**  
A fine substitute for the expensive rubber bath tubs for infants may be made from a yard of rubber sheeting and a clothes basket. Saw off the handles from the basket; take heavy rubber sheeting and cover the top of the basket, leaving a depression in the sheeting. Use a rope and staple to fasten it to the outside rim of the basket. In this improvised bath tub the smallest infant may be laid for a bath with no danger of slipping.

**TAXES 1909**

OFFICE OF THE TAX COLLECTOR, County of Santa Clara, Cal. San Jose, October 5, 1909.  
Notice is hereby given that the taxes for the year 1909 will become due and payable OCTOBER 11.

FIRST INSTALLMENT—Taxes on all personal property, a lien on or secured by land, all special taxes and one-half of the taxes on all real property are delinquent on NOVEMBER 29, 1909, at 6 O'CLOCK P. M. when 15 per cent will be added to all of said first installment remaining unpaid.

SECOND INSTALLMENT—The remaining one-half of taxes on all real property will be due and payable JANUARY 3, 1910, and delinquent APRIL 25, 1910, when 5 per cent will be added to all taxes remaining unpaid.

For the purpose of receiving taxes I will be in the several Townships of the County as follows:

**CAMPBELL DISTRICT**  
At the Bank of Campbell, in the town of Campbell, on Wednesday, October 20, 1909.

And at my office in the Court House of San Jose daily, Sundays and legal holidays excepted, from nine a. m. to 5 p. m. to and including Monday, NOVEMBER 29, 1909, and MONDAY, APRIL 25, 1910 at 6 O'CLOCK P. M.

The Second Installment of Taxes is Payable at My Office in the Court House in San Jose.

WM. A. JANUARY  
Tax Collector of Santa Clara County.

**CAMPBELL (THE ORCHARD CITY)**  
Lies 50 miles south of San Francisco, on the Santa Cruz Division of the Southern Pacific Railway, and is the central point of the most fruitful, diversified and scenic section of the famous Santa Clara Valley. Superb electric car service places it within but a few minutes' ride of San Jose, the metropolis of the valley, Los Gatos, the Gem City of the foothills, Congress Springs, the medicinal virtue of which waters is unexcelled; Saratoga another beautiful foothill city, and as you ride past and through the thousands of orchard and vineyard homes, and merge into the picturesque canyons of the foothills but exclaim: "This is a goodly heritage!"

**SCENERY SUPERB**  
With the Santa Cruz Mountains to the west and south and the Coast Range on the east, a majestic amphitheater is formed, the beauty of which can not be excelled anywhere. Campbell has an altitude of 195 feet. The cool breezes from San Francisco bay at the north insure an even and comfortable temperature throughout the summer months, while the winters are warm and pleasant. Flowers bloom out of doors the year around.

**FINE ROADS AND RESORTS**  
The Santa Clara Valley boasts of the finest roads to be found in the State. It has over 350 miles of sprinkled rural highways. In attractions for tourists the Santa Clara Valley can not be surpassed. Thirty-two miles eastward over a magnificent mountain road is the famous Lick Observatory on Mt. Hamilton, 4,444 feet above sea level. There are numerous mountain retreats within two hours' drive for those who love the camp and the sparkling brook. The sea beach to the southwest 27 miles by rail or carriage drive, and through the most beautiful mountain scenery in the world. A trip to the Big Trees, twenty feet in diameter and two thousand years old, will furnish a delightful day's outing.

**EDUCATIONAL ADVANTAGES**  
Campbell has a population of about 600. It maintains a (third class) postoffice which distributes to 3,000 patrons, covering over 30 square miles of orchard homes. There are two churches—Methodist and Congregational, a first-class High School and two Graded Schools, and within a few miles are two Universities, two Colleges, a State Normal School and several Business Colleges and private schools. The Stanford University, with its marvelous architecture, is only 20 miles away.

**NO SALOONS**  
Campbell has a complete water system of its own. It has electric lights and power for mechanical purposes, which is distributed throughout the orchard district. A telephone exchange serves over 40,000 people. A prohibitory clause in all deeds to property within the town limits, prevents the saloon from being established.

**BUSINESS INTERESTS**  
Campbell has the largest fruit packing and drying establishment in the world, the best equipped cannery on the coast, catering to the highest class export trade, a fruit syrup establishment, lumber yards, planning mill and stores of all kinds. It also has a weekly newspaper and modern job printing plant. The Bank of Campbell, with individual deposits amounting to a quarter of a million dollars, is a fair indication of the prosperity of the community.

**FRUIT CENTER**  
Campbell is pre-eminently a fruit center, and offers unusual opportunities for profitable investment, whether it be a large commercial orchard, a chicken ranch, or a small orchard home adapted to those who want to earn a few hundred dollars a year to supplement a limited income on annuity. The Campbell fruit district is noted for the quality of its fruit, and for this reason has become a trade center. The man with a few boxes of fruit has the same opportunities for selling his products as the man with many tons. Our large packing and drying establishments will have their agents at your door before the fruit begins to color.

**INTERURBAN CONDITIONS**  
Campbell is neither urban nor suburban, but in fact, as well as in name, an Orchard City—a city of orchard homes, with all the conveniences necessary for 20th century comfort. The demand for intelligent labor is increasing every year, and families desiring profitable employment in orchards, packing houses and canneries find this an ideal home.

**LAND VALUES MODERATE**  
Acreage can be secured at various prices. Bare land, suitable for chicken ranch, hay, grain or vineyard, can be secured for \$100 per acre. Productive orchards sell for from \$300 to \$500 per acre, depending on the record of the orchard for productivity. In buying an orchard here you do not buy a "pig in a poke"—facts and figures will be given you, showing what returns can reasonably be expected from your investment.
