Ammo Requirements for FECOM Reserve

G-4 CAS 6 Sept 51

1. 1. Reference conference attended by representatives your section, Ordnance GHQ, Ordnance JLCOM and G-4 GHQ request the following data be computed and furnished relative to ammunition requirements for the Special FECOM Reserve:

a. Weapons authorized by T/O&E.

b. 45 days of supply for reserve.

c. 1 basic load.

d. 1 year's training allowance.

2. Computations to be based on the following:

a. Weapons as indicated in T/O&E.

b. For 45 day reserve. Dept of Army Day of Supply rates as indicated in FECOM column of Supply Supplement dated 1 July 1951 as modified by DA msg 97436, July 51 will be utilized.

c. FM 101-10 will be utilized as a guide to compute the basic load.

d. One year's ammunition training allowance as authorized by AR 775-10 and changes thereto.

3. This does not constitute action to authorize issue of weapons and ammunition other than those previously approved but is required to insure adequate ammunition is being furnished and maintained for this project.

Request for Allocation of
60-mm Mortars and Training Ammunition

CAS-L G-4

22 SEP 1951

1. 1. Request that 548 each Mortars 60-mm, M19, w/mount, M5, w/Equipment and Sights be made available to this section for issue to MPRJ as a temporary substitute weapon for the units listed below.

12	Heavy Tank Companies	132
12	Field Artillery Battalions (Light)	216
4	Field Artillery Battalions (Medium)	72
4	Anti-aircraft Battalions (SP)	128
	Total	548

2. Ammunition, for the above weapons, based on allowance contained in par 55, AR 775-10 and Ord 7 SNL A-43 is requested for allocation as follows:

Shell HE, M49A2, w/Fuze, PD M52A1	5,480
Shell, Smoke, WP M302, w/Fuze PD M82	5,480
Shell, TP, M50A2, w/Fuze PD M52A1	43,840
Cartridge, ignition, M5A1	109,600
Shell, training, M69, assembly for 60-mm mortars	5,480
Fin, shell, training, 60-mm, M5	10,960

3. The units listed above are presently armed with small arms. It is highly desirable that this substitution be made to enable these units to gain the basic knowledge of a larger weapon. Training in indirect fire by Artillery units will be greatly enhanced with theaddition of this equipment.

GENERAL HEADQUARTERS, FAR EAST COMMAND, APO 500 19 SEP 1951

To: Commanding General, Japan Logistical Command, APO 343

1. It is desired that items on inclosed list be furnished Civil Affairs Section at such time as theater stocks permit.

2. Issue of equipment to Civil Affairs Section from Special FECOM Reserve or from theater stocks will be made only when specifically directed by this headquarters. When items are not available in Special FECOM Reserve, issue from depot stock will be made only when regular depot stocks exceed authorized theater levels for United States and foreign United Nations forces.

3. Ammunition requirements are now being computed by Civil Affairs Section. You will be informed of the quantities required upon completion of this study.

To: Commander-in-Chief, Far East, APO 500

1. Ref DA msg DA 95619, 7 July 1951.

2. Information is requested as to whether or not the items listed in basic ltr, and future training requirements of this nature, should be issued, in so far as possible, from the training ammunition included with the Special FECOM Reserve items now arriving and due to arrive in this theater.

3. It is pointed out that a requirement for the items listed in basic ltr and in ltrs your hq, file AG 471(19 Jul 51)GD, subj: Training Ammunition and Equipment, 19 Jul 51 and file AG 470(15 Jul 51)GD, subj: Explosives and Demolition Equipment for NPRJ, 15 Jul have not been previously forecasted nor are all of the items requested included in the quantities being shipped from the ZI (ref msg).

4. Ammunition issued prior to 30 Jun 51 to CAS for NPRJ use is shown in Incl 1. For the most part, requirements for the ammunition, listed in Incl 1, had not been forecasted and issues were made from Reserve Stocks or from quantities requisitioned for other purposes. Replenishment of stocks was effected by placement of requisitions subsequent to issue.

1. Reference is made to request in C/N 1 for loan of Engineer equipment to the NPRJ until similar items can be procured from indigenous sources.

2. The two (2) sets of Raft, Set No. 1, Infantry Support, and one (1) Water Purification Set No. 3, diatomite, portable, 35-GPM, are Engineer items. Sufficient quantities of the components required to assemble the infantry support rafts are on hand in Yokohama Engineer Depot stocks. The Water Purification set is also on hand and with the Raft equipment, can be made available on a loan basis to meet NPRJ requirements.

3. It is recommended that the above Engineer items be furnished the NPRJ on a 90-day loan basis. In the event further loan beyond this period is required, it is recommended that request for extension be referred to the Engineer Section for comment.

G-3 Plans

JHK/cmh

9 Aug 51

MEMO FOR RECORD:

SUBJECT: Immediate Loan of Equipment for Loan to NPRJ

1. DISCUSSION: a. It is desirable that the NPRJ be issued equipment in order to bring it up to authorized allowances. Ltr referenced in C/N 1 directs that 253 .50 cal M6s and 3080 M8 grenade launchers be released to CAS(A); whereas the numbers requested to be furnished are 255 and ~~3080~~ 3516 respectively. Informal coordination with G-4 (Col Griffin) indicates that appropriate adjustments will be made so that issues are not in excess of authorized allowances.

b. The MG M1917A6 is equipped with a shoulder stock and is fired from an attached short bipod. The MG M1917A4 has a backplate with a pistol grip and is fired from a light tripod. The A-4 is an acceptable substitute for the A-6.

2. INDICATED ACTION: G-3 concur in principle with the Ord O recommendation and call attention to the apparent discrepancy between the amount of equipment CAS(A) requests and the amount authorized.

3. RECOMMEND: G-3 initial C/N 4 and release to G-4.

4. COMPLETION: This completes action on Plans Div Case 8-51-22.
