It may be, for instance,

that we will never be able to get a Civil Air Attache into Moscow, and we may decide to station a man at Bogota instead of Lima, etc. As we now envisage the program, however, there will not be over 12 or 14 Civil Air Attache assignments, at least for the next two or three years. In this respect we will be influenced by the general policy of expansion or retrenchment as applying to the whole Foreign Service.

135

We have also listed the remaining missions and have included an estimated percentage of one officer's total time, to be devoted to aviation work. It will be noted that some of the Civil Air Attaches also cover nearby countries, but it will still be necessary for some officer at these subsidiary posts to handle the aviation assignment. In other words, it is not likely that a Civil Air Attache will be able to cover his whole territory more than twice a year, (with the possible exception of trips to certain posts to meet special situations), and for the rest of the time it will be the responsibility of each post to handle the aviation reporting requirements as well as any current problems which arise.

Whereas the list of posts has been confined to the missions on the list supplied by FSP, it is believed that some aviation work will be required at important consular posts, particularly at such places as Singapore, Batavia and Hong Kong where there is no mission nearby.

Major specific duty to be performed

In this connection we find it almost impossible to give a separate bill of particulars for each post. However, the major functions of our Civil Air Attaches, as well as the officers handling the aviation assignments at the other posts, will be along the following lines:

(a) The expansion of our international network of American air services. This will involve the negotiation of air transport agreements with each of the countries where we do not now have landing rights or where such landing rights are not on an

inter-governmental basis. With the exception of a few agreements recently concluded, we are now negotiating, or will soon begin negotiations, with virtually every country in Europe and the Near East. These negotiations are of a very difficult nature, due partly to the efforts of certain countries to block our air transport aspirations. In addition to agreements with countries in Europe and the Near East, it should soon be necessary for us to initiate a similar set of negotiations with most of the Latin American countries and with the governments in the Orient and the Pacific areas. Even after these agreements are concluded there will undoubtedly be continuing problems with the countries concerned on the subject of route revisions, traffic arrangements, and other difficult matters which will certainly confront the world-wide operation of our airlines.

(b) From every post we hope to get a basic annual report supplemented by quarterly and interim reports on outstanding developments, covering the whole field of civil aviation. A questionnaire on this subject was drawn up by the Department in collaboration with other agencies of this Government interested in aviation, as well as with the industry itself. These reports not only reflect the aviation activities of the countries concerned, but also report on the competition from foreign airlines and manufacturers. If our questionnaire is conscientiously answered, it will require a sizeable part of an officer's time, particularly at those missions of outstanding aviation importance where Civil Air Attaches are to be assigned.

(c) For the first time in history this country is a member of a world-wide civil aviation organization (provided for at the Chicago conference). We intend to play a major role in this organization, but to do so, and to protect our own interests, we will have to be fully informed of the activities and desires of other countries with respect to the wide range of subjects for which the International Civil Aviation Organization is responsible.

(d) Promoting sales of abroad not only demands opportunities, but also requires a long-term standpoint. This involves the offering of our technical and material assistance; the offering of our technical assistance whenever it is desired by foreign countries; the elimination of competitive practices employed by foreign airlines; and, in short, everything which might help to maintain our leading position in world aviation.

While the above paragraphs involve at each point, the transfer of items from one post to another, and it is to be noted that the major problems which will be encountered at each post during the fiscal year of these items will require the attention of the post to maintain our aeronautical services.

Civil Aviation Organi-

(d) Promoting sales of American aeronautical equipment 136
abroad not only demands careful handling of specific trade
opportunities, but also requires constant attention from a long-
term standpoint. This involves the dissemination of informa-
tion and material extolling our advanced techniques and equip-
ment; the offering of our technical assistance and training
whenever it is desired by foreign sources; familiarity with com-
petitive practices employed by foreign aviation interests; in
short, everything which might affect the maintenance of our
leading position in world aviation.

While the above paragraphs give a general idea of the work
involved at each point, the emphasis frequently changes from one
item to another, and it is therefore quite difficult to contem-
plate the major problems which might confront an individual
post during the fiscal year 1947. It can only be said that all
of these items will require constant attention if we intend to
maintain our aeronautical superiority on a world-wide basis.

Office Memorandum - United States Government
To: FSP - Mr. Bohan
From: PED - Mr. Loftus

July 3, 1945

In accordance with your request, conveyed in your memorandum of June 5, 1945 and discussed at a meeting in your office on June 15, I am submitting the attached tabular estimates of field needs of the Petroleum Division for fiscal year 1947, and "stable" program. The tabular material needs some explanatory comment, which is submitted below:

(1) The names of all present incumbents of activated petroleum Attache posts are recorded for your information, although as a practical matter relatively few of these named individuals will be in the auxiliary foreign service during fiscal 1947, since there are specific commitments for the release of several of them by the end of this calendar year or a little later, and since presumably several of the others will want to return to their companies as soon as conditions permit.

(2) In the case of Moscow, Mexico City, and Batavia, I have suggested that the person who is in fact Petroleum Attache be designated as Technical Assistant to the Chief of the Mission, because in each of these cases there are political considerations suggesting the unwisdom of a formal designation as Petroleum Attache. In the case of Mr. Sappington, at London, I have entered his Embassy title, which is Second Secretary. In the case of Mr. McLeady, at Caracas, who is a regular Foreign Service Officer, I did not happen to know his titular designation at the Embassy. Finally, in the case of Berlin and Tokyo, I have not suggested any title, since it is not yet clear what the structure of the United States representation in these countries will be either in fiscal 1947 or in years thereafter. I should assume that initially the Petroleum Attache to Berlin will be designated as Petroleum Adviser to Mr. Murphy in his capacity as Political Adviser, and that some comparable position will be established in whatever form of military government or control council will be established in Japan.

John A. Loftus
Acting Chief
Petroleum Division

PED:JAL:DLW

Office Memorandum - United States Government June 23, 1945
 To: OPI - Mr. Dickey
 From: CU - Mr. Hovde
 Subject: Estimated Field Needs of Division of Cultural Cooperation

To meet the request from OFS, CU has proceeded in the following manner to develop an estimate of its field needs:

1. After a discussion between a Committee made up of Dr. Zwemer, Dr. Anderson, Mr. Peck, Mr. Brickell, Mr. Fox, and myself, each Assistant Chief submitted a proposed program for his area.
2. These estimates were reviewed by the Committee as a whole to bring about uniformity, using a rating of 1, 2, or 3, indicating the importance of the country in a program of cultural cooperation. Attached is a list of the personnel included in each of these set-ups.
3. The above information was transcribed onto the work sheets provided by OFS.

The following comments are made with reference to the manner in which specific items of information requested by OFS have been determined:

a. "Exact Title of Position". The term "CRA" (Cultural Relations Attache) is intended to cover persons who will be sent abroad who are outstanding representatives in such fields as science or education, many of whom will serve for a period of perhaps two years. They will be relieved so far as possible of the actual administration of the Cultural Cooperation program. The salary of \$8,000, \$6500, \$5600, will be determined not only by the importance of the post, but also by the individual's qualifications, so that an \$8,000 man might be sent to a country rating "3" set-up. Senior CRO (Cultural Relations Officer) will ordinarily be a Foreign Service Auxiliary appointed. Junior CRO, Administrative Officer-II, Administrative Assistant-I, Senior Clerk, and Junior Clerk, will be under the F & A classification of Public Law 48.

b. "Approximate date of actual entry"
 c. "Estimated Cost"
 It will be noted that the situation of Germany and Japan

The CU plan has been discussed with Mr. Thompson and Mr. Fleming. There are serious difficulties which must be settled.

CLASSIFICATION AND	
1.	
8000 or 6500 or 5600	C R A
5600	Sr. CRO
4600	(Jr. CRO (and/or
3800	2 (Adm. Officer II (and/or
3200	(Adm. Asst. I
2300	Sr. Clerk
1800	Jr. Clerk Jr. Clerk
Total Staff	7

CU:BLFox:MPH

b. "Approximate date of Appointment." This is the date of actual entrance on duty or time when needed.

c. "Estimated Clerical Assistance--1947, 'Stable'". It will be noted that the two estimates, with the exception of Germany and Japan, are identical.

The CU plan has been discussed by Mr. Fox with Mr. Thompson and Mr. Fleming of INI. There appear to be no serious difficulties but certain problems involving policy which must be settled.

CLASSIFICATION OF CULTURAL RELATIONS AND PERSONNEL

	1.	2.	3.

Government June 23, 1945

Division of Cultural Cooperation

has proceeded in the following field needs:

Committee made up of Dr. Rickell, Mr. Fox, and myself, proposed program for his area.

by the Committee as a whole rating of 1, 2, or 3, indicating program of cultural cooperation. included in each of these

transcribed onto the work sheets

with reference to the manner requested by OFS have been

The term "CRA" (Cultural Cooperation) for persons who will be sent to various countries in such fields as agriculture, etc. will serve for a period of 12 months, or as long as possible of the Cultural Cooperation program. The length of service will be determined not only by the individual's qualifications but also by the country rating. Positions (Officer) will ordinarily be Junior CRO, Administrative Assistant-I, Senior Clerk, and classification of Public
