# LAWN GRASS SEED

## ELLIOTT'S CENTRAL PARK MIXTURE

We are the original introducers of the above brand of **LAWN GRASS SEED**, and with over **FIFTY YEARS' EXPERIENCE** and a constantly increasing demand for the **CENTRAL PARK MIXTURE**, we claim it to be the **Cleanest and Best Lawn Seed Ever Offered**.

**Price: Peck, \$1.00; Measured Bushel (about 20 pounds.), \$3.50; 100 lbs., \$15.50.**

## FRENCH OR EMERALD LAWN GRASS SEED.

We put up this mixture to supply the demand for a cheaper grade than our Central Park Brand, but we do not recommend it where the best results are wanted. **Price, per peck, 75 cts. Bushel (about 16 lbs.), \$2.50.**

## ELLIOTT'S "SURE CROP" LAWN SEED.

A good special mixture where price instead of quality is the consideration, and is guaranteed equal to any offered at the price. **Per Bushel (about 15 lbs.), \$1.25.**

## ELLIOTT'S "TERRACE" MIXTURE.

A special combination of grasses that produce strong spreading roots, recommended for sowing on terraces, embankments and similar locations, where it will produce and maintain a rich green turf throughout the season. **Price, per Peck, \$1.25; Bushel (about 20 lbs.), \$4.50**

# MUSHROOMS

The growing of mushrooms for the market is comparatively a new industry, and is meeting with more or less success throughout the country.

The demands for these succulents are on the increase each year.

They are easy of culture, needing only a temperature of from 55° to 65°, and can be grown successfully under greenhouse benches, in cellars, or in houses built for the purpose.

Above is a good illustration of a bed grown from our celebrated Milltrack Spawn.
