APO 301
Attn: Mil Govt Section

1. Forwarded herewith in compliance with the spirit of letter, Hqs I Corps, AG 004-BA, dated 13 January 1947, subject: "Deletion of Plants Designated for Reparations," is a petition submitted by the Shikoku Machinery Co., Ltd., in Niihama, Ehime-ken, requesting the exemption of one (1) bending machine (Code No. 13-16-764) inventoried for reparations under the Kawasaki Aircraft Industries, Akashi Plant. The petition is supported with recommendations by the Shikoku Commerce & Industry Bureau and the Governor of Hyogo-ken. The Shikoku Machinery (Kinkai) Co., Ltd. (formerly the Sumitomo Kikai K.K.) is designated as a key coal mining machinery manufacturer (Code No. C-7001).

2. This headquarters does not recommend the exemption of subject machine. Since the Shikoku Machine Co,m Ktd, us a jet mining machinery manufacturer it is recommended that subject company be permitted to continue operation of subject machine until reparations removal is effected.

1. Forwarded herewith is a petition submitted by the Shikoku Machinery Company for release of one(1) bending machine which is ear-marked for reparations. Subject equipment is owned by the Kawasaki Aircraft Industries, Ltd., of Hyogo Prefecture, and has been properly inventoried under the parent inventory code 13-16-764, in compliance with existing inventory instructions.

2. The inclosed petition is based merely upon the importance which this item bears on the future operation of the Shikoku Machinery Company as a key mining machinery manufacturer.

3. This headquarters is aware of the importance of the mining machinery production program, but is of the opinion that approval of this petition would set forth an unfavorable precedent, and would be detrimental to the over all reparations program.

4. It is the recommendation of this headquarters that the subject bending machine be retained for reparations claim, but that continued use of the machine, until such time as it is requested for reparations removal, be authorized.

1. Kawasaki Kokuki K.K., Suma Plant (Plant No. 25) is included in the enclosure to SCAPIN-1263 (11 Oct 46). Revised List No. 2 of Aircraft Factories.

2. Since above mentioned plant is a cement lined cave and in a dispersed locality, this office authorized the movement of 124 machines located in the plant to facilitate maintenance on these machines. The machinery is now located at the Kobe Plant of Kawasaki K.K. (Plant No. 22).

3. This office recommends that the Kawasaki K.K., Suma Plant be deleted from Revised List No. 2 Aircraft Factory, Enclosure to SCAPIN-1263. However, machines and equipment of the Suma Plant will still be subject to reparation.

1. It is the opinion of this headquarters that it is inadvisable to remove the Suma Plant of the Kawasaki Kokuki K.K. (Plant No. 25, Hyogo Prefecture) from the reparations list. While this dispersed location no longer contains machinery that is intended for reparations, the machinery which was in this plant has been inventoried under code number 13-25. It is believed that if this plant were now deleted, it would serve to confuse the status of the equipment of this plant, which logically should remain subject to reparations.

2. Your headquarters is authorized to release all portions of the Suma Plant of the Kawasaki Kokuki K.K. which are not essential for the purpose of custody and control of machinery designated for reparations.

1. Reason

This company has been engaged in collection of air-raided metal at areas devastated by the War since last December according to the order from the Japanese Government, but there has been no suitable place for the accumulation.

Accordingly the accumulated things have been left as they were collected at Gifu or Ogaki City.

If, however, the present state continues, it may bring forth some trouble against the rehabilitation of such cities, and, moreover, they must be accumulated to a fixed depot to avoid theft.

Such being the case, we want to rent the site mentioned in the subject from the Toyo Spinning Co., Ltd., the owner on condition indicated in the following.

So if you kindly permit us to do so with your favorable consideration, we shall be much indebted to you.

1. Confirming and amplifying telephone conversation of even date, further developments disclose that the sign posted in English on the pile of wing tanks stored at above factory was posted by local former members of the subject company upon instructions from officials of their Gifu, principal factory. The Gifu official apparently sought advice of Occupation troops at Gifu about the matter for the sign bears the words A.P.O. 25 apparently no ones target.

2. Briefly, there are from 100 to 400 wing tanks (depending on stage of completion) thrown in a heap in the corner of an other wise empty barn like building. In addition there are approximately 2 tons of nondescrip sheet stock and scraps all mixed together. The former Airplane Co. want to get rid of the tanks and scrap for the reason that the owner of the building wants to lease it to a new tenant. The completed wing tanks show signs of deterioration from improper handling and storage.

This Headquarters requests authorization to take the following action.

1. Inform the Airplane Mfg. Co. that it can remove the sheet metal and scrap.
2. Seize the completed and near completed wing tanks and turn them over to the local representative of the Home Ministry with the stipulation that they be used as fish net floats, or fish boat oil containers some similar needed civilian activity. This Headquarters would in such case secure a receipt from Home Ministry and forward a copy to the Enemy Property Section Headquarters I Corps.
3. Enclosed are blue prints and phtos of the wing tanks in question.

APPLICATION FOR RELEASE OF SOME PART OF LAND & BUILDINGS OF KAWASAKI AIRCRAFT, ICHONIMIYA PLANT FROM REPARATIONS CUSTODY.

15th January 1947

TO : Aichi Military Government Team

THRU : The Japanese Liaison Office, Nagoya

FROM : Kawasaki Aircraft Co. (Kawasaki Sangyo Co.), Ichinomiya Plant.

Permission is requested for release of the following real estate from reparations custody.

1. Description

Item No.	Name	Construction	Dimension
1	Warehouse 1 bldg with 6 rooms	Brick Building 1 storied	351 tsubo
2	Land	-	5,000 tsubo

2. Location: 2-1, 5-chome Hachiman-cho, Ichinomiya City, Aichi Pref.

3. Reason for Use: The want of warehouses is keenly felt by the Daido Woollen Textile Mfg. Co., in the Ichinomiya district where there is an industry center for textiles. Consequently the Daido in the hope of rectifying the inconvenience, wishes to use the above warehouse (Item No.1), and moreover construct new warehouses on the above requested land (Item 2) for storing their own products and also those of other mills at a reasonable charge.

4. Remarks: Almost all of the reperation machinery & equipment under reparation was removed to Okoshi Plant of Kawasaki Aircraft Co. and has been maintained in good condition. Few machine left in this Ichinomiya plant are kept in the separate buildings, and those buildings are separated from the aforesaid warehouse with fences so as to avoid any difficulties in the execution of the custody for reparation purposes.

June 19, 1946

Submitted by:

Yoshio Hatanaka,
Proprietor of Hatanaka Gumi
45 Hichido Nishimachi
Sakai City

To the Commanding Officer, Headquarters of I Corps, Osaka

Attention: Military Government Section.

Sir:-

We hereby request to be permitted to use the bath-house and dining-room belonging to the Sakai factory of the Kawasaki Aircraft Co. that we may make some alterations in these and offer them for the use of the war-sufferers, whose number is close upon 3,000, and who are now living in a dormitory called the "Taiwa Ryo", and are experiencing great inconveniences due to the lack of bath-house and entertainment facilities.

As for the bath-house, it has floor space of 50 tsubo, and 80 persons may take a bath per hour.

As for the dining-room it has a floor space of 180 tsubo, and when changed into a n entertainment hall it will have a capacity of admitting 600 persons, and there not only the war-sufferers but the general public as well as will be entertained.

These facilities will, when permission is granted, be operated by Yoshio Hatanaka as above mentioned.

Respectfully yours,

/s/ YOSHIO HATANAKA

TO: CG, I Corps, APO 301 (Kyoto)

1. During the war subject plant manufactured aircraft engine parts. This plant was heavily damaged and they have not applied for reconversion due to the extent of destruction.

2. Subject plant has 11 machines dispersed, which are being maintained and sheltered at the Nishia Aircraft Co.Ltd. The remaining machines are lying unprotected and unsheltered in the ruins of their former factory. This Headquarters has issued instructions to clean and preserve all negledted machines.

3. The custodian, Mr.ISAO AZUMA, was interviewed. Twenty-four hour guard is maintained in addition to a sign prohibiting all unauthorized personnel.

1. This headquarters concurs in the recommendation made in the final paragraph of the basic communication.

2. Inasmuch as only two machines remain in this plant, and these are to be moved to another factory of the Kawasaki Aircraft Company, it is felt that it is unnecessary to continue to list this plant on the inclosures appended to Operational Directive No. 5, your headquarters.

3. Particular attention is invited to the fact that this plant is listed by Operational Directive as the Sanri Plant, but is known to the Japanese Government and company officials as the Misato Plant.

SUBJECT: Report Requested by OI-1 (Hqs I Corps)
Name of Establishment - Kawasaki Aircraft Co. (Samri)

TO: Commanding General, I Corps, APO 301 (Kyoto, Honshu)

The Samri platn of the Kawasaki Aircraft Co. does not have a reconversion permit, hence the following report is made in accordance with the provisions of par 5c of OI-1 (Hqs I Corps) dated 14 February 1946.

a. This plant is not presently operating, and has not filed an application for reconversion.

b. Statement of condition of and measures taken to preserve machinery:

Two machines, condition unknown.

c. Statement of degree of compliance with OI-1:

Unknown.

d. Degree of completion of reconversion:

None.

e. Products manufactured:

Before War - Unknown
During War - Airframes
At present - None

f. Recommendations of this Hqs:

The Japanese Liaison Office informs us that the Samri plant listed in OD-5 is actually the Misato Plant. There are only two machines left and they are to be taken to the main plant. Hence it is recommended that this factory be removed from the restricted list.
