ANOTHER MOVE TO SECURE EX-KAISER

Holds Compensation Board in Manitoba Without Any Power

Chief Justice Says Legislature Violated the British North America Act in Creating Body for Purposes Set Out

Winnipeg, Jan. 24.—According to a decision rendered by Chief Justice Mathers in the Court of King's Bench, the Manitoba Workmen's Compensation for Injuries Act is ultra vires of the Provincial Legislature and the Compensation Board is shorn of its power as a judicial body.

The decision is based upon the opinion that the appointment of the Board was a direct violation of the British North America Act.

"Even if the Workmen's Compensation Board provided for by the Act is, as was argued, a superior court," said the Chief Justice, "its constitution, organization, jurisdiction and power are within the competence of the province, and where power of appointing judges of the superior courts is reserved to the Governor-General by Section 96 of the British North America Act, that power also would belong to the province."

Then is the Board a superior court? If it is in essence, no matter by what name it may be designated, in the opinion of the Chief Justice, the appointments made, their tenure of office and the payment of their salaries are by Sections 96, 99 and 100 of the British North America Act, reserved to the Dominion and all acts performed by a board whose members were appointed by the Lieutenant-Governor-in-Council would be without jurisdiction.

The judgment on the Manitoba Compensation Act naturally has raised the question of the legality of the British Columbia statute. Questioned on the subject this morning, Hon. J. W. de B. Farris, Attorney-General, said: "I would not attempt to give any opinion on the matter without first seeing the judgment as handed down in Manitoba. In any event it is only a decision of a single judge and can have no finality until decided upon by the Courts of Appeal and probably by the Privy Council. The British Columbia Workmen's Compensation Act was before the Privy Council last year in connection with the Princess Sophia case and, while it was not an issue, the whole scope of the Act was carefully considered and no objections regarding it were raised. I might point out also that the principal features of the British Columbia Act were taken from the Ontario Act, which was drafted by the Chief Justice of that Province."

HON. J. D. REID

GOES TO FLORIDA

For Health; Further Duties for Ministers Remaining in Ottawa

Ottawa, Jan. 24.—(Canadian Press).—Hon. J. D. Reid, Minister of Railways and Canals, and who has for a short time past also been Acting Minister of Public Works, is on his way to Florida, where he will remain for a few weeks in the hope of regaining his health, which has not been very satisfactory of late.

ZOO IN NEW YORK

BADLY IN NEED OF STRONGER LION CAGE

New York, Jan. 24.—Timid persons who contemplated a visit to the ice in Central Park were disturbed today to read in the report of Park Commissioner Gallatin that the "lion house is almost falling to pieces."

6,623 HOMESTEADERS REGISTERED IN 1919

Ottawa, Jan. 24.—There was an increase of over fifty per cent, in the number of homestead entries filed during the calendar year 1919, compared with the same period in 1918, the figures being 6,623 for last year and 4,376 for the year before.

CANADA HAS FEW INFLUENZA CASES

Some in British Columbia and Elsewhere, But No Epidemic

Cases in American Middle West, But No General Epidemic

Ottawa, Jan. 24.—(Canadian Press).—Information received by the Federal Department of Health from all the provinces in Canada, with the exception of Manitoba and New Brunswick, indicate that at present there is practically no epidemic of influenza in the Dominion. The Department recently wired to all the provinces to ascertain just what the situation was in regard to this disease, and the replies are reassuring.

COFFEE AND TEA UP AGAIN TO-DAY

Now Three Times Pre-War Price; Eleven Cents a Pound Exchange

Coffee went up three to five cents a pound to-day. Tea is also up about the same advance.

Exchange is heavier against coffee and other Brazilian and South American products than it is against the importation of products from the United States. In the United States Canadian money is at a discount of about 10 per cent. But in South America and most Spanish speaking countries, United States money is in its turn at a discount of from three to five per cent.

HON. J. D. REID GOES TO FLORIDA

For Health; Further Duties for Ministers Remaining in Ottawa

DR. W. Mayer, New German Charge, Now in French Capital

Paris, Jan. 24.—Dr. Wilhelm Mayer, German Charge d'Affaires, arrived here to-day. He was met at the station by Kurt von Lersner, head of the German peace delegation, and went directly to the German Embassy in the Rue Lille.

DR. COPE WILL USE PLANE IN ANTARCTIC

London, Jan. 24.—Dr. John L. Cope, commander of the British Imperial Antarctic Expedition which will leave England on the steamer Terra Nova next June for a five years' tour of exploration in the Antarctic, says an attempt will be made to dash to the South Pole by aeroplane.

Adriatic Problem May Be Settled in a Few Days

Rome, Jan. 23.—Newspaper opinion on Premier Nitti's journey to Paris and London is unanimous that the friendliest relations have been re-established with the Allies and that Britain, France and Italy can now work together for the attainment of mutual interests.

BELGIUM WANTS CANADIAN CARS AND LOCOMOTIVES

Ottawa, Jan. 24.—No arrangements have yet been made, it is authoritatively stated, for the establishment of a credit here for the Belgian Government for \$25,000,000 worth of locomotives and freight cars in Canada.

TYPHUS RAGING IN POLAND AND THE BALTIC STATES

Warsaw, Jan. 23.—Via London, Jan. 24.—Inferior sanitary arrangements on the Russo-Polish frontier are said to be responsible for the alarming epidemic of typhus in Poland and the Baltic States.

Mr. Lloyd George Regards His Future As Uncertain

Paris, Jan. 24.—"In less than six months it will be my turn," Mr. Lloyd George, Prime Minister of Great Britain, is quoted as having said when speaking of the retirement of M. Clemenceau into private life, as Premier Orlando had been forced to do some time before.

DON'T DELAY

**THACKER & HOLT**

Corner Broad and Pandora Phone 2922

**TRANS-ATLANTIC MAILS DELAYED**

Canada and Britain Served Poorly in Matter of Newspapers

London, Jan. 24.—(Canadian Press)—Canadian cables indicate a certain exasperation on the Canadian side at mail service delays. On this side, too, similar delay is experienced.

The first batch of Canadian newspapers for this year was delivered yesterday morning. One annoying feature is the singular gap in delivery. For instance, London has received Montreal papers of January 1, 2, 9 and 10. The intervening numbers will be turned in probably some time during the week-end.

Inquiries by the Canadian Press at postal headquarters bring explanations which seem largely to justify the postal officials here do not know. Curiously enough the Empire of France, which left Liverpool on January 17, reached St. John on January 15.

One Toronto cable instance that London newspapers dated December 27 arrived in Toronto on January 21. It is found that these newspapers, owing to lack of sailings, did not leave Southampton until January 4, one day behind the appointed time. They arrived in New York January 15. What happened to the papers between that date and January 21, when they eventually reached Toronto, the postal officials here do not know.

BUGS, FLEAS, FLIES, MOTHS, COCKROACHES, and all insects cannot exist in contact with Keating's Powder. They die—EVERY one. All insects, vermin carry disease—therefore KILL them with Keating's. Sold everywhere, 15c, 25c and 40c.

**LESS WHEAT FOR THE WORLD MARKET**

Rome, Jan. 24.—In its bulletin for January the International Institute of Agriculture says the prospective yield of the new wheat crop in Australia will be 12,000,000 quintals, against 22,000,000 quintals last year, but it is pointed out that Australia possesses stocks of wheat from previous harvests amounting to 1,000,000 quintals. The normal yearly consumption in Australia is 10,000,000 quintals.

The area under wheat cultivation in Argentina indicates a decrease of twelve per cent. compared with previous years. Argentina also has a considerable remainder from previous wheat crops in stock and process of shipment.

Regarding the autumn sowing for the 1920 wheat crop of the Northern Hemisphere, the bulletin says the most notable feature is the large decrease in the area under wheat and rye in America, amounting to twenty-three per cent. compared with 1919. The condition of the wheat and rye crop in December, 1919, was about normal.

**Famous Old Recipe for Cough Syrup**

Easily and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations by using the well-known old recipe for making cough syrup at home. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex (50 cents worth) from any druggist, pour it into a 16-oz bottle and add plain granulated sugar syrup to make 16 ounces. If you prefer, use clarified, molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

**NELSON MERCHANTS ARE ORGANIZING**

Nelson, Jan. 24.—After hearing an address last night from George S. Hougham, secretary of the provincial board of the Retail Merchants' Association of Canada, Nelson retail merchants decided to form a local branch of the association, and appointed a committee of seven to get a full membership. Mr. Hougham dealt with beneficial amendments to the Bankruptcy Act obtained by the Federal organization, and showed what had been accomplished by prairie retailers in the way of collective buying.

**J. W. ROSS CHAIRMAN OF CANADIAN Y.M.C.A.**

Toronto, Jan. 24.—John W. Ross, of Montreal, was elected yesterday to the position of chairman of the National Council of the Young Men's Christian Association, in succession to G. H. Wood, of this city, who retired seven years in office. John Watt, of this city, was elected treasurer of the National Council. The military budget of the National Council was announced as \$397,459. At the end of December there was a balance of \$400,000 on hand.

**TEACHERS RESIGN.**

New York, Jan. 24.—Low salaries drove 1,300 teachers out of the New York public schools during 1919, according to figures made public by William Ettinger, Superintendent. Mr. Ettinger declared that teachers were resigning every day, and in many schools classes were being hampered by lack of instructors.

**PILES**

Sample box free if you mention this paper and enclose 3c. stamp to pay postage.

**MARKET FOR PAPER IN SOUTH AFRICA**

But Freight Rates From Scandinavia Less Than From Canada

Ottawa, Jan. 24.—(Canadian Press.)—That better freight conditions would allow of great use of Canadian-made newspaper and book paper in South Africa is the claim of Robert Muir, manager of the Argus Printing & Paper Company, of Cape Town, South Africa, who to-day waited on the Trade Commissioner to ask his assistance in the matter.

Mr. Muir, whose company operates a chain of publications in South Africa, said that before the war the freight rates from the Scandinavian and the Canadian mills were the same, but now there was a difference of 1½ a ton weight in favor of the former.

**BOLSHEVIKI SET TWELVE-HOUR DAY FOR WORKINGMEN**

London, Jan. 24.—A dispatch to the Reuters News Agency says that the Bolsheviks are trying to force the population of Russia to work every day in the week, and have introduced a compulsory working day of twelve hours. All working classes are affected.

**NEW COAL RESEARCH PLAN IN ALBERTA**

Edmonton, Jan. 24.—One or two cents on every ton of coal mined in Alberta as a tax with which to provide funds for extensive research work with Alberta coals, is the proposition that developed at a meeting of the advisory board of the Alberta Industrial Association in the Parliament Buildings here yesterday.

The scheme has not yet been brought before the operators' association, but N. C. Pitcher reported that a number to whom it had been mentioned had expressed their approval, to the extent of even five cents a ton. Mr. Pitcher and Dr. J. M. Tory will present the matter before the operators at a meeting in Calgary, and if accepted the next step will be to ask the Legislature for permission to organize a thorough-going research department for the investigation of all kinds of coal and by-product problems.

**MEDALS GIVEN FOR SERVICE IN RUSSIA**

London, Jan. 24.—Honors awarded for service in North Russia gazetted yesterday included: Distinguished Service Order—Lieut.-Col. Claude Stubbard, of the Manitoba Regiment.

Military Cross—Capt. John Nesbitt, of the Quebec Regiment; Capt. Wm. Ramsey Peacock, of the Engineers.

Bar to Military Cross—Lieut. L. Jones, Welsh Fusiliers, formerly with the Canadians.

**WINNIPEG SOON WILL HAVE AERODROME**

Winnipeg, Jan. 24.—For use as a landing field and aerodrome site, a local aerial company has secured a five-year lease, at an annual rental of \$1,000, of forty acres on the outskirts of this city. Officials state that building operations will be started as soon as the snow melts. An aerodrome to house nine large machines has already been constructed, and it is expected it will be ready for use early in April.

**RELIEVES TIRED, ACHING MUSCLES**

Buy a bottle of Sloan's Liniment and keep it handy for emergency.

"If I only had some Sloan's Liniment" is often your cry when you are troubled after hours of suffering—you forgot it! Don't do it again—get a bottle to-day for possible use to-night! A sudden attack may come on—sciatica, lumbago, sore muscles, stiff joints, neuralgia, the pains and aches resulting from exposure. You'll soon relieve it with Sloan's, the liniment that penetrates without rubbing.

38 years leadership. Clean, economical. Three sizes—35c, 70c, \$1.40. Made in Canada.

**Sloan's Liniment Keep it handy**

**DJEMEL DROPS FROM TURKISH MINISTRY**

Constantinople, Jan. 23.—Via London, Jan. 24.—The resignation of Djemel Pasha as Minister of War, which was announced yesterday, followed the receipt of a note from the Allied Commissioners calling attention to repeated infringements of the armistice.

A dispatch received in Paris yesterday from Constantinople said: "Owing to a report by General Milne on repeated infringements of clauses of the armistice, the Allied High Commissioners in Constantinople sent a note to the Ottoman Government complaining against the attitude of the Minister of War, General Djemel Pasha and his staff. As a result, Djemel and his staff are resigned."

**ALBERTA FARMERS EXPRESS VIEWS**

Calgary, Jan. 24.—Nearly 1,300 United Farmers of Alberta cheered lustily the carrying of a resolution yesterday "to bring about closer commercial relations between the organized farmers of the several provinces of the Dominion."

Closer political relations also were strongly approved when the question cropped up at several points in the day's discussions.

A bone dry Alberta was another popular move, there being one dissenting delegate in a standing vote. Repeal of the supplementary revenue tax, regarded as a war measure, and a three-year basis for farmers' income tax, together with the annual plea for national control of all natural resources, also were strongly favored.

Resolutions on reciprocity with the United States and immediate removal of the tariff on necessities of life carried without dissent.

On the plea of many returned soldier delegates, the \$2,000 cash bonus scheme was rejected and hearty support given to the Great War Veterans' Association plan.

The placing of doctors in all rural districts was strongly urged by the delegates. A vigorous protest against any further increases in medical or legal fees was also registered.

**HOSPITALS ARE NOT "MILITARY" ANY MORE**

Ottawa, Jan. 24.—(Canadian Press.)—Further indication of the approach of complete demobilization is shown by a change of name of a number of Canadian military hospitals. With the exception of such institutions as will be required for the permanent force, and those which were not required by the Department, the majority of the hospitals hitherto directed by the Canadian Army Medical Corps have been transferred to the Department of Soldiers' Civil Re-Establishment and, with the change of management, the word "military" has been dropped from each title, showing that they have become civilian institutions.

Nine hospitals transferred to the Department of Soldiers' Civil Re-Establishment at Kingston, Montreal, Toronto, Winnipeg, Calgary, Strathcona, Esquimalt and Halifax will now be known as Sydenham, Ste. Anne, College Street, Deer Lodge, Col Belcher, South Edmonton, Esquimalt and Camp Hill.

**AN EXCELLENT MEDICINE FOR LITTLE ONES**

Baby's Own Tablets are an excellent medicine for little ones. They are a mild but thorough laxative which sweeten the stomach and regulate the bowels, thus bringing relief in cases of constipation, indigestion, colic, colds and simple fevers. Concerning them Mrs. L. J. Chasson, Paquetville, N. B., writes: "I have found Baby's Own Tablets excellent for my young baby in the case of constipation and colic and it gives me great pleasure to recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

**MANITOBA FINANCING.**

Winnipeg, Jan. 24.—The Provincial Treasurer, Hon. Edward Brown, announced yesterday that he had made arrangements in Chicago to obtain \$2,500,000 to pay a debt of the Province coming due in New York in February. The total amount of the debt is \$6,500,000, of which \$4,000,000 was disposed of recently.

Fifty Years of Progress

The Birth Place of the Mutual of Canada 1870

THE EVOLUTION of the Mutual Life of Canada is very well illustrated in the various offices occupied by the Company.

As the years passed removal to new quarters or additions to old offices were continually demanded, and even as we are writing the structure at present occupied by the staff is being enlarged by about 50% to accommodate the increasing business.

The first headquarters of the Company consisted merely of "desk room" in a conveyancer's office—then a few rooms were rented over a general store.

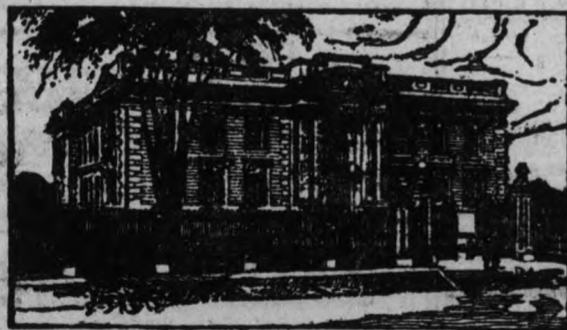

It was not until 1878 that the Mutual really had a "Home of its Own." The building shown in the third illustration was several times enlarged but was sold and finally vacated in 1912 when the present beautiful structure was completed.

Third Home of the Mutual of Canada 1878-1912

The present building is situated in a plot seven acres in extent. The land surrounding the building is attractively laid out, furnishing a fine setting for the building which is in modern style, and within is most perfectly adapted for carrying a maximum of business with a minimum of work and expense.

Policies in Force, \$170,000,000

Present Home of the Mutual of Canada

The Mutual Life of Canada Waterloo, Ontario

NOW REORGANIZING CANADA'S ARTILLERY

Militia Department Working Out New Scheme; Veterans Are Enthusiastic

Ottawa, Jan. 24.—The initial phase of the reorganization of the Canadian militia, has been entered upon by the issuance of an order by the Militia Department, authorizing the organization of the field and heavy artillery of Canada. Under this order it is proposed to organize and train during the coming year, fifty field batteries and fifteen heavy or siege batteries.

Practically all the militia batteries except those that fought through the war under their militia numbers and designations, are wiped out by this order, and batteries of the Canadian Corps artillery are substituted. In this way the newly-organized batteries will bear the numbers under which they fought during the war, except in a few instances where batteries were depot units and did not see service.

Enthusiasm. So keen has been the enthusiasm of the gunners who fought in France or Belgium to rejoin their old units that they fought with in the war, that offers have been received to form about ninety batteries. All the bridges and batteries will be commanded by officers who have served overseas, and it is expected that a very large percentage of the men will be gunners with overseas experience. It is also hoped to select a considerable number of junior officers from the non-commissioned ranks who served with distinction in the war.

Camps. In order that the batteries may not have to travel long distances to the annual training, it is proposed to hold three or four training camps in June. These possibly will be located at the Sarcee Reserve in Alberta, Camp Hughes in Manitoba, Petawawa in Ontario, and possibly one in the Maritime Provinces. The guns for the batteries are commencing to arrive from England, and will be issued in sufficient time to enable the batteries that have been designated to be armed and equipped for the June training camps.

District No. 11. The batteries for Military District No. 11, British Columbia and the Yukon, are: Fifth British Columbia Regiment, C.G.A., Victoria; No. 1 and No. 2 Companies, Victoria; Twelfth Siege Battery, Victoria.

Attached to Fifth British Columbia Regiment, C.G.A.—Fifty-eighth Field Battery, Victoria. Fifteenth Brigade, C.F.A., Vancouver—Thirty-first Battery, Vancouver, and 68th Battery and 85th Battery, North Vancouver and New Westminster.

Attached to the Fifteenth Brigade, C.F.A.—Fifth Siege Battery, Vancouver. Unbrigaded—32nd Field Battery to be located hereafter: (A) heavy battery, Prince Rupert.

District No. 12. The batteries for Military District No. 12 are: Tenth Brigade, C.F.A., Regina—18th Battery, Regina; 77th Battery, Moose Jaw; (A) heavy battery, Grenfell; 60th Battery, Weyburn.

Attached to Tenth Brigade, C.F.A.—(A) heavy battery, Regina; (A) Brigade, C.F.A., Saskatoon; 21st Battery, Saskatoon; 44th Battery, Prince Albert; 67th Battery, Battleford; (A) Battery, Yorkton.

Attached to (A) Brigade, C.F.A.—(A) heavy battery, Saskatoon.

District No. 13. The batteries for Military District No. 13 are: (A) Brigade, C.F.A.—Headquarters, Lethbridge; 20th and 39th Battery, Lethbridge. (A) Brigade, C.F.A.—Headquarters, Calgary; 22nd Battery, Medicine Hat; 23rd Battery, Calgary. (A) Brigade, C.F.A.—headquarters, Edmonton; 61st Battery, Edmonton; 78th Battery, Red Deer.

Attached to (A) C.F.A.—(A) Heavy battery, Edmonton. (A) To be numbered hereafter. In the case of all units renumbered the personal stores and equipment are continued in the unit under the new numbers.

ASQUITH SPEAKS OF RUSSIAN SITUATION

London, Jan. 24.—Speaking at Cambridge last night, Mr. Asquith severely criticized the Coalition Government's "zigzag" Russian policy of compromise, improvisations, inconsistencies and inconsistencies. He said a large community such as Russia must, for good or ill, decide its own form of government.

"KILL-JOYS"

Constipation, Headache, Colds, Biliousness ended with "Cascarets"

Nothing takes the joy out of life quicker than a disordered liver or waste-clogged bowels. Don't stay sick, bilious, headache, constipated. Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your breath bad and stomach sour. Why not spend a few cents for a box of Cascarets and enjoy the nicest, gentlest laxative-cathartic you ever experienced? Cascarets never gripe, sicken or inconvenience one like Salts, Oil, Calomel or harsh pills. They work while you sleep.

HIS LIFE RUINED BY DYSPEPSIA

Until He Tried "FRUIT-A-TIVES" The Wonderful Fruit Medicine

MR. FRANK HALL Wyewale, Ontario.

"For some two years, I was a sufferer from Chronic Constipation and Dyspepsia. I tried every remedy I heard of without any success, until the wife of a local merchant recommended 'Fruit-a-tives'.

I procured a box of 'Fruit-a-tives' and began the treatment, and my condition commenced to improve immediately. The Dyspepsia ceased to be the burden of my life as it had been, and I was freed of Constipation. I feel that I owe a great debt to 'Fruit-a-tives' for the benefit I derived from them."

FRANK HALL. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives, Limited, Ottawa, Ont.

VERNON WILL MAKE ANOTHER ATTEMPT TO ELECT COUNCIL

Vernon, B. C., Jan. 24.—City Clerk Edwards received a telegram yesterday from the Attorney General's Department authorizing him to issue writs for a new civic election here. Nominating day has been fixed for February 2 and polling for February 4.

REPORTED KOLCHAK'S LIFE IS IN DANGER

London, Jan. 24.—Confirming the report that Admiral Kolchak, former head of the Omsk Government in Russia, is a prisoner of the revolutionists at Irkutsk, The Daily Mail's London correspondent in a dispatch dated Thursday says the indications are that he will be tried and that his life is in danger. "Various reasons are reported," says the correspondent, "why Kolchak was surrendered to the Czechs, to whose protection he had been confided by the Allies, but it would be premature to accuse the Czechs of bad faith. All the Japanese troops have left Irkutsk, says the correspondent, and the evacuation of the Czechs is proceeding. General Semenov is facilitating the movement."

WINNIPEG VETERAN SHOOTS HIMSELF

Winnipeg, Jan. 24.—Despondent over lack of employment, J. A. Tribblecock, a returned soldier, shot himself at the Veterans' headquarters here last evening and there is little hope for his recovery. He was not shot entirely, for he left some for his relatives in Devonshire, England, whence he came on being discharged from the British army.

CALGARY-VANCOUVER AEROPLANE FLIGHT

Calgary, Jan. 24.—Captain Fred McCall, D.S.O., D.F.C., M.C., Calgary, will attempt a non-stop flight across the Rockies from Calgary to Vancouver in the early spring, he stated today. He will use a Bristol fighter machine which can carry two other passengers and which can travel at a height of 20,000 feet and a speed of 100 miles an hour. He hopes to make the trip in seven hours.

ONE TO BE HANGED.

Ottawa, Jan. 24.—Ivan Petkoff, sentenced to be hanged at Kitchener, Ont., had his sentence commuted to life imprisonment yesterday afternoon. His companion, Stocky Boyeff, is to be executed Monday next. The Government has decided not to interfere in his case with the sentence imposed.

POLICE AMALGAMATION.

Ottawa, Jan. 24.—A proclamation has been issued bringing into effect on February 1 the act amalgamating the Dominion Police and the Royal Canadian Mounted Police. The date for the act to become effective was to be set in this manner. The act passed the House at the Summer session, and Commissioner Perry, of the Mounted Police, has been in Ottawa for some time working out the details of the amalgamation with the Government.

CONVENTION IN PORTLAND.

Everett, Wash., Jan. 24.—The combined convention of the Pacific Milk Dealers' Association and the Pacific Northwest Association of Milk and Dairy Inspectors will be held February 3, 4 and 5 in Portland, L. Davies, president of the Inspectors' Association, announced today. Dairymen and inspectors from the Pacific Coast states and British Columbia will participate in the three days' programme.

HOLLAND'S ANSWER TO ALLIED POWERS

Text of Reply Which Refuses to Hand Over Hohenzollern

Paris, Jan. 24.—The text of the reply of The Netherlands Government to the demand of the Allied Powers for extradition of Wilhelm Hohenzollern, former Kaiser of Germany, is as follows: "By verbal note, dated January 15, 1920, given to the envoy of the Queen at Paris, the Powers, referring to Article 227 of the Treaty of Versailles, demand that the Government of Holland give into their hands Wilhelm of Hohenzollern, former Emperor of Germany, so that he may be tried. "Supporting this demand, they observe that if the former Emperor had remained in Germany the German Government would, under the terms of article 228 of the treaty of peace, have been obliged to deliver him. "In citing, as premeditated violations of international treaties, as well as a systematic disregard of the most sacred rules of the rights of man, a number of acts committed during the war by German authorities, the Powers place the responsibility, at least morally, upon the former Emperor. They express the opinion that Holland would not fulfill her international duty if she refused to associate herself with them within the limit of her ability to pursue, or at least not to impede, the punishment of crimes committed. "Special Character. "They emphasize the special character of their demands, which contemplate, not a juridical accusation, but an act of high international policy, and they make an appeal to Holland's respect for law and love of justice not to cover with her moral authority violation by Germany of the essential principles of the solidarity of the nations. "The Queen has the honor to observe, first, that obligations which, for Germany, could have resulted from Article 228 of the treaty of peace, cannot serve to determine the duty of Holland, which is not a party to the treaty. "The Government of the Queen, moved by imprescriptible reasons, cannot view the question raised by the demand of the Powers except from the point of its own duty. It was absolutely unconnected with the origin of the war, and maintained, and not without difficulty, its neutrality to the end. It finds itself then free to face with facts of the war in a position different from that of the Powers. "No Duty. "It rejects with energy all suspicion of wishing to cover with its sovereign right and its moral authority violations of the essential principles of the solidarity of nations; but it cannot recognize an international duty to associate itself with this act of high international policy of the Powers. "It in the future there should be instituted by the Society of Nations an international jurisdiction competent to judge in case of war deeds qualified as crimes and submitted to its jurisdiction by statute antecedating the acts committed, it would be fitting for Holland to associate herself with the new regime. "The Government of the Queen cannot admit in the present case any other duty than that imposed upon it by the laws of the kingdom and national tradition. "Now, neither the constituent laws of the kingdom, which are based upon the principles of law universally recognized, nor a respectable secular tradition which has made this country always a ground of refuge for the vanquished in international conflicts, permit the Government of Holland to defer to the desire of the Powers by withdrawing from the former Emperor the benefit of its laws and this tradition. "National Honor. "Justice and national honor, respect for which is a sacred duty, oppose this. The Netherlands people, moved by the sentiments to which in history the world has done justice, could not betray the faith of those who have confided themselves to their free institutions. "The Government of the Queen is pleased to believe that the Powers will recognize the good grounds of these considerations, which rise above any consideration of personalities and which seem to it so peremptory that they could not reasonably give rise to wrong interpretations."

DISAPPEARING TYPE.

"Do you believe a gun could be made to shoot around a corner?" "No, but the sight of a creditor often has that effect upon a man."—Boston Transcript.

Mrs. Taylor's Gingerbread

Mrs. Taylor uses "Pacific Milk" for all purposes and finds it most successful. Her Gingerbread recipe is a good one: 3 oz. butter 3 oz. sugar 12 oz. flour 8 oz. syrup 1/4 oz. ground ginger 1/4 oz. mixed spice 1/2 teaspoon soda 1/4 cup Pacific Milk diluted. Mix well and bake in a slow oven.

Pacific Milk Co. Ltd.

Big Bargains in Furniture

Our whole stock is a splendid collection of genuine bargains for the home furnishing. We invite you to visit us and inspect our stock before deciding on your Furniture purchases. We offer good, dependable Furniture at the lowest possible prices consistent with good business. Remember, our guarantee, Goods as represented or money refunded, goes with every article we sell.

WE GIVE A TEN PER CENT. DISCOUNT OFF REGULAR PRICES FOR SPOT CASH

Victory Bonds Taken in Payment of Purchases.

SMITH & CHAMPTON THE BETTER VALUE STORE 420 DOUGLAS ST. VICTORIA, B.C.

LIQUOR SEIZED.

Windsor, Ont., Jan. 24.—Licence Inspectors Mosseau and Stone missed the finest catch of the season, when eleven cases of whisky, packed in fish carts, were taken across the Detroit River by the Canadian Pacific Railway transfer train just three minutes before they arrived at the dock.

Revenue officers in Detroit were notified, however, and seized the liquor.

DEFENCE OF AUSTRALIA.

Melbourne, Jan. 24.—The Commonwealth Government has invited several noted Australian war leaders to frame proposals for a complete military defence scheme.

ELEVEN LOST LIVES.

Winnipeg, Jan. 24.—Eleven persons lost their lives in fires in Manitoba during the year 1919, the Provincial Fire Commissioner states in his report issued today. The total fire loss for the whole province was \$1,834,962, a decrease of fifty per cent under the previous year.

**THAT RELIEF FUND.**

When Mayor Porter was in Ottawa he urged upon the Government the advisability of diverting a part of the unemployment relief fund to the construction of permanent works on Vancouver Island instead of doing it out as is being done now. Sir Harry Drayton, Minister of Finance, declared it would be impossible to adopt this recommendation because the plans for the distribution of the fund had been made, the money had been allocated to the Canadian Patriotic Association, and could not be taken out of that organization's hands.

That is all nonsense. Nothing could be easier than to divert the major portion of the money now being doled out by the Canadian Patriotic Association on Vancouver Island to the construction of permanent works. All that is necessary is a conference between the Dominion, Provincial and Municipal authorities concerning the nature of the work. The machinery of the Province and municipalities would be available at once for the carrying out of any programme that was devised and work could be started in less than a week. We have pointed out several times that as far as road work is concerned the Provincial Department of Public Works is ready to direct such operations, which would be of immeasurable benefit to the whole Island.

In this country where there is so much to be done in the way of public improvements, and where it is possible to work in Winter as well as in Summer, the distribution of vast sums by the present arrangement is nothing less than a scandal. One of the Councillors of Saanich estimated yesterday that the amount which would be doled out in that district would be equal to the total expenditure of the municipality on road work for the year. Policies of this kind do more harm than good; indeed, in their ultimate consequences they are ruinous. Surely it ought to be possible to lighten them with a little statesmanship!

**EDWARD E. JENKINS.**

In the departure of Edward E. Jenkins, Assistant Northwest manager of the Foundation Company, Victoria loses a dominant figure in her industrial life. Men of his type are sterling assets to any community. His kindly disposition, genial personality, tact and diplomacy in the discharge of his important duties as directing head of the Foundation operations here made him universally popular.

The Foundation Company in carrying out its obligations achieved a magnificent record in wooden ship construction, which has not been equaled anywhere on the North American continent. The success attending the company's operations in Victoria is undoubtedly due in a large measure to Mr. Jenkins's business ability and impressive personality.

Labor to a man was solid for him, and that is saying volumes in these times of industrial unrest. Any grievances that may have arisen during the course of the French contract, and they were practically a negligible quantity, were tactfully and amicably settled by him. He also possessed the enviable gift of infusing his enthusiasm and zeal into every human section of the organization with which he was associated, a condition which was reflected in the fine achievements of the Foundation yards.

Mr. Jenkins is a big man in every way and will be greatly missed, not only by the host of friends he made during his residence here, but by the city generally in whose welfare he was an important factor.

**ITS "FOOL'S PARADISE."**

The yearly financial review of Sir Edmund Walker, President of the Canadian Bank of Commerce, always contains many striking and illuminating passages and the last one, given a few days ago, represents no departure from custom. We quote the following as a sample:

"While we and the rest of the world are failing to produce on a sufficient scale to provide for human comfort and to pay our debts—the price of everything has so increased, that although all clearing-house and trade returns show higher figures in money, these generally represent transactions based on smaller quantities of merchandise, and because we think in terms of dollars and not of merchandise, we are living in a fool's paradise."

Sir Edmund's remarks, of course, are limited to the sphere of matters financial, commercial and industrial, but it is not only "because we think in terms of dollars instead of merchandise that we are living in a fool's paradise." The world will have to think in terms of other things much less material but infinitely more potent and indispensable to its good, before it will have got out of its "fool's paradise." It will have to think more of the plain and homely virtues of honesty and unselfishness, of charity and tolerance. It will have to put principle at the head of its parade instead of dragging it behind.

A world in which the cult of "everyone for himself and the devil take the hindmost" finds such wide acceptance and application as it does on this particular sphere, needs to do a lot of thinking before it can emerge from the peculiar kind of paradise in which Sir Edmund Walker says it now exists.

**REDUCING THE DIFFERENCE.**

There is still altogether a very large discrepancy between the figures which represent Great Britain's imports and exports. It is satisfactory to observe, however, that the Board of Trade returns for the month of December disclose a total increase of exports of £75,623,000 over the preceding month and although the imports increased by £53,492,000 the adverse balance on the month's trading was reduced by £22,131,000. Since last May the excess of imports over exports has been reduced month by month and if Great Britain is sufficiently fortunate to escape serious industrial troubles it should be possible to expect a return to the pre-war day balance by the end of the year. Continued penalization of the pound sterling on this side of the Atlantic evidently is spurring the home producer to greater effort and stimulating search for a wider European market for his wares.

**SAANICH IN THE VAN.**

It is often acknowledged that little New Zealand is the legislation pattern factory for the whole of the British Empire. The assertion may be wide of the mark in many respects; but there is a lot to be said in support of the suggestion. The city of Victoria has a neighbor very much of New Zealand's stripe of progression. With one-fifth of the city proper's population the municipality of Saanich possesses a brand of civic vim that might well be emulated by more populous and thriving communities. The latest suggestion which comes from our near neighbor is one embracing a proposal to acquire the Victoria & Sidney Railway line for operation as a municipal utility. Ward Two ratepayers have gone as far as to urge upon the Saanich Council the advisability of an inquiry into the feasibility of the proposal. How such a plan, if consummated, would affect the present arrangement with the Canadian National system is not indicated. With its usual enterprise, however, we presume Saanich could be counted upon to find a way to surmount any ordinary obstacle.

Very fortunate that quake did not occur on the day scheduled by Prof. Porta for the end of the world. The Professor would have enjoyed in Victoria and vicinity a widespread, if very transitory, respect as a true prophet.

Twelve months ago the Dominion Government adopted a House Committee's Report that the official printery at Ottawa be re-organized and that about 400 superfluous employees be "let out." A dispatch from the national capital yesterday declared that ninety will go on February 1. The Dominion Printing Bureau was one of Canada's champion sink-holes for public funds.

British Columbia's moving picture censor has decreed that the filmed version of Vancouver's Christmas rush on the Government liquor store would not be good for "consumption" in the Terminal City. It's a safe bet the film will have plenty of circulation outside the jurisdiction of the censor.

All the sunken German warships which now repose in Davy Jones's locker are to be blown up and not raised. This is quite a fitting end; the negotiations over payment for the damage already have caused sufficient nuisance to the Allied nations without inviting a scrap over their further disposition.

Paisley Liberals have selected ex-Premier Asquith to contest the forthcoming by-election. Mr. Asquith is confirmed in his view that the Liberal party should maintain its own independent organization; but he apparently believes after all he might be able to preside over its destinies better were he to prove that there is "life in the old dog" yet.

It is just Mr. Bowser's luck that he should tell the people of Chilliwack that the Sumas Reclamation plan was a "busted" Liberal promise about eight hours after the Oliver Cabinet had decided to call for tenders and commence the work. We presume the speech had been carefully cured and could not be altered without impairing its flavor.

Ottawa dispatch says it is practically certain the Assistant-Postmaster at Vancouver will be promoted to the Postmastership in succession to R. G. Macpherson. That will be good business. The Government will not go wrong if it sticks to that policy in filling vacancies in the public service.

Coal Creek miners quit work because the local President of the O. B. U. was ordered from the train for refusing to pay his fare. Thus was a horrible act of tyranny on the part of the train conductor appropriately resented!

Nobody will suggest that the Irish question can be settled by force. There may come a day, however, when the Royal Irish Constabulary will intimate that its existence as targets for Sinn Fein revolvers and shotguns be leavened with authority to do a little shooting on its own account.

**GRETTA GREEN A POWDER PLANT.**

Great Britain displayed an astonishing lack of respect for romantic memories when, during the war, it converted Gretna Green into a huge powder plant. In 1753 England forbade marriages under irregular conditions; so the anxious couples scurried across the border to Gretna Green and complied with Scottish law. The custom continued until 1856 when a law was passed requiring twenty-one days of actual residence in Gretna in order to make the union legal. Robert Elliott alone is said to have officiated at over 3,000 such marriages. And the scene of all this had to be wiped out for the sake of a factory for the manufacture of high explosives. The Parliamentary Secretary states that had England purchased the explosives from America the additional cost would have been millions of dollars. Possibly he knew that it was at Gretna Green that Achim von Arnim laid the scene of his love story entitled "Die Ehenschmiede," in which he described, when Napoleon was threatening to invade England, a submarine modern in all its fixtures. But he certainly could not have remembered that it was Lydia Languish in Sheridan's "Rivals," whose heart was broken on finding that she could not make the journey to Gretna. England might have set up her plant somewhere else.

**PREMIER OLIVER**

**CONFINED TO BED**

Suffering From Fatigue, He Is Resting Up For Coming Session

After attending to his correspondence this morning, Hon. John Oliver returned to his home and retired to his bed. Premier Oliver is not ill, but is suffering from fatigue resulting from his labors in preparation for the session of the Legislature, which will commence next Thursday. It probably will remain at home over the week-end.

**FORM YOUNG PEOPLE'S ADVISORY BOARD**

To Co-ordinate Work of Various Organizations of First Presbyterian Church

The first of a series of "Get acquainted" socials at the First Presbyterian Church was held during the past week. These affairs which will be held monthly are to be a great means of promoting social intercourse and fostering a spirit of true friendship and Christian fellowship. Although the social was arranged at short notice there was a large and enthusiastic gathering. The programme consisted of a series of games chosen with the object of getting each member acquainted with the other. These caused great amusement and fully fulfilled their object.

After a buffet supper which, under the supervision of Miss Harkness, proved one of the most successful items of the evening, a business meeting was held for the purpose of organizing a Young People's Department Advisory Board. The object of the Board will be to co-ordinate the work of the numerous young people's organizations of the church with a view to more cooperative effort along spiritual, physical and social lines. By a unanimous vote the meeting favored the formation of this Board which with the Young People's Director, Aubrey Hoyle, as chairman, will consist of representatives of each of the Bible Classes, Christian Endeavor, Social Committee, Recreation Room Committee, Sunday School and Athletic Association. A very hearty invitation is extended to all young people not yet associated with the church to come and join this all-round programme.

**WILL SEEK FURTHER DATA ON SUBJECT**

Allowances to Be Issued to Imperials on Repatriation

No detailed information accompanying the schedule having arrived, Major D. Macdonald has interested the military authorities in an application to Ottawa to elucidate the following allowances to be made in connection with the repatriation of imperial soldiers and dependents:

- Officers—Thirty shillings per diem as from 5th day after arrival in Canada.
- Officers' wives—Twenty-three shillings and sixpence per diem as from 5th day after arrival in Canada.
- Officers' children under 12—Half of wives' allowance.
- Other ranks—Fifteen shillings per diem as from day of arrival in Canada.
- Wives of other ranks—Fifteen shillings per diem as from day of arrival in Canada.
- Children of other ranks under 12 years—Half of wives' allowances. (Sgd.) E. E. CLARKE, Colonel.
- Forms, period of duration, and so forth will be issued as soon as the information has been received from Ottawa.

**COFFEE AND TEA UP AGAIN TO-DAY**

The largest coffee house in the city has been searching for supplies, and has telegraphed all through the East. No available coffee is to be found anywhere. This Victoria house has now adopted the policy of carrying no more coffee than absolutely necessary to meet current trade demands, so that the moment coffee prices begin to drop they will be able to give their customers the advantage. If they were caught with large stocks and prices fell, they would either have to take a great loss or unload or seek to unload on the public at the high price. Besides the coffee itself tin and all the materials necessary for its handling have increased enormously.

**A TORONTO DEATH.**

Toronto, Jan. 24. — Frederick Darch, Supreme Secretary of the Independent Order of Foresters, widely known in fraternal circles, "dropped dead" here yesterday from heart failure. He was born in London, Ont.

**EARTHQUAKE RUDELY SHOCKED VICTORIANS**

(Continued from page 1.)

The earthquake moved from south to north according to the Superintendent as the shocks were felt, here before they were reported in Vancouver and Nanaimo. The earthquake was purely local, its effect being confined to the southern portion of Vancouver Island, and the Mainland bordering on the Gulf of Georgia and Puget Sound.

People who were asleep or working in high office buildings felt the full force of the shock. Those who were rudely awakened from their slumbers had a most uncanny feeling. In apartment houses the tenants rushed into the corridors and sought the cause of their alarm.

Dwelling houses swayed and the windows rattled as though they would be jarred out of their frames. Many of the residents took to the streets in order to escape any chance of being buried beneath the ruins of their homes. A peculiar feature of the shock was the fact that people riding in motor cars were not aware that any disturbance had occurred. People who were dancing at the time also failed to feel the shock. They were alarmed by the anxious looks on the faces of those who were sitting out dances, and who immediately rushed for the doors.

Chinatown Excited. The greatest excitement was witnessed in Chinatown. The old build-

**WANT DIRECT TRADE.** Manufacturers who have, it is alleged, refused to deal direct with their customers in that country, but refer them to agencies in New York, Consul-General Keyser in his message urges that the British traders in Quito would prefer to deal direct with Canadian firms, and think there should be arrangements made for dealing direct.

**OTTAWA, Jan. 24.**—(Canadian Press.) From British Consul-General Keyser at the British Legation in Quito, Ecuador, via the British Foreign Office and the Governor-General's Office to the Department of Trade and Commerce, protest has been received against the practice of Canadian

**POWHATAN'S PASSENGERS ARE LANDED AT N.Y.** (Continued from page 1.)  
 No Complaints. New York, Jan. 24.—Bringing safely back to port the 271 passengers of the disabled transport Powhatan as well as the last contingent of American troops in France, the transport Northern Pacific docked at Hoboken to-day. Although they suffered from the cold while the leaking Powhatan was tossed about in the rough, the sea far off the Nova Scotia coast, the passengers bore their discomfort without complaint and were rather inclined to treat it as a lark. Only one of them was ill when the Northern Pacific reached her pier. That was Mrs. John A. Worten, of McKinney, Texas, wife of a lieutenant-colonel. She is suffering from a light attack of pneumonia.

PLAN TO SETTLE ALL BRIDGE DETAILS TO HASTEN START

Mayor and Aldermen Expect to Reach Decision Next Wednesday

Efforts to settle the whole policy in connection with the Johnson Street bridge so that plans may be speeded and construction started without delay are to be made Wednesday night by Mayor Porter and members of the City Council.

At this meeting decision will likely be made as to whether the bridge will be of concrete or steel. City Engineer Preston explained to the Mayor and Council yesterday that an all concrete bridge with the movable span of steel would cost more than all steel because of the high price of cement and gravel.

Efforts are to be made to get cement companies to come down in their prices. Alderman Todd said the cement companies might be willing to meet the city halfway if the city went after them.

Types of Span. This steel or concrete question along with a choice of centre spans was presented to the Council yesterday in the accompanying report from City Engineer Preston:

"In order to avoid unnecessary delay in beginning the construction of the above, I shall be glad to receive your instructions as to how the engineering work is to be carried out.

"With regard to the actual design several methods may be employed. Before describing them I should like to point out that so far as the Bascule Span is concerned, there are practically only three types in use:

(a) The Strauss, which is a trunnion bridge.

(b) The Scherzer, which rolls both ends are patented.

(c) The type known as the Chicago City type, which is also a trunnion bridge, but upon which no patent rights exist. The Strauss Bascule has much to be said for it, and my personal inclination is towards the above type. The following are methods that can be employed in the design of the bridge:

Get Expert Plans. Extra assistance may be obtained in the Engineer's Office, and the entire work designed therefrom, using the Chicago type of bascule.

An outside consulting engineering firm may be employed instead of the above.

Designs and tenders may be called for from various bridge engineering and construction companies.

The type of bascule may be settled upon, and then one of the two patented bascule bridge companies employed to design this work and to prepare the necessary drawings and specifications, which will be handed over to this department, and tenders called upon them, together with the rest of the work, i.e., the approach spans and abutments, which will be designed in the City Engineer's Office.

The latter will undoubtedly be the most satisfactory and economical method, and it is the one that I would respectfully suggest that your committee adopt.

I would also recommend that the Strauss type of bascule be adopted. If alternative designs are called for, it means, in ninety-nine cases out of a hundred, that the weights and metal are scrapped and the results unsatisfactory. By employing the method I suggest any local firm could tender either in the steel work or substructure.

Steel Cheaper. "With regard to the use of concrete in the approach spans, when the present layout was under discussion this matter was discussed with Mr. R. B. Motley, the C. P. R. bridge engineer, and it was largely on his advice that the weight of steel used was adopted. There is no reason why these approaches should not be constructed of reinforced concrete, and the economy of using steel instead of this material depends entirely upon the price at which materials can be obtained. At the present time it is rather difficult to say how much cheaper steel construction would be, but it would probably be in the neighborhood of \$6,000 to \$10,000.

"If the design of the substructure and approach spans is left in my hands, as suggested above, it would be quite feasible to prepare alternative designs for the approaches in concrete, and the most economical method could be chosen, bearing in mind the cost of maintenance, from the tender for the concrete. The substitution of concrete for steel would provide the construction of about 20 per cent. more concrete work than is already provided for."

TO ENTERTAIN TO-NIGHT

Sons of England to Give Concert in Honor of Legion of Frontiersmen.

Arrangements have been completed by the Pride of the Island Lodge, Sons of England, for their concert this evening in honor of the Legion of Frontiersmen, which is now being reorganized. The concert will be held in the Arion Club rooms on Broughton Street, and will commence at 8 o'clock.

Mr. Blair's concert party will be assisted by the S.O.E. orchestra.

Major F. V. Longstaff, chief organizer of the Legion for British Columbia, has kindly consented to give a short address on the "Aims of the Legion." Lieut. S. Geary will preside.

A splendid musical programme has been arranged. The items and artists who will assist, are as follows: Selection by the S.O.E. orchestra; songs by Mrs. A. P. Zala, E. Inge, M. Critchard, T. Obee, Rev. E. S. Blair, Harry Longley and Harry Javan; selection on the "bones," Master Albert Acres; recitation, "The Legion," Frontiersman G. T. Devsraux; whistling solo, T. Skinner; clog dance, Master Leonard Acres; cornet solo, Sam Hook, recitation, Buster Brown; banjo and mandolin duet, H. Javan and A. Holden; chairman's remarks, Lieut. Geary.

Bert Zala will direct the orchestra.

He (with newspaper)—Here's a prophet who predicts the death of one of our greatest men within the next few weeks.

# IN WOMAN'S DOMAIN

Mr. and Mrs. J. Hebben Gillopie, of this city, are visiting in Vancouver for a few days.

The Victoria branch of the Engineering Institute of Canada will hold its third reception on Monday evening next in the Knights of Columbus Hall, Fort Street, at 8 o'clock.

A large crowd of friends gathered at the Outer Wharf yesterday morning to bid "bon voyage" to Miss Doreen Smith, who is on the Empress of Russia for Shanghai, China, where her marriage is to take place on February 12.

The local branch of the Victorian Order of Nurses is busy engaged in moving to its new home at 1145 Rockland Avenue, and the public is cordially invited to call and inspect the new quarters on Thursday afternoon next, January 29, between the hours of 2 and 4.30.

A grand masquerade ball will be held in the Alexandra Club ballroom on Tuesday, under the auspices of the Women's Auxiliary to the Army and Navy Veterans' Association. A good orchestra has been engaged and a buffet supper will be served during the evening. The members are sparing no effort to insure the success of the affair, and from both the social and spectacular standpoints it should be a pronounced success.

Members of the local Baptist community will be interested in the following marriage announcement from The Vancouver Daily Province: "A pretty but quiet wedding took place at the home of the bride's father, 3555 Main Street, on Wednesday evening, when Miss Annie Irene, only daughter of Mr. W. J. Hunter and the late Mrs. Hunter, was married to Clifton Gibson Parker, youngest son of the Rev. Clifton Parker, of Victoria, who performed the ceremony. The bride was given away by her father, and was attended by Miss Gertrude McLachlan, of Edmonton, while Mr. W. H. Hunter, brother of the bride, supported the groom. The happy couple left on their honeymoon in Seattle and the Sound cities."

## PRETTY WEDDING AT EPISCOPAL CHURCH

Miss Edith Burt Married to ex-Corpl. Edward G. Newman Thursday

The Reformed Episcopal Church was the scene of a very pretty wedding on Thursday evening, January 22, when Edith, youngest daughter of the late S. S. Burt and Mrs. Burt, of 720 Vancouver Street, was united in marriage with Corporal Edward George Newman, late of the 7th Battalion, son of Mr. and Mrs. Alfred Newman, Twillingate, Newfoundland. The Rev. A. deB. Owen officiated. The bride, who was given away by her brother-in-law, Bert Sniders of Vancouver, looked charming in a suit of navy blue and a becoming hat of white silk taffeta. She wore a white fox fur, the gift of the groom and carried a bridal bouquet of white chrysanthemums and asparagus fern. The bridesmaids, the Misses Louise Whiteley and Alma Snider, of Vancouver, wore suits of fawn and navy blue and carried bouquets of pale pink carnations. The bride's mother wore a gown of black satin, with black and cerise head trimming and a picture hat. The bride's sister, Mrs. Snider, who helped to receive the guests, wore a dress of green silk taffeta. The groom's aunt wore a suit of navy blue with hat to match.

The church was artistically decorated with flowers and evergreens by friends of the bride. Messrs. Newman, Penman, Alf. Lemm, Francis Shandley, Clarence Vey and William Farquhar acted as ushers. The bridegroom's presents to the bride were cameo rings, and to the best man, Mr. C. Cummings, gold cuff-links.

After the ceremony a reception was held at the home of the bride, the reception rooms being charmingly decorated in a pink and white color scheme. A delicious buffet supper was served by the Misses Agnes McCann, Margaret Renfrew, Barbara Brown, Inez Vey, Mildred Russell, Bee Stubbs, Louise Lemm, Margaret Penman, Alice Brown, Ethel Wilby, Sadie Brown, Tillie Grant and Mrs. Bird. The large number of handsome presents testified to the popularity of the young couple. Mr. and Mrs. Newman left by the midnight boat for Vancouver, and after a honeymoon in that city and in Seattle will make their home in Victoria.

## S.C.R. DANCE SUCCESS DESPITE EARTHQUAKE

The S.C.R. electrical class enjoyed another of its brilliantly successful dances at Temple's Hall last evening.

## The Beauty of The Lily

can be yours. Its wonderfully pure, soft, creamy white appearance, free from all blemishes, will be comparable to the perfect beauty of your skin and complexion if you will use

**BAGSHAW & CO.**  
Phone 821, 325 Bayward Bldg.

The hall was crowded with friends and relatives of the boys, who acted admirably in their role of hosts. The music was provided by Perry's orchestra and was excellent. It consisted not only of all the latest and catchiest tunes from this country, but also the pick of "Blighty" music.

Despite the earthquake shock the throng of merry-makers continued dancing till the small hours of the morning.

The arrangements were ably handled by the students' committee, consisting of A. S. Haggard, R. Roster, A. E. Cox and A. Rossiter. L. Griffiths filled the position of master of ceremonies to the satisfaction of all. The committee wishes to thank all the lady guests who so kindly contributed the splendid refreshments. Everyone present expressed their appreciation of the excellent programme and also a wish that another be held in the near future.

## PROVINCIAL CHAPTER TO MEET NEXT WEEK

### I.O.D.E. Memorial Scheme Plans to Be Discussed at General Meeting

The second, and last, general meeting of the Provincial Chapter, I.O.D.E. in British Columbia for the current working year will be held on Wednesday next, January 28, at 202 Union Bank Building. There will be an executive meeting of the officers and councilors at 10.30 a.m. The general meeting is called for 2.30 p.m. The provincial president, Mrs. R. G. Boyle and other officers and councilors, will attend from the Mainland and districts.

The principal business before the meeting will be plans for the National War Memorial scheme in British Columbia, and discussion on some important matters relating to the work and conduct of the Order. Every officer of every chapter is a member of the Provincial Chapter, and, as such, is entitled to vote on all questions. The afternoon meeting is open to the general membership and discussion is free to all.

The chapters are reminded that any resolution to be brought before the Provincial Chapter at the annual meeting in April next must be in the hands of the provincial secretary not later than February 20, so that there may be sufficient time allowed to put them before the chapters.

## PROPOSED DIVISION OF NURSING COSTS

The total number of nursing visits made by the Saanich branch of the Victorian Order of Nurses last year was 5,522, of which 1,453 were Metropolitan insurance calls. Since the health centre came into operation in July, 20 operations have been performed.

These facts, together with a report on expenditure, was filed with the Saanich Council last evening. The expenditure was \$6,374.03, the larger part having been incurred since May, 1919. "Owing to the fact that the buildings we have occupied were not very well suited for the purpose, we were seriously handicapped in our work, and the expenditures have been high and the receipts limited, as beds were not available. Several of the cases treated would otherwise have been on the indigent list," the report stated.

Figuring that the expenses to date have been \$500 per month, the committee recommended an extra surcharge in order to give better service to the schools and proposed to raise an appropriation of \$7,300 as follows:

Council of School Board . . . . \$5,500  
Provincial Government . . . . 2,530  
Fees for nursing . . . . . 1,200  
Sundries . . . . . 1,000

The committee indicated its difficulty in offering precise estimates of expenditure, as in case of a period of depression of an epidemic no one could forecast the cost.

The Council received the report, and referred it to the committee on estimates.

An application by Richard G. Rice for approval of his plans for the health centre, was deferred until the Council is ready to proceed. Mr. Rice was formerly in the engineer's office, before going overseas, and was in charge of the extension of the Municipal Hall at Royal Oak.

**UNNECESSARY.**  
"Pay your debts, boy."  
"Ugh!"  
"And keep your credit good."  
"Aw, what's the use of credit if I gotta pay up all the time?"—Louisville Courier-Journal.

## TENNIS CLUB PLAN DANCE NEXT WEEK

An important social event scheduled to take place next Wednesday evening in the Alexandra Club Ballroom, is the third dance this season under the auspices of the Victoria Lawn Tennis Club. The previous dances have been exceptionally pleasant and enjoyable and the difficulty the committee found was to allocate tickets so that none of the members and friends of the Club would be disappointed. The committee have wisely placed a limit on the number to be sold and those desiring tickets should apply at once to members of the committee who alone are responsible for their sale.

The members of the committee are as follows: Mrs. (Col.) Hodgins, Miss Peggy Hodgins, Miss Faith Leeder, Miss Aileen Long, Miss Peggie Jackson, Miss Muriel Milligan, Mrs. Wynne Meredith, Miss Grace Robertson, Messrs. F. A. Jackson, A. R. Hadley, G. C. Grant, E. P. Pollard, N. Robertson, G. Meredith and J. G. Brown. This committee has been divided into sub-committees and given certain arrangements to look after, and nothing is being left undone to make the coming dance even more successful and enjoyable than previous ones. Professor Heaton's orchestra will supply the music and the catering will be in the capable hands

## McCLARY'S "REGINA" RANGE

—Gives the quiet, efficient service you look for in a modern range. You can buy with the "Regina" a range that has a firebox which burns correctly, an oven which heats evenly, and a roasty top that needs no blackleading.

## A CREATION OF A PARISIAN PERFUMER

**Like the Faint Flush of Dawn**  
GIVING the skin the beauty and loveliness of a new-born spring day. Cool and fragrant and delicately scented with the perfume of crushed Oriental roses—that's HENRIETTA FACE POWDER.

CONTAINING a secret ingredient that forms an invisible coating for the skin, it gives protection against the raw, damp winds of winter. Although possessing all the elegance of a luxury, still it remains a necessity.

**HENRIETTA FACE POWDER**  
Sold at all Drug Stores, Department Stores and Hairdressing Parlors.

## The Benjamin '92 Two-Way Plug

IN every modern office, the need of additional outlets for extension cords to electrical devices is constantly felt. To provide these, where and when you want them, without sacrifice of light and without continual interchanging of lamps, is the purpose of the Benjamin Two-Way Plug. Merely screw it into any ordinary socket—just as you'd change a lamp—and the desired result is obtained. Saves time and money by increasing the efficiency of office equipment.

At Your Dealer's **\$1.25** Each 3 for **\$3.50**

In all electrical devices it is good judgment to avoid cheap and unreliable goods. Any electrical device with the name Benjamin on it can be depended upon for quality and service.

Made in Canada by **Benjamin Electric Mfg. Co. of Canada, Limited**  
11-17 Charlotte Street, Toronto, Ontario

Yes, you can easily get rid of that Constipation by using **PERGA** Purgative Water. It never fails, acts mildly but surely, without colic, nausea or pain.

**INDUSTRIAL LOAN FOR EX-AVIATORS**

Vancouver Men to Get \$1,000 to Start Reconditioning Plant. A \$1,000 loan to be used to assist in the establishment of a re-conditioning business in Vancouver will be extended to A. D'Arcy McBride and W. Hunger Wells of this city by the Provincial Department of Industries.

**ONE SIEGE AND ONE FIELD BATTERY ARE GIVEN TO VICTORIA**

58th Battery, C.F.A., and 12th Siege Battery, C.G.A., to Be Maintained Here

In the reorganization of the artillery of the Canadian militia, Victoria receives two new batteries, both of which saw considerable active service. The 58th Battery, C.F.A., and the 12th Siege Battery, C.G.A., are both to have their headquarters here.

**Batteries' History** The 58th Battery belonged to the 14th Brigade and spent about twenty months in France and Belgium. It was originally commanded by Major Walter Blue, of Ottawa.

**Island Commemoration.** The Bishop of the diocese, the Right Rev. C. D. Schofield, has authorized special services to be held in every Anglican church in Vancouver island on Sunday, February 1st.

**ARMY AND NAVY VETERANS DINED**

Attractive Function to Discuss Business of Victoria Command

The Dominion Hotel was the scene last night of a brilliant banquet held under the auspices of the Army and Navy Veterans of Canada, Victoria Unit, when the outgoing and incoming members of the Executive Council were given an opportunity to exchange views and suggestions for the advancement of the Association's interests.

**Toast to Navy.** After the toast of the King had been honored the Rev. Canon Hinchliffe, late chaplain of the organization rose to propose the toast of the Navy; both he and Capt. Martin, who responded laid stress on the value of the merchant marine as a training ground for the Royal Navy.

**Seventeen Hundred Members.** The President then rose to make the presentations referred to above, which he did in a graceful speech, extolling the services rendered to the organization by the past presidents.

**CANADIAN SEEDS STRONGEST, HE SAYS**

Professor Declares Gordon Head Finest Growing District on Continent

Canadian seeds have a stronger germination than foreign seeds, Professor Boying of the University of British Columbia, yesterday evening told agriculturists taking the extension course lectures at Gordon Head.

Not only of Canadian districts, but of the whole world there is no place more suited to the production of seeds on a commercial basis than Gordon Head, the Professor added.

**High-Grade Trimmed Millinery**

To Clear at \$10.00. The assortment includes several unusually smart French Models, together with other very desirable and exceptionally fine Hats. The selection as regards both style and color is sufficient to warrant satisfactory choice.

**WEAK, WATERY BLOOD IS THE CAUSE OF MANY SERIOUS TROUBLES**

Pale, Weak Women and Girls, Easily Tired Men and Boys, Are Victims of Anemia—Sound, Robust Health Can Only Be Had by Enriching the Blood and Keeping It Red and Pure

**CONDITIONS OF THIN, WATERY BLOOD CAN BE EASILY CORRECTED THROUGH THE USE OF DR. WILLIAMS' PINK PILLS**

Anemia is so prevalent, particularly among young girls and growing boys, that every mother should know how to recognize its symptoms. For this reason, we make its approach so gradually and so stealthily that it is often far advanced before it is noticed. Anemia, literally means bloodlessness, and it is thought to be due to a lack of sunlight, improper nourishment, and insufficient out-of-door air.

**LOCAL COMMITTEE HANDLES MOVEMENT FOR ANGLICAN WORK**

"What is the Forward Movement?" This is a question often asked. It is a movement through which it is hoped that the church, learning all the truth about herself, her shortcomings, her condition and her needs—realizing the whole glorious opportunity—awakened and repentant—will equip herself adequately with workers and means—and with renewed spirit will undertake energetically and courageously the full duty of the mission and work which the church should have.

In Victoria the work of organization is in the hands of a series of committees. The work of the Anglican movement is in the hands of a committee of which the Rt. Rev. C. D. Schofield, Bishop of Columbia is chairman, and A. R. Morris is secretary. There is also an information committee headed by Mr. P. Wollaston.

**A BEDTIME STORY** UNCLE WIGGILY AND SUSIE'S SLIPPERS. Copyright, 1919, by McClure Newspaper Syndicate. (By Howard R. Garis.)

"Dear me! I don't see how the children are going to school this morning," spoke Mrs. Littlelall, the mother of Sammie and Susie, the two rabbits. "It is snowing quite too hard!" "Oh, no, it isn't mother!" cried Sammie, as he looked out of the underground house, one window being raised high enough so the outside air could be felt.

**A Cure For Bad Breath** "Bad breath is a sign of decayed teeth, foul stomach or unclean bowels." If your teeth are good, look to your digestive organs at once. Get Seigel's Curative Syrup at druggists. 15 to 30 drops after meals clean up your food passage and stop the bad breath odor. 50c. and \$1.00 bottles. Do not buy substitutes. Get the genuine.

all lined with soft feathers to keep Susie's paws warm. Uncle Wiggily hopped over the snow, through the woods, now and then coming to an open field, and he was about half way to the hollow stump school when he saw a rabbit when, all of a sudden, as he was going past a big drift of snow, he heard a voice crying: "Wait a minute!"

"Well, it isn't, but you'd better wait, just the same," cried the voice—an angry one this time—and out popped the funny old Skeesticks. "Oh, ho! Again I have caught you!" cried the Skeesticks, trying to shake the snow off his feet as he rushed over and grabbed the bunny gentleman. "The Boozap and the Bazoop have tried to get you, but so far, they haven't managed to do it. Now I have. Let's see what you've got in your pockets before I nibble some of your ears!" he cried, and he thrust his paw into Uncle Wiggily's fur coat pocket.

"Oh, ho! What have we here? Feather-lined slippers as sure as my feet are cold!" cried the Skee. "Oh, how lucky! I'll put them on and then I'll eat 'em!" "Don't you dare put on Susie's slippers!" cried Uncle Wiggily.

"Oh, yes, I see where I made the mistake." I mean Sammie and Susie had their rubber boots on their paws and carried their school books in a strap. Now we are all straight.

"Oh, I think it will be all right for the children to go to school," said the bunny rabbit gentleman, when Mrs. Littlelall had asked him. "Their rubber boots will keep them out of the snow. But they should take slippers with them to wear in school, and not in the boots all day." "Yes, I'll have them do that," spoke Mrs. Littlelall. "And I'll put them up a nice lunch so they will not have to come home in the middle of the day," offered Nurse Jane Fuzzy Wuzzy, the muskrat lady housekeeper.

**InnaForm Pastilles** For Sore Throat, Tonsillitis, Quinsy, Colds, Coughs, Whooping Cough. At Druggists. 3

**URGES YOUNG MEN TO TAKE FULL COURSE**

Reeve of Saanich Wants Gordon Head Youths to Have Scientific Training

Reeve Watson of Saanich, presiding at the afternoon University extension agricultural lectures at Gordon Head yesterday, urged all young men not to let their agricultural education stop with the extension course but to make every effort to go to Vancouver and complete their training in scientific agriculture at the University of British Columbia. He declared there was a great agricultural future for the Gordon Head district.

# at the Theatre

## DOMINION

A new writer makes his debut as a Paramount-Artcraft scenarist in "The Lottery Man," Wallace Reid's latest picture, which is showing at the Dominion theatre. He is Elmer Harris, who has the distinction of being the first man to write the script for a regular, five-reel picture. He also scenarized "Sapho," Mr. Harris has had much success as a playwright, being responsible for, among others, "So Long, Letty," "The Pretty Mrs. Smith," and "Canary Cottage."

## ROMANO

It has been learned that the "picture-bridge" problem now confronting immigration officials in the West did not originate among the Japanese. This was discovered recently when the research department at Universal City set out to confirm a disputed point contained in "Sundown Trail," a story purchased from the pen of I. G. Hawks, and showing at the Romano to-day for the last time. The story set forth that the miners of Spanish Bar, a gold camp of 1849, sent one of their number East to return with a cargo of women to be married upon their arrival to the miners. The messenger who journeyed to the East advertised for the women and collected crayon pictures of them. These he sent back to Spanish Bar

## VARIETY

"Romance and Arabella" Constance Talmadge's latest Select picture, is one of the cleverest comedies that the screen has ever seen, and is at the Variety to-day for the last time. It is a comedy written in a satiric vein of modern fads and ideas, and is filled with sprightly humor. The picture is an adaptation of the play by William Hurlbut, which had a very successful run in New York, and the screen version,

## AMUSEMENTS TO-DAY

Princess—Alice in Wonderland.  
 Royal Victoria—Orpheum Vaudeville.  
 Dominion—Wallace Reid in "The Lottery Man."  
 Variety—Constance Talmadge in "Romance and Arabella."  
 Columbia—Dustin Farnum in "A Man's Fight."  
 Romano—"Sundown Trail," featuring Monroe Salisbury.

## COLUMBIA

"It is one of the best dramas I have ever starred in," says Dustin Farnum of his latest super-picture, in expressing his satisfaction with all the details of "A Man's Fight," which is shown at the Columbia to-day for the last time. In this offering, Mr. Farnum enacts the role of the son of an aristocratic family who, through circumstances, pays the penalty for the deed and which he is innocent. These earlier scenes are laid in and around New York, then come scenes at Sing Sing, and the latter scene, which has its location in the West with Dustin Farnum in the role of a successful mine manager. Here no reverse fate awaits him, but love also enters into the plot. Some wonderful scenic effects taken at the San Juan Capistrano Mission, in Lower California, are said to give a beautiful and spectacular touch to the production. This Mission is reported never before to have been filmed, and is again taken in a special dispensation granted to United Picture Theatres, Inc.

## PANTAGES

Pantages audiences will see something new under the sun in the feature of the bill which opens next Monday. Henrietta de Serris and her fifteen Parisian sculptors' models will present most striking and interesting presentations of famous paintings, statues and bas-reliefs. Before the war Mlle. de Serris and her company were models, posing at the Academy of Sculpture of Paris, a school where some of the world's most noted modern artists studied from life. The war put a quietus to their work, however, and capitalizing the posing art which they had learned under the world's greatest masters, they came to America and entered vaudeville.

The reproductions they present include none but the most famous of the world's masterpieces. Among them are such as Millet's, "The Angelus," reproduced from the painting in the Louvre; "The Winning Post," a marble relief by Boucher in the Luxembourg, Paris; "Priam at the Feet of Achilles," Wedgwood bas-relief after the original by Francois Rude which was destroyed at Louvain, Belgium; "The Hunt of Melchior," also after Cude, the original destroyed at Louvain, and several others such as "Confidences," "Prometheus and Melior," "In the Woods," "Attacking a U-Boat," and "The Defence of the Flag."

This is the feature offering of a fine seven-act bill of vaudeville as the audiences will discover next week.

## "FOR PITY'S SAKE"

### CONVULSES AUDIENCE

This Week's Orpheum Bill  
 Featured by Original Melodramatic Travesty

"For Pity's Sake," one of the cleverest, most original and altogether most extraordinary producers of merit that has been seen here on the Orpheum circuit, rocked the Royal Victoria audience last night much more perceptibly than could the passing earthquake had it occurred a little earlier in the evening. And no wonder. For when one lone rustic perched above a stage whereon is being enacted a most thrilling melodrama by actors of the old school, is assigned the task of relieving the whole affair, and, as part of his duty, produces snow, rain, thunder and various other stage effects without a trace of the usual "bound to be trouble," Cy Splivens, pouring rain from a watering pot, or scattering while clouds of paper snow from his room upon the leading villain, with the truly villainous black mustache, the fainting heroine, the irate father and a number of other melodramatic people certainly was a sight for tired eyes.

The really high quality of entertainment offered was well maintained while clouds of paper snow from his room upon the leading villain, with the truly villainous black mustache, the fainting heroine, the irate father and a number of other melodramatic people certainly was a sight for tired eyes.

A musical prescription, as offered by Colebatch Ryan and Leta Orlob, while strictly non-alcoholic, advertised, is most terribly intoxicating through the medium of song and dance.

In "Fresh's Initiation" something really new in vaudeville, Kenny and Hollis present perhaps the cleverest offering on the bill. The course in misery offered by the act and Kenny's imitation of Harry Lauder, singing "A Wee Doch and Doris," were the two most sprightly features of the programme.

Delightful was the "Follies of Song and Dance," with Wallace Bradley and Grette Ardine, who are really charming dancers. Their colorful costumes, against an elaborate setting, as well as Irving Fisher's splendid performance at the piano, and were followed by Duffy and Caldwell, who have a snappy song-and-patter offering.

A bill of the usual Orpheum standard is completed by an interesting reel of topical films.

## Stop That Pain!

Why suffer—and, in suffering, neglect an ailment which may cost you your life? Such things should not be. Pain has one purpose only—to show you where the trouble is. It is up to you to make it right.

Many aches and pains are due to Kidney trouble. Backache, pains in the side, headaches day after day, rheumatism, lumbago, neuralgia, sciatica—may be traced in almost every instance to uric acid and poisons which the kidneys have failed to take out of the blood. Weak kidneys also account for stone in the bladder, dizziness, sleeplessness and that tired-out feeling which is so fatal to your work.

50 Cts. a Box

Get a box at once from your druggist or dealer—50c. with money-back guarantee. Or write to us for a free sample, sufficient to prove its value. Act without delay—before worse complications develop.

They have a wonderful action on the kidneys, soothing congestion, healing inflammation, rebuilding tissue, and enabling the delicate organs to resume their work of filtering the waste and poison from the blood.

They contain no alcohol, but all the beneficial properties of the Juniper Berry, and seven other helpful diuretics and antiseptics.

"I suffered with pains in the back, and also had Kidney Trouble," writes Preston Nurse, 437 W. 35th St., New York City. "Five doctors failed to relieve me. Then I tried Gin Pills, and in two weeks I found great relief. They are an excellent remedy."

## LETTERS

Letters addressed to the Editor and intended for publication must be short, and clearly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the sender, and be published unless the owner wishes. The publication or rejection of articles is a matter entirely at the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

### ESQUIMALT MUNICIPAL HALL.

To the Editor:—In your issue of the 19th inst. there appears a meaningless, trashy letter under the heading, signed by "Admiral Road." It is in this letter that I am puffed at the result of the recent referendum in this matter. In this letter I am referred to as advocating glibly to the present building a coat of paint, as if I am a painter imbued with a spirit of devotion to his trade. Anyone so ignorant or indifferent of facts should not be allowed to have his effusions printed in newspapers. I am not, nor have I ever been, a painter.

SAMUEL A. POMEROY,  
 Councillor, Ward 1, Esquimalt.

### MISTAKEN IDENTITY.

To the Editor:—Will you kindly allow me a little space in your paper to bring a subject which to my knowledge has never been brought up before. I will cite the following case as an instance of the subject to which I refer.

About eighteen months ago I was arrested for a serious offence which I had not committed. The fact of this arrest was published in the papers and my photograph taken and hung in the Rogues' Gallery at the Police Station. However, I was proved innocent of the charge and acquitted, but my picture still holds its prominent position at the Police Station.

Recently the police stated they had been receiving complaints from the parents of school children that a man had been annoying them, and a little girl was taken down to the Police Station and shown a lot of photographs. Possibly the child was under the impression that she had hung in the Rogues' Gallery at the Police Station. However, I was proved innocent of the charge and acquitted, but my picture still holds its prominent position at the Police Station.

As these photographs are kept on record at the Police Station, even after the originals have been proved innocent, these people are at any time liable to be arrested and made the scapegoat for any guilty person whom the police are unable to locate. I have lived in Victoria for a number of years, own my home, and have a wife and child for whom I have the greatest respect, and on whom the stigma of my arrests remains—not only at present, but for all future time.

It is to the public interest that in cases of purely mistaken identity and subsequent acquittal of well-known residents of any community, that the photo be struck off the police record. I think that where such serious charges as this one are made, more discretion should be used by the press in publishing the details until the case has been tried and the alleged accused proved guilty. Whenever an exciting case crops up it is published in detail, but when an innocent man is acquitted it is only just mentioned that the case is dismissed and people from their conclusions, which are very often wrong.

CHARLES W. JORDAN,  
 Victoria, B. C., Jan. 23, 1920.

### A CORRECTION.

To the Editor:—We would like you to correct the mistake in your article of the "Postmen's Strike" from Ottawa on the first page of last night's issue of the Times. It is stated the carriers receive \$1427 a year—minimum salary and are asking for \$1500. This is Ottawa bumpkin, and meant to mislead. A letter carrier starts at \$626 a year, and a clerk at \$750, so the postal employees' grievances are perfectly genuine. They are greatly underpaid, and, the figures quoted in your article are wrong.

## SHOULD WIDE ROADS BE COMPULSORY?

Question Is Raised by Saanich Engineer With Regard to Subdivisions

"I think it is a waste of land myself," said Councillor Brooks, when a communication was read from Engineer Milne with regard to the future policy of road allowances in new sub-divisions, at the meeting of the Saanich Council last evening. Mr. Milne had recommended standing out for a standard width on those roads which are or will become main traffic arteries in a general scheme of main roads.

Mr. Milne referred to the law of the subject, with 66 feet allowances, and the amendment for accommodation roads and proceeded:

"The intention of the original act no doubt was to standardize main traffic roads having in view the future development of the municipality and districts. It is not a question of momentary requirements whether a road is to be widened or remain at the existing width. The situation has to be considered from the justification of a sixty-six foot road in the future, there is not a forty-foot road will meet the requirement of future traffic that is for the proper drainage of a main road, also the development of road traffic will no doubt eventually supersede

electric and other means of transit. At the present time in the States electric railway companies are endeavoring to transfer their charter to the cities and municipalities, and this is being brought about by a progressive and constructive policy of providing arteries of main roads.

"There is the feature of valuation which might be considered. It is to my mind easier for the large holder to give the concession than the small holder—the man who purchases on the original sub-division will be penalized on a future sub-division. It is to be admitted that an original owner is very reluctant to give the thirteen feet concession, he being very well satisfied that the road suits his requirements, but it is not a question to be localized, the view has to be taken that when a road is affording a means of transit for an ever increasing traffic it is entirely a municipal question of a main road, and the requirements of the future should be provided for at the present.

The suggestion was referred to the Works Committee for consideration.

## Killed by Blood Poisoning

Used an old razor for paring his corns. Foolish, because a 25c. bottle of Putnam's Corn and Nail Cure will cure all the corns in a family for year! Safe, because purely vegetable. Use only Putnam's Extractor, 25c. at all dealers.

"The Little Nurse for Little Ills"

Victoria residents from the "Inland of the Heather" gathered in force last night at St. John's Hall Herald Street, for the concert and dance given under the auspices of the Knights of the Thistle, Victoria Lodge No. 1, and the affair proved one of the most enjoyable Burns celebrations held in commemoration of the bard's anniversary.

The festivities commenced with a bountiful supper, served in true Scottish fashion, and the "The Last of the Bannock" was proposed by the direction of Mrs. Nichol and her able committee. The introduction of the "haggis," heralded by the skirl of the pipes, was hailed with much delight, everyone partaking of this Scottish delicacy. After honoring the toast of "The King" that of "The Day We Celebrate" was proposed by Tom Gibson and responded to by J. B. Bruce; "Kindred Societies," proposed by J. Dobbie and replied to by James Walker, and "The Last of the Bannock," proposed by Wm. Angus and replied to by Mrs. Nichol. An excellent programme included vocal numbers by Miss Miller, Mrs. A. Euter and Mr. Wallace, comic songs by Jack McDonald and J. Dobbie, a humorous Scottish reading by James Walker and a Scotch national dance by Miss S. McIntyre to the music of the pipes played by Miss Arnes Wallace. Mrs. Lewis Hall officiated as accompanist for the vocal numbers. The chair was taken by R. M. McIntosh.

At the close of the formal programme dancing was indulged in, the music being furnished by Wallace's orchestra. The festivities were prolonged until two o'clock, when everyone departed, expressing their enjoyment of a highly successful entertainment.

#### BRIEF LOCALS

Radio Club Meeting.—All members of the Victoria Radio Club were requested to attend a special meeting to be held in Room 323 Pemberton Building on Monday evening commencing at 7:30 o'clock. The club is rapidly growing, and at present fifty members are enrolled.

Aviation Branch at Library.—The Victoria Public Library has been successful in securing twenty books dealing with all phases of aeronautical development. The books have been greatly in demand among young boys. The books are exceedingly well illustrated and edited. The latest types of machines are all explained.

Pathfinder Up Yesterday.—Despite the unpleasant weather the aeroplane Pathfinder I went aloft yesterday and carried five passengers. The cold in the upper altitudes was very keen, but Pilot Brown did not keep his passengers up very long. Mrs. L. M. Taylor, of California; R. W. Coupland, Mrs. Coupland and her four-year-old daughter, and A. E. Selive were flown.

Banquet of Boys' Classes.—Last evening in the Y. M. C. A. about 150 members of the older boys of the Sunday School classes of this city assembled around the festive board. James McEwan presided. Following the supper Rev. J. L. Batty gave a very interesting address on "Clean Speech, Sport and Living," and gave a great deal of advice to the boys. Bert Tallack and Alex. Denholme, two members of the classes, gave short talks on the progress which had been made in the Canadian Standard Efficiency Tests. A musical programme to which Messrs. Nelson, Griffin and Campbell contributed, and a series of stunts, yells and choruses brought the entertainment to a close.

#### Western Star Tournament

The Western Star, No. 7, A. O. U. W., will hold a military 500 tournament in Semple Hall, Victoria West, Monday, at 8:30 p. m.

#### Open Drain Troublesome

The open drain on Tolmie Avenue near the C.N.R. station, which has been flooding the nearby district and which aldermen have been talking about fixing for a couple of years, is not only a disgrace but is a great danger to children who are liable to be washed down it any moment. Alderman Sangster told the Mayor and aldermen yesterday afternoon. City Engineer Preston reported that it would take \$2,400 to permanently mend the flooding, while \$500 might patch things up for a while. He advised that the permanent work be undertaken as "temporary work of this character is a constant source of danger, annoyance and annual up-keep." The question was sent to the Estimates Committee.

### Correct Corsets For Spring

With the advent of new styles in suits and dresses comes the demand for proper corset models. Here are some new arrivals in styles that foretell the spring vogue.

### COUNCILLOR HITS AT THE POLICY OF FEDERAL "DOLES"

Mr. Terrell Declares Men in Cedar Hill District Are Begging Work

The feature of the Saanich Council business last evening was a frank, straightforward statement on the unemployment situation in Saanich by Councillor Terrell.

Mr. Terrell made his remarks in answer to a request from residents of Ward 1—his ward—for relief work to be started on Mt. Tolmie hill road.

He said: "Though no fault of Saanich there are numbers of unemployed men here who are asking for work now. The municipality has been prosperous, in 1919, yet this condition exists. The responsibility does not rest with us. They are good, honest, hard working resident taxpayers who are seeking work."

"While the Government is spending \$40,000,000 on relief to unemployed soldiers they are not spending these sums in works to induce employment. The responsibility is being thrust on the municipalities, for unemployment they did not cause."

"These things come after the Victory Bonds publicity, and the promises then made. I feel very sorry for the returned men, to have to come and ask for a job—men who can't help themselves—after they fought for us. The Government should provide for them until they are on their feet. Men have come to my door begging and beseeching to get work, in order to get something to eat. It is a shame, and I feel very hot on the subject."

Councillor Clark: The men can apply for the donation?

Councillor Terrell: They refuse it, because it is a dole.

Reeve Watson said the late council at its last meeting had notified the Government of the situation.

Councillor Dooley: Every man has a right to work, but here apparently he cannot.

The Council, after hearing Engineer Milne that the Council would not be able to put many men to work as Mr. Tolmie, determined to wait until the estimates are prepared.

Councillor Brooks moved the motion, pointing out there was no alternative course for the Council.

### MUST BUILD CRIB AT ONCE AGAINST ENCROACHING SEAS

The sea has been recently encroaching so heavily on Clover Point where the main outlet of the city's sewer system crosses the rifle range that the city is forced to take protective measures.

"This has been kept under observation for the last eighteen months," City Engineer Preston explained to the aldermen yesterday afternoon. "The time has now come when something must be done."

At a cost of \$500 the aldermen decided to have a protective crib immediately erected. There is a good supply of logs now on the beach for this work.

### The T-P TRAILER

The trailer that will solve many hauling problems for merchant, contractor or farmer.

The trailer that we can fully guarantee, for we make it ourselves in Victoria.

The trailer that comes to you with solid rubber tires and extra strong self-lubricating axle.

### "T. B." MEAT GLANDS AT PUBLIC MARKET SURPRISE COUNCIL

But Butchers Protest Proposed Inspection Is Too Drastic

Meat dealers and butchers, headed by H. A. Beckwith, yesterday told Mayor Porter and the aldermen that Alderman Albion Johns' latest proposals for the adequate inspection of all meat sold here would increase the cost of living—enormously, and provide no protection that could not be secured in a much easier way.

At the same time Dr. Arthur G. Price, City Health Officer, brought before the aldermen some lung glands he had bought for his cat last Wednesday at the Victoria Public Market. These glands were tubercular. Aldermen did not have to inspect them closely to see the infection.

Mr. Beckwith presented a petition signed by Lawrence Goodacre and eight other butchers, five local stock raisers and seven men, operating meat stalls in the Public Market, protesting against Alderman Johns' proposed amendments to the public health by-law. These amendments propose the establishment of a central inspection station where all meat can be inspected and stamped by the Medical Health Officer or Sanitary Inspector Lancaster before it is allowed in any store. Liver and lungs would have to be removed from the carcass to prove that each animal had no infectious disease. Government inspection stamps, of course, would be accepted by the city.

Get Liver and Lungs Mixed Up.  
Alderman Andros said the scheme would not work as the liver and lungs brought in would get all mixed up, and would be impossible to tell which cow they belonged to. He explained that farmers killing diseased cows or sheep would not send in the livers and lungs of these animals for inspection but would secure the vitals of other animals and send them along as belonging to the carcasses submitted to the city.

Alderman Johns explained that the livers and lungs would be attached to the carcass, but other aldermen said it would be most unpleasant, especially in hot weather, or where the carcass was shipped from any distance, as putrefaction would set in and render the whole carcass unfit for consumption.

Force Retailers into Trusts.  
"There is no need for a change as the present system of inspection is adequate provided that it is enforced," said Mr. Beckwith. "The proposal of Alderman Johns will result in serious inconvenience to local stockmen and force all retailers to buy from the big meat corporations whose products are inspected by the Government."

"We don't object to inspection, but this is too drastic." At the Public Market the easiest way is for an officer to make the rounds of the stalls early before anything is sold and pass the stock. With carcasses brought into the city an officer should be notified and he could go to the shop and inspect the carcass on the premises.

"Absolutely Unfit Meat" sold.  
"Opening up places where meat must be brought for inspection will not result pleasantly for the consumer, who will have to pay for time wasted carting around meat hunting for the inspector."

J. Bayless, a meat handler with twenty years' experience, who did not believe in handling cheap diseased meat at the expense of the public. "There is lots of meat sold here absolutely unfit for human consumption," said Mr. Bayless.

"Meat offered for sale here is unfit for dogs," said Alderman Johns, who suggested it already in the by-law. "We want to make it as easy as possible for the butchers. A man is not forced to come to a central station with his meat, if we could show the public that good clean meat was being sold at the market they will go there for their meat."

The reeve and councillors of Saanich fully endorse the by-law and they will co-operate with us. We only want to make it easy for the farmer, easy for the butcher and safe for the consumer."

The Johns' proposal will come before the council Monday night.

### WANT OTTAWA TO JOIN CITY TO GIVE ROCK PILE WORK

Part of \$40,000,000 For Quarry Would Ease Unemployment

Immediate opening of a huge rock quarry on the old Songhees Reserve to give employment to returned soldiers and others was proposed late yesterday afternoon by Alderman Sargent and endorsed by Mayor Porter and members of the City Council.

The resolution will be rushed to Ottawa to-day, as it is proposed that the Dominion Government should bear half the cost of operating this rock pile for veterans of the \$40,000,000 set aside for the unemployed doing returned men. The city, it is proposed, will stand the other half of the cost.

"This relief fund can well be spent on the quarrying and preparation of rock which will thus be ready for the construction of the Johnson Street bridge," said Alderman Sargent.

Fifty-Fifty Basis.  
"The appeal to the Dominion Government is logical when you consider that the Government is paying money out as an unemployment dole and not getting any return for it, especially when many of the self-respecting men protest this form of assistance as they feel that they are on charity when they want to be doing something in return for the money."

"At present many are suffering from unemployment and if the Council can do anything to alleviate that suffering I think we should."

The alderman explained that the rock quarrying now would work in well with the preparations for the Johnson Street bridge. The Dominion Government, he declared, ought to be willing to enter into an arrangement with the city on a fifty-fifty basis for the opening of this rock pile for the unemployed, as it would be getting some return for the part of the \$40,000,000 it spends here and would be developing the Reserve and hastening the Johnson Street bridge, in both of which it is vitally interested because of the Canadian National Railway.

Others on Starvation Verge.  
"It is plain that this would be good business," said Alderman Patrick, whose name was on the resolution as a seconder.

"Do not forget that there are others besides soldiers on the verge of starvation," warned Alderman Cameron. "Most of the returned soldiers are now being looked after by the Dominion Government with the \$40,000,000, but there are many men with families who haven't anything to fall back on."

Mayor Porter told of how he had taken up with the Minister of Finance when he was in Ottawa recently the appropriation of part of this \$40,000,000 for relief work that would be of some permanent value instead of handing it out as doles, but Sir Henry Drayton said that the plan of distribution had been decided and the money could not be taken out of the hands of the Canadian Patriotic Fund.

The Hon. S. P. Tomin, Minister of Agriculture, and member for Victoria, and J. C. McIntosh, M.P. for Nanaimo are to be officially asked to back up the proposal that the plan of distribution include the Acting Prime Minister, the Minister of Militia and the Minister of Railways.

Tail Lights Out.—Nine motorists appeared in the Oak Bay police court yesterday afternoon charged with failing to keep the tail lights of their cars burning while they were standing outside the Arena. The motorists were each fined \$5.

### ANOTHER BRIDGE SNAG

Three Property Owners Demand Pay in Connection with Bowker Street Bridge Plans.

Just how the city is going to get the bridge over Bowker Creek constructed is what is puzzling officials at the City Hall.

Yesterday aldermen were informed that all the residents in the whole district with the exception of three have joined to back the city in its efforts to construct the bridge.

Neil M. Hanson, of Sixth Street, made formal protest to the aldermen yesterday afternoon against the dumping of material on his property for the building of the bridge, as he purchased the property for his home site and does not want other stuff put there.

"The person who is the chief obstacle to the construction of the bridge is a woman and is half owner of a twenty-five-foot lot for which she wants \$600," said Mayor Porter. "One of the other property holders there wants \$50 for part of his property that is needed."

It was explained to the aldermen that the property holder who is agreeable to the bridge consented to give their share of the property necessary only if everybody concerned made a free gift and did not get high prices for their lot.

To end the difficulty, the aldermen decided yesterday to report on the possibility of having the work done under a local improvement by-law.

### C.N.R. ASKS CITY FOR ROUNDHOUSE PERMIT

As the proposed five-engine roundhouse of the Canadian National Railway on the Songhees Reserve will be 350 yards from the nearest building, D. O. Lewis, resident engineer of the railway, told the mayor and aldermen yesterday afternoon that there would be no danger from fire, although the construction would be of wood.

Permanent material is to be used later on when building becomes cheaper. Also additions are to be made as more engine accommodation is required.

Alderman Andros said the company would be the heaviest loser if there should be a fire, and if the company thought that it was not taking too much of a chance with wooden roundhouses in which expensive engines would be stored, the city ought to be satisfied.

The roundhouse permit is to come before the Council again Monday night when all city officials with any technical knowledge on the subject will be instructed to attend and give information to the aldermen.

### Liver Trouble and Heartburn

All liver diseases of whatever character are diseases of the highest importance and demand close attention.

The liver is the largest and one of the most important organs of the body. Its duty is to prepare and secrete bile, and serve as one of the filters of the body, cleansing it of all impurities and poisons. Therefore when the liver gets out of order it is the starting of trouble in nearly every part of the body.

Keep the liver active by using Milburn's Laxa-Liver Pills and you will have no heartburn, constipation, biliousness, sick or bilious headaches, dull, yellow eyes, brown blotches, swollen complexion, coated tongue, jaundice, catarrh of the stomach, or the painful protruding internal or bleeding piles.

Mrs. John Kadey, Chipman, N.B., writes:—"I have used Milburn's Laxa-Liver Pills for some time and can recommend them to any one suffering from heartburn and liver trouble. I tried other remedies, but they only relieved me for a short time. I always recommend Laxa-Liver Pills to all sufferers as I think they are a valuable remedy."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### CONDEMNS PIGGERY, BUT WILL CONTINUE HELPING PRODUCTION

By a majority vote of one, after a spirited debate, the Saanich Council decided last evening to enforce destruction proceedings against a piggery which was condemned by the Chief of Police, acting as sanitary inspector.

While Councillors Dooley and Terrell strongly supported the removal of the piggery, Councillor Henderson hoped the Council would not be too severe on the piggeries of the district, in view of the importance of the question of production.

Reeve Watson agreed that there was some reason for Councillor Henderson's argument; the Council was dealing with a specific case, however.

The general opinion was that the by-law will not be too strictly enforced establishing a limit of 300 feet distance from a house, but that all piggeries must be clean, and the premises rendered wholesome.

### "Wait Till You Get Them Up in the Air, Boys!"

One of the greatest song hits of the winter season, and in this "His Master's Voice" Record it is sung by the master comedian of to-day—Billy Murray. In the last chorus a wonderfully realistic airplane effect is introduced. You should hear it—also the other songs in this list.

### JUSTICE PRODS CITY ABOUT DELAY AT PANDORA CORNER

The 1920 City Council was yesterday prodded by Mr. Justice Martin and urged to start the new year better than councils for the last six or seven years, by at once fulfilling the city's promise of cutting away the dangerous projecting corner at Chambers Street and Pandora Avenue.

It was pointed out that increasing traffic and the new Christian Science Temple on one corner there make the demand for the improving more compelling than ever.

Mr. Justice Martin told the aldermen that he could not impress upon them strongly enough the need for undertaking the work "at the earliest possible moment."

"The earliest possible moment has not yet arrived," said Alderman Andros.

Investigation was made to see how the matter now stands, and it was discovered that the city engineer has been instructed "to go ahead with the work right away."

PRACTISING ECONOMY.

## Men Who Are Behind Puckchaser's Body

Never since the fascinating Winter sport was introduced to Victoria have the crowds at both the professional and amateur games been so large as they have this season. No other sport has drawn the fans in their thousands like the game played on the steel blades. Last year the amateur game started to make a place for itself, but this year the four-team league is breaking all records. Upwards of two thousand is a regular attendance for the games this season, and the Elks, Great War Veterans, Two Jacks and Senators are dishing up a snappy brand of hockey that sends the excitement up to fever pitch every Monday night. Next Monday, when the Elks, the league leaders, meet the Senators, at present in the basement but

who have never lost to the champions yet, and the G. W. V. A. clash with the Two Jacks, there should be another good sample of the game staged. The officials above are all working hard for the game. The Hon. John Hart, who faced the puck at the first games of the season, declares that no game offers the same excitement as the great winter sport. Percy Watson, the hard-working secretary, is also a star goaltender with the best record in the league for keeping his citadel clear. Percy Richardson, the donor of the Dudleigh Cup, sits back on a bench and watches the game at his ease, and there is not a fan in the Arena enjoys the frays more. W. H. Wilkerson, the efficient timekeeper for the coast tilt games, also holds the clock on the amateurs. John Mowat, the genial president, needs no introduction.

### LAST NIGHT'S BOUTS

Seattle, Jan. 23.—Billy Wright of Seattle, holder of the Pacific Coast welterweight title, fought Morris Lusk, of Kansas City, in a four-round draw here last night. Both men boxed cleverly and the decision was approved by sport writers.

Harry Gillum, of Seattle, middleweight, knocked out Frankie Mason, of Chicago, in the first round of a scheduled four-round bout.

San Francisco, Jan. 23.—Joe Azevedo and Fred Murphy boxed a four-round draw here last night. In the semi-finals, Sal Carlo and Billy Shade went four rounds to a draw.

Bilbao, Ariz., Jan. 23.—Bob Collins, local heavyweight, knocked out Tex McCarthy of Kansas City in the second round of their scheduled ten-round bout here last night.

Sacramento, Cal., Jan. 23.—Al Walker of San Francisco and Bud Riley of Seattle, fought four fast rounds to a draw in the main event of a boxing card here last night. In the semi-win-up "Babe" Herman of Sacramento stopped Johnny Ortega of San Francisco in the second round.

Boise, Idaho, Jan. 23.—Charles Peter of Omaha defeated Sam Clappam in a wrestling match here last night in two straight falls in 51 and 21 minutes.

Fresno, Cal., Jan. 23.—"Gumbo" Smith took a decision from Carl Morris after four rounds of fighting here last night on a card under the auspices of the American Legion Boxing Association.

Los Angeles, Cal., Jan. 23.—Ever Hammer of Chicago was given the decision over Gene Delmont of Memphis, Tenn., at the end of their four-round lightweight match at Vernon here last night. In the semi-final, a bantamweight contest, Charley Roselli, of Los Angeles defeated Barney Snyder of Boston.

### MCDONALD AND CLARK MEET IN VANCOUVER

Vancouver, Jan. 24.—Hector McDonald, claimant of the C. E. F. lightweight championship and Jimmy Clark, who represented Canada in the big inter-allied tournament at Albert Hall, London, a year ago, will have a place on the card at the next boxing tournament here on February 4. They have signed articles and posted weight forfeits. They agree to make 135 pounds ringside.

The Clark-McDonald bout will be one of six scheduled for the next show. The tournament officials are lining up an attractive card in which several prominent northwest battlers will be seen in action, including Billy Young, North Vancouver; Jimmy

Storey, Seattle; Eli Caston, Seattle; Bird, Tacoma; Fitzgerald, Seattle, and Bertram, Vancouver.

### SNIPERS AND BAYS MEET MONDAY NIGHT

The junior hockey game Monday night at the Arena will be between the Snipers and the James Bay septettes. Each team has won one game.

### "STRANGLER" BEAT FREBERG.

Rockford, Ill., Jan. 24.—Ed "Strangler" Lewis defeated John Freberg in a wrestling match here last night. Lewis won the fall in one hour and six minutes with the headlock.

## Concerning Pants

For high or low, for rich or poor, Even those endowed with riches; There's one thing men can't do without, And that is pants or breeches. Except maybe a Highlander, Who wears his cap a'tilt But he, poor man, must wear at least, A sporrans or a kilt.

And as it is a well-known fact, These prohibition days, Man must be garbed in decent attire— No matter what he pays; Instead of going without his pants, It will be more discreet, To go at once and interview SAM FLASH in JOHNSON STREET.

And overhaul his stock of pants In fact, try on a pair, But you will not be pressed to buy For Sam will treat you fair, To please his many customers His stock he'll sacrifice You'll get the best that can be had At very lowest price.

555 JOHNSON STREET UNION STORE.

## AROUND THE SPORT CAMPS

If the Harbor Marine soccer men realized with what anxiety the Knights of Columbus eleven looked forward to to-day's encounter they would feel more like a championship eleven than the basement team.

"Not yet have we beaten the Senators," says Manager Darl Spence of the Elks, "but there are just enough games left on the league chart to give us an opportunity to make an even break." The antiered septette have an added ambition to set the pace Monday.

Bob Genge enjoyed all the privileges coming to an umpire at the last

games, and evidently doesn't like the prominence. After the game he was in no conversational mood.

"What about that goal," demanded one of the Two Jack's supporters. "Offside," said Bob. "I didn't see it," the Two Jacks man went on to argue. "No, I did," said Bob with effective brevity.

Jack McMillan, of the Two Jacks Billiard rooms made a 255 break the other night. Jack's best is 324, which he also made recently.

Bert Irish came within four of his own record when he made a pretty 150 break.

### JONES WORKING TO BRING BRITISH TEAMS TO BRITISH COLUMBIA

Vancouver, Jan. 24.—(By Canadian Press)—Con Jones, local sportsman, will leave for Toronto next Saturday to confer with the president of the Dominion Football Association in connection with the proposal to bring to Canada two British cup winning football teams for a tour of the Dominion this year. Last night charter members of the British Columbia Football Association authorized Mr. Jones to negotiate for the services of two of Great Britain's best teams.

The teams will be brought to this country under the auspices of the original British Columbia Football Association and will be under the sanction and direction of the Dominion Football Association.

After his conference with the president of this body in Toronto, Mr. Jones will go to England.

### HOCKEY IS POPULAR.

New York, Jan. 24.—Canada's great winter sport is steadily gaining popularity in the United States. Fordham University to-day announced its entry into inter-collegiate hockey after an absence of ten years. Boston College will be their first opponents here February 2. Matches are pending with Princeton, the Army and Stevens Institute and efforts are being made to arrange matches with Harvard, the Navy and University of Vermont.

## Aristocrats Are On Top Again Beat Millionaires Four to One

### Manager Steps Into Fray and Leads Blue and Gold Band in Greatest Game of Hockey This Season

	W.	L.	T.	Pts.
Victoria	5	4	26	556
Seattle	4	24	23	509
Vancouver	4	5	20	444

No other hockey game this season, and probably for several seasons, was followed with such enthusiasm and delight as the one in which the Aristocrats got back the league lead and pushed Vancouver into the cellar by beating them four goals to one last night. The little pessimism which had broken out in the Capital City ranks was promptly dispelled, and the fans were on their toes shouting their appreciation of the work done by the bunch Eddie Oatman leads for nearly every minute out of the sixty.

Four goals to one the Millionaires themselves will have to admit was a fair representation of how the grim, determined Capital City septette put it over in their desperate fight to get on top again and recover from their last two defeats. Lehman has never had more work to do against the other Canadian septette than he had last night, and although Hughie might have drawn a place on the penitents' bench if Mickey Ion had more than one pair of optics, in stopping the smashing drives from the home players he excelled himself. He was busy all the time while Norman Fowler at the other end spent a lot of time watching the fray. Cyclone Taylor, Cook and Harris got in one or two stinging shots at him, but Skinner was watched very carefully.

Leahman's Battle Lost. Leahman Patrick, who had announced in response to many requests from the fans that he would be on the sidelines in a uniform ready to jump into the fray if things were going wrong, found the old battle lust irresistible. The manager lined up in the rover position as the game opened, moving his youngest recruit, Wilf Loughlin, to the left wing.

The former leader of world's championship teams got a great reception and the applause was renewed when he drew the spotlight immediately by being responsible for stopping the first two dangerous rushes from the Vancouver line who came down twice in rapid succession.

Checking 'Em Up. Mixing a lot of defensive work with frequent aggressive movements towards Vancouver goals, Patrick was the big thorn in the side of the visitors. He and Moose Johnson had

Forced the Pace. Victoria forced the pace from the start, and in five minutes had tested Leahman a dozen times, but with nothing hard enough to worry him. Lester broke into the limelight early with a couple of checks that spoiled the first two likely efforts of Cook's men. The manager got a cordial hand from the fans. Checking fearlessly and skilfully he proved a great asset to the side. Victoria kept up a steady bombardment on Leahman. They tried him with long ones and close range ones, but he was always ready.

Clem Shows His Speed. Oatman and Dunderdale got in most of the attempts, but Wilf Loughlin with his appetite whetted

by his counter against Seattle also went down the ice frequently. Among his attempts were three beauties. On one occasion he manoeuvred around until he had only Leahman in front of him, and then like a flash the goalie shot out of his cage four or five yards and poked the puck from the end of the Aristocrat's stick.

As of Yore. Leahman also went down in the same old style of yore, and worked several openings to clutter the puck against Leahman's pads, and the tender always got in the way in time. Wilf Loughlin also drew Leahman out, but the Vancouver men after a hard battle cleared the puck to the other end.

After Victoria had sargred the net, but for an offside goal, Patrick beat every man on the ice, but Leahman was right on the job. He was responsible for the majority of those that went in Fowler's direction. Skinner showed great speed but the openings were few and far between.

Excitement Increases. Johnson came back for the second period and the line-up was, the same as when the game opened. Another record for speed was set in the second, in which the fans were yelling with excitement nearly every second as thrilling a twenty minutes as has been seen this season. Never were the crowd more on edge.

Vancouver Never Led. Vancouver never had the lead in three swift periods in which fourteen pucks were used up everything they had. Victoria opened the first period. Dunderdale and Oatman both adding another knot to their stick. Oatman getting the assist. Oatman finished Moose Johnson's brilliant effort satisfactorily in the second period before Skinner had put Vancouver in the column. Tommy Dunderdale got two more points to boost his average in the last period to boost he gave Wilf Loughlin an assist and also finished an effort of Moose Johnson's.

Skinner drew five minutes and Tommy Dunderdale three, after being sorely tried by first Harris and then Cook. Cook later handed Dunderdale a deliberate trip, which drew Mickey's eye and Cook went on the bench.

The Cyclone was carefully blanketed and Vancouver's openings were scarce. Fowler had a few hard ones and handled them well, but at the end Leahman performed like a charmed player.

Norman Was Safe. Johnson, Oatman and Dunderdale each got in nearly as many shots at the visiting net guardian as the whole pack of Vancouver men got in at Fowler's. When Meeking relieved Patrick for a time with the period ten minutes old he also joined the shooting men.

Skinner and Taylor were responsible for Vancouver's first counter, Skinner putting the final touch to one of the few close in pieces of work Vancouver were able to pull off. Roberts came on for W. Adams in the last period, and the medico fresh to the fray looked dangerous. Cook and Taylor worked the first good opening, the Millionaires got, and Fowler rose to the occasion brilliantly, and the crowd applauded Norman lustily. Victoria got their combination working which the fans like to see, and they expressed their appreciation in enthusiastic applause.

Victoria's Third. Dunderdale from the left wing placed one right where Wilf Loughlin was waiting for it in centre ice, and Wilf from first inside the blue

## HOCKEY RECORD WAS HUNG UP LAST NIGHT

Eleven minutes of hockey without the whistle once blowing which was provided in the game last night at the Arena is declared to be a hockey record. From the time Mickey Ion faced the puck for the opening of the game, until he played his first solo, was exactly seven minutes. The rest of the game also was unusually free from stoppages.

Line put in one of his rising shots, traveling great speed, and Lehman never saw it until he picked it out of the hemp. Victoria had the lead by three to one.

The locals made the score representative by adding one more. Johnson went the whole length, and sent the puck across to Dunderdale, and Tommy drove it into Leahman, followed it up, and put it in the corner after it had struck Leahman's pads.

### Line-Up.

Victoria	Position	Vancouver
Fowler	Goal	Lehman
Johnson	D. defence	Cook
Patrick	F. defence	F. Adams
Oatman	Rover	Harris
Dunderdale	Centre	Skinner
W. Loughlin	L. wing	Taylor
Meeking	R. wing	W. Adams
Genge	Utility	

Referee, Ion; timekeepers, W. H. Wilkerson and Capt. Dunford.

Summary. First period—1, Victoria, Dunderdale from Oatman, 16:35. Second period—3, Victoria, Oatman from Johnson, 3:25; 3, Vancouver, Skinner from Taylor, 12:21.

Third period—4, Victoria, W. Loughlin from Dunderdale, 8:48; 5, Victoria, Dunderdale, 9:48.

Penalties—First period—J. Adams (Vancouver), 3 minutes. Second period—Skinner (Vancouver), 5 minutes. Cook (Vancouver), 3 minutes. Dunderdale (Victoria), 3 minutes. Third period—None.

Total: Vancouver, 11 minutes; Victoria, 3 minutes.

Substitution—First period: Victoria, Meeking for Johnson. Second period: Victoria, Meeking for Patrick. Patrick for Meeking. Third period: Victoria, Meeking for Patrick.

### Easy For Moose Jaw.

Saskatoon, Jan. 23.—For two minutes Saskatoon Crescents played brilliant hockey here to-night, then they hid away to combination and team work and rushed about the ice like madmen, giving Moose Jaw an easy 9 to 1 victory. The first period closed 2 to 0 for Moose Jaw. The second period was taken almost at a walk, while the third stanza saw Moose Jaw leading in a dozen shots in which the level bersers excelled in all departments.

### Nelson Bends.

Nelson, Jan. 24.—Every rink in the Nelson bonspiel has been defeated at least once in the first two days of play. The event further advanced in the Grand Challenge, in which one rink has reached the semi-finals. Play is proceeding in the Nelson, Rossland and Boundary trophy events.

### Ontario Hockey.

Kitchener, O. H. A.—Stratford Midgets 8, Kitchener 5; Lindsay 4, Peterboro 3.

### TORONTO UNIVERSITY RE-ENTERS ROWING

Toronto, Jan. 23.—The University of Toronto rowing club was formed yesterday at a meeting of about seventy five trustees and university graduates, and the re-entry of varsity into national and international aquatics for the first time since 1898, is fairly assured.

### POLAND

Among the new states of Europe affording a field for Canadian trade, one of the most important will be Poland. According to information received by the Canadian Trade Commission, this new republic may become an important buyer of Canadian goods. Some of her requirements are machinery of all descriptions, agricultural implements, dry goods, clothing, boots and shoes, railway material, automobiles, tractors, dyes and chemicals, fertilizers, pharmaceutical products and a variety of manufactured goods.

On account of war conditions, up-to-date statistics on Poland's trade are not available. Three political divisions made up the country before the war.

Congress Poland in 1912 imported a total of \$23,000,000 worth and exported to the value of \$300,000,000; the importation being chiefly agricultural products from Russia, coal, machinery, hardware, textiles, chemicals and a variety of manufactured goods from Germany.

The total importation of Galicia in 1912 amounted \$200,000,000 and exports \$95,000,000; the importations being chiefly mineral products, manufactured goods, textiles, furniture, automobiles, machinery and pharmaceutical products.

Posnania, West Prussia and Upper Silesia were parts of Poland incorporated in general trade statistics with the German Empire. Transportation statistics show that exports were chiefly agricultural and mining products, and imports—manufactured goods of all descriptions from Germany.

The new status of the republic has not yet been determined in its entirety. The territorial limits as proposed by the Polish Delegation at the Peace Conference, however, would indicate an area of 170,000 square miles with a population of 35,500,000. Nearly 20,000,000 of these are of former Russian Poland, and the balance almost evenly divided between German and Austrian Poland.

Polish industries increased considerably between 1900 and 1914. The best sugar industry occupies a prominent place; the output, just before the war being 720,000 tons in a year. Other prominent industries are similar to those of Canada, including flour mills, textile factories, iron and steel factories, lumber mills, paper factories, tanneries and chemical plants. Judging from pre-war conditions, about 65 per cent. of the Polish people are engaged in agriculture, 14 per cent. in industry and mining; 8 per cent. in commerce; the remaining 13 per cent. in a variety of activities.

In addition to the advantages to be derived from her own resources, Poland is in a position to benefit greatly from its situation on the crossroads of trade connecting Central and Eastern Europe at the gateway of Russia. Canadian firms, by establishing connections in Warsaw, would also enjoy the opportunity of the Russian market with the opening of normal trade conditions in that country. It is the ambition of Poland to take the place of Germany in the transit business from and to Russia. Through her harbor Dantzig she enters the way of international trade.

Polish import restrictions are maintained to prevent importation of goods from undesirable or enemy sources, to control distribution and to eliminate dishonest speculation. An import license is required for nearly all imports. This license is issued by the Government Commission of Import and Export, Warsaw, (Electorale 2). The goods should be consigned to the Polish Government Bureau of Purchasing Articles of First Necessity, in Dantzig, with instructions as to the ultimate receiver of the shipment in Poland. The Polish Bureau is the successor to the Inter-Allied Relief Commission in Dantzig, and attends to the safe transportation of the goods from Dantzig to their destination. The Canadian Trade Commission is in a position to give detailed information to how shipping documents should be made out to meet the requirements of the Polish Commission.

Most people who grant a favor expect two in return.

## ASKS CITY TO JOIN IN WAR AGAINST VENEREAL DISEASE

Provincial Government Offers to Do All Work for \$4,000 This Year

One person in ten is infected with syphilis or other venereal diseases, Dr. H. E. Young, secretary of the Provincial Board of Health, told Mayor Porter and members of the City Council yesterday afternoon. He asked the city to appropriate \$4,000 this year, as its share in the Dominion money to fight the diseases.

The money will be used for establishing a clinic here to handle all cases in this district. Another clinic is being established in Vancouver. The Victoria clinic will cost about \$10,000 for the first year, but the Provincial Government will make up all above the \$4,000 contribution from the city. Besides handling all the venereal work for \$4,000, the Province in this laboratory will take over free of charge all the city's laboratory work, such as milk testing, water, beer and liquor analysis.

### Army Revelations Rouse Women.

"The rejection of men by the army was largely due to infection from these venereal diseases," said Dr. Young. "The venereal disease existing in the army has awakened insistence especially among the women of Canada that something should be done. The Act to deal with venereal disease passed last session was the outcome of the Dominion-wide movement to deal with these diseases in a systematic manner."

"Reflection has been cast upon the army as a breeding place for these diseases, and statistics show that the infection originates with the civilian population. It is felt that the time has come to provide every protection for women and children."

### Keep Names Secret.

"The Act provides that all cases be reported by number and that there be no exposure of the name of the patient. If a man refuses treatment his name will be given to the medical authorities. The Act provides that municipalities shall deal with all cases within their bounds."

Dr. Young explained that this means that the city has to provide the necessary laboratory with a trained staff, clinic and medicines. The average cost of examining a case of syphilis is \$5. The Provincial Government, however, is proposing to consolidate all public laboratories and clinics to reduce expense.

### Starts Education Campaign.

"We are now prepared to go ahead and bring the Act into force. Our clinic is ready to begin in Vancouver and we would now like to make a start here."

"In connection with the opening of these clinics there will be a great campaign of education. A British Columbia committee has been formed which will enlist all women's organizations, especially the women's war organizations and the Red Cross as this is really a continuation of war work. In fact, it is an even greater war that we are undertaking."

Arrangements have been made for opening the laboratory and clinic here in the Jubilee Hospital, Dr. Young explained.

## ESCAPES SALARIES DEBATE BY SENDING QUESTION TO COMMITTEE

The Saanich Council last evening deferred action on salary increases by appointing a committee to consider all such requests, arranging to consider its report in Estimates Committee. Some officials have had no advances since 1914, it transpired.

With great reluctance two applicants for a sub-division plan at Gordon Head agreed to rough grade a sub-division road at a cost of \$850, declaring that they were giving \$1,200 worth of land for the road. The Council, however, refused acceptance without the grading.

Residents of Maple Street successfully protested against a plan to use the old Victoria and Sidney Railway grade from Tolmie Avenue to Cloverdale Avenue, in place of Maple Street. Councilor Graham remarked that the question had been considered, and abandoned, he understood.

A very lengthy discussion occurred on the question of enforcing the Extraordinary Traffic Bylaw against trucks with loads of more than one ton, particularly on the gravel roads in Wards Six and Three. Various solutions were suggested without meeting with general approval in the council.

The annual bylaw this year will be for the sum of \$140,000. Councilor Pim brought up the question of the effect of making the Elk Lake watershed into a public park, as proposed in a motion of Alderman Todd already published. He thought the council would be wise to watch its effect on the finances of the Saanich Beaches and Parks Committee.

The council, however, resolved not to pass a resolution until action has been taken by the City Council thereon.

A letter was read from the Victoria and Island Development Association with regard to the support which might be expected from the district in 1920. It was tabled until the estimates are taken up.

### IVORY IS VALUABLE.

The quarterly ivory sale at Antwerp was held on November 5 and 6. The quantities sold comprised 45,643 kilos of hard Congo ivory, 5,563 kilos of soft Congo, 34,478 kilos of Angola and 3,698 kilos of Central African, making a total of 89,382, as against 46,000 kilos in 1918.

The results of the sale exceeded by far the expectations of those most optimistic after the English sales of October 21 and 28, where George S. Messersmith, United States consul at Antwerp, reports, the prices rose from \$25 to \$40 per hundredweight at Liverpool for the seventeen tons sold, and from £15 to £25 per hundredweight at London for the twenty tons offered.

The attendance at the sale was exceptionally large and the bidding very lively. The prices realized reached levels unknown before and the increase was about 100 per cent. for large teeth, the good lots selling for 125 to 135 francs a kilo (52 pounds). For bangle, balls and scryaloes the increase was about 60 to 80 per cent.

# Life Savers

The Candy Mint with the Hole

PEP-O-MINT WINT-O-GREEN CL-O-VE LIC-O-RICE

**5¢**

**YOU can always be sure of a sweet, pure breath by eating Life Savers. Always carry a packet in your pocket.**

**Never fear—you can't eat too many. The most rebellious stomach in the land welcomes PEP-O-MINT, WINT-O-GREEN, CL-O-VE and LIC-O-RICE.**

But this is only true of genuine Life Savers, the candy mint with the hole. If a dealer tries to make a little more profit by selling you something "like" Life Savers, tell him "Nothing doing." Nickel a pack.

**FATAL ORIGINALITY.** If one of them should say something to me I'd never heard before. She—Men are such stupidly dull creatures. I should simply drop dead. Her Dear Friend.—What a stunner for you a proposal would be.

# Net weather and the life of your Shoes.

YOU wouldn't expect a leaky boat to keep out the water. Then why expect cheap, porous soles to keep your feet dry. The pictures here show you just what happens to sole leather in wet weather. The upper one shows you how the good quality, close grain leather used in Leckie Boots repels water. The lower one shows you how cheap, porous leather soaks up water like a sponge. There is nothing that will cause the fibre in sole leather to break down quicker than dampness, and broken down fibre means nothing else than rot. Rotten leather can't stand the punishment of every day pounding over hard pavements—and the first thing you know the sole is worn through. That's what wet weather means to some shoes, but it doesn't happen with the Leckie Boot. Wearing quality is not the only recommendation; style is there aplenty. Putting your feet into a pair of Leckie Dress Boots gives them that added touch known as "CLASS."

The Sole that Lasts.

The Sole that Fails.

## The Leckie BOOT

# The Worker Knows the Value Of Good BREAD

PERHAPS he doesn't know just why bread helps him in his day's work. But, he does know that bread gives him that "staying" power he needs. Bread made from white flour is rich in gluten and phosphates—the muscle and brawn-building materials his body needs. Fall in line with the worker—eat more bread and build for endurance—not for fat.

BREAD, when made from ROYAL STANDARD FLOUR, has that "homey," old-fashioned taste; it is close-grained yet as light as a feather. ROYAL STANDARD FLOUR never disappoints, for each lot is laboratory, "oven-tested." Your grocer has it—look for the circle "V" trade mark.

Vancouver Milling & Grain Co. Limited

Branches: Victoria, Nanaimo, New Westminster, Mission City

## ALONG VICTORIA'S AUTO WAY

A motor distributor feels pretty good when he takes a \$6,000 order and that accounts for the optimism this week of Fred Dougall. Until recently a road contractor, Fred has learned all about trucks on heavy duty, and now that he is through contracting for a while he has assumed the distribution of the Diamond T truck in this territory from the Victoria Garage, 731 Cormorant Street. The \$6,000 one he has just sold is a three-and-one-half toner, bought because of its rugged qualities for road work. A short time before the Government also took one of the Diamond T haulers for its heaviest road work.

The one car that sells for the same price in Canada as in the United States is the new Bricosco which is being distributed here by R. F. McMorran. These new Bricoscos are being turned out from the Canadian factory at Brockville, Ont. The first carload of the new model is somewhere in the Rockies on its way to Victoria. Two of the cars are already sold and the buyers are trying to find out something about freight train arrivals on the Coast.

There are not even idle cars enough around some garages just now for members of firms to use for business purposes. Ben Grossman, the Gray-Dort specialist of Jameson, Rolfe & Willis, Ltd., has even had to walk down to the Provincial Police office to register some of the new cars he sold and carry back the number plates under his arm. Such a trip on foot for an automobile salesman has hardly ever been heard of before.

Victoria's \$3,000,000 a year automobile business, which looks as if it will reach at least \$4,000,000 this year, is providing practically all the new building in the city at the present time. The three big motor companies up Yates Street all have their extensions or new garages under way.

Milliken & Downer, who made themselves famous in this city for the speed with which they have been putting out Commerce trucks, are planning big developments to cope with their business this Spring. What these developments are, however, they will not tell yet. They keep their plans under their hats and just smile that prosperous smile, when they are asked any questions.

Gus Masters, who introduced into Canada the serve-self garages for car owners who have no garages of their own in which to keep their cars, is also conducting mysterious conferences about big developments, concerning which he is keeping as silent as a twelve-cylinder.

The three-story Jameson, Rolfe & Willis garage on Broughton Street is being turned inside out by a corps of brickmasons, so that everything will be modern and ready for the firm when it moves its headquarters there next month. The new show rooms directly behind on Fort Street are to be taken in hand in a couple of weeks.

Steve Redgrave of the McMorran garage finds automobile selling one of the most enjoyable of vocations just now. The reason for this is that he is busy distributing a carload of the new 1920 series R Hupmobiles. The Hup always neat, sturdy and racy, excels itself in its latest model.

Albert Walton, who has come to be known as the storage battery authority of the Victoria automobile trade, has taken charge of the Ever-Ready battery service station at the McMorran garage. Since he has taken over this department three of the largest garages in the city have made him flattering offers to join their forces. No wonder! Since Christmas fifteen cars have discarded other batteries with which they were equipped and had Walton instal Ever Readys.

J. Martin, who is operating on the rent from the Post Office stand, thinks he holds just about the record with his Hupmobile for uninterrupted service. He bought the car last November from R. E. McMorran and although it has been on night and day work with heavy loads ever since, covering some 5,000 miles, there has not been one adjustment on the car. All that has been done to the Hupmobile during this time has been to change the oil.

A. C. Paterson, known to Victoria motorists as "Overland Pat," and head salesman of the Tom Plimley forces, is leaving Victoria. He has been promoted in the Overland organization and is taking charge of the Overland sales department in Vancouver. The Vancouver house also handles the Cole Aero-Eight.

Pat's place with the Overlands, Coles, Chandlers, Cleveland, Willys-Knights and Packards is being taken by these enthusiastic young men: Charles Mitchell, manager of the Hudson garage here before he went overseas with the First Pioneers; Jack Lucas, who also went overseas with the First Pioneers and was seriously wounded; and Alex Holden, who was with the Flying Corps. From his practical experience he knows more about Packards and what he can do with them than any car owner, young or old, in Victoria.

George Woods has retired from the automobile accessory firm of Lillie & Woods to enter the used car business. He has located his headquarters at the garage of Howard Lillie, 432 Johnson Street. This arrangement places at his disposal all the expertness of the Lillie repairing and

rebuilding forces and enables George to devote all his time to handling buyers and hunting up new bargains.

Up goes the Cole Aero-Eight in price again. Tom Plimley got a telegram the day before yesterday officially informing him that Coles will cost \$100 more after April 1. That will make the price \$4,900.

Looking for the best selling car with which to break into automobile salesmanship, C. W. Lovell, who has been in the financial business, landed on the McLaughlin. He has now been installed as head salesman at the H. A. Davis house.

Frank Young, formerly in charge of the repair department, has been placed in charge of the ground floor of Tom Plimley's garage. J. Pomeroy, who has been with Plimley's for the last twelve years and lately has been in the plant department, has assumed the management of the repair department.

Chris McRae and Ray Meldrum have retired from the McLaughlin sales forces here and have plans for something that is to make them prosperous before the year is far advanced. They have not given out anything yet, but it is rumored they are to launch out into the used car field in no mean way.

One big freight car is not large enough to handle all the cars that the National Motor Co., think they should receive in one shipment, so when Fords are sent to Victoria now they come in two carload lots. The first two-carload lot to arrive since January 1, came in during the week. They go just as fast as ever.

Fred Honey, formerly of the Plimley staff, is now one of the bright young men who is setting the pace putting out Fords for the National Motor Co.

## SCRIPPS-BOOTH AGENCY SECURED BY JACK CARTIER

The Scripps-Booth, which was brought out a few years ago as a light quality car and which has great vogue among wealthy society people in the East and in California, as a secondary and sporting car, the qualities of which are in keeping with their costly large limousines, has arrived in Victoria.

The exclusive Victoria and Island distributing rights have been awarded to J. A. Cartier of Cartier Bros., 724 Johnson Street. Mr. Cartier went to Vancouver and personally brought over the first of the models on Thursday. The car is the latest 1920 model, light touring and is finished in the noted Scripps-Booth style.

## LIGHT TRADE CARS GOOD INVESTMENT

Can Always Be Depended On to Make Deliveries, Says J. M. Wood

"An investment in a light delivery car or truck pays dividends all the year round," says J. M. Wood, sales manager of the Hogg Motor Co., Ltd., located here in Chevrolet passenger and commercial cars.

"Modern commercial cars operate as well in winter as in summer. They are mechanically dependable. They are equipped to meet all conditions. In fact severe weather especially demonstrates the importance of their utility and convenience.

"When other lines of transportation are tied up, the ton truck and delivery car can pick their way. Their route is not limited by steel rails. They do not depend on exposed wires for their power.

"When horses slip, become exhausted and lose valuable time, the motor truck goes safely and securely to its destination. It never gets tired and can be depended on to make deliveries, to get perishable goods quickly to market, to bring in supplies.

"In cold and stormy customers find it a distinct advantage to deal with a merchant who can deliver to their very doors. This binds their goodwill to him. And the public especially appreciates a transportation system that insures the supply of farm products on which they depend.

"Furthermore, a truck affords protection to goods in transportation. It goes direct from source to destination and goods are not exposed in handling.

"Uninterrupted transportation means uninterrupted business and profits. An investment in an efficient, well equipped light delivery car or truck, therefore, insures profitable return twelve months in the year."

King Alfonso of Spain is among the latest buyers of American made motor cars.

There are 7,000 concerns in the United States engaged in making automobiles parts.

## TRAFFIC TRUCK CO. IS TO HANDLE ITS OWN BUSINESS

St. Louis, Jan. 24.—An innovation in truck distribution inaugurated by the Traffic Motor Truck Corp. in St. Louis is to be extended to other cities. The plan closely follows the distribution of passenger cars as practiced by the Ford Motor Co., in that a group of dealers are appointed in each big city, but is different in that service stations will be maintained by the Traffic Corp., leaving the dealer free to give his entire time and attention to the sale of trucks.

Nine dealers have been appointed to cover St. Louis, St. Louis county adjoining and East St. Louis, across the Mississippi. Service for trucks bought through the dealers will be handled at the factory in St. Louis.

In the first year of the production of automobiles, sixteen motor cars were turned out.

In California an automobile license of any other state is good for three months.

Cuba is replacing many of the old military roads, as well as constructing new highways.

There are approximately 120,000 pleasure cars and 9,500 trucks in Ontario, Canada.

**WHAT THE MOTOR EXPERTS SAY**

If a nut resists all the ordinary handlings try the following: Heat slightly an ordinary single spanner that fits the nut and let it rest on the nut for a few minutes. The heat transmitted from spanner to nut expands the latter, so that it can usually be run off without further trouble. Do not make the mistake of heating the nut with a blow lamp, as this expands the bolt also, so that the condition is unaltered.

There are several causes of oil cold leading on the points of the spark plugs. One of these is the use of too heavy a lubricating oil. If this trouble is persistent try mixing a pint of kerosene with each gallon of oil. This may cure the trouble.

When the car is stuck in deep mud and the wheels cannot get any purchase try wrapping the tire chains bodily around the tire and rim of the wheel, so that they make a big bunch, and then fasten them with a strap, and carefully and generally the wheels will get grip enough to pull the car out.

If upon examination the crankshaft or connecting rod bearings are found to be worn a little more on the ends than in the middle it may be taken as a sure sign that the crankshaft is not quite true.

Frequent removal of the core of an air valve will generally impair the holding ability of the small rubber washer. A small screw having a groove lengthwise on one side and threads to fit the inner part of the valve may be run down so far as to press on the core and keep the valve open until the air can escape, without its being necessary to remove the core.

After it has stood for several days, even in a tight tank, gasoline will become dead and slow to ignite. This is partly due to evaporation and partly to chemical changes that take place.

The porcelain of a spark plug may be made almost as clean as new by soaking in carbon disulphide.

A persistent and irregular misfiring in a Ford car will sometimes result by the current jumping across from the connections which project through the wooden dash under the hood to grease and dirt nearby. Thick hard rubber washers will cure the trouble.

Trouble often results from carelessness in replacing the manifolds of the Ford car. This occurs when the small gasket collars do not make airtight joints. It is well to fasten these gaskets in the holes in the manifold by using small pieces of paper to wedge them in and then adjusting the manifold to the holes in the cylinder. The plan obviates dropping them or getting them out of true.

The Maxwell truck is used in 143 different kinds of industries in the United States. Cartage and hauling takes first place, with the farmers running a close second.

A car owner recently devised an ingenious automatic safeguard against

**ISLAND ASSOCIATION ROAD BULLETIN**

Careful driving is urged to Colwood via Burnside Road; Malahat good; Ladysmith to Nanaimo rough; Nanaimo to Nannoose rough; Parksville district good; ruts bad on Albert side of the Hump; very good along Cameron Lake; good from Parksville to Courtenay; but rough in spots.

At this season of the year care should be taken by all drivers to keep clear of ruts not only for their own good, but for the good of the road.

**FORD TO COVER ALL OF EUROPE**

Big Factory to Be Erected in France; Plans for Other Countries

Detroit, Jan. 24.—Invasion of Europe and Asia by the Ford Motor Co. and plans for the establishment of European factories will be announced upon the return of Vice-President F. L. Klingensmith from Europe. A large plant in France operated by American system, but with French labor, will be the first big step of the Ford organization in the European invasion, though branches already have been established in several countries. The company for some time has maintained branches in Paris and Bordeaux and recently of established similar branches in Copenhagen and in Cadiz, Spain.

Klingensmith, with Charles E. Sorenson, general manager of the Ford tractor plant, and others of the Ford organization, returned to Europe at the time of the departure of W. C. Anderson, Ford's British representative, who came to Detroit to confer with Ford regarding the controversy with British distributors and dealers. At the time of their departure for Europe it was said Klingensmith's mission would be to look over the European field and assist in the selection of distributors and dealers. Incidentally, it was said, he probably would investigate the feasibility of the establishment of branch factories.

Ford officials have received no word from Klingensmith as to just what steps he has taken, but from information at hand they are confident he has completed all arrangements for the establishment of the factory and will announce the details as soon as he has conferred with Henry Ford and other officials.

**NEW LIGHT-FOUR NASH CAR IS OUT**

Smaller Model Supplements Present Six-Cylinder Line

New York, Jan. 24.—So much interest has been aroused by the word that the Nash company was to add a light four to its line, to supplement the present six, that the first showing of the new car at the Palace developed into something of a reception at the Nash booth.

The car is truly what it was expected to be, a small brother to the present six, in every respect it is the Nash six except for slightly smaller size.

The engine is a block identical with that of the six, except for its smaller number of cylinders. Cylinder dimensions are the same as in the six, the design throughout is the same, the wheelbase is 116 in., 5 in. shorter than that of the six, the tires are smaller, being 22 by 3½ in., but they are cords; the body is a strictly five-passenger one, but with plenty of room for that number. Finish and upholstery and lines are in keeping with the Nash reputation.

The price has not been announced, but it is to be assumed that it will be in the \$1200 class, at New York.

A large oil company of New Jersey, with headquarters at Newark, operates 346 motor vehicles.

**—PAIGE—**

*The Most Beautiful Car in America*

**A NEW PAIGE CAR**

The war has taught American manufacturers many valuable lessons. In the past three years, for instance, we have developed an entirely new conception of precise manufacturing in large scale production.

You will find a striking example of this practice in the New Paige "Glenbrook" model.

The scrupulously accurate methods that were applied to delicate Government mechanisms are now producing every unit of our car.

With the closest inspection, vastly increased equipment and much broader experience there could be only one result—a highly refined, highly standardized product.

One ride in our new car tells an eloquent story of finely balanced construction. The smooth, even power of the motor sweeps you along without a suggestion of vibration or mechanical noise. There is merely a gentle purr from the exhaust as the car glides on its way with the buoyancy of an aeroplane.

All road shocks and jars are immediately absorbed in the velvety spring suspension. There is no danger of sway or "side slip" no matter what the speed may be, for every ounce of weight in the chassis is distributed with scientific precision.

Inside the car there is body room, leg room and elbow room for five adult passengers to travel in luxurious comfort.

The upholstery is soft and inviting—the equipment and general appointments throughout are the best that money can buy.

So far as the design is concerned, you, of course, know what to expect, for this is "The Most Beautiful Car in America."

The "Glenbrook" model is our latest achievement. We merely ask you to see it—ride in it—drive it—form your own opinion. We shall be quite content to abide by the result.

We are also showing the "Larchmont" Sport Model Roadster.

## Fine Metals Have Given Maxwell its Rank

THE substance of which a car is made denotes its quality. The use of fine and strong metals in the Maxwell has won it many, many friends.

It was necessary to make the Maxwell chassis of the very best materials. For its great mission was to transport—in an extremely economical way—as great a passenger load over the same road and at the same speed as the larger and heavier cars.

Thus it was obvious that the Maxwell had to be light. And to make it light the quality metals were used.

Metallurgists, the men who have made the study of metals a science, say that it compares favorably pound for pound with the highest priced cars the world has produced.

But you need not be a metallurgist to discover this "inner goodness" in a Maxwell. Three months will tell; six months will tell you more.

Otherwise the demand for Maxwell cars in five short years would never have grown from five thousand a year to one hundred thousand a year.

300,000 Maxwells on the highways of the world to-day answer most any question you can ask about this great car.

## PROFITEERS BUSY WITH MOTOR TIRES IN FRANCE NOW

Motor Traffic Increases Big Profits in Selling to Germans

Paris, Jan. 24.—A serious tire famine prevails in France, and is rendered more acute by illegal profiteering and wild speculation. War contracts have only recently been cleaned up, but tire manufacturers are far from being able to meet requirements. It is estimated that the shortage will continue for the whole of next year.

Motor traffic has increased enormously since the war, and all cars which were laid away during hostilities have had to be fitted with new tires to replace those perished by age. Although tire quality is low, by reason of bad road surfaces. Not only has all civilian France been starved for five years, but all surrounding countries have been deprived of tires and are now ready purchasers, almost irrespective of price.

Profiteers have taken advantage of this situation and when able to secure tires have shipped them into Germany where they are sold at an increase of 40 to 100 per cent above list prices. This business is so profitable that those taking part in it send automobiles loaded with tires specially from Paris to Germany, a distance of 600 miles for the round trip.

Recently the police have taken action and have rounded up an important gang of tire profiteers. Among these persons is the general manager of a big French tire company, who supplied tires to his associates to the detriment of other clients, and then shared with them the high profits obtained on the transaction. There are charges against this gang of receiving stolen army stocks and of getting tires by means of priority certificates to which they were not entitled.

## DO NOT JUDGE YOUR SPRINGS BY WEIGHT AND THICKNESS

Fred Dougall Gives Expert Information on Shock Absorption

(By Fred Dougall, of Clark & Dougall.)

The purchaser of a motor truck is quite liable to become confused by the relative sizes of springs in motor trucks.

Probably in no part of a truck will he find as great a diversity in size as in springs, both as to number and thickness of the leaves and in the width of the spring itself.

In some trucks he will find used a great many more leaves and greater width of springs than in other trucks of identically the same capacity. He will, therefore, naturally conclude that one truck has very much greater spring capacity than the other, when, in fact, exactly opposite is the case. The heavier spring may give every evidence of being stronger, the springs may be stiffer, showing less deflection under load and may take a considerable overload without showing any apparent injury to the spring itself. This is quite frequently used by the salesman. If the buyer were to rely entirely on his own judgment in a case of this kind, he would, in all probability, buy the truck with the larger spring.

The best test of the spring, however, is to absorb the shock while operating a truck over rough roads.

**Function of Springs.**  
It is quite obvious that a spring that is sensitive and absorbs the shocks is taking the vibration away from the more delicate parts of a truck's mechanism. It is quite evident that the principal function of a spring is to dissipate vibration and the better the spring performs this purpose the more nearly it approaches the ideal. The fact that a spring is stiff is not evidence of strength for the stiffest springs are usually those made of cheap material.

The fact that a spring has a large number of leaves and an unusual width is merely evidence on the part of a spring manufacturer that the quality of the material he uses necessitates an unusual amount of it. Spring manufacturers, in general, are called upon by the motor truck manufacturer to guarantee their own product. The size of springs to be used, the number of leaves, the width of leaves, thickness of leaves and the general design are, in most cases, left to the spring manufacturer by the truck builder.

Consequently, the spring manufacturer protects his own interests by using as large a spring as possible to avoid the comeback on his guarantee.

The springs used by the Diamond T Motor Car Company are made by the Mather Spring Co., of Toledo, Ohio, from the finest chrome vanadium steel, accurately heat treated. This is the very best material that can be procured for suspension springs. Some idea of its strength may be gained from the fact that a bar one inch square in section will stand a pull exceeding 100 tons before it gives way. This compares with a tenacity of not more than one half as great as ordinary carbon springs.

Further the fatigue quality, or in plain language, the continued resistance to repeated bending, which is the measure of the life of a spring, is fully three times as great in chrome vanadium steel springs as in ordinary carbon springs.

It is this exceeding strength and toughness of the steel that makes it possible to use a flexible spring that will retain its original form and return to its original position after each shock and continue to do so for almost an indefinite period.

Diamond T Springs perform every function that a spring should perform without having the stiffness and without acquiring a set or sag that is found in springs of cheap material.

Mather chrome vanadium steel springs are the highest priced springs on the market, costing, in many cases more than double the price of carbon steel springs.

## DUNLOP BEGINS AMERICAN PLANT

Canadian Tire Co. Building  
\$10,000,000 Factory  
at Buffalo

Buffalo, Jan. 24.—Besides the big new plant the Dunlop Tire Company is constructing in Toronto, negotiations have been completed for the coming to Buffalo and entering the United States field of Dunlop America, Inc., with the famous Dunlop traction and cord tires.

Approximately 100 acres of land have been purchased by the Canadian interests in the lower River Road section of Buffalo, adjoining the Niagara River. This provides the company the opportunity to ship by three methods, by lake traffic, the Erie Canal and by railroad. The largest lake steamers can reach the docks which will be built in connection with the mammoth plant which the company will soon begin to erect. The Erie Canal adjoins one side of the property and railroad sidings also cross it.

It is said by the company that an expenditure of approximately \$10,000,000 will be necessary before a wheel turns in the new tire manufacturing plant. Shops which will give initial employment to 5,000 men will be built by the Dunlop Tire and Rubber Company of England. It is said 5,000 men is but a fraction of the number of men the company has plans to employ if American business comes up to its expectations.

A permit authorizing temporary diversion of water from the Niagara river for use of the plant has been obtained by the Chamber of Commerce of Buffalo, also, to erect bridges crossing the Erie Canal. Buffalo city trolley lines will be extended to the plant site, which is but two miles from the city limits.

# CLE-TRAC TANK TYPE TRACTOR

The New Name for the Cleveland Tractor

Farmers who decided to wait on the experience of others before buying can now purchase a CLE-TRAC Tank Type Tractor with the absolute assurance that it has made good.

## The CLE-TRAC Tractor

has won out in the race for recognition as the standard in its class. So much so that the DEPARTMENT OF AGRICULTURE OF THE PROVINCE OF QUEBEC are now distributing CLE-TRACS exclusively, and it is estimated by the HON. JOS. ED. CARON, PROVINCIAL MINISTER OF AGRICULTURE, that a minimum of 15,000 CLE-TRACS will be placed in the Province of Quebec during the next three years.

# BIG LINERS WILL REMAIN ON ROUTE

## N.Y.K. Service Will Be Supplemented by Passenger Boats and Freighters

That the large passenger liners of the Nippon Yusen Kaisha will be retained permanently on the North Pacific route is indicated by the Japanese company's steamship schedule for 1920, which lists all the big steamships out of this port during the year.

The N. Y. K. passenger schedule for 1920 is as follows: Katori Maru, March 1; Suwa Maru, March 19; Kashima Maru, April 10; Fushimi Maru, May 3; Katori Maru, May 25; Suwa Maru, June 16; Kashima Maru, July 7; Fushimi Maru, July 30; Katori Maru, August 21; Suwa Maru, September 11; Kashima Maru, October 6; Fushimi Maru, October 27; Katori Maru, November 19, and Suwa Maru, December 10.

As previously announced in these columns the N. Y. K. trans-Pacific service will be supplemented during the year by additional freighters and vessels with limited passenger accommodations as needed.

Over four hundred passengers will sail aboard the N. Y. K. liner Fushimi Maru when she puts to sea from this port on Tuesday for Japan and Korea.

# IMPATIENTLY AWAIT NIAGARA'S ARRIVAL

## One Hundred Intending Passengers Are Now Stalled at Vancouver

Over one hundred passengers are now at Vancouver impatiently awaiting for the steamship Niagara, by which they have booked passage to Australasia. The travelers face a long wait as the Niagara, as far as can be learned, is still tied up at Sydney, N. S. W., by a strike of marine engineers.

The present situation is only a repetition of passenger blockades formerly created by the disruption of Australian shipping by labor strikes in the Australasian countries.

The agents of the Canadian-Australian Line are in a position to make any announcement regarding the sailing of the liner Niagara.

The Henshall Fish Products Company, Ltd., formed to operate at this port.

# INDIAN PICKED UP DESERTED MOTORBOAT

## American Fishing Craft Found Adrift Off Discovery Island

While cruising off Discovery Island on Monday afternoon last Tom James, an Indian, picked up the American launch Edna, 798K, which was drifting helplessly about. James towed the craft into the reservation on the south end of the island and notified the provincial police.

The Edna, is of the cruiser type and has a length of thirty-three feet, a beam of seven feet, and is painted white and the cabin brown.

The voyage of the steamship across the Pacific from Japan will probably be made during the coming Summer.

Phone 6631R Phone 3220

### Asthma Cured To Stay Cured

Thousands testify to the lasting benefit secured from **Catarrhozone** CURES WITHOUT DRUGS.

The one-dollar package lasts two months; small size, 50c; sample size, 25c; all storekeepers and druggists, or the Catarrhozone Co., Kingston, Canada.

### BALTIC AND CARMANIA ARRIVE AT NEW YORK

New York, Jan. 24.—The White Star liner Baltic and the Cunarder Carmania arrived here to-day from Liverpool bringing a total of 1,910 passengers.

### Irritable Nerves Restored and Health Regained in a Simple Way

The man or woman who is run-down, not getting up the mark, perhaps irritable, nervous or sleepless can well afford to learn about the wonderful results the newly discovered blood-food is giving to folk that use it.

### NOTICE TO MARINERS

Mariners are herewith notified that the front light of the North Side Range of the main channel of the Fraser River, which was carried out by ice recently, will be rebuilt in the present back light, so as to act as the back light of the Range instead of the front.

### OLD FOLKS NEED MILD BOWEL TONIC

And Should Avoid the Use of Harsh Pills and Drastic Purgatives

Old people, no matter how sound and healthy, should avoid cathartic pills, purgative water, salts and all such temporary relief measures.

### OIL-PROPELLED PASSENGER BOATS FOR ST. LAWRENCE

Montreal, Jan. 24.—Robert Redford, head of the well-known steamship line, states that the St. Lawrence line will soon have oil fuel passenger steamers coming up to Montreal. The Cunard Montreal-London service will, he announces, be resumed just as soon as the new ships now being built are completed.

### BRITISH COLUMBIA

Position—On south side of channel at outer entrance to North Arm. Lat. N. 49 deg. 15 min. 4 sec. Long. W. 123 deg. 14 min. 24 sec.

### RUPERT FISH BUSINESS

Prince Rupert, B. C., Jan. 24.—Figures just compiled show that during 1919 Rupert handled 55,774,900 pounds of fish.

### VESSELS' MOVEMENTS

New York, Jan. 23.—Arrived: Str. Stockholm from Gothenburg; Noordam from Rotterdam.

### THREE O.S.K. LINERS ARE CROSSING PACIFIC

Three passenger liners of the Osaka Shosen Kaisha are now bound across the Pacific and will make Victoria within a few days of each other.

MUSIC IN THE HOME

HOW THE KNABE AMPICO

proved its claim to the supreme position it occupies in the field of Reproducing Music by scientific means.

It was arranged that three numbers of Godowsky's Programme in New York should be heard. The first was the 'A' Flat Ballad by Chopin.

PLEASED PROGRAMME FOR BURNS CONCERT

Community Singing at First Presbyterian Church Tuesday Night

Community singing of a number of the ever-popular and lovely old Scottish ballads will be one of the chief features at the annual 'Burns Concert' to be given at the First Presbyterian Church on Tuesday evening, January 27.

- The complete programme follows: Part I. God Save the King. Chairman's Address. Mrs. Morrison. Misses Christie, Dale and Hamilton. Messrs. Saunders, Petrie, Thomas and Summers.

1850 - 'YE OLDE FIRME' - 1920

Heintzman & Co. Pianos

HEINTZMAN & CO., 'ye olde firme,' started building Pianos in the year 1850, and they started RIGHT.

HEINTZMAN & CO. GIDEON HICKS, Manager

MUSICAL NOTES

By George Jay Dyke.

Dean Henry V. Stearns, of Washburn College, speaking on music in worship, says: 'America in time of war discovered music was an asset and, generally speaking, singing men are fighting men.'

SCOTTISH AIRS AT G.W.V.A. BAND CONCERT

Brig.-Gen. Ross, G.O.C., to be Present at Pantages Sunday Night

Musical America says: 'To turn pills into grand opera is a feat of which any millionaire celebrator of this year's seventy-fifth birthday. The Musical Times has always inclined towards the better class of choral music for the people, and has done more to advance choral music in the British Isles than any other similar publication.'

Scottish Programme. Sunday being the anniversary of the birthday of Robert Burns, the great Scottish bard, the programme will be in the nature of a 'Burns Concert' and Scottish airs and ballads will be featured.

Sir Henry Wood and the Queen's Hall orchestra, went from London specially to Norwich to give at the festival concert there Percy Grainger's 'Handel in the Strand,' a work that has scored conspicuous successes in its many public performances.

In the old tower of the parish church of All Hallows, which stands at a short distance north of Bruce Castle, Tottenham, London, are six bells, one of which, called the Saints' Bell, was taken at the siege of Quebec.

Jascha Heifetz, born eighteen years ago at Vilna, Russia, a pupil of the great teacher of great violinists, is called the Paganini of the twentieth century.

In the time of the Tudors one of the interesting figures in connection with church music was John Merbecke, organist of St. George's Chapel, Windsor, born in 1523.

The Majurka and Polonaise are of Polish origin; the Reel and Schottische, Scotch; the Polka, Bohemian; the Tarantella, Italian; the Fandango, Spanish; the Quadrille, French; and the Country Dance, English.

RUSSIAN PIANIST TO GIVE RECITAL HERE

M. Mirovitch, Distinguished Artist, to Play Under Musical Club Auspices

M. Alfred Mirovitch, a young Russian pianist who has gained fame during a recent tour of Australia, is in Vancouver for a few days pending his departure for New York, where he will commence an extensive concert tour.

M. Mirovitch is a Russian by birth. A native of Petrograd, he first studied under Professor Lutsch, later with the famous pianist, Annette Essipoff, at the Petrograd Conservatoire of Music.

While in Siam, some time ago, M. Mirovitch had the honor of playing before the King of Siam, and as a token of appreciation of the artist's ability, His Majesty conferred upon him a high Siamese Order.

lightly graceful and lyrical, the song, 'Drink to me only with thine eyes.'

A good old song, set to a fine old tune, written by Simon Wadlow, the host of an inn called 'Devil Tavern,' 1827, is 'Old Sir Simon the King.'

Aggressive Dominieering Dynamic Impatient Positive Quick Changeable Driving Impulsive

The recent vaccination order issued by the United States Immigration Department has badly upset the musical season in Toronto.

In an attempt to stimulate further interest in music, all churches, schools, orchestras and other public and private forces are co-operating for 'Music Week' to be held in New York the first week of February.

A reader tells me also that Lady Howard de Walden, a gifted soprano, did not, as we stated, sing in a town in England, for at the last moment Lady de Walden had a twofold with throat trouble.

As we expected, the season of grand opera was splendidly supported by Victorians, and the San Carlo forces met with enthusiastic and big audiences at their three performances.

Whist listening on Sundays to the organ music, do churchgoers know that their organist is seated at an instrument with two or more manuals, i.e., rows of keys, the great organ with its first, and second sub-divisions of stops, the choir organ, the swell organ with its two sub-divisions; the solo organ; the echo organ, pedal organ, the pedal board and mechanical appliances, pedal movements.

An article relative to Gregorian music is in course of preparation. The Gregorian is a solemn style of music, sung in unison, and its origin is somewhat obscure.

Measure Its Cost In Years, Not Dollars

A purchase of a New Edison is a purchase of music. You must measure its cost not by what you pay for the instrument—but by the length of time you enjoy its music.

The NEW EDISON

'The Phonograph with a Soul' Buy now! Adopt our convenient plan of payment! Pay as your pocketbook permits!

# New and Interesting Facts from Science and Life

*Astounding Discovery Resulting from Study of Solar Eclipse That Upsets Newton's Laws of Gravitation and Gives a New Conception of the Universe.*

## Science's New THEORY of "BENT LIGHT," and Why THINGS May NOT Be WHAT They SEEM

Prof. A. S. Eddington says that the members of the two British astronomical expeditions agree that the gravitation of the sun causes a bending of the path of a ray of light; or, in simple terms—light has weight. "This had been contemplated as a possibility by scientists for some years," says Prof. Eddington, "but never before had it been practicable to settle the question by experiments. We know that the weight of a rifle bullet causes it to take a curved course and the faster the bullet the smaller the deviation. Light goes so fast that on the earth we could not expect to detect any appreciable deviation from a straight line, so the experiment had to be transferred to the sun, where there is a longer track and a bigger pull of gravitation. The light coming from certain stars was used (hence the need for a total eclipse, in order that the stars near the sun could be photographed) and the swerve of the light under the pull of the sun was measured by the apparent displacement of the stars. The telescope had to be pointed higher to allow for the drop of the light, as a rifle must be pointed higher to allow for the drop of the bullet. The swerve is extremely minute and very delicate measures with most elaborate precautions were necessary.

"The weight of any ordinary quantity of light is extremely minute; in fact, the sunlight falling on the whole earth during one day weighs only 160 tons. If we wished to buy light by weight from an electric light company they would charge at the rate of at least \$500,000,000 per pound." In order to see this wonderful discovery in its true perspective, astronomers find the following example by going to the source of the light: Suppose some hundreds of years ago, say, 200, a ray or wave of light left one of the great suns of the Hyades, which appears to us as a mere luminous point. This wave of light sped across the supposed conveying medium, the imponderable ether of space, on its vast journey, in this case about 13,000,000 times the distance of the sun from the earth. Theoretically, it travelled in a series of up-and-down vibrations in this supposed ether. Then on passing the sun, near the end of its passage, the ray of light, as is reported, was bent out of its direct course toward the sun, and, passing that great luminary, reached the earth eight minutes after, when the star was seen barely two seconds of arc away from the true place it occupied in the sky 200 years ago, the difference in position being so small that it requires a powerful telescope to detect it.

"The basis of Prof. Einstein's work," explains Prof. A. C. de la C. Crommelin, one of the British observers, "was a famous experiment carried out in 1886 by Michelson and Morley in the endeavor to detect our motion through the ether of space by comparing the apparent velocities of light over a measured distance in several different directions. They reached the perplexing conclusion that no variation of velocity could be detected. It was deduced from this result that objects must alter in length according to their rate of motion in the ether." "Prof. Einstein saw that this conclusion would involve some modifications in various theories that had hitherto been accepted and succeeded in finding a formula for the law of attraction that would satisfy the observed phenomena." "The eclipse of last May was specially favorable for the purpose, there being no fewer than 12 fairly bright stars near the limb of the sun." "The process of observation consisted in taking photographs of these stars during totality and comparing them with other plates of the same region, taken when the sun was not in the neighborhood. Then if the starlight is bent by the sun's attraction, the stars on the eclipse plates would seem to be pushed outward compared with those on the other plates, the amount of outward push being greater the nearer the stars to the sun.

That no shift at all would be shown; first, there were three possibilities before the observers: this has been quite definitely negatived by the observations. Secondly, that the shift due to Newton's Law would be shown, which is seven-eighths of a second at the edge of the sun. "One of the two cameras at Sobral, Brazil, gives a value slightly greater than this, but the observations with this camera are discredited, since the focus is bad; it is supposed that the sun's heat acting on the flat mirror used to reflect light into the camera distorted its figure. The third possibility was the shift predicted by Einstein's theory, which is just double the last, or 1 1/2 seconds at the sun's edge. The second Sobral camera and the one used at Principe's Island agree in supporting this value; and as the star-images

on the plates are quite sharp and easy to measure, this result is considered to be entitled to confidence." In explaining Prof. Einstein's theory of bent light which may put the whole world askew, Prof. Harold Jacoby, the astronomical expert of Columbia University, says: "The only knowledge we have of the actual size of the stellar universe is based on the few measured distances that have been established by estimations made in connection with the theory that light travels in straight lines. And if there are curves in these lines, as Prof. Einstein has announced, these observations will have to be recalculated." "Probably this will mean that there is no limit to space but only to the distance our telescopes can penetrate. The telescope being the astronomer's eye, he may be looking along a curve like a circle and if the instrument can be made powerful enough the observer may be able to look all the way around the complete circumference of the circle and will thus see his own back."

## HOW Thrifty CHINA HOOVERIZES

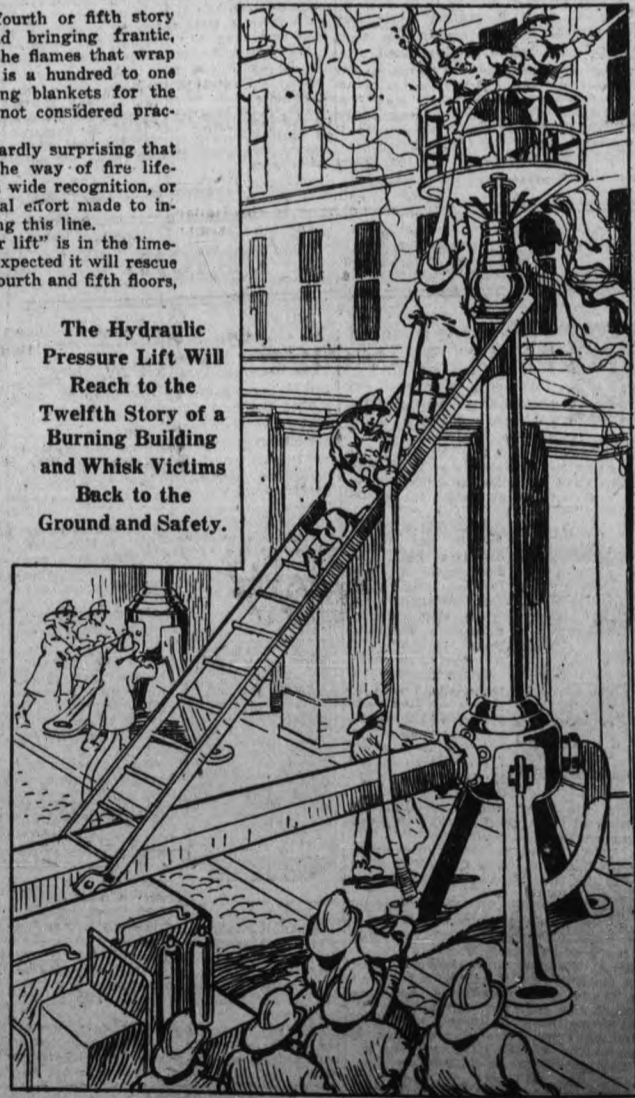

NUMEROUS things which peoples of other nations do not hold as worthy of consideration are being turned into good use by the Chinese. For instance, their ingeniousness in utilizing things of no value whatsoever is shown by scavengers who collect peach stones in the street. Children and women are to be seen in the markets picking up and treasuring the peach stones. In the months of May, June and July the women and children of the poorer class appear in groups carrying baskets home when filled. These peach stones have several uses. Broken into pieces and dried in the sun they furnish good fuel. The kernel which has a good market value is sold to the druggists for making medicine. Another profitable use of the peach stones is to sell them to native artists or engravers who carve them into different forms of animals. Some of the larger stones, however, if round enough, are carved into fine finger rings which cost between 20 and 30 cents each. Out of one full basket of peach stones 10 or 15 can be selected as suitable for engravers and they will be sold at a cent each, thus turning the waste materials into a good profit.

cleaned them groups of small girls and boys pick out the big stones. The smaller ones are broken up and used for fuel when the kernel has been taken out. Sometimes the kernels are sold to chemists or druggists. They are preserved in bottles and used as a cough medicine after the kernels are turned into white powder. In many small villages this white powder is a very cheap cough remedy. Another waste material put to use by Chinese in different towns of each province are oyster shells. They are in great demand for the manufacture of Chinese lime. One "picul" of such shells (about 133 lbs.) costs about 60 cents. In many towns where there are many Chinese restaurants scavengers pack oyster shells in bamboo cases. In a front corner of Chinese houses in villages, especially those near coast cities, big baskets are put by scavengers as refuse boxes. When full, they pick out shells and even broken pottery ware, for everything has a market value in China. The broken bowls and cracked pottery ware are broken into small particles and afterward sold to masons for making foundations of strong walls, after being mixed with cement. Many pretty houses in big seaport cities of Shanghai, Canton and Foochow have walls made of broken pottery ware mixed with cement.

## Water LIFTS to Save LIVES at FIRES

FIRES in the factory and tenement districts of large cities offer unnumbered examples of wholesale tragedies that often could be prevented by the proper kind of life-saving equipment. Fire escapes do not always perform their duties—especially in the old buildings of the congested districts in fire-trap factories. To offset the inefficiency of these fire escapes or, as in too many cases, their entire absence, standard fire department equipment—ladders, nets, etc., has been adopted. Running ladders to the fourth or fifth story of a blazing structure and bringing frantic, frightened victims through the flames that wrap themselves about the rungs is a hundred to one shot, at best. And spreading blankets for the fire-trapped to leap into is not considered practical, even by the movies. In view of all this it is hardly surprising that anything revolutionary in the way of fire life-saving apparatus should win wide recognition, or that there should be a special effort made to inspire inventors to action along this line. So the prospective "water lift" is in the lime-light—for if it performs as expected it will rescue not only the victims of the fourth and fifth floors, but of the 10th and 12th as well.

As the fireman within the car, or crow's nest, can regulate both the pressure and release valves he will have perfect control of the lift and can raise or lower it at almost any desired speed and can stop it exactly where he wishes. Incidentally, these lifts can be used to carry "chemical" or fire extinguisher tanks to the vital parts of the fire, and also for elevating hose in order that the water streams may be brought into more direct action.

The Hydraulic Pressure Lift Will Reach to the Twelfth Story of a Burning Building and Whisk Victims Back to the Ground and Safety.

The basic idea of the water lift, according to a description of this device in the Illustrated World, was inspired by the plunger or hydraulic elevator and the lift itself is, in fact, merely a plunger elevator. Its base forms an 18-foot water chamber or hydraulic pressure cylinder. Into this base, telescope 10 hollow sections of pipe, or plunger rod. As the water is compressed in the hydraulic cylinder the pressure forces the telescoped cylinders upward, until, when the full height of the lift is obtained, a single tapering hollow water filled pipe rears 143 feet in the air. This pipe is crowned by a crow's nest, or cage, in which a fireman ascends to make the rescue. These lifts are designed to carry a weight of 500 pounds in the crow's nest. It is estimated that the speed with which these lifts will operate will be about one-half that of the fast plunger elevator— which means 10 stories ascent in approximately one minute's time. The descent will require one-fourth longer time.

## Strange DISEASE That Is DUE to MICE

FOR many years some of the river valleys of Japan have been known to harbor in endemic form a peculiar malady designated as tsutsugamushi disease. The old Chinese literature makes it probable that something of a similar nature was prevalent long ago in parts of China; and recently the same disease has been observed in Formosa. The descriptions indicate its close resemblance to typhus fever and allied infections. The origin of tsutsugamushi disease is attributed to the bites of certain insects found in the affected regions. "Of late, the study of the disease, which formed the subject of a report by the American investigators F. M. Ashburn and C. F. Craig in

two Philippine islands in 1908, has been renewed by the experts of the Kitasato Institute for Infectious Diseases in Tokyo," the Journal of the American Medical Association reports. "They have verified the peculiar periodicity of tsutsugamushi, which occurs most frequently in the summer months, beginning with June and ending with October. This corresponds with the development of the insect 'akamushi,' the now assumed carrier of the Nippon 'river fever.' This insect appears to be the larva of a form resembling the European Leptus autumnalis. The summer likewise is the season when the peasants who suffer from it enter the infected zones. The insects, which begin to attack human beings in June, are extremely prevalent until the fall months. The mortality is a variable one, but has on several occasions exceeded 50 per cent.

"The close resemblance of tsutsugamushi disease to typhus fever and Rocky mountain spotted fever has been recognized for some time. There is a similarity in the type of febrile reaction elicited; the peculiar eruptions coincident with the height of the attack are also reminiscent of those seen in the better studied typhus-like infections. Indeed, one might be inclined to suspect a complete identity of the diseases except for a distinction between the 'river fever' and the conventional typhus fever quite as marked as that still postulated between 'spotted fever' and its nearest analogues. The non-identity is asserted primarily on the basis of immunologic investigations and the failure of infection with one type to protect against the subsequent occurrence of the other." "The role of the field mouse as bearer of the parasitic insects that transmit the etiologic agent to man and as host of the infectious microorganism, seems to be established. With respect to prophylaxis, it is difficult to prevent the bites of the insects under existing conditions. Excision of the area of the sting does not prevent the distribution of the virus. The best prospect of relief seems to lie at present in the eradication of the mice so far as this is practicable."

## BUTTER Once USED as OINTMENT

BUTTER, which is supposed to have been churned unintentionally for the first time by the Arabians, who carried milk in skin bottles on camelback trips in the early ages, was probably mentioned for the first time in writing in the Bible, Genesis xviii, 8. At that time Abraham, in urging Sarah to prepare a meal for the Lord, it was said: "Took butter and milk and the calf which he had dressed and set it before them, and he stood by them under the tree and they did eat." Butter was used locally in the earliest periods for which records exist, as it was believed to be the best possible ointment for the skin, and in some parts of southern Europe it is not yet used as a food. Olive oil, used as a lubricant for bread in the old days, still is used by many there in the place of butter. In the early days butter also was used in lamps. To the Scythians and Thracians is given the credit of teaching the Greeks the food value of butter, and the Romans learned of it from the Germans, it is said. Butter was first made from the milk of sheep and goats and later it was made

from the cream taken from cow's milk. In India a pale, insipid butter is made from buffalo milk. This has to be boiled in order to be clarified and is called "ghee," a substance which is used to a considerable extent for cooking and in sweets. Butter forms an important product in America, where creameries have largely supplanted small farm dairies, as scientific study has demonstrated the fact that cream should be carefully treated in order to develop the proper amount of lactic acid and to culture the right kinds of germs necessary to good butter. The cream, skimmed from fresh milk and permitted to "ripen" for a few days usually, is churned in large machines. The agitation causes the separation of the butter fat from the water substance in the cream and the concussion of churning breaks the outer skin of the butter globules, enabling them to adhere closely together instead of floating about. Butter, which is one of the most digestible of foods if properly prepared, contains 8475 calories per pound. Buttermilk, the liquid left after the butter has been churned, is said to be one of the healthiest of drinks and is often recommended to patients suffering from intestinal disorders.

Stereo-View, Showing the Objects of the Forward Movement

**PORTLAND DIVINE ON FORWARD MOVEMENT**

Victoria is in line with the rest of Canada in the hearty co-operation of the different churches in carrying through the Forward Movement—the supreme aim of which is to put first things first, and to give the religion of Christ its proper place in all lives. A distinguished bishop of the Protestant Episcopal Church of the United States, Dr. Sumner of Portland, Oregon, is scheduled to speak on this theme in the Metropolitan Methodist Church, on Monday, February 2, at 8 p. m. Everyone interested in this vital matter should hear him.

**SYNOD TO CONSIDER IMPORTANT CANONS**

The annual meeting of the Synod of the Diocese of British Columbia will be held in this city on February 3, 4, and 5. On Tuesday, February 3, the diamond jubilee of the Anglican diocese and the sixtieth anniversary of the arrival in the city of the late Bishop Hills will be commemorated.

**Centennial Methodist,** George Rogit, Near Government.  
Pastor: REV. J. L. BATTY. Parsonage, 612 David St., Phone 6582

10 a. m., Class Meeting.  
11:30 a. m., Sermon on "THE BLIND MAN."  
7:30 p. m., Sermon on "SMOKE INTELLECT OR MORE FAITH."  
Pastor will preach at both services.  
"HAS THE WAR PROVED CHRISTIANITY A FAILURE?" will be discussed at the Christian Forum. Secretary Young, of the Y. M. C. A., will open the discussion. Orchestral music for the first twenty minutes, beginning at 2:30 p. m.

**NEW THOUGHT TEMPLE**  
Hall 115, Pemberton Building.

Dr. T. W. Butler will speak at 11 a. m. Subject, "THE SCIENCE OF THE UNSEEN WORLD."  
7:30 p. m. Subject, "The New Thought and the Age to Come"  
COME and hear of the "Good Time Coming."

**UNITY CENTRE**  
Hall 600, Campbell Bldg.

Service—8 p. m.  
Speaker—Mrs. Gordon Grant.  
Subject—Divine Heredity.  
Office, 605-Campbell Building.  
Hours for consultation, 2 to 4 every afternoon except Saturday, also by appointment.

**"An Army Marches On Its Stomach"**  
NAPOLEON

A FRENCH general said it and a French army proved it. During the dark days before the wonderful organization of transportation was perfected, food was scarce and meat and vegetables unknown—"Frenchy" didn't stop. No, he carried on, for he had his bread. Those round, flat loaves, shown in the picture, strapped to his back, were full of nourishment and energy—they gave him the grit to stem the tide.

**SHELLY'S 4X BREAD**

Let bread mean to you what it did to the fighting French soldier—a source of unlimited energy and unbounded nourishment. And remember, Shelly's 4X is more than mere bread—it's the richest in health-building qualities, richest in flavor and baked to perfection in Canada's most modern and sanitary bakery.

Hours for consultation, 2 to 4 every afternoon except Saturday, also by appointment.

**MONTHLY RECITAL TO-MORROW EVENING**

An exceptionally interesting programme has been arranged for the monthly recital at the First Congregational Church to-morrow evening. Mr. Thos. Kelway, tenor, whose vocal ability in some of the most difficult operatic and oratorio arias has been heard and appreciated by many Victoria audiences, will sing "The Soft Southern Breeze" from Baraby's "Rebekah." Mr. Ernest Butterworth, baritone, will contribute Squire's "Guide Me to the Light." Mr. Butterworth is well known here as an artist of comprehensive interpretation of song, and it is a delight to hear him. Miss Irene Bick, a promising violinist who has been doing much public work of late, will play "Meditation" by Wilson. The full programme follows:  
Organ Prelude—"Cantata"..... Scamell  
Solo—"The Soft Southern Breeze"..... Miss L. A. deW. Moore.  
Solo—"The Soft Southern Breeze"..... Baraby  
Violin—"Meditation"..... Wilson  
Miss Irene Bick.  
Quartette—"God is a Spirit"..... Bennett  
Mrs. Peterson, Miss W. Scowcroft, Mr. King and Mr. Stevenson.  
Chorus—"O Gladsome Light"..... Sullivan  
Offertory—"Araguense"..... Wheeldon  
Solo—"Guide Me to the Light"..... Miss Moore.  
Solo—"Guide Me to the Light"..... Squire  
Duet—(Mrs. Peterson and Mrs. Spence) and Chorus—"I Waited for the Lord"..... Mendelssohn  
Prelude—"Festive March in D"..... Smart  
Miss Moore

"Something had to be done at once to fill that gap," said Dr. Crowther. "I shall never forget that Friday night when I was confronted with the task of meeting the emergency. The day had been a sorely trying one. With a burdened heart I went to my room the night in New York and retired for the night.  
"But sleep refused to come. What could be done about that gap in the programme? I found myself lying there in fervent prayer the choruses of the 'Messiah' broke suddenly upon my mind, and a vision of the ultimate triumph of the Christian era's kingdom began to unfold before my soul.  
"Then it was that the celestial fire began to burn within; it blazed like a consuming fever. Handel's 'Messiah' in a holy wedlock of oratorio and pageantry, began to fill the gap in the programme.  
"I arose and dressed. The clamorous voices of the city's life had become silent. There was only one voice, still, small voice, and sound of angel choirs as on the night that Christ was born, commingled with the peal of heavenly bugles.  
"All night long I dreamed. I wrote on with tears and song and prayer. Again and again the heart cried out, 'Speak, Lord, for Thy servant heareth.' And He did! That night the Author of 'The Wayfarer' spoke His message to a humble Methodist preacher.  
"Substantially Finished  
"When the saffron fingers of the morning had touched the eastern sky the pageant, substantially as it afterwards appeared, had come into being. The city's church in Florida, the heathen temple and shimmering river in Babylon; the pastoral scene of Bethlehem; the highway and gate into Jerusalem; the thaur-evers brow of Calvary; the resurrection triumph in the garden of Joseph, and the peans of the Hallelujah Chorus; all had come down through the midnight sky.  
"And yet I could not be sure. Perhaps it was a mirage born of weariness. With much misgiving I journeyed on the following day to the home of the director-general Dr. S. Earl Taylor in the country and read my notes to him and his good wife. The effect was instantaneous and overwhelming. 'You've got it!' he cried, and I went back to the city with a contented heart.  
"No small measure of credit for the subsequent triumph of the pageant is due Montgomery Lynch as musical director and Mrs. Lynch as organist. In undertaking the preparation of 'The Wayfarer' it was a condition that I should have the couple who made the temple chorus as my associates at Columbus. The New York production is weakened by their absence.  
"Musical Setting  
"The musical setting of the pageant began to take form in a humble cottage in England. My father had been a church organist in his youth, and mother was an alto in the choir. But the rearing of eleven children on \$10 a week left little of a margin for luxuries.  
"Eventually, however, father had amassed the sum of \$12 and invested this fortune in a second-hand 'harmonium' that had difficulty living up to its name. It was asthmatic in the wind chest, rheumatic in the pedal extremities and altogether too quavering on the tremolo." But it had a grand soul within, and its efforts were bravely supported by the larger Charles E. McQuibrey, who learned by memory the music of Handel and the glorious masters of oratorio.  
"The first scene of the pageant is strangely familiar. Many a time as a child... the factory the beatific vision of that day when the kingdom of God shall become the Kingdom of our God and of his Christ, lightened the drudgery of the day. Above the roar of the loom there came the sound of heaven's full-throated organ, like the fountains of the winds, and the chanting of children's voices that were forever freed from the sigh and sob and sorrow of life.  
"If 'The Wayfarer' shall guide some pilgrims of the night to the 'Light of the World' its mission will have been fulfilled. Meanwhile, I am humbly grateful that the great God chose an earthen vessel to bear His treasure to men. In common with the Wayfarer, the writer concludes:  
"It must be that God's omnipotence fulfills itself in weakness like to mine."

**ANGLICAN.**

BANKING MAGNATE

TALKS OF FINANCE

W. Harriman Passes Through Victoria En Route From New York to Orient

J. W. Harriman, Wall Street banker, who left with his wife and family aboard the liner Empress of Russia yesterday for the Orient, is an optimist regarding the future of world problems of finance, labor and industry. Prior to his departure Mr. Harriman stated that he anticipated a condition which would result in the adjustment of commodity values with the consequent readjustment of wages of labor, and which would, incidentally, correct the exchange situation by releasing a volume of American capital for foreign credits and investments.

LESS MEAT IF BACK AND KIDNEYS HURT

Take a glass of Salts to flush Kidneys if Bladder bothers you.

Eating meat regularly eventually produces kidney troubles in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation. The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then be thoroughly flushed and stimulated to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

These warehouses of the United States are packed with manufacturers' goods which are known to the manufacturers in expectation of sales to Europe following the war at the enhanced prices to which the war had immense holdings of the banks of the country have advanced big sums to the manufacturers, but in their haste the banks have been forced to discount their paper with the Federal Reserve Bank.

"The result will be that all descriptions of manufactured goods, chiefly dry goods, boots, shoes, clothing and such like will be thrown on the market at auction prices, with a consequent big drop in value.

"The process will result in the diminution of the demand for labor, and there will be three men looking for a job where there were two looking for one man. This will reduce the status of the efficient worker as compared with the worker who is content to do just sufficient to procure enough for his daily needs, and with the drop in prices, the country will get back on its feet and be enabled to move forward towards the great era of prosperity that awaits it."

"The process will also release a large amount of capital now tied up in these stocks," said Mr. Harriman, "and the United States will be able to provide the money for foreign credits and for investments abroad with a consequent favorable effect on the exchange situation."

The exchange situation, Mr. Harriman pointed out, was the crux of the whole matter. "The speculators who have been storing up commodities in expectation for a tremendous demand from Europe have been disappointed owing to the fact that the foreign buyer could not purchase in the United States market, when exchange was so badly against him."

"The whole world at present is in the position of the man who has been going without new clothes owing to the big prices he was charged for them. Now his old clothes are worn out and he has got to buy."

"The railway systems of the country need renewed interest, and the rolling stock, to mention only one feature of the big demand for production that is coming."

An Optimist. "You must remember," said Mr. Harriman, "that I am an optimist. I believe that once things break we shall get our feet on the ground and be able to look forward and to work forward for the great times that are coming when this continent gets to work and realizes the wealth of opportunities that exist."

Mr. Harriman, who is president of the Harriman National Bank of New

York, is bound to the Orient to look into his investments there and to examine the field for new opportunities for business enterprise.

Thursday, Jan. 29 - Squad drill; M. G. mechanism. Parade in charge of Capt. C. E. Ball, Lieut. N. A. Watt. Dress: Drill order. J. M. CUMMING, Captain and Adjutant.

REPLY DOES NOT CLOSE INCIDENT

London Diplomatic Circles Think Allies Seriously After Kaiser

London, Jan. 24. - In diplomatic quarters here belief was expressed this morning that the Dutch reply with regard to surrender of the former German Kaiser does not close the incident. It is held that the Allies have so strongly committed themselves in the peace treaty on this matter that they cannot withdraw without further conversation with Holland. In the opinion of close observers, Great Britain in particular took such an emphatic stand at the Peace Conference that Downing Street will have to make some further move.

Seeking Boat Thieves - Oak Bay Police Investigate Recent Theft of Boats Along the Oak Bay Waterfront

Another boat to-day was reported missing from the point, where it was seen to be overturned for the winter.

Sons and Daughters of England - The combined dance and five hundred party held by the allied lodges of the Sons and Daughters of England in the Knights of Pythias Hall last night was a marked success, over 180 people enjoying the affair.

Everbearing Berries - As the strawberries in the hot weather ends, Professor Bars, of the University of British Columbia, told Gordon Head growers that they should be cautious about going in too heavily for ever-bearing plants. These ever-bearing plants are usually cultivated with the aid of an overhead irrigation system, and some of them in this district bear right up to Christmas.

Held Up by Footpad - While on her way home last night Mrs. Skinner, of 2595 Cook Street, was held up by a footpad but by showing considerable presence of mind she succeeded in eluding him.

Grand Concert - An entertainment in which no effort has been spared to make it a success will take place on Monday evening at St. John's Hall, when the St. James Church troop of Boy Scouts will hold its first concert.

Another Oulja Rhyme

When will I married be? Asked little Etta dear. 'Till you be wedded to me, June first,' said the seer.

Mac - I'm smoking a terrible lot of cigars lately. Jack: You certainly are if that's one of them. - London Opinion.

Y.M.C.A. Campers to Hold Grand Re-union

SCENE AT THE GORGE CAMP SITE

The banquet to be held in the Y. M. C. A. on Wednesday evening of all former members of the Y. M. C. A. camp promises to be one of the finest re-union ever held in this city. The camp was first established at the Gorge in 1905, and every man who has attended since that time has been invited to attend and bring a lady friend.

SOCCER GAMES ARE OFF

On account of the weather all soccer games in the Victoria and District League were called off this afternoon. Games postponed from the previous Saturday on account of the weather were to have been decided. The rugby players did not postpone their fixtures at Oak Bay.

PAPER CONTROLLER AT FORT FRANCES

Fort Frances, Ont., Jan. 24. - (Canadian Press) - Negotiations were begun this morning between R. W. Breadner, the Paper Controller, who arrived here from Ottawa last night, and the Fort Frances Pulp & Paper Company with a view to ending the long standing trouble over shipment of newspaper to prairie newspapers.

"TUCK" - AN APPRECIATION (By an Old Friend)

Jedgar Fawcett writes with regard to the late James Tuckfield: It is fully fifty years ago, or in the early seventies that I first became acquainted with James Tuckfield, or as we called him "Tuck," by me, I mean "we boys." There must be many to-day who remember his genial, smiling face when he saw any of "the boys" coming in his direction, for he was on business.

HEAVEN AND HELL

Over 400 pages only 25c. post-paid. W. O. LAW, 486 - Euclid Ave. TORONTO, ONT.

SHIP THOUGHT LOST TURNS UP SAFELY

St. John, N. B., Jan. 24. - Six months after she sailed from Barbadoes for St. John with a cargo of molasses and long after she had been given up for lost, advice was received here yesterday that the schooner Vanlear Black has put into a port in Florida. The news received by her agents contained no other information than that she was short of provisions.

TO GIVE COMPENSATION

Washington, Jan. 24. - The Senate yesterday passed and sent to the House a bill authorizing the Shipping Board to adjust the claims of wooden shipbuilders growing out of the cancellation of contracts. The Board has estimated that the measure will affect about \$15,000,000 in claims.

FELT EARTHQUAKE

Neighboring Cities Disturbed by Tremors Last Night - Walls Cracked in Anacortes. Bellingham, Wash., Jan. 24. - Two distinct earth shocks, one following the other at an interval of about a second were felt here at 11:10 o'clock last night. Sleepers were awakened, windows and doors rattled, and a few persons rushed to the streets, but no damage was reported.

TO CONTRACTORS

MRS. M. SUMMERS, Box 951 WINDSOR, ONT.

Hon. Hugh Guthrie Sworn To-day as Militia Minister

Ottawa, Jan. 24. - Hon. Hugh Guthrie, Solicitor-General since the formation of the Union Government, was sworn in by the Governor-General at noon to-day as Minister of Militia in succession to Major-Gen. S. M. Curran.

Mr. Guthrie will retain the position of Solicitor-General.

Stan Young will be in charge of the whole process.

Fearing that some of the former campers may have been overlooked in the search of the records, the committee's efforts those who were not yet received invitations will immediately notify Mr. Young.

The campers will hold this reunion to celebrate their return from the war. It is estimated that 90 per cent of the campers saw overseas service. Eight of the campers paid the supreme sacrifice. They were: Arthur Pascoe, C. M. Wright, J. W. Cook, R. M. Jones, George Elliott, Fletcher Elliott, V. Kidd and J. Halstead.

"TUCK" - AN APPRECIATION (By an Old Friend)

Jedgar Fawcett writes with regard to the late James Tuckfield: It is fully fifty years ago, or in the early seventies that I first became acquainted with James Tuckfield, or as we called him "Tuck," by me, I mean "we boys." There must be many to-day who remember his genial, smiling face when he saw any of "the boys" coming in his direction, for he was on business.

He was then one of the most eloquent of men we fitted. I should say for an auctioneer, or what he was, a canvasser. Many a time I have been entertained with maybe, his Gray's Elegy. I was persuaded, and to-day "the library of poetry and song" is still with me, and I never have regretted the \$6 paid in monthly instalments. If it was not books, it may be "chocolots" in some newly settled coast town, or silverware may be, "warranted to wear forever." I never saw him "put away" with anybody, or anything, always smiling, and may be this is the reason he lived so long, and it is a lesson for us all.

There is a neighbor of ours who says he has no fear of the future punishment that may come to him. He has three daughters taking singing lessons and one son who is just beginning on the violin.

PAPER CONTROLLER AT FORT FRANCES

Fort Frances, Ont., Jan. 24. - (Canadian Press) - Negotiations were begun this morning between R. W. Breadner, the Paper Controller, who arrived here from Ottawa last night, and the Fort Frances Pulp & Paper Company with a view to ending the long standing trouble over shipment of newspaper to prairie newspapers.

Mr. Breadner was accompanied by H. McLaughlin, Chief Auditor of taxation in the Finance Department at Ottawa; S. W. McMichael, of Toronto, General Manager of Customs; and T. S. Crossan and P. E. Hara, of Toronto, special officers of the Canadian Customs.

The Customs officers are here in connection with the embargo placed on the company's export of newspaper and with any other steps that may be necessary if there is difficulty in reaching some agreement.

It is understood that extreme measures will be avoided if possible, but that the Paper Controller intends to terminate the contract in a satisfactory situation and guarantee the prairie newspapers their supply of newspaper, taking necessary steps to insure this result. One car of newspaper was shipped to Winnipeg last night.

"PUSSYFOOT" SHIP WAS "PLASTERED"

New York, Jan. 24. - The Black Star steamer Yarmouth, which sailed for Havana January 17 with a cargo of liquor and was compelled to put back owing to storm damage, was libelled here Wednesday on a claim of \$11,791 filed by a repair company. The ship was libelled the day she sailed but the claim was settled. The vessel is operated and manned by negroes.

SHIP THOUGHT LOST TURNS UP SAFELY

St. John, N. B., Jan. 24. - Six months after she sailed from Barbadoes for St. John with a cargo of molasses and long after she had been given up for lost, advice was received here yesterday that the schooner Vanlear Black has put into a port in Florida. Dance, Agricultural Hall, Saanich, Wednesday

### New Fruited Bread Pudding

1 pint milk, 3 beaten eggs, 2 tablespoons grated coconut, 1 teaspoon flavoring, 1 tablespoon sugar, 1 cup seeded dates, 1 cup chopped nuts, 1 cup bread-crumbs, citron size of a walnut cut in fine strips.

Beat the milk. Butter the bottom of the dish with the fruit; then carefully cover it with one-half the crumbs. Beat the eggs and add the chopped nuts, sugar and flavoring to the milk after it has cooled some. Pour some of this custard over the crumbs in the pudding dish, then the remaining crumbs and all the custard. Let it cook about thirty minutes.

Bake with the cover on a half hour in a moderate oven. Remove the cover and spread the coconut over the top and brown to a golden color, when done, cool, slip a knife around edge and turn out.

**Fudding Dishes**—You'll find one of these pudding dishes very handy in preparing various tasty puddings. See them next time you visit our store—various sizes variously priced—\$2.50, \$3.25, \$4.00, \$4.50, \$5.00, \$5c, 30c, 25c.

Also in "TYBEX" Ware.

## BURNS ANNIVERSARY

Lecture and Concert

FIRST PRESBYTERIAN CHURCH

TUESDAY, JANUARY 27

Caledonian Community Choruses

Doors Open 7.30

Admission 25c

### To-morrow Night

To-morrow night in First Presbyterian Church, Mr. Inkster will give his second lecture on the Book of Revelation.

His subject will be

### The Seven Churches

and his text will be Revelation, chapters two and three. He will treat the letters as a prophecy covering the history of the Church from Apostolic times down to our own day. Students are asked to bring their Bibles.

REV. J. G. INKSTER.

### PREMIER URGED TO PROVIDE WORK HERE

Labor Men Tell Mr. Oliver of Serious Unemployment Situation

Pointing to the critical unemployment situation which prevails in Victoria at present, a delegation of labor leaders waited upon Premier Oliver yesterday afternoon and urged the Government to start public works as a solution to the problem.

The delegation was headed by P. O'Hara, business agent of the Shipyard Laborers, Riggers and Pasteners Union, and consisted of H. Porter, A. Simmons, C. W. Adams, Walter Inward, J. R. Humphreys, E. C. Jones, C. W. DeGnam and several others. They informed the Premier that while they represented one union of laborers, they spoke, they said, particularly for the unskilled trades, the members of which were in a more serious financial condition than the skilled workers.

They urged that the unskilled men be given an opportunity to work on the P.G.E. extension.

The delegation also urged the Government to proceed with its amendments to the Workmen's Compensation Act along the lines already explained by the administration.

Satisfaction was expressed by the delegation with the Government's liberal legislation. It voiced its gratification over the appointment of a Social Service Commission which, the delegates hoped, would result in the inauguration of health insurance, maternity benefits and other social legislation which was badly needed by the unskilled laborers.

In reply, the Premier explained with regard to construction on the P.G.E., that the Northern Construction Company, to which the contract for the extension of the road had been let, was to advise the Government as to what number of men could be employed this year. The Government was waiting further information from the Company.

As for provincial public works, Mr. Oliver pointed out that this year's appropriations had almost been expended, and little additional money would be available until voted by the legislature. He observed, however, that he was prepared to start grading work on the Reserve in connection with the establishment of a new Johnson Street bridge as soon as the figure forwarded to him certain necessary figures and plans.

Mr. Premier promised to take the whole matter of unemployment up with his colleagues in the Cabinet.

### NO UNIFORMS AT BALLS

Military Headquarters Calls Attention to Order—Turning Over Hospital.

In District Orders issued by Brig.-Gen. J. M. Ross, G.O.C., the ban is put on the wearing of uniforms at fancy dress balls. The extract is as follows: "Attention of all concerned is invited to Para. 1382 K.R.L. & O. for the Canadian Militia, 1917, which reads as follows and instructions in which are to be strictly observed: Regulation uniform must not be worn at fancy dress balls, but there is no objection to military uniforms of obsolete pattern being worn on such occasions."

It is also announced in District orders that the Esquimalt Military Hospital will be turned over by the C.A.M.C. to the S.C.R. on February 15. It has been known for some time that the change was contemplated, but details were lacking.

### MME. SANDERSON-MONGIN TALKS ON FLEMISH ART

Some of the art treasures of Flanders, many of them now lost to the world through the ruthless destructiveness of the Germans, were described by Madame Sanderson-Mongin last night in the course of an intensely interesting lecture on Flemish Art. About one hundred and fifty attended the gathering which was held in the Provincial Library under the auspices of the Arts and Industrial Institute of British Columbia.

The lecturer traced the history of art from the decay in Venice and the subsequent removal to Belgium, where it was revived by the common people, in strong contrast to its earlier monopoly by the wealthy aristocracy of Italy. The works of the great Flemish masters, and the wonders of Flemish architecture as exemplified in the famous Cloth Hall at Ypres were described in vivid detail by the lecturer. Great interest was added by the set of some seventy beautiful slides made by Mr. A. Huxtable from material furnished by Mme. Sanderson-Mongin.

At the next meeting in February it is hoped that R. S. Day will lecture on the Cathedral and other famous buildings of Canterbury, Kent. The meetings are open to everyone interested in art topics.

When a man begins to blow in his money a lot of people get wind of it.
