

CIHM/ICMH Microfiche Series. CIHM/ICMH Collection de microfiches.

Canadian Institute for Historical Microreproductions / Institut canadian de microreproductions historiques

Technical and Bibliographic Notes/Notes techniques et bibliographiques

The institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below. L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

| v | Coloured covers/ Couverture de couleur | | Coloured pages/ Pages de couleur |
|----------|--|--------------|---|
| | Covers damaged/ Couverture endommagée | | Pages damaged/ Pages endommagées |
| | Covers restored and/or laminated/ Couverture restaurée at/ou pelliculée | | Pages restored and/or laminated/ Pages restaurées et/ou pelliculées |
| | Cover title missing/ Le titre de couverture manque | \checkmark | Pages discoloured, stained or foxed/ Pages décolorées, tachetées ou piquées |
| | Coloured maps/ Cartes géographiques en couleur | | Pages detached/ Pages détachées |
| | Coloured ink (i.e. other than blue or black)/ Encre de couleur (i.e. autre que bleue ou noire) | ~ | Showthrough/ Transparence |
| | Coloured plates end/or illustrations/ Planches et/ou illustrations en couleur | | Quality of print varies/ Qualité inégale de l'Impression |
| | Bound with other material/ Relié avec d'autres documents | | Includes supplementary material/ Comprend du matériel supplémentaire |
| | Tight binding may cause shadows or distortion along interior margin/ Lareliure serrée peut causer de l'ombre ou de la | | Only edition available/ Seule édition disponible |
| | distortion le long de la marge intérieure Blank leaves added during restoration may appear within the text. Whenever possible, these have been omitted from filming/ Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées. | | Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image/ Les pages totalement ou partiellement obscurcles par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible. |

This item is filmed at the reduction ratio checked below/ Ce document est filmé au taux de réduction indiqué ci-dessous.

pelure, n à The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \longrightarrow (meaning "CON-TINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmege.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ♥ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

# INFANTRY DRILL.

## Position of the Soldier.

The equal squareness of the shoulders and body to the front is the first and great principle of the position of a soldier. The heels must be in a line, and closed;—the knees straight;—the toes turned out, so that the feet may form an angle of 60 degrees;—the arms hanging close to the body; the elbows turned in and close to the side;—the hands open to the front, with the view of preserving the elbow in the indispensable position, as above described, and thereby of preventing false distances when marching in line; the little fingers lightly touching the seams of the trowsers, with the thumb close to the fore fingers;—the belly rather drawn in, and the breast advanced, but without constraint;—the body upright, but inclining forward, so that the weight of it may principally bear on the fore part of the feet;—the head to be erect, and the eyes straight to the front.

N. B. The words in the margin, which are printed in *Italics*, are the words of command to be given by the instructor.

All words of command, and particularly the words Halt and March, must be given distinctly and loud.

## Standing at Ease.

Stand at Ease, | On the words Stand at Ease, the right foot is to be

drawn back about six inches, and the greatest part of the weight of the body brought upon it; the left knee a little bent; the hands brought together before the body; the palms being struck smartly together, and that of the right hand then slipped over the back of the left; but the shoulders to be kept back and square; the head to the front, and the whole attitude without constraint

Attention. On the word Attention, the hands are to fall smartly upon the outside of the thighs; the right heel to be brought up in a line with the left; and the proper unconstrained position

of a soldier immediately resumed.

When the recruit falls in for instruction, he is first to be taught to place himself, on the word Attention, in the position above described, to remain perfectly steady, and to give his whole attention to his commander. Before the word Attention is given, and occasionally during the time of drill, the recruit may be allowed to rest by Standing at Ease, as above explained.

When standing at ease for any considerable time in cold weather, the men are permitted to move their limbs, but without quitting their ground, so that upon the word *Attention* no one shall have materially lost his dressing in the line. In this case the *Stand at Ease* is given in the tone of a permission and not of command.

#### Eyes to the Right.

Eyes Right. Eyes Left. Eyes Front.

t. On the word Eyes Right, giance the eyes to the right with a slight turn of the head. At the words Eyes Left, cast the eyes in like manner to the left. On the words Eyes Front, the look and head are to be directly to the front, the habitual position of the soldier.

These Motions are useful on the wheeling of divisions,-or in closing to a flank,—or when dressing is ordered after a halt; and particular attention must be paid, in the several turnings of the eyes, to prevent the soldier from moving his body, which must be preserved perfectly square to the front; but in all marches to the front, the recruit, at open order, must be taught to select objects in his front, and to march straight upon them :---at close order, the touch, with the preservation of a uniform and proper cadence, must form his only guide in marching.

### The Facings.

In going through the facings, the left heel never quits the ground; the the body must rather incline forward, and the knees be kept straight.

1st. Place the hollow of the right foot smartly against To the Right the left heel, keeping the shoulders square to the front. Face. 2nd. Raise the toes, and turn to the right on both heels. To the Left 1st. Place the right beel against the hollow of the left foot, keeping the shoulders square to the front. 2nd, Raise Face. the toes, and turn to the left on both heels. 1st. Place the ball of the right toe against the left head, keeping the shoulders square to the front. 2nd. Raise the To the Right about, Face. toes, and tern to the right about on both heels. 3rd. Bring the right foot smartly back in a line with the left. 1st. Place the right heel against the ball of the left toe, To the left keeping the shoulders square to the front. 2nd. Raise the about, Face. toes, and turn to the left about on both heels. 3rd. Bring up the right smartly in a line with the left. On the word of command Right or Left Half Face, each Right, or left, man will make an exact half face, as directed, by drawing half face. back or advancing the right foot one inch, by which the whole will stand individually in echellon. Front. When it is intended to resume the original front, the word of command Front, will be given, and the whole will face, as accurately as possible, to their former front. When it is necessary to perform the diagonal match to Right or Left the rear, the recruit will receive the word Right (or Left) about, three-quarters face, upon which he brings the ball about, threeof the right foot (not the ball of the toe) to the left heel. quarters face. or the right heel to the ball of the left foot, and makes a three-quarters face in the given direction. Upon the word

Front.

1

Front, if he has faced to the right he fronts to the left; and if he has faced to the left, he fronts to the right.

The feet in the first of the above motions are to be slipped back or brought forward without a jerk; the movement being from the hip, so that the body is kept perfectly steady until faced.

The greatest precision must be observed in these facings, for if they are not exactly executed, a body of men, after being properly dressed. will lose their dressing on every small movement of facing.

#### Slow Step.

On the word March, the left foot is carried 30 inches to the front, March. and without being drawn back is placed softly on the ground so as no these thoro accui troop

the front, round so

as not to jerk or shake the body; the recruit is to be taught to take 75 of these steps in a minute. The recruit must be carefully trained, and thoroughly instructed in this step, as an essential foundation for arriving at accuracy in the paces of more celerity. This is the slowest step at which troops are to move.

## The Halt.

Halt. On the word Halt, let the rear foot be brought upon a line with the advanced one, so as to finish the step which was being taken when the command was given.

N. B. The words Halt, dress-to be considered as one word of command. Three or four recruits will now be formed in one rank at open distance, and instructed as follows.

## Stepping Out.

Step Out. The squad marches, as already directed, in slow time. On the word Step Out the recruit must be taught to lengthen his step to 33 inches, by leaning forward a little, but without altering the cadence. This step is necessary, when a temporary exertion in line, and to the front, is required; and is applied both to slow and quick time; and at the word (slow or quick step) the pace of 30 inches must be resumed.

## Stepping Short.

Step Short.

On the word Step Short, the foot advancing will finish its pace, and afterwards each recruit will step as far as the ball Forward of his toe, and no farther, until the word Forward be given,

when the usual pace of 30 inches is to be taken. This step is useful when a momentary retardment of either a battalion in line, or of a division in column, shall be required.

## Marking Time.

Mark Time.

On the words Mark Time, the foot then advancing completes its pace, after which the cadence is continued, without gaining any ground, but alternately throwing out the Forward. foot and bringing it back square with the other. At the word Forward, the usual pace of 30 inches will be taken.

This step is necessary when a column, division, &c., on the march has to wait for the coming up of others.

## The Side or Closing Step.

The side or closing step is performed from the halt in quick time, by the following commands:

Right Close—Quick March.

Left Close-Quick March.

Right Close, In closing to the right, on the word Quick March, eyes Quick March. are turned to the right, and each man carries his right

foot about 10 inches directly to his right (or, if the files are closed, to his neighbour's left foot), and instantly brings up his left

foot, till the heel touches his right heel, and proceeds to take the next step in the same manner; the whole with perfect precision of time,

Halt.

shoulders kept square, knees not bent, and in the true line on which the body is formed. At the word Halt, the whole halt, turn their eyes to the front, and are perfectly steady.

TRACTO

#### INFANTRY DRILL.

## Stepping Back.

Step Back, March. Halt.

The Step Back, is performed in the slow time and pace of 30 inches, from the halt. On the command Step Back-March, the recruit must be taught to move straight to the rear, preserving his shoulders square to the front, and his

body erect. On the word Halt, the foot in front must be brought back square with the other.

A few paces only of the Step Back can be necessary at a time.

## Changing the Feet.

Change Feet. To change the feet in marching, the advanced foot completes its pace, the ball of the other is brought up quickly to the heel of the advanced one, which instantly makes another step forward, so that the cadence may not be lost.

This may be required of an individual, who is stepping with a different foot from the rest of his division; in doing which he will in fact take two successive steps with the same foot.

#### The Quick Step.

The cadence of the slow pace having become perfectly habitual to the recruits, they are now to be taught to march in quick time, which is 108 steps in a minute, each of 30 inches making 270 feet in a minute.

The Command Quick, March, being given with a pause between them, the word Quick, is to be consi-Quick, March. dered as a caution, and the whole to remain perfectly steady. On the word March, the whoic move off.

#### The Double March.

The directions for the March, in the preceding part, apply in a great degree to this step, which is 150 steps in the minute, each of 36 inches, making 450 feet in a minute.

On the word Double March, the whole step off together Double March. with the left feet; keeping the heads erect, and the

shoulders square to the front; the knees are a little bent; the body is more advanced than in the other marches; the arms hang with ease down the outside of the thigh. The instructor will be careful to habituate the recruit to the full pace of 36 inches, otherwise he will get into the habit of a short trot, which would defeat the obvious advantages of this degree of march.

Halt.

#### As before.

The word March, given singly, at all times denotes that slow time is to be taken; when the Quick or Double March is meant, the words Quick, or *Double*, as a caution, will precede the word March.

The great advantage attending the constant use of the plummet must be obvious; and the several lengths swinging the times of the different marches in a minute, are as follows:

In. Hun.

|                                      | 75 steps in the minute 24, 96<br>108 12, 03 |

out and

forr ma but purpose, may be easily acquired, and should be frequently compared with an accurate standard in the adjutant's possession. The length of the plummet is to be measured from the point of suspension to the centre of the ball.

## Dressing when halted.

6

Dressing is to be taught equally by the left as by the right. Dress. On the word Dress, each individual will cast his eyes to the point

to which he is ordered to dress, with a slight turn of the head, but preserving the shoulders and body square to their front. The whole person of the man must move as may be necessary, and bending backward or forward is not to be permitted. He must take short quick steps, thereby gradually and exactly to gain his position, and on no account be suffered to attempt it by any sudden or violent alteration, which must infallibly derange whatever is beyond him. The faces of the men, and not their breasts or feet, are the line of dressing. Each man is to be able just to distinguish the lower part of the face of the second man beyond him.

In dressing, the eyes of the men are always turned to the officer who gives the word *Dress*; and who is posted at the point by which the body halts; and who from that point corrects his men, on a point beyond his opposite flank.

The faults to be avoided, and generally committed by a soldier in dressing, are, passing the line; the head too forward, and body kept back; the shoulders not square; the head turned too much.

### File Marching.

To the \_\_\_\_\_ fuce

The recruits must first face, and then be instructed to cover each other exactly in file, so that the head of the man immediately before may conceal the heads of all the others

in his front. The strictest observance of all the rules for marching is particularly necessary in marching by files, which is first to be taught at the slow time, and afterwards in quick time

March. On the word March, the whole are immediately to step off to-March. gether, gaining at the first step 30 inches and so continuing each

I step without increasing the distance betwixt each recruit, every man locking or placing his advanced foot on the ground, before the spot from whence his preceeding man had taken up his. No looking down nor leaning backward, is to be suffered on any pretence whatever. The leader is to be directed to march straight forward on some distant objects given him for that purpose, and the recruits made to cover one another during the march, with the most scrupulous exactness: great attention must be paid to prevent them from opening out and losing their compact formation.

#### Wheeling of a Single Rank in Slow Time, from the halt.

Right wheel.

At the word, Right wheel, the man on the right of the rank

March. If faces to the right; on the word March they step off together, March. If the whole turning their eyes to the left (the wheeling or outward flank), except the man on the left of the rank, who looks inwards and, during the wheel, becomes a kind of base line for the others to conform to, and maintain the uniformity of front. The outward wheeling man steps the usual pace of 30 inches, the whole observe the same time, but each man shortening his step in proportion as he is nearer to the stan-

nd pace of ep Back ight to the , and his t must be

. Hun. , 96 , 03 26 .101, and he above

ding flank on which the wheel is made. During the wheel, the whole remain closed to the standing flank; that is, they touch, without incommoding their neighbour; they must not stoop forward, but remain upright; opening out from the opening flank is to be avoided; closing in upon it,

Halt, Dress. | during the wheel, is to be resisted. On the word, Halt, Dress, Eyes front. | each man halts immediately, without pressing forward. The dressing being completed, the squad receives the command, Eyes front.

When the recruits are able to perform the wheel with accuracy in the slow time, they must be plactized in quick time.

Nothing will tend sooner to enable the recruit to acquire the proper length of step, according to his distance from the pivot, than continuing the wheel without halting for several revolutions of the circle, and also giving the word Halt, Dress, at instants not expected and when only a 6th, 8th, or any smaller proportion of the circle is completed.

#### Wheeling backwards, a single Rank.

Cn the Right, wetwards

At the words, On the Right, backwards Wheel, the man on the right of the rank faces to his left. At the words Wheel Quick March the whole sup such as those nearest the dressing by the outward wheeling man; those nearest the stars extremely small, and those

towards the wheeling man increasing them as they are placed nearer to him. The recruit in this wheel must not bend forward, nor be suffered to

Halt.

Quick M

look down; but, by casting his eyes to the wheeling flank, preserve the dressing of the rank. On the word, Hall, the whole

remain perfectly steady, still looking to the wheeling flank till Dress. | they receive the word, Dress.

The recruits should be first practised to wheel backwards at the slow stop; and at all times it will be necessary to prevent them from hurrying the pace; an error soldiers are very liable to fall into, particularly in wheeling backwards.

## Changing the Direction by the Wheel of a single Rank on a moveable Pivot.

Right (or left) Shoulders forward.

When the rank is marching to the front, and is ordered to change its direction to either flank, it receives the word Right (or Left) Shoulders forward; upon which the outward file of the named flank continues to step out at the full pace, and the wheel is performed upon the inner

file of the other flank, which brings the shoulder gradually round,—and gaining ground sufficient to circle round the wheeling point (where such

is given), marks time, until it receives the word, Forward; Forward. but the wheel on the moveable pivot is always made at the

same time at which the body may be moving. The commander gives the word, Forward, when he sees that the rank has gained the front on which he intends it to move in a perpendicular direction.

#### WITH ARMS. — Position of the Soldier.

WHEN the firelock is shouldered, the person of the Soldier remains in the position described under the head of Close order, except that the wrist of the left hand is turned a little out, the better to embrace the butt. The firelock is placed in the hand, with the two first joints of the fingers grasping the must | fore price affecte the sh

The here a sary fo

Rear take Ord

Ma

ing the inside of the butt, the thumb alone to appear in front. The piece must be carried at the full length of the arm, the butt a little forward, the fore part nearly even with that of the .high; the hind part of it lightly touching the thigh, when stationary, without being in the least degree affected by it when in motion. The firelock will rest upon the hollow of the shoulder, and be held firm and steady.

## Different Molions of the Firelock.

The following motions of the firelock will be taught and practised as here set down, until each recruit is perfect in them; they being necessary for the ease of the soldier in the course of exercise.

As mentioned in the manual Exercise. Supporting arms. Sloping arms. Carrying arms. Ordering arms. Standing at ease. Attention. Shouldering from the order.

The recruit must be accustomed to carry his arms for a **crucic** iderable time together; it is most essentiat he should do so, and not be allowed to support or slope them so often as is practised, under the idea that long carrying them is a position of too much constraint.

A company or battalion is never to come to the HALT, OR FORM IN LINE, or to dress, (which are situations where the greatest accuracy of front is required,) but with *carried* arms. When troops are in motion, arms may be sloped by word of commaud; and it must here be observed, that when this is the case, the touch to the firelock arm must be kept by the elbow. It is to be understoed, as a general rule, that in the double march, as the 1. on make the first step, they slope arms without any separate word of command; on being halted, arms are instantly carried in the same manner.

## Attention in forming the Squad.

When the SQUAD or division (consisting of from six to eight files) falls in, each man, with carried arms, will take his place in his tank, beginning from the flank to which he is ordered to form; he will dress himself in line by the rule already given, assume the ordered position of a soldier, and stand perfectly steady. Attention must be paid that the files are correctly closed; that the men in the rear rank cover well, looking their file leaders in the middle of the neck; that the rear rank has its proper distance of one pace (30 inches) from the front rank, and that both ranks are equally well dressed.

## Open Order.

Rear Rank, take Open Order.

March.

é

k, the word Rear Rank, take Open Order, the flank men on the right and left of the rear rank step briskly back one pace, face to their right, and stand covered, to mark the ground on which the rear rank is to halt, and dress at open order; every other individual remains ready to move. On the word March, the dressers front, and the rear rank steps back one pace, dressing by the right.

take On the word Rear Rank, take Close Order, the whole remain perfectly steady; at the word March the rank closes within one pace.

## THE MANUAL EXERCISE.

1st. Secure Arms. Ist. Bring the right hand briskly up, and place it under the cock, the forefinger touching the back part of it, the thumb

| placed between the stock and barrel, and pointing to the muzzle, keeping the firelock steady. 2nd. Quit the butt with the left hand, and seize the firelock with it at the swell, bringing the elbow close down upon the lock, carefully avoiding to raise or lower the shoulder; the right hand kept fast in this motion, and the piece still upright. 3rd. Quit the right hand, giving the piece a cant with the fore-fingers, and bring it down to your right side, bringing the firelock down to the secure, under the left **and**, the elbow thrown a little to the rear, the guard just visible, the thumb on the sling, the fingers grasping the barrel, and the hand rather below the hip bone.

2nd. Shoulder Arms.

1st. Bring the firelock up to the perpendicular line, seizing it with the right hand under the cock, as the first motion of the secure. 2nd. Quit the left hand, and strike the but with the palm, grasping it at the same instant. 3rd. Quit

with the palm, grasping it at the same instant. 3rd. Qu the right hand, and bring it smartly down to the right side.

3rd. Order Arms.

Ist. Seize the firelock with the right hand at the lower loop, just at the swell, the elbow close to the body. 2nd. Bring it down to the right side, to the *trail*, allowing the little finger

to slip between the stock and barrel, the butt as low down as the arm will admit without constraint. 3rd. Drop the heel of it on the ground, placing the muzzle against the hollow of the right shoulder, and the hand flat upon the side of the stock; the thumb only to appear on the sling.

4th. Fix Bayonets.

Ist. At the word *Fix*, place the thumb of the right hand, as quickly as possible, behind the barrel. 2nd. As soon as the word of command is fully given, take a grip of the firelock and push the muzzle a little forward grasping the

lock, and push the muzzle a little forward, grasping the bayonet with the left hand, the elbow kept well forward so as not to interfere with the left-hand man, and fixing it with the utmost celerity. The instant this his done, return as quickly as possible, to the order, as above described, and stand perfectly steady.

5th. Shoulder Arms. 1st. As soon as the word Shoulder is given take a grip of the firelock with the right hand, as in fixing bayonets. 2nd. At the last word, Arms, the firelock must be thrown, with the right hand, in one motion, and with as little

appearance of effort as possible, into its proper position on the left shoulder. The hand crosses the body in so doing but must instantly be withdrawn.

6th. Present Arms. 1st. Seize the firelock with the right hand, under the guard, turning firelock to the front, but without moving it from the shoulder. 2nd. Raise the firelock up from the shoulder to the *poise*, by placing the left hand (smartly and we the gu pointi the lo 3rd. 1 hand drawi the fr thigh pointi

and with a tell) upon the sling, fingers pointing upwards; the wrist upon the guard, and the point of the left thumb of equal height with, and pointing to the left eye; the piece to be kept perpendicular in this position, the left elbow close to the butt, and the right elbow close to the body. 3rd. Bring down the firelock with a quick motion, as low as the right hand will admit without constraint, making it tell with the left hand. drawing back the right foot at the same instant, so that the hollow of it may touch the left heel. The firelock in this position, with the guard to the front, to be totally supported in the left hand, and opposite to the left thigh; the right hand lightly holding the small of the butt; the fingers pointing rather downwards; the body to rest entirely on the left foot; both knees straight.

7th. Shoulder Arms.

1st. By a turn of the right wrist, bring the firelock to its proper position on the left shoulder, making the motion tell, the left hand grasping the butt, and bringing up the right foot at the same instant to its original position.

2nd. Quit the right hand briskly, and bring it down to the right side. At one motion, throw the firelock from the shoulder,

8th. Port Arms.

across the body, meeting it smartly with both hands at the same instant, to a diagonal position, in which the lock is to

be turned to the front, and at the height of the breast; the muzzle slanting upwards, so that the barrel may cross opposite the point of the left shoulder, with the butt proportionably depressed. The right hand grasps the small of the butt, and the left holds the piece at the swell, close to the lower pipe; the thumbs of both hands pointing towards the muzzle; both elbows close to the body, the fingers of the left hand between the stock and barrel.

9th. Charge Bayonets.

Make a half-face to the right, the right toe straight off to the right, and the left toe full to the front, and bring down the firelock to nearly a horizontal position, with the muzzle inclining a little upwards, and the right wrist resting against the hollow of the thigh below the hip.

1st. Throw the firelock up to its proper position on the 10th. Shoulder left shoulder, the left hand falling smartly on the butt. Arms. and grasping it, and at the same instant coming to your proper front. 2nd. Quit the right hand smartly, and bring it down to the right side.

11th. Advance Arms.

1st. Seize the firelock with the right hand under the guard, turning the lock to the front, but without moving it from the shoulder. 2nd. Raise the firelock up from the shoulder to the poise, by placing the left hand upon

the sling, fingers pointing upwards, the wrist upon the guard, and the point of the left thumb of equal height with, and pointing to, the left eye; the piece to be kept perpendicular in this position. 3rd. Bring the firelock down to the right side with the right hand as low as it will admit without constraint, at the same time striking it smartly with the left hand at the swell, the guard between the thumb and fore-finger of the right, the three last fingers under the cock, with the guard to the front. 4th. Quit the left hand.

12th. Order Arms

1st. At this word the left hand is brought smartly across the body, and seizes the firelock, with the fore-finger in the line with the point of the right shoulder. 2nd. Bring the firelock down as low as the left arm will admit to the right

the whole the rank

side; at the same time let the right hand seize the top of the ramrod, between the second joint of the fore-finger and thumb, the whole of the fingers shut in the hand. 3rd. Let the firelock drop on the ground, and the right hand be smartly brought to the position of ordered arms, quitting the left hand short away, at the same instant.

13th. Advance Arms.

1st. At the word Advance, the thumb of the right hand is alipt quickly in rear of the barrel. At the word Arms, it is brought to the advance by a sharp cant of the right hand; the left arm is brought across the body, to steady the firelock to the shoulder. 2nd. Quit the left hand.

14th. Shoulder Arms.

1st. Bring up the left hand and seize the piece at the swell, raise it about one inch; at the same instant slip the thumb of the right hand under the cock, by a turn of the right wrist. 2nd. Throw it smartly to its proper posi-

tion on the left shoulder, the left hand falling smartly on the butt, grasping it. 3rd. Quit the right hand, and bring it to the right side.

N. B.-In these motions great care must be taken to preserve the squareness of the body, and to avoid raising or sinking the shoulder.

1st. Seize the small of the butt, under the lock, with the 15th. Support right hand, the thumb pointing upwards. 2nd. Bring the Arms. left arm under the cock. 3rd. Quit the right hand.

16th. Stand at Ease.

At this word of command the right hand is brought smartly across the body, and seizes the firelock at the small of the butt, close up under the left arm, with the thumb of the right hand pointing upwards, the right foot drawn back,

the left knee bent, and the firelock a little sloped.

17*th*. At this word of command the right hand is dropped smartly to Attention. | the right side, and the right foot brought in line with the left.

18th. Carry 1st. Seize the small of the butt under the left arm, with the right hand. 2nd. Smartly place the left hand grasping Arms. the butt, the firelock kept steady. 3rd. Quit the right hand.

At the same instant allowing the left arm to sink to the full extent.

19th. Slope In sloping arms, the upper part of the arm is not to move, Arms. the guard of the firelock is to be raised so as gently to press against the hollow of the shoulder, the hand in a line with

the elbow, the toe of the butt in a line with the centre of the left thigh.

20th. Stand at Ease.

On the word Ease, bring the right hand smartly across the body, placing it on the left hand, both thumbs on the fore part of the heel of the butt, that of the left hand uppermost, and drawing the right foot back at the same instant, the left knee bent.

21st. At this word of command resume the attitude of atten-Attention. tion, by bringing the right hand smartly to the right side, and the right foot in line with the left.

22nd. Carry Arms.

" Secure."

1st. Drop the left arm to its extent, and bring the right hand smartly across the body; the fore part of the fingers to meet the small of the butt, as in the first motion of the 2nd. Quit the right hand.

At the word Unfix, slip the thumb of the right hand in 23rd. Unfix rear of the barrel; at the last sound of the word Bayonet. force the muzzle a little forward, bring the left hand smartly Bayonets.

to the upper loop, the thumb pointing upwards. Strike the bow of the bayonet with the heel of the right hand, so as to unfix it ; let the bow fall over the thumb, and the two fore-fingers on the top of the socket, with the left hand force the muzzle of the firelock back to its proper position, at the same instant bring the thumb of the left hand on the top of the scabbard, for the purpose of guiding the bayonet into it; and bring the right hand smartly to the position of ordered arms.

It is to be understood that whenever a battalion in line charges with bayonets, the whole are in the first instance to advance at firm quick step, with shouldered arms; at the word Prepare to Charge, the firelocks of the front rank will be brought to the long trail, and those of the rear rank to the slope;-at the word Charge, the firelocks of the front rank will be thrown smartly to the charging position, and the pace increased to double march, carefully avoiding too much hurry. The enemy being routed, it will depend on the officer commanding to give the word Halt, when both ranks will shoulder arms, and proceed as may be afterwards directed.

In marching any distance, or in standing at ease when supported, the men are allowed to bring their right hand across the body to the small of the butt, which latter must, in that case, be thrown a little forward; the fingers of the teft hand being uppermost, must be placed between the body and the right elbow; the right hands are to be instantly removed when the division halts, or is ordered to dress by the right or left.

#### Time.

The motions in the Manual Exercise are to be proformed, leaving one pause of the slow time of march between each motion, except that of fixing bayonets, in which a longer time must be given. One pause should also be made between the first and last parts of the words of command; for instance, shoulder (one pause) arms, both in manual and platoon.

The manual is not to be executed by one word, or signal, but each separate word of command is to be given by the officer who commands the body performing it.

#### Sentries.

Sentries, posted with shouldered arms, are permitted afterwards to support, but not to slope them. On the approach of an officer, they immediately carry their arms, and put themselves into their proper position, which is not to be done at the instant he passes, but by the time he is within twenty yards of their post, so that they may be perfectly steady before he comes up.

Sentries are to port arms when challenging any person approaching their posts.

#### Corporals.

Corporals marching with reliefs, or commanding detachments or divisions, are to be on the right, and will carry their arms advanced, with bayonets fixed.

#### Method of Piling Arms.

The company standing in close order with ordered arms, Pile Arms. and told off by threes, the word Pile is then given : the whole

of the company slip the thumb of the right hand in rear of the barrel of the firelock, at the same time drawing back their right feet, in order to face to their right, with the exception of numbers two, in the rear rank ; they advance their right feet in the hollow of the left, in order to face to the left. The word Arms, is then given, the whole of the front rank, and one and three of the rear, face to the right; one and three files of the front rank turn the firelock on the heel of the batt, with the sling towards them. One and three files of the rear rank turn the firelock on the heel of the butt with the sling from them, which brings the lock outwards : having done this, they lock their ramrods together, still bearing them well up so as to shew an interval. Number two file of the front rank throws his firelock to the rear as he then stands, and brings his left hand on number one muzzle, and completes that pile : having done that, he remains perfectly steady, faced to the right; in piling with number three. the front and rear ranks have already locked their ramrods. Number two, of the rear rank, throws his firelock off to his own rear as he then stands, and completes number three pile by bringing his left hand on the muzzle of the firelock; having done this, he faces to his right about, and remains steady.

## Unpile Arms.

At the word Unpile, the whole advance their right feet Unpile Arms. in the hollow of the left, and seize their firelocks at the top brass, thumbs pointing upwards; the files numbered two of the rear rank must work well round on the hips to reach their firelocks : at the word Arms, the whole snatch their firelocks towards them, and front at the same time.

## Platoon Exercise, and different Firings.

The recruit having a thorough knowledge of the different motions of the firolock as shewn in the Manual Exercise, will now be taught the Platoon Exercise as follows:

Eight or ten recruits being formed in a single rank, at close files, and shouldered firelocks, will be thus taught to fire before they are formed in two ranks.

1st. As a front rank standing. 2nd. As a rear rank standing. 3rd. As a front rank kneeling. 4th. As a rear rank kneeling.

As Front Rank, Prime and Load.

1st. Upon the command, make a quarter face to the right, which will bring the left toe direct to the front, the right foot to be drawn back six inches in a diagonal

direction to the right, at the same time bring down the firelock to the priming position, with the left hand at the swell, the elbow close in front of the left hip, the side-brass touching the right hip, the thumb of the right hand placed in front of the steel with the fingers clenched and wrist a little turned out, the firelock nearly horizontal. 2nd. Open the pan by closing the elbew to the side, fingers straight along the lock plate pointing towards the muzzle.

Hc.ndle Cartridge.

1st. Draw the cartridge from the pouch. 2nd. Bring it to the mouth, holding it between the fore-finger and the think, and bite off the top of the cartridge.

Prime. last fingers on the steel. 2nd. Shut the pan by closing the elbow. 3rd. Seize the small of the butt with the abridge three fingers.

g it to the

the three he elbow. ingers. **'Bout.** Ist. Turn the piece nimbly round to the loading position, meeting the muzzle with the heel of the right hand, the butt within two inches of the ground, and the flat of it against the left ankle; at the same time bring up the right shoulder to the front, and square the heels. 2nd. Place the butt on the ground without noise, raise the elbow square with the shoulder, shake the powder into the barrel, putting in after in the paper and the ball, after which the tingers are straight, with the second joint of the fore-finger resting on head of the ramrod, and thumb pointing downwards, elbow square with the shoulder. In this position each recruit must feel the guard against the centre of the left shin, the thumb of the left hand pressed against the centre, and in front of the left thigh, the muzzle of the firelock to be brought in front of the breast-plate, and the barrel to the front. 3rd. Drop the right elbow close to the body and seize the head of the ramrod with the second joint of the fore-finger and thumb.

Draw Ramrods. | 1st. Force the ramrod half out, and seize it back handed exactly in the middle, with the elbow square

with the shoulder. 2nd. Draw it entirely out with a straight arm above the shoulder, turning it at the same time to the front, put it one inch into the barrel; the ramrod is thus held between the two fore-fingers and thumb, with the two last fingers shut in the hand.

Ram down Cartridge. 1st. Push the ramrod down, holding it as before exactly in the middle till the second finger touches the muzzle, clow close. 2nd. Press the ramrod lightly towards you,

and slip the two fore-fingers and thumb to the point, then grasp it as before. 3rd. Push the cartridge well down to the bottom. 4th. Strike it two very quick strokes with the ramrod.

Return Return Ramrods. Ist. Draw the ramrod half out, catching it, back handed, with the elbow square. 2nd. Draw it entirely out with a straight arm above the shoulder, turning it to the front; put it is the logan and form it or a possible to the

it into the loops, and force it as quickly as possible to the bottom, the fore-finger and thumb holding the ramford as in the position immediately previous to drawing it, and after a panse of one pace of the slow time bring the firelock with one motion to the same position as at the word *prime and load*, at the same time resuming the half face to the right, and carrying the right foot diagonally to the rear.

As Front Rank Ready. Ready. Place the thumb of the right hand on the cock, and fingers behind the guard, and cock the piece; then take a grasp of the butt, fixing the eye steadfastly upon some object in front.

P'sent. Bring the firelock up to the present, slowly and independently

| until in line with the object the eye had fixed upon; then pull the trigger without a jerk, and when fired, remain looking on the aim until the word load is given. Too much pains cannot be taken to prevent the recruit from raising his firelock with a jerk, it must be deliberately raised until alligned with the object that the eye is fixed upon, and so that he may lay the right cheek on the butt without too much stooping of the head; particular care must be taken that the recruit in this position shuts the left eye in taking aim, looking along the barrel with the right eye from the breech-pin to the muzzle.

Load. Bring down the firelock to the priming position, and take hold of the cock with the thumb and fingers behind the guard, and draw it back to the half-cock; the loading will be performed as before directed.

#### INFANTRY DRILL.

Seize the small of the butt and place the firelock on Shoulder Arms. the left shoulder, bringing the shoulders and heels square to the front.

Rear Rank As Ready.

Make a half-face to the right, which will bring the left toe direct to the front, and step with the right foot as far to the right as will bring the right toe of each man close to the

toes of the left foot of his right-hand man, and pointing to the right; at the same time bring down the firelock to the right side, seizing it with the left hand at the swell; the side-brass to be four inches above the right hip, and cock the firelock, fixing the eye on some object in front, as before directed.

Bring up the firelock to the present slowly and independently, P'sent. and pull the trigger when the object is covered, as before directed.

Load. Bring down the firelock to the position described for making ready as rear rank, and half cock, as before directed.

Handle Cartridge. As before directed.

Prime. As before directed.

Turn the piece nimbly round to the loading position, meeting 'Eout. the muzzle with the heel of the right hand, but within two inches of the ground and the flat of it against the inside of the left ankle, bringing the right shoulder square to the front, and keeping the right foot fast. 2nd. Place the butt on the ground without noise, inside the hollow of the left foot, and proceed as before directed.

As before directed. Draw Ramrods.

Ram down Cartridge. As before directed.

Return Ramrods.

As before directed, and after a pause of one pace of slow time, bring the fireolck to the position of prime and load, resuming the right half face.

#### To Fire Kneeling.

As Front Rank kneeling. Ready.

Sink down smartly on the right knee, which is to be drawn back about six inches from the left heel, the left leg to be perpendicular, the head and body

erect, the firelock to be brought down to the priming position, the sidebrass in line with the haunches; then cock the piece, and grasp the small of the butt, at the same time fixing the eyes steadfastly on some object in front.

Present. | Raise the firelock slowly until in line with the object, and fire as already directed for front rank standing.

Load.-Handle Cartridge.-Prime. | As before directed.

With the left hand pass the firelock round in front of the left knce, and bring it to the left side close to the thigh, the butt to Bout. the rear, the sling upwards, the muzzle about three inches farther back than the left knee.

Load. Draw Ramrods. Ram down

As before directed, and bring the firelock round in front of the left knee to the priming position by shift-

k round in n by shiftCartridge. | ing it through the left hand. Return Ranrods. |

N. B. When the word Order Arms is given, the men are to spring up to the standing position, bringing the firelock to the order.

As rear Rank kneeling Ready.

Sink down smartly on the right knee, which is to be drawn back about six inches diagonally to the right of the left heel; the left leg to be perpendicular, the head and body erect, the firelock to be brought down to the

priming position, the side-brass four inches above the haunches; then cock the piece and grasp the small of the butt, at the same time fixing the eyes steadfastly on some object in front.

P'resent.-Load.-Handle Cartridge.-Prime. | As before directed.

Bout. Turn the body to the right and lean to the rear, and with the Bout. left hand reverse the firelock, bringing the butt to the front, the

sling upwards; the muzzle about the same height as the right elbow.

The recruits, being thoroughly grounded in the foregoing instructions, may now be practised in two ranks at close order, in the different firings as a company in line, as a wing of a Battalion, as a Battalion firing a volley, file firing, &c. &c.

From twenty to thirty files may now be formed into two ranks at close order, with shouldered arms and fixed bayonets.

As a Company prime and load.

The front rank and rear rank as described in the foregoing directions, each man doing his motions with the greatest celerity, and as correctly as shewn in slow time, and after shutting the pan, and placing the hand on the

small of the butt, the right-hand man will, as soon as he hears the division has done, cast about, the division taking the time from him; after casting about, each man will load and work his ramrod, as shown in slow time, but the motions to be done without pause between them. After returning ramrods, the whole remain perfectly steady, with the fore-finger and thumb grasping the head of the ramrod, and after a pause of one slow pace, come to the priming position.

Company. | This serves as a caution only.

Ready. As shown before, both ranks keeping the feet fast.

Half-cock Arms. Place the thumb of the right hand in front of the cock-screw, and the fore finger at the same time upon

the trigger; the cock is then to be drawn a little back, and the trigger to be drawn so as to disengage the catch; the cock to be gently let down till the edge of the flint touches the hammer; then quit the trigger and draw back the cock to the catch of the half-cock; the small of the butt to be seized with the right hand, and the right foot brought up to the left.

Shoulder Arms.

In the usual manner, and stand perfectly, steady. But.—If the company should be in the act of loading, it will go on, and come to the priming position when

done, waiting for the command of the officer to shoulder. Firing as a wing or as a battalion, is performed precisely as laid down to a com-

man man man man man and a second

pany. When a battalion fires a volley, and it is not intended to reload, the caution will be given to fire a volley and half-cock (at the priming position.)—The battalion will then Shoulder Arms and Shut Pans, by word of command from the commanding officer.

N. B.—A company, wing, or battalion, can prime and load, or make ready from the order, with the same ease as from the shoulder.

For instance, at the words *Prime and*, slip the thumb behind the barrel, and at the word *Load*, according to direction.

Any movement can take place from 'Ordered Arms,' as occasions may require, in the following manner:—Upon the first word of the caution, bring the fingers round the barrel, and raise the butt about one inch from the ground, with the muzzle close against the hollow of the shoulder; and at the word *Halt*, resume the position of 'Ordered Arms.'

The long trail, for the ease of the soldier, may be used on a line of march, or in marching to and from the place of parade, or exercise, or with guards marching to and from their posts.

Trailed arms must never be used in field movements, as upon such occasions it will cause loose marching, and loss of distance.

#### How performed at the Halt.

Trail Arms. Slip the right hand down to the swell of the stock, and lower the muzzle to a horizontal direction; at the same time the rear rank will fall nimbly back a short pace, so that the muzzle of the firelock shall touch the cuff of the front-rank man's jacket.

Change Arms. Change from one hand to the other, as often as may be necessary.

The short trail must never be used in any instance, except the second motion of the order, and fixing and unfixing bayonets on the march, as such motion tends to cramp the muscles of the arm.

At the word *Halt*, arms are to be ordered without the word *Order Arms*, when the rear rank will close to the front.

## Independent, or File Firing.

Independent or file firing may commence from the right or left of companies, or from any particular part of the line, as may be directed, and should be done as follows :---

At the close of the preparative, the first file will begin, the caution having previously announced at what part of the line the firing is to commence; when the file comes to the present, the next file makes ready and soon, for the first fire, after which each file will fire as soon as loaded, the rearrank man keeping his eye on his front-rank man, and preserving his fire until his front-rank man has fired, and at the close of the General they will come to the shoulder independently, after loading.

The recruits, having a thorough knowledge of the proceeding portion of the drill, may now be formed in four ranks, and practices to receive cavalry with two ranks kneeling, as it is necessary to do so in square four deep.

Prepare to resist Cavalry, Ready.

2

The first rank kneel as front rank, the second rank kneeling as rear rank, both bringing at the same time the butt of the firelock in front of the right knee, the lock turned uppermost, the right hand lightly grasping the

I small of the butt, holding the firelock firm with the left hand at the middle of that part between the third loop and the swell, the wi rea ing the wo

The third rank make ready as a rear rank, with this difference: they will carry the right foot only six inches to the right; the fourth rank make ready as rear rank; in this the kneeling ranks do not cock, the two standing ranks will commence file firing at the close of the Preparative, or at the word *Commence Firing*,—and at the close of the General, or at the word *Cease Firing*, they will load, and come to the front with ordered arms (at the right side), and shoulder by word of command, with the kneeling ranks, who will also shoulder from the right side; the kneeling ranks may bo fired if necessary, for which the Commander will give the words *Kneeling Ranks, ready, p'sent*, and which they do as directed in the foregoing instructions; then with a quick motion bring the firelock down to resist Cavalry as before, and remain perfectly steady till the word *Load* is given.

N. B.-When the word Load is given, after firing in a square, the kneeling ranks will load as front ranks.

#### Marching to the Front and Rear.

Squad or Division, March. The squad, or division, is to be particularly well dressed; files correct; arms carried; the rear rank covering exactly, each individual to have his just

attitude and position before the squad is ordered to move. The march will be made by the right or left flank, and a proper trained man will therefore conduct it. The word Squad or Division, to be given as a caution; upon which the rear rank will on all occasions lock up; and at the word March, each man steps forward a full pace. The recruit must not turn his head or eyes to the flank by which he is marching, as a turning of the shoulders would undoubtedly follow. His elbows must be kept steady, his proper touch maintained, and his whole movement, both as to cadence and length of pace, must be regulated in conformity with that of the man next to him, towards his pivot flank; and without reference to the man upon his reverse flank, whose business again it is to conform to him. On the word Halt, the rear rank will make a short pace, so as to resume its distance of one pace from the front rank.

Halt, Front, March. Turning to the right or left, or about, in march, is not to be practised; but the squad is to Halt, front, by command, and then March.

On many occasions, where a body, great or small, after a movement to the rear or in file, is immediately to resume its proper front, instead of the words to halt, and face about, the words *halt*, *front*, with aslight pause between them, will be given, when it is instantly to face to its proper front in line. It is after fronting, that the dressing, if necessary, is ordered to take place.

To march straight forward is of the utmost consequence, and he who commands at the drill will take the greatest pains to make his squad perfect in this essential object :--for this purpose, he will often place himself behind the flank file by which the squad is to move in marching, and take a point, or object, exactly in front of that file, and another in its rear; he will then command March, and remaining in his place, he will direct the advance of the squad, by keeping the flank file always in a line with these objects. Great care must be taken to prevent the leaning back of the soldier, and the bringing forward or falling back of a shoulder, as they are faults which, if not instantly rectified, will create confusion in a line, where one man, by bringing forward a shoulder, may change the direction of the marcia, and oblige the wing of a battalion to run, in order to keep dressed.

In short, it is impossible to labour too tauch at making the soldier move straight forward, keeping always the same front as when he commenced his march. This is effected by moving slowly from the haunches, keeping the body steady, the shoulders square, and the head to the front; and It will be attained without difficulty, by a strict attention to the rules given for marching, and a careful observance of an equal length of step, and an equal cadence or time of march. In all of which he must be guided by the correct touch to the pivot flank.

The recruit must be practised in changing the pace, without halting, from slow to quick and double, and from quick to slow time; as well as from quick to double, and from double to quick time; but never from double to slow time, without a previous halt.

Right Turn.

Left Turn.

Turning on the march, in order to continue it, is necessary when companies or their divisions, are moving in file, and that without halting, it is eligible to make them move on in front; or when moving in front it is proper without halting to make them move on in file.

Right about Turn. Left about Turn.

Forward.

This movement is applicable to companies, whereby the front is changed on the march without halting. On the word *Turn*, each individual soldier, without changing step, or cadence, comes to the right or left about on his own ground, and in his own person performing the movement in the time prescribed for

three distinct paces, then marking time till he receives the word Forward, when he resumes the full pace to the front.

Strong taps of the drum, regulated by the plummet, will be given immediately before the word March, to imprint the required measure on the mind of the recruit; but the words left, right, are never to be used.

## Open and Close Order, on the March.

Rear Rank, take Open Order.

The squad when moving to the front in slow time receives the word *Rear Rank, take Open Order*; on which the front rank continues its march, without altering the pace, and the rear rank marks the time, we off at the second step.

one pace, and steps off at the second step.

Rear Rank, take On the word Rear Rank take Close Order, the rear Close Order rank steps nimbly up to close order, and instantly resumes the pace at which the front rank has continued to march.

#### March in File to a Flank.

The accuracy of the march in file is so essential to all counter marches, file movements, and all deployments from close column, that the recruit cannot be too much exercised in it.

To the—Face, March.

After *facing*, and at the word *March*, the whole squad steps off at the same instant, each replacing, or rather overstepping the foot of the man before him; that is, the right foot of the second man comes within Qu ran H

r marches, the recruit

the whole placing, or fore him; hes within the left foot of the first, and thus of every one, more or less overlapping that of his preceding man. The front rank will march straight along the given line; each soldier of that rank must look along the necks of those before him, and never to right or left, otherwise a waving of the march will take place, and of course, the loss and extension of the line and distance whenever the body returns to its proper front. The men of the rear rank must regulate themselves by their leaders of the front rank, and always dress in their file. Although file marching is in general made in quick time, yet it must also the practised and made in slow time. The same position of feet, as above, takes place in all marching in front, where the rear rank is closed and locked up.

The Instructor must take care that every men takes at once his full length of pace at the word *March*.

### Wheeling in File.

Squad. The squad when marching in file, must be accustomed to wheel its head to either flank; each file following successively without losing or increasing distance. On this occasion, each file makes its separate wheel on a pivot moveable in a very small degree, but with-

Right Wheel. Left Wheel. ont altering its time of march. The front-rank men, whether they are pivot men or not, must keep up to their distance, and the wheeling men must take a very extended step, and lose no time in moving on.

The head of a company marching in file, must change direction in the same manner on the moveable pivot, by gradually gaining the new from the old direction, and thereby avoiding the sudden stop that otherwise would take place.

## Wheeling forward from the Halt.

Right Wheel. Quick March.

The directions already given for the wheeling of a single rank are to be strictly attended to in this wheel of the squad. On the word Right (or Left) Wheel, the rear

Quick March, the whole step together in the quick time, and the rear rank, during the wheel, inclines so as to cover the proper front-rank Halt. | men. At the word Halt, the whole remain perfectly steady.

## Formation of the Company.

The Recruit being thoroughly grounded in all the preceding parts of the drill, is now to be instructed in the movements of the company, as a more immediate preparation for his joining the battalion; for this purpose from 10 to 20 files are to be assembled, formed. and told off, in the following manner, as a company in the battalion.

The company FALLS IN at close order, with shouldered arms; the files lightly touching but without crowding; each man will them occupy a space of about 21 inches. The commander of the company takes post on the right of the front rank covered by a serjeant in the rear rank. The other serjeants will form a third, or supernumerary rank, three paces from the rear rank.

When a company is thus singly formed with its officers, the captain is on the right, and the other officers in the rear, as also the drummer or pioneer in a third rank, at three paces distance. In this formation companies are to assemble on their private parades, being sized from flanks to centre. The company will be told off in sub-divisions, and four sections. If four officers are present, the captain, when the company is in column of sections, takes the leading section, the next in seniority the third section, the third in rank the fourth section, and the junior officer the second. The covering serjeant will cover the second file from the pivot of the leading section. When there are but three officers, the covering serjeant will take the second section from the head of the column. The company will also be told off by threes from the right, numbered 1, 2, 3.

Should there be a blank file in telling off the company in line, it will invariably be the fourth file from the left.

When thus formed, the company will be practised in opening and closing of ranks.

Dressing to the front, to the rear, in an oblique direction by the right and left; and be exercised in the several motions of the firelock.

Close Order is the chief and primary order in which the battalion and its parts at all times assemble and form. Open Order is only regarded as an exception from it, and occasionally used in situations of parade and show. In close order, the rear rank is closed up to within one pace, the length of which is to be taken from the heels of one rank to the heels of the the other rank. In open order, they are two paces distant from each other; when for inspection three paces.

In order to distinguish the words of command given by the instructor of the drill (who represents the commander of the battalion) from those given by the commander of the company, or its divisions, the commands of the former are in CAPITAL letters, those of the latter in *Italic*.

#### Marching to the Front.

BY THE RICHT (OR LEFT), MARCH Or, QUICK MARCH. 1. In the drill of the company, the person instructing must always consider it as a company in battalion, and regulate all its movements upon that principle; he will therefore, before he puts it in motion to front or rear, indicate which flank is to direct, by giving the word BY THE RIGHT, LEFT, OR CENTRE, MARCH, on which eyes will be directed full to the front, and the touch preserved

to the named flank, or to the centre, as required. Should the right be the directing flank, the commander of the company himself will fix on objects to march upon in a line truly perpendicular to the front of the company; and when the left flank is ordered to direct, he and his covering serjeant will shift by the rear to the left of the front rank, and take such objects to march upon. The conductor of the company, before the word MARCH is given, will remark some distinct object on the ground, in his own front, and perpendicular to the directing flank : he will then obrerve some nearer and intermediate point in the same line, such as a stone, tuft of grass, &c. : he will move upon them with accuracy, and as he approaches the nearest of those points, he must, from time to time, choose fresh ones in the original direction, which he will by this means, preserve, never having fewer than two such points to move upon.

2. As the MARCH of every body, except in the case of inclining, is made on lines perpendicular to its front, each individual composing that body must remain perfectly square to the given line; otherwise he will naturally and insensibly move in a direction perpendicular to his own person, and thereby open out, or close in, according to the manner in which he is turned from the true point of his march. If the distortion of STE

a single man operates in this manner, and all turnings of the head do so distort him, it may be easily imagined what that of several will occasid, each of whom is marching on a different front, and whose lines of direction are crossing each other.

## The Side Step.

The side or closing step must also be frequently practised; it is very necessary and useful on many occasions, when halted. and when a very small distance is to be moved to either flank.

TO THE RIGHT OR LEFT CLOSE.

When the whole company is to close to a flank, if supposed to be a division of a column, its commander remains in his place upon the flank and closes with his company; but if the company is to be considered as the division of

a line, and no stated number of paces is interview of the state of the in that case step nimbly forward on the cLosE, and place himself three paces in from the inner one, or that which is nearest to go of the line, in order that he may be prepared to halt his company at the proper time, as well as to take a general superintendance of its movement.

• THE RIGHT (OR LEFT), nk which is supposed

QUICK MARCH. | At the word QUICK MARCH, the men step of together.

On the word HALT being giving, the officer instantly resumes HALT. his place in the line by the rear.

## The Back Step.

STEP BACK-MARCH.

The company must be accustomed from the halt at the word STEP BACK-MARCH, to step back any ordered number of paces.

#### To Form Four Deep.

FORM FOUR DEEP.

1. The company will be told off, from the right by alternate files right and left; and when it is intended to form four deep, preserving the same front, the word FORM FOUR DEEP will be given, upon which the rear rank will

step back one pace, and on the word MARCH, the left files MARCH. will double behind the right files, by taking one pace to the rear with the left feet, and one pace to the right with the right feet, which forms four deep, leaving the intervals which the left files had quitted.

RAER -FORM FOUR DEEP.

MARCH.

RIGHT, FORM FOUR DEEP.

2. When four deep is to be formed to the rear. On the same caution the rear rank will step back as before, and on the word MARCH, the whole go to the right about, and the left files will then double as before, in the proper rear of the right files.

3. When the ground is to be taken to the right in the formation of four deep. On the caution the rear rank steps back as before, and on the word MARCH, the whole face MARCH. to the right, and the left files at the same instant, form on the right of the right files, taking one pace to the right with the right feet, and one pace to the front with the left feet.

LEFT, FORM FOUR DEEP.

4. When ground is to be taken to the left. The rear rank steps back as before, and on the word MARCH, the whole face to the left, and the left files, at the same instant, MARCH. form on the left of the right files, by taken one pace to the left with the left feet, and one pace to the rear with the right feet.

di

In moving to a flank, file marching may be adopted, if necessary, by the files leading out in their proper order upon the word FORM FOUR DEEP; and at the word an-rorm FOUR DEEP resuming their former places.

#### File Marching.

LEFT FACE.

In marching by files, the commander of the company will lead on the inward flank of the front rank, his QUICE MARCH. covering serjeant leading the front rank; therefore when

the movement is by the left, on the word TO THE LEFT Halt, Front. | FACE, he will instantly shift to the left flank of the company by the front, and his covering serjeant by the rear : at the word QUICK MARCH, the whole step off together; and on the word Halt, Front, the leader and his serjeant will return to their posts on the right by the rear. --

The company will also be taught to-advance in double files from the centre, receiving from the instructor of the drill the command by SUBDIVIsions inwand face: upon which the two centre files disengage by the side step, bringing the shoulders forward at the words QUICK MARCH, and lead straight to the front, the front and rear-rank men in line.

The officer and his covering serjeant will lead, in their relative situations as above prescribed, the left or right centre file of the pivot subdivision.

On the command FRONT FORM COMPANY, the leading files mark time and close in, their rear-rank men falling to the rear; the remainder turn their bodies a whole face outwards, and wheel inwards, looking to the outward flank, and feeling to the centre.

As soon as the quarter circle is completed, the word Forward is given, if the march is to be continued.

If the company from double files is to be formed to a flank (suppose the right), the instructor gives the caution to the Right, form Company, when the commander of the company will give the command, Right Subdivison, Halt, Front. The remainder of the company march on in file, and form on the left of the halted sub-division in succession, halting as they come into line.

When the advance in double files from the centre is made on the march, the command is, Sub-divisions inwards turn, Right and Left Wheel, and the movement proceeds as above directed.

#### Wheeling rom a Hall.

In wheeling either forward or backward from a halt, the BIGHT WHEEL, | commander of the company, on the word RIGHT OR LEFT QUICE MARCH, | WHEEL, moves out, and places himself one pace in front

of the centre of his company : during the wheel, he turns towards his men, and inclines towards that flank which has been named Halt, Dress. as the directing, or pivot one, giving the word Halt, Dress, when his wheeling man has just completed the required degree of wheel: he then squares his company, but without moving what was the standing flank, and takes his post on the directing flank.

## Wheeling forward by Sub-divisions from Line.

BY SUB-DIVISIONS, RIGHT WHEEL.

1. On the caution by suB-DIVISIONS, RIGHT WHEEL, the commander of the company places himself one pace in front of the centre of the right sub-division,

at the same time the men on the right of the front rank of each subdivision face to the right.

QUICK MARCH.

At the word QUICK MARCH, each sub-division steps off in quick time. The commander of the company turning

towards the men of the leading sub-division, and inclining to Halt Dress. | its left (the proper pivot flank), gives the word Halt, Dress,

for both sub-divisions, as his wheeling man is taking the last step that finishes the wheel square; and instantly posts himself on the left, the pivot flank. The covering serjeant shifting by the rear to the proper pivot flank, assumes his place in column, one pace in rear of the second file from the pivot, the senior subaltern taking post on the pivot flank of the second sub-division; the commander of the company always leading the first.

2. The company marching to the front may be wheeled into open column of sub-divisions on the moveable pivot, to either flank without halting; the instructor giving the word FORWARD, when the sub-divisions have wheeled square into column.

The proper pivot flank in column is that which, when wheeled up to, preserves the divisions of the line in the natural order, and to their proper front: the other is the reverse flank.

In column, divisions cover and dress to the proper pivot flank : to the left when the right is in front; and to the right when the left is in front.

## Wheeling backwards by Sub-divisions from Line.

The company will also break into open column of sub-divisions by wheeling backwards .- When the right is intended to be in front :

at the caution BY SUB-DIVISIONS ON THE LEFT, BACKWARD CAUTION. WHEEL, the commander of the company moves out briskly

and places himself one pace in front of the centre of the right sub-division. The man on the left of the front rank of each sub-division at the same time faces to the right.

On the word QUICK MARCH, each sub-division wheels QUICK MARCH. backward. During the wheel, the commander of the

company turns towards his men, inclining at the same time to the left, or pivot flank, and on completing the wheel gives the word

Halt, Dress. | Halt, Dress, to both divisions : he and his covering serjeant then place themselves in their proper station, as directed in the last Section.

## Marching on an Alignement in open Colum of Sub-divisions.

The company having wheeled backwards, by sub-divisions from line, (as directed in the foregoing Section), and a distant marked object in the prolongation of the two pivot flanks being taken; the commander of the company, who is now on the pivot flank of the leading sub-division, immediately fixes on his intermediate points to march on. On

MARCH.

the word MARCH, given by the instructor of the drill, both divisions step off at the same instant; the leader of the first division marching with the utmost steadiness and equality of pace on

hem by the e intervals : the word movement. ary, by the DEEP; and

#### INFANTRY DRILL.

the points he has taken; and the commander of the second division preserving the leader of the first in the exact line with the distant object; at the same time he keeps the distance necessary for forming from the preceding division, which distance is to be taken from the front rank.— These objects must occupy the whole attention of the leaders of the two divisions.

## Wheeling into Line from open Column of Sub-divisions.

1. The company being in open column of sub-divisions, HALT. marching on the alignement, receives the word HALT from the instructor of the drill; both divisions instantly halt, and the instructor sees that the leaders of the divisions are correct on the line in

which they have moved ; he then gives the word (supposing the right of the company to be in front) by sub-divisions LEFT WHEEL LEFT WHEEL INTO LINE; on which the commander of the INTO LINE. company goes to the centre of his sub-division, the two pivot men face to their left exactly square with the alignement, the rear rank men covering off, and a serjeant runs out and places himself in a line with them, so as to mark the precise point at which the right flank of the leading sub-division is to halt, when it shall have com-

QUICK MARCH. | plated its wheel. At the word QUICK MARCH, the whole wheel up in quick time; during the wheel, the com-

mander of the company, turning towards his men; inclines Halt, Dress. | to the wheeling flank, and gives the word Halt, Dress, at the moment the wheel of the division is completed; the com-

mander of the company, if necessary, corrects the internal dressing of the company on the serjeant and pivot men: this dressing must be

quickly made, and when done the commander of the com-Eyes Front. | pany gives the word Eyes Front, and takes post in line.

2. The company may be wheeled into line on the march on the moveable pivot, receiving from the instructor the command should read FORWARD; then FORWARD, OF HALT, DRESS, when the wheel is complete.

In all wheels of the divisions of a column that to be made on a halted pivot, in order to form line, the flank man of the front rank on the hand wheeled to, is such pivot.

All wheelings by sub-divisions or sections, from line into column, or from column into line, are performed on the word given by the commander of a battalion, when the whole of a battalion is at the same instant so to wheel; or on the word given by the commander of the company, when companies singly, or successively, so wheel; they are not to be repeated by the leaders of its divisions.

When the company is in open columns of sub-divisions, it must be occasionally practised to wheel into line upon the reverse flank of the column; and in shewing a front line also to that reverse flank, by wheeling backwards on the regular pivots. On the caution to wheel into line by companies, pivot men face and raise their right arms from the elbow horizontally. On the word Eyes front, the hand resumes its usual position.

## In open Column of Sub-divisions entering into a new **Direction on a moveable Pivot.**

new ·

n, when rd Right Forward.

(or Left) Shoulders Forward, and when his sub-division has wheeled square to that direction, he will give the word Forward. The leader of the second sub-division, when he arrives at the ground where the first began to change its direction,

will give the same words, following the exact track, and always preserving its distance from the division in its front.

1. If the proper pivot flank is to be the wheeling one, each commander of a division gives his word Shoulders Forward as he successively arrives at such a distance from the point on which he has moved, as that, at the completion of the wheel, his division may receive the word Forward when perpendicular to the new line, but with the given point, of course, behind the proper pivot; and that he also in his own person be on the new direction, prepared to give his word Forward, and to proceed. 2. The sub-divisions must take care that they continue their march

correctly upon the point where the leading one wheeled, and that they do not shift to either flank, which, without much attention, they are apt to do.

#### Counter-marching.

The company, when it is to counter-march, must always be considered as a division of a battalion in column; the instructor of the drill will therefore, previous to his giving the caution to counter-march, signify whether the right or left is supposed to be in front, that the commander of the company, and his covering serjeant, may be placed on the pivot flank before such caution is given, as it is an invariable rule in the countermarch of the divisions of a column by files, that the facings be made from the flank, then the pivot one, to the one which is to become such.

## Counter-march by Files.

FACE.

QUICK MARCH.

RIGHT (OR LEFT) Ist. On the word RIGHT, OR LEFT, FACE, the company faces, the commander of it immediately takes one pace outwards, and faces inwards ready to halt his company; and his covering serjeant faces to the right about, and covers. At the word QUICK MARCH, the whole, except

the commander and his covering serjeant, step off together, and the leading file wheeling short round the front rank, proceeds, followed by the company in file, till it has reached the covering serjeant, who has remained

immoveable, when the commander instantly gives the words Halt, Front, Dress, squares, and closes his company Halt, Front, Dress. on his serjeant, and then replaces him.

#### Counter-march by ranks.

RIGHT AND LEFT FACE.

2nd. On the word FACE, whether the right or left is in front, the front rank faces to the right, the rear rank

to the left; commanders place themselves on the outward flank of their serjeants facing inwards, and the covering serjeants go to the right about.

RIGHT COUNTER MARCH.

QUICK MARCH.

The whole step off together, the two ranks severally wheeling in single file, till the pivot man of the front rank comes close to the covering serjeant; they then receive the word Halt, Front, Dress, from the officer Halt, Front, Dress. | who replaces the serjeant.

All countermarches by files necessarily tend to an extension of the files; unity of step is therefore absolutely indispensable, and the greatest

care must be taken that the wheel of each file be made close, quick, and at an increased length of step of the wheeling man, so as not to retard or lengthen out the march of the whole.

Companies, or their divisions, when brought up in file to a new line. are not to stand in that position till the men cover each other minutely; but the instant the leading man is at his point, they will receive the word Halt, Front, and in that situation close in and dress correctly.

#### Wheeling on the Centre of the Company.

The company must be accustomed to wheel upon its centre half backward, half forward, and to be pliable in every shape which circum-stances can require of it; but always in order, and by a decided command. The words of command are.

|    | wit at at . | RIGHT,        |        |
|----|-------------|---------------|--------|
| 6  |             | LEFT,         | WHEEL. |
| 01 | THE CENTRE. | RIGHT ABOUT,  |        |
|    |             | LEFT ABOUT, J |        |

When the wheel is to the right or right about, the right half company wheels backward, and the left forward. In this case the right-hand man of the left subdivision is the pivot man; he faces to his right, or right about, and the covering serjeant springs out and aligns himself with him. but to the flank which is to become the pivot. The reverse will take place when the wheel is to be made to the left, or to the left about. The left-hand man of the right sub-division is then the pivot man, who will face to his left, or left, about; the covering serjeant aligns himself with him, as in the wheel to the right. On the word MARCH, the whole move off together in quick time, regulating by the two flank men, who during the wheel preserve themselves in a line with the centre of the company; as soon as the required degree of wheel is performed, the commander of Halt, Dress. | the company gives the word Halt, Dress, and instantly squares it from that flank on which he himself is to take post.

## Increasing and Diminishing the Front of an Open Column halted.

#### Increasing.

FORM COMPANY. Left subdivision, Left Half Face;

Quick March. Halt, Front, Dress up.

The company standing in open column of subdivisions (suppose the right in front) receives from the instructor of the drill a caution to FORM COMPANY; upon which the covering serjeants will run out to mark the pivot flank. The commander of the company turning round, instantly orders, Left Sub-division, Left Half Face; Quick March; and the leading, or pivot, file will march straight on the covering serieant. When the left sub-division has obliqued so as to gain the line of the right sub-division, the commander gives the word Halt, Front, Dress up; and takes post on the left, the pivot flank of the company.

#### Diminishing.

FORM SUB-DIVISIONS.

On the cautionary command from the instructor of the drill to EORM SUB-DIVISIONS, the senior sub-

altern instantly falls back to mark the point where the left flank of the sub-division is to rest. The commander of the company advancing one

instructor nior subink of the noing one Left Sub-division, Right about threeguarters Face, Quick March. step, orders Left Sub-division, Right about threequarters Face, Quick March; and the leading file of the left sub-division marches in the diagonal direction, until the pivot file reaches the officer who has taken up its distance and covers; and who, when it

Halt, Front, Dress. | shall reach him, gives the words, Halt, Front, Dress. The commander remains on the left flank of the right sub-division, and the next officer on that of left.

In increasing and diminishing the front of an open column halted, upon the usual caution, the rear rank-man of the pivot file of the reverse sub-division falls back and covers the third file of his sub-division, in order to leave room for the flank of the other sub-division, resuming his place as soon as the flanks are clear.

It is to be observed as a general rule in diminishing the front of a column by the doubling of sub-divisions or sections, whether the column be halted, or in motion, that the sub-division or section on the *reverse* flank is the one behind which the other sub-divisions or sections double.

Thus, when the right is in front, the doubling will be in the rear of the right sub-division; and vice versa when the left is in front. And in increasing the front of a column, the rear sub-divisions, or sections, oblique to the hand the pivot flank is on: so that, when the right is in front, the obliquing will be to the left, and the reverse when the left is in front.

## Increasing and Diminishing the Front of an Open Column on the March.

#### Increasing.

FORM COMPANY.

Left Sub-division, Left half turn, Double. Front Turn, Quick. The company marching at quick time in open column of sub divisions (suppose right in front), receives from the instructor of the drill, the cautionary command, FORM COMPANY: the commander of the company, instantly turning round, gives the words Left Sub-division, left half turn, Double, and it instantly moves off at the Double March; and as soon as its inward flank is open, it receives the word Front Turn,

and when in line with the reverse sub-division, Quick, the communder taking post on the pivot flank, towards which he has been moving.

## Diminishing.

FORM SUB-DIVISIONS.

Left Sub-division, mark time; Right half turn. When the instructor of the drill gives the caution to FORM SUB-DIVISIONS, the commander of the company, advancing one step, immediately orders, Left Sub-division mark time: Right half turn; and when it has doubled properly behind the right onc, the senior subaltern gives the word, Front turn, pivot flank

placing himself on its pivot flank.

The same directions that apply to increasing or diminishing by subdivisions, apply equally by sections.

If the column is moving in slow time, when its front is to be increased, the division moving up will do so in quick time; but when the column is marching in quick time, the rear sub-division will in that case move up in double time as directed.

## INFANTRY DRILL.

# The Company in Open Column of Sub divisions to pass a short Defile, by breaking off Files.

BREAK OFF THREE FILES. turn, left wheel.

The company is supposed in open column of subdivisions, with the right in front; when the leading division is arrived within a few paces of the defile, it Three files Right [ receives from the instructor of the drill an order to break off a certain number of files (suppose three). The

commander of the leading division instantly gives the words, Three files on the left, right turn left wheel; the named files immediately turn to the right, and wheeling to the left follow in file in rear of the left flank of the sub-division. When the second sub-division comes to the spot where the first division contracted its front, it will receive the same words of command from its own leader, and will proceed in like manner.

Two. files Right turn.

Should it be required to diminish the front of the column one or two files more, the commander of the leading division will, as before, order the desired number of files to turn; on which those already in the rear will incline to the right,

so as to cover the files now ordered to break off, and which turn to the right and wheel to the left in the manner already prescribed.

In this movement, the files in the rear of the sub-divisions must lock well up, so as not to impede the march of the succeeding division. The covering serjeant will cover his officer until all the files are again brought up.

Three files to the front.

As the defile widens (or the instructor of the drill shall direct), the commauder of the leading sub-division will order files to move up to the front by giving the word, One, two, or three files to the front; on which the named

files turn to their front (the left), and lengthening their pace, march up, file by file, to the front of their sub-division, and immediately resume the march. Those files which are to continue in the rear will oblique to the left, lengthening also their step till they cover, and are closed up to the right flank of their sub-division.

It is to be observed that in passing a defile, the rule is that the files break off from the pivot flank ; but interruptions may in some cases present themselves, requiring that files be broken off from the reverse flank. The same instructions apply in both cases.

## The Company halted or on the March moves to a Flank, in Column of Sections, or of Sections of Threes.

SECTIONS, OR THREES, RIGHT OR LEFT SHOULDERS FORWARDif halted, QUICK MARCH. FORWARD. SECTIONS, OR THREES, ON THE RIGHT OR LEFT BACKWARDS WHEEL QUICE

The company from line will be practised in forming sections and sections of threes, both when halted and in motion, by the command, SECTIONS, OR THREES, RIGHT OR LEFT SHOULDERS FORWARD -QUICK MARCH, FORWARD; and the only exception to this rule will be, when pivots are required to be accurately dressed, or when the alignement of the company is to be preserved : in this case the command will be, SECTIONS, OR THREES, ON THE RIGHT OR LEFT BACKWARDS WHEEL, QUICK MARCH, Halt. Dress.

nctised in both when SECTIONS, FORWARD hly exceprequired to nement of s case the , ON THE K MARCH,

MARCH, 1.1 Halt Dress RIGHT OR LEFT THE FORWARD TORWARD. or Halt. Dress. RIGHT OR LEFT.

In re-forming company, the command will be-RIGHT OR LEFT SHOULDERS FORWARD-FORWARD. BaroyLozas if the march is to be continued; otherwise, Halt. Dress. we share and the for

When pivots are required to be accurately dressed, or when the alignment is to be preserved, the com-WHEEL INTO LINE, mand will be, RIGHT OR LEFT WHEEL INTO LINE, QUICK MARCH, QUICK MARCH, Halt, Dress. Halt Dress.

The word Forward, or Halt, must be given just as the outward men of threes are completing their third pace.

Should the telling off by threes leave either one or two files over, they will be placed on the right of the left section of threes, which is always to be complete. If there is one file over-on the word, THREES, SHOULDERS FORWARD, the front-rank man wheels up, and places himself in rear of the pivot flank of the section in front of him ; his rear-rank man placing himself in the rear of its reverse flank, both men locking up; but if the odd file is a blank one, the reverse flank of the preceding section must necessarily remain uncovered. If there selves, covering the outward flanks of the section preceding them ; but if one of these two files is a blank file, the three men will form a single rank, the two front-rank men covering the flanks of the preceding section, and the rear-rank man stepping up between them.

In forming threes from line to the right or to the left by the shoulders forward, the leading section must frequently be practised to wheel upon the centre man of the three, as they will often be required to do so, in disengaging to the rear, when formed as a division of a line.

The company at any time may form THREES to a flank, after the telling off has been deranged, if the men are practiced to do so rapidly in succession. The first three is formed at once ; the fourth man in the front rank then sees that he is the pivot for the next three, and turns or faces into the new direction: the seventh file then follow. and so on to the reverse flank of the company: when on the march, the company may mark time, until the threes are formed, when they receive the word FORWARD.

In changing the direction of a column of threes, the command will be the same as in file marching, right wheel-left wheel.

Should it be required to form company upon the leading three, the commander will order FRONT, FORM COMPANY, upon which the leading three will mark time, the remainder will make a half turn to the proper hand, and, moving up to their proper places in line, will mark time, until the word FORWARD OR HALT is given.

If from sections of threes it be required to form sub-divisions or sections, the commander will order RIGHT (OR LEFT) TURN, RIGHT (OK. LEFT) WHEEL, and when in file, FRONT FORM SUB-DIVISIONS (or

SECTIONS), upon which the leading file of sub-divisions (or sections) will mark time; the remainder turn their bodies a whole face to the proper hand, and wheel in sub-divisions or sections to the right or left, as may be required. During these formations the company leader will move by the front to his proper station.

The company marching to a flank in threes will be practised to turn to the right and left, and to the right about, wheeling forward, afterwards, rear rank in front : the company may also be inverted by wheeling the threes forward on their reverse flank, as the inversion can at any moment be corrected.

## Forming Company, Sub-divisions, Sections, or Sections of Threes, from File Marching.

At this word of command, the leading file FRONT FORM marks time, the remainder turn their bodies a COMPANY, whole face to the left, and wheel to the right, SUB-DIVISIONS OR looking to the outward flank and feeling inwards SECTIONS. (that is to say), if right in front, turn to the left; and, if left in front, turn to the right,-the officer, if not already in his place, passing along the front to it during the wheel.

As soon as the quarter circle is complete, the word FORWARD is given, if the march is to be continued.

The company marching in file (suppose from the right) has only to halt and front, to be formed to the left flank.

ON THE LEADING FILE TO THE RIGHT, FORM COMPANY.

At this word of command, the front-rank man of the leading file will turn to the right, take one pace to the front, and halt, the rear rank moving round and covering; the remainder of the company

form on the left of the right file, by files in succession.

ON THE LEADING FILE TO THE RIGHT ABOUT, FORM COMPANY.

 At this word the leading file wheels to the right about, taking one pace to the front after wheeling; the remainder of the company march on in file, wheeling round the halted file, and forming on its left by files in succession, each file, as it

comes into the line, taking up its dressing from the standing flank.

## To form to either Flank, from Open Column of Sub-divisions.

HALT, LEFT

The company marching in open column of WHEEL INTO LINE, sub-divisions, to form to its left, receives the QUICK MARCH. | WORD, HALT, LEFT WHEEL INTO LINE, QUICK MARCH, &c., and proceeds as has already been shewn.

To form the company to its right flank, the instructor of the drill TO THE RIGHT, . | gives the cautionary word of command, TO THE FORM COMPANY | RIGHT, FORM COMPANY; on which the commanders of the several divisions shift to the right

flank, and the commander of the leading sub-division instantly gives

r of the drill nand, TO THE ch the comt to the right instantly gives Left Shoulders forward—forward,

> Halt, Dress. Left or right oblique. Forward.

the word to his division, Left Shoulders, forward. When it has wheeled square, he orders, Forward; and having gained three paces, he gives the word Halt, Dress; and dresses it on the the intended line of formation. The second subdivision must gradually incline to the left by the oblique step, by word of command from its commander, in order to be able to march clear of the

first, and when it is arrived at the left flank of the first, its commander Left Shoulders | falling to the rear, gives the word, Left Shoulders forward. | forward-forward: then Halt, Dress up-on which Halt, Dress. | the division moves up into the line with the one formed; and the commander of the company dresses it from the outward flank of the first formed sub-division and resumes his proper place.

# The Company moving to the Front to gain Ground to a flank, by a March in Echellon, by Sections.

The company, marching to the front, receives the SECTIONS, word SECTIONS, RIGHT; the right-hand men of the front RIGHT. rank of each section turning in a small degree to their right, mark the time two paces, during which the sections

are wheeling on their pivot men; at the third pace, and at FORWARD. | the word FORWARD, the whole move on direct to the

front that each section has now acquired: and the company continues its march in echellon.

FORM COMPANY. On the word FORM COMPANY. the pivot men mark the time as before, turning back in a small

degree to the left, the original front, and the sections FORWARD. |.instantly wheel backward into line; on the word FOR-WARD, the whole advance in line.

## To form the Rallying Square

1. The instructor of the drill having caused the company to

disperse to a certain distance, will give the word FORM THE RALLYING SQUARE. FORM THE RALLYING SQUARE, at the same time placing himself facing the supposed enemy; the men hasten to the person so posted, fixing bayonets and ordering their arms as they reach him. The two first who join him form on his right and left, facing outwards. The three next place themselves in front of those posted, and three others to the rear facing to the rear, thus forming a square of three. The instructor will cause the next four men to take post at the several angles; and others as they come up will complete the different faces between these angles, which will form a square of five.

2. A square thus composed of twenty-four men (besides the person who is to rally) and form two deep, may be augmented to a square of

seven, three deep, by four more men taking posts at the angles, and others coming up to complete the faces as before; the square will then consist of forty-eight men, and may be augmented in the same manner to a square of nine, four deep, by the angles being occupied by four more men, and the faces filled up as before; and the square will then be composed of eighty men.

THE SQUARE WILL MOVE TO THE FRONT, REAR, RIGHT, OR LEFT INWARDS FACE QUICK MARCH. HALT.

3. When the square is to march.-In order to move with the necessary regularity previously to putting the square in motion, the instructor will cause the faces to be dressed; and after the caution, he will give the words INWARDS FACE, and it will face in the named direction, and step off accordingly at the word QUICE MARCH.

PREPARE TO RESIST CAVALRY. READY.

4. To resist Cavalry .- Upon the word HALT, the square will halt and face outwards, and when it is to PREPARE TO RESIST CAVALRY ;-- upon the word READY, the front rank only (if the square is

two or three deep) will kneel; if four deep, the two front ranks will kneel. If ordered to fire, the standing ranks only will commence an independent fire, bringing the firelock gradually up to the present.

Reduce the Square.

When the square is to be reduced, two noncommissioned officers will mark the alignment Quick March. | facing the supposed enemy. On the word Quick March, the men open out, and fall in, in their proper places.

In this manner small dispersed parties, from eight to eighty men, may be formed to resist an attack of cavalry in an open country, where, from whatever cause, soldiers may have separated from the column of march.

when a company, or other small body in close files, requires to form to resist cavalry, it may be wheeled forward into column of sections, and closed to the front, When halted, the two rear sections face to the right about, and the two outward files of the second and third sections face to their right and left, so as to present a front in all directions. The men on the angles also face to their right and left.

## When a Battalion in Line takes Open Order.

Rear Ranks take Open Order.

At the word Order, officers recover swords. and move at once close in front of the files opposite which they are to stand,-that is, the captain in front of the second file

from the right of the company, the senior subaltern in front of the second file from the left, and the third subaltern in front of the centre file-if there is a fourth officer the distance between the flanks will be divided. The serjeant coverers move up to the front rank to preserve the intervals left by the officers. The flank men on the right of the rear rank of each company step briskly back one pace to mark the ground upon which the rank is to halt; they face to the right, and cover as pivots, corrected by the serjeant-major on the right.

s. and move ich they are second file subaltern in tern in front between the e front rank men on the k one pace face to the on the right. March. At this word the rear rank steps back one pace, dressing March. by the right: the officers of companies march three paces

direct to the front, glance their eyes to the right, correct their dressing, and port their swords at the word Steady from the major, who dresses them. The officers with the colours march forward three lengthened paces, and dress in the line of officers. The music, drummers, and pioneers remain as posted at close order. The first major places himself on the right of the line of officers : the second major on their left : the adjutant on the left of the front rank : The staff, viz, the paymaster, surgeon, assistant-surgeon, and quarter-master, place themselves on the right of the front rank of the grenadiers, at one pace distance. The colonel and lieutenant-colonel advance ten and six paces before the colours.

The officers move through and into their respective intervals, and each individual arrives, and places himself properly at his post in close order.

#### Marching past in Slow Time.

| COMPANIES, ON |
|---------------|
| YOUR LEFT     |
| BACKWARD      |
| WHEEL.        |
| QUICK MARCH,  |
| Halt, Dress,  |
| MARCH.        |

The battalion will break into column of companies, the right in front, and the column will be put in motion, pioneers, music and drums having been previously ordered to the head of it. Points will be fixed by the adjutant for the several wheelings of the divisions; so that their right flanks, in marching past, shall be only

four paces distant from the camp colour, where it is supposed the general places himself to receive the salute.

Right Shoulders Forward. The several companies wheel successively at the first and second angles of the ground on the moveable pivot; and the wheel at the latter angle will

bring them on the line on which they are to pass the general. During this wheel each leader of a company will change his flank by the front, facing his men, as when wheeling into line from column, and having reached the point to which his right flank wheels up, he places himself *Forward*. I square to the front, and gives the word *Forward*, as soon

as the company has completed its wheel; upon which the men touch to the right, keeping their eyes straight to the front.

Rear Rank, take Open Order. The leading company, and each other successively, as it arrives within thirty paces of the general open its ranks, at which time the officers of compa-

nies move to the front, the captains being replaced on the right flanks by their serjeants.

In marching past the reviewing general, the colonel is to be in front of the grenadier company, with the major a little behind him, on his left.

The lieutenant-colonel is to be in the rear; but, in the absence of the colonel, the lieutenant-colonel will supply his place. The second

major is in the rear, behind, and on the left of the lieutenant-colonel; and the adjutant is behind and on the left of the major.

The officers, when they arrive at their proper distance from the general, will salute successively by companies, commencing when within ten paces of him, and recover their swords when six paces past him, without in the least altering the rate of march, or impeding the front rank of companies. The commanding officer, when he has saluted at the head of the battalion, places himself near the general, and remains there till the rear has marched past.

Rear Rank, take Close Order.

The officers commanding companies will each successively, when he has passed the general by twenty paces, close his rear rank, and will resume

RE

Pre Sic Ab Ab

his place on the right flank : each individual of the company will at the same time resume the post which he held when the column was first put in motion.

Right Shoulders forward. Forward.

The several companies wheel successively at the point which will be fixed opposite the ground where the left of the battalion stood ; during the wheel, officers commanding the companies change

by the rear to the left flank.
