The copy filmed here has been reproduced thanks to the generosity of:

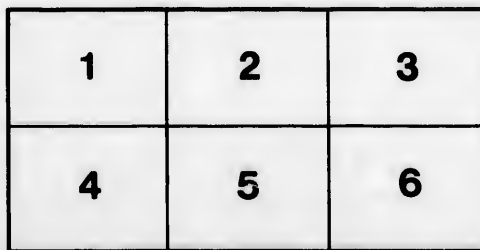

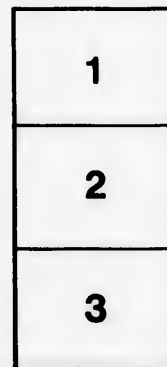

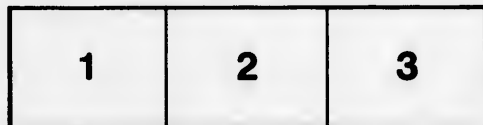

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

## Explanation of the Articles of the Calendar.

These pages are calculated for Toronto and Quebec, and for ordinary purposes will serve with sufficient accuracy for every city in Canada.

**MOON'S PHASES.**—This Table gives the times for the two meridians when the moon passes the geocentric longitudes of 0°, 90°, 180° and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

**TWILIGHT.**—In this table are given the times at which twilight begins in the morning and ends in the evening, *i. e.*, the times when the sun's centre is 18° below the horizon.

**GREATEST ELONGATION OF THE POLE STAR.**—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following table.

Degrees of Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	-5' 58"	-4' 5"	-2' 5"	0' 0"	+2' 12"	+4' 32"	+6' 59"	+9' 34"	+12' 18"
2nd Correction for each minute of latitude.....	+ 1.9"	+ 2.0"	+ 2.1"	+ 2.2"	+ 2.3"	+ 2.5"	+ 2.6"	+ 2.7"	

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar, or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the table by the number of minutes in the latitude.

Thus for latitude 43° 20'... 1st correction = - 4' 5"	2nd correction + 2.0 × 20 = + 40"
" " 47° 40'... " " + 4' 32"	" " + 2.5 × 40 = 1' 40"
" " 45° 10'... " " + 0' 0"	" " + 2.2 × 10 = 0' 22"

**THE PLANETS.**—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of Toronto.

When the planetary day is shorter than the mean solar day, and commences soon after the midnight of the preceding day, the planet will sometimes arrive a second time on the meridian before the expiration of the actual civil day. From analogous causes a planet will sometimes rise twice or set twice in the same civil day. When two culminations occur in the same day, or two risings or settings, the times of both are registered.

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction both for Toronto and Quebec.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto and Quebec.

The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for Toronto. They are not corrected for parallax or refraction.

The column SUN ON MERIDIAN gives the time that a watch should shew when the shadow of a sun dial is on the noon mark.

**MOON'S AGE.**—This column shows to the nearest tenth of a day the Moon's age at Toronto Noon.

The column, MOON ON THE MERIDIAN, gives the mean time at which the moon's centre passes the meridian of Toronto. When in the column headed Moon's rising or setting or Moon on meridian the letters A. M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, but that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

The column, UPPER TRANSIT OF POLE STAR shows for every day the mean time at which the Pole Star makes its upper transit across the meridian of Toronto. It passes in the morning from April 9 to October 8, and in the afternoon for the rest of the year, excepting on October 9, when it does not cross the meridian.

The four last columns, although computed for Toronto, will serve with sufficient accuracy for the whole of Canada.

The time at which the lower transit of the Pole Star occurs may be found by adding 11 h. 58 m. 2 s. to the time of the preceding upper transit.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 46° north latitude.

To ascertain when any star found in the following table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a Star, add the same number to the time of its meridian passage. Those stars marked (.....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 46°.

Eclipses.

In the year 1865 there will be two Eclipses of the Sun, and two of the Moon.

I.—A partial eclipse of the Moon. April 10, 1865, visible in Canada.

The first contact with the shadow occurs at 43° from the northernmost point of the Moon's limb towards the east, and the last contact at 10° towards the west. Magnitude of the eclipse (Moon's diameter = 1) 0.192.

The following table shows, for certain stations, the local astronomical mean time at which the different phases occur

II.—A total eclipse of the Sun, April 25, 1865, invisible in Canada.

III.—A partial eclipse of the Moon, October 4, 1865, partly visible at the stations in the annexed table, which gives the local astronomical time at which the different phases that are visible take place. The occurrence of a star indicates that the Moon will not have risen at the time of the corresponding phase.

The first contact with the shadow occurs at 125° from the northernmost point of the Moon's limb towards the east, and the last contact at 162° towards the west. Magnitude of the eclipse (Moon's diameter = 1) 0.342.

Table with columns: PHASES, Halifax, Quebec, Montreal, Kingston, Toronto, London. Rows include: First contact with the Penumbra, First contact with the Shadow, Middle of the Eclipse, Last contact with the Shadow, Last contact with the Penumbra.

JANUARY.

— came old January, wrapped well  
 In many weeds to keep the cold away;  
 Yet did he quake and quiver like to quell,  
 And blows his nayles to warm them if he may;  
 For they were numbed with holding all the day  
 An hatchet keen, with which he filled wood  
 And from the trees did lop the needless spray;  
 Upon a huge great Earth-pot Steane he stood, [flood.  
 From whose wide mouth thence flowed forth the Romane

FEBRUARY.

— Then came old February, sitting  
 In an old wagon, for he could not ride,  
 Drawn of two fishes for the season sitting,  
 Which through the flood before did softly slide  
 And swim away; yet had he by his side  
 His plough and harness fit to till the ground,  
 And tools to prune the trees, before the pride  
 Of heating prime did make them bourgeon wide.

MARCH.

— Sturdy March, with brows full sternly bent,  
 And armed strongly, rode upon a ram,  
 The same which over Hellepontus swam,  
 Yet in his hand a spade he also bent  
 And in a bag all sorts of w... y same  
 Which on the earth he strewed as he went,  
 And filled her womb with fruitful hope of nourishment.

APRIL.

Next came fresh April, full of lustyhd,  
 And wanton as a kid whose horse new buds;  
 Upon a bull he rode, the same which led  
 Europe floating through th' Argolic fuds:  
 His horse were gilded all with golden studs,  
 And garb'd with garlands goodly studd,  
 Of all the fairest flowers and freshest buds, [light  
 Which th' earth brings forth; and wet he seem'd in  
 With waves through which he waded for his love's delight.

MAY.

Then came fair May, the fairest mayd on ground,
Deckt all with dainties of her season's pryde,
And throwing flowers out of her lap around;
Upon two brethren's shoulders she did ride;
The twines of Leda, which on either side
Supported her, like to their severall queene.
Lord! how all creatures laugh, when her they spide,
And leapt and daunc'd as they had ravisht beene!
And Cupid selfe about her flattered all in greene.

JULY.

Then came hot July, boiling like to fire,
That all his garments he had cast away;
Upon a lion raging yet with ire
He boldy rode, and made him to obey;
(It was the beast that when he did foray
The Newmann forest, till the Amphitruonide
A slow, and with his hide did him arronide)
Behind his back a scythe, and by his side
Under his belt he bore a sickle circling wide.

JUNE.

After her came jolly June, arrayed
All in green leaves, as he a player were;
Yet in his time he wrought as well as playe.
That by his plough-irons mote right well appaer.
Upon a crab he rode, that did him bear,
With crooked crawling steps, an uncouth pace,
And backward rode, as bargemen wont to fare,
Bending their force contrary to their face;
Like that ungracious crew which felgns demurest grace

AUGUST.

The eighth was August, being like arrayed
In garment all of gold, down to the ground;
Yet rode he not, but led a lowly mald
Forth by the lilly hand, the which was crowned
With ears of corn, and full her hand was found.
That was the righteous Virgin, which of old
Lived here on earth, and plenty made abound;
But after wrong was loved, and justice end,
She left th' unrighteous world, and was to heaven ex-

SEPTEMBER.

Next him September marched ake on foot,  
Yet was he heavy laden with the spoil  
Of harvest riches, which he made his boot,  
And him enriched with bounty of the soil;  
In his one hand, as fit for harvest's toil,  
He held a knife-hook; and in th' other hand  
A pair of weights, with which he did assolt  
Both more and less, where it in doubt did stand,  
And equal gave to each as justice duly scanned.

OCTOBER.

Then came October full of merry glee;  
For yet his noole was totty of the must,  
Which he was treading in the wine-fat's see,  
And of the joyous oyle, whose gentile gust  
Made him so frolic and so full of lust:  
Upon a dreadful Scorpion he did ride,  
The same which by Diane's doom unjust  
Slew great Orion; and eke by his side  
He had his ploughing-share and coulter ready tyde.

NOVEMBER.

Next was November; he full grosse and fat  
As fed with lard, and that right well might seeme;  
For he had been a fatting hogge of late,  
That yet his browes with sweat did reek and steame,  
And yet the season was full sharp and browne;  
In planting ecke he took an small delight:  
Whereeas he rode, not easy was to deume;  
For it a dreadful Centaure was in sight,  
The see l of Saturne and fair Nais, Chiron hight.

DECEMBER.

And after him came next the chill December;  
Yet he through merry feasting which he made,  
And great buffones, did not the cold remember;  
His Saviour's birth his mind so much did glad.  
Upon a shaggy-bearded goat he rode,  
The same wherewith Dan Jove on tender years,  
They say, was nourisht by th' Idæan mayd;  
And in his hand a broad deepe bow he beares,  
Of which he freely drinks an health to all his peeres.

ABSTRACT OF METEOROLOGICAL OBSERVATIONS,

Made at the Magnetical Observatory, Toronto.

For the year of our Lord 1863; compiled from Reports, &c., published in the Canadian Journal.

Main table with columns: Month, Temperature (van, Highest, Lowest, Range), Barometer (Mean, Highest, Lowest, Range), Warmst Day (Date, Mean Temp.), Coldest Day (Date, Mean Temp.), Rain in inches, Snow in inches, No. days Rain, No. days Snow, No. Fair Days, Mean Humidity, M'n of Clouds, Resultant Direction of Wind, M. V. of Wind, Miles per hour, No. Thunderst.

The mean temperature of the year 1863 was 50.45 in excess of the average annual temperature of twenty-two years. The oscillations of the monthly means, above or below their respective average monthly means, had an average amplitude of 19.31, which, though slightly greater than the corresponding number (19.42) for the year 1862, was considerably less than the average amplitude of the monthly oscillations (20.44) in twenty-two years.

The mean deviations of temperature in the four seasons, with their proper signs, and regarding the winter as including December, 1862, were +2.22 in winter, -0.11 in spring, +0.02 in summer, and +0.28 in autumn. Hence as regards its temperature, the year, though beginning with a mild winter, was regular in the other seasons.

There was a deficiency in the rain and snow, amounting to 3.715 inches of water. A deficiency occurred in the spring, summer, and autumn; but an excess in the winter, commencing December, 1862, as well as an excess in December, 1863. The deviations in the amount of precipitation, with their proper signs, in the four seasons, were +1.187 inches in winter, -0.765 inches in spring, -2.263 inches in summer, and -2.559 inches in autumn.

Number of nights possible to see Auroras during the year was 182, and number of Auroras observed 44—distributed over the year as follows, in January, 3; February, 4; March, 5; April, 5; May, 0; June, 4; July, 6; August, 5; September, 8; October, 3; November, 1; December, 6.

Mean elasticity of aqueous vapour was for the year '66—average for the past seven years being '259.

In the following summary, several of the results for the year 1863 are compared with the averages derived from a series of years, as well as with the extremes values of analogous results that have occurred during the same series.

O'Connell. PRACTICE COURT AND CHAMBERS.—One of the Common Law Judges holds a Court during each Term, called the "Practice Court," for hearing matters relating to the adding or justifying bail, discharging insolvent debtors, administering oaths, hearing and determining matters on motion, and making rules and orders in causes and business depending in either of said law courts. Chambers are held each day in Common Law and Chancery by one of the judges of the said courts, for such business relating to suits therein as may be transacted by a single judge out of court. Clerk, Common Law—Wm. B. Howard. Clerk, Chancery—John Black.

HEAR AND DEVISES COURT.—Commissioners, the Judges of the superior Courts, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to lands in Upper Canada, for which no patent has issued from the Crown in favour of the proper claimants, whether as heirs, devisees or assignees. Sittings at Toronto, first Monday in January and July in each year. Clerk of Commissioners, W. B. Howard.

COUNTY COURTS.—Presided over by a resident Judge in each county. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to £100; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim-

con., or reduction. An appeal lies to either of the Superior Courts of Law. These Courts also possess equity powers, to the amount of £50, subject to an appeal to Chancery.

SUBROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Upper Canada, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery. The County Judges are also Judges of the Subrogate Courts. *Surrrogate Clerk*, C. Fitzgibbon, Toronto.

COURTS OF QUARTER SESSIONS.—Chairman, the County Judge in each county, who, with one or more Justices of the Peace, holds a Court of Quarter Sessions in his county four times a year for trials by jury in cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction.

RECORDERS' COURTS.—In the Cities of Toronto, Hamilton, London, Kingston, and Ottawa, the Recorder's Court takes the place of the County Sessions, the Justices for Counties having no jurisdiction in the Cities—the care of which is confided to the Recorder, Mayor, Aldermen and Police Magistrate of each. Sessions held first Monday in March, June and September, and third Monday in December. *Recorders*—George Duggan, Junr, Toronto; James O'Reilly, Kingston; John E. Start, Hamilton; William Horton, London; J. B. Lewis, Ottawa.

INSOLVENT DEBTORS' COURTS.—By the "Insolvent Act of 1864" 27 & 28 Vic. cap 57, passed on the 30th June, 1864, provision is at length made for the settlement of the estates of insolvent debtors, for giving effect to arrangements between them and their creditors, and for the punishment of fraud." In Lower Canada, this enactment applies to traders only. In Upper Canada, to all persons whether traders or non-traders. In these Courts, the county court Judge in each county presides—the only appointments made in pursuance of this statute being those of "official assignees," who are to be nominated "by the Board of Trade at any place, or the council thereof, within the county or district in which such Board of Trade exists, or in any county or district adjacent thereto in which there is no Board of Trade." This important statute is likely to prove a great boon to the community, but having so recently gone into operation (September 1, 1864) its working and efficiency are not yet tested.

DIVISION COURTS.—For the summary disposal of cases by a Judge; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to £25; injuries or torts to personal chattels amounting to £10; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, election, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, criminal, seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Courts are held twice in two months in each division, or oftener, at the discretion of the Judge. The Divisions are established by the Courts of Quarter Sessions.

LETTER RATES.

Letters posted in Canada addressed to any place within the Province pass, if prepaid, for 5 cents per 1/2 oz., but if posted unpaid such letters are charged 7 cents per 1/2 oz.

On Letters to Nova Scotia, New Brunswick, and Prince Edward's Island, the rate is 5 cents per 1/2 oz., with optional prepayment.

The rate on Letters to the United Kingdom is, by Canadian Packet, Not exceeding 1/2 oz. .... 12 1/2 cents. Exceeding " and not exceeding 1 oz. .... 25 " 1 oz. and not " 2 oz. .... 60 "

and so on, increasing two rates of postage for each additional ounce.

And by Cunard Packet, 17 cents per 1/2 oz., &c.

Letters for the United Kingdom must be prepaid, or they will be charged a fine of 6d. sterling on delivery.

Letters for British Colonies and Possessions beyond Sea, and Foreign Countries, via England, must be prepaid.

The rate on letters for the U. States, is 10 cents per 1/2 oz. to Cuba ..... 20 cents per 1/2 oz.

The Postage rate to British Columbia is, Letters ..... 10 cents per 1/2 oz. Newspapers ..... 2 cents each.

MAILS FOR CANADA FROM ENGLAND.

Two Ocean Steamers carrying mails for Canada leave Liverpool in each week, viz.: a Canadian Packet on every Thursday, via Derry on Friday, sailing to Quebec in summer and Portland in Winter, by which the Postage rate is 8d. stg. per 1/2 oz.; and a Cunard Packet every Saturday, via Cork on Sunday, bringing Mails for Canada, alternately to Boston and New York, by which the Postage rate to Canada is 8d. stg. per 1/2 oz.

The British Post Office forwards letters to Canada by the first packet sailing after the letter is posted, unless the letters bear a special direction—"By Canadian Packet" or "By British Packet"—and in that case they are kept over for the Packet designated. "By Canadian Mail" is not a distinctive superscription; for any Mail for Canada is a "Canadian Mail," by whatever Packet forwarded.

REGISTRATION OF LETTERS.

Persons posting Letters containing value, should be careful to require them to be registered, and to obtain from the Post Master a Certificate of receipt for Registration.

The charge for Registration, in addition to the Postage, is as follows, viz.:

On Letters to any other place in Canada, or British North America ..... 2 cents. On Letters for the United States ..... 5 " On Letters for the United Kingdom ..... 12 1/2 " On Letters for British Colonies or Possessions, sent via England ..... 25 "

On Letters for France and other Foreign Countries, viz France an amount equal to the postage rate.

Both the postage charge and registration fee must in all cases be prepaid.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced when an Unregistered Letter cannot, and the posting and delivery or non-delivery can be proven. A Registered Letter is thus secured against many of the

casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an Unregistered Letter.

MISCELLANEOUS CHARGES.

The charge on Parcels by the Parcel Post, which is limited to places within the Province, is 25 cts. per lb. (with 3 cts. additional if Registered.)

One cent per oz., payable in advance by Postage stamp, is the rate on Printed Circulars (Printed Circulars, if sent in envelopes, whether sealed or unsealed, are liable to letter postage). Prices Current, Hand Bills and other Printed Matter of a like character, and on Books, bound or unbound, when posted at a Canadian Post Office addressed to any place in Canada, British North America generally, or the United States.

The postage upon Prices Current addressed to the United Kingdom is two cents each, which must be prepaid by postage stamps, or they will be sent to the Dead Letter Office to be returned to the senders.

BOOK POST WITH ENGLAND.

The charges on Books, &c., by Book Post to England, is 7 cents on packets not exceeding 4 oz. in weight, 12 1/2 cents on 1/2 lb. packets, and 12 1/2 cents additional for every additional 1/2 lb. These charges must be prepaid. Photographs, provided they are not upon glass or in cases containing glass, may be forwarded to England at the Book rate of postage.

BOOK POST WITH FRANCE.

For a Packet of Printed matter, or single Newspaper, Book, &c. .... not over 2 oz. 4 cents. Do. exceeding 2 oz. and " 4 oz. 8 " Do. " 4 oz. and " 8 oz. 17 " Do. " 8 oz. and " 1 lb. 34 "

And so on, increasing 17 cents for each additional 1/2 lb.

The Book Post regulations between Canada and England apply to matter between Canada and France.

NEWSPAPERS AND PERIODICALS.

Newspapers published in Canada may be sent by Post from the office of publication, addressed to any place in Canada, at the following rates, if paid quarterly in advance by either the publisher at the post office where the papers are posted, or by the subscriber at the delivering post office:

For a paper published 6 times a week, 40 cents per quarter. " " 3 " " 20 " " " " 2 " " 13 " " " " 1 " " 6 1/2 " "

When the above rates are not paid in advance by either publisher or subscriber, such Papers are charged one cent each on delivery.

TRANSIENT NEWSPAPERS.

Transient Newspapers—that is to say, Canadian Newspapers posted otherwise than from the office of publication, and American or British papers posted or re-posted in Canada, must be prepaid 1 cent each, by postage stamp, or they cannot be forwarded—except only British Newspapers distributed to regular subscribers by Canadian Booksellers or News Agents—such papers pass free as they would do if received in the Canadian Packet Mails.

NEWSPAPERS BY MAIL FROM ENGLAND OR UNITED STATES.

Newspapers received from England by the Canadian Packet Mails are delivered free.

Newspapers from England by the Cunard Packet Mails are charged 2 cents each on delivery. (This is the American transit charge.)

United States Newspapers, brought by mail into Canada, are charged one cent each on delivery.

PERIODICAL PUBLICATIONS.

The rate on all Periodicals, other than Newspapers, passing by mail in Canada, save such as may be addressed to or received from the United Kingdom, and such as are exempted from postage by Statute, will henceforth be one cent, per 4 oz. weight of package containing periodical matter, whether the package contain one or more numbers.

Any fraction of 4 oz. to be charged as a full rate.

On Periodicals posted from the office of publication or by News Agents or Booksellers, to regular subscribers within the Province, this rate may remain to be collected on delivery, and must in such cases be marked upon the packages and charged in the Letter Bills, but when mailed to go out of the Province such Periodical matter must be prepaid by Postage Stamp. British and United States Periodicals may be posted in Canada by News Agents and Booksellers to regular subscribers in the Province under this regulation.

Transient Periodical matter posted in Canada must in all cases be prepaid by Postage Stamp.

The above rate will be payable on delivery on all Periodical matter received from the United States, except that Canadian Editors may receive Exchange Periodicals from the United States free of Canadian Postage.

Periodicals, printed and published in Canada, may be posted addressed to any place in the United Kingdom by Canadian Packet, on prepayment by Postage Stamp of two cents each number.

This rate will be applicable to all classes of Canadian Periodicals posted as above for the United Kingdom, the exemptions to which certain classes of Canadian Periodicals are entitled, extending to such numbers only, as are addressed from the Office of publication to places within the Province.

POSTAGE RATES ON MISCELLANEOUS MATTER.

Packages of seeds, cuttings, bulbs, roots and scions, or grafts, may be posted in Canada for delivery within the Province, or to an address within the United States, on prepayment by postage stamp of a rate of one cent per ounce; and when received from the United States addressed to any place in Canada, such packages may be delivered on payment, by the person addressed, of a like rate.

The limit of weight for such packages will be one pound. No communication, whether written or printed, must be enclosed in them; and they must be so put up as to be easy of examination, for the purpose of verifying the alleged contents. If put up in bags, the bags must be simply tied at the neck, so as to admit of inspection; and, in the case of such packages mailed in Canada, the nature of the contents, such as "seeds," "roots," &c., as the case may be, must be marked on the package by the sender, as a statement of the claim to pass at the reduced rate hereby made applicable to such matter.

Book manuscript, and printers' proof sheets (whether corrected or not), maps, prints, drawings, engravings, photographs when not on glass or in cases containing glass, and sheet music (whether printed or written), may pass in covers open at the ends or sides, and provided that no letter, or other communication intended to serve the purpose of a letter, be enclosed therein, on prepayment, when posted in Canada, by postage stamp of the ordinary printed matter rate of one cent per ounce; or upon payment of that rate on delivery of such matter when received in the mails from the United States.

POSTAGE OF BOOKS, PATTERNS AND SAMPLES.

Patterns of merchandise, and samples, may be forwarded between Canada and the United Kingdom, by the Canadian Packet mails, at book post rates, and subject to the following conditions:

The patterns or samples must not be of any intrinsic value; and this rule excludes all articles of a saleable nature, and whatever may have a value of its own, apart from its mere use as a pattern; nor must the quantity of any material or article sent as a pattern or sample be so great that it could have on this ground an intrinsic value.

The patterns, &c., must be sent in covers, open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and such like, which cannot be sent in open covers, may be enclosed in bags of linen or other material, simply tied at the neck; but bags closed against inspection, although transparent, must not be used for the purpose.

There must be no writing or printing other than the address of the person for whom the packet is intended, the manufacturer's or trade mark and number, and price of the article.

Any infringement of the above regulations will render the packet liable to be treated and charged as a letter.

The rule which forbids the transmission through the Post of any article likely to injure the contents of the mail

bags, will apply to patterns and samples; and any package transgressing this rule is to be sent to the Postmaster General.

The book post rate between Canada and the United Kingdom remains unaltered at 7 cents for a packet weighing not more than 4 ounces.

Packet exceeding 4 oz. and not exceeding 1/2 lb. 12 1/2 cents.  
 " " 1/2 lb. " " 1 lb. 25 cents.  
 " " 1 lb. " " 1 1/2 lb. 37 1/2 cents.  
 And so on, adding 12 1/2 cents for each additional 1/2 lb. or fraction of 1/2 lb. weight.

No prints or printed matter will be allowed to pass by book post between the United Kingdom and Canada, unless printed on paper, parchment or vellum.

DR. WEBSTER'S  
SERIES OF DICTIONARIES

Bearing relation to Language the Principia does to Philology.—Burrill.  
It excels all others in defining scientific terms.—President Hitchcock.

THE WEBSTER PYRAMID.

"Even the Pyramids of Egypt, whose origin is hidden in the deepest recesses of antiquity, and which have always stood in awe-inspiring solitude and grandeur, are now annoyed by the depredations of humanity, and greatly corroded by the elements, and gradually sinking under the encroaching sands of desert. This Dictionary, and the language which it embodies, will also perish; but it will not be the gorgeous palaces: It will go with the solemn temples and the great globe itself!"—CHARLES KAPPAS, *Ethi Beta Kappa Address.*
