BUSINESS CONDITIONS. PLEASE READ CAREFULLY.

TERMS on Florists' stock: To customers of approved credit, **60 Days**, except on certain Cash items. Special 3 per cent. discount for cash in Ten days (from these list prices only) not from the "Special" quotations and excepting Net Cash Items.

New Accounts: New customers, if not already well-known, will please send cash with first order if desiring to open an account send good references, property statement or other information concerning their commercial standing as they may be able to furnish. This will avoid delay which is very annoying. We cannot be expected to ship goods to those whose good standing is not known to us. For reference please name wholesale seedsmen or other well-known business men with whom you have had dealings—such information will be held in confidence.

Our Responsibility; While we always aim to have the best SEEDS, BULBS AND PLANTS which each season affords from reliable houses, we cannot and do not guarantee any of them to flower or produce a crop of flowers at the price given, or will we be responsible for the crop. We assume our customers to be acquainted with

these conditions and if the stock is not accepted on such conditions it must be returned at once and any money paid will be refunded. Live plants and like perishable stock should be sent by express; we cannot assume any responsibility whatever for safe arrival when ordered by freight. The remedy for loss must lie between the buyer and the Railroad Company, but we will gladly render all the aid we can.

We prefer not to send goods C. O. D., but when wanted in that manner some money must accompany order. **PERISHABLE** stock, plants, etc., are **Positively NOT SENT C. O. D.**

LOW EXPRESS RATES ON PLANTS.

We ship plants by all express lines to any part of the country Under the ruling of the leading express companies plants packed closed boxes or baskets are now being carried at the "GENERAL SPECIAL" rate, which means a reduction of 20 per cent. from the regular merchandise rate. Boxes weighing less than 100 pounds are charged at pound rates, but the minimum charge is 45c. For example, if the general rate is \$5.00 per 100 lbs., a box containing 25 lbs. will cost \$1.00, which is a saving of 25c.

JAPAN LILIAM LONGIFLORUM.

MULTIFLORUM Type.

The true variety under this name will produce more flowers per bulb than other types, but it is difficult to secure true stock of this unmixed with other grades. Our Japan growers promise that our stock shall contain 80 per cent true type.

GIGANTEUM (Dark Stem.)

While ordinarily considered later than other varieties of Longiflorum, it has proven with our customers as early as any, and when shipped and planted fairly late has formed fine plants even in growth and fairly early in season. The type is free flowering and true. The dark stems readily prevent mixture in the growing crop.

LILIAM CANDIDUM. “THICK PETALED.”

It is known to most growers of this Lily that there are two strains. The flowers of each show in substance a marked difference. The better one shows a wider flower, with petals much more firm and greater substance. We import at a much larger cost the true “Thick Petaled” bulbs and they have given our customers excellent satisfaction.

NEW VERBENA, ELLEN WILLMOTT

Of recent introduction and one of the most meritorious Novelties amongst the Verbenas. When first shown in London and Continental markets where it is highly appreciated, this Verbena proved to be a ready money maker. It makes a fine pot plant, is equally valuable as a cut flower and an excellent bedding plant and no Garden should be without this striking new variety. It is readily propagated from cuttings, and fine pot plants may be had quickly by planting from 3 to 5 rooted cutting into a 5-inch pot. Rooted cuttings or young plants, ready Dec. 1st. Our Position in the Flower Seed Business

WE not only offer really good novelties, but with them, our own specialties and many kinds little known in this country, which we deem of special value and worthy of introduction to our trade. Our years of practical experience in this country and Europe, continually reinforced, place us in the best possible position to satisfy the most critical lovers of Gardening.

FLOWER SEEDS FOR SOWING

IN SUMMER

Cinerarias, Primulas, etc., also perennials. We issue a special circular in May. Should you fail to receive one, please write for it, as we have some very desirable novelties to offer.

WE handle Flower Seeds in large quantities and have most of the popular sorts grown on contract by reliable growers in Europe and this country. We are personally acquainted with them and have repeatedly inspected their cultures. In many cases we furnish our own specially selected stock seed.

These facts and conditions place us in practically the same position as the larger European Houses as to costs, etc., with the additional advantage that through intimate knowledge of American tastes, conditions and requirements we are perhaps better able to supply mixtures in the proper proportions of popular shades and colors.

We can make early deliveries, since we have many of the seeds that require early sowing sent to us as they mature.

PLEASE NOTE

Trade packets contain considerable more seeds than ordinary or retail packets, being based on Florists' needs for ordinary purposes. Florists invariably get trade packets unless otherwise specified.

VAUGHAN'S ASTERS.

Our Aster seed is raised by *experienced* and *reliable* seed growers, in many cases from our own stock seed, and should not be compared to stock raised in the South or by experimenters who use no care and lack experience.

THE CARLSON ASTERS

"THE CARLSON."

A selection of the Paeony-Flowered type, this new Aster is now the favorite in the Chicago cut-flower market. The flowers are large and firm, the stems long and stiff and the colors are decided and pleasing. The plants grow about 36 inches high and come into bloom before the Branching Asters.

Our seed of this is saved from plants that were not blighted and were grown for the seed only. There is also a lot of seed in the market that is saved from inferior flowers, the best having been sold for cut-flowers.

HOHENZOLLERN ASTER.

The finest type of the Giant Comet or Ostrich Feather type of Asters. Much larger than the Giant Comet, the petals longer and more curled and twisted, and produced in greater abundance. Borne on long stems, which makes them cut-flowers par excellence.

Hohenzollern, White. This is considered the grandest Aster ever introduced. Plant tall-growing, branching and bearing on very long stalks, flowers on stalks of from 1 1/2 to 2 feet in length, measure up to 8 inches across, being densely double, finely curled and bearing the greatest resemblance to a large-flowered Japanese Chrysanthemum. Unequaled as a cut-flower and highly effective for tall beds and groups. Trade pkt., 25c.; 1/4 oz., 40c.; oz., \$1.40.

Hohenzollern, Rose, Crimson, each, trade pkt., 30c.; 1/4 oz., 40c.; oz., \$1.50.

VAUGHAN'S UPRIGHT BRANCHING ASTER

Early Flowering Hohenzollern Aster.

Like the above as to habit and shape of flowers, and about twice as large as those of the Queen of the Market, while just as early as that variety. One of our German seed grower friends writes us. "This is the most perfect of all White Asters up-to-date."

This mixture being made up by ourselves, we know it to contain only the most salable colors for cut-flower use, and offer it as a good substitute for the higher-priced separate colors. NEW LARGE-FLOWERING CALLA.

Calla Devoniensis.

BLOOMING CALLAS FROM SEED IN 1 YEAR.

The most beautiful and best Calla up to date, without a doubt. It is equally valuable for pots and cut. It produces from 3 to 4 times as many flowers as the older sorts.

The seedlings come true and will bloom profusely the first year. This Calla came from England about 6 years ago and is a great improvement on *C. Aethiopica*. Its willingness to bloom is phenomenal, while its culture is of the simplest.

One-year-old plants often produce from 6 to 8 flowers which are of great beauty. They are pure white, large and are borne on stout stalks. They are also good keepers. If sown at intervals of 4 to 6 weeks this Calla can be had in bloom all the year. 100 seeds, 75c.; 1000 seeds, \$6.00.

NEW EVER-BLOOMING ASTER, "IDEAL."

This new Aster produces, perhaps, more salable cut flowers to a plant than any other kind. The plants grow from 16 to 18 inches high and are in bloom from the beginning of August to the end of September almost uninterruptedly. In shape the flowers resemble the Victoria type, except that the petals are looser so as to give the flowers a very graceful appearance. White, light blue, dark blue, crimson; each, trade packet, 15c.; 1/4 oz., 30c.; oz., \$1.00.

SHASTA DAISY

IMPROVED SHASTA DAISY SEED.

Burbank's 1904 Selection.

Fluted, quilled, curled, fringed, lacinated, semi-double, pure white and lemon yellow, selected varieties. The very cream of the whole Shasta Daisy collection. New types offered for the first time. 300 seeds, \$1.00, 1000 seeds, \$4.50.

The seed we offer is Mr. Burbank's own selection. Shasta Daisies can be grown out of doors by everybody where it is not cold enough to kill oak trees. They bloom for several months—in California nearly all the year. The flowers are very large and graceful—averaging about four inches, often more, in diameter, with three or more rows of petals of the purest whiteness, on single strong, stiff, wiry stems, nearly 2 feet in length.

Burbank's own saving, and he writes: "This seed will produce a greater proportion of large, clear, bright colored, perfect double flowers than any ever before offered; 90 per cent of good flowers can be expected." The colors are salmon, light and dark crimson, deepest purple to maroon and almost black, light straw, deepest yellow and a few white, mostly of the Cactus type this season. Pkt. (100 seeds), 50c.

EW DAHLIA, "20th Century." The New Orchid Flowered Dahlia. The flowers are very large, single, 4 1/2 to 6 inches in diameter, of perfect form and exquisite finish. The color is intense rosy-crimson with white tips and white disc around the yellow center. The color contrasts are exquisitely lovely and can be compared with the beautiful orchids. The flowers have stems 2 to 3 feet long, keeping a long time after being cut in perfect condition. Pkt. (100 seeds), 30c.

NEW CLIMBING NASTURTIUM.

Mad. Gunther's Hybrids.—For richness and variety of colors these Hybrids have no equals among Nasturtiums. There are shades of rose, salmon, brightest rose, pale yellow, either as self-colors or spotted and striped. The foliage is mostly dark and contrasts very effectively with the rich colors. They are climbers and continuous bloomers. It is impossible to describe all the different colors, but some of the most striking are as follows: White, shaded carmine on the edges, with deep maroon throat; golden-yellow, shaded brown on edges; yellow, shaded and mottled with carmine; white, with red blotches; shrimp pink, with deep maroon throat; shrimp pink, self color; rose, bright rose, bright yellow, orange, etc. Oz., 10c.; ¼ Lb., 20c.; Lb., 70c.

VAUGHAN'S SPECIAL MIXTURE OF..... CLIMBING NASTURTIUMS. VAUGHAN'S SPECIAL MIXTURE OF..... DWARF NASTURTIUMS.

There is no mixture of Nasturtiums equal to these two. We know it. Everything that is choice (including all the varieties on this page) is found in these mixtures, and we stake our reputation on their quality as well as on that of Vaughan's International Pansies, Vaughan's Petunias, "Vaughan's Best" Verbena, Phlox and all other flower seeds.

VAUGHAN'S PANSIES.

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. Trade Pkt., 50c.; ½ oz., 75c.; ¼ oz. \$1.35; oz. \$5.00.

PSYCHE. Not one of the many Pansy varieties has such a winning appearance as Psyche. The plant is perfect in habit and very floriferous. Each flower is elegantly curled and undulated and in every respect a beauty in form and color. The characteristic five velvety violet blotches or eyes are surrounded by a broad white edge. Comes true from seed. Trade Pkt., 50c.; ½ oz., 80c.; oz., \$5.00.

BRIDESMAID. The flowers of this new interesting variety are very large and of fine form. Its ground color is a Rosy White, rivaling in delicacy and beauty with the finest Apple-blossom, and most strikingly setting off the dark blotches of the center. Trade Pkt., 25c.; ½ oz., 50c.; oz., \$3.75.

"ROSY MORN" A bright purplish crimson margined with a clear white edge. In early spring the color is very deep and rich; as the weather grows warmer, the color gradually turns a pleasing rosy carmine and the silver edge becomes wider. Trade pkt., 25c.

GIANT PRETIOSA. The flowers of this novelty are similar to those of the Masterpiece Pansy, each petal is marked with a very large blotch of deep violet color, these blotches are surrounded by a brilliant crimson rose background and the ground color is margined with a pure white edge. A very effective and bright variety, and we are sure that this novelty will please our customers. Trade Pkt. (250 seeds), 25c.

NEW ORCHID--FLOWERED PANSIES. A most interesting type of Pansies of the Giant Flowered Class, containing a mixture of the most surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is in light shades, the petals are marked with large brown or golden yellow blotches which diffuse into rays and veins toward the edge. The upper petals are upright and sort of plaited, which gives the flowers their resemblance to orchids. The colors range in the terra cotta shadings as well as in the flesh, orange, rose, pink and lilac. Trade pkt. (250 seeds), 25c.; ½ oz., 65c.

VAUGHAN'S "ELITE" MIXTURE OF PANSIES. This is not a complete mixture like our International; it does not contain any pure white, yellow or any self colors, nor any other of the well-known kinds. It is comprised of the cream of four Pansy specialists' choicest and most expensive mixtures and such new and novel kinds as listed above. It is a mixture that will please everybody who knows and likes Pansies and can appreciate quality in color, shape, size and substance, in fact everything that makes a perfect Pansy. Trade Pkt., 50c.; ½ oz., \$1.00.

VAUGHAN'S INTERNATIONAL PANSIES

—THE WORLD'S BEST. This is a combination of as many separate colors, types, blendings and unique kinds as can be found in the world. It has been made up and sold by us for fourteen years; it is the best general mixture in existence and is most widely known and popular. It is used by most florists. It received the highest award at the Columbian Exposition and was awarded the gold medal at Omaha in 1898, and a medal at the Buffalo Exposition in 1901. It contains the cream of the Pansies listed on this page and besides 8 different strains, the crack selections of noted Pansy specialists, which we purchase every year especially for this mixture and which cannot be had in any other way. We beat the world on Pansies.

"VAUGHAN'S BEST" LARGE-FLOWERING SINGLE PETUNIA.

The Christmas Pepper.

For several years we have made a specialty of this Pepper at our greenhouses, where we have grown several thousands in a season. They are ready for the market in October and November, lasting until Christmas, and the plants have sold like the proverbial "hot cakes." The plants grow about 12 to 15 in. high and are covered with their scarlet fruit which stays on for months. It is a selection from the Celestial Pepper, but is now entirely distinct from it; the fruit is smaller, more chunky and the plants grow more compact, while the fruit is borne right above the foliage as shown in our illustration, and therefore present themselves to best advantage. This Pepper is of easiest culture. It is one of the prettiest pot plants and everybody can be successful with it. Complete cultural directions are printed on each package. **250 seeds, 25c.; 1000 seeds, 75c.** The seed we offer is of our own saving.

CHINESE PRIMROSE—TYPE OF INTERNATIONAL STRAIN.

**NEW
PRIMULA = BUTTERCUP.**

A free-flowering yellow primrose coming into full bloom for Thanksgiving and Christmas trade, and continues covered with bloom during winter and spring. The buttercup primrose is unquestionably a fine thing. Those who had it on sale the past season regard it as one of the best flowering plants they have ever handled. It makes a fine house plant, and gives general satisfaction. It grows freely from seed, requires the same treatment as the Chinese primrose and makes a famous pot plant.

This primrose is so floriferous that it is necessary to keep the flower buds pinched out until about the first of October, in order to get the plant to make growth instead of all bloom.

By planting five or more seeds to the pan, according to the size required, you can have magnificent specimens. These should be made up during September, to give the plants time to fill the pan and cover it entirely with yellow blossoms. 250 seeds, 15c.; 1000 seeds, 50c.

PRIMULA OBCONICA GRANDIFLORA.

Vaughan's International Primula Mixture.

This mixture is composed of the most salable colors of Single Flowering Chinese Primulas, the best whites, pinks and reds, with a sprinkling of other colors enough to give a large variety of colors, the most important shades predominating. We have taken special pains to make this mixture as complete as possible and unreservedly recommend it to everyone. **Pkt. of 250 seeds, 50c.; 5 pkts. 1250 seeds, \$2.00; per 1-16 oz., \$2.50.**

Florence Fraser An Improved Blanche Ferry. Color, pink and white; flower stems 12 to 14 inches long and very stout, bearing three or four large blooms. Mrs. Geo. Higginson, Jr. A clear light blue, showing practically no tint of mauve. Countess Spencer Hybrids

THE NEW ORCHID-FLOWERING SWEET PEA

The type and form of these is a complete departure from anything yet introduced. Both the wings and standard are very large, and its graceful form, together with the immense size, makes it by far the most attractive variety in existence. There are five or six distinct shades contained in this mixture, but all are of the large flowering type and of the same form. The different shades it contains are as follows: Deep pink, light pink, ovoid shade, orange-pink, white with light pink edging. 1/2 oz., 10c.; oz., 20c.; 2 ozs., 35c.

King Edward VII. A true giant flowering variety, with strong stems and growth, with no inclination to burn in the sun. A fine variety, much brighter than either Mars or Salopian; in fact, the best dark red in existence. Oz., 10c.; 1/4 lb., 20c.; lb., 50.

GRAND RAPIDS FORCING CUCUMBER

This originated with Mr. Davis, the raiser of the Davis Wax Bean and Grand Rapids Forcing Lettuce. It embodies his ideas of a greenhouse Cucumber, in regard to size, shape, color and productiveness. This Cucumber is the result of many years' of selection and of reselection. It is a very shy seeder. This Cucumber has been shipped for several seasons to some Chicago commission men who have always found for it a ready sale even in preference to home grown stock.

Price, per pkt. (65 seeds) \$1.00, net.

LETTUCE

A quick grower.

VAUGHAN'S "ROSE-GROWER"

BONE MEAL

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, 4½ to 5½ per cent; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

Sprayers.

One of the best compressed air sprayers on the market. The tank has a capacity of 3 gallons and is tested to an air pressure of 50 lbs. to the square inch, which obviates any danger of bursting. Splendid for spraying pot plants in stores, etc. Always ready for use and never gets out of order. We have used one in our store for the past year and now find we cannot do without it. Price: Galvanized Tank, \$5; brass tank, \$6.

THE FOUNTAIN.

AUTO SPRAY.

Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved this season by the addition of the "Auto Pop," shown in illustration. Briefly described, the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control. Price: Galvanized iron reservoir, \$4.50; with Auto Pop, \$5.50; solid copper reservoir, \$6.00; with Auto Pop, \$7.00; Brass Extension Rod, in 2-foot lengths, each, 35c.; Galvanized Extension Rod, in 2-foot lengths, 25c.

The top flange will hold any ordinary pot upright, or by using the four-pronged crotch attachment, a pot can be placed on its side at two different angles; a very useful contrivance for temporary decoration. 1 stand, \$1.50; 3 stands, \$4.00; 6 stands, \$7.50; 12 stands, \$14.00.

THE VAUGHAN GREENHOUSE BARROW.

We have had numerous calls for a wheelbarrow which could be used in greenhouses; the ordinary barrow being too wide for that purpose, and we had built for us a special barrow which will fill this want to perfection. It is strongly built, very neat affair, of the following dimensions.

Box, 14 in. wide at the wheel end.
16 in. wide at handle end.
12 in. deep.

The bottom of the box is matched and glued together, and there is no crack against which a shovel might run. The wheel is of steel, 17 inches high, with a 2 1/2-inch tread; the axle is 15 inches wide. The barrow is 20 inches wide over all, and is made of the very best material, nicely painted and varnished. The legs are reinforced by iron straps. We consider it the very best barrow of the kind in existence. Price, \$4.50.

THE GLOBE GARDEN WHEELBARROW.—Measurement of box, 30 inches long, 19 inches wide at wheel, 24 inches at handles. Price: with steel wheel, \$3.60

VASES.

FLORISTS' GLAZED FIBRE.

Furnished in deep, rich brown glaze; absolutely water-proof. Largely used for displaying cut flowers. Can be used for many purposes. More desirable than glass or earthen, because they are light, strong and will not break if dropped. They pay for themselves in a short time.

These vases are shipped from Chicago. If wanted from New York add 10 per cent to prices below. These being made by a Western concern, we cannot furnish the sizes exactly as given if shipped from New York; but the variations are not important.

CLARA CEMETERY VASE.

It is one of the most useful as well as handsome articles ever placed on the market. Of beautiful solid mounted glass, 12 inches high. It takes the place of all the old tin cans, bottles and like unsightly receptacles often used in the cemetery where only the attractive and ornamental should be seen. The lower end is sharp pointed so it can be embedded about six inches in ground and stand firm. It will hold sufficient water to keep the flowers fresh and sweet, and will accommodate flowers with long as well as short stems. The vase is bell-shaped and the top has a diameter of about five inches.

Eureka.—The best little hand weeder for loosening soil around plants that we know of. Thin forged steel fingers. Short handled, 25c; long handled, 35c

This new idea as a weeding device has made itself an immediate favorite with growers wherever it is tried. Does not cut or destroy the roots of plants. The pushing edge is thin enough to work easily through the soil, but is too dull to damage the stems of plants, should it come in contact with them. The inner edge is sharp. Takes out all the weeds; its oval shape permitting the operator to weed behind the plants while standing in front.

BROWN'S EASY WEEDER

THE MAN WITH THIS WEEDER CAN DO MORE WORK THAN YOU CAN DO WITH ANY OTHER WEEDER ON THE MARKET. IT'S THE BEST!
