POT-GROWN STRAWBERRY PLANTS

Roosevelt

Brandywine

Commonwealth

Senator Dunlap

Marshall

Glen Mary

Progressive Everbearing

FOR PLANTING IN AUGUST AND SEPTEMBER

☛ Denotes varieties which we can especially recommend.

Prices: \$1.00 per doz.; \$6.00 per 100; \$50.00 per 1,000

Varieties in the following list are **perfect flowering** and may be planted without a mixture of other varieties for fertilizing purposes.

☛ **Arabine.** Extra early. A recent introduction. Extra large, bright colored fruit, far superior to the older varieties and almost rust proof.

Brandywine. Midseason. A large heart-shaped berry, perfect in form, bright red in color, firm, and of rich spicy flavor. A great cropper, and succeeds especially well on heavy soil.

☛ **Commonwealth.** Late. This is one of the latest of all Strawberries, and bears large, conical, deep, crimson fruit, sweet, and of the best quality. While the berry is not extra large, it is very productive, and of deep rich color, firm and good. We consider it one of the best late varieties.

Early Ozark. Extra early. One of the most productive of the early varieties. Produces large, dark, red berries of rather acid flavor, but very delicious. The plants are of vigorous growth, with healthy dark green foliage.

Excelsior. Early. One of the standard early varieties. Fruit is of round conical form, dark red color, and of mildly acid flavor.

☛ **Glen Mary.** Late. Exceptionally valuable in New England, being of vigorous growth, productive of large, good quality fruit. Many growers find this the best money making variety they have, largely on account of its great productivity.

☛ **Howard XVII.** Midseason. A very productive midseason berry about the size and style of **Marshall**.

☛ **Marshall.** Midseason. The fruit of this remarkable sort is enormous in size, a glossy dark crimson color, and of delicious flavor. It is a vigorous grower, and requires good soil and high cultivation. Its fruit brings the highest price of any berry in the Boston market. The demand for this sort exceeds that of any other in eastern Massachusetts.

☛ **McAlpin.** Midseason. The berries are a beautiful scarlet color, very large and fine flavor. One of the best berries in cultivation.

New York. One of the most dependable sorts. The berries are large, of conical form, dark red, fine texture and sweet flavor.

☛ **Nick Ohmer.** Late. Produces dark glossy red, round berries of superior flavor. Excellent for forcing.

☛ **Roosevelt.** Midseason. A vigorous midseason variety, larger berries than **Marshall**; excellent flavor. Quality and color of a superior sort.

Senator Dunlap. Early midseason. A medium early, vigorous growing, highly productive variety, producing dark red berries of medium size. The flesh is red all through, and exceedingly juicy. It yields large crops of fruit which keeps for several days on the plants after the berries are ripe enough to pick. It comes the nearest to being a sure cropper of any variety grown.

☛ **William Belt.** Late. Of large size and good quality. A continuous cropper. Deep red, following **Marshall**. The best of the late season varieties.

FALL OR EVERBEARING STRAWBERRIES

Prices: \$1.25 per doz.; \$8.00 per 100

☛ **Progressive.** This variety makes a vigorous growth, and produces immense quantities of berries. Blossoms should be kept picked off until about the middle of July. If this is done, a heavy crop is assured from about the first of August until heavy frost. The berries are of medium size and excellent quality.

Superb. The berries of this excellent variety are a little later than those of **Progressive**. The plants are about equal in vigor of growth, but do not produce so many berries per plant as **Progressive**. The quality, however, is excellent.

A **BRECK'S** *Store*

Everywhere in New England

IN sending out this 1922 Summer and Autumn Catalogue we wish to bring before you, as one of our patrons, the "Breck's Stores." You have no doubt seen the orange-and-black signs in your local store or in towns and villages as you have motored about New England, and you may have wondered just what A BRECK'S STORE is.

The house of JOSEPH BRECK & SONS has passed its one-hundredth birthday, and has faithfully served the people of New England for several generations. In past days people from all over this territory journeyed to Boston periodically to buy supplies, and these supplies nearly always included something from "BRECK'S."

We have, with the co-operation of local stores, arranged to extend our Boston store throughout New England by affiliating local stores with us as "BRECK'S STORES." At any one of them you can get the old familiar and reliable goods at the same fair prices that we charge in our store in Boston.

We believe that this extension of the parent Breck's Store to your own town will result in greater convenience to you. We invite you, therefore, to order either from your local BRECK'S STORE or to send your order to us in Boston as before—in either case your order will receive careful attention.

JOSEPH BRECK & SONS

51 NORTH MARKET STREET

BOSTON 9 MASS.

We issue other specialized catalogues covering other lines. Send for

NOTICE: We give no warranty express or implied as to description, quality, productiveness, or any other matter of any seeds, bulbs, nursery stock, or plants we sell, and will not be in any way responsible for the crop. If the purchaser does not accept such goods on these terms he must return them at once and all payments therefor will be refunded. *Joseph Breck & Sons, Corporation.*

HYACINTHS

King of the Yellows

THE HYACINTH is one of the most popular, beautiful, and fragrant of Holland bulbs. It is of almost every imaginable shade of color, and is suitable alike for house or garden culture.

CULTURAL DIRECTIONS

Pot Culture.—Plantings may be made at any time from September to December, though October is the best time. A light, rich soil with a mixture of well-rotted cow manure, sand, and leaf mould is most suitable; use a five-inch pot and have the top of the bulb just below the surface of the soil. After setting the bulb, thoroughly firm the soil and give it a good watering. The pots should then be set away in a cool cellar or out-house and covered over with coal ashes or some litter. When well rooted, which will be in about twelve weeks, they may then be brought as wanted for a succession of flowers into a moderately warm, light room, or forced. To keep the foliage dwarf and obtain fine large flower spikes, Hyacinths, when being forced, should have plenty of manure, water and fresh air and should be kept near the glass.

Culture in Glasses.—When it is desired to grow Hyacinths in water, they should be placed so that the base of the bulb merely touches the water. The glasses should then be set in a cool, dark closet or in the cellar, until nearly filled with roots, when they may be brought into the light. Change the water frequently. Give as much fresh air as possible without letting the plants stand in a draught. It is of importance in growing Hyacinths in the parlor that the atmosphere in which the plants are growing be kept moist, and as nearly as possible at a temperature of from 65 to 70 degrees.

Outdoor Culture.—The bulbs may be planted any time after the beginning of October and before the winter frosts set in. Any good, well-drained garden soil will answer. Set the bulbs from four to five inches below the surface, and about six inches apart; after the ground becomes frozen, give a good covering of stable litter.

BRECK'S GIANT HYACINTHS or MOTHER BULBS

SPECIALLY SELECTED FOR HOUSE CULTURE

Price: 25 cts. each; \$2.50 doz.; \$15.00 per 100

Make your own selection from the following:

SINGLE RED AND PINK

Gen. De Wet, Gertrude, Lady Derby, La Victoire, Marconi, Queen of the Pinks, Salmon Queen.

SINGLE WHITE

Arentine Arendsen, British Queen, La Grandesse, L'Innocence, Mme. Van Der Hoop.

SINGLE YELLOW

City of Haarlem, Yellow Hammer.

SINGLE BLUE

Grand Lilas, Lord Derby, Marie, Queen of the Blues, Schotel.

SINGLE HYACINTHS

Named Varieties

RED AND PINK

☉ Denotes Varieties which we can especially recommend

Price: 20 cts. each; \$2.00 doz.; \$12.00 per 100

Six bulbs at dozen rate, twenty-five at hundred rate.

- Amy or Fireball. Carmine crimson; large truss, sweet scented.
- ☉ Garibaldi. Brilliant carmine, large spike, forces easily and early.
- ☉ Gertrude. Very bright pink; large and compact spike.
- ☉ Marconi. Bright pink, broad spike, beautiful flower, highly recommended for forcing and bedding; late.
- Queen of the Pinks. Rosy pink.
- ☉ Salmon Queen. Light salmon pink, broad and tall spike, very good for forcing and bedding.
- ☉ Gigantea. Blush pink; large spike with long bells.
- Lady Derby. Bright rose; extra fine.
- La Victoire. Brilliant scarlet, red stripe.
- Marconi. Very bright rose, large compact truss, a splendid hyacinth.
- Moreno. Deep pink; large bells; early.
- ☉ Norma. Delicate waxy rose; a general favorite.
- Orange Beauty. Very distinct reddish orange. Produces a small bulb but a very beautiful variety for pot culture.
- Pink Perfection. Fine delicate pink, shaded lavender.
- Robert Steiger. Deep crimson; large and fine.
- ☉ Roi des Belges. Dark red; early.
- Rosea Maxima. Delicate pink, large spike; late.

SINGLE PURE WHITE AND WHITE TINTED

Price: 20 cts. each; \$2.00 per doz.; \$12.00 per 100

- ☉ Arentine Arendsen. Early, pure white with fine open petals.
- British Queen. Pure white; large spike.
- Grandeur a Merveille. Blush white, large; a favorite.
- ☉ La Franchise. Waxy white, large bells and truss.
- ☉ La Grandesse. Pure white; large bells and truss; a favorite.
- ☉ L'Innocence. Pure white, very large; early.
- Madame Van der Hoop. Waxy white; large and fine.
- Queen Emma. Almost pure white, big truss.

SINGLE YELLOW

Price: 20 cts. each; \$2.00 per doz.; \$12.00 per 100

- ☉ City of Haarlem. Pure yellow; large truss.
- Ida. Pure yellow; small bulb, but large spike.
- ☉ King of the Yellows. Deep golden yellow; extra fine truss.
- Primrose Perfection. Primrose yellow, fine bells.
- ☉ Yellow Hammer. Pure yellow; large truss.

Queen of the Blues

Orange Beauty

L'Innocence

Lady Derby

HYACINTHS—Continued

SINGLE BLUE, PURPLE AND VIOLET

Price: 20 cts. each; \$2.00 per doz.; \$12.00 per 100

- Admiral Courbet. Very early, azure blue.
- ★ Bismarck. Bright light porcelain blue, large well-formed spike. Forces early and easily. One of the best early light blue Hyacinths in cultivation.
- Captain Boynton. Porcelain blue, darker blue; large truss; early.
- ★ Czar Peter. Light porcelain blue; splendid spike; early.
- Duke of Westminster. Purplish blue, white centre.
- Grand Lilas. Porcelain blue; large spike and bells.
- ★ Grand Maitre. Porcelain blue shaded with violet; magnificent.
- Ivanhoe. Deep purple, light centre.
- King Alfred. Large bells; fine lilac-blue, shaded plum-purple.
- ★ King of the Blues. Deep indigo blue; superb spike.
- Lord Derby. Azure blue; large bells and truss.
- ★ Marie. Dark blue; grand spike.
- Menelik. Purplish black; very distinct.
- ★ Queen of the Blues. Light blue; immense truss.
- ★ Schotel. Light porcelain blue, large finely formed spike. Forces early and easily.

DOUBLE HYACINTHS

First Size Exhibition

DOUBLE RED, ROSE, AND PINK

Price: 20 cts. each; \$2.00 per doz.; \$12.00 per 100

The varieties marked with star ★ are the most suitable double sorts for early forcing.

- Bouquet Royal. Rose; carmine centre.
- Noble Par Merite. Deep rose; large bell.
- ★ President Roosevelt. Deep rose; fine truss.

DOUBLE PURE WHITE AND WHITE TINTED

Price: 20 cts. each; \$2.00 per doz.; \$12.00 per 100

- Isabella. Blush white; large bells and spikes.
- ★ Princess Alice. Pure snowy white.

DOUBLE BLUE, PURPLE, AND VIOLET

Price: 20 cts. each; \$2.00 per doz.; \$12.00 per 100

- Bloksberg. Pale porcelain blue.
- ★ Garriek. Bright blue.
- General Kehler. Bright blue, extra.

DOUBLE YELLOW

Price: 20 cts. each; \$2.00 per doz.; \$12.00 per 100

- Bouquet d'Orange. Reddish orange.
- ★ Goethe. Pale sulphur yellow.
- ★ Ophir d'Or. Pure yellow, reddish centre.
- ★ Sunflower. Yellow, salmon tinted.

CHOICE UNNAMED HYACINTHS

For Bedding and Forcing

Though without names, these are sound flowering bulbs of desirable varieties that attain about an equal height and bloom at the same time. They flower satisfactorily in either pots or beds and should not be confounded with the cheap mixtures frequently offered.

- Red and Rose
- Dark Red
- Pure White
- Tinted White
- Light Blue
- Dark Blue
- Light Yellow
- Dark Yellow
- All Colors mixed

We will furnish the colors listed in either single or double flowered varieties at

75c. per doz.
\$5.00 per 100.
\$45.00 per 1000.

EARLY FRENCH ROMAN HYACINTHS

These early flowering and easily forced bulbs are general favorites. Successive plantings can be made and a continuance of bloom obtained from November to May. The flowers of these Hyacinths are smaller than the Dutch type, but each bulb produces from two to three spikes of flowers. (For indoor planting only.)

	Doz.	100
Early White, Large Bulbs	\$1.50	\$10.00
Early White, Mammoth Bulbs	1.75	12.00
Early Blue	1.50	10.00
Early Rose	1.50	10.00
White Italian	1.50	10.00
Pink Italian	1.50	10.00

✧ Denotes varieties which we can especially recommend.

SECOND SIZE HYACINTHS

Price: \$1.25 per doz.; \$7.00 per 100; \$65.00 per 1000

For out-door planting in beds and borders, they are preferable to their larger brothers; the flower spikes not being quite so heavy, endure much better the occasional rough winds during spring-time.

- ✧ **Gertrude.** Rosy pink, compact truss, equally good for bedding and forcing.
- ✧ **Gigantea.** Blush pink.
- Moreno.** Deep pink, very fine large bells, forces early.
- Roi Des Belges.** Deep scarlet extra.
- Grandeur a Merveille.** Rosy white.
- ✧ **La Grandesse.** Large bells, very fine pure white, excellent for forcing.
- ✧ **L'Innocence.** Pure white extra, forces well.
- Grand Lilac.** Light blue shaded lilac.
- Grand Maitre.** Deep porcelain blue, beautiful spike; equally good for bedding and forcing.
- ✧ **King of the Blues.** Fine deep purplish blue, the best deep blue for all purposes.
- ✧ **Queen of the Blues.** Pale blue, large spike, very fine.

Miniature or Dutch Roman Hyacinth

MINIATURE HYACINTHS or DUTCH ROMANS

Price: 40 cts. per doz.; \$3.00 per 100; \$25.00 per 1000

It may be said that the Miniature Hyacinths are not appreciated by the public, probably owing to the rather deceiving name. Yet in the entire group of Hyacinths, there is hardly anything more fascinating than a well-grown pan of Miniatures. The spikes are slender, yet well provided with flower bells; the symmetry of the individual plants is indeed remarkable.

- ✧ **Gertrude.** Rosy pink, forces well.
- Roi des Belges.** Fine deep crimson.
- Grande Blanche.** Blush white.
- ✧ **L'Innocence.** Pure white.
- Grand Maitre.** Deep Porcelain.
- ✧ **Perle Brilliant.** Pale blue, large bells, splendid forcer.
- ✧ **Yellow Hammer.** Pure yellow.

Freesia Fischeri

FREESIA

Plant in light soil from August to October. Water well at first, then rather scantily, until the plants are well started. When growth is vigorous, water freely and set in a sunny place in greenhouse or living-room. (For indoor planting only.)

Mammoth Purity. This is the largest and purest white Freesia; stems grow twenty to thirty inches high and produce six to ten large white flowers.

Mammoth. 60 cts. per doz.; \$4.00 per 100; \$35.00 per 1000

Extra Large. 40 cts. per doz.; \$2.50 per 100; \$22.50 per 1000

- ✧ **Fischeri.** A splendid new variety which we believe will, when better known, supersede Purity on account of the size of bloom of finest white.

Price: 85 cts. per doz.; \$6.00 per 100; \$55.00 per 1000

NEW COLORED FREESIAS

Price: 10 cts. each; \$1.00 per doz.; \$6.00 per 100

The following named varieties are most beautiful. They possess a peculiar grace of form and their fragrance is most delightful. This new strain is the result of many years of careful work and selection. For indoor planting only.

- ✧ **General Pershing.** Light bronze.
- Viola.** Light blue.
- Sunset.** Soft pink shades.
- ✧ **Splendens.** Delicate blue.
- Victory.** Deep pink.
- Yellow.** Good clear shade of yellow.
- Rainbow Mixture.** Choice selection of all colors.

Darwin Tulips

Clara Butt

DARWIN TULIPS

★ Denotes varieties which we can especially recommend

We strongly recommend this class of Tulips for garden decoration in beds, as well as in groups in the herbaceous border and amongst shrubs. Grown for cut-flowers, they will prove very valuable at a time when flowering plants are scarce. They flower during the middle part of May, a period when the spring flowers are over and summer flowers such as Roses have not yet come in. The blooms last in condition a very long time.

By forcing in pots they may be had in bloom in February or even earlier, most of the varieties improving in color by protection under glass or canvas. The list of varieties we offer below has been carefully selected and includes all the exquisite and new varieties.

VARIETIES RECOMMENDED FOR FORCING

The following varieties are very suitable for forcing purposes and can be had in flower from the end of January until April. Their large flowers, brilliant color and long strong stems, make them indispensable for the grower of cut flowers. They want a little more room in the boxes than ordinary Tulips. *Approximate month of Flowering*

Baronne de la Tonnaye	March
Bartigon	February
Farncombe Sanders	March
Glow	March
Gretchen	March
King Harold	March
Loveliness	March
Pride of Haarlem	February
Princess Elizabeth	March
Rev. Ewbank	February
Sieraad Van Flora	February
William Copeland (Sweet Lavender)	end of January,
the best of all for forcing.	
William Pitt	February

Ant. Roozen. Vivid rose-pink, with white base marked blue; handsome and beautiful. Height, 23 inches.	Doz. 100	\$0.90	\$7.00
Ariadne. Crimson scarlet, violet centre		.85	6.00
★Bartigon. Carmine red		.75	5.50
Baronne de la Tonnaye. Bright rose margined blush rose. A beautiful long-shaped flower. Good forcer. Height, 20 inches		.60	4.00
Bleu Aimable. Bright violet-purple, shaded steel-blue, inside dark violet-purple with a blue base, very good forcer		1.50	10.00
★Clara Butt. Clear self-colored salmon rosy pink. The finest Darwin Tulip of its class; an exquisite flower. Height, 21 inches		.60	4.00
Dream. Beautiful, soft uniform lilac; large flower. Height, 24 inches		.75	5.00
Edmee. Deep cherry rose, silvery pink edges		.75	5.50
Europe. Glowing salmon-scarlet, shaded rose; beautiful flower. Height, 22 inches		.75	5.00
Euterpe. Brilliant clear lilac, very beautiful, good forcer		.60	4.00
★Farncombe Sanders. Fiery rose-scarlet, inside vivid cerise-scarlet with white centre marked blue; large broad petalled flower of perfect shape. One of the finest sorts of all the reds and salmon-colored varieties. Height, 25 inches		.75	5.50
Feu Brilliant. Brilliant clear scarlet		.75	5.50
Giant. Dark purplish violet, large and handsome, good forcer		1.50	11.00
★Glow. Dazzling vermilion-scarlet, white base with blue markings. A very beautiful Tulip, like a large poppy. Height, 23 inches		.75	5.50
Gretchen. Silvery pale rose, flushed white; inside soft pink with white centre marked blue. Height, 24 inches		.50	3.00
Greuze. Purple violet, beautiful large flowers		.75	5.00

Planting of Tulips

Pride of Haarlem

DARWIN TULIPS—Continued

	Doz.	100
Gryphus. Brilliant dark violet-purple, centre white blue, marked very large flower on tall stem, exceedingly handsome. 20 cts. each; \$1.50 \$10.00		
Gustave Doree. Bright cerise-pink, edged silvery rose with white centre. Height, 25 inches60	4.00
Je Maintiendrai. Brilliant violet-purple75	5.00
King Harold. Deep purple-red with white base; a beautiful variety for the garden. Height, 24 inches75	5.00
★ La Candeur (White Queen). Lovely soft white, slightly tinged blush, anthers black60	4.00
La Tristesse. Dull slaty blue with a white base. A very distinct Darwin60	4.00
★ La Tulipe Noire. Large black flower with velvety sheen60	4.00
★ Lenotre. Beautiful clear pink, highly recommended for early forcing, strong stem. This variety may be forced into flower ahead of any other pink Darwin Tulip 15 cts. each; 1.50 10.00		
Loveliness. Soft Carmine-rose. A lovely Tulip. Height, 21 inches60	4.00
Maiden's Blush. Beautiful soft rosy pink75	5.00
Marconi. Large violet flower with yellow centre. Very distinct75	5.00
★ Massachusetts. Vivid pink with white centre; large flowers. Height, 26 inches75	5.00

BREEDER TULIPS

Breeders are the unbroken form of the old Florist Tulips. Most of the varieties are purple, maroon, or terra-cotta colored. They are of enormous size and vigorous growth. These Tulips are very valuable for the garden, producing by their refined colors a most artistic effect. They should be treated like Darwin Tulips, but should not be forced.

✱ Denotes varieties which we can especially recommend

✱ Bronze Queen (Breeder). Soft golden-yellow bronze, large flower	Each	Doz.	100

SINGLE EARLY TULIPS

All single early Tulips are suitable for pot culture. The Duc Van Thol Tulips are the earliest, especially suitable for growing indoors. The selection we offer below is made up of the finest bulbs of the best varieties and should give the utmost satisfaction.

CULTURE IN POTS OR FLATS.—Use ordinary garden soil, set three bulbs in a five-inch pot, or a dozen bulbs in a ten- or twelve-inch flat or pan; have the top of the bulb just even with the surface of the soil; after watering thoroughly, plunge the pots in a cold frame or set in the cellar and cover with coal ashes or sand. They may be brought into the house for forcing about the middle of December, and thereafter at intervals of two weeks, for a succession. With plenty of light, water, and air they will begin to bloom in about six weeks in the ordinary living-room.

DUC VAN THOL

Price: 50 cts. per doz.; \$3.75 per 100; \$35.00 per 1000

This is the earliest class of Tulips. If started early they may be forced into bloom before Christmas. Very sweet scented. They grow about six inches high.

Crimson, Red and Yellow, Rose, Scarlet, White, Yellow.

⊕ Denotes varieties which we can especially recommend.

NAMED VARIETIES

ORANGE, RED AND YELLOW

	Doz.	100	1000
Cottage Boy. Yellow, edge orange. Very distinct; a fine bedder.	\$0.60	\$4.00	\$36.00
Duchesse de Parma. Orange-red, margined deep yellow; a fine bedder.60	4.00	35.00
⊕ De Wet (Fireglow). Beautiful golden, flushed and stippled fiery orange scarlet, quite a distinct shade, unlike any other variety; grown under glass it is a real orange shade.	3.50	25.00	
⊕ Keizerkroon. Mammoth Top Roots (Extra Large). This old variety becomes more popular every year. Especially for bedding. A bed of these showy flowers on their stiff stems is a glorious sight; they should be planted alone.60	4.00	35.00
Prince of Austria. Fine orange-red; good for forcing and bedding.45	3.00	28.00
Royal Standard (Gold Striped). Scarlet striped with yellow.75	4.50	40.00
⊕ Thomas Moore. Terra-cotta, shaded golden-yellow.40	2.50	24.00

PINK

	Doz.	100	1000
⊕ Cottage Maid. Beautiful bright pink shaded white.	\$0.55	\$4.00	\$36.00
⊕ Pink Beauty. A flower unsurpassed for size and beauty, deep glowing rose with white flush on outside of petals.	1.00	6.50	60.00
Prosperity. Rose pink, splendid for forcing. A lovely tulip for cutting.55	4.00	36.00
⊕ Proserpine. Rich carmine rose. One of the best and most popular varieties for early forcing. It may be had in blossom by Christmas.	1.00	6.50	58.00
Rose Luisante. Beautiful brilliant deep rose. Very showy in pots.85	6.00	56.00

RED AND WHITE

	Doz.	100	1000
Flamingo. White, flaked rosy red, excellent for forcing.	\$0.75	\$6.00	\$56.00
⊕ Joost Van Vondel Striped. Cherry red, feathered white; beautiful large flowers.50	3.50	30.00
Princess Wilhelmina. Deep rosy red, flushed white on outside petals.60	4.50	42.00
Royal Standard (Silver Striped). Crimson striped silvery white.55	4.00	38.00

DARK RED AND CRIMSON

	Doz.	100	1000
Bacchus. Dark purplish-crimson, pointed petals.	\$0.50	\$3.75	\$35.00
⊕ Cardinal's Hat. Beautiful deep red.50	3.50	30.00
Couleur de Cardinal. Large rich velvety crimson; a very useful variety.75	5.00	45.00
Dusart. Dark vermilion-red; an extra good bedding variety.50	3.75	35.00

PINK AND WHITE

	Doz.	100	1000
Couleur Ponceau. Cherry rose, white flushed outside.	\$0.60	\$4.00	\$38.00
⊕ La Reine (Queen Victoria). White slightly tinged with rose; excellent for bedding and forcing; extra size.40	3.00	25.00
La Reine Maximus. White bordered rose, large flowers. The same forcing habit as La Reine.60	4.50	40.00
Queen of the Netherlands. Magnificent soft rose flushed white, very showy when grown in pans.75	5.00	45.00
⊕ Rose Grisdelin. Delicate rose flushed white; good forcer.50	3.50	32.00
Rosamundi Huikman. Rose and white.60	4.00	38.00

WHITE

	Doz.	100	1000
⊕ Joost Van Vondel (Lady Boreel). White The largest and most intense pure white early variety. Splendid both for bedding and forcing.	\$0.60	\$4.50	\$42.00
⊕ Pottebakker White. Very beautiful pure white, splendid for forcing and bedding.60	4.50	42.00
Princess Helene. Beautiful large pure white elongated flowers.50	3.75	35.00
White Hawk (White Falcon). Large pure white globular flower. Fine for bedding and forcing.60	5.00	45.00
White Swan. Pure white; egg-shaped flowers.45	3.50	32.00

BRECK'S HIGH GRADE MIXTURE SINGLE EARLY TULIPS ALL FIRST SIZE BULBS

Our own mixture; contains all the desirable sorts; they grow about equal height and flower simultaneously
This mixture is without a rival for variety and brilliancy
Prices: 75 cts. per doz.; \$5.00 per 100; \$40.00 per 1000

SINGLE TULIPS

Selected Grower's Mixture. This embraces good quality bulbs in beautiful assortment
Prices: 40 cts. per doz.; \$2.75 per 100; \$25.00 per 1000

Keizerkroon

Mon Tresor

Pink Beauty

Planting of Keizerkroon

A Mass of Darwins

In order to assist our customers in selecting Tulips for beds, borders, etc., we give herewith a list of the most popular bedding varieties classed as **Very Early**, **Early**, and **Late**; the relative height of stem is indicated as *tall*, *medium* and *dwarf*.

Very Early: (*Dwarf*) Scarlet Duc Van Thol, White Duc Van Thol; (*Medium*) La Reine, Mon Tresor, Prosperity, Vermillion Brilliant, Proserpine; (*Tall*) King of the Yellows.

Early: (*Dwarf*) Artus, Bacchus, Belle Alliance, Cottage Boy, Cottage Maid, Gold Finch, Rose Grisdelin, Yellow Prince; (*Medium*) Chrysolora, Duchesse de Parma, Dusart, Joost van Vondel, La Grandeur, President Lincoln, Queen of the Netherlands, Wouwerman; (*Tall*) Keizerkroon, Pottebakker White, Pottebakker Yellow, Princess Wilhelmina, Rising Sun, Sir Thomas Lipton, Thomas Moore, White Hawk.

Late: (*Dwarf*) Royal Standard; (*Medium*) Princess Helene, Rosamundi Huikman, Rose Luisante; (*Tall*) Couleur de Cardinal, Pink Beauty, Prince of Austria, White Swan.

President Lincoln

EARLY SINGLE TULIPS—Continued

YELLOW

★ Chrysolora. Pure yellow, good for forcing and bedding	Doz.	100	1000
	\$0.45	\$3.50	\$30.00
★ Gold Finch. (Yellow Prince sported). Pure yellow, sweet scented, this variety is a valuable improvement of Yellow Prince as it is entirely without orange stripes and has all the good qualities of the old favorite60	4.00	35.00
King of the Yellows. Pure deep golden-yellow egg-shaped flowers; an excellent forcing variety45	3.50	30.00
Mon Tresor. Beautiful pure yellow; a good forcer; may be had in blossom by Christmas50	3.50	30.00
Pottebakker. Pure yellow. Very good variety60	4.50	40.00
★ Rising Sun. Large flower on tall stem, color deep golden yellow85	6.00	50.00
Yellow Prince. Bright yellow sweet-scented. One of the best varieties for forcing and bedding40	3.00	28.00

VIOLET

Eleanor. Violet, paler towards the edges; a good bedder60	4.00	38.00
★ President Lincoln (Queen of the Violets). Purplish mauve, white base60	4.00	38.00
Wouwerman. Claret purple60	4.50	40.00

SCARLET

Artus. Brilliant deep scarlet; fine bedder	Doz.	100	1000
	\$0.45	\$3.00	\$28.00
Belle Alliance (Waterloo). Brilliant scarlet, large sweet-scented flower excellent for bedding and forcing60	4.50	42.00

Grace Darling. Beautiful bright bronze-scarlet. One of the most effective bedding varieties, not recommended for forcing as it loses its bright color.	\$0.75	\$6.00	\$50.00
La Grandeur. Bright scarlet, large flower60	4.50	42.00
★ Pottebakker (Verboom). Large scarlet flower50	3.50	32.00
★ Sir Thomas Lipton. (Royal Scarlet). Brilliant scarlet; a large cup-shaped flower of great brilliancy75	5.50	50.00
★ Vermilion, Brilliant. Vermilion scarlet. There is no other variety which equals it in brilliancy. We heartily recommend it for all purposes75	5.50	50.00

PARROT TULIPS

This species has fringed flowers, brilliant crimson and yellow with shades of bright green; very gay and effective in mixed borders, and forming a fine succession to the early flowering varieties.

Admiral de Constantinople. Red streaked with orange	Doz.	100	1000
	\$0.50	\$4.00	\$35.00
Coffee Color. Mottled green and yellow50	4.00	35.00
★ Feu Brillante. Brilliant scarlet. Very attractive50	4.00	35.00
Lutea Major. Bright yellow, streaked red50	4.00	35.00
Mark Graaf. Yellow inside, scarlet and green striped outside50	4.00	35.00
★ Perfecta. Red and yellow striped50	4.00	35.00
★ Choice Mixture50	4.00	35.00

DOUBLE EARLY AND LATE TULIPS

The earlier varieties of this beautiful class of Tulips are admirably adapted for forcing. The later kinds are very effective for bedding, producing a dense mass of brilliant colors, which remain in perfection a long time.

★ Bleu Celeste (Blue Flag) Enormous flower, violet blue, extra	Doz.	100	1000
	\$0.75	\$5.50	\$50.00
Boule de Neige. Double, large pure white60	4.00	35.00
Couronne des Roses. Deep rose, double65	4.50	40.00
Couronne d'Or. Bright yellow, shaded orange65	4.50	40.00
Golden King. Clear soft yellow; a magnificent double flower; excellent for pot culture	10 cts. each;	1.00	7.50
Imperator Rubrorum. Bright scarlet, very double75	5.00	48.00
La Candeur. Pure white50	3.50	32.00
Lord Beaconsfield. Deep carmine rose60	4.25	40.00
Mr. Van Der Hoeff. Pure yellow, sport of Murillo, recommendable new variety	1.00	7.00	60.00
Murillo. Blush white, shaded with rose40	3.00	28.00
Princess Beatrice. Delicate white and rose, good forcer60	4.00	38.00
Rubra Maxima. Deep vermilion crimson50	3.75	35.00
Schoonoord. Beautiful pure white60	4.50	
Tea Rose. Pale yellow flushed salmon; very distinct60	4.00	38.00
Tournesol. Red and yellow50	4.00	38.00
Tournesol Yellow.60	4.50	40.00
Yellow Rose. Bright golden yellow; sweet scented65	5.00	45.00
★ Breck's Selected Mixture. Double early Tulips35	2.50	22.00
★ Breck's Superb Mixture. Double Late Tulips35	2.50	22.00

Border of Darwin Tulips

REMBRANDT TULIPS

(BUTTERFLY TULIPS)

Price: 10 cts. each; 85 cts. per doz.; \$6.00 per 100

The Rembrandt Tulip comprises a strain of variegated Darwin Tulips. Usually delicate shades with flames or stripes of a darker shade and forming lovely combinations which appeal to the refined taste of many people. Some varieties can be forced to the end of February, but the flowers are not quite as large as the Darwin.

- ✱ **Caracalla.** Fiery scarlet and white.
- ✱ **Gretchen.** Light pink feathered dark pink.
- ✱ **Pierette.** Lilac on a white ground, purple feathered.
- ✱ **Semele.** White with pink feathering.
- ✱ **Suzanna.** Reddish brown on soft lilac flamed white.
- ✱ **Victor Hugo.** White feathered brilliant carmine red.

OLD DUTCH TULIPS

(BYBLOEMENS AND BIZARRES)

The Bybloemens and Bizarre Tulips are rectified Breeder Tulips. The Bybloemens are striped and feathered rose or violet on a white ground. The Bizarres are feathered brown on a yellow ground. They flower about the same time as Darwin and Breeder Tulips. They are not quite so tall or so large.

BIZARRES

	Doz.	100	1000
Extra Mixture of True Bizarre Varieties.	\$0.60	\$4.00	\$35.00

BYBLOEMENS

Choice Mixture of Roses	\$0.60	\$4.50	\$40.00
Choice Mixture All Shades60	4.50	40.00

GLADIOLI

(EARLY FLOWERING VARIETIES)

Price: 15 cts. each; \$1.50 per doz.; \$10.00 per 100

These Gladioli are invaluable for forcing for winter bloom. The gracefully formed flowers are excellent for cutting. For indoor planting only.

- ✱ **Aekermanni.** Orange salmon flaked carmine—a pleasing and effective variety.
- ✱ **Blushing Bride.** White with pink and carmine blotches—a charming combination.
- ✱ **Colvillei Alba (The Bride).** Pure white, very early and fine for forcing.
- ✱ **Peach Blossom.** A most beautiful shade of soft rose pink.

Crocuses—Sir Walter Scott

CHOICE NAMED CROCUS

Plant during October or November, in clumps or masses, three inches deep. If planted along the border of the lawn they can be combined with Snowdrops, Scillas, Daffodils, etc. They are perfectly hardy and may remain in the ground undisturbed for years. Crocuses are easily forced. They should be planted very thickly in pots, flats or shallow boxes, filled with good light soil not too much packed down. The top of the bulb should be just below the surface. The Crocus may also be grown in glasses or in flat dishes with sand, moss, or cotton batting as a foundation. Keep the material in which they are set constantly moist and growth will soon begin.

BLUE AND PURPLE Doz. 100 1000

Baron von Brunow. Deep purple.....	\$0.20	\$1.25	\$11.00

FREE DELIVERY ANYWHERE IN THE UNITED STATES as follows:

Where orders are accompanied by cash, we deliver free to any Post Office, Railroad Express Office or Freight Station, at our expense, except where otherwise, noted the following:

- BULBS at the single and dozen rates.
- Vegetable and flower seeds at the package, ounce, ¼ lb., ½ lb. or lb. prices.
- Books and other publications.

Nursery stock and greenhouse plants of every description are sold f. o. b. our Nursery and shipped direct from Munroes Station, Lexington, Mass., unless special arrangement regarding delivery is made at the time order is placed.

NARCISSI or DAFFODILS

Bicolor Victoria

CULTURAL DIRECTIONS

With few exceptions the Narcissi are hardy and strong, growing under ordinary cultivation. The bunch-flowered or Polyanthus sorts, however, should not be trusted to the border.

Outdoor Culture. The Daffodil will grow in any ordinary garden soil and in almost any situation, but prefers moderately stiff, well-drained soil, in situations slightly shaded, such as the herbaceous border and the margins of flower-beds, along the outside edges of shrubberies, on woodland walks, and on the margins of lakes and streams, or for naturalizing in the grass or woodland. Planting may be done in the fall any time before frost sets in, October being the usual month for setting out. Once planted they should not be disturbed further than dividing and resetting in August once in three or four years, when they get too crowded.

Pot Culture. It is unnecessary to say anything as to the merits of Narcissi of all kinds for this purpose, as their popularity is universal. At the head of the list stands the Tazetta, or Polyanthus Narcissus, with its large bunches of fragrant flowers.

The Paper White Grandiflora and Double Roman Tazettas are very largely used for forcing. All the varieties of the group are suitable for this purpose, and are excellent for cut flowers.

The Campernelle, or Large Jonquil (*N. odorus*), and the Single and Double Sweet-scented Jonquils are splendid—the last mentioned being exquisitely perfumed.

For culture, the hints given under Hyacinths may be followed. One very important point is to keep them cool for the first four or five weeks when they are commencing to grow. After the roots are grown and the tops well started, they may be pushed forward more quickly in heat. In cutting for sending to friends or for market, the flowers should be cut in the bud, and when placed in water they will open out beautifully.

Emperor and Empress

LARGE TRUMPET NARCISSUS

★ Denotes varieties which we can especially recommend

★ VAN WAVEREN'S GIANT

The largest of all trumpet flowers; of huge dimensions; perianth, primrose, trumpet, bright yellow. 20 cts. per bulb; \$2.25 per doz.; \$15.00 per 100.

★ VICTORIA

One of the most popular trumpet Narcissi used very largely by florists for greenhouse culture. A splendid variety for growing in pots in the house. The perianth creamy white, trumpet large, color rich yellow. We offer two sizes of bulbs. We recommend the mammoth bulbs for house culture. This variety being perfectly hardy, is used largely for outdoor work.

Early Paper White Grandiflora

POLYANTHUS NARCISSUS

The varieties of this group produce an abundance of large trusses of very sweet scented flowers, varying in color from pure white to deep golden yellow; easily cultivated in pots or glasses and excellent for forcing. The Paper White Grandiflora and Double White Roman are much used by florists for forcing. For indoor planting only.

⊛ Early Paper White Grandiflora. The earliest, largest, and best type of the paper white, unsurpassed for forcing; pure white selected bulbs.....	Doz.	100
Grand Monarque. White, lemon cup..	\$1.50	\$9.00
⊛ Grand Soleil d'Or. Yellow with orange cup; large flower trusses; splendid for forcing.....	2.50	18.00
Mont Genis. White, yellow cup, extra..	2.50	18.00

CHINESE NEW YEAR'S LILY

No care whatever is required in the cultivation of this beautiful and interesting bulbous plant. Use shallow dishes about three inches deep, into which put about one inch of gravel. Set the bulbs on this and fill in with small stones, and keep the dish full of water. These bulbs do not require to be put in the dark, but a little shading until the leaves begin to grow is beneficial. **Mammoth Bulbs:** 20 cts. each; \$2.00 per doz.; \$12.00 per 100.

BRECK'S BULB FIBRE

The best Fibre for growing bulbs in fancy bowls without drainage for table decoration. This method of growing bulbs is becoming more popular with flower growers owing to its novelty and cleanliness. Bulbs such as Tulips, Hyacinths, Narcissi, Daffodils, Freesias, Oxalis, etc., adapt themselves to this mode of culture and splendid results can be obtained.

Price: 15 cts. per qt.; 75 cts. per peck; \$2.50 per bushel.

Lily of the Valley Convallaria

LILY OF THE VALLEY

For open ground we supply either clumps or pips. The clumps should be set from six inches to one foot apart, and covered three inches deep. If pips are planted, set them to the same depth but quite thickly (every pip produces a flower).

For growing in the house or for forcing, pips are by far the best, as they have more vigor and will bloom earlier. When potting pips keep the crowns or buds above the soil, cover the tops of the pots with loose moss, place them in a temperature of about 80 degrees, keep constantly moist with tepid water; they should produce flowers in from four to five weeks.

Lily of the Valley Clumps. 50 cts. each; \$5.00 per doz.

★ **COLD STORAGE for Forcing.** \$6.00 per 100; \$50.00 per 1000.

CALLA LILIES

A rather warm temperature is desirable for Callas. Use very rich soil and abundance of water when growing. They may be kept growing continually or given a season of rest as desired. For indoor planting only.

★ **Æthiopica** (White Calla). Old-fashioned, well-known White Calla or Lily of the Nile. Selected roots, 25 cts. each. \$2.50 per doz. Jumbo roots, 35 cts. each; \$3.00 per doz.

★ **Elliottiana** (Golden Calla). Pure golden yellow flower, foliage distinctly spotted white. Mammoth bulbs, 50 cts. each; \$5.00 per doz.

★ **Godfrey Calla** (Everblooming Calla). Flowers smaller than the common Calla, flowering freely and continuously. 50 cts. each; \$5.00 per doz.

OXALIS

General favorites for culture in pots or hanging baskets. When in flower they are exceedingly pretty and the foliage is also very attractive. Plant three or four bulbs in a five-inch pot and keep in a sunny position. For indoor planting only.

Mammoth bulbs, 40 cts. per doz.; \$2.75 per 100.

★ **Grand Duchess Alba.** Pure white.

★ **Grand Duchess Lavender.** Large flowers.

★ **Grand Duchess Rosea.** Deep pink.

★ **Bermuda Buttercup.** Clear yellow, large flowers.

Calla Lily Elliottiana

IRIS FILIFOLIA and TINGITANA

A strain of Spanish Iris flowering from two to three weeks earlier and producing their large flowers on tall, strong stems. Very suitable for growing in pots in a cold frame or greenhouse.

	Doz.	100
Filifolia. Deep blue, suitable for forcing . . .	\$1.50	\$10.00
Tingitana. Dark violet blue, fine for forcing.	2.00	15.00

IRIS HISPANICA

(SPANISH IRIS)

Price: \$1.00 per doz.; \$7.50 per 100

We strongly recommend Spanish Iris for forcing in pans and boxes. The colors cannot be surpassed for richness, combination and variety. The varieties offered are carefully selected and have proved to be the best. For indoor planting only.

★ **Belle Chinoise.** Extra good yellow.

★ **Cajanus.** Clear yellow, extra early.

★ **Flora.** White and light lilac, very early.

★ **Heavenly Blue.** Deep sky blue.

★ **King of the Blues.** Rich blue, very attractive.

★ **King of the Whites.** Extra large, pure white.

★ **Queen Wilhelmina.** Snow white, very early.

★ **Royal Blue.** Real marine blue.

★ **Superb Mixture.** Mixed from named varieties.

DUTCH IRIS

Price: \$1.50 per doz.; \$10.00 per 100

This new race is best described as a very early flowering Spanish Iris, but greatly superior as the flowers are of enormous size and remarkable substance. They can be forced easily and will flower two to three weeks before even the earliest of Spanish Iris. For indoor planting only.

★ **Anton Mauve.** Very large and substantial flower of a most pleasing tone of uniform soft blue.

★ **Brijet.** Porcelain blue with grayish lilac.

★ **Der Kinderen.** Dark purple blue with yellow falls.

★ **Frans Hals.** Creamy white orange blotch and pearl blue.

★ **Hart Nibbrig.** Brilliant clear blue, extra good.

★ **Hartz.** Greyish lilac, flaked yellow, standards purple blue.

★ **Hobbema.** White faintly tinged blue, yellow falls.

★ **Roland Holst.** Lilac with pale yellow lips.

★ **Van Der Venne.** Lilac with creamy white.

★ **Superb Mixture.** Mixed from named varieties.

LILIES FOR FORCING AND HOUSE CULTURE

POT CULTURE

Use loam and peat in about equal parts with the addition of a sprinkling of sharp sand and powdered charcoal. Dust the bulbs with charcoal. Cover at least two inches with soil. Water lightly until shoots begin to appear.

Lilium Harrisii (Easter Lily, Bermuda). This is the most popular variety for house culture. A succession of bloom is obtained by bringing into the house a supply as wanted. Extra care is exercised in securing our stocks of Bermuda grown Lily Bulbs.

First Size Bulbs. 35 cts. each; \$2.75 per doz.; \$22.00 per 100.
Extra Large Size Bulbs. 45 cts. each; \$3.50 per doz.; \$28.00 per 100.

Mammoth Bulbs. 75 cts. each; \$8.50 per doz.; \$65.00 per 100.

Lilium Fairy Isle (Easter Lily, Bermuda grown). We have been able to secure a fine stock of this Bermuda grown Harrisii. They grow somewhat taller and produce a greater number of flowers than the bulbs of the same variety from Japan.

Mammoth Bulbs. 75 cts. each; \$8.50 per doz.; \$65.00 per 100.

Jumbo Bulbs. \$2.00 each.

Lilium Candidum (Madonna or Ascension Lily). The bulbs which we offer are grown in the north of France, and so far have been entirely free from disease. They produce more flowers of greater size and substance than those grown elsewhere. There is an increasing demand for these every season and we are importing the finest bulbs possible.

First Size Bulbs. 25 cts. each; \$2.50 per doz.

Mammoth Bulbs. 30 cts. each; \$3.00 per doz.

✪ **Lilium Formosum.** This valuable new type of Easter Lily has become very popular, proving to be free from disease and quality is excellent.

Extra Large Size Bulbs. 45 cts. each \$3.50 per doz. \$28.00 per 100.

Mammoth Bulbs. 75 cts. each \$8.50 per doz.; \$48.00 per 100.

Lilium Longiflorum Giganteum. This is a fine type and the most popular of all. Long trumpet-shaped flowers of pure glistening white sweetly scented. This variety we carry in cold storage all the year round.

First Size Bulbs. 35 cts. each; \$2.75 per doz.; \$22.00 per 100.

Extra Large Size Bulbs. 45 cts. each; \$3.50 per doz.; \$28.00 per 100.

Mammoth Bulbs. 75 cts. each; \$8.50 per doz.; \$65.00 per 100

EASTER IN 1923 COMES ON APRIL FIRST

HARDY LILIES FOR GARDEN AND POT CULTURE

We give to the Lily a large space, because it is first in importance in the bulb garden, in the history of flowering plants, and in the hearts of all true lovers of the beautiful in floral form and color. It is, moreover, the best representative of the natural order to which it belongs.

The Lilies are among the most beautiful and ornamental of cultivated bulbous plants, their stately habit and variously-colored flowers (which are in many cases highly perfumed) rendering them indispensable subjects for greenhouse decoration, and for outside flower garden embellishment. Nearly all the species and varieties may be termed hardy in most localities, if provided with a well drained soil.

The commoner and more plentiful species may be effectively employed for grouping or naturalizing. Many of them are excellent border plants when in flower, being extremely attractive in mixed arrangements, if properly placed in respect of height. Many of the strong-growing Lilies are well adapted for planting among shrubs, where the latter are not too thickly placed. By growing a selection of species in pots, to flower at different times, a valuable addition to greenhouse decorative subjects is secured over a long period, in summer and autumn. Lilies should always be planted not less than three in a clump thus . . .

Auratum (Golden Banded Lily of Japan). Immense white flowers, each petal marked with a wide gold band. Each Doz. 100

Extra Large \$0.40 \$4.00 \$30.00

Kramerii. Blush pink, fragrant and beautiful trumpet-shaped flowers.40 4.00 30.00

✪ **Myriophyllum** (Regal Lily). A good forcer and absolutely hardy. Flowers are white, slightly shaded with pink, with canary-yellow centre. 1.00 10.00 75.00

Pardalinum (Leopard Lily). Rich scarlet and yellow flowers spotted with rich dark brown. Robust and free-flowering. .25 2.50 18.00

Superbum. Yellowish red. Height, 4 ft. .25 2.50 18.00

Tenuifolium (Coral Lily). The lovely Coral Lily of Siberia. The brightest of all; grows 20 inches high with finely cut foliage; slender stems and beautifully shaped flowers of a coral red.35 3.50 25.00

Tigrinum Splendens (Tiger Lily). Fiery scarlet flower, spotted black. Height 6 ft.25 2.50 18.00

Tigrinum Flore Pleno. Double flowered orange; spotted black. Height 4 ft.25 2.50 18.00

BRECK'S HIGH GRADE LILY COLLECTIONS

6 Hardy Lilies in 6 Varieties (Our Selection) for \$2.00.

12 Hardy Lilies in 12 Varieties (Our Selection) for \$4.00.

BRECK'S SEEDS

FOR GREENHOUSE CULTURE

Most of these are very minute and require great care and delicate handling to prevent failure. They should be sown in pans, in soil in which sufficient sand has been mixed to keep it from caking. In many cases, such as Begonias, Streptocarpus, Calceolarias, etc., no attempt should be made to cover the seed—it should be simply pressed into the surface, after which it should be sprayed with tepid water, and a glass placed over it to prevent too much evaporation; but as soon as the plants are up see that they are ventilated or they will soon become mouldy and soft. On no account must they be left in the sun as shade and moisture are the two principal conditions required for success. As soon as the young plants show their two seed leaves, they should be carefully pricked out into boxes, care being taken not to damage the roots. Many minute plants from the finer seeds are destroyed by drenching them with water. A vaporizer or sprayer should be used for watering.

✱Denotes varieties which we can especially recommend. Order by number.

ABUTILON

ABUTILON. Free-flowering greenhouse shrubs excellent for conservatory decoration and for bedding out of doors in the summer. Seeds sown indoors in February or March produce flowers the same season. Tender perennial. 5 ft.

8500 **Breck's Choice Hybrids Mixed.** Pkt., 25 cts.

ACACIA. Tender Perennial Shrub with graceful branches and sweet scented flowers. 8 to 10 ft.

✱8510 **Baileyana.** Quick growing Acacia flowering the second year from seed. Fine long flower sprays excellent for cutting. Pkt., 25 cts.

8512 **Dealbata.** Golden yellow ornamental foliage, large, silvery and fern-like. Pkt., 15 cts.

ACHIMENES. Fine summer-blooming tender greenhouse perennial; valuable for pots or hanging baskets. The flowers vary considerably in size and are of the richest colors.

8520 **Choice Mixed.** Pkt., 50 cts.

AGATHEA (Blue Marguerite). Tender perennial with small daisy-like flowers. Very useful for pot culture. 2 ft.

8525 **Cœlesis.** Blue with yellow centre. Pkt., 15 cts.

ANTIRRHINUM

ANTIRRHINUM (Snapdragon). The following good greenhouse varieties we consider the best for use under glass; treated for winter flowering they will produce flower stems a yard long; invaluable for cutting.

8535 **Giant Yellow.** Golden yellow. Pkt., 60 cts.

✱8538 **Golden Pink Queen.** Golden pink. Pkt., \$1.00.

8541 **Keystone.** Delicate pink. Pkt., 60 cts.

✱8544 **Nelrose.** A beautiful shade of silvery pink. Pkt., 60 cts.

8547 **Phelps White.** Very free-flowering, pure white. Pkt., 60 cts.

8550 **Silver Pink.** True silver pink. Pkt., \$1.00.

ARALIA. Easily grown plants with bright green foliage; very useful as house plants.

8560 **Moseri.** A stronger grower with foliage more graceful than Sieboldii. Pkt., 35 cts.

8564 **Sieboldii.** Large green leaves which resemble Ricinus. Pkt., 25 cts. (New seeds ready in April.)

ASPARAGUS. Elegant greenhouse plants for hanging baskets or cutting for bouquets and table decorations.

✱8570 **Decumbens.** This variety produces long tremulous sprays of delicate foliage. Splendid for hanging baskets. Pkt., 50 cts.

8573 **Plumosus Nanus.** Valuable for hanging baskets and table decorations on account of its graceful finely cut foliage. Pkt., 25 cts.

8576 **Sprengeri.** Valuable as a pot plant for conservatory decoration. Very useful for bouquets, wreaths or sprays. Oz., \$1.00; Pkt., 25 cts.

BEGONIAS (For Hanging Baskets). This magnificent class of plants have been improved in late years; for greenhouse and conservatory decorations they make a splendid display as they are very light and graceful in appearance.

8580 **Breck's Superb Mixture.** Pkt., \$1.00.

BROOM. Splendid decorative plants for greenhouse and conservatory.

8585 **Andreana.** Scarlet and yellow. Pkt., 15 cts.

8588 **White Gem.** Pure white flowers borne on long upright stems, excellent for winter flowering and decorative purposes. Pkt., 15 cts.

CALCEOLARIA

CALCEOLARIA. Ornamental conservatory and house plants bearing numerous pocket-like flowers of brilliant self colors and handsomely spotted. We can strongly recommend our Special Strain for habit, size and marking of flowers.

✱8595 **Breck's Scotch Prize Mixed.** Grown for us by a specialist, and is a great improvement in these gorgeous plants. Flowers are beautifully blotched and striped in exceedingly rich colors of yellow, maroon, crimson, white, etc. Pkt., \$1.00.

✱8598 **Clibranii.** A very beautiful form of Calceolaria, the flowers are of deep golden yellow and produce in great abundance on long slender stems. Pkt., 75 cts.

8601 **Dwarf Large-flowered.** Mixed. Pkt., 50 cts.

8604 **Giant Spotted.** Mixed. Pkt., 50 cts.

8607 **James' Giant Mixed.** Finest for exhibition. Pkt., 75 cts.

8610 **Large-Flowered Selfs.** Mixed. Comprising a wide range of colors unsurpassed for quality and excellence. Pkt., 50 cts.

8613 **Rugosa.** (Shrubby) for bedding. Mixed. Pkt., 50 cts.

CHEIRANTHUS. A valuable hybrid Wallflower for greenhouse decoration; the plants grow to a height of 2 feet, branch freely and each stem carries a long spike of flowers.

8620 **Kewensis.** Primrose and mauve. Pkt., 25 cts.

CHRYSANTHEMUMS. For blooming either outside or in the conservatory. These can be flowered the same year from seed and are splendid for cut flowers or pot plants as they contain a great variety of color.

8625 **Chinese and Japanese Mixed.** Pkt., 20 cts.

✱8627 **Chinese Mixed.** An extra fine variety for greenhouse or autumn flowering. Pkt., 25 cts.

8629 **Chinese and Pompom Mixed.** Very free-flowering with small flowers; very desirable. 2½ ft. Pkt., 20 cts.

- 8631 **Comtesse de Chambord** (Yellow Paris Daisy). 1½ ft. Pkt., 25 cts.
- 8633 **Frutescens**. (White Paris Daisy). An excellent plant for the greenhouse or summer bedding out-doors. 1½ ft. Pkt., 10 cts.
- ✱8635 **Japanese Mixed**. Extra large double flowers with long twisted petals. Pkt., 25 cts.

CINERARIA

CINERARIA. To produce good plants for decorative purposes sow in May or June. These magnificent plants are indispensable for spring decoration in the conservatory or window garden.

- ✱8640 **Breck's Columbia Strain. Tall mixed.** This includes every conceivable shade of pink, carmine, crimson, and blue as well as pure white. The flowers are of immense size, borne on plants of robust habit. 2 ft. Pkt., 75 cts.
- ✱8642 **Breck's Columbia Dwarf Mixed.** Dwarf compact variety about 15 inches high. Pkt., 75 cts.
- 8645 **James' Prize.** Choice varieties mixed. Seed is saved for us by one of the foremost growers in England from prize varieties and contains a magnificent range of colors. Pkt., 50 cts.

CINERARIA HYBRIDA (Separate shades).

- 8650 **Antique Rose.** Pkt., \$1.00.
- 8653 **Azure Blue.** Pkt., \$1.00.
- 8656 **Crimson.** Pkt., \$1.00.
- 8659 **Pure White.** Pkt., \$1.00.
- 8665 **Stellata** (Star Cineraria). Mixed. A splendid plant for conservatory decoration during the winter and spring. The immense heads of flowers are borne on long stalks, the individual blooms are star-shaped. Pkt., 50 cts.

CLERODENDRON. Attractive greenhouse plant easily grown from seed. The large heads of flowers are as invaluable for decoration as the popular Poinsettia.

- 8670 **Fallax.** Bright scarlet. Pkt., 50 cts.
- CLIANTHUS** (Glory Pea of Australia). Valuable greenhouse Perennial which can also be flowered in the open.
- 8675 **Dampeiri.** Scarlet and black. Pkt., 25 cts.

CLITORIA (Blue Pea). A handsome greenhouse climber of easy culture.

- 8680 **Cœlestis.** Pkt., 25 cts.

COLEUS. Bedding and greenhouse plants with beautifully colored foliage. Easily grown from seed. The dwarf, large-leaved strain is especially desirable. The colors range from light to dark red; leaves beautifully marbled and spotted.

- 8685 **Fringed and blotched.** 2 ft. Pkt., 25 cts.
- 8688 **Large Leaved Varieties.** 2 ft. Pkt., 20 cts.
- 8691 **Large Leaved Dwarf.** 1 ft. Pkt., 20 cts.
- 8694 **Choicest Mixed.** Saved from a very choice collection. 2 ft. Pkt., 35 cts.

CYCLAMEN

CYCLAMEN. (Breck's Giant Strain). A superior strain with flowers of largest size and perfect form displayed well above the foliage. Seed may be sown at any time during the spring or summer.

- ✱8700 **Breck's Imperial Mixed.** Contains all the brilliant colors 100 Seeds Pkt. \$2.00 \$0.75
- 8703 **Bush Hill Pioneer. Persicum** 3 50 1.00

EUCALYPTUS (Gum Tree). A graceful greenhouse plant of very rapid growth; bluish foliage.

- 8760 **Globulus.** ¼ Oz., 50 cts.; Pkt., 10 cts.

FERNS. Easily grown greenhouse varieties producing many new forms of various heights with ornamental foliage.

- 8765 **Greenhouse Varieties Mixed.** In great variety. Pkt., 25 cts.

FRANCOA (Bridal Wreath). A beautiful decorative plant which is of the easiest culture, producing a large number of elegant sprays of pure white flowers.

- 8770 **Ramosa.** Pure white. Pkt., 25 cts.

FREESIA. The colored Freesias are one of the novelties of late years. The beautifully tinted flowers are sweet scented, easily grown, seedlings will bloom in 6 to 7 months after sowing.

- 8775 **Hybrida Ragionieri.** Choice mixed. Pkt., 50 cts.

- ★8922 **Giant Pink Pearl.** Brilliant rose with immense foliage.
- 8925 **Giant Queen Alexandra.** Giant white flowers, 2½ inches across. Petals are very solid and erect.
- 8928 **Giant Queen Mary.** A lovely shade of rose pink.
- 8931 **Giant Rubra.** Immense red flowers of great substance.
- 8934 **Giant Salmon.** An exquisite color.
- ★8937 **Orange King.** Orange-salmon shaded terra cotta.

Primula Obconica

PRIMULA OBCONICA GRANDIFLORA. The superior quality of our selected strain is acknowledged. It produces exceedingly large and most beautiful flowers of brilliant colors and fine form. The plants are compact and robust in habit, and produce a display of blooms of great substance and beautiful colors.

The following 25 cts. per packet.

- 8945 **Blue.**
 - 8947 **Crimson.**
 - 8949 **Pink.**
 - 8951 **White.**
 - 8953 **Choice Mixed.**
- PRIMULA OBCONICA GIGANTEA.** A cross between Primula Obconica Grandiflora and Primula Chinensis, resulting in a Giant type with large dark foliage and sturdy flower spikes.
- The following 50 cts. per packet.*
- ★8960 **Breck's Giant Hybrids.** Vigorous growing large flowers in a mixture of many new shades.
 - 8962 **Gigantea Cœrulea.** Blue.
 - ★8964 **Gigantea Eureka.** Rosy carmine, shaded cerise, clear yellow eye.
 - 8966 **Gigantea Kermesina.** Crimson.
 - 8968 **Gigantea Rosea.** Fine rose.
 - 8970 **Gigantea Oculata.** Auricula eyed.
- PRIMULA MALACOIDES.** A greatly improved type. The plants branch very freely; the flowers are borne in whorls on long stems. Grown in a greenhouse it can be had in bloom in four months from sowing.
- 8975 **Alba.** White. Pkt., 50 cts.
 - ★8978 **King Albert.** A welcome addition to this family. Color quite distinct, a nice soft rose. Plants grow quite robust and are very free-flowering. Pkt., \$1.00.
 - 8981 **Lilac.** Pkt., 25 cts.
 - ★8984 **Rosea.** Pkt., 50 cts.
- PRIMULAS (Various).**
- 8990 **Floribunda.** Showy primrose yellow, excellent for winter blooming in pots. Pkt., 50 cts.
 - 8994 **Forbesii.** A charming little Primula with rosy lilac flowers, it is very free blooming and resembles Primula Obconica; can be had in bloom 3 months after sowing. Pkt., 25 cts.
 - 8998 **Kewensis.** Bright yellow. Flowers nearly 1 inch in diameter. A splendid winter-flowering plant. Pkt., 50 cts.

Primula Malacoides

- SAINTPAULIA.** One of the most charming plants introduced in late years. Useful for greenhouse or table decoration; blooms all winter.
- 5090 **Ionantha.** Dark violet blue, golden yellow anthers. Pkt., 50 cts.
- SMILAX (Myrsiphyllum Asparagoides).** A handsome greenhouse climbing vine with delicate, dark green foliage; very useful for decorative purposes.
- 9010 **Oz., \$1.00; ¼ Oz., 30 cts.; Pkt., 10 cts.**
- SOLANUM.** Extremely beautiful plants of compact, branching habit, producing numerous brilliant berries set among ornamental green leaves.
- 9015 **Capsicastrum.** (Jerusalem Cherry). Orange. Pkt., 10 c.
 - ★9018 **Clevelandii** (Cleveland Cherry). Improved strain. This is a larger and better fruiting variety than the old type. Excellent when grown as a red berried plant for Thanksgiving and Christmas. Pkt., 25 cts.
 - 9021 **Wetherell's Hybrids.** Red shades. Pkt., 15 cts.
- STEVIA.** Exceedingly beautiful and useful plants producing graceful sprays of tiny flowers. Largely cultivated by florists for winter bouquets. Good for pot culture.
- 9030 **Eupatoria.** White. Pkt., 25 cts.
 - 9033 **Serrata.** White. Pkt., 15 cts.
 - 9036 **Lindleyana.** Rose. Pkt., 25 cts.
- STREPTOCARPUS.** A highly decorative greenhouse plant, very free-flowering. The plants grow about 9 inches high and produce a great variety of trumpet-shaped flowers.
- ★9045 **Breck's New Giant Mixed.** Without doubt one of the finest strains of this beautiful plant ever sent out, including the charming varieties raised and shown by Mr. Edwin Beckett, and a fine selection of some of the best hybrids, embracing the newer and rarer shades of red and the clear throated varieties. Pkt., 50 cts.
- SWAINSONIA.** Pure white, Sweet Pea-like, suitable for pot culture or bedding.
- 9050 **Grandiflora Alba.** Pkt., 50 cts.
- TRACHELIUM.** Showy blue flowers. An interesting plant for greenhouse decoration producing large feathery heads of flowers.
- 9055 **Cœruleum.** Pkt., 15 cts.

SWEET PEAS

WINTER FLOWERING SPENCERS

EARLY FLOWERING OR LONG SEASON SPENCERS

The following new varieties of Sweet Peas begin to blossom 106 days after planting the seed in the open ground; six weeks earlier than the late flowering varieties planted at the same time. They usually blossom for four full months. Splendid type for greenhouse forcing.

GERMAN IRIS

The German Iris is among the most desirable and easiest grown of our Spring-flowering hardy plants, producing in May showy flowers of exquisite coloring, combining the richest and most delicate tints. For best results plant in a well-drained, sunny position, barely covering the roots. In the following descriptions, "S" signifies the standards, or erect petals; "F" the falls, or drooping petals.

PEONIES

PEONY CULTURE

Peonies may be transplanted almost any time when the ground is not frozen, but the best time is in September and October, as the plants receive the least shock at that time and get well settled before making the next season's bloom.

Peonies do best in a light, rich loam, but in no case should manure be applied directly to the roots. It is not necessary to trench out a deep bed, but plant them in well-loosened soil to a depth of about two inches below the top of the ground. Deep planting is the most frequent cause of "blind" plants—that is plants which appear perfectly healthy but do not bloom. The buds on the plant should be about two inches below the top of the ground. We use a fertilizer containing considerable lime and potash in the fall, and some form of manure in the spring which acts as a tonic and, with liberal watering, will produce extra large flowers.

Very few diseases or pests affect Peonies. Of course, rose-chafers will attack any flower, and the best way to destroy them is by hand picking. Sometimes, in gardens where too much manure has been applied every year, or in a very wet season, the stems will wilt down. These stems should be removed and air-slaked lime sprinkled on the ground. In very bad cases the plants should be lifted in the fall and the earth removed, putting in fresh soil.

CHEMICALS and FERTILIZERS

BRECK'S LAWN AND GARDEN DRESSING

Its superiority over stable manure can scarcely be estimated, as the latter, in addition to disfiguring the lawn by its unsightly appearance, also gives out an unpleasant odor, and always contains weeds and other undesirable seeds. Great care should be taken to distribute the dressing evenly, and in no greater quantities than recommended on the tag which accompanies each bag, as a too liberal application will injure the sward. It can be applied at any time during the year, from April to November, as often as the grass seems to need nourishment. Never apply the dressing while the grass is wet with dew or rain. Any time the grass is perfectly dry will answer, but the best time to apply it is just before a shower.

TOLMAN LAND LIME

Price: \$1.25 per 100 lbs.; \$16.00 ton.

LIME benefits the soil in the following ways: sweetens a sour soil; mellows heavy and clayey soils; makes available certain valuable potash compounds otherwise lost; increases the capacity of the lighter soils to retain moisture; makes phosphatic fertilizers more effective; makes organic matter decompose more rapidly and easily, thereby rendering the vital plant food contained more promptly available; in the soil combats organisms causing diseases among cabbages, cauliflower, turnips, beets and the like.

TOLMAN LAND LIME has been prepared with great care under the advice of experts and practical farmers to satisfactorily meet the rapidly increasing demand for lime in agriculture. It comes from unusually pure calcium lime-rock testing approximately 96% straight CaCO₃ with less than 2% MgCO₃ present and is thoroughly kiln burned (not unburned lime-stone). On leaving the kiln it is carefully mixed with lime hydroxide in the proportion of one-third lime oxide to two-thirds lime hydroxide, yielding a mixture sufficiently caustic to do its work but amply tempered with the lime hydroxide to prevent soil and root burning as well as discomfort in handling. Our product is thus powerful, and safe even on light soils.

In order to make TOLMAN LAND LIME easier and pleasanter to use it comes in a uniformly sand grained size, coarse enough not to sift and blow about like pulverized lime and still sufficiently fine to promote ready absorption by the soil and work easily in spreaders.

We claim that our Lime accords with the latest recommendations of the various Agricultural Experiment Stations and that it is safe, powerful, economical, uniform and comfortable to handle. It comes packed in convenient, durable, cotton cloth sacks, one hundred pounds to the sack.

BRECK'S RAM'S HEAD BRAND SHEEP MANURE

PULVERIZED SHEEP MANURE—(Odorless)

A standard dressing for lawns and around private homes or cemeteries, on golf courses and wherever a strong, luxuriant growth of grass is needed. No time is lost waiting for Pulverized Sheep Manure to rot, as is the case with stable or Barnyard Manure, and no necessity for raking off refuse after an application of **Breck's Ram's Head Brand**, or danger of tracking into the house, or making the lawn unsightly or evil smelling.

Apply **Breck's Ram's Head Brand** two or three times during the season before rain or watering at the rate of one pound or over to 30 square feet or less. This will keep the lawn or golf course in flourishing condition.

Breck's Ram's Head Brand is pure and unadulterated. We get it from Sheep Corrals where the animals have been kept under cover, hence it retains its full strength, and besides has been put through a mechanical drying and grinding process which destroys absolutely all weed seeds, rendering **Breck's Ram's Head Brand** very valuable for the florist to be used as a bench fertilizer. We are selling increased quantities of our brand to the Florists for this purpose and we can highly recommend it.

SCOTCH SOOT

This is much used by florists and gardeners, both as a fertilizer and fungicide. Mixed with Flowers of Sulphur (two-thirds soot, one-third sulphur) there is nothing better to prevent and cure mildew. Used as a fertilizer either in the dry state or in liquid, it quickly promotes growth. Per bag of about 2 1/2 bu., \$7.00 per 100 lbs.

COCOANUT FIBRE

A chemically prepared cocoanut fibre, rich in plant food. Its peculiar character especially adapts it to induce root growth and cause healthy vigorous plants. For potting bulbs use one-third fibre to two-thirds of the usual soil preparation and you will be surprised at the results. Cocoanut Fibre is unsurpassed as a medium in which to sprout seeds. Price, 5 lbs., 35 cts.; 15 lbs., 60 cts.; 25 lbs., 85 cts.; 50 lbs., \$1.60; 100 lbs., \$3.00., net.

FINE GROUND FERTILIZER BONE

We have a high grade of this valuable fertilizer prepared especially for us. It is useful for all crops, but especially for grass lands and Fruit Trees.

Price:

50-lb. bag	\$2.20
100-lb. bags	3.50

THOMSON'S VINE, PLANT AND VEGETABLE MANURE

A safe and reliable food and stimulant for every fruit-bearing plant, also for foliage and flowering plants and vegetables of all descriptions. Prices. 1/8 cwt. (14 lbs.) \$2.25; 1/4 cwt. (28 lbs.) \$4.00; 1/2 cwt. (56 lbs.) \$8.00; 1 cwt. (112 lbs.) \$15.00.

THOMSON'S SPECIAL CHRYSANTHEMUM MANURE

Entirely soluble and very powerful, especially suitable for top-dressing chrysanthemums and similar plants. It is meant to be used as an additional stimulant during the growing season. A heaping dessert-spoon full will be sufficient for a 10-inch pot, sprinkled over the surface of the soil, and watered in with tepid water. This may be given three times during the growing season. Price, 14 lbs., \$2.25; 28 lbs., \$4.00; 56 lbs., \$7.00.

BOWKER'S AMMONIATED FOOD FOR FLOWERS

A dressing made expressly for plants grown in the house, garden, or conservatory. Clean, odorless, and producing early and abundant blossoms of rich and brilliant color and healthy, luxuriant plants free from vermin. Price, small pkg., 20 cts.; large pkg., 30 cts.

STIM-U-PLANT—Plant Stimulant Tablet

Stim-U-Plant is the richest plant food on the market and must not be confounded with the ordinary plant foods now offered to planters. The very highest grade commercial fertilizers are very low in fertility compared with Stim-U-Plant.

The better grades of commercial fertilizers do not contain more than 3 to 5 per cent of Nitrogen, 6 to 10 per cent Phosphoric Acid, and 3 to 5 per cent Potash; Stim-U-Plant contains a guaranteed analysis of 11 per cent Nitrogen, 12 per cent Phosphoric Acid, and 15 per cent of Potash. The fertilizer ingredients in commercial fertilizer are for the most part in a relatively slow acting form, while in Stim-U-Plant they are water soluble, which causes them to become immediately available to the plants:

Stim-U-Plant tablets are designed for use by all who grow plants—home gardeners, market gardeners, small-fruit growers, fruit growers, florists and farmers. Their most valuable use is in feeding the growing plants. Being composed of water-soluble materials of great feeding power and of known weight and percentage of plant food, Stim-U-Plant tablets can be used directly to the soil at the base of the plants to feed them definite amounts of available food. Once in the soil they immediately dissolve and mingle with the soil water, pass into the root-hairs and roots to begin feeding the plants. No matter how fertile the soil may be Stim-U-Plant is effective in feeding the crops because of its rich, available food content.

No. Plants Can Slack as Stim-U-Plant Acts.

Stim-U-Plant tablets are packed in four sizes:

Trial Size	\$0.15
Small Size25
100 tablets75

INSECTICIDES and FUNGICIDES

DRY LIME SULPHUR

In Rogers Brand of Dry Lime Sulphur we find successfully combined lime and sulphur in a dry form and producing a compound which has all of the insecticidal and fungicidal qualities of the liquid material and all of its advantages with none of its disadvantages. Safe and effective not only as a dormant spray but also as a summer spray in combination with arsenate of lead. Tested by experiment stations and found superior to all dry compounds on the market, in safety and in effectiveness.

From 10 to 12 pounds of Rogers Dry Powdered Lime Sulphur dissolved in 50 gallons of water should be used as a dormant spray against scale, etc.

From 2 to 3 pounds to 50 gallons of water in combination with the usual preparation of Dry Powdered Arsenate of Lead or Paste Arsenate of Lead should be used for summer spraying on all seed fruits such as apples, pears, quinces, etc.

From 1 to 1½ pounds to 50 gallons of water in combination with the usual strength of Arsenate of Lead should be used for summer spraying of peaches, plums and all stone fruits.

30-lb. sack	1.25
100-lb. sack	4.00

TOBACCO DUST

Fine ground. Can be used for dusting on plants, animal and poultry houses, to destroy lice, vermin and other insects. Can also be used to fumigate against insects, lice, etc. Readily lighted and consumes itself without making a flame, throwing off great quantities of smoke.

1 lb.	\$0.10
100 lbs.	4.50

SULPHO TOBACCO SOAP

A superior insecticide and fertilizer. Non-injurious to the tenderest growth. Kills all insect life in the window-garden. Unsurpassed for rose bushes. For domestic purposes it is valuable as an exterminator of Moths, Cockroaches, Carpet Bugs, and is a superior wash for dogs and all animals. Every insect will succumb to this insecticide.

3-oz. cake	\$0.10
8-oz. cake20

SCALECIDE (WITH FUNGICIDE)

A reliable simple and economical spray for San José Scale, Brown Scale, Red Scale, Cottony Maple Scale, Pear Psylla, Rust Mite, White Fly and many other scale and soft bodied sucking insects. Scalecide is not an emulsion, but a soluble miscible oil that mixes instantly with cold water and stays mixed. We believe it to be more effective than any other soap or oil emulsion, and if used as directed will not injure the trees. Spray thoroughly or not at all, using finest nozzle. Fogging is better than drenching. Full directions for use accompany each package.

WHY WOMEN LIKE TO USE FRYE'S OVEN GLASS

SANITARY · SAVES TIME AND WORK · ECONOMICAL

Food Retains Its Full Flavor
More Satisfactory in Every
Way for All Oven-Cooking

Oven Heat pours through Fry's Oven-Glass into the food, so that less time is required for cooking, and less fuel is used.

There are fewer dishes to wash, because food is cooked and served in the same glass dish.

Dish-washing becomes an easier task, for there are no black, greasy baking pans to scour, and food does not stick to this highly-polished Oven Glass.

Most food ordinarily cooked on top of the stove can be cooked better in the oven.

Guarantee

We will replace every piece of Fry's Oven Glass which breaks in the oven.

SEASONABLE FORAGE & COVER CROPS

ROSEN RYE

Plant it to get 30 to 50 Per Cent. Increased Yield

Rye cross-breeds like corn. In this respect it differs from wheat, which will not cross fertilize, if two or more kinds are grown together for years. To keep a pure rye pure, it should be grown away from a common rye.

Rosen Rye was selected and bred from a Russian rye, the selection beginning in 1909 in this country by a Russian by the name of Rosen. The new Rosen rye is a large headed variety which, when pure has four full rows of grains. Farmers who have grown rye know that 15 to 20 bushels per acre is about what they can expect. Such farmers, who changed to the Rosen rye, are now getting 25 to 30 bushels, and 40 to 50 bushel yields are not uncommon. In a news dispatch to a newspaper about the yield of grain in a certain section, this year, was this statement: "Rosen rye is out-yielding common rye from 50 to 100 per cent."

Price \$3.00 per bu.; per bag of 2 bu., \$5.50; bags extra. (Special price on larger quantities.)

Common Winter Rye. Per bu., \$2.75. 10 bu. and over, \$2.50 per bu.

Prices on all grain and grass seed are **net f. o. b. Boston**, and subject to change without notice; bags extra at value.

GENUINE GRIMM ALFALFA

As a result of extensive trials of numerous varieties of Alfalfa, at various Experiment Stations and on many farms in the Northern States, the unanimous conclusion is that the Grimm strain is hardier and more productive than any other known variety. It originated in northern Minnesota from seed brought from Europe and sown by Ferdinand Grimm.

Our stock, which is true to name, clean and absolutely free from dodder, is shipped direct from grower's farm in northern New York. This seed has given universal satisfaction. We recommend sowing 20 pounds per acre. Notwithstanding its higher price, we feel confident that our Grimm seed is the most economical for all farmers who desire to grow Alfalfa.

Price per lb., 80 cts.; 20-lb. lots and over, 75 cts. per lb.

American Grown Alfalfa. We offer only the finest Northern grown re-cleaned seed. 35 cts. per lb., \$30.00 per 100 lbs.

Golden Chaff Winter Wheat. Per bu., \$3.00.

Red Winter Wheat. Per bu., \$3.00.

Sand or Winter Vetch. Especially valuable as Winter Cover

Crop for orchards, also a fine early Spring Forage Crop, if sown before Sept. 15th. 25 cts. per lb.; \$20.00 per 100 lbs.

Crimson Clover. 25 cts. per lb.; \$20.00 per 100 lbs.

Alsike Clover Choice Fancy Seed. 45 cts. per lb.; \$40.00 per 100 lbs.

Medium Red Clover Choice Fancy. 40 cts. per lb.; \$35.00 per 100 lbs.

Choice Fancy Timothy. 15 cts. per lb.; \$10.00 per 100 lbs.

Choice Fancy Cleaned Red Top. 40 cts. per lb.; \$35.00 per 100 lbs.

Choice Fancy Kentucky Blue Grass. 85 cts. per lb.; \$75.00 per 100 lbs.

Chewing's Fescue (New Crop to arrive) price on application.

Smooth, firm, ever-green lawns from BRECK'S Lawn Grass Mixtures

BRECK'S LAWN GRASS SEED

BRECK'S STANDARD LAWN GRASS SEED

We have given much thought and made many experiments in order to ascertain just what is the best mixture for permanent lawns, and the grasses which are best suited to this climate. By the proper blending of the varieties

which constitute Breck's Lawn Grass, we have obtained a mixture that from early spring to late fall will give to lawns made with it that rich, deep green so often admired upon the lawns and parks of England, but so seldom seen in this country.

One quart will sow 300 sq. ft.	per qt.,	\$0.40
Two quarts will sow 600 sq. ft.	per 2 qts.	.75
One half peck will sow 1,200 sq. ft.	per 1/2 pk.,	1.25
One peck will sow 2,400 sq. ft.	per pk.,	2.25
One bushel will sow 10,000 sq. ft.	per bu.	8.00

Four bushels will sow one acre.

BOSTON PARK LAWN GRASS SEED

The same mixture of grasses and clover as supplied by us to the City of Boston Park Commissioners for sowing on the Franklin and other parks administered by them.

Per pound	\$0.60
Per peck, 8 pounds	4.40
Per bushel, 32 pounds	16.00

Two bushels will sow one acre.

Breck's Ram's Head Brand Sheep Manure.

Keep the lawn fresh and green by using liberally during the summer as a top dressing.

No weeds—no odor. Per 100 lb. bag \$3.25.

BRECK'S "SHADY SPOT" LAWN GRASS SEED

This is a mixture of grasses that are naturally adapted for growing under trees and in places where the sun does not find ready entrance. If sown on such locations, in place of the ordinary Lawn Seed, bare and unsightly spots will be prevented.

Per quart	\$0.40
Per two quarts	.75
Per one-half peck	1.25
Per peck	2.25
Per bushel	8.00

BRECK'S "BANK AND TERRACE" GRASS MIXTURE

A mixture of deep-rooting grasses specially prepared for embankments and situations where it is impractical to get a successful catch of the less-spreading rooted sorts. It produces a rich velvety turf throughout the season. No coarse-growing undesirable varieties are used in this mixture.

Per quart	\$0.50
Per two quarts	.80
Per one-half peck	1.35
Per peck	2.50
Per bushel	8.50

PERMANENT GRASS SEED FOR GOLF LINKS

Some of the largest and best golf clubs in this section of the country have used our mixtures with splendid results.

No. 1. For Putting Greens. This mixture should be sown at the rate of 80 lbs. per acre.

Per lb. 85c.; Per 100 lbs. \$75.00.

No. 2. For Fair Greens upon light and dry soils.

Per lb. 65c.; Per 100 lbs. \$60.00.

No. 3. For Fair Greens upon low and damp soils.

Per lb. 35c.; per 100 lbs. \$30.00.

Mixtures Nos. 2 and 3 should be sown at the rate of 50 lbs. per acre.

BLOEMGAARD

The Dutch Flower-garden at our Lexington Nurseries An interesting spot—worth visiting

During the Summer and early Autumn "Bloemgaard" is brilliant with flowers in profusion. Afternoon tea is served in the shade of the trees or within the quaint Dutch Cottage. A favorite objective for the afternoon ride.

On Massachusetts Avenue at Munroes Station, Lexington
Ten miles from Boston. Good roads from all directions

When you visit Bloemgaard you may wish to select your trees and shrubs for fall planting

BRECK-ROBINSON NURSERY CO.

LEXINGTON, MASS.

51-52 NORTH MARKET STREET, BOSTON
