Please Read Before Ordering

ORDER EARLY. This suggestion is made to avoid disappointment in case that later in the season a variety may be sold out. We reserve the right to accept or refuse an order or any part thereof, depending on quantity of stock and whether at shipping time it is in condition to be sent.

All our varieties are true to name, but, if in shipping an error is made, we will be glad to rectify mistakes, either by supplying true stock or cash refund, which ever in our judgment seems best.

TERMS. Money with order. Make checks or Money Orders payable to the

Fairmount Iris Gardens

We pay postage on all orders in U. S. A. that amount to \$2.50, or over. We also allow a discount of 10% on all orders of \$50.00 or more, except new varieties that are listed at net. We ship after blooming season until late Oct.; Beardless irises may be shipped in spring if so desired, all other stock listed will be shipped at proper time. We do not guarantee growth of plants in your garden; that rests with your ability. We do however guarantee good healthy stock and that it should reach you in good condition; any time a customer upon opening a package finds defective plants, he may at once ship them to us at our expense and his money be refunded. Our success depends on your satisfaction and we shall be glad to correct any error.

Join the American Iris Society

Four special bulletins are issued each year, which are filled with valuable information. These are sent to each member.

For every new membership fee of \$3.00 which is enclosed with order for irises amounting to \$2.50 or more, I will send an additional value to the amount of \$1.00, my selection. Checks for membership payable to,

MRS. THOMAS NESMITH

166 FAIRMOUNT STREET
LOWELL, MASSACHUSETTS

.. Foreword ..

Each year a finer discernment is being shown in the selection of outdoor plants, and we are acquiring a new standard by which to judge our gardens. A few years ago it would have been impossible to have a successive array of pleasing color from early spring until late fall, but now with careful selection, we may have flowers in harmonious groups throughout the season.

The Bearded Irises have seen great advancement within the last few years and we find many new and lovely hybrids in every shade and height, but to such an extent has this breeding and introduction been carried on, that we must go slowly and not believe all the glowing descriptions we may read, but see and judge them before we make our choice.

Last year, I visited the gardens of many of our breeders and growers and saw most of the new irises at their height of bloom. One of the most delightful excursions was to Nashville, Tennessee, where I saw the irises of three famous hybridizers and had the pleasure of assisting in the selection of irises for introduction, others being chosen for further observation, many of these as well as others from various breeders are in my garden for exhibition and may be judged, not only by the layman, but by the especial judges appointed by the American Iris Society.

After these various iris visits, I made a careful selection of those I felt were especially desirable, and you will find most of them blooming in my garden and described in this catalogue.

To such a great degree have the tall Bearded Irises been heralded that many other excellent varieties have been neglected, and I feel that we should add many of the less familiar ones to our gardens, not alone for their beauty, but for the distinct element of interest in prolonging the season of iris bloom. Indeed it is a wonder, that so many have been slow to realize the added charm these will provide.

The Fall Blooming Bearded Irises are still extremely rare, and without doubt there will be great improvement in them within the next few years, but at the present time we have several that are well worth the interest of any garden lover.

The Dwarfs and Evansias are delightful rock garden subjects, the Intermediates as their name implies are not only excellent border irises, but fill their space in the season of bloom. The Siberians are particularly lovely grown with Oriental poppies, while the Spurias and Japanese give glowing notes of color and are a glorious finish to the pageantry of the iris season, but the greatest advancement in the Iris genus is in the new Hybrids of the Southern States Irises for they fill the interim between the blooming of the Bearded and Japanese Irises.

About fifteen years ago, Mrs. Washington, an ardent lover of gardens and a true collector of rare plants, noticed many unusual and lovely irises blooming in the swamp lands of Mississippi. Knowing of the interest of her son, Mr. T. A. Washington in the iris family, she sent him each winter wild plants which especially appealed to her, and it is from these distinct forms that the new and fascinating irises, known as the Washington Hybrids, have been produced.

These hybrids are a great advancement in form, height and color over the species named and described by Dr. Small, for even before the discovery of these irises by his expedition to the Southern swamps, Mr. Washington had carried on through several years selective breeding of these species, and it is from this careful work that named varieties have been chosen and are offered in my catalogue. They are of finest form and rarest coloring, and it is with pleasure that I recommend them for garden planting.

Of great importance are the new varieties of Oriental Poppies, there do not seem to be any flowers that can draw more instant attention or leave a more pleasing impression than a carefully chosen collection of these plants. They bloom in nearly every shade of color and are so utterly splendid that no garden seems complete without them.

It is a fascinating experience to feel that my prophesy of last year is being fulfilled, namely that discerning gardeners would become more perceptive of the beauty and usefulness of the newer hemerocallis. From near and far come letters telling of the great interest and appreciation of these superb flowers.

There is no group of flowering plants that may be grown more easily, for they are happy in full sun, but even more so, in half shade. They are adaptable to almost all soil conditions, grow readily with scant supply of water, but are luxuriant if grown in a moist situation. We find them free from insect pests and fungus diseases which often beset the true lilies, hardy in climates much below zero, yet exceptionally good when grown in the southern states, where long, hot, dry summers are detrimental to many of our garden flowers.

The height of floral luxury may be attained by the use of these flowers, and a single flower might be termed, a Madonna lily in yellow or orange, for the blooms are the type of real lilies. Some are colorful to an amazing degree, while others are a galaxy of wax-like bells in palest cream and salmony pink. Many are fragrant and others bloom at night giving an added charm of star-like beauty. The hemerocallis fill a long felt need in gardening, not only does each variety bloom for four weeks or more, but by careful selection of these hybrids, one may have bloom from May until September. I strongly recommend them for extensive use in our gardens.

Peonies are almost essential in any garden for they give us splendid accents of color and their foliage is attractive throughout the season. The large double flowers are extremely showy, but the single and the Japanese varieties are especially appealing.

One of the most interesting forms of adventure is the seeking and acquiring of rare and praiseworthy plants. Through this constant quest, I find myself growing more critical of what constitutes an excellent floral subject, and am resolved that whatever new varieties I recommend, be possessed of superior garden merit. With this in mind, I have decided to add to my catalogue the hybrid delphiniums of two most prominent breeders, Dr. Leon H. Leonian and Mr. Charles F. Barber.

Dr. Leonian, the originator of the Lyondel Hybrids is a noted horticulturalist and is doing most careful work in cross pollinating by hand. His delphiniums are given first place by the eminent authority, Major Vanderbilt and the following extracts are taken from his opinions; "These are really amazing; of the fourteen plants that have bloomed so far, only two have failed to approach or exceed 3 in. flowers, an astonishing result. I think that in the second year they will outclass anything I have ever seen in delphiniums; yours are the only ones yet that approach my ideal of good delphiniums."

The Lyondel Hybrids were developed from three main strains, Wrexham, Blackmore and Langdon, and Vanderbilt, later three other strains were bred into these hybrids, Lemoine of France, Foerster of Germany, and Hoodacres of the United States. This has resulted in a strain of delphiniums that is remarkable for its uniformity of high qualities.

Mr. Charles F. Barber has been working with delphiniums for twenty-five years and it is from this vigorous foundation stock that he has created a new race, called The Hoodacres Whites, which are a revelation to all. The magnificent spikes of purest white are carried on tall rugged plants and there are no duplicates of these whites anywhere in the world. There

are also many beautiful and choice plants in his selected Hoodacres Hybrids.

Without doubt, these two strains are the "last word" in delphiniums and it is from these strong colorful hybrids that my stock has been carefully selected and is now offered in my catalogue.

There are many interesting plants that I am testing in my garden, among them are some of the more rare sempervivums and hardy chrysanthemums. Most of these have exceptional merit and will prove interesting additions to our gardens.

I have lost my heart to *Meconopsis Baileyi*, a sky blue poppy-like perennial, tall and most rarely beautiful. They fascinate me to such an extent that I feel no real garden should be without them and suggest their use in any shady well drained situation.

Gardening is a habit that satisfies for it brings us in close contact with green, growing things, which are in themselves so genuine that their cultivation gives us peace and tranquility in greater measure than any other diversion in life. The ultimate test of living is joy within the heart, and blessed is the person who cherishes a garden.

March 27, 1934.

ELIZABETH NOBLE NESMITH

FALL BLOOMING BEARDED IRISES

These will add color to our fall gardens and are awakening a great interest. They usually bloom early in summer and again in late fall. The culture is the same as the other Bearded Irises, with this addition; it is recommended that they be supplied with plenty of water and given additional fertilizer during the summer.

- | | |
|---|--------|
| AUTUMN KING (H. P. Sass 1924) An attractive blue purple bicolor; especially effective in the fall. 26 in. | \$.50 |
| AUTUMN QUEEN (H. P. Sass 1926) A pure white, well formed iris which is a fall bloomer. 20 in. | \$.50 |
| DORCAS HUTCHENSON (H. P. Sass-McDade 1933) A fragrant violet colored self of excellent form and substance. 20 in. | \$2.00 |
| EQUINOX (Auten 1932) One of the most dependable fall blooming irises. S. reddish purple; F. slightly darker. 26 in. | \$2.50 |
| ELEANOR ROOSEVELT (H. P. Sass-McDade 1933) One of the best fall bloomers. A deep velvety red-violet self. 26 in. Gold Medal for best fall bloomer | \$8.00 |
| GOLDEN HARVEST (J Sass 1929) A yellow intermediate that blooms again in the fall. S. Olive yellow with blue tones at haft; F. Citron yellow with a brown sheen. Orange beard. Excellent. | \$1.50 |
| JEAN SIRET . A new yellow which is fall blooming. 12 in. | \$1.25 |
| LAURA HUTCHENSON (H. P. Sass-Hill 1933) An exceedingly desirable fall bloomer; blue-purple in tone; medium sized flower. | \$3.50 |
| OLIVE WHITE (H. P. Sass-Hill 1932) Deep cream colored flower with pale green veining. Especially desirable. Much like Doxa. 18 in. | \$3.00 |
| LIEUT. DE CHAVAGNAC . A violet colored iris; fragrant and lovely. | \$1.50 |
| PEARL BLUE (Sturt. 1925) A beautiful pale blue iris on good tall stems. An excellent addition. | \$2.00 |
| SEPTEMBER SKIES (H. P. Sass-Hill 1933) A deep purple self of medium height. Well recommended. | \$1.50 |
| ULTRA BLUE (H. P. Sass 1930) An excellent variety of clear ultramarine blue. | \$1.00 |

Bearded Irises

Newer and Rarer Varieties

The bearded irises may be planted from July 1st to Sept 15th. When making a new bed, take out the soil for about 12 in. If drainage is poor, an inch or more of cinders, or stone should be placed in the bottom, over this a little loam. Then 3 in. of well decayed cow manure, cover this with sods, or good garden loam, chop this well down, but do not fork it over. Fill the rest of the bed with rich garden loam; I like to mix with this a little bone meal. When finished, the bed should be about 2 in. above the surrounding ground. Spread out roots and plant, not more than 1 in. deep. Water in when planting.

- ABELARD** (H. P. Sass 1934) An intermediate of deep vivid coloring; S. deep livid brown; F. veronia purple. Well branched stems. 26 in. **\$5.00**
- AIRY DREAM** (Sturt. 1929) Lighter and more pink than Susan Bliss; desirable in every way. 38 in. **\$2.00**
- ABORA** (Hill 1928) A red-violet self; S. domed, F. horizontal; well branched stalk. 36 in. H. M., A. I. S. 1930 **\$3.50**
- ALCINA** (Con. 1927) Glistening flower with S. of pale yellow; F. beautiful blending of blue and gray; best in this class. 26 in. **\$2.25**
- ALICE HORSEFALL** (H. P. Sass 1931) Intermediate with large red-purple flowers; heavy orange beard; excellent. 30 in. **\$1.00**
- AL-LU-WEE** (H. P. Sass 1932) A beautiful variegata of Claude Aureau type; brighter in color and taller with a clean contrast between standards and darker falls. A late bloomer which adds greatly to the garden value. **\$3.00**
- ALTA CALIFORNIA** (Mohr-Mit. 1931) The tallest of the yellow irises. S. clear yellow; F. deep yellow, faintly bronzed. The flowers are of firm texture, very weather resistant, and are borne on superbly branched stems. 40 in. **\$6.00**
- AMBER WAVE** (Mur. 1930) A pleasing flower of amber yellow blended with pale olive bronze. C. M. Eng. 1930 **\$4.00**
- AMBROSIA** (Sturt. 1928) An excellent pink, tinted white with smooth satiny texture and rich orange beard. 38 in. **\$2.00**
- ANDANTE** (Wmsn. 1928) An exceptionally well branched tall iris of velvety raisin-purple; well liked. 38 in. **\$1.50**
- ANNE MARIE CAYEUX** (Cay. 1928) Exquisite iris of unusual color and strong texture. S. mauve shot with fawn; F. rosy heliotrope, flushed metallic blue. 38 in. C. M., S. N. H. F. 1930. **\$6.00**
- AHWAHNEE** (Essig 1931) Large flowers of heavy substance and unusual color. S. blending of deep lavender and wood brown. F. velvety carmine. 36 in. **\$1.50**
- ANNIE CADIE** (Washington 1933) (Nesmith 1934) A clear deep yellow flower of great beauty. S. are well arched and closely held together; F. are of the same tone, flaring and arched. Stalk well and lowly branched. Flowers are of splendid substance and excellent texture. The best deep yellow. Stock limited. **\$25.00**
- AUBADE** (Con. 1927) A beautiful yellow bicolor. S. are soft yellow. F. a blending of rose and pale gray; distinct yellow beard. Flower seems suffused with rosy apricot; has great beauty. **\$6.00**

AVONDALE (H. P. Sass 1934) A large flower of fine form and substance borne on tall stems. A deep bronze bicolor with a heavy yellow beard. 38 in.	\$7.50
BETTY NESMITH (Washington 1933) (Nesmith 1934) The color is rich buttercup yellow, the falls have a faint luminous touch of brownish red which adds a note of warmth and beauty to the flower. S. are domed and closely held together; F. arched and flaring. The flowers have strong heavy substance with many flowers on well branched stalk. A rarely beautiful iris and I feel highly complimented to have it bear my name. 39 in. Stock limited.	\$25.00
BEUCHLEY'S GIANT (Wassenberg 1932) "A very large blue toned iris of perfect form and color; S. are erect and domed; F. horizontal, similar to those of Frieda Mohr. Stalk well branched and of good height. Considered the largest and best formed iris of the present day. Might be called a glorified Lord of June" (taken from description by Mr. Wassenberg.)	\$15.00
BLACKAMoor (J. Sass 1932) A much discussed iris of black-purple coloring; one of the so-called blacks. Large flowers on well branched stems. H. M., A. I. S. 1931	\$4.00
BLACK WINGS (Kirkland 1929) Flowers are of good size, form and substance; flaring falls of almost black appearance. S. slightly lighter. One of the best dark irises H. M., A. I. S. 1931. A. M., A. I. S. 1933.	\$8.00
BLUE BANNER (Kirk. 1929) The general color effect is bright electric blue; late blooming; beautiful. 38 in.	\$2.00
BLUE AND GOLD (Essig 1931) A rich blue self with intense golden beard; much admired. 40 in.	\$2.00
BLUE HILL (H. P. Sass 1931) One of the finest blue irises of slightly deeper tone than Sensation, but a larger flower, carried on tall well branched stems. H. M., A. I. S. 1932. 38 in.	\$2.00
BLUE VELVET (Loomis 1929) Clear very velvety dark blue; large flowers on sturdy stems; excellent. 42 in.	\$5.00
BRANGAENE (Mor. 1928) Large red-copper blend; flaring falls of blackish red-purple; widely branched. 32 in.	\$5.00
BRONZE BEACON (Salb. 1932) This coppery bronze iris is well named. S. glowing golden bronze; F. velvety Indian lake. Many flowers on tall lowly branched stalks. A late bloomer and an excellent seed parent. 50 in.	\$4.00
CARFAX (Bliss 1929) Flowers are rich red-purple of large size and extreme velvety substance; widely branched stems; many flowers. One of the best from Mr. Bliss. 46 in. C. M. and Silver Gilt Medal R. H. S., 1929.	\$8.00
CHROMYLLA (Loomis 1931) This lovely iris is of uniform chrome-yellow: lighter than Pluie d'Or; has the best substance and texture of the newer yellows; large flowers; well branched. H. M., A. I. S. 1931. A. M., A. I. S. 1932.	\$5.00
CLARA NOYES (H. P. Sass 1931) A blending of red, orange and yellow; colors of Talisman rose; beautiful and rare; 38 in. H. M., A. I. S. 1931. A. M., A. I. S. 1932.	\$3.50
COCKATOO (Mor. 1928) Ruffled plicata of Empire yellow.	\$2.00
COLOSSUS (H. P. Sass 1931) The largest bearded iris; purple self; excellent for breeding.	\$5.00
COOL WATERS (Washington 1933) (Nesmith 1934) A beautiful pale blue iris with a texture of extreme smoothness. There is a	

delicate cast of pink-lavender throughout the flowers which are borne on nicely branched stems. A dainty iris. 36 in.	\$5.00
CORONA (Sturt. 1930) Bicolor with rich yellow standards and white falls; a new type of iris; lovely.	\$4.00
CORTEZ (Nesmith 1933) A brilliant iris which is greatly admired by all garden visitors. The well domed standards are yellow overlaid with faint rose at the edge, reminding one of moire silk. The very flaring falls are intense crimson purple of very velvety substance. The whole flower has firm texture, withstands heat, rain and wind. The very last to bloom. Splendid carrying qualities in the flower, making it exceptionally good for show as well as garden effect. 8 to 10 flowers on sturdy stalks. H. M., A. I. S. 1933. 38 in.	\$30.00
CRUCIBLE (Berry 1929) Grayish lavender; golden throat. 40 in.	\$1.50
CYDALISE (Cay. 1930) Beautiful yellow plicata; C.M., S.N.H.F.	\$10.00
DAUNTLESS (Con. 1929) A glorious red iris; almost a self but falls seem darker on account of rich velvety substance; one of the best. 40 in. Dykes Medal in 1929.	\$4.00
DAY DREAM (Sturt. 1925) Lovely pink bicolor blend; excellent.	\$3.00
DAWNING DAY (Washington 1933) (Nesmith 1934) An entrancing yellow blend with just a flush of pink throughout the falls and center of the flower. S. domed and well held together; F. flaring and arched. 38 in.	\$7.50
DESERT GOLD (Kirk. 1929) Large yellow flower of splendid substance and form; luminous, fragrant and pleasing. H. M., A. I. S. 1931. A. M., A. I. S. 1932.	\$7.50
DEPUTE' NOMBLOT (Cay. 1929) S. copper-red with a flush of bronze and gold; F. a rich shade of claret-crimson; whole flower seems lightly dusted with gold; splendid. 50 in. Dykes Medal 1930. S. N. H. F.	\$10.00
DOG ROSE (Insole 1929) A warm pink iris of large size and beautiful form; when well established, bloom stalks are tall and well branched; golden beard. 46 in. C. M., R. H. S. 1929.	\$10.00
DON JUAN (Cay. 1928) S. light rosy lilac touched with bronze; F. bright red shaded lighter at edge; C. M., S. N. H. F. 1928.	\$2.00
DOROTHY DIETZ (Wmsn. 1929) S. light blue changing to white; F. rich pansy violet; the best Amoena; lovely.	\$1.50
DUART (Ayres 1930) Glowing crimson underlaid with yellow.	\$6.00
DUNE SPRITE (Shull 1932) A charming yellow iris of exquisite beauty. S. Seafoam yellow with amber at base; F. white and flaring with faint yellow tone at edge; deep yellow beard. H. M., A. I. S. 1932. 36 in.	\$10.00
EASTER MORN (Essig 1932) A wonderful white iris of especially good form and substance, with excellent domed standards and very flaring falls. Strongly recommended. H. M., A. I. S. 1931. A. M., A. I. S. 1933. 48 in.	\$8.00
ECLAT (Gage 1933) A delightful iris of pink and burnished copper blending. Well shaped flowers on graceful stems. Well liked. 36 in.	\$5.00
EL TOVAR (H. P. Sass 1933) The most brilliant and gorgeous variegata blend of rich brown, yellow and black maroon with a yellow glow at center of flower. S. domed, Mikado brown toning	

into honey yellow at center of standard; F. solid, almost black with under side yellow. Considered the finest new iris. H. M., A. I. S. 1932. 38 in. A. M., A. I. S. 1933.	\$20.00
ELOISE LAPHAM (Lap. 1932) S. Delicate pink; F. broad and flaring of deeper pink. The whole flower has a smooth waxy finish that is hard to describe; lovely. H. M., A. I. S. 1932.	\$5.00
EREBIAN (Loomis 1931) Large flowers of gorgeous bordeaux-red; falls are very velvety; heavy gold beard; well branched and tall; 40 in. H. M., A. I. S. 1930.	\$3.00
EVOLUTION (Cay. 1929) Frilled coppery bronze standards with flaring falls of deeper shade; center of fall has a beautiful metallic blue marking; unusual color and extremely beautiful. C. M., S. N. H. F. 1928.	\$7.00
FASCINATION (Cay. 1927) Clear pink with large flowers deeper in tone than Pink Satin; tall; well branched.	\$2.50
FERNANDE (Mil. 1926) Flowers are of large size; well branched stems; a blending of rich bronzy red-purple.	\$3.00
FESTIVE (Mor. 1928) A glorified Iris King; gorgeous variegata coloring; large flowers; tall well branched stem; excellent.	\$6.00
FLUSH OF DAWN (Berry 1931) A soft pink blend of great beauty.	\$2.50
FRIVOLITE (Cay. 1929) Delightful shrimp pink; tall and good sized flowers; darker than Marquissette.	\$4.00
FULGORE (Cay. 1930) Unusual blend of reddish garnet and coppery yellow; well branched. C. M., S. N. H. F. 1930	\$8.00
GENTIUS (H. P. Sass 1934) An excellent new intermediate with bluish violet standards and royal purple falls. 24 in.	\$2.25
GIANT KING (H. P. Sass) Giant flowered variegata; splendid.	\$1.00
GAULOIS (Cay. 1926) Golden yellow standards suffused with rosy red; falls are bordeaux red.	\$1.50
GLORIOLE (Gage 1933) (Nesmith 1933) This is one of the most outstanding irises of 1932. A light blue self overlaid glistening white, the iridescence reminding one of the thick frost crystals found on window panes after a cold winter's night. One of the loveliest irises I have ever seen. 40 in. H. M., A. I. S. 1933	\$30.00
GOBELIN RED (Danen. 1929) Deep ox-blood red; 38 in.	\$1.50
GOLDEN FLARE (Insole 1931) A charming iris of warm yellow tones. Much admired in England. Silver medal, R. H. S. 1930	\$18.00
GOLD FOAM (Nesmith 1933) This beautiful iris is a deep golden yellow self. The flowers are of large size with erect standards and ruffled horizontal falls. The beauty of the flower is greatly enhanced by a rich orange beard; tall and well branched; many flowers and blooms over a long period of time. The whole flower has a delightful foamy ruffled appearance which suggested the name; 40 in.	\$7.50
GOLDEN HARVEST See Fall Bloomers.	\$1.50
GOLDILOCKS (Way. 1930) Pale yellow with lustrous sheen; smooth texture; resembles Desert Gold but is taller.	\$2.50
GOLDEN HELMET (J. Sass 1933) Described as a larger, taller, and redder King Tut. S. are tawny brown and yellow ochre; F. Morocco red, overlaid with ox-blood red; prominent orange beard. Low branching stems bearing 12 flowers. A most brilliant iris. 36 in. H. M., A. I. S. 1933	\$20.00

GOLDEN IMP. (Donahue 1934) A lovely intermediate of pure golden coloring; different from any of this type that I have seen. Very rare and excellent and one which I am pleased to introduce	\$10.00
GOLDEN LIGHT (H. P. Sass 1933) Described as being in the color class with Jean Cayeux. The effect at a distance is very rich yellow, which comes from its intense cinnamon tones. 40 in.	\$12.00
GOLD STANDARD (Edl. 1927) Creamy yellow flower; brilliant orange beard; lovely. 33 in.	\$2.00
GOLD STREAM (Edl. 1929) Pale creamy bicolor with intense orange beard; a glowing flower. 40 in.	\$2.50
GOLD VELLUM (Gage 1933) A beautiful new yellow of soft vellum-like texture. The flowers have such heavy substance that they seem almost like marble. Not tall, but a great addition to a border planting. 32. in	\$5.00
GRACE STURTEVANT (Bliss 1926) Dark red-brown flowers illumined by deep orange beard; falls very velvety; 38 in.	\$2.50
GU DRUN (Dykes, K.) Considered by competent judges as one of the finest whites, and is well recommended. 36 in. C. M., R. H. S. 1930; A. M., R. H. S. 1931	\$20.00
HELEN CAMPBELL (Nesmith 1930) Deep red-purple self with extremely velvety falls; late bloomer.	\$2.00
HENCHMAN (Mor. 1928) S. are the color of bluest phlox divaricata; F. darker and velvety; very handsome; 34 in.	\$5.00
HELIOS (Cay. 1929) Enormous flowers of pure lemon-yellow; 44 in.; award Paris Iris Com. 1930.	\$5.00
HENRI RIVIERE (Mil. 1927) S. pure lemon yellow; F. lilac-mauve and yellow edge; late; 42 in.	\$3.00
HERMITAGE (Kirk. 1931) Red blend of rosy tan and crimson; lovely; 36 in. H. M., A. I. S. 1930.	\$6.00
HERNANI (Cay. 1929) S. coppery rose flushed red; F. velvety garnet red; a very red effect; handsome; 38 in.	\$3.00
HOLLYWOOD (Essig. 1929) Charming blend of bright pink, yellow and old gold; brilliant orange beard; 38 in.	\$2.00
IMPERIAL BLUSH (H. P. Sass 1933) A beautiful large blush pink with 40 in. branching stems; finest pink to date; much larger than Pink Satin. Strongly recommended. H. M., A. I. S. 1933	\$7.50
INDEPENDENCE (Nesmith 1931) Deep velvety blue; S. arched; F. large and flaring; well branched; tall; handsome.	\$2.00
ION (Mead 1929) Dark blue velvety flower of great beauty.	\$2.00
INDIAN CHIEF (Ayres 1929) One of the best red irises; S. pinkish red; F. deep velvety red; heavy substance; 40 in.	\$1.50
IRMA POLLOCK (H. P. Sass 1931) Richly colored flower of velvety carmine; excellent; 38 in.	\$1.75
JACQUARD (Ayres 1927) Brilliant red-purple, suffused with red; deep orange beard; a splendid garden subject.	\$2.50
JADU (Sturt. 1929) A beautiful plicata; S. and styles blush pink; F. white dotted with rose; charming; 32 in.	\$2.00
JEB STUART (Washington 1932) (Nesmith 1932) Deep rich brownish red with some influence of copper in the tone; S. domed and do not open; F. extremely velvety, seeming much darker than the standards; deep orange beard which intensifies the rich coloring of the flower; tall and widely branched. An outstanding iris of last year and admired by all. 40 in. H. M., A. I. S. 1933	\$10.00

- JERRY** (Lapham 1933) A beautiful, glowing ruby red iris of especially fine garden value. Liked by all for its rich coloring. 38 in. **\$10.00**
- JOYCETTE** (J. Sass 1932) A remarkable iris of rich red tones; pronounced by many the finest red iris to date. Excellent form and substance, many flowers on tall lowly branched stalks. **\$15.00**
- KEYSTONE** (McKee 1932) (Nesmith 1933) This splendid rich dark self is a most striking variety. The flowers are large and of heavy substance. S. are beautifully domed and the broad flaring falls combine to produce a flower of perfect form; the heavy golden beard adds greatly to the beauty of the flower; a gorgeous iris. **\$20.00**
- KING PHILIP** (Fewkes 1932) (Nesmith 1933) Very large self colored flower of light blue-violet. Standards broad and domed, the falls are large and well rounded. Well spaced flowers on tall strong stems; a strong grower and deliciously scented. Mr. Fewkes is very well known in the Horticultural world especially among Peony enthusiasts and it is a great pleasure to have the introduction of his irises and hemerocallis seedlings. **\$10.00**
- KLAMATH** (Klein. 1929) A huge dark violet flower of strong growth on tall well branched stems; 42 in. **\$2.50**
- KING JUBA** (H. P. Sass 1931) The clearest colored of the large flowered variegatas; the brilliant contrast between the yellow standards and deep velvety red falls is outstanding. **\$3.00**
- KING MIDAS** (Mead 1927) a glorious combination of golden buff and garnet-brown; heavy beard of deepest orange; the whole flower seems to glow with an intense light; excellent. **\$3.50**
- LADY GAGE** (Gage 1933) White flushed lavender, when the buds first open, changing to soft pink on the edges and later to pure white. S. domed and well held; F. broad and flaring. Large flowers. 32 in. **\$5.00**
- LE PRINTEMPS** (Nesmith 1930) A pink plicata of smooth finish. **\$1.00**
- LORETTO** (Nesmith 1930) Clear pink; the flowers are large and of good substance; 40 in. **\$1.50**
- LOS ANGELES** (M. M. 1927) A giant white plicata edged with blue; wonderful shape, size and substance; 48 in. **\$2.00**
- MADAM SEROUGE** (Cay. 1929) Large flowered and very dark in color; S. violet; F. blackish purple; 42 in. **\$8.00**
- MAGENTA** (Cay. 1927) A bright rich amethyst flower of smooth finish and firm texture; 40 in; C. M., S. N. H. F. 1929. **\$2.00**
- MAGI** (Sturt.) A blended flower in lovely tones that are hard to describe. Well recommended. **\$8.00**
- MAID OF TENNESSEE** (Washington 1933) (Nesmith 1934) A beautiful flower of blended white, rose and blue. S. closey arched; F. semi flaring. The whole flower has a dainty ruffled appearance that reminds one of a sweet old fashioned girl. Well branched with many flowers on each stalk 38 in. **\$10.00**
- MALUSKA** (Nesmith 1933) A deep black-red, velvety and rich in tone. A self with domed standards and semi-flaring falls. Brilliant yellow beard which intensifies the beauty of the flower. Flower has heavy substance. Stalks are tall and well branched with many flowers. Much admired by garden visitors. **\$15.00**
- M. A. PORTER** (Lap. 1931) A very gorgeous iris of deep velvety blue purple, much darker and finer in every way than our old friend Mme. de Gaudichau. 36 in. **\$5.00**

- MARQUITA** (Cay. 1930) Very large flowers of creamy yellow, with rose pink venations on the falls, giving a pink flush at end of falls. A very striking iris of splendid garden value. Tall and lovely. 42 in. \$8.00
- MARY GEDDES** (Sthal-Wash. 1930) (Nesmith 1931) An iris of beautiful and unusual coloring. S. light ochraceous salmon; F. of same shade, overlaid with Pompeian red. Flowers of great substance withstanding severe wind, rain and heat; 8 to 10 flowers on tall and widely branched stalks. "It is one of the most stunning in color that I have seen this year or any year, being a light ochraceous salmon; the flowers are especially beautiful and glowing in late afternoon." 40 in. H. M., A. I. S. 1930. A. M., R. H. S. 1933 A. M., A. I. S. 1933 \$8.00
- MARESCHAL NEY** (Wmsn. 1930) Rich red bicolor with chestnut brown tone; central area orange lighted; 35 in. H. M., A. I. S. 1932 \$1.50
- MELCHOIR** (Wal. 1927) An excellent iris of dusky bronze; F. rich velvety crimson-purple; bright gold beard; 36 in. \$1.50
- MELDORIC** (Ayres 1930) Dr. Ayres regards this as one of his best productions. S. blue-black and domed; F. broad and flaring of darker velvety tone; One of the best. H. M., A. I. S. 1931. \$5.00
- MIDWEST PRIDE** (H. P. Sass 1931) Rich violet flower; has been called "a giant Archeveque." 38 in. \$1.50
- MIDNIGHT SUN** (Nesmith 1931) Large deep velvety purple flowers on tall well branched stalks; 10 flowers to stalk; fine parent. 44 in. \$2.00
- MINISTRE FERNAND DAVID** (Cay. 1930) A large sturdy flower of excellent form and texture. S. glossy red purple; F. glowing red purple, very velvety and rich in coloring. C. M., S. N. H. F. 1930 \$10.00
- MIRASOL** (M. M. 1929) Clear bright yellow; excellent. \$3.00
- MME. RECAMIER** (Washington 1933) (Nesmith 1934) The finest real pink iris, delicate in color, exquisite and one that has no orchid pink about it. S. are beautifully arched and well held together; F. are semi flaring. The whole flower has a luminous undertone of ivory yellow that adds a note of warmth and beauty. Very weather resistant, a good tall bloom stalk with many well placed flowers. A great favorite in the garden. \$15.00
- MODOC** (Essig 1929) The darkest iris I have seen; darker than Louis Bel; S. cotinga purple; F. black-purple; very velvety. \$4.00
- MOON MAGIC** (Shull 1931) A light yellow iris with widely flaring flowers of heavy substance, might be termed a bicolor on account of almost white falls; fragrant 38 in. \$5.00
- MONTEREY** (M. M. 1929) Dark bronzed prune purple; 40 in. \$1.50
- MOTIF** (Sturt. 1931) A red-purple of deep velvety substance; much more brilliant than Pioneer and with greater depth of tone; splendid 38 in. \$8.00
- MYSTERY** (Sturt. 1931) Harmonious blending of lavender, yellow and old gold; orange beard; most delightful as a cut flower; 38 in. \$4.00
- MRS. VALERIE WEST** (Bliss 1925) S. lavender shot with brown; F. deep crimson-maroon; excellent; 40 in. \$1.50
- NANOOK** (Ayres 1932) A warm amber white, deepening slightly at edges; S. beautifully arched and held closely; F. flaring slightly

are pure white with faint coppery veins at haft; sturdy stems splendidly branched. A fresh opaque white flower of great beauty; 44 in.	\$10.00
NATIVIDAD (Mohr, Mit. 1932) A beautiful warm creamy white of splendid substance and very firm texture. The flower is lighted by soft yellow in the throat and has a yellow beard. Extremely lovely and recommended.	\$7.00
NEPENTHE (Con. 1927) A soft sea mist coloring; Mother of Pearl blended with soft blue touched with rose throughout the falls; lovely beyond description. H. M., A. I. S. 1932.	\$4.00
NEWTONIA (Donahue 1929) An old rose and amber blend of great size and beauty; 42 in.	\$5.00
NINGAL (Ayres 1932) Fine domed standards of pure bronzy buff; F. smooth and flaring; warm buff overlaid with iridescent cerulean blue. Extremely large flowers on very tall sturdy stems; largest and best blend; 46 in.	\$10.00
NORMA GAGE (Gage 1933) (Nesmith 1933) S. cupped and arching; white flushed soft pink; F. slightly flaring; white flecked with soft pink. A lovely intermediate of good substance and fine texture; free blooming; quite distinct from any other pink and white iris; orange beard.	\$10.00
NUMA RUMESTAN (Cay. 1928) Said to be more red than Dauntless; S. and F. deeply frilled and of uniform red; handsome; 38 in.	\$2.00
NURMAHAL (Nic. 1931) S. deep brown touched with violet; F. deep blackish brown; very velvety; yellow beard; splendid.	\$9.00
NUSKU (Nesmith 1930) Lovely old rose and yellow blend; luminous flowers on tall well branched stems. Withstands heat, rain and wind; a favorite.	\$1.50
OREGON BEAUTY (Klein. 1930) S. aconite violet; F. bright velvety purple, brighter at edge; well branched; 40 in.	\$2.00
OREGON GIANT (Klein 1930) S. reddish purple; F. wide and flaring; blackish purple; heavy gold beard; tall; 42 in.	\$2.00
ORIANA (H. P. Sass 1933) A beautiful clear crystal white of splendid form and substance; large flowers on well branched stem. This is much superior to the older whites. H. M., A. I. S. 1933	\$4.00
ORIENT PEARL (Mur. 1930) A beautiful iridescence of pearly pink and gold; 38 in. C. M., R. H. S. 1930.	\$10.00
OSPREY (Berry 1927) Pale lavender-blue; throat illumined with gold; very beautiful glistening flower; 40 in.	\$2.00
PACIFIC (Essig 1929) Similar to Santa Barbara but larger and finer; glistening blue; 38 in.	\$2.00
PALE MOONLIGHT (Essig 1930) Pale campanula-blue; orange beard; large, tall and charming; 47 in.	\$2.00
PEER GYNT (Washington 1933) (Nesmith 1934) A large flowered plicata with unusual markings of brown and purple. A handsome iris of distinctive coloring. 38 in.	\$10.00
PENN TREATY (Danen. 1929) Deep velvety black violet.	\$2.00
PEERLESS (Dykes 1924) Enormous velvety red-purple.	\$2.50
PERSIA (Ayres 1929) S. smoky blue; F. rich purple shading much lighter at edge; gold throat; unusual and lovely; 48 in. H. M., A. I. S. 1928	\$2.50
PHEBUS (Cay. 1930) Lemon yellow with orange beard; lovely.	\$15.00

PHOSPHOR (Shull 1931) A distinctive yellow iris with a slight overcasting of olive on the falls which greatly adds to the beauty of the flower. Bright yellow beard; fragrant. 38 in.	\$5.00
PICADOR (Mor. 1930) S. buff-gold with greenish touch at throat; F. deep dahlia-carmine; one of the best variegatas; 46 in.	\$6.00
PINK BUTTERFLY (Washington 1933) (Nesmith 1934) A pink blend with a texture of extreme smoothness and finish. S. domed and closely held together; F. semi flaring with deeper pink thumb spot in center of each fall. Well branched and well placed flowers of lustrous color growing more beautiful on the second day. 40 in.	\$15.00
PINK JADU (Sturt. 1931) A plicata of soft lovely pink and white; delicate and charming; 35 in.	\$3.50
PINK LADY (Washington 1933) (Nesmith 1934) A peach pink iris. S. are of soft warm pink, well arched; F. of deeper tone of same peachy pink. An iris of rarest coloring and outstanding in garden value, especially good for front of border. 28 in.	\$12.50
PINK SATIN (J. Sass 1930) A delightful light pink of fine form and substance; strong, well branched stems; has the sheen of lustrous satin; very beautiful; 42 in. H. M., A. I. S 1931.	\$7.00
PLUIE D'OR (Cay. 1928) Intense yellow; orange beard; well branched stems; a glorious iris; 40 in. Dykes Medal 1928.	\$2.50
PRAIRIE KING (Nesmith 1930) Deep blue-purple; S. domed; F. flaring and very velvety; well branched; fine substance. 42 in.	\$2.00
PRESIDENT PILKINGTON (Cay. 1933) An imposing iris in size and height, being a blend of buff and blue that gives great depth of color. Might be called a glorified Dolly Madison. C. M., S. N. H. F. 1931	\$15.00
PROPHETE (Cay. 1930) Rosy lavender and bronzy amaranth red.	\$6.00
QUIVERA (J. Sass 1932) A blend of buff, pink, orange and brown; difficult to describe but very lovely; 32 in.	\$1.50
RASAKURA (Wmsn. 1930) Bright reddish bicolor; velvety falls.	\$2.00
RAMESES (H. P. Sass 1929) S. light russet vinaceous with yellow glow at center; F. half flaring and of tourmaline pink; heavy apricot beard; very hardy and a free bloomer. Awarded Dykes Medal 1932.	\$3.00
RED BEAUTY (Gage 1933) (Nesmith 1933) S. dark vinaceous purple; F. Hay's maroon; brilliant deep orange beard. The reddest iris to date showing no purple when held against the sun; 32 in.	\$5.00
RED DOMINION (Ayres 1931) The flowers are large with S. of deep red, slightly frilled; F. horizontal, broad and of deeper velvety red, almost black at heart; 42 in. H. M., A. I. S. 1931	\$10.00
RED EMBER (Sturt. 1931) S. are pinker than those of Alcazar; F. velvety dark crimson; the center of the flower is orange-yellow; smooth finished flower; well branched stalk; 45 in.	\$4.00
RED ROBE (Nich. 1930) Fine red-violet iris of perfect shape and habit; intense yellow beard; a glowing ruby; 40 in. H. M., A. I. S. 1932.	\$12.50
REFULGENCE (Way. 1930) S. violet-blue with bronze shading; F. velvety violet-purple; bronze yellow beard; large flower.	\$1.00
RHADI (Dykes-K 1928) S. cream-white with blue tinge; F. blending of blue and bronze; heavy old gold beard; very delicate toned flower; 38 in. Silver Gilt Medal, R. H. S. 1928.	\$4.00
ROSE ASH (Mor. 1928) A beautiful subdued rose coloring; large flower of fine substance and form; strong growth; 3 ft.	\$5.00

ROSE DOMINION (Con. 1930) A deep old rose colored self; S. perfectly arched; F. flaring and of deep rose velvet; deep yellow beard; large flowers; splendid. H. M., A. I. S. 1932	\$5.00
ROSE MARIE (Cay. 1928) Rich reddish purple; horizontal falls; beautifully frilled flower; excellent; 38 in.	\$2.00
RUBEO (Mohr, Mit. 1931) Dazzling flowers of great size and beauty well placed on tall and widely branched stems. S. are deep glistening rose; F. are broad, thick textured and of deep maroon. The orange beard adds to the magnificence of the flower. 48 in.	\$5.00
SACHEM (Loomis 1931) A glorified King Tut; more intense in color, being a rich red brown with deep velvety falls; 40 in.	\$5.00
SACRAMENTO (M. M. 1929) S. white heavily edged red-purple; F. reticulated with same color; prominent orange beard; a giant plicata of great beauty; 44 in. H. M., A. I. S. 1931.	\$2.00
SAM DAVIS (Washington 1933) (Nesmith 1934) A beautifully formed flower of glowing red with well domed standards and flaring falls, heavy substance and firm texture. A splendid red iris that blooms over a long period of time.	\$10.00
SANDRINE (Cay. 1927) S. fawn-brown and heliotrope; F. amaranth red; rosy mauve at edge; large flower. 38 in.	\$1.50
SAN FRANCISCO (M. M. 1927) A giant flowered plicata; white, distinctly edged blue-lavender; 46 in. Dykes Medal 1927.	\$2.00
SELENE (Con. 1928) A very large glistening white with luminous heavy texture and excellent form; yellow beard; tall and stately; absolutely hardy; excellent in every way; 40 in. H. M., A. I. S. 1932.	\$5.00
SENSATION (Cay. 1925) Enormous corn flower blue of perfect form and substance; 44 in. C. M., S. N. H. F. 1926	\$2.50
SENLAC (Bliss 1929) Large intense claret-red flowers on strong sturdy stems; excellent.	\$10.00
SHINING WATERS (Essig 1933) A reflection of clear blue western skies in still, shining waters. The firm wax-like texture is enhanced by a bright orange beard. It combines the smoothness and finish of Hoogiana with the size and poise of Easter Morn. Well recommended. 50 in.	\$5.00
SIERRA BLUE (Essig 1932) An exceptionally smooth flower of very clear blue tone. A tall well branched iris that has received unstinted praise. 48 in. H. M., A. I. S. 1933	\$5.00
SIR MICHAEL (Yeld 1925) S. clear lavender-blue; F. very velvety red-purple; beard, brilliant red-gold; wide and deeply branched; one of the best; 48 in. A. M., R. H. S. 1929.	\$2.00
SISTER (Sturt. 1933) A charming pink iris overlaid with white. One of the exceptionally good pinks of smooth texture and finish. Admired by all.	\$4.00
SITKA (Essig 1932) I consider this one of the finest whites introduced. Large flowers of clear white with exceptionally good shape and substance, perfectly hardy and blooms later than the other white irises. Strongly recommended	\$3.50
SPOKAN (J. Sass 1933) A brilliant red-brown blend, has been described as similar to King Midas, but on much taller stems. A prominent orange beard gives it great depth of coloring. 36 in.	\$20.00
SPRING MAID (Loomis 1929) Tall and lovely pink iris of great beauty; superior in color, height and branching; excellent in every way; 40 in. H. M., A. I. S. 1932.	\$10.00

SPRING MORN (Nesmith 1930) A lovely dainty blend of white and pink; has a silvery sheen; 38 in.	\$1.50
STAR SONG (Mor. 1928) Blend of pale yellow and pink with glistening yellow veins; effect a soft pink-buff; 32 in.	\$4.00
STONEWALL JACKSON (Washington 1933) (Nesmith 1934) An intensely rich variegata of perfect form and finish. S. strong yellow, overcast with buff, well domed and closely held together. F. of bright, deep brown-red, flaring and of perfect shape. Tall sturdy stems, well branched with many flowers. Has immense garden value and instantly attracts the eye, also exceptionally good as specimen stalk. A fitting companion for the iris <i>Jeb. Stuart</i> . 40 in.	\$25.00
SUNLIGHT (Sturt. 1929) A large clear yellow; a delicate luminous iris of great beauty; 38 in. H. M., A. I. S. 1928.	\$2.00
SUSA (H. P. Sass 1934) An excellent intermediate of glowing velvety red-purple A great addition to the garden.	\$2.00
SWEET AUBURN (Fewkes 1932) (Nesmith 1933) A beautiful white with delicate flush of pink; good sized well shaped flowers on strong stems; fragrant and delightful; 34 in.	\$6.00
SYLVIA LENT (Shull 1933) A light colored self or a yellow-white bicolor, of good form, size and heavy substance. Brilliant deep yellow beard; fragrant. An excellent iris. 38 in.	\$10.00
TAPESTRY (Ayres 1931) A subtle blend of smoky mulberry-purple with falls intensely colored at center. Well described by the name. 39 in.	\$3.00
THEODOLINDA (Ayres 1932) An absolutely hardy plicata of San Francisco size. Immense flowers; S. domed; white with buttonhole stitching of light blue on margins; F. broad and straight, with deep blue markings. Flowers have Dominion substance and are borne on tall well branched stems; excellent. 42 in.	\$12.00
THAIS Beautiful large pink; 42 in. C. M., S. N. H. F.	\$2.00
TOMMY TUCKER (Nesmith 1930) clear yellow; flaring falls; 37 in.	\$1.50
THISTLEDOWN (Sturt. 1933) The name was suggested by the unique effects of the white falls and standards of delicate lavender.	\$5.00
THURATUS (H. P. Sass 1931) A self of deep blackish purple.	\$1.50
TUSCANY GOLD (Wmsn. 1929) Rich coppery gold; tall; 38 in.	\$1.00
VENUS DI MILO (Ayres 1931) Dominion seedling of clear white with bright yellow beard. Flowers of heavy substance and fine texture; strongly recommended; 42 in. H. M., A. I. S. 1932.	\$4.50
VESPER HOUR (Washington 1933) (Nesmith 1934) A beautifully finished flower of blended blue and soft cream coloring with domed standards and semi flaring falls. A lovely iris that should be in every garden. 40 in.	\$5.00
VISHNU (Sturt. 1930) Light pinkish cinnamon veined with brown; whole flower touched with faintest glistening lavender; spicy fragrance; lovely; 34 in.	\$4.00
WAMBLISKA (J. Sass 1930) Huge white ice-blue self; of heavy substance; strong well branched stems; 40 in. One of the much talked of irises in 1930. H. M., A. I. S. 1931.	\$3.00
WATERFALL (Shull 1931) A pearl-toned flower of exceptional beauty and form. S. pearl-gray, pointing up like a gothic arch and with an opalescent effect. F. French-gray, slightly flushed with pale	

mauve, beard yellow. The flower stalk when in full bloom presents a cascading effect which suggested the name. 40 in.	\$10.00
W. R. DYKES (Dykes 1926) This remarkable iris is probably the largest yellow in commerce and is outstanding. A fine clear yellow, sometimes lightly flecked with purple. Of great value to breeders. 38 in.	\$7.50
YOSEMITE FALLS (Essig 1928) S. light bluish-violet; F. hyacinth-violet; cadmium yellow beard; huge bicolor on tall well branched stems; 46 in.	\$2.00
YVES LASSAILLY (Cay. 1928) S. white; F. white with blending of sky blue in center of fall; gold touch at center; charming flower; C. M., S. N. H. F. 1929.	\$3.50
ZAHARON (Dykes 1927) A blending of amber, buff, yellow and violet; the whole flower seems to be suffused with rose; lovely and distinctive; 40 in. Silver Gilt Medal, A. I. S. 1927.	\$8.00
ZUNI (Ayres 1930) A superb red-brown iris, touched with copper; standards seem sprinkled with gold dust; excellent; 40 in.	\$4.00

Special Lists of Excellent Well Known Irises

 DREAM—pink.
 DUSK—velvety maroon.
 ELINOR BLOSSOM—amethyst.

EVADNE—deep pink.
 GEORGIA—pink.
 GLOWING EMBERS—red.
 KING KARL—plicata.
 MATILDA—blue plicata.
 MME. HENRI CAYEUX—fine red.
 MORNING SPLENDOR—velvety.
 REVERIE—pink pale yellow.
 SOUV. DE MME GAUDICHAU—blue.
 TROSTRINGER—pink.
 VALKYRIE—black purple.

The following varieties 3 (of one kind) for 50c.

AFTERGLOW—yellow blend.
 ALBERT VICTOR—blue.
 ALCAZAR—purple.
 AMAS—blue.
 BRENTSIS—violet.
 B. Y. MORRISON—purple.
 CAMEO—yellow
 C. E. STRINGER—pink.
 DELICTISSIMA—pink.
 EDOUARD MICHEL—pink.
 EDEN PHILLPOTTS—blue.
 ELAINE—lilac
 ELDORADO—gold blend.
 EMPIRE—yellow.
 FAIRY—plicata.
 GARNET—red.
 GENGHIS KHAN—purple.
 G. J. TRIBOLET—purple.

GERMAIN PERTHUIS—violet.
 GRAPTA—yellow-brown.
 IMPERATOR—red.
 INNER GLOW—ivory.
 JACQUELINE GUILLOT—blue.
 JUBILEE—plicata.
 JULIA MARLOWE—violet.
 LENT A. WILLIAMSON—red.
 LONA—plicata.
 MARY GIBSON—pinkish.
 MARY WILLIAMSON—white.
 MLE SCHWARTZ—mauve.
 MIDWEST—pink.
 MME CHERI—pinkish.
 MOTHER OF PEARL—mauve.
 MRS. CUTHBERTSON—rose.
 MRS. HETTY MATSON—purple.
 NANCY ORNE—blend.

NIMBUS—violet.
 PRINCE CHARMING—white.
 PRIN. VIC. LOUISE—amoena.
 POLARIS—violet.
 QUEEN CATERINA—lavender.
 QUAKER LADY—blend.
 RAMONA—dark blend.
 RIALGAR—yellow blend.

RHEIN NIXE—amoena.
 SINDJKHA—blend.
 SHERBET—blend.
 TENEBRAE—violet.
 TAJ MAHAL—white.
 TROPIC SEAS—purple.
 TRUE CHARM—plicate.
 VESPER GOLD—orange.

Dwarf Bearded Irises

BLACK MIDGET. Very tiny black-purple; scarce.	\$1.00
BLUE MIDGET (Nesmith 1931) Tiny sky blue.	\$3.00
LADDIE BOY (H. P. Sass 1931) Deep blue-purple bicolor.	\$1.00
MAROCAIN. Exceedingly dark red-purple.	\$.75
NEOLA (J. Sass 1932) S. Violet; F. intense brown; excellent.	\$.50
PIXY (H. Sass 1932) Dwarf plicate blend; lovely.	\$1.00
ROSE MIST (H. Sass 1931) Lovely soft rose.	\$1.00
SHADOWLAND (Nesmith 1931) Extremely dark purple; good.	\$1.50
THE BRIDE. Delightful little pure white.	\$.75
TONY (H. Sass 1931) Black-purple; orange beard.	\$1.50
Collection of Dwarf Irises, for rock garden or border planting. This contains plants of various coloring, including some of the named varieties.	Dozen, \$1.50, Hundred, \$12.00

Evansia or Crested Irises

CRISTATA, PEARL WHITE. A new cristata of cool white tone.	\$1.50
CRISTATA, BLUE. Sky blue; very dwarf; nice for shade.	\$.25
CRISTATA, WHITE. Creamy white; rare.	\$2.00
GRACILIPES. Tiny lavender; yellow at throat; lovely.	\$1.00
TECTORUM, BLUE. Roof iris of Japan; lavender-blue flowers.	\$.35
TECTORUM, WHITE. Exquisite white; crests are marked with gold.	\$1.50

Miscellaneous Species of Irises

ARENARIA OR FLAVISSIMA vivid yellow; small; rare.	\$2.00
ENSATA. Asiatic species; lavender flowers.	\$1.00
FORRESTII. Graceful flowers; clear yellow; fine for rock garden.	\$1.50
PSEUDACORUS Brilliant yellow; excellent for water's edge.	\$.25
PSEUDACORUS-GIGANTEA A giant form; deep yellow.	\$1.00
PSEUDACORUS-ALBA. A white flower which is very rare.	\$2.00
TRICUSPIS. Delicate lavender and gold; rare.	\$1.50
WILSONI. Pale yellow faintly veined with purple; rare.	\$2.00
YUNAN SPECIES. A rare little iris from China; violet self.	\$2.00

Apogon Irises

American Species and Hybrids

This group includes new and rare LOUISIANA and FLORIDA irises and especial attention is called to the named hybrids produced by Mr. T. A. WASHINGTON of Nashville, Tenn. These bloom just before the Japanese Irises and are a great addition to any garden. (see foreword).

CULTURE. If making a new bed for these irises, I advise well rotted cow manure and compost be mixed in the lower portion of excavated place, the upper portion being filled with good rich soil of slightly acid nature. These irises require plenty of moisture during their growing season, but no standing water during winter. Plant the rhizomes at least one inch deep, water in well and do not allow them to dry out. Late summer planting is best, for it enables the plants to start growth soon after their dormant season.

In fall give a good four inch mulch of peat moss, topped by three inches or more of marsh hay or straw. This heavy covering is to keep the plants from starting growth too early in the spring. When danger of freezing is over, remove the covering and work a little of the peat moss into the ground, also see they have an abundance of water until after blooming. These directions for covering, apply especially to our northern states. These Southern Species and Hybrids are perfectly hardy in my New England garden.

ALBISPIRITUS. An exceedingly rare Florida iris; white in color, sometimes called "the ghost iris."	\$5.00
APPALACHEE (Washington 1931) A wonderful hybrid of deep fuchia coloring; falls are very velvety; large flowers; well branched; excellent. 30 in.	\$5.00
BALBANCHA (Washington 1933) An Indian name, meaning New Orleans. An especially pleasing new hybrid of clear orchid tone; tall, well branched. 34 in. Stock limited, 1935 delivery.	\$10.00
BRACTEATA. Deep yellow veined with blue; from Oregon.	\$1.00
CACIQUE (Berry 1925) Prune-purple and black-purple.	\$2.00
CAROLINA. American species; form of versicolor.	\$1.00
CAROLINA, NELSONI. Different shade of blue.	\$1.50
CHEKILLI (Washington 1932) A lovely old rose overlaid with copper, shaded lighter at edge; yellow undertone in center of falls; large flowers on tall well branched stems. 4 ft.	\$5.00
CHEROKEE (Washington 1932) The color is Indian-red and rosy copper; the background of the flower is lighter and veined with maroon; entirely new combination. 3 ft.	\$5.00
CHICKASAW (Washington 1932) Deep garnet self of fulva vinicolor parentage; heavy velvety substance; free flowering; well branched; excellent.	\$8.00
CHRYSOPHOENICIA. A Louisiana iris of brilliant blue-purple with gold signal on falls. 4 ft.	\$4.00
CHRYSOPHYLLA. White or soft yellow flowers tinted lavender.	\$1.50
COWETA (Washington 1932) Background of flower is white heavily veined rosy lavender; 30 in.	\$5.00
CREEK (Washington 1932) Deep rose overlaid on yellow; strong yellow signal; center of flower lighter yellow; beautiful coppery blend.	\$5.00

DOROTHEA K. WILLIAMSON (Wmsn. 1918) Velvety purple flowers.	\$.50
ECRISTATA. A Louisiana iris of tan like red which is said to be especially good for breeding.	\$4.00
ELIZABETH WASHINGTON (Washington 1931) Velvety bright blue; small yellow signal; slightly cupped flower of good size; 30. in. H. M., A. I. S. 1933.	\$6.00
ESKA HOLT (Washington 1932) Cobalt blue with dark blue stripe down center of fall; orange line under lip; lovely. Sold out until 1935.	\$7.50
EUDORA (Washington 1932) Light violet blue with dark line in center of fall; orange signal; unusual; 30 in.	\$5.00
FLEXICAULIS. Louisiana iris; bright blue; white and yellow throat.	\$2.00
FOLIOSA. Large lavender-blue flowers; species.	\$.50
FULVA. Species from Southern States; bright coppery red.	\$.50
FULVA-Pale red. Louisiana iris of more delicate color.	\$2.00
FULVA-Very red. Louisiana iris of intense red; rare.	\$4.00
FULVA-Pink. Louisiana iris of pink tone; lovely; rare.	\$4.50
FULVALA (Dykes) Deep velvety red-purple; handsome.	\$.50
GEORGE WASHINGTON (Washington 1931) A fulva hybrid of clear Indian red; velvety fall; gorgeous.	\$5.00
GIGANTICAERULEA. Louisiana iris. Lovely shades of blue and lavender; very tall and handsome; strong grower.	\$4.00
GIGANTICAERULEA ALBA. A rare white form; beautiful.	\$6.00
GORMANI. Soft yellow iris from western coast; rare.	\$1.00
HALOKA (Washington 1933) The name which means sacred beloved is very fitting, for this is the finest beardless hybrid of rose-pink coloring that has been introduced; tall and well branched. 36 in. Stock limited. 1935 delivery.	\$10.00
HOKKERI. Blue flowers; nice for rock garden; 18 in.	\$1.00
HEXAGONA. Large lavender flowers with bluish cast.	\$1.00
KIMBALLIAE. Native of Florida; deep rich purple; rare.	\$5.00
KATHRYN KNOX (Washington 1932) A fulva-hexagona hybrid of deep velvety richness, the color being a dark dahlia-red.	\$5.00
MCGREGOR (Washington 1931) Fulva hybrid of light yellow coppery red tones; three or more flowers on erect branched stalks; 32 in. H. M., A. I. S. 1933.	\$5.00
MANITOU (Washington 1932) A gorgeous maroon colored self with brown marking under lip; large flowers on tall stems.	\$5.00
MARY DOUGLAS (Washington 1931) A wonderful shade of clear pink of light tone; an unusual flower with long drooping falls; lovely.	\$6.00
MARY LOVE (Washington 1931) Pinkish lavender flowers of orchid shade; wonderful height, color and form.	\$5.00
MARY MORRIS (Washington 1931) A mixture of red, blue and yellow, giving the effect of tawny blue; unusual. Sold out until 1935.	\$5.00
MARTHA WASHINGTON (Washington 1931) The color is a rich velvety old rose, deepened by a slight brownish tone, the whole effect being a glorious deep red on tall erect stems. H. M., A. I. S. 1930	\$5.00

MARY WASHINGTON (Washington 1931) White and cream with yellow spot under lip, increasing to brown stripe; a creamy white; lovely.	\$5.00
MIKKATEE (Washington 1932) Largest flower of these hybrids; fully 5 in. in diameter and of reddish purple color; excellent.	\$5.00
NELLIE KIRKMAN (Washington 1931) Light bluish lavender; olive green signal; large slightly cupped flowers on tall straight stems. Sold out until 1935.	\$7.50
NEU BLUE (Washington 1932) Large bright blue lightly overlaid with lilac; deep purple line down center of fall; styles pinkish; a new color in irises.	\$5.00
OBANCA (Washington 1932) Deep cerulean blue with deeper line through falls; large flowers; glowing blue.	\$5.00
OKILISA (Washington 1932) Periwinkle blue self with dark central line on falls; yellow signal; beautiful; 30 in.	\$5.00
OSANA (Washington 1932) Bluish taupe overlaid with brownish markings; deep yellow signal and glowing yellow throat; delicate and unusual. 26 in.	\$5.00
RIVULARIS. A rare Florida species. Deep blue.	\$5.00
REBECCA WASHINGTON (Washington 1931) A pink iris with almost horizontal falls; this is the darkest of the pink irises; 6 flowers to a stalk; a beautiful variety.	\$5.00
ROSANNA HOLT (Washington 1931) Flower is rich velvety pansy-purple with small green signal; handsome. Sold out until 1935.	\$7.50
SARA CHEEK (Washington 1931) Most marvelous pink beardless iris that has been produced; a clear salmony pink; large flowers on erect 3 ft. stems. H. M., A. I. S. 1930.	\$6.50
SAGAMORE (Berry 1928) More red than Cacique; large signal.	\$8.00
SAVANNARUM. Species. Tall blue from the southern states.	\$1.00
SAVANNARUM ALBA. A southern iris of pure white; rare.	\$4.50
SAVANNARUM ROYALI. Southern iris of deep intense blue; very rare.	\$4.00
SEWANNE (Washington 1932) Pale grey-blue tinged with delicate lavender; large flower of fairy like beauty.	\$5.00
STELLA MAIN. A white form of versi-color; S. white lightly veined pale blue; styles pale blue-lavender; F. white; beautiful.	\$1.50
TASKONA (Washington 1932) Light yellow bronze with copper toned edge; lighter and more yellow than fulva; lovely.	\$5.00
THOMASII. Louisiana iris. Brilliant red-purple with bright golden crest; excellent.	\$2.75
TOLANA (Washington 1933) A luscious pink hybrid of splendid form, substance and texture; 36 in. Stock limited, 1935 delivery.	\$10.00
TRIPETALA. Southern iris of blue-purple; very rare.	\$3.00
VERSI-COLOR. Our native blue iris.	\$.50
VERSI-COLOR VIRGINICA. A southern form.	\$1.00
VERSI-COLOR KERMESIANA. Claret-red flowers; rare and lovely.	\$2.00
VIRIDIS. Louisiana iris. Light violet; lanced shaped golden crest; rare.	\$4.00
VIOLIPURPUREA. Louisiana iris. Large flowers; violet purple; bright yellow crest; one of the best.	\$2.50

VINICOLOR. Louisiana iris of great beauty; deep wine-red; large flowers of velvety substance; good parent.	\$1.50
WAHALLE (Washington 1933) An Indian name, which means the South. A glorious flower of salmon pink, distinctive and very lovely. 34 in. Stock limited, 1935 delivery.	\$10.00
WENA GOODALL (Washington 1932) White heavily veined with rose giving a color effect of deep rose; very lovely. 40 in.	\$5.00
YANEKA (Washington 1933) A beautiful blue of intense coloring. It is in these Washington hybrids that we find the true blue tones. 3 ft. Stock limited, 1935 delivery.	\$10.00
YAZOO (Washington 1932) A lovely flower of greyish mauve with brownish line under lip; excellent. 2 ft.	\$5.00
YELLOW FULVA. An exceedingly rare Louisiana iris of rich golden yellow; said to be the only yellow native iris; beautiful.	\$12.50

Growing in my garden are several hundred of the Washington hybrids of the Southern irises, which are much more hardy and beautiful than the species, but are too similar to some of the named hybrids, to be registered and introduced, but for mass planting and garden effect they are delightful. Seedlings, in selected colors, **each \$1.50 or 10 for \$12.00.**

Siberian and Orientalis Group

Species and Hybrids

These interesting irises are closely related and by crossing there have been produced many splendid hybrids which surpass their parents in size, beauty, height and form. They are the most graceful and fairy like of all irises. Plant two inches deep in good slightly acid soil. Prepare the beds in the same manner as for the Southern irises and give them light covering in winter.

AHALYA (Nesmith 1932) A beautiful Siberian of a distinctly pink tone.	\$5.00
ANN STAHLMAN (Washington 1931) Pale blue self; heart shaped falls. An elf like flower with dainty foliage.	\$2.50
BLUE CHARM (Sass 1931) Large intense blue; tall.	\$1.50
BLUE FLAME (Clev. 1927) Brilliant sky blue; perfect form.	\$2.00
BLUE HERON (Clev. 1927) Blue-violet with white styles.	\$1.00
BLUE OWL (Clev. 1927) Rich blue; shaded white center.	\$1.00
BLUE RIDGE (Clev. 1927) Flaring flower of clear blue with turquoise center; fringed stigmas; exquisite.	\$1.50
BLUE STAR (Clev. 1927) Star shaped flower; deep blue.	\$.50
BLUE WINGS (Clev. 1929) Large flower of clear blue.	\$1.50
BOB WHITE (Clev. 1925) Pure white; no veining; tall.	\$.75
BUTTERFLY (Clev. 1920) White flushed soft blue.	\$.40
BULLEYANA. Species. Large blue-purple flowers; rare.	\$1.25
CAESAR (Morg. 1924) Dark blue-purple; large flowers; rare.	\$2.00
CHRYSOGRAPHES. Species. Deep velvety red-purple with brilliant gold markings; rare and handsome.	\$1.50
DRAGONFLY (Dykes) Blue with white background.	\$.40
EMPEROR. Large flower; deep violet; excellent.	\$.35
LACTEA. Dainty butterfly like flowers of purest white; many flowers in bloom at same time; should be in every collection.	\$1.50

FLORRIE RIDDLER (Per. 1920) Large flowers of exquisite blue.	\$.50
GRANDIS . S. deep violet; F. white with colored veining.	\$.50
KINGFISHER BLUE (Wal. 1924) Bright blue; one of the best.	\$.50
LITTLE BOY BLUE (Clev. 1932) Lovely velvety blue shaded darker at the edges; much admired; rare.	\$3.00
LLEWELLYN (Clev. 1929) Large flowers of soft blue; excellent.	\$2.00
MORNING MAGIC (Clev. 1932) Pinkest of the pale lavenders; has 6 or 7 flowers on a stalk; frequently throws blooms at end of season; one of the best.	\$5.00
MILDRED STAHLMAN (Washington 1931) Pale china blue flowers of large size with horizontal falls; charming in every way.	\$2.50
MOUNTAIN POOL (Clev. 1932) A beautiful new iris strongly recommended.	\$5.00
MISS DULUTH (H. P. Sass 1933) Delightful tall Siberian of great size.	\$1.50
MRS. ROWE (Per. 1923) Delightful lavender-pink.	\$.60
NATICK (Gage 1933) A large beautiful clear blue of fine form and height.	\$4.00
OTTAWA (Morg. 1928) Large flowers of brilliant violet-purple conspicuously edged white, rare and lovely. Fall delivery.	\$4.00
ORIENTALIS . Rich blue; good for landscape.	\$.25
OLD TOWN SEEDLING . Soft blue with marbled standards.	\$.75
OPAL BLUE (Sturt. 1933) A delightful new iris of clear sky blue; large flowers on medium stems; similar to Perry's blue in color but much larger; won prize Boston Show 1932.	\$2.00
PAPILLON (Dykes) Light blue; larger than Perry's Blue.	\$.40
PEGGY PERRY (Per. 1912) Ruffled blue; white center.	\$.40
PERIWINKLE (Clev. 1929) One of the best dark purples.	\$1.00
PERRY'S BLUE (Per. 1912) Sky blue; tall and lovely.	\$.40
PIGMY (Per.) Dark violet; good for front of border.	\$.35
PRISMATICA . American species; dainty flower of blue.	\$.50
RED EMPEROR (Sturt. 1924) Brilliant wine-red, veined blue.	\$3.00
RED RAIDER (Clev. 1927) Velvety red-purple; excellent.	\$1.50
ROYAL FLUSH (Clev. 1929) Deep purple overlaid with red.	\$4.00
SNOWCREST (Gage 1932) A beautiful tall white; large perfect flowers; the finest white I have ever seen.	\$5.00
SNOW QUEEN . Large white; excellent for landscape work.	\$.40
STURTEVANT HYBRID . Intense blue with red styles; excellent.	\$1.00
SUNNYBROOK (Clev. 1920) Alice blue; styles brighter.	\$.40
TRUE BLUE (Fry. 1919) Some consider it better than Perry's Blue.	\$.40
TURQUOISE CUP (Clev. 1927) Large turquoise blue flower; the loveliest flower of the group.	\$2.75
WHITE DOVE (Clev. 1927) Tall white of dainty form.	\$1.50

The following new Siberian irises are growing in the garden, but in too limited quantities to list. Prices and descriptions will be given upon application. **ABITIBI, GATINEAU, MADAWASKA, MATTAWIN, NIPIGON, PEMBINA, and REDEAU.**

Monspur and Spuria Group

This beardless group is not well known, but really contains some of the most attractive, delicate flowered irises of the genus. Most of them bloom after the peonies have passed and are a great addition to the garden.

Plant fully one inch deep, in rich slightly acid soil. Prepare beds the same as for Washington hybrids, and give light covering in winter.

A. J. BALFOUR. Intense blue monspur of fine form.	\$1.25
ALICE EASTWOOD (Bran. 1929) Magnificent ochroleuca hybrid of rich yellow.	\$10.00
AUREA. Lovely golden yellow; excellent in border.	\$1.00
CAMBRIDGE BLUE. Deep sky blue; one of the best.	\$4.00
DOROTHY FOSTER. Violet standards; falls lighter.	\$1.50
EUPHROSYNE (Washington 1931) A very bright clear blue of splendid shape and form; decidedly yellow signal on falls; several flowers open at one time; excellent. 40 in.	\$3.75
FAIRY WAND (Washington 1931) Old gold tinted with light blue; large flowers on tall erect stems, well above foliage; lovely.	\$7.50
GRAMINEA. Species from Europe; odor of ripe apricots; charming for flower arrangement.	\$.75
HALOPHILA. Species from Asia; grows in salt marshes.	\$1.50
HAZY HILLS (Washington 1931) A very delicate blue tinted with old gold; F. are slightly darker than S. Large flowers; tall.	\$5.00
INDIAN SUMMER (Washington 1932) Background of flower is white, veined with violet giving the effect of a self; extremely delicate and lovely; 4 ft.	\$5.00
LORD WOLSELEY. Blue-purple monspur.	\$.75
MONAUREA. Large flowers of deep clear yellow; tall.	\$1.50
MONNIERI. Golden yellow flowers of excellent form.	\$1.50
MRS. TAIT. Soft porcelain blue; good for massing.	\$.50
NATCHEZ (Washington 1932) Pale primrose yellow shading deeper toward throat; bright yellow blotch almost covers the fall; large spreading flowers; best yellow spuria yet produced.	\$12.50
NOTHA. Clear lavender-blue; excellent for massing.	\$.50
OCHROLEUCA. Species. Ivory white flowers with yellow blotch.	\$.50
OCHROLEUCA GIGANTEA. A large and tall form of Ochroleuca.	\$1.00
PREMIER. S. reddish purple; F. intense blue; lovely in garden.	\$3.50
QUEEN VICTORIA. Soft cream color, giving effect of old ivory.	\$3.00
SHELFORD GIANT. Immense creamy golden flower; one of the best.	\$3.00
SUNNY DAY (H. P. Sass 1932) A splendid tall gleaming yellow spuria of great beauty and form; outstanding. H. M., A. I. S. 1934.	\$2.00

Japanese Irises

This collection of Japanese Irises is considered one of the most authentic in New England. The greatest authority on this section of the iris family assisted me in checking the names and varieties, consequently I feel certain that they are true to name. The following list contains most of the choice kinds. Plant fully two inches deep, in rich, slightly acid soil, and water copiously during the growing season. Prepare beds the same as for Washington hybrids.

AAHMES (Nesmith 1932) Sgl. The flower has a white background, frosted and edged with exquisite pink coloring. 40 in.	\$3.50
ABNAKI (Nesmith 1932) Dbl. Large white, heavily brushed with pink-purple and veined with darker tone; superb. 41 in.	\$3.50
ALICE KIERNAN. White with blue misting on falls; rare.	\$2.50
AIR SHIP. (Chi. 1919) Sgl. Blending of blue-lavender and pink; lovely. 38 in.	\$1.00
AMETHYST (Chi. 1919) Sgl. Large wavy flower; soft lavender.	\$.75
AMORET (Nesmith 1932) A beautiful pink self, frosted with slightly deeper tone; the best pink. 39 in.	\$4.00
ASPASIE. (Vilm. 1905) Sgl. Soft mauve-blue tones.	\$1.00
ATLANTA (Kemp 1927) Dbl. Soft lavender-pink; beautiful.	\$1.25
AZURE (Chi. 1920) Dbl. Delicate mauve-blue; large flowers.	\$.75
BEAUTY (Chi. 1920) Sgl. Silvery white suffused blue; S. plum.	\$.75
BETTY F. HOLMES (Chi. 1930) Large white of excellent form.	\$1.00
BETTY JEAN CHILDS (Chi. 1926) Sgl. White faintly veined with orchid; lovely. 38 in.	\$.75
BLANC MIGNON (Nesmith 1933) Dbl. White flower of gardenia texture and finish; flat flower of medium size and height; lovely planted with Rose Mignon in front of border.	\$3.00
BLUE BELLE. Dbl. Intense deep blue.	\$.75
BLUE BIRD (Hal. 1889) Sgl. Uniform deep blue.	\$.75
BLUE DANUBE (Hal. 1889) Dbl. Deep indigo-blue.	\$.60
BLUE JAY (Hal. 1889) Dbl. Sky-blue with white center; lovely.	\$.50
BLUE WINGS (Chi. 1917) A splendid blue; rare.	\$2.50
BOKHARA (Chi.) Pink-purple touched with blue; rare.	\$1.00
BOBBIE SIPE (Kemp 1927) Sgl. White faintly lined blue.	\$1.00
CARLTON CHILDS (Chi. 1924) Sgl. Ivory-white veined plum.	\$1.00
CAROLINE G. CHILDS (Chi. 1924) Sgl. White, veined violet-blue; S. white and purple; exquisite. 38 in.	\$1.00
CARCASSONE (Nesmith 1932) A self of dainty pink-lavender tone; darker center; lovely for front of border. 34 in.	\$3.50
CATHERINE. Mauve-white faintly lined with rose; rare; lovely.	\$2.00
CHARLOTTE (Kemp 1927) A blending of blue and grey; dainty.	\$1.25
CIRCE (Vilm. 1903) Dbl. Blue-lavender changing to paler tone, giving the effect of many flowers of blending tones.	\$1.00
COLLINGWOOD (Kemp 1927) Sgl. Lavender-pink ground brushed with violet; S. edged with pink; beautiful color harmony.	\$1.50
CONSTANCE (Kemp 1927) Dbl. Grayish pink background suffused rose-pink; beautiful.	\$2.00
CORNELIA (Kemp 1927) Sgl. White flower veined blue-lavender.	\$1.50
DAY DREAM (Kemp 1927) Sgl. Large flower; delightful pink.	\$1.50
DAISY HERRINGTON (Chi. 1926) Sgl. Pink overcast with blue.	\$.75

DELLA (Chi. 1924) Charming flower of pale wisteria-violet.	\$.75
DELLA ROBBIA (Nesmith 1933) Dbf. Real sky-blue flower; small yellow markings in center, surrounded by white; the rest of petals beautiful clear blue; styles are white tipped with blue. The finest blue I have ever seen.	\$4.00
DELIGHT (Chi. 1925) Gorgeous deep blue self; tall.	\$.75
DISTINCTION (Chi. 1914) Light lavender-pink; handsome.	\$1.00
DREAM . Sgl. Large white, lightly veined; S. violet edged white.	\$.75
DRESDEN BLUE (Nesmith 1933) Sgl. Deep Alice blue self; white at throat; pale blue lines extending down petals; S. white edged pink-lavender; styles the same; a gem.	\$3.50
ETHEL MARSHALL (Chi. 1926) Sgl. Ash grey with violet-blue markings; S. reddish purple; styles pale lavender; lovely.	\$.75
FASCINATION (Chi. 1926) Dbf. Pink-lavender tone; very large.	\$.75
FIRST LOVE . Dbf. Soft deep mauve with blue halo; pink edge.	\$1.50
FLYING CLOUD (Nesmith 1933) Grey falls delicately lined with blue-purple; S. red-purple; styles blue-purple. The whole flower is suffused with glistening, frosted lavender; exceedingly lovely.	\$4.00
GANYMEDE (Vilm. 1923) Dbf. A beautiful pink iris; very rare.	\$2.50
GEKKA-NO-NAMI (Chi. 1928) Dbf. Large tall white; excellent.	\$1.00

YAMA YAMA (Chi. 1928) Sgl. White overlaid with blue; crinkled.	\$1.00
ZAMA FOREST. Porcelain blue and white; faintly lined.	\$.75

Oriental Poppies

Best of the American and Foreign Varieties.

CULTURE. Poppies are best planted during their dormant season or early fall growth, which is from August 1st to October. Choose strong Field Grown stock, not pot grown varieties. Plant crowns 2 in. deep in good garden loam, be sure that the ground does not settle and leave a hollow over the crown in which water may stand during winter. After first real freeze give green leaves a light mulch of excelsior or marsh hay.

ALLUMEUSE (Gage, Nesmith 1934) A splendid new poppy of deep flaming pink, with strong sturdy growth and upright habit. A Lulu Neeley hybrid and one of the most brilliant in the garden.	\$5.00
AMUN RA. A new red-orange. 30 inches high; bloom 9 inches across; fine stiff stems.	\$1.50
APRICOT QUEEN. True apricot; large silky petals.	\$.50
ATROSANGUINEA MAXIMA. Large dark red; good breeder.	\$1.00
BARR'S WHITE. A splendid new white with satiny sheen.	\$1.50
BEAUTY OF LIVERMORE. Deep ox-blood red; excellent.	\$.75
BOBS. Extra large flowers of glowing salmon-rose. An English introduction of great beauty. Fall delivery.	\$2.50
BRACTEATUM. Large blood-red flower, shaded orange; good parent.	\$1.00
BRIGHTNESS. Light orange heavily touched with scarlet; good.	\$.75
CAVALIER. A beautiful Neeley hybrid of glowing cerise; extremely large flowers on tall strong stems; excellent.	\$10.00
CERISE BEAUTY. Large beautiful cerise-pink flowers.	\$.50
CERISE BEDDER. Dwarf. Glowing orange, Perry hybrid	\$1.50

CERISE DWARF. Lovely cerise-red for front of border.	\$1.00
COL. BOWLES. One of the finest poppies to date; extremely large flowers of glowing deep cerise; sturdy stems.	\$4.00
CORAL CUP. A beautiful six petaled poppy of real pink coral tone; velvety rose-purple stamens; almost no basal blotch; exceedingly tall and a late bloomer. Was one of the most admired poppies of last year. One of my own introductions.	\$5.00
COUNTESS OF STAIR. A lovely English variety of recent introduction; delicate shade of soft salmon-rose. Fall delivery.	\$3.00
DAINTY LADY. The softest shade of shell pink; new and rare.	\$2.50
DELICATA. Old rose pink; silky texture; best in half shade; lovely.	\$1.00
DUKE OF TECK. Light crimson flower of great beauty.	\$1.00
E. A. BOWLES. Pale apricot and shell pink; crinkled petals.	\$1.00
ECHO. A Neeley hybrid of delightful silvery pink having a frosted sheen that gives the flower great charm; excellent.	\$12.00
EDNA PERRY. A bright glistening pink of good form.	\$1.00
EMPRESS OF INDIA. Deep red flowers of great beauty. Rare.	\$3.00
ENCHANTRESS. A Neeley hybrid of soft lilac-rose coloring; an improved Masterpiece and extremely popular; rare.	\$12.00
ENFIELD BEAUTY. Beautiful salmon with maroon base.	\$.50
ETHEL SWETE. One of the finest English introductions; brilliant cherry-pink with black markings at base of petals; new.	\$2.50
EXCELSIOR. Attractive orange-scarlet flowers.	\$.50
FLANDERS. Maroon shaded crimson; rare and well liked.	\$1.00
FLUSH OF DAWN. A cup shaped bloom of pure pale pink; no markings in center of the flower; crinkled petals that greatly add to the beauty of the blossom; much admired. My introduction.	\$2.50
GERALD PERRY. Large flowers of apricot pink; crimson blotch.	\$.75
GOLD OF OPHIR. A magnificent hybrid from Dr. Neeley of golden yellow coloring. This is the first poppy of distinct golden tone. A great favorite.	\$7.50
GOLDSCHMIDT. Orange scarlet; dwarf.	\$.75
GIANT. Orange-scarlet flowers of huge size.	\$1.00
GOLIATH. Rich soldiers-scarlet flowers; strong stems.	\$1.00
GRAND DUKE. Similar to Grossfurst but a better grower.	\$1.00
GRAND MOGUL. Mammoth deep red flowers; sturdy stems.	\$.75
GROSSFURST. Deep crimson; coal-black spots; excellent.	\$1.00
HARMONY. A very rare and beautiful poppy of deep rose color overcast with lavender.	\$3.00
HENRI CAYEUX. Old rose shading into burgundy; unusual and very lovely; half shade.	\$1.00
HERCULES. Immense glowing red flowers; four petaled.	\$1.00
JEANNIE MAWSON. Peach pink; large flowers; lovely.	\$.50
JOYCE. One of the finest; cerise and old rose.	\$.50
JUNE DELIGHT. A Neeley hybrid; a magnificent flower of bright silvery pink which improves with age; more popular than the famous Lulu Neeley; new and rare.	\$20.00
KING GEORGE. Large fringed flowers of brilliant red.	\$1.00
LADY MOORE. A beautiful soft rose flower; new and rare.	\$1.50

LACHS KONIGEN. Peach-red flowers overcast with pink; distinct and new.	\$1.00
LADY ROSCOE. A large well formed poppy of delightful apricot-rose. New and rare.	\$3.00
LEON LAURENT. A poppy of clear wine-red; new	\$1.50
LIGHTNESS. Strong grower; pleasing soft rose; ruffled petals.	\$1.00
LITTLE JEWEL. Salmon color, touched with blush.	\$1.00
LITTLE PRINCE. An attractive scarlet; half dwarf.	\$1.25
LORD LAMBOURNE. Deeply fringed parrot tulip type; Mr. Perry considers this one of his best reds.	\$1.00
LULU NEELEY. Considered by all the best dark red that Dr. Neeley has introduced.	\$1.75
MAGNIFICUS. A new deep scarlet poppy; lovely.	\$1.50
MANCHU'S FAN. A symphony in green and glowing red; very large oval flowers with green bracts extending up and around the blooms giving them a delightful cup-shaped appearance entirely different from any other poppy. Strongly recommended.	\$5.00
MANDARIN. A gorgeous poppy of real Chinese red. Exceedingly large flowers on tall strong stems. One of the best of this coloring.	\$1.50
MAHONY. Large flowers; mahogany-purple; unusual and very good.	\$.50
MAHONY AMELIORE. A new poppy of richer coloring than Mahony; very rare and lovely.	\$1.00
MASTERPIECE. A magnificent poppy of soft lilac-rose; best grown in half shade.	\$1.00
MAY QUEEN. Double poppy; orange touched with scarlet.	\$.75
MAY SADLER. Large salmon pink; black markings at base.	\$.50
MAY SADLER. This is a direct importation and is quite different from the poppy usually under this name in America. A pale crushed raspberry pink, slightly fringed petals, exceedingly lovely and strongly recommended.	\$1.50
MENELIK. Definite orange; black spots.	\$.75
MRS. BAKER. New poppy of dark red without sheen; lovely.	\$.75
MRS. WILLIAM BORSCH. Exceedingly large flowers of deep red borne on tall stout stems; rare and of great beauty.	\$1.50
MRS. FISHER. Extra large deep crimson flowers; 4 ft.; rare.	\$.75
MRS. HEENK. Rare poppy of beautiful rose coloring.	\$1.50
MRS. J. HAWKINS. One of the best pinks; free flowering.	\$1.50
MRS. PERRY. Lovely salmon pink.	\$.50
MRS. STOBART. New English poppy of soft old rose coloring; considered the finest poppy to date; rare and excellent.	\$2.00
NANCY. Rich glowing rose-red. Mr. Perry considers this one of the finest; free bloomer.	\$1.75
NEELEY'S PINK. A lovely new poppy of medium pink; a free bloomer; new and rare.	\$1.50
NEGRILLON. Vivid carmen; new and excellent.	\$1.00
OLYMPIA, Flame-scarlet; double flowers; unusual.	\$.50
ORANGE QUEEN. One of the finest orange-reds.	\$.75
ORRIFLAME. Exceedingly attractive orange-scarlet flowers.	\$.50

PARKMANI. A very rare and gorgeous red poppy. The original stock was given to Mr. Robert Jackson in 1887, by Francis Parkman, and it is with the consent of Mr. Jackson that I am introducing this poppy. Strongly recommended.	\$4.00
PEARL PINK. A very new and distinct delicate shade of light pearly pink, vigorous and prolific. Makes a wonderful garden group with blue Iris. Medium size and height.	\$2.50
PERFECTION. Deep shade of pink, large flowers.	\$1.00
PERRY'S FAVORITE. Tulip shaped flowers of salmon-rose.	\$2.00
PERRY'S BLUSH. A poppy of rare beauty; blush-white flowers borne on tall sturdy stems; a gem.	\$3.00
PERRY'S WHITE. Satiny white; maroon at base of petals.	\$.60
PETER PAN. A dwarf variety of scarlet-cerise; large flowers; excellent for front of border; well liked; new.	\$1.00
PINK BEAUTY. Large clear pink with black base; very good.	\$.60
PINK CLOUD. A lovely pale pink of great beauty and form; delicate maroon blotch at base of petals. This poppy was greatly admired by all garden visitors in 1932. One of my own introductions. Well described by the name.	\$5.00
PINK RADIANCE. One of my own hybrids; a gorgeous deep pink; unusual beauty and form.	\$1.50
PRINCE OF ORANGE. Distinct orange flower of great beauty; rare.	\$2.00
PRINCE OF WALES. Bright salmon pink; large; new.	\$1.50
PRIN. ENA. Tulip shaped flowers of salmon pink; lovely.	\$.50
PRIN. MARY. Large ruffled blooms of salmon-pink, rare and beautiful.	\$2.50
PRIN. VICTORIA LOUISE. Delicate shade of salmon pink; lovely.	\$.50
PROSERPINE. Chinese red; decidedly black center; gorgeous.	\$1.25
PSYCHE. Light old rose coloring; rare.	\$2.00
PURITY. A pure soft pink without spot or blemish; flowers of great beauty and unusual charm. A Neeley hybrid.	\$8.00
QUEEN ALEXANDRA. Light pink of good size and form.	\$.75
RED LACQUER. A new deep rich red. 44 inches high; bloom 9 inches across; fine stiff stems.	\$2.00
RED FLAME. Another new poppy bred by Dr. Neeley. A tall growing clear red of great beauty.	\$5.00
REGGIE PERRY. Slender stems with many tulip shaped flowers of soft salmon rose; new and rare.	\$1.50
REMBRANDT. Large orange-scarlet flowers of great beauty.	\$.75
ROSE QUEEN. The true stock of this variety is very scarce. Delicate silvery old rose of great beauty and form. Strongly recommended.	\$2.50
ROSALIE. A beautiful flower of deep rose pink. Strong sturdy stems. Makes a very brilliant and pleasing planting. My introduction for 1934.	\$3.00
ROSE GLORY. A charming new poppy raised by Dr. Neeley, and fittingly described by the name.	\$6.00
ROYAL SCARLET. Brilliant flowers of exceeding beauty.	\$.75
RUBY PERRY. Slender rigid stems bearing tulip shaped flowers of delicate apricot; lovely and rare.	\$1.00

SALMON KING. An excellent salmon poppy of medium height.	\$1.25
SALMON QUEEN. Of similar coloring to the above but not as large.	\$.50
SASS PINK. A hybrid of delicate flesh pink; large flowers of crepey texture; light grey-mauve center; especially well liked.	\$1.00
SILVERBLICK. Salmon pink with delicate base markings; lovely.	\$.50
SILVER KING. A glistening silver-white of delicate beauty and form; true stock rare; one of the best; half shade.	\$2.50
SILVER QUEEN. A new and especially pleasing variety of silvery coloring.	\$6.00
SPOTLESS. Beautiful pink; well described by the name.	\$.75
STURTEVANT PINK HYBRID. Unusual shade of deep pink; rare.	\$1.00
SUNNY JIM. Semi-double flowers of clear scarlet-orange.	\$.75
SURPASSETOUT. An excellent red; a great favorite.	\$1.00
TANAGER. A radiant deep red of extreme height and beauty. The flowers have no orange tone and will not clash with other flowers. Selected as the finest red of last year by garden visitors. My introduction.	\$4.00
TANGEE. A clear pure orange poppy with no base spots; tall and of great beauty. This was selected last year by experts as the finest orange poppy; does not clash with other colors. Another of my introductions.	\$5.00
THORA PERRY. Lovely delicate white flowers borne on rigid slender stems; flowers are invaluable for cutting; rare.	\$2.50
TRILBY. Very dark red flowers with crinkled petals; a late bloomer and one of the finest; rare.	\$3.00
TULIPA. Beautiful cup shaped orange-pink flowers.	\$.75
WATTEAU. Pure flesh-coral; profuse bloomer; lovely and rare.	\$1.50
WELCOME. Deep scarlet, shaggy petals; black center; excellent.	\$1.50
WUNDERKIND. Large flowers of brilliant carmine-rose. New and a great favorite.	\$1.00
WURTEMBERGIA. Enormous cerise-scarlet flowers of great beauty.	\$1.25

Meconopsis

A rare and lovely race of plants that require a shady spot. Give good drainage and plenty of leaf mold.

MECONOPSIS, BAILEYI. A glorious poppy-like perennial with large flowers of sky-blue coloring, borne on 3 ft. stems. Large open flowers of great charm and beauty.	Each \$.75, Dozen \$7.50
MECONOPSIS, PANICULATA. Beautiful primrose yellow flowers, often five inches in diameter; biennial.	Each \$.50, Dozen \$5.00

Semperbivums

We have growing for display about fifty varieties of the more rare and unusual ones. Prices and descriptions sent upon application.

Chrysanthemums

These hardy chrysanthemums are indispensable, providing bloom in the garden during autumn months. Prices and descriptions sent upon application.

Hemerocallis

SPECIES AND RARE HYBRIDS

The following list includes most of the species and a critical selection of the newer and rarer hybrids of American and foreign introduction. Detailed discussion of their great garden value will be found in the Foreword of this catalogue.

CULTURE. They may be planted in either spring or fall, I personally like fall planting. Plant about 3 in. deep in rich garden loam. If soil is light and sandy, it should be improved by the liberal addition of well decayed cow manure, well mixed with humas and rich soil. In making new beds follow directions found under Beardless Irises. After ground has frozen, give a light mulch for winter protection.

- H. AJAX** (Ruys) Plant is taller than Tangerine with deep orange-apricot colored flowers. One of the earliest to bloom. 30 in. Fall delivery. **\$2.50**
- H. AMARYLLIS** (Betscher) Beautiful large golden orange flower; slightly deeper in throat; recurving petals; sepals heavily ridged; 3 ft.; July-August. **\$1.00**
- H. ANNA BETSCHER** (Betscher) Deep orange touched with red-bronze; large flower; excellent; 3ft.; July-August. **\$2.00**
- H. APRICOT** (Yeld) Light orange flower of medium size; excellent form; fragrant; 2 ft. A. M., R. H. S. 1893; May. **\$.50**
- H. AUREOLE** (Japan) Orange-yellow flower of good size 3 ft.; May-June. **\$1.00**
- H. AURANTIACA.** Bright orange flowers; fragrant; 3 ft.; July **\$.50**
- H. AURANTIACA, MAJOR.** Deeper in color than Aurantiaca; 2½ ft.; July. **\$.75**
- H. BARDELEY** (Perry) Bright reddish orange-copper and apricot blend of large size; medium yellow throat with yellow lines extending down petals; sepals, a blending of orange-copper and deep yellow; flower slightly ruffled; beautiful; 3 ft.; June-July. Fall delivery. **\$6.00**
- H. BARONI.** A trumpet shaped flower of pleasing yellow; fragrant and a true evening bloomer. 3 ft.; July-August. **\$1.75**
- H. BAY STATE** (Betscher) Large deep yellow blooms; delightful fluted petals; a persistent bloomer; 3 ft.; July-August. **\$1.50**
- H. BURBANK** (Burbank) An exceedingly rare hemerocallis, produced by Mr. Luther Burbank. Bright lemon colored flowers, with long tube, the petals spreading flat and broadly. Long flowering period. **\$3.00**
- H. BYNG OF VIMY** (Perry 1933) Perry's description. "The most outstanding variety of recent introduction, stout arching stems, 4 ft high, large loosely arranged flowers, 7 in. across, a striking shade of dark terra-cotta, overlaid bronze, deep orange base". It really is old rose in color, the flowers have long and slender petals, giving it a beautiful exotic appearance. Rare and extremely lovely. June-July. Fall delivery. **\$10.00**
- H. CALYPSO** (Burbank) Clear lemon-yellow flowers of large size; much admired; 3½ ft.; July-August. **\$1.00**
- H. CHRYSOLORA** (Perry) A new variety in America. The flowers are a delightful shade of apricot-yellow. Fall delivery. **\$4.00**

H. CINNABAR (Stout) Brownish red in color; cadmium yellow throat; recurving petals; outer half sprinkled with rose-brown; medium flower; very lovely. 2½ ft.; July-August.	\$2.00
H. CISSY GUISEPPI (Perry) This is an entirely new break in color and of great beauty. A deep coppery rose-red flower with pale yellow throat and narrow yellow line extending down each petal to within half inch of the edge. Reflex of petals, red and green; almost an ox-blood red. Flowers of medium size well borne on good stems. I strongly recommend this variety. 2½ ft.; June-July; Fall delivery.	\$6.00
H. CITRINA (Citron Day Lily) Pale sulphur yellow flowers borne on tall stems; a true evening bloomer. 4 ft.; Aug.-Sept.	\$.75
H. CRESSIDA (Betscher) A beautiful and unusual flower of deep orange with reddish band on petals; 3 ft.; August.	\$1.25
H. CROWN OF GOLD (Nesmith) A very clear deep orange flower of great beauty; large open flowers on tall stems, making a brilliant garden subject; 3 ft.; May-June.	\$2.50
H. DAWN (Perry 1933) Large bell-formed flowers, nearly 5 in. across, a pleasing shade of rose buff, the petals are conspicuously tipped crimson, sulphur-yellow base. June-July. Fall delivery.	\$7.00
H. D. D. WYMAN (Betscher) A superb golden-yellow with tawny splash on each petal; the background of the flower changes to a soft yellow; excellent. 2½ ft.; July-August.	\$1.25
H. DR. REGEL . Pure orange yellow; very fragrant; 2 ft.; May.	\$.50
H. DUMORTIERI . Rich cadmium yellow; 2 ft.; May-June.	\$.50
H. E. A. BOWLES (Perry) "This variety is of outstanding merit and one of the largest and most beautiful" (Gardeners' Chronicle. Eng.) A rich deep reddish-orange, blended with paler orange; light orange midrib on petals and sepals. Open flower with ruffled petals. The whole flower makes one think of Etruscan Gold. One of the newer hybrids and strongly recommended; 4 ft.; June-July; Fall delivery.	\$8.00
H. ESTMERE (Yeld) Apricot-yellow of charming shade; overlapping divisions; reverse of sepals orange-brown; 2½ ft.; June-July; Fall delivery.	\$2.00
H. FLAMID (Yeld) Broad foliage; stout stems, many medium sized flowers of orange-yellow; bronze reverse; Fall delivery; 2½ ft.; June-July.	\$2.00
H. FLAVA . Clear lemon-yellow; fragrant; excellent for landscape work; 3 ft.; May-June.	\$.25
H. FLAVINA (Fewkes) A charming new and dainty flower, quite distinct from any other hemerocallis and a delightful rock garden subject; it grows only about a foot in height and has bright lemon flowers with broad petals. This was bred by the celebrated peony expert Mr. Fewkes; his experience in floriculture and care in hybridizing assures one that anything which he allows to be introduced is very much worthwhile.	\$3.00
H. FORRESTI A newly introduced and rare species from China. The flowers are rich yellow in color; the plant of dainty growth and form; Fall delivery.	\$10.00
H. FULVA . Reddish-orange flowers; good en masse for landscape.	\$.25
H. FULVA, Maculata . Deeper color and larger; excellent; 4 ft.; July.	\$1.00

H. GAY DAY (Nesmith) Well formed soft yellow flowers with great substance and beauty, borne on sturdy stems of good height. The last to bloom in my garden; Aug.-Sept.; 3 ft.	\$5.00
H. GEORGE YELD (Perry) Considered by Mr. Perry as one of the most beautiful hybrids. Large open flowers; petals flushed and mottled orange-scarlet; sepals of rich orange; 3 ft.; July-Aug.	\$2.00
H. GOLD DUST. Empire yellow flowers; 2 ft.; May-June.	\$.50
H. GOLCONDA (Farr) Chrome yellow; large flowers; 50 in.; July.	\$1.00
H. GOLDEN BELL (Ruys) Large flowers of soft apricot-orange with darker throat, recurved petals; fluted; fragrant; 3 ft.; July-August.	\$2.00
H. GOLDEN DREAM (Betscher) One of the latest to bloom. Deep golden yellow; well recommended; 3 ft.; August.	\$2.50
H. GOLDENI (Betscher) Beautiful smooth deep orange; 3 ft.; July.	\$1.50
H. GOLDEN WEST (Sass) Splendid large orange-yellow flowers on tall stems; excellent.	\$4.00
H. GOLD IMPERIAL (Perry) Attractive deep shade of yellow; half trumpet shaped flowers borne on tall stems. The bloom is slightly ruffled; reflex of flower is greenish yellow. Long season of bloom. Thought well of in Eng. Fall delivery; 3 ft.; July-September.	\$7.00
H. GRACILIS. Dainty foliage; flowers lemon-yellow; 1½ ft.; July.	\$1.00
H. GOLD STANDARD (Perry) "Abundance of graceful foliage, stout black-purple stems bearing large well opened flowers of rich canary-yellow." (Perry's description.) Unusual and delicate. 3 ft.; July-August; Fall delivery.	\$5.00
H. GYPSY (Betscher) Orange-yellow flowers of great substance borne on tall graceful stems; Aug. to Sept.; 3½ ft.	\$1.50
H. HYPERION (Mead) Waxy, firm flowers of soft canary yellow. "It surpasses other hemerocallis in size, form, color and substance; is equalled in texture only by the hybrid H. Royal." A. M., R. H. S. 1931; 3½ ft.; July-August.	\$3.50
H. HARVEST MOON (Betscher) Flowers are delightful clear orange-sherbet; petals slender and graceful; 3 ft.; July-Aug.	\$1.50
H. IMPERATOR (Perry) Another beautiful English hybrid with large open star shaped flowers, 5 to 6 in. across, with pointed segments; rich orange-red, lined with sulphur; deep orange base. A brilliant color. July-August; 3 ft.; Fall delivery.	\$6.00
H. IRIS PERRY (Perry) An abundance of stout gracefully arching foliage from which arise many stout, branching spikes which bear a profusion of large open flowers of a distinct bronze-orange. Much liked in Eng. 3 ft.; July-September.	\$3.50
H. J. A. CRAWFORD (Betscher) Best apricot-yellow; very open flowers of great beauty; 3 ft.; July-August.	\$1.75
H. J. R. MANN (Betscher) A glistening, large open flower of frosted apricot and yellow; the true variety is one of the most handsome of these hybrids; strongly recommended; 3½ ft.; July-August.	\$1.50
H. KWANSO FLORE PLENO. Double; orange-copper flowers of great garden value; 3½ ft.; July-September.	\$.50

H. KWANSO FLORE PLENO. Fol. var. Similar to the above but with variegated foliage; extremely rare; 3½ ft.; July- Sept.	\$2.00
H. LADY F. HESKETH (Perry) Bold open flowers of rich apricot-yellow, borne on tall branching stems. Another of English origin and sparkling beauty; 4 ft.; A. M., R. H. S. Fall delivery. Net.	\$6.00
H. LEMONA (Betscher) Pale lemon-yellow; graceful flowers on tall stems; 3½ ft.; July-August.	\$1.00
H. LEMON KING (Betscher) One of the best pale yellow hybrids. A lemon self with a decided raised midrib on the wax like petals; whole flower is slightly fluted; 4 ft.; July-August.	\$1.25
H. LEMON QUEEN. Graceful and lovely yellow; 3½ ft.; July.	\$0.75
H. LUTEOLA, MAJOR. Splendid orange-yellow; free flowering; 3 ft.; July-August.	\$1.00
H. LOVETT'S LEMON. Tall lemon-colored variety; 4 ft.; July.	\$1.00
H. LOVETT'S ORANGE. Bright orange; free flowering; July.	\$1.00
H. MARGARET PERRY. Is one of the most persistent flowering hybrids, producing an abundance of well branched spikes of brilliant orange-scarlet flowers, lined with yellow and yellow in cup of flower; excellent; 4 ft.; July-August.	\$2.50
H. MANDARIN (Farr) Lemon yellow; bell shaped; 4 ft.; July.	\$1.00
H. MIDDENDORFI, MAJOR. Orange-yellow; open flower; 2 ft.; June	\$0.75
H. MIKADO (Stout) Large flowers of mellow orange; center of each petal has an area of dark red-purple which greatly adds to brilliancy of the flower; 2½ ft.; June-July.	\$2.00
H. MINOR. A delicate and slender variety, with foliage more slender and flower scapes shorter than those of H. Flava. Especially nice for front of border or in the rock garden. Flowers, pale lemon-chrome. 1½ ft. June.	\$1.00
H. MOONSTONE (Perry 1933) A delightful flower of brilliant reddish-orange with a cream colored zone in the cup of the flower. Unusual and handsome. 3 ft. June-July. Fall delivery.	\$7.00
H. MODESTY (Betscher) Large pale yellow self; raised midrib on reflexed petals; very lovely; 2½ ft.; June-July.	\$1.75
H. MRS. A. H. AUSTIN (Betscher) Large flowers of deep golden yellow; an especially fine variety. July-August.	\$1.50
H. MRS. J. R. MANN (Betscher) Beautiful deep yellow; very large flaring flowers; petals fluted and ridged; sepals flaring. Whole flower is illumined with a faint reddish-orange glow; especially fine; 3 ft.; July-August.	\$1.50
H. MRS. PERRY (Perry) A most delightful flower with long wavy, deep yellow petals, having almost a fluted appearance. Tall and stately. 4 ft.	\$3.50
H. MRS. W. H. WYMAN (Betscher) The true variety is a pale glistening yellow and is one of the last to bloom; has great garden value; 3 ft.; August-September.	\$1.50
H. MULLERI. An English importation. Stout stems, bearing a profusion of well formed flowers of rich glowing yellow; 2½ ft.; June-July; Fall delivery.	\$4.00
H. NOCERENSIS. Large clear open flowers of canary-yellow; petals ruffled; sepals with smooth waxy finish. An English variety of great beauty. 3 ft.; June-July; Fall delivery.	\$4.00

H. OCHROLEUCA. Large pale yellow flowers of delicate beauty. Blooms in evening and is of good garden value; 3 ft.; August.	\$1.00
H. OLIF. A new hemerocallis hybrid of pleasing yellow color. 3 ft.	\$1.50
H. OPHIR (Farr) Dark golden-yellow; large well placed flowers; 4 ft.; August.	\$1.00
H. ORANGE KING. This is well described by the name it bears. New and rare. 3 ft.	\$1.50
H. ORANGE MAN. I have this variety from Mr. Perry. Medium sized flowers of clear orange; a very useful dwarf variety; 2 ft.; June-July; Fall delivery.	\$1.50
H. PLICATA. New species from China. Medium sized flowers of deep canary-yellow. Excellent for rock garden; rare; 1½ ft.; Fall delivery.	\$10.00
H. QUEEN OF MAY. Deep yellow; wide open flower; petals fluted; flowers are touched at tips with faint reddish-orange; rare. The true variety is lovely; 2½ ft.; June-July.	\$1.00
QUEEN MARY (Perry) A new and beautiful variety with large open flowers of glistening orange-yellow; overlapping petals, which add greatly to the attractiveness of the variety, especially good; 3 ft.; June; Fall delivery.	\$5.00
H. RADIANT (Yeld) An English hybrid of great beauty; clear pure orange with no trace of Fulva blood; ranks next to Hyperion in quality and texture; large flower; 3 ft.; July-August.	\$2.50
H. ROSE QUEEN (Perry) Soft pale old rose background to petals which are lined with deeper rose; each petal has distinct pale yellow midrib; center portion of sepals yellow edged with old rose; center of flower, pale yellow; reflex of flower pale yellow; exquisite color combination and strongly recommended; 3 ft.; June-July; Fall delivery. Net.	\$8.00
H. ROYAL (Japan) A splendid variety of excellent texture and form; delightful yellow; similar in many ways to Hyperion. Slightly fragrant; 3 ft.; June-July.	\$1.50
H. RUTILANS. Slender grass-like foliage, many rich golden flowers; pretty and distinct; excellent for rock garden; 2 ft.; May-June; Fall delivery.	\$2.50
H. SALEM LILY. A type which is similar to H. Flava, but flowers a little later. This variety has been blooming in old Salem, Massachusetts gardens for more than one hundred years and is a great addition to the early June flowering kinds.	\$1.50
H. SHIRLEY. Many very large, flat funnel shaped flowers well carried on widely branching stems; pale apricot-orange blooms; wavy petals; superior variety; 3 ft.; July-August.	\$2.50
H. SEIBOLDI. A late flowering variety, with large rich yellow blooms; very handsome and late blooming. Fall delivery. 3 ft.	\$3.00
H. SIR MICHAEL FOSTER. Broad graceful foliage, stout stems bearing numerous large apricot-yellow flowers; petals ruffled; sepals smoothly finished and tipped with deep orange. One of the best; 3 ft.; July-August.	\$2.50
H. SIR WILLIAM (Perry) This English variety is of intense coloring, having rich orange-red flowers, the petals conspicuously lined with yellow. A very gay and festive flower; 2½ ft.; July; Fall delivery. Net.	\$6.00

H. SOVEREIGN. Medium orange-yellow flowers; fragrant; 2½ ft.; July.	\$1.00
H. SOUDAN (Stout) A clear lemon yellow; broad petaled flowers on 3 ft. stems; very floriferous; flowers have waxy margins; lovely; July.	\$2.00
H. SPRENGERI. Medium yellow; rare; 3 ft.; July.	\$2.00
STAR OF GOLD (Sass) Beautiful waxy flowers of palest yellow, large and star-like in form. One of the last to bloom and the finest of the delicate, almost white hemerocallis. Strongly recommended. 4 ft. August to Sept. 1st.	\$5.00
SUMMER EVE (Nesmith) This hemerocallis was greatly admired by garden visitors of last season. Medium cup-shaped flowers of pinky-orange, which toward night change to peach-pink apricot, giving the effect of two different tones of color on one plant. Very lovely in every way. July.	\$5.00
H. SUNKIST (Perry) Perfect flower of deep soft rose; center of each petal has distinct yellow line; just a flush of bronze overcasts the whole flower; free blooming and exceedingly lovely; 2½ ft.; June-July; Fall delivery. Net.	\$6.00
H. SUNNY WEST (Sass) A matchless new hybrid of pale canary-yellow. Immense flowers of wax-like substance borne on very tall stems. One of the last to bloom. I take great pleasure in introducing this beautiful variety; 50 in.; Aug.-Sept.	\$4.00
H. SUNSET (Perry) A glorious English introduction of crimson-copper shading to soft coppery rose; decided yellow midrib on petals; sepals an exquisite blending of copper and yellow; reflex of flower yellow tinged with copper. Well described by the name; 2½ ft.; June-July. Net.	\$6.00
H. TANGERINE. Deep orange; excellent for rock garden; 2 ft.; June. Net.	\$5.00
H. THE GEM (Betscher) Deep yellow; splendid substance; 3 ft.; June.	\$1.00
H. THUNBERGI. Pale yellow; sweetly scented; evening bloomer; 3 ft.; August.	\$.50
H. VESTA (Stout) Deep uniform orange-yellow, lightly touched with orange-red; glistening gold sheen; a treasure for front of border; 2 ft.; August.	\$2.00
H. VISCOUNTESS BYNG (Perry) This especially pleasing variety is of matchless beauty, having a soft silvery gray background overlaid with pale coppery rose giving an effect of rosy silver that is indescribable. Open well shaped flowers of good size and form; the reflex of petals is deep copper; 2½ ft.; June-July; Fall delivery. Net.	\$7.00
H. WAU-BUN (Stout) Uniform cadmium-yellow, outer half overcast delicate fulvous red; petals are large and broad; freely curving contour of petals is unique. Excellent; 2½ ft.; July-August.	\$2.00
H. WINSOME (Yeld) The name perfectly describes the flower which is a yellow of particularly appealing tone. One of the best that Mr. Yeld has produced; 3 ft.; June-July; A. M., R. H. S. 1931.	\$3.00

Rare Delphinium Hybrids

These delphiniums are from the stock of two most famous breeders, Dr. Leon H. Leonian and Mr. Charles F. Barber, and represent a most careful selection from their newest hybrids. (See Foreword).

THE LYONDEL HYBRIDS. A critical selection from these superb delphiniums in special colors or in assorted colors.

Each \$2.50, Dozen \$25.00

THE LYONDEL HYBRIDS. Strong flowering plants of excellent quality, much superior to most delphiniums.

Each \$1.00, Dozen \$10.00

THE HOODACRES HYBRID DELPHINIUMS

COMPLETE RANGE DELPHINIUMS. These are chosen from finest individual plants and represent most of the very newest and best varieties.

Each \$1.00, Dozen \$10.00

PAWNEE HYBRIDS. These are in medium shades, double flowers, most of them with white centers.

Each \$1.00, Dozen \$10.00

PEARL NECKLACE HYBRIDS. Beautiful white specimens with very little variation from the parent plant. These are the best whites in delphiniums.

Each \$4.50, dozen \$45.00

SHASTA HYBRIDS. Carefully selected plants with double flowers of dark coloring, most of them with dark centers.

Each \$1.00, Dozen \$10.00

SUNRISE PINK HYBRIDS. Especially chosen hybrids from a real pink delphinium. Rare and beautiful.

Each \$3.50, Dozen \$35.00

WHITE SISTER HYBRIDS. These are equal in beauty to the Pearl Necklace Hybrids and are especially desirable in every way.

Each \$4.50, dozen \$45.00
