1. Naval installations NW side of FUTAMI KO, just west of OMURA, CHICHI JIMA left and assessed as badly damaged due to amount of ordnance expended in area and visible smoke rising after attack. Hit by entire 12 plane flight.

2. It. Comdr. F.L. LAWLOR, Lieut. R.P. SOUZA, Lieut. E.B. McClure strafed gun posits NISHI

JIMA (} mile NE CHICHI JIMA) silencing 2 of 3 batteries.

3. Sugar Baker at HIGASHI KO, HAHA JIMA left burning by strafing of LAWLOR, SOUZA, McCLURE, and Ens. PROUTY, SPEIGHT, and NAVE. Its two 20 MM silenced on leaving.

4. Fires and explosions noted in harbor facilities on retirement.

Special sweep number 2 composed of 12 VF from U.S.S. LEXINGTON took off at 1500 K, ten (10) planes having R/P's and all having normal .50 cal armament.

Approach was made to CHICHI JIMA on a heading of 045° and arrival was effected ever the target at 17,000°. A high speed run was started altering course, spiraling down to 10,000° and then entering a 60° angle dive. Fire was opened while in the dive with R/P's being released from 1200/1000 yds slant range preceded and followed by .50 cal strafing. The flight flated about 2000°, course 330°, speed 410 knots.

Rockets and .50 cal fire were poured in the eighteen buildings in the Naval Installation area on the N.W. shore of FUTAMI KO just west of CMURA. Smoke and flying debris was observed. Some small craft chiefly luggers were observed in the harbor but passed up for more suitable rocket targets.

As the flight retired the target area their altitude ranged from the deck to 500. The first divison did not notice any "AA" but the second and third divisons reported tracer fire and also black puffs at 500 indicated that heavies were being employed. The speed of the flight precluded the pin-pointing of gun posits.

Ensign W.J. SCHWISSEUR was flying wing on It. Cdr. LAWLOR, first divison leader. Reports differ but it now appears that he was hit by "AA" over the target. He was seen to pull up and over the peninsula to the northwast on retirement and attain an altitude of 1500' at which point his plane was observed to be a fire along the center line, his position at that time being about five hundred yards north of NISHI JIMA. Here the plane did a radical split-S into the water. SCHMISSEUR was seen to bail-out and his chute opened. LAWIOR with others circled the spot using prescribed A/S/R technique over 4475 Kcs. It.A.H. GREGORY was despatched for aid. LAWIOR saw SCHMISSFUR in a slick sea with 'Mae West' and dye marker. LAWIOR dropped his own semi-inflated seat type raft near him but he did not go to it. Meantime "AA" posits on nearby NISHI JIMA were firing on our circling planes. LAWIOR, McCLURE, and SCUZA silenced two 20 MM guns there by strafing but were unable to knock out what probably was a 75 MM or a 5" battery. After circling for 90 minutes sight was lost of the survivor and departure taken. It is speculated that small arms fire from the shore may have accounted for the downed pilot.

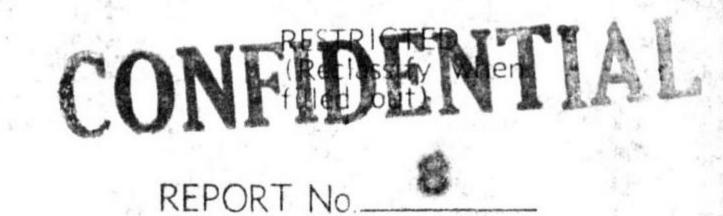

LAWLOR's plane was nicked in the rudder by 20 MM "AA" during his run on the initial target and SOUZA's plane was hit in the starboard horizontal stabilizer while circling SCHMISSEUR, the latter damaged by a fragment from the 5" posit on NISHI JIMA.

At this time four of the planes returned to base and the remaining six lead by LAWLOR hit NIGASHI MINATO on return. Approach on these targets was made at 8000' from SW to NE. A 60° angle dive was employed fire being opened at slamt range at 1000 yards concentrating on Sugar Baker in the inter harbor hitting it hard and damaging it extensively with smoke and debris observed. The flight turned its attention to the wharfing facilities pouring .50 cal into buildings and docks. Retirement was made out over the sea on the deck with "AA" from OKIMURI on the west side of the island becoming evident.

Return to the ship was completed without incident and the last of the flight landed on board at 1800K.
