POLAND DOTTED BY BABYLESS TOWNS

New York, Nov. 17.—Babyless towns, thickly dotting the Polish landscape of Poland and in many of them there are no longer any births, declared Dr. Herschel C. Walker, chief of the American Relief Administration, who recently returned from that country.

All of the infants born in the agricultural areas in the last two years succumbed to starvation and disease, he introduced, or they have been removed to places where they can be properly fed, Dr. Walker said.

Hundreds of houses that once echoed with the laughter of children and whose families live in squalid dugouts without light or ventilation.

Some mothers have kept their children alive on grasses and roots made into this tasteless soup, hunger brought the slaughter of cows by the wholesale, and milk can be had now only by the wealthy.

These conditions precluded maintenance of the ordinary birthrate, but the suffering has been so great that almost entirely in parts of Poland, said Dr. Walker, homes have been abandoned by the women and the provision of food for every child has been impossible or forbidden the bringing of children into a world of such hunger, sickness and early death appear to await them.

## MISSED GUESS BY HALF HOUR

### Sum of \$5,000 Reached Superior Bank Right After Robbery.

Had the robbery of the Superior State bank in the East end, Superior, occurred half an hour later than it did yesterday forenoon, the men would have got away with \$5,000 more cash, according to information that came to light this morning. The additional sum of money was being carried in a bag on a street car by Sirlil Gray, assistant cashier of the bank, from the First National bank of Superior to the Superior State bank, and reached that institution shortly after the robbery.

A yet no reliable clue as to where the robbers went has been obtained. A number of conflicting reports were given, but the police are confident that the robbers had been in a time, but that the robbers had been a day off in their calculations. Early in the month and shortly after the middle of the month this bank carries upwards of \$40,000 in cash to meet checks issued by various concerns in the East end, and among which is the Bailey flour mill. This sum would have been on hand in the bank today to meet pay checks.

Every close telephoned or reported in other ways is being investigated by Superior and Duluth police. The police are of the opinion that the men have placed a long distance between themselves and the East end of Superior and may be now in the Twin Cities.

Bank officials gave out the report today that the officials of the National Surety company, which carried the insurance against bank robbery, made a settlement with the bank this morning for its loss. The amount of the settlement was \$7,213.

## DEAD MAN FOUND MAY BE SUICIDE

The body of an unidentified man was found lying under a tree beside the small creek running through Lake Shore park, where the police and Deputy Coroner James McAniff believe committed suicide by hanging. The body was discovered by Earl Jacot, age 14, 219 West Second street, shortly before 11 o'clock. The boy was walking through the park for recreation. The man, who had been broken, was found tied to the tree and a piece of it was found on the ground alongside of the body. A mark on the neck indicated that the strap had been fastened about it. When the body was found it was lying face downward, the face being toward the creek. The man was evidently a laborer, about 35 years old, well dressed, having a mustache and wearing a watch in his pocket was found \$1 and a cheap watch. The man was found where he was or where he came from was found.

## COURT DENIES ALTERNATIVE MOTION IN DAMAGE CASE

Judge Cant in district court today denied the alternative motion of the defendant for judgment notwithstanding the verdict or for a new trial in the case of E. Emma Powell against the Great Lakes Transit corporation. The case arose in which Mrs. Powell sued for \$5,000 damages for injuries she received on 3, 10th and 11th streets, when she was struck by a street car on the street. She had gone to the boat to bid friends good-bye, on March 13 last, a district court jury awarded her a verdict of \$1,000 and W. H. Bailey & Mitchell, attorneys for the corporation, asked for judgment notwithstanding the verdict or for a new trial. Charles E. Adams, attorney for Mrs. Powell, opposed the motion.

## NEW RABBI WILL ADDRESS YOUNG PEOPLE

If you are needlessly burdened with superfluous fat, read the following carefully. See how easily others have reduced by my simple and efficient method of fat reduction. Some have reduced over a pound a day. All this has been accomplished without resorting to diet or tedious exercise.

Mrs. O. WATSON writes: "I have lost 76 pounds as a result of your treatment and have never felt so well in my life as I do now."

Mrs. S. SARTRE writes: "I have lost 70 pounds as a result of taking your treatment. I feel better in every way. I can now take long walks without becoming tired or short of breath. I thank you very much for what you have done for me."

Mrs. J. G. HAWITT writes: "I have taken your treatment faithfully and I say that I have also entirely relieved my rheumatism."

Mrs. E. HOBAN writes: "Well, I am glad to inform you that I have lost 45 pounds—six weeks."

Mrs. C. FALKER says: "I thought I would let you know how I am getting along. I am feeling fine and have found the treatment pleasant to take at all times. I have not weighed, but my measurements show that I have reduced six inches from my bust, five inches from my waist, and 12 inches from my hips. Of course, I am pleased with the result."

I am a licensed practicing physician and personally prescribe for each individual case, thus enabling me to select remedies that will produce not only a loss of weight harmlessly, but will relieve you of all the troublesome symptoms of overweightness such as shortness of breath, palpitation of the heart, indigestion, rheumatism, gout, asthma, kidney trouble and various other troubles which often accompany overweightness.

My treatment will relieve that depressed, tired, sleepy feeling, giving you the renewed energy and vigor which come as a result of the loss of your superfluous fat. My treatment is the only scientific treatment known that will produce a loss of weight without harm to the system.

You are not required to change in the slightest from your regular mode of living. There is no dieting or exercising that you have to follow. It is simple, easy and pleasant to take.

To all who are overweight I will send FREE a trial treatment and also my plan whereby I am paid only after reduction has taken place. If you so desire do not postpone, sit down right now and write your name and address clearly on the attached coupon or plain paper and so start on the road to the recovery of your former health and figure.

Furs of Refinement  
New Furs.....Fashionable Exponents of Beauty and Worth

AT the last moment—when the woman who has long yearned for her own Fur Coat or Wrap had just about given up all hope—the clouds turned themselves inside out. The Glass Block's annual Thanksgiving selling of furs brought to Duluth a liberal quantity of the limited number of made-up garments and pieces in American stock—bought at a price which anticipated the lower prices of next year, due to the drop of pelts. Now selling on even a better basis than that.

- 1—It will be August of 1921 before as good a fur opportunity comes again.
- 2—Every fur is among all furs as sterling silver is among silver.
- 3—Special price concessions are placed on all Furs during this selling, making it as impossible as impossible can be to grant the wide-open privilege of exchanges and refunds.

—The first column above tells the fabric story, the second indicates the fur trimming, the third suggests the colors.

—"Browns" means dryad brown, tobacco brown, beaver brown, taupe, and so on.

—Take a combination like Mole Fur and Chamoistyn, wrap mode, and you have a garment Fifth Avenue counted worth 150.00.

—Then think of full, luxurious modes, with wrappy outline, shawl or cowl collar, with acres of stitching.

—Think of loose panel backs which pretend they are blouses, or real blouse backs stitched in chenille.

—Think of Cape Wraps which add up wide ruffle upon wide ruffle, until the very top, where a big cowl-like collar talks Parisian.

### Pioneering for Prosperity

A more healthful prosperity is about to dawn upon the nation.

With bountiful crops, better transportation, more efficient production, and an assured world market for American-made goods, pessimism is simply out of the question.

The primary markets have eased up. And whether The Glass Block advertises it or not, as better prices go into effect at these primary markets, they go into effect at The Glass Block.

For the new prosperity depends upon lower prices—increased demand—more orders—more employment—steadier incomes.

The response Duluth is giving to the better prices prevailing in practically every Glass Block Aisle shows that it is commonly understood that one's own prosperity depends greatly upon the other man's chances to be continuously employed.

### READY TO FIGHT SNOW ON STREETS

With the close of paving and sewer improvements for the season the attention of the public works department is turned towards the combatting of snow during the coming winter. Streets and sidewalks must be kept open, and to do this a much larger equipment is necessary this winter than last. Larger plows and tractors and more of them will be used, according to J. A. Farrell, commissioner of public works.

Recently the city council authorized the purchase of a giant caterpillar tractor for use on the streets. It is a ten-ton tractor and will be equipped with two wide plows. It will be able to do three times the amount of work formerly done with the trucks, and in the summer it can be used to great advantage, as it can pull an enormous load.

The department has organized forty horse-drawn plows and three trucks with plows attached. In addition to the new tractor. The equipment with the plow will be able to keep the streets and avenues clear, even during the worst storms of the winter. If a storm breaks during the night, the entire crew and full equipment will report for duty at 1 a. m. and by the time the people are starting downtown the walks and streets will be fairly clean. The crews are apportioned to different sections of the city and will continue their work until everything is open. If the storm continues, it is sometimes necessary to keep the men at work for a stretch of twenty-four hours. In the

### DRAFT BILL FOR NEW ROAD BODY

St. Paul, Minn., Nov. 17.—Minnesota's good roads law, to be enacted at the next legislature following success of Amendment No. 1 at the polls, probably will be in charge of a commission of five persons to be appointed for a term of not less than three nor more than five years and to serve without pay.

Preliminary work of drafting the enabling act was begun yesterday in the office of the state highway commissioner. While nothing official has been announced it is understood that the suggestions will embody these fundamentals:

Commission to direct operation of the law.

Graduated motor license fee.

State motor law standardizing traffic.

Promises were made during the campaign "to keep this project out of politics." To do this it has been suggested that the commission serve without pay and that it be appointed to serve at least five years. The motor license fee will be so graduated that the gross average will not exceed \$18 a car. The state motor traffic laws are expected to be so standardized by almost a dozen states and will be sufficiently broad to include modern transportation problems.

This sale will long be remembered by the people of Duluth as being the greatest and most successful value-giving event ever held in recent years—we want all to benefit by this sale—so we say hurry, because

# PREPARE FOR THANKSGIVING

### Union Services Planned for Several Sections of City.

Churches throughout the city are planning union services in observance of Thanksgiving day. Definite programs are not yet fully outlined. At the First Presbyterian church there will be a meeting of the congregations from the First Methodist, First Baptist, Episcopalian, Congregational, Episcopalian, First Christian and First Presbyterian churches.

Services in the West end will probably be held at the Swedish tabernacle. Churches to be represented will include the Swedish Mission, Swedish Methodist, Swedish Baptist and Norwegian-Lutheran Methodist.

In West Duluth Rev. R. W. Adair of Merritt Memorial will preach at union services in the Holy Apostles Episcopal church where the congregations from Ashbury Methodist, West Duluth Baptist, Westminster Presbyterian, Merritt Memorial Methodist and Holy Apostles Episcopal churches will meet.

Among the churches which will hold separate services for their own congregations are Trinity Cathedral, St. Paul's Episcopal and the First Norwegian Lutheran. It is expected that other churches in the suburbs will also complete plans for union services within the next few days.

The Herald will run a church page of Thanksgiving day services in the issue of next Wednesday. All announcements must be in the Herald office by next Monday.

### HALF MILLION LEFT TO CHURCH AND CHARITY

Chicago, Nov. 17.—More than half a million dollars is bequeathed to Catholic churches, hospitals, charities and schools by the will of the late Angela

C. Gormully, who was the widow of Richard P. Gormully, bicycle manufacturer. The will was filed for probate yesterday and listed the total value of the estate at \$700,000, all of it being left to charity except bequests to relatives and friends which totaled less than \$200,000.

The largest bequests are \$50,000 to the Roman Catholic North American college at Rome, Italy, and \$100,000 to the Catholic bishop at Chicago for the benefit of the poor.

### LUMBERMEN BENEFIT BY INDUSTRIAL SLUMP

Houghton, Mich., Nov. 17.—The industrial slump over the country that has thrown thousands of men out of work is not deplored by lumbermen who are planning on a busy season in the woods in this section as they claim there has been an increase in applications for woods jobs, many having left the mining towns for the woods, and wages are said to have experienced a corresponding drop.

### Compensation for Domestic

Spokane, Wash., Nov. 17.—Compensation for twelve years' service as a domestic was set at \$4,200 here yesterday in the superior court when Elizabeth Rounds was awarded that sum in a suit against Missie E. Gabrecht. Mrs. Gabrecht contended Miss Rounds had agreed to work for her room and board.

### RINKS WILL OPEN SOON.

City Will Provide Skating Facilities at Nine Places.

Capt. Henry Cleveland, in charge of the park department, announced yesterday that he hoped to have the city skating rinks in condition for use by the first of December. It would be possible to have them ready sooner than that were it not for the fact that the ground is not frozen hard enough to warrant permanent ice, said Capt. Cleveland. The cold weather will determine just when the rinks will be opened, however.

Should a period of mild weather follow the past week of cold, it would postpone the opening date, he said. Nine rinks are planned for this winter and the workmen are busy getting them in shape to flood as soon as the ground is frozen sufficiently.

### URGES HOMES FOR ORPHANS.

Private Families Can Reduce Delinquency, Says Miss Sill.

If Duluthians would take more orphans into their homes and give them the tender care to which childhood is entitled, instead of making it necessary to send so many into overcrowded orphanages, juvenile delinquency would be greatly diminished, Miss Corabelle Sill, executive secretary, told members of the St. Louis County Child Welfare association yesterday at its meeting at the Commercial club.

The education of a child in a private family is far superior to that given in an orphanage, Miss Sill declared. "And a child in this manner. There are many Duluth families now caring for several orphans in addition to their own children."

Among those at the meeting, all of

whom indorsed Miss Sill's statement, were Fred Ward, Harvey Tushour, Dr. O. W. Rowe, Clyde Burgin, Mrs. Willard Bayless of Eveleth, and Mrs. Peter Schaeffer of Eve.

### MERRY CLOWN VISITS SCHOOLS.

Jo Jo Combines Amusement With Lessons in Hygiene. Jo Jo, merry clown of the canvas top, is combining striking lessons in hygiene with his delightful entertainments in Duluth schools this week. He is visiting the county today and to-

orrow, but he will return here Friday and will remain Monday and Tuesday. Working under the direction of the American Red Cross, northern division, Jo Jo in his grotesque way impresses the little ones with the value of right living and proper exercises to preserve good health.

He is also somewhat of a musician, dancer and performer of magic tricks. Most of his tricks he learned while connected with theater and circus for the last twelve years. In 1918 he was manager of the municipal men football team, which won the championship of America.

Yesterday Jo Jo visited the Liberty, Franklin and Jackson schools. C. H. Barnes, superintendent of the county system, is in charge of his visit to the rural schools. Jo Jo is planning to visit every school in Duluth before he leaves here.

### STRICKEN SUDDENLY. OLD RESIDENT SUCCUMBS

Mrs. Flora McGinnis, aged 67, wife of Archie McGinnis, dropped dead of cerebral hemorrhage last evening as she was walking down town to attend an entertainment. She was accompanied by Mrs. Zimmerman of Maple, Wis., at the time.

A police ambulance was summoned but she had died before reaching the hospital. Her body was taken to Grady & Horgan's undertaking rooms, where funeral arrangements are awaiting word from out-of-town relatives.

Mrs. McGinnis had been a resident of Duluth for thirty-one years. In recent years Mr. and Mrs. McGinnis have been making their home with their son-in-law and daughter, Mr. and Mrs. L. E. Barber, 420 East First street. Besides Mrs. Barber, she leaves one other daughter and two sons, Mrs. Frank A. Summers, and John and Frank McGinnis of this city; five sisters, Mrs. Angus McDonald and Mrs. George McDonald of Duluth; Mrs. Catherine McDonald of Minneapolis; Mrs. R. McPherson of Seattle, Wash., and Mrs. Nell McDon-

ald of Lancaster, Ont., and two brothers, John McLachlan of Laido, E. C., and Harold McLachlan of Lancaster, Ont.

### "ABRAHAM LINCOLN" TO BE READ AT HIGH SCHOOL

The expression classes of Duluth Central high school are bringing to Duluth, Miss Hortense Nielsen, a dramatic reader, who will give an interpretation of Drinkwater's play, "Abraham Lincoln," in the high school auditorium at 8:15, Friday, Dec. 3. Miss Genesee, who is at the head of the English department of the school, urges all teachers and pupils of other schools to attend.

### Coughs and Colds

### Catarrh, Croup, Sore Throat Banished by Hyomei

The germs of catarrh do not exist in the same atmosphere with antiseptic Hyomei (pronounce it High-o-mey). Breathe Hyomei and relief from catarrh, coughs, sore throat or cold will come in two minutes. Breathe Hyomei and that stomach straining hawking in the morning will quickly disappear.

Breathe Hyomei and kill the catarrh germs; heal the inflamed membrane, stop the discharge of mucus and prevent crusts from forming in the nose. Breathe Hyomei for a few minutes each day and rid yourself of contemptible catarrh.

Breathe Hyomei—give it faithful trial and then, if you are not satisfied, you can have your money back. Hyomei is sold at Abbott's drug store, 219 West Superior street, and by drug-gists everywhere.

## Mr. Hoffman

### Develops in Troco the flavor which made his butter famous

The process of making is essentially the same. Troco is churned from rich, snowy coconut fat instead of butter fat. Care and skill imparts the fine flavor which gives both Troco and butter their sweetness.

Thus the man who can make the finest butter knows how to make fancy Troco. Such a man supervises its production.

**Famous in the butter world**

He is A. E. Hoffman, for 30 years butter maker, judge and teacher.

Mr. Hoffman is famous in the butter world for the peculiar sweetness and delicacy of his butter. He puts the same sweetness and delicacy into Troco.

**Finest plant in the country**

We have built Mr. Hoffman a fine plant—of white tile and concrete—elaborate in equipment—perfect in sanitation.

This enables him to standardize the perfection of Troco and assure the user the unvarying deliciousness of every pound.

**Overexertion Kills Boy.**  
Washburn, Wis., Nov. 17.—Overexertion is believed to have caused the death of Milton, 10, son of Mr. and Mrs. Dan Daly of this city, as he died after returning from a run to and from a drug store. His Mr. Hinkel conducted funeral services.

**EAT LESS MEAT IF BACK HURTS**  
Take a Glass of Salts to Flush Kidneys If Bladder Bothers You.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; not sufficient to cope with and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity, also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

**TAX SHOULD BE REPEALED**

Collecting Taxes on Dividends at the Source Should End.

Lexington, Ohio, Nov. 17.—"The corporation income tax should be repealed; we should stop taxing corporations as collection agencies, and each individual should be permitted to pay his own income tax," said E. G. Elliott of Chicago, chairman of the committee on Federal taxation of the National Association of Credit Men, yesterday when he addressed the Ohio Bankers' association here. Mr. Elliott said in part: "The present method of collecting taxes on dividends at the source should be discarded just as it was discarded several years ago with respect to salary, wages, rents and interest. Then, collect the proper income tax from each individual according to his ability to pay."

**Ability to Pay the Tax.**

"The only lasting foundation on which a system of tax on income can be erected is ability to pay. It must be borne in mind that every tax collected is paid ultimately from the income of individuals. Therefore, ability to pay rests with the individual and the individual should be used to the greatest possible extent as the basis to which income taxation is applied. "Equality of distribution of the burden of the tax among individuals is essential. Unless this principle is followed, no system of taxation can endure. Under our present system of trying to tax large groups of individuals (corporate shareholders) in mass, we have the spectacle of individuals enjoying the same measure of prosperity bearing tax burdens vastly different in amount, often one bearing five or ten times the tax of his neighbor who is equally prosperous. "No Excess Profits Tax. "The excess profits tax must go,

Corporate shareholders must pay taxes just the same as partners and individuals now pay them.

"Income taxes should reach all the income of the country once and once only; therefore, the National Association of Credit Men has recommended that the corporation earnings which are not paid out in dividends (thus becoming subject to individual income taxes) should be taxed at rates corresponding to the rates of tax paid by an individual or partner on the earnings of his business which are saved and remain in the business.

"These corporate earnings once having paid their tax should not be taxed a second time if later distributed. "Could Pay Individually. "These provisions should be coupled with a provision that corporate shareholders could elect to pay taxes individually on all the earnings just as partners do, for in this manner, full and complete equity would be accomplished.

"The graduation of the rate of tax on the unshared income of the corporation could with much equity be based on the per cent of the total current net income for the year, which is left free from tax in the hands of the individual shareholders, thus avoiding the complications of determining invested capital which has caused so much trouble, expense and litigation under the present law.

"These provisions would guarantee substantial equity for all and absolute equity for the larger portion of the earnings of industry."

**DORMITORY MEN TO OPEN SEASON**

The members of the Y. M. C. A. dormitory will initiate their social activities for the season tonight at 6:15, when they hold their first banquet of the year. About 140 men who live in the Y. M. C. A. building will be present. A strong program has been arranged by the committee in charge. Music will be furnished during the banquet by several members of the Duluth Central high school orchestra, directed by their conductor, Carl Borgwall. The general program will begin at 6 p. m., with a procession of a tin band

through the hallways, beginning at the top floor and ending in the lobby. At 6:15 p. m. the attention call will be sounded in the lobby and promptly at 6:15 the chow and assembly calls will be heard.

The program includes a talk on the topic, "Life Is Just One Damn Thing After Another," by C. S. Mitchell of the Duluth News-Tribune, who will have soon to take charge of his new work in Washington, D. C., for Mr. Barnes and Mr. Hoover, Glen Schroeder of the American Exchange National bank, one of the old members of the dormitory, and John Samuel, educational director of the Y, and a new addition to the dormitory, will each give a short talk to the "Old Line" and to the "New Line" respectively, referring to the line of dormitory members by O. E. Brown and L. Revell Larson, who are members of the dormitory. They will be accompanied by F. R. Marshall.

**James William Buel Dead.**—James William Buel, journalist, author and editor, whose name appeared on the title pages of fifty-four works, some of which contained from ten to fifteen volumes each, died here yesterday. His books covered a wide range, from "Legends of the Ozarks" to a work on the history and mythology of music. His compilation of stories of the Bible is said to have reached a sale of more than 1,200,000 copies. Mr. Buel was born in Galesburg, Ill., in 1842.

**AN ENEMY TO GOOD HEALTH**

Good health has no greater enemy than constipation. You cannot "keep fit" for work or play if the bowels are irregular or clogged with a decomposed mass of undigested food from which the blood picks up disease-causing impurities and carries them throughout the entire system. Foley Cathartic Tablets are mild but sure in action. They banish biliousness, sick headache, sour stomach and other ills caused by indigestion. Take one tonight and you will feel better in the morning.

**DICKINSON SUCCEEDS CAL E. STONE ON G. N.**

St. Paul, Minn., Nov. 17.—A. J. Dickinson was yesterday appointed to succeed Cal E. Stone as passenger traffic manager of the Great Northern railroad, according to an announcement by William P. Kronecy, vice president in charge of traffic. E. H. Wilde was appointed general passenger agent, Frank L. Hay, superintendent of dining and sleeping car service, resigned and will go with J. M. Gruber on the Cuba Railroad company system in Cuba. Wallace D. O'Brien was appointed general agent of the freight department to succeed the late P. O. Pienney. The changes probably will be effective Dec. 1.

## QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No grating is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 15c-30c.

This is shrine day in Duluth and scores of members of the mystic order are here from various points of the Northwest to see the ceremonial which will take place on tonight and to assist the Imperial Potentate of North America, Ellis Lewis Garretson of Tacoma, Wash. Mr. Garretson arrived last night with his suite and got his last good sleep by some days at the grand hotel. He is on his official tour of visitation to the various temples of the continent and is a very busy man. With him on the journey are other Imperial officers, and here and there he adds to his retinue when locally or nationally noted Shriner's join him for a brief part of the trip. Many are these societies, but the Imperial Potentate continues to gather at the bright particular star.

**TRAIN ROBBERS GOT AT LEAST \$3,500,000**

Council Bluffs, Iowa, Nov. 17.—The Council Bluffs Evening Nonpareil last night published the following: "The loss in the Burlington mail car robbery here Saturday night will total at least \$3,500,000, it was made known today, when additional postoffice officials came to assist the local investigators and a check of the insurance on the pouches was made. The sack found, which had been ripped open, contained \$800,000 in government bonds, the investigators said. The bonds were on route from San Francisco to Washington, D. C. and it is possible that a larger amount than that was contained in the bag. Officers made a thorough search, but no more sacks were recovered. Merle Phillips, the 20-year-old mail sorter on the train, sticks to his story that he merely stood watch on the locomotive while two others did the actual robbing. Officers, however, are convinced his story is partially untrue."

**DECISION CONTRARY TO RULING OF BUREAU**  
Indianapolis, Ind., Nov. 17.—A decision by Federal Judge Anderson here giving a soldier's insurance to his aged grandmother is contrary to the ruling of the war risk insurance bureau that insurance disposed of by a soldier will revert to the state unless another beneficiary is specifically designated in the policy. Without the court's decision, payments on a \$10,000 policy of government insurance would have gone to half brothers of the soldier. The decision also held that cousins are not within the permitted class of beneficiaries. When the soldier, Warner Johnson, was stopped from making his grandmother Mrs. Nancy Chappell, of Oakland City, Ind., his beneficiary on account of a bureau ruling that she was not within the permitted class, the evidence showed he made out his policy to his estate, and then will all his property to his grandmother and a cousin. AT THE THEATERS

TONIGHT'S ATTRACTIONS.  
OPERA—Emily Ann Wellman in "The Actor's Wife," other acts.  
NEW GARRICK—"My Dream Girl," musical comedy, other features.

ORPHEUM—William Price in "George Price's Little Sister. The Price family, financially is worth almost any price. They stand every inch in the vanguard of players and it is of course, from this set that the stars of tomorrow must come, so it is very likely that some day very distant the Prices are seen to be elevated to stellar rank. William Price has entered into a valuable agreement with Lind Herne. Mr. Herne has had several vaudeville successes. He is a musician closely associated with the vaudeville type. There are few players more at home at the Orpheum than he is. Miss Price and Mr. Price will combine their talents in songs, plays and music. They are of a decidedly up-to-date assortment of songs, plays and music.

NEW GRAND—Tonight's showings will be the best of the entertaining current bill of vaudeville and pictures of the New Grand, where an entire new show will open tomorrow headed by "The Pearl of Hawaii," Jonia, and her troupe of comedians. They Dream Girl, a spectacular musical and dancing play, led with a company of seven, two of them girls, headlined the present program. Other acts include Johnny Clark and company in a comedy sketch, "Loring Prohibition," Al Grant, a popular entertainer in "Songs and Smiles," Charles Irving in "Hazel Brown" in their musical burlesque, "Black Home," and Lou and Grace Harvey in "Songs of the Hour." The show has been making an immense hit since opening, playing to satisfied crowds at every performance.

PHOTOPLAYS

NEW GARRICK—Tom Moore in "Officer 566."  
STRAND—"Held by the Enemy," with Jack Holt and Agnes Ayres.  
ZELDIA—Corinne Griffith in "The Whisper Market."  
NEW LYRIC—Shirley Mason in "The Little Wanderer."

STRAND—When a story is based upon a woman's spirit of self-sacrifice brought about by dishonoring her name to protect the home of a man who once loved her and whom she holds in the highest esteem, it is always certain of carrying sufficient appeal to enlist the sympathy of the average reader. When it is depicted upon the screen with its dramatic possibilities realized to the utmost, it takes on an interest, the force of which cannot be denied.

Edith Clayton's new starring vehicle, "The Ladder of Lies," by Harold Victor, which will come to the Strand theater for three days beginning tomorrow, is interpreted as the ladder upon which man climbs to happiness. It is shown that this ladder must be founded upon truth, for if it rests upon a lie, it will not be firm and man has reached the top. This is one of the most powerful themes which Miss Clayton has interpreted for some time. "The Ladder of Lies" may be defined as the old story of woman's sacrifice for a man, but done with an entirely new twist. In this tale the heroine doesn't love the man for whom she is raising her name, but is just his good friend, anxious to shield him from the fact that the woman he married is unfaithful.

When her own honor is impugned, as the result, in the eyes of the man she loves, the heroine is silent, until the way is unexpectedly opened to her happiness. Miss Clayton was never more attractive than in "The Ladder of Lies" and never has she revealed such a mastery of her art. The picture presents ample opportunities for the display of a splendid moral. The star's support is praiseworthy, including such favorites as Charles Meredith, Irving Cummings and Clyde Fillmore.

William Gillette's powerful stage

success, "Held by the Enemy," will close tonight. Coming Sunday will be Norma Talmadge in her latest production, "The Fringed Woman."

NEW GARRICK—It is cruel to deceive when the deception is for a good end. Which is better—to leave a blind girl blind, believing her friends good and beautiful, or to give her sight and the bitter knowledge of finding them common crooks? This is the double-edged problem unfolded—and answered—by "Held by the Enemy," which Mary Miles Minter comes to the New Garrick tomorrow on a program of added attractions of which include "One Best Bet," a Chester comedy with the same actors, human and animal in "Followed by Four" and other hits. The feature is this popular little star's latest picture, adapted from the Ladies Home Journal story, "Blindness," by Louis Bromberg. It is the most chance Tom Moore, admirers and others who like good comedy-frames on the screen, will have to see. "Officer 566," a picture of the Cohn & Harris' force comedy starring by W. G. Schell Smith, which is funnier and better than the stage production.

NEW LYRIC—Pettie, charming Shirley Mason is back again, this time in "The Little Wanderer," featured at the New Lyric with "Mr. Palmer," a special Christie comedy starring Eddie Garric. The little star is seen as a friendless girl who flees from a hard taskmaster, and disguised as a boy, leads her way on a coal train to New York. Forced by circumstances to admit she is a girl, the romance which is pretty woven into the story begins and is carried on to the accomplishment of one adventure after another to the final climax that is as unexpected as it is logical. The supporting cast includes such notables as Raymond McCree and many others. "Mr. Palmer" is one of the most delightfully funny comedies ever here. This season according to report as high a mark as the others have hit. There will be the first of the short subjects, including the Lyric News Events, and special music by the New Lyric concert orchestra.

ZELDIA—"The Whisper Market," opening at the Zeldia today, the new vehicle provided for Corinne Griffith by Vitaphone, is an admirable example of an interesting story, well worked out for the screen, expertly directed, presented with extraordinary care and acted by an all-star cast—in other words, a typical photoplay of the kind that the public has learned to expect from Vitaphone. The original magazine story which forms the basis of "The Whisper Market" was written by W. E. Smith and has all the elements of a modern story of adventure and intrigue, with novel twists. Miss Griffith as Fannie North, a leader of society in the American colony, acts with vigor and makes her role a splendid portrayal of American womanhood and devoted. George Howard plays opposite her the sinister Lord North, Fannie's husband and American vice consul. Burke, the mysterious adventurer, is in the capable hands of George MacQuarrie.

"Better Minnesota" week is the formal title given the five-day celebration, which was inaugurated last year by President Marion Le Roy Burton, now president at Michigan, and followed again this year by the new president, Lotus D. Coffman.

The formal program got under way today, after a successful "button sale" yesterday, the first day of the observance. Homecoming lodges were sold to thousands of students and alumni looking here for the big event, which will culminate Saturday in the football game between Minnesota and Michigan.

Today's program started with a convocation in the Armory, at which President Emmett Fowell spoke. President Coffman presided and the girls chine sang in the evening. A student dinner will be held to welcome President Coffman as the university's new executive.

## NEW BADGER LIBRARY SYSTEM NOW PROPOSED

Madison, Wis., Nov. 17.—Establishment of a new system of libraries in certain counties of the state is to be recommended by the free library com-

mission to the legislature when it convenes, according to E. C. Lester, its secretary. The proposal calls for a reorganization of the county plan of distribution.

Rural library extension, especially in the northern districts of the state, is considered by the commission in presenting its proposal, it is said. Direct taxation will be asked as support for the new libraries, with units which already give adequate financial support exempted, according to Mr. Lester.

County boards are to create, establish and maintain a public library system for the state under the plan. They are to appoint a board of not more than five, including a county superintendent, to direct the work. Under the proposed plan, it is said, they may also erect or purchase necessary buildings and may take over the existing libraries. The county board

would provide for the appointment by the library board of library employees and for fixing their pay. Librarians in the employ of the county boards would be required to hold first-grade certificates under the proposed plan, it is said.

A Remarkable Home Treatment Given by One Who Had It

In the spring of 1893 I was attacked by muscular and sub-acute rheumatism. I suffered as only those who have it know for over three years. I tried remedies after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally I found a treatment that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with rheumatism, some of them 70 to 80 years old, and results were the same as in my own case.

I want every sufferer from such forms of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of getting rid of your rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when relief is thus offered you free? Don't delay. Write today.

**MRS. GABLE BADLY INJURED BY AUTO**

Mrs. J. J. Gable, aged 50, 325 South Sixteenth avenue east, is at St. Luke's hospital unconscious with a fracture of the skull and only slight hopes are held out for her recovery. She was struck by an automobile at Fifteenth avenue east and London road yesterday afternoon. The machine was driven by Edward Johnson, 1767 1/2 day street, city salesman for the Peyton Paper company.

According to the story told the police by Johnson, he was driving east with his car running between fifteen and twenty miles an hour alongside of another car when the intersection was reached. Mrs. Gable, in company with Mrs. A. J. Anthony, 1510 Jefferson street, started to cross London road and when almost directly in front of Johnson's machine, Mrs. Anthony stopped, but Mrs. Gable started to run across. Johnson says he applied the brakes and attempted to turn up Fifteenth avenue to avoid hitting either woman, but his car skidded, the rear end of the machine striking Mrs. Gable, knocking her down.

An ambulance was called and the woman taken to the hospital. She was operated on by Dr. Harry Klein, police surgeon, at midnight after her husband, who was at Richmond, and her son, William Enev, who was at Two Harbors, were located and reached the city. Dr. Klein said today that Mrs. Gable has a chance of recovery.

**RIVER TRAFFIC WOULD SAVE MANY MILLIONS**

Minneapolis, Minn., Nov. 17.—States that would be served by boat and barge traffic on the Upper Mississippi river would save \$300,000 a year of Illinois and Indiana coal alone if river navigation could be kept open. E. A. Merrill, vice president of the Minneapolis Steel & Machinery company, told members of the Upper Mississippi Waterways association at their convention here today. The amount of coal coming north from Illinois coal fields, he said, has increased from 1,000,000 tons seven years ago to 3,000,000 tons this year, with the prospect of further increases in the movement.

Mr. Merrill declared the average freight per ton from these fields by rail is now \$3.85, while it could be brought up by water for about \$2.50, saving at least \$1 on each of 3,000,000 tons.

A definite program for crystallizing sentiment in communities along the Upper Mississippi river in favor of restoring navigation on the river was developed today by the delegates of the convention.

The immediate object of the association, as outlined by the organization and finance committee and reported by E. C. McCarthy, Davenport, chairman, is to promote the immediate establishment of a dependable barge line in the Upper Mississippi river, to aid in making a success of the government barge line and cooperate with municipalities and private interests in the construction of river terminals.

### TERMINAL DOCK CASE BEFORE SUPREME COURT

Ashtland, Wis., Nov. 17.—The recent decision of Judge Bedford of Ashtland in the terminal dock case, if upheld by the supreme court, affects Ashtland, Superior, Milwaukee, Washburn and other cities having railroad docks on the lakes.

After years of attempted legislation, the Wisconsin legislature giving the proceeds of the taxes from this kind of property to the communities where the docks are located, instead of to the state treasury. Under this law, Ashtland, Superior and other cities collected the taxes annually, which in the case of Ashtland amounts to about \$70,000 yearly. The contention was then raised by the counties that the value of these dock properties should be added to the city valuation, which meant that the city would have to pay over to the county, annually a portion of this tax, which in the case of Ashtland amounts to about \$12,000 and in Superior much more. Judge Bedford has decided in favor of the city's contention, which means that the city retains the entire tax.

Boston, Mass., Nov. 17.—Curtailment of production which began some months ago in New England textile industries employing 300,000 operatives has reached a point where the total output is less than one-half that of one year ago, according to estimates made from a canvass today of 1,000 mill centers. In some instances the curtailment runs as high as 80 per cent. A few mills have shut down entirely. The majority have adopted a working schedule of three or four days a week.

### Mrs. Judnick Married Again Too Soon; Husband Takes No Chances.

Mrs. Thille Currier Judnick, aged 29, mother of four and divorcee, who lost only fifteen days between the time she divorced Charles Currier, aged 51, carpenter, and remarried John Judnick, aged 29, switchman, today finds herself defendant in a double-barreled marriage annulment and divorce suit filed in district court by her second spouse, Judnick.

The second husband asks the court to annul the marriage on the grounds that Mrs. Currier became his wife at Superior Feb. 6, 1918, fifteen days after she had pronounced a divorce from Currier in Duluth, she broke the Wisconsin laws and thereby voided the marriage. The statute in Wisconsin provides that divorcees shall not remarry until a period of one year has elapsed in Minnesota the statutory requirement is six months.

But Judnick is not relying altogether on the prospect of getting his marriage annulled. He does not charge fraud on the part of his wife in concealing the fact that she had been divorced but recently her divorce was annulled and as there may be some doubt as to which way the court might rule in the matter he has taken the precaution to ask also for a divorce, in the event there is any doubt as to whether the marriage is valid.

**Not Complimentary to Her.**

In the divorce complaint Judnick charges his wife with cruelty. He alleges that on numerous occasions she has threatened to kill him and that when he had returned to his home in a location near Eveleth from a visit to his mother at Eveleth, his wife, Judnick, he alleges, met him at the train and began to abuse him and threatened to blow out his brains.

There were two farewell kisses when Judnick left for his work mornings instead of usual to send him away to his day's work with such cheerful remarks as "I wish they would bring you home in pieces" or "I wish the train would run over you," Judnick alleges. According to his story, she would have been dead long ago if her wishes were realized.

There were also allegations that she has taken his automobile and driven to Eveleth with some of her male friends and that on one occasion she spent the night there with them at a house of ill-repute character.

Mrs. Judnick was married to Charles Currier on March 17, 1905, but she got a divorce from him on Feb. 1, 1918, on the grounds of cruelty. She claimed at that time that he threatened to kill her and that he used vile language. The same allegations are now made against her by her second husband, Currier, who was a carpenter at the Levee mine two years ago, was ordered by the court to pay his former wife \$25 a month for the support of their four children.

## CHECK FORGERS KEEPING BUSY

### Gang of Professionals at Work Here, Says Merchants' Official.

There is an epidemic of check forgery in Duluth.

Thousands of dollars have been lost by Duluth merchants within the last few weeks, George M. Peterson, secretary of the Retail Merchants' association, said today.

"I believe there is a gang of professional forgers working the city," Mr. Peterson said. "My advice to all merchants is to stop cashing checks for strangers. There is no other way to stop this. This is the worst epidemic of forgeries we have had in the history of the city."

In many cases the forgers have been posing as laboring men, Mr. Peterson said. There have been several instances where they have obtained indorsements of Duluth citizens. The checks have ranged as high as \$200.

A similar epidemic, on a smaller scale, was checked here several weeks ago. That the same men are now at work here is noted by the fact that handwriting of checks turned in during the last few days bears a strong resemblance to that on checks received before.

It has proved possible to catch some amateurs who tried this game," Mr. Peterson said. "But it's a good deal more difficult to catch the professionals."

### AAD TEMPLE CASE IS ABANDONED

In district court yesterday the case of the Shrine auditorium, and the AAD Temple Building association, owners of the Shrine auditorium, was dismissed on the motion of A. E. Bjork, attorney for the state in the proceeding. The dismissal was agreed to by William E. Tracy, attorney for the building association.

The case was one in which the state fire marshal attempted to prevent the Shrine auditorium from being used for public meetings while the first floor of the building is being used for garage purposes on account of the fire risk. The attorney for the fire marshal admitted the objection to the order, particularly on the ground that the deputy fire marshal was without authority to issue an order of that character. The objections involved have been submitted to the attorney general and will be considered in a decision involving appeals from orders made by the fire marshal.

### TWO JUDGES WILL ASSIST IN TRYING CASES HERE

Two outside district court judges will be in Duluth Monday to assist in the work of the November term of court while the five local judges, William A. Cant, Bert Peeler, H. A. Dancer, Martin Hughes and Edward Freeman, are engaged in the trial of the Moose Lake fire cases. The visiting judges will be Judge C. C. Haupt of Anoka.

Three witnesses were on the stand this morning for the plaintiffs in the Moose Lake fire cases, Gust Peterson, Olaf Anderson and E. L. Hill, all farmers in the Moose Lake-Kettle River district, who described the forest fire of Oct. 12, 1918, which swept through the lower portion of Carlton county.

### S. D. PRIMARY LAW HAS UNIQUE POINT

Sioux Falls, S. D., Nov. 17.—The next political campaign in South Dakota will begin next November. Under the provisions of the Richards primary, a candidate running on an independent ticket who receives a certain percentage of the total votes cast becomes the minority candidate of his party (whatever it may be) at the next election. Another feature of the primary law makes it mandatory that preliminary meetings in any campaign be held twelve months before the election, and that the campaign continue for the remainder of the year.

R. O. Richards, author of the primary law, polled the required percentage of votes in the recent election, and thus automatically becomes the Republican nominee for governor, the office for which he ran, at the next gubernatorial election in 1922.

### SNOW FOOTPRINTS PROVE FORBES' MAN'S UNDOING

Minneapolis, Minn., Nov. 17.—Footprints in the snow are wrecking the best laid plans of Minnesota violators of the prohibition law, according to Paul D. Keller, division chief. His agents reported that while following a fresh trail through the snow near West Minneapolis they came face to face with Oscar Maki.

They promptly confiscated Maki and took him along on the bust. The footprints lead straight to a still in full operation, and 200 gallons of fig and raisin mash, the agents said. Close by in the woods they found twelve cases of fig.

The still was only a few hundred feet from Maki's farm, but he disclaimed all knowledge of it, and was released.
