FEDERAL ENERGY ADMINISTRATION

OLD OIL ALLOCATION PROGRAM

January 1975 Entitlement Notice

FEDERAL ENERGY ADMINISTRATION
OLD OIL ALLOCATION PROGRAM
Entitlement Notice for January 1975

In accordance with the provisions of 10 CFR 211.67 relating to FEA's old oil allocation program, the monthly notice specified in § 211.67(i) is hereby published.

Based on reports submitted to FEA by refiners and eligible firms as to crude oil receipts, crude oil runs to stills and eligible product imports for January 1975 and an application of the entitlement adjustment for small refiners provided in 10 CFR 211.67(e), the adjusted national old oil supply ratio for January 1975 is calculated to be .352298.

The issuance of entitlements for the month of January 1975 to refiners and eligible firms is set forth as an Appendix to this notice. The Appendix lists the name of each refiner and other eligible firm to which entitlements have been issued, the number of entitlements issued to each such refiner or other firm, and the number of barrels of old oil included in each refiner's adjusted crude oil receipts.

Pursuant to 10 CFR 211.67(i) (4), FEA hereby fixes the price at which entitlements shall be sold and purchased for the month of January 1975 at \$6.

In accordance with 10 CFR 211.67(b), each refiner that has been issued fewer entitlements for the month of January 1975 than the number of barrels of old oil included in its adjusted crude oil receipts is required to purchase a number of entitlements for the month of January 1975 equal to the difference between the number of barrels of old oil included in that refiner's adjusted crude oil receipts for that month and the number of entitlements issued to and retained by that refiner. Refiners which have been issued a number of entitlements for the month of January 1975 in excess of the number of barrels of old oil included in their adjusted crude oil receipts for January 1975, and eligible firms which have been issued entitlements for January 1975, shall sell such excess entitlements to refiners required to purchase entitlements.

The listing of entitlement issuances contained in the Appendix reflects the application of Special Rule No. 3 which operates (a) to relieve certain small refiners from the requirement to purchase a specified portion of the number of entitlements otherwise required to be purchased for the first 30,000 barrels per day of their daily average volume of crude oil runs to stills for the month of January 1975; and (b) to relieve certain small refiners from the requirement to purchase any entitlements for the first 30,000 barrels per day of their crude runs pending disposition of their exception applications. For those small refiners whose purchase requirements were totally exempted pursuant to Special Rule No. 3, the Appendix specifies issuance of an incremental number of entitlements equal to the number of entitlements such refiners would have otherwise been required to purchase.

The total number of entitlements exempted from the purchase requirements of 10 CFR 211.67(b) is 3,538,069. A factor of .209366 has been applied to the number of entitlements available for sale by each refiner and eligible firm, which has the effect of reducing the total number of entitlements available for sale by an amount equal to the total purchase requirements exempted pursuant to Special Rule No. 3.

The listing of entitlement issuances contained in the Appendix reflects relief granted in Decisions and Orders issued by FEA's Office of Exceptions and Appeals and adjustments made to correct for prior reporting errors pursuant to § 211.67(i) (5) and (6). Adjustments to entitlement issuances for January 1975 due to corrections for reporting errors have been calculated by adjusting each affected firm's January volumes accordingly (taking only the increased entitlement price into account). February entitlement issuances will be further adjusted to reflect the difference between the January entitlement value received as a result of the correction and the entitlement value that would have been received had the affected firm accurately reported the data being corrected in the proper month.

The listing of refiners' old oil receipts contained in the Appendix also reflects any adjustment made by FEA pursuant to § 211.67(h).

All refiners and eligible firms are listed in the Appendix including such refiners and eligible firms which did not file any reports or reported no volumes of old oil receipts, crude oil runs to stills, or eligible product imports for January 1975.

The listing contained in the Appendix specifies a negative volume of old oil

receipts as to one refiner due to a corrective adjustment. The total number of entitlements issued to such refiner under the listing includes the number specified in the "issued" column, as well as a number of entitlements equal to the number of barrels of old oil shown as this negative volume.

The total volume of entitlements required to be purchased and sold under this notice is 13,403,706.

Payment for entitlements required to be purchased under 10 CFR 211.67(b) for the month of January must be made by March 31, 1975. On or prior to April 10, 1975, each refiner and eligible firm which has been issued entitlements for January shall file with FEA the monthly transaction report specified in 10 CFR 211.66(i) certifying its purchases and sales of entitlements for the month of January. FEA will mail monthly transaction report forms for January 1975 to reporting firms in March 1975. FEA requests that refiners and eligible firms which have been unable to locate firms for required entitlement transactions by March 25, 1975 contact FEA at 202-634-7610 to expedite consummation of these transactions. For refiners and eligible firms that have failed to consummate required entitlement transactions on or prior to March 31, 1975, FEA may direct sales and purchases of entitlements pursuant to the provisions of 10 CFR 211.67(j).

Issued in Washington, D.C., March 12, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel,
Federal Energy Administration.

¹ Reflects a correction for excessive old oil receipts reported by this firm for a prior month.
² Does not include entitlements issued to this firm under this notice as a result of the above-mentioned adjustment of old oil receipts.

[FR Doc.75-7025 Filed 3-13-75;11:41 am]

an invaluable reference tool

1974-75 Edition

This official guidebook provides useful information about U.S. Government agencies, including:

- Major programs and functions
- Listings of key officials
- Organization charts for many agencies

Most agency descriptions include a "Sources of Information" section that gives addresses and telephone numbers for obtaining specifics on employment, government contracts, environmental programs, small business opportunities, publications, speakers and films available to civic and educational groups, and other topics of public interest.

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

\$5.75

per copy. Paperbound, with charts
