PACTION AND PROLEMENT BALLS TO OFFICE LA CARETTE OF THE STATE AND CHT

THE UNION was to preserved." SAREDAT NORTING, AUGUST 6, 1466. Intelligence sessived peterday etotos that Braneria was ble state; and that the noterious Thempson still lay off Gelverten bay. But the Yandalia on her truite

The storm of Thursday night has done sonsiderable damage to the craft on the lake. The stenmer Watchman had her willed braken : some echanners and boots were wrecked and much injury was sustained by the Canal banking or rates it at the amount of \$10,00 t,

The sensity of the meether is likely to continue, if we may thernies gentlemen, till the autumnal equinox. It Many who have lately been voyaging would rather have remained at home; and so the city is now very healthy, a sidence here should be preferred.

. Bright having shot Me Henry Manpassent, his prother a law. He immediately gave himself up to the civil autho-We refrain from noticing particulars, till an investi-

ivil war between that province and the Mexican govern--for the Tuxings seem not only adverse to the system of a central coasplidated government, which would deprive them of a local legislature, and subject them wholly to the rese of the Maxicus Congress—but disposed to exonerate es from their political connection with that govern-

Formerly we gave in full the plan of Tulasa, engaceting Santa Anne-the hest recort probably which could have n deviced under exigent circumstances, when the differodersi resublican government, and frequently enact laws dverse to its authority. To this plan have most of the states given in their eithesion-particularly these in the south. On he 3d ult, it was adopted by the municipal government of Matamorae ander the auspices or authority of Martin Per-fects de Cos, the Maxican military governor of the province-But the political chiefs of the different departments of the province are not favorable to the project. Those of Brassos and Nacordoches have issued a public manifesto against this-which the Texisps are resolved to enforce.

Rut unfortunately there is a charge made against the legis lature of Taxas-for selling 400 leagues of the rublic lands without the consent of the general government. The goand made of election being adverse to the Mexican government. The Textana have therefore rises in arms; organized their militia; formed volunteer corps; captured and occupied San Autonio; sent ferore to rescue their governor and proneighbouring Indiana-that is, they have risen in open the

proceeds being proportionally distributable among the seve

ANOTHER RATERIAL PROJECTED—MY John Herrem of the states. What right the states have no claim any portion of the revenue of the general government, for surposes affect to 'the general government, for surposes affect to 'the general welfare and defence of the union,' we are at a loss to enjecture; nor do we admit either the justice or expediency of alternating the revenue of the missing the revenue of the properties of the properties of the missing the revenue of the union,' we are at a loss to enjecture; nor do we admit the missing the revenue of the missing the revenue of the union,' which is not to receive the missing the revenue of the union,' we are at a loss to enjecture; nor do we admit the union to the missing the revenue of the union,' which is not to receive the missing the revenue of the union,' we are at a loss to enjecture, and as they feel dealstitul of their truth. They are into the expectation,' anys the Detroit Journal,' that it will be defined by the circumstance of Michigan, and the most the revenue of the union,' anys the Detroit Journal,' that it will be defined by the circumstance of Michigan, and the most the properties at the wish the expectation,' anys the Detroit Journal,' that it will be or exceed their each of the revenue of the union,' anys the Detroit Journal,' that it will be or exceed their each of the revenue of the union,' anys the circumstance of Michigan, and the most the most to revenue of the union, and the most the most to revenue of the union, and the most the most to revenue of the union, and the most the most to revenue of the union, and the most the most to revenue of the union, and the most the most to revenue of the union of the revenue of the revenue of the union of commenced without delay. Already we believe, have arrangements been made to carry it through as far as 'positanti-more than commensurate with its wants, and that there were considerable surplus funds in the national revenue. Its incalculable importance to that portion of the peningula, through which it may peen, and especially to Betroit, is becoming apparent to every man, and especially to Detroit, is becoming apparent to every man, and especially to those who have recently purposed on any of the public avenues leading west, Capitalists and men of business, Mechanica, Artisans and Laborges from abroad, are every day settling in this Territory, in anticipation of the benefits which will be derived from the necessary or useful expenditures of the general government, it would be as fatu tous as improper to alienate any portion of the revenues.

At present the aggregate amount of the national revenues does not essend the aggregate amount of the national revenues and commenced without delay. Already we believe, have arrangements then carry in the position of the position of the peninnula, through which it may peak and especially to Destroit, is becoming apparent to every on any of the public avenues leading west. Capitalists and men of business, Mechanica, Artisans and Laborges from abroad, are every day settling in this Territory, in anticipation of the benefits which will be derived from this important work.'

The distance from Detroit to Chicago, by way of the Lakes is about 675 miles; by the route of the railroad only 190 miles.

At present the aggregate amount of the national revenues does not equied the expenditures required; and when it is recollected that the revenues hithesto arising from the tariff imposts must be gradually and greatly diminished, there is no probability of that result. If then one particularly diminished, there is no probability of that result. If then one particularly diminished, there is no probability of that result. If then one particularly diminished, there is no probability of that result. If then one particularly diminished, there is no whalf be despoiled or alienated, a rent must necessarily be made in the funds canantial for the requirements of the general government. Destroy one source of revenue, and recourse must be had to another. The sales of the public lands produce a revenue beas objectionable or onerous than could otherwise he levied as a substitute. Whether any such tax would be cangesial to the feelings of our fellow-sitiness, or qualled be expendent in its object and moobjectionable in its opierations, should be restountly ensailered by the advances for the 'divisions of the general government, It may be possible for a representative to obtain for his state calmity and dispassionately consider, not what proportion they might and dispassionately consider, not what proportion they might acquire in the distribution, but how such a division of the revenues would effect the general interests of the nation :

CITY COUNCIL-FRIDAY, Au rust 7th,

precident,
A printing was ensaized from the proprietors of the in-tersected parts of Canal and Rappert atposts.

with this subject is the superiority of steam at high or low In England, except at the mines, low pressure a

In Engiand, exongilar the mines, low pressure at exa-densing engines are universally preferred. In our own country, particularly on the Mississippi high pressure engines are much in rogue.

It a low pressure engine, the steam is not used at its highest expansive furee, and is condensed as thooy inde-alternately after each stroke of the pi-ton.

In low pressure augines, the steam is rarely worked over 16 lbs, to the inch, in high pressure engines, it is community used at from 50 to 160 lbs. The dangers resulting from explosion are very little in one one and very great in the other.

proceeds being preparticularly distributable among the severai states of the union.

It is known that the preceds from the sales of public
lands form an integral partion of the revenue of the general
governance, it is hown that the lands formerly seeded by
states, were given that their sales amount might be exclusively applied to the treasury of the United States; and that
those ceded by treasy were acquired by purchase from the
finds of the general governance. And it is known that the
revenue arising from the sales, is invariably appropriated
for the purposes of the national governance.

But it is proposed by many to alienate this appropriation;
Any and all it is proposed by many to alienate this appropriated.
