Mine Sank Greek Vessel and Many On Board Perish

Bouboulina Struck Weapon and Foundered in Aegean Sea; Passengers and Crew Numbered 265; Two Survivors Landed.

Athens, June 10.—(Reuter's)—Many lives are believed to have been lost in the sinking of the Greek steamship Bouboulina, which struck a mine and foundered in the Aegean Sea. The Greek battleship Lemnos has arrived at Piraeus from Smyrna with two passengers who had been picked up. Details of the disaster are lacking.

Paris, June 10.—The mail packet Bouboulina, which has been sunk in the Aegean, had 240 passengers on board, besides a crew of 25, says an Athens dispatch to the Radio Agency.

The Bouboulina was formerly the steamship Coronilla. She was built at Newcastle, England, in 1878 and was owned by J. G. Bouboulina of Spezia. She was 258 feet long and had a beam of 32 feet. Her registered tonnage was 1312.

Lloyd George Ministry Gets Setbacks at Polls

London, June 10.—The Lloyd George Government yesterday suffered its second bad defeat at a by-election in a week. On Tuesday the St. George's Division of Westminster, supposedly the most conservative seat in England, returned J. M. Erskine, "Anti-Waste" candidate, over the Government nominee, and yesterday the Heywood and Radcliffe Division of Lancashire which elected Postmaster-General Lord Illingworth in 1918 with 7,428 majority, gave Walter Halls, Labor candidate, 305 plurality over the Coalition Liberal nominee.

These two defeats come hard on the heels of a series of announcements and reversals of policy which shows conclusively in what a tight corner the Government is finding itself. First there was an outburst of popular indignation over the suggestion that members of Parliament should receive their £400 salary free of income tax and with first-class passes on railroad trains. Anger was based mainly at the moment at which these concessions were proposed. It was declared scandalous that legislators should vote themselves free from the burdens they were laying on their fellow-citizens at a time when all men were wondering how to face the tax collector. The Government bowed before the storm and shuffled off its responsibility by leaving the decision on the suggestion to the unfettered will of the House of Commons.

Deer Postage. The Postmaster General announced a postal rate increase in the postal rate and stirred up the intense indignation of influential sections of the business community. The Minister informed the House that the unemployment benefit scheme was almost bankrupt and could be kept going only by higher payments and a further increase. The Minister of Agriculture then announced the scrapping of the elaborate system of subsidies to farmers put into operation only last year, a reduction in agricultural wages being in prospect as a result of the change.

Misgivings. Never, perhaps, has the Government been forced to before Parliament in such a short period of time so thoroughly an unpopular series of proposals. Consequently its loss of these two "safe" seats comes with little surprise to the political prophets. It is the natural result, they hold, of the deep misgivings with which the nation in general is regarding the economic and industrial crisis through which it is passing, and was all the more inevitable because of the extraordinary political apathy that prevails. The significance of these defeats may easily be exaggerated. Erskine stood in Westminster on the anti-waste side and all sorts of taxpayers, especially women, voted for him as the only way to protest.

Completed a two-day business session in Vancouver to-night, over two hundred members of the Canadian Weekly Newspaper Association will leave to-morrow morning for Victoria, arriving here in the late afternoon. One hundred and sixty of the visitors are from points east of Winnipeg and they have traveled across the continent over the Canadian National Railway. From Winnipeg and points west the delegates traveled by the regular C. N. R. and C. P. R. trains. The party from the East, many of whom are visiting the West for the first time, were delighted with the wonderful scenery encountered during the service of the C. N. R., which furnished a special train for the party's convenience, and the welcome they received at the stations where they stayed off en route.

Look For Friends. Old friends from "Down East" will be through the dock to-morrow to greet the visitors, who have expressed a wish to meet here those who formerly resided in the various eastern cities which the editors represent. Though a new organization, in existence only twenty months, the visitors represent one of the most influential associations in Canada. The publicity that the West will receive as a result of the trip will prove very valuable, and the visit will go a long way toward holding up a better acquaintance and more loyal co-operation between the East and West. The association arises out of a division into weekly and daily sections of the Canadian Press Association and comprises representatives from Sydney, Nova Scotia, to Sidney, Vancouver Island.

Now is the supreme opportunity for the progressive forces to unite in constructive action and so present to the nation a clear alternative choice. The News says: "It would be an irreparable mistake if through the hindering of the divided opposition, a Tory dominated coalition were to be returned or a minority vote with another free ticket to national disaster. Such a chance to restore the credit of the Parliament in the sight of the nation might never come again." (Concluded on page 11.)

MURDER CHARGE IN VANCOUVER

Two Men Arrested in Salsbury Case Verdict of Murder in Tacoma Court

Vancouver, June 10.—Alex Paulson and Alan Robinson have been arrested here charged with the murder of William F. Salsbury, who was shot to death on the night of April 13 while on his way home.

Tacoma Case. Tacoma, June 10.—Edward Filion, a Camp Lewis soldier, was at noon found guilty of murder in the first degree for the killing of Karl Timbs, a tactical driver, at Tacoma. The jury voted not to hang the defendant.

KRASSIN EXPECTED TO VISIT CANADA

Arrival of Soviet Trade Agent Is Anticipated

New York, June 10.—(Canadian Press) Groups of men representing United States business interests have been in communication with Leonid Krassin, Soviet Minister of Trade and Commerce, and will travel to Canada to discuss trade matters with him, according to Major William Sweet, who has just returned to the United States after a business trip to the countries of Central Europe.

Following announcement yesterday that the Soviet Minister was expected at Halifax shortly, Major Sweet stated that although his visit would be confined to Canada, the real purpose behind it is an attempt to make arrangements with United States business men as a prelude to a proposed trade agreement between the United States and Soviet Russia.

Surprise. Ottawa, June 10.—Word that representatives of United States business interests are coming to Canada to confer with Leonid Krassin, Commissioner of Trade and Commerce in the Soviet Government of Russia, is received in official circles here with some surprise. There is, so far, no official intention to hand this Krassin as coming to Canada, but for some time there has been an expectation that he or some other representative of the Soviet Government would shortly pay a visit to the Dominion to renew the trade negotiations which were opened some months ago. Especially has this been the case since Krassin successfully negotiated a trade agreement with Premier Lloyd George.

There is not, nor has there been since the conclusion of the war, any impediment placed by the Canadian Government on trade with Russia. Any Canadian is free to enter into trade negotiations he may wish, but he has to do so at his own risk and at the chances of receiving payment.

KING'S DAUGHTERS' OFFICERS

Officers for the ensuing year were elected at the final session of the King's Daughters' convention held at the following: President, Miss Leitch; recording secretary, Mrs. Hardie; treasurer, Miss Henderson; literary secretary, Mrs. Morley; Mrs. McVicar, Vancouver; Mrs. Ross, Vancouver; Mrs. Duncan, Vancouver; Mrs. McVicar, Vancouver; Mrs. Ross, Vancouver; Mrs. Duncan, Vancouver.

CATTLE SHIPPED TO BRITAIN FROM CANADIAN FARMS

Ottawa, June 10.—Large shipments of Canadian cattle are being made to Great Britain. More than 1,256 head have been shipped from Montreal so far this week. Quotations on the London market for best Canadian cattle on June 7 were 13 1/2 cents a pound, with later advices showing a slight advance.

Weekly Press Party Arrive Here To-morrow

Completing a two-day business session in Vancouver to-night, over two hundred members of the Canadian Weekly Newspaper Association will leave to-morrow morning for Victoria, arriving here in the late afternoon. One hundred and sixty of the visitors are from points east of Winnipeg and they have traveled across the continent over the Canadian National Railway. From Winnipeg and points west the delegates traveled by the regular C. N. R. and C. P. R. trains. The party from the East, many of whom are visiting the West for the first time, were delighted with the wonderful scenery encountered during the service of the C. N. R., which furnished a special train for the party's convenience, and the welcome they received at the stations where they stayed off en route.

HAS VICTORY IN SASKATCHEWAN; PREMIER MARTIN

Regina, June 10.—Saskatchewan decided yesterday not to experiment with group government and returned to office for another term the administration headed by Hon. W. M. Martin, giving him a majority less sweeping than the one which followed his leadership during the term of the last Legislature, but sufficiently large to make him independent of all opposition groups.

Government supporters will number about forty-five in the Legislature of sixty-three when the three deferred elections have been held, in the view of political authorities.

Hon. George Langley, Minister of Municipal Affairs, was defeated in Redberry by George Cockburn, independent. This is now conceded. Cockburn has more than 250 majority with one poll to come.

Langley was the only Minister to meet defeat. It is thought he may be a candidate in one of the deferred elections.

LIBERALS RETURNED TO POWER IN SASKATCHEWAN

Regina, June 10.—Saskatchewan decided yesterday not to experiment with group government and returned to office for another term the administration headed by Hon. W. M. Martin, giving him a majority less sweeping than the one which followed his leadership during the term of the last Legislature, but sufficiently large to make him independent of all opposition groups.

Government supporters will number about forty-five in the Legislature of sixty-three when the three deferred elections have been held, in the view of political authorities.

Hon. George Langley, Minister of Municipal Affairs, was defeated in Redberry by George Cockburn, independent. This is now conceded. Cockburn has more than 250 majority with one poll to come.

Langley was the only Minister to meet defeat. It is thought he may be a candidate in one of the deferred elections.

Details of the result follow: Government, 45; Independents, 14; Conservatives, 2; Labor, 1; deferred, 3. Martin Supporters: Government, 45, including 16 acclamationists—Government supporters elected or leading in Regina, 2; Bengough, 59; majority; Cutcliffe, Canora, Cannington, 1,000; Francis, 210; Hanley, 1,937; Happyland, 1,417; Kinistone, 772; Kerrobert, 1,842; Lamaden, 574; Melfort, 522; Maple Creek, 554; Pleasant Hills, 554; Pipestone, 80; Pelly, 30; Roseworth, 459; Shellbrook, 45; Turf, 234; Tisdale, 1,200; Virden, 1,200; Weyburn, 1,794; Willow Bunch, 237; Yorkton, 755.

Opposition. Independents—14—Biegat, 510; Elrose, 232; Gravebourg, 240; Kindersley, 532; Mooseomin, Redberry, incomplete, 172; Saskatoon, 1; South Qu'Appelle, 44; Swift Current, 234; Thunder Creek, 100; Wadena, 200; Wilkie, 98; Wolseley, 254; Wynward, 356. Conservatives—2—Moose Jaw, 3; Souris, 1. Labor—1—Moose Jaw, 3; deferred, 3. Redberry. A list given by the Regina Leader included among the doubtful acclamationists Redberry, where Hon. George Langley was 172 behind George Cockburn, independent, with two polls to be heard from. The political prophets of the Government were surprised at the threatened defeat of the Minister of Municipal Affairs and declared that complete returns would show his election.

Deferred. The election in Tisdale is to be held two weeks from yesterday. Elections in Cumberland and Isle a la Poudre, the other deferred seats, are not set. They are the northern seats with few and scattered voters. The vote yesterday was the heaviest in the history of the province, and Premier Martin's total in Regina, of more than 7,000 is the largest vote ever cast in Saskatchewan for a legislative candidate.

Maharg. Hon. J. A. Maharg, elected by acclamation for Moose, has not yet been assigned to a portfolio. There are reports of a re-arrangement of the Cabinet by which Mr. Maharg, who is president of the Saskatchewan Grain Growers' Association, might become Minister of Agriculture.

The Regina Leader declares editorially that Saskatchewan is safe for another four years, and says that the blow dealt the "so-called independent movement" in Saskatchewan yesterday was one "from which it will be very difficult to recover." This movement did not come into being as a protest against the character of the Government, given the province by Premier Martin and his Cabinet. Those who were behind it were compelled to admit, and did so freely, that the record of the Government could not be challenged, says The Leader.

"The verdict registered at the polls yesterday is a straight warning to the so-called Independents that they need not look for another shift until they can find some common contact other than the mere ambition to secure office," the paper adds.

SEAPLANE NEARS ITS OTTAWA GOAL. Ottawa, June 10.—The flying boat F-4, on its way from Halifax to this city, left Quebec early to-day and is expected to arrive here about five p.m.

NO CANADIAN DELEGATE TO GO TO GENEVA; ECONOMY

Ottawa, June 10.—(Canadian Press)—Canada is not to be represented at the International Conference on the Welfare of Women and Children which is to be held under the League of Nations in Geneva during the last week of June. The decision has been made by the Government on the general grounds of economy.

BRITISH COAL STRIKERS ARE TO TAKE VOTE

London, June 10.—A conference of the striking coal miners' delegates, held here to-day, decided that a ballot should be taken in all the coal fields on the proposals of the mine owners for a settlement of the strike, which began April 1. This is generally considered a long step toward peace in the coal industry.

WILL DISCUSS CHURCH UNION

Presbyterian Committee Prepared to Meet Anglicans. Toronto, June 10.—The union committee of the Presbyterian General Assembly which will have in hand the negotiations with the Methodist and Congregational churches also will be able to conduct any conference pertaining to union with the Anglican Church, superintending being given to the Anglican superintending of Missions in Alberta, said that the conference resolutions sought the unity and sympathy, but the object was as yet almost veiled in the mist.

Co-operation. The Assembly adopted a resolution moved by Rev. Dr. J. M. Carney Wilson of Calgary, embodying greetings to the Church of England. The resolution mentioned the joy and thankfulness the Assembly felt on hearing of the acts of the Lambeth Conference, and pledged itself to co-operate with the General Synod of the Church of England and churches in the movement designed to bring about the reunion of Christendom.

CO-OPERATION IN CANADA URGED

Fitzpatrick and Foster Addressed Manufacturers. Quebec, June 10.—(Canadian Press)—Speaking at the annual banquet of the Chamber of Commerce and Industry Association here last night, Sir Charles Fitzpatrick said that it was idle to think that Canada to-day was facing a serious situation, but he thought it could be borne if all would bend their backs to the task, and all bend the same way. There must, however, be no difference of race or creed.

Sir Charles said it was their duty to make the West feel that they were sympathized with by the East, who wanted to help them with their problem, which, as the Premier had said two days before, was mainly a matter of markets and transportation.

Broad Basis. Sir George Foster, Minister of Trade and Commerce and Acting Prime Minister of Canada, said he could stand on the same basis of broad Canadianism, of tolerant Canadianism, of well-informed Canadianism, before the war of 1914. He had mingled with the people of Canada for forty years, and was convinced that all the way through the people were all the same at heart. Before the war of 1914, he desired to do all they could for their country. Of course there were bigots to be found here and there, but he did not believe there were as many to-day as there were fifty years ago. He believed the great masses had risen above racial prejudices.

Illusions. Addressing his remarks directly to the captains of industry, he showed that Canadians had been subject to illusions. Before the war of 1914, men on all sides had said there could be no war, that a war was impossible, yet the war had come. There had also been illusions as to its duration. Finally the armistice had come and there was another delusion. It was predicted that immediately business would boom up greater than ever, but this had not taken place. There was another illusion to-day, and that was that the present cloud would rapidly form itself into a bright ray of sunshine which would bring back normal times. The situation created by five years of war had reached the very roots of the nation, which could not be released. (Concluded on page 11.)

QUEBEC VILLAGE DAMAGED BY FIRE

Quebec, June 10.—Fire at Mount Joli, Rimouski County, yesterday afternoon destroyed a village. It was feared for a time that the entire hamlet would be destroyed, but the villagers finally mastered the blaze by a bucket brigade. The loss is estimated at \$150,000.

RAILWAYS TAKING STEPS TOWARD WAGE CUT IN DOMINION

Montreal, June 10.—Canadian railways following the action of roads in the United States, to-day took preliminary steps to cut wages twelve per cent. July 1 and later to revise working conditions. Representatives of the various brotherhoods were requested to attend a conference here Friday at which they will be officially informed of the proposed changes. The Grand Trunk of the proposed cut.

100 WORKERS ARE TRAPPED IN MINE

Underground Men Caught in Illinois Pit. Rescue Crew Attempts to Bring Them Out. Peru, Ills., June 10.—More than 100 miners are trapped in the mine of the St. Paul Railroad at Mark, ten miles south of here, by fire which broke out shortly after noon. The mine rescue car from La Salle, Ills., is on the scene.

Company officials are checking their lists to determine the exact number of miners who were at work in the shaft. The rescue crew, equipped with helmets, is attempting to reach the level where the majority of the men are believed to be caught.

WILL DISCUSS CHURCH UNION

Presbyterian Committee Prepared to Meet Anglicans. Toronto, June 10.—The union committee of the Presbyterian General Assembly which will have in hand the negotiations with the Methodist and Congregational churches also will be able to conduct any conference pertaining to union with the Anglican Church, superintending being given to the Anglican superintending of Missions in Alberta, said that the conference resolutions sought the unity and sympathy, but the object was as yet almost veiled in the mist.

Co-operation. The Assembly adopted a resolution moved by Rev. Dr. J. M. Carney Wilson of Calgary, embodying greetings to the Church of England. The resolution mentioned the joy and thankfulness the Assembly felt on hearing of the acts of the Lambeth Conference, and pledged itself to co-operate with the General Synod of the Church of England and churches in the movement designed to bring about the reunion of Christendom.

In response to a letter from Sir Robert Borden suggesting a pronouncement on the League of Nations, the Assembly adopted a resolution placing itself on record as endorsing the League.

Gambling. The spread of the gambling habit was greatly deplored, especially at the racetracks, and the Government of Canada was held responsible for "this stain on the country character."

Dr. Gordon pointed out what Premier Meighen had put himself on record as an enemy of the gambling evil.

CASE AT OTTAWA ATTRACTS ATTENTION

Money of Militia Department Is Involved. Ottawa, June 10.—(Canadian Press)—Ernest A. Robertson, former assistant unit director of administration of the Department of Soldiers' Civil Re-establishment, yesterday afternoon was found not guilty of uttering a forged cheque for \$2,311 in connection with alleged fraudulent obtaining of money from the Department of Militia and Defence. This disposition of the fire charge against Robertson in a case that has aroused nation-wide interest.

Both Robinson and A. E. Hill, ex-to-day on charges of fraudulently obtaining money from the Department of Militia and Defence by illegally taking advantage of the Order-in-Council authorizing the exchange of par of English money received by Canadian soldiers in pay and allowances.

"CLUBS" TO LOSE CHARTERS FOR EVADING LIQUOR LAW

Bars that have been converted overnight into "clubs" under an incorporation certificate from the Provincial Registrar will have their incorporations cancelled at once if it should be found that they are simply out for misbehavior under the new liquor law, the Hon. J. W. de B. Farris, Attorney-General, announced to-day on his return from Vancouver.

The law prohibiting sale of liquor except by the Board will be enforced strictly and against all organizations, said the Attorney-General. Under the present Joint Stock Companies Act, the registrar has no power to refuse incorporations so long as they comply with the law, but under the new law, which comes into effect on September 1, the Government will have power to refuse incorporation.

Clubs Worried About Stocks. In the meantime, however, the Government has the power to cancel incorporations and our policy, as a Government will be to assist the Liquor Board by a general cancellation of all charters that may appear to have been obtained for evading the liquor act," the Attorney-General went on.

New Move in Japan For Conference On Disarmament Plan

Tokio Government Urged to Take the Lead; French Naval Programme Calls For Building of Cruisers, Destroyers and Submarines.

Osaka, Japan, June 10.—A resolution providing that a petition be sent to the Japanese Government asking it to take the initiative in communicating with the Government of Great Britain and the Government of the United States for the purpose of calling a conference relative to disarmament has been passed unanimously by the disarmament committee of the Chamber of Commerce here. The committee also decided to conduct an investigation with a view of gathering more information on armament restrictions.

Paris, June 10.—In presenting France's programme of naval construction for the next three years, Deputy Paul Denis, reporter for the Navy Commission, advocated in the Chamber of Deputies yesterday the virtual abandonment of the building of battleships and battleships and intensification of construction of submarines, torpedo boats, destroyers and aeroplane carrying ships. The programme provided for the construction of six light cruisers, twelve destroyers, twelve torpedo boats and thirty-six submarines at an approximate cost of 1,416,000,000 francs.

M. Denis asked the Chamber to vote for the transforming of five battleships, work on which was stopped during the war when the hulls were completed, into aeroplane mother ships.

No Argument. He refused to be drawn into discussion as to whether he agreed with the British admiral, Sir Percy Scott, that the day of battleships was past, but quoted Rear-Admiral Sims, of the United States navy, and also Admiral Beatty and Admiral Jellicoe of Great Britain, Admiral von Scheer of Germany as having a different opinion from Admiral Scott.

Coast Defense. He pointed out that France, as a pacific nation, needed a navy for coast defense, not warships for offensive action, and said there was nothing to fear from Germany. France had no desire to attack any other nation, but the principal reason for the abandonment of construction of battleships by France, he added, was the realization that France could not keep up the pace with Japan and Great Britain, and particularly the United States, which were building more units than before the war.

CANADA'S DEBT WAS REDUCED

But Only by \$1,785,845 During May. Ottawa, June 10.—(Canadian Press)—A decrease of \$1,785,845 in the debt of Canada during the month of May, as compared with an increase of \$26,313,558 during the same month a year ago, is shown by the financial statement issued from the Finance Department to-day. The debt of Canada is \$2,315,504,702, as against \$2,318,590,548 at the end of April and \$2,274,092,253 at the end of May, 1920.

Refunding. Ottawa, June 10.—(Canadian Press)—The statement of Sir Henry Drayton in a speech in Toronto last night to the effect that there would be some refunding of Canadian loans in connection with alleged fraudulent obtaining of money from the Department of Militia and Defence, was a forged cheque for \$2,311 in connection with alleged fraudulent obtaining of money from the Department of Militia and Defence.

Taxation. It was in the same speech that Sir Henry stated that the revenue in Canada last year had been equivalent to \$48 per head of population, and in Germany the taxation had been \$12 per head of population. At the Finance Department to-day it was stated that Victory Bonds amounting to practically \$194,000,000 (concluded on page 11.)

MEN WHO BALK CENSUS ARE TO BE PROSECUTED

Montreal, June 10.—The Government is about to prosecute a few Montrealers who have steadily refused to give the required information in connection with the census. So far objectors have been given every chance, but as the time limit is now drawing to a close the commissioners are reporting directly to Ottawa where prosecution has been refused, and they will be dealt with from there.

Admiral Sims declared he probably would not make any further statement until his return to the United States. He is busy with a heavy correspondence which averages about seventy letters a day from friends in England.

Admiral Sims was a guest at tea in the House of Commons yesterday afternoon. He was very cordially received. Mr. Chamberlain, Sir Donald Maclean and John R. Clynes, representing the Coalition, Liberal and Labor parties, respectively, made complimentary speeches of welcome. Mr. Chamberlain said it was the earnest wish of all parties and creeds that the close co-operation established between the British and the United States fleets during the war should be the symbol of the future relationship between the two countries.

Praise. Admiral Sims, in replying, said he only knew one nation that did not boast itself grander than its empire, its country and its people, and that was the British. They did not think it necessary.

BLIND POULIS
A SCULPTOR NOW
Paris, June 10.—Exhibit No. 3514 at the Salon of French-artists in the Grand Palais is a small statue of a French poulu leaning on his rifle. It was submitted by Bernard Fedot with thousands of other statues in competition for a place in the Salon and the award to Fedot was made by judges who had no knowledge of the sculptor.
It has become known that Bernard Fedot is an ex-poulu who was blinded by a German shell, which tore away half his face. Invalided back to his home in La Chapelle Vielle Forete, in the department of Yonne, a peasant who had had no dealings with earth before except with a spade, he set to work, without a teacher to learn to model figures, using earth from the garden he used to tend when he could see. After three years he has exhibited in the National Salon.
The announcement has drawn great attention to the statue and before long it is probable that Fedot will find himself the possessor of a simple means to carry on his work.
WERE MARRIED.
Copenhagen, June 5.—The marriage of Princess Margareta, daughter of ex-Prince Waldemar of Prussia, and Prince Rene of Bourbon-Parma, a brother of Mrs. Charles Hapsburg, one-time Empress of Austria-Hungary, was solemnized today in the presence of King Christian, Queen Louise, the Queen Mother, the ex-Dowager Empress of Russia and other members of the Danish royal family.

SEEK TO RECOVER
FRENCH CHATEAU
Bourbon-Parma Descendants Pressing Government
Paris, June 10.—Efforts by two princes of the House of Bourbon-Parma to recover possession of the celebrated Chateau de Chambord, which was sequestered by the French Government during the war, are one of the most interesting aftermaths of the great conflict.
The Chateau is more than 400 years old and is one of the most striking and interesting of the famous feudal establishments of ancient France. It was once one of the most magnificent of these great estates and lies in the valley of the Loire close to the town of Blois and has about 15,000 acres, part of which is enclosed by walls extending for twenty miles. The building is about 200 feet square, with famous circular towers at the corners and a double spiral staircase leading to the dome lantern, which dominates the centre tower.
It was built about 1528 and for two centuries was a royal residence. In 1814 it was given to Marshal Saxe Louis Napoleon presented it to Marshal Berthier. Eventually it fell into the possession of the Duke of Parma.
Taken Over
At the beginning of the war it was owned by Prince Elias of Bourbon-Parma and was sequestered because he was serving in the Austrian army as an attaché of the Austrian General Staff.
Prince Elias is a brother of Mrs. Charles Hapsburg, wife of Charles Hapsburg, who formerly was Emperor of Austria-Hungary and who attempted to regain the throne as King of Hungary.
After the war Prince Elias attempted to recover possession of the estate but the French courts have just disallowed his claim. This, however, does not settle the question of its ownership, for Prince Sixtus, also a brother of Bourbon-Parma, brother of Prince Elias, has put in a claim to the ownership of the Chateau. Prince Sixtus is the son of the late Emperor of Austria-Hungary and his brother Xavier also offered their services to the French Government in the war and were refused on this ground, the descendants of the old royal house could not be permitted to fight for France, they both enlisted in the Belgian army, where they served as stretcher-bearers under fire. Their names are recorded in the French official gazette.

I.O.O.F. EXCURSION
To Port Angeles
July 1st
The Annual Picnic of the Local Lodge of the I. O. O. F. will be held at Port Angeles this year. The Princess Adelaide being chartered for the occasion, will leave Victoria at 9 a. m. on the return. GOLD STRIKE IN MANITOBA REPORTED
The Pas, Man., June 9.—Confirmation is given the report of an important and rich gold strike at Elbow Lake, in the Athabapuskow mine area, and east of the famous Gordon Dyke, discovered last summer. The find was made by the Murray brothers about three weeks ago, causing a number of mining men to hasten to the spot. Some have returned here with a remarkable amount of a vein sixty feet wide, wherein free gold is seen scattered all about. Mining men here view the discovery as the most important made in Canada. Until now the vein is stripped and the whole width and length revealed, it is only possible to guess at the values and tonnage.

NEW ANTI-SOVIET EFFORTS REPORTED
Uprisings Against Bolsheviki in Ural Region
Tokio, June 10.—Determined anti-Bolshevik uprisings in the Ural region, about 200 miles south of Tobolsk, are reported in semi-official advices received here. It is said that Petrozavodsk has been occupied by the anti-Bolsheviks and that the movement from Moscow of reinforcements for Soviet troops in Siberia is difficult as the anti-Soviet elements control various points along the Trans-Siberian road.
Reports from the South state that the Communists are holding meetings with Chinese Bolsheviki at Harbin. It is said representatives will be sent to the international Communist congress in Moscow.
HIGH TIMBER LAND WOULD GROW FEED
Stock Raisers of the Interior Make Suggestion
Kamloops, June 10.—At the annual meeting of the Interior Stock Raisers' Association of British Columbia, it was recommended to the Dominion and Provincial Forestry Departments that certain high areas of timber of little or no commercial value be burned off in the interest of the improvement of grazing. It being contended that much of such land would produce good feed. That covered with scrub timber, in the high areas, held the snow, it was contended. It melted slowly and was absorbed in the soil instead of running off in the Spring and filling the natural reservoirs with water.
It was also recommended that abandoned homesteads in grazing leases revert to the original leaseholders.
A committee was appointed to make recommendation for revision of the Brand Act, one of the objects being compulsory registration of all brands. Recommendation will also be made regarding the Pound Act and regarding fencing against sheep.
The association elected the following officers for the ensuing year: Honorary president, C. E. Wynn-Johnson, Cariboo; president, A. W. Duck, Holmwood; first vice-president, W. F. Palmer, Heffley Creek; second vice-president, J. H. Collett, Stikine; secretary, S. C. Burton, Kamloops.

STATE ATTITUDE
ON FREIGHT RATES
Maritime Provinces and Intercolonial Railway
Halifax, June 10.—That the industries of the Maritime Provinces must languish and die if freight rates on the Intercolonial section of the Canadian National Railway are to be fixed on a purely commercial basis and present tariff against competition of Central and Western Canada, is the declaration of Hon. R. E. Finn, Minister without Portfolio in the Nova Scotia Government, who objects to a scientific basing of freight rates on the Intercolonial Railway, and urges that they rather be fixed according to the intention of the Act of Confederation.
The building of the Intercolonial Railway was provided for in the terms of Confederation, says Mr. Finn, for the purpose of making the markets of Central Canada and Western Canada, available to Maritime industries and to provide a Canadian route to the Atlantic. Because of military and political considerations, the British Government, which had agreed to guarantee the interest on the loan necessary to build the road on condition that it name the route, chose a line 138 miles longer than commercial purposes warranted and at its outlet the Intercolonial Railway was never intended to have its rates fixed on a scientific basis, and rates were put into effect which would not permit competition in the Upper Provinces markets.
Increases
Despite original intentions, Mr. Finn says, the scientific basing method was applied to the Intercolonial system by the Railway Commission under special jurisdiction given it by the Government in 1915. This resulted in freight rate increases ranging from 100 to 150 per cent during the past five years. Maritime industry, the scientific basing method during the war to meet the high freight rates because competition was not a factor and high rates were added to overhead. Competition is once more, however, a factor, and Maritime industry cannot enter the Upper Canadian markets, and meet the prices quoted by manufacturers in those provinces. The loss of the markets of Middle and Western Canada through prohibitive freight rates, Mr. Finn points out, is a matter of grave concern to the Maritime provinces and to Europe and South America, and there only remains a slender trade with the West Indies. The population of the Maritime Provinces does not absorb the products of their industries and Mr. Finn sees maritime industry faced with a crisis of extreme gravity.

SURVEY OF WORLD
TRADE CONDITIONS
U. S. Bureau of Commerce Makes Summary
Washington, June 10.—World economic conditions during May pointed to no immediate general business revival, according to the monthly summaries from its foreign representatives issued by the Bureau of Foreign and Domestic Commerce.
Considerable improvement financially was noted in Europe but trade and shipping were dull, with marked industrial deficiencies apparent in some countries. In the Far East improvement was reported slight, and in South America the situation was declared practically unchanged, with a less confident tone to future prospects.
Money is easier in Great Britain. The coal strike has caused a general stagnation of trade and industry, the London report declared. The industrial situation probably has never been worse, the report continued, with over 2,000,000 persons idle.
France appears satisfied with the success of the \$100,000,000 loan floated in the United States and feels it will permit payment of debts previously contracted in this country. Evidence of a revival in Belgian industries affected by the British coal strike were reported from Brussels. A decreased foreign trade and acute industrial crisis resulting from decreased prices were outstanding developments in Italy.
The financial situation appears to be improving in Germany, Berlin reported, but the industrial situation is being hampered by the Silesian trouble and consequent coal shortage.

Continued Newness!
That's the Secret of the Success of Mallek's Garments
WE cannot keep you informed about them all, because at the time this was written we don't know what they'll be—they come and go so fast.
The Mallek plan of buying assures you that all garments are picked one by one, so that they will be individual and distinctive. They also come to us a few at a time. Every day brings us new garments—and every day they are sold from our shop. That's why we'd like to describe them, but can't. They might not be here when you come to inquire.
However, we can tell you that we have always new Sports Suits, Jersey Suits, Tweed Suits, Silk Sweaters, and many other desirable garments suitable for sports wear. Come in and see them to-day. The merchandise and low prices will surprise you.

\$48 PER HEAD IN THIS COUNTRY
Taxation Discussed by Sir Henry Drayton
Toronto, June 10.—That Canada's revenue, \$432,000,000, was at the rate of \$48 per capita last year, whereas Germany's taxation during the same period would amount to the equivalent of approximately \$12 per capita, was a statement made by Sir Henry Drayton, Federal Minister of Finance, in an address here at a banquet of the Bond Dealers' Association of Canada.
"In 1916 the Dominion's expenditure amounted to approximately \$21.14 per capita," he said. "In 1917 it was \$35.42 per capita. In 1921, when we are at the peak as regards the repatriation of the soldiers' loans interest, it amounts to \$28 a head. There are expenditures in ways that are inescapably connected with war items and railway losses."
He laid stress on the fact that the investment of capital in productive enterprise could not wisely be curtailed, but he also said there was a point beyond which it was most unwise to tax business, since the tax would destroy its own purpose.
"There will be more work ahead of us, but not this year, I hope," Sir Henry told the bond dealers. "There will be some refunding next year, probably about \$1,194,000,000 on Canadian loans. If there is one thing more important than another, it is that we conduct these operations safely and well. If we are going to get our finances on a proper basis, we must see to it that the refunding operations are properly carried out, and that proper provisions are made for the future."
Sir Henry declared it was a matter of congratulation that Victory Bonds had withstood the stress of the times as well as they actually had done.

HANDLING OF AMERICAN COTTON
Washington, June 10.—The War Finance Corporation announced today that actual advances of \$2,000,000 in connection with a loan to assist in the export of cotton had been completed. At the same time the Corporation said it had advanced \$500,000 on a loan approved for a total of \$1,000,000 for the shipment of cotton to Japan to be marketed out of the warehouses of the American exporters in that country.

RAILWAY SMASHES ON FRENCH LINES

Extent of Sabotage is Being Discussed

Paris, June 10.—How far sabotage has been responsible for the great number of railroad accidents in recent months is being asked not only by the railroad authorities but by the general public.

An investigation has shown that the accident Wednesday night on the Orleans line just outside of Paris which caused one death and injuries to several persons was undoubtedly due to sabotage, a steel rail having been deliberately unbolts and laid across the tracks. The mischief was evidently done between 10.33 o'clock, when a passenger train passed the spot, and 11.23, when the freight train was derailed.

On the local line to Vaux-sur-Sene, it was found two days ago that the signal controlled by post No. 2 had been bound with copper wire, so as not to work. Fortunately the discovery was made before any train had passed.

Two Accidents.—Only a few weeks ago the public was shocked by two bad accidents to the Paris-Toulouse Express within twenty-four hours of each other in the same region. Both involved considerable loss of life and both were caused by the trains being derailed, though no evidence of deliberate sabotage was brought forward.

The real gravity of the situation, however, lies in the fact that the railroad workers are notoriously disaffected. Much ill-feeling was caused by the dismissal of the leaders of last year's abortive strike and there are constant reports of minor troubles and disturbances, especially in the Toulouse area which has been a stronghold of radicalism.

BOMBS THROWN IN OHIO TOWN

New Philadelphia, Ohio, June 10.—Attempts were made here by bombthrowers to-day to kill Russell Bowers, thirty years old, prosecuting attorney of Tuscarawas County, and L. O. Haug, Safety Director of Dover, both of whom have been active in enforcing the prohibition laws in Tuscarawas County.

Store and dwelling house of E. H. Graham, merchant, Cromarty, were destroyed by fire.

MEAT PACKERS ARE PROTESTING

Americans Objecting to Regulation by Congress

Chicago, June 10.—Thomas E. Wilson, president of the Institute of American Meat Packers, has forwarded to members of Congress a statement regarding the economic situation of the meat and livestock industry, in connection with proposed legislation to regulate the packing industry.

"This great industry is not in a position to stand much longer the stress of the situation that we have gone through in the last eighteen months," the statement said. "Unless there is a change there is going to be a calamity in this country, and a big one."

VANCOUVER IS CONVENTION SCENE

Canadian Weekly Newspaper Association Meets

Vancouver, June 10.—The sessions of the annual convention of the Canadian Weekly Newspaper Association are being continued here to-day. In his presidential address yesterday W. R. Davies, of the Renfrew, Ontario, Mercury, reported the progress made by the Association in the past year. Of about 750 weekly newspapers in Canada, 475 were now reprinted in the United States, but to rest content with this good showing, but to strive for one hundred per cent membership.

The problem of getting competent printers, declared the president, was becoming very serious, the small towns and he urged establishment of special printing courses in technical schools in all provinces.

The report of Manager and Treasurer E. Roy Sayles stated that the saving of free zone postal rates to weekly papers ranged upward from 10 per cent to 25 per cent, that the 32 rate raised their subscriptions to that figure. The Association, said the report, was gradually eliminating free publicity. Efforts to have increased rates, and standards of practice of the Dominion King's Printer adopted by all the Provincial King's Printers, were urged.

During the discussion following the report of the postal and parliamentary committees, Mr. J. B. Bell, of Pawa, Man., urged that the Government be asked to abolish free postal delivery for newspapers. "We should ask that this privilege be abolished, and that all franking privileges now granted by the Government be done away with," contended Mr. Dunn.

Serving Public.—The chairman, however, declared that, in his opinion, the majority of the members did not agree with the speaker. In providing free postal delivery zones the Government desired to serve the public.

S. J. Dornan, of Alameda, Sask., presented the report for the job printing and estimates committee. It was recorded that weeklies with modern equipment were prospering, in that they were in a position to compete with the Vernon News, on the subject, "The Difference in Western and Eastern Costs," brought out considerable discussion on the merits of costing systems.

"There is no occasion yet," said J. A. McLean, of Toronto, "for publishers to reduce their advertising rates, as production costs have not yet declined enough to justify it."

The paper by J. B. Bell, of the Vernon News, on the subject, "The Difference in Western and Eastern Costs," brought out considerable discussion on the merits of costing systems.

BIG TIMBER AREA INVOLVED IN DEAL

Vancouver, June 10.—One of the biggest timber deals put through in British Columbia for some time has just been consummated with the acquisition by the Prince Rupert Pulp & Paper Company of the British Columbia holdings of the North Empire Timber Company.

The timber area is one of the most accessible for small operations in the Province, and is situated only a few miles from Prince Rupert. The holdings are approximately 1,000,000,000 feet of timber, 75 per cent, is spruce and hemlock.

The North Empire Timber Company is largely controlled by interests in Cedar Rapids and other large cities in the State of Iowa. While the price paid for the holdings has not been made public, it is understood that it runs into large figures. With the acquisition of this new timber area the Prince Rupert concern is now one of the largest timber holding concerns in the Province.

BUDDHIST PRIEST GOES TO STATES

Tokyo, June 10.—The steamer Taiyo Maru, formerly the German liner Cap Finisterre, sailed from Yokohama yesterday for San Francisco, on her maiden voyage under the Japanese flag. She has on board 1,000 passengers, including Seizan Arai, a distinguished Buddhist priest who is on his way to Hawaii to dedicate a temple. He will later visit the United States and conduct an extensive investigation of conditions in that country.

RUSSIAN GUNBOAT TO VLADIVOSTOK

Tokyo, June 10.—The Russian gunboat Patrov, which had been tied up at Nagasaki since July, 1920, because of litigation over her ownership, has arrived at Fusan, en route to Vladivostok. It is supposed she is proceeding to the aid of the anti-Bolshevik Government and one report is that she will support General Semenov.

OVER ESTIMATED

Ottawa, June 10.—In regard to the London dispatch to the effect that a further \$2,000,000 will come to Canada as her share in the army concern funds, the Department of Militia here, it is stated, is not expecting such a large amount. The matter is in the hands of the British authorities.

STEPS TOWARD CHURCH UNION

Committee of Presbyterian General Assembly Appointed

Toronto, June 10.—The personnel of the new church union committee which will have charge of preliminary negotiations with the sister churches was announced at yesterday afternoon's session of the Presbyterian General Assembly here. The committee is made up of thirty-three, seven of whom voted for the amendment. A motion was made to add the name of Rev. Dr. E. Scott, leader of the dissenters, but there was no second, and the matter dropped.

In view of the promising outlook for union, and anticipating a conference very shortly with the Methodist board of education, a recommendation was made and adopted that no appointments to Presbyterian college staffs be made this year.

Very Near.—"Union seems to me to be very near at hand," said Rev. D. M. Ramsey, in submitting the report of the board of education. Great changes might follow the inter-church conference, he announced. In the meantime, the eight Presbyterian colleges could be carried along, and co-operation could be afforded between Eastern and Western colleges to maintain staffs.

The question of admitting women to the theological classes with a view of their ordination was raised in the report, and on motion of Rev. Dr. T. W. Taylor, the matter was referred to the committee which had been appointed to consider overtures on divorce and baptism and to report to the next Assembly.

Stipends.—The report of the committee on statistics and finance showed that the stipends paid ministers in 1920 averaged 11.57 per cent, over the aggregate for 1919. The largest increases were made in Manitoba.

Increases in the number of families entering the church were reported from all synods.

The number of infant baptisms, said the report, declined between 1918 and 1920, but the tide turned in 1920 with an increase of 19 per cent.

The total number of communicants showed a gain of 5,743 for the year.

Report Awaited.—Assurance that there would be no split in the Presbyterian Church, at least before the next annual Assembly, was given by the leader of the anti-union conference with the Moderator yesterday forenoon. Several members said they had no desire to promote friction, and would do nothing to prevent the report of the union committee next year.

STATED ATTITUDE ON THE TARIFF

Canadian Manufacturers Urge Adequate Protection

Quebec, June 10.—A resolution on the tariff passed at the concluding session of the annual convention of the Canadian Manufacturers' Association here yesterday, placed the organization on record as urging the Parliament of Canada, in the next revision of the Canadian customs tariff, to provide and maintain an adequate tariff against Canadian enterprise and industry, so as to encourage the investment of capital, facilitate the development of natural resources, furnish Canadians with employment and retain and enlarge the market in Canada for Canadian produce from farms, factories, mines or other sources.

Trade Agreement.—Other resolutions congratulated the Dominion Government on completing the trade agreement with the British West Indies and asked it to try and negotiate similar treaties with Australia and other British Dominions; asked a conference between the Dominion Government and Provincial Governments with a view to determining upon and agreeing to a taxation policy which would prevent overlapping; urged the establishment by the Canadian Government Merchant Marine of a direct steamship service between Halifax and Vancouver via the Panama Canal, so that the products of British Columbia, the Maritime Provinces and the West Indies could be exchanged, and expressed the opinion of the association that the creation by the Dominion Government of the national research institute was a measure of true economic because it would tend to increase national wealth.

Officers.—W. S. Fisher, St. John, N. B., was elected president of the association at the concluding session. Other officers elected were John B. Shaw, Woodstock, Ont., first vice-president; C. Howard Smith, Montreal, second vice-president; Thomas Roden, Toronto, treasurer.

TRAPPER'S BODY FOUND IN SHACK

The Pas, Man., June 10.—(Canadian Press). The death of a lonely trapper, the third within a few months, has been reported here, the body of a man named Connolly having been found in a shack on the Cross Lake portage, twenty miles from Thicket Portage on the Hudson Bay Railway. The provincial police are investigating.

REPORTS TELLS OF C. N. R. DEFICIT

Toronto, June 10.—In the absence of the president, E. B. Hanna, the annual meeting of the Canadian National Railways was adjourned until Monday next. The report, however, was released, which is the sixth annual one, covers the year 1920. Gross earnings, including elevator profits, etc., were \$68,541,393.42. Working expenses were \$62,953,978.69, which, with equipment, taxes,

etc., was swelled to \$84,255,268.25, thus showing an operating deficit of \$15,723,575.82. The addition of \$24,319,916.05 interest charges raised the total deficit to \$40,945,384.17. Passenger earnings were \$12,684,848.82, up 12.21 per cent.; freight earnings, \$49,049,947.54, showing a 25.20 per cent. increase. Miscellaneous earnings, including express and telegraphs, were up 27.10 per cent.

The report, which is the sixth annual one, covers the year 1920. Gross earnings, including elevator profits, etc., were \$68,541,393.42. Working expenses were \$62,953,978.69, which, with equipment, taxes,

100 Smart Porch Dresses to Sell

Saturday at **\$3.90**

A noteworthy offering Saturday of one hundred well made and smartly styled Gingham and Percale Porch and House Dresses in belted and the popular tie back styles; sizes 36 to 44. Exceptional Value, \$3.90

WINNIPEG, June 10.—Nine trucks were required to bring away a still and equipment, including a complete bottling outfit, from the home of Hyman Shtraun, of Norwood, a sub-revenue officer, seized yesterday. Shtraun was fined \$100. The still was of 100-gallon capacity and the liquor made, one policeman remarked, carried a kick in every drop.

IN SASKATCHEWAN.

The return of the Martin Government by a large majority in the Saskatchewan election yesterday was generally expected. The excellent record of the administration and the great personal strength of the Premier made the case of the Opposition practically hopeless, and it is anticipated that the Government will have forty-five seats in the new Legislature out of a total membership of sixty-three.

Not only does the result dash the hopes of those opposition elements which sought to oust the Government from office in the guise of Independents, but it virtually wipes the Conservative Party of Saskatchewan off the political map. Indeed, the Conservatives in the three Prairie Provinces have been reduced to negligible under their historic party label, while in Canada generally it is not unlikely that they will find it necessary to take unto themselves new associations and a fresh title.

The platform on which the Government appealed to the electors was:

To continue the application of the principle of co-operation between Government and people in the solution of the economic problems connected with production and marketing; as far as constitutional and financial powers will permit to co-operate with the farmers in any practicable method of improving the system of marketing grain and farm products generally; to continue the fight the Government is now waging for lower freight rates; to provide for an agricultural survey of the Province by the College of Agriculture and the establishment of demonstration farms under the control of the college in close touch with the people.

The Government also proposed a thorough investigation of the whole problem of the treatment of both curable and incurable cases of tuberculosis; pledged itself to continue vigorous enforcement of the Saskatchewan Temperance Act; to continue the various lines of educational progress; to further develop the co-related highways system of the province; extend the provincial system of telephones wherever practicable; put forth its best efforts to obtain from the Dominion authorities the transfer to the Province of its natural resources and continue its investigation of these resources; to further develop its policy of assisting farmers in the purchase of livestock, encourage the work of the Farm Loans Board, and continue the policy of assisting financially the Saskatchewan Co-operative Elevator Company, the Saskatchewan Co-operative Creameries Company and the Saskatchewan Co-operative Stockyards.

THE BRITISH STRIKE.

Although it has taken a long time to agree upon a ballot as a means of discovering just what the miners of Great Britain think about their position and conditions generally there is some satisfaction in the knowledge that this compromise mode of appeal is about to be resorted to. While there is no definite assurance that the men will vote in favor of settlement by accepting the latest proposal it may be taken for granted that the great majority have realized by this time that if they are to preserve their means of employment for the future they must bow to the inevitable and go back to work.

One of the extraordinary features of the strike and the unparalleled length of time which has elapsed since the men left the pits is the willingness of the public to put up with

enormous inconveniences and hardship rather than give way in the least particular to minority dictation. Never in the history of any industrial dispute in Great Britain has there been less concerted action on the part of the people as a whole, either by massed interest or group pressure, to bring the contending parties to an agreement. It had been fairly generally realized that the more influential section of organized labor would exert every possible influence in its efforts to retain, all or at least most of the benefits which it succeeded in extracting from the nation during an abnormal period. But it had been just as generally anticipated that the Triple Alliance would test its influence upon the public mind and throw the country into such a state of chaos as to compel a compromise from which it would be possible to get its own way.

While there were many who really believed that there would be sufficient of the moderating influence in the forces which actually control the Alliance to slow down the speed of the Bolshevik element it was hardly to be expected that common action by the three partners would be frustrated by the Secretary of the Miners' Federation itself. That is what actually did take place when Mr. Frank Hodges removed the props from the extremist wing of his organization by a virtual confession of his Federation's obstinacy. But it was the agility with which the executive officers of the railwaymen and the transport workers slipped the knot of the pact to which they had bound themselves a few days before, upon the slightest suggestion that the miners had shut the door in the face of conciliation too hastily, which made such a profound impression upon the people of Great Britain. For when they realized that the sting had been drawn from the Alliance they apparently made up their minds that they would tell the miners to do their worst.

What has happened since those fateful days of April proves conclusively that John Bull is able to keep both feet on the ground. He is ready to play fair with Capital and Labor; but the utterances of those in whose charge he has placed the conduct of his business, none the less the attitude of the man in the street, indicate pretty clearly that employer and employee must agree to get along together without strikes if they wish to escape destruction at their own hands. Certain it is the people will instruct the Government to institute a disciplinary course unless both Capital and Labor mend their ways.

LUNG POWER VS. BRAINS.

Those who view the reception given to the President of the Trades and Labor Congress of Canada in Victoria and Vancouver with any degree of alarm would do well to remember that it does not require more than a score of interrupters to break up any meeting. And if this assurance should not be sufficient to remove the fears of a pending revolution five minutes study of the remarks which were hurled from auditorium to platform on both occasions ought to convince the most ardent calamity howler that ninety-nine per cent. of Canadian Labor is altogether too intelligent to have anything to do with a hybrid democracy championed by a small Western equivalent of the Third Internationale. Mr. Moore came to the Pacific Coast with a message to organized labor. He had many important things to say. That he did not get far with his task is a matter of regret to all who wished to hear him. But their wrath will be heaped upon the heads of those who are getting the worst of a battle between lung power and commonsense.

LIQUOR AND CLUBS.

Up to the present time the rush to incorporate new clubs has been as great if not greater than the rush to obtain permits for the supply of liquor. But if the reason for this extraordinary desire to consolidate the loose ends of good fellowship and conviviality lies in a belief that operating expenses of such organizations may be assured by the promiscuous sale of spirituous and malt liquors the reminder that the law is very definite on this point should check the feverish activity at the office

of the Registrar of Joint Stock Companies. Both the Attorney-General and the chairman of the Liquor Control Board have drawn attention to the fact that neither beer of any kind nor liquors of the more potent variety may be sold anywhere or by anybody except at a Government dispensary and by a Government official in accordance with the provisions of the new law. In other words the club or similar institution which proceeds to place its own interpretation upon this phase of the Act will be merely inviting the suspension or cancellation of its charter. That inevitable conclusion is supported by the equally obvious fact that the people of this Province are determined that the new order of things shall be given a fair trial. Those who attempt to ignore the weight of public sentiment will damage themselves and hasten the advent of conditions considerably more stringent than those which will obtain after the fifteenth of this month.

TRADING WITH RUSSIA.

On more than one occasion Leonid Krassin has announced his intention of coming to Canada in the interests of trade between this country and Soviet Russia. Sooner or later he will keep his promise and seriously offend the susceptibilities of those who would close their eyes very tightly against any such an understanding as that recently entered into between the Soviet emissary and the British Government. But it must be remembered that there has been no embargo on trade relations between this Dominion and Russia since the armistice was signed nearly three years ago. Any Russian subject has a perfect right to purchase goods in this country and a Canadian merchant may go to Russia to conduct what commercial transaction he may think fit. All the Canadian trader needs to do is to satisfy himself that he can get real payment for goods he may decide to ship. If he does that in preference to wasting valuable time in exposing the pernicious habits of the Bolshevik—all of which are admitted—he stands a good chance of building up a business with profit to himself. If he does not take ordinary commercial precaution he may have to whistle for his money.

NOTE AND COMMENT.

Apparently the people of Saskatchewan are quite satisfied with Premier Martin and his Government. His success at the polls yesterday is a distinct personal triumph for himself as well as for his policies.

There is a little above the average dash of humor in a dispatch from Atlantic City which seeks to inform an uninitiated world that Jack Dempsey did not begin to display any curiosity about the fighting style of Georges Carpentier until yesterday. With something like half a million dollars hanging on the result the American boxer would scarcely be bothered about an opponent who has carried all before him during the last two years. Quite a tall yarn!

OTHER PAPERS' VIEWS.

ALL THE NEWS THAT'S FIT TO (Quinton Cor. Souerret (Ky.) Journal) Lee Gibson called on Carria Trovati at 7 p.m. Saturday night. In sorrow to say Tom Ryan mule got a crooked leg. Look boys a hind leg. HOROSCOPE. FRIDAY, JUNE 10, 1921. (Copyright, 1921, by The Mailers Newspaper Syndicate.)

The sun and Venus dominate in beneficent aspect to-day, according to astrology. Mercury and Saturn are also friendly. Good luck should attend all lines of human activity that are concerned with artistic matters and there will be a general interest in architecture as well as music and the drama. This should be a most auspicious time when women may seek favors of any sort. Those who desire political appointments or preferment of any sort would make the most of this day. It is a most favorable day for the bestowal of gifts and especially for the presentation of engagement rings. Increase of popularity for the President is foreshadowed in this day's planetary government. The aspect of the sun and Venus seems to promise a great honor for a woman who will be appointed to a high place in the Government. If the stars are read aright a woman little known, but well qualified for important service to the nation, will hold the most important office ever occupied by one of her sex. Good news should be prevalent while Mercury is in beneficent way, and the stars declare that the public mind will be more and more serene even when grave problems menace the country. Venus to-day promises much for the younger generation, which is to enjoy a period of greater literary and artistic achievement than has ever been attained in this country. Trade and employment are to be more booming, although many persons will be out of work during the remainder of the Summer. Persons whose birthdate it is to have the augury of a year of good fortune. Those who are employed should be generally successful in their undertakings. These subjects of Gemini are often inclined to worry over trivial

LETTERS.

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publication or rejection of articles is at the discretion of the Editor. No responsibility is assumed by the Editor for MSS. submitted to the Editor.

AMALGAMATION. To the Editor.—Will you kindly allow me through the medium of your paper to say a few words in regard to amalgamation. After listening for over three hours in the clubrooms of the G. W. V. A. last night, I came to the conclusion that we are not far away from our goal. Comrade David Loughnan no doubt tried to put a spoke in our wheel, but he was unable to carry away the idea from the members, although he had the backing of the executive. Now, comrades, if you want to get together—all you have got to do is to attend the next meeting in force and put it on a motion. By a show of hands you will know your friends in the return soldier movement. Do not let the executive fool you again. RETURNED MAN.

LIQUOR PERMITS. To the Editor.—The Government I see are issuing permits for the purchase of wines, liquors, etc., and charging the outrageous fee of \$5 for each of them. By an overwhelming majority last October the voters of British Columbia gave permission to all of us to purchase wines, liquor and beer to be sold under Government control, that is as storekeepers, but the voters never gave the Government power to charge a permit for the permission already given. Such a charge is a violation of the voters' mandate, and is ultra vires, and should be contested strongly. In the Northwest a permit is always obtainable on the recommendation of a known resident, but no charge whatsoever is made, and this charge is illegal and wrong in the face of the fact that the voters gave permission and we cannot be charged a permit for a permit. I understand that both the Premier and the Attorney-General are strong prohibitionists and therefore highly desirous to prepare a Moderation Bill, as is shown by this one and particularly in reference to the beer clauses. Every possible restriction has been placed on the workingman's refreshment, and every endeavor made to cause him to take to hard drinks. Good honest malt and hops is more healthful and refreshing than all the kind of liquors that are sold. This charge of \$5 added to the cost of purchase, affects hundreds, many thousands, who like myself do not habitually drink wine and spirits, but who with the inalienable right and free liberty of the subject has the

right to keep it in his house if so inclined, and yet to enable him to do so this outrageous charge is made of a permit for permission already given. I shall be glad to hear an expert's opinion of opinion from other correspondents, as this charge is I submit entirely ultra vires, and should be contested. WILL FERRIS, J. P.

COST OF NECESSITIES. To the Editor.—May I ask you for a little space in your publication to discuss the above, on which the welfare of so many of our people and the prosperity of the Island depends, and also on which the average citizen has very little information. For instance, the price of cattle on the hoof, also hops at the present time is about half of the price of one year ago. Wheat is reduced about 25 per cent, oats and other grains are considerably less than half the cost of a year ago on the great producing area with which Canada is so bountifully blessed. Has the price to the consumer here been materially reduced to correspond? Wool to-day can be had in some cases for the taking from the sheeps' back, hides are scarcely worth the freight to market, but has our clothing or shoes shown any substantial reduction in cost? Again take milk on which all our children and many others depend for their welfare and sustenance and can only be had at the war price of 13 pints for the dollar. Butter which we import from the prairies and elsewhere in the West is reduced from a year ago, but this does not seem to affect the milk producer here who seems selfishly to want to maintain his prices even when pasture is luxurious and cost of feed reduced to 50 per cent. The farmer or dairyman from up the Island will have his milk and cream reduced to meet outside competition, but to the consumer, no such change is apparent. We have recently seen public meetings held to protest against our legislators increasing their stipends. What about the cost of necessities of life to our people, and the possibility of enabling the purchasing power of the dollar to be increased? This would be one way of reducing the cost of living and giving sustenance to many who have little or no earning capacity at the present time. Some education is required by nearly everyone as to relative values, and if this Island is to receive the population to which it is entitled, these matters must be considered. It is in any way dangerous to talk about these matters? Have some people, vested interests which must not be interfered with? Is the moneyed man or toiler (even he complains of undue cost), the only one considered? Does not the cost of a necessary living enter into the consideration of most people? Also the greatest good to the greatest number? If we want this Island developed and to come to its own we must see to it that it be made a suitable home for the workman and farmer, and that he should at least have equal opportunity with the rest of Canada to spend his earnings where he can obtain most for them. The impending downward slide in wages can be successfully met if costs of necessities be reduced to correspond with world values. Has anyone else anything to propose in this regard? CITIZEN.

CLAUDIA MUZIO "The Darling of the Gods" AN ANNOUNCEMENT OF HER FIRST EDISON RE-CREATIONS. No. 82223 Tacea in notte (The night was calm and peaceful)—Il Trovatore. TWENTY-FIVE YEARS AGO TO-DAY (Victoria Daily Times, June 10, 1896.) The meeting held in the A. O. U. W. Hall last evening by the Conservative candidates could not be called an enthusiastic one. In fact, for a city meeting, it was a decided frost, as the boys would say. What little enthusiasm there was came from the opponents of the Government, who composed a majority of the audience. After a pleasant voyage of eleven days from Yokohama, the C. P. R. liner Empress of Japan, Capt. Lee, was this morning met near the Quarantine Station by the tender Rainbow. The contractors for supplies for the Jubilee Hospital having pressed for the payment of their accounts, the directors last evening decided to press the city for the payment of the annual grant. His Excellency the Governor-General was last evening elected honorary president of the Victoria Wheelmen's Club.

SPENCER'S WIN. Spencer's tennis team defeated the St. Barnabas players on Wednesday afternoon at the latter's courts. Spencer's won four out of the five matches. The results were as follows: Ladies' singles—Miss Mercer (D. Spencer) beat Miss Flint (St. Barnabas). Men's singles—Mr. Laver (D. Spencer) beat Mr. Durand (St. Barnabas). Mixed doubles—Miss Mercer and Mr. List (D. Spencer) beat Miss Flint and Mr. Talluck (St. Barnabas). Ladies' doubles—Miss Mercer and Miss Cullum (D. Spencer) beat Miss Flint and Miss Renouf (St. Barnabas). Men's doubles—Mr. Durand and Mr. Talluck (St. Barnabas) beat Mr. List and Mr. Laver (D. Spencer). Many Want Homes.—No less than five residents of Saanich last night put in applications to the Saanich Council for consideration should the municipality secure from the Dominion Government an additional loan for Better Housing. Local Council of Women.—The Local Council of Women will hold its final meeting before the Summer vacation on Monday afternoon, June 13, at the Arts and Crafts Club rooms, 202 Union Bank Building. Members are urged to make a special effort to attend this meeting.

All flour is not the same flour—it makes a heap of difference as to how the wheat is milled. Paragon Flour excels all other lines of flour on the market because of the special care—the expert attention—the careful tests—to which it is subject at every stage of the milling. We started out to make a Flour that would satisfy careful housewives. We are reaping our reward. From all over British Columbia, wherever Paragon Flour is sold, comes the message from housewives as to its superior quality—as to the ease with which they can now make bread that satisfies—the kind of bread that makes the children ask for another slice. Bread is the Staff of Life. We should encourage the eating of it in our homes—and one of the best ways is to use Paragon Flour—the flour made right here in your own province—the flour that has made a name for itself for real excellence—a household flour that will stand comparison with any flour on the market. All I ask is that you give Paragon Flour a trial. Yours Truly The Miller of PARAGON & VELVET FLOUR Made in Vancouver by the VICTORY FLOUR MILLS Limited 806 Beach Ave., Vancouver, B. C. Tel. Sey 3242-3243. PARAGON Puts the flavor in Bread. VICTORY FLOUR MILLS LTD. MAKES THE MOST FAMILY FAVORITE FLOUR.

It Is Ready to Eat

The whole wheat is the most perfect food given to man. But the whole wheat must be thoroughly cooked. The ordinary loaf of whole-wheat bread is coarse and indigestible. In making

Shredded Wheat

the whole wheat grains are steam-cooked, shredded and baked a crisp golden brown. No soggy, uncooked dough—just the pure whole wheat.

Two biscuits with berries or other fruits make a wholesome, satisfying meal.

TRISCUIT is the shredded wheat cracker, a crisp whole-wheat toast, eaten with butter or soft cheese.

MADE IN CANADA

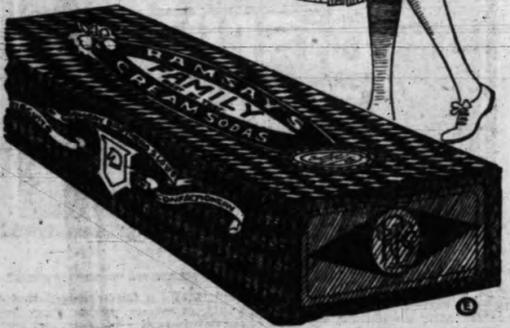

Ramsay's Family Cream Sodas

Edge is put on appetite and savor increased when you add to the meal Ramsay's Family Cream Sodas. There's zest in them. Made in B. C. Biscuits that come in almost

Double the Quantity—

at half the cost. It's the nutty flavor that tempts—the goodness of finest blended Canadian wheats. Look for the diamond-designed package in chocolate and white.

Relativity

is Professor Einstein's theory, and it's a good theory.

The relativity of The Times classified advertisements is quite O. K. also. They are related in many ways. There are the WANTS—those that want you and that you want. Then there are the RENTS—for rent and to rent. REAL ESTATE—to buy or to sell. In fact, there is no end to the classified advertisement relations.

You can learn a lot about the professor's theory by studying and using our classified columns. You may not find relations, but you'll find good friends—reliable ones.

Times classified columns are valuable. Try them out. Phone 1090.

AUCTION SALE OF SAANICH LANDS AROUSES INTEREST

First Sale of Kind on Vancouver Island; Homesites Are Feature

Next Wednesday afternoon Saanich Municipality will hold at Royal Oak a unique land sale, unprecedented in Victoria or the nearby districts, when Municipal Assessor Sewell will auction off fifty lots scattered over the municipality, the property of Saanich as a result of the tax sales held yearly since 1915.

Most of these properties are ideal homesites, there are a number of excellent camping spots in the collection, and a few blocks of lots which amount to small acreage.

Terms of payment have been set at thirty per cent. cash, the balance in monthly increments without interest, the taxes for the present year being included in the reserve prices set.

These prices are based on a careful scale, and the Council considered them to be below market value, even at the lowest levels real estate conditions have ever attained.

If inquiries at the Municipal Hall regarding the sale are to be relied upon, the sale has aroused great interest among homesite seekers, and a large attendance is expected.

EMPLOYMENT REPORT FOR DOMINION

Much Unemployment Is Still Reported Through Canada

Employment reports for the week ended April 29, were received by Dominion Headquarters of the Employment Service of Canada from 5,173 firms employing 583,970 workers. For the previous week these identical firms had reported total payrolls of \$24,473, the difference representing a decrease of 1.7 per cent. As the bulk of the contractions occurred in the iron and steel group, due to temporary shutdowns in railway shops, the decline was less serious than might appear. But the favorable indications of the previous three weeks were not continued, comparing the figures for the week under review with the base week of January 17, 1920, the index number of employment was 84.2. For the previous week it was 84.2 and for the corresponding week of 1920 it was 104.6.

Some Increases

Seventeen industrial groups registered increases over the previous week aggregating about 4,000 persons as against fifteen which reported aggregate reductions of over 14,000. The most noticeable losses were those in the iron and steel group already mentioned, the only other item of importance being a contraction, on a much smaller scale, in railway transportation. Downward movements of less importance occurred in coal mining, wholesale trade, textiles and railway construction. Gains were recorded chiefly in lumber and lumber products, with increase on a smaller scale in logging. Upward movements of less importance were registered in fish canning, water transportation, and metalliferous mining. The losses in railway transportation were confined principally to the Maritime Provinces, while those in coal mining were distributed between Alberta and Nova Scotia. Wholesale trade registered its decline almost wholly in the Prairie Provinces, and textiles in Ontario and Quebec.

The contraction in railway construction occurred in the Prairie Provinces. The gains reported in lumber and lumber products were principally from Ontario and Quebec, shared to some degree by the Maritime Provinces and British Columbia; the continued expansion in logging was most observable in Ontario and Quebec, affecting to lesser degree the Maritime Provinces and British Columbia. Increased activity in lobster canning was featured in the Maritime district. The gain in water transportation which affected both Ontario and Quebec, was a continuation of seasonal activity at summer ocean ports and on the Great Lakes. The expansion in metalliferous mining was due chiefly to increased expansion in gold fields and silver-cobalt-nickel-lead mining in Northern Ontario and British Columbia.

"TIZ" GLADDENS SORE, TIRED FEET

No puffed-up, burning, tender aching feet—no corns or callouses.

"Tiz" makes sore, burning, tired feet fairly dance with delight. Away go the aches and pains, the corns, callouses, blisters, bunions and chilblains.

"Tiz" draws out the acids and poisons that puff up your feet. No matter how hard you work, how long you dance, how far you walk, or how long you remain on your feet, "Tiz" relieves your feet—immediately. "Tiz" is magical, grand, wonderful for tired, aching, swollen, smarting feet. Ah! how comfortable, how happy you feel. Your feet, just think! for joy, shoes never hurt or seem tight.

Get a box of "Tiz" now from any druggist or department store. End foot torture forever—wear smaller shoes, keep your feet fresh, sweet and happy. Just think! a whole year's foot comfort for a few cents! Adv.

Headache

I. O. O. F. MEETING

IN NANAIMO ENDS

Local Odd Fellow Is Again Chosen Grand Secretary

Delegates to the I. O. O. F. Grand Lodge meeting in Nanaimo returned to-day, reporting a most successful meeting.

The new officers chosen during the session are:

Grand Lodge.
Grand master, T. D. Swanson, Kamloops; grand deputy master, N. J. Phillips, New Westminster; grand warden, D. H. Proudfoot, Nelson; grand secretary, Fred Davey, Victoria (elected by acclamation for the thirty-eighth consecutive time); grand treasurer, W. Watkins, Ladysmith; grand representative, R. E. Harrow, Vancouver.

Grand Encampment.

Grand patriarch, J. R. McKinnell, Nanaimo; grand high priest, Past Chief Patriarch Ashwell; grand senior warden, Past Chief Patriarch Turner, Trail, B.C.; grand scribe, Fred Davey, Victoria; grand treasurer, E. G. Cavalsky, Nanaimo; grand junior warden, Mr. Watkins, Rossland, B.C.; grand representative, Past Grand Patriarch A. T. Turvey, Rebekah Assembly.
President—Helena Cozens, Vancouver.
Vice-President—Elizabeth George, McKay.
Secretary—Frances Walker, Victoria.
Treasurer—Maud Woodcock, Nanaimo.

PRESENT STATISTICS OF CANADIAN PRESS

Number of Dailies in Canada Has Decreased

The Canadian Newspaper Directory Edition of 1921 shows that there are to-day 121 daily papers being issued, as compared with 130 last year; 981 weeklies and 318 monthlies. With the various publications issued at other intervals there are in all 1,500 publications being published and read by the Canadian public at the moment.

The 1921 edition has been issued by A. McKim, Limited—Montreal, Toronto, Hamilton, Winnipeg and London. To Messrs. McKim goes the distinction of being the oldest and largest advertising agents in Canada. They are authorities on the newspaper situation in every town and village throughout the Dominion and their annual publication—the Canadian Newspaper Directory—is the standard dictionary, a circulation rating in the Canadian Newspaper Directory is to the publishers and advertisers of Canada what a rating in Dun's or Bradstreet's is to the financial world.

Fourteenth Issue

The 1921 edition is the 14th issue of the work. Throughout the thirty years that have elapsed since the publication of the first edition, the agency of A. McKim, Limited, and the newspapers of Canada have been growing up side by side and the Canadian Newspaper Directory has built up amongst the publishers and advertisers a reputation for accuracy that causes it to be consulted with the same degree of finality as the standard dictionaries. A circulation rating in the Canadian Newspaper Directory is to the publishers and advertisers of Canada what a rating in Dun's or Bradstreet's is to the financial world.

The Directory describes in detail every town and village in the Dominion which boasts a newspaper of any description; it gives also the surrounding towns and villages that have no papers of their own and are obliged to look to the towns listed for their news of the world's happenings. The Directory gives the exact location of each town in its relation to other centres of importance; the railroads and waterways by which it is served; the telegraph, banking and express facilities; the public buildings, and the various industries in which the people of the town are engaged. It proceeds then to describe the various papers that are published, giving their period of issue, dates of publication, names of publishers, politics, subscription prices, number and sizes of pages, circulations and so forth.

Market Survey Maps

Another feature is the Market Survey Maps which have been issued as a supplement and which show each town, or city, in which a newspaper is published, the railway and distribution centres.

It will be found invaluable to the salesman planning his itinerary and to the shipper routing his goods. It is a business publication, with a thousand and one uses for business men everywhere, and may be obtained from the publishers.

IT IS CORRECT

To quietly lock the cellar door behind you when descending to sample a limited supply of home brew.

To hold a foreign language book right side up when pretending to read it in public.

To reduce the speed of your car to at least 25 miles an hour when joined on the road by a motorcycle policeman.

Fire destroyed the bank barn and seven tons of hay belonging to A. Gravelle, Romford.

EXTRA PANTS

WITHOUT ADDITIONAL CHARGE

Values In Tailored-To-Measure

Clothes That Stand "Right-Out"

And Proclaim Themselves

"World-Beaters"

If you have a friend who knows good fabrics, get him to visit one of our 42 Quality Tailor Shops with you. He will be amazed at the quality of the cloth we offer in Suits and Overcoats Tailored-to-Measure. He will confirm our statement that nowhere can you get similar quality at anywhere near our Known Standardized Prices.

Our big value only begins with the superior fabric quality. There is the master tailoring and the designing of your garment, the fit, style and finish—only at our big tailoring headquarters, where big things are done in a big way, can you get so much value at so small a price.

English and Scotch Woolen Co. of Montreal

More Quality Less Money

NO CONNECTION WITH ANY OTHER CONCERN IN CANADA

WE are thoroughly honest in saying that we do not believe our fabric values in Suits and Overcoats, with Extra Pants without additional charge, can be matched anywhere at less than double our Known Prices. We are making the comparison on the basis of this year's valuations, not with the price obtained by many last year.

Let us further emphasize in saying that without the Extra Pants we give with every Suit or Overcoat, without additional charge, that you are being offered the greatest bargain in Tailored-to-Measure Clothes in the history of this organization. Visit one of our 42 Quality Tailor Shops today and let us take your measure.

LADIES—Do you want good quality materials for your new dress or suit? We have thousands of yards to be sold at low as \$1.25 per yard. This is 1/4 regular price, with 54 and 60 inches. This is an exceptional opportunity to get materials of better quality than is usually found in women's fabrics. Take care of the children's needs.

TROUSERS—We are showing exceptional values in odd trousers from special trouser lengths. Many of these cloths are shown in very limited quantities, and are exceptional values.

WHAT THE CLUBS ARE DOING

Newspaper Best Advertising
That the newspaper is the most efficient medium for advertising was the opinion of Mr. George Cunningham, who gave an address on "Problems of Retail Merchandise," before the North Vancouver Kiwanis Club Tuesday night. He spoke of the many problems which daily confront merchants. The stimulation of sporting activities among employees, as is being promoted at present, was

he added, an important innovation which not only prompted a spirit of friendliness among employees but had a tendency to increase efficiency. The value of well-lighted stores was also emphasized by the speaker. "Be extravagant with light and you will be well repaid." People will certainly enter a well-lighted store in preference to an ill-lighted establishment. The fact that many new stores have opened up in Greater Vancouver during the past year was a sure criterion that business men had confidence in the future of the country. Mr. Cunningham strongly advocated the selling of Made-in-B.C. goods so far as possible. The importance of organizations where merchants are given an opportunity of getting together and talking over matters of business also constituted an important factor which would lead to successful business enterprise in a community.

Camp at Luncheon

For the purpose of holding a Summer camp for children at Point Grey the Vancouver Rotarians raised \$2,857 at their luncheon Tuesday Messrs. Dan Hockin, Oscar Olson, Archie De Long, Willard Kitchin and Dr. C. H. Woodman spoke on the need of the camp in helping children exposed to tuberculosis and the response was immediate. Members of the Canadian Press Association were guests of the Rotarians at the luncheon. Mr. G. D. Allaird spoke on the newly-formed fire underwriters' laboratories.

A GAMBLE IN BEAUTY

By NANCIBELLE HALE.
ONE LOVE STORY YOU NEVER CAN FORGET.

The Romance of Two Sisters, Both Beautiful, One Demure, the Other Vampish—With Thrills in Every Chapter and an Unexpected Denouement.

When Nina had gone, John went to the window and opened it.

The cool air swept into the room, obliterating the last traces of the exotic perfume that emanated eternally from the person of Nina. Not until the office was fresh and cold did John bring down the window with a crash.

He stood for a while looking at the door through which she had gone, as though expecting her to return at any moment.

Sure at last of his privacy, he sank down in the office chair and sat for a long time with his head in his hands.

In the last analysis he had no censure of Nina. It was himself that he despised and scorned.

He could not keep his thoughts concentrated on her, for a little white blur of a face with violet-blue eyes and a tender mouth came before his

"I don't deserve her," he said soberly, getting up to pace the room.

He realized that love was a changing quantity. He knew the constraint he had put on himself many a time when he had been alone with Varina. He would offer her nothing less than the best. Would she want what he had to give her—for she knew the searing fires through which he had passed?

"But I love her," he said aloud. "He saw her the way she looked across at him many an evening when the candles burned in their silver sockets, her light hair gilded with the flame, her face so delicately sweet."

"I ought to go to her on my knees," he told himself. "If she will take me, I will make her happy. I swear it!"

He plodded up and down the office while his head barked.

Love is a changeable quantity. While he had grown to know Varina, to watch her pretty, unconscious ways, her doubtful tenderness, she must have seen him too. Love is not static.

Had he ever given her any cause to love him?

He cursed himself for a dolt as he walked the room, finally analyzing coldly the characters of the two sisters.

Nina, flaming and flaunting like a great Oriental poppy, and Varina, one of those fairy-like cups of color that he remembered in his mother's garden—shrubby and lowly.

The one whose beauty caught one and made one cry out, the other whose fragile coloring gradually called forth the admiration of a wonderer.

"She's a flower," he thought, longing for words to express her charms. He was like a boy again, thrilling with the thought of this wonder-child, his wife.

Was there a second chance? "By Jove, Amory, what's up? Have you forgotten your letter with me at the University Club?" Jim Cather asked, slamming open the door and pounding John on the back.

"Sorry, old fellow," John said slowly. "He wondered how he could put in the time until he could see Varina."

CHAPTER XVII.

The little apartment was very quiet. Sally Lou had gone out to do the errands at the Rithet estate section.

She drew John's letter from the bosom of her dress to read it again. Then with a new decision she went over to the desk to sit down.

"Dear Adam," she began and then stopped.

She was about to make a decision that would affect her whole life. The course she chose now would decide her ultimate happiness.

"I've thought and thought since you left me last night of what I should do."

"You said that for the sake of prudence I ought not to ruin three lives. I'm just the same girl that you used to play with when we lived next door. Adam, you used to say then I took too many chances, that I didn't care. I don't want you to think that I'm afraid now."

"Don't think that I am going to stay with John because I ought; it's because I MUST. Perhaps I should be happier with you, Adam. I know how kind you would be, how thoughtful and how careful for me. But now I don't know whether happiness is so important after all. It's something deeper than that. Perhaps all women are like this. They feel there is only one man; that he may treat them badly, neglect them, be indifferent, but they would rather be ignored by him than worshipped by another."

"It's all been my fault, Adam. I thought we could be friends, sisters, perhaps friendships like a man and a woman can never stay where it is begun."

"I do like you so, I do admire you. I want you to be happy. Please don't think that just because you can't have me I am something better than other women. There are so many horrid things about me, Adam, that you have never guessed and that I have hidden away. I am jealous, selfishly jealous at times, although no one knows it but myself. When I tell you I've been

jealous of my own sister, you can see what I mean.

"There are other things that if you knew would make you laugh at the girl you think you care for—now, I want you to laugh and say to yourself, 'Oh, she's just a silly thing,' and forget me."

"It sounds harsh and I don't like to say it, but perhaps we had better not see each other now for a very long while. When you're an old, old man with very white hair and a great many rosy grandchildren—and I—who knows—"

"Your sympathy has been very sweet to me; sometimes I think if it hadn't been for you I wouldn't have had the courage to go on through these weeks. I don't believe there is any one else who knows—or will ever know—this chapter from my life."

"And now that it has all been my fault, if I hadn't gone to you for help, we would have been as we used to be—"

"Some way, I must work out my own salvation. Don't be sorry for me, for remember, I told you I would rather be unhappy with him than happy with any other man."

"Remember, you will understand this letter, as you have always understood me. Dear Adam, God bless you!"

VARIA AMORY.

(To Be Continued.)

ARRANGE COURSE IN CHILD READING

Teachers Learn to Teach Children What to Read

Realizing that it is an essential to teach children how to read, the Provincial educational authorities, in co-operation with officials of the Victoria Public Library have arranged to inaugurate a special course in children's literature for teachers who will attend the Summer School here in July.

A number of lectures on children's literature will be delivered at the Summer School by Miss Ellen Howe of the Faculty of the University of Washington, Library School, and Miss Gertrude Anders, manager of the Book Shop for Boys and Girls of Seattle, and formerly of the head of the Children's Department in the Seattle Public Library.

Teachers who will attend these lectures will be able to secure books on the subject under consideration at the Public Library here. Library officials are making special arrangements for the convenience of the teachers.

The thirty lectures which will compose the special course in children's literature will cover a period of three weeks and will include such topics as the following: Teaching children to get the most out of books; the use of collateral reading as a help in school lessons; magazines of interest to children; the Youngstown plan and how a school system has made reading a vital part of its work; current dramatics; development of children's literature; history or biography; essentials of the good story; "The Best of Books"; their authors; boys' and girls' clubs, and telling stories.

BOYS COMPLETE TRIP AROUND WORLD

Naval Brigade Cadets Have Interesting Experiences

Robert Nunn and Ronald Newell the first two boys in Canada to leave for sea as cadets, after training in the Boys' Naval Brigade, are back in this city this week. They were accompanied by their parents from Vancouver in July of last year and have since been around the world in one long cruise.

Leaving Vancouver for Australia their ship visited that country and afterwards turned for London, England, then to St. John, N. B., Auckland, New Zealand was next made via the Panama Canal then Wellington and Sydney and return to Vancouver. The boys were particularly interested in their training at sea and speak with delight of the experience of viewing the Panama and Suez Canals for the first time.

The two boys were the first to leave the local branch of the Boys' Naval Brigade and are highly spoken of by their officers. They have enjoyed the life and are keenly looking forward to the balance of their engagement—another three years. Although no formal reception could be got ready in time to greet the boys, the Boys' Naval Brigade in this city has made their former colleagues thoroughly welcome. Both boys have grown enormously and are in excellent health, being thoroughly enamoured of their new life at sea.

HE WHO LAUGHS LAST

"Penn'worth of cobbler's wax, please, sir!" said a tiny boy, as he stretched his hand to a level with the counter.

"Would shoemaker's wax do as well?" asked the facetious shopman. "Don't know," replied the small boy; "but I'll ask pa."

Five minutes later he was back again, with the announcement that shoemaker's wax would do all right. The shopman grinned.

"And did your pa tell you what the difference was?" he asked. "Yes, sir," said the little boy. "He said there's the same difference as between you and a monkey!"

Though small, the child was intelligent, and he made a record sprint for the door.

BRIEF LOCALS
Automobile Club to Meet—The Victoria Automobile Club will meet this evening at 815 Pemberton Building when club runs and other general business will be discussed. Secretary Robert R. Webb is anxious that there will be a full attendance of members.
Reappoint Ex-Recs.—The Saanich Council last night voted unanimously in favor of asking Ex-Recs. George McGregor to continue for another term as the Saanich representative on the Board of the Directors of the Royal Jubilee Hospital. Mr. McGregor is now chairman of the Hospital Board.
Council is Cautious—Pearing the proposed inter-municipal cemetery scheme might have an advantage to Saanich, the Municipal Council last night decided to refer the draft agreement to the municipal engineers for report, and also invite them to give careful examination to the proposals before the next session of the Council.
Order of Masses—The Loyal Order of Moose convention is now in session in Aberdeen, Washington, and a large delegation went from Victoria and Vancouver Island to back them up in their endeavor to secure the next convention for Victoria. If successful, it would mean that about 2,000 Moose will come here next year.
Music Examiner Here—The practical examinations held under the auspices of the Associated Board of the Royal Academy of Music and the Royal College of Music, London, England, will commence tomorrow and continue throughout next week and part of following week. The examiner is G. W. Mackern of London, England.

Lake Hill W. I.—There was a good attendance at the meeting of the Lake Hill Women's Institute, held last evening in the North Dairy School. Mrs. Mercer was in the chair. It was decided to hold a flower show on June 23. The North Dairy Parent-Teachers' Association will cooperate in this event and the institute will act in conjunction with the Parent-Teachers in conducting a picnic for the school children.
Says Co-operation Useful—J. C. Toohy, Seattle representative of the American Legion, who was to have been in attendance at the inaugural dinner of the British-American League here, was in the city Thursday and expressed himself as well pleased with the program made to date. The movement for greater co-operation between America and the Empire was one that would produce much good for the furtherance of the civilization of the world, he stated.
Furnished Photos—The Victoria and Island Development Association wishes to express its gratitude to John Wood, who as owner of the copyright of some of the finest scenes of Victoria and Vancouver Island in existence, gave permission to the Association to use the views for publicity purposes. When East recently, J. G. Thomas arranged to have the Canadian Pacific Railway use these features in the publicity matter they are issuing this year.

Story of "Mark Twain"—At the monthly literary meeting of the Emmanuel B. Y. P. A. on Monday evening, Miss Maybeth Sheppard gave an excellent paper on the life and work of "Mark Twain." As illustrations of Mr. Clemens' humor Miss B. Shampney and Geo. Francis gave readings, which were much enjoyed. The society is working hard to make the bazaar to be held June 18, in aid of the Burn the Mortgage Campaign, a greater success than any of the previous years. The arrangements are in the capable hands of Miss W. Sherwood.
Nurses Very Busy—According to a report submitted to the Saanich Council last night, the staff of the Saanich Branch of the Victorian Order of Nurses were extremely busy during May on routine business, although the municipal health record was good. Nursing visits totalled 175; pre-natal calls, 19; child welfare visits, 27; social services, 15; non-nursing calls, 23; investigations, 15; consultations at the Home, 14; school children inspected, 27; visits to children's homes, 22; health letters answered, 14; patients taken to Jubilee Hospital; 2; emergency dressings, 2. Four needy children were supplied with clothing.
Wait For Trustees Action—Asked by the Saanich Central Parent-Teachers' Association to make a grant towards the cost of the equipment for the school's dental clinic, the Saanich Council last evening deferred action until information as to the course favored by the School Trustees could be secured. In making the request President Hitchcox, of the Parent-Teachers' organization, said an offer of a complete kit at a low price had been received from one of the Victoria practitioners. The councillors thought that it might be well for the Association to appeal to the Provincial Education Department for aid. When making his appeal for a grant President Hitchcox stated that the Dental Clinic Tag Day held in Saanich on May 7 had raised \$355 above all expenses.

Dispute on Tugboat—Baptiste Ordano, mate of the S. S. Spray, was acquitted in the provincial police court yesterday on a charge of assaulting Henry William Wright, who failed to appear to supply the evidence. The accused stated the dispute had arisen on board the tugboat, as the informant was alleged to have not attended to his duties carefully while at his turn at the wheel. The accused was discharged. Constable Robert Owens appeared for the provincial police.

The Reason for success is service. This is especially true of the optical business. The making of glasses accurately, promptly and at prices that satisfy, are all reasons why particular people depend on our prescription service.

Hears Chamber Applications—His Honor Judge Lampman heard a list of County Court Chamber applications and some judgment summonses in the County Court to-day. There were no trials in the County Court to-day.
Objects to Evidence—Burt Lemon, called on remand on a charge in the city police court to-day on a charge of speeding, pleaded guilty to the charge, but challenged evidence which had been given yesterday by Constable Palmer. The hearing was remanded until Monday, when the police constable will be heard with the accused present.
Inspect Affected Area—In the riparian and water rights issue before Mr. Justice Clement in the Supreme Court, that of Peat versus Caulfield, the court to-day was taken in motor cars to Glen Lake, in the Esquimalt district, to inspect ground under dispute. J. S. Brandon and D. S. Tait are appearing for plaintiffs, with A. D. Crease and D. M. Gordon for defendants.

As a Policeman—Uncertainty and consequent confusion, arising out of the injudicious mixture of standard and local time is keeping the city police station busy these days. Jailer Hall stated that every morning between eight and ten o'clock he is besieged with inquiries as to the correct time. Several of the inquiries come from what Jailer Hall has grown to consider daily clients, who are always in doubt as to the accurate progress of Father Time.
Dispute on Tugboat—Baptiste Ordano, mate of the S. S. Spray, was acquitted in the provincial police court yesterday on a charge of assaulting Henry William Wright, who failed to appear to supply the evidence. The accused stated the dispute had arisen on board the tugboat, as the informant was alleged to have not attended to his duties carefully while at his turn at the wheel. The accused was discharged. Constable Robert Owens appeared for the provincial police.

CITY WARNS CLUBS NOT TO SELL BEER
Included in General Ban; Fear Enforcement Difficult
The city police have finished warning the owners of all local bars, cabarets, and clubs that they must stop selling beer on June 14, Acting Mayor George Sangster, Chairman of the City Police Commission, stated to-day.
The Acting Mayor added that the police had included in their warning all clubs where beer has been sold in the past, though the word "club" is not mentioned in instructions recently issued in this connection by the Liquor Control Board. Every establishment in which beer has been sold, he said, had been warned that it must discontinue the practice with the advent of the new liquor law.
Alderman Sangster said that his advice to genuine business men's clubs, which had existed as such for years, was to get rid of all their stocks of beer before the new law became effective. If it were found, as had been reported, that beer could be drunk in clubs, these respectable establishments could get in stocks of beer later. The clubs, he said, should await developments, but in the meantime get rid of their beer stocks.
Fear Revenue Drop.
If beer is sold in "clubs" the revenue which the cities are expecting from the new law will be seriously diminished, there is no doubt, Alderman Sangster remarked. "That is my chief anxiety over the whole matter—that the revenue which we were expecting from liquor will be very small indeed compared to our original estimate."

Whether bars would close down altogether following the descent of the ban on beer selling the police had not learned, Alderman Sangster said. He supposed, however, that their continued existence would depend upon their success in getting incorporated as clubs where beer drinking could continue.
Enforcement Very Difficult.
The civic authorities fear that if drinking is allowed in clubs and all bars become clubs, beer sale will be carried on in these establishments in spite of all the efforts of the police. The Liquor Control Board, however, has sent out instructions to the cities on this point, stating the law must be enforced as strictly in clubs as elsewhere.
The Police Board will meet to-night to discuss business to be introduced by Commissioner Joseph North. Mr. North will endeavor to get action on the cabaret problem by securing the early passage of the new Cabaret By-law. This measure has been shelved for the present by the civic authorities in order that they may "size up" the new liquor conditions before bringing in any cabaret legislation. Mr. North wants to start cabaret "clean up" immediately.

Y.M.C.A. WILL NEED DRIVE FOR FUNDS
Directors Set Requirements For Work of Year
The first meeting of the new association year was held by the Y. M. C. A. directors last evening with a full attendance of members. George McGregor was re-elected chairman by acclamation, while other officers were chosen as follows:
Vice-president, Dr. M. Raynor; recording secretary, H. B. Witter; treasurer, J. W. Spencer. The following were appointed chairmen of the working committees: Men's division, Herbert J. Knott; young men's division, James Corley; boys' department, Dr. M. Raynor; physical work, Dr. M. W. Thomas; membership, Wm. Erickson; executive and finance, R. W. Mayhew and Fred McGregor; house, R. G. Howell; foreign, R. T. Chave.
The budget was considered with the estimated expenditure at \$47,140. In addition to the sums obtained from fees it will be necessary to raise the amount of \$9,000 by subscriptions, it was stated.
Three new directors elected at the recent annual meeting were present for the first time, namely, Wm. More, Wm. Erickson and A. R. Merritt.
Messrs. Geo. McGregor, James P. Corley and R. T. Chave were selected to represent the Victoria Association on the Western Division of the National Council of the Y. M. C. A.
The date for holding the regular meeting of the Board of Directors was fixed for the first Thursday of each month.
A resolution of brotherly sympathy was tendered to Arthur Mallett, one of the directors, who recently lost his father.
The policy for the new year was considered, and the opinion expressed that the current season would show a great growth of useful work accomplished by the Y. M. C. A. The feature of the year's work to come is to be made the development of an all round programme for the young men's classes, from eighteen to twenty-five years of age.
In the past, development of the younger classes has been attended to, but the younger men's work has not been so particularly featured. This year the eighteen to twenty-five class are to be stirred up in every way possible. Special young men's secretary and executive leaders are to be chosen and a department maintained.
Seeking Missing Legatee—Inquiries made to the Provincial Police to-day state that a missing legatee, who was at one time resident in Victoria, is being sought by relatives in England, where a legacy has been bequeathed her on the death of a relative. The legatee's name is Mrs. Hardwick, Miss Agnes Herefordshire, England, is asking information as to the whereabouts of her sister, Mrs. G. Pritchard, who was at one time known to have been connected with the Victoria Y. M. C. A.
Information to the provincial police will be welcome as the missing woman is wanted in connection with the legacy.

Contrast the Mellow Violin Tones of the Sonora
With the Harsh, Discordant Scratching Of Other Phonographs
You've heard it, of course, that scratching or "surface noise" so noticeable when some phonographs are playing. You won't hear this objectionable sound when the Sonora is playing, for the Sonora has been designed especially to reproduce only pure musical tones.
Come to-day—See and compare the Sonora with the worst of its rivals.

Caps Grab Another By Hard Hitting in Tenth

Singles by Washington, Messner and Bankhead, Shoots's Double and Engle's Triple, Scored Four Runs and Beat Vancouver

Vancouver, June 10.—The crippled Beavers returned to the home yesterday after a very disastrous ten-day trip to Tacoma and Victoria, but the old jinx, which has been following them for the past two weeks was trailing high along and the Capitals took the first game of the series 6-2. Billy Purcell's gang, however, made the belated step ten innings to get a win.

Beavers Scored in First.

The locals jumped on Washington for a counter in the first inning. Wiggins beat out a hit to first base and scored on Mark Purcell's double to left field. Greco started something in the second when he doubled to center, but he was caught stealing third and the rally was nipped.

Tie Was Scored Up.

Blainingship's men tied up the count in the seventh. With one man out Bruck walked Hansen and Handley. Shanon then came through with a long two-base hit and Hansen scored. Handley went to third on a minute later Handley scored on a passed ball and the score was knotted.

Joe Hermeson led with a single, his third of the game, in the ninth inning, and was sacrificed to score, but was thrown out at third on Shanon's shortstop.

Caps Won by Hitting.

In the Caps' half of the tenth, Rego filled out for the first killing. Washington scratched a single through the box and Messner followed with a single to left. The visiting center came to bat and slamed a hot one down the first-base foul line, which hopped over Solomon's shoulder and went for a two-bagger. Washington scoring and Messner going to third.

Shannon Played Well.

Jimmie Shannon played a swell game around shortstop for the visitors. His stop and throw of the grounder in the first base by a step, was a beautiful piece of work.

Yakima Wines Again.

Yakima, Wash., June 10.—Cooper completely lined the Tacoma Tigers yesterday and Yakima won 5 to 1. Tacoma's only run came in the ninth, when Rebecke, hitting on Jimmie Shannon's fly to right field and let it roll to the fence.

ABE MITCHELL AND AUSTRALIAN MEET IN OPEN GOLF FINAL

Glen Eagles, June 10.—Abe Mitchell and Norman Foreland, and Joseph Kirkwood, the Australasian open golf champion, will contest the finals to-morrow in the thousand guineas professional golf tournament.

TWO AMATEUR BALL GAMES ARE ON TAP

Conservatives and Elks Meet in Feature Game at Stadium To-morrow Afternoon

Amateur baseball will be one of the chief attractions in sport circles to-morrow, when a doubleheader will be staged at Stadium.

The Feature Game.

Immediately following the Yarrow-K. C. game, the Conservatives and Elks will meet in a feature game at Stadium.

Joe Hermeson led with a single, his third of the game, in the ninth inning, and was sacrificed to score, but was thrown out at third on Shanon's shortstop.

Shannon Played Well.

Jimmie Shannon played a swell game around shortstop for the visitors. His stop and throw of the grounder in the first base by a step, was a beautiful piece of work.

V.I.A.A. WILL HOLD BIG GALA ON JULY 1

Club Decided to Specialize in Teaching Youngsters to Swim and Dive

In order to encourage the boys and girls of this city to take up swimming and other branches of aquatic sport the executive committee of the Victoria and Island Athletic Association has decided to issue a junior membership card for one dollar which will entitle the holder to all of the privileges of the club, including instruction in boxing, swimming, diving, water polo and gymnastics.

Kingston St. Tennis

Yesterday's results in the Kingston Street Tennis Club's handicap tournament were as follows:

COMMISSION IS APPOINTED TO CLEAR HOCKEY OF "TOURISTS"

Toronto, June 10.—It was announced yesterday that the Amateur Athletic Union of Canada had appointed the independent commission requested by the Canadian Amateur Hockey Association at the last annual meeting at Winnipeg to investigate the status of all amateur hockey players throughout the Dominion. The commission appointed is as follows:

Peacock Beat Victoria With Three Fast Goals

Local Stick-Handlers Held Vancouver's Tie Score in First Three Periods of Last Night's Game But Were Outdistanced in Last Quarter; Vics Tried to Come Back But Were Not Strong Enough.

When the midjet Vancouver home-fighter Peacock was allowed to run loose in the final quarter of last evening's game he fooled Torphy with three goals, which were enough to swing the tide in favor of the visitors and prevented the Vics from breaking their continuous string of losses. The local defence had played an airtight game up to this period. Peacock, however, slipped his check time and time again and to make matters worse the sun was throwing a dazzling stream of light right into Torphy's glimmers, which made it practically impossible for him to see the shots as they came at him.

UNCLE SAM WILL BE BIG WINNER IN CARPENTIER-DEMPEY FIGHT, JULY 2

New York, June 10.—Uncle Sam never drew on a boxing glove in his life, but he'll make more money than Jack Dempsey, Georges Carpentier or Tex Rickard on July 2.

Even For Three Periods.

For three periods the game was exceedingly close with Victoria having an equal amount of the play. In the first period with the score tie the Vancouverians tried to feed Angie McDonald with the hope of getting the deciding goal, but Bob MacKay kept the visiting sharpshooter away from the net, and he did not get a shot.

Big Score Expected.

It is expected that the scoring will be rather heavy in the match as the batsman are admittedly superior to the bowlers.

Victory Position.

Victory Position. Vancouver. Torphy goal. Davis Munro point. Pat Painter Powers cover point. McQuail J. Fitzgerald, l. defence. Gillander 45 secs.; 12 Vence. MacLeod Victoria. B. Fitzgerald, 4.00; 5. Victoria, Spillen, 1.10.

Announcement was made by a director of the United Services Golf Club that the total bond issue of \$25,000 for the new golf links at the Uplands has been fully subscribed.

CRUCIAL CRICKET BATTLE TO-MORROW

Victoria Superstitious Over Tent Being Inside Out; In-cogs Ready for Fray

Superstitious members of the Victoria Cricket Club are wondering whether a misfortune which overtook their last evening is a fore-runner of a disaster which may overtake them to-morrow afternoon at the Jubilee grounds when they met the In-cogs, last year's champions, in the most crucial match of the season.

Something Will Come Soon.

"Some announcement will be forthcoming within a very few days," stated Mr. Jones. "The application of the Vancouverians to join in the league with the Terminal and New West-Com on Monday night and early next week perhaps we will know just where we all stand."

Big Score Expected.

It is expected that the scoring will be rather heavy in the match as the batsman are admittedly superior to the bowlers.

Victory Position.

Victory Position. Vancouver. Torphy goal. Davis Munro point. Pat Painter Powers cover point. McQuail J. Fitzgerald, l. defence. Gillander 45 secs.; 12 Vence. MacLeod Victoria. B. Fitzgerald, 4.00; 5. Victoria, Spillen, 1.10.

FRENCH LEADING IN INTER-ALLIED GAMES

Mayence, June 9.—The standing of the inter-allied Rime forces in the Olympic games now in progress follow:

INDIANS HIT BACK HARD AT NEW YORK

Philadelphia, June 10.—Dyke's long hit scoring two men gave Philadelphia victory over Chicago in the ninth yesterday, 5 to 4. Dyke's in the seventh inning had tied the score with a home run accounting for two.

Cleveland Won Yesterday After Taking Five Defeats; Detroit a Winner

New York, June 10.—After five defeats Cleveland scored almost as well yesterday and retained the lead by defeating New York 14 to 1. Frank Baker, former home run king, hit his first homer of the season, scoring two runs ahead of him.

Something Will Come Soon.

"Some announcement will be forthcoming within a very few days," stated Mr. Jones. "The application of the Vancouverians to join in the league with the Terminal and New West-Com on Monday night and early next week perhaps we will know just where we all stand."

Slater's Crew Wins.

Boston, June 10.—St. Louis slugging and Boston errors gave the visitors an easy victory. Slater featured with Sox. Slater same inning Pitcher perfect day at bat and Leo, playing shortstop in the place of Gerber, fielded well. X-ray photographs to fielded well in three places as a result of being hit by Pitcher Jones on Wednesday.

National League.

St. Louis, June 10.—St. Louis yesterday went into third place by defeating Boston 5 to 2. It was the local's sixth straight victory and the third over the Dodgers. Hornsby in the fifth hit a home run with two men on base.

Chicago Bunched Hits.

Chicago, June 10.—Chicago bunched hits in the third inning yesterday and defeated Philadelphia 4 to 2.

Pirates Still Going Hard.

Pittsburgh, June 10.—Timely hitting enabled Pittsburgh to defeat Boston yesterday 5 to 2. The home team scored all its runs in the first six innings off Pillingim, who was replaced by Watson, who held the Pirates safe.

Rain at Cincinnati.

Cincinnati, June 10.—New York-Cincinnati game postponed; rain.

E.A. MORRIS

Limited TOBACCONIST, ETC. 1116 Government Street

TIME after time the test shown above was repeated with the same result. Valet AutoStrop Razor blades used over 30 days made good. They had been stropped regularly. That meant comfortable, smooth shaves. Ordinary, unstropped blades, used only 5 days, failed. That meant they would "pull" and scrape in shaving.

VALET AutoStrop Razor

—sharpen itself

It is made to strop itself. A fresh keen edge in ten seconds, morning after morning! Quick, easy, convenient. A year of smooth, cool shaves from the package of blades that comes with each set.

\$5.00 for Razor, Strop and Twelve Blades in an assortment of cases. Fancy Sets up to \$16.50.

AUTOSTROP SAFETY RAZOR CO., Limited, Toronto, Canada

JUNIOR BASEBALL

At the Beacon Hill grounds last night, the Centrals again ran out of a snag, and the Fairfields came out on the long end of a 12-10 score.

The pitching of Lorenz and Mawhinney was not of high order, and the hard-hitting Fairfield team hammered the Centrals' twirlers' offerings for 11 hits. Bothwell, the midge Fairfield twirler, was effective in the pinches, and was accorded good support in the field, while the Central infield went to pieces in the eighth, and the Fairfields trotted home with 4 runs. The Centrals managed to squeeze across two more runs in the

ninth, but the rally was too short-lived.

SPOONING

Dempsey Begins to Get Curious About Georges

Atlantic City, N. J., June 10.—Jack Dempsey displayed curiosity for the first time yesterday to learn the fighting style of Georges Carpentier. Dempsey sought this information from a newspaper correspondent who had just arrived from the French boxer's camp. He wanted to know if Carpentier fought from a crouch or hit from a standing-up position and the position from which he started the dangerous right-hand punch. When told Carpentier fought from a standing position Dempsey asked: "Is he hard to hit? If I can hit him, I can lick him."

Jack Learned Something.
Dempsey was told Carpentier was a sharp, accurate hitter and was liable to whip anybody he could reach with the first punch. The champion remarked that he had plenty of speed himself and was hitting with greater force than ever.

Manhasset, L. I., June 10.—Now another ring figure has come to bat for the Frenchman. Sam Hill, a writer, ran into Jimmy Johnston at the Leonard-Kansas fight over on the Jersey side the other night. Before the windup Jimmy dragged up under the grand stand to tell us what Carpentier is going to do to Dempsey. Jimmy, you know, is a promoter and a manager of boxers, and is very wise in the way of the ring and about the fighters and most anything he chirps when talking seriously is worth pondering over.

Johnston thinks Dempsey trains wrong and will leave half of his fight right at Atlantic City instead of taking all of it with him into the real fight at Jersey City. Says John:—

Dempsey May Be Stale.
That Frenchman is a fighter. He can't see the other man. He's a great hitter and a swell fighter, and don't you be surprised if he cops Dempsey in the more nervous of the pair, and trains too much. He was stale at Toledo, very bad for Brennan, and it will not startle me at all if he goes into the fight with Carpentier half baked from the Atlantic City run and deep attack boxing.

"Dempsey, being a proud fellow and a wonderful boxer, wants to show all his stuff every time he boxes. With an expert mob looking at him every day he performs at Atlantic City, he is certain to cut loose. Jack is only twenty-five and really needs but two weeks' work for the toughest

kind of a fight. He's working over a month. He trained thirty-one straight days for Brennan and almost got licked.

Georges Too Wise.
"I think that the reason Carpentier is showing in public for only two days a week is because he is too smart to overtrain. I don't think he does much when you fellows are not around. He'll take his best right in to the ring with him and I think it will be a whole of a fight."

A Plot For The Movies.

Paris, June 10.—Scandal cherches la femme will out. The Carnet de la Semaine, a French weekly, just out, "reveals" that a beautiful and charming young American blonde has met Georges Carpentier since the latter's arrival at his training camp at Manhasset, that she is a wonderful dancer and that her charms have made such a powerful impression upon the French boxer that his manager, M. Descamps, became greatly worried. Fearing that Georges' head might be turned by the alleged "affaire," and his condition generally might be harmed, Descamps, according to the story, hired detectives to trail the woman. They found she did not live at the address she gave Carpentier. And they found more, says the journal: "They found that she is a relative of Jack Dempsey." Le Carnet adds that Carpentier's wife wanted to attend the fight but that Descamps refused to let her accompany the boxer to America.

New York, June 10.—With a difference in weight of about 20 pounds when they meet in the ring four weeks hence, Dempsey and Carpentier will otherwise appear almost equal in build and stature. If both were to mix in among a few collegiate athletes, football players and carroms, probably neither would be picked out as being unusually big or formidable in general make-up. Dempsey stands 6 feet 1 1/2 inches in height, just two inches taller than the French champion, and while Carpentier will weigh about 170 pounds in fighting condition, Dempsey expects to enter the ring slightly under 200 pounds.

The champion's shoulders are broad while Carpentier's are sloping in shape, but otherwise the bodily measurements of the pair do not differ to any marked extent.

Are Well Matched.

Experts who have seen both men are satisfied that they will be well matched in speed and cleverness, but the majority believe that Dempsey will carry by far the heavier weight in his blows. Dexterity and suppleness are claimed as advantages for the Frenchman by his followers but at how hard a punch he can deliver still a problem.

Dempsey showed in his bout with Willard at Toledo that his blows possess enormous punching power, but his most recent encounters with Bill Brennan at Madison Square Garden did not demonstrate that he still retains the forceful punch necessary to successfully defeat a man of Carpentier's undoubted ability and cleverness.

Just how good the challenger is or how hard a blow he can land is problematical to the majority of American fight patrons, who have seen him in action. His only bout here, that with Levinsky in Jersey City last year, did not afford much of a line on Carpentier's prowess. Levinsky, always a clever boxer, made practically no serious effort to defend himself on that occasion and went down and out in an easy victim for the Frenchman in the fourth round.

Size Not Always Counts.
Nearly 30 years have elapsed since Queensberry rules and glove contests were substituted for the London ring code governing pugilistic contests for championship titles. In most of the bouts fought for the heavyweight championship since that change took place, there was a decided advantage in stature between the principals, but this did not always carry victory with it.

Beginning with the Corbett-Sullivan battle at New Orleans in 1892, the big Boston man was massive in proportion to the lithe, supple and extremely clever Californian, but the smaller man bore the big champion down and annexed the title in the 21st round. Corbett was one and one-half inches taller but 35 pounds lighter than Sullivan, who stood 6 feet 9 1/2 inches and weighed about 280 pounds.

Corbett and Bob Fitzsimmons were more evenly matched in height and age. Corbett was half an inch taller and four years younger than the Cornishman but he was nearly 30 pounds heavier than Fitzsimmons when the latter knocked him out and won the title at Carson City, March 17, 1897.

Two years later James J. Jeffries, of huge build and outweighing Fitzsimmons by fully 50 pounds, won the title in 11 rounds from Bob at Coney Island and five months later, November, 1899, Jeffries got a referee's decision over Tom Sharkey in a 25-round bout in the same arena. Sharkey was several inches shorter and about 20 pounds lighter than the then champion.

Corbett challenged Jeffries to see for the title but was knocked out by the bigger man each time, once in 23 rounds and the next time in 10 rounds.

Johnson Was Lighter.
Jack Johnson, the negro who defeated Jeffries at Reno, Nev., in 1910, was nearer to the big man's size than any of the other heavyweights who had met him for the title in the previous ten years. Johnson was three inches younger, one-inch shorter and only ten pounds lighter than the Ohioan. Johnson scored a knockout in 15 rounds.

Jack Willard, the giant Kanorian, was by all odds the biggest man who ever held the world's heavy-weight title. He stood 6 feet 8 inches, weighed 250 pounds and had decided advantages in every way over Johnson when he won from the negro at

GREAT FIVE-DAY ALTERATION SALE

Begins SATURDAY Morning

Hundreds of new Suits will come to this store soon, and space now occupied must be vacant when they arrive. In order to make room for these early shipments of Fall Clothing—and in order to acquaint the men of Victoria with our new selling policy—the following remarkable inducements are offered for five days only.

Suit Prices Are Cut to the Limit. Scores of Suits Must Be Sold. These Prices Will Do It.

1117 Government Street

"You'll Like Our Clothes" —Rgd.

Scrub—yet serve tea without embarrassment

You've been busy cleaning and scrubbing all morning and most of the afternoon when, quite unexpectedly, some old friends pay you a visit. Of course the scrubbing has to cease and you must prepare a little tea for your visitors.

What a pleasure it is to think that you can do your entertaining without embarrassment. You've been using White Swan Washing Powder and you are content to know that it does not make your hands rough or wrinkled.

This washing powder has no excessive alkali. This is prevented by the delicate Phenolphthalein Test.

The "bite" in White Swan Washing Powder is entirely eliminated, and no matter to what use you put it you will find it do its work quickly and efficiently.

At All Grocers, 35¢ & Large Package W. J. PENDRAY & SON, LTD.

Smooth hands the result of using WHITE SWAN WASHING POWDER.

Coarse hands the consequence of "bite" in ordinary washing powder.

WONDERFUL REDUCTIONS!

Vancouver Island News

GOOD WORK OF HOSPITAL REPORTED

Successful Convention of the King's Daughters in Progress

Duncan, June 9.—At the second day's session of the King's Daughters to-day it was reported that the number of circles was 22, while the circle members numbered 640, and in addition there were 46 individual members, making a total of 686. The amount of money raised during the year by the combined circles was approximately \$7,653.

Miss Leitch, the president, referred to the death of Mrs. Edgson, who since 1888 had been a member of the King's Daughters, also mentioning the late Mrs. Holmes, Mrs. McDonald and Mrs. Bone, the latter of Victoria, who had been a delegate to the

annual convention every year since Miss Leitch had been in office.

A motion was passed sponsored by Mrs. Lewthwaite, of Vancouver, and Mrs. Christmas, of Duncan, that a vote of appreciation be extended Miss Leitch for her excellent address. A silent vote of sympathy was then given by the convention to the memory of departed members.

Hospital Report.

The hospital report was presented by Mrs. Hardie. This showed 50 per cent. increase in the work undertaken by the hospital during the year 1920-21 over the preceding year. The number of patients treated was 425—an increase of 208 over last year, and the number of day treatments was 5,649 as compared with 4,354 last year. The financial receipts for the year were \$24,361.64. Miss Leitch expressed great satisfaction with the report. The report was adopted.

It was moved by Mrs. Hardie and carried unanimously that "We agree to the proposal of the executive members of Cowichan district that they should assume the payment of the existing mortgage, the same to be refunded by the circles throughout the Province."

District reports were then presented by the different members from Victoria, Vancouver, Westminister, Cloverdale and Cowichan, each giving a satisfactory account for the past year.

Mrs. F. G. Christmas reported as literary secretary.

The formal opening of the convention took place in the Odd Fellows hall, Wednesday at 8 p.m. The devotional exercises were conducted by the Rev. A. Bischoffberger, who chose as his text "Let Us Not Be Weary in Well Doing," which he considered particularly appropriate as these words had been bequeathed to a message to the local King's Daughters by their beloved director, one of the founders of the Order in B. C. He expressed his hope that the Order would continue to thrive, and that the work undertaken by it would be instrumental in furthering its growth.

The chair was taken by the president, Miss Leitch, and on the platform were Mrs. Hardie, the treasurer, Mrs. Henderson of Vancouver, Mrs. Elkington, Mrs. F. G. Christmas, Miss Wilson of Duncan, Mrs. Lewthwaite of Vancouver and Mrs. Currie of Surrey, and Mrs. Welsh of New Westminster.

Various Matters.

Miss Wilson presented a short address, extending a hearty welcome on behalf of the local circles to the visiting delegates, which was replied to by Mrs. Lewthwaite of Vancouver, Mrs. Hardie of Victoria and Mrs. Currie of Surrey, on behalf of their home circles.

The minutes of the last convention held in Victoria in 1920, and a resolution were read, and a resolution was passed that they be accepted and passed as read.

A letter of regret was read from the Silver Cross Circle, who were unable to send a delegate to the convention this year.

Expenses of Delegates.

The treasurer's statement was then read by Miss Henderson, and it was moved by Mrs. Sears that the report be adopted. A good deal of discussion took place between Mrs. Welsh of New Westminster and Miss Henderson with regard to the amount of expenditure incurred by the visiting delegates when attending the various conventions, and many opinions were expressed by members as to the amount to be allowed the delegates when travelling.

The expenses took a large part of the funds in hand, and were not easy to meet, but the only remedy suggested by the president was that the membership of the Order be enlarged. It was suggested that the treasurer's report be adopted as read, and this resolution was unanimously carried.

The roll call was the next proceeding, and Miss Morley informed the convention that out of fifty-three delegates fifty-one were present.

The Mortgage.

A resolution was brought up, which came in for a good deal of heated discussion between the members, whereby the King's Daughters of Cowichan District proposed to pay off the existing mortgage of

the Lower Mainland and Vancouver Island. Arbitration Begins.

Nanaimo.—For several months past a controversy has been waged between the Board of School Trustees and the members of the teaching staff and the Nanaimo Public Schools over the question of wages, the teachers demanding a substantial increase over the present scale, while on the other hand the Trustees in view of the decreased cost of living and the trend of the times, are asking that it be reduced.

Both sides of the wage dispute have been unable to come to any understanding, and as a last resort, it was decided to submit the question to a Board of Arbitration, the personnel of which has been named as follows: Chairman, Mr. Oliver E. Pearson, representing the Teachers' Association; Mr. G. W. Beattie, representing the Board of School Trustees; and Mr. G. W. Beattie.

The arbitration board has held its first meeting when the teachers' side of the argument was presented by Mr. Manzer, principal of the High School, assisted by Mr. Charles School, secretary of the B. C. Teachers' Federation.

The board will sit again this evening and hear what the Board of School Trustees has to say in defence of its attitude.

Northern Deanery.

Nanaimo.—At the annual meeting of the rural deanery of the Northern Deanery of the Diocese of Columbia, held at St. Philip's, Cedar, on Wednesday, June 1, Rev. G. Arthur Bagshaw, of Alberni, was nominated rural dean for a term of four years. Nanaimo, whose term of office had expired, Rev. Mr. Bolton, vicar of St. Philip's, Cedar, was chosen as secretary to the chapter.

West Coast Hospital.

Port Alberni.—The Port Alberni auxiliary of the West Coast General Hospital will hold the regular monthly meeting on Friday, in the Beaufort Hotel.

Girls' W. A. Garden Party.

Sidney.—Mrs. J. W. Storey, assisted by Miss Rosa Matthews and Miss Patty Simister, with Miss Margaret Cochran as pianist, have been busy training the small children who are taking part in the Girls' W. A. garden party on Saturday, at the Rectory grounds, Third Street.

The party will be staged on the long veranda, about forty children taking part. Master Billie Storey as King and little Miss Coline Cochran as Queen, with Mary Wilkinson as Maid of Honor, will be the principal characters, while the other children will be in costume to blend with every known nursery rhyme.

The members of the Girls' W. A. are offering special attractions, with various kinds of amusements, and plenty of refreshments.

Deep Bay Social Club.

Sidney.—A meeting is to be held in the old Institute Hall on North Cross Road to-night for the purpose of reorganizing the Deep Cove Social Club in preparation for next winter's festivities.

CLAM, THOUGHT TO BE EXTINCT, FOUND ON SIDNEY ISLAND

A new type of clam, or rather a type which was thought to be extinct, has been discovered on Sidney Island by C. C. Cochran, according to The Sidney Review. Mr. Cochran has brought some of these clams to Sidney.

The clam, which is called the "Goose Duck" by the Indians, has an average weight of five pounds, and is found at a depth of about three feet in the sand. Instead of being entirely encased in a shell it has two small shells attached, one on each side, resembling wings. Probably its appearance gives it the name of "Goose Duck." The meat of this clam is considered a great delicacy by the Indians, and is best cooked after being chopped up.

Owing to the scarcity of this species of clam, Mr. Cochran is of the opinion that it is of very little commercial value.

NAMES IS NAMES

Green Finn isn't a fish or a lobster. He is a colored man who lives in Richmond, Ky.

Women are better fellows than men. If it had been Lot who was turned into a pillar of salt, the betting is that his wife would have remained right there with him.

THIS story is discounted by cautious historians, but because it may contain some truth, let us offer thanks to Hadji Omar. We certainly owe a debt of gratitude somewhere for the discovery of coffee.

SEAL BRAND COFFEE

is roasted and blended for the discerning coffee drinker—the epicurean palate that distinguishes between the fine and finest brands of coffee.

Sold in 2 1/2, 1 and 2 1/2 lb. tins. Wholesale prices on free ground for Truckmen and parcelmen only.

CHASE & SANBORN, Montreal, Que.

Valuable Prizes.

The prizes for the different events will be valuable and the committee announce prizes to the value of \$200 will be given. Arrangements are being made with the B. C. A. A. for being made with the B. C. A. A. for permit for the day's celebration.

The day's activities will be wound up by a dance in Berquist Hall under the auspices of the Sidney Amateur Athletic Association with Ozard's orchestra in attendance. A big crowd is expected as in addition to the usual number of those who are sure to take it in and lots of other people will come out for the purpose of seeing the Cadets and looking over the camp. The Cadets are to arrive June 27 and stay until July 2. Sidney is putting itself out to make it pleasant for the young uniformed lads from Vancouver, Victoria and

Do not think of LUX as a cleanser for only georgettes, chiffons, tricolettes, crepe-de-china. The bubbly LUX lather means double life to anything you can wash—anything that pure water will not harm. Chiffon or linen, it's all the same—use LUX.

LUX free booklet, "The Care of Delicate Clothes" sent on request.

Lever Brothers Limited, Toronto

HONGKONG LETTERS TO COBBLE HILL

Cobble Hill, June 10.—It was with very evident pleasure that two letters from Hongkong were received here. The late Vicar of the Cobble Hill and the Anglican churches the Rev. J. H. T. Holman, now assistant chaplain at St. John's Cathedral, Hongkong, still shows great interest in his late parish. The Scout Master received an interesting letter telling of his enjoyment in his present work, which calls for work on week days as well as Sundays. There was an enclosure of \$10 for the Boy Scout Fund. Mr. Giesbrecht, the bank manager, also received a letter and a like enclosure for the new Community Hall.

The local baseball club has re-organized and commenced practice this week on the Whitehouse Ball Park grounds.

Domestic Day Sports.

Sidney.—The Dominion Day Sports Committee of the Athletic Association has the programme for Dominion Day celebration at Sidney well under way, and on that day the Memorial Park and Athletic Grounds will be formally opened by M. B. Jackson, K. C., M. P. F., who has kindly

consented to officiate. The first event will be the usual bicycle race from Victoria to Sidney, which the committee hopes to make an annual affair and will be once more a feature card of the day's celebration, the start likely to be made from Y. M. C. A. Building at 9 a. m., and will follow the usual course finishing at the old V. & S. tracks, Beacon Avenue.

The officials for the day will be as follows: Starter, Frank Smith; Judge, Geo. Hill, Jack Hamby; Announcer, Ed. Blackburn; Clerk of the course, Dr. Manning, Sgt. Major Wylie, Wm. Whiting, Bruce Burton, McLeod and Geo. Dickson. In addition to the track and field event the committee has arranged three stellar attractions. The first being pulled off at the local grounds between Fulford Harbor celebrated soccer team and the representatives of the Cadets Football Club. In the afternoon at 2 p. m. sharp the baseball clubs will take the field, the Cadets will meet the local ball flossers while the piece-de-resistance of the meet will be the lacrosse match between Sidney and the celebrated Nationals of Vancouver. When it is remembered that these two teams played a home and home series last year when the Nationals won 4 to 1 at Vancouver and on the return the local prides topped the score sheet by 4 to 2, after a most exciting game, the public may look forward to another contest between these teams with a great deal of expectancy.

Sports Programme.

The programme includes 100 yards open, 250 yards open, 440 yards open, 75 yards young ladies race, 75 yards race, 100 yards open to Cadets only, 220 yards also open to Cadets only, and 100 yards for officers, a relay race, where men a side, open to an athletic club taking part in the day's events and also to teams entered from the Cadets. A three-legged race, high, broad and hop step jumps and a tug-of-war fill out a programme that will entail some speed on behalf of the committee.

The High School Cadets Rifle and Drum Band will be on hand that day and add to the general entertainment and enjoyment.

Everything is being done to make the day a success, the refreshment booths and dining hall is being handled by the energetic ladies of the North Saanich Women's Club, and it is known to be successful in all their undertakings and this day they will no doubt repeat their previous successes.

The net receipts are to be used for a fund to put the park into shape for the future, fencing it and providing the necessities for the accommodation of spectators. The official opening of the park is the culmination of the patriotic work of the people of North Saanich by the provision of a memorial to those who went overseas and who paid the supreme sacrifice and no more fitting or lasting testimonial than one of this nature could be paid the young athletes for most of them were athletes of distinction who laid down their lives in a great cause.

Valuable Prizes.

The prizes for the different events will be valuable and the committee announce prizes to the value of \$200 will be given. Arrangements are being made with the B. C. A. A. for being made with the B. C. A. A. for permit for the day's celebration.

The day's activities will be wound up by a dance in Berquist Hall under the auspices of the Sidney Amateur Athletic Association with Ozard's orchestra in attendance. A big crowd is expected as in addition to the usual number of those who are sure to take it in and lots of other people will come out for the purpose of seeing the Cadets and looking over the camp. The Cadets are to arrive June 27 and stay until July 2. Sidney is putting itself out to make it pleasant for the young uniformed lads from Vancouver, Victoria and

VARIETY

To just what limit of self-sacrifice an artist will go in order to play a role he likes was strikingly illustrated when Paramount was searching for an actor to interpret the role of Tommy Sandys in Barrie's "Sentimental Tommy," which will be shown to-day at the Variety Theatre.

Gareth Hughes, a 22-year-old Welsh actor was about to begin a coveted starring engagement with Metro, in California and as he appeared to be the logical Tommy of all the young actors in the country, an offer was made to him to play the part, but there was one tremendous drawback: Gareth had been ordered to the hospital by his physician to undergo an operation for appendicitis. The operation can be done, wired back Gareth, "I just must play Tommy." He is the most lovable boy.

This operation did go hang for many months and Gareth also deferred his first opportunity to star in pictures just to appear as a member of the cast.

PRINCESS

"All the Comforts of a Home," now playing at the Princess, is a musical farce with plot, pep and originality to recommend it. The entire cast is as usual excellent, and the singing splendid. Miss Page and Mr. Aldern are appearing in characters well suited to their talents, and Miss Page wears some beautiful gowns.

James Coote is playing a colored porter which gives him an opportunity to appear before his many friends in an entirely new character. He is singing southern melodies delightfully. Arthur Elton and Miss Berkeley are also adding a splendid comedy touch to the play, and Miss Berkeley sings "His Wife" in a manner fit to frighten all young bachelors into a frantic state of bachelorhood.

ROYAL VICTORIA

"Man - Woman - Marriage," Allen Holubar's Associated First National Phillips at the Royal Victoria Theatre for the last time to-day, is a picture inspired by the progress of modern woman and a sterling tribute to the attributes woman has always possessed despite nonrecognition by the modern dramatist.

HAS NO PAIN NOW

What Lydia E. Pinkham's Vegetable Compound Did For Mrs. Baker and Mrs. Kiever

Vancouver, B. C.—"I am pleased to say that Lydia E. Pinkham's Vegetable Compound has done me a lot of good. I can now think about without the aid of a support and feel real strong again. A nurse advised me to take the Vegetable Compound and it is certainly helping me. It seems like heaven to be relieved after months of pain."—Mrs. H. W. Baker, 3874 10th Ave. West, Vancouver, B. C.

Albert C. N.E.—"I have taken Lydia E. Pinkham's medicine and good, headed by William E. Bennet, noted Chinese impersonator. As an added attraction there is "The Stage Carpenter." This is a playlet that does as we live on a farm. Seeps revolves about three streetly actor folk away from home on Christmas. There is a Christmas tree and telegrams from home. All this and the letter from the carpenter's little daughter supply a feast of sentiment, relieved by occasional light moments. Charles Gill & Company stage the play, which has been characterized as one of the best in vaudeville. Barton and Sparling are vocalists of extraordinary power who have an interesting programme which they present in a novel and effective way. Arthur Green and Doris La Fell have a musical act with a lot of interesting features. Eibel and Ward Shattucks are to be seen in "The Flower Shop," a combination of juggling, interspersed with song and some dialogue.

PANTAGES

If the Pearls of Pekin are the same kind of pearls that are depicted in the feature-comedy bearing that name, which is being shown this week at Pantages, then trans-Pacific passenger business is like a hot iron now on. There is a lot of plot and real mystery to the show—a great deal more than is ordinarily the case in musical comedies.

ROMANO

Matt Moore, the young Irish screen favorite, has appeared in a number of Cosmopolitan productions, which have scored great successes, but has never done more effective work than in "The Romano Theatre," which is at the Romano Theatre. Moore has the part of a famous novelist, who has been through a great tragedy in which he has had to make heavy sacrifices for the beginning of the picture play he is just beginning life anew in humble circumstances, but soon to arise to power, wealth and fame again and to win a wonderful love triumph.

THE PASSIONATE PILGRIM

"The Wild Goose," a Cosmopolitan Production which will be shown in the near future all over the country, is a Governor Morris story which was adapted for the screen by Donah Darrell. Albert Capellani directed the picture, in which Mary McLaren and Holmes E. Herber play the leading parts. Rita Rogan, an exceptionally clever child actress takes an important part in "The Wild Goose," since the story is centered largely about the child. It is the story of an artist, his wife and another man, with an unusual twist to this social triangle which has never been before on the screen.

WHAT'S IN A NAME?

Facts About Your Name; Its History; Its Meaning; Whence It Was Derived; Its Significance; Your Lucky Day and Lucky Letter.
By Mildred Marshall.
(Copyright, 1921, by The Wheeler Syndicate, Inc.)
F.V.

WHAT'S IN A NAME?

Though at first glance Fay would seem to be the product of modern fancy the name comes originally from old English and the Archaic Scottish. It means faith, and nowadays is used interchangeably with the proper name Faith. Etymological history has no record of Fay being used as a proper name in past centuries in England, though there are frequent instances of its use as an abstract noun.

WHAT'S IN A NAME?

That neither bath religion nor fact, says Herbert Spencer. Sometimes Fay is employed with the significance of faith or else indeed it seems quite possible that its frequent use in modern times during the prevalence of fanciful and poetic names may be due to the latter interpretation rather than to the old Puritan habit of bestowing an abstract virtue as a proper name. Very fashionable young ladies call themselves Fay.

WHAT'S IN A NAME?

The diamond is Fay's talismanic stone. It is said to bring her power, friends, riches and good luck. But to exercise its full power it must be given her as a pledge of love or friendship and not purchased by her. Wednesday is her lucky day and 5 her lucky number. The violet is her flower.

OLD COUNTRY NEWS

IRELAND

Unless the attacks on the military and police are discontinued, Dublin will have an eight o'clock curfew. The sudden death is reported of Dr. J. C. McWalter, the High Sheriff of Dublin.

Two men forcibly entered the Queen's Street Post Office in Belfast and took the sum of £25. Three Kilkenny County men have been sentenced to three years' penal servitude for harboring rebels.

Armed men entered the Bagot Street Branch of the National Bank in Dublin and took the sum of nearly £1,000. The Dublin shareholders of the Dunlop Rubber Company have appointed a permanent committee.

One of the three policemen who were injured in a bomb explosion at Warrenport, recently, has since died as a result. Armed and disguised men entered a house in County Clare and carried away this rate books and over £1,000 in cash.

John Ryan, a plainclothes member of the Military Foot Police, was shot dead by three men in a Dublin street. Patrick Shea, one of two men, who were mysteriously shot in Cork recently, has since died of his wounds.

G. M. COHAN SAYS HE HAS RETIRED

No Longer Operating as Theatrical Producer
New York, June 10.—George M. Cohan has announced his retirement as a theatrical producer. He called in all his road companies, he said, and would not start any others in the fall. Fourteen hundred actors would be affected by this decision, he said.

Good home made bread is the most palatable, wholesome and nourishing food in the world.

It is far more economical than any other staple food. If people would eat less meat and other heavy foods they would feel better and help to keep down the cost of living. Bread made in the home with Royal Yeast Cakes is more nourishing and appetizing than any other. Nothing healthier for children and grown ups.

A fresh, rosy complexion indicates perfect health. To secure this in most cases all that is necessary is to take one to three Royal Yeast Cakes a day for a few weeks.

Yeast is a food. It supplies the water soluble vitamins which the diet may lack. Scientists tell us that this vitamin is essential to good health. Yeast is highly beneficial in many cases in which the system seems to be run down. The yeast cakes simply add to the diet.

Dissolve a Royal Yeast Cake in fruit juices or mix it with cereal and milk, and take it at meal time. The chances are in a few weeks the complexion will be clear. Constipation and other ills will be relieved. For children reduce the amount to one-half or one-quarter of a cake with each meal.

Send name and address for free booklet "Royal Yeast Cakes for Better Health."

COURTESY AN ASSET

Courtesy is the flower of a generous nature. It is only by fighting down natural tendencies that a grouchy individual is enabled to appear as if he were gracious at any time. But it is not so with the man, bright of eye and light of step, who is willing to concede the variety of the world and of its inhabitants, and to admit that some other person's views may be as good as his own even if they are different, or perhaps diametrically opposed.

HOLD FINAL SHOOT

Closing the season at the Pimley & Ritchie miniature rifle range, in connection with the competitions of the Winchester Junior Rifle Corps, a silver spoon shoot was conducted yesterday by fifteen boys taking part.

The boys shot four targets each, the possible score being 100 points. Below are the scores of some of the boys, the first three being the winners of silver spoons: Ashley Gilman, 83; George Greaves, 81; Earl English, 80; C. Hickman, 80; E. B. Code, 87; Fred Wilde, 85; Ivor Hirst, 83; H. Harris, 77; H. B. Dier, 76.

The ordinary shoots have now been cancelled for the holiday season, and Friday nights between 7.30 and 9 o'clock will alone be used for this purpose. At the re-opening of next season a Winchester rifle, a special prize, is to be competed for by the members of the Winchester Junior Rifle Corps.

COURT OF APPEAL HEARS ORCHARD CASE

Damage Claim Arising Out of Sale Contract Involved

The case before the Court of Appeal to-day is that of Horsnell vs. Shute, which grows out of an action for damages for alleged breach of contract to sell land, an orchard, at Pentiction. The appeal is simply on the question of damages.

The present appeal is taken with a view to having the damages reduced, on the ground that they were awarded on a wrong principle.

The Court of Appeal yesterday afternoon dismissed the appeal of the defendant mining company in the case of Caske vs. the Premier Mines Company, which was published in yesterday's Times.

The appeal was from the judgment of Judge Young of Prince Rupert awarding plaintiff a workman, the sum of \$7 for wages. He and 22 others it was claimed had been induced to go from Prince Rupert to the Premier Mines on a prospecting party.

The Court of Appeal yesterday afternoon dismissed the appeal of the defendant mining company in the case of Caske vs. the Premier Mines Company, which was published in yesterday's Times.

'CLUBS' TO LOSE CHARTERS FOR EVADING LIQUOR LAW

Keeping Liquor in Clubs. The issue as to whether a club is a public or private place is a matter for the courts to decide, it was stated to-day.

The main issue to be decided narrows down to the nature of the dining and lounge rooms of clubs, as to whether they are to be considered in the same class as hotel dining rooms, which are specifically named in the liquor law.

Those who are interested in the establishment of "clubs" of the other sort, say that there is nothing to prevent their keeping a stock of liquor to be tapped as frequently as they desire.

In some cases it is proposed to make these "clubs" the best of the most convenient spot where members will keep their liquor stored and where they can have a drink any time during the day.

The speaker claimed that the situation could be mended and progress made only by moderation, fairness, conciliation and cooperation.

The speaker claimed that the situation could be mended and progress made only by moderation, fairness, conciliation and cooperation.

PLAN CHANGE IN BRIDGE SCHEME

City Finds Different Action Needed at Rock Bay. The Rock Bay bridge project will be discussed again by the City Council at its meeting this afternoon.

The next important work to be done in connection with the bridge project, Mr. Preston explains, is to install the centre pier to support the swinging span of the present Johnson Street bridge, which under the present scheme, would be installed at Rock Bay.

CO-OPERATION IN CANADA URGED

from these virulent forces in a day, a year or many years. New President Speaks. Quebec, June 10.—The fortieth annual convention of the Canadian Manufacturers' Association came to a conclusion with a banquet in the Chateau Frontenac last evening.

OBITUARY RECORD

The funeral of the late Mrs. Caroline Mowat, beloved wife of Mr. James Mowat, of 910 Cook Street, will take place to-morrow afternoon at 1:45.

SALSBUURY MURDER MYSTERY SOLVED

Man Arrested in Vancouver Makes Confession. Vancouver, June 10.—(Canadian Press)—Solution of the mystery of the murder of W. F. Salsbury on Georgia Street on the night of April 12 was reached late to-day when Alex. Paulsen, held at police headquarters for investigation, made a full confession of the crime, implicating Allen Robinson, who is at present serving a term of two months imprisonment in Oakalla prison.

According to his story, Robinson and he started out on the night of April 12 to hold up pedestrians. They reached Georgia Street, but, owing to the proximity of other people, allowed a couple of prospective victims to pass by.

SAYS LABOR AND CAPITAL MUST GET TOGETHER; START BUILDING BOOM

Now that lumber prices are "with-in easy reach of pre-war figures" wide building of wooden houses in British Columbia will commence when labor and capital get together on the wage question, according to The Western Lumberman, a leading organ of the lumber industry published in Vancouver.

Then almost overnight the bottom fell out of the market and except for excessive freights lumber prices are now within easy reach of pre-war figures and Mr. Average Citizen, during the past few weeks, has been well educated to the fact that lumber is a commodity that can now build at rock bottom prices.

Neither side appears to have much confidence in the other, but what we all want to know is where the public comes out in the shake-up? Winnipeg Cuts Wages. Houses are needed, hundreds and thousands of them, and time is slipping by.

More Co-operation Needed. It is not enough, this does not mean that all things being considered, the new scale is excessive, but home construction is being held up solely on account of high cost and the slight cut of 16c per hour makes no appreciable difference in the finished price of a dwelling, and as a conse-

RESTRICTIONS ON MILLED HAY

Idaho Claims Alfalfa Troubles Ended; Post Free, States Demur

In a discussion on alfalfa weevil troubles of farmers Charles A. Park, of Oregon, told the Western Quarantine Board here yesterday the main trouble to be due to "the small nurseryman who nibbles at the big cheese of nursery business, ignores weevil regulations and spreads the pest as the larger and more responsible nursery men do not, for their reputation's sake."

The debate arose after the presentation by W. H. Wicks, of Idaho, of a paper explaining the system of milling weevil infested alfalfa in use in Idaho. Mr. Wicks had declared alfalfa to be the most valuable crop grown in his State, and because of quarantine which had enforced in nearby States great efforts had been made to so treat the crop as to make it acceptable.

Milling was the solution arrived at, said Mr. Wicks, and suggested that quarantine be lifted against such milled product.

D. B. Mackie, of California, doubted the effect of milling unless the millers separated sacking rooms from all

connection with the hay receiving rooms of their plants.

Look to Millers.

"The lifting of the ban rests with the millers. If the quarantining is to be lifted, it should only be as to the product of mills which have been inspected and licensed as constructed to make impossible the access of weevil to the milled product," he said. Mr. Wicks accepted the suggestion, and amended his resolution. W. H. Lyne, of Vancouver, also approved the scheme.

F. H. Glond, Commissioner of Agriculture of Washington, declared the Idaho officials were entitled to thank for their frankness. "I know that, there are many feeders, in our State who have criticized us severely because they could not obtain Idaho alfalfa," he said, and pointed out that if the proposed easing of regulations was abused, "the ban would quickly go back again, tighter than ever."

Protection Hinted.

Don. C. Mote, of Arizona, said that his State was self supporting in hay and entitled to protect that condition by a wide quarantine.

Mr. Wicks retorted: "That point is not well taken. It is merely protection, and we have for years been trying to overcome such allegations as 'Oh, well, it's merely a trade war stunt to protect home industries,' when we have imposed pest quarantines."

Mr. Mackie took up the cudgels on behalf of Mr. Mote, stating, amid amusement, that the Idaho potato quarantine against California was on exactly the same basis, "therefore you come not with good grace to your alfalfa argument."

Mr. Park then declared alfalfa quarantine to be the most important reference of the day, and moved the reference of the whole matter to a special committee, this course being adopted.

A sixteen-year-old Chester, Pa., girl was very proud of her long hair, but while she took a nap on a sofa her pet goat got into the house and made a meal of the long tresses.

Because the city council refused to let motor fire vehicles go to fires at a speed of more than twenty-five miles an hour, the 150 members of the Alexandria, Va., fire department resigned.

Confronted by two suitors and having taken out licenses to marry both, a Stoney, N. Y., woman was unable to choose between the two and let her two children name the man to be their future stepfather.

VICTORIAN ORDER GIVEN FINE HOME

Saanich Formerly Invites Famous Nursing Body to Control Health Centre

The Saanich Council last night formally voted to turn over to the control of the Saanich Branch of the Victorian Order of Nurses the newly completed Memorial Health Centre at Royal Oak.

This action was taken after receiving the following outline of the uses to which the Victorian Order will put the building, the first of its kind in Canada.

Wide Activities.
"The Victorian Order proposes to use the building for maternity cases, headquarters for the nurses, baby clinics, lectures on health subjects, especially for mothers; training centre for nurses as long as the Provincial Government assists financially.

"Self-suitable arrangements can be made, the Board of Management propose to have a dental clinic and also to have minor operations performed, such as on tonsils and adenoids. We realize that unless this work is done a great deal of the work done in connection with the inspection of the school children is wasted.

"When suitable cottages are erected we hope to be able to look after aged and infirm couples who otherwise would be separated.

"As to the management of the building, we have of necessity to be guided to a large extent by finances. If possible we would like to see a doctor have his quarters at the Centre for the fact of having a doctor near the centre of the municipality would be an asset.

"Considerable discussion took place around the Council Board before the vote was taken, this being mainly as to the administration to be expected when the Council relinquishes control. Reeve Watson spoke for the Council when he declared the work of the nurses in Saanich had been worth thousands and thousands of dollars to our residents, the doubts of the councillors being as to the wisdom of the ratepayers in instructing the Council to undertake such an ambitious war memorial, as the Centre was expected to prove itself to be a definite asset to the community. It is probable that such a ceremony will be held in the near future."

ELK LAKE DEBATE COLLAPSES QUICKLY

Saanich Again Takes No Action to Share in Control of Tax Free Lands

"The city has not created the Elk Lake watershed a park, it is probable the Council will not do so. Victoria merely laid power from the Legislature to spend money on the area as a park," said Councillor Kingwell last night, when Councillor Ormond asked if action would be taken to aid in administering Elk Lake, as was suggested last week by Acting Mayor Sangster.

The debate ended suddenly when Councillor Simpson interjected, "We Councilmen have made with the appeal on the collapsed extraordinary traffic by-law."

This referred to an adverse decision by Magistrate Jay in the prosecution of a wood hauling contractor, and will be the subject of a state case by Magistrate Jay before the Supreme Court. Because warm weather is making the paved roads too soft for heavy traffic, it was forecasted last night that Saanich would shortly pass a permanent by-law prohibiting loads exceeding four tons on paved roads.

Walter Frank was sentenced to a year in Vancouver, B.C., reformatory for taking window cords from the window of a country church to use as plough lines.

A bonus of 2c a yard will be paid workers in the cloth manufacturing plant in Atlanta penitentiary to encourage prisoners to take an interest in the work.

In the six months ended February 28 United States banks lost over \$500,000 in hold-ups and burglaries.
