File:107 ek-213

Dear Sirs,

We beg to inform you that we were authorized on 20 May 1946 to start production of Casting of Pig Iron, Malleable Cast Iron, Enamelled Ironware, Kitchen-range, Wheat Flour Kneading Machine and Alcohol Distillater.

We are planning to extent our operation over to manufacture of machinery of Textile industry. Under these circumstances, we shall be very glad if you would kindly grant us the permission to start immediately for the production as the under plan.

1. Production of Machinery of Textile Industry.

2. Production capacity: 200 sets per month.

Yours truly,

Y. Watanabe

Y.WATANABE, President,
Chuo Kogyo Kabushiki Kaisha.

SUBJECT: APPLICATION FOR RECONVERSION

TO : Chuo Kogyo Kabushiki Kaisha, Itami Factory, 341, Teramaye,
(Name and Address of Firm)

Inadera, Sonodamura, Kawabe-gun, Hyogo Prefecture.

1. a. In accord with paragraph 3, b, Directive Number Three (3) from the Supreme Commander to the Imperial Japanese Government, dated 22 Sep 45, the Chuo Kogyo Kabushiki Kaisha, Itami Factory,
(Name of Firm)

is permitted to immediately start production of Casting of Pig Iron,
(Name of Items).
Malleable Cast Iron, Enamelled Ironware, Kitchen-range, Wheat Flour Kneading M/c, Alcohol Distillator.

b. Maximum production currently authorized is Casting of Pig Iron - 25 tons, Malleable Cast Iron - 20 tons, Enamelled Ironware - 1,000 pcs, Kitchen-range - 500 pcs, Wheat Flour Kneading M/C - 5 sets, Alcohol Distillator - 5 sets.(1946-47)

2. The acquisition of material, parts and sub-assemblies as well as the disposition of finished products, and the establishment of sales prices will be in accord with the regulations of the Imperial Japanese Government.

3. Until otherwise directed by this headquarters, a monthly report in English of each item, by name, type and quantity produced by each factory, sub-contractor subsidiary within this factory's control will be delivered to this office by the fifteenth (15) day of the following month.

4. It is understood that this permit for reconversion is issued subject to any and all directives affecting reconversion, ultimate disposition or otherwise, which have been issued or may hereafter be issued by the Supreme Commander for the Allied Powers or by this headquarters.

5. Description :

a. Principal Products :

1. Wartime - 12 cm repeh Mortar, Bullet case, Casting of pig iron.

2. At present - Flour mill, Brazier for house use, casting of pig iron.

3. Planned for 1946-47 - Casting of pig iron, Malleable Cast iron, Casting of alloys, Chemical machines, Enamelled ironware, Wheat flour kneading machines, Alcohol distillators and subcontract of machines.

b. Capacity :

1. Wartime - in March 1945 (monthly)

12 cm Trench Mortar	2	"	37,000.-
Bullet case	370		29,600.-
Casting of pig iron	6094kg		5,637.-

in August 1945

12 cm Trench Mortar	8		148,000.-
Bullet case	300		30,400.-
Casting of pig iron	200 kgs		1,090.-
			31 300
			1 500

2. At present : -monthly

Flour Mill	10 sets		250,000.-
Brazier for house use	500	"	22,500.-
Casting of pig iron	10000 kgs		48,000.-
			324,700

3. 1946-47 :

Casting of pig iron	25 tons
Malleable cast iron	20 "
Enamelled ironware	1000 pcs
Kitchen-range	500 "
Plant flour kneading m/c	5 sets
Alcohol distillator	5 "

c. Number of employees :

1. Wartime - 562 men 46 women total 608
2. At present - 54 men 14 women total 68
3. 1946-47 - 369 men 46 women total 415

6. Machinery & Equipment in Plant : details in the attached list.

7. Present stocks of Raw Materials, Supplies and Unfinished Goods :

3300

DECLASSIFIED E.O. 12065 SECTION 3 402, MMB No.

Description	Quantity	Description	Quantity
Steel	69 tons	Brass bar	3 tons
Brass founding	2 "	Steel pipe	250 "
Iron pipe	3 "	Hi-chrome steel	5 "
Pig iron	30 "	Gage steel plate	2 "
Drill rod	1 "	Case hardening steel	1 "

The above materials are in the condition utilizable.

Supplies and Unfinished Goods : None

8. Present stocks of Finished Goods : None

9. Present stocks of fuel :

Description	Quantity
Cokes	13 tons
Firewood	20 "
Charcoal	4.8 "

10. Machinery & Equipment needed for maximum production 1946-47 :

Description	Quantity	Condition
Acetylene Gas welder	2	to be purchased newly
Electric furnace	3	1 set to be purchased 2 sets to be moved from head office.
Milling machine	1	to be moved from Head office.
Plate bending roll	1	to be moved from Kashima Plant.
Rotery Shear	1	to be purchased newly
Air Hammer 1/2 ton	1	to be moved from Head office.
Air Compressor	1	to be moved from Kashima Plant.

The other necessary machines should be moved from Tsu Plant of Miye Kogyo K.K. as per attached list.

11. Raw materials & supplies needed (monthly) :

a. For Present Capacity :

Description	Quantity
Pig iron	20 tons
Steel pipe	12.5 "
Steel	0.4 "

b. For Maximum :

DECLASSIFIED E.O. 12065 SECTION 3 (E), NARS Date

Description	Quantity
Pig iron	35 tons
Iron plate	2.5 "
Steel pipe	12.5 "
Steel	2 "
White pig iron	22 "

12. Fuel needed (monthly)

Description	Quantity
Cokes	15 tons
Firewood	2 "
Charcoal	1.5 "

13. Additional Personnel needed : None

14. Prices :

Description	Unit	Price
Casting of pig iron	per ton	2 00 ¥5,000.-
Malleable Cast iron	"	10,000.-
Casting of alloys	"	12,000.-
Enamelled ironware	per piece	20.-
Kitchen range	"	100.-
Wheat flour kneading m/c	per set	7,000.-
Alcohol distillator	"	10,000.-
		¥ 44,300.

15. Remarks : (Factors hampering production)

a. Difficulty in collection of labourers owing to shortage of principal food and to impossibility of paying wages demanded.
b. Shortage of fuel. (We are under consideration of utilization of electricity)

16. Certification by applicant :

I certify that the information contained herein is true to the best of my knowledge and belief.

President

Note: By order of G.H.Q of Allied Forces we offered the main part of our Itami factory to Fighter Group of Itami Airfield for the use of repair shop for U.S. vehicles since 21 Nov. 1945 (Procurement Order: CB-33-PD-73-II-45). Those marked ▨ in the sketch.

DECLASSIFIED E.O. 11905 SECTION 5 (E), NARS DATE

HEADQUARTERS
31ST MILITARY GOVERNMENT
HQ & HQ COMPANY
APO 660 (KOBE, HONSHU)

ABH/di

13 May 1946

SUBJECT: Application for Reconversion of Chuo Kogyo Kabushiki Kaisha , Itami Factory, 341 Teramaye Inadera, Sonoda-mura, Kawabe-gun, Hyogo-ken.

TO : Commanding Officer
94th Hq & Hq Det Mil Gov't Group
APO 660 (Osaka)

1. The above subject plant was inspected and surveyed by this headquarters and the following facts ascertained:

a. This plant is now in limited operation producing cast bases for electric hot plates, castings for portable flour mills, and casting pig iron.

b. Machinery in the plant is in fair condition. Much of the machinery is of a special nature for drilling gun barrels, and machining 100 kilo aerial bombs. The plant was used as a motor repair shop by the air service company stationed at Itami airport. The machinery was moved to one end of the shop and has become rusted. The company is now cleaning the machinery in preparation for machining operations. All machinery is owned by the company. During the war, this plant was 100% engaged in munitions production. Prior to the war they made te textile machines and machine tools.

c. The company is not in debt at the present time. Capital is managed by the Okura Sangyo Kabushiki Kaisha which owns 92% of the stock.

d. No loans or subsidies have been received from the Japanese Government and no loans made with any Zaibatsu banks.

e. The inventories of machines and raw materials were found to be as indicated in the application.

DECLASSIFIED E.O. 12065 SECTION 3 402/MDS #3

Plant was originally established for the purpose of manufacturing textile machinery (carding engines, doubler, drawing frames and stubbing frames.) Actual operations commenced in 1937. In 1938 plant embarked on a program of manufacturing munitions. Approximately 50% of plant machinery and equipment were utilized for war production.

Plant is in operation utilizing one-hundred and fifty-six (156) machinery and equipment, manufacturing spinning machinery parts. Removal for reparations of the machines currently in operation will seriously jeopardize the production of spinning machinery since plant is fulfilling large orders from leading spinning machinery manufacturers.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNBS NO: [illegible]

October 23, 1946

To: Lt. Col. Peter W. Scott,
Commanding,
Hyogo Military Government Team.

Subject: Petition for the reduction of the scope of reparations selections - the Chuo Kogyo K.K.

Sir,

The Chuo Kogyo K.K. was included among the reparations selections within privately owned munitions plants by the SCAP memorandum (AG 387.6, Aug. 13, 46, ESS/IN, SCAPIN-1134). For the following reasons we wish that you will please confine the scope of reparations selections to the 1st, 2nd & 3rd Lathe Shops, the Press Shop and the Heat Treatment Shop.

1. This factory was established in 1933 under the name of the Okura Boki Seizo (Okura Textile Machinery Mfg. Co., Ltd.) for the manufacture and sale of textile machineries and pig-iron casts. Later the factory was amalgamated by the Chuo Kogyo K.K.

2. This factory was engaged in the manufacture of munitions during the war, but actually it was the above-mentioned five shops that were operated for the purpose. They were under the control of the Army. In the map those five shops are encircled with red lines.

3. Even during the war the factory maintained the manufacture of parts of textile machineries, chemical machineries and pig-iron casts.

Yours truly,

Sachio Kishida

Sachio Kishida,
Governor,
Hyogo Prefecture.

DECLASSIFIED E.O. 12065 SECTION 3 402/NNBS NO: [illegible]

14th Oct 1946

To : Hyogo Military Government Team.
Attn : Commerce and Industry

Subject: Application for the Revision of Reparation program only to those shops which were used for the purpose of munition making during the war.

From : Chuo Kogyo Kabushiki Kaisha Itami Factory.

Name of Company : Chuo Kogyo Kabushiki Kaisha.

Name of Factory : Itami Factory.

Location : Chuo Kogyo Kabushiki Kaisha.
No.4 3-chome Kobikicho, Kyobashi-ku, Tokyo-to.

Itami Factory.
No.341 Teramae Inadera, Senoda-mura, Kawabe-gun, Hyogo Prefecture.

Basic reason :

This factory was established in February 1936 under the name of Okura Boki Seizo Kabushiki Kaisha.(Okura Textile machinery Manufacturing Co. Ltd.) as the maker of textile machineries. Carding Engine, Doubler, Drawing Frame and Slubbing Frame are the main line of the production.

In 1943 the company was merged in Chuo Kogyo Kabushiki Kaisha. Accoring to the conversion order given by the Army, we obliged to perform the production of arms.

Although we manufactured arms during the war, the works were limited to the former "Rikugun Kanri Kojyo" " the shops administrated by the Army" which are shown in attached sketch with red pencile.

Other parts of shops were carring out manufacture of textile machines, chemical machines and casting as previouly and there is no machines aiming arms making in these shops.

Since the end of the war, we began the manufacture of textile machine as pre-war time with considerable success, and we are doing our beat in the work of repairs textile machines damaged by air-raids in order to meet the urgent demand of the present textile industry of Japan.

DECLASSIFIED E.O. 12065 SECTION 3 402/NNBS NO: [illegible]

Under these circumstances, we beg you to designate only shops and equipments which were used for the purpose of ~~Arm~~ Ships making during the war as the war Reparation Plant.

Yours faithfully

Chuo Kogyo kabushiki Kaisha
Itami Factory.

Manager G. Miyazawa.

G. Miyazawa

2. Ltr of Recommendation - Commerce & Industry Ministry. (5 copies)

3. Application - Chuo Kogyo K.K. (5 copies)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. [illegible]

TO : HEADQUARTERS, HYOGO MILITARY GOVERNMENT TEAM.

FROM : Central Liaison Office, Tokyo.

SUBJECT: Request for Removal of Itami Plant of Chuo Kogyo K.K. from Reparations List.

C.L.O. No.586(MSG-E) 8 November 1946

1. Reference: SCAP Memorandum AG 004(10 Oct 46)ESS/IR (SCAPIN-1258), subject: "Revised Listing of Reparations Selections within Privately Owned Munitions Plants."

2. Herewith is submitted an application of the Ministry of Commerce and Industry on the subject matter.

3. As is stated in detail in the above application, the subject plant was established in February 1936 for the purpose of manufacturing textile machinery and was not originally a munitions plant. The subject company was named "The Okura Boki K.K." at the beginning but afterwards merged into the Chuo Kogyo. Since 1938, the subject plant had been engaged in the manufacture of bombs and shell-bodies by order of military authorities, utilizing a part of its equipment. After the surrender, however, it has been totally reconverted to the manufacture of civilian goods, such as textile machinery, etc.

4. Under these circumstances, it is requested that favorable consideration be given by your Headquarters for the removal from the Reparations List of the Machine and Assembling Shops, No.1 and No.2 Foundries and Pattern Shop of the subject plant with the exception of the works used for the production of munitions.

FOR THE PRESIDENT:

(K. Asakai)
Director of General Affairs,
Central Liaison Office.

Enclosure: An application of the Ministry of Commerce and Industry, accompanied by an explanatory note on the subject plant.

DECLASSIFIED E.O. 12065 SECTION 3 402/NNBS NO.

TO : Headquarters Hyogo Military Government Team

FROM : Adjustment Division,
Ministry of Commerce and Industry

SUBJECT: Application for Exemption from Designation of Reparation Control to Chuo Kogyo Kabushiki Kaisha Itami Plant (Chuo Industrial Co.,Ltd. Itami Plant) as privately-owned munitions plants

1. In regards to those plants as designated for control as privately-owned munitions plants in the directive dated 13 August 1946, we have taken and are also taking actions necessary to assure its satisfactory control and custody, in close connection with organs concerned civil and official.

2. However, Chuo Kogyo Kabushiki Kaisha Itami Plant (Chuo Industrial Co., Ltd. Itami Plant) is desired to be exempted from the designation for control as well as to be the object of reparation in future after your review on the detailed explanation (annexed paper) due to the fact that this company,having the long history as a manufacturer of civilian goods, was not established for the purpose of munitions production though participated in munitions production occasionally during the war, and all its facilities were intended to be restored to civilian production, its original mission, since the termination of war.

A. Aoki

Director of Adjustment Division,
Ministry of Commerce and Industry.

DECLASSIFIED E.O. 12065 SECTION 3 (E), NARS DATE

A. Name of Company : Chuo Kogyo Kabushiki Kaisha.

B. Name of Factory : Itami Plant.

C. Location :

The Company : No.4 3-chome, Kobikicho, Kyobashi-ku, Tokyo-to.

The Factory : No.341, Teranomae, Inadera, Sonoda-mura, Kawabe-gun, Hyogo Prefecture.

D. Date of Establishment :

The Company : December 1, 1936.
The Factory : February 20, 1936.

E. Brief History :

On Feb. 20, 1936, this factory was established under the name of "Okura Boki Kabushiki Kaisha"(Okura Spinning Machinery Mfg. Co., Ltd.) with the paid-up capital of ¥500,000 for the object of manufacturing textile machineries. Since the year of 1938, in accordance with the markets' demands, they had begun manufacture of machine tools, chiefly ordinary horizontal 6'-0" lathes, and in August 1941 the name of this factory was changed to "Okura Kikai Kabushiki Kaisha"(Okura Machine Works, Ltd.) and several kinds of chemical apparatus were produced in addition.

The War occurring, and since 1938 the factory began the production of bombs, shells and some components of anti-submarine mortar in a part of the factory.

On April 5, 1943, this factory was merged to the Chuo Kogyo Kabushiki Kaisha, and although the above-mentioned arms production had been continued, the original civil production also had been still carried on till the end of the War.

After the War's end, with the reconversion permit granted by the Headquarters, 94th HQ & HQ DET MIL GOV GP Apo 660 (Osaka, Japan) on May 20, 1946, they have been manufacturing the castings of various machines and implements for civil use, wheat flour kneading machines, alcohol distillators, and parts of textile machines.

F. Production (annual) during the Period from 1934 to 1936:
None.

G. Production (annual) during the Period from 1937 to 1945:

22,440

Carding engine	10 "	Mar. 1947
Weaving machine	20 "	Mar. 1947
Hopper beaker	3 "	Dec. 1946
Castings	50 tons	have reached

I. Production equipments :

DECLASSIFIED E.O. 12065 SECTION 3-402/NNBS No.

(a) No. of units of the machines installed :

1) Machine & Erecting Shop (Not participated in arms manufacturing)

Lathes	36	sets
Milling machines	11	"
Drilling machines	13	"
Planers	7	"
Shapers	8	"
Slotting machines	4	"
Miscellaneous	25	"

2) No.1, No.2, and No.3 Machine Shop(arms manufacturing shop)

Lathes	114	sets
Internal buff lathes	10	"
Miscellaneous	13	"

3) Forging Shop (Plate Working Shop)(arms manufacturing shop)

Forging press (100 tons)	1	set
Forging press (200 tons)	1	"
Heating furnaces	4	"

4) Heat Treatment Shop (employed for arms manufacturing)

Heat treatment furnaces	5	sets
Electric furnaces	2	" (installed after the War)
Cooling oil tanks	2	"

5) No.1 and No.2 Foundry (not participated in arms manufacturing)

Cupolas	2	sets
Small melting furnaces	2	"
Drying furnaces	2	"
Travelling cranes	3	"
Blowers	3	"
Sand blast (with 50 HP air compressor)	1	complete set
Miscellaneous	4	sets

6) Pattern Shop(not participated in arms manufacturing)

Wood-working lathe	1	set
Band saw	1	"

Used for arms production	150 sets	Total
Used for civil production	125 sets	275 sets

N.B. No.1, No.2, No.3 Machine Shops, Forging Shop and Heat Treatment Shop were designated for the control of the Army during the War. These are illustrated by the "red" boundary lines in the blue print attached herewith.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. [illegible]

(b) No. of units of machine become unnecessary for civil production since the end of the War.

Lathes	50	Sets
Internal buff lathes	10	"

N. B. The above machines are installed in No. 1, No.2 and No.3 Machine Shop, in which the munitions production had been executed during the War.

J. Ratio of monthly principal products to the total in the country :

Products	Monthly production (whole the country)	Monthly production (the factory)	Ratio
Reeling machine		150 sets	
Carding engine		10 "	
Weaving machine		20 "	
Hopper breaker		3 "	
Castings		50 tons	

K. Reasons why the Equipments are to be exempted from the Reparation :

(1) The factory was founded for the purpose of manufacturing the textile machine under the name of " Okura Spinning Machine Manufacturing Co. ". Although they manufactured arms during the War, the munitions production was performed in a limited part of the factory; and the other parts, i.e. Machine and Erecting Shop, No.1 & No.2 Foundry, Pattern Shop etc., had been continuing the production of textile machine parts and castings as previously through the wartime till the war's end.

(2) After the close of the War, this factory, immediately reconverted to the previous textile machinery works, and they , having necessary drawings, patterns, engineers and skilled workers concerned which had been in use before the War, have been making every endeavour to the restoration of their original operations.

Under these circumstances, we earnestly desire the machinery and equipment in the Machine & Erecting Shop, No.1 & No.2 Foundry and in the Pattern Shop which have never been used in the munition production to be exempted from the object of reparation.

APO 317

ABH/dl

P-15

28 October 1946

SUBJECT: Application of Chuo Kogyo Kabushiki Kaisha Itami Kojo for Removal from SCAPIN-1134.

TO : Commanding General
I Corps
APO 301

1. In compliance with Operational Directive 5/5, Hq Eighth Army, dated 24 Sept 1946, the subject plant has been reviewed in view of the definitions and criteria set forth in paragraph 3b and c of O.D. 5/5 and the following facts ascertained:

a. The plant was not originally designed as a munitions plant, but was constructed in 1936 as a manufacturer of textile machines.

b. The plant underwent major changes in the volume of its equipment and buildings during the war and reached its peak of war products conversion in 1942. However, this conversion was not of a nature to render them unsuitable for reparations to peacetime purposes. As a matter of fact, the plant was issued a reconversion permit on 20 May 1946 and has been 100% reconverted for the past five (5) months.

2. From the above information it is apparent that the subject plant does not meet the requirements for reparations plants as set forth in O.D. 5/5. However, it is pointed out that the subject plant was producing bullet cases in considerable quantity as early as 1938 and during the war years bullet cases were the major item of production in the factory.

3. The plant is now in full production of textile machines and has outstanding orders totalling ¥ 2,047,200.

4. The enclosed application indicates that the company wishes to retain 156 machines or approximately 50% of their equipment which was used both before and

2

SUBJECT: Advice of Designation of your Factory for Custody and Control for Possible Reparations Use.

TO : Chuo Kogyo (Itami Plant)
Senada-machi, Kawabe-gun
Hyogo Ken.

1. You are hereby advised that according to Memorandum to the Imperial Japanese Government from SCAP No. AG 387.6 (13 Aug 46) ESS/IN (SCAPIN 1134) equipment and machinery installed in your factory has been designated for custody and control for possible reparations.

2. You are permitted to operate all equipment and machinery temporarily, but you are advised that thirty (30) days after receipt of this letter the said equipment and machinery may be removed without advance notice. You are required to take necessary measures to insure that the equipment and machinery is properly protected and maintained. You are also required to post signs indicating that your factory is Off Limits to all unauthorized Japanese and Allied Military Personnel and you will establish a twenty-four (24) hour guard system.

3. For any further information that you may require in connection with this advise you will call or communicate with the Commerce and Industry Section of the Hyogo Military Government Team, Prefectural Building, Kobe.
