WHEREAS these disputes have not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

Effective upon publication in the FEDERAL REGISTER, paragraph (b) of § 6.163 is revoked.

Title 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 1—STATEMENT OF ORGANIZATION, DELEGATIONS, AND GENERAL INFORMATION

PART 20—STANDARDS FOR PROTECTION AGAINST RADIATION

PART 31—RADIATION SAFETY REQUIREMENTS FOR RADIOGRAPHIC OPERATIONS

Miscellaneous Amendments

These amendments to Parts 1, 20 and 31 of the Commission's regulations are designed to reflect recent changes in the organization of the Division of Compliance, establishing five Regional Compliance Offices. In view of these organizational changes, the Compliance Field Offices listed in 10 CFR 1.6(c) and the location of field compliance staffs listed in 10 CFR 1.101(c) are no longer correct. These amendments would correct 10 CFR 1.6(c) and 10 CFR 1.101(c) to show the current location of the Regional Compliance Offices.

Appendix "D" of 10 CFR 20 presently lists the locations of the United States Atomic Energy Commission Operations Offices, and a number of sections of Part 20 and Part 31 require that certain reports be submitted to the nearest Operations Office. These amendments change Appendix "D" by listing addresses of the Regional Compliance Offices rather than the Operations Offices. Appropriate changes are made also in other sections of Parts 31 and 20 which refer to Appendix "D". Concurrently with publication of these amendments, appropriate revisions of Form AEC-3, "Notice to Employees," are being made to list the

addresses of the Regional Compliance Offices.

The definition of "source material" in Part 20 is amended to bring it into conformity with the definition of "source material" in Part 40.

Because these amendments relate solely to agency organization and correction, the Commission has found that notice of proposed rule making and public procedure thereon are unnecessary and that good cause exists to make the amendments effective upon publication in the FEDERAL REGISTER.

Accordingly, pursuant to the Atomic Energy Act of 1954, as amended, and the Administrative Procedure Act of 1946, the following amendments of Parts 1, 20, and 31 of Commission regulations are published as documents subject to codification, effective upon publication in the FEDERAL REGISTER.

§ 1.6 [Amendment]

1. Paragraph (c) of § 1.6 is revised to read as follows:

(c) The Compliance Regional Offices are located as follows:

(1) Region I, Division of Compliance, USAEC, 376 Hudson Street, New York 14, N.Y.

(2) Region II, Division of Compliance, USAEC, 50 Seventh Street, Northeast, Atlanta 23, Ga.

(3) Region III, Division of Compliance, USAEC, 9800 South Cass Avenue, Argonne, Ill.

(4) Region IV, Division of Compliance, USAEC, P.O. Box 15266, Denver 15, Colo.

(5) Region V, Division of Compliance, USAEC, 2111 Bancroft Way, Berkeley 4, Calif.

§ 1.10 [Amendment]

2. Paragraph (c) of § 1.101 is revised to read as follows:

§ 20.3 [Amendment]

3. Subparagraph 15 of § 20.3(a) is revised to read as follows:

(15) "Source material" means (i) uranium or thorium, or any combination thereof, in any physical or chemical form; or (ii) ores which contain by weight one-twentieth of one percent (0.05%) or more of a. uranium, b. thorium or c. any combination thereof. Source material does not include special nuclear material.

§ 20.206 [Amendment]

4. The note following § 20.206(c) is revised to read as follows:

NOTE: Copies of Form AEC-3, "Notice to Employees," may be obtained by writing to the Director of the appropriate Atomic Energy Commission Regional Compliance Office listed in Appendix "D" or the Director, Di-

vision of Licensing and Regulation, USAEC, Washington 25, D.C.

5. Section 20.402 is amended by changing the words "Manager of the nearest Atomic Energy Commission Office" to read "Director of the appropriate Atomic Energy Commission Regional Compliance Office". As amended § 20.402 reads:

§ 20.402 Reports of theft or loss of licensed material.

Each licensee shall report by telephone and telegraph to the Director of the appropriate Atomic Energy Commission Regional Compliance Office listed in Appendix D, immediately after its occurrence becomes known to the licensee, any loss or theft of licensed material in such quantities and under such circumstances that it appears to the licensee that a substantial hazard may result to persons in unrestricted areas.

6. Paragraphs (a) and (b) of § 20.403 are amended by changing the words "Manager of the appropriate Atomic Energy Commission Operations Office" to read "Director of the appropriate Atomic Energy Commission Regional Compliance Office" as amended § 20.403 (a) and (b) reads as follows:

§ 20.403 Notifications of incidents.

(a) *Immediate notification.* Each licensee shall immediately notify the Director of the appropriate Atomic Energy Commission Regional Compliance Office shown in Appendix D by telephone and telegraph of any incident involving by-product, source or special nuclear material possessed by him and which may have caused or threatens to cause:

(1) Exposure of the whole body of any individual to 25 rems or more of radiation; exposure of the skin of the whole body of any individual of 150 rems or more of radiation; or exposure of the feet, ankles, hands or forearms of any individual to 375 rems or more of radiation; or

(2) The release of radioactive material in concentrations which, if averaged over a period of 24 hours, would exceed 5,000 times the limits specified for such materials in Appendix B, Table II; or

(3) A loss of one working week or more of the operation of any facilities affected; or

(4) Damage to property in excess of \$100,000.

(b) *Twenty-four hour notification.* Each licensee shall within 24 hours notify the Director of the appropriate Atomic Energy Commission Regional Compliance Office listed in Appendix D by telephone and telegraph of any incident involving licensed material possessed by him and which may have caused or threatens to cause:

(1) Exposure of the whole body of any individual to 5 rems or more of radiation; exposure of the skin of the whole body of any individual to 30 rems or more of radiation; or exposure of the

feet, ankles, hands, or forearms to 75 rems or more of radiation; or

(2) The release of radioactive material in concentrations which, if averaged over a period of 24 hours, would exceed 500 times the limits specified for such materials in Appendix B, Table II; or

(3) A loss of one day or more of the operation of any facilities affected; or

(4) Damage to property in excess of \$1,000.

7. Paragraph (a) of § 20.405 is amended by deleting the last sentence in paragraph (a), and inserting in the first sentence of paragraph (a) immediately after the words "Washington 25, D.C.," the following words "with a copy to the Director of the appropriate Atomic Energy Commission Regional Compliance Office listed in Appendix 'D' ". As amended § 20.405(a) reads as follows:

§ 20.405 Reports of overexposures and excessive levels and concentrations.

(a) In addition to any notification required by § 20.403, each licensee shall make a report in writing within 30 days to the Director, Division of Licensing

and Regulation, U.S. Atomic Energy Commission, Washington 25, D.C., with a copy to the Director of the appropriate Atomic Energy Commission Regional Compliance Office listed in Appendix D, of (1) each exposure of an individual to radiation or concentrations of radioactive material in excess of any applicable limit in this part or in the licensee's license; (2) any incident for which notification is required by § 20.403; and (3) levels of radiation or concentrations of radioactive material (not involving excessive exposure of any individual) in an unrestricted area in excess of ten times any applicable limit set forth in this part or in the licensee's license. Each report required under this paragraph shall describe the extent of exposure of persons to radiation or to radioactive material; levels of radiation and concentrations of radioactive material involved; the cause of the exposure, levels or concentrations; and corrective steps taken or planned to assure against a recurrence.

8. Appendix "D" is revised to read as follows:

3. Adopt, use or in any way follow any prices, discounts, bonuses, allowances, terms or conditions of sale, or any other pricing policies, announced by a particular respondent or respondents, or any of them, whereby prices, discounts, bonuses, allowances, terms or conditions of sale, or any other pricing policies are made identical or substantially uniform or matched, or reflect agreed upon price differentials.

4. Quote, bid or sell at prices calculated or determined in whole or in part through the use of a system of accounting or a cost formula.

5. Circulate or communicate cost data to respondent RMA or to any other trade association, business organization or non-governmental agency.

B. It is understood that nothing contained in the foregoing or Paragraph III hereof shall prevent any respondent manufacturer from negotiating or carrying out in good faith a contract to manufacture, or to sell to or buy from any bona fide customer or supplier, whether such customer or supplier is or is not a respondent herein.

II. *It is further ordered*, That each manufacturing respondent, and subsidiary thereof, shall, within ninety (90) days after the date of service of this Order, individually and independently revise its prices and pricing factors and policies on tires and tubes in the following manner:

B. Withdraw its presently effective prices, price lists, discounts, bonuses and allowances;

C. Establish new prices, price lists, discounts, bonuses and allowances on the basis of such an independent review;

D. In the event any prices, price lists, discounts, bonuses or allowances thus established are changed within the period of six (6) months following their adoption, the respondent making such change shall have the burden of establishing that such change was made in good faith to meet a competitive pricing situation. For a period of two years following the adoption of the prices, price lists, discounts, bonuses or allowances provided for in subparagraph C hereof, any respondent who has made changes therein during the above-noted six-month period shall have the burden of documenting all evidence relied upon in making such change and retaining and making available to the Commission upon request all such documentation; and

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

Outward Foreign Manifests, Shippers' Export Declarations, Incomplete Manifests and Incomplete Export Declarations

Sections 4.63 and 4.75, Customs Regulations, contain references to the use of customs Form 1375, Incomplete Outward Foreign Manifest. Prior to the issuance of customs Form 1375, it was determined that satisfactory results could be achieved by adapting customs Form 1374 to use as an incomplete manifest and that the proposed new Form 1375 would not be needed. Consequently, that form was not printed and will not be issued. Collectors of customs shall continue to use customs Form 1374, appropriately modified, as an incomplete manifest.

Accordingly, § 4.63(a) is amended by deleting the parenthetical material "(customs Form 1375)" so that that paragraph, as amended, will read as follows:

(a) No vessel shall be cleared for a foreign port unless there has been filed with the collector a manifest on customs Form 1374 covering the complete lading of the vessel, together with such export declarations as are required by pertinent regulations of the Bureau of the Census, Department of Commerce, or unless the vessel is cleared on the basis of a pro forma manifest as provided for in § 4.75.

Section 4.75(a) is amended by changing the reference to the form therein from 1375 to 1374 and by adding a new sentence so that the paragraph, as amended, will read as follows:

(a) If a master desiring to clear his vessel for a foreign port does not have available for filing with the collector a complete cargo manifest¹⁰⁶ or all required shippers' export declarations,¹⁰⁷ the collector may accept in lieu thereof a pro forma manifest on customs Form 1374 if there is on file in his office a bond on customs Form 7567 or 7569 executed by the vessel owner or some other person as attorney in fact of the vessel owner. The form shall be appropriately modified to indicate that it is an incomplete manifest and the oath on the reverse side shall be required to be executed.

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES**Outward Foreign Manifests, Description of Residue Foreign Cargo Retained on Board for Foreign Ports**

The detailed listing on the vessel's outward manifest of residue cargo originally laden in foreign ports and retained on board at the port of departure from the United States duplicates information previously filed on the inward foreign manifest. It has been decided that controls and records will not be prejudiced if the master is permitted to certify in proper cases that the cargo declared on arrival as laden in and destined for foreign ports has been retained on board. A mere duplication of the inward manifest in that respect will, therefore, no longer be necessary. Of course, if any of the cargo shown as manifested has been landed, a new manifest listing the cargo remaining on board will be required.

In accordance with the above, the following changes are made in the Customs Regulations:

1. Section 4.88(c) is amended to read as follows:

(c) If the vessel clears directly foreign from the first port of arrival, cargo brought in from foreign ports and retained on board may be declared on the outward foreign manifest (customs Form 1374) by the insertion of the following statement:

All cargo declared on entry in this port as cargo for discharge at foreign ports and so shown on the inward manifest filed upon entry has been and is retained on board.

If any such cargo has been landed, the outward foreign manifest shall describe each item of the cargo from a foreign port which has been retained on board.

2. The last sentence of § 4.89(a) is amended to read as follows: "The outward foreign manifest shall show the cargo for such foreign destination in the manner provided in § 4.88(c)."

(R.S. 161, as amended, 251, secs. 442, 624, 46 Stat. 713, 759, secs. 2, 3, 23 Stat. 118, as amended, 119, as amended; 5 U.S.C. 22, 19 U.S.C. 66, 1442, 1624, 46 U.S.C. 2, 3)

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE**Acceptance by Collectors of Customs of Currency, Coin, Checks, and Other Forms of Negotiable Paper**

It has been the practice at piers, terminals, bridges, airports, etc., to re-

quire that customs duties, taxes, and other charges be paid by cash. There are situations at such places where a traveler of good credit standing may prefer to make payment otherwise than by cash. To provide for the acceptance under certain conditions of personal checks, United States Government checks, domestic travelers' checks, United States postal, bank, express, or telegraph money orders in payment of customs duties, taxes, and other charges at the aforementioned places and to more clearly state the acceptable methods of payment generally, § 24.1 is hereby amended to read as follows:

§ 24.1 Collection of customs duties, taxes, and other charges.

(a) Except as provided in paragraph (b) of this section, the following procedure shall be observed in the collection of customs duties, taxes, and other charges:

(1) Any form of United States currency or coin legally current at time of acceptance shall be accepted.

(2) Any bank draft, cashier's check, or certified check drawn on a national or state bank or trust company of the United States or a bank in Puerto Rico or any possession of the United States if such draft or checks are acceptable for deposit by a Federal Reserve bank, branch Federal Reserve bank, or other designated depository shall be accepted.

(3) An uncertified check drawn by an interested party on a national or state bank or trust company of the United States or a bank in Puerto Rico or any possession of the United States if such checks are acceptable for deposit by a Federal Reserve bank, branch Federal Reserve bank, or other designated depository shall be accepted if there is on file with the collector of customs an entry bond or other bond to secure the payment of the duties, taxes, or other charges, or if a bond has not been filed, the organization or individual drawing and tendering the uncertified check has been approved by the collector to make payment in such manner. In determining whether an uncertified check shall be accepted in the absence of a bond, the collector shall use available credit data obtainable without cost to the Government, such as that furnished by banks, local business firms, better business bureaus, or local credit exchanges, sufficient to satisfy him of the credit standing or reliability of the drawer of the check.

(4) A United States Government check endorsed by the payee to the collector of customs, a domestic traveler's check, or a United States postal, bank, express, or telegraph money order shall be accepted. Before accepting this form of payment the customs cashier or other employee authorized to receive customs collections shall require such identification in the way of a current driver's license issued by a state of the United States, or a current passport properly authenticated by the Department of State, or a current credit card issued by one of the numerous travel agencies or

clubs, or other credit data, etc., from which he can verify the identity and signature of the person tendering such check or money order.

(5) The face amount of a bank draft, cashier's check, certified check, or uncertified check tendered in accordance with this paragraph shall not exceed the amount due by more than \$1 and any required change is authorized to be made out of any available cash funds on hand.

(6) The face amount of a United States Government check, traveler's check, or money order tendered in accordance with this paragraph shall not exceed the amount due by more than \$20 and any required change is authorized to be made out of any available cash funds on hand.

(b) At piers, terminals, bridges, airports, and other similar places, in addition to the methods of payment prescribed in paragraph (a) of this section, a personal check drawn on a national or state bank or trust company of the United States, shall be accepted by inspectors of customs and other customs employees authorized to receive customs collections in payment of duties, taxes, and other charges on noncommercial importations subject to the identification requirements of subparagraph (4) of paragraph (a) of this section. However, a personal check received under this paragraph and a United States Government check, traveler's check, or money order received under paragraph (a) of this section by such inspectors of customs and other customs employees shall be subject to the following conditions:

(1) Where the amount is less than \$100 and the identification requirements of subparagraph (4) of paragraph (a) of this section have been met, the customs employee accepting the check or money order shall show his name and badge number on the collection voucher and on the reverse side of the check or money order as well as the serial number of the voucher or other form of voucher identification so that the check or money order can be easily associated with the voucher. This information shall be shown immediately above the space where the endorsement stamp of the collector will be placed.

(2) Where the amount is \$100 or more, in addition to the requirements of subparagraph (1) of this paragraph the customs employee accepting the check or money order shall obtain the approval of the customs officer in charge who also shall personally verify the identification data and indicate his approval by initialing the collection voucher below the signature of the customs employee who approved the receipt of the check or money order.

(3) A personal check tendered in accordance with this paragraph shall be accepted only when drawn for the amount of the duties, taxes, and other charges to be paid by such check.

(c) Checks on foreign banks, foreign travelers' checks, and commercial drafts or bills of exchange subject to acceptance by the drawees shall not be accepted.

(R.S. 3009, 3473, as amended, sec. 1, 36 Stat. 965, as amended, sec. 648, 46 Stat. 762; 19 U.S.C. 197, 198, 1648)

Proposed Rule Making

FEDERAL AVIATION AGENCY

[14 CFR Part 514]

[Reg. Docket No. 1251; Draft Release No. 62-28]

AIRBORNE RADIO RECEIVING AND DIRECTION FINDING EQUIPMENT FOR AIR CARRIER AIRCRAFT

Proposed Technical Standard Order

Pursuant to the authority delegated to me by the Administrator (14 CFR Part 405) notice is hereby given that the Federal Aviation Agency has under consideration a proposal to revise § 514.39 of Part 514 of the regulations of the Administrator (14 CFR Part 514) by adding a new technical standard order. This Technical Standard Order establishes minimum performance standards for airborne radio receiving and direction finding equipment operating within the radio frequency range of 200-415 kilocycles, to be used on civil aircraft of the United States engaged in air carrier operations.

The amendment is proposed to change the minimum performance standards based on a new RTCA Paper and to incorporate new environmental test procedures which were developed to be more compatible with existing and anticipated aircraft environmental conditions in which the equipment will be operated.

Interested persons may participate in the making of the proposed rule by submitting such written data, views or arguments as they may desire. Communications should be submitted in duplicate to the Docket Section of the Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. All communications received on or before August 6, 1962, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received. All comments submitted will be available in the Docket Section for examination by interested persons at any time.

This amendment is proposed under the authority of sections 313(a) and 601 of the Federal Aviation Act of 1958 (72 Stat. 752, 775; 49 U.S.C. 1354(a), 1421).

In consideration of the foregoing it is proposed to amend Part 514 as follows:

By revising § 514.39 to read as follows:

§ 514.39 Airborne radio receiving and direction finding equipment operating within the radio frequency range of 200-415 kilocycles (for air carrier aircraft)—TSO-C41b.

(a) *Applicability*—(1) *Minimum performance standards*. Minimum performance standards are hereby established for airborne radio receiving and direction finding equipment operating within the radio frequency range of 200-415 kilocycles which is to be used on civil

aircraft of the United States engaged in air carrier operations. New models of airborne radio receiving and direction finding equipment manufactured for use on civil air carrier aircraft on or after the effective date of this section shall meet the standards as set forth in Radio Technical Commission for Aeronautics Papers 158-61/DO-111¹ dated August 10, 1961, and 120-61/DO-108¹ dated July 13, 1961. Exceptions to these standards are listed in subparagraph (2) of this paragraph.

(2) *Exception*. Radio Technical Commission for Aeronautics Paper 120-61/DO-108 outlines various test procedures which define the environmental extremes over which the equipment shall be designed to operate. Some test procedures have categories established and some do not. Where categories are established, only equipment which qualifies under the following categories as specified in RTCA Paper 120-61/DO-108, is eligible under this order:

(i) Temperature-Altitude Test—Categories A, B, C, or D.

(ii) Humidity Test—Categories A or B.

(iii) Vibration Test—Categories A, B, C, D, E, or F.

(iv) Audio-Frequency Magnetic Field Susceptibility Test—Categories A or B.

(v) Radio-Frequency Susceptibility Test—Category A.

(vi) Emission of Spurious Radio-Frequency Energy Test—Category A.

(b) *Marking*. (1) In addition to the markings specified in § 514.3 (d), the equipment shall be marked to indicate the environmental extremes over which it has been designed to operate. There are seven environmental test procedures outlined in RTCA Paper 120-61/DO-108 which have categories established. These should be identified on the nameplate by the words "environmental categories" or, as abbreviated, "Env. Cat." followed by seven letters which identify the categories designated in RTCA Paper 120-61/DO-108. Reading from left to right, the category designations should appear on the nameplate in the following order, so that they may be readily identified:

(i) Temperature-Altitude Test Category.

(ii) Humidity Test Category.

(iii) Vibration Test Category.

(iv) Audio-Frequency Magnetic Field Susceptibility Test Category.

(v) Radio-Frequency Susceptibility Test Category.

(vi) Emission of Spurious Radio-Frequency Energy Test Category.

(vii) Explosion Test.

(2) Equipment which meets the explosion test requirement shall be identified by the letter "E". Equipment

which does not meet the explosion test requirement shall be identified by the letter "X". A typical nameplate identification would be as follows: Env. Cat. DABAAAX.

(3) Two categories of performance are specified in RTCA Paper 158-61/DO-111 as follows:

(i) Category A—For equipment intended for operation in the European-Mediterranean Area (EUM) and in other areas where the frequency and geographical separation of ground facilities and their output powers are similar to the EUM Area.

(ii) Category B—For equipment intended for operation in the United States of America and its possessions and in other areas where the frequency and geographical separation of ground facilities and their output powers are similar to the USA Areas.

(iii) Equipment which meets the performance requirements of Category A shall be identified on the nameplate as Class A equipment. Equipment which meets the performance requirements of Category B shall be identified on the nameplate as Class B equipment. A typical nameplate identification would be as follows: Env. Cat. DABAAAX Class A.

(4) In some cases such as under the Temperature-Altitude Test Category, a manufacturer may wish to qualify his equipment under two categories. [Airspace Docket No. 62-CE-22]

FEDERAL AIRWAYS, CONTROLLED AIRSPACE AND REPORTING POINTS**Proposed Designation of Federal Airway and Associated Control Areas, and Revocation of Federal Airway, Associated Control Areas and Reporting Point**

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering amendments to Parts 600 and 601 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency has under consideration the designation of low altitude VOR Federal airway No. 285 and its associated control areas from the Kokomo, Ind., VOR via the intersection of the Kokomo VOR 012° and the Goshen, Ind., VOR 168° True radials; to the Goshen VOR. This would provide an airway for VOR equipped aircraft operating between Kokomo and South Bend, Ind.

It is also proposed to revoke low altitude Blue Federal airway No. 3 between Kokomo and Goshen. It is the policy of the Federal Aviation Agency to revoke L/MF airways wherever adequate VOR airways are available and it appears that the route from Kokomo to Goshen would be adequately served by Victor 285 proposed for designation in this docket. Therefore, it appears that the retention of Blue 3 is unjustified as an assignment of airspace. Accordingly, the Federal Aviation Agency proposes to revoke Blue 3, its associated control areas and reporting points from Kokomo to Goshen. Adoption of this proposal would not result in discontinuance of the low frequency navigational aids associated with this airway. Any proposals to discontinue one or more of these aids would be considered separately and interested persons would be afforded an opportunity to comment.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant

Administrator, Central Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City 10, Mo. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on June 18, 1962.

W. THOMAS DEASON,
Assistant Chief,
Airspace Utilization Division.

FEDERAL TRADE COMMISSION**[16 CFR Part 302]****RULES AND REGULATIONS UNDER THE FLAMMABLE FABRICS ACT****Notice of Proposed Rule Making**

Pursuant to the provisions of section 4 of the Administrative Procedure Act, notice is hereby given all interested parties that the Federal Trade Commission will on the 9th day of July 1962, at its offices in the City of Washington, District

of Columbia, give consideration to an amendment of Rule 5(a) (§ 302.5(a)) of the rules and regulations under the Flammable Fabrics Act.

Interested parties may participate by submitting in writing to the Commission, on or before such date, their views, arguments, or other data. Written rebuttal may be submitted until July 16, 1962.

Such action is taken pursuant to the authority given to the Federal Trade Commission under section 5(c) of the Flammable Fabrics Act (67 Stat. 111; 15 U.S.C. 1191) whereby "The Commission is authorized and directed to prescribe such rules and regulations as may be necessary and proper for the purposes of administration and enforcement of this Act."

The matter to be considered is an amendment of subsection (a) of Rule 5 (§ 302.5(a)) of the rules and regulations under the Flammable Fabrics Act so as to eliminate the requirement for test after dry cleaning of the class of fabrics referred to in said subsection, including bridal illusion, upon the conditions stated in the amended rule. Section 302.5(a) (Rule 5(a)) would thereafter read:

(a) Any textile fabric intended for use in, or used, or contained in an article of wearing apparel, which in its normal and customary use as wearing apparel would not be dry cleaned or washed, need not, upon test made under the procedures outlined in Commercial Standard 191-53, be dry cleaned or washed as prescribed by paragraphs 4.4 and 4.5 of such Commercial Standard: *Provided, however,* That such fabric and article of wearing apparel when marketed or handled are marked or labeled in a clear and legible manner to the effect that such fabric has been treated with a fire retardant finish which will be removed if dry cleaned or washed. An example of the type of fabric referred to is bridal illusion.

By direction of the Commission.

The maximum levels of imports into Puerto Rico of crude oil, unfinished oils and finished products, other than residual fuel oil to be used as fuel, established by Presidential Proclamation 3279 (24 F.R. 1781) are modified pursuant to paragraph (d) of section 2 of the Proclamation to permit, during the period July 1, 1962 through December 31, 1962, 98,340 barrels per day in imports of crude oil and unfinished oils, and an additional 83 barrels per day in the imports of finished products, other than residual fuel oil to be used as fuel, to meet the increased demand in Puerto Rico.

All nongovernmental holders of allocations of imports of finished products,

Accordingly, the allocation made to the Shell Oil Companies will be increased to permit them to import into Puerto Rico 45 barrels daily of asphalt and 38 barrels daily of Stoddard solvent.

TUBE AND PIPE FROM CANADA

Fair Value Determination

JUNE 15, 1962.

A complaint was received that copper and red brass tube and pipe from Canada was being sold in the United States at less than fair value within the meaning of the Antidumping Act of 1921.

I hereby determine that copper and red brass tube and pipe from Canada is not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

Statement of reasons. No relationships exist between the parties involved except that of buyer and seller. The seller's principal market is Canada. Therefore, fair value comparison was made on the bases of home market price and purchase price.

In calculating purchase price, deductions were made for cash discount, quantity discounts where applicable, duty and internal revenue tax, and freight; drawback was added. Home market price was calculated on the basis of the price actually paid for quantities comparable to those involved in sales to the United States with deduction made for cash discount and freight.

Purchase price for various types and sizes of pipe was found to be less than home market price by varying amounts during certain pricing periods. After May 1, 1961, purchase price, except for one item, was not less than home market price and since June 1961 purchase price for no item has been less than home market price. The seller has given assurance that every possible step will be taken to ensure that there will be no sales at less than fair value in the future.

The quantities involved and the differences in prices were deemed to be not more than insignificant.

This determination and the statement of reasons therefor are published pursuant to section 201(c) of the Anti-

dumping Act, 1921, as amended (19 U.S.C. 160(c)).

Assistant Secretary
of the Treasury.

COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN PORTUGAL

Restrictions on Entry or Withdrawal From Warehouse

JUNE 15, 1962.

To Collectors of Customs and others concerned:

There is published below a letter of June 12, 1962, from the Interagency Textile Administrative Committee, recommending and requesting the taking of specified action relating to certain cotton textiles and cotton textile products produced or manufactured in Portugal which were exported from Portugal on or after certain dates.

Accordingly, it is hereby ordered that cotton textiles and cotton textile products produced or manufactured in Portugal included in Categories 1 and 25 exported from Portugal on or after April 6, 1962, and in Categories 6 and 9 exported from Portugal on or after June 9, 1962, shall not be permitted to be entered for consumption, or withdrawn from warehouse for consumption, at any port of entry in the United States, (including the Commonwealth of Puerto Rico). The categories involved are described in detail in the attached "Schedule A and U.S.I.D.A. Components of Selected International Cotton Textile Arrangement Categories," attached to the aforesaid letter. This order is not applicable to samples which would otherwise be eligible for duty-free importation pursuant to title 19, United States Code, section 1201, paragraph 1821(b). The procedures set forth in sections 12.70-12.73 of the Customs Regulations shall apply.

THE INTERAGENCY TEXTILE ADMINISTRATIVE COMMITTEE

JUNE 12, 1962.

The Honorable C. Douglas Dillon,
The Secretary of the Treasury,
Washington, D.C.

DEAR MR. SECRETARY: In accordance with the letter of March 16, 1962, to you from the President of the United States delegating authority under certain parts of section 204 of the Agricultural Act of 1956, and in accordance with the authority granted to the Interagency Textile Administrative Committee in that letter, the Interagency Textile Administrative Committee recommends and requests that you take the following actions to assure that agreements to control the exports of listed categories of cotton textiles and textile products entered into pursuant

to Article IA of the Arrangements Regarding International Trade in Cotton Textiles, done at Geneva July 21, 1961, will not be frustrated or circumvented by transshipment, substitution of directly competitive textiles, or otherwise:

Cotton textiles and cotton textile products produced or manufactured in Portugal included in Categories 1 and 25 exported from Portugal on or after April 6, 1962, and in Categories 6 and 9 exported from Portugal on or after June 9, 1962, shall be refused entry into the United States for consumption. The Portuguese Government has informed the United States Government that it has agreed to suspend further exports of these four categories of cotton textiles to the United States until September 30, 1962.

The categories involved are described in detail in the attached "Schedule A and U.S.I.D.A. Components of Selected International Cotton Textile Arrangement Categories." The foregoing restraint should not be made applicable to samples otherwise eligible for duty-free importation pursuant to paragraph 1821 of section 1201 of Title 19 of the United States Code. Furthermore, in carrying out the above described recommendations, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

This recommendation was arrived at on the 11th day of June 1962 by a unanimous vote of the Interagency Textile Administrative Committee, to be effective June 13, 1962.

Sincerely yours,

HICKMAN PRICE, Jr.,
Chairman.

SOUTH CAROLINA

Extension of Period for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in Spartanburg and Cherokee Counties, South Carolina, recent natural disasters have occurred since said counties were designated (26 F.R. 10814) and have resulted in a continuing need in those counties for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after June 30, 1963, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 19th day of June 1962.

CIVIL AERONAUTICS BOARD

[Docket No. 12473; Order E-18463]

CAL-AIR FORWARDERS, INC., ET AL.

Order of Tentative Approval

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 18th day of June 1962.

In the matter of the application of Cal-Air Forwarders, Inc. (Formerly National Air Freight, Inc., d/b/a Aero International), et al.; for approval of control and interlocking relationships under sections 408 and 409 of the Federal Aviation Act of 1958.

By application filed May 23, 1961, as amended September 12, 1961, Cal-Air Forwarders, Inc. (formerly National Air Freight, Inc., d/b/a Aero-International), hereinafter referred to as Cal-Air, Sidney N. Epstein, and T. A. L. Loretz request the Board to approve pursuant to section 408 of the Federal Aviation Act of 1958 (the Act), as amended, the common control by Messrs. Epstein and Loretz of Cal-Air and certain other companies identified in the Appendix hereto. In addition, pursuant to section 409 of the Act, approval is sought of the interlocking relationships, present and proposed, which will result from the individual applicants' holding positions with Cal-Air and one or more of the other companies, as shown in the Appendix. Cal-Air is an applicant pursuant to Part 297 of the Board's Economic Regulations for an operating authorization as an international air freight forwarder.¹ The activities of the other companies include motor carrier operations within the State of California, surface freight forwarding and International Air Transport Association (IATA) agency activities.

Applicants maintain that Cal-Air will utilize pickup and delivery services of Drayage, Inc. and Hollywood Courier Service (60 percent and 100 percent, respectively, owned by Shine-Phillips of which Epstein is President), and certain foreign agents and certain other facilities of Loretz and Company (55 percent owned by Loretz); that the individual applicants possess unique background,

¹ For the purpose of this proceeding, Cal-Air is considered to be an air carrier.

training and financial resources to organize a coordinated indirect air carrier service that will render a distinct service to an important segment of the shipping public and will promote increased use of air service in the international cargo field; and that approval of the control and interlocking relationships would be in the public interest.

No objection to the application has been filed.

The Board, upon consideration of the application, concludes that the common control by Messrs. Epstein and Loretz of Cal-Air and the companies described in the Appendix is subject to section 408(a) of the Act. However, the Board has further concluded that such relationships do not affect the control of an air carrier directly engaged in the operation of aircraft in air transportation, do not result in creating a monopoly and do not tend to restrain competition. Furthermore, the Board notes that no person disclosing a substantial interest in this proceeding is currently requesting a hearing. The control relationships are similar to others between air freight forwarders and surface freight forwarders and short-haul motor carriers which have been approved by the Board, and do not present any new substantive issues.² It would therefore appear that the relationships would not be inconsistent with the public interest. However, should the operating authority of the motor carriers set forth in the appendix be expanded, new issues would be raised which could only be resolved upon the filing of a further application for prior approval by the Board. Accordingly, the Board proposes that its approval of the relationship between Cal-Air and the various motor carriers will be effective only so long as such motor carriers engage in motor carrier operations only within the State of California.³

The Board further finds that interlocking relationships within the scope of section 409(a) of the Act will exist between Cal-Air and the other companies described in the Appendix from the holding by Messrs. Epstein and Loretz of the positions described therein. The Board finds that the parties have made

² See, for example, Airassembly Forwarders, Inc., et al., Docket 11223, Order E-15650, August 12, 1960; and D. C. Andrews & Co., Inc., et al., Docket 11841, Order E-16544, March 22, 1961.

³ The Board notes that Mr. Epstein is the third largest stockholder in General Air Freight, Inc. (General), a domestic air freight forwarder, and that his voting rights in such stock are assigned to Robert W. Hopes, president of General. Under the circumstances present here, the Board does not consider it necessary to inquire further into this matter so long as General and Cal-Air operate, respectively, as domestic and international air freight forwarders. However, the public interest aspects of any continued significant holdings by Mr. Epstein in the two companies, would require further examination, probably in a hearing, should either

a due showing in the form and manner prescribed that, for the reasons described above, the interlocking relationships, both present and proposed (those within the same system of affiliated companies controlled by each individual applicant) will not adversely affect the public interest and should be approved subject to the limitation noted above.

In view of the foregoing, the Board tentatively finds that the control relationships involved herein should be approved and intends to approve them under section 408 without a hearing pursuant to the provisions of section 408(b). In accordance therewith, this order constituting notice of such intention will be published in the FEDERAL REGISTER, and interested persons will be afforded an opportunity to comment on the Board's tentative decision.⁴

Therefore, it is ordered:

1. That this order be published in the FEDERAL REGISTER;
2. That the Attorney General be furnished a copy of this order within one day of its publication; and
3. That interested persons be afforded a period of fifteen days within which to file comments with respect to the Board's proposed action herein.⁵

Secretary.

PACIFIC AIR LINES, INC., ET AL.

Order of Investigation and Consolidation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 19th day of June 1962.

In the matter of excursion fares proposed by Pacific Air Lines, Inc., Bonanza Air Lines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., Western Air Lines, Inc.

The Board, by Order E-18369 of May 25, 1962, suspended and instituted an investigation of a 10-day propeller coach round-trip excursion fare of \$23 between Los Angeles and Las Vegas proposed by United Air Lines, Inc., and consolidated said proceeding in Docket 10976 et al.

The Board simultaneously instituted an investigation of 10-day propeller coach round-trip excursion fares of \$26 between Los Angeles and Las Vegas proposed by Bonanza Air Lines, Inc., Trans World Airlines, Inc., and Western Air Lines, Inc., and a 10-day jet coach round-trip fare of \$30 between Los Angeles and Las Vegas proposed by Trans World Airlines, Inc. This matter was similarly consolidated in Docket 10976 et al.

Pursuant to special tariff permission, United has canceled the suspended propeller coach round-trip excursion fare of \$23 between Los Angeles and Las Vegas, and has established a propeller coach round-trip excursion fare of \$26 which became effective on May 30, 1962. United has also filed a jet coach round-trip excursion fare of \$30 between Los Angeles and Las Vegas to become effective June 30, 1962.

In light of the foregoing, it is found that United's excursion fares between Los Angeles and Las Vegas should be investigated, and that the proceeding be consolidated into Docket 10976 et al.¹

Accordingly, it is ordered, That:

1. An investigation be instituted to determine whether the fares and provisions in United Air Lines, Inc.'s C.A.B. No. 113, including subsequent revisions and reissues thereof, are, or will be, unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, or otherwise unlawful and if found to be unlawful to determine and prescribe the lawful fares and provisions.

2. The proceeding ordered herein be consolidated into the proceeding in Docket 10976 et al.

3. Copies of this order be served upon Bonanza Air Lines, Inc., Pacific Air Lines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., and Western Air Lines, Inc.

¹ Prehearing conference has been scheduled in this proceeding on June 20, 1962.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

Secretary.

[Docket Nos. 14394 etc.; FCC 62-621]

FLOWER CITY TELEVISION CORP. ET AL.

Corrected Memorandum Opinion and Order Amending Issues

In re applications of Flower City Television Corporation, Rochester, New York, Docket No. 14394, File No. BPCT-2929; Rochester Area Educational Television Association, Inc., Rochester, New York, Docket No. 14459, File No. BPCT-2943; Star Television, Inc., Rochester, New York, Docket No. 14460, File No. BPCT-2948; Heritage Radio and Television Broadcasting Co., Inc., Rochester, New York, Docket No. 14462, File No. BPCT-2961; Rochester Broadcasting Corporation, Rochester, New York, *et al.*, Docket No. 14467, File No. BPCT-2972, etc.; for construction permits for new television broadcast stations.

1. The Commission has before it for consideration (1) three petitions for review of ruling by the Acting Chief Hearing Examiner, filed February 23, 1962 by Star Television, Inc. (Star), Heritage Radio and Television Broadcasting Co., Inc. (Heritage) and Rochester Broadcasting Corporation (Rochester Broadcasting) respectively; (2) oppositions filed March 6 and 8, 1962 respectively by Rochester Area Educational Television Association, Inc. (RAETA) and the Broadcast Bureau (Bureau); and (3) reply to oppositions, filed March 16, 1962, by Rochester Broadcasting.

2. The Acting Chief Hearing Examiner considered and denied petitions to enlarge issues filed by Star, Rochester Broadcasting, and Heritage. Star and Rochester Broadcasting requested a financial issue with respect to Federal, RAETA and Rochester Telecasters. Heritage requested a financial issue with respect to Federal only. The Commission, in its Order of designation, had found Federal, RAETA and Rochester Telecasters to be financially qualified. It is from the Acting Chief Hearing Examiner's adverse ruling that the petitioners now appeal to the Commission. By Memorandum Opinion and Order dated May 29, 1962 (FCC 62-578; Mimeo No. 18989), the Commission denied the petitions as they pertain to Federal and Rochester Telecasters.

3. A review of RAETA's financial proposal indicates that funds in the amount of \$815,369 will be required to

construct and operate the proposed educational station for the first year (no operating revenue proposed); that the applicant has funds, credits and donations amounting to \$216,194 leaving an estimated balance of \$599,175 to be financed. In addition to the above, RAETA relies on funds from various sources such as the State Education Department, schools, colleges, personal and business donations, County Governments and Foundations in the total amount of \$747,377. It does not appear, however, that all of the funds thus relied upon have been promised or committed to RAETA. Under the circumstances, a financial qualification issue will be added so that evidence may be adduced as to the probable availability of such funds.

Accordingly, it is ordered, This 13th day of June 1962, That the petitions for review, filed February 23, 1962 by Star Television, Inc., Heritage Radio and Television Broadcasting Co., Inc., and Rochester Broadcasting Corporation, as they relate to Rochester Area Educational Television Association, Inc., are granted; that the Commission's Order (FCC 61-1511) in this proceeding is amended by renumbering Issues 5 and 6 as Issues 6 and 7, and the following Issue 5 is added:

5. To determine whether Rochester Area Educational Television Association, Inc., is financially qualified to construct and operate the proposed television broadcast station.

ARKANSAS-LOUISIANA GAS CO. ET AL.

Order Accepting Certain Proposed Tariff Sheets for Filing, Rejecting Proposed Tariff Sheet, Suspending Certain Proposed Tariff Sheets, and Allowing Certain Tariff Sheets To Become Effective Upon Filing of Motion and Undertaking To Assure Refund of Excess Charges

JUNE 15, 1962.

Arkansas-Louisiana Gas Company, Docket No. G-17567; Illinois Power Company, Docket No. G-17984; St. Charles Gas Corporation, Docket No. G-18405; Laclede Gas Company, Complainant, and Mississippi River Fuel Corporation, Defendant, Docket No. G-17832; Mississippi River Fuel Corporation, Docket No. RP61-21.

On May 17, 1962, Mississippi River Fuel Corporation (Mississippi) tendered for filing certain tariff sheets¹ in compliance with Commission's Opinion No. 355 and Order issued April 18, 1962, in Docket Nos. G-17567, G-17984, G-18405, and G-17832 (Docket Nos. G-17567, et al.). Mississippi requests that these

¹ Seventh Revised Sheets Nos. 4 and 5, Third Revised Sheet No. 14, Second Revised Sheet No. 17, and Original Sheets Nos. 5a and 14a to Mississippi's FPC Gas Tariff, Original Volume No. 1.

forementioned tariff sheets be made effective as of May 19, 1962. However, one of the aforementioned tariff sheets, i.e., Seventh Revised Sheet No. 4, while complying with the Commission's order, continues in effect the same rate which was previously suspended by the Commission in Docket No. RP61-21. Accordingly, Seventh Revised Sheet No. 4 should be made effective subject to the proceeding in Docket No. RP61-21.

Concurrently, Mississippi also tendered for filing two tariff sheets² "to correct certain rates or rate factors specified in the Commission's Order which are incorrect in relation to Mississippi's presently effective F-1 rates". Mississippi states that the rates specified by the Commission bear a relationship to its rates underlying those effective subject to refund in Docket No. RP61-21. Consequently, Mississippi requests that fairness requires such rates to be synchronized with its contingent rates in Docket No. RP61-21 and therefore requests that these tariff sheets be made effective as of May 20, 1962, i.e., after a one-day suspension. Whether the rates specified by the Commission were erroneous will be decided as part of the proceeding in Docket No. RP61-21.

Concurrent with its other filings, Mississippi tendered for filing Sixteenth Revised Sheet No. 25 to its FPC Gas Tariff, Original Volume No. 1 in purported compliance with Ordering Paragraph (E) of the Commission's order issued April 18, 1962, in Docket Nos. G-17567, et al. This sheet is designated "Schedule of Stated Demands" and is the basis for Mississippi's billing demand charges inasmuch as a number of its customers have no service agreement with Mississippi. However, the Commission's order states:

(E) Mississippi shall file new or superseding service agreements containing the contract demands in Paragraph (B) above.

While the tendered tariff sheet reflects the volumes prescribed in paragraph (B) of the order, no service agreements have been tendered and, therefore, Sixteenth Revised Sheet No. 25 should be rejected as hereinafter ordered.

The proposed changes in rates, charges, classifications, or services provided for in Eighth Revised Sheet No. 5 and First Revised Sheet No. 5a to Mississippi's FPC Gas Tariff, Original Volume No. 1 tendered by Mississippi on May 17, 1962, have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that Eighth Revised Sheet No. 5 and First Revised Sheet No. 5a to Mississippi's FPC Gas Tariff, Original Volume

² Eighth Revised Sheet No. 5 and First Revised Sheet No. 5a to its FPC Gas Tariff, Original Volume No. 1.

No. 1 be suspended and the use thereof be deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the Natural Gas Act that the proposed increase in rates contained in Eighth Revised Sheet No. 5 and First Revised Sheet No. 5a to Mississippi's FPC Gas Tariff, Original Volume No. 1 be made effective as hereinafter provided and that Mississippi be required to file an undertaking as hereinafter ordered and conditioned.

(3) It is necessary and proper in the public interest and to aid in the enforcement of the Natural Gas Act that Seventh Revised Sheet Nos. 4 and 5, Third Revised Sheet No. 14, Second Revised Sheet No. 17, and Original Sheet Nos. 5a and 14a to Mississippi's FPC Gas Tariff, Original Volume No. 1 be accepted for filing as hereinafter ordered and conditioned.
