INVERSTIGATOR'S REPORT HHH/mk

4 February 1947

DATE: 3 February 1947

TITLE: Nakayama Taiyodo
Machines required for maintanence of equipment in Cosmetic Plant

NAME OF COMPANY: Nakayama Taiyodo

LOCATION: 40 Mizusaki-cho, Naniwa-ku, Osaka

INTERVIEWED: Mr. M. Fujita, director and supt. of Metal Working Plant

The machines requested for exemption from OD-5 are to be used for maintaining approximately 500 machines in the Cosmetic Plant.

Prior to 1935 there was a small repair shop with 6 machines within the Cosmetic Plant. These machines were used to work on minor repairs, in most cases repairing jobs were sent out to metal work shops under contract. Under the present state of affairs, there are no such shops available and it will be necessary for the company to maintain repairing facilities. For this purpose the company is requesting for the exemption of the following machines: -

/	1	Planing machine
/	3	Milling machines
/	2	Shapers
2	9	Engine lathes (Bench & Engine)
	1	Slotting machines
/	2	Bench drills
	1	Internal cylindrical grinder
/	1	Surface grinder
/	1	Universal tool grinder
/	1	Hack sawing machine
/	1	Upright power fed drill
	1	Horizontal boring
	1	Radial drill
Total 10	26	

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. [illegible]

In addition to these, 2 electric motors have been requested.

Company is also requesting for exemption of 18 additional machines of bicycle shop maintanence.

RECOMMENDATION:

For the maintanence of cosmetic plant subject plant's request is reasonable with the exception of milling machines and engine lathes. It is recommended that the company be advised to change the numbers of milling machines to 2, and engine lathes to 6. This will make the total of 22 machines in place of 26.

Request for the exemption of machines for maintaining the Bicycle Plant is not warranted in as much as the subject plant is still on OD-5.

N.H. Morimoto

Machines as requested far exceed the normal requirements of their company. 10 machines as indicated will enable subject company to perform any type of "repair" work required.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. [illegible]

The Actual Conditions of

Nakayama Taiyodo Co.Ltd.

Nakayama Taiyodo Co.Ltd.

No.40 Mizusaki-cho, Naniwa-ku
Osaka.

Jan. 8th., 1947.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

I) Nakayama Taiyodo Co.Ltd. has been engaged principally for the production of Cosmetique and Medicinal commodities during the past 45 years ever since the year 1903, with the result of producing the total amount for the sum ¥ 350,000,000 in all.

In addition to the paid-up Capital of ¥ 5,000,000, the reserve and other resources of assets amounted to no less than ¥ 6,560,000 up to the end of November of 1946, but due to loss caused inevitably during the war, the total net assets reduced to ¥ 2,577,000.

2) Factories under the management of Nakayama Taiyodo Co.Ltd. are divided into two sections as follow:-

Cosmetique and Medicinal Main Works.
No.40 Mizusaki-cho, Naniwa-ku, Osaka.

Metallic Factory.
No.37 Mizusaki-cho, Naniwa-ku, Osaka.

We wish to emphasize that the principal aim of Nakayama Taiyodo Co.Ltd. is to produce Cosmetique and Medicines as the peace-time industries which are playing the most important role of our enterprise, as the vital line of this company.

As is shown on the Cosmetique Diagram of Production Amounts, the total amount of production for Cosmetique and Medicinal works was ¥ 130,000,000, against the small amount of production in the Metallic Works for ¥ 2,440,000 only, during the period of year 1937 - 1945.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

3) In the subsidiary workshop of Metallic Department located at No.37 Mizunaki-cho, Naniwa-ku, Osaka, the repairing and the improvement of Cosmetique and Medicinal preparation machines were carried out, but during the war, a small scale production of ammunition parts had to be done for the period less than 20 months by the pursuation of the higher authorities, which however occupied less than 2 % of output against the entire production of toilet articles section.

As it is indicated on the Diagram of Profit and Loss Accounts, we had to suffer the loss of the sum of ¥ 253,000 during the year 1944, in the Metallic Dept. which had to be covered up with the profit arising out of the Cosmetique and Medicinal section and thereby the dividend was declared within the marginal line.

However, during the year of 1945, the loss of sum amounting to Yen 932,000 caused by the Metallic section, had to be sustained and for this reason, even if the gain arising out of the Cosmetique and Medicnal section for the sum ¥ 706,000 had to be used to cover up this damage, and yet, we were obliged to pass this year without declaring any dividend at all.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

4) Moreover, after the armistic, this company had also to suffer by not receiving any money for the orders from theGovernment which we executed during the war, in addition to still bigger amount of money caused by the closing-up of the war time compensation for the entire sum ¥ 3,190,000, and besides, the loss to be caused by the External Assets abroad will reach as much as ¥ 800,000.

For your information we quote the market value of our company's shares in accordance with the estimated value of the Dept. of Finance, i.e. one-half of the paid-up value.

As the foregoing statement indicates, we believe it will be clearly understood that we are not the by-product of the so called " War baby" in the least sense of the words.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

REASONS WHY I HAVE RECONVERTED THAT PART OF THE PLANT, WHICH HAD BEEN PRODUCTING MUNITIONS PARTS, INTO THE PRODUCTION OF BICYCLES AND FARM IMPLEMENTS

Taichi Nakayama, President,
Nakayama Taiyodo Co.

I. Did not wish to cause mass unemployment
   (a) Has not dismissed a single employee without a reasonable and unavoidable cause to this day. This is true even for the priod since the termination of the war.

II. Wished to contribute to the welfare and advancement of society
   (a) There was a nation-wide demand for bicycles (for transportation) and farm implements (for the sorely needed food production).
   (b) Saw the tendency of dishonest enterprisers to flood the markets with poor quality goods at exhorbitant black-market prices.
   (c) Wished to correct such evils by producing good quality good at reasonable prices.

III. In recognition of my past records as an honest businessman the authorities concernnd, both Japanese and Allied, have granted ~~pe~~ permission to reconvert the plant into the production of bicycles and farm implements.

IV. Machines were better fitted for the production of parts of bicycles rather than for cosmetics and drugs.

V. Had the technical staff on hand, who were well qualifies for theproduction of bicycles parts.

VI. Cosmetics Plant had enough potential capacity so as not to require expansion for sometime to come, provided that there were enough facilities for repairs.

VII. Saw a future in the production of bicycles:
   (a) domestic market
   (b) foreign market (as goods in exchange for the neccessary imports)

VII. Conclusion:

As in the case of my cosmetics and medicinal products (please consult the authorities at the Dept. of Commerce and Industry, Japanese Government, and the Cosmetics Producers' Association) not a single bicycle --- though it is already noted for its high quality --- is sold at black-market prices, which would seem to be a rather common practice (please consult the authorities at the Dept. of Commerce and Industry, Japanese Government, and the Bicycles Association).

SUBJECT : 5 Additional Industrial Machines installed after our plant designated as the reparations factory on August 24, I946.

Sirs,

I. Our Metallic Dept. Works obtained permission for the reconversion from the Headquarters 6th Army, under permit No. M.G. II7, on 30th November, I945.

Until designated as reparations plant on 24 August, I946, 62 machines were installed based upon the plan to consolidate the equipment for the production of bicycles and farming tools in our workshop. This number of machines is equivalent to all the machines, as shown on the Inventory Sheet as "EX which were checked up by the officer in charge of O.M.G.T. on Ist November, I946. (See annexed diagram)

2. After drawing up "Inventory Sheet" as of Aug. 24, I946, (designated as reparations plant) we installed for the production of bicycles 5 additional industrial machine, as they were expected to arrive here after the order for such having been placed with the manufacturers, and its details are as follows:- (See annexed diagram)

3. These 5 industrial machines are absolutely necessary for the purpose of building up bicycles parts and we have been making it a rule to make report upon arrival of machines each time to the Ministry of Commerce and Industry via Osaka Prefectural Government every month, specifying the details in connection with the custody conditions of the designated equipment.

On the other hand, as we thought it likewise necessary to send this report regarding the above mentioned 5 additional industrial machines, to the O.M.G.T. in addition to what we had already reported through Osaka Prefectural Government, we submitted the petition for the permission of installing 5 additional machines to the Headquarters O.M.G.T. on 28 March I947. We considered afterwards, however, that it might have been better if we had reported as the "SP" machines carried into our factory along the line as we stated above. But, we feel very sorry to say that as a result of our mishandling the routine work without recognizing the outcome of the these procedures, the petition was utterly denied on April I2, I947.

For these reason we sincerely hope that you will be kind enough to let us know as to how we can put the matter forward without infringing upon any ruling in connection with the installation of machines in guarding safely and causing any unnecessary complications hereafter.

Thanking you in anticipation for your good offices in the adjustment of this unfortunate incident, and eagerly awaiting magnanimous decision, I beg to have the honor of remaining, Sir,

Most Respectfully Yours,

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

21 December 1946.

TO : Osaka Military Government.

From: Nakayama Taiyodo Co.,Ltd.
No.40 Mizusaki-cho, Naniwa-ku, Osaka.

Subject: Petition for the verification of the difference of number of machines between that registered in the Inventory Sheet made to meet the instruction given by the Osaka Militaty Government and that registered in the Petition for the Exemption of the Metallic Dept.Works from O.D.5 formerly presented from Nakayama Taiyodo Co.,Ltd.

Dear Sir,

It is sincerely requested to be verified by you that the subject above mentioned is true according to the following facts:

I. The number of machines registered in the Petition for the Exemption of the Metallic Dept.Works from O.D.5. is 335.

2. By the instruction given by the Osaka Military Government, I3 electric motors bigger than 5 Hp were registered, which so far had not been registered under our opinion that they were the auxiary machines.

3. The increase and decrease of the number of machines owing to instruction given by Osaka Military Goverrment Officials are as follow;

(a) Machines omitted out of the list, because it was so instructed by Osaka Military Government that they should not be considered as machines;

Small grinders	5 pcs.
Coke funance of bricks piled up on the floor	5 "
Total No.	IO pcs.

(b) Machines instructed by Osaka Military Government to register with the suffix letter of EX;

Turret lathe	I5 pcs.
Engine lathe	2 "
Small lathe	5 "
Drilling machines	5 "
Total	27 pcs.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. [illegible]

Some of these machines were assembled in our constructing works by machining some parts, and some of them were bought as second hand machines.

These machines, however, were arranged in order in one place in the workshop with the notice board of "Unlisted Machines" to be inspected and instructed what to do by O.M.G. Officials, because these machines were not yet completed and hence not yet installed.

(C) Summary of increase and decrease of No. of machines above mentioned.

Increased	I3 pcs. as cluse 2 27 pcs. as Articles (b) in clause 3.
Total increased number 40 pcs.	
Omitted	I0 pcs. as Articles (a) in Clause 3.
Balance	30 pcs. increased.

†This is to say that the No. of machines registered in the Inventory Sheet presented to Osaka Military Government are 365 pcs., which are 30 pcs. more than the No. of machines (i.e 335) registered in the Petition for exemption from O.D.5.

Note.

A) Machines of Mark "*" was directed by Osaka Military Government that machines at Cosmetic and Medicinal Works were not necessary to list in the Inventory Sheet, so that we have not registered them, but they were here listed for the convenience of explanation.

B) 1) Why we have excluded 10 machines ?
Mark(i) (Small Grinder 5 pcs. and Coke Furnace 5 pcs. Total 10 pcs.) was excluded from the Inventory Sheet by the directive of Official concerned of Osaka M.G., at the occasion of the inspection for the condition of our plant.

2) Why we have increased 15 motors ?
Mark(ii) (Motor 15 pcs.) was considered as the auxiliary machines, so that we have not listed in the No. of machines of the petition for exemption, from G.H.Q. but after that, we have listed 15 Motors of more than 5 Hp, in conformity with instruction for the Inventory of Reparation plants by directive of Osaka M.G.

3) Why we have increased 24 27 pcs. ?
27 pcs. machines of Mark "(iii)" were partly assembled by machining some parts at the constructing works of our plant and also partly purchased since the termination of the war and not yet installed, so that we have not included those machines in the No. of machines, and we have asked for the directive by officials of Osaka M.G., what to do, keeping these machines in order in one place in our works and indicating as "Unlisted machines".
As the result of inspection, we have listed them, because it was directed that 27 machines were necessary to list as 24.

DECLASSIFIED E.O. 12065 SECTION 3 402/NND

machines at Cosmetic and Medicinal Works were not necessary to list in the Inventory Sheet, so that we have not registered them, but they were here listed for the convenience of explanation.

B) 1) Why we have excluded 10 machines ?
Mark(i) (Small Grinder 5 pcs. and Coker Furnace 5 pcs. Total 10 pcs.) was excluded from the Inventory Sheet by the directive of Official concerned of Osaka M.D., at the occasion of the inspection for the condition of our plant.

2) Why we have increased 15 motors ?
Mark(ii) (Motor 15 pcs.) was considered as the auxiliary machines, so that we have not listed in the No. of machines of the petition for exemption, from S.D.C. but after that, we have listed 15 Motors of more than 5 Hp, in conformity with instruction for the Inventory of Reparation plants by directive of Osaka M.D.

3) Why we have increased 8X 27 pcs. ?
27 pcs. machines of Mark "(iii)" were partly assembled by machining some parts at the constructing works of our plant and also partly purchased since the termination of the war and not yet installed, so that we have not included those machines in the No. of machines, and we have asked for the directive by officials of Osaka M.D., what to do, keeping these machines in order in one place in our works and indicating as "Unlisted machines".
As the result of inspection, we have listed them, because it was directed that 27 machines were necessary to list as 8X.

C) By the above reasons, 50 machines were increased.
To 883 machines which are the No. of machines in the Petition for Exemption from S.D.C.
Mark (i) 10 machines were excluded.(Reason of B-1)
Mark (ii) 15 machines and Mark (iii) 27 machines
Total 40 machines were increased (Reason of B-2, B-3)

Net result 50 machines were increased.

So that total of machines are 913 machines.(By the reason of (c), 840 machines which were not registered, plus 76 machines which were registered in the Inventory Sheet by the instruction).
