Damage of Flood in Mexico

A conservative estimate of the damage wrought at Monterey, Mex., by the flood places the dead at 2000 and the property loss at \$12,000,000. The river has gone down and the danger is past.

Up to the present time 850 bodies have been recovered.

One entire quarter of the city of Monterey was destroyed and 15,000 persons are homeless. The water mains are useless, neither is there light or street car service, for the power plant has been seriously damaged. The city is threatened with a food famine. Ten thousand people are being fed on bread, coffee and soup by the municipal authorities, and the American consulate is giving food away to all who apply. Thousands of persons have taken refuge in the churches and the cathedral.

Eighteen blocks of residences and business houses were entirely washed away in Monterey. The greatest loss of life is said to have been caused by the giving away of the reservoir dam.

It is estimated that 18 inches of rain fell.

The Federal authorities are busy with the organization of relief measures, and other means are being put forth to raise funds for the sufferers.

Plan Entertainment

Evidently the Woodmen of the World of Glen Ellen, intend that the Women of Woodcraft shall not get ahead of them in the line of entertainments for they follow the dance given last Saturday evening by the ladies of that order with a big affair to be given on September 11, in Chauvet's hall.

This affair will be a grand entertainment, beginning at 8 p. m. A large will be presented and there will be singing by local talent. Especially worthy of hearing will be an address given by Jack London, and vocal solos by Mrs. Haskins, both donating their talent to the evening's entertainment. Admission 25c. Children 15c. Refreshments extra.

Grape Prices Not Set

The California Wine Association has not set the prices for grapes it will pay in Sonoma county. The growers are awaiting the fixing of prices with considerable interest. When seen on Monday William H. Lumsden, the manager of the association's big winery here, stated that he could not say what the prices would be, as he had not been informed.

Another winemaker was seen, and he said no prices had been set yet. He said he and other grape handlers would wait to see what the Association offered. As an individual opinion, he said, he thought prices might go as high as twelve and fourteen dollars per ton.—Press-Democrat.

Superior Court Notes

Judge Seawell called the calendars in both departments on Monday.

Nellie A. McGuffin was named guardian of the estate of Julia Barry, an incompetent, in a bond of \$26,000.

Frank Widlund was named administrator on the estate of William Howard in a bond of \$900.

John P. Plover was named guardian of the estate of Louisa Day, in a bond of \$500.

The final account was settled and distribution ordered of the estate of W. M. Howard.

The petition to set apart the homestead was granted in the estate of Frederick V. Daniels.

The petition in the Charles Cassani estate was dismissed.

The sale of real estate was granted in the estate of Julius Allegrini.

The final account was settled and distribution ordered in the estate of John C. Ross.

These matters were continued: Estates of Losson Ross, John E. Chalfant and Joseph Purrington to September 7.

Default was entered in the suit of Frank Riser vs. G. H. Maxwell.

The suit of the Long Syrup Company vs. Henry Hammell was dropped from the calendar.

The motion to dissolve the injunction in the suit of S. B. Wright vs. The Northwestern Electric Company was continued to September 7, and the suit of Margaret Gillen vs. John Deiter to the same date.

A decree quieting title was granted in the suit of T. C. Putman et al vs. J. Holderegger et al.

The demurrer was overruled in the suit of Butcher vs. Butcher.

Woodcraft Ball

The Glen Ellen Women of Woodcraft made a fine success of their ball given in Chauvet's hall last Saturday evening. The receipts at the door were very gratifying, and about twenty couples tripped merrily through the hours until 11 p. m., when covers were laid for the entire assembly and all enjoyed the light refreshments served. Taking the affair all in all it was a decided success.

One million gallons of wine will be manufactured this season from the grapes of the Stanford ranch at Vina. This is the largest vineyard in the world. The yield on the old vines will be heavier than usual and many acres of new vines, planted two years ago, will be in bearing for the first time, the total production being estimated by Vineyard Foreman Frank Holloman as sufficient to produce a million gallons of choice wine.—Headsburg Enterprise.

Not a minute should be lost when a child shows symptoms of croup. Chamberlain's Cough Remedy given as soon as the child becomes hoarse, or even after the croupy cough appears, will prevent the attack. Sold by all dealers.

There have been over 3000 licences sold by County Clerk

FRIDAY, SEPTEMBER 3, 1909

Two of our enterprising residents believe they have oil on their properties and are getting the oil fever badly. Why not! We are as well situated as Petaluma and can get gas at any rate. Stuck to your enthusiasm and go boring. You stand as much show as any one else who has struck oil from a mere guess and then become immensely rich.

Of times the harpings of a newspaper are tiring and people often wonder why an editor does not give them a rest, but keeps nagging, as they call it for some needed improvement. At first the public is sceptical, then indifferent and after a long wait and considerable argument a few loyal citizens get together and start the ball rolling.

Sonoma has passed through all this and its loyal and enterprising citizens have started forth with the preliminary steps toward the establishment of a sewer system for our city. They are now out with a petition getting signers, said petition to be presented to our City Trustees, asking that they take the necessary steps toward procuring the system.

When that petition is presented to you, Mr. Property owner, then is the time for you to show yourself loyal to Sonoma; then is the time for you to increase the value of your own property; then is the time for you to strike a hard blow on the head of disease and death and then is the time to show yourself the protector of your family and that you stand for the protection and safeguarding of their health and happiness. And then when the time comes for you to cast your vote you must remember these things and vote for the sewer system.

Close ears to the cry of higher taxes—they are high enough in some instances we admit—but they don't count in this case, for isn't it better to pay a little higher rate and have all debris removed from your property than to have low taxes and pay many times the difference in doctor bills with the great risk of losing those dear to you?

No, the tax cry must take a far distant back seat in this movement and remain there unheard.
And so must the hobby that "we have lived all these years without a sewer and I guess we can yet" step down and out. True we have lived, but how many have died from germs generated in our cesspools and draining ditches. This is no argument either against the sewer system, for a person can only die once, and then generally by "natural causes, yet those natural causes are often germs caught within the city limits from some place that should have been cleaned away long ago.

Every citizen must surely stand for a sewer system, for without health no business man can succeed and without a sewer no community can thrive.

Are Back Again

The Metropolitan Stock Co., is to be with us again. This time for three nights beginning Friday, Sept. 3rd. The company has been playing stock at Petaluma during its absence, and has received many favorable comment from the local press, some of which are:

"Worth several times the price of admission—Argus.

"Any one enjoying a good laugh will find time well spent"—Courier.

"The company certainly deserves the support for their work is clean and amusing."—Independent.

The opening play will be The Night Riders. The price of admission will be 25c and 35c. Seat on sale at Simmon's drug store.

On motion of Trustee McDonald, seconded by Trustee Quartaroli, a warrant in the sum of \$35.00 was ordered drawn in favor of W. F. Cowan, to pay premium on bond in the suit of the Steiger Terra Cotta Co., against the City of Sonoma.

The city marshal reported the sum of \$229.50 collected for the month of August.

On motion of Trustee McDonald, seconded by Trustee Bates, the fire and water committee were instructed to procure three hydrants.

No further business appearing upon motion was made and duly seconded the board adjourned.

Struck Oil in Petaluma

On Wednesday afternoon excitement reached a fever pitch in Petaluma over the discovery of oil a few miles south of that city. Since the discovery of gas in that locality a few weeks ago it has been confidently expected that oil would be reached by going deeper, and the progress of the drills has been watched closely ever since. Wednesday when the the Ramona Oil Company's drill reached a depth of 400 feet oil was struck in what is known as well No. 2, on the Pattoch ranch, formerly owned by Charles Rule.

Since the discovery of gas the price of land in that vicinity has raised to many times its former value and on Wednesday the owners of land would not talk sell at all, and there is a general speculation of all oil enthusiasts as to the direction in which the oil runs. Time and sinking of wells alone can tell, and before long more drills are to be started in operation to find the direction of the flow.—Republican.

North Pole Discovered

Copenhagen, Sept. 1.—Dr. Frederick E. Cook, the American explorer, reached the North Pole April 21, 1908, according to a telegram just received at the Colonial office here.

The dispatch was received from Lerwick, Shetland Islands.
For over half a century American explorers, in the face of unimaginable hardships, have been trying to reach the pole. Dr. Cook's achievement marks him as the world's greatest hero of exploration.

Dr. Cooke is on board the Danish government steamer, Hans Egede, enroute for Denmark.

His attempt to reach the pole was unpremeditated. Two years ago last spring he started on a hunting exhibition with John R. Bradley, a wealthy New Yorker, who had hunted game in all corners of the world except the polar region.

The hunting trip ended the latter part of August, 1907, and on the 27th the schooner started from Annortok, on the northwest coast of Greenland, back for New York. Dr. Cook decided to remain and make a one-man try for the pole.

Sonoma County Win Prizes

"Sacramento, Sept. 2. Sonoma county received fourth award (\$175 cash prize) for best county exhibit, and second award (\$75 cash prize) for best farm exhibit. First prize were awarded products in county exhibits as follows: Plums, hops, apples, tobacco, carved leather and incubators. A number of other awards will be made later.

"Most of the exhibits are going direct from here to Oakland and it is the desire of the authorities to have Sonoma county exhibits taken there intact for the supplementary fair to be held at Idora Park.

A Successful Entertainment

The entertainment and dance given at Agua Caliente Springs last Saturday night was very largely attended and proved a most gratifying success.

The program throughout was excellent, the Gaelic dancers—under the direction of Prof. Kelleher, of San Francisco,—being enthusiastically received. The young people are artists of exceptional merit, and each graceful execution was received with generous applause and heartily encored.

A feature of the evening and one highly appreciated, were the renditions by the brass band from the Sonoma State Hospital, the members of which organization being extremely well trained and deservedly winning the favorable recognition at all times accorded them.

Music for dancing was provided by four attaches of the State hospital and that the dancers were frequent and insistent in encores and reluctant to hear "Home, Sweet Home," proved how satisfactory and pleasing were the rhythmic strains.

During the evening a five dollar gold piece, given by Dr. J. V. Nevin, of San Francisco, was raffled. Dr. Nevin fortunately holding the winning ticket, No. 384, himself.

At midnight a delicious supper was served, and not until the wee sma' hours did the guests disperse, each voicing and making unanimous the sentiment that the affair was a splendid success, and Mr. and Mrs. Theodor Richards are ideal in the dispensing of hospitality in their popular resort—the famous Agua Caliente Springs.

Entertainment Course

It is a frequent complaint of many of our citizens that Sonoma is rarely visited by thoroughly good entertainments, especially in the line of music and lectures. On the other hand, this town has the reputation among amusement managers—whether deserved or not, we shall not attempt to say—of failing to patronize high-class entertainments when they come, but will rush to see shows of poor quality. A recent instance, seeming to confirm this idea, is that of the manager of a very fine entertainment of educational value as well as of great interest, who was advised on his route not to try to place his entertainment here, as Sonoma never supported anything good. He came here, but was unable to get any encouragement, and went away with the popular opinion confirmed in his mind.

To endeavor to remove this impression and to give the people of Sonoma a chance to see and to hear something really good, a number of our citizens have formed a Lyceum Bureau, and are arranging for a series of first-class entertainments, consisting of musical numbers, impersonations and a lecture, to be given during the coming fall and winter. A representative of the bureau will call on the people of the town during the next few days to obtain subscriptions to season tickets.

On the success of this effort depends not only this present series, but future opportunities to see something really good.
Surely our people should do themselves and the community the favor of heartily supporting this undertaking which has no personal profit in view, but solely the benefit of Sonoma and vicinity.

High School Report.

We may now boast of an enrollment of forty-eight pupils, our number made larger by a freshman, a sophomore, and a junior.
The boys have been faithful to basket ball this week.
The girls tried out the first practice of basket ball on Tuesday. We found some great material for a guard in a freshman. The grammar school material looms up nicely. Miss Trueblood acts as coach.

The annual freshman reception will be held this (Friday) evening. The decoration committee promises something new. Dancing will continue from eight to twelve.

We have seen no visitors yet. No one as yet has ambled down our way, except the trustees. We ask that you come.

ANA NIAS.

What do you know about this? Bridges has turned into a poet and will henceforth tell the public about the bargains at his harness shop in poetry. We print the following in competition with his verse:

"Pop" Bridges, so they say,
Has turned poet at this late day.
Pells his hair and strokes his chin,
Shakes his fat, and then wades in.

Proclaims to this world so wise
That Bridges' it, and then be gins
To laud his wares up to the skies,
And adds these to his many sins.

Talks about those Carson gloves,
Lauds the whips he has for sale
Says he sells these things for love,
And price don't count, is his wail.

Oh! What rot. It's up to you
Bridges to do better.

Much interest is manifest in the program, which appears in another column, of the Men's League to be rendered in the Congregational church on Sunday evening. Among the interesting numbers is an address by Prof. Fisher, who will be pleasantly remembered by a great many as having delivered a very fine address at the last High School graduation exercises. Many who heard him before have expressed a great desire to listen to him again, and a large attendance is assured.

September ninth will be celebrated in California not only as Admission Day, but as the date of the first Vinage Festival, along the lines of the European manner of opening the vinage season. Napa county will be the scene of action, from the 7th to 9th, with the center of attraction at Aetna Springs on the last named date. It is proposed to make the celebration an annual affair sanctioned by the governor.

L. Quartaroli has the frame work partly up for his new hotel on First Street West. When this structure is finished it will be furnished and run as a first-class style by Mine Host Quartaroli, who is an old-timer in this line of business. Mr. Quartaroli has temporarily opened his place of business in the building adjoining the new building.

Tuesday morning, Fred C. Schell, of Schellville had his slumbers disturbed by the continued barking of his dog. Upon investigating the cause of the disturbance, Fred found that the dog had treed a female coon and her family of four half grown youngsters. He secured a gun and succeeded in bagging the entire five.

The morning services at the Congregational church will be the regular monthly song service. Special music will be rendered by the choir. Communion of the Lord's Supper will be administered and members received. In the evening Prof. P. M. Fisher will address the Men's League. All are invited.

Don't You Feel Well? Ache All Over?

Feverish? Feel as though your blood was hot? Cold feet? Backache? Those warning signals which indicate that "bad cold" or a fever is coming on? Don't get discouraged, but go home. On the way, stop in any drug store and read Dr. Pierce's Golden Medical Discovery. When you get home, take a hot bath or a hot foot bath, go to bed, cover up warmly—take a dose of the "Golden Medical Discovery" in the morning another dose, and you will feel better. You will not have to continue many doses before you are well. If you still persist in the use of Dr. Pierce's Golden Medical Discovery you will find improvement in your general constitution, appetite and blood—your liver will become active and throw off the poisons from the system.

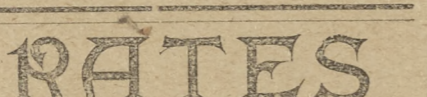

Get as near to Nature's way as you can. There's a reason. Vegetable foods are usually good for the human system. The human economy digests and assimilates them best. In disease, a remedy made up of Golden Seal root, Quercus root, St. Pauli root, Black Cherry bark, Mandrake root and bloodroot, such as Doctor Pierce's Golden Medical Discovery, has a positive, safe, is assimilated in the stomach and taken up by the blood, therefore it is the most potent means which can be employed for the regaining of lost health.

Microbes snatch at us from every corner. They mean to kill or eat us if they

can. They are formed by millions on everything we eat, drink and wear. The air is alive with them. Medical science has proven in the past few years that nearly every disease is a germ disease. Such disease germs enter into the blood in two ways, either through the lungs or stomach. If the blood is pure and rich, the liver and stomach in healthy, active condition, the germs of disease cannot find a resting place there to multiply. Diseases of the lungs, bronchitis and consumption, grip and pneumonia, are very apt to spread through a factory where there is much dust in the air. The lungs become irritated and the germs find a fertile field for growth. Extrema weakness, feelings of nervous exhaustion, coughs and colds are the warning signals which should be heeded. One should put the system in the very best possible condition right away. Bid your body of life poisons that are apt to accumulate and your system is ready to ward off the attack of the germs of disease. Doctor Pierce's Golden Medical Discovery makes rich, red blood—by increasing the red blood corpuscles. There is no alcohol in this great tonic to shiver up the red blood corpuscles. An alternative extract made only of native medicinal roots, it goes about its work in nature's way. Only good can come from its use as it invigorates and tones the liver into proper action, and feeds the worn-out nerves, stomach and heart on pure blood.

"I am a firm believer in Dr. Pierce's Golden Medical Discovery," writes Joseph Napoleon Leblanc, Chairman Board of Health, St. Paul Street, Montreal, Quebec. "I find that it has been of great value to a number of men in my employ. They are especially exposed to inclement weather, and often the colds contracted run into pneumonia, stomach trouble, or kidney and liver disease. I have used it for a number of years, and I can say that it has been of great value to me in warding off colds and all other diseases. It is a very fine tonic for a run-down system, and I am pleased to acknowledge its worth."

BAD HEADACHES generally arise from bad stomachs. Indigestion, flatulence, bitter taste, coated tongue, sour eructations or belching of gas, are common symptoms though not all present in every case. By cure, take small doses, only one or two each day, of old Dr. Pierce's Pleasant Pellets, the Original Liver Pills, made up by him over 20 years ago. One or two a laxative, three or four cathartic.

PAINTING THE MEETING HOUSE.

By M. QUAD.

The village of Hicksville contained 300 inhabitants, and yet there was only one place to worship. In the earlier days the Methodists, Baptists and Presbyterians had clubbed together, and as time went on the three denominations had agreed so well that no more had been made for the erection of another building.

From time immemorial it has been the privilege of the farmer's dog to accompany his master to church and take up his station on the front steps until time to go home again. The question as to whether this had made better dogs of them is not to be debated here. It is sufficient to say that on this particular Sabbath day there were seven dogs occupying seven different wagons and that when a lightning rod man's dog came along he was looked upon as an intruder and promptly attacked. Seven dogs piling into one must soon confuse things. In this case after a moment it became a battle royal, and the racket stopped the sermon and was heard to the limits of the village. The worshippers came out of the church to see and to interfere and to take sides, and the affair broke up the services for the morning and left a good deal of acrimony floating around. Most of the blame was laid on the man of lightning rods, who was stopping in the town over Sunday. He was called in and had hot words and on Monday was arrested for using profane language and fined \$7. Up to the moment he was fined he was defiant. Then he changed to humility, paid his fine and apologized all around.

There was no one in the town of Hicksville who really knew a lightning rod man's other side or who even suspected that he had a second side. If there had been, a note of warning would have been sounded when this man changed to humility. They accepted his attitude and his expressions, and some of them even shook hands with him and forgave him for having such a dog. He went away and was absent for three days and then returned to say that he felt like doing something for the church people to show that he had feelings rankled in his soul. There was the old meeting house. It needed painting badly. Under its shadow his dog had raised a row and created temporary bad feelings and he would give the privilege of paying for two fresh coats. The proposition fell like a thunderclap on the town. It beat the coming of a circus all hollow. All the church folks had to do, said the donor, was to get together and decide on the color and he would furnish the paints and the painters—finish a B. C.

A meeting of the church people was called for a certain night, and they were there to the last man and woman. All knew the issue, and all had come prepared. The question to be settled was one of color, and it was a dead easy one. The minister presided, as was eminently proper, and he arose to say that of course there could be but one color for a frame meeting house. That was white, to represent purity. The lightning rod man could be notified to have his painter on hand next day. Was there anything further before the meeting?

To the good man's surprise, there was. Deacon Tompkins arose to say that while art was in its infancy in this country a plain white meeting house did very well, but art had advanced. Meeting houses should also advance. Speaking for the Methodist contingent, his choice was chrome yellow for the body of the building, with dark brown for the steeple and the doors and window casings. He would move that those colors be adopted.

Deacon Williams arose to hope that no one would second the motion. Speaking for the Baptists, he would say that a pea green color for the body, with trimmings of darker green, would be more in harmony with the surrounding landscape and prevent strangers from taking the offer mill for the meeting house. He didn't demand pea green as symbols of the Baptist faith alone, but of all faiths. It even took the Adventists. He would move pea green as an amendment for chrome yellow. Deacon Jones said that he represented the Presbyterians in the congregation and that the Presbyterians had decided on lead color for the body of the building and dark blue for doors, casings and steeple. He would move his colors as an amendment to the last amendment and he hoped that no further time would be wasted over the matter.

But his hopes were disappointed. The lightning rod man was appealed to, but he replied that it was a question to be left entirely to the congregation.

It was left to them. Meeting after meeting was held, but no one gave way—the more meetings the more acrimony, the more acrimony the less neighborly feeling. When it had reached that stage, which it did in about four months, that not a Methodist would lend a Baptist wheelbarrow and not a Baptist would borrow a dollar of a Presbyterian for a good minister sent in his resignation, the meeting house was closed, and only last summer it was unroofed by a cyclone and left a wreck. The lightning rod man was about the only man that had nothing to say. He could afford to be silent.

A Bountiful Child

dreads the fire. The dread is wholesome, but not the burn; that can be healed and instantly relieved by applying Ballard's Snow Liniment. Be prepared for accidents by keeping a bottle always in the house. Best for sprains, bruises, cuts, scalds, rheumatism, neuralgia, lumbago—any and all aches and pains. Price, 25c, 50c and \$1.00. Sold by L. S. Simmons.

Chamberlain's Colic, Cholera and Diarrhoea Remedy

is today the best known medicine in use for the relief and cure of bowel complaints. It cures griping, diarrhoea, dysentery, and should be at first unattainable looseness of the bowels. It is equally valuable for children and adults. It always cures. Sold by all dealers.

Costs Nothing

"Politeness costs nothing," said the man of ready-made wisdom. "I guess," answered Mr. Currox, "that you never had any experiences with these café waiters who regulate their politeness by the size of the tip."—Washington Star.

Price, 25c, 50c and \$1.00 per bottle. Sold by L. S. Simmons.

Talismans in Malta

There are still to be found in Malta a number of small stones shaped and colored like the eyes, tongues and other parts of serpents.

The superstitions among the Maltese connect these with the tradition that St. Paul when shipwrecked was cast on their island and that it was there while holding a bundle of sticks for a fire a viper fastened on the apostle's hand. St. Paul calmly shook the reptile off into the flames, and no harm followed. The natives wear these stones as talismans, in which character they suppose them serviceable in warding off dangers from snake bites and poisons.

They are found in St. Paul's cave imbedded in clay and are set in rings and bracelets and when found to be in the shape of a tongue or liver or heart are hung around the neck. They are also taken internally, dissolved in wine, which method is attended, according to some people, by more immediate results.

Wise Talks by the Office Boy

I heard a sailor tell a story about a woman who fell overboard in mid-ocean and how a great shark came up and looked her over and went away. He said he was a moneymaking shark. There are an awful lot of sharks in our business, men who will tell you anything they think necessary to catch a sale. Our store is run on exactly the opposite lines. You get the exact truth, without and tricks or arguments. No salesman is permitted to take the advantage of you or to bully you into

Shakespeare's Name

It has often been a puzzle to students of Shakespeare why his name is spelled in so many different ways. Shakespeare himself is said to have signed his name on different occasions "Shakspeare" and "Shakespeare," and learned disquisitions have been written to prove which is the proper spelling. None perhaps was more amusing than the "weather" reason given in 1851 by Albert Smith, who averred that he had found it in the Harleian manuscript. It was as follows:

How did Shakespeare spell his name? To resolve this mystery we analyze, So write it as ye please; When ye some shone he made his A's, When wrote he took his E's.

Your complexion as well as your temper is rendered miserable by a disordered liver. By taking Chamberlain's Stomach and Liver Tablets you can improve both. Sold by all dealers.

A Doubtful Proposition

"Should a man go to college after fifty?"

"Well, he might pass muster at ten," answered the student. "But a man can't expect to do much in baseball or football at that age."—Pittsburg Post.

Don't waste your money buying plasters when you can get a bottle of Chamberlain's Liniment for twenty-five cents.

A piece of flannel dampened with this liniment is superior to any plaster for lame back, pains in the side and chest, and much cheaper. Sold by all dealers.

The Wrong Girl

After a whole year of married life a young man named Hahn, living in Volosca, Dalmatia, discovered that he had not married the girl he intended. When he proposed to her he mistook her for her twin sister, who so resembles her that they can scarcely be distinguished, and he did not realize his error until he began calling her by her Christian name instead of by the terms of endearment he had hitherto used.

Hoppy Hop

Are you barely getting around by the aid of crutches or a cane? Unless you have lost a limb or have a deformity of any kind, rheumatism, lumbago, sprain, stiff joints or anything of like nature, use Ballard's Snow Liniment and in no time you can throw away your crutches and be as well as anyone. Price, 25c, 50c and \$1.00. Sold by L. S. Simmons.

If All Candidates Were White

The word "candidate" is from the Latin "candidatus." Literally it means white robed, and it was thus called because in Rome those who sought office wore a glittering white toga. Fancy, if you can, all our modern American candidates in accordance with their political ambitions. In some sections there would be no such thing as a dark suit of clothes. Washington would simply be one shining center of universal whiteness.—Saturday Evening Post.

Chamberlain's Colic, Cholera and Diarrhoea Remedy

is today the best known medicine in use for the relief and cure of bowel complaints. It cures griping, diarrhoea, dysentery, and should be at first unattainable looseness of the bowels. It is equally valuable for children and adults. It always cures. Sold by all dealers.

Something New In Kitchen Ware

The "1892" Pure Spun Aluminum Ware is rapidly coming into use for cooking purposes. It is taking the place of granite and enamel ware because while its first cost is a trifle more than ordinary ware, it is really much cheaper in the long run, as it is guaranteed for twenty-five years and will last practically a life time.

The genuine "1892" Ware, made only from pure SPUN (not cast) Aluminum, will not crack, scale, peel, break, scorch or burn.

It looks like silver but weighs only about one-quarter as much, is easily cleaned and handled, and will not rust, corrode or tarnish. Absolutely pure, non-poisonous and wholesome; saves money, time and doctor's bills.

Be sure you get the original and genuine ware stamped with the Maltese Cross. At your dealer's.
