New Dahlia
"Bridal Veil"

Grown at
Westerly,
Rhode Island

George L. Stillman

DAHLIA SPECIALIST

THE NEW CACTUS DAHLIA "GEO. L. STILLMAN" AND ITS ORIGINATOR

The accompanying illustration is from a photograph taken to demonstrate what the necessary quantity of water will do for a Dahlia in a dry time. After one flower had nearly opened on this plant it appeared to come to a standstill. Buds died, the foliage grew bushy, lacked a lively color, and no more buds appeared. I immediately pulled up a ridge of soil a little away from the plant, forming a reservoir that held two pails of water. The plant was then supplied with four or five ten-quart pails of water every third day until rain came.

When this photo was taken there were seven full flowers, two half open, and nine buds that showed the color of the flower more or less. Three of these flowers measured 7 inches in diameter and all the others over 5 inches.

Very few people realize the quantity of water needed to carry a Dahlia through a dry period. Not only does a Dahlia absorb the moisture, but the dry ground around also draws on the supply.

WORLD COURT

The World Court, No. 2687 (Decorative)

Color, canary yellow heavily clouded and striped with pink and fawn. The yellow shows more prominently in center of the dahlia. It possesses heavy, wide petals with a never failing center. A huge flower on long stems. One of the dahlias without any disbudding or special care with four other blooms and a half dozen buds on the plant measured over 9 inches across. With disbudding the size is unlimited.

Price per bulb, **\$100.00**

Greetings

NEVER has there been a time when I felt more like greeting my customers with a hearty hand shake, especially those with whom I deal each year. To know by repeat orders that my efforts to please them are satisfactory everytime they entrust their business to me—is indeed most gratifying. I think you will all admit with me that all lovers of the dahlia who have room for only a half dozen bulbs as well as those who grow acres of them are of a more heart-to-heart family like disposition than those interested mainly in any other particular flower. We all take pride in our dahlia garden. We work in it cheerfully and happily; many times whistling and singing unconsciously as we study their ways and needs.

Do we not often stand as if in a trance looking at a new comer as it unfolds its inspiring array of colors? What other flower has such attractions, such winning ways? It appears to know its mission, that of supplying beauty, charm, and unlimited pleasure.

The dahlia's admirers are increasing by leaps and bounds, and well they may. We who started growing the dahlia when very few people had ever seen or even heard of anything more than the common small flower, which was taken up in the fall in clumps, thrown into one corner of the cellar with a red rag around one clump, a pink one on another, and a white or yellow one on another, and so on; and in the spring planted again without dividing, can perhaps more appreciate the advancement in its beauty and size. With all the labor, study, and long hours of steady care which many of us have experienced, it has been a great source of life giving pleasure known only to those who have experienced it.

My main field has been a source of great attraction for thousands of tourists the past season. I wish here to emphasize the fact that my fields are always open for inspection and I cordially invite all whether already my customers or not to visit Westerly and my dahlia fields.

Visit Watch Hill, a popular summer resort only four miles distant, and one of the prettiest spots on earth.

GEO. L. STILLMAN.

*Have you the real race begun?
The prize is not yours till won.*

REGARDING NEW YORK OFFICE

The building in which my New York Office has been located is being remodeled. This fact compels me to discontinue it. Until further notice I will meet my customers in New York by appointment.

CLASSIFICATION OF DAHLIAS

AS ADOPTED BY THE AMERICAN DAHLIA SOCIETY

Cactus Dahlia. a. True, fluted type. Flowers fully double; floral rays (petals) long, narrow, incurved or twisted, with sharp, divided, or fluted points with revolute (rolled back) margins, forming, in the outer florets, a more or less perfect tube for more than half the length of the ray.

b. Hybrid cactus or semi-cactus type: Flowers fully double; floral rays short as compared with previous type, broad, flat, recurved or twisted, not sharply pointed except when tips are divided (staghorn), margins only slightly revolute, and tubes of outer florets, if any, less than half the length of the ray.

Decorative Dahlias. Double flowers, full to center in early season, flat rather than ball-shaped, with broad, flat, somewhat loosely arranged floral rays with broad points or rounded tips which are straight or decurved (turned down or back), not incurved, and with margins revolute if rolled at all.

Ball-Shaped, Double Dahlias. a. Show type: Double flowers, globular or ball-shaped rather than broad or flat, full to center, showing regular spiral arrangement of florets; floral rays more or less quilled or with markedly involute margins and rounded tips.

(The class called Fancy Dahlias is not recognized separately in this classification, but is included in the sub-section A.)

b. Hybrid show, giant show or colossal type: Flowers fully double, broadly hemispherical to flatly globular in form, loosely built so spiral arrangements of florets is not immediately evident; floral rays broad, heavy, cupped or quilled, with rounded tips and involute margins.

c. Pompom type: Shape and color may be same as A or B; but must be **under two inches in diameter.**

Paeony-flowered, or "Art" Dahlias. Semi-double flowers with open center, the inner floral rays being usually curled or twisted, the other or outer petals being either flat or more or less irregular.

Duplex Dahlias. Semi-double flowers, with center almost exposed on opening of bud, with petals in more than one row, more than 12, long and flat, or broad and rounded, not noticeably twisted or curled. Many so-called Paeony-flowered Dahlias belong here.

Single Dahlias. Open centered Dahlias, small to very large, with 8 to 12 floral rays, more or less in one circle, margins often decurved (turned down or back). There are no distinctions as to colors. The type embraces the large Twentieth Century, as well as small English varieties.

Collarette Dahlias. Single type: Open centered blossoms with not more than nine floral rays with one or more smaller rays, usually of a different color, from heart of each ray floret, making a collar about the disc.

GENERAL INSTRUCTIONS

IT IS IMPORTANT THAT YOU READ THESE CAREFULLY! ORDER EARLY

First of All.—Send me your order as soon as you receive my catalogue, as the demand for some varieties often exceeds the supply, and those who order early are less liable to disappointment than if they waited till the rush at the time of planting. ORDER bulbs sent **early** to avoid disappointment. Kindly order by **name** and not by number.

If you do not want to spare all of the money to send with the order, send the order along, together with one-quarter of the amount as a guarantee of good faith, and the balance can be remitted when you receive notice that your order is ready to ship.

Customers who are not personally known to me will be notified when to remit the amount of their bill.

Bulbs are shipped as soon after April 1st as convenient, unless otherwise specified.

When sending orders use the Order Blank furnished with this catalogue. Any number of additional Order Blanks may be had upon

application. When filling out the Order Blanks, be sure to fill out the Second Choice columns as well as the First Choice.

It is well to mention the varieties that you are willing to have substituted in case some of those selected are all sold out. Or, if requested, I will select such varieties as will substitute to best advantage. Otherwise, money sent for such bulbs will be returned to the sender.

Size of Bulbs.—Some varieties of Dahlias always produce very small bulbs (or tubers), while other varieties make large ones. So do not consider small bulbs as worthless, for they are equally as good as large ones.

I Guarantee Every Bulb I Sell.—The utmost care is always exercised in selecting every bulb I send out, and every one is believed to have at least one good sprouting eye that will produce a good plant under proper care, or replace it with another.

GENERAL INSTRUCTIONS—Continued

Bulbs to be replaced after July 1st will be booked for shipment the next season only, and in all cases the bulbs to be replaced must be returned.

I guarantee all bulbs to be true to name and sure to grow at the time they are sent out.

The best way to send money is by registered letter, money order or express order.

Do not hesitate to send small orders. An order for one bulb will be as carefully filled as an order for one thousand.

Terms.—Cash invariably in advance, or C. O. D. On all retail orders fully paid for in advance I will prepay carriage to any part of the United States. This does not apply to special collections.

ATTENTION.—Orders taken in the Fall not fully paid for will be sent C. O. D., unless previous arrangement has been made.

Do not delay ordering until the time to plant, as many varieties may be sold out before that time. ORDER EARLY.

If bulbs are received before it is convenient to plant them, they should be covered with moist earth until planted.

I use the utmost care to prevent errors in labeling and packing, but if an error does occur, kindly notify me, that it may be rectified immediately.

Please bear in mind that orders are booked and assembled in rotation as received, and are packed to be shipped at the time your order specifies.

Address all orders and communications to Geo. L. Stillman, Dahlia Specialist, Westerly, Rhode Island. **Important.**—It is essential that you use the initial "L." as there are several Geo. Stillmans in town.

LOCATION OF GARDENS

No. 1—25 Granite Street (Residence). No. 2—Stillholme (Farm), Ashaway Road.
No. 3—(Main field), Watch Hill Road, opposite Cemetery.
No. 4—20 Newton Avenue, Office and shipping dept.

Do not hesitate about ordering Dahlia Bulbs on account of distance, for they go safely by mail or express to any part of the world

You should notify me if you change your address, as the postmaster will not forward catalogues without extra postage.

POINTERS ON GROWING DAHLIAS

There are always some people who do not succeed in growing Dahlias with their first season's experience, and are naturally very much disappointed. To those I wish to say that it is not due to a fault of mine or of the bulbs, but is wholly due to your method of cultivation, kind of soil, or weather conditions. A glance through the hundreds of letters I receive from pleased, enthusiastic people who purchase their stock from me is positive proof that my stock is without fault. Exercise a little patience and a whole lot of good common sense and you will grow as nice Dahlias as anyone.

The Right Kind of Soil.—The kind of soil for Dahlias is a light loam or a stony knoll or side hill.

It is very essential that the soil has good drainage. A rich soil is all right if it has good drainage. Heavy, solid ground will produce an abundance of foliage and few and inferior blossoms.

It should be borne in mind that the poorer the soil, the more fertilizer it requires, and the lighter the soil, the more water it needs. See directions for watering elsewhere. It is a very unwise thing to advise no fertilizer in growing Dahlias, especially in the Eastern states. As a rule nothing will grow without sufficient nourishment. Heavy soil is usually quite rich and when lightened as directed elsewhere, will not need as much fertilizing as weak, light soil.

Heavy Soil.—If your soil is heavy with a clay sub-soil, it should be lightened with coal ashes or sand. If coal ashes are used, the coarser that they are the better, the main object being to make the soil lighter, more porous, and to give it a good drainage. I have seen Dahlias grown to perfection on a spot where the soil was nearly clear coal ashes.

In applying coal ashes they should be plowed, or spaded in, broad cast, 10 to 18 inches deep, and not dumped in one spot where the Dahlia is planted. One part coal ashes, or sand, and one part soil will not lighten it any too much. This will give a better drainage and allow the sun to act on the soil to a greater depth.

Ashes from either hard or soft coal will do but on **very heavy** soil those from soft coal

POINTERS ON GROWING DAHLIAS—Continued

are preferable, being much coarser. Both kinds mixed together are also desirable.

Watering.—Watering is one of the most essential things in producing perfect blooms on your Dahlias. 90 per cent. of the failures in growing Dahlias is due to lack of water when the hot days of Summer come. Did you ever notice that the stalk of the Dahlia is about all water except the outside shell, and that where sufficient water is supplied the hole in the center of the main stalk is nearly full of water?

The Dahlia, as soon as it begins to bloom, will absorb the moisture from the soil for a distance of two or three feet. For example: Dig down deeply amid the roots of the Dahlia and then again about 4 or 5 feet from the plant and observe the difference. The dry hot days come earlier some years than others, but usually when the buds begin to open it is time to begin watering.

The best method of doing this is to make

a basin-shaped mound of earth around the plant, about 2 feet in diameter, and into this basin turn three or four water pails full of water as often as every three or four days. Fertilizer is used to obtain size, water to make richness of color and perfection. Try it.

Planting.—The ground should be plowed or spaded to a depth of 8 to 10 inches. Make the drill to receive the bulb, 12 to 16 inches long and 6 inches deep, and about 6 inches wide. Lay the bulb down flat in the drill and then apply the fertilizer on both sides of the bulb, 4 to 6 inches from the bulb. If pulverized Sheep Manure is used, about one pint to one quart is usually sufficient to each bulb according to the strength of the soil. If poultry manure is used one pint to each plant is sufficient.

It is very desirable to plow in a quantity of stable manure broadcast. Always stick the stake in the ground before covering the bulb and thus avoid piercing any part of the bulb.

FERTILIZER FOR DAHLIAS

I am prepared to furnish both the Pulverized Sheep and Poultry Manure. They are both thoroughly pulverized and kiln dried, and all germs of weeds or grass destroyed. It is perfectly dry and convenient to handle. It is put up in 50 lb. and 100 lb. bags, and can be readily shipped by express or freight. Both of these fertilizers are especially adapted to dahlia growing and for all kinds of garden truck generally. For corn I especially recommend the poultry. Price of poultry in 100-lb. bags, \$4.00; 50-lb. bags, \$2.25. Sheep in 100-lb. bags, \$3.00; 50-lb. bags, \$1.75, F. O. B. Westerly.

A TALK FOR THE BEGINNER

A FEW THINGS THAT SHOULD BE CONSIDERED

Do not expect to grow as large flowers as an expert the first year that you try Dahlias, for with any flower you need some experience as well as instruction in order to have great success.

One of my customers said that he had no luck with Dahlias until he read my catalogue. There he found the very information that he needed, viz.: **How to lighten the soil and render it porous.**

If you have a heavy growth of plants and no flowers it is an indication of too heavy soil, or the same result will be encountered

on some dry, rich land. In the latter case water is what is needed and in great abundance, say three or four pails of water three times a week to each plant, with some liquid fertilizer once a week.

Notice that after a heavy rainfall Dahlias take on a new life and the flowers are fuller in the center and more brilliant in color.

All the Dahlias described in this catalogue as to color and shape are described to the best of my ability, but I do not guarantee them to fully meet the ideas of all purchasers in regard to color shadings.

NEVER STAND THE BULB ON END WHEN PLANTING

The best method of planting in the field is to make the distance between every other row 3 and 5 feet, respectively, thus affording a passageway on one side of each row after the plant will become large and fill the 3-foot space. 2½ to 3 feet apart in the row accord-

ing to the nature of the plant is about the right distance when 3- and 5-foot spaces are used. Do not plant near trees or shrubs, as tree roots will take the strength of the soil from the Dahlia. In the open by themselves is the best place. Avoid the south side of a

POINTERS ON GROWING DAHLIAS—Continued

large building where the sun is extremely hot without a good circulation of air, for the flowers will burn on the back before fully open.

For early flowering they may be planted any time after May 1st or as soon as all danger from frost is passed.

Some people have an idea that the larger the bulb the better the plant it will make, but this is not the case. A small bulb is just as good as, and in many cases better than, a large one.

The Clumps should be divided about the time that you are to plant in the Spring. At this time you can readily see where the sprouts are and with the use of a knife the head of the clump can be split through between the sprouts, or eyes, taking whatever bulb, or bulbs, would come off with one sprout. One sprout is always better than more. If the sprouts are over 2 inches long when you plant the bulb it is better to cut them off a half-inch from the bulb and a new sprout will come and make a better one than the slender one that grew in the cellar.

Care of the Plants.—Keep the ground well cultivated and free from weeds. A frequent stirring of the surface is very beneficial. An application of some standard fertilizer raked into the surface of the soil around the plants two or three times during the season will be very helpful to the development of the flowers.

Never leave more than one or two stalks in a hill. You will have better plants and larger flowers if you will allow only one sprout to grow.

When the buds begin to open a dressing of liquid fertilizer around the plants, several times in a season, will also be beneficial.

Stakes may be used to advantage to prevent plants from breaking down.

Disbudding.—The proper way to disbud the plants is as follows: If the first, or crown bud, appears to be weak or defective, cut it off.

Then when flowers appear on branches, cut them for decorative purposes, below one or two joints, thus removing with the flower whatever buds and foliage may be there. The flowers and foliage cut thus give a better effect for whatever purpose they are to be used. This method is a good invigorator for the plant and at the same time does all the disbudding required on the majority of Dahlias.

Remember, if bulbs are received before you are ready to plant them, cover them with moist earth to keep them from drying up.

Care of the Bulbs in Winter.—After the frost has killed the foliage, lift the clumps with a spade fork and allow them to dry in the sun about half a day. They should then be stored in a place free from frost. If an old-style cellar without cement bottom or heat, they need not be covered, but if cemented and heated by furnace, they should be covered with papers and cloth to keep the air from them and thus prevent too much shriveling.

On the following pages will be found the 1925 prices for divided field-grown roots.

A MAN that's clean inside and outside; who neither looks up to the rich nor down on the poor; who can lose without squealing; who can win without bragging; considerate to women, children, and old people; who is too brave to lie, too generous to cheat, and too sensible to loaf; who takes his share of the world's goods and lets other people have theirs—this is the ideal conception of a true gentleman.

 Like Nature, true in word and deed,
 Her soil was blessed with noble men.

The Ocean Group

THE OCEAN GROUP
 ORIGINATED BY GEO. L. STILLMAN
NEW GROUP FOR 1923

Pacific Ocean, No. 2348

A mammoth Pæony-flowered Dahlia of a salmon pink color clouded darker in some flowers. The florets fold nicely, and twist and curl in a most exquisite manner. An exceptionally beautifully formed flower and an attractive color.

Price, \$15.00

Arctic Ocean, No. 2326

This beautiful Pæony-flowered Dahlia in color and form is all that can be desired in a dahlia. It is borne on long, stiff stems and is a beautiful peach pink with a few lines of cream. A very attractive, mammoth flower.

Price, \$15.00

Indian Ocean, No. 2444

This mammoth Decorative Dahlia is truly beautiful in color, form, and size. The color is a medium carmine red heavily clouded yellow at base of petals which are slightly clouded and veined light cream; some petals are slightly tipped yellow. A huge flower finely formed.

Price, \$15.00

Atlantic Ocean, No. 2346

This is the largest Hybrid Cactus in my collection, and of a most beautiful shade of canary yellow. A very full flower with long pointed folded petals, slightly curving. Strange as it may seem this dahlia is a very free bloomer and the flower holds to a large size very late without disbudding.

Price, \$15.00

NEW SELECTIONS FOR 1921

ORIGINATED BY GEO. L. STILLMAN

THE NEW YORK GROUP

BELMONT, No. 2069

A beautiful, deep magenta is the color of this huge Pæony Dahlia. It is an abundant bloomer and a thrifty grower. To form an idea of the richness and beauty of this large flower one should see it growing.

Price, \$3.00

BILTMORE, No. 2008

This magnificent Decorative Dahlia is the most beautiful combination of bright, rich carmine and white ever combined in a Dahlia. The groundwork is a bright, rich carmine and the petals are more or less tipped pure white. Occasionally some flowers are nearly all carmine with a few petals tipped white. The plant hanging full of these stunning blooms presents a sight rarely seen.

Price, \$3.00

MURRAY HILL, No. 2022

An entirely new Pæony-flowered Dahlia of a beautiful, rich shade of purple. The flowers are simply huge in size and on good stems, which, together with their unusually attractive shade and hugeness, cause every passerby to stop and exclaim: "That's a monster."

Price, \$3.00

ANSONIA, No. 2064

Without an exception the color of this large Pæony Dahlia is the most gorgeous and brightest deep canary yellow Dahlia I have ever seen. Its rich colorings never fail to catch the eye of every observer. This immense flower is carried well above the foliage on good, long, stiff stems.

Price, \$3.00

LAKE SUPERIOR

LAKE BRIE

LAKE MICHIGAN

LAKE ONTARIO

LAKE HURON

The Great Lakes Group

THE FIVE GREAT LAKES

ORIGINATED BY GEO. L. STILLMAN

NEW GROUP FOR 1922

Lake Superior, No. 2146

The color of this mammoth Dahlia is deep orange salmon. A solid color throughout. The formation of it is of the Hybrid Cactus class and very much resembles its parent, the "U. S. A.," but of a softer shade and promises to be a larger flower. This Dahlia will be a rich prize in any Dahlia lover's garden.

Price, **\$10.00**

Lake Erie, No. 2216

This is, without doubt, the largest lavender Decorative Dahlia in existence. The color is a clear deep lavender, while the form is quite flat with heavy, long, flat florets. A very unusual and beautiful Dahlia both in color and shape which can only be realized by seeing it. Blossoms from 8 to 10 inches in diameter. Plants of medium height.

Price, **\$10.00**

Lake Michigan, No. 2194

A rich, fiery scarlet Decorative Dahlia of immense size. This is a very large, deep, heavy flower, 10 to 13 inches in diameter. The stems are heavy, but the great weight of the blossom prevents it from being held erect, yet it is a wonderful exhibition Dahlia and a most attractive one in the garden. The plants are tall and strong.

Price, **\$10.00**

Lake Huron, No. 2164

A very large, clear, bright canary-yellow Pæony-flowered Dahlia, 7 to 10 inches in diameter. This new Dahlia is a remarkable large size flower and is borne on long, heavy stiff stems which hold the flower erect. Its very free blooming qualities combined with its other unusual features place this Dahlia in the front rank. The plant is of medium height and an early bloomer.

Price, **\$10.00**

Lake Ontario, No. 2150

Decorative Dahlia of unusual merit. The color is salmon and gold blended together in a beautiful manner. The flower is from 6 to 9 inches in diameter and is produced on long, heavy, stiff stems. The curly, twisting formation of its florets together with its beautiful combination of colors blended together give this Dahlia a very striking appearance.

Price, **\$10.00**

CARUSO, No. 2132

THE SEA LION GROUP

ORIGINATED BY GEO. L. STILLMAN

Aquitana, No. 758. The color of this gorgeous new Cactus Dahlia is a beautiful salmon pink. The flowers are very large and are borne on long stems with scant foliage, making it most desirable for cutting.

Price, \$2.00

Empress of Asia, No. 721. A wonderfully large, fine Paeony-flowered Dahlia. The color is a deep old gold with a strikingly bronze effect. This is another of those colors so desirable and hard to get in a Dahlia. A flower of exquisite beauty.

Price, \$2.00

Lapland, No. 730. Pure, glistening white is this noble flower. The petals are broad and good formation. It is a free blooming variety and has fine stems for cutting. If you want a beautiful white, buy a Lapland.

Price, \$2.00

Mauretania, No. 738. This magnificent big, new Cactus Paeony Dahlia is simply a

wonder in size, shape and color. It is a light golden mandarin, or on the light orange order. It is quite a tall growing plant and the flowers are produced in abundance. A very showy, attractive Dahlia.

Price, \$2.00

Medina, No. 757. This Paeony-flowered Dahlia possesses one of the most striking colors that a Dahlia could possess. A *golden orange*. The flower is not as large as some of the other "Sea Lions," but the color is magnificent and desirable. It has good stems for cutting and is a very valuable member of the "Sea Lion" family.

Price, \$2.00

Rochambeau, No. 811. A very bright, deep canary yellow of immense size and fine form. The Rochambeau is the tallest plant in the "Sea Lion" family, and would make a fine background in any Dahlia garden. It is a very free flowering plant and makes a fine showing above the other members of the group.

Price, \$2.00

THE FIGHTING TEN

ORIGINATED BY GEO. L. STILLMAN

Gen. Bell, No. 802. Paeony. Pure, glistening white. Petals numerous; very long and quite slim, curly and twisting. A beauty beyond description, and an enormous flower on extra long stems.

Price, \$3.00

Gen. Cadorna, No. 643. Paeony. A bright deep yellow with a heavy shading of pink on reverse side of petals. Petals quite slim and very twisting and curly. A monster flower and is the wonder and admiration of all.

Price, \$3.00

Gen. Edwards, No. 2114. Paeony. Color, a beautiful salmon pink. A very large flower on fine, long stems. The formation of this flower is exquisite.

Price, \$3.00

Gen. Haig, No. 585. Decorative. A beautiful shade of peach pink, slightly clouded yellow at base of petals. A very odd and nice color and a wonderfully formed, large flower.

Price, \$3.00

Gen. Joffre, No. 638. Decorative. A light canary yellow. Petals long, broad and tapering to a point. A very deep, heavy flower of enormous size. It is a monster yet is most beautiful formed.

Price, \$3.00

Gen. Mann, No. 578. Decorative. Light Du Barry. Petals rolled and twisted at point. Color much resembles Queen Esther. A fine noble flower of immense size.

Price, \$3.00.

Price, \$3.00

Gen. Petain, No. 647. Paeony. Butter yellow. Petals rolled back slightly lengthwise and twisting. The flower is another of the wonders in my collection of original Dahlias.

Price, \$3.00

TESTIMONIALS

Sept. 28, 1924—A lady in Conn. wrote me thus: "My only regret in raising your dahlias is that you cannot see them in all their glory. My U. S. A., Billionaire, Frieda Hempel, Ruth Thompson, Yellow Mountain, and dozens of others of yours are gorgeous beyond description and your stock is the cleanest and healthiest I have found anywhere."

Aug. 27, 1924—A gentleman in Ill. wrote me: "I thought the enclosed clipping would interest you. Every one of the dahlias are turning out fine and I have had numerous visitors who never knew that dahlias could produce such blooms and large flowers. I surely am appreciative of the selection you sent me and hope to have you send me more the coming season."

DUCHESS OF WELLINGTON

NEW PÆONY FLOWERED DAHLIAS

ORIGINATED BY GEO. L. STILLMAN.

THE INDIAN FAMILY

Black Hawk, No. 54. Deep velvety maroon. The darkest flower in the Indian Family. The colorings are extremely rich and the flowers are large. The petals are broad and twisted to a point at tips. Is an extra free bloomer. Price, \$1.00

Canonchet, No. 66. An entirely new color shading on a grayish salmon. Petals are long and rolled to a point at tips. Slightly incurving. Small petals curled up around the yellow center in very unique manner. This is a large flower and the long petals are dotted with slightly deeper small blotches of pink and suffused with a pale gold which glistens faintly. Price, \$1.00

Canonicus, No. 1036. Beautiful dark cerise. A very unusual shade and no other Dahlia like it in shape and size has ever been produced. A large full flower. Price, \$1.00

Massasoit, No. 1021. Variegated. This flower is very showy and attractive. Petals being a dark maroon heavily tipped with white give the flower the appearance of being about one-third white and two-thirds maroon shade. Not as large a flower as some of the other Pæonies, but very attractive. Price, \$1.00

Miantonomi, No. 1022. Deep amber buff with a tint of salmon pink. An entirely new and most desirable color for the Dahlia. This new and attractive color has been the admiration of all who have seen it. Many years of careful experimenting were required in producing this unusual shade. It attracts the eye of everybody. Price, \$1.00

Minnehaha, No. 78. Light red. This is an extra large, heavy, full flower with broad petals which are slightly pointed and twisted at tips. The plant grows quite high and being a very free bloomer is one of the most showy Dahlias of the "Indian Family." Price, \$1.00

Minnewawa, No. 76. Bright cerise red. Base of petals yellow with white disc around the centre. Balance of petals heavily clouded and tipped white. Very striking combination of colorings. Price, \$1.00

Misquamicut, No. 1115. Golden yellow slightly tinged with pink. A very large, full flower with very broad petals, and very desirable color. Price, \$1.00

Narragansett, No. 1033. Rich shade of dark scarlet. This flower should be seen in order to be appreciated. It is large, finely formed, and a very full flower. It blooms very freely and has been a general favorite wherever exhibited. Price, \$1.00

Ninigret, No. 151. Rich dark red, clouded and striped much lighter. The petals taper

abruptly to a sharp point which is twisted in a very attractive manner. A full, heavy flower of unusual quality. Price, \$1.00

Nokomis, No. 1112. Variegated yellow. The base of the flower is white and canary yellow mixed together. Heavily striped and speckled with dark red. Occasionally solid red blooms appear on the same plant. The plants are of a low growth and flowers stand high above the foliage. Price, \$1.00

Pocahontas, No. 69. Light cream yellow. This flower is very large with flat, broad petals except in the centre. Petals are flushed and veined deep pink, possessing some of the colorings of the Geisha. A very free bloomer and in every way desirable. Price, \$1.00

Powhatan, No. 101 Dark crushed straw-berry. This very large flower is another of unusually fine shading. While it has the colorings of the crushed strawberry, it also possesses a light tint of lavender and the free-blooming qualities. Price, \$1.00

Queen Esther, No. 103. Color, "Du Barry," that dazzling new shade of red. An enormous, large full flower and a beautiful rich color. The small twisting florets in the center of this flower give it a most unique appearance. A wonderfully free blooming Dahlia. Price, \$1.00

Red Cloud, No. 84. Rich deep carmine. This is a large, full flower of a solid color and is borne in abundance on a plant of high growth. Price, \$1.00

Samoset, No. 1007-1. Light yellow. Some of the petals of this flower are slightly shaded with pink, while the whole flower is full and of the true Pæony type. Small curly petals on the face of this flower give it a very desirable effect. A very free blooming variety. Price, \$1.00

Squanto, No. 102. The color of this Dahlia is hard to describe on paper. It is of a reddish violet, growing more red at the base of petals. The flower is large and makes a very showy plant by its free-blooming qualities. Price, \$1.00

Uncas, No. 147. Pure white. A beautiful pure white somewhat resembling South Pole, but petals more curly and twisted. A very unique shaped, free-blooming Dahlia, and exceptionally desirable. Price, \$1.00

Wadawannock, No. 1034. Light coral. This is a large flower with broad, flat petals and with just enough twisting, curling petals in the center to give it a nice Pæony effect. This is an entirely new shade and one of those very effective and desirable colors seldom seen in the Dahlia. Price, \$1.00

Price of the above, one each of the set, \$15.00

THE LOMA FAMILY

ORIGINATED BY GEO. L. STILLMAN

THE EIGHT BROTHERS OF THE LOMA FAMILY

Alan Loma, No. 459. A pure waxy white Pæony-flowered Dahlia with large broad flat petals. Very prominent yellow pollen disc with a few small curling petals around it. A large, heavy flower. Certainly a splendid specimen. Very erect on long stout stems. Price, \$1.00

Eugene Loma, No. 418. A light canary yellow to the center of this fluffy Pæony-flowered Dahlia. The shading runs lighter toward points and the very faintest of pink shows on sides and back of petals. Petals slim and rolled to a cup, twisted and curled around the center in a very peculiar manner. A very unusual flower. Erect on good stems. Price, \$1.00

Forest Loma, No. 468. Deep cerise pink Pæony-flowered Dahlia, blotched and streaked canary yellow, with yellow at center. Petals are finely formed and numerous and curled at points. Very large and another erect specimen on good stems. Price, \$1.00

Harry Loma, No. 438. A pretty pink Pæony-flowered, streaked artistically with white and with a faint bluish cast at tips, giving a lavender hue. A full flower with very curly petals in center. Another specimen with extra long stems. Petals long, slim, numerous, and sharply pointed. Price, \$1.00

Kenneth Loma, No. 422. A lovely, clear, light canary yellow, or lemon, shading makes this a fine specimen in its family. It is of the Decorative style, standing very erect on good, strong stems, and a very large flower. Nice fluffy petals slightly curled. A gorgeous flower and unusually fine clean color. Price, \$1.00

Robert Loma, No. 490. Golden amber shaded slightly with salmon pink, pink showing more on backs of petals, of full Pæony type. Good size with long stems. This is one of the new attractive colors so desirable in the flower garden. Price, \$1.00

Rupert Loma, No. 456. A dull, old rose shading runs predominantly through the petals of this Dahlia, while a noticeable amount of lavender touches many of the petals' tips. It bears the appearance of being streaked lighter and darker shades of the rose and lavender. Difficult to describe. It has a very full blossom of perfect form, of Decorative type. Good size, standing boldly on its long, stout stems. This Dahlia's foliage is beautiful and scant in appearance, with long, jointed stalks. Price, \$1.00

Stephen Loma, No. 1370. A very pleasing dark magenta of Pæony flowered type. Very full toward center with slim, nicely formed petals. Extra large size, with stout stems. Price, \$1.00

TOWN COURT OF STONINGTON

STONINGTON, CONNECTICUT

Sept. 24th, 1924.

Mr. George L. Stillman,
Dahlia Specialist,
Westerly, Rhode Island.
Dear Mr. Stillman:—

I wish to acknowledge the high honor conferred upon me by naming one of your latest and choicest Dahlia Varieties the "Judge Wilcox," the size, beauty and form of rich golden color of this Dahlia is a charm in itself.

I have noted your progress as a Dahlia grower for years and from the fact that you are the originator of one thousand varieties and are placing dahlia bulbs on the market at a hundred dollars a bulb proves conclusively that you are indeed a Dahlia Specialist, and may the "Judge Wilcox" be one of your best sellers. This is the wish of,

Yours most sincerely,

WILLIAM A. WILCOX.

Note the Following

Do not plant your Dahlias in the shade.

Stunted plants, thick and bushy on top, with no blossoms, are the result of dry weather, or too heavy soil.

I guarantee every bulb I send out.

Do not wait for bulbs to sprout before planting. There is nothing like mother earth to sprout them. Plant them where you want them to grow.

The more flowers you cut the better Dahlias bloom.

Dahlias do well with me; they will with you, if you will follow my instructions carefully, and above all, note what is said on another page in regard to watering.

NEW ORIGINAL INTRODUCTIONS FOR 1925

ORIGINATED BY GEO. L. STILLMAN

Barton Edwards, No. 2622. Color, a reddish brown. Center petals slightly shaded yellow. Petals rather slim and slightly twisting. A very odd color and a beautiful large dahlia. Price, \$5.00

Beauty Face, No. 2648. Decorative. Color, deep canary yellow. The petals are tri-colored. Yellow tipped with pink and yellow tipped white. A very pretty attractive flower of medium size. A beautiful combination of colors. Price, \$2.50

Canary Reliance, No. 861. Decorative. Light canary yellow. A large flower with medium dorsaw petals and of good form. Price, \$3.00

Charlene, No. 2604. Color, light salmon on face of petals while back side are much darker. Petals are wide and twist to a point. Flowers are held on good stems. A very profuse bloomer. Price, \$7.50

Duchess of Wellington, No. 2611. Hy. Cactus. Color, pure, clear canary yellow. This flower is one of the largest in cultivation. In my field in 1924 without any disbudbing, watering, or any application of fertilizer since planting, it measured over 10 inches across; and at the same time there are other blossoms nearly open and quantities of buds. Its natural growth was thus demonstrated. As one person said who saw it "it's a whopper." Price, \$75.00

Epinard, No. 2528. Paeony. Canary yellow. Petals, which are many, are quite folding and shaded pink in center, these possess a tendency to curl and twist which adds much beauty to the dahlia. Price, \$5.00

Firey Indian, No. 2649. Hy. Cactus. Color, bright scarlet red. A finely formed flower on good stems. Price, \$5.00

Garden Beauty, No. 2573. Hy. Cactus. Color, pure white with very faint lavender tips. Petals curl and twist in a beautiful manner. A deep full flower. Price, \$5.00

Happy Land, No. 2672. Paeony. Color a very deep peach pink. Petals slightly fold forward with a tint of yellow at base. Price, \$3.00

Jim Henry, No. 2621. Decorative. Color reddish salmon heavily clouded yellow at tips of petals and at the base of petals. A red salmon predominates. Price, \$2.50

Judge Wilcox, No. 2656. Decorative. Color, clear butter yellow. The flowers are large and stand up on stiff stems. One of the best for cutting. Price, \$5.00

Koman, No. 2532. Ground color yellow while the flower is heavily clouded with a rich red salmon. A beautiful combination of colors. Tips of petals twist beautifully. Price, \$5.00

Lady Christy, No. 2507. Decorative. Color, yellow heavily lined and clouded pink. Center of flower quite yellow. Petals curl and twist at points. A beautiful flower. Price, \$5.00

Ladies' Delight, No. 2691. Paeony. Color, deep lavender and pink clouded together. Petals fold forward and some have large blotches of white in the center. A very odd combination and beautiful. Price, \$5.00

Lilac Gem, No. 2652. Decorative. Color, light lilac with the inner petals a shade lighter. A very nice dahlia, of good desirable color, held on good stems. Price, \$3.00

Mrs. M. E. Foster, No. 2666. Hy. Cactus. Color, nice canary yellow striped and veined red. A large size flower held erect on long branching stems. One of the best hybrid cactus. A most profuse bloomer with a full center. This dahlia is a prize in any garden. Price, \$50.00

Mrs. Marshall, No. 2676. Hy. Cactus-Color, clear butter yellow. Petals wide and rolled to a sharp point. A deep full flower overcast with pink. A beauty. Price, \$15.00

Orange Bride, No. 2685. Paeony. Color, a deep orange salmon, heavily clouded or shaded pink. A heavy flower with pointed petals. In this flower the orange predominates, making a very desirable color. Price, \$2.50

Razeldazzle, No. 2628. Paeony. Color, light carmine red with each petal heavily tipped white. This is a very showy flower and is held erect on good stiff stems. Very desirable. Price, \$3.00

Red Man, No. 2608. Color, rich deep velvety carmine red. Petals fold forward and curl to a sharp point. A fine red on good stems. Price, \$5.00

Ritchie, Dec. No. 2675. Color, rich carmine red; petals heavily tipped white. A beautiful large flower on heavy stems. Some of the blooms come solid red on some plants. Price, \$5.00

Rocky Mt., No. 2537. Paeony. Color, a red salmon. Base of petals show a fine line of yellow and are very curly around the center. A mammoth flower with exquisite shadings and beautiful color. Price, \$15.00

Scarlet Pure, No. 2668. Hy. Cactus. Color, bright scarlet. Petals very curly and twisting. A large flower with a nice full center. Price, \$5.00

DR. WALTER VAN FLEET

NEW DECORATIVE DAHLIAS

ORIGINATED BY GEO. L. STILLMAN

"Our Country," No. 2458. The color combination of this wonderful, new decorative Dahlia is superior to anything I have ever produced in a dahlia. The ground or main color is a very deep purple while the florets are heavily tipped pure white. It is truly a mammoth and the formation is truly wonderful. It is a very deep, heavy flower with a never failing center. The colors run very uniform. It has never been known to produce solid purple, or white flowers as in many cases with variegated dahlias. It was offered to the public in 1923 for the first time. Price of bulbs or plants **\$25.00 each.**

Baby Mae, No. 700. This unique flower is a beautiful shade of lavender pink changing to a lighter shade in center. It is nearly a duplicate in color to the Millionaire, but much smaller in size. Price, **\$1.50**

Beacon Light, No. 591. White changing to a beautiful cream at base of petals. A most clear, beautiful flower. Fine for cutting. The formation of this flower together with the color is most desirable. Price, **\$2.00**

Black Beauty, No. 534. Nearly black. Medium sized flower larger than Eng. Blk. Prince. Price, **75c.**

Bolton, No. 1424. Golden amber. Flowers good size and odd color. Good length of stem. Price, **50c.**

Bonny Best, No. 577. Very light cream and shaded darker at base. Petals, broad and serrated at tips. A most beautiful, clean color and a good sized flower on heavy stems. Price, **\$1.00**

B. P. O. E. No. 2324. Color, light purple or lilac. A large deep full flower held on good stout stems. This is a Dahlia of more than usual merit. The color is a very desirable one and it combines many desirable features that few Dahlias possess. Price, **\$5.00**

Capt. Eri, No. 2535. Color, a nice deep orange with center petals shaded butter yellow. The petals are broad and curling, and twist at the points. A most beautiful flower. Price, **\$5.00**

Clara Annette, No. 731. The color of this Dahlia is a rich, medium shade of carmine red. Each petal is slightly veined yellow and slightly tipped yellow. It is a fine flower in every respect and should be in every Dahlia garden. Price, **\$1.00**

Clara Barton, No. 2145. The color is a very deep orange brown. The color of this Dahlia is very hard to describe with any accuracy, but it is a most desirable color. It is a Dahlia of wonderful formation, and it is truly a mammoth. It somewhat resembles its parent the U. S. A., but the color is slightly darker. This beautiful Dahlia is an unusually free bloomer, which fact, together with its mammoth size, make it worth a place in every Dahlia fancier's garden, both as an exhibition Dahlia and for garden decorations. Price, **\$5.00**

Daniel Webster, No. 566. Deep blush rose pink. A very odd and striking color.

Petals are quite slim and tapering to fine points, also have a rolled and twisted appearance. The outer edge of each petal is bordered with a much lighter shade.

Price, **50c.**

Douglas Fairbanks, No. 442. Crushed strawberry shaded to yellow at base.

Price, **\$1.00**

Early Fortune, No. 2300. Color, light canary yellow, darker in center and shaded to white at tips. A very clean nice color. A flower blooming very early. Price, **\$2.00**

Eee Zee, No. 2403. Color, a deep rich salmon pink. A very rich desirable color. Flowers on fine stems for cutting. A free bloomer. Price, **\$5.00**

E. J. Pease, No. 1428. Fire red. Slight veins of yellow running lengthwise through petals giving the flower a prominent striped appearance. Price, **\$1.00**

Emma Hoxie, No. 795. Color, light gold with cloudings of pink. The florets are quite slim and curling, forming a most beautiful flower in shape, color, and large size.

Price, **\$3.00**

Florence Griswold, No. 2267. Color, white. Each petal clouded and stained red at base. A medium sized flower, but very showy. Price, **\$2.50**

Florence Nightingale, No. 2325. Color, butter yellow with slight veins of salmon. Petals fold to a sharp tip. Price, **\$5.00**

Florine, No. 975. This new Decorative Dahlia is certainly desirable. The color is a beautiful shade of golden apricot. The flower is of a beautiful Decorative formation. A very free bloomer. The blossoms are borne on good stems. Price, **\$2.50**

Gen. Markel, No. 750. A rich deep carmine in color and very bright. A deep, full flower which is much admired for its rich coloring. Price, **\$1.00**

N. C. 4, No. 501. This wonderful new Decorative Dahlia is a most unusually hard Dahlia to describe, as it is about equally divided with scarlet and white. The florets are more or less striped the whole length with yellow and white, while some are slightly clouded with yellow and tipped with light cream. The reverse side of petals is white with yellow shadings. The whole flower is simply beautiful and unusually attractive.

Price, **\$3.00**

OUR COUNTRY

NEW DECORATIVE DAHLIAS—Continued

Gladys L., No. 1018. Rich soft shade of light magenta. A very heavy, deep flower on long stems. Each petal is deeply serrated at tips. One of the finest Decoratives. Price, **50c.**

Hall Mark, No. 2225. Color, light canary yellow. A deep, full flower and a very clear, nice shade. This Dahlia can be grown to an immense size with a little care. Price, **\$5.00**

Hocus Pocus, No. 2401. Color, a yellow salmon, or very light red, while some florets are nearly white and occasionally flowers are more than half white. A large flower and a very odd, but attractive combination. Price, **\$3.00**

Immensity, No. 2262. Color, a pure orange. A very attractive flower on good stems. A very desirable and unusual color. Price, **\$2.50**

International, No. 2218. The color of this flower is strikingly odd and a true novelty. It is a sort of fawn color with cloudings of yellow and darker fawn. A nicely formed Decorative with a full center. Price, **\$5.00**

John Drew, No. 581. A very light pink, while the reverse side of the petals is darker pink. This is an elegant, large, full flower and should be seen to be appreciated. Price, **\$3.00**

Justice White, No. 2196. Color, bright carmine with each petal nearly half white at tips. A very large fluffy flower on good strong stems. Occasionally a flower comes solid carmine or nearly so. When grown to perfection this Dahlia is of immense size and a beauty. Price, **\$5.00**

King Arthur, No. 307. A rich garnet red, solid color. This flower when beginning to bloom somewhat resembles a Narcissus, as the outer petals open usually about a day before the others begin to unfold. It is of large size and a beautiful Decorative shape with extra good stems. For richness of coloring this Dahlia is seldom equalled. Price, **\$1.00**

King of the Garden, No. 2435. Color, light pink and yellow combined. Some flowers are nearly all canary yellow; others are yellow at base of petals and nearly white at the tips; and still others are almost white with yellow shadings. These differently marked blossoms are all found on the same plant. A very beautiful Dahlia possessing very unusual soft shadings and a fine long stem. Price, **\$15.00**

Lady Betty, No. 1330. Nice rich, velvety purple with reddish cast. Good size, nicely formed petals, quite numerous. Very attractive. Price, **\$1.50**

Lady Cardine, No. 2017. A large flower of the Decorative type and slightly oval face. The color is a medium rich car-

mine and each petal heavily tipped white. Occasionally a petal is bordered with gold on one side. One of the most beautiful flowers grown and on heavy stiff stems. A wonderful free bloomer. Price, **\$3.00**

Lady Fenwick, No. 2548. Color, a beautiful shade of peach salmon or peach pink. A very desirable shade. Good size flower on good stems for cutting. Price, **\$10.00**

Lady Lenox, No. 2374. Color, medium orange and medium in size, but very good both in color and form. Some flowers come clouded white, but an extra nice Dahlia. Price, **\$5.00**

Mabel Normand, No. 1005. Very light canary yellow. A nice clean colored flower on good stems. Price, **\$1.00**

Marcelline, No. 1353. Pure glistening white. Petals wide and curled, twisted in various shapes. Very long stems. Good sized flowers. Price, **\$1.00**

Mary Sefton Thomas, No. 509. Canary yellow. Petals broad and pointed. Very heavy flower of a beautiful shade and shape. Large size and good stems. Very attractive. Price, **\$2.00**

Marillyn Miller, No. 2144. Color, salmon, heavily shaded yellow. This is a medium sized flower, but has extra nice stems for cutting, making it a very desirable cut flower Dahlia of a fine color. Price, **\$1.50**

Mme. Etta, No. 1430. Very dark lavender pink. Petals long, slim, rolled and twisted. A very full, large flower. Good length of stem. A nice specimen and very desirable. Price, **\$2.00**

Meadow Vale, No. 2112. The color of this beautiful Dahlia is light canary yellow. Each petal is heavily tipped white. The softness of the colors of this medium sized Dahlia makes it a most wonderful and desirable flower. It is borne on good stems for cutting. A basket of these Dahlias presents a most striking appearance. A Meadow Vale should be in every Dahlia lover's collection. Price, **\$2.00**

Mongolian, No. 1092. Very dark maroon. Nearly black. Medium sized flower and a very free flowering Dahlia. Price, **25c.**

Mr. Layng. Color is a deep pink with lighter shadings. This is a mammoth flower on fine stems for cutting. A very free blooming and attractive Dahlia. Price, **\$2.00**

Mrs. A. H. Smith, No. 888. Color, a beautiful light canary yellow. A very large flower on good stems and is a prize in any garden. Price, **\$5.00**

NEW DECORATIVE DAHLIAS—Continued

N. C. 4, No. 901. This wonderful new Decorative Dahlia is a most unusually hard Dahlia to describe, as it is about equally divided with scarlet and white. The florets are more or less striped the whole length with yellow and white, while some are slightly clouded with yellow and tipped with light cream. The reverse side of petals is white with yellow shadings. Price, \$3.00

Orange Prince, No. 2392. Color, light butter yellow. A clean, nice color and a nicely formed flower. Petals curl at tips. A very desirable large flower. Price, \$3.00

Our Country, No. 2458. The color combination of this wonderful, new decorative Dahlia is superior to anything I have ever produced in a Dahlia. The ground, or main color is a very deep purple while the florets are heavily tipped pure white. It is truly a mammoth and the formation is truly wonderful. It is a very deep, heavy flower with a never failing center; and the colors run very uniform. It has never been known to produce solid purple, or solid white flowers as in many cases with variegated Dahlias. It was offered to the public in 1923 for the first time. Price, \$25.00

Oweenee, No. 1117. Variegated cerise and white. This flower is of very delicate coloring, petals being fine and very numerous. They are splashed and clouded with light cerise and white. One of those very desirable light shades. Price, \$1.00

Palisade, No. 2524. Color, light butter yellow slightly overcast with pink. Petals rather narrow and slightly folding forward. A fine decorative Dahlia on the best of stiff stems holding the blossoms erect. Price, \$5.00

Plato, No. 799. Color, salmon red. A nice colored flower and about same shape as Mrs. Roosevelt. On fine, long, stiff stems for cutting. A very profuse bloomer. Price, \$1.00

Perfect Beauty, No. 582. Bright light scarlet. Outer ends of petals heavily tipped white. The colors are divided about equally, half red and half white. A most beautiful flower of very large size. One of the most attractive flowers imaginable. Price, \$3.00

Pride of the Garden, No. 2032. Color, deep canary yellow with petals tipped white. Occasionally some flowers come all yellow and in that case is a most beautiful flower. The flowers are large and the buds which appear in numbers should be pinched off to one in a place. It is truly a pride in any garden. Price, \$5.00

Pride of the West, No. 518. Golden orange. A very full, desirable colored flower. Good size on long stems. Very attractive. Price, 75c.

Purse of Gold, No 2305. Color, deep butter yellow. A Dahlia as good as a purse of gold. A very large flower and a full

decorative pattern with long stems. The color would be hard to beat. Price, \$10.00

Robert O. Fletcher, No. 2271. Color, white striped and speckled with bright carmine. A beautiful flower and a lovely combination of colors. Price, \$3.00

Sierra Nevada Mt., No. 2521. Color, salmon pink, slightly clouded yellow at base of petals, while the inner petals are heavily clouded yellow and curl at the tips. A nicely formed flower on good stems. Price, \$10.00

Snowdrift. Color, pure white. This is a remarkably large fine white flower. The plant grows low and the flowers are well above the foliage. Price, \$5.00

Summer Favorite, No. 2443. Color, butter yellow heavily overcast with salmon. Flowers are very curly at the tips of petals and are held erect on stiff stems. A fine cut flower Dahlia. Price, \$2.50

The Millionaire, No. 1420. This remarkable mammoth new Decorative Dahlia exceeds any other Dahlia in existence in size. The color is a most dainty lavender with a pink sheen overcast. The flower is simply immense, very deep and heavy. After the first flower, it is produced on extra long, heavy stiff stems. The Millionaire has won many first prizes, besides many medals, all over this country for the largest flower in the show. A Dahlia garden is not complete without a Millionaire. Price, \$1.00

The Deacon, No. 2391. Color, very light red. A very deep, heavy large flower on long stems and a very profuse bloomer. By disbudding this Dahlia would reach an immense size. Price, \$5.00

Timothy, No. 2427. Color, deep orange is the main color, but in some flowers all the petals are tipped white. A beautiful flower in either color and of medium size for cutting. Price, \$1.50

The World Court, No. 2687. Color, canary yellow heavily clouded and striped with pink and fawn. Yellow shows more prominently in center of the flower. It possesses heavy, wide petals with a never failing center. A huge flower on long stems. One of the Dahlias without any disbudding or special care with four other blooms and a half dozen buds on the plant measured over 9 inches across. With disbudding the size is unlimited. Price per bulb, \$100.00

Watch Nill, No. 588. The color of this new Decorative Dahlia is a light pink of a beautiful shade. A nice deep flower of large size and one of those very desirable colors for the home garden. Price, \$1.00

World's Wonder, No. 550. Color, golden salmon. Low plant and an early bloomer. This is a very large, deep, full flower with almost a never disappearing center. The keeping qualities of this flower are very unusual and it is borne on very long, stiff stems. A profuse bloomer. Price, \$2.00

NEW CACTUS DAHLIAS

ORIGINATED BY GEO. L. STILLMAN

Head of the Nation, No. 2209. The largest incurved, claw-shaped true cactus Dahlia in existence. I have grown this wonderful Dahlia in my garden perfectly natural, without any disbudding whatever, to measure nine inches in diameter. Think what can be done with this flower by disbudding. In color this Dahlia is purple with a magenta overcast. It makes a tall plant and is an exceedingly free bloomer. When permitted to grow and bloom naturally it presents a novel sight seldom seen in a Dahlia garden.

Price of bulbs or plants, \$50.00 each

Ad. Grayson, No. 2250. Hybrid Cactus. The color of this beautiful Dahlia is an old rose slightly shaded a silvery rose. The petals are somewhat twisting and the whole flower is of a most exquisite formation. One of the best and most attractive cut flower Dahlias with extra nice long stems.

Price, \$5.00

Bishop's Hat, No. 2023. Color, a light DuBarry. A full, large flower with long, curly petals.

Price, \$2.50

Black Pekin. Hybrid Cactus. Color, nearly black. A beautiful, large, full-centered Dahlia and very attractive.

Price, \$3.00

Blazing Star, No. 891. Color is a bright rich carmine. An unusually good type of Cactus, but a rather small flower. However, it is a very early and attractive specimen.

Price, 50c.

Bridal Veil, No. 2020. Pure glistening white. The petals of this flower are folded nicely and points are twisted in such a unique form that it is easily the most beautiful white Cactus Dahlia I have ever seen. The flowers are large and stand erect on good stiff stems superior to any other white Cactus.

Price, \$3.00

Bull Moose, No. 338. Hybrid Cactus. Color of outer petals a beautiful shade of pinkish yellow. Petals slim and quite plentiful. Center petals changing to canary yellow. A good flower with long stems. Large size and a fine specimen. Free bloomer.

Price, \$3.00

Caroline Laffield, No. 1427. Hybrid Cactus. A beautiful large, light, canary yellow Cactus. Very large and full, measuring 7½ inches in diameter. Extra fine. Good length of stem. A splendid specimen.

LADY EVELYN

NEW CACTUS DAHLIAS—Continued

Eldorado, No. 2546. Hy. Cactus. Color, pure canary yellow while each petal has a small hair-like petal at its base which is nearly white in color. This is a medium size flower but is very desirable. Price, \$2.00

F. Earl James, No. 242. Color, deep mottled cerise pink. This flower is very large and finely formed, of Hybrid Cactus type. Petals are very curly and twisted and some turn backward. The whole flower is most beautiful and makes an exceedingly pleasing effect. Price, \$3.00

F. L. Deery, No. 306. A Dahlia made up of numerous, finely formed, pointed petals of Cactus type. It is a lovely lavender pink blotched through the fine petals and in some instances tiny spots of the coloring appear like the head of a pin. The pale lavender is clearer at very tips. Yellow shows very slightly at center. A fine size. The long, stout stems hold the Dahlia very erect. Price, \$1.50

Geo. L. Stillman, No. 67. The color of this beautiful new Cactus Dahlia is a very rich, velvety, deep carmine. The form is exquisite, while in size it is a mammoth, having been grown to measure 11 inches across with stems 26 and 31 inches long. It has been grown in all climates. It bears its originator's name and has won prizes everywhere. Price, \$3.00

Hollyhock, No. 2409. Hy. Cactus. Color, a nice salmon pink. Inner petals shaded yellow at base. A nice full center. Price, \$3.00

Honey Dew, No. 2383. Hy. Cactus. Color, a beautiful salmon pink. Petals stand up in good shape and present a fine appearance. A fine addition to any garden. Price, \$2.50

King Tom, No. 2003. Pure deep rose. This is a Hybrid Cactus Dahlia of very large size and a beautiful color. The petals are long and fold back to a long, sharp point. The whole flower much resembles Lady Helen except in color and is borne on good long stiff stems. Price, \$5.00

League of Nations, No. 908. The color is a most beautiful shade of canary-yellow. In size it is the largest Cactus Dahlia yet produced. The stems on which the flowers are borne are very long and heavy, holding the mammoth flower quite erect. The keeping quality of this Dahlia has proven the past season to be wonderful, while its beauty has attracted much attention from visitors. Price, \$5.00

Lady Helen, No. 217. A beautiful Hybrid Cactus Dahlia as distinctly new in quality and excellence as in origin; standing erect on long stems with finely formed and curled petals spreading out, making a diameter varying from 7½ to 8½ inches. It is a striking

and beautiful toned pink in the main body coloring, with slight veins of white, almost cream, running through the petals. Prominent cream tips make a decidedly new and altogether forcible addition to the whole flower. The Dahlia should be seen to be fully appreciated, for words of pen cannot do it justice. A profuse bloomer. Price, \$3.00

Lieut. Joe, No. 800. Color, medium carmine. Petals bordered with a light vermilion. A very beautiful Dahlia. Price, \$1.50

Mastodon, No. 822. Color, bright medium carmine. Petals slim and very twisting, standing in an upright and somewhat claw-shaped position. Extra large Cactus Dahlia of good form. Price, \$3.00

Mrs. Aaron Ward, No. 723. A new Dahlia of unusual merit. The color is of a light reddish shade, veined and tipped yellow. The petals are very slim and curling, twisting in a very attractive manner. The Dahlia itself is very large and should be in every home garden. Price, \$3.00

Mt. Shasta, No. 268. Hybrid Cactus. Very light shell pink with slightly deeper shadings of pink through the petals. A faint tinge of yellow shows toward center. Petals, long, slim and rolled at points. An extra fine, full, deep flower and enormous size. This flower when grown to perfection is simply a wonder in size, shape and color. Stands very erect on good, stout stems. Price, \$2.00

New England Beauty, No. 2198. Hybrid Cactus. Color, a medium carmine red. A very large flower with a good center and a fine form. Very desirable Dahlia in any garden. Price, \$5.00

NEW CACTUS DAHLIAS—Continued

Tiger Rose, No. 2534. Hy. Cactus. Color, beautiful flesh pink. Inner petals light yellow and all tipped old rose. A most beautiful flower. Price, \$5.00

The U. S. A., No. 749. The color of this exquisite, new mammoth Dahlia is a deep orange, that very unusual color so hard to get in a Dahlia. The formation as well as the color is so unique and novel that to attempt to describe it accurately would be an impossibility. It is a very free blooming Dahlia. Price, \$3.00

Wonder of Nature, No. 2050. Hybrid Cactus of medium size. This wonderful Dahlia presents the most gorgeous array of beautiful flowers on the one plant of any

Dahlia that has ever come to my notice. The flowers are of a beautiful formation and are borne profusely on nice stems for cutting. Some of the blossoms possess the five shades that these flowers are made up of, viz: canary yellow, deep salmon, light salmon, pink and white. No person can accurately judge the beauty of this wonderful Dahlia by any description that can be put on paper. Hundreds of people who visited my fields and saw this Dahlia truthfully expresses it when they called it a real wonder.

Price, \$2.00
Yuletide, No. 2080. Pure glistening white, a very large flower with a full center. Petals are slightly curled and twisted. A gorgeous white. Price, \$5.00

ADDITIONAL NEW PÆONY-FLOWERED DAHLIAS

ORIGINATED BY GEO. L. STILLMAN

The following new Paeony-flowered Dahlias were all recently originated by me after the most expensive and exhaustive experimental trials.

My original "New Dahlias" can truthfully be termed the best and most wonderful collection of elegant mammoth Dahlias in America.

The whole lot is made up of the most unusual gorgeous colors ever brought out in Dahlias.

Ad. Dewey, No. 413. Crushed strawberry. Canary yellow at base, slightly clouded through center yellow. Tips yellow. A very large, full flower on very long stems measuring at time 16 inches. Price, 50c

Adele, No. 1416. Beautiful canary yellow. Petals broad, slightly twisting. Numerous small, curly petals around center. Very good specimen and very free bloomer. Price, 25c.

Afterglow, No. 2154. The color of this beautiful Dahlia is light orange. The petals are broad; the center ones stand up slightly giving the flower a very fluffy appearance. A very large Dahlia with a very desirable color. Should be seen to be appreciated. Price, \$3.00

Alaska, No. 935. Pure glistening white with quite broad, slightly rolling florets and numerous small curly petals around disc. The flower is borne on long jointed stems and a very good Dahlia for cut flower purposes. Price, \$2.00

Alleghany Mt., No. 2520. Color, deep velvety carmine with outer half of petals pure white, while lines of carmine run nearly to tip of the inner petals. This is a nicely formed flower and one of the most beautiful Dahlias imaginable. A bright and shining light in the Dahlia garden. Price, \$25.00

Alpena, No. 793. Red shaded cerise, slightly tipped yellow. Base of petals heavily colored yellow. Blooms stand erect on stiff stems. Price, \$1.50

Alys, L. VI. Color, bright carmine, heavily clouded yellow. A beautiful flower of very large size. Tips of some flowers are yellow. A prize in any garden. Price, \$3.00

Amber Queen, No. 1120. Golden amber. Flowers are of good size and with quite broad, flat petals. A most desirable Dahlia of fine form. Price, 35c.

American Hero, No. 963. A most wonderful Paeony-flowered Dahlia. The color is difficult to describe accurately. The center of the florets is a beautiful shade of old rose, outer edges are bordered with light pink. The disc is surrounded with numerous small, curly florets possessing the same beautiful shades of pink. The whole flower possesses the most striking and desirable colors yet produced in a Dahlia. It has good stems which hold these beautiful flowers very erect. Price, \$1.50

Augusta, No. 2175. The color of this Dahlia is a bright medium shade of carmine red. This is a very large flower and is borne on nice extra long stems. One of the very best reds. Price, \$3.00

NEW DUPLEX OR SEMI-PAEONY-FLOWERED DAHLIAS

ORIGINATED BY GEO. L. STILLMAN

This is an entirely new, and much needed, classification for a general favorite type of Dahlia. See Dahlia classification on another page.

These Dahlias are not an extremely large flower, but just the right size for cut flower decoration, and they possess the most beautiful combination of colors imaginable.

The following are all new varieties of my own origin:

Adelaida, No. 10. Bright cerise red. Petals tipped with yellow and yellow around base with two narrow stripes of yellow through center. Price, 50c.

Altadena, No. 145. Cerise and white, clouded and mixed together. After the colorings of Mosel. A fine specimen for cutting. Price, 50c.

Banner Girl, No. 1481. Color, pure white, clouded yellow at base of petal. Petals rolled back whole length. A nice flower. Price, \$1.00

Ben Hur, No. 310. Scarlet with yellow circle around disc. Petals slightly tipped yellow. Two veins of yellow run lengthwise to petals. Price, \$1.00

Black Servant, No. 2140. Color, rich magenta, almost black. Petals veined and clouded lighter at tips. A very odd colored Dahlia, yet very desirable. Price, \$2.00

Black Valentine, No. 950. In color this Dahlia is rich, dark velvety red. The blossoms of this Dahlia are borne on stiff stems which hold the Dahlia very erect. Fine for cutting. Price, \$1.50

Buster Brown, No. 70. Beautiful shade of canary yellow. This is an immense large flower of unusual qualities. The flowers measure 7 to 8 inches in diameter and have heavy, broad petals, slightly streaked with carmine and borne on extra long stems that are very stout. It is simply a wonderful flower. Price, 50c.

Camille, No. 474. Color, a purple pink. Base of petals shaded yellow and white. Long stiff stems. Nice for cut flowers. Price, 50c.

Cygnet, No. 818. Color, very deep purple of good size. The color of this flower is much to be desired. It is borne on good stems, making it a fine cut flower Dahlia with a rather unusual color. Price, \$1.50

Earle Williams, No. 1339. Ruby, striped and shading to white and pink. Large flower and inner petals very curly, outer petals broad and pointed. Fine stem. Price, \$2.00

Golden Crown, No. 247. Color, a rich deep shade of cream. This is a very showy flower. The petals are broad and some are twisted at center. Being shaded red on reverse side gives the flower a pleasing appearance. Price, \$1.00

Hazel Dawn, No. 1376. Light cerise carmine, heavily veined and clouded yellow. Showy flower with fairly good stems.

Price, 50c.

Hubby Hapgood, No. 510. Color, cerise magenta, shaded white at base of petals. A fine Dahlia for cut flowers. Price, 50c.

James Gray. Color, magenta. A large fluffy flower on long stems. A very showy Dahlia. Price, 50c.

Jennifer Hadden, No. 333. Color, cerise and white yellow around base. Medium size on good length of stem. Price, 50c.

Koros, No. 659. Color, a very bright shade of maroon. Petals curving around center. Price, \$1.00

Latona, No. 420. Color, light coral red, shaded lighter at base. A very striking color. Tall, showy plant. Price, \$1.00

H. J. Lovinck. White shaded lilac, very fine form on long stems. A large and beautiful Dahlia. Price, **25c.**

PAEONY-FLOWERED DAHLIAS—Continued

Annie Slocombe. Another new and choice Paeony-flowered Dahlia with a diameter measuring from $7\frac{1}{2}$ to 8 inches. Its face is entirely of a bright, pleasing canary yellow, but the entire back of the petals is covered with a dull shade of salmon red streaked with the yellow of the face. It is very striking and when held to view one might think it was tipped salmon red, for some of the petals turn at the points, showing the back coloring. It is on long stems, good for cutting. An extra nice variety.

Price, \$1.00

Great Britain. A lovely shade of lavender pink, rather deeper at base. Bears the appearance of being slightly blotched with white spots. A full, fluffy Paeony with sharply pointed petals, curled about most attractively. A large flower on good, stiff stems. Very desirable.

Price, \$2.00

Isaquah. Light purple. A very full flower.

Price, 50c.

Mannakea. A large Paeony-flowered Dahlia of a beautiful shade of old rose, the tips of the outer petals being shaded to a rich pinkish lavender. The petals are long and graceful, giving the flower a fluffy appearance.

Price, \$3.00

Miss Adelaide M. Buttle. Pale lemon yellow. Large flowers with long twisting petals.

Price, \$1.00

Mme. J. Coissard (Duplex.) Very beautiful shade of deep cerise, shading to white in center. Whole flower more or less overspread with white. Good sized flowers and very desirable. Petals are broad and flat.

Price, 50c.

Mosel (Duplex). White shaded to scarlet. Base of petals white, and varying from white to a beautiful scarlet the entire length.

Price, 50c.

P. W. Janssen. Rosy salmon with a shade of yellow; an elegant flower, borne on stout, erect stem. A rich and pleasing shade.

Price, 25c.

Paul Kruger. Striped red and white. Very unique coloring.

Price, 25c.

Pretoria. Medium sized Paeonia, slightly yellow at base, main body velvety red of a dark hue.

Price, 50c.

Semiramis. Large, pink flowers with open, yellow center. Base of petals around center is yellow, with a broad line of yellow running down the pink petal to the tip. Outside rows of petals all pink except for a tint of yellow at extreme point of petal. A very handsome Paeony.

Price, 35c.

South Pole. Pure white. A very nice Paeony-flowered Dahlia. Long stems; good for cutting.

Price, 75c.

Uncle Sam. A monster Dahlia in size. Color orange buff, shading bitter sweet pink at tips. Stems extra long.

Price, \$5.00

SHOW AND FANCY DAHLIAS

I prepay carriage on all retail bulb orders, accompanied by cash in full, in the United States. This does not apply to Special Offers.

A. D. Lavoni. Show. Delicate pink. Well-formed flowers with long stems. Very desirable for cutting. This is an old standard Dahlia which every Dahlia grower has retained from its introduction, on account of its exquisitely beautiful color and perfectly rounded ball-shaped flower. One of the freest blooming Dahlias in cultivation. Try a half dozen of these.

Price, 25c.

America. Show. Light slate, with vivid crimson stripes. Often a solid color flower on same stalk. Sometimes the plant produces solid red flowers. Much admired.

Price, 20c.

Arabella. Fancy. Sulphur yellow with pink tips. Desirable in every way as a fancy Dahlia.

Price, 25c.

Boundstone. Show. Deep lavender on good stems.

Queen Victoria. Show. Lemon yellow. Flowers unusually full and round. Strong stems and fine for cutting. Price, 15c.

Red Fire. A very good light red Show Dahlia. Well worth owning. Price, 25c.

Rose. Show. Aptly named. Remarkable resemblance to a Rose. Of a typical rose shade. Base of inner rows of petals much deeper reddish rose than outer petals which are somewhat paler. Price, 35c.

Striped Banner. Tips of petals are white, jaggng down into the base of the petal, which is royal red or dark scarlet. A novel and striking blossom. Price, 25c.

Surpasse Colosse. Show. Color, scarlet carmine, flowers large, with large quilled petals. Price, 35c.

Sunburst. Show. Color, salmon. Fine form and a beautiful shade. Price, 25c.

Susan. Show. A beautiful, delicate, soft shell pink, splendid form, early and free flowering, long stems. Splendid for cutting. Price, 25c.

Tillamook. Show. Similar in shape to "Dreer's White." The whole blossom is very, very pale pink. Each petal is folded over neatly, making a beautiful flower. Price, 25c.

Triomphe de Lorraine. Fancy Show. Light brickish red. Good full flower and compact. Base of the many small petals is blended into a reddish salmon lighter than tips. Good stems. Price, 25c.

Vivian. Show. Large and of beautiful colorings. Center of blossom dark magenta, the inside of the petal being much lighter cerise or Jacqueminot. A large and excellent Dahlia. Price, 25c.

W. H. Williams. Show. Rich scarlet. A large, noble flower of compact form. Florets very evenly and tightly formed, and a free bloomer. Price, 25c.

White Swan. Show. Pure white. Very nice specimen. Price, 25c.

W. W. Rawson. Show. This popular novelty has been the admiration of all wherever shown the past season. The massive perfect flowers, often measuring 6 inches across, are borne on stiff stems about 15 inches long. The entire flower is absolutely perfect in outline and formation. The color is pure white, overlaid with amethyst blue. Price, 25c.

DAHLIA STAKES

As many of my customers make inquiries of me as to where they may obtain strong Dahlia stakes, I have arranged to furnish a good, strong, Oak Stake, 1¼ inches square, and 6 feet long, in the rough, just as they come from the mill, at 12c. each, F. O. B. Westerly.

SINGLE DAHLIAS

Blush Century. Clear white, slightly overcast with delicate shade of pink.

Price, 25c.

Blushing Maiden. This is a Dahlia of beautiful shadings. The florets are a light maroon mingled with a light carmine, and has a pure white stripe through the center of petals. Very attractive.

Price, 25c.

Coquette. Deep cerise pink, sometimes edged with a deeper shade. Quite large.

Price, 25c.

Dauntless. About one-fourth of petals at base yellow, remainder of petals rose pink, edged, dotted and streaked with magenta. Some of the petals have several stripes of the magenta through them, while others have somewhat less number of streaks.

Price, 25c.

Falcon. Reddish purple, with white disc around the center; a large flower in which the color contrast is both striking and beautiful.

Price, 25c.

G. H. Longman. Lavender pink. Petals broad and flat. Medium sized flowers; long stems; very desirable for cut flowers.

Price, 25c.

Lady Mildred. Pure white. Now and then shows a very faint pink tinge. Flowers large and perfect. Extremely graceful, and one of the most desirable white single Dahlias.

Price, 25c.

La Favorite. Dark rose, striped with rich purple and white. An exquisitely dainty flower. Large and blossoms freely.

Price, 25c.

Mabel C. A single Dahlia of unusual merit. The color is a lavender pink, with an amethyst shading at base of petals. Flowers large and graceful.

Price, 25c.

Margaret Perkins. One of the most beautiful varieties of recent introduction. The flowers are very large, have rather pointed petals, are wide, but not overlapping, and are borne on very long, stiff stems. The color is pure white, with about one-half of each petal tipped light pink; first flower being tipped cerise pink, and, like "Twentieth Century," of which it is a seedling, growing steadily lighter as the season advances, becoming a clear, soft pink later.

Price, 25c.

Madame X. Deep velvety carmine, occasionally blended and shaded lighter.

Price, 25c.

Miss Emma. Dark salmon yellow with light center. Very large and attractive.

Price, 15c.

Mrs. Evans. White, flushed pink, finely striped and spotted crimson.

Price, 25c.

TESTIMONIALS

Feb. 6, 1924—A gentleman in Pa. writes: "I am enclosing N. Y. draft for two packages N. Y. Group dahlia seed. The seeds you shipped me last spring gave unusual satisfaction. From the package I secured 148 plants, all of which bloomed and provided me with a wealth of blossoms. My success has enthused many of my friends who plan to try the same method this year."

Sept. 5, 1924—A gentleman in Conn. writes: "The dahlia seed from the Cobler I got from you turned out fine. I got lots of nice flowers and large size; some of them over 7 inches and no two alike. My friends think they are just grand."

Sept. 2, 1924—A lady in Conn. wrote me thus: "The plants which I grew from seed purchased from you this spring are just beginning to bloom and are very pretty. I picked one this morning, a beautiful buff shade which measured 7 inches across. They are all full of buds."

May 6, 1924—A lady in Ohio wrote me of her success as follows: "You will be pleased to hear that at the — Show last fall I won the blue ribbon for best collection of seedlings, entirely from your seed. I also won blue ribbon on both collections and 12 of a kind of pompons, a part of the pompons were from another grower."

PLEASE NOTICE

Every Dahlia offered in this catalog is described to the best of my ability as they are while growing in my fields without any disbudding; and every statement as to size is positively correct as they grow for me with no extra care. If disbudding with proper care is resorted to they will exceed sizes stated. If a purchaser does not grow them to sizes stated the fault is not mine. It may be the weather, the kind of soil, lack of water, and a dozen other things. One year's trial is not sufficient to try out a new variety. Experiments in your own garden are the best education.

PRICES

Orders received prior to Jan. 1st for shipment the following season will be subject to prices quoted in the new catalogue even though they have been reduced from the last issue.

All shipments to Canada after being delivered to the Express Company or the U. S. mail are at purchaser's risk as to delays or loss.

SPECIAL OFFERS

Parcel Post or Express paid by the purchaser. See table below.

For the benefit of those who are not familiar with the names, colors, and characteristics of the Dahlia, and wish to have the selection made for them, I make the following collections at a special low price to even up stock. SEED FIELD CORN

During the last few years I have taken great pride in producing the best corn for family use that can be grown. I think I have now four varieties that contain all the desirable features that any person could wish for family use. One for corn meal and three for green corn. Illustrations and prices for selected seed follow.

STILLMAN'S SPECIAL RHODE ISLAND DOUBLE CAP CORN

Outer end entirely capped. Butt nearly capped. The best white northern corn grown. The ears are large, butt stems are exceedingly small. The ears are easily husked and broken off. It yields two and three ears to the stalk. The kernels are large and in straight rows. It makes the sweetest and best table meal. The kind that makes the best R. I. Johnny-Cakes. Always get the Stillman strain.

Made from Stillman's Special Rhode Island Double Cap Corn. It's the sweetest and best meal on the market. Ground in an old-fashioned stone "Grist Mill." Fresh every week. Price, 10 lbs. \$1.25, postpaid in 1st and 2d Zone.

STILLMAN'S EXTRA EARLY GIANT SWEET CORN

matures the earliest and has the largest ears of any extra early sweet corn. Nothing like it for the earliest crop.

Selected Seed, 75c. per pint, 40c. per 1-2 pint.

Stillman's Extra Early Giant Corn. Ears 6 to 7 inches

The New Sweet Orange Corn. Ears 7 to 8 inches

THE NEW SWEET ORANGE CORN

Much larger than the Golden Bantam. The sweetest early green corn grown. Grows a medium height and ears profusely.

Selected Seed, 75c. per quart, 40c. per pint

MT. SHASTA SWEET CORN

The largest and sweetest green corn in the world. This mammoth new corn is in a class by itself. Nothing can beat it for sweetness and its mammoth size.

June 6, 1923. A gentleman in South Carolina wrote me thus: "Please ship me two pounds of seed of your Mt. Shasta corn. I noticed your claim that your Mt. Shasta was the largest and sweetest corn, and I tried a small quantity last year, really thinking you were covering too much territory in your claim. Have decided you knew whereof you spoke. After eating your corn we no longer care for the ordinary sweet corn."

Selected Seed, 75c. per pint, 40c. per 1-2 pint

Mt. Shasta Sweet Corn. Ears 9 to 11 inches

WORM KILLER

THE WILLIAMS WORM KILLER

I have taken the agency for this new device for killing the borer inside the Dahlia stalks. It is a handy little tool and works to perfection without the slightest injury to the plants.

DAHLIA SEED

IMPORTANT—It is very important that you understand that every plant you get from seed is an entirely new variety and may be even better than the flower it is taken from. So please do not call any dahlia obtained from seed by any name that is already given to any dahlia as it has no connection with any other.

I do not save seed from poor, insignificant flowers. The wonderful success my customers have with my seed is ample proof that it is far superior to any on the market.

DIRECTIONS FOR PLANTING

In the latitude of New York City seed should be sown about March 15th to April 1st. Flats or boxes about 3 or 4 inches deep are best. Cover the seed about 1 inch deep and keep in a warm place until the plants are all above ground. Then they can be moved to a cooler place. They should be kept in the sun to avoid growing too slender. Transplant in the open when weather is free from frost, about 15 inches apart. Discard any undesirable ones as soon as they bloom, thus giving the others more space.

SAMPLE DAHLIA BLOOMS

For the purpose of showing samples of my dahlias to people who cannot visit my fields I will label and ship a box of 35 to 50 blooms prepaid in the 1st, 2nd, or 3rd zones for \$5.00. If an order is received from these to the amount of \$25.00, \$2.50 will be deducted from it; if an order to the amount of \$50.00, \$5.00 will be deducted.

TESTIMONIALS

Oct. 16, 1924—A gentleman in Georgia wrote me thus regarding his dahlia seed: "Last spring I planted a package of your dahlia seed from new seedlings and have had a yard full of wonderful flowers all the fall. While all of the flowers are large and fine, and have been admired by visitors almost daily, I have secured six or seven that, if they hold true to the original seedlings, I consider are more than worth the \$10.00 package of seed."

Oct. 18, 1924—A lady in Tenn.-Va. wrote me: "My collection was worth more than you charged for it. Please mail me a catalogue."

Feb. 21, 1924—A lady in Conn. writes: "I wish to tell you that the bulbs I have had from you have been wonderful and believe me, it is lack of money, not desire, that prevents me from ordering more of your beautiful flowers."

April, 1924—A gentleman in Connecticut writes me thus: "Had a package of seed from you several years ago, and did mighty well with them. Took all blue ribbons at local show last year with seedlings raised from your seed. I have no trouble making them bloom first year from seed sown outdoors in the open ground after April 25th."

March 20, 1924—A lady in Maine wrote me: "Late in the season last year a friend told me of your special offer No. 4. I sent to you at once and planted them, and all came up beautifully. It certainly was the nicest collection of flowers I ever had."

March 11, 1924—A lady in Ill. wrote me this: "We raised some dahlias from your bulbs two years when we lived in Mass. We never enjoyed anything as we did those dahlias. They were wonderful; many people stopped and asked about them."

March 8, 1924—A gentleman in Maine writes me about corn as follows: "I have seed enough of the Sweet Orange corn, so will ask you to send the Extra Early Giant. Sorry not to get the Mt. Shasta, as it is by far the sweetest corn I have ever had."

Jan. 5, 1924—A gentleman in Texas writes thus: "My son bought the Indian Family dahlia seed from you two years ago, and I never saw such blooms. Some were eight and ten inches across."

Oct. 7, 1924—A lady from New York wrote me thus: "It may interest you to know that at the recent dahlia show of the

— Garden Club I entered 12 of your dahlias and took 10 prizes. So I thought I did well. Forest Loma got a first and a root I gave to a friend got second."

Oct. 6, 1924—A lady in Ohio wrote: "Last spring I ordered one of your \$1.00 collections No. 4. They all grew and while I do not care for some of them, I have one that in every respect tallies with your description of your fifty dollar dahlia, 'Our Country.' Do you suppose it could be 'Our Country'? Whether it is or not, I thank you for the pleasure it has given me."

April 8, 1924—A gentleman in Virginia writes: "Last year I purchased from you a package of dahlia seed from which I raised a number of plants. In raising dahlias I have never had as much pleasure from anything as I did from these seeds. We had some beautiful flowers measuring from 8 to 9 inches across."

May 15, 1924—A gentleman in Porto Rico says: "I ordered a package of seed Jan. 30th and planted them immediately, and raised 75 plants. The first bloomed by April 15. All are very interesting. I shall want some more this fall.

Oct. 6, 1924—A gentleman from Ohio writes: "It is with my greatest of pleasure that I can look with pride at the dahlias I am growing under adverse conditions. In the month of September they held a flower show in this city. Out of 8 entries I received 5 firsts and one second prize. The Millionaire and King of Shows were wonderful. I received your Special Offer No. 4 and out of that I received a blue ribbon. The dahlias I received from you are beyond my expectations."

Dec. 29, 1923—A gentleman in Mass. writes: "I raised 277 plants from the two packages of seed and after pulling out a lot I have over three barrels of bulbs that are worth trying again."

Sept. 1, 1924—A lady in Ohio says: "We are experiencing the worst drought we have had for many years. But notwithstanding the drought our U. S. A. has been covered with flowers. It surely is a splendid all around variety."

Feb. 1, 1924—A lady in Utah wrote a very interesting letter about seed—condensed as follows: "I had about 70 nice plants and they were a riot of color all summer. I had a beautiful pure white

decorative which measured 8 inches across and a lavender decorative which had 27 perfect blossoms on it at once beside the many half-open buds; also a brilliant carmine red which was a deep, heavy flower; and also a very large pink. They are wonderful!"

April 15, 1924—A lady in West Virginia writes as follows: "Your dahlia bulbs received in good shape today, and I don't know how to express my thanks to you for your kindness. They are all nice and sound and I see no reason for not having blossoms if properly cared for. Everyone says you are very kind and good. I think you will always prosper as some have already said to me that they liked to buy from anyone like you."

May 5, 1924—A gentleman in Mass. wrote me thus: "On Jan. 31st I sent to you for some of your dahlia seed. They were planted, and I now have just a hundred very thrifty plants."

Oct. 4, 1924—A gentleman on Long Island wrote me: "Last year at the Show I bought a package of your seeds for \$1.00. I had very good luck with them—some measured 6 3-4 inches across."

For lack of space I regret that I am obliged to omit a great many worthy testimonials which ought to appear on these pages.

THE LADIES NEW DAHLIA SNIPS

These new snips are meeting with a large demand. Especially used for budding, pruning, and cutting flowers. Being 8 inches long they have proven very useful for many purposes in the household and greenhouse. Sent postpaid in the United States for \$2.00.
