

For 24 hours ending 5 p.m. Tuesday: Victoria and vicinity—Westerly winds, generally fair and cool.

Royal—The Woman Giver, Pantages—Dandy Dick, Dominion—The Heart of a Child, Columbia—The Toll Gate, Variety—Judy of Rogue's Harbor.

Capt. Burton Given Further Chance as Shamrock's Skipper

Will Be at Wheel in To-morrow's Race, Says Sir Thomas Lipton; Whether He or Someone Else Will Be Skipper in Next Race Depends on Outcome To-morrow.

Sandy Hook, N.J., July 19.—Captain William P. Burton will be given another chance at the wheel of Shamrock IV.

Sir Thomas Lipton would not say this afternoon what developments may be expected after to-morrow's race with the American defender Resolute for the America's Cup, nor would he deny that he and his advisers on the steam yacht Victoria had virtually decided to remove Captain Burton from the tiller of the cup challenger after Saturday's contest, in which Captain Burton's handling of the Lipton craft had been severely criticised.

Sir Thomas was somewhat perturbed when he read in the newspapers of plans for supplanting Captain Burton.

"Captain Burton will be at the wheel to-morrow, I understand," said Sir Thomas this afternoon. "After that, I cannot say, and of course, I will not talk about it."

Nicholson Mentioned.

Some of the newspaper items Sir Thomas saw ventured the opinion that when the Lipton seventy-footer was found at the starting line to-morrow either Colonel Neill or Designer Nicholson probably would be in command.

Sir Thomas's choice for skipper of the challenger, these newspapers said, was Mr. Nicholson, who not only designed, but built the Shamrock as well, and who is also a yachtsman of ability, as shown in his contests in England.

The New York Times this morning said that Aemilius Jarvis, Commodore of the Royal Canadian Yacht Club, Toronto, the well known racing skipper, was mentioned as a possible successor to Mr. Burton as helmsman of the Shamrock.

The removal of a captain from a cup yacht while a series of races for the America's Cup is proceeding would be without precedent in the history of cup racing, it is believed.

TWO LITTLE ONTARIO GIRLS MISSING

Couple of Thorold Children Disappeared; Man Detained

St. Catharines, Ont., July 19.—Two girls of Thorold, Ontario, Katherine Brahan, six years old, and Margaret Boucock, four years old, disappeared last Tuesday and nothing has been heard or seen of them since.

The Boucock girl was seen Tuesday afternoon, it is said, walking along the high bank of the Welland Canal ditch east of Thorold with David McNeil. McNeil is in jail awaiting appearance before Magistrate Noble on Friday.

McNeil was arrested at Port Dalhousie, the night following the disappearance of the children.

The whole countryside is aroused over the affair.

ASKS \$100,000 BALEM.

Chicago, July 19.—He was fifty-nine years old, but I never imagined he had a wife and grown son living," said Miss Alice Krachy, who is suing Herman H. Budko, of Des Moines, Ia., for \$100,000 damages of promise and false pretences and various other offences connected with their alleged courtship.

EIGHT ENTOMBED IN PENNSYLVANIA MINE

Men Were Caught By Explosion; Efforts by Rescue Crews

Pittsburg, Pa., July 19.—John Luteman, night foreman, two fire bosses, two pumpers and three laborers were entombed by an explosion in the mine of the Union Collieries Company at Renton, eighteen miles from here, at 2:30 this morning.

The explosion blew the cage out of the shaft, and as soon as the repairs to the hoisting apparatus can be made, rescue crews will endeavor to find the buried men.

At midnight Sunday, following repairs, Luteman and his crew entered the mine to see that all was in readiness for operation this morning. At 2:30 o'clock a terrific explosion shook the entire neighborhood.

TO BUY IN PORTLAND.

Portland, Ore., July 19.—Retail merchants from every part of the Pacific Coast and from British Columbia and Alaska have notified the Portland Chamber of Commerce that they will attend the annual buyers' week here August 9 to 14.

SEATTLE BURGLARIES.

Seattle, July 19.—Cash, jewelry and clothing amounting to nearly \$500 were included in the haul in two burglaries reported to the police here Sunday.

POLES ADMIT LIDA IN HANDS OF REDS

Warsaw, July 18.—Occupation of Lida (fifty miles south of Vilna) by the Bolsheviks after heavy fighting, is reported in a communiqué issued by the War Office to-day.

Esquimalt Student Wins Governor-General's Medal

The results of the annual examination for entrance to a High School are announced by the Department of Education to-day. Of the 2,089 candidates who wrote this examination 939 were successful.

MURDER MYSTERY FOR SOLUTION BY ALBERTA POLICE

Lethbridge, July 19.—The Alberta Provincial Police have another murder mystery to solve. T. R. Brassett, a Government surveyor, on Saturday found the remains of an unidentified foreigner in a C. P. R. culvert two miles from Burnis. The throat was slashed from ear to ear, and when found the body was clad only in a union suit of underwear.

HEALTH RESORT HOTEL BURNED

St. Alice Hotel at Harrison Hot Springs Destroyed Yesterday

Harrison Hot Springs, B. C., July 19.—The St. Alice Hotel, Harrison Hot Springs, one of the oldest and among the best known hotels in British Columbia, was totally destroyed by fire Sunday.

AUTO THEFT RING FOUND IN CHICAGO

Chicago, July 19.—Detectives raided a luxurious apartment in Gar Avenue, along the north shore here, and arrested three men and two women who are charged with being the brains of one of the most completely organized gangs of automobile thieves operating in the country.

MRS. D. FAIRBANKS WEARS SHORTER SKIRTS IN PARIS

Paris, July 19.—Douglas Fairbanks and Mary Pickford arrived in Paris yesterday. Fairbanks' skirts now are ten inches from the ground, whereas they nearly touched the ground while the couple were in Chicago recently.

Marmora-Black Sea Line is British-Greek Plan

Constantinople, July 19.—(Associated Press)—The British and Greeks are preparing to clear the Soutari Peninsula of all Turkish Nationalists and establish a line from Ismid, on the Sea of Marmora, to Chelch, on the Black Sea, which will control the bandit raids against the Bosphorus towns and check communications between Angora and Constantinople through the Soutari Peninsula mountains.

TWO KILLED WHEN AEROPLANE FELL

Tulsa, Okla., July 18.—Albert W. Newsom, Union Point, Georgia, and Robert E. Middleif, an adopted son of Madame Schumann-Heink, the prima donna and son of a minister of Deatur, Illinois, were killed instantly in an aeroplane fall near here yesterday.

FAMOUS BOTANIST CALLED BY DEATH AT ADVANCED AGE

Professor John Macoun, Eminent Botanist, Dies at Sidney

Following quickly the death of R. G. Kennedy, C.I.E., the famous irrigationist, within a few short weeks Sidney has lost another eminent man who settled in its environs after attaining distinction elsewhere.

SHIP FLOATED FROM ST. LAWRENCE REEF

Montreal, July 19.—After being on the reefs at Vache Point, near the mouth of the Saguenay River, for nearly seven months, the Canadian Government merchant marine freighter Canadian Recruit was released on Saturday and taken into Tadoussac, where she is now safely anchored.

BRITISH MINISTER TO CHINA ARRIVES

Sir Beilby Alston and Sir Somerville Head Aboard Empress

Sir Beilby Francis Alston, C. B., K. C. M. G., British Minister to Peking, was a notable passenger aboard the liner Empress of Russia en route from Shanghai to London.

GERMANS ENDEAVOR TO REGAIN TRADE

Hamburg, July 18.—Via London, July 19.—(Associated Press)—As further particulars come to light regarding the agreement between the Hamburg-American Steamship Company and the American Ship & Commerce Corporation, by which the former German trade routes are to be opened to American shipping.

FIVE HURT WHEN TRUCK TURNED OVER

Seattle, July 19.—A motor truck carrying a picnic party of twenty-four persons, nine of whom were children, went over a fifteen-foot embankment and capsized on the Bothell Road, a short distance north of Seattle yesterday.

SAYS GERMANS PAID BIG PRICE

Berlin, July 19.—"We saved the Ruhr district from invasion, but we paid a big price for it," is the way Dr. Walter Simons, German Minister of Foreign Affairs, epitomized the result of the meeting at Spa last week between German and Allied representatives, according to a news agency report.

CHILD GAVE LIFE TO SAVE PLAYMATE IN CHICAGO STREET

Chicago, July 19.—Alex Palutomas, five years old, was killed in a successful endeavor to save the life of his playmate, Julia Adonatus, eight. A big truck rounded a corner near where the children were playing. Alex threw himself in front of Julia, who was badly bruised. He died instantly.

Bolsheviki Agree to Armistice With Poland

London, July 19.—(Associated Press)—The British Government to-day received a note from the Russian Soviet Government stating that Russia was prepared to agree to an armistice and to make peace with Poland.

Cork Scene of More Violence as Raiders Continue to Operate

Cork, July 19.—(Associated Press)—Two military lorries loaded with soldiers which were passing through streets of Cork at 3 o'clock this morning were attacked by civilians with bombs and blown up. Between sixty and seventy soldiers were injured, the civilians throwing twenty-nine bombs.

J. HOHENZOLLERN COMMITTED SUICIDE

Berlin, July 18.—Via London, July 19.—Joachim Hohenzollern, youngest son of Wilhelm Hohenzollern, former Kaiser of Germany, committed suicide to-day. He shot himself Saturday in his residence, the Villa Leignitz, Potsdam.

WIDER FIGHTING AREA IN CHINA

Tientsin, July 18.—Railway service with Peking has again been interrupted by a collision near Yangtun. As a result there is much congestion of troop trains from Mukden. A repair train left Yangtun Sunday, and replaced the derailed engine, but was unable to proceed further because of congestion due to the arrival of Anfu reinforcements.

TRY TO COUNTERACT UNFRIENDLINESS

Belgrade, July 18.—The recent clash between Italians and Jugo-Slavs at Spalato, Dalmatia, and the anti-Slav demonstrations at Trieste have caused much bad feeling here against Italy, which the government is attempting to counteract.

WIDER FIGHTING AREA IN CHINA

Belfast, July 19.—By means of a wall hurriedly built across the tracks, a gang of armed men to-day stopped the West Clare train near Milltown-Mally and abstracted official documents from the mail bags.

WIDER FIGHTING AREA IN CHINA

London, July 19.—A Belfast dispatch yesterday said: A former soldier had been bayoneted and killed by the military here Saturday.

WIDER FIGHTING AREA IN CHINA

Chicago, July 19.—Alex Palutomas, five years old, was killed in a successful endeavor to save the life of his playmate, Julia Adonatus, eight. A big truck rounded a corner near where the children were playing. Alex threw himself in front of Julia, who was badly bruised. He died instantly.

WIDER FIGHTING AREA IN CHINA

Tientsin, July 18.—Railway service with Peking has again been interrupted by a collision near Yangtun. As a result there is much congestion of troop trains from Mukden. A repair train left Yangtun Sunday, and replaced the derailed engine, but was unable to proceed further because of congestion due to the arrival of Anfu reinforcements.

WIDER FIGHTING AREA IN CHINA

New York, July 19.—A crowd that filled Madison Square Garden on overflowing and required police reserves to handle last night took part in a series of noisy demonstrations when Bishop Daniel Mannix, Melbourne, Australia, the churchman arrived here yesterday on his way to Rome, where he will be received by the Pope.

CHILD ACCIDENTALLY SHOT; SUCCEDED

Vancouver, July 19.— Hoping against hope, and bearing in his arms his dying eleven-year-old daughter, who had been wounded by a bullet from an accidentally discharged rifle, T. W. Hallas, of this city, made a terrible and unsuccessful ride against death from Port Haney to New Westminster on Friday evening, the child succumbing to her injury five hours after being operated on at the Royal Columbian Hospital.

COX AND WILSON AGREE ON LEAGUE

Washington, July 19.— After an hour's conference with Governor Cox, the Democratic Presidential candidate, President Wilson declared in a formal statement that he and Governor Cox were "absolutely at one" with regard to the great issue of the League of Nations.

TO REPOPULATE AREA WITH BEAVERS

Forest Protection Society in New Hampshire Makes Effort

Concord, N. H., July 17.—An effort to re-establish the beaver on the streams and meadows of the White Mountains country, from which it long since disappeared, is being made by the Society for the Protection of New Hampshire Forests.

The Lost River Reservation is again the haunt of the dam-building animals, four beavers having been liberated there as the first step in an effort to return the amphibian architect to its former usefulness.

The animals set free were the gift of the state forester of Minnesota, who selected them from a breeding colony at a state park situated at the headwaters of the Mississippi.

THREE KILLED WHEN AEROPLANE CRASHED

Coeur d'Alene, Idaho, July 18.— Three men were killed here yesterday when a hydro-aeroplane in which they were riding crashed to the ground on the lake shore.

NEW MEASURES TO COMBAT GRASSHOPPERS

Regina, July 18.—A conference was held here Saturday between Hon. C. M. Hamilton, Provincial Minister of Agriculture, and the field directors of the anti-grasshopper campaign, to devise new means to combat the hopper, which are now in their migratory stage.

CONSUMPTION OF GASOLINE GROWS

San Francisco, July 19.—Increased consumption, not diminished supply, was given as the cause of the gasoline shortage, in a statement issued to-day by the Standard Oil Company of California.

"In 1918 the company's sales of gasoline amounted to 152,000,000 gallons, and in 1919 to 192,900,000, while the sales of 1920 will be more than 300,000,000 gallons," said the statement. "So far this year the company has sold 45.4 per cent more gasoline than for the same period of last year."

LAD DROWNED.

Brandon, Man., July 19.—Johnnie Bowchuck, a twelve-year-old lad, was drowned in the Assiniboia River here yesterday.

In company with other lads he was bathing and was swept off his feet by the swift current and drowned.

The relatives of a man's first wife nearly always rejoice in the troubles he has with his second.

SOUTH AFRICANS

GO TO ANTWERP

Morgan, King's Rifle Prize Winner, and Others Go to Olympic Sports

Bisley Camp, July 19.—Sergeant A. H. Morgan, of South Africa, winner of the King's Prize, and the others of the South African team will proceed to the Olympic sports at Antwerp.

They have done well in the marksmanship competitions here, winning the King's, St. George's, Kolapore and Alexandra prizes, besides being second in every one of the newspaper trophy competitions.

Sergeant Morgan was chaired around the camp on Saturday, which is the usual honor accorded the winner of the King's Prize at each meet here.

Sergeant Morgan's total score for the second and third stages of the King's Prize was 281.

The scores of the Canadians were as follows: Major Utton, Toronto, 265; Major Northover, Winnipeg, 261; Sergeant James Sloan, Montreal, 260; Captain C. R. Crowe, Guelph, 244.

The leading score at the 300 yard range, made by Hoey, the silver medalist, was 187.

Sergeant Morgan's total at the end of the 500 yards was 234. Sergeant Morgan belongs to the Witwatersrand Rifles. He is twenty-seven years old and has been a life-long teetotaler. He has been shooting since 1906 and visited Bisley as a cadet in 1907 in South Africa. He was employed in mines as an electrician. He won the Natal Cup under King's Prize conditions. He served during the war first in Southwest Africa and then under Gen. Smuts in East Africa.

His aggregate of 281 in 25 points better than Loveday, of New Zealand, last year's prizeman, secured.

FARMERS MAY FORM WHEAT-SELLING POOL

Prairie Farmers May Take Action When Wheat Board Ends

Calgary, July 19.—The formation of a co-operative farmers' pool to deliver the Canadian wheat crop of 1920 on the markets of Europe may be the outcome of the decision of the Government to make the Wheat Board inoperative.

This is the proposal made by the directors of the United Farmers of Canada at a meeting in Calgary on Saturday, when they decided to request the directors of the United Grain Growers, Ltd., and the Saskatchewan Co-operative Company to consider the feasibility of forming such a pool in the event of the Dominion Government adhering to its decision. The directors will first make every effort to have the Board continued for another year as now constituted.

Regina Post Comments.

"The farmers have lost out in the matter of national marketing of wheat. The Government announcement that it does not propose to continue the Wheat Board in office ends the matter for the present. The Grain Exchange and the grain interests, which have lobbied so vigorously and persistently against market control, have won their fight. If disaster comes under the opening of the market, the Government promises to act, but untold damage might be done before the Board could get in operation again."

Hon. R. Rogers's Opinion.

Montreal, July 19.—Hon. Robert Rogers, of Winnipeg, is visiting this city. Mr. Rogers stated that in view of the fact that the Government had done away with the Wheat Board, the farmers would realize a great deal more money. The action of the Board in the past, he claimed, had caused the farmers to lose heavily.

USE OF AEROPLANES

IN UNITED STATES

About 100 Business Men Fly; "Taxi-drivers" Number About 300

New York, July 19.—About 100 business men scattered throughout the United States more or less regularly fly in aeroplanes between their homes in the country, at the mountains or the shore to their city offices, according to an estimate of the Manufacturers' Aircraft Association.

"There is a steadily increasing demand for aircraft of the commercial type," says a report made to the Association, "but, contrary to some published reports, the demand does not equal the supply. Factories now in operation in the United States could construct ten times the number of aircraft which optimistic estimates would be required this year."

AT MOUNT RAINIER.

A trip throughout the country by representatives of the Association revealed some interesting uses to which aircraft are being put. "In Seattle during the tourist season," the investigators reported, "a passenger aeroplane makes a daily run over and around Mount Rainier, flying at 20,000 feet, some 5,000 feet above the mountain.

"At the Santa Barbara seaside resort a flying boat is in daily operation over the channel, two of its most interesting passengers during the early part of this year having been the King and Queen of Belgium.

WANT COMPANY TO REFUND \$122,000

Fourteen Daily Newspapers Ask Judgment Against Fort Frances Paper Co.

Toronto, July 19.—In a writ issued Saturday, the Supreme Court of Ontario is asked to declare that certain judgments of the Paper Control Tribunal directing the Fort Frances Pulp & Paper Company, Ltd., to make certain refunds to its Canadian customers are valid, and to direct the payment of these refunds. The writ was issued by Tilley, Johnson, Thompson and Parmenter, on account of fourteen daily newspapers, formerly supplied by the Fort Frances Company.

The writ states that "the plaintiffs' claim is for a declaration that certain judgments or orders of the Paper Control Tribunal dated August 18, 1919, and July 8, 1920, are valid and binding on the defendants, and to enforce the same and the payment of all sums due by defendant to the plaintiffs thereunder."

A HOPELESS TASK.

"The sanitary inspector knocked sharply at the door, and it soon opened. "How many people live here?" he began.

"Nobody lives here," answered the daughter of the house. "we're only staying for a short time."

"But how many are here?" "I'm here, Father's gone for a walk, and mother is—"

"Stop, stop!" exclaimed the man impatiently. "I want to know how many inmates are in this house. How many people slept here last night?"

"Well, you see," was the reply, "I had the toothache dreadful, and my little brother had the stomach-ache, and we all took on so much that nobody slept a wink."

"Then the inspector said he would call again.—Tit-Bits.

plaintiffs thereunder." The amount involved is about \$122,000, the largest claim being that of The Winnipeg Free Press for \$52,259.51.

SAY ONE BIG UNION

ESQUIMALT, STUDENT WINS GOVERNOR-GENERAL'S MEDAL

MIAMI "KIDNAPPED"
Those at Winnipeg Meeting Protest Against Sending of Man Across Border

Winnipeg, July 19.—The "kidnaping" of W. Christophers, One Big Union organizer, who three weeks ago was conveyed in an automobile from Bienville, Saskatchewan, to the United States side of the border and told not to return on pain of being tarred and feathered, was condemned by a mass meeting here yesterday afternoon held under the auspices of the Winnipeg Labor Defence Committee.

After hearing the reports of H. L. Cotterell and J. M. Woodworth, who had come to the district and investigated the circumstances, the meeting passed a resolution condemning "the whole business of the police interfering with the workers' activities and refusing to do their duty in protecting the workers against these tricks by capitalists."

A special committee was formed to "secure justice for the workers in the Bienville district."

The business agent of the One Big Union reported that in Bienville, Taylorson and other villages in the district he had been shadowed by Mounted Police and Provincial Police. He had been forced to hold meetings in the bush.

HOLD SESSIONS IN DOMINION CAPITAL

Delegates to Imperial Press Conference Will Discuss Questions There

Ottawa, July 19.—(By Canadian Press)—The programme for the meeting of the Imperial Press Conference in Ottawa, where the business sessions of the Conference will take place, has been completed. The delegates, who will number about 150, including the Canadians, will arrive in Ottawa the evening of Wednesday, August 4.

The conference will be opened Thursday morning at 10 o'clock in the Parliament Buildings, with short addresses of welcome by the Governor-General, the Prime Minister and the Leader of the Opposition.

EXPORTATION OF SUGAR TO STATES WILL BE CUT DOWN

Ottawa, July 19.—(Canadian Press)—Export of sugar from Canada to the United States will receive close attention by the Board of Commerce and, according to a statement issued today, steps are in contemplation which, without drastic interference with trade conditions, may be expected to reduce such transactions to a minimum.

KEEPS CHILDREN WELL MAKES THEM ROBUST

HERE IS GOOD ADVICE FOR THE HEAD OF EVERY FAMILY.

Rapid growth, work at home and in the school-room, are sure to tax the strength of every child, and often prove the beginning of a chain of weakness that lasts through life.

Give your sons and daughters a fighting chance! Give them good home surroundings, fortify them with education—but above all give them everything possible to insure for them perfect health in years to come.

DWARFING THEM ALL

From giants the conversation had turned, naturally, to dwarfs, and the various accomplishments of the various Tom Thumbs had been related at length. Then the club liar bustled in.

"All those dwarfs you've mentioned are right enough," he declared airily; "but none of them can compare with a stunted specimen I once came across in the wilds of Central Africa."

The audience began visibly to dwindle.

"Now, he was short, if you like," continued the club liar, speaking rapidly. "I know you are a set of unbelievers, so I will tell you this—friends—that the man was so short that every time his corns hurt him—"

"Well?" queried the only member of the audience who remained.

"Every time his corns hurt him," repeated the narrator, "he fancied he had a splitting headache!"—Tit-Bits.

THE LATE PROFESSOR MACOUN.

In the death of Professor John Macoun the country has lost a distinguished public servant, the Province a highly esteemed citizen, and the cause of science a capable and zealous investigator.

The Professor demonstrated the truth of the axiom that lack of earlier training is not a handicap to the man whose natural ability is responsive to opportunity's call.

Professor Macoun leaves behind him a magnificent contribution to the world of science. His collections bear witness in their rarity and variety to the distinction of his personal accomplishment.

RUSSIA AGREES TO AN ARMISTICE.

According to a dispatch from London the Russian soviet government has submitted a note to Great Britain stating that Russia is prepared to agree to an armistice and make peace with Poland.

Great Britain's intervention on behalf of Poland was made necessary as soon as it became clear that the forces of the Republic were totally inadequate to resist the steam-roller advance of the Bolshevik army.

It is to be hoped, therefore, that the counter-proposals are such as will not result in delaying peace for the famine and fever-stricken republic.

SATURDAY'S RACE.

Structural weaknesses appear to have combined with the elements in an attempt to rob the race for the America's cup of its major sporting characteristics.

Sir Thomas appears to be somewhat apprehensive of his skipper's capabilities, and although he has announced his intention to give Captain Burton another trial before replacing him.

once again that local conditions, how to humor them and how to conquer them, are as important a factor for success or failure as is the expert judgment which enters into the construction of the craft itself.

BEGINNING OF BIG THINGS.

Just as the San Remo Conference finally put an end to all thoughts of the perpetuation of hostilities against Germany so has the Spa Conference to date renewed the hope that a defeated nation may yet realize her obligation to her adversaries.

And it may be assumed that the Allied nations will assist a Germany resigned to restitution more readily than a Germany sulky and defiant—yet obedient by reason of force majeure.

In this connection it will be obvious to the Allied nations that Germany's ability to carry into effect the provisions of the coal protocol will be measured largely by the extent to which they are prepared to extend assistance towards the floating of loans for Germany's internal requirements.

NOTE AND COMMENT

When General Bramwell Booth, the world's head of the Salvation Army, received a number of newspapermen on board the Niagara the other day he expressed the hope that the assembled scribes would remember that newspapers would be wanted in the next world.

This is the season of the year when strange things are seen in the waters which wash our shores and those that nestle in the lap of British Columbia's mountainous slopes.

The London Evening News says there is probably no man in Russia to-day with nimbler wits as a negotiator than Lenin's chosen emissary, Leonid Krassin.

Orders have arrived in Vancouver from Ottawa for the deportation of the dozen Russians who were convicted last year before an immigration inquiry of being members of an illegal organization and subscribing to dangerous revolutionary tenets.

OTHER NEWSPAPERS' VIEWS.

Concrete Ships (The Manchester Guardian) Although the construction of concrete ships has been practically abandoned in this country, there are other countries whose inadequate supply of steel has led them to persevere with their experiments.

CHANGE CURTISS TO SEAPLANE TYPE

Local Aeroplane Will Now Operate From the Water

Changing the Curtiss biplane operated by them to act as a seaplane, W. H. Brown and N. S. Goddard of the Vancouver Island Aerial Service, Ltd., have just completed the operation of attaching floats to the machine.

The pontoons are extremely light, but strongly made with cross bracing wires, similar to the interior of the wing sections, and are some four feet in length by two and a half feet wide.

Mr. Goddard, who has been connected with seaplane work for several years, and was pioneering aviation in 1910, supervised the work of the boat builder, with the assistance of W. H. Brown, his pilot.

At always happens at the end of the school year a number of resignations in all departments of the school system have been received, and the vacancies thus created must be filled.

MANY TEACHERS TO BE CHOSEN

School Board to Fill Vacancies on School Staff

A number of appointments to the staff of the Victoria public schools will be made by the School Board during a special session to-morrow night.

Three High School teachers also must be appointed. If Miss Cameron is placed on the college staff, of course, a fourth vacancy will have to be filled.

The Board desires to conclude all appointments immediately in order that the teachers may be prepared for work at the beginning of the Fall term.

J. HOHENZOLLERN COMMITS SUICIDE

Joachim Hohenzollern, youngest son of the former German Kaiser, was practically unknown outside his own country until the early part of 1915, when he was mentioned as a probable successor to the throne in the event of his father's abdication, which seemed probable at the time.

More Popular Than Others. The young Prince was, however, the most popular member of the reigning family with the people of Germany, and it was probably for this reason that rumor picked him as the probable Kaiser should his father quit the throne.

Joachim, who was only twenty-nine years of age, was brought up among surroundings radically different from the ones in which his brothers had been educated.

Wounded. At the outbreak of the war he was assigned as an infantry subaltern on the east front, and saw quite a bit of active service.

Little has been heard of him since the close of the war, but in view of the report of his suicide, it seems probable that he became entirely estranged from his father, and was thus cut off from his only source of income.

FAMOUS BOATMAN CALLED BY DEATH AT ADVANCED AGE

(Continued from page 1)

During the Winter of 1872, Professor Macoun occupied himself in collecting seaweeds along the south front of Beacon Hill park, and his report was published as a bulletin of the Geological Survey. This report was so acceptable that when published, Dr. Selwyn, then director, decided to secure the professor for an expedition to explore the Peace River District.

The Second Expedition
In 1875 Professor Macoun left with Dr. Selwyn for the proposed expedition, and reached Victoria en route in May, when he collected Spring flowers here for the Herbarium, at Ottawa. The party left Victoria by boat for Yale, then by the Cariboo road to Kamloops. They had a pack train of 40 horses and took six months provisions across to Fort McLeod. There they had three boats fitted up, and proceeded down the Parsnip and Finlay rivers. They then followed the Peace to the portage at Hudson's Hope, and on the other side of the portage built a raft, which floated down to Dunvegan. On the way to civilization their provisions ran out and Professor Macoun almost died from hunger, fortunately which was now eight miles of civilization in that province he collected various specimens of cultivated plants, and was able incidentally to secure a half breed that cucumbers were good to eat—the man had grown them without knowing what they were—and then he proceeded to Ontario without incident.

Worked on Prairies
Four years later in 1879, he was sent by Sir Charles Tupper, to the Northwest to make some observations, and then began the collection of data upon which the "Catalogue of Canadian Birds" from his pen, and the standard authority on the subject, is based. The Summers of 1879 and 1880 were spent on the prairies, Sir Charles having sent out ten parties to examine the country and ascertain its possibilities. Professor Macoun was actively engaged in those two years, and in 1881 spent a considerable time in Northern Manitoba. In that year he met James J. Hill, the railway builder, at St. Paul and presented his views with regard to the character of the railway to be constructed across the prairies.

Appointed to Service
This long apprenticeship for the Government Service, and the resignation of his post at Albert University secured his appointment to the Geological and Natural History Survey in January, 1882, and the Summers of 1882 and 1883 were spent round the Lower St. Lawrence. In 1884 Professor Macoun was located at Lake Nipigon, and in 1885 came back to British Columbia operating in the Selkirk and Rockies. In 1887 he came to Vancouver Island again, and next year moved to the Atlatun working in Prince Edward Island, in 1888. Meanwhile the year before he had been promoted Assistant Director and Natural History, and in 1890, which position for years he continued to fill. In many of his later surveys he was assisted by his son James M. Macoun, of whose service to the Geological and Natural History surveys on Vancouver Island during recent years may be referred to, that of the sea animals, shells and so forth at Ucluelet, in 1900, and a year previously at Departure Bay of various forms of sea life.

His Publications
In addition to numerous reports, Professor Macoun, who was a Fellow of the Linnean Society, and an original Fellow of the Royal Society of Canada, published "Manitoba and the Great Northwest" 1882, "The Forests of Canada and Their Distribution," 1894, and a report on the Yukon country.

He had been associated during a long life with a number of scientific societies, whose members appreciated the wonderful knowledge he had gathered during over fifty years of collecting. In recognition of his service Syracuse University gave him an M.A. degree.

Right up to the last his interest in his specimens continued, and he was writing letters to the press about botanical specimens to within a few weeks ago.
Mr. Macoun in 1862 married Miss Ellen Terill. He is survived by his widow, his daughter, Mrs. A. O. Wheeler, with whom he resided, Mrs. H. A. Kingman, of Wallingford, and Mrs. W. M. Eversall, Victoria, daughters, Dr. W. H. Cannon, of the Experimental Station, Ottawa. His other son, James M.—also a distinguished scientist, died early this year.

JOHN NELSON WILL CONDUCT ONE TRAIN OF PRESS DELEGATES

John Nelson left last night, says a Vancouver World message, for Montreal, whence a C. P. R. special with the reception committee for the Imperial Press Conference will leave on Saturday next for Sydney, N. S.

This party will come across Canada in two de luxe trains, one provided by the C. P. Railway and one by the Canadian National Railway. These trains will be turned out of the shops a few days before the arrival of the party. Mr. Nelson, representing the Canadian Press, will have charge of the first train from Sydney to Vancouver. Mr. W. J. Taylor, ex-president of the Canadian Press Association, will have charge of the second train.

The Victorian, the vessel on which the party will arrive, has been delayed about three days and will dock at Sydney about July 23, instead of coming to Halifax. The delay, however, will not interfere with Western arrangements, the itinerary being picked up on the deferred date and that portion of the journey planned for the first three days arranged for at the conclusion of the trip.

Messrs. Burnham, owner of The London Daily Telegraph and chairman of the Empire Press Union, is at the head of the party, which is the most important that has ever made such a journey across Canada. With the exception of the three days, which will be spent at Ottawa, the whole time will be consumed in visiting the different provinces, the Western journey being made via the Lakes and the C. P. R., and the return trip by the Canadian National.

B. C. Nicholas, of The Victoria Times, will take charge of the first train on the return trip, which is due to reach Quebec on September 12.

Sealing Will Be Resumed If Treaties Abrogated

Application of United States Shipping Act Regarding International Pacts Interpreted to Upset Existing Protectorate Over Fur-Bearing Seals.

The abrogation of treaties as provided for in the United States Merchant Marine Act, among other things, may result in the resumption of pelagic sealing on the Pacific coast. It is said by former sealing operators that the day the Sealing Treaty is abrogated Canadian vessels will be in the waters of Behring Sea and operating outside the three mile limit.

Canadian interests are now making ready to take advantage of the open sealing again as it is certain that Canadian interests in this industry will be protected to a much greater extent should any new treaty be entered into after the abrogation of the one now in existence.

In 1892 the firm of Hutchinson & Kohl, of Seattle, secured leases from the United States Government to engage in pelagic sealing on Pribilof Islands. Later these rights were transferred to the Alaska Commercial Company. Canadians had been taking pelts from the Northern rookeries for several years prior to the Alaska company gaining control of the Pribilof preserves, but it was not until 1882 that Canadian sealing vessels entered Behring Sea.

Much Rivalry. Canadian and United States sealers vied with each other for big catches in Behring Sea, and from time to time United States revenue cutters were taking the Canadian sealers on the grounds of poaching, while the owners swore that they were in open sea more than three miles from the shore.

In 1892 and 1893 a treaty of arbitration was entered into, the arbitrators sitting at Paris. Canada was represented by Sir Charles Hibbert Tupper, then Minister of Marine and Fisheries. At these sessions it developed that Canadian sealing vessels had been seized in the Behring Sea by American patrol boats on the

PALATIAL LINER TO CIRCLE GLOBE

C.P.O.S. Arranging For Big Tour by Newest Leviathan For Pacific

Determined to relinquish none of the prestige now enjoyed in the matter of trans-Pacific passenger travel the Canadian Pacific Ocean Services, Ltd., is advertising a special around the world excursion on the new liner Empress of Canada, now under construction on the Clyde. The Empress of Canada will be launched from the Fairfield yards Sea by American patrol boats on the

WILL CARRY TOURISTS ON WORLD CRUISE

C. P. O. S. LINER EMPRESS OF CANADA

ground that Russia by special treaty had given the United States jurisdiction in Behring Sea. The British Government held that Russia had no power, despite the ukase of 1821, to give away any privileges beyond the three-mile limit, and that the waters three miles from Alaskan shores and three miles from Siberian shores were high seas, and a part of the Pacific Ocean.

After deciding that outside of territorial waters neither the United States nor Russia had special jurisdiction, the arbitrators proceeded to draw up regulations for pelagic sealing in a zone of sixty miles around the Pribilof Islands, and also prohibited any sealing between May 1 and July 31 in Behring Sea or any part of the Pacific Ocean north of 55 degrees north latitude, and east of 150 degrees of longitude from Greenwich. It was further decided that the twenty sealing vessels seized by the United States had been taken unlawfully and after considerable bickering back and forth the United States paid the damages as set down in an award in 1896 by judicial commission.

As the arbitrators dealt only with the taking of seal on the high seas, land killing still continued, but the British were excluded from Behring Sea, and what little sealing was indulged in was done in Russian and Japanese waters.

Nations in Agreement. In 1911 Great Britain, the United States, Russia and Japan entered into a treaty, the principal terms of which were:

1. No pelagic sealing north of 55 degree of north latitude.
2. The United States to give to Canada 15 per cent. of the skins taken on her territory, and 15 per cent. to Japan.
3. Russia to give to Canada 15 per cent. of the skins taken on her territory and 15 per cent. to Japan.
4. Japan to give to Canada 10 per cent. of the skins taken on her territory, 10 per cent. to Russia and 10 per cent. to the United States.
5. The agreement to last fifteen years.

Since the signing of the treaty in 1911 the only seals taken in Canadian waters have been those captured by Indians, using clubs and spears. During the past year the Indians have been getting from \$12 to \$18 per pelt, and sealing by the Indians has become more extensive. It is anticipated that should the commercial treaties be abrogated, not only will regulations regarding sealing, but the recently signed fishing treaty, will also be without effect. Victoria was the headquarters of the old sealing fleet, and the sealing operators here are ready to resume business.

CHINESE DEMAND GOOD GOVERNMENT

Yale Professor Says China Needs Great Powers to Help Her

Dr. Anson Phelps Stokes, secretary of Yale University, after completing a tour of China and Japan, reached Victoria to-day by the liner Empress of Russia from Yokohama. With Mrs. Stokes he has visited New Zealand, Australia, the Dutch East Indies, China and Japan.

interested—Japan, Britain, France and the United States—unite without selfish purpose to help her, there is yet hope. "There are more strong, able, honest and well educated Chinese determined to see an orderly government established than is generally recognized, and the masses are industrious, peaceful, and desirous of being rightly led," says Dr. Stokes.

Speaking of Japanese-American relations, Dr. Stokes said that he saw no reason why the relations between the two countries should not be entirely friendly. Japan seemed willing to carry out the "Gentlemen's Agreement" against the immigration of her laborers to the United States, and the American Government would insist that no state pass legislation in contravention of any treaty rights acquired by citizens of Japanese birth.

LITTLE DIGNITY CHASERS. The convex roof on your straw hat after a rain storm.

ORIENTAL SERVICE NEXT SEPTEMBER

Dominion Government Will Operate Service to Japan, China and India

Montreal, July 19.—R. B. Teakie, general manager of the Canadian Government Merchant Marine, announces the establishment of a trade route on the Pacific side of Canada from Vancouver to the Far East. The route starts from Vancouver to Shanghai, thence to Hongkong, Singapore, Colombo and Calcutta, ending at Rangoon. It is expected that the first ship will be dispatched from Vancouver early in September. The vessels employed will be of the largest type of 8,500-ton vessels being built on the Pacific Coast. At least one ship a month will be placed on the route.

VESSEL MOVEMENTS

Melita to Quebec from Liverpool.
Finland at New York from Antwerp.
France at New York from Havre.

Bays Lost Senior Fours in Thrilling Race But Won All Other Events

Moses Caught a Crab and Spoiled Bays' Chances of Capturing Big Race on Saturday at Shawnigan; Johnson's 140-Pounders Rowed Game Race and Won; Kennedy in Superb Form in Singles and Kent and Maclaren Repeat in Doubles; Won Aggregate Cup.

Table with columns: Club, First, Second, Points. Rows include J. B. A. A. Victoria, Portland Rowing Club, Vancouver Rowing Club, Couer d'Alene.

(By The Times Sporting Editor)

Shawnigan Lake, Sunday.—If the ex-Kaiser had arrived here yesterday afternoon to commence a contract to cut logs for the mills, or the Board of Commerce had announced that sugar would be distributed free for the next month, no greater commotion would have been created on the lake than that which followed the dramatic finish to the senior fours race.

The Greatest Honor.—While the Bays lost the classic they can find great consolation in the fact that there are boys coming along who will soon be fit for junior and senior company. In this respect Victoria far outstrips the other clubs on the circuit.

Leonard to fight Mitchell for the lightweight crown. Milwaukee, July 18.—Beney Leonard, the lightweight champion, who defended his title for the first time in six months, against Charlie White a few days ago, will place his titular honors at stake again in the Fall. The next lightweight to get a crack at the crown will be Ritchie Mitchell, according to the announcement made here. The bout will be held by a local club.

Walk-over in Singles. Away back in 1902 Billie Kennedy rowed his first race. Saturday he rowed another and it was just about as beautiful an exhibition of sculling as anyone could wish to witness. Three scullers lined up for the start. Harold Bendroit of the Bays made a post entry although he only had ten days' training. Kennedy had the East shore. Gore, Portland was in the centre, and Bendroit was out on the left. Kennedy got away in brilliant form and shot into the lead without delay. It was soon apparent that Gore was no match for him and that Bendroit would also be left in the rear. Kennedy, who won the singles in 1914, was in front of Gore, who was almost an equal distance ahead of Bendroit. The latter is so complimented on the excellent performance made in view of his short training.

Both crews were still rowing well within themselves and at a quarter of a mile from the finish the nose of Victoria's shell was level with Portland's bowman. Another dozen strokes and both crews would be throwing their last ounce of strength into the final sprint. Both seemed equally confident. Then came the accident to the Bays' boat. Moses, who was rowing No. 2, took one hand off his oar to brush aside the cap which was bothering him. This move was fatal. He failed to control his car and caught a crab. Before Victoria was able to regain its stroke and put the boat under way, Portland shot out to a two-length lead and maintained it until the finish. The Bays' boat, quickly drew up and got the advantage of the Bays. As soon as the crew had settled Wickson pulled on them for a supreme effort. They hit a beautiful long sweep. To overhaul Vancouver was no small task but to pull up on Portland was a great feat. The Bays' crew, however, Victoria was assured of second place and this would give them a one-point advantage.

Not a Struggle. The doubles did not provide any thrilling struggle. Kent and Maclaren jumped into the lead at the start and their easy, powerful stroke kept putting their boat further ahead. Once again they heartened the spectators by their splendid sprint at the finish. Portland were second three lengths behind and Victoria's second boat was two lengths in rear of Portland.

Shawnigan Lake Wins. Shawnigan Lake Athletic Association did not believe it had a strong enough crew to race in the regatta so they went to a lap race. The challenger was accepted. Shawnigan just romped away with the race, winning by ten-lengths. This club have tried out in the junior fours.

Each Crew a Fours. When Portland succeeded in winning the senior fours each of the three clubs had a four-oared event. Victoria won the junior four. Victoria the 140-pound class and Portland the senior fours.

The "Babies" Win. As was expected, the 140-pounders strove by Johnson, who rowed second to Vancouver in the junior fours and beat three other junior crews on Friday. He had no trouble in winning in their right class. Had not the accident occurred to the other boat it is a question as to which of the crews would have won. There is great rivalry between these boys, and a match race will be held shortly to determine which is the superior.

Plenty of Grit. When the boat finished it was thought that Temple, rowing No. 2, was played out as he was pulling with a fixed seat. Investigation, however, proved that this twenty-year-old oarsman had pulled the greater part of the distance without a seat. When a few hundred yards from the start he ran back to his seat and he slipped off the slides. Instead of quitting cold, Temple continued to slide on the two narrow runners until

off the mills, when it was torture to continue the practice. His shellmates congratulated him on his display of courage in keeping in the race and rowing so strongly despite the mishap.

Officials of Regatta. The officials of the regatta were as follows: Commodore—J. M. Savage. Vice-Commodore—R. F. Taylor. Umpire—J. J. Shalcross. Judges—P.R.C., H. E. Judge; V.R.C., Norman Sawers; C.R.C., F. Williams; J.B.A.A., J. A. Wickson. Starter—Dan O'Sullivan. Announcer—Geo. I. Warren. Timekeeper—W. H. Wilkerson and A. J. Little. Regatta Committee—P. Austin, C. French, H. Blake, A. H. Cox, R. L. Coe, R. Smith, Geo. Kingsley, R. Ross, Watson. Secretary—W. S. Day.

NO GAME TONIGHT; GIANTS MISSED BOAT

Owing to the fact that the Seattle ball team missed the boat from the Sound this morning there will be no game this evening between that nine and Victoria. The game was to have been called at 6:10 o'clock. The first game of the series will be held to-morrow evening. A double-header will be played later in the week to make up to-night's loss.

LEFTY LAWSON JUMPS THE VICTORIA TEAM

After dividing honors with Vancouver in a double-header Saturday, the Victoria ball team will start a two-week series with Seattle Tuesday. A series which should help to boost the Capital's leadership heavily in the Pacific International. If the league leaders have any kind of luck at all they should gather in a big majority of victories during the next two weeks, and thus get an edge on all other teams which will be difficult to beat in the final race for the old flag.

Victoria would have captured both Saturday's games if Lefty Lawson had not blown up in the third inning of the second tangle. As it was the score board registered 2 to 2 for Victoria in the afternoon game and 7 to 4 for Vancouver in the evening game. In the afternoon Harry Morton gained his fifteenth straight victory, but when the Bays' Beavers struck in two tallies they broke his string of twenty-six consecutive scoreless innings. Young Johnson pitched as nice a game of ball as one could wish to see for the Beavers, but his team made allowance for both pitchers and along in the fifth he himself became a pretty easy mark for the Victoria batters.

Tip to the seventh both sides had scored a brace of counters and then in the seventh, with Elliott and Church on the base, "Toots" Brown struck up to the plate and smashed the apple over the centre field fence, bringing in three runs, a margin which Vancouver could not make up. One more run was all that the Beavers could garner.

Lawson started well in the evening game, and it looked for a few short, blissful minutes that another victory would be scored. The gods had it otherwise arranged, however. For two innings the Beavers were stunk, but in the third Lawson worked and the ball fell down completely. Ten men faced him and got four hits and five runs. "Lefty" was dragged out of the box in the next frame and James, succeeded in both pitchers and ball for the rest of the game. The Victorians attempted a batting rally in the ninth, and things looked rocky for a few moments, but the Bays' added but, with the bases still puffed, the last man went down and the Capitals were still four runs behind.

Table with columns: Club, R, H, E. Rows include Detroit, Washington, Chicago, New York, Philadelphia, St. Louis, Brooklyn, Cincinnati, Boston, Chicago.

Table with columns: Club, R, H, E. Rows include Victoria, Elliott, Church, Neighbors, Brown, L.F., Dempsy, Young, Land, Merton.

TOO MUCH TRUST IN PRETTY WIFE

Norma Talmadge in "The Woman Gives" at Royal Victoria

Supreme trust is regarded as being the greatest proof of true love, but it is apt to cause mischief if it is persisted in too far. A prominent lawyer in New York tells a story of a woman who came to him seeking a separation from her husband, to whom she had been wed less than a year. Knowing that she had almost idolized her husband at the time of the marriage the lawyer inquired into the reasons.

"I love him more than ever," said the young wife, sobbing, "but he cares nothing for me. He is interested in nothing I do. Last night I stayed over at a friend's house until nearly midnight, just to see if he didn't care a little bit, and when I came in he never even asked me where I had been."

The lawyer was also personally acquainted with the husband, and decided to risk a snub by asking him the trouble.

"I have been worried about her," admitted the husband. "She has

TO-DAY'S AMUSEMENTS

- Dominion—"The Heart of a Child."
- Variety—"Judy of Rogues Harbor."
- Columbia—"The Toll Gate."

been away so much, but if I asked her where she had been it might make her think I did not absolutely trust her."

The lawyer re-united a loving couple by advising the husband to go home and give his wife a scolding for her unexplained absences. Bob Milton, a young artist, loved Inga Sonderson, a model, so much that he does not believe he is worthy of her. But his trust was not sufficient to encompass the fact that he saw her entering a man's apartment, with her arms around a man himself, in the early hours of a morning.

The reason for this situation, with the events leading up to it and how Inga and Bob both found happiness, is the story told by Norma Talmadge in "The Woman Gives," which will be the attraction at the Royal Victoria Theatre all this week, beginning to-night.

"HEART OF A CHILD" NAZIMOVA TRIUMPH

Famous Star Adds to Her Laurels in Attractive Depictment

Commenting upon each successive picture in which Nazimova is the star has become a process very similar to that of the old frontiersman after he had caused the pesky red-skin to take a large and final mouthful of alkali dust. Every criticism of this marvelous screen artist is simply another notch cut in the gun-stock of fame.

To say whether or not Nazimova is better in "The Heart of a Child," now showing at the Dominion, than in previous productions is somewhat be-

side the point. She is each time so utterly different, and each time it seems as if she were more moving and appealing.

This, her present production, gives Nazimova the rather formidable task of depicting a cockney girl, Sally Snaps, brought up haphazard in the slums of London known as Limehouse. A tragedy of her girlhood causes the child to be thrown upon the world with no other protection against its complex and masked attack than her inborn sense of self is right. Sally's life goes far from being a happy one, into the world of fashionable shops and smart houses, but her heart runs true to its original and irresistible simplicity. It is the heart of a child.

Ray C. Smallwood is to be congratulated upon his effective direction of "The Heart of a Child," and upon being to add him so expert a photographer as R. J. Berquist. The adapter of the story, Charles Bryant, plays one of the principal parts, that of Lord Kidderminster. Credit belongs to Allen Ruoff, for the special art effects making for much of the pictorial beauty of the production.

Stuffy Head Cleared Of Catarrh Germs By "Catarrhazone"

To catarrh victims we have just one word of advice—cure it now. The remedy is "Catarrhazone." That it will cure permanently you cannot doubt. Catarrhazone has cured thousands; it will cure you, too.

It acts in two ways: First, it destroys the germ—that checks the progress of the disease. Its second action is to heal the sore places the germs caused. Nice to think of breathing little drops of healing to every part of the lungs, bronchial tubes and nasal passages. It is such absolute thoroughness that makes Catarrhazone so effective in grippe, catarrh and colds. Then by its sedative influence upon the mucous surface it clears away the cough and throat tenderness very quickly. We owe something to a science that has given us Catarrhazone—that wonderful remedy which so surely enables us to permanently cure disease of the breathing apparatus. We all know that stomach dosing is useless, and this departure in the mode of treatment is an advance in medical science that everybody can appreciate and value. Complete outfit of Catarrhazone, which is guaranteed to cure any case of catarrh, asthma, bronchitis or throat troubles, lasts three months. Price \$1; smaller size, 50¢; trial size, 25¢; sold everywhere.

MAIL REQUIRES THREE SECRETARIES

Mary Miles Minter, Star at Variety, Has Vast Correspondence

Every girl loves to get a letter. Boys do, too, the soldier and sailor lads told us. And mothers and fathers like letters, especially when they come from children away from home. But it is Miss Sweet Sixteen who is supposed to watch for the postman with most eager eyes and palpitating heart, and to treasure her letters in the prettiest box and the most secret hiding-place she can find.

Imagine a girl not yet out of her teens, who sometimes gets as many as a thousand letters in one day, and who has received personal messages from more than 40,000 persons in this and other lands. The girl who thus presides over this little league of nations composed of men, women, boys and girls of many lands, beliefs and traditions, is Miss Mary Miles Minter, the winsome girl whose smile and curls were famous before she ever got into her teens.

Of course the little Realarl star cannot answer all these letters herself, but three secretaries are kept constantly busy doing it for her, for Mistress Mary is as polite as she is pretty, and while she cannot always furnish an autographed photograph of herself to everyone who writes to ask for one, nor yet buy an automobile or a motor boat for the really ambitious souvenir hunters who ask for such tokens from her, she can and does see that every correspondent receive a courteous answer. Forty thousand friends and the biggest salary ever paid to anyone of her age in the world, besides the prettiest curls imaginable—what more could any fair girl desire?

Miss Mary Miles Minter's second Realarl picture is "Judy of Rogues Harbor," from the widely read book by Grace Miller White, and will be seen at the Variety Theatre all this week.

NEW PLAY WANTS A TITLE SUGGESTED

Mildred Page Players to Appear in Four-Act Comedy; Prize For Name

The Mildred Page Players are presenting this week for the first time on any stage a four-act comedy drama, written by Miss Page's brother. The play has not been named as yet, and Victoria theatre-goers will have the privilege of giving the new play its title. Mr. Aldenn has arranged a contest into which each person witnessing the play may enter if he or she chooses. Those who see the play may select what they think would be an appropriate title and send it to the Princess Theatre, in care of Mr. Aldenn. Each title sent in will receive careful consideration, and the one chosen as the most appropriate will receive a cash prize of \$5.00 or a season's pass to the theatre.

The play is one of merit and has been accepted for a New York production. Who wants to be godfather for mother, as the case may be, to a play which next season we will find

holding the boards somewhere along the "Great White Way."

The many friends and admirers of Mr. Legge-Willis will be happy to know that he will adorn the cast of the new play, appearing in the delightful role of "Grumpy" Wilton, a lovable old frouch who minds everyone's business better than he does his own.

The vehicle affords splendid opportunities for all the players, and the ladies of the company will be seen in some stunning garments. Miss Page will be seen at her best in the part of the runaway bride.

Those who have seen the Mildred Page Players before will agree that they have never been seen to better advantage than in the new play. Those who come this week for the first time will most assuredly be coming again. Don't miss it—the play without a name.

"THE TOLL GATE" IS STIRRING STORY

Columbia Presents Bill Hart in Film by His Own Company

After all, there is no one like William S. Hart to portray a red-blooded "two-gun" role in a picture about the West of the olden, golden days. Such a photoplay is "The Toll Gate," which will be enjoyed by the audiences at the Columbia Theatre all this week.

It is the first of the pictures to be released by Paramount Arctcraft that were produced by William S. Hart's own company and under his personal supervision. Unquestionably it was among his best offerings.

Mr. Hart has the role of Black Deering, a slashing, hard-riding bandit chief. Betrayed by one of his own men, Deering is captured by U.S. troopers, but he manages to escape, and, with the sheriff's posse hot on his trail, finally reaches seclusion after many thrilling scenes. In a little clearing he comes upon the cabin of Mary Brown and learns that she is the deserted wife of the man who gave him up to the law. In the days that follow, influenced by her noble character, Deering surrenders to the sheriff. In a subsequent encounter he kills his betrayer, and for his good conduct on that and previous occasions is allowed his freedom, provided he keeps south of the Mexican border. Mary Brown loves him and wishes to accompany him, but Deering, mindful of his dishonorable past, feels he is unworthy and departs alone.

"The Toll Gate" was written by William S. Hart and Lambert Hillier, and the latter directed the picture. Anna Q. Nilsson is the leading woman, and a prominent member of the cast is Mr. Hart's remarkably intelligent pinto pony.

Truly "The Woman Gives" as You Shall See

The Woman Gives

The story is an adaptation of one of Owen Johnson's most successful novels

"Some women give—some women take. Woman is either the salvation or destruction of man." As long as it was right Inga Sonderson, the model, had the moral courage to do it. Her determination led to some thrilling experiences. When Inga posed for her artist lover all the world looked on in smiles. When she posed for her benefactor—Ah! that was another matter.

SHE FOLLOWED HIM

into the street of a thousand sorrows. Past heavily barred portals and their lynx-eyed custodians, to undergo an experience that has fallen to the lot of few living women. The dramatic intensity of these moments will linger long in your memory.

TORONTO, ONT.

Several Chinese actors, who have considerable fame on the Pacific Coast, appear in support of Earle Williams in his forthcoming Vitagraph production, "The Purple Cipher," which has just been completed at the West Coast studio. Among others are Frank Seki and Goro Kimo, who are considered at the head of their profession. "The Purple Cipher" has a decided Chinese atmosphere.

A MISFORTUNE.

An old lady noted for her exceptional gifts as a gossip was conversing with a member of the faculty of a near-by college, a man who is interested in matters sociological, when he chanced to observe, rather trivially, "After all, Mrs. Muggins, one-half of the world, you know, doesn't know how the other half lives." "Yes," said Mrs. Muggins, "and isn't it provoking?"—Harper's Magazine.

"DANDY DICK" TO BE AMATEURS' VEHICLE

"Dandy Dick," the popular sporting comedy, by Sir A. W. Pinero, which will be the performance produced by the Victoria Dramatic and Operatic Club, to-day and to-

morrow, at the Pantages Theatre, promises to uphold the high reputation enjoyed by the very able company formerly managed by Mr. Hincks.

The proceeds, which will go to the Building Fund of the Royal Jubilee Hospital, are expected to be large, not only because the play is being given for such a worthy object, which should be dear to all Victorians, but because a glance at the cast ensures that the performance will be of a very high order and that each mem-

ber of the audience will therefore receive his full money's worth.

The cast is made as follows: Major and Mrs. Frideaux, Mr. Herbert Kent, Mr. Stewart Clark and Mr. Norman Buckle. In addition to Mrs. Frideaux, the ladies of the cast comprise Miss Mabel Hickman, Miss Gubbin Butler and Miss Bobbie Stephens.

The fact that the Kiwanis Club is backing the enterprise, ensures that it will receive full encouragement and Bumper Houses are expected

The curtain will go up at 8.30 sharp and it is hoped that the audience will be in their seats by then, in order not to interfere with the performance.

Antonio Moreno and his supporting company, filming his Vitagraph serial "The Veiled Mystery," are spending three weeks at Truckee, California, making snow and mountain scenes for the eighth episode. The location is one of the most beautiful in California.

MANY INDUSTRIES ASSISTED BY B. C. INDUSTRIAL LOANS

Projects Range From Doll Manufacture to Commercial Fishing

New industrial loans granted to projects of an extremely varied character recently have been granted by the B.C. Department of Industries and were announced to-day by Industrial Commissioner Major Martyn.

John Arnot and Sons, woodworkers, Vancouver, have been granted a loan of \$2,500. This firm gives employment to twelve persons and has a plant, the estimated value of which is \$15,000. It manufactures general woodworking lines.

The Pacific Crating and Manufacturing Company, with a plant at Sidney Island, employ thirty-three persons. It has been granted a loan of \$10,000. This company manufactures boxes and crating for the American market and intends to turn out one carload a day.

A loan of \$1,500 has been granted the Dominion Woodworkers Company, of Vancouver, which manufactures poultry equipment, ladders, cabinets, wheelbarrows and other lines of general woodwork.

Another woodworking plant to which a loan has been granted is T. H. Waters and Company, of Nelson, which is being assisted to the extent of \$15,000. Dr. W. O. Rose, M.P.P., for Nelson, is interested in the project.

G. H. Waller, a returned soldier, of Vancouver, has been granted a loan of \$2,000 to install a small factory for the manufacture of furniture. H. L. Johnson, of Quadra Street, Victoria, has been granted a loan of \$300 for similar purposes.

Sawmill Projects.

A number of loans have been granted to sawmill and shingle mill projects at different points throughout the Province. The Roddis Shingle Company, of Squawitis Island, Fraser River, has been granted a loan of \$5,000, while \$7,000 has been loaned the Alberni Shingle Company, of Alberni, a concern composed of returned men. Two re-

turned men in the Merville district have been assisted to the extent of \$6,500 for the purpose of installing a sawmill to cut lumber for the Land Settlement Board. Messrs. Hope-Herd and S. McLeod, of the same district, have been loaned \$1,000 to put in a saw-shingle mill at this point also. To assist them in installing a shingle mill in the Steel Head, Valley, Mission, Colonel Reynolds and Captain L. V. Cootie have been loaned \$10,000.

In addition to previous loans granted, the Department has assisted, by a loan of \$25,000, the N. M. and R. Fish Company, of Prince Rupert, which will employ twenty-four returned soldiers. The B.C. Coast Fisheries of New Westminster has been granted a loan of \$15,000 to assist the company in putting in cold storage and smoke houses. The concern intends to erect a collecting station for supplying markets at Vancouver and New Westminster, Eastern Canada and the United States.

The Thomas and Julian Company, which has been granted a loan of \$12,500, has taken over the old Sechart Whaling plant at Barclay Sound and intends to operate it in the herring business.

Help Fishing.

In granting assistance to fishing industries, the Department has insisted that the men forming the company be thoroughly experienced in the business.

A loan of \$2,000 has been granted the Kerr Manufacturing Company, of Vancouver, which will manufacture men's neckwear. This company already has achieved notable success and has been able to make several repayments to the Department on account.

P. E. George, of Highview Avenue, Victoria, has been loaned \$2,000 to commence the manufacture of phonographs. He already has made thirty machines which have been sold in the city.

Of advantage not only to the backers of the company, but to the whole sawmill industry of British Columbia, is a \$15,000 loan which has been granted the Aetna Saw Works, Ltd., of Vancouver. This company has succeeded most satisfactorily since starting operations early in the year.

To assist it in manufacturing cut-to-fit buildings in Vancouver, the Great West Manufacturing Company has been loaned \$15,000.

The Pacific Guano Company, composed principally of returned men, has been granted a loan of \$5,000 to assist it in the manufacture of oil and fertilizer from fish waste at a plant at Barnet.

First Woolen Mill.

The first woolen mill in western Canada, that operated by the Canadian Western Woolen Mills, Ltd., at Vancouver, has been loaned \$50,000, to assist it in putting in additional machinery and equipment and in the operation of a five-loom woolen mill. The company will employ about fifty people.

The Stettler Clear Company, Ltd., has been granted a loan of \$25,000 to enable it to carry a stock of British Columbia tobacco in the process of maturing. This company employs 110 to 120 people and has a weekly payroll in excess of \$2,500. It is originally operated at Stettler, Alberta, but is now located in Vancouver.

The Ceramic Industries, Ltd., has been granted a loan of \$15,000 to commence manufacture of ceramic products on Industrial Island, Vancouver. The plant represents an investment of about \$60,000.

To assist in the manufacture of automobile accessories, the Heaton Machine Works, of Vancouver, has

been loaned \$5,000. The company's plant represents an investment of \$120,000.

The Merritt Industries, Ltd., composed of prominent citizens of Merritt, has been loaned \$7,500 to assist in the establishment of an industrial area in Merritt.

Automobile Signs.

John R. Tacey & Sons, of Vancouver, has been assisted to the extent of \$15,000 in the manufacture of automobile signs, name plates and similar products. The company manufactures all the automobile signs for this Province and is negotiating for contracts for Alberta and Saskatchewan.

The Standard Shoe Manufacturing Company, of Vancouver, has been loaned \$15,000 to assist it to commence the manufacture of boots and shoes.

Dolls of a very high quality are being manufactured by the Canada Dolls, Ltd., of Vancouver, a concern which has been granted a loan of \$7,500. The company also is manufacturing a fine line of novelties.

Sand Paper Here.

A local concern, backed by a number of well known Victorians, the Canadian Abrasive Paper Company, Ltd., has been loaned \$22,000 to assist in the manufacture of sand paper in the city. The company is capitalized at \$100,000 and plans an initial expenditure on plant and machinery of \$50,000.

To date, the Advisory Council to the Industrial Commissioner has recommended loans totalling \$1,393,063.

VICTORIA BOYS SCOUTS' ASSOCIATION

Patron—His Majesty the King.
Patron for British Columbia—His Honor the Lieutenant-Governor.

Troops and Packs.

Third Troop—Headquarters, Wil-
lows Camp. Acting Scoutmaster, R. A. Wootton. Meets every Friday at 7.30. Now in camp.

Collegiate Troop and Pack—Scout-
master, G. H. Scarlett. Now on holiday.

St. Aidan's Troop and Pack—
Scoutmaster, P. H. Hughes. Now on holiday.

First Presbyterian Pack—Mr. Au-
bone Hoyle in charge. Owing to so many boys being away in camp and on visits, there are not many boys at present in attendance at the weekly meetings. Thirty boys are on the strength of this pack, and after the holidays it is hoped to double this number. Meets every Friday at 7.30 p.m. in First Presbyterian Church Schoolroom.

Hillside (Centennial) Troop and Pack—Scoutmaster, A. Brown; as-
sistant, F. W. Ansett. Meets in future, every Friday at 7 p.m. in Centennial Church. Twenty-three boys are enrolled. After the holidays this number will be greatly augmented. During the week a well-attended meeting was held by the parents of the boys. Mr. W. C. Mooney, Chairman of the Executive Committee, was in the chair, and an excellent Committee of Management was elected. There is no doubt but that this troop and pack will be a wonderful force in the near future among the boys in this district, where such a movement for the boys has been so badly needed.

Oak Bay (Gonzales) Troop—Scout-
master, Seymour deP. Greene; Asst. Lieut. W. A. Greene, instructor in

wireless work. Meets every Saturday at 2 p.m.; Friday at 7 p.m. Grant Taylor has qualified for gardener's badge. George Edwardson and W. A. Mooney—for Missions—stick nursing, and W. Oliver, Leslie Carven, Leonard Heming and Fred Rogers have qualified for second-class scouts. George Edwardson has also qualified for healthman.

Oak Bay Pack—Headquarters same as troop. Meets every Friday at 7 p.m. Ralph Davis has qualified for collector's badge. The other sixers who are two star cub Scouts are now anxious to obtain badges likewise.

Gonzales Pack—Headquarters same as Oak Bay Pack. Meets every Thursday at 8.30 p.m.; Saturday at 2 p.m. All the cubs of both packs are looking forward to their camp.

Fairfield, Christ Church Troops and Pack—Headquarters, Cathedral Schoolroom, Quadra Street. Scoutmaster, G. Frampton. A. S. M., A. W. Gill. Meets every Thursday at 4.15 and 7.30 p.m. Pack is growing very fast, over sixty boys being now enrolled.

Notes.

Over 407 boys are now enrolled in Victoria in the troops and packs. When school will commence it is hoped this number will be greatly augmented. This will depend upon old scouts and others coming forward and volunteering to help.

James Bay Troop—Headquarters, corner Simcoe and Douglas Streets. Meets every Thursday at 7.30 p.m. The troop has now resumed meetings after the summer camp, and will spend the next few weeks getting everything into shape for the Fall and Winter programme. There are several vacancies for recruits who must be twelve years old or over, and must be keen. Boys who want to belong to an organization which will give them the advantages of good comrades, team games, camping, and useful knowledge of First Aid, cannot do better than join this troop of Boy Scouts. Only a limited number of recruits can be taken at the present time, as it is not intended to take on more boys than the instructional staff can conveniently handle. Uniform must be provided by the boy, and membership fee is 15c per month. Applications may be made any Thursday evening.

James Bay Wolf Cub Pack—Head-
quarters same as troop. Meets every Friday at 7.00 p.m.

Thanks to the publicity given to our appeal for officers for this pack, last week, the number of boys secured, it is hoped that now the case has been put up to young men to give a little of their time for the benefit of their younger brothers that one or two more will come forward and give their services. As soon as the rudiments of the Scout Movement have been mastered and a little experience in the handling of boys gained, the work becomes a most fascinating hobby. Cub Guy Walker has now past his first star test.

Maclean Troop—Meets Fridays, 7.30 p.m., at 401 Esquimalt Road. Wolf Cub Pack, Thursdays, 7 p.m. Scoutmasters, P. A. Trowsdale and A. MacArthur. As most of this troop will be in camp next week, the remainder will meet under their patrol leaders and sixers.

Patrol leader in charge of head-
quarters, M. MacConnell.

SWIMMER RESCUED AT PROSPECT LAKE

A young woman had a narrow escape from drowning at Prospect Lake yesterday afternoon when she swam a short distance from a large group of bathers disporting themselves at the bathing beach, and found her feet entangled in reeds and caught in oozy mud.

Immediately upon realizing her danger she cried for help, and a couple of boats and two strong swimmers hastened across and rescued her. After some restorative measures she was able to proceed home.

Though campers and picnickers have frequented Prospect Lake for years there is no record of a drowning having occurred there.

CURIOS.

A curious man is Oscar Quirk. He really thinks he's here to work.

THE DREAD PYORRHEA BEGINS WITH BLEEDING GUMS

Pyorrhea's infecting germs cause many ills. Medical science has proven this. Diseased conditions, which not long ago doctors were unable to trace to a cause, are now known often to be the result of Pyorrhea germs that breed in pockets about the teeth. Rheumatism, anaemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhea infection.

Don't let Pyorrhea work its wicked will on your body. Visit your dentist frequently for tooth and gum inspection.

And watch your gums yourself. Pyorrhea, which afflicts four out of five people over forty, begins with tender and bleeding gums; then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of poisons generated at their base.

Forhan's For the Gums will prevent Pyorrhea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has set in, use Forhan's according to directions and consult a dentist immediately for special treatment.

35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

The Heart of a Child

From the Novel By Frank Daney

THE PLOT

Sally Snape, a girl born in Limehouse, the slums of London, is endowed with a native talent for dancing, but is orphaned and forced to earn her livelihood in a factory. Later her beauty attracts attention, and, by an odd chain of circumstances, Sally becomes a model in a fashionable modiste's shop. There she meets Lord Kidderminster, who, attracted by her face and her winsomeness, helps finance a revue in which Sally holds the principal role. The girl proves a hit. Lord Kidderminster falls in love with her, but Lady Dorothea Lytham, who wishes him for herself, manages to compromise Sally and turn Kidderminster's family against her. Sally's personality comes to the fore again and wins over the irate family, leaving the way clear to marry Kidderminster.

**BUBBLE PROCESS
ADDS BILLIONS TO
WORLD'S WEALTH**

Fortunes Extracted by New Treatment of Low-grade Canadian Ores

Billions are being added to the world's wealth by the forces at work in the soap bubble. The flotation method of mineral separation, by which every day in the year fortunes are literally extracted from froth, is now experiencing so powerful an influence on mining operations in Canada and other countries and is making it possible to use low-grade ores that formerly were unprofitable to work.

Gives New Meaning to Bubbles.

The process of ore concentration has always been considered important in mining engineering schools and the flotation process is a leading factor of laboratory practice at Columbia University where the ore dressing laboratory is now undergoing considerable expansion.

The advent of flotation has worked a revolution in mining methods. The word "bubble" used in connection with mining properties formerly referred to a kind of financial management which could hardly be tolerated in these dry and sober days, but in the last few years bubbles have taken on a new and more important significance for the larger part of the mining industry. The most important problem of the mining engineers is usually how to concentrate the mineral in low-grade ore to such an extent that the working of the ore will be profitable. A process has been developed which applies particularly to all sulphide ores, and these include most of the copper, zinc and lead ores, in which the ores may be beautifully concentrated by the action of fine bubbles of air attaching themselves to the particles of mineral, finely ground and mixed with water.

Separate Sand and Froth.

The bubbles with the sulphide mineral then rise to the top as a thick froth, while the sand and other worthless material sink to the bottom of the vessel. This flotation process has not only made much more profitable the working of the better grade of copper, zinc and lead ore, but has also made very profitable the working of ores which previously could not have been handled without actual loss.

The whole secret of the bubbles of air gathering up the mineral particles and leaving the sand depends upon treating the finely crushed ore in water with one of various chemical substances, among them oleic acid and pine oil. Only a very small amount of the oil is necessary, less than one per cent. by weight of the amount of mineral that is there.

After the proper reagent has been added to the water and the finely crushed ore, air is introduced into it either by heating it in with a stirrer or by forcing it in through fine pores in the bottom of the vessel, or any way in which to bring fine bubbles of the air into intimate contact with the fine particles of the ore. This separation is marvellously complete, the mineral going to the top in bubbles, forming a thick froth, which is collected by suitable arrangements, while the sand and other gangue material settles quite clean of any valuable mineral to the bottom of the vessel.

Of course, the process is made to run continuously, and in some mills as much as 4,000 tons of mineral in froth is separated each day. Altogether in 1918 there were 60,000,000 tons of ore treated by the flotation process.

Copper's Future Depends on Bubbles.

It may truly be said that the future of copper production, and therefore of the electrical industry, is very largely dependent on the same forces that are at work in the soap bubble.

The demand for specialists in ore dressing with expert knowledge of the design and operation of the bewildering array of machinery now employed has become so insistent that school curricula must be altered to offer the necessary preparator courses.

Ore dressing is an indispensable link between mining and metallurgy in present-day practice in the extraction of metals from the earth. It consists in non-chemical concentration of the valuable part of an ore into a bulk much smaller than that of the original ore, and at the same time rejection as waste of the worthless portion.

Until about fifteen years ago most mills were small as compared with present-day standards and the ores were relatively high grade. The ore treatment problem was a simple one and as a result the technical as well as the executive direction of the ore dressing plant could be and was incidental to the direction of the mine or smelter in connection with which the concentrator was built.

The services of a specialist in concentration were considered unnecessary. With the development of the large, low-grade, disseminated copper deposits, the importance of ore dressing took a sudden jump. The deposits contain only from twenty to forty pounds of copper per ton of ore. The ore bodies as originally discovered contained from 20,000,000 to 10,000,000 tons each of such ore. For economical working of such deposits elaborate concentrating plants, capable of handling from 5,000 to 40,000 tons of ore per day are necessary.

Adler-i-ka Again!

"After using Adler-i-ka I am entirely cured of chronic bowel trouble. I can eat good and work every day. My neighbor is also using it with wonderful results." (Signed) Mrs. T. H. Smith.

Adler-i-ka flushes BOTH upper and lower bowel so completely it relieves ANY CASE gas on the stomach or sour stomach. Removes a surprising amount of foul, decaying matter from the alimentary canal (which poisoned stomach for months). Often CURES constipation. Prevents appendicitis. The INSTANT pleasant action of Adler-i-ka astonishes both doctors and patients. It is a mixture of buckthorn, cascarilla, glycerine and nine other simple ingredients. Sold by Hall & Co., Druggists, 702 Yates Street. Sold in Equimat at Lang's Drug Store.

Goodyear Service Plan Reduces Total Tire Sales, But Increases Goodyear Sales

How Far Does Your Car "Drag" its Tires in Every Mile?

That's another way of asking if your wheels are properly aligned, if your brakes are perfectly round and true on both wheels.

And it is just a hint of how serious is this matter of dragging or sliding tires. A wheel out of line constantly drags its tire.

If badly out of line a hundred miles of such driving may strip a tire of its whole tread. If only slightly out of line, the mileage is still reduced by a considerable percentage.

Knowing the many things that Goodyear is doing to conserve tires—knowing of the nation-wide system of Goodyear Service Stations—you understand why Goodyear has not neglected wheel alignment and brakes.

Goodyear Service Stations, impressed with the seriousness of alignment, will gladly test your wheels and brakes.

THE same Goodyear policy which induces tire dealers to save a tire rather than sell a new one at the moment is responsible also for all we do to keep down tire cost-per-mile. It is this policy that has impelled us to help motorists avoid or cure wheels out of line, tread cuts, stone bruises, under-inflation, scraped side-walls and other tire injuries.

This policy of Saving Tires brings such generous returns in mileage that Goodyear cost-per-mile is lower than that of tires which sacrifice quality and service to price or "extra discount."

This fact is so widely known that motorists buy more Goodyear Tires than any other make in the world.

The Goodyear Tire & Rubber Company of Canada, Limited

All-Weather Tires are All-Wheel Tires

ONE PERFORMANCE ONLY

The country fair was in full swing. Airguns cracked, showmen bellowed and sweetstuff vendors cried their wares. Apparently one of the chief sights

of the show was a portable stable, outside which stood a man attired as a groom, waving his arms about excitedly.

"Here you are, gentlemen!" he howled. "One of the greatest wonders of this or any other age. Walk

up and see the great freak of Nature! Only three pence to see a horse, living with his tail where his head ought to be!"

This harangue brought up a large number of open-mouthed yokels, who cheerfully paid their money, and pro-

ceeded into the interior of the stable. Imagine their surprise on seeing a horse placidly contemplating them with his tail tied to the manger.

The enterprising showman only gave one exhibition!—Tit-Bits.

WHAT IS HE?

"Last year I asked my best girl to become my wife, and she said 'No!' But I got even with her. I married her mother. Then my father married the girl. Now I don't know what I am."

"When I married the girl's mother the girl became my daughter, and when father married my daughter, she was my mother. Who the dickens am I? My mother's mother (which is my wife) must be my grandmother, and I being my grandmother's hus-

band, I am my own grandfather!"—Tit-Bits.
Anyhow the bridegroom has the consolation of knowing that nobody ever succeeded in having a wedding without him.

CO. P. I. CANNOT FIND MEN TO WORK Vice-President Says Betterments Held Up By Labor Shortage. F. W. Peters is to be senior officer of the C. P. R. on the Coast, in succession to the late Richard Marpole, according to an announcement made by D. C. Coleman, vice-president of the railway. Mr. Coleman was in Victoria yesterday holidaying. Early to-day, accompanied by local railway officials, he went up the island on a special train over the Esquimalt & Nanaimo Railway, of which he is president. The party expects to cover the whole E. & N. system and inspect the extension under construction to Grand Central Lake. Mr. Coleman said: "During the illness of the late Mr. Marpole the company found it necessary for the administration of its lands and townships in British Columbia to constitute an advisory committee, which committee the land and townships agents could report to." "This committee, which is composed of three of the company's officers, will be continued and will exercise full authority in all matters relating to the lands and townships of the Canadian Pacific and subsidiary companies. Same E. & N. Control. The Esquimalt & Nanaimo Railway will continue to be operated under the direction of H. E. Bensley, of Victoria, who will report directly to myself as president of that company. "The company feels that it has in F. W. Peters, our senior officer at the coast, one in whom the public have the greatest confidence. His connection with British Columbia is not quite as long as was that of Mr. Marpole at the time of his death, but he has spent considerable years here of the most interesting period of the history of the Province, and has always placed himself freely at the disposal of the local community for the promotion of any worthy cause. Need Immigrants. Discussing the labor situation, Mr. Coleman said: "Conditions continue discouraging. Railway companies and contractors are unable to secure sufficient men to complete important branch line construction work on the prairies and in British Columbia. Betterments work carried over from war years has to be postponed or curtailed on account of the shortage of men who are willing to attempt out-of-door work. "Those who are jealous of the immigration of hardy men capable of this kind of work will have to suggest some other remedy for this condition of affairs, which can not be remedied while several out-of-door men are in the country. Fears Coal Trouble. In regard to the fuel situation in the Dominion Mr. Coleman said: "The failure of the mines in Pennsylvania to furnish eastern Canada, and Manitoba, with a normal quantity of anthracite and bituminous coal, which failure is said to be due to transportation and labor difficulties, is causing the gravest concern, and may throw exceptional strain in the Autumn and early Winter on the mines in Alberta and British Columbia, and incidentally on the transportation companies at a time when the usual movement of grain, livestock, fruit, lumber and other commodities will be straining their facilities to the utmost. "Those who are jealous of the immigration of hardy men capable of this kind of work will have to suggest some other remedy for this condition of affairs, which can not be remedied while several out-of-door men are in the country. Fears Coal Trouble. COX SLIPS AWAY TO PRAY AT HIS MOTHER'S GRAVE. "Owe All to Her," Says Democratic Candidate in Hour of Triumph. The Philadelphia Public Ledger, in a special dispatch from Dayton, tells how Governor Cox received the news of his triumph at the Democratic Convention, at San Francisco. Dayton, Ohio, July 18.—Governor Cox pulled a pipe out of his pocket just as dawn was breaking through the windows of his newspaper plant here, where he had stayed all night, and said to the faithful who surrounded him: "Boys, before it goes further, I'd like to tell you a little story about my mother." The eager crowd around him put themselves in a listening attitude but before the governor got the pipe going the telegraph began to click. "Cox, 567," it said, giving the result of the forty-third ballot. "Looks as if we'd won," said the governor lamely. "But here goes for the story anyhow. It was way back in 1855 at Grover Cleveland's reception in the White House when I was twenty-five. My mother and father had gone there, and when mother was presented to the President she said, as Cleveland shook hands with her, 'Mr. Cleveland, I have a boy at home who'll pull a pipe out of his pocket like you now.'" Then Cox told about his mother and all he owed to her. He hadn't finished when word came that the forty-fourth ballot and his triumph at San Francisco. "Well, it looks as if mother was a prophet," was all the governor could say before those around him seized him and lifted him on their shoulders. "They bore him into the front office where his wife, with several of her friends, had been waiting all night for the news. Mrs. Cox ran forward and fairly caught the husky candidate in her arms as his friends released him. "Cox couldn't speak. His eyes were filled with tears. His wife's eyes also told her emotion as she kissed him over the top of his head. Then her friends also seized him, and while the men about him cheered and cheered, the women shed tears of joy. While this little scene was going on Cox's newspaper got out an extra, and in a minute the crowd that had waited all night knew all about the news. Instantly they broke out and Cox went to the window. He spoke only a few words, and then he went to go among his employees in the office. He thanked every one of them for what they had done for him. Then he called for his automobile, and taking a few friends with him, drove to the house of his oldest friend and counselor, John McMahon, a lawyer, who recently celebrated his eighty-seventh birthday. "I wanted to tell you first, John," said the governor to the old man, whose life wish was to see "Jimmy" Cox lead the Democratic party. "After a few minutes with the aged lawyer Cox went home for a rest, but his mother's prophecy was on his mind. He rested only a few hours, and then went to the grave in Woodlawn Cemetery, where she is buried. There he prayed half an hour. "All that I'll ever wish to be due to my mother," he said to those with him. IT WORKED. "And you broke off the engagement," said one young man. "Yes, not brutally, you know. But I must get it." "How?" "Told her what my salary is."—Pearson's Weekly.

COX SLIPS AWAY TO PRAY AT HIS MOTHER'S GRAVE. "Owe All to Her," Says Democratic Candidate in Hour of Triumph. The Philadelphia Public Ledger, in a special dispatch from Dayton, tells how Governor Cox received the news of his triumph at the Democratic Convention, at San Francisco. Dayton, Ohio, July 18.—Governor Cox pulled a pipe out of his pocket just as dawn was breaking through the windows of his newspaper plant here, where he had stayed all night, and said to the faithful who surrounded him: "Boys, before it goes further, I'd like to tell you a little story about my mother." The eager crowd around him put themselves in a listening attitude but before the governor got the pipe going the telegraph began to click. "Cox, 567," it said, giving the result of the forty-third ballot. "Looks as if we'd won," said the governor lamely. "But here goes for the story anyhow. It was way back in 1855 at Grover Cleveland's reception in the White House when I was twenty-five. My mother and father had gone there, and when mother was presented to the President she said, as Cleveland shook hands with her, 'Mr. Cleveland, I have a boy at home who'll pull a pipe out of his pocket like you now.'" Then Cox told about his mother and all he owed to her. He hadn't finished when word came that the forty-fourth ballot and his triumph at San Francisco. "Well, it looks as if mother was a prophet," was all the governor could say before those around him seized him and lifted him on their shoulders. "They bore him into the front office where his wife, with several of her friends, had been waiting all night for the news. Mrs. Cox ran forward and fairly caught the husky candidate in her arms as his friends released him. "Cox couldn't speak. His eyes were filled with tears. His wife's eyes also told her emotion as she kissed him over the top of his head. Then her friends also seized him, and while the men about him cheered and cheered, the women shed tears of joy. While this little scene was going on Cox's newspaper got out an extra, and in a minute the crowd that had waited all night knew all about the news. Instantly they broke out and Cox went to the window. He spoke only a few words, and then he went to go among his employees in the office. He thanked every one of them for what they had done for him. Then he called for his automobile, and taking a few friends with him, drove to the house of his oldest friend and counselor, John McMahon, a lawyer, who recently celebrated his eighty-seventh birthday. "I wanted to tell you first, John," said the governor to the old man, whose life wish was to see "Jimmy" Cox lead the Democratic party. "After a few minutes with the aged lawyer Cox went home for a rest, but his mother's prophecy was on his mind. He rested only a few hours, and then went to the grave in Woodlawn Cemetery, where she is buried. There he prayed half an hour. "All that I'll ever wish to be due to my mother," he said to those with him. IT WORKED. "And you broke off the engagement," said one young man. "Yes, not brutally, you know. But I must get it." "How?" "Told her what my salary is."—Pearson's Weekly.

A. O. U. W. Picnic Wednesday to Telegraph Bay. Tally-ho's leave corner Blanshard and Johnson, 1.30, 50 cents.

NICOMEN FARMERS LOSING HEAVILY

Four-fifths of Island Under Water; Condition of Fraser

Nicomen Island, July 19.—Four-fifths of the entire area of this island is under water, varying in depth from a few inches at points where the flood is lapping the slough dyke road and the top of the Nicomen dyke proper, to five and six feet. Close upon 4,000 acres of pasture, hay and crop are inundated, and the entire crop ruined. The direct loss to crops alone is estimated at \$100,000. The indirect loss will swell the total to many times that amount.

New Westminster, July 19.—At Mission the Fraser is down one inch, leaving the level about twenty-one feet. At Sumas Prairie the river is still being held in bounds, but the concrete wall built by the Government last Autumn is very weak, and the farmers are constantly watching the dyke, armed with sandbags and other equipment.

At South Westminster the bridge approach of the detour on the Pacific Highway is about a foot under water, but there is otherwise nothing unusual.

RAILROAD WAGE AWARD IN STATES

Chicago, July 19.—If reports regarding railroad brotherhood leaders regarding the wage award to be handed down to-morrow by the Railway Labor Board are correct, the decision will be unacceptable and will be rejected, union leaders declared to-day.

WAS DROWNED

Revelstoke, July 19.—While running a foot race with fellow picnicers S. B. Koller, a trainman lost his balance, fell into the Columbia River and was drowned Sunday evening, five miles from here.

BLACK RUST REPORTS CAUSE SHORT-COVERING

(By Burdick Brothers, Ltd.)
Chicago, July 19.—On fresh reports of black rust the market advanced this morning shortly after the opening. Wheat was quite active, advancing 1 1/2 cents from the low of the day for the December option. Corn also had a rise of from three to five cents from the low of the day. Oats also were quite active and higher prices were quoted.

HEADQUARTERS OF BUREAU RETURNS TO VICTORIA THIS WEEK

Central Clearing House and Headquarters of Employment to Be Re-opened

J. D. McNiven, Deputy Minister of Labor, told The Times this morning that some sections of the Provincial Employment Bureau are to be brought back from Vancouver to Victoria this week. Lieut.-Col. A. Bruce Powley, General Superintendent of the Bureau, with his staff, will move his headquarters to this city, as will the Provincial Clearing House, also under the administration of Lieut.-Col. Bruce Powley. The change is to take effect this week, and the new offices will be opened by the latter part of the week. The reason given for the change of headquarters is that the Clearing House and the staff of the Bureau will be more closely in touch with the Hon. J. W. de B. Faria, Attorney-General and Minister of Labor, Work of Bureau.

Speaking on the work of the Bureau for the past eighteen months, Lieut.-Col. Bruce Powley said: "We have searched in various parts of the Province, all of which work together. The service we are giving is being more appreciated daily and is expanding greatly. The figures for the year 1919 show that out of about 53,000 applications, we were able to place 35,776, of whom 17,122 were returned soldiers. During the six months up to June 30 of this year, we had received 44,643 applications and have placed 34,646, of which 11,694 were returned soldiers. In other words, we have placed about the same number during the last six months as in the previous year.

"During the six months we received employees' orders for 37,750 and were able to fill them to the extent of 34,646, which I think you will admit is a pretty good showing. The principal forms of employment provided are in connection with railway construction, lumbering, mining and farming, with a very large percentage of skilled craftsmen. In fact, the Vancouver office deals almost altogether with this class of labor."

Aid Disabled Men.
"We pay special attention to placing men who happen to be handicapped by injuries received through accidents in industrial plants or war disabilities and have had marked success in our efforts. In the event of not being able to place a man here we try and place him through one of our branches."

"We have applications here from men coming from all parts of the world, and accustomed to all kinds of curious special employments. Many of them have only worked at one particular machine, for instance, and it is up to us to find out where, if possible, his experience can be utilized."

Among other applications were tea planters, tea tasters, rubber tree planters, instrument makers, soil experts, etc., coming from the West Indies, Borneo, Straits Settlements, Ceylon and all sorts of out of the way points. If nothing can be done with them in this Province, their applications are forwarded to points in Great Britain or the United States, where openings may be found.

"Our principal aim," said Col. Powley, "is to fill industrial wants in this Province. We try to find or adapt the men to the vacancies."

"What was the result of the food?" asked the Sunday School teacher.
"Mud!" replied the bright youngster.
