shows that I denied the power of Congress as the representatives of the people, to legislate for the benefit of slaves.

It also shows that Mr. Cushing maintained the converse of this proposition.

It shows further, that he perturbed to my course on this subject, and to that of other members. And that Mr. Cushing vindicated his own course. I ask Mr. C. how he can answer for his conduct? He vindicates? No man who reads the report will hesitate in saying that he vindicated his course on the slave trade.

Before I close I feel it my duty to say that I regard Mr. Cushing's letter as evidently written under a degree of feeling unfavorable to an accurate recollection of facts, or of the true nature of the proceedings on which he evidently felt much excited.

I entertain no doubt that he had forgotten the expressions he had used previously on these various occasions. I have never forgotten mine.

J. B. GIDDINGS.

P. S.—Since writing the above, I have received information that Mr. Cushing has been appointed to the office of Attorney General.

ISAAC T. HOPPER AND THE SOCIETY OF FRIENDS.

A few months since, Isaac T. Hopper put forth a narrative of the proceedings of the New-York Monthly meeting, against him, and their subsequent continuation, both by the Quarterly and Yearly Meetings.

The object was, doubtless, to procure from them a disavowal of the facts and inferences; but as honest men, they could not furnish such a disavowal. We have no time to follow the proceedings step by step, but we must say that the Society of Friends, in New-York, to furnish the report.

of members being disowned for an official connection with a newspaper devoted to the divergence of the views of the Society, and the other members, who were present, were not only not called upon to disavow the course of the paper, but were called upon to support it.

It is not necessary to say that the Society of Friends, in New-York, were not only not called upon to disavow the course of the paper, but were called upon to support it.

few of them is there sufficient boldness to supplicate for those who are bleeding under the cruel lash. He who wishes to God to liberate our children, should be God to the risk of persecution.

On these occasions, from other hands, are often read longer and stirring addresses, denouncing the degradation of their inhabitants, and much sympathy is thereby evinced.

master chooses so to order. In the third place, it is shown to be diametrically opposed to the law of love, which is the law of God.

TESTIMONY OF AN EYE-WITNESS.

In my last communication, I observed, that slavery has two sides to it—that there are good masters, and there are cruel ones.

NATIONAL REPEAL CONVENTION.

During the past week, there has been assembled at the Tabernacle, in this city, a body of men under the above title.

A good many resolutions were passed, but the committee appointed to prepare and report them, brought in one in relation to Mr. O'Connell in particular, but only to the champion of Ireland in general.

At a short distance from me, a beautiful brunette, of the class, valued by the masses, met me.

THE SNAKE POWER.—How, Edward Kent and various other friends, are credited with the authorship of a noble tract, entitled "The Snake Power."

for the general, and Mr. L. Fayette Keitt, as secretary, was making a great display of some loose dogmas.

When I saw Mr. Keitt, he said, as he shook hands with Martin, here is a spectacle calculated to make the British lion proud.

It is certainly thought it possible that the British lion might have been rather out of his element in that ark; but he kept the idea to himself.

Poetry.

ANTI-SLAVERY OF THE OLDEN TIME. In the early days of our government, there was distinguished freedom, which was gradually paid down, and has not yet been fully restored.

Miscellaneous.

THE TEST OF COURAGE. BY T. S. ARTHUR. "You will stand alone, Harvey," "I cannot help it," "Every student in the college will be against you."

Non-spiritual coward! he contented himself with saying, with his own face again dose into that of Will's. "Let him alone, Green, he is disgraced enough, several voices raised their voices in a chorus, and passed through the circle.

filled of this, and the imperfections have been in every one's way. They have been more partial, more harsh, more officious, and impertinent than others. Those who have a complete experience of the world, and who are acquainted with the world, can be thoroughly human and humane, such as is hinted at in the saying, "Old maids and bachelors children are well cared for," which derives its force from the fact that they are well cared for.

But by the probe, by the microscope, to be beautiful and well-colored little ferns, and other plants, by the same instrument, the surface of our skin has scales, resembling those of fish; but so minute, that a microscope is required to see a single scale covers 500 pores, whence issues the insensible perspiration necessary to health; consequently, a single grain of sand can open 125,000 pores of the human body.

KENNET SQUARE BOARDING SCHOOL. This is a new boarding school, situated in Kennet Square, Philadelphia. Its institution occupies one of the most pleasant and healthy situations in Chester county, Pa. on the mill race between Baltimore and Philadelphia, and on the line of the Pennsylvania Canal. With the aid of the above-named places, there is an easy communication by means of boats.

TO MATILDA. Can fair Matilda call this smiling land Her native place—did here the fostering hand Of love parental teach her earliest truth? To lip the parent's love and early truth?
