PREFACE.

This year's edition of the Naumkeag Directory is unique, containing as it does, for the first time in its history, the name of a President of the United States.

Special attention has been given to new features, as: Indexing the book according to the cities and larger towns contained, which will be found of great assistance; Plans of new Opera House now in process of construction in Boston; Views of new buildings of Salem, and various views of the Summer Capital, specially prepared for this Directory. We have been able to insert the new numbers for various streets in Beverly, and have tried to make this edition as up-to-date and valuable in every way as possible, and thank all who, in any way, have given their assistance.

PEABODY

Street and Household's Directory.

The street directory gives the location of each street, and shows what other streets or places run from or across it. The house numbers are given in left and right hand columns, with the names of heads of families and persons in business, in the order of location.

Houses without numbers are indicated by a —, and the dash is also used opposite connecting streets to indicate whether such streets begin or end on the left or right side.

Business Directory of Peabody.

Peabody is a large and prosperous town situated two miles from Salem and eighteen miles from Boston, and is intimately related to Salem in all its social and industrial interests. It is connected with Salem, Boston, Lynn and other centres by different branches of the Boston & Maine Railroad. It is also connected with surrounding places by the Boston & Northern Street Railway. It has many and varied industries, the most important being the tanning, currying and finishing of hides and sheep skins, glue making, cloth bleaching, machine shops, thermometer manufactory, etc. The Peabody Institute affords admirable literary advantages, having two libraries, the reference library being of extensive scope, and a course of free lectures is given every winter. These facilities, with the excellent schools of the town, render the educational advantages of peculiar value. It has an ample water supply (high service), from the beautiful Spring pond, and an electric light plant established by the town. It has a population of thirteen thousand, its people are full of enterprise and spirit, and its facilities for extensive manufacturing are unsurpassed.
