The SPEAKER. The Chair will entertain 1-minute after the bill under suspension of the rules.

INSTALLMENT TAX CORRECTION ACT OF 2000

Mr. ARCHER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3594) to repeal the modification of the installment method.

The Clerk read as follows:

H.R. 3594

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Installment Tax Correction Act of 2000".

SEC. 2. REPEAL OF MODIFICATION OF INSTALLMENT METHOD.

(a) IN GENERAL.—Subsection (a) of section 536 of the Ticket to Work and Work Incentives Improvement Act of 1999 (relating to modification of installment method and repeal of installment method for accrual method taxpayers) is repealed effective with respect to sales and other dispositions occurring on or after the date of the enactment of such Act.

(b) APPLICABILITY.—The Internal Revenue Code of 1986 shall be applied and adminis-

tered as if that subsection (and the amendments made by that subsection) had not been enacted.

The SPEAKER pro tempore (Mr. PEASE). Pursuant to the rule, the gentleman from Texas (Mr. ARCHER) and the gentleman from Wisconsin (Mr. KLECZKA) each will control 20 minutes.

The Chair recognizes the gentleman from Texas (Mr. ARCHER).

GENERAL LEAVE

Mr. ARCHER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous material on H.R. 3594.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, while the nature of this bill is complex, the purpose is quite simple; and that purpose is to protect as many as 260,000 small businesses from a harmful tax provision. More important, it should serve as a lesson to all politicians who talk about closing loopholes.

This was presented originally in President Clinton's fiscal year 2000 budget and included in the 1990 Tax Extenders package at the insistence of the White House and it outlawed the use of the installment sales method by

taxpayers using the accrual method of accounting.

The accrual method of accounting generally requires that taxpayers recognize income in the year in which the right to receive the income occurs regardless of whether the taxpayer actually receives the cash in that year.

The installment method of accounting allows a taxpayer to defer recognition of income until the taxpayer actually receives the payment, and that is appropriate.

During the negotiations in the 1999 tax package, we were told this provision was a "loophole closer," that it was noncontroversial, and that no one would be heard. Months after the bill became law, however, we learned from the small business community that this harmless loophole closure would, in fact, hurt and hurt significantly. So now there is strong bipartisan support to undo this mistake and to go back to the way things were before this tax change was made. But this should serve as a lesson to all of us, not just today but in future Congresses. "Closing loopholes" always is a good sound bite for politicians. Whereas the real-life result is usually a bigger tax bite on American workers or businesses.

Today we will right the wrong and provide a little more peace of mind to thousands of small business owners across the country.

I urge my colleagues to support this important and time sensitive legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. KLECZKA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of the Installment Tax Correction bill.

As the author of the first bill introduced in the House of Representatives to reinstate the installment method of accounting for accrual basis taxpayers, I commend the gentleman from Texas (Mr. ARCHER) for his efforts on this issue.

Mr. Speaker, this legislation is needed to correct a flaw in the Ticket to Work and Work Incentives Improvement Act, which was passed by Congress last year.

Although the Ticket to Work bill contained many important provisions, it repealed the installment method of accounting for most accrual basis taxpayers. The bill before us is necessary to fix this repeal.

The installment sales method is frequently used in the sale and purchase of a small business where bank financing is unavailable. Under the Ticket to Work Act, small business owners selling a business using the installment sales are required to pay all capital gains taxes on the sale of a business all at once even if the proceeds are to be received in installments over the years.

As a result, some small businesses now face lump sum income tax payments that are more than the immediate proceeds of the actual sale. In other words, taxpayers have had to pay

taxes on money they will not receive for many years in the future or, in some cases, money that they will never receive due to the buyer defaulting on future payments.

The intention behind repealing the installment method of accounting was to crack down on large corporations deferring taxes for extended periods of time. Instead of simply addressing a tax avoidance scheme, the Ticket to Work bill also eliminated a perfectly legitimate method of financing sales transactions for small business owners. Clearly, Congress did not consider the full ramifications of this change in the law.

It is estimated that more than 250,000 small businesses may have already been adversely affected by this repeal. Many small business sales that were not finalized when the Ticket to Work bill was enacted on December 17, 1999, have fallen apart and countless others have never occurred before because of the repeal contained in the Ticket to Work bill.

Furthermore, those business owners who are looking to purchase additional assets in order to expand their operations will now find it more difficult to find a potential seller. As a result, the value of some small businesses may have been reduced by as much as 20 percent.

Mr. Speaker, I believe the broad partisan interest that this bill has attracted underscores the importance of passing this legislation to reinstall and to reinstate the installment method of sales.

Mr. Speaker, I guess we can deal in a blame game this morning, but I should point out to the Members that in both Republican tax bills, the massive tax bills that were introduced in the House, both of those bills contained this repeal also. So while some may take to the floor to blame the administration, know full well that the blame should be equally spread on all of us. However, the important thing is that the Congress will correct this inequity today.

I urge my colleagues to vote yes on H.R. 3594.

Mr. Speaker, I reserve the balance of my time.

Mr. ARCHER. Mr. Speaker, I yield such time as he may consume to the gentleman from California (Mr. HERGER) a highly respected member of the Committee on Ways and Means who has spent such terrific effort in bringing this issue to fruition on the floor today.

Mr. HERGER. Mr. Speaker, I say to the chairman, as this is the last bill that will be considered by the House under his chairmanship, I want to thank him for helping to bring this important legislation to the floor and for all he has done to improve the Tax Code and make it fairer for all Americans. Our Nation owes him a great debt of gratitude.

Mr. Speaker, earlier this year I was pleased to join with my colleagues

from both sides of the aisle to introduce the legislation before us today, the Installment Tax Correction Act. This bill corrects a change in tax law which has had serious, unanticipated consequences for small business owners.

Last year, Congress passed and the President signed a change in law to disallow the installment method by accrual basis taxpayers. An unexpected result of this new law has been to erect a serious barrier to small business ownership. Many small business sales across the country have been canceled, while others have simply been put on hold while waiting for Congress to act. Additionally, the value of some businesses has been reduced by as much as 10 or 20 percent. And perhaps most urgently, business owners who have sold their business under the new tax law now face a large unexpected tax burden.

The time has come to correct this situation. This legislation, which is retroactive to the time of the tax change last December, will ensure that small business owners who find themselves facing a large tax burden as a result of an installment sale will receive tax relief before having to file their tax returns next year.

This much needed measure will make certain that elderly small business owners waiting to finance their retirement through the sale of their business would not have to wait any longer.

Mr. Speaker, most small business owners have chosen to use the installment sales method when selling their business because bank financing is often unavailable. Under an installment sale, the buyer makes a down payment up front and pays for the rest of the business over a period of years. Such sales grant greater flexibility to both the buyer and seller and have enabled thousands of Americans who would otherwise be unable to buy a business the opportunity to make their dream of small business ownership a reality.

This chart clearly demonstrates the impact the new tax treatment is having on small business sales. Imagine a small business being sold for \$100,000 with the buyer paying \$10,000 each year over 10 years. Under the old rule, the seller would pay tax on the gain from the sale as he received the payments. In other words, he would be taxed on \$10,000 each year. However, under the new rule, the seller is taxed on the entire \$100,000 up front even though he has only received the initial \$10,000 payment.

We believe it is simply unfair to ask small business owners to pay tax on money they have not yet received. Our legislation will fix this problem by once again allowing business owners to pay the tax as they receive the payments. And because our legislation is retroactive to the time of the tax change last December, small business owners who have completed installment sale this year would no longer face an unexpected tax burden.

Mr. Speaker, this is a serious problem. The National Federation of Independent Business estimates that as much as 200,000 small business sales each year could be adversely affected if we do not act. I believe we owe it to small businessmen and businesswomen to have a Tax Code which treats them fairly, and I look forward to our approval today of this very worthy legislation, thus ensuring that small business remains a path to prosperity for millions of Americans.

Mr. KLECZKA. Mr. Speaker, I yield 3 minutes to the gentleman from Maryland (Mr. CARDIN), a member of the Committee on Ways and Means.

Mr. CARDIN. Mr. Speaker, let me thank the gentleman from Wisconsin (Mr. KLECZKA) for his leadership on this issue, for yielding me this time and in helping us make sure that we get this change indeed enacted before the Congress adjourns for this session.

Mr. Speaker, this is an example of unintended consequence of legislation that was previously passed by this body and was enacted into law. Sometimes we look to try to get revenue raisers attached to bills in order to pay for them and we do not really realize the consequences of that action. This is an example of that. The changes that we made to the Installment Sales Act of 1999 will have and has had adverse consequence on small businesses in our country.

Let me try to explain why. The reason why we put the installment sales provisions in the Tax Code was very logical. If you sell a business and you get part of the proceeds and you get the proceeds over a number of years, it is almost impossible for the person who sells the business to be able to pay all the taxes up front. If you do that, you do not have enough cash to pay all the taxes up front. That is the reason why we developed the installment sales provisions within our tax code. What we did in 1999 for many of the installment sales is require the business owner who sold the business to pay 100 percent of the taxes up front. That did not make any sense. I do not think we really intended that to be the consequence because we were dealing with the differences between accrual accounting and cash accounting, not realizing the fact that we have mandated that most small businesses must use accrual accounting procedures.

Therefore, on one section of the code, we require them to use an accounting method that would require them to pay 100 percent of the taxes up front. This legislation corrects it. I applaud my colleagues on both sides of the aisle for bringing it forward. It makes sense. It will help small businesses in our country. It is the right tax policy.

Mr. Speaker, I am disappointed that we are not going to have a more comprehensive tax bill this year, because I think there are many provisions that Republicans and Democrats have

worked out and we had hoped to have had a broader bill. But I applaud the gentleman from Texas (Mr. ARCHER) for at least making it possible to correct this mistake this year to get it enacted. It is the right thing to do. I fully support it. I hope that we will pass it with broad support on both sides of the aisle.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume to thank my friend from Maryland for all of his contributions in the years that I have been chairman of the Committee on Ways and Means and also to thank the gentleman from Wisconsin (Mr. KLECZKA) for his independent thinking and the contributions that he has made to the committee.

I would say to my friend from Maryland that I am also saddened that we did not get the pension reform bill passed. We had over 400 votes here on the floor of the House in support of it. He, along with the gentleman from Ohio (Mr. PORTMAN), did tremendous work in putting that package together. It would benefit all working Americans with greater retirement security opportunities.

But it will come another day. It will come, I am sure, in the next Congress; and all of the work that our committee has put into it and the gentleman from Maryland along with the gentleman from Ohio (Mr. PORTMAN) has put into it will not be lost.

I think we finish this year on a very positive note. This bill is a bill that can be supported by all of us. The tax provisions that will go in the ultimate package that we will vote on later today are provisions that I believe all of us should be able to support. I am pleased that we finish this Congress on this high level of harmony. I hope that it can extend into the next Congress.

Mr. Speaker, I urge full support of this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. KLECZKA. Mr. Speaker, I yield 3 minutes to the gentleman from Tennessee (Mr. TANNER).

Mr. TANNER. Mr. Speaker, I am afraid we are getting into the area of everything having been said about this bill but not everybody having said it. Nonetheless I think it is important to reflect and realize that this action that was taken last year by the House was done at the end of the session, with a lot of unfinished work poured into one huge package, and I am afraid we are going to do that again today. It was thought to end abusive practices within the code as it relates to businesses with accrual accounting and installment sales and to actually pay for the ticket to work which was a smaller part of a broader welfare reform bill, that this was a desirable change in the code. After it was discovered by almost everyone connected with it, it was quickly realized that this covered far more than those abusive practices that were being closed to pay for the ticket to work, and so the gentleman from

California (Mr. HERGER) and others, myself and others, put a bill in, H.R. 3594, some time ago. I am glad we are getting this done.

This is truly, I think by anyone's definition, the law of unintended consequences at work. It demands that one who has an accrual basis of accounting in one's business when one sells it to report all of the income at the time of the sale when one has, as Members know under accrual accounting, a right to the income.

This makes no sense, as the gentleman from Maryland (Mr. CARDIN) said; and so we changed it back to the way it was and the way that is sensible, sane, and reasonable. And so what we will do is by this change assure every small business owner, every small business prospective buyer that on the installment sales contract method of transaction, one may count on not having a tax liability until the money is actually realized.

I want to thank the gentleman from Texas (Mr. ARCHER) for working with us on this this year and also the gentleman from New York (Mr. RANGEL) and the gentleman from Wisconsin (Mr. KLECZKA), who is the ranking member of the subcommittee. I think this is a good thing we do to straighten out an obvious error that was made last year in the haste of closing up shop for the year. I hope we do not have to do this again next year.

Mr. KLECZKA. Mr. Speaker, I yield myself such time as I may consume.

What I would like to indicate at this point is that this is the last tax bill that will be managed by the able chairman of the Committee on Ways and Means, the gentleman from Texas (Mr. ARCHER). I know this is not the tax bill he really wanted to bring to the floor to manage for his last bill but nevertheless that was not to be this session.

But I would want to tell the gentleman and the Members who are listening that the gentleman will be missed. He was a real gentleman on the committee. I really appreciated the opportunity to work with him. What was especially heartening was his knowledge of the Tax Code and the fairness with which he treated all members of the committee, both Democrat and Republican. He is moving on to a much deserved retirement.

However, with the new administration taking over, there are some of us who would like to put together a letter to recommend to President-elect Bush that he look very seriously upon him as the new Secretary of the Treasury. So if he gives me a wink and a nod, I am sure we can put something together on that score.

However, if that is not to be, I personally wish him the very, very best. He is going to be missed sorely in the House.

Mr. BOEHNER. Mr. Speaker, will the gentleman yield?

Mr. KLECZKA. I yield to the gentleman from Ohio.

Mr. BOEHNER. I thank the gentleman from Wisconsin for yielding and

thank all the members of the Committee on Ways and Means, especially the chairman, for moving this piece of legislation. This was, in fact, an oversight that was affecting thousands of businesses if not more across the country. I know a number of people in my district, small-business people, have asked to have this corrected. I am glad that we are, in fact, doing it.

Let me add to the chorus of remarks to my good friend the gentleman from Texas (Mr. ARCHER). The gentleman from Texas and I have worked very closely together during the years that I served in the Republican leadership and as the gentleman from Texas was the chairman of the Committee on Ways and Means. I do not think one could find a more dedicated public servant, someone who believed in reforming the Tax Code and worked hard on behalf of not only his constituents but taxpayers all across the country. After 30 years in the Congress, he deserves a little rest. He has been a pleasure to work with and I think a model Member of this body. I wish him well in his retirement.

Mr. BEREUTER. Mr. Speaker, this Member wishes today to express his support for H.R. 3594, the Installment Tax Correction Act of 2000, of which this Member is a cosponsor. This bill, which is being considered under suspension of the rules, will have a positive effect on small businesses nationwide.

At the outset, this Member would like to thank both the distinguished gentleman from California [Mr. HERGER] for introducing this legislation and the distinguished Chairman of the House Ways and Means Committee from Texas [Mr. ARCHER] for his efforts in bringing this measure to the House Floor.

This legislation, H.R. 3594, eliminates the provision of the tax code which repealed the use of the installment method of accounting for accrual method taxpayers. This bill is necessary because of a provision in the Ticket to Work and Work Incentives Improvement Act (P.L. 106-170), which was signed into law in 1999. Unfortunately, this Act included a prohibition on the use of the installment method by accrual method taxpayers. As a result of this provision, these type of taxpayers are currently required to pay tax on all capital gains in the first year of an installment sale, regardless of when cash payment is received.

This provision is particularly onerous for small businesses. For example, installment sales methods are common for situations where the seller continues to stay involved in the transferred small business or when a family business transfers from one generation to the next. Furthermore, this Member has been told that neither the Administration nor the Ways and Means Committee anticipated nor understood the effect the inclusion of this prohibition in the Ticket to Work and Work Incentives Improvement Act would have on small businesses. Fortunately, H.R. 3594 remedies this by situation by repealing the prohibition on using the installment method of accounting for accrual method taxpayers.

Therefore, for these reasons, this Member urges his colleagues to support H.R. 3594, the Installment Tax Correction Act of 2000. Thank you.

Mr. UDALL of Colorado. Mr. Speaker, as a cosponsor of H.R. 3594, I rise in strong sup-

port of the bill. I am very glad that it is being considered today rather than being left to languish until the new Congress convenes next month.

The bill would repeal a change in the tax law that was part of the "Ticket to Work" bill enacted last year.

It evidently was included as a way to help offset the costs of that bill by increasing tax receipts. However, I do not think that it was necessary or appropriate.

The 1999 change prohibited use of the "installment method" for calculating taxes on certain asset sales where the seller is paid over time rather than all at once. The effect of this is to make it much harder for small-business owners to sell their businesses or to seriously reduce the amount they can receive if they do sell. I have heard from many people in Colorado who have been and remain concerned about this aspect of the changes made in 1999.

H.R. 3594 would repeal that, restoring the ability of sellers to spread their receipts—and taxes—over several years. I think that is a good idea, which is why I joined as a cosponsor.

I urge the House to approve the bill.

Mr. KLECZKA. Mr. Speaker, I yield back the balance of my time.

Mr. ARCHER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from Texas (Mr. ARCHER) that the House suspend the rules and pass the bill, H.R. 3594.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12 of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 10 o'clock and 25 minutes a.m.), the House stood in recess subject to the call of the Chair.

SEC. 219. (a) Congress makes the following findings:

(1) Organ procurement organizations play an important role in the effort to increase organ donation in the United States.

(2) The current process for the certification and recertification of organ procurement organizations conducted by the Department of Health and Human Services has created a level of uncertainty that is interfering with the effectiveness of organ procurement organizations in raising the level of organ donation.

(3) The General Accounting Office, the Institute of Medicine, and the Harvard School of Public Health have identified substantial limitations in the organ procurement organization certification and recertification process and have recommended changes in that process.

(4) The limitations in the recertification process include:

(A) An exclusive reliance on population-based measures of performance that do not account for the potential in the population for organ donation and do not permit consideration of other outcome and process standards that would more accurately reflect the relative capability and performance of each organ procurement organization.

(B) A lack of due process to appeal to the Secretary of Health and Human Services for recertification on either substantive or procedural grounds.

(5) The Secretary of Health and Human Services has the authority under section 1138(b)(1)(A)(i) of the Social Security Act (42 U.S.C. 1320b-8(b)(1)(A)(i)) to extend the period for recertification of an organ procurement organization from 2 to 4 years on the basis of its past practices in order to avoid the inappropriate disruption of the nation's organ system.

(6) The Secretary of Health and Human Services can use the extended period described in paragraph (5) for recertification of all organ procurement organizations to—

(A) develop improved performance measures that would reflect organ donor potential and interim outcomes, and to test these measures to ensure that they accurately measure performance differences among the organ procurement organizations; and

(B) improve the overall certification process by incorporating process as well as outcome performance measures, and developing equitable processes for appeals.

(b) Section 371(b)(1) of the Public Health Service Act (42 U.S.C. 273(b)(1)) is amended—

(1) by redesignating subparagraphs (D) through (G) as subparagraphs (E) through (H), respectively;

(2) by realigning the margin of subparagraph (F) (as so redesignated) so as to align with subparagraph (E) (as so redesignated); and

(3) by inserting after subparagraph (C) the following:

"(D) notwithstanding any other provision of law, has met the other requirements of this section and has been certified or recertified by the Secretary within the previous 4-year period as meeting the performance standards to be a qualified organ procurement organization through a process that either—

"(i) granted certification or recertification within such 4-year period with such certification or recertification in effect as of January 1, 2000, and remaining in effect through the earlier of—

"(I) January 1, 2002; or

"(II) the completion of recertification under the requirements of clause (ii); or

"(ii) is defined through regulations that are promulgated by the Secretary by not later than January 1, 2002, that—

"(I) require recertifications of qualified organ procurement organizations not more frequently than once every 4 years;

"(II) rely on outcome and process performance measures that are based on empirical evidence, obtained through reasonable efforts, of organ donor potential and other related factors in each service area of qualified organ procurement organizations;

"(III) use multiple outcome measures as part of the certification process; and

"(IV) provide for a qualified organ procurement organization to appeal a decertification to the Secretary on substantive and procedural grounds;"

SEC. 220. (a) In order for the Centers for Disease Control and Prevention to carry out international HIV/AIDS and other infectious disease, chronic and environmental disease, and other health activities abroad during fiscal year 2001, the Secretary of Health and Human Services is authorized to—

(1) utilize the authorities contained in subsection 2(c) of the State Department Basic Authorities Act of 1956, as amended, subject to the limitations set forth in subsection (b), and

(2) enter into reimbursable agreements with the Department of State using any funds appropriated to the Department of Health and Human Services, for the purposes for which the funds were appropriated in accordance with authority granted to the Secretary of Health and Human Services or under authority governing the activities of the Department of State.

(b) In exercising the authority set forth in subsection (a)(1), the Secretary of Health and Human Services—

(1) shall not award contracts for performance of an inherently governmental function; and

(2) shall follow otherwise applicable Federal procurement laws and regulations to the maximum extent practicable.

SEC. 221. Notwithstanding any other provision of law, the Director, National Institutes of Health, may enter into and administer a long-term lease for facilities for the purpose of providing laboratory, office and other space for biomedical and behavioral research at the Bayview Campus in Baltimore, Maryland: Provided, That the House and Senate Appropriations Committees will be notified of the terms and conditions of the lease upon its execution.

SEC. 222. Of the funds appropriated in this Act for the National Institutes of Health, \$5,800,000 shall be transferred to the Office of the Secretary, General Departmental Management to support the newly established Office for Human Research Protections.

SEC. 224. Notwithstanding any other provision of law relating to vacancies in offices for which appointments must be made by the President, including any time limitation on serving in an

acting capacity, the Acting Director of the National Institutes of Health as of January 12, 2000, may serve in that position until a new Director of the National Institutes of Health is confirmed by the Senate.

SEC. 225. The National Neuroscience Research Center to be constructed on the National Institutes of Health Bethesda campus is hereby named the John Edward Porter Neuroscience Research Center.

The Comptroller General of the United States shall evaluate the extent to which funds made available under part A of title I of the Elementary and Secondary Education Act of 1965 are allocated to schools and local educational agencies with the greatest concentrations of school-age children from low-income families, the extent to which allocations of such funds adjust to shifts in concentrations of pupils from low-income families in different regions, States, and substate areas, the extent to which the allocation of such funds encourages the targeting of State funds to areas with higher concentrations of children from low-income families, and the implications of current distribution methods for such funds, shall make formula and other policy recommendations to improve the targeting of such funds to more effectively serve low-income children in both rural and urban areas, and shall prepare interim and final reports based on the results of the study, to be submitted to Congress not later than February 1, 2001, and April 1, 2001.

SEC. 306. (a) From the amount appropriated for title VI of the Elementary and Secondary Education Act of 1965 in accordance with this section, the Secretary of Education—

(1) shall make available a total of \$6,000,000 to the Secretary of the Interior (on behalf of the Bureau of Indian Affairs) and the outlying areas for activities under this section; and

(2) shall allocate the remainder by providing each State the same percentage of that remainder as it received of the funds allocated to States under section 307(a)(2) of the Department of Education Appropriations Act, 1999.

(b)(1) Each State that receives funds under this section shall distribute 100 percent of such funds to local educational agencies, of which—

(A) 80 percent of such amount shall be allocated to such local educational agencies in proportion to the number of children, aged 5 to 17, who reside in the school district served by such local educational agency from families with incomes below the poverty line (as defined by the Office of Management and Budget and revised annually in accordance with section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2))) applicable to a family of the size involved for the most recent fiscal year for which satisfactory data are available compared to the number of such individuals who reside in the school districts served by all the local educational agencies in the State for that fiscal year; and

(B) 20 percent of such amount shall be allocated to such local educational agencies in accordance with the relative enrollments of children, aged 5 to 17, in public and private non-profit elementary and secondary schools within the boundaries of such agencies.

(2) Notwithstanding paragraph (1), if the award to a local educational agency under this

section is less than the starting salary for a new fully qualified teacher in that agency, who is certified within the State (which may include certification through State or local alternative routes), has a baccalaureate degree, and demonstrates the general knowledge, teaching skills, and subject matter knowledge required to teach in his or her content areas, that agency may use funds under this section to (A) help pay the salary of a full- or part-time teacher hired to reduce class size, which may be in combination with other Federal, State, or local funds; or (B) pay for activities described in subsection (c)(2)(A)(iii) which may be related to teaching in smaller classes.

(c)(1) The basic purpose and intent of this section is to reduce class size with fully qualified teachers. Each local educational agency that receives funds under this section shall use such funds to carry out effective approaches to reducing class size with fully qualified teachers who are certified within the State, including teachers certified through State or local alternative routes, and who demonstrate competency in the areas in which they teach, to improve educational achievement for both regular and special needs children, with particular consideration given to reducing class size in the early elementary grades for which some research has shown class size reduction is most effective.

(2)(A) Each such local educational agency may use funds under this section for—

(i) recruiting (including through the use of signing bonuses, and other financial incentives), hiring, and training fully qualified regular and special education teachers (which may include hiring special education teachers to team-teach with regular teachers in classrooms that contain both children with disabilities and non-disabled children) and teachers of special-needs children who are certified within the State, including teachers certified through State or local alternative routes, have a baccalaureate degree and demonstrate the general knowledge, teaching skills, and subject matter knowledge required to teach in their content areas;

(ii) testing new teachers for academic content knowledge and to meet State certification requirements that are consistent with title II of the Higher Education Act of 1965; and

(iii) providing professional development (which may include such activities as those described in section 2210 of the Elementary and Secondary Education Act of 1965, opportunities for teachers to attend multi-week institutes, such as those made available during the summer months that provide intensive professional development in partnership with local educational agencies and initiatives that promote retention and mentoring), to teachers, including special education teachers and teachers of special-needs children, in order to meet the goal of ensuring that all instructional staff have the subject matter knowledge, teaching knowledge, and teaching skills necessary to teach effectively in the content area or areas in which they provide instruction, consistent with title II of the Higher Education Act of 1965.

(B)(i) Except as provided under clause (ii), a local educational agency may use not more than a total of 25 percent of the award received under this section for activities described in clauses (ii) and (iii) of subparagraph (A).

(ii) A local educational agency in which 10 percent or more of teachers in elementary schools, as defined by section 14101(14) of the Elementary and Secondary Education Act of 1965, have not met applicable State and local certification requirements (including certification through State or local alternative routes), or if such requirements have been waived, may use more than 25 percent of the funds it receives under this section for activities described in subparagraph (A)(iii) to help teachers who are not certified by the State become certified, including through State or local alternative routes, or to help teachers affected by class size reduction who lack sufficient content knowledge to teach

effectively in the areas they teach to obtain that knowledge, if the local educational agency notifies the State educational agency of the percentage of the funds that it will use for the purpose described in this clause.

(C) A local educational agency that has already reduced class size in the early grades to 18 or less children (or has already reduced class size to a State or local class size reduction goal that was in effect on the day before the enactment of the Department of Education Appropriations Act, 2000, if that State or local educational agency goal is 20 or fewer children) may use funds received under this section—

(i) to make further class size reductions in grades kindergarten through 3;

(ii) to reduce class size in other grades; or

(iii) to carry out activities to improve teacher quality including professional development.

(D) If a local educational agency has already reduced class size in the early grades to 18 or fewer children and intends to use funds provided under this section to carry out professional development activities, including activities to improve teacher quality, then the State shall make the award under subsection (b) to the local educational agency.

(3) Each such agency shall use funds under this section only to supplement, and not to supplant, State and local funds that, in the absence of such funds, would otherwise be spent for activities under this section.

(4) No funds made available under this section may be used to increase the salaries or provide benefits, other than participation in professional development and enrichment programs, to teachers who are not hired under this section. Funds under this section may be used to pay the salary of teachers hired under section 307 of the Department of Education Appropriations Act, 1999, or under section 310 of the Department of Education Appropriations Act, 2000.

(d)(1) Each State receiving funds under this section shall report on activities in the State under this section, consistent with section 6202(a)(2) of the Elementary and Secondary Education Act of 1965.

(2) Each State and local educational agency receiving funds under this section shall publicly report to parents on its progress in reducing class size, increasing the percentage of classes in core academic areas taught by fully qualified teachers who are certified within the State and demonstrate competency in the content areas in which they teach, and on the impact that hiring additional highly qualified teachers and reducing class size, has had, if any, on increasing student academic achievement.

"PART L—PHYSICAL EDUCATION FOR PROGRESS"**"SEC. 10999A. SHORT TITLE.**

"This part may be cited as the 'Physical Education for Progress Act'.

"SEC. 10999B. PURPOSE.

"The purpose of this part is to award grants and contracts to local educational agencies to enable the local educational agencies to initiate, expand and improve physical education programs for all kindergarten through 12th grade students.

"SEC. 10999C. FINDINGS.

"Congress makes the following findings:

"(1) Physical education is essential to the development of growing children.

"(2) Physical education helps improve the overall health of children by improving their cardiovascular endurance, muscular strength and power, and flexibility, and by enhancing weight regulation, bone development, posture, skillful moving, active lifestyle habits, and constructive use of leisure time.

"(3) Physical education helps improve the self esteem, interpersonal relationships, responsible behavior, and independence of children.

"(4) Children who participate in high quality daily physical education programs tend to be more healthy and physically fit.

"(5) The percentage of young people who are overweight has more than doubled in the 30 years preceding 1999.

"(6) Low levels of activity contribute to the high prevalence of obesity among children in the United States.

"(7) Obesity related diseases cost the United States economy more than \$100,000,000,000 every year.

"(8) Inactivity and poor diet cause at least 300,000 deaths a year in the United States.

"(9) Physically fit adults have significantly reduced risk factors for heart attacks and stroke.

"(10) Children are not as active as they should be and fewer than 1 in 4 children get 20 minutes of vigorous activity every day of the week.

"(11) The Surgeon General's 1996 Report on Physical Activity and Health, and the Centers for Disease Control and Prevention, recommend daily physical education for all students in kindergarten through grade 12.

"(12) Twelve years after Congress passed House Concurrent Resolution 97, 100th Congress, agreed to December 11, 1987, encouraging State and local governments and local educational agencies to provide high quality daily physical education programs for all children in kindergarten through grade 12, little progress has been made.

"(13) Every student in our Nation's schools, from kindergarten through grade 12, should have the opportunity to participate in quality physical education. It is the unique role of quality physical education programs to develop the health-related fitness, physical competence, and cognitive understanding about physical activity for all students so that the students can adopt healthy and physically active lifestyles.

(a) SHORT TITLE.—This title may be cited as the 'Early Learning Opportunities Act'.

(b) FINDINGS.—Congress finds that—

(1) medical research demonstrates that adequate stimulation of a young child's brain between birth and age 5 is critical to the physical development of the young child's brain;

(2) parents are the most significant and effective teachers of their children, and they alone are responsible for choosing the best early learning opportunities for their child;

(3) parent education and parent involvement are critical to the success of any early learning program or activity;

(4) the more intensively parents are involved in their child's early learning, the greater the cognitive and noncognitive benefits to their children;

(5) many parents have difficulty finding the information and support the parents seek to help their children grow to their full potential;

(6) each day approximately 13,000,000 young children, including 6,000,000 infants or toddlers, spend some or all of their day being cared for by someone other than their parents;

(7) quality early learning programs, including those designed to promote effective parenting, can increase the literacy rate, the secondary school graduation rate, the employment rate, and the college enrollment rate for children who have participated in voluntary early learning programs and activities;

(8) early childhood interventions can yield substantial advantages to participants in terms of emotional and cognitive development, education, economic well-being, and health, with the latter 2 advantages applying to the children's families as well;

(9) participation in quality early learning programs, including those designed to promote effective parenting, can decrease the future incidence of teenage pregnancy, welfare dependency, at-risk behaviors, and juvenile delinquency for children;

(10) several cost-benefit analysis studies indicate that for each \$1 invested in quality early learning programs, the Federal Government can save over \$5 by reducing the number of children and families who participate in Federal Government programs like special education and welfare;

(11) for children placed in the care of others during the workday, the low salaries paid to the child care staff, the lack of career progression for the staff, and the lack of child development specialists involved in early learning and child care programs, make it difficult to attract and retain the quality of staff necessary for a positive early learning experience;

(12) Federal Government support for early learning has primarily focused on out-of-home care programs like those established under the Head Start Act, the Child Care and Development Block Grant of 1990, and part C of the Individuals with Disabilities Education Act, and these programs—

(A) serve far fewer than half of all eligible children;

(B) are not primarily designed to provide support for parents who care for their young children in the home; and

(C) lack a means of coordinating early learning opportunities in each community; and

(13) by helping communities increase, expand, and better coordinate early learning opportunities for children and their families, the productivity and creativity of future generations will be improved, and the Nation will be prepared for continued leadership in the 21st century.

SEC. 802. PURPOSES.

DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS

Following is explanatory language on H.R. 5656, as introduced on December 14, 2000.

The conferees on H.R. 4577 agree with the matter included in H.R. 5656 and enacted in this conference report by reference and the following description. This bill was developed through negotiations by the conferees on the differences in H.R. 4577. References in the following description to the “conference agreement” mean the matter included in the introduced bill enacted by this conference report. References to the House bill mean the House passed H.R. 4577. References to the Senate bill or to the Senate amendment mean the Senate passed version of H.R. 4577.

In implementing this agreement, the Departments and agencies should comply with the language and instructions set forth in House Report 106-645 and Senate Report 106-293.

In the case where the language and instructions specifically address the allocation of funds, the Departments and agencies are to follow the funding levels specified in the Congressional budget justifications accompanying the fiscal year 2001 budget or the underlying authorizing statute and should give full consideration to all items, including items allocating specific funding included in the House and Senate reports. With respect to the provisions in the House and Senate reports that specifically allocate funds each has been reviewed and those that are jointly concurred in have been included in this joint statement.

The conferees specifically endorse the provisions of the House Report 105-205 directing “* * * the Departments of Labor, Health and Human Services, and Education and the Social Security Administration and the Railroad Retirement Board to submit operating plans with respect to discretionary appro-

priations to the House and Senate Committees on Appropriations. These plans, which are to be submitted within 30 days of the final passage of the bill, must be signed by the respective Departmental Secretaries, the Social Security Commissioner and the Chairman of the Railroad Retirement Board.”

The conferees expect the Departments and agencies covered by this directive to meet with the House and Senate Committees as soon as possible after enactment of the bill to develop a methodology to assure adequate and timely information on the allocation of funds within accounts within this conference report while minimizing the need for unnecessary and duplicative submissions.

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2001, put in place by this bill, incorporates the following agreements of the managers:

TITLE I—DEPARTMENT OF LABOR

**EMPLOYMENT AND TRAINING ADMINISTRATION
TRAINING AND EMPLOYMENT SERVICES**

The conference agreement includes \$5,670,805,000 for training and employment services instead of \$5,015,495,000 as proposed by the House and \$5,453,141,000 as proposed by the Senate. Of the amount appropriated, \$2,463,000,000 is an advance appropriation for fiscal year 2002. The conference agreement includes \$1,400,000,000, which is the House level for Job Corps, but eliminates the October 1, 2000 availability of funds for hiring Business and Community Liaisons. The conference agreement includes \$15,000,000 for this purpose, but the funds are made available on July 1, 2001, the normal funding cycle for Job Corps operations.

The conference agreement includes \$586,487 made available for Job Corps operating expenses to be paid to the city of Vergennes, Vermont in settlement of the city’s claim.

The conference agreement includes \$1,590,040,000 for the Dislocated Worker program, as a step toward providing all dislocated workers who want and need assistance the resources to train for or find new jobs.

The conference agreement includes \$1,102,965,000 for Youth Activities. This increase will allow local communities to address the reduction in the number of youth served in this year’s summer jobs program resulting from a shift to comprehensive services, to establish new local youth councils, and to implement other reforms to youth training activities and services, all required under the Workforce Investment Act.

At the time the conferees acted on this bill, an increase in the minimum wage had not yet been enacted by Congress. If Congress enacts an increase in the minimum wage prior to the beginning of program year 2001, which begins April 1, 2001 for the youth activities grants, the conferees expect the Administration to submit a supplemental request for the 2001 youth program as part of its fiscal year 2002 budget request. The conferees intend that the number of program participants to be served will not be decreased as a result of any minimum wage increase.

The conference agreement includes \$275,000,000 to expand to more communities the Youth Opportunity Grants aimed at increasing the long-term employment of youth who live in empowerment zones, enterprise communities, and other high-poverty areas.

The conference agreement includes \$55,000,000 for the Responsible Reintegration for Young Offenders initiative to address youth offender issues. This new initiative involving DOL, HHS, and DOJ, will build on work begun earlier.

The conference agreement includes language authorizing the use of funds under the

dislocated workers program for projects that provide assistance to new entrants in the workforce and incumbent workers as proposed by the Senate. The conference agreement also includes language to waive a 10 percent limitation in the Workforce Investment Act with respect to the use of discretionary funds to carry out demonstration and pilot projects, multi-service projects and multi-state projects with regard to dislocated workers and to waive certain other provisions in that Act. The language is similar to that in the Senate bill. The House bill contained no similar provisions.

The conference agreement includes a citation to the Women in Apprenticeship and Nontraditional Occupations Act as proposed by the House. The Senate bill did not cite this Act.

The conferees direct the Department, within the funds appropriated for fiscal year 2000 for National Emergency Grants within the Dislocated Worker program, to respond to an anticipated request by the State of Wisconsin for emergency funds to address layoffs in the community of Wisconsin Rapids.

The conferees direct the Department, within the funds appropriated for FY 2000 for National Emergency Grants within the Dislocated Worker program, to provide in response to an anticipated request by the State of North Carolina for \$175,000 in emergency funds to address major layoffs in the community of Gaston County.

With respect to the projects listed below for both the Dislocated Worker program and the Pilots and Demonstrations authority, the conferees acknowledge changes under the Workforce Investment Act to develop and implement techniques and approaches, and demonstrate the effectiveness of specialized methods of addressing the employment and training needs of individuals. The conferees encourage the Department to ensure that these projects are coordinated with local Workforce Investment Boards. The conferees also encourage the Department of Labor to ensure that project performance is adequately documented and evaluated. The conference agreement includes the following amounts for the following projects and activities:

There is a shortage of trained closed captioners to enable the deaf and hard of hearing community to get news and other vital information from live television. In order to meet the requirements set forth by the Telecommunications Act of 1996, there is an urgent need for pilot programs to increase the availability of trained closed captioners. The conferees urge the Employment and Training Administration to invest in and support research and pilot programs, which would allow for an adequate number of captioners to be trained.

The conferees believe that the Association of Farmworker Opportunity Programs provides valuable technical assistance and training to grantees and has distinguished itself as a tremendous resource. Its Children in the Fields Campaign provides information, education, and technical assistance related to child labor in agriculture. The Campaign also provides other assistance related to employment, training (including pesticide and other worker safety training for children and adults). The Department is encouraged to continue the services that the Association provides in these areas.

The conferees urge the Employment & Training Administration to demonstrate programs that build upon identified best practices such as the Public/Private Venture's model workplace mentoring pilot program.

The conferees are concerned with the lack of mentoring and other support services available to the youth of incarcerated parents or legal guardians. The conferees urge the Employment and Training Administration to fund demonstration programs to meet the special needs of these youth. These activities should build upon identified best practices such as the U.S. Dream Academy's model which helps youths with parents or guardians involved in life cycles of incarceration and release. Its aim is to help these youths become good and productive citizens.

The fiscal year 2000 conference report (H. Rept. 106-479) included \$1,000,000 for the Mas-

sachusetts Corporation for Business, Work and Learning for the International Shipbuilding Training Demonstration project. However, the reopening of the Fore River Shipyard in Quincy has been delayed. Workers dislocated from the closing of the shipyard still need job training; therefore, the Department is directed to use the \$1,000,000 in the fiscal year 2000 appropriation to fund the Corporation for Business, Work and Learning for the Training of workers in the Quincy area for jobs within the Marine and Shipbuilding industries.

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

The conference agreement includes \$3,365,698,000 for state unemployment insurance and employment service operations instead of \$3,097,790,000 as proposed by the House and \$3,249,430,000 as proposed by the Senate. The agreement includes \$35,000,000 instead of the \$25,000,000 proposed by the Senate for reemployment services grants to insure that unemployment insurance claimants will be able to get the customized reemployment services they need to speed their reentry to employment. The House provided no funding for this program.

The conference agreement includes \$26,100,000 for the foreign labor certification program as proposed by the House instead of \$25,600,000 as proposed by the Senate. For one-stop centers/labor market information, the agreement includes \$150,000,000 instead of the \$110,000,000 proposed by the Senate. The House provided no funding for this program. These funds will be used to support infrastructure upgrades at the State level for one-stop career center system operations, labor market information, and integrated services to employers and job seeker customers.

PROGRAM ADMINISTRATION

The conference agreement includes \$159,158,000 for program administration instead of \$146,000,000 as proposed by the House and \$156,158,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed upon. The conference agreement also includes funding for management and oversight of pilot and demonstration projects and additional administrative funding for backlog reduction in the alien labor certification program as listed in the Senate report.

PENSION AND WELFARE BENEFITS ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$107,832,000 for the pension and welfare benefits administration, salaries and expenses instead of \$98,934,000 as proposed by the House and \$103,342,000 as proposed by the Senate. The increase will fully fund the request for expanded health and pension education and outreach efforts and enhanced pension enforcement.

PENSION BENEFIT GUARANTY CORPORATION

The conference agreement includes \$11,652,000 for the administrative expense limitation as proposed by the Senate instead of \$11,148,000 as proposed by the House.

EMPLOYMENT STANDARDS ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$363,476,000 for the employment standards administration, salaries and expenses instead of \$338,770,000 as proposed by the House and \$352,764,000 as proposed by the Senate. This amount fully funds the request for ESA, including the Wage and Hour Division's request to expand its domestic child labor compliance and enforcement efforts; and the Office of Federal Contractor Compliance's activities to increase outreach, education, and technical assistance to federal contrac-

tors through industry partnerships on equal pay issues; and a customer communications initiative in the Office of Worker's Compensation.

On contracts for the provision of debt collection services, the Department of Labor shall continue to recognize the payment of commissions in the determination of McNamara-O'Hara Service Contract Act (SCA) wage rates and shall continue to recognize such payments as an offset against an employer's SCA prevailing wage obligation. In addition, the Department is encouraged to consider the special circumstances for contingency fee-based debt collection contracts and the potential fluctuations in commissions, particularly for less experienced employees.

SPECIAL BENEFITS

The conference agreement includes bill language to allow the Secretary to use fair share collections to fund capital investment projects and special investments to strengthen compensation fund control and oversight. The amounts cited in the House and Senate bills have been modified to reflect updated estimates of fair share collections from the non-appropriated agencies, such as the Postal Service, for fiscal year 2001.

BLACK LUNG DISABILITY TRUST FUND

The conference agreement includes a definite annual appropriation of \$975,343,000 for black lung benefit payments and interest payments on advances made to the Trust Fund as proposed by the House instead of an indefinite permanent appropriation as proposed by the Senate.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$425,983,000 for occupational safety and health administration, salaries and expenses as proposed by the Senate instead of \$381,620,000 as proposed by the House. The conference agreement does not include language proposed by the Senate that would have earmarked \$22,200,000 of the increase over the fiscal year 2000 appropriation for education, training, and consultation activities. The House bill contained no similar provision. The detailed table at the end of this joint statement reflects the conferees' agreed upon activity distribution.

MINE SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$246,747,000 for mine safety and health administration, salaries and expenses instead of \$233,000,000 as proposed by the House and \$244,747,000 as proposed by the Senate. The conference agreement includes \$2,500,000 over the budget request for physical improvements at the National Mine Safety and Health Academy.

The conference agreement includes language proposed by the Senate that allows MSHA to retain and spend up to \$1,000,000 in fees collected for the approval and certification of mine equipment and materials. The conference agreement also includes language establishing a \$1,000,000 contingency fund for mine rescue and recovery activities. The House bill contained no similar provisions.

Concerns have been expressed about the possible ramifications of a rulemaking on the use of conveyor belts in underground coal mines, including concerns about the validity of the testing on which the rule is based. MSHA is urged to carefully examine the record and to conduct additional research that may be required to address any significant concerns that have been raised.

The conferees are extremely concerned by a recent catastrophe in Eastern Kentucky.

Millions of gallons of slurry coal waste broke free from an impoundment causing considerable damage to the environment and disrupting water supply for citizens along the Big Sandy and Ohio Rivers. The conferees believe this event warrants a thorough examination of current coal waste disposal methods and an exploration of future dumping alternatives. Therefore, the conference agreement includes \$2,000,000 for a contract with the National Academy of Sciences to examine engineering standards for coal waste impoundments, provide recommendations for improving impoundment structure stabilization, and evaluate potential alternatives for future coal waste disposal, including the benefits of each alternative. The Academy shall seek the participation of representatives of relevant federal, state, and private entities, to include MSHA, OSM, EPA, Corps of Engineers, State mining authorities, and mining companies. Findings of this study shall be conveyed to the Committees on Appropriations no later than October 15, 2001.

BUREAU OF LABOR STATISTICS
SALARIES AND EXPENSES

The conference agreement includes \$451,584,000 for Bureau of Labor Statistics, salaries and expenses instead of \$440,000,000 as proposed by the House and \$446,584,000 as proposed by the Senate. The conference agreement also includes the Senate provision making \$10,000,000 available for obligation on a program year basis from July 1, 2001 to June 30, 2002. The House bill contained no similar provision. This funding level provides increases for improvements to existing economic measures, improvements in labor market information mandated by WIA, and a new time use survey.

DEPARTMENTAL MANAGEMENT
SALARIES AND EXPENSES

The conference agreement includes \$380,839,000 for departmental management, salaries and expenses instead of \$244,889,000 as proposed by the House and \$337,964,000 as proposed by the Senate.

The conference agreement includes \$148,150,000 for the Bureau of International Labor Affairs instead of \$70,000,000 as proposed by the House and \$115,000,000 as proposed by the Senate. The conference agreement also includes language proposed by the Senate to authorize the expenditure of funds for the management or operation of Departmental bilateral and multilateral foreign technical assistance through grants and contracts. The funds for bilateral assistance are made available through September 30, 2002. The House bill contained no similar provision. In total, the conference agreement includes \$82,000,000 to assist developing countries with the elimination of child labor. Of this amount, \$45,000,000 is for expansion of ILO's International Programme for the Elimination of Child Labor. In addition, \$37,000,000 is provided for bilateral assistance to improve access to basic education in international areas with a high rate of abusive and exploitative child labor. These new bilateral initiatives should be developed in consultation and coordination with USAID to ensure these programs fit with the overall foreign operations policy of the Administration and are in compliance with the Foreign Assistance Act. The conference agreement includes \$45,000,000 as proposed by the Senate to augment the capacity of Ministries of Labor to enforce labor standards, to develop social safety net programs, and to develop information on enforcement of labor laws around the world. The conference agreement includes \$10,000,000 for the Global HIV-AIDS Workplace Initiative, and these funds are provided in the Department of Labor appropriation instead of the HHS Public Health

and Social Services Emergency Fund as proposed by the Senate.

The conferees also include funding for the following activities:

—\$900,000 to the University of Iowa for research on the issue of abusive and exploitive child labor and other labor-related issues; and

—\$250,000 to the Association of Farmworker Opportunities Programs for public education on abusive child labor.

The conferees note from the recent World AIDS Conference that many national economies continue to be profoundly and adversely affected by the HIV-AIDS pandemic. For example, employers in South Africa are now hiring two employees for every one skilled job. The gross domestic product in many countries in Africa and Asia is actually contracting because of a shrinking adult work force attributable to HIV-AIDS related deaths. At the same time, there is mounting evidence that workplace-based HIV-AIDS education and prevention programs can help prevent the spread of HIV, especially in high-risk occupations. Such programs can help stem employers' loss of skilled workers, reverse declining productivity, and provide mechanisms for caring for workers living with HIV and AIDS. Consequently, the conferees expect ILAB to assume a leading role in developing innovative business-trade union partnerships to improve HIV-AIDS prevention and to improve coordination among the Labor Department, Commerce Department, and USAID.

The conference agreement includes \$23,002,000 and language establishing the Office of Disability Employment Policy in the Department of Labor as proposed by the Senate. The House bill continued funding for the President's Committee on Employment of People with Disabilities, but this activity is subsumed in the new Office of Disability Employment Policy.

The conference agreement includes \$37,000,000 to establish a permanent, centralized information technology investment fund.

VETERANS EMPLOYMENT AND TRAINING

The conference agreement includes \$211,713,000 for veterans employment and training instead of \$201,277,000 as proposed by the House and \$206,713,000 as proposed by the Senate. Included in this amount is \$17,500,000 for the homeless veterans program.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$54,785,000 for the office of inspector general as proposed by the Senate instead of \$51,925,000 as proposed by the House.

GENERAL PROVISIONS

ERGONOMICS

The conference agreement does not include a provision included in both the House and Senate bills relating to regulations issued by the Occupational Safety and Health Administration relating to ergonomic protection.

EXTENDED DEADLINE FOR EXPENDITURE OF WELFARE TO WORK FUNDS

The conference agreement includes a provision proposed by the Senate extending the availability of Welfare to Work funding from three to five years. The House bill contained no similar provision.

H2A REGULATIONS

The conference agreement includes a modified version of the Senate provision prohibiting the implementation or enforcement of the pending H2A regulations, but allows for all activities related to the development of revised regulations. The conferees support the efforts by the Secretary of Labor and the Attorney General designed to streamline the H2A application process. The conferees ex-

pect the Department and the Immigration and Naturalization Service to work closely with the stakeholders to expeditiously address concerns raised by the growers so that the streamlined application process produces a more efficient new system.

DEADLINE FOR DETERMINATION ON HOUSING REQUIREMENTS FOR H2A WORKERS

The conference agreement includes a provision regarding housing inspections for H2A temporary agricultural laborers. This provision ensures that the deadline for housing inspections for H2A workers corresponds with the Secretary's thirty day statutory deadline for making H2A temporary agricultural labor certification decisions. The thirty day deadline may have been effectively nullified in some cases by the current regulations requiring that inspections on employer provided housing need not be completed until twenty days before the date the employer needs H2A workers. The provision requires housing inspections to be completed in time for the Secretary to make her certification decision in accordance with the thirty day statutory deadline.

ALIEN LABOR CERTIFICATION

The conference agreement includes a provision that authorizes the use of H1B fee revenue to process permanent labor certifications. This is needed because the recent legislation increasing the number of H1B visas authorized will result in a substantial increase in the volume of permanent labor certification applications. The Department of Labor has made significant progress over the past 18 months to reduce the backlog of applications for permanent labor certifications, and in expediting the labor condition application process for the H-1B program. In order to allow the Department to make further progress on timeliness of labor certifications without undermining the review process, the Department will be permitted to utilize a portion of fees generated by the H-1B program to support the administration of the permanent labor certification program.

ELIMINATION OF WELFARE TO WORK PERFORMANCE BONUSES

The conference agreement includes a provision proposed by the Senate to eliminate Welfare to Work performance bonuses. The House bill contained no similar provision.

The conference agreement includes \$19,000,000 for emergency medical services for children as proposed by the House instead of \$15,000,000 as proposed by the Senate.

The conference agreement includes \$20,000,000 for poison control instead of \$6,600,000 as proposed by the House and \$26,000,000 as proposed by the Senate. Funds are provided to support activities authorized in the Poison Control Center Enhancement and Awareness Act.

The conference agreement includes \$6,000,000 for black lung clinics as proposed by the Senate instead of \$5,943,000 as proposed by the House.

The conference agreement includes \$3,000,000 for trauma care as proposed by the Senate. The House bill contained no similar provision.

The conference agreement includes a total of \$1,807,700,000 for Ryan White programs instead of \$1,725,000,000 as proposed by the House and \$1,650,000,000 as proposed by the Senate. Included in this amount is \$604,200,000 for emergency assistance, \$911,000,000 for comprehensive care, \$185,900,000 for early intervention, \$65,000,000 for pediatric HIV/AIDS, \$10,000,000 for dental services, and \$31,600,000 for education and training centers.

The conference agreement includes bill language identifying \$589,000,000 for the Ryan White Title II State AIDS drug assistance programs instead of \$554,000,000 as proposed by the House and \$538,000,000 as proposed by the Senate. The conferees concur with Senate report language regarding the Institute of Medicine study to evaluate the effectiveness of the current role and structure of the Ryan White CARE Act and the efforts to create a national consumer and provider education center within pediatric HIV/AIDS.

The conference agreement includes \$109,200,000 for Ryan White AIDS activities that are targeted to address the trend of the HIV/AIDS epidemic in communities of color, based on the most recent estimated living AIDS cases, HIV infections and AIDS mortality among ethnic and racial minorities as reported by the Centers for Disease Control and Prevention. These funds are allocated as follows:

Within Ryan White Title I, the agreement provides \$34,000,000 to the competitive supplemental allocation targeted to minority community based organizations, as defined by the Centers for Disease Control and Prevention, and directs that these funds be allocated through the established planning council processes of eligible metropolitan areas. These funds are designed to reduce the HIV related health disparities and improve the health outcomes for HIV infected African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians and Pacific Islanders. These funds are expected to expand medical and supportive service capacity in communities of color, and expand peer treatment education that is both culturally and linguistically appropriate to individuals living with HIV/AIDS.

Within Ryan White Title II, the agreement provides \$7,000,000 for State HIV care grants to support educational and outreach grants to minority community-based organizations to increase the number of minorities participating in the AIDS Drug Assistance Program (ADAP). The continuing under representation of African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians and Pacific Islanders in state run ADAP contributes to their persistently poor health outcomes in comparison to other communities.

Within Ryan White Title III, the agreement provides \$44,400,000 for planning grants, early intervention service (EIS) grants to minority community-based health care and service providers with a history of service provision to communities of color. Funds should also be made available to national, regional and local organizations representing people of color to provide technical assistance collaborations, and linkages designed to strengthen HIV/AIDS systems of care. Funds are intended to support the implementation of the plans developed by minority community based and health care organizations. The conferees expect that fiscal year 2001 increases to Title III should be directed primarily towards providing early intervention service grants to those organizations that received Title III planning grants in the previous fiscal year and enhancing the service capacity of existing minority EIS providers.

Within Ryan White Title IV, the agreement provides \$15,700,000 to fund traditional minority community-based providers of services to minority children, youth and families to develop and implement culturally competent and linguistically appropriate research-based interventions that provide additional HIV/AIDS care, services and linkages. Funds are also intended to directly fund minority community based organizations and providers to expand or implement programs specifically designed to provide

youth, adolescent, and young adult-focused HIV/AIDS care and services.

The agreement provides \$7,700,000 to AIDS education and training centers. These funds are intended to increase training of community-based minority health care professionals in AIDS-related treatments, standards of care, guidelines for the use of antiretroviral and other effective clinical interventions, and treatment adherence for HIV/AIDS infected adults, adolescents and children, as developed by the U.S. Public Health Service. The training of minority providers is to be implemented through collaborations with Historically Black Colleges and Universities (HBCU) and Hispanic Serving Institutions, and Tribal Colleges. These efforts are designed to increase the treatment expertise and HIV knowledge of minority front-line providers serving individuals living with HIV/AIDS. Funds are also intended to support minority community based organizations to train minority providers to deliver culturally competent and language appropriate treatment education services.

The conferees intend that at least ninety percent of total title IV funding be provided to grantees. The conferees expect the agency to use the funding increases for title IV, with the exception of any increases provided through the CBC/Minority AIDS Initiative, to provide, at a minimum, additional funds to existing grantees to reflect the increases in the costs of providing comprehensive care. The agency should use a significant portion of the remaining funds to expand comprehensive services for youth, both through existing and new grantees. The conferees believe that the agency should expand efforts to facilitate ongoing communication with grantees so that prospective changes in the administration of the program can be discussed.

From within the increase provided to pediatric AIDS demonstrations, the conferees encourage HRSA to target funds towards approved but unfunded applications from the previous fiscal year.

The conference agreement includes \$140,000,000 for health care access for the uninsured instead of \$25,000,000 as proposed by the Senate. The House bill did not contain funding for this unauthorized program. Of this amount, \$125,000,000 is included to provide grants to public, private, and non-profit health entities to develop and expand integrated systems of care and address service gaps within such integrated systems with a focus on primary care, mental health services and substance abuse services. The program will supplement existing categorical safety net programs to assist communities in better harnessing their current capabilities and resources. The national health care safety net is under enormous strain and the demand for this initiative large.

The remaining \$15,000,000 is to continue the initiative that was begun in fiscal year 2000 to help states identify the characteristics of the uninsured within the state and approaches for providing all uninsured with health coverage through an expanded state, Federal and private partnership. States have shown great interest in committing to the initiative and a second year of funding will produce a more comprehensive set of designs for providing insurance coverage for the uninsured. Sufficient funds are included to support up to ten new state grants, provide technical assistance to grantees and, if necessary, provide limited supplemental funding to states funded in fiscal year 2000 to complete their work. The Secretary is requested to submit a final report on state findings no later than December 1, 2001. The report should provide state by state summaries on baseline information, the process by which

the state developed recommendations, including a description of data collection and partnerships, characteristics of the uninsured within the state, the proposed approaches for providing all uninsured with health coverage, and the estimated public and private cost of providing coverage. The report should also highlight and summarize common findings, policy development efforts and approaches identified by the states.

The conference agreement includes \$9,900,000 for an adoption awareness program as authorized in the Child Health Act of 2000.

The conference agreement includes \$10,000,000 for authorized health-related activities of the Denali Commission.

The conference agreement includes \$139,246,000 for program management instead of \$128,123,000 as proposed by the House and \$135,766,000 as proposed by the Senate.

The conferees include the following amounts for the following projects and activities in fiscal year 2001:

- \$230,000 for the Illinois Poison Center;
- \$250,000 for the University of Alaska to establish an INPSYCH Center to train Alaska natives as psychologists to practice in Alaska villages;
- \$500,000 for the University of Alaska, Anchorage to recruit and train nurses;
- \$700,000 to support the efforts of the American Federation for Negro Affairs Education and Research Fund of Philadelphia;
- \$900,000 for Northeastern University in Boston, Massachusetts to train doctors to serve low-income communities; and
- \$900,000 for Des Moines University Osteopathic Medical Center for development of a model program for training and education in the field of geriatrics.

The Child Health Act of 2000 authorizes oral health activities intended to improve the oral health of children under six years of age who are eligible for services provided under a Federal health program. These activities should increase the utilization of dental services by such children and decrease the incidence of early childhood and baby bottle tooth decay. The conferees are supportive of these efforts.

CENTERS FOR DISEASE CONTROL AND PREVENTION

DISEASE CONTROL, RESEARCH, AND TRAINING

The conference agreement includes \$3,868,027,000 for disease control, research, and training instead of \$3,386,369,000 as proposed by the House and \$3,251,996,000 as proposed by the Senate.

The conference agreement includes \$175,000,000 for equipment, construction, and renovation of facilities as proposed by the Senate instead of \$145,000,000 as proposed by the House. The conference agreement includes bill language to allow CDC to enter into a single contract or related contracts for the full scope of development and construction of facilities as proposed by the Senate. The House bill provided this authority only for laboratory building 18.

The conference agreement includes a total of \$97,354,000 for the National Center for Health Statistics instead of \$86,759,000 as proposed by the House and \$105,110,000 as proposed by the Senate. The conference agreement also includes bill language designating \$71,690,000 of the total to be available to the Center under the Public Health Service Act one percent evaluation set-aside as proposed by the House instead of \$91,129,000 as proposed by the Senate.

The conference agreement includes bill language to allow funds recouped from fiscal years 2000 and 2001 obligations for the influenza vaccine stockpile to be used in fiscal year 2001 for childhood vaccine purchase.

The conference agreement does not include language proposed by the Senate to allow

funds made available for section 317A of the Public Health Service Act to be used at Early Head Start program sites. The House bill contained no similar provision.

The conference agreement consolidates the salaries and expenses of CDC into a single account. Salaries and expenses activities encompass all non-extramural activities with the exception of program support services, centrally managed services, and buildings and facilities. The agency may allocate administrative funds for extramural program activities according to its judgment. Funds should be apportioned and allocated consistent with the table, and any changes in funding are subject to the normal notification procedures.

The conference agreement includes \$175,969,000 for the prevention health services block grant instead of \$175,964,000 as proposed by the House and \$175,124,000 as proposed by the Senate. Within the total provided, \$44,225,000 is for rape prevention and education activities previously funded through the Crime Trust Fund.

The conference agreement includes \$23,012,000 for prevention centers instead of \$23,000,000 as proposed by the House and \$14,080,000 as proposed by the Senate.

The conferees include \$700,000 for the Roger Williams Medical Center Healthlink program in Providence, Rhode Island to develop and implement a comprehensive health promotion initiative for senior retirees.

The conference agreement includes \$529,461,000 for childhood immunization instead of \$472,966,000 as proposed by the House and \$499,005,000 as proposed by the Senate. Included in this amount is an increase of \$42,487,000 for operation/infrastructure activities, \$5,000,000 for global polio eradication activities, and \$20,000,000 for vaccine purchase. The conferees intend that funds available for vaccine purchase are for all currently licensed and recommended vaccines. In addition, the Vaccines for Children (VFC) program funded through the Medicaid program is expected to provide \$469,054,000 in vaccine purchases and distribution support in fiscal year 2001, for a total program level of \$1,016,528,000.

The conferees recommend that CDC discontinue immunization incentive grants and that CDC award the \$33,000,000 previously committed for this program as part of the entire operations funding to support State grantees cumulative core budgets. Incorporating incentive grants into States' base operations award would allow more States to receive a greater proportion of their core budget and help improve their overall immunization coverage levels. The conferees recommend that CDC use grant funding made available due to the completion of Congressionally-directed demonstration projects to ensure that all States receive at least the same level of operational funding received in fiscal year 2000, thereby holding them harmless during this funding shift from a formula based approach.

Funding for measles vaccine for supplemental measles immunization campaigns and epidemiological, laboratory, and programmatic/operational support to the World Health Organization and its member countries is included in measles eradication funding not polio eradication funding as identified in the Senate report.

The conference agreement includes \$767,246,000 for HIV/AIDS instead of \$673,367,000 as proposed by the House and \$640,000,000 as proposed by the Senate. Included in this amount is an additional

\$3,000,000 to maintain the current hematologic and blood safety program commitments and to expand support for the treatment centers network in carrying out initiatives to address the complications of hemophilia, including HIV/AIDS, blood safety surveillance and monitoring, and the needs of women with bleeding disorders.

The conferees recognize the devastating impact of the global AIDS epidemic upon individuals, families and communities in Africa and Asia and have included \$104,527,000 for global HIV/AIDS activities at CDC, which shall be available until September 30, 2002. This amount is an increase of \$69,527,000 over the fiscal year 2000 appropriation. With funding received in fiscal year 2000, CDC, in collaboration with USAID and other federal agencies, has begun to combat the AIDS epidemic in 14 of the hardest hit countries in Africa and in India. The conferees urge CDC to continue to work in collaboration with USAID and other departments such as the Department of Defense and the Department of Labor, and other DHHS agencies especially HRSA, as well as international agencies, non-governmental organizations and country governments to halt the spread of the epidemic and lessen its impact. In those countries where CDC already has a presence, CDC, in collaboration with USAID and HRSA, should assist in implementing country-wide care and prevention programs. This will include partnering with HRSA to develop health care services focused on mobilizing communities for the development of palliative care, basic treatment, and support services. In addition, CDC should begin to assist other areas at high risk for severe epidemics including other African countries, Southeast Asia, and the Caribbean/Latin American region. Finally, CDC should support targeted anti-retroviral treatment demonstration projects in countries where sufficient care and treatment infrastructures exist. Within the total for international HIV/AIDS activities, the conferees provide \$3,000,000 through CDC to support HRSA activities aimed at improving professional education and training relating to this initiative. The conferees have also included language to extend certain authorities of the Department of State to the Secretary of HHS so that CDC may use State's administrative systems for personnel, contracting and procurement, and for limited renovation or construction of essential program facilities.

As a preventive vaccine offers the world's best hope for turning the tide against the global AIDS pandemic, and since international collaborations are essential for this goal, the conferees encourage CDC to work collaboratively with the International AIDS Vaccine Initiative and other global organizations to accelerate the development and testing of promising vaccine candidates.

The conferees have provided additional funds to respond to the unmet needs identified through the community planning process. These funds are to augment the cooperative agreements between CDC and State and local health departments.

The conferees recommend that CDC allocate an increase to evaluate HIV prevention service delivery programs to improve funding decision-making and to implement more rapid effective transfer of technology to community based service delivery organizations and health departments. Approximately half of this amount should support evaluation activities to track service delivery by community based organizations, and utilize cost-effectiveness analysis in HIV prevention. The remaining funds would be used to expand technology transfer regarding HIV prevention through activities such as regional technical assistance, technology

transfer, and training for the purpose of providing links between evidence-based HIV prevention science and public health departments, community planning groups, healthcare providers, and prevention science providers.

The conference agreement includes \$88,000,000 to fund CDC activities that are designed to address the trend of the HIV/AIDS epidemic in communities of color, based on the most recent estimated living AIDS cases, HIV infections and AIDS mortality among ethnic and racial minorities as reported by the CDC. The program initiative includes funds for the "Know Your Status" campaign. The conferees have included funds for the Directly Funded Minority Community Based Organization program to fund grant applications from minority organizations with a history of providing services to communities of color to develop and expand HIV prevention interventions and services targeted to highly impacted minority men, women, youth and sub-populations. Funds are also included to create grants under the CDC Community Development Program to support needs assessments and enhance community planning processes to integrate HIV, STD, TB, substance abuse prevention and treatment, care and community development within communities of color. Funds are to be allocated for technical assistance programs for grantees under the Directly Funded Minority CBO program, for Faith-Based Initiative Programs including community based organizations interested in developing coalitions and partnerships with faith based institutions. Funds are also provided for CDC's HIV surveillance activities to better track the epidemic and target resources. These funds are to be allocated based on program priorities identified in the previous fiscal year as well as new priorities.

The conference agreement includes \$126,528,000 for tuberculosis (TB) instead of \$120,364,000 as proposed by the House and \$113,413,000 as proposed by the Senate. The conferees intend that the increase over the President's request be used to reduce the number of foreign born TB cases contributing to the U.S. caseload, strengthen domestic TB control programs, and provide preventive therapy to individuals who have latent TB infection and are high-risk for developing active, infectious TB.

The conferees include \$184,000 for Onondaga County, New York Health Department to establish a prospective tuberculosis control program for Central New York industries.

The conference agreement includes \$148,256,000 for sexually transmitted diseases instead of \$136,743,000 as proposed by the House and \$135,978,000 as proposed by the Senate. The conferees provide \$6,000,000 over fiscal year 2000 funding for chlamydia and \$14,934,000 over fiscal year 2000 funding for syphilis. Except for the administrative contribution required by CDC, all of this increase for chlamydia must be spent on appropriate services to patients to prevent chlamydia infections using the existing partnership between STD and family planning. The conferees recognize that given the problem of re-infection and other factors, some of these funds may be utilized to provide screening and treatment to males as deemed appropriate by CDC.

The conference agreement includes \$417,039,000 for chronic and environmental diseases instead of \$317,374,000 as proposed by the House and \$319,553,000 as proposed by the Senate. Programs within this account are funded (including salaries and expenses) at the following levels:

Within the total provided for cardiovascular diseases, the conferees expect CDC to enhance professional and public awareness outreach activities on pulmonary hypertension.

Within the total provided for nutrition/physical activity, the conferees expect CDC to address overweight, obesity, nutrition, and sedentary lifestyles by supporting state-based programs, by training health professionals to recognize the signs of obesity and recommend prevention activities, by educating the public concerning overweight or obesity through public education campaigns, and by developing strategies for use at work-sites and in community health and other community settings.

Native American populations have a diabetes rate of four times the national average with Hispanics following a close second. The conferees urge CDC to fund pilot projects to examine nutrition and prevention protocols for these populations.

The conferees look forward to the completion of the evidence-based report being developed by CDC and the Agency for

Healthcare Research and Quality that will assess the elements of epilepsy treatment as they relate to clinical outcomes. CDC is expected to disseminate the findings of this report to people with epilepsy, health care professionals, and the general public. The Director should be prepared to provide the next steps required to implement an early intervention strategy including diagnosis, treatment, and referral recommendations at the fiscal year 2002 appropriations hearing.

The conferees are encouraged that CDC plans to convene a meeting to develop a national prostate cancer public health agenda. The conferees urge the agency to continue its work with voluntary public and professional organizations to develop and implement a national educational and outreach campaign with special attention to minority and under served populations. CDC should be prepared to report on its prostate cancer programs at the fiscal year 2002 appropriations hearing.

The conferees urge CDC to give full and fair consideration to a proposal to develop a diversified screening demonstration project with the Dean and Betty Gallo Prostate Cancer Center at the Cancer Center of New Jersey and the Men's Health Network designed to determine effective methods for encouraging men in the underserved population to participate in colorectal screening and screening for other high risk diseases.

The conferees further direct CDC to include hospitals, universities, state and local health departments, and other appropriate partners to design and pilot test prototypes, that will measure the delivery of care to patients with acute stroke in order to provide real-time data and analysis to reduce death and disability from stroke and improve the quality of life for acute stroke survivors.

The conferees encourage CDC to continue its effort to work with pediatric hospital networks to improve infection control efforts for children, particularly high-risk children.

Within the total provided, \$25,000,000 is to continue planned activities and to expand efforts to control the West Nile virus, an increase of \$20,000,000 above the President's request. The conferees direct CDC to ensure an equitable distribution of these funds based on the impact of the West Nile virus in particular states and localities during calendar year 2000. The criteria should include: the date of first positive findings, intensity of wildlife transmission, occurrence of human illness, geographic extent of positive findings, laboratory testing/activities, and employment of control measures, including spraying.

CDC is encouraged to work with Early Head Start in developing a strategy identify and target resources for childhood lead poisoning prevention to high-risk populations.

The conference agreement includes \$77,332,000 for injury control instead of \$66,298,000 as proposed by the House and \$69,000,000 as proposed by the Senate.

The conferees have provided an additional \$3,000,000 for CDC to strengthen its focus on violence by supporting initiatives directed at the prevention of physical and emotional injuries associated with child abuse and neglect. The conferees note that CDC convened a group of experts on child maltreatment to identify future directions for prevention. Increased funds are provided to begin to improve information on child maltreatment through mechanisms such as state-based surveillance, the development of uniform definitions, and survey information from victims and perpetrators. The conferees also support the evaluation and dissemination of effective interventions and urge CDC to develop and distribute an evaluation primer, a resource guide for evaluated child maltreatment interventions, and educational materials on child maltreatment prevention.

The conferees include \$2,000,000 to support a joint effort by CDC and the Consumer Product Safety Commission to identify products that contribute to common injuries. The conferees understand that this effort includes collecting information from hospitals that currently offer 24-hour trauma service. CDC is urged to conduct evaluation research on sleepiness, sleep deprivation, and injury prevention associated with fatigue.

The conferees concur with Senate report language regarding the development of popu-

The conference agreement includes \$174,851,000 for epidemic services instead of \$155,338,000 as proposed by the House and \$30,254,000 as proposed by the Senate. Within the total provided, \$125,000,000 is for a National Campaign to Change Children's Health Behaviors as described in the House report, including promoting mental health. The campaign is designed to clearly communicate messages that will help kids develop habits that foster good health over a lifetime. The conferees expect the goals of the campaign will also address the growing problem of obesity in this country. By displacing the opportunity for young people to make bad choices during after-school and weekend hours (such as being physically inactive) with opportunities to engage in positive goal-directed activities (such as sports and other physical activity) the campaign will reduce the proportion of children and adolescents who are overweight and obese.

The conferees commend CDC's leadership role in landmine victim assistance programs and have provided an additional \$5,000,000 to support expansion of the landmine survivor program as well as the partnership with the Landmine Survivors Network to further develop peer support networks that address the rehabilitation and socioeconomic needs of landmine victims in mine affected countries.

The agreement includes \$14,000,000 for the safe motherhood initiative. The conferees urge CDC to further its efforts to prevent deaths and complications during pregnancy and reduce racial disparities, with special

focus on complications related to a lack of access to prenatal care and community support.

The conferees include the following amounts for the following projects and activities in fiscal year 2001:

—\$9,000 for the Cross Road Foundation for a pilot project to sponsor singles mother self-help groups to improve parenting skills;

—\$37,000 for Victory Memorial Hospital in Brooklyn, New York to expand its prenatal program for uninsured, pregnant women;

—\$100,000 for the Northern New Jersey Maternal Child Health Consortium;

—\$184,000 for the Children's Hospital of Buffalo for activities related to intestinal motility disorders in infants;

—\$500,000 for the University Medical Center of Southern Nevada for Maternal and Neonatal Intensive Care;

—\$900,000 for Sudden Infant Death Syndrome Resources, Inc., Missouri Bootheel Healthy Start project;

—\$1,000,000 for the Prince George's County Health Department for Infant Mortality Prevention;

—\$1,020,000 for Jackson State University, Office of Research and Development to establish an epidemiological research institute;

—\$1,704,000 is for the University of Arizona, College of Public Health to continue comprehensive research and evaluation of the unique public health risks along the U.S.-Mexico border; and

—\$3,001,000 for the Lawton and Rhea Chiles Center for Healthy Mothers and Babies Friendly Access program to improve the quality of perinatal health service delivery.

The conference agreement includes \$13,593,000 for prevention research as proposed by the House instead of \$13,386,000 as proposed by the Senate.

The conference agreement includes \$35,009,000 for health disparities demonstrations instead of \$32,184,000 as proposed by the House and \$27,000,000 as proposed by the Senate.

The conference agreement includes \$669,130,000 for program administration instead of \$648,774,000 as proposed by the House and \$626,228,000 as proposed by the Senate.

The conferees do not include language proposed by the Senate to reduce administrative expenses of the CDC. The House bill contained no similar provision.

NATIONAL INSTITUTES OF HEALTH

NATIONAL CANCER INSTITUTE

The conference agreement includes \$3,757,242,000 for the National Cancer Institute instead of \$3,793,587,000 as proposed by the House and \$3,804,084,000 as proposed by the Senate.

NCI is encouraged to take appropriate steps to take full advantage of scientific opportunities that may be available from using genealogical databases to understand, diagnose, treat and prevent cancer and other diseases.

NATIONAL HEART, LUNG AND BLOOD INSTITUTE

The conference agreement includes \$2,299,866,000 for the National Heart, Lung and Blood Institute instead of \$2,321,320,000 as proposed by the House and \$2,328,102,000 as proposed by the Senate.

The conferees support research on the interaction of tuberculosis and AIDS conducted through the Institute's AIDS research program and encourage enhanced research in this area. The conferees also urge NHLBI to continue research and development efforts in the area of polynitroxylated hemoglobin, a blood cell substitute being developed to provide oxygen carrying capacity and adequate blood flow to the critically injured.

NATIONAL INSTITUTE OF DENTAL AND
CRANIOFACIAL RESEARCH

The conference agreement includes \$306,448,000 for the National Institute of Dental and Craniofacial Research instead of \$309,007,000 as proposed by the House and \$309,923,000 as proposed by the Senate.

The conferees are concerned about the exceptionally high rate of severe dental caries suffered by American Indian children and encourage NIDCR to support long-term research of the etiology and pathogenesis of dental caries in these populations. The conferees also encourage NIDCR to conduct research on effective ways to control severe caries in American Indian children through all available mechanisms, as appropriate, including clinical trials.

NATIONAL INSTITUTE OF DIABETES AND
DIGESTIVE AND KIDNEY DISEASES

The conference agreement includes \$1,303,385,000 for the National Institute of Diabetes and Digestive and Kidney Diseases instead of \$1,315,530,000 as proposed by the House and \$1,318,106,000 as proposed by the Senate.

The conferees are concerned that the urology research effort is not addressing the large public health impact of urological diseases and conditions. NIDDK is strongly urged to enhance its research initiatives in urology.

The conferees encourage NIDDK to coordinate with the Office of Dietary Supplements on their findings from the chromium and diabetes nutrition conference held in November of 1999. The Institute is encouraged to enhance basic research grants to examine cellular glucose metabolism and the factors that influence that metabolism, especially the influence of chromium-containing compounds on glucose receptors.

The conferees encourage NIDDK to expand research efforts for treatments for mucopolysaccharidosis (MPS). The conferees recognize the recent progress in some areas of MPS research, however the persistent challenges in development of effective treatments remain. NIDDK is encouraged to work with other Institutes, especially NINDS and NICHD, to research effective therapies.

The conferees are concerned regarding reports that funding for two of the four recently established Interdisciplinary Research Centers have been significantly reduced. The conferees urge NIDDK, consistent with the PKD Strategic Plan, to fully fund the four Interdisciplinary Research Centers.

The conferees are pleased with the growth of the NIDDK research portfolio on inflammatory bowel disease (IBD) and the focus on IBD in several of the Institute's digestive diseases centers. Moreover, several new initiatives are planned, including efforts to create an IBD genetics consortium in followup to a meeting NIDDK held in March 2000 on the genetics of IBD. The conferees are hopeful that IBD will be one of the diseases to be studied in the soon-to-be-established NIDDK digestive diseases trial network. The conferees urge the Institute to foster research on genetic, environmental and other factors that offer promise of shedding light on the underlying causes of immunologic abnormalities and inflammatory mechanisms in IBD, and that may help point the way to more effective therapeutic and preventive strategies.

NATIONAL INSTITUTE OF NEUROLOGICAL
DISORDERS AND STROKE

The conference agreement includes \$1,176,482,000 for the National Institute of Neurological Disorders and Stroke instead of \$1,185,767,000 as proposed by the House and \$1,189,425,000 as proposed by the Senate.

The conferees are aware of the efforts of NINDS to identify the gene that causes

Mucopolysaccharidosis Type IV (ML-4), a debilitating genetic metabolic disorder that prevents normal development in children. The conferees encourage NINDS to consider conducting workshops and expand research efforts in this area.

The conferees urge NINDS to enhance research activities on the development or adaptation of electrical stimulation devices to activate the reflexes of the paralyzed muscles that open the airway during breathing in cases of paralyzed vocal cords due to trauma or neurodegenerative disease.

The conferees encourage NINDS to continue their collaborative efforts with advocacy groups to develop treatments for Friedreich's ataxia.

Recent advances in Spinal Muscular Atrophy (SMA) research have found that activation of the SMN2 gene may benefit treatment of SMA. The conferees urge NINDS to develop a SMA basic and clinical research portfolio through all available mechanisms, as appropriate, including clinical trials of drug compounds capable of activating SMN2 expression. The conferees also encourage the Institute to explore areas of promising research identified in the 2000 Families of SMA International Workshop.

Mitochondrial disorders comprise a panoply of progressive, neurodegenerative syndromes affecting multiple organ systems and causing mild to severe disabling neurological complications. At present there is no cure or therapies that are effective. It is recognized that adult onset disorders such as Parkinson's, Alzheimer's, and Huntington's diseases may have an associated mitochondrial defect. The conferees urge NINDS and other relevant Institutes to explore the potential applicability of promising new therapies for these diseases in treating patients with mitochondrial disorders.

The conferees are pleased to note that progress continues to be made both with respect to the treatment and in our understanding of the cause of multiple sclerosis. Recent studies have provided the best evidence to date that the disease is caused by over-reactivity of a person's own immune response. Based on these advances, the conferees encourage NINDS to expand its efforts to test new, innovative therapies. Research strategies should include the use of MRI and other surrogate biomarkers to help determine the stage of the disease, to evaluate effective treatments, and to improve diagnosis.

NATIONAL INSTITUTE OF ALLERGY AND
INFECTIOUS DISEASES

The conference agreement includes \$2,043,208,000 for the National Institute of Allergy and Infectious Diseases instead of \$2,062,126,000 as proposed by the House and \$2,066,526,000 as proposed by the Senate.

NATIONAL INSTITUTE OF GENERAL MEDICAL
SCIENCES

The conference agreement includes \$1,535,823,000 for the National Institute of General Medical Sciences instead of \$1,548,313,000 as proposed by the House and \$1,554,176,000 as proposed by the Senate.

NATIONAL INSTITUTE OF CHILD HEALTH AND
HUMAN DEVELOPMENT

The conference agreement includes \$976,455,000 for the National Institute of Child Health and Human Development as proposed by the Senate instead of \$984,300,000 as proposed by the House.

The conferees are supportive of plans to conduct a national longitudinal study of environmental influences on children's health. The Director of NICHD is urged to establish a consortium of representatives from appropriate Federal agencies, including CDC, EPA and other NIH Institutes to plan and initiate

pilot studies that will provide the information necessary to develop and implement the full national longitudinal study. To this end, the conferees have provided funds to support this initiative and look forward to learning of the progress made during the fiscal year 2002 appropriations hearing.

NATIONAL EYE INSTITUTE

The conference agreement includes \$510,611,000 for the National Eye Institute instead of \$514,673,000 as proposed by the House and \$516,605,000 as proposed by the Senate.

Recent progress in genetics research has opened up the potential for gene-based approaches for the prevention and treatment of retinal and other blinding diseases. Gene-based therapies for several forms of retinal degeneration have been successfully demonstrated in laboratory animal studies, and preclinical work has satisfied patient safety and ethical issues. The conferees urge NEI to accelerate the development of these new gene-based approaches through all available mechanisms, as appropriate, including clinical trials.

NATIONAL INSTITUTE OF ENVIRONMENTAL
HEALTH SCIENCES

The conference agreement includes \$502,549,000 for the National Institute of Environmental Health Sciences instead of \$506,730,000 as proposed by the House and \$508,263,000 as proposed by the Senate.

The causes of breast cancer are largely unknown. There is little agreement in the scientific community on how the environment impacts breast cancer. While studies have been conducted on the links between environmental factors like diet, pesticides, and electromagnetic fields, no conclusive evidence exists. The conferees encourage NIEHS to enhance research efforts to study the links between the environment and breast cancer through all available mechanisms, as appropriate, including establishing centers of excellence.

NATIONAL INSTITUTE ON AGING

The conference agreement includes \$786,039,000 for the National Institute on Aging instead of \$790,299,000 as proposed by the House and \$794,625,000 as proposed by the Senate.

NATIONAL INSTITUTE OF ARTHRITIS AND
MUSCULOSKELETAL AND SKIN DISEASES

The conference agreement includes \$396,687,000 for the National Institute of Arthritis and Musculoskeletal and Skin Diseases instead of \$400,025,000 as proposed by the House and \$401,161,000 as proposed by the Senate.

Osteogenesis Imperfecta (OI), more commonly known as Children's Brittle Bone Disease, is a rare genetic disorder for which there is presently no cure. The conferees strongly encourage NIH to expand its support for research into the causes, diagnosis, treatment, prevention, and eventual cure for OI and to coordinate public research efforts with those supported by the private sector. The Director of NIAMS should be prepared to testify on this issue at the fiscal year 2002 appropriations hearing.

Important strides have been made with the establishment of the Osteoporosis and Related Bone-Disease National Resource Center. The conferees urge NIAMS to expand support for the resource center's current activities, including developing and disseminating information based on current research findings that improve knowledge and understanding of the prevention, diagnosis, and treatment of osteoporosis and related bone diseases, implementing and evaluating model education programs to enhance bone health and reduce future risk of osteoporosis, and supporting public and private efforts to broaden the base of knowledge about osteoporosis and related bone diseases.

The conferees commend NIAMS for its growing support of research on rheumatic diseases of childhood, including the recent opening of a new Pediatric Rheumatology Clinic on the NIH campus. However, the conferees are concerned about the cadre of pediatric rheumatologists who are trained to treat and study these diseases. NIAMS is therefore encouraged to work with the Secretary of HHS and other PHS components, as appropriate, to assist in evaluating the status of the pediatric rheumatology workforce. In particular, the Institute is encouraged to take advantage of opportunities to support loan repayment for researchers working in the area of childhood rheumatic diseases.

NATIONAL INSTITUTE ON DEAFNESS AND OTHER COMMUNICATION DISORDERS

The conference agreement includes \$300,581,000 for the National Institute on Deafness and Other Communication Disorders as proposed by the Senate instead of \$301,787,000 as proposed by the House.

The conferees urge NIDCD to continue research on inner ear hair cell regeneration with special emphasis on gene delivery and gene transfer technology with specific relevance to the inner ear and the development of improved hearing aids and cochlear implants using digital processes. The conferees also urge NIDCD to continue to recruit experts from the field of molecular and cellular biology and genetics.

NATIONAL INSTITUTE OF NURSING RESEARCH

The conference agreement includes \$104,370,000 for the National Institute of Nursing Research instead of \$102,312,000 as proposed by the House and \$106,848,000 as proposed by the Senate.

NATIONAL INSTITUTE ON ALCOHOL ABUSE AND ALCOHOLISM

The conference agreement includes \$340,678,000 for the National Institute on Alcohol Abuse and Alcoholism instead of \$349,216,000 as proposed by the House and \$336,848,000 as proposed by the Senate.

NATIONAL INSTITUTE ON DRUG ABUSE

The conference agreement includes \$781,327,000 for the National Institute on Drug Abuse instead of \$788,201,000 as proposed by the House and \$790,038,000 as proposed by the Senate.

NATIONAL INSTITUTE OF MENTAL HEALTH

The conference agreement includes \$1,107,028,000 for the National Institute of Mental Health as proposed by the Senate instead of \$1,114,638,000 as proposed by the House.

NATIONAL HUMAN GENOME RESEARCH INSTITUTE

The conference agreement includes \$382,384,000 for the National Human Genome Research Institute instead of \$386,410,000 as proposed by the House and \$385,888,000 as proposed by the Senate.

NATIONAL CENTER FOR RESEARCH RESOURCES

The conference agreement includes \$817,475,000 for the National Center for Research Resources instead of \$832,027,000 as proposed by the House and \$775,212,000 as proposed by the Senate. The conferees include a provision to waive the matching requirement for the grant or contract to manage the 288 chimpanzees acquired by the Coulston Foundation. The House and Senate bills contained no similar provision.

Within the total provided, \$100,000,000 is for the Institutional Development Awards (IDeA) program as proposed by the House instead of \$60,000,000 as proposed by the Senate. In the implementation of these funds, the conferees concur with the language contained in the House report. In addition, the conferees believe that the General Clinical Research Centers (GCRCs) are essential to

furthering biomedical research progress and have included funds for NCRR above the Administration's request to permit an increase for GCRCs commensurate with the overall NIH funding increase.

The conferees urge NCRR to use a portion of the increase provided for a new competition of Science Education Program Awards grants. The conferees further urge that these funds be used consistent with language contained in last year's House and Senate reports.

JOHN E. FOGARTY INTERNATIONAL CENTER

The conference agreement includes \$50,514,000 for the John E. Fogarty International Center instead of \$50,299,000 as proposed by the House and \$61,260,000 as proposed by the Senate.

NATIONAL LIBRARY OF MEDICINE

The conference agreement includes \$246,801,000 for the National Library of Medicine instead of \$256,281,000 as proposed by the House and \$256,953,000 as proposed by the Senate.

NATIONAL CENTER FOR COMPLEMENTARY AND ALTERNATIVE MEDICINE

The conference agreement includes \$89,211,000 for the National Center for Complementary and Alternative Medicine instead of \$78,880,000 as proposed by the House and \$100,089,000 as proposed by the Senate.

The conferees are aware of the health benefits of cranberries and cranberry juice products in maintaining urinary tract health as well as their positive antibacterial and antioxidant effects and believe that independent Federally-funded research to test and/or validate these findings could add to the arsenal of health-based and nutritional alternatives to wellness. The conferees encourage NCCAM to study the health benefits of cranberry products.

NATIONAL CENTER ON MINORITY HEALTH AND HEALTH DISPARITIES

While the overall health of the nation has improved over the last two decades, there continues to be striking disparities in the burden of illness and death experienced by African Americans, Hispanics, Native Americans, Alaska Natives, and Asian-Pacific Islanders. Moreover, the largest numbers of medically underserved are white individuals, and many of them have the same health and access problems as do members of minority groups. Overcoming such persistent and perplexing health disparities, and promoting health for all Americans, ranks as one of our Nation's foremost challenges.

These disparities are believed to be the result of the complex interaction among socioeconomic and biological factors, the environment, and specific behaviors, as well as other factors. While some of the causes of inequitable health outcomes may be beyond the scope of biomedical research, the conferees recognize that NIH has made research into health disparities a high priority, and has already taken steps to expand the role of research into why some minority groups have disproportionately high rates of disease.

Congress recently passed and the President has signed the Minority Health and Health Disparities Research and Education Act of 2000. The Act established the National Center on Minority Health and Health Disparities, which will enable NIH to move ahead more rapidly toward its goal of elucidating the factors that contribute to these disparities. The Center will conduct and support research through grants to support programs targeting diseases and conditions that disproportionately affect minority groups and other populations with health disparities. The Center will build on the work of the Office for Research on Minority Health and the success of the Minority Health Initiative,

currently located in the NIH Office of the Director. This will complement the ongoing research of the NIH Research Institutes and Centers also aimed at reducing health disparities. To emphasize the visibility of this new Center and the importance of its research mission, the conferees have included bill language providing \$130,200,000 for the Center.

OFFICE OF THE DIRECTOR

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$213,581,000 for the Office of the Director instead of \$342,307,000 as proposed by the House and \$352,165,000 as proposed by the Senate. The agreement includes a designation in bill language of \$48,271,000 for the operations of the Office of AIDS Research. The conferees understand that with the funds allocated to NIH, the NIH expects to provide \$2,266,987,000 in AIDS research funding.

The agreement includes funds within the Office of the Director to address the trend of the HIV/AIDS epidemic in communities of color. The Office is encouraged to expand and strengthen science-based HIV prevention research for African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians and Pacific Islanders and consideration should be given to the U.S. Virgin Islands and Puerto Rico. The Office is also encouraged to expand existing culturally competent behavioral research, conducted by minority principal investigators, that seeks to break the link between HIV infection and high risk behaviors and that seeks to decrease the rate of mortality in targeted minority populations.

The conferees continue to be interested in matching the increased needs of researchers who rely upon human tissue and organs to study human diseases and to search for cures. The conferees are aware of a recent review by a panel of experts that found that there is a rapidly expanding and unmet demand for the use of human tissue samples for research purposes. The conferees encourage the Director of NIH to work with the relevant Institutes to consider expanding support in this area and request that the Director be prepared to report on its plan to meet the demand for human tissue at the fiscal year 2002 appropriations hearing.

The conferees encourage NIH to consider establishing a trans-NIH coordinating committee to focus on the lymphatic system, with particular emphasis on lymphedema and related lymphatic disorders.

The conferees are aware of concerns raised regarding the progress of NIH research into fascioscapulohumeral muscular dystrophy and fascioscapulohumeral disease and encourage NIH to expand research in this area.

The conferees concur with the language contained in the Senate report regarding microbicides research.

The conferees encourage NIA, NICHD, and NINDS to work collaboratively to enhance research into Hutchison-Gilford Progeria Syndrome, an illness that strikes children in their first year causing them to age rapidly and prematurely and for which the average life expectancy is 13 years.

The NIH has developed a five-year Parkinson's Disease Research Agenda. To carry out the plan, the professional judgement budget estimates call for increases over existing Parkinson's research of \$71,400,000 in year one (fiscal year 2001). The conferees strongly urge the Director to work toward implementation of the research agenda and oversee coordination of all relevant Institutes, including NINDS, NIEHS, NIA, and others conducting Parkinson's research. The Director is requested to report by March 1, 2001 on the progress towards implementation of the research agenda and to submit updated professional judgement funding projections for subsequent years.

The conferees concur with the language in the Senate report regarding a study of the structure of NIH and expect to receive a report and recommendations one year from the date of confirmation of the new NIH Director.

The conferees have been made aware of the public interest in securing an appropriate return on the NIH investment in basic research. The conferees are also aware of the mounting concern over the cost to patients of therapeutic drugs. By July 2001, based on a list of such therapeutic drugs which are FDA approved, have reached \$500,000,000 per year in sales in the United States, and have received NIH funding, NIH will prepare a plan to ensure that taxpayers' interests are protected.

The Office of Dietary Supplements is urged to research the relationship between chromium deficiencies and diabetes in Native Americans through all available mechanisms, as appropriate, including clinical trials.

The number of Americans taking dietary supplements containing ephedra has risen dramatically. The conferees encourage the Office of Dietary Supplements to enhance clinical research on the safety and efficacy of these products.

The conferees urge NIH to minimize the use of non-human animals in nicotine or tobacco experiments, and is encouraged to explore any non-human research methods that are currently available or under development that may be used as an alternative to using non-human animals.

The conferees are concerned about the transfer of HIV prevention interventions that have proven to be effective to service programs supported by other federal agencies, such as CDC and HRSA. The Office of AIDS Research (OAR) should work with the ICs to increase NIH efforts in this area through the establishment of programs for regional technical assistance, technology transfer, and training for the purpose of providing links between evidence-based HIV prevention science and public health departments, community planning groups, healthcare providers, and prevention service providers.

The conferees strongly urge NIH to implement an intensified research effort regarding autism consistent with the Children's Health Act of 2000. The Director of NIH should also provide a report to the House and Senate Appropriations Committees by March 1, 2001 regarding a plan for establishing the Centers of Excellence on Autism Program authorized in the Children's Health Act of 2000.

The conferees commend the Office of AIDS Research for convening an external review of the Centers for AIDS Research Program and for the five year plan to increase the number of Centers. However, the conferees urge the NIH to consider ways in which the five year plan can be modified to balance the need to expand the number of Centers with the need to adequately support the leading AIDS research institutions with the core center mechanisms that they need to efficiently pursue AIDS research.

The conferees encourage NIH to pursue recommendations from the Diabetes Research Working Group to address the specific needs of minority populations.

The conferees are aware of the National Institute of Child Health and Human Development's (NICHD) efforts to establish a Perinatology Research Branch (PRB) to conduct research programs on pregnancy and perinatology in the greater metropolitan region of the District of Columbia. After several attempts, the conferees understand that NICHD now intends to hold a nationwide competition for a site for the PRB. The Director is requested to submit a written re-

port by March 1, 2001, explaining why the efforts to establish the PRB in the greater metropolitan region of the District of Columbia have to-date been unsuccessful. The District of Columbia has the highest rate of infant mortality in the United States, the highest rate of infants born with low birthweights, and the lowest percentage of mothers receiving early prenatal care. Therefore, the report should include possible alternative methods for conducting research programs on pregnancy and perinatology in the greater metropolitan region of the District of Columbia.

The conferees believe it appropriate for NIH to recognize Paul Rogers' numerous contributions to the public health and medical research. Therefore, the conferees urge the Director to designate the plaza in front of the James Shannon building on the NIH campus as the Paul G. Rogers Plaza and to commemorate it in his honor.

The conferees appreciate the efforts of the Director to ensure that NLM's future physical needs are met and encourage that sufficient funds be made available from within NLM funding to meet these needs.

BUILDINGS AND FACILITIES

The conference agreement includes \$153,790,000 for buildings and facilities instead of \$178,700,000 as proposed by the House and \$148,900,000 as proposed by the Senate.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES

The conference agreement includes \$2,958,001,000 for substance abuse and mental health services instead of \$2,727,626,000 as proposed by the House and \$2,730,757,000 as proposed by the Senate. Within the funds provided, the conferees intend that \$15,000,000 is to carry out the fetal alcohol syndrome prevention and services program.

Center for Mental Health Services

The conference agreement includes \$420,000,000 for the mental health block grant instead of \$416,000,000 as proposed by the House and \$366,000,000 as proposed by the Senate.

The conference agreement includes \$91,763,000 for children's mental health instead of \$86,763,000 as proposed by both the House and Senate.

The conference agreement includes \$36,883,000 for grants to states for the homeless (PATH) as proposed by the Senate instead of \$30,883,000 as proposed by the House.

The conference agreement includes \$30,000,000 for protection and advocacy instead of \$24,903,000 as proposed by the House and \$25,903,000 as proposed by the Senate. The conferees continue to be concerned about deaths and serious injuries due to the inappropriate use of seclusion and restraints in facilities that treat individuals with mental illnesses and have provided additional resources so that these deaths can be investigated and future incidences can be prevented.

The conference agreement includes \$203,674,000 for programs of regional and national significance instead of \$132,749,000 as proposed by the House and \$146,875,000 as proposed by the Senate.

Within the total provided, \$90,000,000 provided under section 581 of the Public Health Service Act is for the support and delivery of school-based and school-related mental health services for school-age youth. It is intended that the Department will continue to collaborate its efforts with the Department of Education to develop a coordinated approach. The conferees recognize it may be necessary for the agency to allocate additional resources to the Safe Schools/Healthy

Students Action Center to expand its technical assistance to serve new grantees.

Within the total provided, \$3,000,000 is for suicide prevention hotlines. The conferees direct SAMHSA to undertake an evaluation of the effectiveness of these hotlines in preventing suicides.

The conferees believe that SAMHSA is uniquely qualified to support a clearinghouse for youth suicide prevention, including a database and related files of reference materials and organizations. SAMHSA, through this clearinghouse, could provide training and technical assistance to States to implement the Surgeon General's recommendations for suicide prevention.

Within the total provided, \$10,000,000 is provided under section 582 of the Public Health Service Act to support up to 22 grants to local mental health providers for the purposes of developing knowledge of best practices and providing mental health services to children and youth suffering from post traumatic stress disorder as a result of having witnessed or experienced a traumatic event. Grantees can include psychiatric hospitals, general hospitals, outpatient mental health clinics, and community and university-based mental health programs. With respect to grants for knowledge development, preference should be given to applicants with experience in the field of trauma related mental disorders in children and youth.

Within the total provided, \$2,000,000 is to support professional training in restraints and seclusion in residential and day treatment centers for children and youth. This training initiative will support grants to non-profit and public entities for the purpose of developing and demonstrating the effectiveness of a best-practices training model to avoid the inappropriate use of restraints and seclusion.

The conferees are supportive of efforts to develop a model training demonstration project to help eliminate deaths and injuries that occur in mental health facilities due to the inappropriate use of seclusion and restraints. Such a model training program should emphasize conflict resolution and de-escalation.

Within the total provided, an increase of \$2,000,000 is to provide additional support for minority fellowships in mental health.

Within the total provided, \$7,000,000 is for the treatment of mental health disorders related to HIV disease including: dementia, clinical depression and the chronic, progressive neurological disabilities that often accompany HIV disease. These direct services grants provided to minority community-based providers that operate in traditional and non-traditional settings are designed to strengthen their capacity to provide HIV related mental health services.

Funds are included to provide grants to local communities to improve mental health screening and referrals in non-mental health settings and continue support for jail diversion programs for non-violent mentally ill offenders.

It is intended that funds used to make grants to States for the purpose of developing data infrastructure will be used for mental health only.

The conferees include the following amounts for the following projects and activities in fiscal year 2001:

—\$83,000 for the Hope Center in Lexington, Kentucky;

—\$85,000 for Steinway Child and Family Services, Inc. in Queens, New York for HIV/AIDS prevention;

—\$100,000 for the American Trauma Society to support its Second Trauma Program which helps train trauma system health care professionals to assist individuals facing the shock of an unexpected death or critical injury to their family members.

—\$200,000 for the Concord-Assabet Family Services Center for a model transitional living program for troubled youth;

—\$325,000 for Preschool Anger Management, Family Communications;

—\$500,000 for the Life Quest Community Mental Health Center in Wasilla, Alaska;

—\$680,000 for Pacific Clinics in Arcadia, California, to support a school-based mental health demonstration program for Latina adolescents in partnership with community groups, mental health agencies, local governments and school systems in Southeast Los Angeles county;

—\$803,000 for the Bert Nash Community Mental Health Center in Lawrence, Kansas, to provide mental health services in schools and other settings to prevent juvenile crime and substance abuse among high-risk youth;

—\$800,000 for the Alaska Federation of Natives for innovative homeless mental health services in Alaska;

—\$850,000 for the Iowa State University Extension to develop a program which would provide outreach, training, and counseling services in rural areas;

—\$921,000 for the United Power for Action and Justice demonstration project in Chicagoland area to end the cycle of homelessness;

—\$921,000 for a mentally ill offender crime reduction demonstration in Ventura County, California to create the building blocks for a continuum of care for mentally ill offenders who enter the jail system in the county;

—\$850,000 for the University of Connecticut for an urban health initiative to improve mental health services to underserved high-risk individuals living in urban public housing;

—\$1,007,000 for the University of Florida National Rural Behavioral Health Center to train extension agents in crisis intervention and stress management to better equip them to deal with emotional and stress related problems;

—\$1,500,000 for the Ch'eghutsen program in interior Alaska; and

—\$1,300,000 for the Alaska Federation of Natives to use integrated community care to treat native Alaska children with mental health disorders.

Center for Substance Abuse Treatment

The conference agreement includes \$1,665,000,000 for the substance abuse block grant instead of \$1,631,000,000 as proposed by both the House and the Senate.

The conference agreement includes \$256,315,000 for programs of regional and national significance instead of \$213,716,000 as proposed by the House and \$249,566,000 as proposed by the Senate. Within the total provided, \$10,000,000 is to initiate grants to local non-profit and public entities for the purpose of developing and expanding substance abuse services for homeless persons.

The agreement includes \$53,000,000 designed to provide targeted service expansion and capacity building to minority, community-based substance abuse treatment programs with a history of providing services to communities of color severely impacted by substance abuse and HIV/AIDS. The correlation between addiction and HIV/AIDS is well documented. Injection drug use alone still accounts for more than 20 percent of the primary HIV infection risk for African American and Latino adults. These funds are to be allocated based on program priorities identified in the previous fiscal year and new priorities. Funds are also included to enhance state and county efforts to plan and develop integrated substance abuse and HIV/AIDS treatment and prevention services to communities of color.

The conferees are supportive of the efforts of the Sunshine Shelter for abused and ne-

glected children in Natchez, Mississippi in treating chemically dependent women and their children and note that additional resources would allow the Shelter to expand its outreach efforts.

The conferees include the following amounts for the following projects and activities in fiscal year 2001:

—\$100,000 for the Vermont Department of Health Office of Alcohol and Drug Abuse Prevention to examine adolescent residential treatment programs;

—\$106,000 for Center Point, Inc., in Marin County, California, to continue support for substance abuse and related services for minority, homeless and other at risk populations;

—\$200,000 for Green Door in Washington, D.C. to treat minority consumers with substance abuse problems and mental health issues;

—\$250,000 for the Allegheny County Drug and Alcohol Rehabilitation Program;

—\$500,000 for the Cook Inlet Council on Alcohol and Drug Abuse Treatment;

—\$500,000 for the House of Mercy in Des Moines, Iowa to support treatment programs for pregnant and post-partum women;

—\$500,000 for the State of Wyoming to carry out an innovative substance abuse prevention and treatment program;

—\$425,000 for Humboldt County, California, to support residential substance abuse and related services for women who have children;

—\$608,000 for the Hope Center in Lexington, Kentucky;

—\$645,000 for the Grove Counseling Center in Winter Springs, Florida for a demonstration project of effective youth substance abuse treatment methods;

—\$750,000 for the Fairbanks LifeGivers Pregnant and Parenting Teens program;

—\$900,000 for the Alaska Federation of Natives to identify best substance abuse treatment practices;

—\$1,105,000 for the City of San Francisco's model "Treatment on Demand" program for the homeless; and

—\$2,210,000 for the Baltimore City Health Department to use innovative methods to enhance drug treatment services.

Center for Substance Abuse Prevention

The conference agreement includes \$175,145,000 for programs of regional and national significance instead of \$132,742,000 as proposed by the House and \$127,824,000 as proposed by the Senate. Within the total provided, it is intended that high-risk youth grants will at least be maintained at last year's level.

The agreement includes \$32,100,000 for grants to minority community based organizations to implement programs that strengthen substance abuse prevention capacity in communities of color disproportionately impacted by the HIV/AIDS epidemic, based on the most recent estimated living AIDS cases, HIV infections and AIDS mortality among ethnic and racial minorities as reported by the CDC.

The conferees include the following amounts for the following projects and activities in fiscal year 2001:

—\$85,000 for the City of Alexandria, Virginia, substance abuse prevention demonstration program for high-risk Latino youth;

—\$213,000 for the Rock Island County Council on Addiction in East Moline, Illinois, for a youth substance abuse prevention program; and

—\$500,000 for the Drug-free Families Initiative at the University of Missouri, St. Louis.

The conferees have included sufficient funds to continue the pregnant and post-partum substance abuse prevention evalua-

tions for both the Community Prevention Partnership of Berks County, Inc. and the Family Planning Council of Pennsylvania

Program Management

The conference agreement includes \$79,221,000 for program management instead of \$58,870,000 as proposed by the House and \$59,943,000 as proposed by the Senate. Within the total provided, \$12,000,000 is for the National Household Drug Survey.

The conferees include \$3,278,000 in fiscal year 2001 to continue testing the effectiveness of Community Assessment and Intervention Centers in providing integrated mental health and substance abuse services to troubled and at-risk children and youth, and their families in four Florida communities. Building upon successful juvenile programs, this effort responds directly to nationwide concerns about youth violence, substance abuse, declining levels of service availability and the inability of certain communities to respond to the needs of their youth in a coordinated manner. The total provided includes, \$2,000,000 for mental health special projects of regional and national significance; \$1,000,000 for substance abuse treatment special projects of regional and national significance; \$500,000 for substance abuse prevention special projects of regional and national significance; and \$200,000 for program management.

The agreement includes a general provision proposed by the Senate regarding the withholding of substance abuse funds. The House bill contained no similar provision. The Synar amendment was included as part of the SAMHSA reorganization bill in 1992. The amendment and its implementing regulation required States to reduce sales of tobacco to minors within a negotiated period of time and if a State fails to meet its goals, reduced its substance abuse prevention and treatment block grant funding by 40 percent. The conferees are extremely concerned that several States, after at least four years, are not in compliance with the law and continue to seek an exemption to the penalty requirement. It is the conferees intention that this will be the last year exemption language will be carried in an appropriations bill. SAMHSA is directed to notify States of this intention and work with the affected States to help them come into compliance.

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY

HEALTHCARE RESEARCH AND QUALITY

The conference agreement includes \$104,963,000 in appropriated funds instead of \$123,669,000 as proposed by the House. The Senate bill did not provide a direct appropriation for the agency, instead it proposed to fund the agency through the evaluation set-aside.

The conference agreement designates \$164,980,000 to be available to the agency under the Public Health Service Act one percent evaluation set-aside as proposed by the House instead of \$269,943,000 as proposed by the Senate.

The conferees are troubled by the recent Institute of Medicine study which found that as many as 98,000 deaths are caused by medical errors each year. The conferees have provided an additional \$50,000,000 to the agency to determine ways to reduce medical errors. The conferees are supportive of a study to determine the impact of extended work hours for registered nurses on patient safety.

The agreement includes \$10,000,000 for research that investigates the relationship between the health care workplace and its impact on medical errors and the quality of care provided to patients. Efforts to restructure the health care workplace, often in response to pressures to reduce costs, suggest

that work environment and processes have had an impact on health and quality of workers' lives as well as the patients for whom they care. As we have learned from the experience of the aviation industry, reducing errors and promoting safety are a result of improving workforce systems. Likewise, it is important that workforce considerations be integrated into efforts to reduce medical errors and promote patient safety. The conferees believe that better understanding of these workforce considerations will lead to improved workplace practices and better outcomes for patients.

The conferees support the efforts of the Agency for Healthcare Research and Quality, the National Institute for Occupational Safety and Health, the Department of Labor, and other agencies to work jointly and coordinate their work to improve healthcare quality, patient safety, and worker safety in health care facilities, through such activities as the October 2000 jointly sponsored conference on "Enhancing Working Conditions and Patient Safety: Best Practices." The conferees urge that such coordinated efforts be continued.

The conferees strongly urge the agency to enhance its investigator-initiated research funding through all available mechanisms, as appropriate.

HEALTH CARE FINANCING ADMINISTRATION PROGRAM MANAGEMENT

The conference agreement includes \$2,246,326,000 for program management instead of \$1,866,302,000 as proposed by the House and \$2,018,500,000 as proposed by the Senate. The House bill assumed that the Administration's user fee proposal would be enacted prior to conference. An additional appropriation of \$680,000,000 has been provided for the Medicare Integrity Program through the Health Insurance Portability and Accountability Act of 1996.

The conferees repeat language included in last year's bill related to administrative fees collected relative to Medicare overpayment recovery activities.

RESEARCH, DEMONSTRATION, AND EVALUATION

The conference agreement includes \$139,311,000 for research, demonstration, and evaluation instead of \$55,000,000 as proposed by the House and \$65,000,000 as proposed by the Senate.

The agreement includes \$50,000,000 for Real Choice Systems Change Grants to states to fund initiatives that establish specific action steps and timetables to achieve enduring system improvements and to provide long term services and supports, including community-based attendant care, to eligible individuals in the most integrated setting appropriate. Grant applications should be developed jointly by the State and the Consumer Task Force. The Task Force should be composed of individuals with disabilities from diverse backgrounds, representatives from organizations that provide services to individuals with disabilities, consumers of long-term services and supports, and those who advocate on behalf of such individuals. Grant-funded activities should focus on areas of need as determined by the State and the Task Force such as needs assessment and data gathering, strategies to modify policies that unnecessarily bias provision of long term care services to institutional settings or to health care professionals, and training and technical assistance.

The agreement includes bill language for the following projects and activities for fiscal year 2001:

—\$300,000 for the United States-Mexico Border Counties Coalition for a study to determine the unreimbursed costs incurred to treat undocumented aliens for medical emer-

gencies in southwest border States, their border counties, and hospitals within the jurisdiction of these States and counties;

—\$255,000 for the LA Care Health Plan in Los Angeles, California for a demonstration program to improve clinical data coordination among Medicaid providers;

—\$350,000 for the Cook County, Illinois Bureau of Health for the Asthma Champion Initiative demonstration to reduce morbidity and mortality from asthma in high prevalence areas;

—\$500,000 to the University of Pittsburgh Medical Center and University of Pennsylvania for a study of the efficacy of surgical versus non-surgical management of abdominal aneurysms;

—\$691,000 for a Medicare demonstration project at Ohio State University to determine the benefits of compliance packaging;

—\$650,000 for the Vascular Surgery Outcomes Initiative at Dartmouth College;

—\$646,000 for Shelby County Regional Medical Center to establish a Master Patient Index to determine patient Medicaid/TennCare eligibility;

—\$855,000 for the Children's Hospice International demonstration program to provide a continuum of care for children with life-threatening conditions and their families;

—\$921,000 for Equip for Equality for a demonstration project to document the impact of an independent investigative unit that will examine deaths or other serious allegations of abuse or neglect of people with disabilities at facilities in Illinois;

—\$1,000,000 for the West Virginia University School of Medicine's Eye Center to test interventions and improve the quality of life for individuals with low vision;

—\$1,000,000 for Duke University Medical Center to demonstrate the potential savings in the Medicare program of a reimbursement system based on preventative care.

—\$1,000,000 for the Iowa Department of Public Health for the establishment and operation of a mercantile prescription drug purchasing cooperative or non-profit corporation demonstration;

—\$1,843,000 for the Buck's County Health Improvement Project in Pennsylvania;

—\$1,700,000 for the AIDS Healthcare Foundation in Los Angeles for a demonstration of residential and outpatient treatment facilities;

—\$2,800,000 for the Mind-Body Institute of Boston, Massachusetts to conduct a demonstration of a lifestyle modification program;

—\$1,800,000 for a joint project between the University of Pittsburgh, Case Western Reserve in Cleveland, Ohio, and Mt. Sinai Hospital in Miami, Florida, to use integrated nursing services and technology to implement daily monitoring of congestive heart failure patients in underserved populations in accordance with established clinical guidelines; and

—\$20,000,000 to continue demonstration projects on Medicaid coverage of community-based attendant care services for people with disabilities.

HCFA is urged to conduct a demonstration project addressing the extraordinary adverse health status of native Hawaiians at the Waimanalo health center exploring the use of preventive and indigenous health care expertise.

HCFA is urged to work with the United States Renal Data System (USRDS) to test potential savings to the Federal government and to the Medicare program by comparing actual Medicare/Medicaid spending for end stage renal disease (ESRD) patients currently on daily hemodialysis with actual Medicare/Medicaid spending for ESRD patients on other treatment modalities, such as peritoneal dialysis and in-center hemo-

dialysis whose demographic and other characteristics match those of the daily hemodialysis patients in 9 to 12 existing programs in the U.S. Such a study should compare spending related to patient dialysis and training, medications, vascular access, ambulance transportation, physician and outpatient medical expenses not related to dialysis, hospitalizations, and other medical services, such as skilled nursing facilities or home health care and any other spending for which data is available to the USRDS.

HCFA is encouraged to utilize edit check software programs to scrub electronic data files prior to processing by the respective State agency and/or fiscal intermediary. The identification of errors and omissions prior to submission can provide dramatic improvement in the financial condition of many providers who are experiencing large losses of revenue.

The conferees are concerned that HCFA has not instituted a demonstration project to test the potential savings to the Federal government and to the Medicare program by comparing different products used for diabetic wound care treatment as referenced in last year's conference agreement. Such a demonstration should compare the aggregate costs of wound care treatment using different applications regimens. The conferees urge HCFA to proceed with this demonstration project utilizing existing research funds.

The conferees are aware that the Health Passport pilot program is helping thousands of low-income families in Nevada, Wyoming and North Dakota and urges HCFA to give full and fair consideration to a proposal to continue the program.

The conferees have become increasingly concerned that many people with the most severe disabilities often experience a lack of quality in community residential and treatment services that can result in dangerous or unhealthful conditions. The conferees believe that such services should be monitored by an entity that has the expertise and legal authority necessary to ensure the safety and general well-being of this population. Accordingly, the conferees urge HCFA to support the protection and advocacy system to demonstrate the efficacy of such community monitoring.

Medicare Contractors

The conference agreement includes \$1,357,000,000 for Medicare contractors instead of \$1,165,287,000 as proposed by the House and \$1,244,000,000 as proposed by the Senate. Of this amount, \$1,305,000,000 is to support Medicare claims processing contracts and \$52,000,000 is for Medicare+Choice information campaign.

State Survey and Certification

The conference agreement includes \$244,147,000 for State survey and certification instead of \$171,147,000 as proposed by the House and \$219,674,000 as proposed by the Senate.

The agreement includes an increase of \$10,000,000 over the President's request for nursing home oversight and quality of care services.

Federal Administration

The conference agreement includes \$505,868,000 for Federal administration instead of \$474,868,000 as proposed by the House and \$489,826,000 as proposed by the Senate.

The conferees urge HCFA to give careful consideration to concerns that substance abuse (alcohol and drug) treatment facilities may not have been intended to be considered institutions for mental diseases exclusion under Medicaid since these facilities were not common when the exclusion policy was implemented. The conferees are aware that restricting Medicaid medical assistance to

residential substance abuse treatment facilities with 16 or fewer adult treatment beds places an undue burden on the publicly funded substance abuse treatment and prevention infrastructure.

The conferees concur with Senate report language urging HCFA to act more expeditiously to approve new medical technologies, including PET scans, for Medicare patients so that seniors will have access to the latest life-saving technologies and treatments.

The conferees understand that HCFA regulations require States to provide documentation and justification before making changes in Medicaid reimbursements. The conferees are concerned that several State Medicaid agencies are currently paying or proposing to pay chain-operated pharmacies lower reimbursement rates than other pharmacies for providing the same prescription products and related services without providing the required justification. The conferees expect HCFA to enforce current regulations when reviewing and approving State submissions. The conferees also believe that the implementation of a different system for Medicaid reimbursements of pharmaceuticals should be addressed by the authorizing committees of jurisdiction. The Administrator should be prepared to testify on the status of this issue at the fiscal year 2002 appropriations hearing.

HCFA has proposed guidelines regarding the administrative claims process for schools requesting reimbursement for Medicaid related services. The conferees are concerned that these guidelines are being developed without adequate input from interested parties and will significantly alter the administrative claiming program making it more difficult for schools to provide services to poor and disabled children. HCFA is expected to consult with school practitioners and other groups to draft guidance for Medicaid allowable costs under the administrative claiming section of the School Based Services program. HCFA is also urged to process pending State applications and to continue to review reimbursement procedures until new guidelines are published. The Administrator should be prepared to testify on this issue at the fiscal year 2002 appropriations hearing.

ADMINISTRATION FOR CHILDREN AND FAMILIES PAYMENTS TO STATES FOR CHILD SUPPORT ENFORCEMENT AND FAMILY SUPPORT PROGRAMS

The conference agreement includes \$2,441,800,000 for payments to states for child support enforcement and family support programs instead of \$2,473,800,000 as proposed by the House and \$2,473,880,000 as proposed by the Senate. The conferees provide extended availability of funds as proposed by the Senate. The House bill proposed no extended availability.

LOW INCOME HOME ENERGY ASSISTANCE

The conference agreement includes an additional \$300,000,000 in fiscal year 2001 funding for the Low Income Home Energy Assistance program. When combined with the \$1,100,000,000 already appropriated for fiscal year 2001 and the \$300,000,000 in emergency funding, a total of \$1,700,000,000 is available to support this program in fiscal year 2001. The agreement includes up to \$27,500,000 for the leveraging incentive fund within these totals.

The conferees are aware that average home heating fuel prices have doubled in the past year, and in some areas are up five-fold, while at the same time many states are expected to experience extremely cold winter. The conferees are deeply concerned that this will force steep reductions in the relative percentage of home heating cost that LIHEAP provides to low-income households.

The conferees have provided a \$300,000,000 increase in the regular appropriation for fiscal year 2001 to reduce the adverse impact of these fuel price spikes.

The conference agreement does not include advance funding for fiscal year 2002 for LIHEAP as proposed by the Senate. The House bill proposed \$1,100,000,000 for fiscal year 2002. The conferees are aware that advance funding for LIHEAP was authorized by Congress in 1990 to respond to the States' need to budget and plan their LIHEAP programs in advance of the fall/winter heating season. States are required by statute to hold public hearings in the spring and summer on their proposed LIHEAP programs to determine eligibility levels, establish the size of household benefits, and establish parameters of crisis programs. Consequently, States must be able to reliably predict the LIHEAP appropriation that normally becomes available at the very beginning of the heating season, but which is often delayed due to late enactment of appropriations bills. As noted in the Senate Report 101-421 accompanying the Human Services Reauthorization Act of 1990, "Forward funding will allow states to identify clients, provide assistance, and put them on responsible budget payment-plans in the summer or fall to avoid the development of life-threatening situations." Although advance funding is not included in this bill, the conferees fully intend to provide at least \$1,400,000,000 in regular LIHEAP appropriations and \$300,000,000 in emergency funds in fiscal year 2002.

REFUGEE AND ENTRANT ASSISTANCE

The conference agreement includes \$433,109,000 for refugee and entrant assistance as proposed by the House instead of \$425,586,000 as proposed by the Senate. Within this amount, for the Torture Victims Relief Act funds, the conferees provide \$10,000,000 as proposed by the House instead of \$7,265,000 as proposed by the Senate. Within this amount, the conferees provide funding to implement the Trafficking Victims Protection Act of 2000, which will support efforts to certify eligibility for benefits and services for trafficking victims.

The agreement includes \$20,000,000 from carryover funds that are to be used under social services to increase educational support to schools with a significant proportion of refugee children and for the development of alternative cash assistance programs that involve case management approaches to improve resettlement outcomes. Such support should include intensive English language training and cultural assimilation programs.

The agreement also includes \$26,000,000 for increased support to communities with large concentrations of refugees whose cultural differences make assimilation especially difficult justifying a more intense level and longer duration of Federal assistance.

PAYMENTS TO STATES FOR THE CHILD CARE AND DEVELOPMENT BLOCK GRANT

The conference agreement includes an additional \$817,328,000 for child care services, together with the \$1,182,672,000 provided as an advance appropriation in last year's bill, raising the funding level for this program to \$2,000,000,000 for fiscal year 2001. The agreement does not provide for an advance appropriation for fiscal year 2002 as proposed by the Senate; however, the conferees intend that funding for the child care block grant be at least that level in fiscal year 2002. The House bill proposed advance funding of \$2,000,000,000 for fiscal year 2002.

The agreement also includes language specifying that funds under the Child Care and Development Block Grant are to be used to supplement, not to supplant, state and local child care funds.

The agreement also sets aside an additional \$272,672,000 from fiscal year 2001 to be

reserved by the States for activities authorized under section 658G, of which \$100,000,000 shall be for activities that improve the quality of infant and toddler child care. The House bill set aside \$172,672,000 for additional quality purposes in fiscal year 2002. The Senate bill set aside \$222,672,000 for additional quality activities, of which \$100,000,000 was to be used for infant and toddler care, in fiscal year 2001. The agreement also sets aside \$10,000,000 to be used for child care research, demonstration and evaluation activities. Neither the House nor the Senate contained this provision. Within the funds provided for child care resources and referrals, the agreement also includes \$1,000,000 for the Child-Care Aware toll-free hotline.

SOCIAL SERVICES BLOCK GRANT

The conference agreement includes \$1,725,000,000 for the social services block grant instead of \$1,700,000,000 as proposed by the House and \$600,000,000 as proposed by the Senate. The conference agreement includes a provision which maintains the percentage of funds that a state may transfer between the Social Services Block Grant and the Temporary Assistance to Needy Families Programs at 10 percent.

CHILDREN AND FAMILIES SERVICES PROGRAMS (INCLUDING RESCISSIONS)

The conference agreement includes \$7,956,345,000 for children and families services programs instead of \$7,231,253,000 as proposed by the House and \$7,895,723,000 as proposed by the Senate. In addition, the agreement rescinds \$21,000,000 from permanent appropriations as proposed by both the House and the Senate.

Head Start

The conference agreement includes \$6,200,000,000 for Head Start instead of \$5,667,000,000 as proposed by the House and \$6,267,000,000 as proposed by the Senate. The agreement includes an advance appropriation of \$1,400,000,000 for Head Start for fiscal year 2002 as proposed by both the House and the Senate.

The conferees are concerned that while fifty percent of children eligible for the regular Head Start program receive services, only about ten percent of children of farmworkers are served by Migrant Head Start. Therefore, the conferees encourage the Secretary to increase funding for Migrant and Seasonal Head Start in proportion to the overall funding increase for Head Start. The conferees also urge the agency to ensure that all children participating in the Early Head Start program receive a blood lead screening test.

The conferees urge the agency to provide funds to the Alaska Federation of Natives to train Head Start teachers in remote Alaska villages. The conferees also encourage the agency to provide funds to the University of Alaska to provide distance training for Head Start teachers through Associate Degree programs.

Runaway Youth

The conference agreement includes \$69,155,000 for runaway youth as proposed by the Senate instead of \$64,155,000 as proposed by the House. The agreement allocates funds for the runaway and homeless youth programs following the structure of P.L. 106-71, the Missing, Exploited, and Runaway Children Protection Act, which consolidates the programs into a single funding stream.

Adoption Incentive

The conference agreement includes \$43,000,000 for the adoption incentive program as proposed by the House instead of \$55,928,000 as proposed by the Senate. The agreement also includes language that will allow funds under this program to be carried over for use in paying prior year bonuses.

SOCIAL SERVICES AND INCOME MAINTENANCE RESEARCH

The conference agreement includes \$37,666,000 for social services and income maintenance research instead of \$27,491,000 as proposed by both the House and the Senate. Of this total, the conferees intend that \$5,000,000 be transferred to the Census Bureau for continued data collection on the Survey of Income and Program Participation. The conferees also provide sufficient funding for the following:

- \$500,000 for the National Fatherhood Initiative
- \$500,000 for the Institute for Responsible Fatherhood
- \$1,000,000 for the State Information Technology Consortium
- \$175,000 for the Nation Center for Appropriate Technology's information technology clearinghouse

The conferees also include \$500,000 within Social Services and Income Maintenance Research to support adding LIHEAP related questions to the Residential Energy Consumption Survey (RECS) conducted by the Department of Energy and to the Census Bureau's March current population survey to assure that the low-income household component is included in the surveys, and the conferees urge the expansion of the RECS sample size to target LIHEAP recipients. The conferees have also included \$2,500,000 for grants to qualified private, non-profit intermediaries to demonstrate the provision of technical assistance to child care providers to improve the quality and supply of child care facilities in low income communities and to document the changes.

Community Services Block Grant

The conference agreement includes \$600,000,000 for the community services block grant instead of \$550,000,000 as proposed by the Senate and \$527,700,000 as proposed by the House. The conferees expect that all local entities that are in good standing in the community services block grant program shall receive an increase in funding for the next program year that is proportionate to the overall increase in the appropriation provided for the block grant.

The agreement includes language proposed by the Senate that requires the Department to establish certain procedures regarding the disposition of intangible property in the community economic development program under the Community Services Block Grant Act. The House bill contained no similar provision. The conferees also set aside \$5,500,000 within the community economic development program for the job creation demonstration authorized under the Family Support Act.

Within the funds provided for child abuse prevention programs, the agreement includes the following items:

- \$737,000 University of North Carolina, Greensboro, NC for Violence Abuse Prevention and Education for Deaf and Hard of Hearing Children and their Caretakers;
- \$1,382,000 Public Children Services Association of Ohio, Columbus, OH for child abuse prevention activities;
- \$46,000 New Directions Housing Corp., Louisville, KY for the Homeless Youth Development Program;
- \$230,000 Neighbor to Family, Des Plaines, IL for foster care training program;
- \$524,000 Robert A. Pascal Youth and Family Services Inc., Severna Park, Maryland for the Healthy Families program;
- \$1,773,000 Foster Parents Association, Spokane, WA for the Foster Family Support System;
- \$230,000 Dave Thomas Center for Adoption Law at Capital University Law School, Columbus OH for development of an adoption law online database;

\$75,000 Operation Breakthrough in Kansas City;

\$400,000 Parent-to-Parent of Winooski, Vermont;

\$200,000 Family Friends for respite services for families with disabled children;

\$900,000 Alaska Native Health Board Child abuse prevention program;

\$2,500,000 early childhood services- Alaska Seed program;

\$2,500,000 to continue the Healthy Families Home Visiting Program in Alaska;

\$550,000 Early Childhood Development Center at Texas Tech University;

\$900,000 Celeste Foundation for a pilot program to bring in-home professional services via video and audio to disruptive at-risk children in foster home placements;

\$600,000 Farm Resource Center in West Virginia to provide a mechanism of early intervention for rural families in crisis;

\$100,000 Phoenix House Domestic Violence Center in Council Bluffs, Iowa;

\$1,562,000 Indian Oaks Academy in Manteno, IL for a demonstration project serving children and adolescents who are victims of child abuse;

\$500,000 Strengthen Our Sisters in West Milford, New Jersey to expand services.

Within the funds provided for developmental disabilities, special projects \$200,000 is included for the Allegheny County Respite Care Coalition to provide respite services for parents with disabled children.

Within the funds provided for Native American programs, the agreement includes the following:

- \$700,000 for the Cook Inlet Tribal Council;
- \$300,000 for Kawerak, Inc.

- \$500,000 for the Alaska Federation of Natives to coordinate social service resources in native villages;

- \$100,000 for the South Dakota Native American Community Board to establish a Dakota language preservation program.

The conferees support the idea that a national adoption website could include all youngsters available for adoption and will increase the likelihood that children will find loving, stable homes. The conferees recognize that the National Adoption Center has been at the forefront of developing technology-based resources to facilitate adoptions and is uniquely situated to create a single, national adoption website. The conferees have included sufficient funds for the National Adoption Center to continue to develop and sustain a national adoption photo listing service on the Internet.

PAYMENTS TO STATES FOR FOSTER CARE AND ADOPTION ASSISTANCE

The conference agreement includes \$4,863,100,000 for payments to states for foster care and adoption assistance as proposed by the House instead of \$4,868,100,000 as proposed by the Senate.

ADMINISTRATION ON AGING

AGING SERVICES PROGRAMS

The conference agreement includes \$1,103,135,000 for aging services programs instead of \$925,805,000 as proposed by the House and \$954,619,000 as proposed by the Senate.

The conferees include \$125,000,000 to provide critically needed services for family caregivers under title III E and title VI C of the Older Americans Act as amended. The conferees intend that \$5,000,000 of these funds be dedicated for Native American caregivers. OFFICE OF THE SECRETARY

GENERAL DEPARTMENTAL MANAGEMENT

The conference agreement includes \$291,075,000 for general departmental management instead of \$262,631,000 as proposed by the House and \$260,117,000 as proposed by the Senate.

Within the total provided, \$50,000,000 is for minority HIV/AIDS activities that strengthen the medical treatment and HIV prevention capacity within communities of color disproportionately impacted by the HIV/AIDS epidemic, based on rates of new HIV infection and mortality from AIDS. These funds are available to entities that target a specific minority group or multi-ethnic minority populations that are heavily impacted by HIV/AIDS, and are to complement existing and planned HIV/AIDS activities in communities of color. The agreement also includes bill language that requires the Secretary to submit an operating plan prior to the obligation of these funds.

Within the total provided, \$2,000,000 is for the United States-Mexico Border Health Commission. The conferees request the Secretary to provide the House and Senate Committees on Appropriations with a complete history of the activities and expenses of the Commission. The conferees intend that this set-aside is only for continuation costs of ongoing projects.

The agreement provides \$49,019,000 for minority health instead of \$38,638,000 as proposed by the House and \$37,638,000 as proposed by the Senate. Within this total, \$9,700,000 is to address the capacity and infrastructure deficiencies within minority community based organizations in rural and historically underserved urban communities, of which \$6,600,000 is for the Technical Assistance/Capacity Development Grant Program to fund existing grants in rural and historically underserved urban communities hardest hit by HIV/AIDS; \$500,000 is for continuation funding to the Bi-Cultural and Bilingual Demonstration Program; and \$2,600,000 is to support existing grants through the Minority Health Coalition program, designed to promote early intervention HIV care in minority communities and to improve the health outcomes of people of color living with HIV disease. The agreement provides \$17,270,000 for the office of women's health instead of \$16,495,000 as proposed by the House and \$16,895,000 as proposed by the Senate. —\$500,000 to fund, through a contract with the National Academy of Sciences, an evaluation on children's health. This evaluation should assess the adequacy of currently available methods for assessing risks to children, identify scientific uncertainties associated with these methods, and develop a prioritized research agenda to reduce such uncertainties and improve risk assessment for children's health and safety;

It is understood that the screening of blood and blood products could be improved through the use of nucleic acid testing (NAT) to better detect known infectious diseases such as Human Immunodeficiency Virus (HIV-1) and Hepatitis C virus (HCV). The National Heart, Lung and Blood Institute in the National Institutes of Health has contracted with private companies to develop fully automated NAT tests for HIV-1 and HCV. In view of the NIH's financial commitment to NAT and the approval of NAT in other countries, the Public Health Service Blood Safety Committee, chaired by the Surgeon General/Assistant Secretary of Health, is urged to encourage the adoption of these screening tools for individual donor testing of blood and plasma.

The conferees request that the Chief Financial Officer report to the House and Senate Committees on Appropriations on the status of the HHS financial audit. The conferees also request that the Chief Information Officer report to the House and Senate Committees on Appropriations on the status of the HHS computer security and related infrastructure protection. Both reports are to be presented to the Committees no later than March 1, 2001.

The conferees are concerned about the global AIDS pandemic and are supportive of the Department's international AIDS and infectious diseases efforts, especially those of CDC and NIH. The Department should continue to identify opportunities for strengthened international collaboration with those countries heavily impacted by HIV/AIDS and other new and emerging infectious diseases, as well as those nations that are vulnerable to a rapid acceleration of new cases. The Department should also coordinate its efforts with those of the U.S. Agency for International Development (USAID) to ensure

that HHS activities are consistent with the USAID country strategic plan, and with those of multilateral organizations such as the World Health Organization and the Joint United Nations Programme on AIDS.

The conferees urge the Secretary to establish a program to provide information and education on autism to health professionals and the general public as authorized in the Children's Health Act of 2000.

The conferees direct the Secretary of Health and Human Services, in consultation with the Director of NIH, to conduct a review of the eligibility of the Bermuda Biological Station for Research (BBSR) to receive F&A recovery on NIH-supported research. The conferees are aware that the National Science Foundation, the National Oceanic and Atmospheric Administration, the National Aeronautics and Space Administration, and the Office of Naval Research provide BBSR with direct and indirect costs of research in peer-reviewed, competitive awards. The conferees request that the Secretary report to the House and Senate Appropriations Committees on the status of this review.

The conferees expect the Office of Population Statistics to better coordinate with the Health Resources and Services Administration regarding family planning activities.

The conferees support the HHS agreement to provide the Interdepartmental Task Force on AIDS with administrative support funding totalling \$250,000 from within funds available to the Department.

The conferees request the Secretary to provide a report to the House and Senate Appropriations Committees by May 1, 2001 on the Department's review and action steps taken in response to the Institute of Medicine's report, "No Time to Lose: Getting More from HIV Prevention." This should include a review of current investments in HIV prevention as they relate to the issues raised by the Institute of Medicine.

The conferees are aware that the Secretary is working to establish the Advisory Committee on Minority Health to assist the Secretary in improving the health of racial and ethnic minority groups, and encourage the Secretary to proceed expeditiously so that the Department's goals and program activities better reflect the health care needs of Hispanic Americans and other racial and ethnic minorities.

The conferees are concerned about the current situation regarding the availability and uneven distribution of influenza vaccine for the nation at a critical time for our most vulnerable populations, especially the elderly, sick and very young. The conferees understand the Department's role in developing influenza vaccine each year for distribution by private industry and commend the Department for its efforts to communicate with the American public as this unfortunate situation developed. The Secretary, through the National Vaccine Program Office, is directed to prepare a report to the Committees on Appropriations of the House and Senate by June 30, 2001 regarding its assessment of this year's distribution problems along with any recommendations for changes in the vaccine development and distribution process.

The conferees understand that the incidence of unreimbursed health care provided to foreign nationals in U.S. hospital emergency rooms is a problem costing taxpayers millions of dollars per year. The conferees direct the Secretary to conduct a study regarding the extent of the problem, including U.S. hospitals' experiences in obtaining reimbursement from foreign insurers, the identity of foreign insurance companies who do not cooperate with or reimburse U.S. health care providers, the amount of unreimbursed services provided to foreign nationals, along

with recommended solutions. This study shall be submitted to the Committees on Appropriations of the House and Senate no later than December 31, 2001.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$33,849,000 for the Office of Inspector General as proposed by the Senate instead of \$31,394,000 as proposed by the House. The conferees do not include language proposed by the House to limit the amount of funds available to the Inspector General in fiscal year 2001 under the Health Insurance Portability and Accountability Act of 1996 (HIPAA) to not more than \$130,000,000. The Senate bill contained no similar provision.

The agreement includes language not proposed by the House or the Senate to allow funds to be used to provide protective services to the Secretary and investigate non-payment of child support cases for which non-payment is a Federal offense under 18 U.S.C. 228.

POLICY RESEARCH

The conference agreement includes \$16,738,000 for policy research as proposed by both the House and the Senate.

The conferees include \$7,125,000 to continue the study of the outcomes of welfare reform and to assess the impacts of policy changes on the low-income population. The conferees recommend that this effort include the collection and use of state-specific surveys and state and federal administration data, including data which are newly becoming available from state surveys. These studies should focus on assessing the well-being of the low-income population, developing and reporting reliable state-by-state measures of family hardship and well-being and of the utilization of other support programs, and improving the capabilities and comparability of data collection efforts. These studies should continue to measure outcomes for a broad population of welfare recipients, former recipients, potential recipients, and other special populations affected by state TANF policies. The conferees further expect a report on these topics to be submitted to the House and Senate Appropriations Committees by May 1, 2001.

PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND

The conference agreement includes \$241,231,000 for the Public Health and Social Services Emergency Fund instead of \$254,640,000 as proposed by the House and \$214,600,000 as proposed by the Senate.

The amount provided includes \$181,131,000 for the Centers for Disease Control and Prevention for the following bioterrorism and related activities:

—\$2,000,000 to continue to discover, develop, and transition anti-infective agents to combat emerging diseases;

—\$18,040,000 for the second year of a collaborative research program on the anthrax vaccine;

—\$32,000,000 for a national health alert network; and

—\$129,950,000 for all other activities, except tobacco litigation. The conferees do not provide funding for this activity.

Regarding the anthrax study, the conferees understand that clinical studies will be greatly facilitated by the establishment of the Vaccine Healthcare Center Network, with the first site at Walter Reed Army Medical Center. This Network will facilitate data collection, standardization of the anthrax immunization, training and general data collection for this project.

The conferees recommend that CDC continue and expand the public health preparedness center program.

The remaining \$60,100,000 is for the Office of Emergency Preparedness for bioterrorism-related activities.

Within the total provided for CDC, the conferees include the following amounts for the following projects and activities in fiscal year 2001:

—\$500,000 for the National Bioterrorism Civilian Medical Response Center at Drexel University;

—\$750,000 for the National Rapid Response Bioterrorism Defense Center at the University of Texas Medical Branch, Galveston;

The conference agreement includes a provision proposed by the House limiting the use of the National Institutes of Health and the Substance Abuse and Mental Health Services Administration funds to pay the salary of an individual, through a grant or other extramural mechanism, at a rate in excess of Level I of the Executive Schedule instead of Level II as proposed by the Senate.

This authority was first provided in fiscal year 1996 with the understanding that the flexibility it provides can only be carried out when proper financial management controls and systems are in place. However, CDC has provided Congress with inaccurate spending data on a number of programs. While it is recognized that CDC is working to rectify problems that have been identified, for fiscal year 2001 the conferees are requiring a letter of reprogramming to the House and Senate Appropriations Committees and a written response from the Committees before any transfer of funds can be made to CDC.

The conferees reiterate that it is not the purpose of the transfer authority to provide funding for new policy proposals that can, and should, be included in subsequent budget proposals. Absent the need to respond to emergencies or unforeseen circumstances, this authority cannot be used simply to increase funding for programs, projects or activities because of disagreements over the funding level or the difficulty or inconvenience with operating levels set by the Congress.

The agreement further requires that future certification be determined based upon performance information from these individual Organ Procurement Organizations beginning on January 1, 2000. The House and Senate bills contained no similar provision.

CDC INTERNATIONAL AUTHORITY

The conference agreement includes a provision not proposed by either the House or the Senate to provide authority to support CDC carrying out international HIV/AIDS and other infectious and chronic disease activities abroad.

Subsection (a)(1) is intended to allow CDC to meet relatively short-term requirements for technical, management, and administrative personnel needs abroad through the award of personal services contracts in situations where other options, such as use of existing staff or hiring of new staff, or award of a service contract, other than one for personal services, are ineffective and impractical. During FY 2001, the conferees expect HHS to work with the Office of Management and Budget and other relevant agencies and Congressional committees as appropriate to consider effective longer-term solutions for addressing these types of needs.

Section (a)(2) is intended to ensure that the Department of State can provide necessary support services (including Administrative Support services agreements) to support CDC's international health programs, including the purchase of necessary laboratory equipment and the lease, repair and renovation of laboratory and other facilities.

The conferees recognize the positive work that the Public Broadcasting Service (PBS) has done in demonstrating and evaluating the use of different technologies to provide professional development opportunities in mathematics to elementary and secondary school teachers. While the Mathline program clearly has reached many teachers through various media, the conferees want to ensure that the greatest number of educators and students will benefit from this program. The conferees encourage PBS to continue to explore cost effective options for providing high quality professional development opportunities in core curricula to current and future teachers. In addition, the conferees encourage PBS to continue evaluating this program to measure the change in student academic achievement that results from teaching techniques learned through this program.

21st Century Learning Centers

The conference agreement includes \$845,614,000 for the 21st Century Learning Centers instead of \$600,000,000 as proposed by both the House and the Senate. Within the amounts provided for 21st Century Learning Centers, the conference agreement includes \$20,614,000 for the following:

The conference agreement includes bill language stating that the Secretary shall strongly encourage applications for 21st Century Community Learning Center grants to be submitted jointly by a local educational agency (or a consortium of local educational agencies) and a community-based organization, including public or private entities with demonstrated effectiveness in providing educational or related services to individuals in the community, such as child care providers, youth development organizations (such as YMCAs, the Boys and Girls Clubs, Big Brothers Big Sisters of America, Camp Fire Boys and Girls, and the Girl Scouts), museums, libraries, and Departments of Parks and Recreation. In including this language, the conferees intend that the Secretary shall strongly encourage joint applications in order to promote local collaboration and coordination of services. This is especially important where more than one application is received proposing to serve the same community. Additionally, the language requires all applications submitted to the Secretary to contain evidence that the project includes elements that are designed to assist students to meet or exceed State and local standards in core academic subjects, as appropriate to the needs of participating children. The Senate bill included language stating that a community-based organization that has experience in providing before- and after-school services shall be eligible to receive a grant on the same basis as a school or consortium, and stating that the

Secretary shall give priority to any applications jointly submitted by a community-based organization and a school or consortium. The House bill contained no similar language.

Small Schools

The conference agreement includes \$125,000,000 for the Small, Safe and Successful Schools initiative authorized under section 10105 of part X of the Elementary and Secondary Education Act. The House bill included funding for this initiative under the Fund for the Improvement of Education and the Senate bill proposed no funding.

The conferees agree that these funds shall be used only for activities related to the redesign of large high schools enrolling 1,000 or more students, and that this initiative shall continue to be jointly managed by the Office of Elementary and Secondary Education and the Office of Vocational and Adult Education.

EDUCATION FOR THE DISADVANTAGED

The conference agreement includes \$9,532,621,000 for Education for the Disadvantaged instead of \$8,986,800,000 as proposed by the Senate and \$8,816,986,000 as proposed by the House. The agreement includes advance funding for this account of \$6,758,300,000 instead of \$6,204,763,000 as proposed by the House and \$6,223,342,000 as proposed by the Senate.

For Grants to Local Educational Agencies (LEAs) the agreement provides \$8,601,721,000 instead of \$8,335,800,000 as provided by the Senate and \$7,941,397,000 as provided by the House. Of the funds made available for basic grants, \$5,394,300,000 becomes available on October 1, 2001 for the academic year 2001-2002.

The conference agreement includes \$7,237,721,000 for basic grants and \$1,364,000,000 for concentration grants. For fiscal year 2001, \$1,158,397,000 was advance funded in the fiscal year 2000 Departments of Labor, Health and Human Services and Education and Related Agencies Act (P.L. 105-227). The funding of \$1,364,000,000 for concentration grants is advanced for fiscal year 2002.

The conferees have included \$225,000,000 for school improvement activities under section 1116(c) of the Elementary and Secondary Education Act (ESEA) of 1965 to assist low performing schools under Title I of ESEA. School improvement activities are those measures designed to help turn around low performing schools. One hundred percent of the funds provided for these activities are to be allocated by states to school districts.

The conferees have also included a requirement that all school districts receiving funds under Part A of Title I shall provide students in low performing Title I schools with the option to transfer to another public school or public charter school in the school district, unless prohibited by state or local law or policy. Local educational agencies located within States that qualify for the small state minimum under Title I Part A are not required to comply with this requirement, but may comply if they so choose.

The conference agreement includes \$6,000,000 for capital expenses for private school children as proposed by the Senate. The House bill contained no funding for this program.

The conference agreement includes \$250,000,000 for the Even Start program as proposed by the House instead of \$185,000,000 as proposed by the Senate.

The conference agreement includes \$380,000,000 for the migrant education program as proposed by the Senate instead of \$354,689,000 as proposed by the House. The agreement also includes \$46,000,000 for neglected and delinquent youth instead of

\$50,000,000 as proposed by the Senate and \$42,000,000 as proposed by the House.

The conference agreement includes \$8,900,000 for evaluation of title I programs as proposed by the House. The Senate bill did not propose funding for this activity.

The conference agreement includes \$210,000,000 for the comprehensive school reform demonstration program instead of \$190,000,000 as proposed by the House. The Senate bill did not propose funding for this activity. The conferees direct the Department to follow the directives in the report accompanying the fiscal year 1998 bill (House Report 105-390) and in the conference report accompanying the fiscal year 1999 bill (House Report 105-825) in administering this program.

For the education for the disadvantaged program, the agreement includes a provision not contained in either House or Senate bills which allows each state and local educational agency (LEA) to receive the greater of either the amount it would receive at specified levels under the 100% hold harmless contained in the Senate bill or what it would receive using the statutory formulas. This comparison is intended to be used for allocating funds in fiscal year 2001 for both basic and concentration grants. The conferees expect the Department to use updated demographic and financial expenditure data in determining allocations when such data becomes available. The Senate bill included a 100% hold harmless for States and LEAs for both basic and concentration grants. The House bill contained no similar provision.

The conferees adopt language included in the Senate bill providing that the Department shall make 100% hold harmless awards to LEAs that were eligible for concentration grants in 2000, but are not eligible to receive grants in fiscal year 2001.

The conferees also adopt language included in the Senate bill providing that the Secretary of Education shall not take into account the 100% hold harmless provision in determining State allocations under any other program. The House bill did not contain these hold harmless provisions.

IMPACT AID

The conference agreement includes \$993,302,000 for the Impact Aid programs instead of \$985,000,000 as proposed by the House and \$1,075,000,000 as proposed by the Senate. For basic grants the agreement includes \$882,000,000; for payments for children with disabilities the conferees include \$50,000,000. The agreement also includes \$8,000,000 for facilities maintenance, \$12,802,000 for construction, and \$40,500,000 for payments for federal property. The conferees note that funds for basic grants and payments for heavily impacted districts are combined pursuant to the provisions of the Impact Aid Reauthorization Act of 2000.

Sufficient funding is provided within the account for construction for the following: \$1,981,000 for the North Chicago Community Unit School District 187; \$921,000 for the Wheatland School District, Wheatland, California; \$400,000 for Brockton Elementary Public School District in Montana; \$2,600,000 for Craig School District in Alaska; and \$900,000 for Cannon Ball Elementary School on Standing Rock Sioux Reservation in Cannon Ball, North Dakota.

The conferees also include the following language provisions: timely filing of an application by the Academy School District 20 in Colorado; restoration of payments to school districts affected by a section 8002 cap in 1998; and deeming eligibility for Kadoka School District in South Dakota. Neither the House nor Senate bills contained similar provisions.

SCHOOL IMPROVEMENT PROGRAMS

The conference agreement includes \$4,872,084,000 for School Improvement Pro-

grams instead of \$3,165,334,000 as proposed by the House and \$4,672,534,000 as proposed by the Senate. The agreement provides \$3,107,084,000 in fiscal year 2001 and \$1,765,000,000 in fiscal year 2002 funding for this account.

Eisenhower professional development state and local activities

For Eisenhower professional development state and local activities, the conferees provide \$485,000,000. The House bill provided \$1,750,000,000 for the Teacher Empowerment Act, subject to authorization, which included funds previously dedicated to the Eisenhower professional development programs. The Senate bill provided \$435,000,000.

The conference agreement includes bill language providing that a local educational agency shall use funds received in excess of the allocation received for the preceding fiscal year to improve teacher quality by reducing the percentage of teachers who are uncertified, teaching out of field, or who lack sufficient content knowledge to teach effectively in the areas they teach. These additional funds may be used for mentoring programs for new teachers, to provide opportunities for teachers to participate in multi-week institutes, such as those offered in the summer months that provide intensive professional development and to implement incentives to retain quality teachers who have a record of success in helping low-achieving students improve their academic success. State educational agencies and State agencies for higher education may also use additional funds provided in excess of the allocation received for the preceding fiscal year for multi-week institutes, such as those provided in the summer months, that provide intensive professional development in partnership with local educational agencies, and to provide grants to recruit, prepare, retain, and train school principals and superintendents, especially individuals serving or intending to serve in high-poverty, low-performing schools and districts.

The conference agreement also includes \$45,000,000 within the amount for Eisenhower state grants to be available to States to support efforts to meet the requirements under section 1111 of title I of the Elementary and Secondary Education Act of 1965 or the requirements for State eligibility for the Ed-Flex Partnership Act of 1999.

Eisenhower professional development national activities

The conference agreement provides \$44,000,000 for Eisenhower professional development national activities under this account.

Early Childhood Educators.—Within the funds available for Eisenhower professional development national activities, the conference agreement includes \$10,000,000 for training early childhood educators and caregivers in high-poverty communities to focus on professional development activities to further children's language and literacy skills to help prevent them from encountering reading difficulties once they enter school.

Teacher Recruitment Initiatives.—Within the funds available for Eisenhower professional development activities, the conference agreement also includes \$34,000,000 for new teacher recruitment initiatives. The conferees believe that an expanded effort to get more talented individuals from non-traditional routes into classrooms is warranted and is an efficient means to get highly skilled people into schools at a time when the demand for these skills is the greatest. For example, the conferees acknowledge that the Troops to Teachers and Teach for America programs have been innovative models

for recruiting qualified, nontraditional candidates into teaching and offer viable solutions to our nation's need to hire over 2.2 million teachers over the next ten years to replace veteran retiring teachers and to accommodate additional student enrollment.

Of the amount made available for teacher recruitment initiatives, \$3,000,000 shall be available to the Secretary for transfer to the Defense Activity for Non-Traditional Education Support of the Department of Defense (Troops-to-Teachers). The remaining \$31,000,000 available for teacher recruitment initiatives shall be available for grants as described in the prior paragraph for local educational agencies, State educational agencies, educational service agencies, or nonprofit agencies and organizations, including organizations with expertise in teacher recruitment, or partnerships comprised of these entities to recruit, prepare, place and support mid-career professionals from diverse fields who possess strong subject matter skills to become teachers, particularly in high-need fields such as mathematics, science, foreign languages, bilingual education, reading, and special education; and to attract, recruit, screen, select, train, place and provide financial incentives to recent college graduates with outstanding academic records and a baccalaureate in a field other than education to become fully qualified teachers through nontraditional routes.

Innovative education program strategies

For innovative education program strategies, title VI of the Elementary and Secondary Education Act of 1965, the conference agreement includes \$385,000,000 instead of \$3,100,000,000 as proposed by the Senate and \$365,750,000 as proposed by the House.

The conferees support the use of funds appropriated under section 6301(b) to provide single-sex school or classroom programs provided that the recipient "complies with applicable law," a phrase intended to incorporate all relevant Supreme Court opinions, including *U.S. v. Virginia*, 116 S. Ct. 2264 (1996), as proposed by the Senate. The House bill contained no similar provision. The conferees intend that this provision does not require local educational agencies to use title VI funds only for gender equity activities.

Class size

The conference agreement includes \$1,623,000,000 to continue the initiative to reduce class size that was begun in fiscal year 1999. The House bill provided \$1,750,000,000 for the Teacher Empowerment Act, subject to authorization. The Senate bill provided \$3,100,000,000 for activities to improve teacher quality, reduce class size, and renovate school facilities and to carry out activities under title VI of the Elementary and Secondary Education Act of 1965.

The conference agreement provides that the allocation of funds under section 306 to the States shall be based on the proportional share that each State received from the fiscal year 1999 appropriation for class size reduction. States will continue to allocate their grant funds among local educational agencies based on a formula that reflects both their relative numbers of children in low-income families and their school enrollments.

Local educational agencies would use funds for recruiting, hiring and training fully qualified regular and special education teachers who are certified within the States, have a baccalaureate degree and demonstrate subject matter knowledge in their content areas. Twenty five percent of these funds may be used by local educational agencies to test new teachers for academic content knowledge, to meet State certification requirements, or to provide professional development for existing teachers. In addition,

local educational agencies may use these funds for carrying out activities authorized under section 2210 of the Elementary and Secondary Education Act of 1965 (the Eisenhower Professional Development program); mentoring programs for new teachers; providing opportunities for teachers to attend multi-week institutes, such as those provided in the summer months, that provide intensive professional development in partnership with local educational agencies; and carrying out initiatives to promote the retention of highly qualified teachers who have a record of success in helping low-achieving students improve their academic success. Such activities shall have the goal of ensuring that all instructional staff are fully qualified.

A local educational agency that has already reduced class size in the early grades may use its funds to make further reductions in grades kindergarten through 3 or other grades, or carry out activities to improve teacher quality. A local educational agency in which 10 percent or more of its elementary teachers have not met applicable State and local certification requirements (including certification through State or local alternative routes), or if such requirements have been waived, may use 100 percent of funds under this program for the purpose of helping those teachers become certified or to help teachers who lack sufficient content knowledge to teach effectively in the areas they teach to obtain that knowledge. A local educational agency must notify the State educational agency of the percentage of funds it will use for these purposes.

A local educational agency that receives an award under this section that is less than the starting salary for a new teacher may use these funds to help pay the salary of a teacher or pay for professional development activities to ensure that all the instructional staff are fully qualified.

To improve accountability, the conference agreement maintains language included as part of last year's appropriations law requiring that each State and local educational agency receiving funds publicly report to parents on their progress in reducing class size and in increasing the percentage of classes in core academic areas taught by fully qualified teachers, and on the impact that such activities have had on increasing student academic achievement. Parents, upon request, will also have the right to know the professional qualifications of their children's teachers.

The conference agreement requires the Secretary of Education to inform local educational agencies of the additional flexibility provided to local educational agencies in which more than 10 percent of their teachers are not fully qualified to spend all of these funds on professional development activities. The conferees also intend that the Secretary notify local educational agencies of the flexibility provisions already incorporated into the class size reduction initiative, including the ability of local educational agencies to use up to 25 percent of local educational agency allocations on professional development activities; to spend funds on professional development for existing teachers if the local educational agency receives an award that is less than the starting salary for a new fully qualified teacher; and to spend funds to reduce class sizes in other grades or to improve teacher quality if the local educational agency has already reduced class sizes in the early grades to 18 or fewer children.

School renovation

The conference agreement includes \$1,200,000,000 for grants to local educational agencies for emergency school renovation

and repair activities; activities under part B of the Individuals with Disabilities Education Act (IDEA); and technology activities. The House bill provided no funding for this activity. The Senate bill provided \$3,100,000,000 for activities to improve teacher quality, reduce class size, renovate school facilities and to carry out activities under title VI of the Elementary and Secondary Education Act of 1965.

The conference agreement provides \$75,000,000 of the \$1,200,000,000 for formula grants to local educational agencies with at least 50 percent of their student population living on Native American or Native Alaskan lands. These funds may be used for school renovations and repairs, as well as new construction activities, which may include construction of new facilities for specialized programs such as vocational-technical education and the installation of plumbing, sewage and electrical systems. For some of the schools in these local educational agencies, new construction may represent a more prudent use of resources than the repair or renovation of existing structures.

The conference agreement provides \$3,250,000 of the \$1,200,000,000 for grants to local educational agencies in outlying areas for the renovation and repair of high-need schools.

The conference agreement provides \$25,000,000 for a new Charter Schools Facilities Financing Demonstration Program authorized as subpart 2 of part C of title X of the Elementary and Secondary Education Act (ESEA). Charter schools are break-the-mold public schools that are free of bureaucratic red tape, and accountable for academic results. Many of these innovative schools receive no assistance from their states for capital financing expenses, or at best, only a modest amount of assistance for capital expenses. Furthermore, in most states, charter schools do not have bonding authority or a tax base for capital financing.

The Charter School Facilities Financing Demonstration Program would establish a credit enhancement demonstration program for the acquisition, renovation, or construction of public charter schools. Non-profit private entities (including those that benefit Native Alaskans), public entities, or consortia of the two entities would compete for one-time grants to be used to establish reserve funds to leverage private capital. For example, the reserve funds could be used for activities such as guaranteeing bonds, notes, or leases; encouraging private lending; or facilitating the issuance of bonds. The conferees intend that the Secretary of Education widely disseminate information gleaned from these demonstration efforts with a view toward these demonstrations serving as models for replication in states with charter schools.

The conference agreement provides that the remaining funds (\$1,096,750,000) would be distributed to State educational agencies based on the title I, part A allocations under the Elementary and Secondary Education Act, with a small state minimum of one half of one percent. After allowing for not more than one percent set aside at the state level for administrative expenses, the State educational agency or other entity with jurisdiction over school facilities financing, as the case may be, would distribute 75 percent of the state's funds to local educational agencies through competitive grants for emergency school repair and renovation activities.

The state educational agency or other responsible entity would ensure, through a competitive grant process, that high poverty local educational agencies receive, in the aggregate, shares of the state allocation of Federal emergency repair and renovation

funds that are proportionate to their share of the state allocation of title I, part A funds. For the purposes of this program high poverty school districts are considered to be those with 30 percent or greater child poverty or 10,000 or greater poor children. The state educational agency or entity would also ensure that rural local educational agencies receive, in the aggregate, shares of the state allocation of Federal emergency repair and renovation funds that are proportionate to their share of title I, part A funds. Each state shall determine which local educational agencies within the state qualify as rural for the purposes of this program.

Those local educational agencies eligible to compete for an emergency repair and renovation grant either because of their high poverty status or their rural status, but who do not actually receive a grant, may be considered for a grant from the remaining funds for repair and renovation activities. Additionally, local educational agencies not eligible to receive a grant because of their lack of high poverty or rural status may be considered for a grant from the remaining repair and renovation funds.

These funds may be used by local educational agencies to meet the requirements of federal mandates such as the Americans with Disabilities Act, Section 504 of the Rehabilitation Act, and asbestos abatement requirements. Funds may also be used for the renovation, acquisition, and repair of charter schools and for emergency renovations or repairs to public school facilities to ensure the health and safety of students and staff (repairing, replacing, or installing roofs, electrical wiring, plumbing systems, or sewage systems; repairing, replacing, or installing heating, ventilation, or air conditioning systems, including insulation; and bringing schools into compliance with fire and safety codes).

The conference agreement clarifies that public charter schools that are considered to be a local educational agency under state law are eligible to compete for renovation and repair funds from the state in the same manner as local educational agencies. In addition, public charter schools that are not considered to be a local educational agency are eligible to receive assistance, in the same manner as a public school, from a local educational agency that is awarded a grant under this section.

The conference agreement provides for the equitable participation of non-profit, private elementary and secondary schools in repair and renovation activities. The eligible non-profit, private elementary and secondary schools would be limited to those schools with a child poverty rate of 40 percent or greater. Private school participation, in general, would be controlled by section 6402 of the Elementary and Secondary Education Act (ESEA), which provides for the equitable participation of children enrolled in non-profit private elementary and secondary schools in the title VI block grant program of ESEA. This provision would allow these schools to receive the following services: (1) modifications of private school facilities in order to meet the standards under the Americans with Disabilities Act; (2) modifications of private school facilities to meet the standards under Section 504 of the Rehabilitation Act; and (3) asbestos abatement or removal from such school facilities.

The conference agreement includes a prohibition on using federal emergency repair and renovation funds to supplant state and local funds available for repair and renovation. However, federal funds used for compliance with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act would not be subject to a supplement, not supplant requirement. While schools are

required to make facilities modifications to ensure accessibility and should have already made these modifications, it is most important that these modifications be made. Minimizing the restrictions placed upon federal funds for these purposes can help ensure that school buildings become accessible to disabled individuals.

The conference agreement also provides for flexibility in the use of funds by local educational agencies. State educational agencies would distribute 25 percent of the funds they receive to local educational agencies through a competitive grant process for activities under part B of IDEA, technology activities, or both IDEA and technology activities. State educational agencies would base the grant awards for IDEA activities upon the need of a local educational agency for additional funds due to substantially high costs associated with serving a child with a disability; the costs of special education and related services, including transportation as needed to assist a child with a disability to benefit from special education; the costs of assistive technology devices and services, and the costs associated with helping children with disabilities progress toward state performance goals and indicators. State educational agencies would base the technology grant awards upon the need of a local educational agency for additional funds for technology activities carried out in connection with school repair and renovation, including wiring; acquiring hardware and software; acquiring connectivity linkages and resources; and acquiring microwave, fiber optics, cable, and satellite transmission equipment.

Under the conference agreement, local educational agencies choose whether to apply for an IDEA grant, a technology grant, or both categories of grants. Local educational agencies that receive competitive grants for activities authorized under part B of IDEA would be required to use the grant funds in compliance with the provisions of that part. This requirement includes providing for the participation of private school children eligible for IDEA services. Technology activities would be for technology activities carried out in connection with school repair and renovation and include wiring; acquiring hardware and software; acquiring connectivity linkages and resources; and acquiring microwave, fiber optics, cable, and satellite transmission equipment.

The conference agreement includes \$89,400,000 for Gallaudet University as proposed by the House instead of \$87,650,000 as proposed by the Senate.

VOCATIONAL AND ADULT EDUCATION

The conference agreement includes \$1,825,600,000 for Vocational and Adult Education instead of \$1,718,600,000 as proposed by the House and \$1,726,600,000 as proposed by the Senate. The agreement provides \$1,034,600,000 in fiscal year 2001 and

\$791,000,000 in fiscal year 2002 funding for this account.

The agreement also includes \$22,000,000 for State Grants for Incarcerated Youth as proposed by the Senate. The House did not provide funding for these activities.

The conferees encourage the Department to give full and fair consideration to proposals from county probation departments collaborating with community-based organizations established to address the educational and employment needs of ex-offenders.

The conference agreement includes \$540,000,000 for adult education state grants instead of \$470,000,000 proposed by both the House and the Senate. Within this amount, \$70,000,000 is to be set aside for integrated English literacy and civics education services to new immigrants. Sixty-five percent of these funds will be allocated on the basis of a state's absolute need for services and thirty-five percent will be allocated on the basis of a state's recent growth in need for services. Each state is guaranteed a minimum grant of \$60,000. For the purposes of allocating funds to States for these services, the conferees intend that the Department of Education use the most current data available from the Immigration and Naturalization Service of the Department of Justice to determine the number of immigrants admitted for legal permanent residence for each fiscal year. The House bill provided \$25,500,000 for civics education services to new immigrants. The Senate bill contained no similar provision.

STUDENT FINANCIAL ASSISTANCE

The conference agreement includes \$10,674,000,000 for Student Financial Assistance instead of \$10,150,000,000 as proposed by the House and \$10,639,000,000 as proposed by the Senate. The conference agreement also includes \$1,000,000 for the loan forgiveness for child care providers program, instead of \$10,000,000 provided in the Senate bill. The House bill did not include any funding for this program. The conferees are aware of the significant need for and benefits of high quality child care services, and for that reason, have included start up funding for this program.

Limited funding has been provided in fiscal year 2001 solely due to the fact that few individuals will meet the eligibility requirements. The conferees expect the Secretary to be prepared to discuss the estimated number of eligible borrowers and amounts eligible to be forgiven at the fiscal year 2002 appropriations hearings to help make certain that sufficient funding is available for this program. In addition, the conferees direct the Department to ensure that information about the availability and benefits of this program is provided to all potentially eligible borrowers.

The conferees encourage the Department of Education, on all existing and future web sites and publications where higher education financial aid information is provided, to fairly and accurately provide information with respect to the availability of loans through both the Federal Family Education Loan (FFEL) program and the Federal Direct Loan Program.

The conferees support continuing funding for work colleges, authorized in section 448 of the Higher Education Act of 1965. These funds help support comprehensive work-service-learning programs around the Nation. Of the funds provided, the conference agreement includes \$4,000,000 to continue and expand the work colleges program.

The conferees are aware of concerns in the higher education community about the so-called "12-hour rule" and its unsuitability to address the needs of institutions of higher education throughout the nation that serve non-traditional students engaged in lifelong learning. The conferees are concerned about the potential for enormous paperwork burdens being placed on institutions of higher education in their attempts to comply with the 12-hour rule. The conferees understand that the Department of Education has agreed to meet with the higher education community about this issue. The conferees strongly encourage the Department to include all interested parties in this discussion, including those involved in efforts to assure the integrity of Federal student financial aid programs. The Department is requested to report the results of the discussions and any anticipated action on the part of the Department with respect to the 12-hour rule to the relevant Congressional committees by March 31, 2001. By October 1, 2001, the Department is to make recommendations to the relevant congressional committees regarding the most appropriate means to maintain the integrity of Federal student assistance programs without creating unnecessary paperwork for institutions of higher education.

For International Education, the conference agreement includes \$10,000,000 as proposed by the Senate, instead of \$7,000,000 as proposed by the House. The conferees support strengthening and expanding international education exchange programs to more students and teachers, expanding the early elementary school program begun last year in Bosnia, and pairing more American states with countries in the former Soviet Union and Central and Eastern Europe. Within the total, \$1,200,000 is included for the civic education program in Northern Ireland and the Republic of Ireland and efforts in emerging democracies in developing countries.

The conferees recognize the efforts of Strategies to Accelerate Reading Success (STARS) in Las Vegas, NV where students in low performing schools have shown marked improvements in their reading and listening comprehension skills. The conferees are also aware of the Great Films Project Co., Inc. of New York and their ability to produce a documentary that will provide an objective assessment of the impact of Federal education programs on the education of our Nation's youth.

The conferees encourage the Secretary to consider funding a study by the National Research Council of the National Academy of Sciences which provides a balanced evaluation of the consequences of high stakes testing, using data from a representative sample of states and local educational agencies. The evaluation may examine the consequences for students in general, minority students and students with limited English proficiency related to academic achievement, dropout and retention rates, quality of instruction, and the extent to which parents are informed about assessment results and consequences.

DEPARTMENTAL MANAGEMENT

The conference agreement includes \$525,684,000 for Departmental Management instead of \$488,134,000 as proposed by the House and \$504,551,000 as proposed by the Senate. Within this amount, the agreement provides \$76,000,000 for the Office of Civil Rights instead of \$71,200,000 as proposed by the House and \$73,224,000 as proposed by the Senate. The agreement also includes \$36,500,000 for the Office of Inspector General instead of \$34,000,000 as proposed by the House and \$35,456,000 as proposed by the Senate. The agreement includes \$510,000 to con-

tinue the Inspector General audit of the Department's Student Financial Assistance financial statements.

The conferees are supportive of the HEATH Clearinghouse which provides technical assistance and support services to disabled students and institutions of higher education. In the last five years, the number of requests for information increased from 30,000 per year to more than 75,000 per year. The conferees encourage the Secretary to continue to support the clearinghouse.

GENERAL PROVISIONS

TRANSFER AUTHORITY

The conference agreement includes language to provide general transfer authority for the Departments and agencies in this bill except for the Department of Education (ED). This authority was first provided in fiscal year 1996 with the understanding that the flexibility it provides can only be carried out when proper financial management controls and systems are in place. ED did not receive an unqualified opinion on its financial statements for either fiscal year 1998 or 1999. The conferees recognize that ED is working to rectify problems that have been identified, but for fiscal year 2001 the conferees require a letter of reprogramming to the House and Senate Appropriation Committees and a written response from the Committees before any transfer of funds can be made.

The conferees reiterate that it is not the purpose of the transfer authority to provide funding for new policy proposals that can, and should, be included in subsequent budget proposals. Absent the need to respond to emergencies or unforeseen circumstances, this authority cannot be used simply to increase funding for programs, projects or activities because of disagreements over the funding level or the difficulty or inconvenience with operating levels set by the Congress.

The conference agreement includes an amendment to Part A of title IV of the Higher Education Act of 1965 which allows grantees receiving funding under the Student Support Services program within TRIO to use part of these funds for direct grant aid to needy students. A grant provided under this provision may not exceed the maximum appropriated Pell Grant, or be less than the minimum appropriated Pell Grant, for the current academic year. Grantees using funds for this purpose are required to match at least 33 percent of the funds used for grant aid in cash from non-federal sources and may not use more than 20 percent of their grant amount for direct grant aid purposes.

STUDENT LOANS INTEREST RATE

The conference agreement includes a provision that replaces the interest rate formula for certain Parent Loans to Students and Supplemental Loans for Students which used the rates established by the auction of 52-week Treasury bills for setting new interest rates each July 1st. Interest rates for these loans will now be based on a new formula which uses the weekly average of the one year constant maturity Treasury yield, as published by the Board of Governors of the Federal Reserve System, for the last calendar week ending on or before June 26th preceding the July 1st effective date for interest rate changes.

One-third of the increases provided for the FGP, SCP, and RSVP programs shall be used to fund Programs of National Significance expansion grants to allow existing FGP, RSVP and SCP programs to expand the number of volunteers serving in areas of critical need as identified by Congress in the Domestic Volunteer Service Act.

Sufficient funding has been included to provide a 2 percent increase for administrative costs realized by all current grantees in the FGP and SCP programs, and a 4 percent increase for administrative costs realized by all current grantees in the RSVP program. Funds remaining above these amounts should be used to begin new FGP, RSVP and SCP programs in geographic areas currently unserved. The conferees expect these projects to be awarded via a nationwide competition among potential community-based sponsors.

The Corporation for National and Community Service shall comply with the directive that use of funding increases in the Foster Grandparent Program, Retired and Senior Volunteer Program and VISTA not be restricted to America Reads activities. The conferees further direct that the Corporation shall not stipulate a minimum or maximum amount for PNS grant augmentations.

These funds are to be used to carry out evaluations and to provide recruitment, training, and technical assistance to local projects as described in the budget request. No new demonstration projects may be begun with these funds. None of the increases provided for FGP, SCP, or RSVP in fiscal year 2001 may be used for demonstration activities. The conferees further expect that all future demonstration activities will be funded through allocations made through Part E of the Domestic Volunteer Service Act.

LEGISLATIVE BRANCH APPROPRIATIONS

Following is explanatory language on H.R. 5657, as introduced on December 14, 2000.

The conferees on H.R. 4577 agree with the matter included in H.R. 5657 and enacted in this conference report by reference and the following description. This bill was developed through negotiations by conferees on the differences in H.R. 4516. References in the following description to the "conference agreement" mean the matter included in the introduced bill enacted by this conference report. References to the House bill mean the House passed version of H.R. 4516. References to the Senate bill or Senate amendment mean the Senate reported version of H.R. 4516.

LEGISLATIVE BRANCH APPROPRIATIONS

Many items in both House and Senate Legislative Branch Appropriations bills are identical and are included in the conference agreement without change. The conferees have endorsed statements or policy contained in the House and Senate reports ac-

companying the appropriations bills, unless amended or restated herein. The conferees have agreed to drop without prejudice the direction in the House report under the heading, Information Security, subsumed under "LEGISLATIVE BRANCH WIDE MATTERS". With respect to those items in the conference agreement that differ between House and Senate bills, the conferees have agreed to the following with the appropriate section numbers, punctuation, and other technical corrections:

TITLE I—CONGRESSIONAL OPERATIONS
SENATE

Appropriates \$506,797,300 for Senate operations, and includes, at the request of the managers on the part of the Senate, an amendment adding \$250,000, an amendment containing the traditional death gratuity upon the death of a Senator, and an amendment to Section 8. Inasmuch as this item relates solely to the Senate, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the managers on the part of the House, at the request of the managers on the part of the Senate, have receded to the Senate.

HOUSE OF REPRESENTATIVES

At the request of the managers on the part of the House, an enrollment error in the House bill has been corrected and an administrative provision has been added to provide funds for a special education need. Inasmuch as this item relates solely to the House, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the managers on the part of the Senate, at the request of the managers on the part of the House, have receded to the House.

JOINT ITEMS

JOINT COMMITTEE ON INAUGURAL CEREMONIES
OF 2001

SALARIES AND EXPENSES

Appropriates \$1,000,000 for the Joint Committee on Inaugural Ceremonies of 2001 as proposed by the Senate, amending two dates.

ADMINISTRATIVE PROVISION

The conferees have amended the administrative provision proposed by the House regarding assistance for the Capitol Police during the Inauguration in January 2001 and the 2001 joint session of Congress to receive the State of the Union message.

JOINT ECONOMIC COMMITTEE

Appropriates \$3,315,000 for the Joint Economic Committee as proposed by the Senate instead of \$3,072,000 as proposed by the House.

JOINT COMMITTEE ON TAXATION

Appropriates \$6,430,000 for the Joint Committee on Taxation instead of \$6,174,000 as proposed by the House and \$6,686,000 as proposed by the Senate. The conferees believe that this level of funding is sufficient for the Joint Committee on Taxation to complete its report on the overall state of the Federal tax system.

CAPITOL POLICE BOARD

CAPITOL POLICE

SALARIES

Appropriates \$97,142,000 for salaries of officers, members, and employees of the Capitol Police instead of \$92,769,000 as proposed by the House and \$102,700,000 as proposed by the Senate, of which \$47,053,000 is provided to the Sergeant at Arms of the House of Representatives and \$50,089,000 is provided to the Sergeant at Arms and Doorkeeper of the Senate. Of the amount provided, \$4,660,000 is for overtime.

The conferees have agreed this will fund 1,481 FTE's, the level proposed by the Senate. The Chief of Police is directed to secure the approval of the House and Senate Appropriations Committees before filling positions above the level of 1,402 FTE's. The conferees intend that sufficient resources be allocated to implement the "two officers per door" policy. The Police are directed to study the posting requirements of all posts and report to the House and Senate Appropriations Committees. Until such a study is presented, the police are authorized an FTE level of 1402.

GENERAL EXPENSES

Appropriates \$6,772,000 for general expenses of the Capitol Police instead of \$6,549,000 as proposed by the House and \$6,884,000 as proposed by the Senate. The funds provide \$103,000 for motorcycle replacement, and the conferees direct that the Capitol Police continue the program begun in FY 2000 to utilize American-made motorcycles, targeting the funds made available in this agreement towards smaller motorcycles. In addition, the conferees have not included reimbursement for telecommunications costs (\$235,000) and direct that these savings be applied to other programs. Items for installation and maintenance of physical security and information security measures shall not be less than the FY 2000 funded level.

ADMINISTRATIVE PROVISIONS

The conferees have included two administrative provisions proposed by the House relating to certifying officers and a chief administrative officer. The conferees have also added a provision adjusting the salary of the chief of the Capitol police.

Appropriates \$30,000 for statements of appropriations as proposed by the Senate instead of \$29,000 as proposed by the House and makes technical changes.

OFFICE OF COMPLIANCE

Appropriates \$1,820,000 for the Office of Compliance instead of \$1,816,000 as proposed by the House and \$2,066,000 as proposed by the Senate. The conferees note that Office of Compliance telephones frequently are not answered during normal business hours. As an agency providing service to employees and agencies of the Legislative branch, the Executive Director should ensure that calls to the Office of Compliance are answered during normal business hours. In addition, the conferees believe the Executive Director should examine the use of contract couriers to make deliveries to Congressional offices and should reduce costs for such deliveries by use of other means when appropriate.

CONGRESSIONAL BUDGET OFFICE

SALARIES AND EXPENSES

Establishes the limitation on funds for representation and reception expenses at \$3,000 as proposed by the House instead of \$2,500 as proposed by the Senate and appropriates \$28,493,000 for salaries and expenses of the Congressional Budget Office instead of \$27,403,000 as proposed by the House and \$27,113,000 as proposed by the Senate.

The conferees have included an administrative provision, as proposed by the Senate, authorizing the Congressional Budget Office to enter into multiple year contracts to the same extent as executive agencies.

ARCHITECT OF THE CAPITOL
CAPITOL BUILDINGS AND GROUNDS
CAPITOL BUILDINGS

Appropriates \$43,689,000 for salaries and expenses, Capitol buildings, Architect of the Capitol, instead of \$44,234,000 as proposed by the House and \$44,191,000 as proposed by the Senate. Of this amount, \$3,843,000 shall remain available until expended instead of \$4,280,000 as proposed by the House and \$4,255,000 as proposed by the Senate. With respect to object class and project differences between the House and Senate bills, the conferees have agreed to the following:

The conference agreement includes a provision authorizing the Architect of the Capitol to hire a project manager for the construction of the Capitol Visitors Center and establishing a ceiling on the level of pay for this position. The conferees direct the Architect to fill this position from among persons recruited from outside the agency. The language authorizing the position and funding for same will require inclusion in annual appropriations bills and will be withdrawn upon completion of the project.

The conferees have agreed to modify the Senate report language directing the Architect to create and fill a position for employee advocate. The conferees direct that the Architect fill the position of Employee Advocate on a one-year, temporary basis, using existing resources, at a level appropriate to the task. In the submission of the FY 2002 budget request, the Architect is directed to report on measures taken to fulfill directives in the Senate report in lieu of the quarterly reports outlined in the Senate report regarding this position. The House and Senate Committees on Appropriations will review the results of this temporary measure before considering a permanent solution.

The conferees are aware that the Architect of the Capitol employs a significant number of temporary workers (excluding intermittent workers) who do not receive the usual benefits available to permanent federal workers. The Architect is directed to provide a report within 90 days to the Senate Committees on Appropriations and Rules and Administration, and to the House Committees on Appropriations, Transportation and Infrastructure, and House Administration, both

majority and minority, detailing its use of temporary workers, the terms and conditions thereof, and the reasons therefor; the total number of such workers employed during each of the last five fiscal years; and a list and explanation of the benefits, if any, such workers receive by reason of their AOC employment. The report shall make recommendations for how to provide such workers access to federal benefits and a list of any alternatives that may exist to the use of temporary workers.

The conferees are concerned about a class-action suit against the Architect (*Harris et al. v. Architect of the Capitol*). The Architect is urged to make every effort to settle this lawsuit as expeditiously as possible, and to report to the House and Senate Committees on Appropriations within 45 days on the status of the case.

With respect to object class and project differences between the House and Senate bills, the conferees have agreed to the following:

In keeping with both the complete research and maximum practicable administrative independence of the Congressional Research Service, it is the conferees' intent that the Director of the Congressional Research Service shall be obligated to bring to the attention of the appropriate House and Senate Committees issues which directly impact the Congressional Research Service and its ability to serve the needs of Congress. The budgetary needs of CRS that may not be adequately addressed in the annual budget submission should be raised with the Appropriations Committees.

The conference agreement includes a heading and provision for transfer of balances for preceding fiscal years to the Government Printing Office revolving fund as proposed by the House and language proposed by the Senate to provide for printing and binding for the Architect of the Capitol and for preparing the semi-monthly and session indexes for the Congressional Record.

Rather than limiting funding for the Congressional Record Index and indexes to close out activities, as directed in the House report, the conferees agree that this activity should continue and that improvements in work processes should be pursued by taking advantage of the latest available technology. These activities and initiatives should be more closely integrated and coordinated with related GPO functions and should be pursued under the direction of the Public Printer or appropriate officials designated by the Public Printer.

ADMINISTRATIVE PROVISION

The conference agreement amends an administrative provision proposed by the House regarding a study of Congressional printing needs and authorization of appropriations beginning in fiscal year 2003 to limit its application to the Clerk of the House and the printing needs of the House of Representatives.

A fourth provision provides \$4,300,000 to the Library of Congress to develop high speed data transmission between the Library of Congress and educational facilities, libraries, or networks serving the National Digital Library pilot program. The Library is directed to investigate the most cost effective method of providing this capability and take the necessary steps to develop the capability within the resources available. Any remaining balance not required for the development of the high speed data transmission is available for support of the Library's digital futures initiative.

The conferees agree with language in the House report directing the Library to employ students at the Ft. Meade remote storage facility and with language in the Senate report directing the Library to devote all available resources to elimination of cataloging arrearage.

ACCOUNT

Without these additional funds, the Title I home improvement program, the condominium loan program, the FHA reverse mortgage program for senior citizens, and various multifamily housing insurance programs would have to be suspended. The additional appropriation would have been unnecessary if HUD had adhered to assumptions made by the Office of Management and Budget (OMB) in determining credit subsidy rates when the President's budget was submitted to Congress, a violation of budget conventions. In the future, HUD should refrain from similar actions.

3. For agencies, departments, or offices receiving appropriations in excess of \$20,000,000, a reprogramming shall be submitted if the amount to be shifted to or from any object class, budget activity, program line item, or program activity involved is in excess of \$500,000 or 10 percent, whichever is greater, of the object class, budget activity, program line item, or program activity;

4. For agencies, departments, or offices receiving appropriations less than \$20,000,000, a reprogramming shall be submitted if the amount to be shifted to or from any object class, budget activity, program line item, or program activity involved is in excess of \$50,000, or 10 percent, whichever is greater, of the object class, budget activity, program line item, or program activity;

5. For any action where the cumulative effect of below threshold reprogramming actions, or past reprogramming and/or transfer actions added to the request, would exceed the dollar threshold mentioned above, a reprogramming shall be submitted;

6. For any action which would result in a major change to the program or item which is different than that presented to and approved by either of the Committees, or the Congress, a reprogramming shall be submitted;

7. For any action where funds earmarked by either of the Committees for a specific ac-

tivity are proposed to be used for a different activity, a reprogramming shall be submitted; and,

8. For any action where funds earmarked by either of the Committees for a specific activity are in excess of the project or activity requirement, and are proposed to be used for a different activity, a reprogramming shall be submitted.

Additionally, each request shall include a declaration that, as of the date of the request, none of the funds included in the request have been obligated, and none will be obligated, until the Committees on Appropriations have approved the request.

TITLE I—DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES SALARIES AND EXPENSES

The conferees agree to provide \$156,315,000 instead of \$149,437,000 as proposed by the House and \$149,610,000 as proposed by the Senate. RECEPTION AND REPRESENTATION ALLOWANCES

The conferees are concerned to learn that, over the past several years, the Office of the Under Secretary of Enforcement has required the various Treasury law enforcement bureaus to transfer a portion of their reception and representation funds to the Office of the Under Secretary. Although there may be certain functions appropriate to the involvement of all the Treasury law enforcement bureaus, the conferees remind the Under Secretary that expenses for these events are accommodated within the amounts authorized for Departmental Offices reception and representation allowances. In the event that the Under Secretary believes that Departmental Offices representation allowances are insufficient to meet current needs, the Under Secretary should submit a justification for increases to this allowance to the Committees for its consideration. The conferees also direct the Under Secretary to submit for advance approval any requirement to use reception and representation allowance funds from any appropriation account other than Departmental Offices, Salaries and Expenses.

ALTERNATIVE FUELS

The conferees urge the Treasury Department to use ethanol, biodiesel, and other alternative fuels to the maximum extent practicable in meeting the Department's fuel needs.

The conferees are aware that the \$42,500,000 assumed to be available by the Administration in the Super Surplus to the Treasury Forfeiture Fund will not be available in fiscal year 2001. Activities proposed for funding through this account have been included in either Salaries and Expenses or Construction related accounts, as appropriate, for the individual law enforcement bureaus.

shortfall. The conferees fully concur with the language on this topic contained under Departmental Offices in the Senate Report accompanying S. 2900.

BUREAU OF ALCOHOL, TOBACCO AND FIREARMS SALARIES AND EXPENSES

Included in this amount is \$13,700,000 for the second year of funding of the fiscal year 2000 Southwest Border initiative; \$10,000,000 for security enhancements along the northern border; \$11,000,000 for vehicle replacement; \$3,700,000 for money laundering; \$9,500,000 for drug investigations; and an additional \$5,000,000 to combat forced child labor. Additionally, the conferees include \$500,000 for Customs' ongoing research on trade of agricultural commodities and products at a Northern Plains university with an agricultural economics program and support the use of \$2,500,000 for the acquisition of Passive Radar Detection Technology.

TARGETED RESOURCES FOR THE SOUTHWEST BORDER

The conferees provide \$13,700,000 to be combined with the \$11,300,000 in fiscal year 2000 Super Surplus of the Treasury Forfeiture Fund to hire new inspectors, agents, or acquire new detection technology for use along the Southwest border for a total of \$25,000,000. The House conferees do not concur with the Senate Report language on Targeted Resources for the Southwest Border.

PORTS OF ENTRY

The conferees have received numerous requests to establish, expand, or preserve Customs presence at various ports, as well as, to designate new ports of entry. Customs has made a commitment to put in place a staffing resource allocation model to permit a more transparent and consistent basis for making such decisions, but the delay in doing so has caused concern about the ability of Customs to fulfill its responsibilities. The conferees therefore direct the Treasury Department and Customs to complete this model and to report to the Committees on Appropriations not later than November 1, 2000 on its implementation. In relation to this, the conferees urge the Customs Service to give full consideration to the needs of the following areas for increases or improvements in Customs services: Fargo, North Dakota; Highgate Springs, Vermont; Charleston, South Carolina; Charleston, West Virginia; Honolulu, Hawaii; Great Falls, Sweetgrass-Coutts, and Missoula, Montana; Tri-Cities Regional Airport, Tennessee; Dulles International Airport, Virginia; Louisville International Airport, Kentucky; Miami International Airport, Florida; Pittsburgh, New Hampshire; San Antonio, Texas; and multiple port areas in Arizona, New Mexico, and Florida.

OPERATION, MAINTENANCE AND PROCUREMENT, AIR AND MARINE INTERDICTION PROGRAMS

The conferees agree to provide \$133,228,000 instead of \$125,778,000 as proposed by the

House and \$128,228,000 as proposed by the Senate. Included in this amount is \$5,000,000 for source zone deployment of P-3's; \$2,174,000 to maintain current levels; \$7,450,000 for flight safety and enhancements; and \$9,916,000 for costs associated with the delivery of new P-3's.

AUTOMATION MODERNIZATION

The conferees agree to provide \$258,400,000 instead of \$233,400,000 as proposed by the House and \$128,400,000 as proposed by the Senate. Included in this amount is \$5,400,000 for the International Trade Data System, as well as not less than \$130,000,000 to begin work on the Automated Commercial Environment (ACE).

BUREAU OF THE PUBLIC DEBT ADMINISTERING THE PUBLIC DEBT

The conferees agree to provide \$182,901,000 as proposed by the House and Senate. The conferees agree to include a provision as proposed by the Senate with respect to administrative costs associated with certain trust funds.

INTERNAL REVENUE SERVICE

PROCESSING, ASSISTANCE, AND MANAGEMENT

The conferees agree to provide \$3,567,001,000 instead of \$3,487,232,000 as proposed by the House and \$3,506,939,000 as proposed by the Senate. The conferees fully fund the President's request with respect to adjustments required to maintain current levels of service, organizational modernization, and operational contract support. The funding level also reflects an increase of \$60,000,000 above the fiscal year 2000 level as a result of an inter-appropriation transfer during fiscal year 2000. The conferees have not provided any funding for the Staffing Tax Administration for Balance and Equity (STABLE) initiative, a proposed fiscal year 2001 inter-appropriation transfer, or the electronic tax administration marketing initiative.

IRS DATA FOR ECONOMIC MODELING

The conferees are aware of the critical importance and usefulness of IRS data to economic modeling, such as the modeling used to project the economic impact of proposed Social Security legislation. The conferees direct IRS to continue working closely with the Bureau of the Census to ensure the appropriate availability of these data in a timely manner to groups such as the Congressional Budget Office (CBO) to facilitate the operation of CBO's long-term models of Social Security and Medicare. CBO requires records from the IRS' Statistics Of Income that are matched with survey data from the Bureau of the Census (involving the Current Population Survey and the Survey of Income and Program Participation) and records of the Social Security Administration with all record identifiers removed.

TAX LAW ENFORCEMENT

The conferees agree to provide \$3,382,402,000 instead of \$3,332,676,000 as proposed by the House and \$3,378,040,000 as proposed by the Senate. The conferees fully fund the President's request with respect to adjustments required to maintain current levels of service and operational contract support. The funding level also reflects a decrease of \$100,000,000 below the fiscal year 2000 level as a result of an inter-appropriation transfer during fiscal year 2000 and a decrease of \$666,000 for a transfer to the Treasury Inspector General for Tax Administration, as requested. The conferees have not provided any funding for the Staffing Tax Administration for Balance and Equity (STABLE) initiative or for the Counterterrorism Initiative, nor have they agreed to a proposed transfer of \$41,000,000 out of the account as an inter-appropriation transfer during fiscal year 2001.

INFORMATION SYSTEMS

The conferees agree to provide \$1,545,090,000 instead of \$1,488,090,000 as proposed by the House and \$1,505,090,000 as proposed by the Senate. The conferees fully fund the President's request with the exception of the Staffing Tax Administration for Balance and Equity (STABLE) initiative and \$3,000,000 for an inter-appropriation transfer proposed for fiscal year 2001.

Section 102. The conferees agree to continue a provision which requires the IRS to maintain a training program in taxpayers' rights, dealing courteously with taxpayers, and cross cultural relations.

Section 103. The conferees agree to continue a provision which requires the IRS to institute and enforce policies and practices that will safeguard the confidentiality of taxpayer information.

Section 104. The conferees agree to continue a provision proposed by the Senate with respect to the IRS 1-800 help line service.

The conferees agree to provide \$8,941,000 instead of \$5,021,000 as proposed by the House and \$4,283,000 as proposed by the Senate. Included in this amount is \$3,920,000 for security enhancements at the Vice President's residence.

Section 116. The conferees agree to continue a provision regarding the purchase of law enforcement vehicles.

Section 117. The conferees agree to continue a provision proposed by the House which prohibits the Department of the Treasury and the Bureau of Engraving and Printing from redesigning the \$1 Federal Reserve Note.

Section 118. The conferees agree to continue and make permanent a provision which authorizes Treasury law enforcement agencies to pay their protection officers premium pay in excess of the pay period limitation.

Section 119. The conferees agree to include a new provision that provides for transfer from and reimbursements to the Salaries and Expenses appropriation of the Financial Management Service for the purposes of debt collection.

Section 122. The conferees agree to include a new provision proposed by the House authorizing and directing the Bureau of Alcohol, Tobacco and Firearms to reimburse the subcontractor that provided services in 1993 and 1994 pursuant to Bureau of Alcohol, Tobacco and Firearms contract number TATF 93-3 out of fiscal year 2001 appropriations or prior year unobligated balances.

TITLE II—POSTAL SERVICE

The conferees agree to provide \$96,093,000 as proposed by the House instead of \$67,093,000 as proposed by the Senate. Of this amount, \$67,093,000 is provided as an advance appropriation for free and reduced rate mail and \$29,000,000 is provided for reimbursement to the Postal Service for prior year losses.

TITLE III—EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

WHITE HOUSE REPAIR AND RESTORATION

The conferees agree to provide \$968,000 instead of \$5,510,000 as proposed by the Senate and \$658,000 as proposed by the House. The conferees provide \$458,000 for the design and replacement of the existing concrete raceway containing voice and communication lines serving the East Wing and the Executive Residence instead of the full request of \$5,000,000. The conferees direct the Executive Residence to submit a completed design to the Committees on Appropriations, including an estimate of total construction costs associated with this project.

SPECIAL ASSISTANCE TO THE PRESIDENT AND OFFICIAL RESIDENCE OF THE VICE PRESIDENT

SALARIES AND EXPENSES

The conferees agree to provide \$3,673,000 as proposed by the Senate instead of \$3,664,000 as proposed by the House.

COUNCIL OF ECONOMIC ADVISORS

SALARIES AND EXPENSES

The conferees agree to provide \$4,110,000 as proposed by the Senate instead of \$3,997,000 as proposed by the House.

OFFICE OF POLICY DEVELOPMENT

SALARIES AND EXPENSES

The conferees agree to provide \$4,032,000 as proposed by the Senate instead of \$4,030,000 as proposed by the House.

NATIONAL SECURITY COUNCIL

SALARIES AND EXPENSES

The conferees agree to provide \$7,165,000 as proposed by the Senate instead of \$7,148,000 as proposed by the House.

OFFICE OF ADMINISTRATION

SALARIES AND EXPENSES

The conferees agree to provide \$43,737,000 as proposed by the Senate instead of \$41,185,000 as proposed by the House. The conferees agree to delete language proposed by the House to delay the effective date of section 638(h) of Public Law 106-58, regarding the establishment of a Chief Financial Officer within the Executive Office of the President.

OFFICE OF MANAGEMENT AND BUDGET

SALARIES AND EXPENSES

The conferees agree to provide \$68,786,000 instead of \$67,143,000 as proposed by the House and \$67,935,000 as proposed by the Senate. The conferees fully fund the President's request.

APPORTIONMENT FOR INTERNATIONAL FOOD ASSISTANCE PROGRAMS

The conferees do not concur with the House report language regarding apportionment for International Food Assistance Programs.

OFFICE OF NATIONAL DRUG CONTROL POLICY SALARIES AND EXPENSES

The conferees agree to provide \$24,759,000 as proposed by the House instead of \$24,312,000 as proposed by the Senate.

COUNTERDRUG TECHNOLOGY ASSESSMENT CENTER

The conferees agree to provide \$29,053,000 instead of \$29,750,000 as proposed by the House and \$29,052,000 as proposed by the Senate.

FEDERAL DRUG CONTROL PROGRAMS

HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM

The conferees agree to provide \$206,500,000 instead of \$217,000,000 as proposed by the House and \$196,000,000 as proposed by the Senate. The conferees fully fund the Administration's request, and include an additional \$14,500,000 to increase funding or expand existing HIDTAs, or to fund newly designated HIDTAs. The conferees provide that existing HIDTAs shall be funded at fiscal year 2000 levels unless the ONDCP Director submits to the Committees, and the Committees approve, justification for changes in those levels based on clearly articulated priorities for the HIDTA program, as well as published ONDCP performance measures of effectiveness (PMEs). Similarly, while the conferees provide additional funding that may be used for newly designated HIDTAs, they direct that no funds may be obligated for such purposes until similar justification is provided to the Committees for approval.

The ability to evaluate effectiveness of individual HIDTAs, and to match funding needs against budgets, depends on reliable and consistent methodology for performance measurement and management. This is particularly important given the key role HIDTAs play in bringing together many divergent counterdrug agencies and cross-

cutting programs—which also exacerbates the problem of isolating the impact of HIDTAs. The conferees anticipate that the completion of work by the HIDTA Performance Management Working Group will improve performance measurement methodology and data collection covering the three main target areas identified in 1999. These are: increasing compliance with HIDTA developmental standards; dismantling or disabling at least 5 percent of targeted drug trafficking organizations; and reducing specific types of violent crime. The conferees support ONDCP plans to validate and verify the HIDTA management, including the use of on-site reviews and external financial evaluations.

As ONDCP reviews candidates for new HIDTA funding, the conferees direct it to consider the following: Las Vegas, Nevada; Arkansas; Minnesota; North Carolina; and Northern Florida, which have requested designation; increases for Central Florida, Southwest Border (for New Mexico, South Texas, West Texas, and Arizona), New England, Gulf Coast, Oregon, Northwest (including southwest and eastern Washington), and Chicago HIDTAs; and full minimum funding for new HIDTAs in Central Valley, California, Hawaii, and Ohio. The conferees urge ONDCP to consider using funds provided above the budget request for designating new HIDTAs from areas which have already submitted requests.

SPECIAL FORFEITURE FUND

The conferees agree to provide \$233,600,000 instead of \$219,000,000 as proposed by the House and \$144,300,000 as proposed by the Senate. Of this amount, the conferees provide \$185,000,000 for the National Youth Anti-Drug Media Campaign; \$40,000,000 to carry out the Drug Free Communities Act; \$3,000,000 for the costs of space and operations of the counter drug intelligence executive secretariat (CDX); \$3,300,000 for anti-doping efforts of the United States Olympic Committee; \$1,300,000 to the Metro Intelligence Support and Technical Investigative Center (MISTIC); and \$1,000,000 for the National Drug Court Institute.

NATIONAL YOUTH ANTI-DRUG MEDIA CAMPAIGN

The conferees negate neither the House nor Senate Committee Report language regarding the youth media campaign. The conferees are concerned with ONDCP's use of pro bono credits under the match program for programming content, and note with interest the Statement of Pro-Bono Match Program and Guidelines that ONDCP posted on its website in July 2000. Consistent with those guidelines, the conferees direct that ONDCP not issue credits for ad time and/or space if already purchased with funds appropriated for the campaign. Furthermore, the conferees direct that ONDCP not issue any credits for programming content once a program is in syndication unless it has previously reported to the Committees on Appropriations reasons why such credit is necessary. Finally, the conferees underscore the language on page 11 of the guidelines that reads "ONDCP exercises its authority to review public service match materials for credit and valuation through its primary advertising contractor. No ONDCP contractor may make suggestions or requests about, or otherwise attempt to influence or modify the creative product of any media organization or representative for the purpose of qualifying for pro bono match credit." In keeping with this the conferees direct ONDCP to ensure that neither it nor its contractor will review programming content under consideration for pro bono credit under the match program until such programming is in its final form.

TITLE IV—INDEPENDENT AGENCIES
FEDERAL ELECTION COMMISSION

SALARIES AND EXPENSES

The conferees agree to provide \$40,500,000 instead of \$40,240,000 as proposed by the House and \$39,755,000 as proposed by the Senate.

GENERAL SERVICES ADMINISTRATION
FEDERAL BUILDINGS FUND

LIMITATIONS ON AVAILABILITY OF REVENUE

The conferees agree to provide \$5,971,509,000 in new obligational authority instead of \$5,272,370,000 as proposed by the House and \$5,502,333,000 as proposed by the Senate. The conferees directly appropriate \$464,154,000 into the Fund to cover a portion of the new obligational needs of the Fund.

AFRICAN BURIAL GROUND

The conferees recognize the efforts of GSA to memorialize the 17th and 18th century African Americans whose remains were discovered during the excavation for a new Federal building at Foley Square in lower Manhattan. Since 1992, significant work has been conducted on the memorialization but additional work is required prior to and including the reinterment of the remains. The conferees expect GSA to complete the project using funds made available from the Federal Buildings Fund or from the borrowing authority remaining for the buildings project at Foley Square.

CONSTRUCTION AND ACQUISITION

The conferees agree to provide \$472,176,000 instead of no funding as proposed by the House and \$3,000,000 as proposed by the Senate. These funds are provided for nine projects. The conferees direct GSA to provide a written report to the Committees on Appropriations with respect to how GSA plans to allocate these funds among the various projects prior to allocating the funds. Within the funds provided the conferees have included \$3,500,000 for the design and site acquisition of a combined law enforcement facility in Saint Petersburg, Florida.

The conferees also agree to provide \$276,400,000 as an advance appropriation, not available until October 1, 2001, for four courthouse construction projects.

REPAIRS AND ALTERATIONS

The conferees agree to provide \$671,193,000 as proposed by the Senate instead of \$490,592,000 as proposed by the House. This level fully funds the request with the following exceptions: no funds are provided for the chlorofluorocarbon program, the energy program is funded at \$5,000,000, and the glass fragment retention program is funded at \$5,000,000.

BUILDING OPERATIONS

The conferees agree to provide \$1,624,771,000 as proposed by the Senate instead of \$1,580,909,000 as proposed by the House. Within this limitation level, the conferees have included \$500,000 to conduct a site selection analysis for a replacement facility for the National Center for Environmental Prediction of the National Oceanic and Atmospheric Administration, currently located in Camp Springs, Maryland. The delineated area shall be in the Washington, D.C. Metropolitan area and include the consideration of appropriate educational institutions qualified to be project partners. A report on the findings of the study shall be provided to the conferees within 120 days of the enactment of this Act.

POLICY AND OPERATIONS

The conferees agree to provide \$123,920,000 instead of \$123,420,000 as proposed by the Senate and \$115,434,000 as proposed by the House. Increases above the enacted level include \$3,285,000 for pay costs to maintain current

levels, \$2,075,000 for protection and maintenance at the Lorton complex in Virginia, and \$8,000,000 for the critical infrastructure protection initiative. The conferees agree to provide up to \$500,000 for virtual archive storage and agree to provide \$190,000, from within available funds, for the Plains States Depopulation Symposium as proposed by the Senate. The conferees do not agree to the reduction of funding from the fiscal year 2000 level for the digital learning technology effort and direct that \$1,000,000 be used to continue a digital medical education project in connection with the Native American Digital Telehealth Project and Upper Great Plains Native American Telehealth Program and that \$1,000,000 be used to continue activities that will be the basis for the 21st Century Distributed Learning Environment in Education.

ALTERNATIVE FUELS

The conferees urge the General Services Administration to use ethanol, biodiesel, and other alternative fuels to the maximum extent practicable in meeting GSA's fuel needs.

EXPENSES, PRESIDENTIAL TRANSITION

The conferees agree to provide \$7,100,000, as proposed by the Senate instead of no appropriation as proposed by the House.

GENERAL SERVICES ADMINISTRATION—
GENERAL PROVISIONS

Section 401. The conferees agree to continue a provision that provides that accounts available to GSA shall be credited with certain funds received from government corporations.

Section 402. The conferees agree to continue a provision that provides that funds available to GSA shall be available for the hire of passenger motor vehicles.

(6) In enforcing regulations for the 2001 fisheries, the Secretary, upon recommendation of the North Pacific Council, may open critical habitat where needed, adjust seasonal catch levels, and take other measures as needed to ensure that harvest levels are sufficient to provide income from these fisheries for small boats and Alaskan on-shore processors that is no less than in 1999.

SEC. 323. FORT IRWIN NATIONAL TRAINING CENTER EXPANSION. (a) FINDINGS.—Congress makes the following findings:

(1) The National Training Center at Fort Irwin, California, is the only instrumented training area in the world suitable for live fire training of heavy brigade-sized military forces and thus provides the Army with essential training opportunities necessary to maintain and improve military readiness and promote national security.

(2) The National Training Center must be expanded to meet the critical need of the Army for additional training lands suitable for the maneuver of large numbers of military personnel and equipment, which is necessitated by advances in equipment, by doctrinal changes, and by Force XXI doctrinal experimentation requirements.

(3) The lands being considered for expansion of the National Training Center are home to the desert tortoise and other species that are protected under the Endangered Species Act of 1973, and the Secretary of Defense and the Secretary of the Interior, in developing a plan for expansion of the National Training Center, must provide for such expansion in a manner that complies with the Endangered Species Act of 1973, the National Environmental Policy Act of 1969, and other applicable laws.

(4) In order for the expansion of the National Training Center to be implemented on an expedited basis, the Secretaries should proceed without delay to define with specificity the key elements of the expansion plan, including obtaining early input regarding national security requirements, Endangered Species Act of 1973 compliance and mitigation, and National Environmental Policy Act of 1969 compliance.

(b) PURPOSE.—The purpose of this section is to expedite the expansion of the National Training Center at Fort Irwin, California, in a manner that is fully compliant with environmental laws.

(c) PREPARATION OF PROPOSED EXPANSION PLAN.—

(1) PREPARATION REQUIRED.—The Secretary of the Army and the Secretary of the Interior (in this section referred to as the "Secretaries") shall jointly prepare a proposed plan for the expansion of the National Training Center at Fort Irwin, California.

(2) SUBMISSION AND AVAILABILITY.—The plan required by paragraph (1) (in this section referred to as the "proposed expansion plan") shall be completed not later than 120 days after the date of the enactment of this Act. When completed, the Secretaries shall make the proposed expansion plan available to the public and shall publish in the Federal Register a "notice of availability" concerning the proposed expansion plan.

(d) KEY ELEMENTS OF PROPOSED EXPANSION PLAN.—

(1) JOINT REPORT.—Not later than 45 days after the date of the enactment of this Act, the Secretaries shall submit to Congress a joint report that identifies the key elements of the proposed expansion plan.

(2) LANDS WITHDRAWAL AND RESERVATION.—The proposed expansion plan shall include the withdrawal and reservation of an appropriate amount of public lands for—

(A) the conduct of combined arms military training at the National Training Center;

(B) the development and testing of military equipment at the National Training Center;

(C) other defense-related purposes; and
(D) conservation and research purposes.

(3) CONSERVATION MEASURES.—The proposed expansion plan shall also include a general description of conservation measures, anticipated to cost approximately \$75,000,000, that may be necessary and appropriate to protect and promote the conservation of the desert tortoise and other endangered or threatened species and their critical habitats in designated wildlife management areas in the West Mojave Desert. The conservation measures may include—

(A) the establishment of one or more research natural areas, which may include lands both within and outside the National Training Center;

(B) the acquisition of private and State lands within the wildlife management areas in the West Mojave Desert;

(C) the construction of barriers, fences, and other structures that would promote the conservation of endangered or threatened species and their critical habitats;

(D) the funding of research studies; and
(E) other conservation measures.

(d) PRELIMINARY REVIEW OF EXPANSION PLAN.—

(1) REVIEW REQUIRED.—Not later than 90 days after the date of the enactment of this Act, the Director of the United States Fish and Wildlife Service shall submit to the Secretaries a preliminary review of the proposed expansion plan (as developed as of that date). In the preliminary review, the Director shall identify, with as much specificity as possible, an approach for implementing the proposed expansion plan consistent with the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).

In implementing the program the Secretary shall—

(A) reduce the fishing capacity in the BSAI crab fisheries by permanently reducing the number of license limitation program crab licenses;

(B) permanently revoke all fishery licenses, fishery permits, area and species endorsements, and any other fishery privileges, for all fisheries subject to the jurisdiction of the United States, issued to a vessel or vessels (or to persons on the basis of their operation or ownership of that vessel or vessels) for which a BSAI crab fisheries reduction permit is surrendered and revoked under section 6011(b) of title 50, Code of Federal Regulations;

(C) ensure that the Secretary of Transportation is notified of each vessel for which a reduction permit is surrendered and revoked under the program, with a request that such Secretary permanently revoke the fishery endorsement of each such vessel and refuse permission to transfer any such vessel to a foreign flag under paragraph (5);

(D) ensure that vessels removed from the BSAI crab fisheries under the program are made permanently ineligible to participate in any fishery worldwide, and that the owners of such vessels contractually agree that such vessels will operate only under the United States flag or be scrapped as a reduction vessel pursuant to section 600.1011(c) of title 50, Code of Federal Regulations;

(E) ensure that vessels removed from the BSAI crab fisheries, the owners of such vessels, and the holders of fishery permits for such vessels forever relinquish any claim associated with such vessel, permits, and any catch history associated with such vessel or permits that could qualify such vessel, vessel owner, or permit holder for any present or future limited access system fishing permits in the United States fisheries based on such vessel, permits, or catch history;

(F) not include the purchase of Norton Sound red king crab or Norton Sound blue king crab endorsements in the program, though any such endorsements associated with a reduction permit or vessel made ineligible or scrapped under the program shall also be surrendered and revoked as if surrendered and revoked pursuant to section 600.1011(b) of title 50, Code of Federal Regulations;

(G) seek to obtain the maximum sustained reduction in fishing capacity at the least cost by establishing bidding procedures that—

(i) assign a bid score to each bid by dividing the price bid for each reduction permit by the total value of the crab landed in the most recent five-year period in each crab fishery from 1990 through 1999 under that permit, with the value for each year determined by multiplying the average price per pound published by the State of Alaska in each year for each crab fishery included in such reduction permit by the total pounds landed in each crab fishery under that permit in that year; and

(ii) use a reverse auction in which the lowest bid score ranks first, followed by each bid with the next lowest bid score, until the total bid amount of all bids equals a reduction cost that the next lowest bid would cause to exceed \$100,000,000;

(H) not waive or otherwise make inapplicable any requirements of the License Limitation Program applicable to such crab fisheries, in particular any requirements in sections 679.4(k) and (l) of title 50, Code of Federal Regulations;

(I) not waive or otherwise make inapplicable any catcher vessel sideboards implemented

under the American Fisheries Act (AFA), except that the North Pacific Fishery Management Council shall recommend to the Secretary and to the State of Alaska, not later than February 16, 2001, and the Secretary and the State of Alaska shall implement as appropriate, modifications to such sideboards to the extent necessary to permit AFA catcher vessels that remain in the crab fisheries to share proportionately in any increase in crab harvest opportunities that accrue to all remaining AFA and non-AFA catcher vessels if the fishing capacity reduction program required by this section is implemented;

(J) establish sub-amounts and repayment fees for each BSAI crab fishery prosecuted under a separate endorsement for repayment of the reduction loan, such that—

(i) a reduction loan sub-amount is established for each separate BSAI crab fishery (other than Norton Sound red king crab or Norton Sound blue king crab) by dividing the total value of the crab landed in that fishery under all reduction permits by the total value of all crab landed under such permits in the BSAI crab fisheries (determined using the same average prices and years used under subparagraph (G)(i) of this paragraph), and multiplying the reduction loan amount by the percentage expressed by such ratio; and

(ii) fish sellers who participate in the crab fishery under each endorsement repay the reduction loan sub-amount attributable to that fishery; and

(K) notwithstanding section 1111(b) of the Merchant Marine Act, 1936 (46 U.S.C. App. 1279f(b)(4)), establish a repayment period for the reduction loan of not less than 30 years.

(2)(A) Only persons to whom a non-interim BSAI crab license and an area/species endorsement have been issued (other than persons to whom only a license and an area/species endorsement for Norton Sound red king crab or Norton Sound blue king crab have been issued) for vessels that—

(i) qualify under the License Limitation Program criteria set forth in section 679.4 of title 50, Code of Federal Regulations, and

(ii) have made at least one landing of BSAI crab in either 1996, 1997, or prior to February 7 in 1998, may submit a bid in the fishing capacity reduction program established by this section.

(B) After the date of enactment of this section—

(i) no vessel 60 feet or greater in length overall may participate in any BSAI crab fishery (other than for Norton Sound red king crab or Norton Sound blue king crab) unless such vessel meets the requirements set forth in subparagraphs (A)(i) and (A)(ii) of this paragraph; and

(ii) no vessel between 33 and 60 feet in length overall may participate in any BSAI crab fishery (other than for Norton Sound red king crab or Norton Sound blue king crab) unless such vessel meets the requirements set forth in subparagraph (A)(i) of this paragraph. Nothing in this paragraph shall be construed to affect the requirements for participation in the fisheries for Norton Sound red king crab or Norton Sound blue king crab. The Secretary may, on a case by case basis and after notice and opportunity for public comment, waive the application of subparagraph (A)(ii) of this paragraph if the Secretary determines such waiver is necessary to implement one of the specific exemptions to the recent participation requirement that were recommended by the North Pacific Fishery Management Council in the record of its October, 1998 meeting.

(3) The fishing capacity reduction program required under this subsection shall be implemented under this subsection and sections 312(b)–(e) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1861a(b)–(e)). Section 312 and the regulations found in Subpart L of Part 600 of title 50, Code of Federal Regulations, shall apply only to the extent such section or regulations are not inconsistent with or made inapplicable by the specific

The program shall be deemed accepted under section 600.1004, and any time period specified in Subpart L that would prevent the Secretary from complying with the May 1, 2001 date required by this subsection shall be modified as appropriate to permit compliance with that date. The referendum required for the program under this subsection shall be a post-bidding referendum under section 600.1010 of title 50, Code of Federal Regulations.

(4)(A) The fishing capacity reduction program required under this subsection is authorized to be financed in equal parts through a reduction loan of \$50,000,000 under sections 1111 and 1112 of title XI of the Merchant Marine Act, 1936 (46 U.S.C. App. 1279f and 1279g) and \$50,000,000 which is authorized to be appropriated for the purposes of such program.

(B) Of the \$1,000,000 appropriated in section 120 of Division A of Public Law 105-277 for the cost of a direct loan in the Bering Sea and Aleutian Islands crab fisheries—

(i) \$500,000 shall be for the cost of guaranteeing the reduction loan required under subparagraph (A) of this paragraph in accordance with the requirements of the Federal Credit Reform Act; and

(ii) \$500,000 shall be available to the Secretary to pay for the cost of implementing the fishing capacity reduction program required by this subsection.

(C) The funds described in this subsection shall remain available, without fiscal year limitation, until expended. Any funds not used for the fishing capacity reduction program required by this subsection, whether due to a rejection by referendum or otherwise, shall be available on or after October 15, 2002, without fiscal year limitation, for assistance to fishermen or fishing communities.

(5)(A) The Secretary of Transportation shall, upon notification and request by the Secretary, for each vessel identified in such notification and request—

(i) permanently revoke any fishery endorsement issued to such vessel under section 12108 of title 46, United States Code; and

(ii) refuse to grant the approval required under section 9(c)(2) of the Shipping Act, 1916 (46 U.S.C. App. 808(c)(2)) for the placement of such vessel under foreign registry or the operation of such vessel under the authority of a foreign country.

(B) The Secretary shall, after notice and opportunity for public comment, adopt final regulations not later than May 1, 2001 to prohibit any vessel for which a reduction permit is surrendered and revoked under the fishing capacity reduction program required by this section from engaging in fishing activities on the high seas or under the jurisdiction of any foreign country while operating under the United States flag.

(6) The purpose of this subsection is to implement a fishing capacity reduction program for the BSAI crab fisheries that results in final action to permanently remove harvesting capacity from such fisheries prior to December 31, 2001. In implementing this subsection the Secretary is directed to use, to the extent practicable, information collected and maintained by the State of Alaska. Any requirements of the Paperwork Reduction Act, the Regulatory Flexibility Act, or any Executive Order that would, in the opinion of the Secretary, prevent the Secretary from meeting the deadlines set forth in this subsection shall not apply to the fishing capacity reduction program or the promulgation of regulations to implement such program required by this subsection. Nothing in this subsection shall be construed to prohibit the North Pacific Fishery Management Council from recommending, or

the Secretary from approving, changes to any Fishery Management Plan, License Limitation Program, or American Fisheries Act provisions affecting catcher vessel sideboards in accordance with applicable law: Provided, That except as specifically provided in this subsection, such Council may not recommend, and the Secretary may not approve, any action that would have the effect of increasing the number of vessels eligible to participate in the BSAI crab fisheries after March 1, 2001.

(2) The purpose of this subsection is to complete the orderly withdrawal of the National Oceanic and Atmospheric Administration from the civil administration of the Pribilof Islands, Alaska.

"(4) In providing assistance under this subsection the Secretary shall transfer any funds appropriated to carry out this section to the Secretary of the Interior, who shall obligate such funds through instruments and procedures that are equivalent to the instruments and procedures required to be used by the Bureau of Indian Affairs pursuant to title IV of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).

"(5) In any fiscal year for which less than all of the funds authorized under subsection (c)(1) are appropriated, such funds shall be distributed under this subsection on a pro rata basis among the entities referred to in subsection (c)(1) in the same proportions in which amounts are authorized by that subsection for grants to those entities.

"(b)(1) Subject to the availability of appropriations, the Secretary shall provide assistance to the State of Alaska for designing, locating, constructing, redeveloping, permitting, or certifying solid waste management facilities on the Pribilof Islands to be operated under permits issued to the City of St. George and the City of St. Paul, Alaska, by the State of Alaska under section 46.03.100 of the Alaska Statutes.

SEC. 146. (a) Congress makes the following findings:

(1) Total steel imports in 2000 will be over 2½ times higher than in 1991, continuing the alarming trend of sharply increasing steel imports over the past decade.

(2) Unprecedented levels of steel imports flooded the United States market in 1998 and 1999, causing a crisis in which thousands of steelworkers were laid off and 6 steel companies went bankrupt.

(3) The domestic steel industry still has not had an opportunity to recover from the 1998-1999 steel import crisis, and steel imports are again causing serious injury to United States steel producers and workers.

(4) Total steel imports through August 2000 are 17 percent higher than over the same period in 1999 and greater even than imports over the same period in 1998, a record year.

(5) Steel prices continue to be depressed, with hot-rolled steel prices 12 percent lower in August 2000 than in the first quarter of 1998, and average import customs values for all steel products more than 15 percent lower over the same period.

(6) The United States Government must maintain and fully enforce all existing relief against foreign unfair trade.

(7) The United States steel industry is a clean, highly efficient industry having modernized itself at great human and financial cost, shedding over 330,000 jobs and investing more than \$50,000,000,000 over the last 20 years.

(8) Capacity utilization in the United States steel industry has fallen sharply since the beginning of the year and the market capitalization and debt ratings of the major United States steel firms are at precarious levels.

(9) The Department of Commerce recently documented the underlying market-distorting practices and longstanding structural problems that plague the global steel trade with excess capacity and cause diversion of unfairly traded foreign steel to the United States.

(10) The President recognized that unfair trade played a significant role in the devastating import surge of steel and recognized the need to vigorously enforce the trade laws.

(b) Congress calls upon the President—

(1) to take all appropriate action within his power to provide relief from injury caused by steel imports; and

(2) to immediately request the United States International Trade Commission to commence an expedited investigation for positive adjustment under section 201 of the Trade Act of 1974 of such steel imports.

TITLE III—COLORADO UTE SETTLEMENT ACT AMENDMENTS OF 2000

SECTION 301. SHORT TITLE; FINDINGS; DEFINITIONS.

(a) **SHORT TITLE.**—This title may be cited as the “Colorado Ute Settlement Act Amendments of 2000”.

(b) **FINDINGS.**—Congress makes the following findings:

(1) In order to provide for a full and final settlement of the claims of the Colorado Ute Indian Tribes on the Animas and La Plata Rivers, the Tribes, the State of Colorado, and certain of the non-Indian parties to the Agreement have proposed certain modifications to the Colorado Ute Indian Water Rights Settlement Act of 1988 (Public Law 100-585; 102 Stat. 2973).

(2) The claims of the Colorado Ute Indian Tribes on all rivers in Colorado other than the Animas and La Plata Rivers have been settled in accordance with the provisions of the Colorado Ute Indian Water Rights Settlement Act of 1988 (Public Law 100-585; 102 Stat. 2973).

(3) The Indian and non-Indian communities of southwest Colorado and northwest New Mexico will be benefited by a settlement of the tribal claims on the Animas and La Plata Rivers that provides the Tribes with a firm water supply without taking water away from existing uses.

(4) The Agreement contemplated a specific timetable for the delivery of irrigation and municipal and industrial water and other benefits to the Tribes from the Animas-La Plata Project, which timetable has not been met. The provision of irrigation water can not presently be satisfied under the current implementation of the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.) and the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).

(5) In order to meet the requirements of the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), and in particular the various biological opinions issued by the Fish and Wildlife Service, the amendments made by this title are needed to provide for a significant reduction in the facilities and water supply contemplated under the Agreement.

(6) The substitute benefits provided to the Tribes under the amendments made by this title, including the waiver of capital costs and the provisions of funds for natural resource enhancement, result in a settlement that provides the Tribes with benefits that are equivalent to those that the Tribes would have received under the Colorado Ute Indian Water Rights Settlement Act of 1988 (Public Law 100-585; 102 Stat. 2973).

(7) The requirement that the Secretary of the Interior comply with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and other national environmental laws before implementing the proposed settlement will ensure that the satisfaction of the tribal water rights is accomplished in an environmentally responsible fashion.

(8) In considering the full range of alternatives for satisfying the water rights claims of the Southern Ute Indian Tribe and Ute Mountain Ute Indian Tribe, Congress has held numerous legislative hearings and deliberations, and reviewed the considerable record including the following documents:

(A) The Final EIS No. INT-FES-80-18, dated July 1, 1980.

(B) The Draft Supplement to the FES No. INT-DES-92-41, dated October 13, 1992.

(C) The Final Supplemental to the FES No. 96-23, dated April 26, 1996;

(D) The Draft Supplemental EIS, dated January 14, 2000.

(E) The Final Supplemental EIS, dated July 2000.

(F) The Record of Decision for the Settlement of the Colorado Ute Indian Waters, September 25, 2000.

(9) In the Record of Decision referred to in paragraph (8)(F), the Secretary determined that the preferred alternative could only proceed if Congress amended the Colorado Ute Indian Water Rights Settlement Act of 1988 (Public Law 100-585; 102 Stat. 2973) so as to satisfy the Tribal water rights claim through the construction of the features authorized by this title. The amendments to the Colorado Ute Indian Water Rights Settlement Act of 1988 set forth in this title will provide the Ute Tribes with substitute benefits equivalent to those that the Tribes would have received under the Colorado Ute Indian Water Rights Settlement Act of 1988, in a manner consistent with paragraph (8) and the Federal Government’s trust obligation.

(10) Based upon paragraph (8), it is the intent of Congress to enact legislation that implements the Record of Decision referred to in paragraph (8)(F).

(c) **DEFINITIONS.**—In this title:

(1) **AGREEMENT.**—The term “Agreement” has the meaning given that term in section 3(1) of the Colorado Ute Indian Water Rights Settlement Act of 1988 (Public Law 100-585; 102 Stat. 2973).

(2) **ANIMAS-LA PLATA PROJECT.**—The term “Animas-La Plata Project” has the meaning given that term in section 3(2) of the Colorado Ute Indian Water Rights Settlement Act of 1988 (Public Law 100-585; 102 Stat. 2973).

(3) **DOLORES PROJECT.**—The term “Dolores Project” has the meaning given that term in section 3(3) of the Colorado Ute Indian Water Rights Settlement Act of 1988 (Public Law 100-585; 102 Stat. 2974).

(4) **TRIBE; TRIBES.**—The term “Tribe” or “Tribes” has the meaning given that term in section 3(6) of the Colorado Ute Indian Water Rights Settlement Act of 1988 (Public Law 100-585; 102 Stat. 2974).

SEC. 302. AMENDMENTS TO SECTION 6 OF THE COLORADO UTE INDIAN WATER RIGHTS SETTLEMENT ACT OF 1988.

Subsection (a) of section 6 of the Colorado Ute Indian Water Rights Settlement Act of 1988 (Public Law 100-585; 102 Stat. 2975) is amended to read as follows:

“(a) **RESERVOIR; MUNICIPAL AND INDUSTRIAL WATER.**—

“(1) **FACILITIES.**—

“(A) **IN GENERAL.**—After the date of enactment of this subsection, but prior to January 1, 2005, or the date established in the Amended Final Decree described in section 18(c), the Secretary, in order to settle the outstanding claims of the Tribes on the Animas and La Plata Rivers, acting through the Bureau of Reclamation, is specifically authorized to—

“(i) complete construction of, and operate and maintain, a reservoir, a pumping plant, a reservoir inlet conduit, and appurtenant facilities with sufficient capacity to divert and store water from the Animas River to provide for an average annual depletion of 57,100 acre-feet of water to be used for a municipal and industrial water supply, which facilities shall—

“(I) be designed and operated in accordance with the hydrologic regime necessary for the recovery of the endangered fish of the San Juan River as determined by the San Juan River Recovery Implementation Program;

“(II) be operated in accordance with the Animas-La Plata Project Compact as approved by Congress in Public Law 90-537;

“(III) include an inactive pool of an appropriate size to be determined by the Secretary following the completion of required environmental compliance activities; and

“(IV) include those recreation facilities determined to be appropriate by agreement between the State of Colorado and the Secretary that shall address the payment of any of the costs of such facilities by the State of Colorado in addition to the costs described in paragraph (3); and

“(ii) deliver, through the use of the project components referred to in clause (i), municipal and industrial water allocations—

“(I) with an average annual depletion not to exceed 16,525 acre-feet of water, to the Southern Ute Indian Tribe for its present and future needs;

“(II) with an average annual depletion not to exceed 16,525 acre-feet of water, to the Ute Mountain Ute Indian Tribe for its present and future needs;

“(III) with an average annual depletion not to exceed 2,340 acre-feet of water, to the Navajo Nation for its present and future needs;

“(IV) with an average annual depletion not to exceed 10,400 acre-feet of water, to the San Juan Water Commission for its present and future needs;

“(V) with an average annual depletion of an amount not to exceed 2,600 acre-feet of water, to the Animas-La Plata Conservancy District for its present and future needs;

“(VI) with an average annual depletion of an amount not to exceed 5,230 acre-feet of water, to

the State of Colorado for its present and future needs; and

“(VII) with an average annual depletion of an amount not to exceed 780 acre-feet of water, to the La Plata Conservancy District of New Mexico for its present and future needs.

“(B) APPLICABILITY OF OTHER FEDERAL LAW.—The responsibilities of the Secretary described in subparagraph (A) are subject to the requirements of Federal laws related to the protection of the environment and otherwise applicable to the construction of the proposed facilities, including the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), the Clean Water Act (42 U.S.C. 7401 et seq.), and the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.). Nothing in this Act shall be construed to predetermine or otherwise affect the outcome of any analysis conducted by the Secretary or any other Federal official under applicable laws.

“(C) LIMITATION.—

“(i) IN GENERAL.—If constructed, the facilities described in subparagraph (A) shall constitute the Animas-La Plata Project. Construction of any other project features authorized by Public Law 90-537 shall not be commenced without further express authorization from Congress.

“(ii) CONTINGENCY IN APPLICATION.—If the facilities described in subparagraph (A) are not constructed and operated, clause (i) shall not take effect.

“(2) TRIBAL CONSTRUCTION COSTS.—Construction costs allocable to the facilities that are required to deliver the municipal and industrial water allocations described in subclauses (I), (II) and (III) of paragraph (1)(A)(i) shall be nonreimbursable to the United States.

“(3) NONTRIBAL WATER CAPITAL OBLIGATIONS.—

“(A) IN GENERAL.—Under the provisions of section 9 of the Act of August 4, 1939 (43 U.S.C. 485h), the nontribal municipal and industrial water capital repayment obligations for the facilities described in paragraph (1)(A)(i) may be satisfied upon the payment in full of the nontribal water capital obligations prior to the initiation of construction. The amount of the obligations described in the preceding sentence shall be determined by agreement between the Secretary of the Interior and the entity responsible for such repayment as to the appropriate reimbursable share of the construction costs allocated to that entity's municipal water storage. Such repayment shall be consistent with Federal reclamation law, including the Colorado River Storage Project Act of 1956 (43 U.S.C. 620 et seq.). Such agreement shall take into account the fact that the construction of certain project facilities, including those facilities required to provide irrigation water supplies from the Animas-La Plata Project, is not authorized under paragraph (1)(A)(i) and no costs associated with the design or development of such facilities, including costs associated with environmental compliance, shall be allocable to the municipal and industrial users of the facilities authorized under such paragraph.

“(B) NONTRIBAL REPAYMENT OBLIGATION SUBJECT TO FINAL COST ALLOCATION.—The nontribal repayment obligation set forth in subparagraph (A) shall be subject to a final cost allocation by the Secretary upon project completion. In the event that the final cost allocation indicates that additional repayment is warranted based on the applicable entity's share of project water storage and determination of overall reimbursable cost, that entity may elect to enter into a new agreement to make the additional payment necessary to secure the full water supply identified in paragraph (1)(A)(ii). If the repayment entity elects not to enter into a new agreement, the portion of project storage relinquished by such election shall be available to the Secretary for allocation to other project purposes. Additional repayment shall only be warranted for reasonable and unforeseen costs associated with project construction as determined by the Secretary in consultation with the relevant repayment entities.

“(C) REPORT.—Not later than April 1, 2001, the Secretary shall report to Congress on the status of the cost-share agreements contemplated in subparagraph (A). In the event that no agreement is reached with either the Animas-La Plata Conservancy District or the State of Colorado for the water allocations set forth in subclauses (V) and (VI) of paragraph (1)(A)(ii), those allocations shall be reallocated equally to the Colorado Ute Tribes.

“(4) TRIBAL WATER ALLOCATIONS.—

“(A) IN GENERAL.—With respect to municipal and industrial water allocated to a Tribe from the Animas-La Plata Project or the Dolores Project, until that water is first used by a Tribe or used pursuant to a water use contract with the Tribe, the Secretary shall pay the annual operation, maintenance, and replacement costs allocable to that municipal and industrial water allocation of the Tribe.

“(B) TREATMENT OF COSTS.—A Tribe shall not be required to reimburse the Secretary for the payment of any cost referred to in subparagraph (A).

“(5) REPAYMENT OF PRO RATA SHARE.—Upon a Tribe's first use of an increment of a municipal and industrial water allocation described in paragraph (4), or the Tribe's first use of such water pursuant to the terms of a water use contract—

“(A) repayment of that increment's pro rata share of those allocable construction costs for the Dolores Project shall be made by the Tribe; and

“(B) the Tribe shall bear a pro rata share of the allocable annual operation, maintenance, and replacement costs of the increment as referred to in paragraph (4).”

“(ii) The plan must be reasonably related to the protection, acquisition, enhancement, or development of natural resources for the benefit of the Tribe and its members.

“(iii) Notwithstanding any other provision of law and in order to ensure that the Federal Government fulfills the objectives of the Record of Decision referred to in section 301(b)(8)(F) of the Colorado Ute Settlement Act Amendments of 2000 by requiring that the funds referred to in clause (i) are expended directly by employees of the Federal Government, the Secretary acting through the Bureau of Reclamation shall expend not less than 1/3 of the funds referred to in clause (i) for municipal or rural water development and not less than 2/3 of the funds referred to such clause for resource acquisition and enhancement.

“(c) ACTION BY THE ATTORNEY GENERAL.—The Attorney General shall file with the District Court, Water Division Number 7, of the State of Colorado, such instruments as may be necessary to request the court to amend the final consent decree to provide for the amendments made to this Act under the Colorado Ute Indian Water Rights Settlement Act Amendments of 2000. TITLE VII

SECTION 701. FINDINGS.

Congress finds that—

(1) there is a continuing need for reconciliation between Indians and non-Indians;

(2) the need may be met partially through the promotion of the understanding of the history and culture of Sioux Indian tribes;

(3) the establishment of a Sioux Nation Tribal Supreme Court will promote economic development on reservations of the Sioux Nation and provide investors that contribute to that development a greater degree of certainty and confidence by—

(A) reconciling conflicting tribal laws; and

(B) strengthening tribal court systems;

(4) the reservations of the Sioux Nation—

(A) contain the poorest counties in the United States; and

(B) lack adequate tools to promote economic development and the creation of jobs;

(5) the establishment of a Native American Economic Development Council will assist in promoting economic growth and reducing poverty on reservations of the Sioux Nation by—

(A) coordinating economic development efforts;

(B) centralizing expertise concerning Federal assistance; and

(C) facilitating the raising of funds from private donations to meet matching requirements under certain Federal assistance programs;

(6) there is a need to enhance and strengthen the capacity of Indian tribal governments and tribal justice systems to address conflicts which impair relationships within Indian communities and between Indian and non-Indian communities and individuals; and

(7) the establishment of the National Native American Mediation Training Center, with the technical assistance of tribal and Federal agencies, including the Community Relations Service of the Department of Justice, would enhance and strengthen the mediation skills that are useful in reducing tensions and resolving conflicts in Indian communities and between Indian and non-Indian communities and individuals.

(2) The military code, developed by the United States for transmitting messages, had been deciphered by the Japanese, and a search by United States Intelligence was made to develop new means to counter the enemy;

(3) The United States government called upon the Navajo Nation to support the military effort by recruiting and enlisting twenty-nine Navajo men to serve as Marine Corps Radio Operators;

(4) the number of Navajo enlistees later increased to more than three hundred and fifty;

(5) at the time, the Navajos were often treated as second-class citizens, and they were a people who were discouraged from using their own native language;

(6) the Navajo Marine Corps Radio Operators, who became known as the "Navajo Code Talkers", were used to develop a code using their native language to communicate military messages in the Pacific;

(8) the Navajo language, discouraged in the past, was instrumental in developing the most significant and successful military code of the time;

(9) at Iwo Jima alone, the Navajo Code Talkers passed over 800 error-free messages in a 48-hour period;

(B) some Code Talkers were guarded by fellow marines, whose role was to kill them in case of imminent capture by the enemy; and

(C) the Navajo code was kept secret for 23 years after the end of World War II;

(11) following the conclusion of World War II, the Department of Defense maintained the secrecy of the Navajo code until it was declassified in 1968; and

(12) only then did a realization of the sacrifice and valor of these brave Native Americans emerge from history.

(b)(1) To express recognition by the United States and its citizens in honoring the Navajo Code Talkers, who distinguished themselves in performing a unique, highly successful communications operation that greatly assisted in saving countless lives and hastening the end of World War II in the Pacific, the President is authorized—

(A) to award to each of the original twenty-nine Navajo Code Talkers, or a surviving family member, on behalf of the Congress, a gold medal of appropriate design, honoring the Navajo Code Talkers; and

(B) to award to each person who qualified as a Navajo Code Talker (MOS 642), or a surviving family member, on behalf of the Congress, a silver medal of appropriate design, honoring the Navajo Code Talkers.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. FINDINGS.

Congress makes the following findings:

(1) *The Constitution vests Congress with the authority to address the conditions of the indigenous, native people of the United States.*

(2) *Native Hawaiians, the native people of the Hawaiian archipelago which is now part of the United States, are indigenous, native people of the United States.*

(3) *The United States has a special trust relationship to promote the welfare of the native people of the United States, including Native Hawaiians.*

(4) *Under the treaty making power of the United States, Congress exercised its constitutional authority to confirm a treaty between the United States and the government that represented the Hawaiian people, and from 1826 until 1893, the United States recognized the independence of the Kingdom of Hawaii, extended full diplomatic recognition to the Hawaiian government, and entered into treaties and conventions with the Hawaiian monarchs to govern commerce and navigation in 1826, 1842, 1849, 1875, and 1887.*

(5) *Pursuant to the provisions of the Hawaiian Homes Commission Act, 1920 (42 Stat. 108, chapter 42), the United States set aside 203,500 acres of land in the Federal territory that later became the State of Hawaii to address the conditions of Native Hawaiians.*

(6) *By setting aside 203,500 acres of land for Native Hawaiian homesteads and farms, the Act assists the Native Hawaiian community in maintaining distinct native settlements throughout the State of Hawaii.*

(7) *Approximately 6,800 Native Hawaiian lessees and their family members reside on Hawaiian Home Lands and approximately 18,000 Native Hawaiians who are eligible to reside on the Home Lands are on a waiting list to receive assignments of land.*

(8) *In 1959, as part of the compact admitting Hawaii into the United States, Congress established the Ceded Lands Trust for five purposes, one of which is the betterment of the conditions of Native Hawaiians. Such trust consists of approximately 1,800,000 acres of land, submerged lands, and the revenues derived from such lands, the assets of which have never been completely inventoried or segregated.*

(9) *Throughout the years, Native Hawaiians have repeatedly sought access to the Ceded Lands Trust and its resources and revenues in order to establish and maintain native settlements and distinct native communities throughout the State.*

(10) *The Hawaiian Home Lands and the Ceded Lands provide an important foundation for the ability of the Native Hawaiian community to maintain the practice of Native Hawaiian culture, language, and traditions, and for the survival of the Native Hawaiian people.*

(11) *Native Hawaiians have maintained other distinctly native areas in Hawaii.*

(12) *On November 23, 1993, Public Law 103-150 (107 Stat. 1510) (commonly known as the Apol-*

ogy Resolution) was enacted into law, extending an apology on behalf of the United States to the Native people of Hawaii for the United States role in the overthrow of the Kingdom of Hawaii.

(13) *The Apology Resolution acknowledges that the overthrow of the Kingdom of Hawaii occurred with the active participation of agents and citizens of the United States and further acknowledges that the Native Hawaiian people never directly relinquished their claims to their inherent sovereignty as a people over their national lands to the United States, either through their monarchy or through a plebiscite or referendum.*

(14) *The Apology Resolution expresses the commitment of Congress and the President to acknowledge the ramifications of the overthrow of the Kingdom of Hawaii and to support reconciliation efforts between the United States and Native Hawaiians; and to have Congress and the President, through the President's designated officials, consult with Native Hawaiians on the reconciliation process as called for under the Apology Resolution.*

(15) *Despite the overthrow of the Hawaiian government, Native Hawaiians have continued to maintain their separate identity as a distinct native community through the formation of cultural, social, and political institutions, and to give expression to their rights as native people to self-determination and self-governance as evidenced through their participation in the Office of Hawaiian Affairs.*

(16) *Native Hawaiians also maintain a distinct Native Hawaiian community through the provision of governmental services to Native Hawaiians, including the provision of health care services, educational programs, employment and training programs, children's services, conservation programs, fish and wildlife protection, agricultural programs, native language immersion programs and native language immersion schools from kindergarten through high school, as well as college and master's degree programs in native language immersion instruction, and traditional justice programs, and by continuing their efforts to enhance Native Hawaiian self-determination and local control.*

(17) *Native Hawaiians are actively engaged in Native Hawaiian cultural practices, traditional agricultural methods, fishing and subsistence practices, maintenance of cultural use areas and sacred sites, protection of burial sites, and the exercise of their traditional rights to gather medicinal plants and herbs, and food sources.*

(18) *The Native Hawaiian people wish to preserve, develop, and transmit to future Native Hawaiian generations their ancestral lands and Native Hawaiian political and cultural identity in accordance with their traditions, beliefs, customs and practices, language, and social and political institutions, and to achieve greater self-determination over their own affairs.*

(19) *This Act provides for a process within the framework of Federal law for the Native Hawaiian people to exercise their inherent rights as a distinct aboriginal, indigenous, native community to reorganize a Native Hawaiian government for the purpose of giving expression to their rights as native people to self-determination and self-governance.*

(20) *The United States has declared that—*

(A) *the United States has a special responsibility for the welfare of the native peoples of the United States, including Native Hawaiians;*

(B) *Congress has identified Native Hawaiians as a distinct indigenous group within the scope of its Indian affairs power, and has enacted dozens of statutes on their behalf pursuant to its recognized trust responsibility; and*

(C) *Congress has also delegated broad authority to administer a portion of the Federal trust responsibility to the State of Hawaii.*

(21) *The United States has recognized and reaffirmed the special trust relationship with the Native Hawaiian people through—*

(A) the enactment of the Act entitled "An Act to provide for the admission of the State of Hawaii into the Union", approved March 18, 1959 (Public Law 86-3; 73 Stat. 4) by—

(i) ceding to the State of Hawaii title to the public lands formerly held by the United States, and mandating that those lands be held in public trust for five purposes, one of which is for the betterment of the conditions of Native Hawaiians; and

(ii) transferring the United States responsibility for the administration of the Hawaiian Home Lands to the State of Hawaii, but retaining the authority to enforce the trust, including the exclusive right of the United States to consent to any actions affecting the lands which comprise the corpus of the trust and any amendments to the Hawaiian Homes Commission Act, 1920 (42 Stat. 108, chapter 42) that are enacted by the legislature of the State of Hawaii affecting the beneficiaries under the Act.

(22) The United States continually has recognized and reaffirmed that—

(A) Native Hawaiians have a cultural, historic, and land-based link to the aboriginal, native people who exercised sovereignty over the Hawaiian Islands;

(B) Native Hawaiians have never relinquished their claims to sovereignty or their sovereign lands;

(C) the United States extends services to Native Hawaiians because of their unique status as the aboriginal, native people of a once sovereign nation with whom the United States has a political and legal relationship; and

(D) the special trust relationship of American Indians, Alaska Natives, and Native Hawaiians to the United States arises out of their status as aboriginal, indigenous, native people of the United States.

Section 124 includes a technical correction to allow the use of National Park Service funds for the acquisition of lands near Saddleback Mountain, Maine for inclusion in the Appalachian National Scenic Trail.

Section 125 incorporates by reference the text of the bill S. 2273, the Black Rock Desert-High Rock Canyon Emigrant Trails National Conservation Area Act of 2000, as passed by the United States Senate on October 5, 2000. The text of S. 2273 is as follows:

AN ACT To establish the Black Rock Desert-High Rock Canyon Emigrant Trails National Conservation Area, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Black Rock Desert-High Rock Canyon Emigrant Trails National Conservation Area Act of 2000".

SEC. 2. FINDINGS.

The Congress finds the following:

(1) The areas of northwestern Nevada known as the Black Rock Desert and High Rock Canyon contain and surround the last nationally significant, untouched segments of the historic California emigrant Trails, including wagon ruts, historic inscriptions, and a wilderness landscape largely unchanged since the days of the pioneers.

(2) The relative absence of development in the Black Rock Desert and high Rock Canyon areas from emigrant times to the present day offers a unique opportunity to capture the terrain, sights, and conditions of the overland trails as they were experienced by the emigrants and to make available to both present and future gen-

erations of Americans the opportunity of experiencing emigrant conditions in an unaltered setting.

(3) The Black Rock Desert and High Rock Canyon areas are unique segments of the Northern Great Basin and contain broad representation of the Great Basin's land forms and plant and animal species, including golden eagles and other birds of prey, sage grouse, mule deer, pronghorn antelope, bighorn sheep, free roaming horses and burros, threatened fish and sensitive plants.

(4) The Black Rock-High Rock region contains a number of cultural and natural resources that have been declared eligible for National Historic Landmark and Natural Landmark status, including a portion of the 1843-44 John Charles Fremont exploration route, the site of the death of Peter Lassen, early military facilities, and examples of early homesteading and mining.

(5) The archeological, paleontological, and geographical resources of the Black Rock-High Rock region include numerous prehistoric and historic Native American sites, woolly mammoth sites, some of the largest natural potholes of North America, and a remnant dry Pleistocene lakebed (playa) where the curvature of the Earth may be observed.

(6) The two large wilderness mosaics that frame the conservation area offer exceptional opportunities for solitude and serve to protect the integrity of the viewshed of the historic emigrant trails.

(7) Public lands in the conservation area have been used for domestic livestock grazing for over a century, with resultant benefits to community stability and contributions to the local and State economies. It has not been demonstrated that continuation of this use would be incompatible with appropriate protection and sound management of the resource values of these lands; therefore, it is expected that such grazing will continue in accordance with the management plan for the conservation area and other applicable laws and regulations.

(8) The Black Rock Desert playa is a unique natural resource that serves as the primary destination for the majority of visitors to the conservation area, including visitors associated with large-scale permitted events. It is expected that such permitted events will continue to be administered in accordance with the management plan for the conservation area and other applicable laws and regulations.

SEC. 3. DEFINITIONS.

As used in this Act:

(1) The term "Secretary" means the Secretary of the Interior.

(e) **MANAGEMENT PLAN.**—Within three years following the date of enactment of this Act, the Secretary shall develop a comprehensive resource management plan for the long-term protection and management of the conservation area. The plan shall be developed with full public participation and shall describe the appropriate uses and management of the conservation area consistent with the provisions of this Act. The plan may incorporate appropriate decisions contained in any current management or activity plan for the area and may use information developed in previous studies of the lands within or adjacent to the conservation area.

SEC. 7. NO BUFFER ZONES.

The Congress does not intend for the establishment of the conservation area to lead to the creation of protective perimeters or buffer zones around the conservation area. The fact that there may be activities or uses on lands outside the conservation area that would not be permitted in the conservation area shall not preclude such activities or uses on such lands up to the boundary of the conservation area consistent with other applicable laws.

“(iii) ADJUSTMENT FOR SERVICE MIX CHANGES.—Insofar as the Secretary determines that the adjustments for service mix under paragraph (2) for a previous year (or estimates that such adjustments for a future year) did (or are likely to) result in a change in aggregate payments under this subsection during the year that are a result of changes in the coding or classification of covered OPD services that do not reflect real changes in service mix, the Secretary may adjust the conversion factor computed under this subparagraph for subsequent years so as to eliminate the effect of such coding or classification changes.”

(2) EFFECTIVE DATE.—The amendments made by paragraph (1) shall take effect as if included in the enactment of BBA.

(1) by redesignating subparagraphs (C) and (D) as subparagraphs (D) and (E), respectively; and

(2) by striking subparagraph (B) and inserting the following new subparagraphs:

“(B) USE OF CATEGORIES IN DETERMINING ELIGIBILITY OF A DEVICE FOR PASS-THROUGH PAYMENTS.—The following provisions apply for purposes of determining whether a medical device qualifies for additional payments under clause (ii) or (iv) of subparagraph (A):

“(i) ESTABLISHMENT OF INITIAL CATEGORIES.—

“(I) IN GENERAL.—The Secretary shall initially establish under this clause categories of medical devices based on type of device by April 1, 2001. Such categories shall be established in a manner such that each medical device that meets the requirements of clause (ii) or (iv) of subparagraph (A) as of January 1, 2001, is included in such a category and no such device is included in more than one category. For purposes of the preceding sentence, whether a medical device meets such requirements as of such date shall be determined on the basis of the program memoranda issued before such date.

“(II) AUTHORIZATION OF IMPLEMENTATION OTHER THAN THROUGH REGULATIONS.—The categories may be established under this clause by program memorandum or otherwise, after consultation with groups representing hospitals, manufacturers of medical devices, and other affected parties.

“(ii) ESTABLISHING CRITERIA FOR ADDITIONAL CATEGORIES.—

“(I) IN GENERAL.—The Secretary shall establish criteria that will be used for creation of additional categories (other than those established under clause (i)) through rulemaking (which may include use of an interim final rule with comment period).

“(II) STANDARD.—Such categories shall be established under this clause in a manner such that no medical device is described by more than one category. Such criteria shall include a test of whether the average cost of devices that would be included in a category and are in use at the time the category is established is not insignificant, as described in subparagraph (A)(iv)(II).

“(III) DEADLINE.—Criteria shall first be established under this clause by July 1, 2001. The Secretary may establish in compelling circumstances categories under this clause before the date such criteria are established.

“(IV) ADDING CATEGORIES.—The Secretary shall promptly establish a new category of medical devices under this clause for any medical device that meets the requirements of subparagraph (A)(iv) and for which none of the categories in effect (or that were previously in effect) is appropriate.

“(iii) PERIOD FOR WHICH CATEGORY IS IN EFFECT.—A category of medical devices established under clause (i) or (ii) shall be in effect for a period of at least 2 years, but not more than 3 years, that begins—

“(I) in the case of a category established under clause (i), on the first date on which payment was made under this paragraph for any device described by such category (including payments made during the period before April 1, 2001); and

“(II) in the case of any other category, on the first date on which payment is made under this paragraph for any medical device that is described by such category.

“(iv) REQUIREMENTS TREATED AS MET.—A medical device shall be treated as meeting the requirements of subparagraph (A)(iv), regardless of whether the device meets the requirement of subclause (I) of such subparagraph, if—

“(I) the device is described by a category established and in effect under clause (i); or

“(II) the device is described by a category established and in effect under clause (ii) and an application under section 515 of the Federal Food, Drug, and Cosmetic Act has been approved with respect to the device, or the device has been cleared for market under section 510(k) of such Act, or the device is exempt from the requirements of section 510(k) of such Act pursuant to subsection (l) or (m) of section 510 of such Act or section 520(g) of such Act.

Nothing in this clause shall be construed as requiring an application or prior approval (other than that described in subclause (II)) in order for a covered device described by a category to qualify for payment under this paragraph.

“(C) LIMITED PERIOD OF PAYMENT.—

“(i) DRUGS AND BIOLOGICALS.—The payment under this paragraph with respect to a drug or biological shall only apply during a period of at least 2 years, but not more than 3 years, that begins—

“(I) on the first date this subsection is implemented in the case of a drug or biological described in clause (i), (ii), or (iii) of subparagraph (A) and in the case of a drug or biological described in subparagraph (A)(iv) and for which payment under this part is made as an outpatient hospital service before such first date; or

“(II) in the case of a drug or biological described in subparagraph (A)(iv) not described in subclause (I), on the first date on which payment is made under this part for the drug or biological as an outpatient hospital service.

“(ii) MEDICAL DEVICES.—Payment shall be made under this paragraph with respect to a medical device only if such device—

“(I) is described by a category of medical devices established and in effect under subparagraph (B); and

“(II) is provided as part of a service (or group of services) paid for under this subsection and provided during the period for which such category is in effect under such subparagraph.”

(2) in paragraph (6)(D) (as redesignated by subsection (a)(1)), by striking “subparagraph (D)(iii)” in the matter preceding clause (i) and inserting “subparagraph (E)(iii)”; and

(3) in paragraph (12)(E), by striking “additional payments (consistent with paragraph (6)(B))” and inserting “additional payments, the determination and deletion of initial and new categories (consistent with subparagraphs (B) and (C) of paragraph (6))”.

In addition, beginning on the date that is 30 days after the date of the enactment of this Act, payment shall be made for such a device that is not included in a program memorandum described in such subparagraph if the Secretary of Health and Human Services determines that the device (including a device that would have been included in such program memoranda but for the requirement of subparagraph (A)(iv)(I) of that section) is likely to be described by such an initial category.

(2) APPLICATION OF CURRENT PROCESS.—Notwithstanding any other provision of law, the Secretary shall continue to accept applications with respect to medical devices under the process established pursuant to paragraph (6) of section 1833(t) of the Social Security Act (as in effect on the day before the date of the enactment of this Act) through December 1, 2000, and any device—

“(B) DEFINITION OF NATIONAL COVERAGE DETERMINATION.—For purposes of this section, the term ‘national coverage determination’ means a determination by the Secretary with respect to whether or not a particular item or service is covered nationally under this title, but does not include a determination of what code, if any, is assigned to a particular item or service covered under this title or a determination with respect to the amount of payment made for a particular item or service so covered.

“(2) LOCAL COVERAGE DETERMINATION.—

the moving party may seek review by a court of competent jurisdiction without filing a complaint under such paragraph and without otherwise exhausting other administrative remedies.

“(4) PENDING NATIONAL COVERAGE DETERMINATIONS.—

“(A) IN GENERAL.—In the event the Secretary has not issued a national coverage or noncoverage determination with respect to a particular type or class of items or services, an aggrieved person (as described in paragraph (5)) may submit to the Secretary a request to make such a determination with respect to such items or services. (c) REPORT ON PROCEDURES USED FOR ADVANCED, IMPROVED TECHNOLOGIES.—Not later than 1 year after the date of the enactment of this Act, the Secretary of Health and Human Services shall submit to Congress a report that identifies the specific procedures used by the Secretary under part B of title XVIII of the Social Security Act to adjust payments for clinical diagnostic laboratory tests and durable medical equipment which are classified to existing codes where, because of an advance in technology with respect to the test or equipment, there has been a significant increase or decrease in the resources used in the test or in the manufacture of the equipment, and there has been a significant improvement in the performance of the test or equipment. The report shall include such recommendations for changes in law as may be necessary to assure fair and appropriate payment levels under such part for such improved tests and equipment as reflects increased costs necessary to produce improved results.

SEC. 532. RETENTION OF HCPCS LEVEL III CODES.

submit to Congress a report on methods of expeditiously incorporating new medical services and technologies into the clinical coding system used with respect to payment for inpatient hospital services furnished under the medicare program under title XVIII of the Social Security Act, together with a detailed description of the Secretary's preferred methods to achieve this purpose.

(2) IMPLEMENTATION.—Not later than October 1, 2001, the Secretary shall implement the preferred methods described in the report transmitted pursuant to paragraph (1).

(b) ENSURING APPROPRIATE PAYMENTS FOR HOSPITALS INCORPORATING NEW MEDICAL SERVICES AND TECHNOLOGIES.—

(1) ESTABLISHMENT OF MECHANISM.—Section 1886(d)(5) (42 U.S.C. 1395ww(d)(5)) is amended by adding at the end the following new subparagraphs:

“(K)(i) Effective for discharges beginning on or after October 1, 2001, the Secretary shall establish a mechanism to recognize the costs of new medical services and technologies under the payment system established under this subsection. Such mechanism shall be established after notice and opportunity for public comment (in the publications required by subsection (e)(5) for a fiscal year or otherwise).

“(ii) The mechanism established pursuant to clause (i) shall—

“(I) apply to a new medical service or technology if, based on the estimated costs incurred with respect to discharges involving such service or technology, the DRG prospective payment rate otherwise applicable to such discharges under this subsection is inadequate;

“(II) provide for the collection of data with respect to the costs of a new medical service or technology described in subclause (I) for a period of not less than two years and not more than three years beginning on the date on which an inpatient hospital code is issued with respect to the service or technology;

“(III) subject to paragraph (4)(C)(iii), provide for additional payment to be made under this subsection with respect to discharges involving a new medical service or technology described in subclause (I) that occur during the period described in subclause (II) in an amount that adequately reflects the estimated average cost of such service or technology; and

“(IV) provide that discharges involving such a service or technology that occur after the close of the period described in subclause (II) will be classified within a new or existing diagnosis-related group with a weighting factor under paragraph (4)(B) that is derived from cost data collected with respect to discharges occurring during such period.

“(iii) For purposes of clause (ii)(II), the term ‘inpatient hospital code’ means any code that is used with respect to inpatient hospital services for which payment may be made under this subsection and includes an alphanumeric code issued under the International Classification of Diseases, 9th Revision, Clinical Modification (‘ICD-9-CM’) and its subsequent revisions.

“(iv) For purposes of clause (ii)(III), the term ‘additional payment’ means, with respect to a discharge for a new medical service or technology described in clause (ii)(I), an amount that exceeds the prospective payment rate otherwise applicable under this subsection to discharges involving such service or technology that would be made but for this subparagraph.

“(v) The requirement under clause (ii)(III) for an additional payment may be satisfied by means of a new-technology group (described in subparagraph (L)), an add-on payment, a payment adjustment, or any other similar mechanism for increasing the amount otherwise payable with respect to a discharge under this subsection. The Secretary may not establish a separate fee schedule for such additional payment for such services and technologies, by utilizing a methodology established under subsection (a) or (h) of section 1834 to determine the amount of

such additional payment, or by other similar mechanisms or methodologies.

“(vi) For purposes of this subparagraph and subparagraph (L), a medical service or technology will be considered a ‘new medical service or technology’ if the service or technology meets criteria established by the Secretary after notice and an opportunity for public comment.

“(L)(i) In establishing the mechanism under subparagraph (K), the Secretary may establish new-technology groups into which a new medical service or technology will be classified if, based on the estimated average costs incurred with respect to discharges involving such service or technology, the DRG prospective payment rate otherwise applicable to such discharges under this subsection is inadequate.

“(ii) Such groups—

“(I) shall not be based on the costs associated with a specific new medical service or technology; but

“(II) shall, in combination with the applicable standardized amounts and the weighting factors assigned to such groups under paragraph (4)(B), reflect such cost cohorts as the Secretary determines are appropriate for all new medical services and technologies that are likely to be provided as inpatient hospital services in a fiscal year.

“(iii) The methodology for classifying specific hospital discharges within a diagnosis-related group under paragraph (4)(A) or a new-technology group shall provide that a specific hospital discharge may not be classified within both a diagnosis-related group and a new-technology group.”

(2) PRIOR CONSULTATION.—The Secretary of Health and Human Services shall consult with groups representing hospitals, physicians, and manufacturers of new medical technologies before publishing the notice of proposed rule-making required by section 1886(d)(5)(K)(i) of the Social Security Act (as added by paragraph (1)).

MEDICARE, MEDICAID, AND SCHIP BENEFITS IMPROVEMENT AND PROTECTION ACT OF 2000

Following is explanatory language on H.R. 5661, as introduced on December 14, 2000. The conferees on H.R. 4577 agree with the matter included in H.R. 5661 and enacted in this conference report by references and the following description of it.

TITLE I—MEDICARE BENEFICIARY IMPROVEMENTS

SUBTITLE A—IMPROVED PREVENTIVE BENEFITS
Section 101. Coverage of biennial screening pap smear and pelvic exams

The provision modifies current law to provide Medicare coverage for biennial screening pap smears and pelvic exams, effective July 1, 2001.

Section 102. Coverage of screening for glaucoma

The provision would add Medicare coverage for annual glaucoma screenings, beginning January 1, 2002, for persons determined to be at high risk for glaucoma, individuals with a family history of glaucoma, and individuals with diabetes. The service would have to be furnished by or under the supervision of an optometrist or ophthalmologist who is legally authorized to perform such services in the state where the services are furnished.

Section 103. Coverage of screening colonoscopy for average risk individuals

The provision would authorize coverage for screening colonoscopies, beginning July 1, 2001, for all individuals, not just those at high risk. For persons not at high risk, payments could not be made for such procedures if performed within 10 years of a previous screening colonoscopy or within 4 years of a screening flexible sigmoidoscopy.

Section 104. Modernization of screening mammography benefit

Beginning in 2002, the provision would eliminate the statutorily prescribed payment rate for screening mammography payments and specify that the services are to be paid under the physician fee schedule. The provision would specify two new payment rates for mammographies that utilize advanced new technology for the period April 1, 2001 to December 31, 2001. Payment for technologies that directly take digital images would equal 150% of what otherwise be paid for a bilateral diagnostic mammography. For technologies that convert standards film images to digital form, an additional payment of fifteen dollars would be authorized. The Secretary would be required to determine whether a new code is required for tests furnished after 2001.

Section 105. Coverage of medical nutrition therapy services for beneficiaries within diabetes or a renal disease

The provision would establish, effective January 1, 2002, Medicare coverage for medical nutrition therapy services for beneficiaries who have diabetes or a renal disease. Medical nutrition therapy services would be defined as nutritional diagnostic, therapy and counseling services for the purpose of disease management which are furnished by a registered dietitian or nutrition professional, pursuant to a referral by a physician. The provision would specify that the amount paid for medical nutrition therapy services would equal the lesser of the actual charge for the service or 85% of the amount that would be paid under the physician fee schedule if such services were provided by a physician. Assignment would be required for all claims. The Secretary would be required to submit a report to Congress that contains an evaluation of the effectiveness of services furnished under this provision.

SUBTITLE B—OTHER BENEFICIARY IMPROVEMENTS

Section 111. Acceleration of reduction of beneficiary copayment for hospital outpatient department services

Effective April 1, 2000, the provision would modify current law by limiting the amount of a beneficiary copayment for a procedure in a hospital outpatient department to the hospital inpatient deductible applicable in that year.

In addition, starting in April 2001, the provisions would require the Secretary of HHS to reduce the effective copayment rate for outpatient services to a maximum rate of 57% for the remainder of 2001, 55% in 2002 and 2003, 50% in 2004, 45% in 2005, and 40% in 2006 and subsequent years. As stated in BBA 97, hospitals may waive any increase in coinsur-

ance that may have arisen from the implementation of the outpatient prospective payment system (PPS).

The Comptroller General would be required to work with the National Association of Insurance Commissioners (NAIC) to evaluate the extent to which premiums for supplemental policies reflect the acceleration of the reduction in beneficiary coinsurance of hospital outpatient services and result in saving to beneficiaries and to report to the Congress by April 1, 2004.

Section 112. Preservation of coverage of drugs and biologicals under part B of the Medicare Program

The provision would clarify policy with regard to coverage of drugs, provided incident to physicians services, that cannot be self-administered. The provision would specify that such drugs are covered when they are not usually self-administered by the patient.

Section 113. Elimination of time limitation on Medicare benefits for immunosuppressive drugs

The provision would eliminate the current time limitations on the coverage of immunosuppressive drugs for beneficiaries who have received a covered organ transplant. The provision would apply to drugs furnished, on or after the date enactment.

Section 114. Imposition of billings limits on drugs

The provision would specify that payment for drugs under Part B must be made on the basis of assignment.

Section 115. Waiver of 24-month waiting period for Medicare coverage of individuals disabled with amyotrophic lateral sclerosis (ALS)

The provision would waive the 24-month waiting period (otherwise required for an individual to establish Medicare eligibility on the basis of a disability) for persons medically determined to have amyotrophic lateral sclerosis (ALS). The provision would be effective July 1, 2001.

SUBTITLE C—DEMONSTRATION PROJECTS AND STUDIES

Section 121. Demonstration project for disease management for severely chronically ill Medicare beneficiaries

The Secretary would be required to conduct a demonstration project to illustrate the impact on costs and health outcomes of applying disease management to Medicare beneficiaries with diagnosed, advanced-stage congestive heart failure, diabetes, or coronary heart disease. Up to 30,000 beneficiaries would be able to enroll, on a voluntary basis, for disease management services related to their chronic health condition. In addition, contractors providing disease management services would be responsible for providing beneficiaries enrolled in the project with prescription drugs.

Section 122. Cancer prevention and treatment demonstration for ethnic and racial minorities

The provision would require the Secretary to conduct demonstration projects for the purpose of developing models and evaluating methods that improve the quality of cancer prevention services, improve clinical outcomes, eliminates disparities in the rate of preventative screening measures, and promote collaboration and community-based organizations for ethnic and racial minorities.

Section 123. Study on Medicare coverage of routine thyroid screening

The provision would require the Secretary to request the National Academy of Sciences, and as appropriate in conjunction with the United States Preventive Services Task Force, to analyze the addition of rou-

tine thyroid screening under Medicare. The analysis would consider the short term and long term benefits, and cost to Medicare, of adding such coverage for some or all beneficiaries.

Section 124. MedPAC study on consumer coalitions

The provision would require MedPAC to conduct a study that examines the use of consumer coalitions in the marketing of Medicare+Choice plans. A consumer coalition would be defined as a non-profit community-based organization that provides information to beneficiaries about their health options under Medicare and negotiates with Medicare+Choice plans on benefits and premiums for beneficiaries who are members of the coalition or otherwise affiliated with it.

Section 125. Study on limitation on State payment for Medicare cost-sharing affecting access to services for qualified Medicare beneficiaries

The provision would require the Secretary of HHS to conduct a study to determine if access to certain services (including mental health services) has been affected by a specific provision in law. The provision specifies that states are not required to pay Medicare cost-sharing charges for QMBs to the extent these payments would result in a total payment in excess of the Medicaid level.

Section 126. Studies on preventive interventions in primary care for older Americans

The provision would require the Secretary, acting through the United States Preventive Services Task Force, to conduct a series of studies designed to identify preventive interventions in primary care for older Americans.

Section 127. MedPAC study and report on Medicare coverage of cardiac and pulmonary rehabilitation and therapy services

The provision would require MedPAC to conduct a study on coverage of cardiac and pulmonary rehabilitation therapy services under Medicare.

Section 128. Lifestyle modification program demonstration

The provision modifies the current Medicare demonstration project, known as the Lifestyle Modification Program. It would extend the project to 4 years and to assure 1,800 beneficiaries complete the Program in order to provide a statistically valid sample. The provision requires a study of its cost-effectiveness and provides for an initial report after 900 beneficiaries complete the Program and a final report after 1,800 beneficiaries complete the Program.

TITLE II—RURAL HEALTH CARE IMPROVEMENTS

SUBTITLE A—CRITICAL ACCESS HOSPITAL PROVISIONS

Section 201. Clarification of no beneficiary cost-sharing for clinical diagnostic laboratory tests furnished by critical access hospitals

Effective for services furnished on or after the enactment of BBRA99, Medicare beneficiaries would not be liable for any coinsurance deductible, copayment, or other cost sharing amount with respect to clinical diagnostic laboratory services furnished as an outpatient critical access hospital (CAH) service. Conforming changes that clarify that CAHs are reimbursed on a reasonable cost basis for outpatient clinical diagnostic laboratory services are also included.

Section 202. Assistance with fee schedule payment for professional services under all-inclusive rate

Effective for items and services furnished on or after July 1, 2001, Medicare would pay a CAH for outpatient services based on reasonable costs or, at the election of an entity,

would pay the CAH a facility fee based on reasonable costs plus an amount based on 115% of Medicare's fee schedule for professional services.

Section 203. Exemption of critical access hospital swing beds from SNF PPS

Swing beds in critical access hospitals (CAHs) would be exempt from the SNF prospective payment system. CAHs would be paid for covered SNF services on a reasonable cost basis.

Section 204. Payment in critical access hospitals for emergency room on-call physicians

When determining the allowable, reasonable cost of outpatient CAH services, the Secretary would recognize amounts for the compensation and related costs for on-call emergency room physicians who are not present on the premises, are not otherwise furnishing services, and are not on-call at any other provider or facility. The Secretary would define the reasonable payment amounts and the meaning of the term "on-call." The provision would be effective for cost reporting periods beginning on or after October 1, 2001.

Section 205. Treatment of ambulance services furnished by certain critical access hospitals

Ambulance services provided by a critical access hospital (CAH) or provided by an entity that is owned or operated by a CAH would be paid on a reasonable cost basis if the CAH or entity is the only provider or supplier of ambulance services that is located within a 35-mile drive of the CAH. The provision would be effective for services furnished on or after enactment.

Section 206. GAO study on certain eligibility requirements for critical access hospitals

Within one year of enactment, GAO would be required to conduct a study on the eligibility requirements for critical access hospitals (CAHs) with respect to limitations on average length of stay and number of beds, including an analysis of the feasibility of having a distinct part unit as part of a CAH and the effect of seasonal variations in CAH eligibility requirements. GAO also would be required to analyze the effect of seasonal variations in patient admissions on critical access hospital eligibility requirements with respect to limits on average annual length of stay and number of beds.

SUBTITLE B—OTHER RURAL HOSPITALS PROVISIONS

Section 211. Treatment of rural disproportionate share hospitals

For discharges occurring on or after April 1, 2001, all hospitals would be eligible to receive DSH payments when their DSH percentage (threshold amount) exceeds 15%. The DSH payment formulas for sole community hospitals (SCHs), rural referral centers (RRCs), rural hospitals that are both SCHs and RRCs, small rural hospitals and urban hospitals with less than 100 beds would be modified.

Section 212. Option to base eligibility for Medicare dependent, small rural hospital program on discharges during 2 of the 3 most recent audited cost reporting periods

An otherwise qualifying small rural hospital would be able to be classified as an MDH if at least 60% of its days or discharges were attributable to Medicare Part A beneficiaries in at least two of the three most recent audited cost reporting periods for which the Secretary has a settled cost report.

Section 213. Extension of option to use rebased target amounts to all sole community hospitals

Any SCH would be able to elect payment based on hospital specific, updated FY1996 costs if this target amount resulted in higher

Medicare payments. There would be a transition period with Medicare payment based completely on updated FY1996 hospital specific costs for discharges occurring after FY2003.

Section 214. MedPAC analysis of impact of volume on per unit cost of rural hospitals with psychiatric units

MedPAC would be required to report on the impact of volume on the per unit cost of rural hospitals with psychiatric units and include in its report a recommendation on whether special treatment is warranted.

SUBTITLE C—OTHER RURAL PROVISIONS

Section 221. Assistance for providers of ambulance services in rural areas

The provision would make additional payments to providers of ground ambulance services for trips, originating in rural areas, that are greater than 17 miles and up to 50 miles. The payments would be made for services furnished on or after July 1, 2001 and before January 1, 2004. The provision would require the Comptroller General to conduct a study to examine both the costs of efficiently providing ambulance services for trips originating in rural areas and the means by which rural areas with low population densities can be identified for the purpose of designating areas in which the costs of ambulance services would be expected to be higher. The Comptroller General would submit a report to Congress by June 30, 2002 on the results of the study, together with recommendations on steps that should be taken to assure access to ambulance services for trips originating in rural areas. The Secretary would be required to take these findings into account when establishing the fee schedule, beginning with 2004.

Section 222. Payment for certain physician assistant services

This provision would give permanent authority to physician assistants who owned rural health clinics that lost their designation as such to bill Medicare directly.

Section 223. Expansion of Medicare payment for telehealth services

The provision would establish revised payment provisions, effective no later than October 1, 2001, for services that are provided via a telecommunications system by a physician or practitioner to an eligible beneficiary in a rural area. The Secretary would be required to make payments for telehealth services to the physician or practitioner at the distant site in an amount equal to the amount that would have been paid to such physician or practitioner if the service had been furnished to the beneficiary without the use of a telecommunications system. A facility fee would be paid to the originating site. Originating sites would include a physician or practitioner office, a critical access hospital, a rural health clinic, a Federally qualified health center or a hospital. The Secretary would be required to conduct a study, and submit recommendations to Congress, that identify additional settings, sites, practitioners and geographic areas that would be appropriate for telehealth services. Entities participating in Federal demonstration projects approved by, or receiving funding from, the Secretary as of December 31, 2000 would be qualified sites.

Section 224. Expanding access to rural health clinics

All hospitals of less than 50 beds that own rural health clinics would be exempt from the per visit limit.

Section 225. MedPAC study on low-volume, isolated rural health providers

MedPAC would be required to study the effect of low patient and procedure volume on

the financial status and Medicare payment methods for hospital outpatient services, ambulance services, hospital inpatient services, skilled nursing facility services, and home health services in isolated rural health care providers.

TITLE III—PROVISIONS RELATING TO PART A

SUBTITLE A—INPATIENT HOSPITAL SERVICES

Section 301. Revision of acute care hospital payment update for 2001

All hospitals would receive the full market basket index (MBI) as an update for FY2001. In order to implement this increase for hospitals other than sole community hospitals (SCH), those hospitals would receive the MBI minus 1.1 percentage points (the current statutory provision) for discharges occurring on or after October 1, 2000 and before April 1, 2001; these non-SCH hospitals would receive the MBI plus 1.1 percentage points for discharges occurring on or after April 1, 2001 and before October 1, 2001. As indicated by section 547(a), this payment increase would not apply to discharges occurring after FY2001. For FY2002 and FY2003, hospitals would receive the MBI minus .55 percentage points. For FY2004 and subsequently, hospitals would receive the MBI.

The Secretary is directed to consider the prices of blood and blood products purchased by hospitals in the next rebasing and revision of the hospital market basket to determine whether those prices are adequately reflected in the market basket index. MedPAC is directed to conduct a study on increased hospital costs attributable to complying with new blood safety measures and providing such services using new technologies among other issues.

For discharges occurring on or after October 1, 2001, the Secretary would be able to adjust the standardized amount in future fiscal years to correct for changes in the aggregate Medicare payments caused by adjustments to the DRG weighting factors in a previous fiscal year (or estimates that such adjustments for a future fiscal year) that did not take into account coding improvements or changes in discharge classifications and did not accurately represent increases in the resource intensity of patients treated by PPS hospitals.

Section 302. Additional modification in transition for indirect medical education (IME) percentage adjustment

Teaching hospitals would receive 6.25% IME payment adjustment (for each 10% increase in teaching intensity) for discharges occurring on or after October 1, 2001 and before April 1, 2001. The IME adjustment would increase to 6.75% for discharges on or after April 1, 2001 and before October 1, 2001. As indicated in Section 547(a), the payment increase would not apply to discharges after FY2001. The IME adjustment would be 6.5% in FY2002 and 5.5% in FY2003 and in subsequent years.

Section 303. Decrease in reductions for disproportionate share hospital (DSH) payments

Reductions in the DSH payment formula amounts would be 2% in FY2001, 3% in FY2002, and 0% in FY2003 and subsequently. To implement the FY2001 provision, DSH amounts for discharges occurring on or after October 1, 2000 and before April 1, 2001, would be reduced by 3% which was the reduction in effect prior to enactment of this provision. DSH amounts for discharges occurring on or after April 1, 2001 and before October 1, 2001 would be reduced by only 1 percentage point. As indicated by Section 547(a), this payment adjustment would not apply to discharges after FY2001.

Section 304. Wage index improvements

For FY2001 or any fiscal year thereafter, a Medicare Geographic Classification Review Board (MGCRB) decision to reclassify a prospective payment system hospital for use of a different area's wage index would be effective for 3 fiscal years. The Secretary would establish procedures whereby a hospital could elect to terminate this reclassification decision before the end of such period. For FY2003 and subsequently, MGCRB would base any comparison of the average hourly wage of the hospital with the average hourly wage for hospitals in the area using data from the each of the two immediately preceding surveys as well as data from the most recently published hospital wage survey.

The Secretary would establish a process which would first be available for discharges occurring on or after October 1, 2001 where a single wage index would be computed for all geographic areas in the state. If the Secretary applies a statewide geographic index, an application by an individual hospital would not be considered. The Secretary would also collect occupational data every three years in order to construct an occupational mix adjustment for the hospital area wage index. The first complete data collection effort would occur no later than September 30, 2003 for application beginning October 1, 2004.

Section 305. Payment for inpatient services in rehabilitation hospitals

Total payments for rehabilitation hospitals in FY2002 would equal the amounts of payments that would have been made if the rehabilitation prospective payment system (PPS) had not been enacted. A rehabilitation facility would be able to make a one-time election before the start of the PPS to be paid based on a fully phased-in PPS rate.

Section 306. Payment for inpatient services of psychiatric hospitals

The provision would increase the incentive payments for psychiatric hospitals and distinct part units of 3% for cost reporting periods beginning on or after October 1, 2000.

Section 307. Payment for inpatient services of long-term care hospitals

For cost reporting periods beginning during FY2001, long term hospitals would have the national cap increased by 2% and the target amount increased by 25%. Neither these payments nor the increased bonus payments provided by BBRA 99 would be factored into the development of the prospective payment system (PPS) for long term hospitals. When developing the PPS for inpatient long term hospitals, the Secretary would be required to examine the feasibility and impact of basing payment on the existing (or refined) acute hospital DRGs and using the most recently available hospital discharge data. If the Secretary is unable to implement a long term hospital PPS by October 1, 2002, the Secretary would be required to implement a PPS for these hospitals using the existing acute hospital DRGs that have been modified where feasible.

SUBTITLE B—ADJUSTMENTS TO PPS PAYMENTS FOR SKILLED NURSING FACILITIES

Section 311. Elimination of reduction in skilled nursing facility (SNF) market basket update in 2001

The provision would modify the schedule and rates according to which federal per diem payments are updated. In FY2002 and FY2003 the updates would be the market basket index increase minus 0.5 percentage point. The update rate for the period October 1, 2000, through March 31, 2001, would be the market basket index increase minus 1 percentage point; the update rate for the period April 1, 2001, through September 30, 2001,

would be the market basket index increase plus one percentage point (this increase would not be included when determining payment rates for the subsequent period). Temporary increases in the federal per diem rates provided by BBRA 99 would be in addition to the increases in this provision. By July 1, 2002, the Comptroller General would be required to submit a report to Congress on the adequacy of Medicare payments to SNFs, taking into account the role of private payers, medicaid, and case mix on the financial performance of SNFs and including an analysis, by RUG classification, of the number and characteristics of such facilities. By January 1, 2005, the Secretary would be required to submit a report to Congress on alternatives for classification of SNF patients.

Section 312. Increase in nursing component of PPS Federal rate

The provision would increase the nursing component of each RUG by 16.66 percent over current law for SNF care furnished after April 1, 2001, and before October 1, 2002.

The Comptroller General would be required to conduct an audit of nurse staffing ratios in a sample of SNFs and to report to Congress by August 1, 2002, on the results of the audit of nurse staffing ratios and recommend whether the additional 16.66 percent payment should be continued.

Section 313. Application of SNF consolidated billing requirement limited to part A covered stays

Effective January 1, 2001, the provision would limit the current law consolidated billing requirement to services and items furnished to SNF residents in a Medicare part A covered stay and to therapy services furnished in part A and part B covered stays.

The Inspector General of HHS would be required to monitor part B payments to SNFs on behalf of residents who are not in a part A covered stay.

Section 314. Adjustment of rehabilitation RUGS to correct anomaly in payment rates

Effective for skilled nursing facility (SNF) services furnished on or after April 1, 2002, the provision would increase by 6.7 percent certain federal per diem payments to ensure that Medicare payments for SNF residents with "ultra high" and "high" rehabilitation therapy needs are appropriate in relation to payments for residents needing "medium" or "low" levels of therapy. The 20 percent additional payment that was provided in BBRA 99 for certain RUGS is removed to make this provision budget neutral.

The Inspector General of HHS would be required to review and report to Congress by October 1, 2001, regarding whether the RUG payment structure as in effect under the BBRA 99 includes incentives for the delivery of inadequate care.

Section 315. Establishment of process for geographic reclassification

The provision would permit the Secretary to establish a process for geographic reclassification of skilled nursing facilities based upon the method used for inpatient hospitals. The Secretary may implement the process upon completion of the data collection necessary to calculate an area wage index for workers in skilled nursing facilities.

SUBTITLE C—HOSPICE CARE

Section 321. 5 Percent increase in payment base

The provision would increase, effective April 1, 2001, the base Medicare daily payment rates for hospice care for fiscal year 2001 by 5 percentage points over the rates otherwise in effect. This increase would continue to apply after fiscal year 2001. The temporary increase in payment rates provided in BBRA 99 for FY2001 and FY2002 (.5

percent and .75 percent, respectively) would not be affected. In addition, the hospice wage index for one Metropolitan Statistical Area for fiscal year 2000 would be adjusted.

Section 322. Clarification of physician certification

Effective for certifications of terminal illness made on or after the date of enactment, the provision would modify current law to specify that the physician's or hospice medical director's certification of terminal illness would be based on his/her clinical judgment regarding the normal course of the individual's illness. The Secretary would be required to study and report to Congress within 2 years of enactment on the appropriateness of certification of terminally ill individuals and the effect of this provision on such certification.

Section 323. MedPAC report on access to, and use of, hospice benefit

The provision would require MedPAC to examine the factors affecting the use of Medicare hospice benefits, including delay of entry into the hospice program and urban and rural differences in utilization rates. The provision would require a report on the study to be submitted to Congress 18 months after enactment.

SUBTITLE D—OTHER PROVISIONS

Section 331. Relief from Medicare Part A late enrollment penalty for group buy-in for state and local retirees

The provision would exempt certain state and local retirees, retiring prior to January 1, 2002, from the Part A delayed enrollment penalties. These would be groups of persons for whom the state or local government elected to pay the delayed Part A enrollment penalty for life. The amount of the delayed enrollment penalty which would otherwise be assessed would be reduced by an amount equal to the total amount of Medicare payroll taxes paid by the employee and the employer on behalf of the employee. The provision would apply to premiums for months beginning with January 1, 2002.

TITLE IV—PROVISIONS RELATING TO PART B

SUBTITLE A—HOSPITAL OUTPATIENT SERVICES

Section 401. Revision of hospital outpatient PPS payment update

The provision would modify the current law update rates applicable to the hospital outpatient PPS by providing in FY2001 an update equal to the full rate of increase in the market basket index. As under current law, the increase in FY 2002 would be the market basket index increase minus one percentage point.

A special rule applies to the OPD PPS rates in 2001: For the period January 2, 2001 through March 31, 2001, the PPS amounts shall be those in effect on the day before implementation of the new law. For the periods April 2001, through December 31, 2001, the PPS amounts in effect during the prior period shall be increased by 0.32%.

Effective as if enacted with BBA 97, if the Secretary determines that updates to the adjustment factor used to convert the relative utilization weights under the PPS into payment amounts have, or are likely to, result in hospitals' changing their coding or classification of covered services, thereby changing aggregate payments, the Secretary would be authorized to adjust the conversion factor in later years to eliminate the effect of coding or classification changes.

Section 402. Clarifying process and standards for determining eligibility of devices for pass-through payments under hospital outpatient PPS

The provision would modify the procedures and standards by which certain medical devices are categorized and determined eligible

for pass-through payments under the PPS. Through public rule-making procedures, the Secretary would be required to establish criteria for defining special payment categories under the PPS for new medical devices. The Secretary would be required to promulgate, through the use of a program memorandum, initial categories that would encompass each of the individual devices that the Secretary had designated as qualifying for the pass-through payments to date. In addition, similar devices not so designated because they were payable under Medicare prior to December 31, 1996, would also be included in initial categories. The Secretary would be required to create additional new categories in the future to accommodate new technologies meeting the "not insignificant cost" test established in BBRA 99.

Once the categories were established, pass-through payments currently authorized under section 1833(t)(b) of the Social Security Act would proceed on a category-specific, rather than device-specific basis. These payments would be designated as "category-based pass-through payments." These payments would be continued to be made for the 2 to 3 years payment period originally specified in BBRA 99, and, for each given category, would begin when the first such payment is made for any device included in a specified category. At the conclusion of this transitional payment period, categories would sunset and payment for the device would be included in the underlying PPS payment for the related service.

Section 403. Application of OPD PPS transitional corridor payments to certain hospitals that did not submit a 1996 cost report

Effective as if enacted with BBRA 99, the provision would modify current law as enacted in BBA 99 to enable all hospitals, not just those hospitals filing 1996 cost reports, to be eligible for transitional payments under the PPS.

Section 404. Application of rules for determining provider-based status for certain entities

The provision would grandfather existing arrangements whereby certain entities (such as outpatient clinics, skilled nursing facilities, etc.) are considered "provider-based" entities, meaning they are affiliated financially and clinically with a hospital. Existing provider-based status designations would continue for two years beginning October 1, 2000. If a facility or organization requests approval for provider-based status during the period October 1, 2000, through September 31, 2002, it could not be treated as if it did not have such status during the period of time the determination is pending. In making such a status determination on or after October 1, 2000, HCFA would treat the applicant as satisfying any requirements or standards for geographic location if it satisfied geographic location requirements in regulations or is located not more than 35 miles from the main campus of the hospital.

An applicant facility or organization would be treated as satisfying all requirements for provider-based status if it is owned or operated by a unit of State or local government or is a public or private nonprofit corporation that is formally granted governmental powers by a unit of State or local government, or is a private hospital that, under contract, serves certain low income households or has a certain disproportionate share adjustment.

These provisions are in effect during a two-year period beginning on October 1, 2000.

Section 405. Treatment of children's hospitals under prospective payment system

The BBRA 99 provides special "hold harmless" payments to ensure that cancer hospitals would receive no less under the hos-

pital outpatient PPS than they would have received, in aggregate, under the "pre-BBA" system, that is, the pre-PPS payment system. Effective as if included in the BBRA 99, the provision would extend this hold harmless protection to children's hospitals.

Section 406. Inclusion of temperature monitored cryoablation

The provision would include temperature monitored cryoablation as part of the transitional pass-through for certain medical devices, drugs, and biologicals under the hospital outpatient prospective payment system, effective April 1, 2001.

SUBTITLE B—PROVISIONS RELATING TO PHYSICIANS SERVICES

Section 411. GAO studied relating to physicians' services

The provision would require the GAO to conduct a study on the appropriateness of furnishing in physicians offices specialist services (such as gastrointestinal endoscopic physicians services) which are ordinarily furnished in hospital outpatient departments. The GAO would not be required to study the refinements to the practice expense relative value made during the transition to the resource-based system.

Section 412. Physician group practice demonstration

The provision would require the Secretary to conduct demonstration projects to test, and if proven effective, expand the use of incentives to health care groups participating under Medicare. Such incentives would be designed to encourage coordination of care furnished under Medicare Parts A and B by institutional and other providers and practitioners; to encourage investment in administrative structures and processes to encourage efficient service delivery; and to reward physicians for improving health outcomes. The Secretary would establish for each group participating in a demonstration, a base expenditure amount and an expenditure target (reflecting base expenditures adjusted for risk and expected growth rates). The Secretary would pay each group a bonus for each year equal to a portion of the savings for the year relative to the target. In addition, at such time as the Secretary had developed appropriate criteria, the Secretary would pay an additional bonus related to process and outcome improvements. Total payments under demonstrations could not exceed what the Secretary estimates would be paid in the absence of the demonstration program.

Section 413. Study on enrollment procedures for groups that retain independent contractor physicians.

The provision would require the Comptroller General to conduct a study of the current Medicare enrollment process for groups that retain independent contractor physicians; particular emphasis would be placed on hospital-based physicians, such as emergency department staffing groups.

SUBTITLE C—OTHER SERVICES

Section 421. One-year extension of moratorium on therapy caps; report on standards for supervision of physical therapy assistants

The provision would extend the moratorium on the physical therapy and occupational therapy caps for 1 year through 2002; it would also extend the requirement for focused reviews of therapy claims for the same period. The Secretary would be required to conduct a study on the implications of eliminating the "in the room" supervision requirements for Medicare payment for physical therapy assistants who are supervised by physical therapists and the implications of this requirement on the physical therapy cap.

Section 422. Update in renal dialysis composite rate

The provision would specify that the composite rate payment for renal dialysis service would be increased by 2.4% for 2001. The provision would require the Secretary to collect data and develop an end-stage renal disease (ESRD) market basket whereby the Secretary could estimate before the beginning of a year the percentage increase in costs for the mix of labor and non-labor goods and services included in the composite rate. The Secretary would report to Congress on the index together with recommendations on the appropriateness of an annual or periodic update mechanism for dialysis services. The Comptroller General would be required to study the access of beneficiaries to dialysis services. There is a hold harmless provision for facilities who received exceptions for their 2000 rates. In addition, facilities which did not apply for an exception in 2000 would have the opportunity to apply during the first 6 months of 2001. Exceptions granted under the hold harmless or granted during the extension period, would continue to apply so long as they provide for higher payment rates. The provision would specify that for the period January 1, 2001–March 31, 2001, the applicable composite rate is the rate in effect before enactment of this provision. The rate in effect for the period April 1, 2001–December 31, 2001 is the rate established under this section increased by a transitional percentage allowance equal to 0.39 percent.

Section 423. Payment for ambulance services

The provision would provide for the full inflation update in ambulance payments for 2001. It would also specify that any phase-in of the ambulance fee schedule would provide for full payment of national mileage rates in states where separate mileage payments were not made prior to implementation of the fee schedule. The provision would specify that for the period January 1, 2001–June 30, 2001, the inflation update would be that determined prior to enactment of this provision. For services furnished from July 1, 2001–December 31, 2001, the update would be 4.7%. The provision relating to mileage payments would be effective July 1, 2001.

Section 424. Ambulatory surgical centers

The provision would delay implementation of proposed regulatory changes to the ambulatory payment classification system, which are based on 1994 cost data, until January 1, 2002. At that time, such changes would be phased in over 4 years: in the first year the payment amounts would be 25 percent of the revised rates and 75 percent of the prior system rates; in the second year payments would be 50 percent of the revised rate and 50 percent of the prior system rates, etc. The provision also requires that the revised system, based on 1999 (or later) cost data, be implemented January 1, 2003. (The phase-in of the revised system and 1994 data would end when the system with 1999 or later data was implemented.)

Section 425. Full updated for durable medical equipment

The provision would modify updates to payments for durable medical equipment. For 2001, the payments for covered DME would be increased by the full increase in the consumer price index for urban consumers (CPI-U) during the 12-month period ending June 2000. In general, in 2002 and thereafter, the annual update would equal the full increase in the CPI-U for the 12 months ending the previous June. The provision specifies that for the period January 1, 2001, through June 30 2000, the applicable amounts paid for DME are the amounts in effect before enactment of the provision. The amounts in effect for

the period July 1, 2001, through December 31, 2001 would be the amounts established under this section increased by a transitional allowance of 3.28%.

Section 426. Full update for orthotics and prosthetics

The provision would modify updates to payments for orthotics and prosthetics. In 2000, the rates would be increased by one percent. In 2001, the increase would be equal to the percentage increase in the CPI-U during the 12-month period ending with June, 2000. For 2002, payments would be increased by one percent over the prior year's amounts. The provision would specify that for the period January 1, 2001, through June 30, 2001, the applicable amounts paid for these items would be the amounts in effect before enactment of this provision. The amounts in effect for the period July 1, 2001, through December 31, 2001, would be amounts established under this section increased by a transitional allowance of 2.6%.

Section 427. Establishment of special payment provisions and requirement for prosthetics and certain custom fabricated orthotic items

Under the provision, certain prosthetics or custom fabricated orthotics would be covered by Medicare if furnished by a qualified practitioner and fabricated by a qualified practitioner or qualified supplier. The Secretary would be required to establish a list of such items in consultation with experts. Within one year of enactment, the Secretary would be required to promulgate regulations to provide these items, using negotiated rulemaking procedures.

Not later than 6 months from enactment, the Comptroller General would be required to submit to Congress a report on the Secretary's compliance with the Administrative Procedures Act with regard to HCFA Ruling 96-1; certain impacts of that ruling; the potential for fraud and abuse in provision of prosthetics and orthotics under special payment rules and for custom fabricated items; and the effect on Medicare payments if that ruling were overturned.

Section 428. Replacement of prosthetic devices and parts

The provision would authorize Medicare coverage for replacement of artificial limbs, or replacement parts for such devices, if ordered by a physician for specified reasons. Effective for items furnished on or after enactment, coverage would apply to prosthetic items 3 or more years old, and would supersede any 5-year age rules for such item under current law.

Section 429. Revised part B payment for drugs and biologicals and related services

The provision would require the Comptroller General to study and submit a report to Congress and the Secretary on the reimbursement for drugs and biologicals and for related services under Medicare; the report would include specific recommendations for revised payment methodologies. The Secretary would revise the current payment methodologies for covered drugs and biologicals and related services based on these recommendations; however, total payments under the revised methodologies could not exceed the aggregate payments the Secretary estimates would have been made under the current law. The provision would establish a moratorium on reductions in payment rates, in effect on January 1, 2001, until the Secretary reviewed the GAO report.

Section 430. Contrast enhanced diagnostic procedures under hospital prospective Payment system

The provision would require the Secretary to create under the hospital outpatient PPS additional and separate groups of covered

services which include procedures that utilize contrast agents and would include contrast agents within the definition of "drugs" for purposes of the Medicare title. The provision would apply to items and services furnished on or after July 1, 2001.

Section 431. Qualification for community mental health centers

The provision would clarify the qualifications for community mental health centers providing partial hospitalization services under Medicare.

Section 432. Modification of Medicare billing requirements for certain Indian providers

The provision would authorize hospitals and free-standing ambulatory care clinics of the Indian Health Service or operated by a tribe or tribal organization to bill Medicare Part B for certain services furnished at the direction of the hospital or clinic. Services covered under the provision are those furnished under the physician fee schedule, and services furnished by a practitioner or therapist under a fee schedule. The provision would be effective July 1, 2001.

Section 433. GAO study on coverage of surgical first assisting services of certified registered nurse first assistants

The provision would require the Comptroller General to conduct a study on the effect on both the program and beneficiaries of covering surgical first assisting services of certified registered nurse first assistants.

Section 434. MedPAC study and report on Medicare reimbursement for services provided by certain providers

The provision would require MedPAC to conduct a study on the appropriateness of current payment rates for services provided by a certified nurse midwife, physician assistant, nurse practitioner, and clinical nurse specialist, including specifically for orthopedic physician assistants.

Section 435. MedPAC study and report on Medicare coverage of services provided by certain non-physician providers

The provision would require MedPAC to conduct a study to determine the appropriateness of Medicare coverage of the services provided by a surgical technologist, marriage counselor, pastoral care counselor, and licensed professional counselor of mental health.

Section 436. GAO study and report on the costs of emergency and medical transportation services

The provision would require the Comptroller General to conduct a study of the costs of providing emergency and medical transportation services across the range of acuity levels of conditions for which such transportation services are provided.

Section 437. GAO studies and reports on Medicare payments

The provision would require the Comptroller General to conduct a study on the post-payment audit process for physicians services. The study would include the proper level of resources HCFA should devote to educating physicians regarding coding and billing, documentation requirements, and calculation of overpayments. The Comptroller General would also be required to conduct a study of the aggregate effects of regulatory, audit, oversight and paperwork burdens on physicians and other health care providers participating in Medicare.

Section 438. MedPAC study on access to outpatient plan management services

The provision would require MedPAC to conduct a study on the barriers to coverage and payment for outpatient intervention pain medicine procedures under Medicare.

TITLE V—PROVISION RELATING TO PARTS A AND B

SUBTITLE A—HOME HEALTH SERVICES

Section 501. 1-Year additional delay in application of 15 percent reduction on payment limits of home health services

The provision would require that the aggregate amount of Medicare payments to home health agencies in the second year of the PPS (FY 2002) shall be the aggregate payments in the first year of the PPS, updated by the market basket index (MBI) increase minus 1.1 percentage points. The 15 percent reduction to aggregate PPS amounts, which, under current law, would go into effect October 1, 2001, would be delayed until October 1, 2002.

The Comptroller General (rather than the Secretary) would be required to submit, by April 1, 2002, a report analyzing the need for the 15 percent or other reduction.

If the Secretary determines that updates to the PPS system for a previous fiscal year (or estimates of such adjustments for a future fiscal year) did (or are likely to) result in a change in aggregate payments due to changes in coding or classification of beneficiaries' service needs that do not reflect real changes in case mix, effective for home health episodes concluding on or after October 1, 2001, the Secretary may adjust PPS amounts to eliminate the effect of such coding or classification changes.

Section 502. Restoration of full home health market basket update for home health services for fiscal year 2001

The provision would modify the home health PPS updates. During the period October 1, 2000, through March 31, 2001, the rates promulgated in the home health PPS regulations on July 3, 2000, would apply for 60-day episodes of care (or visits) ending in that period. For the period April 1, 2001, through September 31, 2001, those rates would be increased by 2.2 percent for 60-day episodes (or visits) ending in that time period. This increase would be included in determining subsequent payment amounts.

Section 503. Temporary two-month periodic interim payment

The provision would provide for a one-time payment for certain home health agencies that were receiving periodic interim payments under current law. Home health agencies that were receiving such payments as of September 30, 2000, receive a one-time payment equal to four times the last 2-week payment the agency received before implementation of the home health PPS on October 1, 2000. The amounts would be included in the agency's last settled cost report before implementation of the PPS.

Section 504. Use of telehealth in delivery of home health services

The provision would clarify that the telecommunications provisions should not be construed as preventing a home health agency from providing a service, for which payment is made under the prospective payment system, via a telecommunications system, provided that the services do not substitute for "in-person" home health services ordered by a physician as part of a plan of care or are not considered a home health visit for purposes of eligibility or payment.

Section 505. Study on costs to home health agencies of purchasing nonroutine medical supplies

The provision would require that, not later than August 15, 2001, the Comptroller General shall submit to Congress a report regarding the variation in prices home health agencies pay for nonroutine supplies, the volume of supplies used, and what effect the variations have on the provision of services.

The Secretary would be required to make recommendations on whether Medicare payment for those supplies should be made separately from the home health PPS.

Section 506. Treatment of branch offices; GAO study on supervision of home health care provided in isolated rural areas

The provision would clarify that neither time nor distance between a home health agency parent office and a branch office shall be the sole determinant of a home health agency's branch office status. The Secretary would be authorized to include forms of technology in determining "supervision" for purposes of determining a home health agency's branch office status.

Not later than January 1, 2002, the Comptroller General would be required to submit to Congress a report regarding the adequacy of supervision and quality of home health services provided by home health agency branch offices and submits in isolated rural areas and to make recommendations on whether national standards for supervision would be appropriate in assuring quality.

Section 507. Clarification of the homebound benefit

The provision clarifies that the need for adult day care for a patient's plan of treatment does not preclude appropriate coverage for home health care for other medical conditions. The provision also clarifies the ability of homebound beneficiaries to attend religious services without being disqualified from receiving home health benefits.

Section 508. Temporary increase for home health services furnished in a rural area

For home health services furnished in certain rural areas during the 2-year period beginning April 1, 2001, Medicare payments are increased by 10%, without regard to budget neutrality for the overall home health prospective payment system. This temporary increase would not be included in determining subsequent payments.

SUBTITLE B—DIRECT GRADUATE MEDICAL EDUCATION

Section 511. Increase in floor for direct graduate medical education payments

A hospital's approved per resident amount for cost reporting periods beginning during FY 2002 would not be less than 85% of the locality adjusted national average per resident amount.

Section 512. Change in distribution formula for Medicare+Choice related nursing and allied health education costs

A hospital would receive nursing and allied health payments for Medicare managed care enrollees based on its per day cost of allied and nursing health programs and number of days attributed to Medicare enrollees in comparison to that in all other hospitals. The provision would be effective for portions of cost reporting periods occurring on or after January 1, 2001.

SUBTITLE C—CHANGES IN MEDICARE COVERAGE AND APPEALS PROCESS

Section 521. Revisions to Medicare appeals process

The provision would modify the Medicare appeals process. Generally, initial determinations by the Secretary would be concluded no later than 45 days from the date the Secretary received a claim for benefits. Any individual dissatisfied with the initial determination would be entitled to a redetermination by the carrier or fiscal intermediary would make the initial determination. Such redetermination would be required to be completed within 30 days of a beneficiary's request. Beneficiaries could appeal the outcome of a redetermination by seeking a reconsideration. Generally, a re-

quest for a reconsideration must be initiated no later than 180 days after the date the individual receives the notice of an adverse redetermination. In addition, if contested amounts are greater than \$100, an individual would be able to appeal an adverse reconsideration decision by requesting a hearing by the Secretary (for a hearing by an administrative law judge, then in certain circumstances, for a hearing before the Department of Appeals Board). If the dispute is not satisfactorily resolved through this administrative process, and if contested amounts are greater than \$1,000, the individual would be able to request judicial review of the Secretary's final decision. Aggregation of claims to meet these thresholds would be permitted.

An expedited determination would be available for a beneficiary who receive notice: 1) that a provider plans to terminate services and a physician certifies that failure to continue the provisions of the services is likely to place the beneficiary's health at risk; or 2) that the provider plans to discharge the beneficiary.

The Secretary would enter into 3-year contracts with at least 12 qualified independent contractors (QICs) to conduct reconsiderations. A QIC would promptly notify beneficiaries and Medicare claims processing contractors of its determinations. A beneficiary could appeal the decision of a QIC to an ALJ. In cases where the ALJ decision is not rendered within the 90-day deadline, the appealing party would be able to request a DAB hearing.

The Secretary would perform outreach activities to inform beneficiaries, providers, and suppliers of their appeal rights and procedures. The Secretary would submit to Congress an annual report including information on the number of appeals for the previous year, identifying issues that require administrative or legislative actions, and including recommendations for change as necessary. The report would also contain an analysis of the consistency of the QIC determinations as well as the cause for any identified inconsistencies.

Section 522. Revisions to Medicare coverage process

The provision would clarify when and under what circumstances Medicare coverage policy could be challenged. An aggrieved party could file a complaint concerning a national coverage decision. Such complaint would be reviewed by the Department Appeals Board (DAB) of HHS. The provision would also permit an aggrieved party to file a complaint concerning a local coverage determination. In this case, the determination would be reviewed by an administrative law judge. If unsatisfied, complainants could subsequently seek review of such a local policy by the DAB. In both cases, a DAB decision would constitute final HHS action, and would be subject to judicial review. The Secretary would be required to implement DAB decisions and ALJ decisions (in the case of a local coverage policy) within 30 days. The provision would also permit an affected party to submit a request to the Secretary to issue a national coverage or non-coverage determination if one has not been issued. The Secretary would have 90 days to respond. HHS would be required to prepare an annual report on national coverage determinations.

SUBTITLE D—IMPROVING ACCESS TO NEW TECHNOLOGIES

Section 531. Reimbursement improvements for new clinical laboratory tests and durable medical equipment

The provision would specify that the national limitation amount for a new clinical laboratory test would equal 100% of the na-

tional median for such test. The Secretary would be required to establish procedures that permit public consultation for coding and payment determinations for new clinical diagnostic laboratory tests and new durable medical equipment. The Secretary would be required to report to Congress on specific procedures used to adjust payments for advanced technologies; the report would include recommendations for legislative changes needed to assure fair and appropriate payments.

Section 532. Retention of HCPCS level III codes

The provision would extend the time for the use of local codes (known as HCPCS level III codes) through December 21, 2003; the Secretary would be required to make the codes available to the public.

Section 533. Recognition of new medical technologies under Medicare inpatient hospital PPS

The Secretary would be required to submit a report to Congress no later than April 1, 2001, on potential methods for more rapidly incorporating new medical services and technologies used in the inpatient setting in the clinical coding system used with respect to payment for inpatient services. The Secretary would be required to identify the preferred methods for expediting these coding modifications in her report, and to implement such method by October 1, 2001. Additional hospital payments could be made by means of a new technology group (DRG), an add-on payment, payment adjustment or other mechanism. However, separate fee schedules for additional new technology payments would not be permitted. The Secretary would implement the new mechanism on a budget neutral basis. The total amount of projected additional payments under the mechanism would be limited to an amount not greater than the Secretary's annual estimation of the costs attributable to the introduction of new technology in the hospital sector as a whole (as estimated for purposes of the annual hospital update calculation).

SUBTITLE E—OTHER PROVISIONS

Section 541. Increase in reimbursement for bad debt

Effective beginning with cost reports starting in FY2001, the provision would increase the percentage of the reasonable costs associated with beneficiaries' bad debt in hospitals that Medicare would reimburse to 70%.

Section 542. Treatment of certain physician pathology services under Medicare

The provision would permit independent laboratories, under a grandfather arrangement to continue, for a 2-year period (2001–2002), direct billing for the technical component of pathology services provided to hospital inpatients and hospital outpatients. The Comptroller General would be required to conduct a study of the effect of these provisions on hospitals and laboratories and access of fee-for-service beneficiaries to the technical component of physician pathology services. The report would include recommendations on whether the provisions should continue after the 2-year period for either (or both) inpatient and outpatient hospital services and whether the provision should be extended to other hospitals.

Section 543. Extension of advisory opinion authority

The Office of the Inspector General's authority to issue advisory opinions to outside parties who request guidance on the applicability of the anti-kickback statute, safe harbor provisions and other OIG health care fraud and abuse sanctions would be made permanent.

Section 544. Change in annual MedPAC reporting

The provision would delay the reporting date for the MedPAC report on issues affecting the Medicare program by 15 days to June 15. The provision would also require record votes on recommendations contained both in this report and the March report on payment policies.

Section 545. Development of patient assessment instruments

The provision would require the Secretary to report to the Congress on the development of standard instruments for the assessment of the health and functional status of patients and make recommendations on the use of such standard instruments for payment purposes.

Section 546. GAO report on impact of the Emergency Medical Treatment and Active Labor Act (EMTALA) on hospital emergency departments

GAO would be required to evaluate the impact of the Emergency Medical Treatment and Active Labor Act on hospitals, emergency physicians, and on-call physicians covering emergency departments and to submit a report to Congress by May 1, 2001.

Section 547. Clarification of application of temporary payment increases for 2001

The special increases and adjustments of the acute hospital payment update, the indirect medical education adjustment, and the disproportionate share hospital adjustment that are in effect between April and October 2001 do not apply to discharges after FY 2001 and are not included in determining subsequent payments.

Special update payments under the skilled nursing facility prospective payment system between April and October 2001 would not apply to SNF services furnished after that period and would not be included when determining payments for the subsequent period.

Special market basket update payments under the home health prospective payment system between April and October 2001 would not be included in determining subsequent payments. Also, temporary payments to certain rural home health agencies from April 1, 2001, through September 30, 2002, would not be included in determining subsequent payments.

TITLE VI—PROVISIONS RELATING TO PART C (MEDICARE+CHOICE PROGRAM) AND OTHER MEDICARE MANAGED CARE PROVISIONS

SUBTITLE A—MEDICARE+CHOICE PAYMENT REFORMS

Section 601. Increase in minimum payment amount

The provision would set the minimum payment amount for aged enrollees within the 50 states and the District of Columbia in a Metropolitan Statistical Area with a population of more than 250,000 at \$525 in 2001. For all other areas within the 50 States and the District of Columbia, the minimum would be \$475. For any area outside the 50 States and the District of Columbia, the \$525 and \$475 minimum amounts would also be applied, except that the 2001 minimum payment amount could not exceed 120% of the 2000 minimum payment amount. This increase would go into effect March 1, 2001.

Section 602. Increase in minimum percentage increase

This provision would apply a 3% minimum update in 2001 and return to the current law minimum update of 2% thereafter. This increase would go into effect March 1, 2001.

Section 603. Phase in of risk adjustment

The current risk adjustment methodology (in which 10% of payments would be based on

risk-adjusted inpatient data built on the 15 principal inpatient diagnostic cost groups (PIP-DCGs) and 90% would be adjusted solely using the older demographic method) would continue through 2003. Beginning in 2004, the risk adjustment would be based on data from inpatient hospital and ambulatory settings and the risk adjustment would be phased in at 30% for 2004, 50% for 2005, 75% for 2006, and 100% for 2007 and subsequent years.

Section 604. Transition to revised Medicare+Choice payment rates

Within 2 weeks after the date of enactment of the Act, the Secretary must announce revised M+C capitation rates for 2001, due to changes from this Act. Plans that previously provided notice of their intention to terminate contracts or reduce their service area for 2001 would have 2 weeks after announcement of the revised rates to rescind their notice and submit ACR information. Further, any M+C organization that would receive higher capitation payments as a result of this Act must submit revised ACR information within 2 weeks after announcement of the revised rates. Plans may only reduce premiums, reduce cost sharing, enhance benefits, or utilize stabilization funds. Any regulations that limit stabilization fund amounts would be waived, with respect to ACR submissions under this section of the bill. Notwithstanding the issuance of revised rates, M+C organizations would continue to be paid on a fee-for-service basis for costs associated with new national coverage determinations that are made mid-year.

Section 605. Revision of payment rates for ESRD patients enrolled in Medicare+Choice plans

This provision would require that the Secretary increase the M+C payment rates for enrollees with ESRD. The revised rates would reflect the demonstration rate (including the risk-adjustment methodology) of social health maintenance organizations' ESRD capitation demonstrations. The revised rates would include adjustments for factors such as renal treatment modality, age, and underlying cause of the disease. These revised rates would be effective beginning in January 2002, and the Secretary of HHS would be required to publish the adjustments in final form by July 1, 2001.

Section 606. Permitting premium reductions as additional benefits under Medicare+Choice plans

This provision would permit M+C plans to offer reduced Medicare Part B premiums to their enrollees as part of providing any required additional benefits or reduced cost-sharing. An M+C organization could elect a reduction in its M+C payment up to 125% of the annual Part B premium. However, only 80% of this amount could be used to reduce an enrollee's actual Part B premium. This would have the effect of returning up to 100% of the beneficiary's Part B premium. The reduction would apply uniformly to each enrollee of the M+C plan. Plans would include information about Part B premium reductions as part of the required information that is provided to enrollees for comparing plan options. This provision would be effective beginning in 2003.

Section 607. Full implementation of risk adjustment for congestive heart failure enrollees for 2001

This provision would fully implement risk adjustment based on inpatient hospital diagnoses for an individual who had a qualifying congestive heart failure inpatient diagnosis between July 1, 1999 and June 30, 2000, if that individual was enrolled in a coordinated care plan offered on January 1, 2001. This would apply for only 1 year, beginning on January 1, 2001. This payment amount would be excluded from the determination of the budget neutrality factor.

Section 608. Expansion of application of Medicare+Choice new entry bonus

This provision would expand the application of the new entry bonus for M+C plans to include areas for which notification had been provided, as of October 3, 2000, that no plans would be available January 1, 2001.

Section 609. Report on inclusion of certain costs of the Department of Veterans Affairs and Military Facility Services in calculating Medicare+Choice payment rates

The Secretary shall report to Congress by January 1, 2003, on a method to phase-in the costs of military facility services furnished by the Department of Veterans Affairs or the Department of Defense to Medicare-eligible beneficiaries in the calculation of an area's M+C capitation payment. This report would include, on a county-by-county basis: the actual or estimated costs of such services to Medicare-eligible beneficiaries; the change in M+C capitation payment rates if such costs were included in the calculation of payment rates; one or more proposals for the implementation of payment adjustments to M+C plans in counties where the payment rate has been affected due to failure to account for the cost of such services; and a system to ensure that when a M+C enrollee receives covered services through a facility of these Departments, there is an appropriate payment recovery to the Medicare program.

SUBTITLE B—OTHER MEDICARE+CHOICE REFORMS

Section 611. Payments of additional amounts for new benefits covered during a contract term

The provision would require payment adjustments to M+C plans if a legislative change resulted in significant increased costs, similar to the current law requirements for adjusting payments due to significant increased costs resulting from National Coverage Determination (NCDs). In addition, this provision would require that cost projections and payment adjustments be based on actuarial estimates provided by the Chief Actuary of the Health Care Financing Administration.

Section 612. Restriction on implementation of significant new regulatory requirements mid-year

The provision would preclude the Secretary from implementing, other than at the beginning of a calendar year, regulations that impose new, significant regulatory requirements on M+C organizations.

Section 613. Timely approval of marketing material that follows model marketing language

The provision would require the Secretary to make decisions, within 10 days, approving or modifying marketing material used by M+C organizations, provided that the organization uses model language specified by the Secretary. This provision would apply to marketing material submitted on or after January 1, 2001.

Section 614. Avoiding duplicative regulation

This provision would further stipulate when Medicare law preempts State law or regulation from applying to M+C plans, by specifying that the term benefit requirements includes cost-sharing requirements. Second, the provision would stipulate that State laws and regulations affecting marketing materials, and summaries and schedules of benefits regarding an M+C plan, would also be preempted by Medicare law.

Section 615. Election of uniform local coverage policy for Medicare+Choice plan covering multiple localities

An M+C organization offering a plan in an area with more than one local coverage policy would be able to elect to have the local coverage policy for the part of the area that

is most beneficial to M+C enrollees (as identified by the Secretary) apply to all M+C enrollees enrolled in the plan.

Section 616. Eliminating health disparities in Medicare+Choice Program

This provision would expand the M+C quality assurance programs for M+C plans to include a separate focus on racial and ethnic minorities. The Secretary would also be required to report to Congress how the quality assurance programs focus on racial and ethnic minorities, within 2 years after enactment and biennially thereafter.

Section 617. Medicare+Choice Program compatibility with employer or union group health plans

In order to make the M+C program compatible with employer or union group health plans, this provision would allow the Secretary to waive or modify requirements that hinder the design of, offering of, or enrollment in certain M+C plans. Plans included in the category are M+C plans under contract between M+C organizations and employers, labor organizations, or trustees of a fund established by employers and/or labor organizations.

Section 618. Special Medigap enrollment anti-discrimination provision for certain beneficiaries

This provision would extend the period for Medigap enrollment for certain M+C enrollees affected by termination of coverage. For individuals enrolled in an M+C plan during a 12-month trial period, their trial period would begin again if they re-enrolled in another M+C plan because of an involuntary termination. During this new trial period, they would retain their rights to enroll in a Medigap policy; however, the total time for a trial period could not exceed 2 years from the time they first enrolled in an M+C plan.

Section 619. Restoring effective date of elections and changes of elections of Medicare+Choice plans

This provision would allow individuals who enroll in an M+C plan after the 10th day of the month to receive coverage beginning on the first day of the next calendar month, effective June 1, 2001.

Section 620. Permitting ESRD beneficiaries to enroll in another Medicare+Choice plan if the plan in which they are enrolled is terminated

This provision would permit ESRD beneficiaries to enroll in another M+C plan if they lost coverage when their plan terminated its contract or reduced its service area. This provision would also be retroactive, to include individuals whose enrollment in an M+C plan was terminated involuntarily on or after December 31, 1998.

Section 621. Providing Choice for skilled nursing facility services under the Medicare+Choice Program

Effective for M+C contracts entered into or renewed on or after the date of enactment, the provision would require an M+C plan to cover post-hospitalization skilled nursing care through an enrollee's "home skilled nursing facility" if the plan has a contract with the facility or if the home facility agrees to accept substantially similar payment under the same terms and conditions that apply to similarly situated SNFs that are under contract with the plan. A "home skilled nursing facility" is defined as (a) one in which the enrollee resided at the time of the hospital admission that triggered eligibility for SNF care upon discharge, or (b) is the facility that is providing such services through the continuing care retirement community in which the enrollee resided at the time of hospital admission, or (c) is the facility in which the spouse of the enrollee is re-

siding at the time of the enrollee's hospital discharge. The beneficiary would be required to receive coverage for SNF care at the home facility that is no less favorable than he or she would receive otherwise in another SNF that has a contract with the plan.

Home skilled nursing facilities are permitted to refuse to accept Medicare+Choice enrollees or to impose conditions on their acceptance of such an enrollee.

The provision would require the Medicare Payment Advisory Commission (MedPAC) to analyze and, within 2 years of enactment, report to Congress on the effects of this provision on the scope of benefits, administrative and other costs incurred by M+C organizations, and the contractual relationships between those plans and SNFs.

Section 622. Providing for accountability of Medicare+Choice plans

The provision would mandate review of ACR submissions by the HCFA Chief Actuary with respect to submissions for ACRs filed on or after May 1, 2001.

Section 623. Increased civil money penalties for Medicare+Choice organizations that terminate contracts mid-year

The provision would increase to \$100,000 (or such higher level as the Secretary of Health and Human Services) the maximum civil money penalty that could be imposed for a Medicare+Choice organization that terminates its Medicare+Choice contract, other than at an appropriate time after providing appropriate notice.

SUBTITLE C—OTHER MANAGED CARE REFORMS
Section 631. 1-Year extension of social health maintenance organization (SHMO) demonstration project

The provision would extend SHMO waivers until 30 months after the Secretary submits a report with a plan for integration and transition of SHMOs into an option under the M+C program. This 30-month extension would supersede the 18-month extension in BBRA 99.

Section 632. Revised terms and conditions for extension of Medicare community nursing organization (CNO) demonstration project

Effective as if enacted with BBRA99, the provision would eliminate the requirement that CNO capitated payments be reduced to ensure budget neutrality. Through December 2001, the projects would operate under the same terms and conditions applicable during 1999, but with modification to the capitation rates. From October 1, 2000, through December 31, 2000, the capitation rates would be adjusted for inflation since 1999 and for changes in service packages, but reduced by 10 percent for in projects in Arizona, Minnesota, and Illinois and by 15 percent in New York. In 2001, the rates would be determined by actuarially adjusting the rates in the prior period for inflation, utilization, and changes to the service package. Adjustments would be made to case management fees for certain frail enrollees, and requirements would be imposed to create greater uniformity in clinical features among participating sites and to improve quality and enrollee satisfaction.

By July 1, 2001, the Secretary would be required to submit to the House Committees on Ways and Means and Commerce and the Senate Committee on Finance a report evaluating the projects for the period July 1997 through December 1999 and for the extension period after September 30, 2000. A final report would be required by July 1, 2002. The provision would require certain methods to be used to compare spending per beneficiary under the projects.

Section 633. Extension of Medicare municipal health services demonstration projects

The provision would extend the Medicare municipal health services demonstration

projects for 2 additional years, through December 31, 2004.

Section 634. Service area expansion for Medicare cost contracts during transition period

This provision would allow service area expansion for Medicare cost contracts, if the request was submitted to the Secretary before September 1, 2003.

TITLE VII—MEDICAID

Section 701. DSH payments

(a) Modifications to DSH allotments

For FY2001, the provision would set each state's DSH allotment equal to its allotment for FY2000 increased by the percentage change in the consumer price index for that year, subject to a ceiling that would be equal to 12% of that state's total medical assistance payments in that year.

For FY2002, the provision would set each state's DSH allotment equal to its allotment for 2001 as determined above, increased by the percentage change in the consumer price index for FY2001, subject to a ceiling equal to 12% of that state's total medical assistance payments in that year.

For extremely low DSH states, states whose FY1999 federal and state DSH expenditures (as reported to HCFA on August 31, 2000) are greater than zero but less than one percent of the state's total medical assistance expenditures during that fiscal year, the DSH allotments for FY2001 would be equal to 1 percent of the state's total amount of expenditures under their plan for such assistance during that fiscal year. For subsequent fiscal years, the allotments for extremely low DSH states would be equal to their allotment for the previous year, increased by the percentage change in the consumer price index for the previous year, subject to a ceiling of 12% of that state's total medical assistance payments in that year.

Effective on the date that the final regulation for Medicaid upper payment limits is published in the Federal Register.

(b) Assuring identification of Medicaid managed care patients

Effective for Medicaid managed care contracts in effect on January 1, 2000, the provision would clarify that Medicaid enrollees of managed care organizations and primary care case management organizations are to be included for the purposes of calculating the Medicaid inpatient utilization rate and the low-income utilization rate. Also effective January 1, 2001, states must include in their MCO contracts information that allows the state to determine which hospital services are provided to Medicaid beneficiaries through managed care, and would also require states to include a sponsorship code for the managed care entity on the Medicaid beneficiary's identification card.

(c) Application of Medicaid DSH transition rule to public hospitals in all states

The provision would revise BBA97, as modified by BBRA 99, so that the 175% hospital-specific DSH limit would apply to qualifying public hospitals in all states. (The limit currently applies only to certain public hospitals in California.) The limit, allowing DSH payments of up to 175% of each hospital's cost of unreimbursed care, would apply for two state fiscal years beginning on the first day of the state fiscal year that begins after September 30, 2002, and ends on the last day of the succeeding state fiscal year. Hospitals that would qualify for the higher hospital-specific limit would be those owned or operated by a state and meet the minimum federal requirements for disproportionate share hospitals. The permanent ceiling for California would not be affected.

For states operating under waivers approved under section 1115 of the Social Security Act, increase payments for public hospitals under this provision would be included

in the baseline expenditure limit for the purposes of determining budget neutrality.

(d) Assistance for certain public hospitals

The provision would provide additional funds for certain public hospitals that are: owned or operated by a state (or by an instrumentality or unit of government within a state); are not receiving DSH payments as of October 1, 2000; and have a lot-income utilization rate in excess of 65% as of the same date. Funds provided under this section to states with eligible hospitals are in addition to DSH allotments. The total assistance under this section for all states cannot exceed the following amounts: \$15 million for FY2002; \$176 million for 2003; \$269 million for 2004; \$330 million for 2005 and for FY 2006 and each fiscal year thereunder, \$375 million.

(e) DSH payment accountability standards

The provision would require the Secretary to implement accountability standards to ensure that DSH payments are used to reimburse States and hospitals that are eligible for such payments and are otherwise in accordance with Medicaid statutory requirements.

Section 702. New prospective payment system for Federally-qualified health centers and rural health clinics

The provision would create a new Medicaid prospective payment system for federally qualified health centers (FQHCs) and rural health centers (RHCs) beginning in January of FY2001. Existing FQHCs and RHCs would be paid per visit payments equal to 100% of the average costs incurred during 1999 and 2000 adjusted to take into account any increase or decrease in the scope of services furnished. For entities first qualifying as FQHCs or RHCs after 2000, the year visit payments would begin in the first year that the center or clinic attains qualification and would be based on 100% of the costs incurred during that year based on the rates established for similar centers or clinics with similar caseloads in the same or adjacent geographic area. In the absence of such similar centers or clinics, the methodology would be based on that used for developing rates for established FQHCs or RHCs or such methodology or reasonable specifications as established by the Secretary. For each fiscal year thereafter, per visit payments for all FQHCs and RHCs would be equal to amounts for the preceding fiscal year increased by the percentage increase in the Medicare Economic Index applicable to primary care services for that fiscal year, and adjusted for any increase or decrease in the scope of Services furnished during the fiscal year. In managed care contracts, States must make supplemental payments to the center or clinic that would be equal to the difference between contracted amounts and the cost-based amounts. Those payments would be paid on a schedule mutually agreed to by the State and the FQHC or RHC. Alternative payment methods would be permitted only when payments are at least equal to amounts otherwise provided.

The provision would also direct the Comptroller General to provide for a study on how to rebase or refine cost payment methods for the services of FQHCs and RHCs. The report would be due to Congress no later than 4 years after the date of enactment.

Section 703. Streamlined approval of continued state-wide 1115 Medicaid waivers

The provision would define the process for submitting requests for and receiving extensions of Medicaid demonstration waivers authorized under Section 1115 of the Social Security Act that have already received initial 3-year extensions. It would require each state requesting such an extension to submit an application at least 120 days prior to the

expiration date of the existing extension to submit an application at least 120 days prior to the expiration date of the existing waiver. No later than 45 days after the Secretary receives such application, the Secretary would be required to notify the State if she intends to review the existing terms and conditions of the project and would inform the State of proposed changes in the terms and conditions of the waiver. If the Secretary fails to provide such notification, the request would be deemed approved. During the 30-day period beginning after the Secretary provides the proposed terms and conditions to the state, those terms and conditions would be negotiated. No later than 120 days after the date that the request for extension was submitted (or such later date as agreed to by the chief executive officer of the State) the Secretary would be required to approve the application subject to the agreed upon terms and conditions or, in the absence of an agreement, such terms and conditions that are determined by the Secretary to be reasonably consistent with the overall objective of the waiver, or disapprove the application. If the waiver is not approved or disapproved during this period, the request would be deemed approved in the terms and conditions as have been agreed to (if any) by the Secretary and the State. Approvals would be for periods not to exceed 3 year and would be subject to the final reporting and evaluation requirements in current law.

Section 704. Medicaid county-organized health systems

The provision would allow the current exemption for certain Health Insuring Organizations (HIOs) from certain Medicaid HMO contracting requirements to apply as long as no more than 14% of all Medicaid beneficiaries in the state are enrolled in those HIOs. This provision would be effective as if included in the enactment of the Consolidated Omnibus Budget Reconciliation Act of 1985.

Section 705. Deadline for issuance of final regulation relating to Medicaid upper payment limits

The provision would require the Secretary to issue final regulations governing upper payment limits (UPLs) for inpatient and outpatient services provided by certain types of facilities no later than December 31, 2000. It would also require that the final regulation establish a separate UPL for non-state-owned or operated government facilities based on a proposed rule announced in October, 2000.

The proposed rule would specify two transition periods for states with payment arrangements that are noncompliant, one for states with such arrangements effective on or after October 1, 1999 and the other for those states with arrangements that were effective before that date. The starting point of the phase-out of existing payment arrangements, the percentage reduction in payments each year, and the overall length of time permitted for full phase-out would vary for the two transition periods.

The provision also requires the final regulation to stipulate a third set of rules governing the transition period for certain states. This additional set of rules would apply to states with payment arrangements approved or in effect on or before October 1, 1992, or under which claims for federal matching were paid on or before that date, and for which such payments exceed the UPLs established under the final regulation. For these states, a 6-year transition period would apply, beginning with the period that begins on the first state fiscal year that starts after September 30, 2002 and ends on September 30, 2008. For each year during the transition period, applicable states must re-

duce excess payments by 15%. Full compliance with final regulations is required by October 1, 2008.

Section 706. Alaska FMAP

The provision would change the formula for calculating the state percentage and thus the federal matching percentage for Alaska for fiscal years 2001 through 2005. The state percentage for Alaska would be calculated by using an adjusted per capita income calculation instead of the state-wide average per capita income calculation generally used. The adjusted per capita income for Alaska would be calculated as the three year average per capita income for the state divided by 1.05.

Section 707. 1-Year extension of welfare-to-work transition

This provision extends by 1 year the sunset on transitional medical assistance for families no longer eligible for welfare from September 30, 2001 to September 30, 2002.

Section 708. Additional entities qualified to determine Medicaid presumptive eligibility for low-income children

Under Medicaid presumptive eligibility rules, States are allowed to temporarily enroll children whose family income appears to be below Medicaid income standards, until a final formal determination of eligibility is made.

The provision adds several entities to the list of those qualified to make Medicaid presumptive eligibility determinations for children. These new entities include agencies that determine eligibility for Medicaid or the State Children's Health Insurance program; or certain elementary and secondary schools, including those operated or supported by the Bureau of Indian Affairs.

Section 709. Development of uniform QMB/SLMB application form

This provision requires the secretary of Health and Human Services to develop a simplified national application form for States, at their option, to use for individuals who apply for medical assistance for medicare cost-sharing under the medicaid program.

Section 710. Technical corrections

This provision makes technical medicaid amendments that exempt from certain upper income limitations individuals made eligible for medical assistance, at a State's option, under the Foster Care Independence Act of 1999 and under the Breast and Cervical Cancer Prevention and Treatment Act of 2000.

TITLE VIII—STATE CHILDREN'S HEALTH INSURANCE PROGRAM

Section 801. Special rule for redistribution and availability of unused fiscal year 1998 and 1999 SCHIP allotments

The provision would establish a new method for distributing unspent FY1998 and FY1999 allotments. States that use all their SCHIP allotments (for each of those years) would receive an amount equal to estimated spending in excess of their original exhausted allotment. Each territory that spends its original allotment would receive an amount that bears the same ratio to 1.05% of the total amount available for redistribution as the ratio of its original allotment to the total allotment for all territories.

States that do not use all their SCHIP allotment would receive an amount equal to the total amount of unspent funds, less amounts distributed to states that fully exhausted their original allotments, multiplied by the ratio of a state's unspent original allotment to the total amount of unspent funds. States may use up to 10% of the retained FY1998 funds for outreach activities.

To calculate the amounts available for redistribution in each formula described above,

the Secretary would use amounts reported by states not later than December 15, 2000 for the FY1998 redistribution and November 30, 2001 for the FY1999 redistribution as reported on HCFA Form 64 or HCFA Form 21, as approved by the Secretary. Redistributed funds would be available through the end of FY2002.

Section 802. Authority to pay Medicaid expansion SCHIP costs from title XXI appropriation

This provision provides a technical accounting clarification requested by the Health Care Financing Administration. It would authorize the payment of the costs of SCHIP Medicaid expansions and costs of benefits provided during periods of presumptive eligibility from the SCHIP appropriation rather than from the Medicaid appropriation, with a subsequent offset. In addition, the provision would codify proposed rules regarding the order of payments for benefits and administrative costs from state-specific SCHIP allotments.

Section 803. Application of Medicaid child presumptive eligibility provisions

Under Medicaid presumptive eligibility rules, states are allowed to temporarily enroll children whose family income appears to be below Medicaid income standards, until a final formal determination of eligibility is made. There is no express provision for presumptive eligibility under separate (non-Medicaid) SCHIP programs. However, the Secretary of HHS permits states to develop, for separate (non-Medicaid) SCHIP programs, procedures that are similar to those permitted under Medicaid.

The provision clarifies states' authority to conduct presumptive eligibility determinations, as defined in Medicaid law, under separate (non-Medicaid) SCHIP programs.

TITLE IX—OTHER PROVISIONS

SUBTITLE A—PACE PROGRAM

Section 901. Extension of transition for current waivers

The provision would permit the Secretary to continue to operate the Program of All-Inclusive Care for the Elderly (PACE) under waivers for a period of 36 months (rather than 24 months), and States may do so for 4 years (rather than 3 years). OBRA 86 required the Secretary to grant waivers of certain Medicare and Medicaid requirements to not more than 10 public or non-profit private community-based organizations to provide health and long-term care services on a capitated basis to frail elderly persons at risk of institutionalization. BBA 97 established PACE as a permanent provider under Medicare and as a special benefit under Medicaid.

Section 902. Continuing of certain operating arrangements permitted

If prior to becoming a permanent component of Medicare, a PACE demonstration project had contractual or other operating arrangements that are not recognized under permanent program regulations, the provision would require the Secretary, in consultation with the state agency, to permit it to continue under such arrangements as long as it is consistent with the objectives of the PACE program.

Section 903. Flexibility in exercising waiver authority

The provision would enable the Secretary to exercise authority to modify or waive Medicare or Medicaid requirements to respond to the needs of PACE programs related to employment and the use of community care physicians. The Secretary must approve requests for such waivers within 90 days of the date the request for waiver is received.

SUBTITLE B—OUTREACH TO ELIGIBLE LOW-INCOME MEDICARE BENEFICIARIES

Section 911. Outreach on availability of Medicare cost-sharing assistance to eligible low-income Medicare beneficiaries

The provision would require the Commissioner of the Social Security Administration to conduct outreach efforts to identify individuals who may be eligible for Medicaid payment of Medicare cost sharing and to notify these persons of the availability of such assistance. The Commissioner would also be required to furnish, at least annually, a list of such individuals who reside in each state to that state's agency responsible for administering the Medicaid program as well as to any other appropriate state agency. The list should include the name and address, and whether such individuals have experienced reductions in Social Security benefits. The provision would also require the General Accounting Office to conduct a study of the impact of the outreach activities of the Commissioner to submit to Congress no later than 18 months after such outreach begins. The provision would be effective one year after date of enactment.

SUBTITLE C—MATERNAL AND CHILD HEALTH BLOCK GRANT

Section 921. Increase in authorization of appropriations for the maternal and child health services block grant

The provision would increase the authorization of appropriations for the Maternal and Child Health Services Block Grant under Title V from \$705,000,000 to \$850,000,000 for fiscal year 2001 and each fiscal year thereafter.

SUBTITLE D—DIABETES

Section 931. Increase in appropriations for special diabetes programs for type I diabetes and Indians

The provision would extend for 1 year, to FY2003, the authority for grants to be made for both the Special Diabetes Program for Type I Diabetes and for the Special Diabetes Programs for Indians under the Public Health Service Act. The provision would also expand funding available for these programs. For each grant program, the provision would increase total funding to \$100 million each for FY2001, FY2002 and FY2003. For FY2001 and FY2002, \$30 million of the \$100 million for each program would be transferred from SCHIP as set forth in the Balanced Budget Act of 1997; the remaining \$70 million would be drawn from the Treasury out of funds not otherwise appropriated. In FY2003, the entire \$100 million would be drawn from the Treasury out of funds not otherwise appropriated. In addition, the provision would extend the due date on final evaluation reports for these two grant programs from January 1, 2002 to January 1, 2003.

Section 932. Appropriations for Ricky Ray Hemophilia Relief Fund

This provision provides for a direct appropriation of \$475 million for FY2001. Funds would be available until expended.

SUBTITLE E—INFORMATION ON NURSING FACILITY STAFFING

Section 941. Posting of information on nursing facility staffing

The provision would require medicare skilled nursing facilities and medicaid nursing facilities to post nurse staffing information daily for each shift in the facility, effective January 1, 2003.

SUBTITLE F—ADJUSTMENT OF MULTIEMPLOYER PLAN BENEFITS GUARANTEED

Section 951. Adjustment of multiemployer plan benefits guaranteed

The provision adjusts the level of multiemployer pension plan benefits guaranteed under title IV of ERISA.

COMMUNITY RENEWAL TAX RELIEF ACT OF 2000

The conference agreement would enact the provisions of H.R. 5662, as introduced on December 14, 2000. The text of that bill follows:

A BILL To amend the Internal Revenue Code of 1986 to provide for community revitalization and a 2-year extension of medical saving accounts, and for other purposes.

COMMUNITY RENEWAL TAX RELIEF ACT OF 2000

Following is explanatory language on H.R. 5662, as introduced on December 14, 2000.

The conferees on H.R. 4577 agree with the matter included in H.R. 5659 and enacted in this conference report by reference and the following description of it.

TITLE I. COMMUNITY RENEWAL PROVISIONS

A. RENEWAL COMMUNITY PROVISIONS (SECS. 101-102 OF THE BILL AND SECS. 51, 469, AND NEW SECS. 1400E-J OF THE CODE)

PRESENT LAW

In recent years, provisions have been added to the Internal Revenue Code that target specific geographic areas for special Federal income tax treatment. For example, empowerment zones and enterprise communities generally provide tax incentives for businesses that locate within certain geographic areas designated by the Secretaries of Housing and Urban Development ("HUD") and Agriculture.

HOUSE BILL

No provision. However, H.R. 5542¹ authorizes the designation of 40 "renewal communities" within which special tax incentives would be available. The following is a description of the designation process and the tax incentives that would be available within the renewal communities.

¹H.R. 5542 was incorporated by reference into the conference agreement that accompanied H.R. 2614 (H. Rpt. 106-1004), which was passed by the House of Representatives on October 26, 2000.

Designation process

Designation of 40 renewal communities.—The Secretary of HUD,² is authorized to designate up to 40 "renewal communities" from areas nominated by States and local governments. At least 12 of the designated communities must be in rural areas. Of the 12 rural renewal communities, one shall be an area within Mississippi, designated by the State of Mississippi, that includes at least one census tract within Madison County, Mississippi.

The Secretary of HUD is required to publish (within four months after enactment) regulations describing the nomination and selection process. Designations of renewal communities are to be made during the period beginning on the first day of the first month after the regulations are published and ending on December 31, 2001. The designation of an area as a renewal community generally will be effective on January 1, 2002, and will terminate after December 31, 2009.³

Eligibility criteria.—To be designated as a renewal community, a nominated area must meet the following criteria: (1) each census tract must have a poverty rate of at least 20 percent,⁴ (2) in the case of an urban area, at least 70 percent of the households have incomes below 80 percent of the median income of households within the local government jurisdiction; (3) the unemployment rate is at least 1.5 times the national unemployment rate; and (4) the area is one of pervasive poverty, unemployment, and general distress. Those areas with the highest average ranking of eligibility factors (1), (2), and (3) above would be designated as renewal communities. One nominated area within the District of Columbia becomes a renewal community (without regard to its ranking of eligibility factors) provided that it satisfies the area and eligibility requirements and the required State and local commitments described below.⁵ The Secretary of HUD shall take into account in selecting areas for designation the extent to which such areas have a high incidence of crime, as well as whether the area has census tracts identified in the May 12, 1998, report of the General Accounting Office regarding the identification of economically distressed areas. In lieu of the poverty, income, and unemployment criteria, outmigration may be taken into account in the designation of one rural renewal community.

There are no geographic size limitations placed on renewal communities. Instead, the boundary of a renewal community must be continuous. In addition, the renewal community must have a minimum population of 4,000 if the community is located within a metropolitan statistical area (at least 1,000 in all other cases), and a maximum population of not more than 200,000. The population limitations do not apply to any renewal community that is entirely within an Indian reservation.

Required State and local commitments.—In order for an area to be designated as a re-

²In making the designations, the Secretary of HUD must consult with the Secretaries of Agriculture, Commerce, Labor, Treasury, the Director of the Office of Management and Budget; and the Administrator of the Small Business Administration (and the Secretary of the Interior in the case of an area within an Indian reservation).

³The designation would terminate earlier than December 31, 2009, if (1) an earlier termination date is designated by the State or local government in their designation, or (2) the Secretary of HUD revokes the designation as of an earlier date.

⁴Determined using 1990 census data.

⁵The designation of a nominated area within the District of Columbia as a renewal community becomes effective on January 1, 2003 (upon the expiration of the designation of the District of Columbia Enterprise Zone).

newal community, State and local governments are required to submit a written course of action in which the State and local governments promise to take at least four of the following governmental actions within the nominated area: (1) a reduction of tax rates or fees; (2) an increase in the level of efficiency of local services; (3) crime reduction strategies; (4) actions to remove or streamline governmental requirements; (5) involvement by private entities and community groups, such as to provide jobs and job training and financial assistance; and (6) the gift (or sale at below fair market value) of surplus realty by the State or local government to community organizations or private companies.

In addition, the nominating State and local governments must promise to promote economic growth in the nominated area by repealing or not enforcing four of the following: (1) licensing requirements for occupations that do not ordinarily require a professional degree; (2) zoning restrictions on home-based businesses that do not create a public nuisance; (3) permit requirements for street vendors who do not create a public nuisance; (4) zoning or other restrictions that impede the formation of schools or child care centers; and (5) franchises or other restrictions on competition for businesses providing public services, including but not limited to taxicabs, jitneys, cable television, or trash hauling, unless such regulations are necessary for and well-tailored to the protection of health and safety.

Empowerment zones and enterprise communities seeking designation as renewal communities.—With respect to the first 20 designations of nominated areas as renewal communities, preference will be given to nominated areas that are enterprise communities and empowerment zones under present law that otherwise meet the requirements for designation as a renewal community. An empowerment zone or enterprise community can apply for designation as a renewal community. If a renewal community designation is granted, then an area's designation as an empowerment zone enterprise community ceases as of the date the area's designation as a renewal community takes effect.

Tax incentives for renewal communities

The following tax incentives generally are available during the period beginning January 1, 2002, and ending December 31, 2009.⁶

Zero-percent capital gain rate.—A zero-percent capital gains rate applies with respect to gain from the sale of a qualified community asset acquired after December 31, 2001, and before January 1, 2010, and held for more than five years. A "qualified community asset" includes: (1) qualified community stock (meaning original-issue stock purchased for cash in a renewal community business); (2) a qualified community partnership interest (meaning a partnership interest acquired for cash in a renewal community business); (3) qualified community business property (meaning tangible property originally used in a renewal community business by the taxpayer) that is purchased or substantially improved after December 31, 2001.

A "renewal community business" is similar to the present-law definition of an enterprise zone business.⁷ Property will continue to be a qualified community asset if sold (or otherwise transferred) to a subsequent purchaser, provided that the property continues to represent an interest in (or tangible property used in) a renewal community business.

⁶If a renewal community designation is terminated prior to December 31, 2009, the tax incentives would cease to be available as of the termination date.

⁷An "enterprise zone business" is defined in section 1397B.

The termination of an area's status as a renewal community will not affect whether property is a qualified community asset, but any gain attributable to the period before January 1, 2002, or after December 31, 2014, will not be eligible for the zero-percent rate.

Renewal community employment credit.—A 15-percent wage credit is available to employers for the first \$10,000 of qualified wages paid to each employee who (1) is a resident of the renewal community, and (2) performs substantially all employment services within the renewal community in a trade or business for the employer.

The wage credit rate applies to qualifying wages paid after December 31, 2001, and before January 1, 2010. Wages that qualify for the credit are wages that are considered "qualified zone wages" for purposes of the empowerment zone wage credit (including coordination with the Work Opportunity Tax Credit). In general, any taxable business carrying out activities in the renewal community may claim the wage credit.

Commercial revitalization deduction.—Each State is permitted to allocate up to \$12 million of "commercial revitalization expenditures" to each renewal community located within the State for each calendar year after 2001 and before 2010. The appropriate State agency will make the allocations pursuant to a qualified allocation plan.

A "commercial revitalization expenditure" means the cost of a new building or the cost of substantially rehabilitating an existing building. The building must be used for commercial purposes and be located in a renewal community. In the case of the rehabilitation of an existing building, the cost of acquiring the building will be treated as qualifying expenditures only to the extent that such costs do not exceed 30 percent of the other rehabilitation expenditures. The qualifying expenditures for any building cannot exceed \$10 million.

A taxpayer can elect either to (a) deduct one-half of the commercial revitalization expenditures for the taxable year the building is placed in service or (b) amortize all the expenditures ratably over the 120-month period beginning with the month the building is placed in service. No depreciation is allowed for amounts deducted under this provision. The adjusted basis is reduced by the amount of the commercial revitalization deduction, and the deduction is treated as a depreciation deduction in applying the depreciation recapture rules (e.g., sec. 1250). The commercial revitalization deduction is treated in the same manner as the low-income housing credit in applying the passive loss rules (sec. 469). Thus, up to \$25,000 of deductions (together with the other deductions and credits not subject to the passive loss limitation by reason of section 469(i)) are allowed to an individual taxpayer regardless of the taxpayer's adjusted gross income. The commercial revitalization deduction is allowed in computing a taxpayer's alternative minimum taxable income.

Additional section 179 expensing.—A renewal community business is allowed an additional \$35,000 of section 179 expensing for qualified renewal property placed in service after December 31, 2001, and before January 1, 2010. The section 179 expensing allowed to a taxpayer is phased out by the amount by which 50 percent of the cost of qualified renewal property placed in service during the year by the taxpayer exceeds \$200,000. The term "qualified renewal property" is similar to the definition of "qualified zone property" used in connection with empowerment zones.

Extension of work opportunity tax credit ("WOTC").—The bill expands the high-risk youth and qualified summer youth categories in the WOTC to include qualified individuals who live in a renewal community.

GAO report

The General Accounting Office will audit and report to Congress on January 31, 2004, and again in 2007 and 2010, on the renewal community program and its effect on poverty, unemployment, and economic growth within the designated renewal communities.

Effective date

Renewal communities must be designated during the period beginning on the first day of the first month after the publication of regulations by HUD and ending on December 31, 2001. The tax benefits available in renewal communities are effective for the period beginning January 1, 2002, and ending December 31, 2009.

SENATE AMENDMENT

No provision. However, S. 3152⁸ authorizes the Secretaries of HUD and Agriculture to designate up to 30 renewal zones from areas nominated by States and local governments. At least six of the designated renewal zones must be in rural areas. The Secretary of HUD is required to publish (within four months after enactment) regulations describing the nomination and selection process. Designations of renewal zones must be made before January 1, 2002, and the designations are effective for the period beginning on January 1, 2002 through December 31, 2009.

The eligibility criteria (as well as the population and geographic limitations) are similar to those for renewal communities in the House bill, except that S. 3152 provides that any State without any empowerment zone would be given priority in the designation process. Also, the designations of renewal zones must result in (after taking into account existing empowerment zones) each State having at least one zone designation (empowerment or renewal zone). In addition, S. 3152 provides that, in lieu of the poverty, income, and unemployment criteria, out-migration may be taken into account in the designation of one rural renewal zone. Under a separate provision in S. 3152, the designation of the District of Columbia Enterprise Zone is extended through December 31, 2006.

In order for an area to be designated as a renewal zone, State and local governments are required to submit a written course of action in which the State and local governments promise to take at least four of the governmental actions described in the House bill with respect to renewal communities. However, S. 3152 does not contain any of the economic growth provision requirements described in the House bill.

Tax incentives for renewal zones.—Under S. 3152, businesses in renewal zones would be eligible for the following tax incentives during the period beginning January 1, 2002 and ending December 31, 2009: (1) a zero-percent capital gains rate for qualifying assets limited to an aggregate amount not to exceed \$25 million of gain per taxpayer;⁹ (2) a 15-percent wage credit for the first \$15,000 of qualifying wages; (3) \$35,000 in additional 179 expensing for qualifying property; (4) and the enhanced tax-exempt bond rules that currently apply to businesses in the Round II empowerment zones.

GAO report.—The General Accounting Office will audit and report to Congress every three years (beginning on January 31, 2004) on the renewal zone program and its effect on poverty, unemployment, and economic growth within the designated renewal zones.

Effective date.—The 30 renewal zones must be designated by January 1, 2002, and the tax benefits are available for the period begin-

⁸S. 3152 was introduced by Senator Roth and others on October 3, 2000.

⁹Any gain attributable to the period before January 1, 2002, or after December 31, 2014, would not be eligible for the zero-percent capital gains rate.

ning January 1, 2002, and ending December 31, 2009.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542 with the following modifications. The conference agreement does not include the rural renewal community designation with respect to an area within the State of Mississippi. The conference agreement does not include the special rule that provides that one nominated area within the District of Columbia becomes a renewal community (without regard to its ranking of eligibility factors).

B. EMPOWERMENT ZONE TAX INCENTIVES

1. Extension and expansion of empowerment zones (secs. 111-115 of the bill and secs. 1391, 1394, 1396, and 1397A of the Code)

PRESENT LAW

Round I empowerment zones

The Omnibus Budget reconciliation Act of 1993 ("OBRA 1993") authorized the designation of nine empowerment zones ("Round I empowerment zones") to provide tax incentives for businesses to locate within targeted areas designated by the Secretaries of HUD and Agriculture. The Taxpayer Relief Act of 1997 ("1997 Act") authorized the designation of two additional Round I urban empowerment zones.

Businesses in the 11 Round I empowerment zones qualify for the following tax incentives: (1) a 20-percent wage credit for the first \$15,000 of wages paid to a zone resident who works in the empowerment zone,¹⁰ (2) an additional \$20,000 of section 179 expensing for qualifying zone property, and (3) tax-exempt financing for certain qualifying zone facilities. The tax incentives with respect to the empowerment zones designated by OBRA 1993 generally are available during the 10-year period of 1995 through 2004. The tax incentives with respect to the two additional Round I empowerment zones generally are available during the 10-year period of 2000 through 2009.¹¹

Round II empowerment zones

The 1997 Act also authorized the designation of 20 additional empowerment zones ("Round II empowerment zones"), of which 15 are located in urban areas and five are located in rural areas. Businesses in the Round II empowerment zones are not eligible for the wage credit, but are eligible to receive up to \$20,000 of additional section 179 expensing. Businesses in the Round II empowerment zones also are eligible for more generous tax-exempt financing benefits than those available in the Round I empowerment zones. Specifically, the tax-exempt financing benefits for the Round II empowerment zones are not subject to the State private activity bond volume caps (but are subject to separate per-zone volume limitations), and the per-business size limitations that apply to the Round I empowerment zones and enterprise communities (i.e., \$3 million for each qualified enterprise zone business with a maximum of \$20 million for each principal user for all zones and communities) do not apply to qualifying bonds issued for Round II empowerment zones. The tax incentives with respect to the Round II empowerment zones generally are available during the 10-year period of 1999 through 2008.

¹⁰For wages paid in calendar years during the period 1994 through 2001, the credit rate is 20 percent. The credit rate is reduced to 15 percent for calendar year 2002, 10 percent for calendar year 2003, and 5 percent for calendar year 2004. No wage credit is available after 2004 in the original nine empowerment zones.

¹¹Except for the wage credit, which is reduced to 15 percent for calendar year 2005, and then reduced by five percentage points in each year in 2006 and 2007, with no wage credit available after 2007.

HOUSE BILL

No provision. However, H.R. 5542 conforms and enhances the tax incentives for the Round I and Round II empowerment zones and extends their designations through December 31, 2009. The bill also authorizes the designation of nine new empowerment zones ("Round III empowerment zones").

Extension of tax incentives for Round I and Round II empowerment zones

The designation of empowerment zones status for Round I and II empowerment zones (other than the District of Columbia Enterprise Zone) is extended through December 31, 2009. In addition, the 20-percent wage credit is made available in all Round I and II empowerment zones for qualifying wages paid or incurred after December 31, 2001. The credit rate remains at 20 percent (rather than being phased down) through December 31, 2009, in Round I and Round II empowerment zones.

In addition, \$35,000 (rather than \$20,000) of additional section 179 expensing is available for qualified zone property placed in service in taxable years beginning after December 31, 2001, by a qualified business in any of the empowerment zones.¹² Businesses in the D.C. Enterprise Zone are entitled to the additional section 179 expensing until the termination of the D.C. Enterprise zone designation.

Businesses located in Round I empowerment zones (other than the D.C. Enterprise Zone)¹³ also are eligible for the more generous tax-exempt bond rules that apply under present law to businesses in the Round II empowerment zones (sec. 1394(f)). The bill applies to tax-exempt bonds issued after December 31, 2001. Bonds that have been issued by businesses in Round I zones before January 1, 2002, are not taken into account in applying the limitations on the amount of new empowerment zone facility bonds that can be issued under the bill.

Nine new empowerment zones

The Secretaries of HUD and Agriculture are authorized to designate nine additional empowerment zones ("Round III empowerment zones"). Seven of the Round III empowerment zones will be located in urban areas, and two will be located in rural areas.

The eligibility and selection criteria for the Round III empowerment zones are the same as the criteria that applied to the Round II Round empowerment zones. The Round III empowerment zones must be designated by January 1, 2002, and the tax incentives with respect to the Round III empowerment zones generally are available during the period beginning on January 1, 2002, and ending on December 31, 2009.

Businesses in the Round III empowerment zones are eligible for the same tax incentives that, under the bill, are available to Round I and Round II empowerment zones (i.e., a 20 percent wage credit, an additional \$35,000 of section 179 expensing, and the enhanced tax-exempt financing benefits presently available to Round II empowerment zones).

GAO report

The bill provides that the GAO will audit and report to Congress on January 31, 2004, and again in 2007 and 2010, on the empowerment zone and enterprise community program and its effect on poverty, unemployment, and economic growth within the designated areas.

¹²The additional \$35,000 of section 179 expensing is available throughout all areas that are part of a designated empowerment zone, including the non-contiguous "developable sites" that were allowed to be part of the designated Round II empowerment zones under the 1997 Act.

¹³The present-law rules of sections 1394 and 1400A continue to apply with respect to the D.C. Enterprise Zone.

Effective date

The extension of the existing empowerment zone designations is effective after the date of enactment. The extension of the tax benefits to existing empowerment zones (i.e., the expanded wage credit, the additional section 179 expensing, and the more generous tax-exempt bond rules) generally is effective after December 31, 2001. The new Round III empowerment zones must be designated by January 1, 2002, and the tax incentives with respect to the Round III empowerment zones generally are available during the period beginning on January 1, 2002, and ending on December 31, 2009.

SENATE AMENDMENT

No provision. However, S. 3152 contains a provision that conforms and enhances incentives of existing empowerment zones. Specifically, the provision extends the designation of empowerment zone status for Round I and II empowerment zones through December 31, 2009. In addition, a 15-percent wage credit is made available in all Round I and II empowerment zones, effective in 2002 (except in the case of the two additional Round I empowerment zones added by the 197 Act, for which the 15-percent wage credit takes effect in 2005 as scheduled under present law). For all the empowerment zones, the 15-percent wage credit expires on December 31, 2009.

As in the House bill, \$35,000 (rather than \$20,000) in additional section 179 expensing is made available for qualified zone property placed in service in taxable years beginning after December 31, 2001, by a qualified business in any of the empowerment zones. Similarly, S. 3152 extends to businesses located in Round I empowerment zones the more generous tax-exempt bond rules that apply under present law to businesses in the Round II empowerment zones (sec. 1394(f)) for bonds issued after December 31, 2001.

Businesses located in any empowerment zone also qualify for a zero-percent capital gains rate for gain from the sale of a qualifying zone assets acquired after date of enactment and before January 1, 2010, and held more than five years. Assets that qualify for this incentive are similar to the types of assets that qualify for the present-law zero percent capital gains rate for qualifying D.C. Zone assets. The zero-percent capital gains rate is limited to an aggregate amount not to exceed \$25 million of gain per taxpayer. Gain attributable to the period before the date of enactment or after December 31, 2014, is not eligible for the zero-percent rate.

Effective date.—The extension of the existing empowerment zone designations is effective after the date of enactment. The additional section 179 expensing and the more generous tax-exempt bond rules for the existing empowerment zones is effective after December 31, 2001. The zero-percent capital gains rate applies to qualifying property purchased after the date of enactment. The 15-percent wage credit generally is effective for qualifying wages paid after December 31, 2001 (December 31, 2004 for the two additional Round I empowerment zones).

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542. The conference agreement also provides that the Secretaries of HUD and Agriculture are authorized to designate a replacement empowerment zone for each empowerment zone that becomes a renewal community. The replacement empowerment zone will have the same urban or rural character as the empowerment zone that it is replacing.

2. Rollover of gain from the sale of qualified empowerment zone investments (sec. 116 of the bill and new sec. 1397B of the Code)

PRESENT LAW

In general, gain or loss is recognized on any sale, exchange, or other disposition of

property. A taxpayer (other than a corporation) may elect to roll over without payment of tax any capital gain realized upon the sale of qualified small business stock held for more than six months where the taxpayer uses the proceeds to purchase other qualified small business stock within 60 days of the sale of the original stock.

HOUSE BILL

No provision. However, H.R. 5542 provides that a taxpayer can elect to roll over capital gain from the sale or exchange of any qualified empowerment zone asset purchased after the date of enactment and held for more than one year ("original zone asset") where the taxpayer uses the proceeds to purchase other qualifying empowerment zone assets in the same zone ("replacement zone asset") within 60 days of the sale of the original zone asset. The holding period of the replacement zone asset includes the holding period of the original zone asset, except that the replacement asset must actually be held for more than one year to qualify for another tax-free rollover. The basis of the replacement zone asset is reduced by the gain not recognized on the rollover. However, if the replacement zone asset is qualified small business stock (as defined in sec. 1202), the exclusion under section 1202 would not apply to gain accrued on the original zone asset.¹⁴ A "qualified empowerment zone asset" means an asset that would be a qualified community asset if the empowerment zone were a renewal community (and the asset is acquired after the date of enactment of the bill). Assets in the D.C. Enterprise Zone are not eligible for the tax-free rollover treatment.¹⁵

Effective date.—The provision is effective for qualifying assets purchased after the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542.

3. Increased exclusion of gain from the sale of qualifying empowerment zone stock (sec. 117 of the bill and sec. 1202 of the Code)

PRESENT LAW

Under present law, an individual, subject to limitations, may exclude 50 percent of the gain¹⁶ from the sale of qualifying small business stock held for more than five years (sec. 1202).

HOUSE BILL

No provision. However, H.R. 5542 increases the exclusion for small business stock to 60 percent for stock purchased after the date of enactment in a corporation that is a qualified business entity and that is held for more than five years. A "qualified business entity" means a corporation that satisfies the requirements of a qualifying business under the empowerment zone rules during substantially all the taxpayer's holding period.

Effective Date.—The provision is effective for qualified stock purchased after the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542.

¹⁴See section 1045 for rollover of qualified small business stock to other small business stock.

¹⁵However, a qualifying D.C. Zone asset held for more than five years is eligible for a 100-percent capital gains exclusion (sec. 1400B).

¹⁶The portion of the capital gain included in income is subject to a maximum regular tax rate of 28 percent, and 42 percent of the excluded gain is a minimum tax preference.

C. NEW MARKETS TAX CREDIT (SEC. 121 OF THE BILL AND NEW SEC. 45D OF THE CODE)

PRESENT LAW

Tax incentives are available to taxpayers making investments and loans in low-income communities. For example, tax incentives are available to taxpayers that invest in specialized small business investment companies licensed by the SBA to make loans to, or equity investments in, small businesses owned by persons who are socially or economically disadvantaged.

HOUSE BILL

No provision. However, H.R. 5542 includes a provision that creates a new tax credit for qualified equity investments made to acquire stock in a selected community development entity ("CDE"). The maximum annual amount of qualifying equity investments is capped as follows:

| Calendar year | Maximum qualifying equity investment |
|---------------|--------------------------------------|
| 2001 | \$1.0 billion |
| 2002-2003 | \$1.5 billion per year |
| 2004-2005 | \$2.0 billion per year |
| 2006-2007 | \$3.5 billion per year |

The amount of the new tax credit to the investor (either the original purchaser or a subsequent holder) is (1) a five-percent credit for the year in which the equity interest is purchased from the CDE and the first two anniversary dates after the interest is purchased from the CDE, and (2) a six percent credit on each anniversary date thereafter for the following four years.⁷ The taxpayer's basis in the investment is reduced by the amount of the credit (other than for purposes of calculating the capital gain exclusion under sections 1202, 1400B, and 1400F). The credit is subject to the general business credit rules.

A CDE is any domestic corporation or partnership (1) whose primary mission is serving or providing investment capital for low-income communities or low-income persons, (2) that maintains accountability to residents of low-income communities by their representation on any governing board or on any advisory board of the CDE, and (3) is certified by the Treasury Department as an eligible CDE.¹⁸ No later than 120 days after enactment, the Treasury Department shall issue regulations that specify objective criteria to be used by the Treasury to allocate the credits among eligible CDEs. In allocating the credits, the Treasury Department will give priority to entities with records of having successfully provided capital or technical assistance to disadvantaged businesses or communities,¹⁹ as well as to entities that intend to invest substantially all of the proceeds from their investors in businesses in which persons unrelated to the CDE hold the majority of the equity interest.

If a CDE fails to sell equity interests to investors up to the amount authorized within five years of the authorization, then the remaining authorization is canceled. The Treasury Department can authorize another CDE to issue equity interests for the unused portion. No authorization can be made after 2014.

¹⁷ Thus, a credit would be available on the date on which the investment is made and for each of the six anniversary dates thereafter.

¹⁸ A specialized small business investment company and a community development financial institution are treated as satisfying the requirements for a CDE.

¹⁹ A record of having successfully provided capital or technical assistance to disadvantaged businesses or communities could be demonstrated by the past actions of the CDE itself or an affiliate (e.g., in the case where a new CDE is established by a nonprofit organization with a history of providing assistance to disadvantaged communities).

A "qualified equity investment" is defined as stock or a similar equity interest acquired directly from a CDE in exchange for cash. Substantially all of the investment proceeds must be used by the CDE to make "qualified low-income community investments." Qualified low-income community investments include: (1) capital or equity investments in, or loans to, qualified active businesses located in low-income communities,²⁰ (2) certain financial counseling and other services specified in regulations to businesses and residents in low-income communities, (3) the purchase from another CDE of any loan made by such entity that is a qualified low income community investment, or (4) an equity investment in, or loans to, another CDE.²¹ Treasury Department regulations will provide guidance with respect to the "substantially all" standard.

The stock or equity interest cannot be redeemed (or otherwise cashed out) by the CDE for at least seven years. If an entity fails to be a CDE during the seven-year period following the taxpayer's investment, or if the equity interest is redeemed by the issuing CDE during that seven-year period, then any credits claimed with respect to the equity interest are recaptured (with interest) and no further credits are allowed.

A "low-income community" is defined as census tracts with either (1) poverty rates of at least 20 percent (based on the most recent census data), or (2) median family income which does not exceed 80 percent of the greater of metropolitan area income or statewide median family income (for a non-metropolitan census tract, 80 percent of non-metropolitan statewide median family income). In addition, the Secretary may designate any area within any census tract as a "low income community" provided that (1) the boundary of the area is continuous,²² (2) the area (if it were a census tract) would satisfy the poverty rate or median income requirements within the targeted area, and (3) an inadequate access to investment capital exists in the area.

A "qualified active business" is defined as a business which satisfies the following requirements: (1) at least 50 percent of the total gross income of the business is derived from the active conduct of trade or business activities in low-income communities; (2) a substantial portion of the use of the tangible property of such business is used in low-income communities; (3) a substantial portion of the services performed for such business by its employees is performed in low-income communities; and (4) less than 5 percent of the average aggregate of unadjusted bases of the property of such business is attributable to certain financial property or to collectibles (other than collectibles held for sale to

²⁰ Thus, a qualified low-income community investment may include an investment in a qualifying business in which the CDE (or a related party) holds a significant interest. However, as previously mentioned, in allocating the credits among eligible CDEs, the Treasury Department will give priority to CDEs that intend to invest substantially all of the proceeds from their investors in businesses in which persons unrelated to the CDE hold the majority of the equity interest. Persons are related to each other if they are described in sections 267(b) or 707(b)(1).

²¹ If at least 85 percent of the aggregate gross assets of the CDE are invested (directly or indirectly) in equity interest in, or loans to, qualified active businesses located in low-income communities, then there would be no need to trace the use of the proceeds from the particular stock (or other equity ownership) issuance with respect to which the credit is claimed.

²² It is intended that the continuous boundary that delineate the portion of the census tract as a "low-income community" should be a pre-existing boundary (such as an established neighborhood, political, or geographic boundary).

customers). There is no requirement that employees of the business be residents of the low-income community.

Rental of improved commercial real estate located in a low-income community is a qualified active business, regardless of the characteristics of the commercial tenants of the property. The purchase and holding of unimproved real estate is not a qualified active business. In addition, a qualified active business does not include (a) any business consisting predominantly of the development or holding of intangibles for sale or license; or (b) operation of any facility described in sec. 144(c)(6)(B). A qualified active business can include an organization that is organized on a non-profit basis.

The GAO will audit and report to Congress by January 31, 2004, and again in 2007 and 2010, on the new markets tax credit program, including on all qualified community development entities that receive an allocation under the new markets tax credit program.

Effective date.—The provision is effective for qualified investments made after December 31, 2000.

SENATE AMENDMENT

No provision. However, S. 3152 includes a provision that creates a new markets tax credit is similar to the provision in H.R. 5542. However, under S. 3152, the maximum annual amount of qualifying equity investments is capped as follows:

| Calendar year | Maximum qualifying equity investment |
|---------------|--------------------------------------|
| 2002 | \$1.0 billion |
| 2003-2006 | \$1.5 billion per year |

Under S. 3152, if a CDE fails to sell equity interests to investors up to the amount authorized within five years of the authorization, then the remaining authorization is canceled. The Treasury Department can authorize another CDE to issue equity interests for the unused portion. No authorization can be made after 2013.

Effective date.—The provision is effective for qualified investments made after December 31, 2000.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542. The conference agreement also clarifies that a low-income community can include a possession of the United States²³ (and thus investments in a U.S. possession may qualify for the new markets tax credit).

D. INCREASE THE LOW-INCOME HOUSING TAX CREDIT CAP AND MAKE OTHER MODIFICATIONS (SECS. 131-137 OF THE BILL AND SEC. 42 OF THE CODE)

PRESENT LAW

In general

The low-income housing tax credit may be claimed over a 10-year period for the cost of rental housing occupied by tenants having incomes below specified levels. The credit percentage for newly constructed or substantially rehabilitated housing that is not Federally subsidized is adjusted monthly by the Internal Revenue Service so that the 10 annual installments have a present value of 70 percent of the total qualified expenditures. The credit percentage for new substantially rehabilitated housing that is Federally subsidized and for existing housing that is substantially rehabilitated is calculated to have a present value of 30 percent qualified expenditures.

Credit cap

The aggregate credit authority provided annually to each State is \$1.25 per resident,

²³ For this purpose, a U.S. possession means Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, and American Samoa.

except in the case of projects that also receive financing with proceeds of tax-exempt bonds issued subject to the private activity bond volume limit and certain carry-over amounts.

Expenditure test

Generally, the building must be placed in service in the year in which it receives an allocation to qualify for the credit. An exception is provided in the case where the taxpayer has expended an amount equal to 10-percent or more of the taxpayer's reasonably expected basis in the building by the end of the calendar year in which the allocation is received and certain other requirements are met.

Basis of building eligible for the credit

Buildings receiving assistance under the HOME investment partnerships act ("HOME") are not eligible for the enhanced credit for buildings located in high cost areas (i.e., qualified census tracts and difficult development areas). Under the enhanced credit, the 70-percent and 30-percent credit are increased to a 91-percent and 39-percent credit, respectfully.

Eligible basis is generally limited to the portion of the building used by qualified low-income tenants for residential living and some common areas.

State allocation plan

Each State must develop a plan for allocating credits and such plan must include certain allocation criteria including: (1) project location; (2) housing needs characteristics; (3) project characteristics; (4) sponsor characteristics; (5) participation of local tax-exempts; (6) tenant populations with special needs; and (7) public housing waiting lists. The State allocation plan must also give preference to housing projects: (1) that serve the lowest income tenants; and (2) that are obligated to serve qualified tenants for the longest periods.

Credit administration

There are no explicit requirements that housing credit agencies perform a comprehensive market study of the housing needs of the low-income individuals in the area to be served by the project, nor that such agency conduct site visits to monitor for compliance with habitability standards.

Stacking rule

Authority to allocate credits remains at the State (as opposed to local) government level unless State law provides otherwise.²⁴ Generally, credits may be allocated only from volume authority arising during the calendar year in which the building is placed in service, except in the case of: (1) credits claimed on additions to qualified basis; (2) credits allocated in a later year pursuant to an earlier binding commitment made no later than the year in which the building is placed in service; and (3) carryover allocations.

Each State annually receives low-income housing credit authority equal to \$1.25 per State resident for allocation to qualified low-income projects.²⁵ In addition to this \$1.25 per resident amount, each State's "housing credit ceiling" includes the following amounts: (1) the unused State hous-

ing credit ceiling (if any) of such State for the preceding calendar year;²⁶ (2) the amount of the State housing credit ceiling (if any) returned in the calendar year;²⁷ and (3) the amount of the national pool (if any) allocated to such State by the Treasury Department.

The national pool consists of States' unused housing credit carryovers. For each State, the unused housing credit carryover for a calendar year consists of the excess (if any) of the unused State housing credit ceiling for such year over the excess (if any) of the aggregate housing credit dollar amount allocated for such year over the sum of \$1.25 per resident and the credit returns for such year. The amounts in the national pool are allocated only to a State which allocated its entire housing credit ceiling for the preceding calendar year, and requested a share in the national pool not later than May 1 of the calendar year. The national pool allocation to qualified States is made on a pro rata basis equivalent to the fraction that a State's population enjoys relative to the total population of all qualified States for that year.

The present-law stacking rule provides that a State is treated as using its annual allocation of credit authority (\$1.25 per State resident) and any returns during the calendar year followed by any unused credits carried forward from the preceding year's credit ceiling and finally any applicable allocations from the National pool.

HOUSE BILL

No provision. However, H.R. 5542 makes the following changes in the low-income housing credit.

Credit cap

The bill increases the per-capita low-income housing credit cap from \$1.25 per capita to \$1.50 per capita in calendar year 2001 and to \$1.75 per capita in calendar year 2002. Beginning in calendar year 2003, the per-capita portion of the credit cap will be adjusted annually for inflation. For small States, a minimum annual cap of \$2 million is provided for calendar years 2001 and 2002. Beginning in calendar year 2003, the small State minimum is adjusted for inflation.

Expenditure test

The bill allows a building which receives an allocation in the second half of a calendar to qualify under the 10-percent test if the taxpayer expends an amount equal to 10-percent or more of the taxpayer's reasonably expected basis in the building within six months of receiving the allocation regardless of whether the 10-percent test is met by the end of the calendar year.

Basis of building eligible for the credit

The bill makes three changes to the basis rules of the credit. First, the definition of qualified census tracts for purposes of the enhanced credit is expanded to include any census tracts with a poverty rate of 25 percent or more. Second, the bill extends the credit to a portion of the building used as a community service facility not in excess of 10 percent of the total eligible basis in the building. A community service facility is defined as any facility designed to serve primarily individuals whose income is 60 percent or less of area median income. Third,

the bill provides that assistance received under the Native American Housing Assistance and Self-Determination Act of 1996 is not taken into account in determining whether a building is Federally subsidized for purposes of the credit. This allows such buildings to qualify for something other than the 30-percent credit generally applicable to Federally subsidized buildings.

State allocation plans

The bill strikes the plan criteria relating to participation of local tax-exempts, replacing it with two other criteria: tenant populations of individuals with children and projects intended for eventual tenant ownership. It also provides that the present-law criteria relating to sponsor characteristics include whether the project involves the use of existing housing as part of a community revitalization plan. The bill adds a third category of housing projects to the preferential list, for projects located in qualified census tracts which contribute to a concerted community revitalization plan.

Credit administration

The bill requires a comprehensive market study of the housing needs of the low-income individuals in the area to be served by the project and a written explanation available to the general public for any allocation not made in accordance with the established priorities and selection criteria of the housing credit agency. They also require site inspections by the housing credit agency to monitor compliance with habitability standards applicable to the project.

Stacking rule

The bill modifies the stacking rule so that each State is treated as using its allocation of the unused State housing credit ceiling (if any) from the preceding calendar before the current year's allocation of credit (including any credits returned to the State) and then finally any National pool allocations.

Effective date

The provision is generally effective for calendar years beginning after December 31, 2000, and buildings placed-in-service after such date in the case of projects that also receive financing with proceeds of tax-exempt bonds subject to the private activity bond volume limit which are issued after such date

SENATE AMENDMENT

Credit cap

No provision. However, S. 3152 increases the annual State credit caps from \$1.25 to \$1.75 per resident beginning in 2001. Also, beginning in 2001 the per capita cap for each State is modified so that small population States are given a minimum of \$2 million of annual credit cap. The \$1.75 per capita cap and the \$2 million amount are indexed for inflation beginning in calendar 2002.

Expenditure test

No provision.

Basis of building eligible for the credit

The provisions in S. 3152 relating to the treatment of buildings receiving assistance under the Native American Housing Assistance and Self-Determination Act of 1996 is the same as one of the provisions in H.R. 5542.

State allocation plans

No provision.

Credit administration

No provision.

Stacking rule

Same as H.R. 5542.

Effective date

The provisions are effective for calendar years beginning after December 31, 2000 and

²⁴For example, constitutional home rule cities in Illinois are guaranteed their proportionate share of the \$1.25 amount, based on their population relative to that of the State as a whole.

²⁵A State's population, for these purposes, is the most recent estimate of the State's population released by the Bureau of the Census before the beginning of the year to which the limitation applies. Also, for these purposes, the District of Columbia and the U.S. possessions (i.e., Puerto Rico, the Virgin Islands, Guam, the Northern Marianas and American Samoa) are treated as States.

²⁶The unused State housing credit ceiling is the amount (if positive) of the previous year's annual credit limitation plus credit returns less the credit actually allocated in that year.

²⁷Credit returns are the sum of any amounts allocated to projects within a State which fail to become a qualified low-income housing project within the allowable time period plus any amounts allocated to a project within a State under an allocation which is canceled by mutual consent of the housing credit agency and the allocation recipient.

buildings placed-in-service after such date in the case of projects that also receive financing with proceeds of tax-exempt bonds which are issued after such date subject to the private activity bond volume limit.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542.

E. ACCELERATE SCHEDULED INCREASE IN STATE VOLUME LIMITS ON TAX-EXEMPT PRIVATE ACTIVITY BONDS (SEC. 151 OF THE BILL AND SEC. 146 OF THE CODE)

PRESENT LAW

Interest on bonds issued by States and local governments is excluded from income if the proceeds of the bonds are used to finance activities conducted and paid for by the governmental units (sec. 103). Interest on bonds issued by these governmental units to finance activities carried out and paid for by private persons ("private activity bonds") is taxable unless the activities are specified in the Internal Revenue Code. Private activity bonds on which interest may be tax-exempt include bonds for privately operated transportation facilities (airports, docks and wharves, mass transit, and high speed rail facilities), privately owned and/or provided municipal services (water, sewer, solid waste disposal, and certain electric and heating facilities), economic development (small manufacturing facilities and redevelopment in economically depressed areas), and certain social programs (low-income rental housing, qualified mortgage bonds, student loan bonds, and exempt activities of charitable organizations described in sec. 501(c)(3)).

The volume of tax-exempt private activity bonds that States and local governments may issue for most of these purposes in each calendar year is limited by State-wide volume limits. The current annual volume limits are \$50 per resident of the State or \$150 million if greater. The volume limits do not apply to private activity bonds to finance airports, docks and wharves, certain governmentally owned, but privately operated solid waste disposal facilities, certain high speed rail facilities, and to certain types of private activity tax-exempt bonds that are subject to other limits on their volume (qualified veterans' mortgage bonds and certain "new" empowerment zone and enterprise community bonds).

The current annual volume limits that apply to private activity tax-exempt bonds increase to \$75 per resident of each State or \$225 million, if greater, beginning in calendar year 2007. The increase is, ratably phased in, beginning with \$55 per capita or \$165 million, if greater, in calendar year 2003.

HOUSE BILL

No provision. However, H.R. 5542 increases the State volume limits from the greater of \$50 per resident or \$150 million to the greater of \$62.50 per resident or \$187.5 million in calendar year 2001. The volume limit will increase further, to the greater of \$75 per resident or \$225 million in calendar year 2002. Beginning in calendar year 2003, the volume limit will be adjusted annually for inflation.

Effective date.—The provision is effective beginning in calendar year 2001.

SENATE AMENDMENT

No provision. However, S. 3152 increases the present-law annual State private activity bond volume limits to \$75 per resident of each State or \$225 million (if greater) beginning in calendar year 2001. In addition, the \$75 per resident and the \$225 million State limit will be indexed for inflation beginning in calendar year 2002.

Effective date.—The provisions are effective beginning in calendar year 2001.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542.

F. EXTENSION AND MODIFICATION TO EXPENSING OF ENVIRONMENTAL REMEDIATION COSTS (SEC. 152 OF THE BILL AND SEC. 198 OF THE CODE)

PRESENT LAW

Taxpayers can elect to treat certain environmental remediation expenditures that would otherwise be chargeable to capital account as deductible in the year paid or incurred (sec. 198). The deduction applies for both regular and alternative minimum tax purposes. The expenditure must be incurred in connection with the abatement or control of hazardous substances at a qualified contaminated site.

A "qualified contaminated site" generally is any property that (1) is held for use in a trade or business, for the production of income, or as inventory; (2) is certified by the appropriate State environmental agency to be located within a targeted area; and (3) contains (or potentially contains) a hazardous substance (so-called "brownfields"). Targeted areas are defined as: (1) empowerment zones and enterprise communities as designated under present law; (2) sites announced before February 1997, as being subject to one of the 76 Environmental Protection Agency ("EPA") Brownfields Pilots; (3) any population census tract with a poverty rate of 20 percent or more; and (4) certain industrial and commercial areas that are adjacent to tracts described in (3) above. However, sites that are identified on the national priorities list under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 cannot qualify as targeted areas.

Eligible expenditures are those paid or incurred before January 1, 2002.

HOUSE BILL

No provision. However, H.R. 5542 extends the expiration date for eligible expenditures to include those paid or incurred before January 1, 2004.

In addition, the bill eliminates the targeted area requirement, thereby, expanding eligible sites to include any site containing (or potentially containing) a hazardous substance that is certified by the appropriate State environmental agency. However, expenditures undertaken at sites that are identified on the national priorities list under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 would continue to not qualify as eligible expenditures.

By extending and expanding section 198, the bill is not intended to displace the general tax law principle regarding expensing versus capitalization of expenditures which continues to apply to environmental remediation efforts not specifically covered under section 198.

Effective date.—The provision to extend the expiration date if effective upon the date of enactment. The provision to expand the class of eligible sites is effective for expenditures paid or incurred after the date of enactment.

SENATE AMENDMENT

No provision. However, S. 3152 includes a provision identical to that of the House bill provision.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542.

G. EXPANSION OF DISTRICT OF COLUMBIA HOMEBUYER TAX CREDIT (SEC. 153 OF THE BILL AND SEC. 1400C OF THE CODE)

PRESENT LAW

First-time homebuyers of a principal residence in the District of Columbia are eligible for a nonrefundable tax credit of up to \$5,000 of the amount of the purchase price. The \$5,000 maximum credit applies both to indi-

viduals and married couples. Married individuals filing separately can claim a maximum credit of \$2,500 each. The credit phases out for individual taxpayers with adjusted gross income between \$70,000 and \$90,000 (\$110,000–\$130,000 for joint filers). For purposes of eligibility, "first-time homebuyer" means any individual if such individual did not have a present ownership interest in a principal residence in the District of Columbia in the one year period ending on the date of the purchase of the residence to which the credit applies. The credit is scheduled to expire for residences purchased after December 31, 2001.

HOUSE BILL

No provision. However, H.R. 5542 extends the first-time homebuyer credit for two years (through December 31, 2003).

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

No provision. However, S. 3152 includes a provision that extends the first-time homebuyer credit for two years, through December 31, 2003. The provision also extends the phase-out range for married individuals filing a joint return so that it is twice that of individuals. Thus, under the provision, the District of Columbia homebuyer credit is phased out for joint filers with adjusted gross income between \$140,000 and \$180,000.

Effective date.—The provision is effective for taxable years beginning after December 31, 2000.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542.

H. EXTENSION OF D.C. ENTERPRISE ZONE (SEC. 154 OF THE BILL AND SECS. 1400, 1400A AND 1400B OF THE CODE)

PRESENT LAW

The Taxpayer Relief Act of 1997 designated certain economically depressed census tracts within the District of Columbia as the District of Columbia Enterprise Zone (the "D.C. Zone"), within which businesses and individual residents are eligible for special tax incentives. The D.C. Zone designation remains in effect for the period from January 1, 1998, through December 31, 2002. In addition to the tax incentives available with respect to a Round I empowerment zone (including a 20-percent wage credit), the D.C. Zone also has a zero-percent capital gains rate that applies to gain from the sale of certain qualified D.C. Zones assets acquired after December 31, 1997 and held for more than five years.

With respect to the tax-exempt financing incentives, the D.C. Zone generally is treated like a Round I empowerment zone; therefore, the issuance of such bonds is subject to the District of Columbia's annual private activity bond volume limitation. However, the aggregate face amount of all outstanding qualified enterprise zone facility bonds per qualified D.C. Zone business may not exceed \$15 million (rather than \$3 million, as is the case for Round I empowerment zones).²⁸

HOUSE BILL

No provision.

SENATE AMENDMENT

No provision. However, S. 3152 includes a provision that extends the D.C. Zone designation through December 31, 2006.

CONFERENCE AGREEMENT

The conference agreement follows S. 3152, except that the D.C. Zone designation is extended for one year (through December 31, 2003).

²⁸Section 1400A(a).

I. EXTENSION AND MODIFICATION OF ENHANCED DEDUCTION FOR CORPORATE DONATIONS OF COMPUTER TECHNOLOGY (SEC. 155 OF THE BILL AND SEC. 170(e)(6) OF THE CODE)

PRESENT LAW

The maximum charitable contribution deduction that may be claimed by a corporation for any one taxable year is limited to 10 percent of the corporation's taxable income for that year (disregarding charitable contributions and with certain other modifications) (sec. 170(b)(2)). Corporations also are subject to certain limitations based on the type of property contributed. In the case of a charitable contribution of short-term gain property, inventory, or other ordinary income property, the amount of the deduction generally is limited to the taxpayer's basis (generally, cost) in the property. However, special rules in the Code provide an augmented deduction for certain corporate contributions. Under these special rules, the amount of the augmented deduction is equal to the lesser of (1) the basis of the donated property plus one-half of the amount of ordinary income that would have been realized if the property had been sold, or (2) twice the basis of the donated property.

Section 170(e)(6) allows corporate taxpayers an augmented deduction for qualified contributions of computer technology and equipment (i.e., computer software, computer or peripheral equipment, and fiber optic cable related to computer use) to be used within the United States for educational purposes in grades K-12. Eligible donees are: (1) any educational organization that normally maintains a regular faculty and curriculum and has a regularly enrolled body of pupils in attendance at the place where its educational activities are regularly carried on; and (2) tax-exempt charitable organizations that are organized primarily for purposes of supporting elementary and secondary education. A private foundation also is an eligible donee, provided that, within 30 days after receipt of the contribution, the private foundation contributes the property to an eligible donee described above.

Qualified contributions are limited to gifts made no later than two years after the date the taxpayer acquired or substantially completed the construction of the donated property. In addition, the original use of the donated property must commence with the donor or the donee. Accordingly, qualified contributions generally are limited to property that is no more than two years old. Such donated property could be computer technology or equipment that is inventory or depreciable trade or business property in the hands of the donor.

Donee organizations are not permitted to transfer the donated property for money or services (e.g., a donee organization cannot sell the computers). However, a donee organization may transfer the donated property in furtherance of its exempt purposes and be reimbursed for shipping, installation, and transfer costs. For example, if a corporation contributes computers to a charity that subsequently distributes the computers to several elementary schools in a given area, the charity could be reimbursed by the elementary schools for shipping, transfer, and installation costs.

The special treatment applies only to donations made by C corporations. S corporations, personal holding companies, and service organizations are not eligible donors.

The provision is scheduled to expire for contributions made in taxable years beginning after December 31, 2000.

HOUSE BILL

No provision. However, H.R. 5542 includes a provision that extends the current enhanced

deduction for donations of computer technology and equipment through December 31, 2003, and expands the enhanced deduction to include donations to public libraries. H.R. 5542 provides that qualified contributions include gifts made no later than three years after the date the taxpayer acquired or substantially completed the construction of the donated property.

Effective date.—The provision is effective for contributions made after December 31, 2000.

SENATE AMENDMENT

No provision. However, S. 3152 includes a provision that extends the current enhanced deduction for donations of computer technology and equipment through December 31, 2003. In addition, S. 3152 expands the enhanced deduction to include donations to public libraries.

Effective date.—The provision is effective upon the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542 with a modification that contributions may be made by a person that has reacquired the property (i.e., if a computer manufacturer reacquires the computer from the original user and then contributes it). Such reacquired property must be contributed within 3 years of the date the original construction of the property was substantially completed. The conferees anticipate that for purposes of computing the enhanced deduction for a reacquirer, the Secretary will provide guidance in determining the retail value of donated computers (or other computer technology) in situations in which the number of actual retail sales of used computers similar to those donated is small in relation to the number of such computers that are donated.

In addition, the conference agreement provides that the Secretary may prescribe by regulation standards to ensure that the donations meet minimum functionality and suitability standards for educational purposes.

J. TREATMENT OF INDIAN TRIBES AS NON-PROFIT ORGANIZATIONS AND STATE OR LOCAL GOVERNMENTS FOR PURPOSES OF THE FEDERAL UNEMPLOYMENT TAX ("FUTA") (SEC. 156 OF THE BILL AND SEC. 3306 OF THE CODE)

PRESENT LAW

Present law imposes a net tax on employers equal to 0.8 percent of the first \$7,000 paid annually to each employee. The current gross FUTA tax is 6.2 percent, but employers in States meeting certain requirements and having no delinquent loans are eligible for a 5.4 percent credit making the net Federal tax rate 0.8 percent. Both non-profit organizations and State and local governments are not required to pay FUTA taxes. Instead they may elect to reimburse the unemployment compensation system for unemployment compensation benefits actually paid to their former employees. Generally, Indian tribes are not eligible for the reimbursement treatment allowable to non-profit organizations and State and local governments.

HOUSE BILL

No provision. However, H.R. 5542 provides that an Indian tribe (in including any subdivision, subsidiary, or business enterprise chartered and wholly owned by an Indian tribe) is treated like a non-profit organization or State or local government for FUTA purposes (i.e., given an election to choose the reimbursement treatment).

Effective date.—The provision generally is effective with respect to service performed beginning on or after the date of enactment. Under a transition rule, service performed in the employ of an Indian tribe is not treated

as employment for FUTA purposes if: (1) it is service which is performed before the date of enactment and with respect to which FUTA tax has not been paid; and (2) such Indian tribe reimburses a State unemployment fund for unemployment benefits paid for service attributable to such tribe for such period.

SENATE AMENDMENT

No provision. However, S. 3152 is the same as H.R. 5542.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542 and S. 3152.

TITLE II. MEDICAL SAVINGS ACCOUNTS ("MSAs")

(SEC. 201 OF THE BILL AND SEC. 220 OF THE CODE)

PRESENT LAW

Within limits, contributions to a medical savings account ("MSA")²⁹ are deductible in determining adjusted gross income ("AGI") if made by an eligible individual and are excludable from gross income and wages for employment tax purposes if made by the employer of an eligible individual. Earnings on amounts in an MSA are not currently taxable. Distributions from an MSA for medical expenses are not taxable. Distributions not used for medical expenses are taxable. In addition, distributions not used for medical expenses are subject to an additional 15-percent tax unless the distribution is made after age 65, death, or disability.

MSAs are available to self-employed individuals³⁰ and to employees covered under an employer-sponsored high deductible plan of a small employer. An employer is a small employer if it employed, on average, no more than 50 employees on business day during either the preceding or the second preceding year.

In order for an employee of a small employer to be eligible to make MSA contributions (or to have employer contributions made on his or her behalf), the employee must be covered under an employer-sponsored high deductible health plan (see the definition below) and must not be covered under any other health plan (other than a plan that provides certain permitted coverage).

Similarly, in order to be eligible to make contributions to an MSA, a self-employed individual must be covered under a high deductible health plan and no other health plan (other than a plan that provides certain permitted coverage). A self-employed individual is not an eligible individual (by reason of being self-employed) if the high deductible plan under which the individual is covered is established or maintained by an employer of the individual (or the individual's spouse).

The maximum annual contribution that can be made to an MSA for a year is 65 percent of the deductible under the high deductible plan in the case of individual coverage and 75 percent of the deductible in the case of family coverage.

A high deductible plan is a health plan with an annual deductible of at least \$1,550

²⁹In general, an MSA is a trust or custodial account created exclusively for the benefit of the account holder and is subject to rules similar to those applicable to individual retirement arrangements. The trustee of an MSA can be a bank, insurance company, or other person who demonstrates to the satisfaction of the Secretary that the manner in which such person will administer the trust will be consistent with applicable requirements.

³⁰Self-employed individuals include more than 2-percent shareholders of S corporations who are treated as partners for purposes of fringe benefit rules pursuant to section 1372. Self-employed individuals are eligible for an MSA regardless of the size of the entity for which the individual performs services.

and no more than \$2,350 in the case of individual coverage and at least \$3,100 and no more than \$4,650 in the case of family coverage. In addition, the maximum out-of-pocket expenses with respect to allowed costs (including the deductible) must be no more than \$3,100 in the case of individual coverage and no more than \$5,700 in the case of family coverage.³¹ A plan does not fail to qualify as a high deductible plan merely because it does not have a deductible for preventive care as required by State law. A plan does not qualify as a high deductible health plan if substantially all of the coverage under the plan is for permitted coverage. In the case of a self-insured plan, the plan must in fact be insurance (e.g., there must be appropriate risk shifting) and not merely a reimbursement arrangement.

The number of taxpayers benefiting annually from an MSA contribution is limited to a threshold level (generally 750,000 taxpayers). If it is determined in a year that the threshold level has been exceeded (called a "cut-off" year) then, in general, for succeeding years during the 4-year pilot period 1997-2000, only those individuals who (1) made an MSA contribution or had an employer MSA contribution for the year or a preceding year (i.e., are active MSA participants) or (2) are employed by a participating employer, is eligible for an MSA contribution. In determining whether the threshold for any year has been exceeded, MSAs of individuals who were not covered under a health insurance plan for the six month period ending on the date on which coverage under a high deductible plan commences would not be taken into account.³² However, if the threshold level is exceeded in a year, previously uninsured individuals are subject to the same restriction on contributions in succeeding years as other individuals. That is, they would not be eligible for an MSA contribution for a year following a cut-off year unless they are an active MSA participant (i.e., had an MSA contribution for the year or a preceding year) or are employed by a participating employer.

The number of MSAs established has not exceeded the threshold level.

After December 31, 2000, no new contributions may be made to MSAs except by or on behalf of individuals who previously had MSA contributions and employees who are employed by a participating employer. An employer is a participating employer if (1) the employer made any MSA contributions for any year to an MSA on behalf of employees or (2) at least 20 percent of the employees covered under a high deductible plan made MSA contributions of at least \$100 in the year 2000.

Self-employed individuals who made contributions to an MSA during the period 1997-2000 also may continue to make contributions after 2000.

HOUSE BILL

No provision. However, H.R. 5542 extends the MSA program through 2002. The same rules that apply to the limit on MSAs for 1999 apply to 2000 and 2001. Thus, for example, the threshold level in those years is 750,000 taxpayers.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference report follows H.R. 5542, except that MSAs are renamed as Archer

MSAs. The conference agreement clarifies that, as under present law, the cap and reporting requirements do not apply for 2000.

TITLE III. ADMINISTRATIVE AND TECHNICAL CORRECTIONS PROVISIONS

Subtitle A. Administrative Provisions

A. EXEMPT CERTAIN REPORTS FROM ELIMINATION UNDER THE FEDERAL REPORTS ELIMINATION AND SUNSET ACT OF 1995 (SEC. 301 OF THE BILL)

PRESENT LAW

Section 303 of the Federal Reports Elimination and Sunset Act of 1995 eliminates many periodic Federal reporting requirements, effective May 15, 2000.

HOUSE BILL

No provision. However, H.R. 5542 exempts certain reports from elimination and sunset pursuant to the Federal Reports Elimination and Sunset Act of 1995.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542.

B. EXTENSION OF DEADLINES FOR IRS COMPLIANCE WITH CERTAIN NOTICE REQUIREMENTS (SEC. 302 OF THE BILL AND SECS. 6631 AND 6751(a) OF THE CODE)

PRESENT LAW

The Internal Revenue Service Restructuring and Reform Act of 1998 ("IRS Restructuring Act of 1998") imposed several notice requirements relating to penalties, interest and installment agreements. Section 6715 of the Code, added by section 3306 of the IRS Restructuring Act of 1998, requires that each notice imposing a penalty include the name of the penalty, the Code section under which the penalty is imposed, and a computation of the penalty.³³ This requirement applies to notices issued, and penalties assessed, after December 31, 2000.³⁴

Section 6631 of the Code, added by section 3308 of the IRS Restructuring Act of 1998, requires that every IRS notice sent to an individual taxpayer that includes an amount of interest required to be paid by the taxpayer also include a detailed computation of the interest charged and a citation of the Code section under which such interest is imposed. The provision is effective for notices issued after December 31, 2000.

Section 3506 of the IRS Restructuring Act of 1998 requires the IRS to send every taxpayer in an installment agreement an annual statement of the initial balance owed, the payments made during the year, and the remaining balance. The provision became effective on July 1, 2000.

HOUSE BILL

No provision. However, H.R. 5542 extend the deadlines for complying with the penalty, interest, and installment agreement notice requirements. Specifically, the annual installment agreement notice requirement is extended from July 1, 2000, to September 1, 2001. The deadlines for complying with the notice requirements relating to the computation of penalties and interest³⁵ are both extended to June 30, 2001. In addition, for penalty notices issued after June 30, 2001, and before July 1, 2003, the notice requirements will be treated as met if the notice contains a telephone number at which the taxpayer can request a copy of the taxpayer's assessment and payment history with respect to such penalty. Similarly, for interest notices issued after June 30, 2001, and before July 1, 2003, the notice require-

ments will be treated as met if such notice contains a telephone number at which the taxpayer can request a copy of the taxpayer's payment history relating to interest amounts included in such notice.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542.

C. EXTENSION OF AUTHORITY FOR UNDERCOVER OPERATIONS (SEC. 303 OF THE BILL AND SEC. 7608 OF THE CODE)

PRESENT LAW

The Anti-Drug Abuse Act of 1988 exempted IRS undercover operations from the otherwise applicable statutory restrictions controlling the use of Government funds (which generally provide that all receipts must be deposited in the general fund of the Treasury and all expenses be paid out of appropriated funds). In general, the exemption permits the IRS to "churn" the income earned by an undercover operation to pay additional expenses incurred in the undercover operation. The IRS is required to conduct a detailed financial audit of large undercover operations in which the IRS is churning funds and to provide an annual audit report to the Congress on all such large undercover operations. The exemption originally expired on December 31, 1989, and was extended by the Comprehensive Crime Control Act of 1990 to December 31, 1991. In the Taxpayer Bill of Rights II (Public Law 104-168), the authority to churn funds from undercover operations was extended for five years, through 2000.

HOUSE BILL

No provision. However, H.R. 5542 extends the authority of the IRS to "churn" the income earned from undercover operations for an additional five years, through 2005.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542.

D. COMPETENT AUTHORITY AND PRE-FILING AGREEMENTS (SEC. 304 OF THE BILL AND SECS. 6103, 6110, AND NEW SEC. 6105 OF THE CODE)

PRESENT LAW

Section 6103

Section 6103 of the Code sets forth the general rule that returns and return information are confidential. A return is any tax return, information return, declaration of estimated tax, or claim for refund filed under the Code on behalf of or with respect to any person. The term return also includes any amendment or supplement, including supporting schedules or attachments or lists, which are supplemental to or are part of a filed return. Return information is defined broadly. It includes the following information:

A taxpayer's identity, the nature, source or amount of income, payments, receipts, deductions, exemptions, credits, assets, liabilities, net worth, tax liability, tax withheld, deficiencies, over assessments, or tax payments;

Whether the taxpayer's return was, is being, or will be examined or subject to other investigations or processing;

Any other data, received by, recorded by, prepared by, furnished to, or collected by the Secretary with respect to a return or with respect to the determination of the existence, or possible existence, of liability (or

Any part of any written determination or any background file document relating to such written determination which is not open to the public inspection under section 6110,³⁷ and

Any advance pricing agreement entered into by a taxpayer and the Secretary and any background information related to the agreement or any application for an advance pricing agreement.

The term "return information" does not include data in a form that cannot be associated with or otherwise identify, directly or indirectly, a particular taxpayer.

Secrecy of information exchanged under tax treaties

U.S. tax treaties typically contain articles governing the exchange of information. These articles generally provide for the exchange of information between the tax authorities articles generally provide for the exchange of information between the tax authorities of the two countries when such information is necessary for carrying out provisions of the treaty or of the countries' domestic tax laws. Individuals referred to as "competent authorities" are designated by each country to make written requests for information and to receive information.³⁸

The exchange of information articles typically cover information relating to taxes to which the treaty applies, but can also apply to other taxes (e.g., excise taxes) not covered by the treaty. Many of the treaties permit the exchange of information even if the taxpayer involved is not a resident of one of the treaty countries. The exchange of information articles may be similar to, or represent a variation on, Article 26 of the 1996 U.S. model income tax treaty.

Information that is received under the exchange of information articles is subject to secrecy clauses contained in the treaties. In this regard, the country requesting information under the treaties typically is required to treat any information received as secret in the same manner as information obtained under its domestic laws. In general, disclosure is not permitted other than to persons or authorities involved in the administration assessment collection or enforcement of taxes to which the treaty applies. For example, disclosure generally can be made to legislative bodies, such as the tax-writing committees of the Congress, and the General Accounting Officer for purposes of overseeing the administration of U.S. tax laws.

In addition to the exchange of information articles in U.S. tax treaties, exchange of information provisions are contained in tax information exchange agreements entered into between the United States and another country.³⁹ In addition, information may be ex-

changed pursuant to the Convention on Mutual Administrative Assistance in Tax Matters developed by the Council of Europe and the Organization for Economic Cooperation and Development (the "Multilateral Mutual Assistance Convention"), which limits the use of exchanged information and permits disclosure of such information only with the prior authorization of the competent authority of the country providing the information.⁴⁰ The United States has also entered into a number of implementation and coordination agreements with possessions that provide for the exchange of tax information. Moreover, the United States has entered into various mutual legal assistance treaties with other countries, some of which can be used to obtain tax information in criminal investigations.

Both the confidentiality provisions of section 6103, as well as treaty secrecy provisions can cover return information.

Section 6110 and section 7121

Section 6110 of the Code provides for disclosure of written determinations. With certain exceptions, section 6110 makes the text of any written determination the Internal Revenue Service ("IRS") issues available for public inspection. A written determination is any ruling, determination letter, technical advice memorandum, or Chief Counsel advice. The IRS is required to redact certain material before making these documents publicly available.⁴¹ Among the information to be redacted is information specifically exempted from disclosure by any statute (other than Title 26) that is applicable to the IRS. Once the IRS makes the written determination publicly available, the background file documents associated with such written determination are available for public inspection upon written request. Section 6110 defines "background file documents" as any written material submitted by the taxpayer or other requester in support of the request. Background file documents also include any

will be used by such persons or authorities only for such purposes." Sec. 274(h)(6)(C)(i).

⁴⁰The U.S. Senate ratified the Multilateral Mutual Assistance Convention, subject to certain reservations, in September 1990. The Multilateral Mutual Assistance Convention entered into force on April 1, 1995, and has been signed by the following countries: Denmark, Finland, Iceland, the Netherlands, Norway, Sweden, and the United States.

⁴¹For rulings, determination letters and technical advice memorandum, section 6110(c) provides the following exemptions from disclosure:

(1) The names, address, and other identifying details of the person to whom the written determination pertains and of any other person, other than a person with respect to whom a notation is made under subsection(d)(1) (relating to third party contacts), identified in the written determination or any background file document;

(2) Information specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy, and which is in fact properly classified pursuant to such Executive order;

(3) Information specifically exempted from disclosure by any statute (other than Title 26) which is applicable to the Internal Revenue Service;

(4) Trade secrets and commercial or financial information obtained from a person and privileges or confidential;

(5) Information the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(6) Information contained in or related to examination, operating, or condition reports prepared by, or on behalf of, or for use of an agency responsible for the regulation or supervision of financial institutions; and

(7) Geological and geophysical information and data, including maps, concerning wells.

For Chief Counsel Advice, paragraphs 2 through 7 do not apply, however, material may be deleted in accordance with subsections (b) and (c) of the FOIA (except that in applying Exemption 3 of the FOIA, no statutory provision of the Code is to be taken into account.) See sec. 6110(i)(3).

communications between the IRS and persons outside the IRS concerning such written determination that occur before the IRS issues the determination.

Section 6110 was added to the Code in 1976. The legislative history provided that a written determination would not be considered a ruling, technical advice memorandum, or determination letter, unless the document satisfies three criteria:

(1) The document recites the relevant facts;

(2) The document explains the applicable provisions of law; and

(3) The document shows the application of law to the facts.⁴²

The legislative history further provided that section 6110 "does not require public disclosure of a closing agreement entered into between the IRS and a taxpayer which finally determines the taxpayer's tax liability with respect to a taxable year... Your committee understands that a closing agreement is generally the result of a negotiated settlement and, as such, does not necessarily represent the IRS view of the law. Your committee intends, however, that the closing agreement exception is not to be used as a means of avoiding public disclosure of determinations which, under present practice, would be issued in a form which would be open to public inspection [under the bill]."⁴³

Closing agreements are entered into under the authority of section 7121. Closing agreements finally and conclusively settle a tax between the IRS and a taxpayer. Closing agreements may: (1) determine a taxpayer's entire tax liability for a previous tax period; or (2) fix the tax treatment of one or more specific items affecting tax liability or any tax period. Thus, closing agreements may settle the treatment of a specific item for periods ending after the execution of the agreement. A single closing agreement may cover both the determination of a taxpayer's entire tax liability for a previous tax period and fix the tax treatment of specific items for any tax period.

Freedom of Information Act

The Freedom of Information Act ("FOIA"), enacted in 1966, established a statutory right to access government information. While the purpose of section 6103 is to restrict access to returns and return information, the basic purpose of the FOIA is to ensure that the public has access to government documents. In general, the FOIA provides that any person has a right of access to Federal agency records, except to the extent that such records (or portions thereof) are protected from disclosure by one of nine exemptions or by one of three special law enforcement record exclusions. Exemption 3 of the FOIA allows the withholding of information prohibited from disclosure by another statute if certain requirements are met.⁴⁴ The right of access is enforceable in court.

Pending FOIA requests and litigation involving IRS records

⁴⁵The initial FOIA request of March 14, 2000, covered all competent authority agreements executed for the United States from January 1, 1990, to date. In response to a request from the Department of Treasury, by letter dated April 17, 2000, the FOIA request was narrowed to cover competent authority agreements executed between 1997 and 1999. The right to pursue the 1990 through 1996 agreements, however, was reserved.

³⁸The U.S. competent authority is the Secretary of the Treasury or his delegate. The U.S. competent authority function has been delegated to the Commissioner of Internal Revenue, who has redelegated the authority to the Director, International. On interpretive issues, the latter acts with the concurrence of the Associate Chief Counsel (International) of the IRS.

³⁹Sections 274(h)(6)(C) and 927(e)(3) specifically provide the Secretary of the Treasury the authority to enter into tax information exchange agreements. This eliminates the need for Senate ratification, which is required for a tax treaty. In addition, all tax information exchange agreements are required to include specific non-disclosure provisions which provide that "information received by either country will be disclosed only to persons or authorities (including courts and administrative bodies) involved in the administration or oversight of, or in the determination of appeals in respect of, taxes of the United States, or the beneficiary country and

request, nor has it produced any documents responsive to the request. At this time, no suit has been filed to compel disclosure of these documents, although such a suit may be brought in the future.

In connection with a separate request, the IRS was sued under the FOIA to compel disclosure of Field Service Advice memoranda ("FSAs").⁴⁶ FSAs are prepared by attorneys in the IRS National Office of the Office of Chief Counsel. They are prepared in response to requests from IRS field personnel for legal guidance, usually with respect to issues relating to a particular taxpayer. FSAs usually contain a statement of issues, facts, legal analysis and conclusions. The primary purpose of FSAs is to ensure that IRS field personnel apply the law correctly and uniformly. The D.C. Circuit determined that FSAs are subject to disclosure. However, the court remanded the case to district court to address assertions of privilege, including those based on treaty secrecy. A decision on this issue by the district court is still pending.⁴⁷

Pre-filing agreements

On February 11, 2000, the IRS issued Notice 2000-12, in which the IRS established a pilot program for "Pre-filing Agreements." Under this program, large businesses may request a review and resolution of specific issues relating to tax returns they expect to file between September and December of 2000. The purpose of the program is to enable taxpayers and the IRS to resolve issues that are likely to be disputed in post-filing audits. Examples of such issues include: (1) asset valuation and the allocation of a business's purchase or sale price among the assets acquired or sold; (2) the identification and documentation of hedging transactions; and (3) the determination of "market" for taxpayers using the lower of cost or market method of inventory valuation in situations involving the inactive markets. The program is intended to address issues for which the law is settled.

In Notice 2000-12, the IRS stated that pre-filing agreements are closing agreements entered into pursuant to section 7121. As such, the notice provides that the information generated or received by the IRS during the pre-filing agreement process constitutes return information. The notice further provides that pre-filing agreements are not written determinations as defined in section 6110, nor are they subject to disclosure under the FOIA.

HOUSE BILL

No provision. However, H.R. 5542 affirms that closing and similar agreements, and information exchanged and agreements reached pursuant to a tax treaty, are confidential. Further, the provision clarifies that such protected documents are not to be disclosed under the FOIA or section 6110.

Clarification that return information includes closing agreements and similar dispute resolution agreements

Protection for closing agreements, pre-filing agreements and similar agreements not containing an exposition of the tax law

The bill provides that agreements entered into under section 7121 or similar agreements are confidential return information. Similar agreements are intended to include negotiated agreements that (1) are the result of an alternative dispute resolution or dispute avoidance process relating to liability of any person under the Code for any tax, penalty, interest, fine or forfeiture or other imposition or offense and (2) do not establish, set forth, or resolve the government's interpre-

tation of the relevant tax law. This is not meant to preclude citation, or repetition of, the Code, Treasury regulations, or other published rules.

It is intended that pre-filing agreements be covered by this provision. It is the understanding of the conferees that pre-filing agreements do not explain the applicable provisions of law or otherwise contain any exposition of the tax law or the position of the IRS. In addition, it is not intended that the closing and similar agreement exception be used as a means of avoiding public disclosure of determinations that, under present law, would be issued in a form that would be open to public inspection. Thus, technical advice memoranda, chief counsel advice or other material clearly available to the public under present law section 6110, would not be exempt from disclosure by virtue of the fact that such material is contained in a background file for a closing agreement. For example, if a revenue agent seeks technical advice in connection with a pre-filing agreement, such technical advice would remain subject to the requirements of section 6110. Since the pre-filing agreement program involves only settled issues of law, it is the understanding of the conferees that documents of this nature generally would not be generated in the pre-filing agreement process.

The provision is not intended to foreclose the disclosure of tax-exempt organization closing agreements to the extent such disclosure is authorized under section 6104.⁴⁸ Since section 6103 permits the disclosure of return information as authorized by title 26, a disclosure authorized by section 6104 is permissible, notwithstanding the fact that a closing agreement is return information.

Report on pre-filing agreement program

It is intended that the Secretary make publicly available an annual report relating to the pre-filing agreement program operations for the preceding calendar year. The annual reporting requirement is for five years, or the duration of the program, whichever is shorter. The report is to include (1) the number of pre-filing agreements completed, (2) the number of applications received, (3) the number of applications withdrawn, (4) the types of issues which are resolved by completed agreements, (5) whether the program is being utilized by taxpayers who were previously subject to audit by the IRS, (6) the average length of time required to complete an agreement, (7) the number, if any, and subject of technical advice and chief counsel advice memoranda issued to address issues arising in connection with any pre-filing agreement, (8) any model agreements,⁴⁹ and (9) any other information the Secretary deems appropriate. The first report, covering the calendar year 2000, is to be issued no later than March 30, 2001. The information required for the annual report is subject to the restrictions of section 6103. Therefore, the Secretary will disclose information only in a form that cannot be associated with or otherwise identify, directly or indirectly, a particular taxpayer. The Joint Committee on Taxation periodically may re-

view pre-filing agreements to determine whether they contain legal interpretations that should be disclosed to the public.

Clarification that information protected by treaty is confidential

Protection for agreements and information exchanged pursuant to tax treaty

The provision adds a new Code section 6105, which provides that tax convention information, with limited exceptions, cannot be disclosed. Thus, the provision confirms that agreements concluded under, and information received pursuant to, a tax convention are confidential and can only be disclosed as provided in such tax convention.

Under the provision, a tax convention is defined to include any income tax or gift and estate tax convention, or any other convention or bilateral agreement (including multilateral conventions and agreements and any agreement with a possession of the United States) providing for the avoidance of double taxation, the prevention of fiscal evasion, nondiscrimination with respect to taxes, the exchange of tax relevant information with the United States, or mutual assistance in tax matters.

It is the understanding of the conferees that competent authority agreements (also referred to as mutual agreements) generally do not contain an explanation of the law or application of law to facts. Instead, such agreements are negotiated arrangements to resolve issues of double taxation. Thus, the term tax convention information for purposes of the provision includes: (1) any agreement entered into with the competent authority of one or more foreign governments pursuant to a tax convention; (2) an application for relief under a tax convention (sought by either a taxpayer or another competent authority); (3) any background information related to such agreement or application; (4) documents implementing such agreement; and (5) any other information exchanged pursuant to a tax convention that is treated as confidential or secret under such tax convention. The conferees intend that tax convention information would include documents and any other information that reflects tax convention information, including the association of a particular treaty partner with a specific issue or matter.

The general rule that tax convention information cannot be disclosed does not apply to the disclosure of tax convention information to persons or authorities (including courts and administrative bodies) that are entitled to disclosure under the tax convention. It also does not apply to any generally applicable procedural rules regarding applications for relief under a tax convention. This exception is intended to ensure that there is no restriction on the release by the Secretary of publicly available procedural rules concerning matters such as how or when to make a request for competent authority assistance. Thus, certain material generated by IRS, i.e., its Competent Authority procedures (primarily reflected in Rev. Proc. 96-13), or similar material produced by a treaty partner (for example, an Information Circular produced and published by the Canadian tax authority) may be made available to the public. The general rule does not apply to the disclosure of information not relating to a particular taxpayer if, after consultation with the parties to a tax convention, the Secretary determines that such disclosure would not impair tax administration. This is consistent with current practice. An example of a general agreement that could be disclosed under this provision is the agreement between the competent authorities of Mexico and the United States regarding the maquiladora industry. That agreement, which was not taxpayer specific, was

⁴⁶ *Tax Analysts v. IRS*, 117 F.3d 607 (D.C. Cir. 1997).

⁴⁷ *Tax Analysts v. IRS*, No. 94-CV-923 (GK) (D.D.C.).

publicized by press release IR-INT-1999-13. The conferees intend that the "impairment of tax administration" for purposes of this provision include, but not be limited to, the release of documents that would adversely affect the working relationship of the treaty partners. Under the provision, except as otherwise provided, taxpayer-specific tax convention information could not be publicly disclosed, even if it would not impair tax administration.

A taxpayer-specific competent authority agreement that relates to the existence or possible existence of liability (or amount thereof) of any person for any tax, penalty, interest, fine, forfeiture, or other imposition or offense under the Code is return information under section 6103. It is also an agreement pursuant to a tax convention under section 6105. Return information, including taxpayer-specific competent authority agreements, remains subject to the confidentiality provisions of section 6103. Thus, civil and criminal penalties for the unauthorized disclosure of returns and return information continue to apply to return information that is also covered by section 6105. However, tax convention information that is return information may only be disclosed to the extent provided in, and subject to the terms and conditions of, the relevant tax convention.

Interaction with FOIA and section 6110

Under the provision, closing agreements and similar agreements would not be considered written determinations for purposes of section 6110 and, thus, would not be subject to public disclosure. Such agreements would be defined as return information under section 6103 and, therefore, such documents would be protected from disclosure pursuant to Exemption 3 of the FOIA in conjunction with section 6103.

In addition, under the provision, section 6110 would not apply to material covered by section 6105. In the litigation over FSAs, there has been some dispute as to whether treaties qualify as statutes for purposes of withholding information pursuant to Exemption 3 of the FOIA. The conferees believe that treaties are the equivalent of statutes for purposes of Exemption 3 of the FOIA. Section 6105 satisfies Exemption 3 of the FOIA. Taxpayer-specific tax convention information concerning a taxpayer's tax liability, such as taxpayer-specific competent authority agreements, would be exempt from the FOIA as both return information under section 6103 and information protected from disclosure by tax convention under section 6105. Agreements not relating to a particular taxpayer, and other tax convention information related to such agreements, could be disclosed under FOIA if it is determined that the disclosure would not impair tax administration.

Effective date

The provision applies to disclosures on, or after, the date of enactment, and thus, applies to all documents in existence on, or created after, the date of enactment.

E. INCREASE JOINT COMMITTEE ON TAXATION REFUND REVIEW THRESHOLD TO \$2 MILLION (SEC. 305 OF THE BILL AND SEC. 6405 OF THE CODE)

PRESENT LAW

No refund or credit in excess of \$1,000,000 of any income tax, estate or gift tax, or certain other specified taxes, may be made until 30 days after the date a report on the refund is provided to the Joint Committee on Tax-

ation (sec. 6405). A report is also required in the case of certain tentative refunds. Additionally, the staff of the Joint Committee on Taxation conducts post-audit reviews of large deficiency cases and other select issues.

HOUSE BILL

No provision. However, H.R. 5542 increases the threshold above which refunds must be submitted to the Joint Committee on Taxation for review from \$1,000,000 to \$2,000,000. The staff of the Joint Committee on Taxation would continue to exercise its existing statutory authority to conduct a program of expanded post-audit reviews of large deficiency cases and other select issues, and the IRS is expected to cooperate fully in this expanded program.

Effective date.—The provision is effective on the date of enactment, except that the higher threshold does not apply to a refund or credit with respect to which a report was made before the date of enactment.

F. CLARIFYING THE ALLOWANCE OF CERTAIN TAX BENEFITS WITH RESPECT TO KIDNAPPED CHILDREN (SEC. 306 OF THE BILL AND SECS. 2, 24, 32, AND 151 OF THE CODE)

PRESENT LAW

The Code generally requires that a taxpayer provide over one-half of the support for each individual claimed as that taxpayer's dependent. Similarly, the child credit, the surviving spouse filing status, and the head of household filing status require that a taxpayer satisfy certain requirements with regard to individuals that qualify as the taxpayer's dependent(s). Finally, the earned income credit for taxpayers with qualifying children generally is available only if the taxpayer has the same principal place of abode for more than one-half the taxable year with an otherwise qualifying child.

Recently published IRS guidance first denied a dependency exemption to certain taxpayers with kidnapped children (TAM 200034029), then allowed such tax benefits to such taxpayers (TAM 200038059).

HOUSE BILL

No provision. However, H.R. 5542 clarifies that the dependency exemption, the child credit, the surviving spouse filing status, the head of household filing status, and the earned income credit are available to an otherwise qualifying taxpayer with respect to a child who is presumed by law enforcement authorities to have been kidnapped by someone who is not a member of the family of such child or the taxpayer. Generally, this treatment continues for all taxable years ending during the period that the child is kidnapped. However, this treatment ends for the taxable year ending after the calendar year in which it is determined that the child is dead (or, if earlier, in which the child would have attained age 18).

Effective date.—The provision is effective for taxable years ending after the date of enactment.

G. CONFORMING CHANGES TO ACCOMMODATE REDUCED ISSUANCES OF CERTAIN TREASURY SECURITIES (SEC. 307 OF THE BILL AND SEC. 995(f)(4) OF THE CODE)

PRESENT LAW

Code section 995(f)(4) dealing with the interest charge on the deferred tax liability of

the shareholders of a domestic international sales corporation provides that the interest rate be determined by reference to the average investment yield on United States Treasury bills with maturities of 52 weeks. In addition, provisions of Federal law relating to interest on monetary judgments in civil cases recovered in Federal district court and on a judgment against the United States affirmed by the Supreme Court (Title 28), interest on certain unpaid criminal fines and penalties (Title 18), and interest on compensation for certain takings of property (Title 40) determine the applicable interest rate by reference to 52-week Treasury bills.

As a result of prior Congressional efforts at budgetary control, current and projected Federal budget surpluses are reducing the need of the Treasury Department to issue certain securities. The Treasury Department has informed the Congress that on grounds of efficient debt management, and predictability and liquidity for the financial markets, the Treasury Department has announced it is likely to cease issuing 52-week Treasury bills.

HOUSE BILL

No provision. However, H.R. 5542 modifies the Code (sec. 995(f)(4)) and certain other parts of Federal law relating to interest on monetary judgments in civil cases recovered in Federal district court and on a judgment against the United States affirmed by the Supreme Court (Title 28), interest on certain unpaid criminal fines and penalties (Title 18), and interest on compensation for certain takings of property (Title 40) that make specific reference to yields on 52-week Treasury bills. H.R. 5542 generally replaces the reference to 52-week Treasury bills with a reference to the weekly average one-year constant maturity Treasury yield, as published by the Board of Governors of the Federal Reserve System.

Effective date.—The provision is effective upon the date of enactment.

H. AUTHORIZATION OF AGENCIES TO USE CORRECTED CONSUMER PRICE INDEX (SEC. 308 OF THE BILL)

PRESENT LAW

Code section 1(f) provides for adjustments in the tax tables so that inflation will not result in tax increases. Numerous other provisions of the Code are indexed as well. Section 1(f) provides that inflation is measured by changes in the consumer price index ("CPI") for the preceding year as published by the Department of Labor compared to the CPI for the calendar year 1992. Section 1(f) directs the Secretary to publish tables with applicable tax rates based upon calculated inflation adjustments by December 15 of the year before the year to which the tables are to apply.

In addition, payments made under Social Security, certain Federal employee retirement programs, and certain payments to individuals under various welfare and income support programs are adjusted annually by changes in the CPI.

On September 28, 2000, the Bureau of Labor Statistics ("BLS") announced that the agency had discovered a computational error in quality adjustments of air conditioning as a part of the cost of housing resulting in errors in the reported CPI between January 1999 and August 2000. The BLS reported that the CPI levels starting in January 1999 have been either 0.0, 0.1, or 0.2 index points lower than the levels that would have been published

without the error. Consistent with agency guidelines and past practices, the BLS announced that it is revising the reported CPI back to January 2000 to the fully correct levels. The BLS will make no changes to reported levels for January through December 1999. However, the BLS will make the corrected levels of the CPI for 1999 available upon request.

HOUSE BILL

No provision. However, H.R. 5542 authorizes the Secretary of the Treasury to use the corrected levels of the CPI for 1999 and 2000 for all purposes of the Code to which they might apply. H.R. 5542 directs the Secretary to prescribe new tables reflecting the correct levels of the 1999 CPI for the 2000 tax year.

In addition, H.R. 5542 provides that the Director of the Office of Management and Budget ("OMB") shall assess Federal benefit programs to ascertain the extent to which the CPI error has or will result in a shortfall in program payments to individuals for 2000 and future years. The Director is directed to issue guidelines to agency administrators to determine the extent, if any, of such shortfalls in payments to individuals. The agency administrators are to report their findings to the Director and to Congress within 30 days. H.R. 5542 provides that, within 60 days of the date of enactment, the Director instruct the head of any Federal agency which administers an affected program to make a payment or payments to compensate for the shortfall and that such payments are targeted to the amount of the shortfall experienced by individual beneficiaries. Applicable Federal benefit programs include the old-age and survivors insurance program, the disability insurance program and the supplemental security income program under the Social Security Act and other programs as determined by the Director. H.R. 5542 directs the Director to report to the Congress on the activities performed pursuant to this provision by April 1, 2001.

Effective date.—The provision is effective on the date of enactment.

SENATE BILL

No provision.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5542, except that the conference agreement directs the Secretary to prescribe new tables reflecting the correct levels of the CPI for the 2001 tax year.

The conferees note that error in the CPI was computational in nature. The conferees support the BLS's policy to incorporate methodological changes only on a prospective basis. The conferees also understand that BLS policy provides that published indices generally not be revised except for those found to be in error for the year in which the error was discovered or within the past twelve months. The conferees recognize that the errors in the CPI date to as long as 20 months prior to the announcement of the error. The conferees recognize that the BLS's policy of not publishing corrected index numbers, beyond those provided as described above, has been applied in those rare cases where an error has been discovered in the past. However, the conferees understand that in the past 25 years the few errors that have been discovered have involved sub-indices and have not affected the level of the CPI itself. The last time the U.S. City Average All Items CPI was revised was in December 1974, when the values for the months of April through October 1974 were recalculated and released with issuance of the November CPI. Therefore, past precedent does not strictly apply to the present situation.

The conferees believe that integrity of official government data is vital to policy-

makers and private individuals and businesses throughout the country. The conferees emphasize that the CPI plays an important role in economic planning. For this reason the conferees are concerned that, while the BLS has published corrected CPI numbers for 2000, the BLS does not intend to publish correct CPI numbers for 1999 as part of the official CPI series. To its credit, the BLS announced the error publicly. The national press reported the error.⁵⁰ In the absence of a correction to the official CPI series, the Federal government will be left in the position of maintaining, as an official data series, index numbers that the Federal government has admitted are incorrect. The conferees believe that the public's trust in the integrity of official government data is a paramount goal and the conferees strongly encourage the Commissioner of the Bureau of Labor Statistics to review carefully the agency's current policy with the respect to publishing as part of an official series corrections to data found to be in error for reasons of computational error. The conferees believe such a review should be made both with respect of computational error. The conferees believe such a review should be made both with respect to the error announced on September 28, 2000, and as a matter for the future for those rare circumstances when such a similar computational error might once again arise.

1. PREVENT DUPLICATION OR ACCELERATION OF LOSS THROUGH ASSUMPTION OF CERTAIN LIABILITIES (SEC. 309 OF THE BILL AND SEC. 358 OF THE CODE)

PRESENT LAW

Generally, no gain or loss is recognized when one or more persons transfer property to a corporation in exchange for stock and immediately after the exchange such person or persons control the corporation. However, a transfer recognizes gain to the extent it receives money or other property ("boot") as part of the exchange (sec. 351).

The assumption of liabilities by the controlled corporation generally is not treated as boot received by the transferor,⁵¹ except that the transferor recognizes gain to the extent that the liabilities assumed exceed the total of the adjusted basis of the property transferred to the controlled corporation pursuant to the exchange (sec. 357(c)).

The assumption of liabilities by the controlled corporation generally reduces the transferor's basis in the stock of the controlled corporation that assumed the liabilities. The transferor's basis in the stock of the controlled corporation is the same as the basis of the property contributed to the controlled corporation, increased by the amount of any gain (or dividend) recognized by the transferor on the exchange, and reduced by the amount of any money or property re-

ceived, and by the amount of any loss recognized by the transferor (sec. 358). For this purpose, the assumption of a liability is treated as money received by the transferor.

An exception to the general treatment of assumption of liabilities applies to assumptions of liabilities that would give rise to a deduction, provided the incurrence of such liabilities did not result in the creation or increase of basis of any property. The assumption of such liabilities is not treated as money received by the transferor in determining whether the transferor has gain on the exchange. Similarly, the transferor's basis in the stock of the controlled corporation is not reduced by the assumption of such liabilities. The Internal Revenue Service has ruled that the assumption by an accrual basis corporation of certain contingent liabilities for soil and groundwater remediation would be covered by this exception.⁵²

HOUSE BILL

No provision. However, H.R. 5542 contains a provisions to limit the acceleration or duplication of losses through assumptions of liabilities.

Under H.R. 5542, if the basis of stock (determined without regard to this provision) received by a transferor as part of a tax-free exchange with a controlled corporation exceeds the fair market value of the stock, then the basis of the stock received is reduced (but not below the fair market value) by the amount (determined as of the date of the exchange) of any liability that (1) is assumed in exchange for such stock, and (2) did not otherwise reduce the transferor's basis of the stock by reason on the assumption. Except as provided by the Secretary of the Treasury, this provision does not apply where the trade or business with which the liability is associated is transferred to the corporation as part of the exchange, or where substantially all the assets which the liability is associated are transferred to the corporation as part of the exchange.

The exception for transfers of a trade or business, or substantially all the assets with which a liability is associated, are intended to obviate the need for valuation or basis reduction in such cases. The exceptions are not intended to apply to situation involving the selective transfer of assets that may bear some relationship to the liability, but that do not represent the full scope of the trade or business, (or substantially all the assets) with which the liability is associated.

For purposes of the provision, the term "liability" includes fixed or contingent obligation to make payments, without regard to whether such obligation or potential obligation is otherwise taken into account under the Code. The determination whether a liability (as more broadly defined for purposes of this provision) has been assumed is made in accordance with the provisions of section 357(d)(1) of the Code. Under the standard of 357(d)(1), a recourse liability is treated as assumed if, based on all the facts and circumstances, the transferee has agreed to and

⁵⁰For example, John M. Berry, "Inflation Higher Than Reported," *The Washington Post*, September 27, 2000, p. E-1, John M. Berry, "Rent Error Leads to Revision Of the CPI," *The Washington Post*, September 29, 2000, p. E-3, Nicholas Kulish, "Major Price Index Is Revised Upward As Result of Error," *The Wall Street Journal*, September 28, 2000, p. A2, and Nicholas Kulish, "Second-Period GDP Rose at 5.6% Annual Rate," *The Wall Street Journal*, September 29, 2000, p. A2. The conferees observe that these press reports highlight the potential confusion for the public regarding these data. The *Washington Post* reported that "the CPI figures for 1999 were not revised" (September 29, 2000 story) while *The Wall Street Journal* reported that "[t]he BLS said a complete revision of all the data sets would be released" (September 28, 2000 story) and "it [BLS] announced that it would revise the index" (September 29, 2000 story).

⁵¹The assumption of liabilities is treated as boot if it can be shown that "the principal purpose" of the assumption is tax avoidance on the exchange, or is a non-bona fide business purpose (sec. 357(b)).

⁵²Rev. Rul. 95-74, 1995-2 C.B. 36. The ruling addressed a parent corporation's transfer to a subsidiary of substantially all the assets of a manufacturing business, in exchange for stock and the assumption of liabilities associated with the business, including certain contingent environmental remediation liabilities. These liabilities arose due to contamination of land during the parent corporation's operation of the manufacturing business. The transferor has no plan or intention to dispose of (or to have the subsidiary issue) any subsidiary stock. The IRS ruled that the contingent liabilities would not reduce the transferor's basis in the stock of the subsidiary because the liabilities would not reduce the transferor's basis in the stock of the subsidiary because the liabilities had not been taken into account by the transferor prior to the transfer and had not given rise to deductions or basis for the transferor.

is expected to satisfy such liability (or portion thereof), whether or not the transferor has been relieved of the liability. For example, if a transferee corporation does not formally assume a recourse obligation or potential obligation of the transferor, but instead agrees and is expected to indemnify the transferor with respect to all or a portion of a such an obligation, then the amount that is agreed to be indemnified is treated as assumed for purposes of the provision, whether or not the transferor has been relieved of such liability. Similarly, a nonrecourse liability is treated as assumed by the transferee of any asset subject to such liability.⁵³

The application of the provision is illustrated in the following example: Assume a taxpayer transfers assets with an adjusted basis and fair market value of \$100 to its wholly-owned corporation and the corporation assumes \$40 of liabilities (the payment of which would give rise to a deduction). Thus, the value of the stock received by the transferor is \$60. Under present law, the basis of the stock would be \$100. The provision requires that the basis of the stock be reduced to \$60 (i.e., a reduction of \$40). Except as provided by the Secretary, no basis reduction is required if the transferred assets consisted of the trade or business, or substantially all the assets, with which the liability associated.

The provision does not change the tax treatment with respect to the transferee corporation.

The Secretary of the Treasury is directed to prescribe rules providing appropriate adjustments to prevent the acceleration or duplication of losses through the assumption of liabilities (as defined in the provision) in transactions involving partnerships. The Secretary may also provide appropriate adjustments in the case of transactions involving S corporations. In the case of S corporations, such rules may be applied instead of the otherwise applicable basis reduction rules.

Effective Date.—The provision is effective for assumption of liabilities on or after October 19, 1999. Except as provided by the Secretary, the rule addressing transactions involving partnerships are effective with the same effective date. Any rules addressing transactions involving S corporations may likewise be effective for assumptions of liabilities on or after October 19, 1999, or such later date as may be prescribed in such rules.

SENATE AMENDMENT

No provision. On April 4, 2000, Senators Roth and Moynihan introduced a bill (S. 2354) that is the same as the provision in H.R. 5542.

CONFERENCE AGREEMENT

The conference agreement follow H.R. 5542. J. DISCLOSURE OF RETURN INFORMATION TO THE CONGRESSIONAL BUDGET OFFICE (SEC. 310 OF THE BILL AND NEW SEC. 6103(J)(6) OF THE CODE)

PRESENT LAW

Federal tax returns and return information are confidential and cannot be disclosed unless authorized by the Code. Section 6103 authorizes certain agencies to receive tax returns and return information for statistical use and for other specified purposes.⁵⁴ Section 6103 also permits the Secretary of the Treasury ("the Secretary") to provide return information to any person authorized to receive it by any mode or means that the Secretary determines necessary or appropriate.⁵⁵ Persons making unauthorized dis-

closures or inspections of tax returns and return information are subject to criminal and civil penalties.⁵⁶

HOUSE BILL

No provision.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

Disclosure of return information

The Congressional Budget Office ("CBO") is in the process of developing the capability to make projections of the Social Security and Medicare programs over long periods of time. To facilitate the development and operation of long-term models of Social Security and Medicare, CBO needs continuing access to records from the IRS. Specifically, CBO seeks two SSA files that contain return information—the Social Security Earnings Record and the Master Beneficiary Record. These files contain individual earnings data compiled from tax returns (Forms W-2), which are protected from disclosure by section 6103. In addition, CBO may request other records, including those matched with survey data.

The conference agreement amends section 6103 to permit the Secretary to furnish to CBO return information to the extent such information is necessary for purposes of CBO's long-term models of Social Security and Medicare. This authority extends to the development, operation, and maintenance by CBO of its long-term models of Social Security and Medicare. It is the intent of Congress that all requests for information made by CBO under this provision be made to the Secretary and that the Secretary use his authority under section 6103(p)(2) such that the SSA or other agency can furnish directly to CBO, for purposes of CBO's long-term models of Social Security and Medicare, the files they possess that incorporate return information. It is also the intent of Congress that the Secretary furnish such other return information under this provision as is necessary for purposes of CBO's Social Security and Medicare long-term models.

Under the provision, CBO is subject to the present-law safeguard requirements for tax returns and return information.⁵⁷ Further, CBO is prohibited from disclosing any tax returns and return information received under this provision except in a form that cannot be associated with, or otherwise identify, directly or indirectly a particular taxpayer. Present-law civil and criminal penalties apply to the unauthorized disclosure or inspection of tax returns or return information.⁵⁸

Addition of general CBO confidentiality provisions

The conference agreement adds to the Congressional Budget Act of 1974⁵⁹ additional confidentiality provisions which would require CBO to provide the same level of confidentiality to data it obtains from other agencies as that to which the agencies themselves are subject. Officials and employees of CBO would be subject to the same statutory penalties for unauthorized disclosure as the employees of the agencies from which CBO obtain the data.

Subtitle B.—Tax Technical Corrections (secs. 311-319 of the bill)

HOUSE BILL

No provision. However, H.R. 5542 includes tax technical corrections.⁶⁰ Except as other-

wise provided, the technical corrections contained in the bill generally are effective as if included in the originally enacted related legislation. The provisions under the IRS Restructuring Act of 1998 relating to innocent spouse and to procedural and administrative issues (other than the provision relating to clarification of Tax Court authority to issue appealable decisions) are effective upon the date of enactment of the bill.

AMENDMENTS RELATING TO THE TICKET TO WORK AND WORK INCENTIVES IMPROVEMENT ACT OF 1999

Research credit.—The provision clarifies the anti-double dip rule coordinating the research credit (sec. 41) and the Puerto Rico economic activity credit (sec. 30A). It is arguable that the present-law provisions could be construed so that the amount of wages on which a taxpayer could claim the section 30A credit is reduced only by the amount of credit claimed under section 41, rather than by the amount of wages upon which the section 41 credit is based. This result is inconsistent with the legislative history of the original provisions. The provision deletes the words "or credit" after "deduction" in section 280C(c)(1), and adds a new subsection in section 30A specifying that wages or other expenses taken into account for section 30A may not be taken into account for section 41.

Taxable REIT subsidiaries.—The provision clarifies that a REIT's redetermined rents (described in sec. 857(b)(7)(B)) that are subject to tax under section 857(b)(7)(A) do not include amounts received from a taxable REIT subsidiary that would be excluded from unrelated business taxable income (under sec. 512(b)(3), relating to certain rents, if received by certain types of organizations described in sec. 511(a)(2)).

Partnership basis adjustments.—The provision provides that the rule in the consolidated return regulations (Treas. Reg. sec. 1.1502-34) aggregating stock ownership for purposes of section 332 (relating to complete liquidation of a subsidiary that is a controlled corporation) also applies for purposes of section 732(f) (relating to basis adjustments to assets of a controlled corporation received in a partnership distribution).

Amendments related to the Tax and Trade Relief Extension Act of 1998

Exempt organizations.—The provision clarifies that nonexempt charitable trusts and nonexempt private foundations are subject to the public disclosure requirements of section 6104(d).

Capital gains.—The provision clarifies that if (1) a charitable remainder trust sold section 1250 property after July 28, 1997, and before January 1, 1998, (2) the property was held more than one year but not more than 18 months, and (3) the capital gain is distributed after December 31, 1997, then any capital gain attributable to depreciation will be taxed at 25 percent (rather than 28 percent). Treasury has published a notice (Notice 99-17, 1999-14 I.R.B., April 5, 1999) providing that the gain is taxed at 25 percent.

in H.R. 2488, the Financial Freedom Act of 1999 (106th Cong. 1st Sess., reported by the House Committee on Ways and Means, H. Rept. 106-238, July 16, 1999, 393-397), as passed by the House, and S. 1429, the Taxpayer Refund Act of 1999 (reported by the Senate Committee on Finance, S. Rept. 106-120, July 23, 1999, 221-225), as passed by the Senate. (The technical corrections were not included in the conference agreement to H.R. 2488, the Taxpayer Refund and Relief Act of 1999 (106th Cong., 1st Sess., H. Rept. 106-289, Aug. 4, 1999, 542-543). The Taxpayer Refund and Relief Act of 1999 was vetoed by President Clinton.) However, the bill does not include the following provisions enacted in other legislation: sections 1601(b)(2) and (c) of H.R. 2488 (and section 504(c) of S. 1429), relating to the Vaccine Trust Fund, which were enacted in the "Ticket to Work and Work Incentives Improvement Act of 1999" (P.L. 106-170, sec. 523(b)).

⁵³Section 357(d)(2) contains a limitation in the case of certain non recourse liabilities. Also, under section 357, regulations if issued, may provide for different results.

Amendments related to the Internal Revenue Service Restructuring and Reform Act of 1998

Innocent spouse

Timing of request for relief.—Confusion currently exists as to the appropriate point at which a request for innocent spouse relief should be made by the taxpayer and considered by the IRS. Some have read the statute to prohibit consideration by the IRS of requests for relief until after an assessment has been made, i.e., after the examination has been concluded, and if challenged, judicially determined. Others have read the statute to permit claims for relief from deficiencies to be made upon the filing of the return before any preliminary determination as to whether a deficiency exists or whether the return will be examined. The consideration of innocent spouse relief requires that the IRS focus on the particular items causing a deficiency; until such items are identified, the IRS cannot consider these claims. Congress did not intend that taxpayers be prohibited from seeking innocent spouse relief until after an assessment has been made; Congress intended the proper time to raise and have the IRS consider a claim to be at the same point where a deficiency is being considered and asserted by the IRS. This is the least disruptive for both the taxpayer and the IRS since it allows both to focus on the innocent spouse issue while also focusing on the items that might cause a deficiency. It also permits every issue, including the innocent spouse issue, to be resolved in single administrative and judicial process. The bill clarifies the intended time by permitting the election under (b) and (c) to be made at any point after a deficiency has been asserted by the IRS. A deficiency is considered to have been asserted by the IRS at the time the IRS states that additional taxes may be owed. Most commonly, this occurs during the Examination process. It does not require an assessment to have been made, nor does it require the exhaustion of administrative remedies in order for a taxpayer to be permitted to request innocent spouse relief.

Allowance of refunds.—The current placement in the statute of the provision for allowance of refunds may inappropriately suggest that the provision applies only to the United States Tax Court, whereas it was intended to apply administratively and in all courts. The bill clarifies this by moving the provision to its own subsection.

Non-exclusivity of judicial remedy.—Some have suggested that the IRS Restructuring Act administrative and judicial process for innocent spouse relief was intended to be the exclusive avenue by which relief could be sought. The bill clarifies Congressional intent that the procedures of section 6015(e) were intended to be additional, non-exclusive avenues by which innocent spouse relief could be considered.

Time for filing a petition with the Tax Court.—As enacted, the time period for seeking a redetermination in the Tax Court of innocent spouse relief begins on the date of the determination as opposed to the day after the determination. This period is one day shorter than that generally applicable to petition the Tax Court with respect to a deficiency notice (sec. 6213) and the period during which collection activities are prohibited and the limitations period is suspended. The bill clarifies the computation of this period and conforms it to the generally applicable 90-day period for petitioning the Tax Court. Conforming amendments are made as to the period for which collection activities are prohibited and collection limitations suspended.

Waiver of final determination upon agreement as to relief.—Congress intended in enacting

section 6015 to provide a simple and efficient procedure by which the IRS could consider relief, and if relief was denied (in whole or in part) and the spouse requesting such relief did not agree with such denial, such issue could be considered by the Tax Court. Congress did not intend to require a rigid formal process when the IRS and the spouse requesting relief agreed on the extent of relief to be granted. However, the provisions of section 6015(e) have been interpreted as requiring the issuance in all circumstances of a formal "Notice of Determination," which contains a statement of the time period within which a petition may be filed with the Tax Court and which delays final resolution of the request for relief until the expiration of the period for filing a petition with the Tax Court. The issuance of the Notice of Determination is confusing to the taxpayer when the requested relief was fully granted or when the IRS and the taxpayer otherwise agreed on the application of the innocent spouse provisions to the taxpayer's case. It also may cause unnecessary filings with the Tax Court and delay the closing of the case until the time for filing with the Tax Court expires.

Congress has addressed the analogous situation in the deficiency context in section 6213(d). In such situations, upon written agreement, the IRS may adjust the taxpayer's liability as agreed, and no additional formal notice is necessary. The bill reflects that an analogous waiver was intended to apply in the innocent spouse context. The bill consequently permits taxpayers and the IRS to enter into a similar written agreement in innocent spouse cases, which allows for the taxpayer's liability to be immediately adjusted as agreed, and makes unnecessary a formal Notice of Determination or Tax Court review. This written agreement is to specify the details of the agreement between the IRS and the taxpayer as to the nature and extent of innocent spouse relief that will be provided. Conforming amendments are made as to the period for which collection activities are prohibited and collection limitations suspended.

Procedural and administrative issues

Disputes involving \$50,000 or less.—The provision clarifies that the small case procedures of the Tax Court are available with respect to innocent spouse disputes and disputes continuing from the pre-levy administrative due process hearing. The small case procedures provide an accessible forum for taxpayers who have small claims with less formal rules of evidence and procedure. Use of the procedure is optional to the taxpayer, with the concurrence of the Tax Court. In view of the recent enactment of the innocent spouse and pre-levy administrative due process hearing provisions, it is anticipated that the Tax Court will give careful consideration to (1) a motion by the Commissioner of Internal Revenue to remove the small case designation (as authorized by Rules 172 and 173 of the Tax Court Rules) when the orderly conduct of the work of the Court or the administration of the tax laws would be better served by a regular trial of the case, as well as (2) the financial impact upon the taxpayer, including additional legal fees and costs, of not utilizing small case treatment. For example, removing the small case designation may be appropriate when a decision in the case will provide a precedent for the disposition of a substantial number of other cases. It is anticipated that motions by the Commissioner to remove the small case designation will be made infrequently.

Authority to enjoin collection actions.—While a dispute is pending under the pre-levy administrative due process hearing procedures, levy action is statutorily suspended for that

period. The Tax Court and district courts are expressly granted authority to enjoin improper levy action in general, but that authority does not explicitly extend to improper levy action that occurs during the period when levy action is statutorily suspended under the administrative due process provisions. The provision clarifies the ability of the courts (including the Tax Court) to enjoin levy during the period that levy is required to be suspended with respect to a dispute under the pre-levy administrative due process hearing procedures.

Clarification of permissible extension of limitations period for installment agreements.—Uncertainty exists as to whether the permissible extension of the period of limitations in the context of installment agreements is governed by reference to an agreement of the parties pursuant to section 6502 or by reference to the period of time during which the installment agreement is in effect pursuant to sections 6331(k)(3) and (i)(5). The provision clarifies that the permissible extension of the period of limitations in the context of installment agreements is governed by the pertinent provisions of section 6502.

Clarification of Tax Court authority to issue appealable decisions.—The statutory provision for judicial review of a dispute concerning the pre-levy administrative due process hearing may be unclear as to whether a determination of the Tax Court is an appealable decision. The provision clarifies that the determination of the Tax Court (other than under the small case procedures) in a dispute concerning the pre-levy administrative due process hearing is a decision of the Tax Court and would be reviewable as such.

Other issues

IRS restructuring.—When the Office of the Chief Inspector was replaced by the Treasury Inspector General for Tax Administration (TIGTA) under the IRS Restructuring and Reform Act of 1998, Inspection's responsibilities were assigned to the TIGTA. TIGTA personnel are Treasury, rather than IRS, personnel. TIGTA personnel still need to make investigative disclosures to carry out the duties they took over from Inspection and their additional tax administration responsibilities. However, section 6103(k)(6) refers only to "internal revenue" personnel. The provision clarifies that section 6103(k)(6) permits TIGTA personnel to make investigative disclosures.

Compliance.—Section 3509 of the IRS Restructuring and Reform Act of 1998 expanded the disclosure rules of section 6110 to also cover Chief Counsel advice (sec. 6110(i)). This is a conforming change related to ongoing investigations. The provision adds to section 6110(g)(5)(A), after the words technical advice memorandum, "or Chief Counsel advice."

Amendments related to the Taxpayer Relief Act of 1997

Deficiency created by overstatement of refundable child credit.—The provision treats the refundable portion of the child credit under section 24(d) as part of a "deficiency." Thus, the usual assessment procedures applicable to income taxes will apply to both the nonrefundable and the refundable portions of the child credit. (This will reverse the conclusion reached by Internal Revenue Service Chief Counsel Memorandum 199948027 interpreting present law.)

Roth IRAs.—Code section 3405 provides for withholding with respect to designated distributions from certain tax-favored arrangements, including IRAs. In general, section 3405(e)(1)(B)(ii) excludes from the definition of a designated distribution the portion of any distribution which it is reasonable to believe is excludable from gross income. However, all distributions from IRAs are treated

as includible in income. The exception was consistent with prior law when all IRA distributions were taxable, but does not account for the tax-free nature of certain Roth IRA distributions. The provision extends the exception to Roth IRAs.

Capital gain election.—The provision provides that an election to recognize gain or loss made pursuant to section 311(e) of the Taxpayer Relief Act of 1997 does not apply to assets disposed of in a recognition transaction within one year of the date the election would otherwise have been effective. Thus, for example, if an asset is sold in 2001, no election may be made with respect to that asset. In addition, it is clarified that the deemed sale and repurchase by reason of the election is not taken into account in applying the wash sales rules of section 1091.

Straight-line depreciation under AMT.—The provision clarifies that the Taxpayer Relief Act of 1997 did not change the requirement that the straight-line method of depreciation be used in computing the alternative minimum tax ("AMT") depreciation allowance for section 1250 property. It is arguable that the changes made by that Act could be read as inadvertently allowing accelerated depreciation under the AMT for section 1250 property which is allowed accelerated depreciation under the regular tax.

Transportation benefits.—Under present law, salary reduction amounts are generally treated as compensation for purposes of the limits on contributions and benefits under qualified plans. In addition, an employer can elect whether or not to include such amounts for nondiscrimination testing purposes. The IRS Reform Act permitted employers to offer a cash option in lieu of qualified transportation benefits. The provision treats salary reduction amounts used for qualified transportation benefits the same as other salary reduction amounts for purposes of defining compensation under the qualified plan rules.

Tax Court jurisdiction.—The Tax Court recently held that its jurisdiction pursuant to section 7436 extends only to employment status, not to be amount of employment tax in dispute (*Henry Randolph Consulting v. Comm'r*, 112 T.C. #1, Jan. 6, 1999). The provision provides that the Tax Court also has jurisdiction over the amount.

Amendments related to the Balanced Budget Act of 1997

Floor stocks tax.—The provision clarifies that the floor stocks taxes imposed on January 1, 2000, and January 1, 2002, apply only to cigarettes rather than to all tobacco products. As enacted, the law could be construed as ambiguous, referring to imposition on all tobacco products but imposing liability only with respect to cigarettes.

Tobacco excise tax.—Conforming amendments are provided to two provisions to reflect the fact that the tax on cigarette papers is not imposed on "books" or papers since January 1, 2000.

Coordination of trade rules and tobacco excise tax.—Clarification is provided that the penalty on reimporting cigarettes other than for return to a manufacturer (effective January 1, 2000) does not apply to cigarettes re-imported by individuals to the extent those cigarettes can be entered into the U.S. without duty or tax under the Harmonized Tariff Schedule.

Amendment related to the Small Business Job Protection Act of 1996

Work opportunity tax credit.—Section 51(d)(2) refers to eligibility for the work opportunity tax credit with respect to certain welfare recipients without taking into account the enactment of the temporary assistance for needy families ("TANF") program. The provisions conform references in

the work opportunity tax credit to the operation of TANF.

Electing small business trusts holding S corporation stock.—The provision allows an electing small business trust (sec. 1361(e)) to have an organization described in section 170(c)(1) (relating to State and local governments) as a beneficiary if the organization holds a contingent interest and is not a potential current beneficiary.

Definition of lump-sum distribution.—Section 1401(b) of the Small Business Job Protection Act of 1996 Act repealed 5-year averaging for lump-sum distributions. The definition of lump-sum distribution was preserved for other provisions, primarily those relating to NUA in employer securities. The definition was moved from section 402(d)(4)(A) to section 402(e)(4)(D)(i). This definition included the following sentence: "A distribution of an annuity contract from a trust or annuity plan referred to in the first sentence of this subparagraph shall be treated as a lump sum distribution." The provision adds this language back into the definition of lump-sum distribution. The sentence is relevant to section 401(k)(1)(B), which permits certain distributions if made as a "lump-sum distribution."

IRAs for nonworking spouses.—Section 1427 of the Small Business Job Protection Act of 1996 expanded the IRA deduction for nonworking spouses. The maximum permitted IRA contributions is generally limited by the individual's earned income. However, under present law, it is possible for a nonworking (or lesser earning) spouse to make IRA contributions in excess of the couple's combined earned income. The following example illustrates present law.

Example: Suppose H and W retire in the middle of January, 1999. In that year, H earns \$1,000 and W earns \$500. Both are active participants in an employer-sponsored retirement plan. Their modified AGI is \$60,000. They make no Roth IRA contributions. Before application of the income phase-out rules, the maximum deductible IRA contribution that H can make is \$1,000 (sec. 219(b)(1)). After application of the income phase-out rule in section 219(g), H's maximum contribution is \$200, and H contributes that amount to an IRA. Under 408(o)(2)(B), H can make nondeductible contributions of \$800 (\$1,000-\$200).

W's maximum permitted deductible contribution under section 219(c)(1)(B), before the income phase-out, is \$1,300 (the sum of H and W's earned income (\$1,500), less H's deductible IRA contribution (\$200)). Under the income phase-out, W's deductible contribution is limited to \$200, and she can make a nondeductible contribution of \$1,000 (\$1,300-\$200).

The total permitted contributions for H and W are \$2,300 (\$1,000 for H plus \$1,300 for W). The combined contribution should be limited to \$1,500, their combined earned income of the spouses.

The provision provides that the contributions for the spouse with the lesser income cannot exceed the combined earned income of the spouses.

Amendment related to the Revenue Reconciliation Act of 1990

Qualified tertiary injectant expenses.—The provision clarifies that the enhanced oil recovery credit (sec. 43) applies with respect to qualified tertiary injectant expenses described in section 193(b) that are paid or incurred in connection with a qualified enhanced oil recovery project, and that are deductible for the taxable year (regardless of the provision allowing the deduction). Purchased and self-produced injectants are treated the same for purposes of the section 43 credit.

Amendments to other Acts (sec. 318 of the bill)

Insurance.—The legislative history of section 7702A(a) (enacted in the Technical and Miscellaneous Revenue Act of 1988) indicated that if a life insurance contract became a modified endowment contract ("MEC"), then the MEC status could not be eliminated by exchanging the MEC for another contract. Section 7702A(a)(2), however, arguably might be read to allow a policyholder to exchange a MEC for a contract that does not fail the 7-pay test of section 7702A(b), then exchange the second contract for a third contract, which would not literally have been received in exchange for a contract that failed to meet the 7-pay test. The provision clarifies section 7702A(a)(2) to correspond to the legislative history, effective as if enacted with the Technical and Miscellaneous Revenue Act of 1988 (generally, for contracts entered into on or after June 21, 1988).

Insurance.—Under section 7702A, if a life insurance contract that is not a modified endowment contract is actually or deemed exchanged for a new life insurance contract, then the 7-pay limit under the new contract is first be computed without reference to the premium paid using the cash surrender value of the old contract, and then would be reduced by 1/2 of the premium paid taking into account the cash surrender value of the old contract. For example, if the old contract had a cash surrender value of \$14,000 and the 7-pay premium on the new contract would equal \$10,000 per year but for the fact that there was an exchange, the 7-pay premium on the new contract would equal \$8,000 (\$10,000-\$14,000/7). However, section 7702A(c)(3)(A) arguably might be read to suggest that if the cash surrender value on the new contract was \$0 in the first two years (due to surrender charges), then the 7-pay premium might be \$10,000 in this example, unintentionally permitting policyholders to engage in a series of "material changes" to circumvent the premium limitations in section 7702A. The provision clarifies section 7702A(c)(3)(A) to refer to the cash surrender value of the old contract, effective as if enacted with the Technical and Miscellaneous Revenue Act of 1988 (generally, for contracts entered into on or after June 21, 1988).

Worthless securities.—Section 165(g)(3) provides a special rule for worthless securities of an affiliated corporation. The test for affiliation in section 165(g)(3)(A) is the 80-percent vote test for affiliated groups under section 1504(a) that was in effect prior to 1984. When section 1504(a) was amended in the Deficit Reduction Act of 1984 to adopt the vote and value test of present law, no corresponding change was made to section 165(g)(3)(A), even though the tests had been identical until then. The provision conforms the affiliation test of section 165(g)(3)(A) to the test in section 1504(a)(2), effective for taxable years beginning after December 31, 1984.

Exception for certain annuities under OID rules.—The Deficit Reduction Act of 1984 expanded the prior-law rules for inclusion in income of original issue discount ("OID") on debt instruments. That Act provided an exception from the definition of a debt instrument for certain annuity contracts, including any annuity contract to which section 72 applies and that is issued by an insurance company subject to tax under subchapter L of the Code (and meets certain other requirements) (sec. 1275(a)(1)(B)(ii)). The provision clarifies that an annuity contract otherwise meeting the applicable requirements also comes within the exception of section 1275(a)(1)(B)(ii) if it is issued by an entity described in section 501(c) and exempt from tax under section 501(a), that would be subject to

tax as an insurance company under subchapter L if it were not exempt under section 501(a). For example, the provision clarifies that an annuity contract otherwise meeting the requirements that is issued by a fraternal beneficiary society which is exempt from Federal income tax under section 501(a), and which is described in section 501(c)(8), comes within the exception under section 1275(a)(1)(B)(ii). It is understood that charitable gift annuities (as defined in sec. 501(m)) depend (in whole or in substantial part) on the life expectancy of one or more individuals, and thus come within the exception under section 1275(a)(1)(B)(i). The provision is effective as if included with section 41 of the Deficit Reduction Act of 1984 (i.e., for taxable years ending after July 18, 1984).

Losses from section 1256 contracts.—Section 6411 allows tentative refunds for NOL carrybacks, business credit carrybacks and, for corporations only, capital loss carrybacks. Individuals normally cannot carry back a capital loss. However, section 1212(c) does allow a carryback of section 1256 losses, if elected by the taxpayer. The provision amends section 6411(a) by including a reference to section 1212(c), effective as if included with section 504 of the Economic Recovery Tax Act of 1981.

Highway Trust Fund.—The provision modifies administrative procedures of the Highway Trust Fund to conform to the 1993 repeal of the special tax rate applicable to ethanol prior to 1994. The provision is effective for taxes received after the date of enactment. This ensures that retroactive adjustments, if any, are not made to the Highway Trust Fund.

Conforming amendment for expenditures from Vaccine Injury Compensation Trust Fund.—The provision makes a conforming amendment to the expenditure purposes of the Vaccine Injury Compensation Trust Fund to enable certain payments to be made from the Trust Fund.

TITLE IV. TAX TREATMENT OF SECURITIES FUTURES CONTRACTS

(SEC. 401 OF THE BILL AND SECS. 1234B AND 1256 OF THE CODE)

PRESENT LAW

In general

Generally, gain or loss from the sale of property, including stock, is recognized at the time of sale or other disposition of the property, unless there is a specific statutory provision of nonrecognition (sec. 1001).

Gains and losses from the sale or exchange of capital assets are subject to special rules. In the case of individuals, net capital gain is generally subject to a maximum tax rate of 20 percent (sec. 1(h)). Net capital gain is the excess of net long-term capital gains over net short-term capital losses. Also, capital losses are allowed only to the extent of capital gains plus, in the case of individuals, \$3,000 (sec. 1211). Capital losses of individuals may be carried forward indefinitely and capital losses of corporations may be carried back three years and forward five years (sec. 1212).

Generally, in order for gains or losses on a sale or exchange of a capital asset to be long-term capital gains or losses, the asset must be held for more than one year (sec. 1222).⁶¹

A capital asset generally includes all property held by the taxpayer except certain enumerated types of property such as inventory (sec. 1221).

Section 1256 contracts

Special rules apply to "section 1256 contracts," which include regulated futures contracts, certain foreign currency contracts, nonequity options, and dealer equity options. Each section 1256 contract is treated as if it were sold (and repurchased) for its fair market value on the last business day of the year (i.e., "marked to market"). Any gain or loss with respect to a section 1256 contract which is subject to the mark-to-market rule is treated as if 40 percent of the gain or loss were short-term capital gain or loss and 60 percent were long-term capital gain or loss. This results in a maximum rate of 27.84 percent on any gain for taxpayers other than corporations. The mark-to-market rule (and the special 60/40 capital treatment) is inapplicable to hedging transactions.

A "regulated futures contract" is a contract (1) which is traded on or subject to the rules of a national securities exchange registered with the Securities Exchange Commission, a domestic board of trade designated a contract market by the Commodities Futures Trading Commission, or similar exchange, board of trade, or market, and (2) with respect to which the amount required to be deposited and which may be withdrawn depends on a system of marking to market.

A "dealer equity option" means, with respect to an options dealer, an equity option purchased in the normal course of the activity of dealing in options and listed on the qualified board or exchange on which the options dealer is registered. An equity option is an option to buy or sell stock or an option the value of which is determined by reference to any stock, group or stocks, or stock index, other than an option on certain broad-based groups of stock or stock index.⁶² An options dealer is any person who is registered with an appropriate national securities exchange as a market maker or specialist in listed options, or who the Secretary of the Treasury determines performs functions similar to market makers and specialists.⁶³

Mark to market accounting for dealers in securities

Under present law, a dealer in securities must compute its income from dealer in securities pursuant to mark-to-market of accounting (sec. 475). Gains and losses are treated as ordinary income and loss. Traders in securities, and dealers and traders in commodities may elect to use this method of accounting, including the ordinary income treatment. Section 1256 contracts are not treated as securities for purposes of section 475.⁶⁴

Short sales

In the case of a "short sale" (i.e., where he taxpayer sells borrowed property and later

does not apply to futures which are subject to the mark-to-market rules of section 1256, discussed below.

⁶² Rev. Rul. 94-63, 1994-2 C.B. 188, provides that the determination made by the Securities and Exchange Commission will determine whether or not an option is "broad based".

⁶³ A special rule provides that any gain or loss with respect to dealer equity options, which are allocable to limited partners or limited entrepreneurs are treated as short-term capital gain or loss and do not qualify for the 60 percent long-term, 40 percent short-term capital gain or loss treatment of section 1256(a)(3).

⁶⁴ As discussed above, dealers in equity options are subject to mark-to-market accounting and the special capital gain rules of section 1256.

closes the sale by repaying the lender with substantially identical property), any gain or loss on the closing transaction is considered gain or loss from the sale or exchange of a capital asset if the property used to close the short sale is a capital asset in the hands of the taxpayer, but the gain is ordinarily treated as short-term gain (sec. 1233(a)).

The Internal Revenue Code (the "Code") also contains several rules intended to prevent the transformation of short-term capital gain into long-term capital gain or long-term capital loss into short-term loss by simultaneously holding property and selling short substantially identical property (sec. 1233(b) and (d)). Under these rules, if taxpayer holds property for less than the long-term holding period and sells short substantially identical property, any gain or loss upon the closing of the short sale is considered short-term capital gain, and the holding period of the substantially identical property is generally considered to begin on the date of the closing of the short sale. Also, if a taxpayer has held property for more than the long-term holding period and sells short substantially identical property, any loss on the closing of the short sale is considered a long-term capital loss.

For purposes of these short sale rules, property includes stock, securities, and commodity futures, but commodity futures are not considered substantially identical if they call for delivery in different months.

For purposes of the short-sale rules relating to short-term gains, the acquisition of an option to sell at a fixed price is treated as a short sale, and the exercise or failure to exercise the option is considered a closing of the short sale.⁶⁵

The Code also treats a taxpayer as recognizing gain where the taxpayer holds appreciated property and enters into a short sale of the same or substantially identical property, or enters into a contract to sell that same or substantially identical property (sec. 1259).

Wash sales

The wash-sale rule (sec. 1091) disallows certain losses from the disposition of stock or securities if substantially identical stock or securities (or an option or contract to acquire such property) are acquired by the taxpayer during the period beginning 30 days before the date of sale and ending 30 days after such date of sale. Commodity futures are not treated as stock or securities for purposes of this rule. The basis of the substantially identical stock or securities is adjusted to include the disallowed loss.

Similar rules apply to disallow any loss realized on the closing of a short sale of stock or securities where substantially identical stock or securities are sold (or a short sale, option or contract to sell is entered into) during the applicable period before and after the closing of the short sale.

Straddle rules

If a taxpayer realizes a loss with respect to a position in a straddle, the taxpayer may recognize that loss for the taxable year only to the extent that the loss exceeds the unrecognized gain (if any) with respect to offsetting positions in the straddle (sec. 1092). Disallowed losses are carried forward to the succeeding taxable year and are subject to the same limitation in that taxable year.

A "straddle" generally refers to offsetting positions with respect to actively traded personal property. Positions are offsetting if there is a substantial diminution of risk of loss from holding one position by reason of

⁶⁵ An exception applies to sell acquired on the same day as the property identified as intended to be used (and is so used) in exercising the option is acquired (sec. 1233(c)).

⁶¹ The holding period for futures transactions in a commodity is 6 months. The 6-month holding period

holding one or more other positions in personal property. A "position" in personal property is an interest (including a futures or forward contract or option) in personal property.

The straddle rules provide that the Secretary of the Treasury may issue regulations applying the short sale holding period rules to positions in a straddle. Temporary regulations have been issued setting forth the holding period rules applicable to positions in a straddle.⁶⁶ To the extent these rules apply to a position, the rules in section 1233(b) and (d) do not apply.

The straddle rules generally do not apply to positions in stock. However the straddle rules apply if one of the positions is stock and at least one of the offsetting positions is either (1) an option with respect to stock or (2) a position with respect to substantially similar or related property (other than stock) as defined in Treasury regulations. Under property Treasury regulations, a position with respect to substantially similar or related property does not include stock or a short sale of stock, but includes any other position with respect to substantially similar or related property.⁶⁷

If a straddle consists of both positions that are section 1256 contracts and positions that are not such contracts, the taxpayer may designate the positions as a mixed straddle. Positions in a mixed straddle are not subject to the mark-to-market rule of section 1256, but instead are subject to rules written under regulations to prevent the deferral of tax or the conversion of short-term capital gain to long-term capital gain or long-term capital loss into short-term capital loss.

Transactions by a corporation in its own stock

A corporation does not recognize gain or loss on the receipt of money or other property in exchange for its own stock. Likewise, a corporation does not recognize gain or loss when it redeems its stock with cash, for less or more than it received when the stock was issued. In addition, a corporation does not recognize gain or loss on any lapse or acquisition on an option to buy or sell its stock (sec. 1032).

HOUSE BILL

No provision. However, section 124(c) and (d) of H.R. 4541⁶⁸ contained the following provisions:

In general

Except in the case of dealer securities futures contracts described below, securities futures contracts are not treated as section 1256 contracts. Thus, holders of these contracts are not subject to the mark-to-market rules of section 1256 and are not eligible for 60-percent long-term capital gain treatment under section 1256. Instead, gain or loss on these contracts will be recognized under the general rules relating to the disposition of property.⁶⁹

A securities futures contract is defined in section 3(a)(5)(A) of the Securities Exchange Act of 1934, as added by the bill. In general, that definition provides that a securities futures contract means a contract of sale for future delivery of a single security or a narrow-based security index. A securities futures contract will not be treated as a commodities futures contract for purposes of the Code.

Treatment of gains and losses

The bill provides that any gain or loss from the sale or exchange of a securities fu-

tures contract (other than a dealer securities futures contract) will be considered as gain or loss from the sale or exchange of property which has the same character as the property to which the contract relates has (or would have) in the hands of the taxpayer. Thus, if the underlying security would be a capital asset in the taxpayer's hands, then gain or loss from the sale or exchange of the securities futures contract would be capital gain or loss. The bill also provides that the termination of a securities futures contract which is a capital asset will be treated as a sale or exchange of the contract.

Capital gain treatment will not apply to contracts which themselves are not capital assets because of the exceptions to the definition of a capital asset relating to inventory (sec. 1221(a)(1)) or hedging (sec. 1221(a)(7)), or to any income derived in connection with a contract which would otherwise be treated as ordinary income.

Except as otherwise provided in regulations under section 1092(b) (which treats certain losses from a straddle as long-term capital losses) and section 1234B, as added by the bill, any capital gain or loss from the sale or exchange of a securities futures contract to sell property (i.e., the short side of a securities futures contract) will be short-term capital gain or loss. In other words, a securities futures contract to sell property is treated as equivalent to a short sale of the underlying property.

Wash sale rules

The bill clarifies that, under the wash sale rules, a contract or option to acquire or sell stock or securities shall include options and contracts that are (or may be) settled in cash or property other than the stock or securities to which the contract relates. Thus, for example, the acquisition, within the period set forth in section 1091, of a securities futures contract to acquire stock of a corporation could cause the taxpayer's loss on the sale of stock in that corporation to be disallowed, notwithstanding that the contract may be settled in cash.

Short sale rules

In applying the short sale rules, a securities futures contract to acquire property will be treated in manner similar to the property itself. Thus, for example, the holding of a securities futures contract to acquire property and the short sale of property which is substantially identical to the property under the contract will result in the application of the rules of section 1233(b).⁷⁰ In addition, as stated above, a securities futures contract to sell is treated in a manner similar to a short sale of the property.

Straddle rules

Stock which is part of a straddle at least one of the offsetting positions of which is a securities futures contract with respect to the stock or substantially identical stock will be subject to the straddle rules of section 1092. Treasury regulations under section 1092 applying the principles of the section 1233(b) and (d) short sale rules to positions in a straddle will also apply.

For example, assume a taxpayer holds a long-term position in actively traded stock (which is a capital asset in the taxpayer's hands) and enters into a securities futures contract to sell substantially identical stock (at a time when the position in the stock has not appreciated in value so that the constructive sale rules of section 1259 do not apply). The taxpayer has a straddle. Treas-

ury regulations prescribed under section 1092(b) applying the principles of section 1233(d) will apply, so that any loss on closing the securities futures contract will be a long-term capital loss.

Section 1032

A corporation will not recognize gain or loss on transactions in securities futures contracts with respect to its own stock.

Holding period

If property is delivered in satisfaction of a securities futures contract to acquire property (other than a contract to which section 1256 applies), the holding period for the property will include the period the taxpayer held the contract, provided that the contract was a capital asset in the hands of the taxpayer.

Regulations

The Secretary of the Treasury or his delegate has the authority to prescribe regulations to provide for the proper treatment of securities futures contracts under provisions of the Internal Revenue Code.

Dealers in securities futures contracts

In general, the bill provides that securities futures contracts and options on such contracts are not section 1256 contracts. The bill provides, however, that "dealer securities futures contracts" will be treated as section 1256 contracts.

The term "dealer securities futures contract" means a securities futures contract which is entered into by a dealer in the normal course of his or her trade or business activity of dealing in such contracts, and is traded on a qualified board of trade or exchange. The term also includes any option to enter into securities futures contracts purchased or granted by a dealer in the normal course of his or her trade or business activity of dealing in such options. The determination of who is to be treated as a dealer in securities futures contracts is to be made by the Secretary of the Treasury or his delegate not later than July 1, 2001. Accordingly, the bill authorizes the Secretary to treat a person as a dealer in securities futures contracts or options on such contracts if the Secretary determines that the person performs, with respect to such contracts or options, functions similar to an equity options dealer, as defined under present law.

The determination of who is a dealer in securities futures contracts is to be made in a manner that is appropriate to carry out the purposes of the provision, which generally is to provide comparable tax treatment between dealers in securities futures contracts, on the one hand, and dealers in equity options, on the other. Although traders in securities futures contracts (and options on such contracts) may not have the same market-making obligations as market makers or specialists in equity options, many traders are expected to perform analogous functions to such market makers or specialists by providing market liquidity for securities futures contracts (and options) even in the absence of a legal obligation to do so. Accordingly, the absence of market-making obligations is not inconsistent with a determination that a class of traders are dealers in securities futures contracts (and options), if the relevant factors, including providing market liquidity for such contracts (and options), indicate that the market functions of the traders is comparable to that of equity options dealers.

As in the case of dealer equity options, gains and losses allocated to any limited partner or limited entrepreneur with respect to a dealer securities futures contract will be treated as short-term capital gain or loss.

Treatment of options under section 1256

The bill modifies the definition of "equity option" for purposes of section 1256 to take

⁶⁶ Reg. sec. 1.1092(b)—2T.

⁶⁷ Prop. Reg. sec. 1.1092(d)—2(c).

⁶⁸ H.R. 4541 passed the House of Representatives on October 19, 2000.

⁶⁹ Any securities futures contract which is not a section 1256 contract will be treated as a "security" for purposes of section 475. Thus, for example, traders in securities futures contracts

⁷⁰ Because securities futures contracts are not treated as futures contracts with respect to commodities, the rule providing that commodity futures are not substantially identical if they call for delivery in different months does not apply.

into account changes made by the non-tax provisions of the bill. Only options dealers are eligible for section 1256 with respect to equity options. The term "equity option" is modified to include an option to buy or sell stock, or an option the value of which is determined, directly or indirectly, by reference to any stock, or any "narrow-based security index," as defined in section 3(a)(55) of the Securities Exchange Act of 1934 (as modified by the bill). An equity option includes an option with respect to a group of stocks only if the group meets the requirements for a narrow-based security index.

As under present law, listed options that are not "equity options" are considered "nonequity options" to which section 1256 applies for all taxpayers. For example, options relating to broad-based groups of stocks and broad based stock indexes will

continue to be treated as nonequity options under section 1256.

Definition of contract markets

The non-tax provisions of the bill designate certain new contract markets. The new contract markets will be contract markets for purposes of the Code, except to the extent provided in Treasury regulations.

Effective Date

These provisions will take effect on the date of enactment of the bill.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the tax provisions contained in H.R. 4541.

TAX COMPLEXITY ANALYSIS

Section 4022(b) of the Internal Revenue Service Reform and Restructuring Act of

1998 (the "IRS Reform Act") requires the Joint Committee on Taxation (in consultation with the Internal Revenue Service and the Department of the Treasury) to provide a tax complexity analysis. The complexity analysis is required for all legislation reported by the House Committee on Ways and Means, the Senate Committee on Finance, or any committee of conference if the legislation includes a provision that directly or indirectly amends the Internal Revenue Code and has widespread applicability to individuals or small businesses.

The staff of the Joint Committee on Taxation has determined that a complexity analysis is not required under section 4022(b) of the IRS Reform Act because the bill contains no provisions that amend the Internal Revenue Code and that have "widespread applicability" to individuals or small businesses.

PROCEEDINGS AND DEBATES OF THE 106th CONGRESS, SECOND SESSION

Vol. 146

WASHINGTON, FRIDAY, DECEMBER 15, 2000

No. 155

Senate

(Legislative day of Friday, September 22, 2000)

The Senate met at 12 noon, on the expiration of the recess, and was called to order by the President pro tempore [Mr. THURMOND].

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

God of peace, fill our minds and flood our hearts with Your peace. May we hear Your message: "Peace on earth, good will to all people" above the discordant voices of these turbulent times. Give us Your peace that calms our nerves, conditions our thinking, and clears our vision. Your peace is the serenity of heaven provided for the loved and forgiven. It is the assurance that we will receive all that we need to meet the challenges of this day. Your peace comes to us when we commit our responsibilities to You and then work with Your guidance and grace.

Help the Senators to be peacemakers as they finish the work of this 106th Congress. Bear on their hearts and minds the words of Thomas Jefferson after the contentious election of 1800: "The greatest good we can do our country is to heal its party divisions and make them one people." So we all dedicate ourselves to be peacemakers as You continue to heal our land. You are our Lord and Saviour. Amen.

PLEDGE OF ALLEGIANCE

The Honorable LINCOLN CHAFEE, a Senator from the State of Rhode Is-

land, led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

RESERVATION OF LEADER TIME

The PRESIDING OFFICER (Mr. L. CHAFEE). Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will now be a period for the transaction of morning business not to extend beyond the hour of 1 p.m., with Senators permitted to speak therein for up to 10 minutes each, and with time to be equally divided in the usual form.

RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDING OFFICER. The able acting majority leader is recognized.

PRAISE FOR THE CHAPLAIN

Mr. WARNER. Mr. President, I say with gratitude that we have such a marvelous Chaplain, one who with great skill and such strength of feeling and emotion is able to deliver the message of prayer and incorporate those historic moments of history.

That election of Thomas Jefferson was one, fortunately, we avoided this time around; for Congress was involved, as our distinguished Chaplain and others know, and the vote in Congress was razor thin.

SCHEDULE

Mr. WARNER. Mr. President, as the Chair has advised, the Senate will be in a period of morning business today while awaiting the final appropriations bill from the House. The Senate was expected to consider the final package shortly after noon today. However, the vote is now expected to occur sometime later this afternoon. Senators will be updated throughout the day on the voting schedule.

Following the vote, the Senate is expected to complete its business to wrap up the 106th Congress. On behalf of the distinguished majority leader and the Democratic leader, we thank our colleagues for their patience and cooperation.

SENATOR CHARLES S. ROBB

Mr. WARNER. Mr. President, Virginia has had a long history of distinguished citizens of our great Commonwealth who come forward to serve Virginia. Among them in this long line of distinguished individuals will be CHARLES S. ROBB.

S11807

We started our careers together when he served in the Marine Corps. That was back during the period of Vietnam. I was then serving—for over 5 years—as Under Secretary and Secretary of the Navy. I was privileged, of course, to serve with the Presiding Officer's father, Senator Chafee. At the time he was Secretary of the Navy; I served as his Under Secretary.

Senator ROBB had served his tour in Vietnam in 1961 through 1970 and then he remained in the Marine Corps Reserves from 1970 to 1991. I was privileged to wear the marine green during the Korean conflict and served for a very brief period in the Marines. However, I assure Members that the career of Senator ROBB was far more distinguished than the career of the senior Senator, myself. I am pleased to acknowledge that. He then went on to serve as Lieutenant Governor from 1977 to 1981, and Governor from 1982 to 1986.

His two terms in the Senate began in 1988. He has been a Member of the Senate Armed Services Committee, a committee which I have been privileged to chair since 1993. Throughout this distinguished record, it has been my good fortune to share a very warm friendship with the Senator and with his lovely wife and his children. We all know when we take the oath of office as U.S. Senator, the family plays the key role. I could not count the number of times I have been in matters relating to the Senate, trips relating to the Senate, our frequent joint appearances throughout the Commonwealth of Virginia these many years, beginning back when he was Lieutenant Governor, and there was Mrs. Robb, a daughter of a most distinguished American public servant, former President Lyndon Johnson and a former Member of the Senate.

So I wish him well. It was a difficult task in this past election. He respects both of us as marines. We have duties to perform. I hope the RECORD reflects that I performed that responsibility I felt very sincerely was necessary, but I did it in a spirit that preserved our friendship.

When I think back on his work, I think of the many times Senator ROBB came from that side of the aisle to this side of the aisle to join others in working on pieces of legislation which he felt, and indeed others felt, were in the best interests of this country. He was a bridgebuilder. He served that purpose on the Senate Armed Services Committee. He stood by my side as chairman these past 2 years, supported me, I think, almost in every instance. And he had very keen insight into the life of the men and women of the Armed Forces who serve today. He worked very hard on their behalf.

I hope history will reflect that his contributions directly benefited those who serve today and who will serve tomorrow. He also was quite active in working with me on the retirement benefits, particularly the medical benefits, for those who have served in years past.

Virginia is privileged to have one of the greatest shipyards—we like to think the greatest shipyard—in America. We have the naval shipyard as well as private shipyards. In those yards are built some of the finest ships that sail the seven seas today on behalf of our Navy. Senator ROBB was always there to work with not only me but a strong bipartisan Virginia congressional delegation, Senate and House, on matters of national defense since our State is privileged to be preeminent in the field of national defense, having a number of the major bases and a number of men and women in uniform who are stationed there. Of course, the Pentagon is the core of this complex throughout Virginia. But there was Senator ROBB on all occasions, and particularly as it related to our naval shipbuilding program.

I am joined on the floor today by two very able members of my staff. Ann Loomis is the chief of our legislative staff; Susan Magill, with whom I consulted early this morning in preparing these remarks, is my chief of staff. They would want it known that, through the years, the staff working relationship between Senator ROBB's office and my office was always excellent. We looked upon our duties as serving the Commonwealth of Virginia and the people of that State; therefore, our staffs did everything they could to prepare the two Senators to meet that challenge and that responsibility.

He is a man of principle. I think that is unquestioned by those of us who watched him. Indeed, at times we differed on very fundamental policy issues, and that is reflected in our voting records. But he was always a man of principle and he stood by those principles. As I listened to him, my reaction sometimes bordered on disbelief because I so disagreed with him, but he stood by those principles no matter what the cost to his professional career as a public servant. He stood by what he believed.

So I say to my good friend, I shall remember him in many ways but above all for his friendship and his always senatorial courtesy. As we laugh around here and joke: The title senior Senator and perhaps a dollar or so will get you a cup of coffee. But he never tried one-upmanship and he always addressed me as his senior in the Senate. I thank him. I wish him and his family well in their next career. I am confident there are many challenges that await this distinguished American public servant.

I note my distinguished friend from Pennsylvania is on the floor. I yield the floor at this time, and I thank the Chair for his indulgence.

The PRESIDING OFFICER. The Senator from Pennsylvania.

SENATOR ROBB

Mr. SPECTER. Mr. President, I commend my distinguished colleague from Virginia for those fine remarks about

Senator ROBB. I associate myself with Senator WARNER on his best wishes to Senator ROBB, acknowledging his very distinguished service in the Senate for 12 years. I might add, his distinguished wife, Lynda Johnson Robb, was a regular at the Old Testament Bible class conducted in my office over the past decade, presided over by a very distinguished Biblical scholar, Naomi Rosenblatt. But CHUCK and Lynda Robb will still be around and we will have the benefit of their company, although his Senate career, at least, is over at the moment.

LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION

Mr. SPECTER. Mr. President, I have sought recognition to comment about the pending appropriations bill on Labor, Health and Human Services, and Education, which comes from the appropriations subcommittee which I chair. There has been an extraordinarily rocky road for this bill this year. I think it is very regrettable that on December 15 we are still debating that bill and the entire package is as yet unsettled, although hopefully it will be resolved before the end of the day. But there have been many days when we have been hopeful about resolving matters before the end of the day and that has not occurred.

Without going into the background on prior years, it has been a very difficult matter to get the bill on Labor, Health and Human Services, and Education to the President for signature and to resolve the controversies. This year, my ranking member on the subcommittee, Senator TOM HARKIN, and I have worked as partners on this matter. When he chaired the subcommittee, I was ranking, or when I have chaired the subcommittee, he has been ranking. Both of us understand—and have for a long time—that if you want to get something done in Washington, you have to cross party lines. That is more true today than ever. It will be even more true in the 107th Congress when we have a 50-50 split.

But we brought that bill to conclusion on the Senate vote on June 30 of this year, which tied the record going back to 1976. We completed a conference report on July 27, the last Thursday before we adjourned for the Republican convention and the August recess. We did that with a lot of extra effort, hard work by our staffs led by Bettilou Taylor on my staff, so we could get the bill to the President right after Labor Day. There is no use sending it in August, but we were prepared to submit it to the President the day after Labor Day.

We had met the President's figure of \$106 billion, which was a \$10 billion increase over the program authority from last year. We did that because the experience in the past had been that when we quarreled with the President about the total figure, invariably there were add-ons at the end when the issue

went beyond September 30 into October or November.

Candidly, it was difficult to get the Republican caucus to agree to \$106 billion in the Senate and in the House, but we did that. But in presenting the bill, the conference report, we had some priorities which were somewhat different from those of the President. We had, for example, added \$2.7 billion for the National Institutes of Health because we thought that was a very high priority item. We had also made some changes on the \$2.7 billion which the President had requested for school construction and additional teachers, giving him that money but adding a provision that if the local boards of education wanted to use the money for something else after fulfilling very stringent requirements, that they could use it for local control.

When we sat down to negotiate with the White House, the President and the Democrats in the House upped the ante and asked for an additional \$6 billion. From my way of thinking, that was totally unacceptable because we had provided the \$106 billion which the President had initially requested. After all, it is the congressional prerogative to set the priorities on appropriations. That is spelled out in the Constitution. The President has to sign the bill but we have the lion's share of responsibility, in my view, to establish the priorities.

Those negotiations degenerated—at least in my opinion—until there was an inclination by some in the conference to pay \$114 billion. I refused to be a party to that amount of money because I had fought hard to raise the figure to \$106 billion and I felt there would be no credibility in what I would present as chairman of the subcommittee if I would be a will-o'-the-wisp and raise it to any figure to satisfy the demands of the White House and the House Democrats. There was a tentative agreement of \$114 billion and I declined to sign any conference report which reflected that figure.

Ultimately that arrangement broke down. Now we have come to the point where the negotiations have produced a figure of \$108.9 billion, which is still more than the \$106 billion we had originally projected, but in the spirit of accommodation, trying to finish the business of the Congress, I am prepared to go along with that figure although very reluctantly.

There have been changes in the bill which I find totally unacceptable. The National Institutes of Health has had an increase of \$2.7 billion over fiscal year 2000, which had been in all along, now cut by \$200 million to \$2.5 billion. I believe that the National Institutes of Health is the crown jewel of the Federal Government. It may be the only jewel of the Federal Government. We have added almost \$9 billion to the funding on NIH in the last five cycles. The Senate, in one of the first years under my chairmanship, came in at the figure of a \$950 million increase. The

House would not go along. We compromised out at \$907 million. The next year we added \$1 billion; the year after, \$2 billion; the year after that, \$2.3 billion, which was cut a little on an across-the-board cut. This year we put in \$2.7 billion, now reduced to \$2.5 billion. But we have a total of almost \$9 billion added in these last five cycles and they have made tremendous strides on the most dreaded diseases—Parkinson's and Alzheimer's and cancer and heart ailments and the whole range.

It is my hope in the future that whoever chairs the subcommittee will have better cooperation on all sides to present the bill to the President before the fiscal year ends. I think, had that been done, we could have mustered a very strong position that our priorities were superior to what the President had in mind, and that if he were going to veto the bill, we ought not to be fearful of his veto but we ought to accept it as his view and then take the case to the American public. I think, had the bill been submitted to the President on September 5, we would have won that fight. Or if we had not won it outright, we would have compromised in terms so we wouldn't be here on December 15, still arguing about this Labor-HHS-Education bill as the principal source of contention.

(The remarks of Mr. SPECTER pertaining to the introduction of S. 3280 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

Mr. SPECTER. Mr. President, I again thank my distinguished ranking member, Senator JAY ROCKEFELLER, who works collaboratively on veterans affairs matters and all members of the Veterans' Affairs Committee. It is a committee which has worked in a bipartisan way. It has a very excellent staff, with staff director Bill Tuerk. I thank the staff for their assistance and commend to the public and the CONGRESSIONAL RECORD the legislation which has been passed during the 106th Congress.

I know my time has expired, and I note the presence on the floor of a distinguished Senator, Ms. COLLINS. I yield the floor. I was about to say "another distinguished Senator," but I modified that to "a distinguished Senator."

The PRESIDING OFFICER. The Senator from Maine.

Ms. COLLINS. Mr. President, before the Senator from Pennsylvania leaves the floor, if that is his intention, I thank him for the exceptional job he has done in ensuring that we do have funding increases for critical programs such as those at the National Institutes of Health.

I heard the Senator from Pennsylvania, the chairman of the subcommittee, describe it as the crown jewel of the Federal Government, and I totally agree with his comments. He has also been an advocate for more education funding, combined with more flexibility. I wish we had followed his

advice earlier this year and sent the appropriations bill down to the White House, completing his work in a very timely fashion back in July, I believe it was.

I commend the Senator for being an outstanding chairman. I am a great admirer of his and appreciate all of his hard work.

Mr. SPECTER. Mr. President, I express my thanks to Senator COLLINS. We work very closely together with a very distinguished group of Senators—Senator JEFFORDS, Senator SNOWE, and who is the fifth member? Yes, Senator CHAFEE, who is presiding. I thank the Chair and thank Senator COLLINS.

EXTENSION OF MORNING BUSINESS

Ms. COLLINS. Mr. President, I ask unanimous consent that morning business be extended until 1:30 p.m., with the time equally divided.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE STEEP COST OF A MAINE WINTER

Ms. COLLINS. Mr. President, I rise today to speak on the importance of the Low Income Home Energy Assistance Program known as LIHEAP in helping low-income Maine families cope with the high cost of our long Maine winters.

As Callie Parker from Little Deer Isle, Maine, so eloquently testified before the Senate Health, Education, Labor, and Pensions Committee earlier this year, heating your home during a Maine winter is a matter of life and death. When the cold reaches into the very marrow of one's bones, when a glass of water you left on a night stand freezes during the night should your furnace go out, you simply cannot get by without heat.

Unfortunately, not everyone has enough money to buy the fuel necessary to heat their home. Far too many Maine families have had to choose whether to buy groceries or to pay their rent or mortgage or to keep warm. These are choices that no one should be forced to make, but unless we increase funding for energy assistance now, these choices will become increasingly common.

Winter has not even officially begun, although you would not know that in the area of the country from which the Presiding Officer and I come. The high price of fuel and cold temperatures have already driven a record number of households in Maine to seek home heating assistance. Already the Community Action Program agencies in Maine have identified 28,000 households in need of LIHEAP funds to get through this winter. That compares to only 10,000 applicants at this time last year; in other words, it has more than doubled the amount of households seeking this kind of assistance. Another 19,000 families are waiting to be reviewed by the CAP agencies.

The problem is, there is simply not sufficient money. As this chart shows, a Maine winter exacts a steep toll. Today, in Maine, a gallon of home heating oil, on average, costs \$1.56. Last year at this time, home heating oil in Maine went for \$1.03 a gallon—and we thought that was very high. That number is high because just two years ago the average price of home heating oil in Maine was just 78 cents a gallon. In short, home heating oil prices have increased by 100 percent in just two years. For the 75 percent of Mainers who rely on home heating oil to keep their homes warm, this is a steep price to pay indeed. Those heating their homes with natural gas also are facing difficulties. Consumer prices for natural gas have shot up over 50 percent compared to last year.

As the second column on this chart shows, last year Maine's CAP agencies distributed an average of \$488 to each household. That was the average LIHEAP benefit. Despite the rising costs of fuel, this year the Maine CAP agencies are able to distribute an average benefit of only \$350.

So you see the situation we have, Mr. President, and see why it is such a problem. We have the price of home heating oil far higher than last year, and more than double what it was two years ago. The high cost of fuel has put more strain on more families, and as a result many more households need assistance. That has caused the average LIHEAP benefit to be cut significantly.

What does this mean? When the price of oil is 50 percent higher than last year, and the LIHEAP benefit is \$138 less than last year, it means that people are not able to buy very many gallons of oil to heat their homes. Last year's LIHEAP benefit purchased 474 gallons of home heating oil. This year's benefit will purchase less than half that amount—a mere 224 gallons of oil.

So we have the worst of all situations. We have the price of home heating oil at record highs; we have the benefit amount having to be cut to less than last year's; and the result is that low-income families are able to purchase far less home heating oil.

And this year's winter is already shaping up to be colder than last year's. Mainers will need more oil to keep warm this winter, not less. When the furnace remains silent no matter how far you turn the thermostat dial, we need to be there to put oil in the tank.

The bottom line is we need to provide more assistance to more families.

The legislation before us today will provide an extra \$300 million in LIHEAP assistance to be used this winter. And that is very helpful. It is almost a 30-percent increase above last year's funding level. I know how hard Senator SPECTER and Senator STEVENS have fought for this significant increase. I thank them for their efforts on behalf of the thousands of Maine residents who will benefit greatly from these much needed funding increases.

Yet it simply is not enough. With the price of fuel 50 percent higher this year than last, and with almost three times as many families in need of LIHEAP assistance this year compared to just 1 year ago, even a 30-percent increase will only go so far. It is certainly needed, and we are grateful for it, but we are still going to have a shortfall.

I am also concerned and disappointed that by placing the year 2002 funding for LIHEAP on the chopping block, the Clinton administration lacked the foresight to realize the obvious: This is not our Nation's last winter. There will be another winter next year; I can guarantee it. We must lay the groundwork now to allow the planning to occur that will ensure that people stay warm next year, too.

By eliminating the "advance appropriation" for LIHEAP for the next fiscal year, this appropriations bill has not laid any of the necessary groundwork for next year's winter. That will contribute to a supply crunch next fall, I fear.

I call on the President and the congressional leadership to make LIHEAP a top priority, not only this year but next year as well. I am pleased to see and applaud the language that was included in the managers' statement pledging to fund LIHEAP in the next fiscal year at this year's level or at a greater level. I would have preferred to see a commitment for advance funding, but I know the conferees will keep the commitment they have made.

Finally, I pledge my personal efforts to ensure that low-income families in Maine and throughout the Nation stay warm through our long winters.

I yield the floor.

Mr. President, seeing no one seeking recognition, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LEAHY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. INHOFE). Without objection, it is so ordered.

Mr. LEAHY. Mr. President, what is the parliamentary situation?

The PRESIDING OFFICER. The Senator from Vermont is informed we are in a period of morning business with speakers not to exceed 5 minutes.

Mr. LEAHY. Mr. President, I do not see others seeking the floor. I ask unanimous consent I be allowed to speak for not to exceed 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

JOHNNY PAUL PENRY

Mr. LEAHY. Mr. President, during the past year there has been an extraordinary amount written and spoken in this country about the death penalty—actually more than I can recollect having seen before. We have

learned that the system of administering capital punishment is gravely flawed, and that scores of people have ended up on death row, often for many years, even though they were completely innocent of the crime for which they were sentenced to death.

We have seen how the justice system has serious flaws at every stage, and especially if the accused is poor, as are most criminal defendants who are sentenced to death. Lawyers defending people whose lives are at stake are often inexperienced or incompetent, and poorly paid. Two thirds of death penalty trials nationwide are marred by serious constitutional errors, according to reviewing courts.

We have seen public support for the death penalty decrease significantly. It is still over 50 percent nationally, but it falls below 50 percent if the alternative is life in prison with no opportunity for parole.

We have seen Governor Ryan of Illinois appoint a commission of experts, both supporters and opponents of capital punishment, to determine whether the death penalty can, under any circumstances, be administered reliably so innocent people will never be executed. The findings and recommendations of that commission will be important for the entire country.

In Virginia, a State with many people on death row, the legislature recently took note of the growing concerns surrounding capital punishment, and decided to review the administration of the death penalty in Virginia where there have been serious mistakes.

In October, the Virginia Governor pardoned Earl Washington, a mentally retarded farmhand, after new DNA tests cleared him of the rape and murder that once brought him within 9 days of execution.

Just this morning, the Washington Post reported that DNA tests had cleared another death row inmate—unfortunately, too late to be of any help. Before dying of cancer earlier this year, Frank Lee Smith spent 14 years on Florida's death row for a rape and murder that it now appears he did not commit.

I have introduced legislation with Senators GORDON SMITH, SUSAN COLLINS, and 12 other Senators, to address some of these most egregious flaws. I have spoken many times about our bill, the Innocence Protection Act, which we plan to pursue in the 107th Congress.

Our legislation addresses the horrendous problem of innocent people being condemned to death. But today I want to mention briefly a related issue which is illustrated by a case in Texas, the State which this year has executed more people than any other State in the post-war era.

The Supreme Court stayed the execution of Johnny Paul Penry on November 16, 2000, less than four hours before he was scheduled to die by lethal injection in Texas. The Court has now scheduled the case for argument.

Johnny Penry, who in 1979 raped and murdered a 22 year old woman, has been on death row for twenty years. He committed a terrible crime; there has never been any doubt about that. But besides the crime itself, what makes Johnny Penry's case so disturbing is that he has an IQ of 56. What that means is that he has the intelligence of a 6-year old child.

Mr. President, 11 years ago the Supreme Court ruled that it is not cruel and unusual punishment to execute the mentally retarded. I disagree with that decision. But more importantly, despite the Supreme Court ruling, 13 States with capital punishment and the Federal Government have forbidden execution of the mentally retarded, and a clear majority of Americans oppose the practice.

The State Senator who in 1998 sponsored Nebraska's bill to prohibit execution of the mentally retarded later said that it should not have been necessary because "no civilized, mature society would ever entertain the possibility of executing anybody who was mentally retarded."

Executing the mentally retarded is wrong; it is immoral. People with mental retardation have a diminished capacity to understand right from wrong. As Justice Brennan wrote:

The impairment of a mentally retarded of-ferer's reasoning ability, control over im-pulsive behavior, and moral development . . . limits his or her culpability so that, whatever other punishment might be ap-propriate, the ultimate penalty of death is al-ways and necessarily disproportionate to his or her blameworthiness.

Proponents of the death penalty argue that it "saves lives," but executing the mentally retarded cannot be justified on the grounds of deterrence. Let me again quote Justice Brennan, writing in 1989:

The very factors that make it dispropor-tionate and unjust to execute the mentally retarded also make the death penalty of the most minimal deterrent effect so far as re-tarded potential offenders are concerned. In-tellectual impairments in logical reasoning, strategic thinking, and foresight, the lack of the intellectual and developmental predi-cates of an ability to anticipate con-sequences, and impairment in the ability to control impulsivity, mean that the possi-bility of receiving the death penalty will not in the case of a mentally retarded person fig-ure in some careful assessment of different courses of action. In these circumstances, the execution of mentally retarded individ-uals is nothing more than the purposeless and needless imposition of pain and suf-fering.

People with mental retardation are also more prone to make false confes-sions simply to please their interroga-tors, and they are often unable to as-sist their lawyer in preparing a de-fense.

We saw this with Earl Washington, who had an IQ of 69. Arrested for break-ing into a neighbor's home during a drinking spree and hitting her with a chair, Washington readily confessed to a series of unsolved murders that he could not have committed.

Beyond all of this, executing the mentally retarded severely damages the standing of the United States in the international community. The United Nations has long condemned this practice. Just last year, the U.N. Commission on Human Rights called on nations "not to impose the death penalty on a person suffering from any form of mental disorder." We should join the overwhelming majority of na-tions who do not execute the mentally retarded.

Johnny Penry suffered relentless and severe physical and psychological abuse as a child, spends his time in prison coloring with crayons and look-ing at comic books he cannot read, and still believes in Santa Claus. I remem-ber reading that when they stayed his execution he said, "Does this mean I'm not allowed to have the special meal I was supposed to have?"—The last meal of the condemned man. He could not possibly have assisted meaningfully in his own defense.

No one can excuse Johnny Penry's crime, and no one suggests that he should be set free. But the question is what is the appropriate punishment for a defendant who is mentally retarded.

Neither our Constitution nor our na-tional conscience permits the execu-tion of a 6-year-old child for commit-ting a heinous crime, and neither should we execute a person with the mental capacity of a 6-year-old. It of-fends the very idea of justice.

I yield the floor.

The PRESIDING OFFICER. The Sen-ator from Virginia.

Mr. ROBB. Mr. President, first I in-quire, is there any limitation on the length of time to speak?

The PRESIDING OFFICER. The Chair informs the Senator from Vir-ginia that we are in a period for morn-ing business with Senators to speak not to exceed 5 minutes.

Mr. ROBB. I do not believe I will ex-ceed 5 minutes, but I ask unanimous consent to proceed for such time as I may use, consistent with the order for morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ROBB. I thank the Chair.

THE SENATE EXPERIENCE

Mr. ROBB. Mr. President, I thought I would take this opportunity for just a very few minutes to say thank you. I will be leaving the Senate at the end of this Congress. I had assumed, as many of our colleagues had, that this would be the last day of the session. That as-sumption is very much in question at this point. I just left a conference with members of my caucus, and there are clearly some deeply held convictions and passions that are still unresolved. It may be that we will be here for hours or days. I hope that is not the case, but there frequently are at this particular time in the session those who hold convictions and beliefs so deeply that they do not believe under

any circumstance they should leave any stone unturned or any avenue un-explored to advance those convictions and beliefs.

While some of those issue are being resolved, I want to take a minute to say thank you, first of all, to the peo-ple of Virginia who were kind enough to honor me with 12 years of their rep-resentation in the Senate of the United States.

I thank my colleagues on both sides of the aisle who have given to me and my wife Lynda and members of our family an experience we will treasure for the rest of our lives. The personal interaction with colleagues has been a part of the Senate experience that I will always enjoy, remember, and re-vere. I express to colleagues again on both sides of the aisle how much I ap-preciate the many considerations they have shown me.

I understand my senior colleague from Virginia took the floor while we were in the caucus. I did not hear his words, but I appreciate his cooperation on many issues, and I appreciate his friendship. We have had some dif-ferences; certainly, we have had some political differences; but the degree of cooperation between our offices has al-ways been good and strong when it came to working on behalf of our Com-monwealth.

The Senate is, for many of us, like a family. That sentiment has been ex-pressed before. It is an extended fam-ily, and I say to all of those members of that extended family a very sincere thank you. I thank the floor staff and the officers of the Senate for the co-operation that has been extended to me over the past 12 years.

I thank the Cloakroom staff from both sides, particularly my own Cloak-room, who work so closely with us on a regular basis to make sure the institu-tion functions, and that we are here when necessary in order to conduct the nation's business.

I express my appreciation to all of those who make this institution work. Some of them are visible, such as our friends of the Capitol Police who are here around the clock in a position, as we learned to our regret and sorrow, to put their lives on the line to provide safety and security.

There are many other officers of the Senate and employees of the Senate who are not as visible to the public, but are just as crucial to the operation of the Senate. The employees who work for the Architect of the Capitol who take care of many of the duties that are required to make the institution run. We see and work with them on a daily basis. Many of them have ex-tended courtesies and kindnesses to me over a long period of time that I will long remember.

There are the many often unheralded folks who help with the phones, who operate the Capitol switchboard, who handle the maintenance, and who work in the food service we do not see but

who make it possible for all of us to do our jobs as effectively as possible. These people keep the institution functioning, like the maintenance crews who make the repairs and changes that are frequently required and who always seem able to accommodate—all of their good will is very much appreciated.

I thank the pages, too, who work and do all of the things they are required to do during the daytime and then get their studies done at night. We frequently see them working on their studies at the same time they are helping to make life a little easier for us.

I also express my appreciation to the committee staffs, the professional staffs who work with each of the committees and help me and all of you on a regular basis. We develop personal friendships with many of these individuals whom we will long remember.

Finally, I want to say a very personal thank you to the members of my own staff. I have been extraordinarily well served by some very able professionals who have served their Commonwealth and their country in ways that I will always appreciate and for which they can always be very proud.

There have been many, and I am not going to attempt to list them all. It occurred to me that maybe, because I have been so fortunate and so well served, I should mention the names only of those who have been with me continuously helping and assisting me my entire term in the Senate, serving with me over the last 12 years. Two of those professionals actually have been with me through my gubernatorial service: Pat Mayer and Susan Albert, now Susan Albert Carr as of last weekend, have been with me for the full 12 years and then some. Matt McGowan, Jim Connell, JoAnn Pulliam, Anne Geyer, Debbie Lawson-Goins, and Jim O'Quinn have all been kind enough to provide for me the kind of professional staff assistance that has made my job easier. We will remain friends. The members of my staff have helped make this an experience I will cherish.

I have undoubtedly left out a number of individuals whom I want to thank and I have tried to thank.

I also thank the people who have made this a very good experience for my wife Lynda, particularly the prayer groups. She has been associated with several of those. I understand she gets to continue her membership in the prayer groups and the spouses group, even though I will become a former Member and will leave these premises.

Mr. President, I say to all of my colleagues that they are a group of principled, compassionate, caring men and women, many of them friends. We may have disagreements. Some of those are principled disagreements. In fact, I just attended what may be the last Democratic conference called by our leader. I say once again, I heard members express in passionate terms their commitment to doing what they believe is in the best interest of their State and the Nation, and I think that is some-

thing that may not always be apparent. Again, that occurs on both sides of the aisle. I am particularly grateful to many who have demonstrated the courage to stand up and be counted when it was not always politically popular.

Finally, I want to make a brief comment about the leadership. I thank the majority leader for the courtesies he and the members of his staff have extended to me.

I conclude with a special note of thanks to someone I consider an extraordinary leader, who is kind enough to be here for these couple of minutes, TOM DASCHLE, the current Democratic and minority leader who will become on January 3 through January 20 the majority leader. As a point of personal privilege, I look forward to that time.

He and the team that he has put together have been exceptional leaders. I see the distinguished whip HARRY REID on the floor, as well. They have led by example. They have led by inclusion. And they have led by listening. They have been friends. They have been effective. They have been leaders in the truest sense in that they have caused us to want to work with them to make the institution run and to get the job done.

So, Mr. President, to you, as a personal friend, and as a representative of our colleagues, and to all of our friends who have been kind to me and have supported some of the things I have done over the years, may I express my profound thanks.

I take leave of the Senate proud to have had the opportunity to serve in this great institution.

Mr. President, I thank the Chair and yield the floor.

Mr. DASCHLE addressed the Chair.

The PRESIDING OFFICER. The Democratic leader is recognized.

Mr. DASCHLE. I will use my leader time, if I may, at this time.

TRIBUTE TO SENATOR CHARLES ROBB

Mr. DASCHLE. Mr. President, I congratulate Senator ROBB on his remarks. I thank him very much for sharing them with all of us.

These past elections brought our caucus nine new members and we hope many new opportunities to address America's priorities. But they also handed us a great disappointment, the loss of our friend and colleague, CHUCK ROBB.

I am appreciative of the opportunity that I had just now to listen to Senator ROBB, maybe for the last time on this Senate floor. I had feared he might leave without giving us a chance to thank him for his remarkable service to the Senate. It would have been like him to do so; he is an enormously modest man.

In an editorial the day before the election, the Washington Post wrote:

Even in the final days of a nip-and-tuck campaign, Senator Chuck Robb seems uncomfortable singing his own praises. While

some voters may find this quality refreshing, Senator Robb's reluctance to tout his accomplishments hides them too effectively in a tight race.

CHUCK ROBB's reluctance to promote himself—his commitment to sound policies over sound bites—may have cost him reelection, but they have earned him the respect of his peers and this Nation.

In 12 years in this Senate—and for 8 years before that as Lieutenant Governor and then Governor of Virginia—CHUCK ROBB rarely spoke about himself. He has always been more comfortable speaking on behalf of others—the people whose voices too often are not heard at all.

Today, on what we hope could be the last day of this Senate, I want to say just a few things about him that he will not say about himself, just to remind us what a good man—what a good man—with whom it has been our good fortune to work.

As we all recall, he was elected to the Senate in 1988, with the largest vote total for any office in Virginia's history. It was the first time in 22 years that Virginia had not sent a Republican to the Senate.

He has spent his Senate career working for Virginia and for what he calls the "long-range, big picture, important issues": national security, a balanced budget, education, and civil rights—for all Americans.

He is a member of the Finance Committee and the Joint Economic Committee. He is the only Member of the Senate ever to serve simultaneously on all three national security committees: Intelligence, Armed Services, and Foreign Relations.

He is a former member of the Budget and Commerce Committees, as well as the Select Committee on POW/MIA Affairs, where he cochaired a task force that declassified and released vast quantities of information on missing U.S. service members.

Quietly, with little fanfare, he has provided a steady leadership that has helped keep our Nation safe and move us forward.

He is a lifelong fiscal conservative.

In 1993, he voted for the deficit reduction plan that launched the strongest economic recovery in our Nation's history. He remains an important part of the Senate's economic conscience, always reminding us that our job isn't finished, that we must pay down our national debt.

He has been a tireless fighter for education, the chief sponsor of our proposal to help States and local school districts build and renovate 6,000 schools.

He fought to reduce class sizes by hiring 100,000 teachers and to make America's schools safer and stronger.

He helped create new partnerships to connect every school in America to the Internet.

He is as hard a worker as you will find in this body.

In 12 years as a Senator, incredibly, he has missed only 10 votes.

As chairman of the Democratic Senatorial Campaign Committee in 1991 and 1992, CHUCK ROBB shattered fundraising records and ended his term with the strongest majority for our party in 20 years.

He cares deeply about the values on which our party is founded. But there are values he holds even more dearly than party loyalty. A reporter asked him recently who his political heroes are. He listed two. One was the late Bill Spong, another thoughtful, effective Virginian, who served one term in this Senate and was the first southern Senator from a State covered by the Voting Rights Act to vote for the act.

He said his other political hero was a man we all knew, our friend, John Chafee, "because he worried about women's health, poor children, and the environment, and reached across party lines to find solutions."

Reaching across party lines, being willing to work and look in new places for new solutions—that is something Senator ROBB has done his entire life.

He grew up in a Republican family. He is a founder and past chairman of the centrist Democratic Leadership Committee, and one of the original architects for what we now know and call "the third way" in politics.

His ground-breaking ideas on the changing economy, new models of governing, and other ideas helped transform political thinking—not only in this country but in England and in nations all over the world.

Quietly, modestly, throughout his career, he has tried to reach honest, bipartisan compromise on an array of issues.

Here in the Senate, he has worked closely with his colleague, Senator WARNER, on issues of importance to Virginia and our national security.

As a member of our caucus' Centrist Coalition, he has helped us all try to find a middle ground.

I would be sorry to see CHUCK ROBB leave the Senate at any time. The fact that he is leaving now—when we so desperately need people who are able to see beyond the usual party divisions—makes his leaving doubly sad.

CHUCK ROBB only lost one other political contest in his life, when he ran for senior class president at the University of Wisconsin at Madison. Speaking about that loss later to a reporter, he said it gave him something important. As he put it: "I needed a little taking down. Anybody who goes too long without some setback in life tends to lose an important perspective."

One of the things CHUCK ROBB came to understand about himself back then was how much he loved this Nation and how much he felt he owed it.

It was that sense of patriotism that compelled him to enter the Marines after graduating from college. It was that sense of patriotism, too, that made him volunteer to go to Vietnam. He didn't have to go; he could have served stateside. In fact, the Pentagon brass would have preferred it. They

worried about what might happen if a President's son-in-law were taken captive and used to extract concessions from the United States. But CHUCK ROBB insisted.

In April of 1968, 2 months after the Tet offensive, he landed in Vietnam, commander of an infantry company. Two weeks later, he was in combat.

In Vietnam, he earned the Bronze Star with the Combat V, the Vietnamese Cross of Gallantry with the Silver Star, and the rank of major.

Most people who knew him, including his extraordinary wife Lynda, expected Major ROBB to make a career of the military. And he did remain in the Marine Reserves for a long period of time, all the way until 1991, serving a total of 34 years in uniform.

But he also found another way to serve his Nation.

In 1977, the people of Virginia chose CHUCK ROBB as their Lieutenant Governor—the only Democrat elected that year to statewide office. Four years later, they made him Virginia's 64th Governor—the first Virginian Democrat elected Governor in 16 years.

As Governor, he championed many of the same causes he would later fight for in this Chamber. He invested \$1 billion in Virginia's schools—without raising taxes.

He fought for civil rights.

As President, his father-in-law, Lyndon Johnson, appointed the first African American to the U.S. Supreme Court—Thurgood Marshall.

As Governor, CHUCK ROBB appointed the first African American to the Virginia Supreme Court, as well.

He signed the legislation adding Martin Luther King's name to a State holiday that had formerly honored only Confederate Civil War heroes.

His fellow Governors recognized his exceptional talents. He served as chairman of the Southern Governors' Association and the Democratic Governors' Association.

He chaired the Education Commission of the States and the Council of State Governments.

Even during the toughest political fights of his life, CHUCK ROBB did not like to tell people these things about himself.

When others praised him for his accomplishments, he was always quick to say that it was "we" who deserved the praise, not "he."

His genuine modesty is one of the things that makes CHUCK ROBB a Senator's Senator.

Another is his courage to fight for principle, even when he knows it will cost him politically. CHUCK ROBB has done that over and over and over again in this Chamber.

One instance I will always remember came last March when he stood on this floor and explained—in a deeply personal, eloquent way—why he opposed amending our Constitution to make flag burning a crime.

As someone who saw too many good men die for what our flag represents,

he said he felt a sense of revulsion when he saw the flag treated disrespectfully.

But—in Senator ROBB's words—"they died for liberty and tolerance, for Justice and equality. They died for that which can never burn. They died for ideals that can only be desecrated by our failure to defend them."

Someone once asked Senator ROBB why he took such politically risky stands—especially in an election year.

He said that—because he had been in combat—"I thought that I could speak out on some issues with less concern about the downside than some other Senators might have to think about."

I don't know if he was right in that calculation.

I do know this: On this day in 1791, the Bill of Rights was ratified when Virginia approved it.

One reason it has never once been weakened—in all these years—is the brave and principled stand of Virginia's Senator, CHUCK ROBB.

There are many things about the next Senate which I look forward to.

I deeply regret, however, that CHUCK ROBB will not be with us. His departure is a loss not only for our caucus but for this entire Senate and for our Nation.

Our Senate family will also deeply miss Lynda Johnson Robb, who is here today.

She has given so much to our Nation throughout her life. And she continues to serve America as the National Chair of Reading is FUNdamental, and as Vice Chairman of America's Promise, the national service partnership.

Last week, CHUCK and Lynda celebrated their 33rd wedding anniversary. I'm sure I speak for all of us when I say we wish them belated congratulations—and best wishes on their future endeavors.

In that same interview in which Senator ROBB listed his political heroes, he was also asked: What is your most inspirational quotation?

He cited the words of Teddy Roosevelt:

The credit belongs to the man who is actually in the arena—whose face is marred by dust and sweat and blood . . . who knows the great enthusiasms, the great devotions—and spends himself on a worthy cause—who at best, if he wins, knows the thrill of high achievement—and if he fails, at least he fails while daring greatly—so that his place will never be with those cold and timid souls who know neither victory, nor defeat.

Throughout his career, CHUCK ROBB has lived up to those words.

He has been in the arena.

He has fought for worthy causes.

And he has inspired us all to be better Senators.

I am proud to call him a friend. We will all miss him.

Let me also take this opportunity to say thank you, and best wishes, to our other fellow Senators who will not be rejoining us next year: On our side of the aisle: Senator DICK BRYAN, Senator BOB KERREY, Senator FRANK LAUTENBERG, and Senator DANIEL PATRICK MOYNIHAN.

And our friends across the aisle. . . . Senators ABRAHAM, ASHCROFT, GORTON, GRAMS, MACK, and ROTH.

It's an honor to have served with all of them. I wish them well in all of their future pursuits.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Mr. President, on behalf of all the Democratic Senators, I express our appreciation for the kind words about our friend CHUCK ROBB. I sent him a note after the election, and he, of course, in his typical fashion responded. But I so much appreciate the Democratic leader covering his extraordinary life. One thing the leader didn't mention is that he is really a son of the West. He was born in Arizona. Of course, he went to high school in Fairfax and did a great job there.

One reason I so admire CHUCK ROBB—and the leader touched upon that—is his military record. I have not served in the U.S. military. I look at CHUCK ROBB with so much admiration. He went to the jungles of Vietnam. He didn't have to go, but he did. Not only did he go there, but he served in combat and was given a medal for valor. That says it all about CHUCK ROBB.

CHUCK ROBB's service for the 12 years he has been in the Senate has been one of valor. We have asked him to take credit for things he did, and he would not take credit. We have asked him to come forward on issues in which maybe he just had some tangential involvement. He said: No, that is not my legislation; I am not going to do it.

He is a man of great integrity. As the leader indicated, he doesn't promote himself. Of course, he doesn't do that.

But the thing I admire about CHUCK ROBB more than any other—more than his public service and more than his military record—is how he treats and talks to his family. He has three daughters and a wonderful wife.

With a heavy heart, I look at CHUCK ROBB here on the Senate floor for one of the last times. My life is better because of CHUCK ROBB. He has made me look better personally. He is a man of great integrity and a man of character. I will never forget the things he has done for me personally.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. WELLSTONE. Mr. President, I would like to thank Senator ROBB. He is truly one of the most honorable individuals I have ever met in my life. I thank him.

I yield the floor.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. ROBB. Mr. President, I will just take one minute to thank my friends and colleagues for their eloquent and very greatly appreciated words. I have never been very good at showing emotion. I am not very good at saying thank you. But I want you to know that your words, your friendship, your leadership and your example have always been appreciated well beyond my ability to express it.

Thank you, Mr. President. I yield the floor.

EXTENSION OF MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent that the period for morning business be extended until 2:30 with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Massachusetts.

TRIBUTE TO SENATOR CHUCK ROBB

Mr. KENNEDY. Mr. President, during the last few moments, several of our colleagues gave tribute to our friend. He is my friend and is someone so many of us admire here in the Senate. He is someone who has made a difference in this body and this country with his deep commitment to public service.

Reference was made this afternoon to Senator ROBB and his service in Vietnam. He fought for our country and served in the Armed Forces. Because of his strong beliefs and commitments to the values of the Nation, he made it his responsibility to respond to the Nation's call.

This is a real reflection of the strong commitment and the basic integrity of this extraordinary Senator and friend. He fought in Vietnam for the values he believed in deeply. He came back to this country served as a distinguished Governor of a great State, the State of Virginia. And he continued that service in the Senate.

CHUCK ROBB was a neighbor of mine. We have lived as neighbors for a number of years. He and Lynda have been good and valued friends over a great many years.

I have enjoyed working with him in the area of education. He has a fierce passion to try to make sure every child in this country is going to have a good quality education. Even though he is not a member of the education committee, he mastered this subject and also provided very important leadership in it.

I think so much of what is included in this dual appropriations legislation—which we hope we will have an opportunity to address in these next several hours and days—is really a tribute to the strong stands he took on good quality education for the children not just of Virginia but the children of this country.

I think he was always concerned about the balance between the expenditures and what the economy could stand. He is in every respect a fiscal conservative. He believed deeply in making sure we had a budget that was going to reflect our values, but also that we were going to take care that our resources were going to be well spent in the national interest.

Finally, I want to mention an additional field where his leadership was

very much in evidence; that is, in knocking down the walls of discrimination in all of the forms and shapes that have been presented in recent years. That is a defining issue for our country. America will never be America until we free ourselves from all types and all forms of discrimination.

There was never a battle in any of the areas involving discrimination in which CHUCK ROBB was not a leader. I will miss him on this Senate floor.

I join with my other colleagues in paying tribute to his service to the Senate, but most importantly to his State and also to our Nation. He has a great opportunity in the future for continued service. I think all Members in this body wish him well and look forward to opportunities of work with him closely again.

The PRESIDING OFFICER. The Senator from Michigan.

THE HISTORY OF OLDSMOBILE

Mr. ABRAHAM. Mr. President, today I rise to comment on a development that took place in my State this week. It was with great sadness that I heard of the phasing out of the Oldsmobile line of cars within the General Motors family. Over the last 105 years, Oldsmobile has been a Lansing, MI, and a State institution and, obviously, a national and international one as well. It was started 105 years ago when Ransom Eli Olds of Lansing, MI, teamed with Frank Clark, the son of a small carriage shop operator, to achieve what many believed impossible. They successfully produced a self-contained gasoline-powered carriage, and with it Oldsmobile was officially born in 1897.

Throughout its history, Oldsmobile has enjoyed a number of firsts: the first assembly line; and with the production of the curved dash, the first mass producer of gasoline cars; in 1905, two Oldsmobiles finished the very first transcontinental race from New York to Portland, OR, in 45 days; in 1940, models featured the Hydra-Matic drive, making this lineup the first vehicles with fully automatic transmissions; in 1966, Oldsmobile introduced the Toronado, the first modern-day front-wheel drive car; in 1974, that Toronado became the first American car to offer a driver's side airbag.

Millions of Americans have come to love their Oldsmobiles. An Olds convertible was the standard for transporting a Homecoming queen or a float parade when I was growing up. And an Oldsmobile sedan was the epitome of the middle-class family dream. All of this was made possible by the hard work and the commitment to affordable quality that was the hallmark of Oldsmobile in that division of General Motors.

On a personal level, I have a special stake in all of this, as well. Not only did I grow up in Lansing, MI, the home of Oldsmobile, but for almost 20 years my dad worked on the line at the Oldsmobile main assembly plant there. It is

where he got his start, where my family came to truly appreciate how much the automobile industry means, not just to families such as ours but to our State, and especially how much the Oldsmobile meant to Michigan—Lansing, in particular.

I am sad, therefore, to see the Oldsmobile go, as we have known it, but I am confident General Motors will continue to make quality, safe automobiles for generations to come. As we bring down the curtain on the Oldsmobile, I rise today to offer my praise to that company, to those who started it, and their families and descendants who still remain in the Lansing area and in Michigan; also, to all those workers who, as my father, worked over the years for that Oldsmobile division of General Motors. I think each and every one of them took to their jobs a great satisfaction, a commitment to hard work, and a tremendous pride in the craftsmanship that went into making the automobile for many generations one of this country's favorite lines of vehicles.

I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. ABRAHAM. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ABRAHAM. Mr. President, I inquire of the Chair, are we still in morning business?

The PRESIDING OFFICER. The Chair informs the Senator from Michigan we are in a period of morning business until the hour of 2:30.

PROUD ARAB AMERICAN HERITAGE

Mr. ABRAHAM. Mr. President, I will comment briefly on a matter of relevance both personally to me and to my State. Since the election, as a consequence of my defeat, I have heard from a number of people from the Arab American community, both in Michigan and across the United States. As a Lebanese American myself, I have been very proud to be, at least for the last several years, the only Arab American Member of this Chamber.

A number of folks from that community expressed their disappointment in the results of the campaign. I take the floor today to thank so many people who have been in touch, but also to make several points that I hope will be heard by members of the community, to be taken into account as they consider the results of this election, as well as the future.

First, I note that in recent years I believe the Arab American community has become a key part of the American political process. The participation of the community has continued to increase both in my State of Michigan as

well as across the country. Not only are people voting in greater numbers as a percentage of the community, and for many taking the first step of participating in the elections, but their activism in Michigan and other States has grown considerably. I take great pride in seeing that happen.

In addition, we have seen a number of Arab Americans rise to leadership positions at the local level of government all the way up to statewide offices. In the Congress itself we have several Members of Arab heritage on the House side who were elected in the most recent campaigns.

Much of this progress, I think, has translated into progress on issues of importance to the Arab American community in the last 6 years. I have been proud during my term in the Senate to have worked on behalf of a number of important issues relevant to the community. One has been to see the travel ban to Lebanon lifted in 1997, which has opened more opportunities for better relations between the United States and Lebanon, and also for more commercial activity between the two countries.

This Chamber passed a resolution decrying intolerance toward people of Islamic faith in this country, a much needed statement, I think, for the Congress to make so we can be on record consistently as opposing intolerance toward people of any religious faith. We have supported important programs that have affected the Middle East. One that we have worked on in our office with Senator FEINSTEIN and others is the Seeds of Peace Program, which I believe will have a long-term and positive impact on the relationships between countries in the Middle East, including Lebanon, Israel, Jordan, Egypt, Yemen, as well as the Palestinians.

I think the potential for the future is even greater. I think it is very likely in the area of public policy that the people from the Arab American community will rise and play an ever active role and a greater role, as they have done in other fields of endeavor. In America's business community, we have many Arab American leaders today who are heading up important companies from one end of the country to the other. In sports and entertainment and the arts, we likewise have seen Arab Americans excel. In education, the same is true. Indeed, the level of educational attainment by young people of Arab American background continues to be one of the most important components of the Arab American ethnic communities' contribution to the United States.

I am very proud of my heritage. I have talked to many other Members of this Chamber about my background over the years. I am glad to have helped in a small way—to have played a role in moving forward some of the policy objectives I mentioned a few minutes ago. I hope, to some extent, that has helped encourage others in their own communities, States, or even

perhaps at the Federal level to do so, as well.

Recently in Dearborn, MI, home to the largest concentration of Arab Americans in the United States, I was approached by a woman who had a young son in the seventh grade, saying how happy he was to know a Senator shared his Arab American heritage. I hope that in my brief career in the Senate maybe there are others who have similarly sparked an interest in government because they happen to be part of that same community to which I belong.

My message is to praise the community, especially, but also to say to any who have harbored a sense of disappointment with the results of the election, I hope that disappointment will not be long standing. It certainly isn't the case for myself. I encourage people in the community to continue to play an active role in politics. Obviously, our political process inevitably produces success and failure from election to election.

For people new to the process, sometimes they misunderstand and treat a setback as something that should discourage future involvement. I hope that across the Arab American community, and especially for those who first got active in the political process with this election, that they will continue to play an active role, even increase their involvement, and hopefully encourage others to do likewise. That would be invaluable to the community, and certainly from my point of view, it would be the preferable outcome.

My grandparents came a century ago from Lebanon, where they left behind everything to risk their fortunes on America. As is the case with people not just from the Arab American community but so many other immigrant communities, they came here with very little in the way of material possessions, but they came with a great deal of desire and energy and the hope that by working hard and playing by the rules they could make a contribution.

As I have said to the others on this floor in the past, they did not necessarily come here assuming they would have a grandson who would be in the Senate, but they wanted to live in a country where that was possible. Indeed, that is what our country always will be. And I think it always will. I am proud to have had the opportunity to fulfill, probably in the utmost way, the hopes that were brought here by my grandparents when they arrived.

I think, as I look back on my service in the Senate, perhaps more than anything else, will be the source of pride that I take with me as I leave the Chamber today.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Massachusetts.

SENATOR ABRAHAM

Mr. KENNEDY. Mr. President, I did want to take a moment, as someone

who has been involved in immigration issues over some 38 years in the Senate, and someone who has worked with colleagues in a bipartisan way. I wanted to let my friend from Michigan know something which I hope he already does know. I wanted to share the great respect I have for him and his leadership on immigration issues, as the chairman of the Subcommittee on Immigration.

Immigration issues bring out, really, the best and the worst in our colleagues. These are emotional issues for many of us. We have a Senate and House of Representatives that have strong views on these issues. His hand has been a steady, guiding one of leadership over this period of time, and one I thought showed enormous sensitivity in helping to guide immigration policy in a way that respects the strong tradition of people in this Nation to acknowledge and continually work to remedy the very significant inequities that are still a part of our policy.

I also point out what I think all of us in this body remember, his strong leadership in helping us work through the skill shortage in our high-tech industries. He led the Judiciary Committee and the Senate in the development of that program. What certainly impressed me during that period of time was his constant willingness to look at different ideas, different approaches, and differing views, and to always try to reach out to find some common understanding in these areas in order to move the process forward—a real legislator.

I know he is proud of many different aspects of his service in the Senate, but I wanted to express from this side of the aisle the affection and friendship of those of us who have worked with him in some very important areas of public policy, and the high regard and respect we have for him. We are hopeful that we'll have a chance to work with him on public policy in the future.

Mr. ABRAHAM. Mr. President, if I might, I thank the Senator from Massachusetts for his kind remarks. I had occasion a couple of days ago to speak to the Senate. At that time I expressed publicly my thanks to him. He was not in the Chamber at the time, so I reiterate it here. We worked, I think, in a very constructive way on a number of issues as members of the Subcommittee on Immigration and on a variety of other issues he has mentioned here as well. I thank him for his remarks today.

The PRESIDING OFFICER. The Senator from Massachusetts.

OMNIBUS APPROPRIATIONS BILL

Mr. KENNEDY. Mr. President, I expect to support the omnibus legislation that will implement the final appropriations agreement for this Congress because it makes the kinds of investments in education, health, and work opportunities that are needed by all American families. In the long run,

only through these basic investments can we preserve our capacity to keep our nation strong. I commend my colleagues for their diligence in crafting legislation that respects the highest priorities of the American people. Senator HARKIN and Senator SPECTER have shown the power of bipartisan cooperation throughout their work on this legislation. We have all benefitted from the example and leadership of Senator STEVENS and Senator BYRD as well.

While this legislation is not perfect and certainly is no substitute for the unfinished work of the 106th Congress, it is good for the American people, and it shows what is possible when we resolve to work together. In this sense, it offers considerable hope for the 107th Congress.

EDUCATION

In the critical area of education and the nation's schools, this appropriations agreement is a resounding victory for parents and communities across the country. Congress has lived up to its commitment to increase education funding. We are taking a giant step forward to ensure that children across the country receive the support they need to succeed in school and to make college more affordable for every qualified student. I'm proud to highlight a few of the key education accomplishments.

For the first time, communities across the country will qualify for over \$1.2 billion in federal aid to address their most urgent school building repair needs, such as fixing roofs, plumbing and electrical systems, and meeting fire and safety codes.

Schools across the country will receive \$1.623 billion, a 25 percent increase over last year, to continue hiring and training new teachers to reduce class sizes in the early grades. This year's funding increase will place 8,000 more teachers in classrooms, placing the goal of 100,000 new teachers well within reach.

Teacher quality will improve as well this year. Schools will receive \$485 million, a 45 percent increase over last year, to help teachers improve their skills through professional development activities, reducing the number of uncertified and out-of-field teachers.

Title I of the Elementary and Secondary Education Act, which helps disadvantaged students master the basics and achieve to high standards, is increased by \$506 million, for a total of \$8.4 billion.

We know that children are most likely to engage in risky behavior in the hours just after school. Congress has responded by increasing support for after-school programs by 87 percent this year, to \$851 million. This increase will help more children stay out of trouble after school and get extra help with their schoolwork.

The bill also provides an additional \$91 million, for a total of \$225 million, to support state and local efforts to turn around low-performing schools.

Vocational and technical education programs received \$1.240 billion, a \$48

million increase, to improve programs that give students skills they need in order to meet the demands of the new high tech workforce.

College students will also receive much needed support under this bill. The GEAR UP programs will receive \$295 million, an increase of \$95 million, and TRIO programs will receive \$730 million, a \$85 million increase, to help more low-income and minority middle and high school students prepare for college and succeed in college.

Of all high school students in Boston, 80 percent of them now are tied into colleges. We have 12 different colleges that are tied into the high schools, where they are not just taking the individuals who show promise, which the TRIO Program does and does with extraordinary success, but to try to take the whole class together and move the whole class up. It is a relatively new concept and one which has worked very successfully in the several pilot areas where it has been tried. We are finding extraordinary response, positive response from colleges that engage in this undertaking, and extraordinary response from the schools. I think it will be one of the more important programs to enhance academic achievement for high school students.

This legislation will also enable more undergraduate and graduate students to pay for college through part-time work assistance because the Federal Work Study program received a \$77 million increase.

This bill also strengthens Pell Grants, enabling many more students to take advantage of them. The maximum grant is increasing by \$450—from \$3,300 to \$3,750. Because there are so many young people who, even though they are eligible for the maximum Pell Grant, just couldn't make it with the lower maximum, this is perhaps the most important educational enhancement we have. It recognizes that many children are advantaged in their academic achievement and accomplishment but disadvantaged in the amount of resources they have.

EARLY LEARNING

As we strengthen our commitment to quality education at the elementary, secondary, and college levels, a strong body of research challenges us to broaden our commitment to education as well. Education is a continuum that begins at birth and continues long after graduation. On the birth-to-kindergarten side, we have much work to do. For the sake of each child, the nation, and our education system itself, all children must have access to the early learning opportunities that will enable them to enter school ready to learn.

Today, 12 million children under age five have mothers who work outside the home. Yet many of these children are assigned to waiting lists instead of quality early learning programs because federal funding isn't adequate to meet existing needs, and more and more parents are accepting the responsibility of work under welfare reform.

In Massachusetts, 14,000 children are wait-listed, as are 200,000 children in California. Today's minimum wage for a full-time worker is \$10,720 per year. This doesn't begin to cover the cost of quality early learning opportunities, which can be as high as ten thousand dollars a year.

All of us remember a number of years ago when the Governors, Republicans and Democrats, met in Charlottesville and announced goals for the Nation in education. Their first goal is to have children ready to learn when they enter kindergarten and first grade, to build the skills they bring to school. The skills that little children need to develop as infants and toddlers self-confidence, self-awareness, some degree of self-esteem, inquisitiveness in academics, and, interestingly enough, a sense of humor.

Eleven years ago, Senator MCCAIN and I introduced the Military Child Care Act, which turned military child care into an early learning model for the nation. Today's legislation takes three important steps toward building on that success in civilian America.

First, it increases federal child care subsidies by 69 percent, enabling states to remove 150,000 children from waiting lists next year. This increase was very much patterned upon the child care initiatives of our colleague, Senator DODD, and I am deeply grateful for his leadership on this issue.

Next, this legislation enables 70,000 of the nation's most at-risk children to participate in Head Start, which is highly regarded because it delivers the promise of early learning so effectively. The legislation also begins implementing the Early Learning Opportunities Act, which Senator STEVENS, Senator JEFFORDS, and Senator DODD and I supported over the past two years. This new law provides for parental education and support services, increased collaboration among early leaning providers, and incentives to improve the quality of early learning services. Its goal is to help the nation build an effective infrastructure of local councils to help each community evaluate how best to put the research on infant and toddler brain development into practice.

The Head Start Program, the Early Head Start Program, and the new Early Learning Opportunities Act included in this appropriations bill will improve early learning in important ways. The Carnegie Commission and other experts who have studied the development of a child's brain in the early years, and made a series of recommendations. With this legislation we are beginning now to follow up on these recommendations by investing in children at early ages. That is extremely important.

These steps show important momentum toward turning the research on children's brain development into sensible national policy, and we should build on this momentum in the next Congress. We can learn much more

from the military's experience with early learning. We can build these lessons into the Child Care and Development Block Grant when it is reauthorized in the next Congress. We can pass additional legislation to turn the current patchwork of federal child care and early learning programs into a seamless structure directed at one goal—quality services to ensure that children enter school ready to learn. We also must continue expanding Head Start until it is available to all children who need it.

The health funding in this bill is also a win for the American people.

GRADUATE MEDICAL EDUCATION

I will now address the excellent work that has been done under the balanced budget act, or BBA, programs, in particular the funding level for pediatric graduate medical education. This is not an area that has a history of proper federal attention. Last year, it received \$40 million and virtually no funding prior to that time.

The Medicare Program has provided the funding for the training of much of the American medical personnel who, without question, are the best trained medical personnel in the country. It was funded through the Medicare system. The area of pediatrics never made it, so these children's hospitals, which train the majority of pediatricians, had to provide the additional training services and educational services without the support available to every other physician training program.

That has been significantly corrected with this legislation. There are over 50 major children's hospitals across this country that will benefit from this program. We can be sure that as a result of today's work, the part of the medical profession that is focused upon caring for children will be significantly advanced, and I commend the appropriators for this.

I am particularly pleased with the funding level for pediatric graduate medical education. The legislation allocates \$235 million to support medical education costs incurred by free-standing children's hospitals. This figure is nearly a 500 percent increase over last year's appropriation of \$40 million, and puts us much closer to fully funding the program.

This program was created last year to address the historical inequities in federal support for graduate medical education activities occurring at independent children's hospitals. Until last year, the federal government has paid for hospital costs related to physician training from Medicare. However, because children's hospitals generally treat very few Medicare patients, they were historically and dramatically underpaid for teaching activities. Prior to enactment of this program, children's hospitals were given just $\frac{1}{200}$ th of the federal support for teaching activities that other teaching hospitals received.

Children's hospitals, which represent less than one percent of all hospitals in the country, train approximately 30

percent of the nation's pediatricians and the majority of many pediatric specialists. It is long past time for the federal government to support these activities. Next year, it is my hope that we will achieve permanent, full funding for this essential program.

Children's hospitals around the country will benefit from the increased funds in this legislation. It will enable these important institutions to continue to be regional and national referral centers for children around the country. It will support new and continuing research activities that benefit children and adults alike. And, most importantly, it will help assure a steady supply of pediatricians and pediatric specialists to treat the nation's children now and in the future.

With approximately 200 full-time employees in training at any one time, Boston Children's Hospital has the largest teaching program among independent children's hospitals. It has a top-notch faculty, and provides excellent teaching, research and patient care. These funds will assure its continued contribution to health of children in Massachusetts, the nation, and the world.

NATIONAL INSTITUTES OF HEALTH

This bill also includes an increase of 13 percent for the National Institutes of Health, raising the NIH budget to more than \$20 billion. These new resources will enable NIH to increase its support for the medical research that is urgently needed to develop new cures for the diseases that afflict millions of Americans.

Massachusetts is a leader in medical science. It receives more than one out of every ten dollars that NIH spends on research grants—more than any other state except California—and Boston receives more NIH grant money than any other city in the nation.

Last year alone, doctors and scientists in Massachusetts were awarded more than \$1.5 billion in research grants from NIH. The new appropriations bill will increase this already impressive total by more than \$180 million, so that Massachusetts will receive an estimated \$1.7 billion in NIH research grants in the coming year.

NIH supports essential research across the state. In Boston, research supported by NIH very recently discovered an important relationship between the immune system and the brain that may lead to better treatments for diseases like multiple sclerosis. In Worcester, NIH funds are helping to build a new center for cancer research that will become a leader in this important field. In Cambridge, NIH will help support a major new center to study the nervous system, so that we can better understand brain diseases like Alzheimer's, schizophrenia and depression. NIH grants are essential for funding the basic research that is often considered too risky to be funded by private companies, and ensure that the results of this work are available to all researchers.

The investment that NIH makes in medical research is the foundation on which the nation's thriving biotechnology industry is built. More than 250 biotech companies in Massachusetts provide good jobs for thousands of professionals across the state, and contribute millions of dollars every year to the state's economy. New partnerships between universities and biotechnology companies form almost every day, embarking research ideas from the academic world to be developed rapidly into new medical breakthroughs that will improve the health of patients across the nation.

By helping develop new cures for deadly diseases and by fostering the important new industry of biotechnology, the renewed commitment to the NIH that we make here today is an investment that will pay dividends now and for many years to come.

BALANCED BUDGET REFORM ACT

This legislation provides "financial CPR" for hospitals, home health agencies, nursing homes, and other important Medicare providers around the country. It also takes important steps to improve access to health care through CHIP and Medicaid, though more is needed.

Nearly one million senior citizens and persons with disabilities depend on Medicare to provide high-quality care in Massachusetts. The health care industry is a critical component of the state economy. Today, we are saying that help is on the way.

The Medicare, Medicaid and CHIP Beneficiary Improvement and Protection Act is the most significant relief package since passage of the Balanced Budget Act in 1997. Medicare spending will total \$30 billion over five years, and spending for Medicaid and the Children's Health Insurance Program will total \$6 billion. In fact, the net cost of the entire package is likely to be closer to \$15 billion over five years, because of the offsetting effect of savings achieved by a forthcoming regulation limiting the ability of states to obtain union funded Medicaid payments.

The savings from the Medicaid regulation should be used to expand coverage to low-income populations. I strongly support the provider relief in this package, but I am disappointed that the Republican leadership opposed bipartisan efforts to enable states to extend health benefits to low-income pregnant women and children who are legal immigrants, but who would otherwise be eligible for CHIP and Medicaid. In addition, the Republican leadership refused to include the bipartisan Grassley-Kennedy Family Opportunity Act, which would have enabled children with disabilities to obtain or maintain health coverage through Medicaid.

Massachusetts providers have estimated that they will receive approximately \$450 million—close to half a billion dollars—over the next five years as a result of this legislation. While it is the most significant step Congress has

taken to date to restore the unintended cuts made by the Balanced Budget Act of 1997, this Congress failed to finish the job, and we will be back at it again in the 107th Congress.

The record budget surpluses now and projected for the years ahead are largely due to the savings achieved by cutting Medicare payments in the Balanced Budget Act of 1997. Those cuts were expected to total \$116 billion over five years, and nearly \$400 billion over ten years—more than double the amount ever enacted in any previous legislation.

In reality, these cuts are now estimated to total \$200 billion over five years and more than \$600 billion over 10 years. These excessive cuts, combined with low payments from private payors and Medicaid programs, have placed many outstanding health care institutions at risk, and threaten quality of care for millions of elderly, disabled and low-income Americans.

In Massachusetts, two out of every three hospitals are losing money on patient care. Community hospitals across the state are struggling to survive. Key providers are questioning whether to participate in HMOs, and HMOs are deciding to cut benefits and trim service areas.

Twenty-five percent of home health agencies in the state no longer serve Medicare patients, and 20 agencies have closed their doors since the BBA was enacted. The remainder see fewer patients, and see them less often.

Forty-three nursing homes have closed in Massachusetts since 1998. One in four are in bankruptcy. One in seven nursing positions are unfilled, because Massachusetts nursing homes are unable to compete for staff.

Congress has been slowly restoring these Medicare cuts year-by-year. In 1998, we included \$1.65 billion in the FY99 Omnibus Appropriations bill for Medicare home health agencies as a stop-gap measure. The Balanced Budget Refinement Act of 1999 restored \$16 billion over five years. And the legislation we are voting on today takes an even more significant step toward fixing the problems created by the BBA. But it does not finish the job. In fact, it contains new cuts for hospitals and nursing homes. Clearly, we will need to revisit this issue in the 107th Congress. There is no need to turn funding for entitlement programs into an annual appropriations process, but that is precisely what this annual exercise has unfortunately become.

In addition to the much-needed provider relief contained in this legislation, it also includes two other important improvements in Medicare benefits. First, it requires Medicare coverage of drugs that are not usually self-administered by a patient. This change restores and preserves coverage for certain drugs that are vital for senior citizens and persons with debilitating chronic illnesses. This provision will ensure that in determining whether a drug is usually self-administered,

HCFA should only consider whether a majority of Medicare patients with the disease or condition actually administer the drug to themselves, reversing a contrary 1997 policy. This improvement will help assure that millions of elderly and disabled Americans have continued access to life-saving and life-improving drugs.

Second, the bill improves coverage for immunosuppressive drugs for Medicare patients who have had an organ transplant. These drugs are needed to prevent rejection of the transplanted organ. Assuring permanent coverage will improve the quality of life for transplant patients, and assure a wiser use of scarce resources and scarce organs by helping patients to remain healthy after transplantation.

CHIP AND MEDICAID

This legislation also includes several provisions that are important to working families whose children are eligible for CHIP or Medicaid.

First, the legislation includes a redistribution mechanism to assure use of the funds allocated to insure low-income children through CHIP and Medicaid. The formula is fair, and it allows all states to benefit from unspent FY98 dollars in a manner that will assure continued enrollment of eligible children. Those states that have been slow to spend their initial CHIP allocation will now have additional time to spend their FY98 funds by reaching out and enrolling more children in these programs. Those states that spent all of their FY98 dollars because they were able to get their programs up and running early will obtain additional funds to continue their momentum. The result is a win-win for America's children.

The legislation also enables states to immediately enroll uninsured children who are potentially eligible for CHIP or Medicaid in the proper program, while awaiting confirmation of actual eligibility. This step is important for improving enrollment rates. Unfortunately, the bill limits its applicability to children found only through outreach in primary and secondary schools. There is bipartisan support for a broader proposal that would have extended presumptive eligibility to a variety of other programs where uninsured eligible children or their parents are likely to be identified, including child care resource centers, child support agencies, housing agencies, and homeless shelters. We will pursue this and other CHIP and Medicaid outreach and enrollment improvements next year.

Finally, the legislation extends for one additional year the Transitional Medical Assistance program, which allows families who are leaving welfare for work to maintain Medicaid coverage during the transition. Most post-welfare jobs do not offer health insurance. We must do all we can to see that "ending welfare as we knew it" does not contribute to America's already shameful uninsured rate.

LOW INCOME HOME ENERGY ASSISTANCE

I'm pleased that this year's final budget agreement includes \$1.4 billion to help families heat their homes this winter under the Low Income Home Energy Assistance Program. Massachusetts needs this 28 percent increase in its block grant to help more families cope with higher heating costs this winter. Combined with LIHEAP emergency funds that the Clinton Administration has already made available in anticipation of this winter's needs, I am hopeful that the regular and emergency LIHEAP funding contained in this budget deal should enable low-income families to heat their homes throughout the winter that is already upon us. I regret that this year's budget agreement does not contain expected advance funding for the winter of 2002, so that families can plan ahead for heating assistance next year. I intend to do all I can to see that Congress corrects this omission as part of a supplemental spending bill early next year or as part of the broader national energy policy reevaluation likely to begin in the new Congress. For this winter, though, today's budget agreement remains a significant step forward for LIHEAP and the families who depend on it.

NEW MARKETS INITIATIVE

The New Markets Initiative is another key bipartisan agreement included in this legislation. I am pleased that the Congress has joined President Clinton in his efforts to revitalize those communities that have been left behind at this time of record prosperity, and I commend Speaker HASTERT for his leadership in reaching this agreement.

This initiative increases the low-income housing tax credit, which is long overdue in light of its strong bipartisan support. With the growing regional and national economy, housing prices are rising faster in Massachusetts than in any other state. We must increase production in new affordable housing units to meet the overwhelming demand, and an increase in the credit is critical. The agreement also accelerates the private activity bond cap, which will also support increased development of affordable housing, as well as industrial development.

The initiative also creates 40 Renewal Communities and 9 new Empowerment Zones—all of which provide tax incentives for development in those parts of the country that have struggled while others have prospered.

Overall, this final budget agreement includes so many major achievements—from Class Size reduction to Pediatric Graduate Medical Education to dislocated worker assistance to New Markets development—that the value of each part will only become apparent over time. Yet even as we celebrate the progress made by this legislation, we must also recognize that it is only a small part of the work that the public expects us to complete. I share the concern of many of my colleagues that the

unfinished agenda of the 106th Congress is so long.

We still lack a Patients' Bill of Rights, leaving HMO's free to sacrifice families' health needs in favor of their own economic interests.

We still lack a prescription drug benefit for seniors, leaving our parents and grandparents vulnerable to drug-company extortion for drugs they need to stay alive.

We still lack a plan to reduce medical errors, leaving thousands of hospital patients to die needlessly each year.

We still lack a fair minimum wage, leaving people who work full time all year in difficult jobs to raise their children in poverty.

We still lack common-sense gun laws, leaving school children vulnerable to ambush.

We still lack strong laws against hate crimes, leaving the most vulnerable people in our society open to the most brutal acts imaginable.

We still lack basic fairness in many of our immigration laws, leaving our proud heritage and noble ideals out in the cold with so many huddled masses.

We still lack the most basic protection for women's work, leaving more women to raise their children in poverty because they consistently earn less than their male colleagues.

We still lack a plan to protect people's privacy in the digital age, leaving our medical, consumer, and other personal information exposed to market demands.

Also left unresolved are major Medicare and Social Security reforms that must be enacted now if we are to avoid a crisis for the seniors of 2025 and beyond. I also believe that we should still address how to provide some tax relief for many families who bear a particular financial burden because they need to provide long term care for their loved ones.

Every item on this list remains of vital importance to the nation. I must elaborate on a several of them.

Unfortunately, the leadership of the 106th Congress turned its back on America's families who are raising children with disabilities. The Family Opportunity Act has sweeping bipartisan support in both chambers, including more than three-fourths of the Senate. There is no reason that this legislation should not have become law this year. Although Congress let American families down this year, I look forward to working with Senator GRASSLEY again next year to ensure that no family in this nation has to turn down jobs, turn down raises, or give up custody of their disabled child to get the health care each child deserves.

Few issues touch Americans more deeply than quality health care for themselves and their loved ones. This Congress failed to fulfill its responsibility to act on three great health issues. It did not pass a strong, effective patients' bill of rights to end the abuses of managed care and other in-

surance programs. It did not provide coverage of prescription drugs under Medicare. And it did not significantly expand insurance coverage for the uninsured. Now it is up to the new Congress that will assemble in January to do better. These three issues should be top priorities.

Prompt passage of a patients' bill of rights is critical for every one of the 161 million Americans with private health insurance coverage. Every day that Congress fails to act more patients suffer.

A survey by the School of Public Health at the University of California found that every day—each and every day—50,000 patients endure added pain and suffering because of their actions of their health plan. For 35,000 patients, needed care is delayed, or even denied all together. Thirty-five thousand patients have a specialty referral delayed or denied. Thirty-one thousand patients are forced to change doctors. Eighteen thousand patients are forced to change medications because of HMO abuses.

A survey of physicians by the Kaiser Family Foundation and the Harvard School of Public Health found similar results. Every day, tens of thousands of patients suffer serious declines in the their health as the result of the action—or inaction—of their health plan.

Whether the issue is diagnostic tests, specialty care, emergency room care, access to clinical trials, availability of needed drugs, protection of doctors who give patients their best possible advice, or women's ability to obtain gynecological services—too often, in all these cases, HMOs and managed care plans make the company's bottom line more important than the patient's vital signs. These abuses should have no place in American medicine. Every doctor knows it. Every patient knows it. And in their hearts, every member of Congress knows it.

The House passed a Patient Bill of Rights—the Norwood-Dingell bill—that effectively addressed these abuses. A solid bi-partisan majority of Congress supported the legislation. It is endorsed by 300 groups representing doctors, nurses, patients and advocates for women, children, and families. But in the Senate, it has been blocked by the insurance industry and the Republican leadership. The new Senate, the new Congress, and the new President have an obligation to pass this legislation into law.

This is an issue which hopefully, given the strong voting and interests of our colleagues and their constituents, we will be able to resolve in a bipartisan way during the next Congress.

The Congress' failure to provide prescription drug coverage to our nation's senior citizens is also unacceptable. Senior citizens need a strong drug benefit under Medicare. They earned it by a lifetime of hard work. They deserve it. And Congress and the new President owe it to them to act.

Too many elderly Americans today must choose between food on the table

and the medicine they need to stay healthy or to treat their illnesses. Too many senior citizens take half the pills their doctor prescribes, or don't even fill needed prescriptions—because they can't afford the high cost of prescription drugs.

Too many seniors are paying twice as much as they should for the drugs they need, because they are forced to pay full price, while almost everyone with a private insurance policy benefits from negotiated discounts. Too many seniors are ending up hospitalized—at immense cost to Medicare—because they aren't receiving the drugs they need at all, or can't afford to take them correctly. Pharmaceutical products are increasingly the source of miracle cures for a host of dread diseases, but millions of senior citizens are being left out and left behind because Congress fails to act.

The crisis that senior citizens face today will only worsen if we refuse to act, because insurance coverage continues to go down, and drug costs continue to go up.

Twelve million senior citizens—one third of the total—have no prescription drug coverage at all. Surveys indicate that only half of all senior citizens have prescription drug coverage throughout the year. Coverage through employer retirement plans is plummeting. Medicare HMOs are drastically cutting back. Medigap plans are priced out of reach of most seniors. The sad fact is that the only senior citizens who have stable, reliable, affordable drug coverage are the very poor on Medicaid.

Prescription drug costs themselves are out of control. Since 1996, costs have grown at double-digit rates every year. Last year, the increase was an unacceptable 16 percent, while the increase in the CPI was only 2.7 percent. No wonder access to affordable prescription drugs has become a crisis for so many elderly Americans.

In the face of this declining coverage and soaring cost, more and more senior citizens are being left out and left behind. The vast majority of the elderly are of moderate means. They cannot possibly afford to purchase the prescription drugs they need if serious illness strikes.

Fifty-seven percent of seniors have incomes below \$15,000 a year, and 78 percent have incomes below \$25,000. Only 7 percent have incomes above \$50,000 a year. The older they are, the more likely they are to be in poor health—and the more likely they are to have very limited income to meet their health needs.

Few if any issues facing the next Congress are more important than giving the nation's senior citizens the health security they have been promised. The promise of Medicare will not be fulfilled until Medicare protects senior citizens against the high cost of prescription drugs, in the same way that it protects them against the high cost of hospital and doctor care.

Despite the gaps in Medicare and the abuses of many private insurance plans, those who have insurance coverage from these sources are still more fortunate than the 43 million of their fellow citizens who have no health insurance at all.

It's a national disgrace that so many Americans find the quality of their health determined by the quantity of their wealth. In this age of the life sciences, the importance of good medical care in curing disease and improving and extending life is more significant than ever. Denying any family the health care they need is unacceptable.

Every other industrialized society in the world except South Africa achieved that goal in the 20th century—and under Nelson Mandela and Thabo Mbeki, South Africa has taken giant steps toward universal health care today. But in our country, the law of the jungle still too often prevails. Forty-three million of our fellow citizens are left out and left behind when it comes to health insurance.

The dishonor roll of suffering created by this national problem is a long one.

Children fail to get a healthy start in life because their parents cannot afford the eyeglasses or hearing aids or doctor's visits they need.

A young family loses its chance to participate in the American dream, when a breadwinner is crippled or dies because of lack of timely access to medical care.

A teenager is condemned to go without a college education, because the family's income and energy are sucked away by the high financial and emotional cost of uninsured illness.

An older couple sees its hope for a dignified retirement dashed, when the savings of a lifetime are washed away by a tidal wave of medical debt.

Even in this time of unprecedented prosperity, more than 200,000 Americans annually file for bankruptcy because of uninsured medical costs. And the human costs of being uninsured are often just as devastating.

In any given year, one third of the uninsured go without needed medical care.

Eight million uninsured Americans fail to take the medication that their doctor prescribes, because they cannot afford to fill the prescription.

Four hundred thousand children suffer from asthma but never see a doctor. Five hundred thousand children with recurrent earaches never see a doctor. Another five hundred thousand children with severe sore throats never see a doctor.

Thirty-two thousand Americans with heart disease go without life-saving and life-enhancing bypass surgery or angioplasty—because they are uninsured.

Twenty-seven thousand uninsured women are diagnosed with breast cancer each year. They are twice as likely as insured women not to receive medical treatment before their cancer has already spread to other parts of their

bodies. As a result, they are 50 percent more likely to die of the disease.

Overall, eighty-three thousand Americans die each year because they have no insurance. The lack of insurance is the seventh leading cause of death in America today. Our failure to provide health insurance for every citizen kills more people than kidney disease, liver disease, and AIDS combined.

Passage of the CHIP program in 1997 opened the door of health insurance to a large majority of the 10 million uninsured children—but too many children eligible for CHIP and Medicaid have still not been enrolled. Legislation I sponsored with Congressman John Dingell would have substantially increased enrollment of eligible children in CHIP. It would have encouraged states to make more children eligible, and would have provided assistance to the low and moderate income uninsured parents of these uninsured children. This legislation received a vote of the majority of the members of the Senate, but it was defeated on a procedural motion.

Today, our opportunity to end these millions of American tragedies is greater than ever before. Our prosperous economy gives us large new resources to invest in meeting this critical need. Recently, some Republicans in Congress have finally joined Democrats in urging our country to meet the challenge of providing health coverage to the 43 million Americans who are left out and left behind. President-elect George Bush and Vice President AL GORE both campaigned on a pledge to expand health insurance coverage for the uninsured. I regret that this Congress did not take substantial steps to end this American tragedy, but it should be at the top of the agenda of the new Congress and the new Administration.

The minimum wage ranks at the top of the list as well. Our leader, in a meeting of our Democratic caucus, indicated this afternoon that one of his great disappointments in this session is failing to provide an increase in the minimum wage for the 13 million Americans who need and deserve an increase. The last time we increased it was 1997. We have had unparalleled economic prosperity before and since. We have had record low unemployment. We have had stability in inflation. It is inexcusable that we have not increased the minimum wage for these workers. I am strongly committed to working with our colleagues to address that situation in the new Congress.

I join our Democratic leader in expressing my deep disappointment in the failure of this Congress to increase the minimum wage. A fair increase is long overdue. It is urgently needed to improve the lives of over ten million hard-working, low-wage earners in this country. It is shameful that Congress is holding the increase hostage to tax cuts for the wealthy. It is even more shameful that Congress recently acted to raise its own pay for the third time

in four years—yet they have not found time in the past three years to give any pay increase at all to the lowest paid workers.

The long period of inaction comes at a time when the country as a whole is enjoying unprecedented prosperity—the longest period of economic growth in the nation's history and the lowest unemployment rate in three decades. In these strong economic times, Congress should not be acting like Scrooge.

Millions of low income workers have dedicated their lives to building this strong economy. Yet, in many cases they have been forced to labor for increasingly longer and longer hours, with less and less time to spend with their families, and without sharing fairly in the nation's prosperity. Poverty has almost doubled among full-time, year-round workers since the late 1970s—from about 1.5 million then to almost 3 million in 1998—and an unacceptably low minimum wage is part of the problem.

Minimum wage employees working 40 hours a week, 52 weeks a year, earn only \$10,700 a year—\$3,400 below the poverty line for a family of three. At that rate, minimum wage workers now fail to earn enough to afford adequate housing in any area of this country. Waitresses, teacher's aides, child care workers, elder care workers and all other employees deserve to be paid fairly for the work they do. No one who works for a living should have to live in poverty.

By failing to increase the minimum wage, Congress has broken its promise to American workers. We are denying them just compensation for their many contributions to building a strong nation and a strong economy.

We have broken our promise to women, since 60 percent of minimum wage earners are women.

We have broken our promise to people of color, because 16 percent of those who would benefit from a minimum wage increase are African American and 20 percent of those who would be helped are Hispanic.

We have broken our promise to children, because 33 percent of minimum wage earners are parents with children. In America today, 4.3 million children live in poverty, despite living in a family where someone works full-time, year-round.

And we have broken our promise to the American family, because too many parents are required to spend more and more time away from their families to make ends meet. On average, Americans are working 416 more hours in 1999 than they were in 1979.

Each year we fail to act on the minimum wage, families across the country fall farther behind. As the result of not implementing the dollar increase we first proposed three years ago, when the clock strikes midnight on the December 31st, minimum wage workers will have lost over \$3000 because of the inaction by Congress. Today, the real

value of the minimum wage is now \$2.90 below what it was in 1968. To have the purchasing power it had in 1968, the minimum wage would have to be at least \$8.05 an hour today, not \$5.15.

We will never give up or give in on this issue, because it is an issue of fundamental fairness. We will be back next year with a new bill to raise the minimum wage. I hope that the new Congress will act as quickly as possible to pass a fair increase that reflects the losses suffered as the result of our shameful inaction this year.

President-Elect Bush has emphasized many of these priorities, and I look forward to working with him. The lesson of the legislation before us today is that when we fail to consider each other's ideas, only gridlock results—but when we work together for the nation's good, the result is the kind of progress that makes us all proud to serve the American people.

The PRESIDING OFFICER (Mr. ABRAHAM). The Senator from Nevada.

ORDER FOR RECESS

Mr. REID. Mr. President, due to the delay in consideration of the final appropriations bill, I ask unanimous consent that the Senate stand in recess until the hour of 4 p.m., following the remarks of Senator TORRICELLI from New Jersey.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. TORRICELLI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ASSISTANCE FOR ALS PATIENTS

Mr. TORRICELLI. Mr. President, 3 years ago, during a visit by a constituent, I met a young man from southern New Jersey named Kevin O'Donnell. I have shared his story with the Senate before. But on this day, having met with some success, I share it with you again.

Five years ago, Kevin was 31 years old. He was a young father, a husband of a lovely woman, and in perfect health. He took his daughter skiing one day and upon returning home felt a pain in his leg. It continued over a period of time, bothering him, so he went to visit the doctor. You can only imagine the shock when this perfectly healthy young man—father of this little girl—discovered he had been stricken with ALS, known to most of us as Lou Gehrig's disease.

Since that day, Kevin O'Donnell's wife and daughter have watched the life flow out of his body. Going from a healthy young man, they watched him lose control of his legs and arms, the

ability to speak, and even the ability to breathe. Life simply evaporated from Kevin O'Donnell's body.

When he came in to see me those years ago, he had a very simple request—so logical I could not conceive of an argument against it. While he was waiting to die, not only was his life leaving him but the financial security of his family. Nursing care, medical assistance, things to ease the pain, to maintain some dignity in life, to provide relief for his wife and his family, were costing thousands of dollars.

But under the rules of Medicare, he could not begin to receive any assistance for 2 years. The life expectancy for 90 percent of ALS sufferers is only 3 years, 4 years. Most of the people who have ALS do not live beyond the waiting period in Medicare to get help. This never could have been anticipated. It never could have been even imagined by people in Medicare when these regulations were written. And because there is no other disease quite like it, the regulations have never been changed.

A person can have heart disease or cancer, and they may be at great risk, but they can live 2 years. With the right treatment, they can live 5, 10, 20 years; at least the chances are always good. With ALS, the outcome of the disease is nearly certain that the life expectancy is not long and most will not live to ever see their first dollar of Government help.

I brought this cause to many of my colleagues in the Congress. There are 28 Members in the Senate—16 Democrats and 12 Republicans—and over 280 Democrats and Republicans in the House of Representatives who have joined in this effort to help those people around the country who are stricken with Lou Gehrig's disease.

Today, I rise to thank Senator LOTT and Speaker HASTERT for their generous help, and Congressman GEPHARDT, Senator DASCHLE, Senator BYRD, Senator REID—the bipartisan leadership—for offering some help to those who suffer from this disease in this country.

But most importantly, I am also very indebted to President Clinton, who made this a critical priority in budget negotiations. Specifically, I thank members of the White House staff, Chris Jennings and Rich Tarplin, who, under the President's direction, fought to give some help to these Lou Gehrig's disease patients.

I have spoken on this floor many times about this cause. For me, this was a victory that was going to be won before this session of Congress ended—no matter what.

When I began this effort some years ago, I stood outside the Senate Chamber with people in wheelchairs, stricken with ALS, in a variety of conditions. As I stand here today to declare victory, I am mindful of the fact that most of those who stood with me when this effort began are now deceased. With their own lives, they proved the

importance of the legislation. They said they could not live the 2 years to ever receive the Medicare assistance to help ease the financial burden on their families. Most of them proved it with their lives.

Today, the CBO estimates that there are 17,000 ALS patients waiting to become eligible for Medicare. With the passage of this bill, their wait will end, and with it the anguish of calculating how to afford the \$250,000 in annual medical bills while they are also dealing with the anguish of their disease.

For me, it is the end of a long fight, where I can tell Kevin O'Donnell: You began it, you fought it, and we won. And in your victory comes relief for 17,000 people just like you.

To all my colleagues who have helped, I give you my most sincere thanks and leave you with the words of former President Thomas Jefferson, in 1809, who said about service in Government:

The care of human life and happiness . . . is the first and only legitimate object of good government.

Mr. President, there is relief for ALS patients in this bill. That is good government.

I yield the floor.

RECESS

The PRESIDING OFFICER. Under the previous order, the Senate will now stand in recess until 4 p.m.

Thereupon, at 2:43 p.m., the Senate recessed until 4:02 p.m.; whereupon, the Senate reassembled when called to order by the Presiding Officer (Mr. KYL).

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LEAHY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

RETIREMENT OF SENATOR DANIEL PATRICK MOYNIHAN

Mr. LEAHY. Mr. President, it is with great sorrow, but also great pride, that this Senate retires one of its most eloquent, learned, and successful Members—the senior Senator from New York, DANIEL PATRICK MOYNIHAN.

I have known my distinguished colleague for over two decades, admiring his compassion, his dedication, and his acumen on key issues, from environmental protection to social, racial, and economic justice for all. It has been an honor and education to have worked with him on the critical issues of eradicating poverty, elevating human rights, and promoting peace around the world. He and I have also worked to-

gether closer to home, protecting and restoring the precious waters of Lake Champlain—a glacially-carved jewel of New England that spans 120 northern miles between our neighboring states, half claimed on my side, half claimed on his.

Twenty-four years of distinguished service in the United States Senate would be a legacy in and of itself for any man. Yet my colleague, Senator MOYNIHAN, has done so much more. He served our country for a full twenty years in the Naval Reserve, with three years of active Navy duty at the end of the second World War. He has been a Fulbright Scholar and a professor of government at Harvard University. He has the unique distinction of serving in four successive Presidential administrations—the only person in American history to have ever done so. He represented our country as a distinguished Ambassador to India, a representative to the United Nations, and President of the U.N. Security Council. He has served on countless public and private sector commissions, committees, and panels, addressing issues from education to science to finance. Most recently, he chaired the Commission on Protecting and Reducing Government Secrecy—a key commission that examined our nation's secrecy laws and led to his authorship of "Secrecy: The American Experience." This book joins the seventeen other works of literature that my friend and colleague has written or edited.

What I will miss in many ways are those special times we would have when some Members would gather in the Senate dining room and a person would bring up a question of history; then we would receive a tutorial from Professor MOYNIHAN. I see my good friend, the deputy Democratic leader, on the floor, the Senator from Nevada, smiling because he knows what those were like. I recall a couple times when we had so many Democrats and Republicans crowded into the Democratic part of the dining room to hear Senator MOYNIHAN tie together something from the time of Franklin Roosevelt through Ronald Reagan, to the current time, and show what the connection was, somebody would have to call up to the Senate Chamber and explain, keep the rollcall going a bit longer; at least a quorum of the Senate has to hear the end of this story before we can come to vote.

My good friend will be missed in the Senate, but I wish him well and envy him the time he will now have to spend with his lovely wife of 44 years, Liz, his three wonderful children, and his precious grandchildren. I join the entire Senate and this Nation in wishing Senator MOYNIHAN well in his new life and commending him for his tireless dedication and service to the people of this country and our world.

The PRESIDING OFFICER. Without objection, it is so ordered.

RETIREMENT OF SENATOR BOB
KERREY

Mr. LEAHY. Mr. President, last January we were told that Senator BOB KERREY was going to retire from the Senate this year. I remember saying to him that I wished it were not so, but knowing BOB as well as I did, I understood the reasons.

BOB KERREY has been an invaluable Member of this body. He has advocated for improvements in education. He has worked in a bipartisan way to reform Medicare and has been willing to speak up about the things necessary to reform it. He has helped to improve the lives of farmers in Nebraska. And he has been a forceful voice on America's role throughout the world.

But I understand and respect his desire to fulfill those spiritual needs that are often ignored in politics and to focus more on his personal and family life. As a proud father and grandfather, I, too, want to spend time with family. So we can all respect and appreciate his decision, though we are going to miss his candor, his wit, and his strong advocacy for families and children in the Senate. I will miss one who was willing to stand up on the most explosive issues of our time and speak out forthrightly, whether popular or not.

He served this country well as a member of the elite Navy Seals in Vietnam, was Governor of Nebraska, and a U.S. Senator for two terms.

I once heard him refer to it modestly as "whatever," but the "whatever" was the Congressional Medal of Honor he earned for service in Vietnam. It is a testament to his strength in the face of adversity and intense love he has for this country. It is a call he brought with him to the Senate.

A photograph I took once sticks in my mind. It was of BOB KERREY at the Inaugural, standing—suit, tie, overcoat, hat—and around his neck was something that very few Americans ever got to wear, the Congressional Medal of Honor. It is not something about which any of us ever heard BOB brag. But it has been my experience that people who win the Congressional Medal of Honor are really never the people who do brag.

I thought that here, in these extraordinary times of our Nation's history, every 4 years the Inauguration of a President, what BOB was saying was: I am standing up as an American saying how proud we are of this democracy as we go forward with our form of government—a government and a country he risked his life to defend.

What has he accomplished at this short time? Vice chairman of the Senate Select Committee on Intelligence where he protected and defended our national security interests and fought for issues from encryption to better intelligence. As cochairman of the IRS restructuring committee, BOB spearheaded reform legislation designed to improve the relationships between taxpayers and the IRS, something that affects every single American. On the

Agriculture Committee, he and I fought hard to protect family farmers in our Nation. Even if we had regional differences which might divide us, his advocacy was always so strong, you had to listen.

His next move is north, actually getting a little closer to my home, where he is going to become president of the New School University in New York. The New School has a reputation for intellectual freedom and innovation, the belief that education can be used as a tool to produce positive changes in society. There cannot be a better leader for the New School. This really is a case where the Senate's loss is the New School's gain.

I first met BOB KERREY when he was running for the Senate and I went out to Nebraska as chairman of the Senate Agriculture Committee to campaign for him along with the Senator from Nebraska, Mr. Jim Exon. When we went out—BOB KERREY probably won't mind me mentioning this—we were using Willie Nelson's airplane. BOB KERREY was the former Governor of Nebraska, extremely popular, well known, running for the U.S. Senate; Jim Exon, then the senior Senator of Nebraska, former Governor; and of course in farm country, I was there wearing my hat as chairman of the Senate Agriculture Committee.

We flew up to a small town in Nebraska in Willie Nelson's airplane. The tail insignia was well known. When we got off that airplane, a huge crowd was gathered. We thought: Boy, this is it: Former Governor KERREY, Senator Jim Exon, Chairman PATRICK LEAHY. Man, no wonder they turned out.

As we got off the plane, they kept looking and kept looking, until finally it was obvious we were all off the plane. There was a look of disappointment in the crowd. Finally, somebody expressed the disappointment: Where's Willie Nelson? I thought you guys had Willie Nelson with you.

But, notwithstanding the fact that I was partially responsible for disappointing the crowd, BOB KERREY's abilities and brilliance were so well known in Nebraska that he survived my campaigning for him and he won that seat resoundingly and served his second term. We have been friends ever since.

I admire him as I have admired few people in my public career. I hate to see him go.

As I said, I was saddened to learn that BOB KERREY was retiring from the Senate this year. BOB KERREY has been an invaluable Member of this body, advocating for improvements in education, working to reform Medicare, and helping to improve the lives of farmers in Nebraska. But I understand and respect his desire to fulfill spiritual needs that are often ignored in politics and to focus more on his personal and family life. As a proud father and grandfather, I know what it's like to long to spend time with family. We can all respect and appreciate his deci-

sion, though we will miss his candor, his wit, and his strong advocacy for families and children in the Senate.

BOB KERREY has served his country well as a member of the elite Navy SEALs in Vietnam, as Governor of Nebraska, and as a United States Senator for two terms. Though I once heard him refer to it modestly as "whatever," the Congressional Medal of Honor he earned for service in Vietnam is a testament to his strength in the face of adversity and an intense love for this country, qualities he has brought with him to the Senate.

In this body, he has accomplished a great deal in a short time. As the vice chairman of the Senate Select Committee on Intelligence, BOB continued to protect and defend our national security interests, fighting for strong encryption measures. As a co-chairman of the IRS Restructuring Committee, BOB spearheaded reform legislation designed to improve the relationship between taxpayers and the IRS. On the Agriculture Committee, BOB and I fought hard together to protect family farmers in our Nation. Though regional differences sometimes divided us, I respected BOB's strong advocacy for farmers in Nebraska.

BOB's next move is north, where he will plan to become president of New School University in New York. The New School has a reputation for intellectual freedom, innovation and the belief that education can be used as a tool to produce positive changes in society. I could not think of a better leader for the New School. The Senate's loss is their gain.

SENATOR CHUCK ROBB

Mr. LEAHY. Mr. President, earlier today Senator CHUCK ROBB of Virginia spoke on this floor. I worked with him. I have admired him since he came to the Senate over 12 years ago. I talked with this former marine at the time my own son joined the Marine Corps and was touched that he always asked for progress reports on his career in the Marines.

He is only the fourth person from the State of Virginia to serve as both Governor and U.S. Senator, and he came to Washington ready to build on a distinguished career in public service. In 1961, he joined the Marines as an infantry company commander in Vietnam, saw combat, and was in harm's way time and time again. He demonstrated the kind of determination and stamina that would characterize his political career. In Vietnam, people depended on his leadership for their life, literally. He then served Virginia as Lieutenant Governor and Governor before being elected to the U.S. Senate. In fact, it is fair to say his tenure as Governor laid the basis for Virginia to become such a leader today in the high-tech industry.

During his time here in Washington, he has shown his dedication and concern for our men and women in the military, fighting for a strong defense

while advocating fiscal responsibility. He has been a proponent for improvement in our Nation's public schools, fighting for more teachers, increased school construction, and school safety. He has also been a champion against discrimination. He led the fight to end injustice to African American farmers who faced discrimination by the Agriculture Department and voted against moves to end affirmative action programs by the Federal Government. In all these things, he showed the same dedication to his country in a legislative position that he had shown to his State in his executive position as Governor, as a member of the Armed Services Committee, Foreign Relations and Finance Committees, and the Joint Economic Committee and Select Committee on Intelligence. He served this body, the Senate, so well, and in turn our whole Nation.

I think of the tough political battles he has faced. I think of the difficult votes during his time in office, how he had to balance the interests of his State with the well-being of the Nation. But I can remember so many times on this floor when a vote would come up where, politically, CHUCK ROBB could have ducked and ran and voted a different way. He did not, any more than he would have when he was in combat in Vietnam. He would stay on the floor, he would state his position, and you would see the marine; you would see the character; you would see the steel. He would stand up and do what his conscience told him was the right thing.

Mr. President, I pay tribute to a man I have worked with and admired since he came to the Senate over twelve years ago. As only the fourth person from the state of Virginia to serve as both Governor and U.S. Senator CHUCK ROBB came to Washington ready to build on a distinguished career in public service. Beginning in 1961 when he joined the Marines, and through his days as an infantry company commander in Vietnam, CHUCK ROBB demonstrated the kind of determination and stamina that would characterize his political career. He later served Virginia as Lieutenant Governor and Governor before being elected to the United States Senate.

During his time here in Washington he has shown his dedication and concern for our men and women in the military, fighting for a strong defense while advocating fiscal responsibility. He has been a proponent for improving our nation's public schools, fighting for more teachers, increased school construction and school safety. He has also been a champion in the battle to end discrimination. He led the fight to bring justice to African American farmers who had faced discrimination by the Agriculture Department, and he voted against a move to end affirmative action programs by the federal government. As a member of the Armed Services Committee, Foreign Relations, Finance Committee, the

Joint Economic Committee and the Select Committee on Intelligence he has served the Senate well.

Senator ROBB has faced several tough political battles and cast many difficult votes during his time in office—all the while he has been determined to balance the interests of his state with the well-being of the nation.

It has been an honor and privilege to work with him over the last years. I know he is going to be sorely missed by our colleagues in the Senate.

I will miss having the chance to get advice and encouragement from him on the Senate floor, but I know I will still have that available to me throughout the remaining years of my Senate career.

Mr. President, what is the parliamentary situation now, as we go down to these waning hours and we hear the choral group downstairs practicing Christmas carols?

The PRESIDING OFFICER. I would like to advise the Senator from Vermont that earlier the Senate had been conducting morning business. That order has expired.

Mr. LEAHY. Is my understanding correct, though, that I am still able to maintain the floor without slowing down the vital business of the Senate?

The PRESIDING OFFICER. The Senator is correct.

Mr. LEAHY. Am I also correct there is no particular vital business pending at the moment?

The PRESIDING OFFICER. At the moment, the Senator is correct.

WRAPPING UP THE SESSION

Mr. LEAHY. Mr. President, you know I think the world of all my colleagues. The distinguished Chair right now is one of my best friends in the Senate and one who deserves congratulations on—actually, they didn't have to have an election in his State; he wins by so much. I love being with him, as I do my dear friend from Nevada, the deputy Democratic whip. But I hope that neither of my colleagues takes it at all personally when I say I would probably rather be at home with my family at this time of the year. But then I suspect they would, too. I hope this means we are soon to wrap things up, possibly this evening or Sunday or Monday or sometime. We seem to be in a situation where wrapping up the session is like wrapping up the Presidential election this year. I am beginning to feel a little bit like a hanging chad of some sort.

I thought of some of the other terms that have been used, but I am afraid sometime somebody might pull that out of context and I will be reminded that I will not be forgiven for what I may say because of my Irish nature.

Let us hope we can wrap it up. I say that also for the sake of the President-elect and the leadership, both Republican and Democrat, in the Senate. All of us have a lot of work to do before January 3 when the Senate comes back

into session with a number of new Senators and in a unique situation of a 50-50 Senate.

Governor Bush and former Secretary Cheney need time to work with the Republicans in the Senate and the House as they put together their administration. Of course, I hope and expect they will also be in contact with those of us on this side of the aisle. There is a lot facing this Nation, and we have to work on that.

VISIT TO IRELAND

I was privileged this week to spend 48 hours out of the country with some other Members of the Senate and the House accompanying President Clinton on a visit to the Republic of Ireland and Northern Ireland. It was remarkable to see how people reacted to the President. He was accompanied by one of our Senators-elect, in this case the Senator-elect from New York, HILLARY RODHAM CLINTON, although I think she was there more in her capacity as First Lady.

It was interesting to see the reaction of the people in Ireland, both in the Republic and in Northern Ireland, both in the Catholic community and the Protestant community. The President was greeted as he should be, as a hero in Ireland because more than any President perhaps since John Fitzgerald Kennedy, he has shown a real interest in Ireland.

He has become personally and intimately involved in trying to stop the sectarian damage, carnage, killings, and murders in Northern Ireland. He sent our distinguished former colleague and former majority leader of the Senate, George Mitchell, on countless trips to Northern Ireland helping to broker the peace agreement which became known as the Good Friday accords.

Whether it was standing in the small town on the northern border of the Republic of Ireland, bordering Northern Ireland, a town of just a few thousand people but where 50,000 to 60,000 people from the whole area came and stood in the cold, the rain, and the fog for hour after hour waiting for the President and those accompanying him to arrive, and then giving him a hero's welcome and not wanting him to leave.

I saw the faces of those people. I saw the children who looked out to him with hope in their eyes. I saw the older people who said he sought to bring prosperity to this area because he helped us stop the fighting that goes back and forth across the border. He has brought hope for our children and grandchildren.

I saw the same thing in Northern Ireland in Belfast the next day where those who had been sworn enemies a few years ago were joining in meetings with the President, encouraging him to stay involved and asking him to please come back even after his Presidency. It had to be an emotional time for President Clinton, but it was very much for the people there.

I talked with several who again told me he brought hope for them and

brought an understanding that their children could live in a world they had not known, a world where they could go to school, where they would not be defined by their religion but defined by who they are.

What an improvement that was and how grateful I am for the opportunity to have been there, not just as an Irish American but one who holds deeply our sense of freedom, our sense of democracy, and our sense that people do not get excluded because of their religious faith or their ethnic background or who their parents were but are included because they are human beings and because they have intrinsic worth.

RETIREMENT OF SENATOR RICHARD H. BRYAN

Mr. LEAHY. Mr. President, with my dear friend from Nevada, Senator REID, on the floor, I want to talk about his colleague, also my friend, RICHARD BRYAN, who announced his plans to retire from the Senate. When he did, he said very simply and earnestly: It's time to come home.

I have known DICK and Bonnie BRYAN since they came here. I say DICK and Bonnie BRYAN because, like Marcelle and me, we think of them as one person because usually at events outside work, when you see one you see the other. In fact, that is what I cherish about both my colleagues from Nevada. I cherish their family life.

DICK said it is time to go home, and I am disappointed to learn we are going to lose a good humored and skillful colleague. As a Vermonter, I have to empathize with that deep-rooted impulse to go home. Everything DICK BRYAN has accomplished here paves the way for his return to a better Nevada, something all of us hope for because all of us will leave this body at one time or another.

Most of the time, the strength of our Nation stood resolutely with the welfare of Nevada in Senator BRYAN's mind. As Democratic cochair of the Senate National Guard Caucus, he blocked unwise and unjustifiable cuts in our citizen-soldier force. He brought us together so the Guard's voice could be heard, and his persistence has positioned this invaluable force to prepare for the new, continually emerging strategic landscape. Under his watch, Nellis Air Force Base became a national treasure, where our best, most skilled pilots mastered the art of war so that our country would never have to call on them for the real thing.

Senator BRYAN guaranteed the credibility of the institution of the Senate. I think of the Senate as being the conscience of the Nation, and we should be the guardians of it. Those who abused the public's trust and the powers of office, as Senators knew they would, received intense scrutiny when Senator BRYAN chaired the Ethics Committee in 1993 and 1994. None of us will forget his calm and dexterous handling of numerous sensitive investigations, some-

thing he could do because he was trusted by both Republicans and Democrats to do the right thing.

It had to be one of the most difficult times, requiring arduous work by any Senator, but never once did any of us hear Senator BRYAN complain about the difficult task, nor did he swerve from the steady course toward fairness and justice.

Indeed, in so many areas, RICHARD BRYAN made a difference whether in preserving the fragile desert environment or modernizing our commercial aviation system. The list is long, and if he stayed, he would have accomplished even more.

Senator BRYAN has made a choice that deserves only accolades and respect. He is going home, and Nevada is a fortunate State for it. It is also fortunate that he has left his partner, HARRY REID, here to carry on his battles. My wife Marcelle and I wish DICK and his wife Bonnie all the best, but I am going to miss some of our late night conversations and some of the humor and good will he has shown to all Senators.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LOTT. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF BUSINESS

Mr. LOTT. Mr. President, I have just spoken to Senator DASCHLE. We have been communicating with our colleagues on the other side of the Capitol. I understand the Senate will shortly receive from the House the appropriations bill containing the final appropriations measures, and we hope to have some agreement on how to proceed shortly.

We will notify Senators and hotline that information. Once Senator DASCHLE arrives on the floor, hopefully we can move forward with that. In the meantime, there are just a couple of bits of information for our colleagues about the remainder of this session and the dates for activities we will have next year.

Of course, we hope to have the sine die adjournment resolution here shortly.

Senator DASCHLE and I jointly will have resolutions thanking the officers of the Senate, the staff of the Senate who do just a magnificent job on our behalf and on behalf of the American people quite often during long and weird hours. They really do a magnificent job, and we thank all of them for what they do.

Also, I see Senator REID is here, the assistant Democratic leader. He has really made a difference since he has been in his leadership position. He is

always calm and always diligent. He works on both sides of the aisle. I want to acknowledge that and thank him for all of his work. I will not overdo it now because I don't want to get him into trouble as we approach the last few minutes of the session.

I want to inform the Members of some important dates and events of interest concerning the beginning of the 107th Congress. I see Senator DASCHLE is here. He can communicate with the staff. I will run over these dates quickly, and then we can visit.

Of course, at 12 noon on Wednesday, January 3, the 107th Congress will convene with an immediate live quorum, to be followed by the swearing-in ceremonies for the newly elected Senators.

I want to emphasize that. That is on January 3. It is at 12 noon. There will be a live quorum, and all Senators are required by law, if they want to be sworn in and receive pay, to be here for that occasion.

On Saturday, January 6, the Senate will proceed as a body to the Hall of the House of Representatives for the official counting of the electoral college votes.

The Senate has passed a resolution that would move that to January 5, which would be a Friday, instead of Saturday, January 6. The House has not yet passed that resolution. But they have indicated that they may pass a resolution changing the date to Friday, January 5, for the counting of the electoral college votes. We will let all of our colleagues know exactly about that.

I believe we are required to proceed at 1 p.m. on either Friday, January 5, or, as it now stands, January 6. We will make that clear later on. Senators will be notified if there is a date change, if and when it is confirmed.

Of course, Inauguration of the 43rd President of the United States will occur at 12 noon on Saturday, January 20.

Furthermore, because a Senate committee is a continuing body, committees may begin working on committee nominations on January 5 or 6. Senator DASCHLE and I will be working on that. But there is the possibility, between January 3 and the Inauguration, that there could be some committee hearings on nominations. We will have to work through that. Of course, it will depend on the receipt of those nominations once the investigations have been completed. We will work through what committees and how that will be handled. Members who might be involved will be notified as early as possible, and hopefully that will be even before the end of the year.

Votes on confirmations may take place even on Saturday, January 20. I believe that has been the case in the past—if not January 20, certainly beginning on Monday, January 22. We will want to move forward very quickly on actually confirming the nominations. Senators will be further notified on January 3.

Regarding the Cabinet nominations schedule, when we receive those nominations, again we will work together on what that schedule may be.

Again, I want to thank the Senate of officers, Senators, and leadership on both sides of the aisle for what I believe has been a very productive session and for the dedication of Senators to the American people.

I see Senator DASCHLE is here. We have some resolutions we can do if we have a break here in a moment. Then we will have some that we want to do at the very end of the session.

At this point, I yield the floor if Senator LAUTENBERG wishes to make any comments.

The PRESIDING OFFICER. The Senator from New Jersey.

Mr. LAUTENBERG. Mr. President, I thank the majority leader and the Chair for recognition.

SERVING IN THE SENATE

Mr. LAUTENBERG. Mr. President, I want to be sure before I go into my remarks that neither of the leaders, the majority leader or the Democratic leader, is waiting for some floor time for some special things they want to go ahead with because I hope not to cover every day of the 18 years I have served here.

But I do want to make some remarks about this moment in time—a moment that I have kind of looked at with some amount of trepidation because this is the end for me, at the bottom of the ninth inning, and we have a couple of things to do before it is pretty much all over.

I am probably speaking now for the last time in the U.S. Senate. After 18 years as a Member of this institution, some time ago I made a reluctant decision to step down—not to try again after three terms. And, to be perfectly honest, there are those moments when I look at that decision not to run for a fourth term with considerable regret. This has been an incredible experience—an experience that so few ever get to have and such a worthwhile thing to do.

While my friends, the Democratic leader and the Democratic whip, are on the floor, I want to express to each one of them how deep my appreciation is for the cooperation and the ability to work together on issues of concern—not just for my State but for the country at large—and how helpful Senator DASCHLE, our leader, has been; and my good friend HARRY REID from Nevada, the only State that really competes with New Jersey in the hospitality of the gaming industry. I hope we will continue to do more business than Nevada.

In all seriousness, these are States that have a certain kinship that is not always easy to recognize because our coast is far larger than their coast, and sometimes we differ on issues but never on intent.

This is a job that has been the highlight of my life, next to my family—my

children, my grandchildren, eight of them; the oldest is seven. I want to make sure they understood what their grandfather did when he was spending time in Washington. They are too young to really know what the job is about. But they know who the President of the United States is. Some of them knew because the oldest one is seven. There are eight of them, obviously, and one is just 2 months old. The little one could not understand what I have done. I was lucky and brought all of them down for Father's Day. I was able to take them to the White House and take some pictures with the President. They will look at these pictures one day and say, OK, that is where our grandfather spent his time when we didn't see much of him. I hope they will feel the same kind of pride and love for country as I do.

This job, one of some 1,850 people who ever served in the Senate, is such an honor to have. It is such an exciting place to be. I look at my desk now as a reminder of why I had this desk moved as my seniority improved from the far corner next to where it is now. I brought it with me wherever I went. It was a fairly easy task. I don't want the citizens to think I had people put to work for little reason; just a couple of screws lift out of the floor and we move it over here.

When I think of my parents and what this country meant to my grandparents when they brought my parents as little children to these shores, I open the desk. As everyone here knows but the public probably doesn't, there is something one could call "graffiti" in these desks—a signature, a carving, a writing in indelible ink that gives a name and the State that the individual represented. I never got discouraged about this job, but anytime I needed a little stimulation about how important the work we were doing was outside of the legislative routine, I looked in this desk and I seen "Truman, Missouri." Harry Truman sat at this desk when he served in the Senate. It is such an honor for me to be able to fill the seat, not the shoes, as they say.

Every day I came to work here was a privilege, even when the day didn't turn out as one expected. The people of New Jersey sent me here to accomplish things that affected their lives and their families, and it is not easy to relinquish those duties. I hope they will believe that FRANK LAUTENBERG served them honestly and diligently. I will leave it to them to mark the report card to see how we did.

My service was a way for me to give something back. I had a successful business career, and I spent 30 years doing that, but there was something more that was needed as far as my life was concerned. I am so grateful my grandparents, in their wisdom in the earliest part of the last century, decided to pack up bag and baggage—they didn't have much baggage, I can tell you that; all they had was the spirit and desire to live free—and come to

this country, my mother a year old from Russia, and my father 6 years old from Poland. They believed so much in America. They were so sensitive about things. For my grandparents, whose native tongues were reflective of the country they came from, anything but English was almost prohibited in the house. They wanted to talk English. They wanted to speak the language that their friends and their neighbors believed should be used as Americans. Now we understand people can live in multiple cultures and continue to treasure the language that they or their parents had before they came to America. In those days, any indication they could get that they were truly Americans meant so much.

So they came and worked hard, with no education. My father went to the sixth grade only; he had to help his parents. But they never dreamed their children would have the opportunities that were so robust and so fulfilling.

I spent 30 years in the computer business, running a company called ADP, Automatic Data Processing. The company started with two boyhood friends of mine. We started without any money of our own, without any outside financing. The company today has 33,000 people and is one of America's best performing companies in terms of its products and the stock market's response.

I got there because this government was there to render service to our people. The one thing that bothers me when we get into political campaigns and speeches are made on the stump and people talk about the government and how small it ought to be and why it is too big and the loaded bureaucracies, I can't stand it. Honest to goodness, I work with the people who populate this place day in and day out—not the Senators exclusively but those who work here on both sides, Democrat and Republican. I see how diligent they are in trying to get their day's work done and how committed they are in the service of the people. I respect them. Of course, those whom I have gotten to know in my office, I love them as well. One develops a respect and almost a reverence for people who will come in and go to work at 8 o'clock or 9 o'clock in the morning and stay; if we stay until 2 o'clock in the morning, they stay until 2 o'clock in the morning. For many years, until very recently, there was never any compensation for overtime; that was considered part of the job. For those in the management of the office, and the leadership position among the staff, there is still nothing like overtime. They do it because they feel the responsibility. It has made an enormous difference in the way we conduct ourselves.

Mr. President, the bottom line view that I bring is one that has developed as a result of the opportunities that were afforded me. I know I probably have said it too many times, but I ask my colleagues to indulge me once again when I talk about my family.

My father died a very young man, at age 43. I had enlisted in the Army and

was given the benefit of the GI bill. The GI bill made the difference in my life, enabling me to use the knowledge and programs I studied and learned to start a business that became an industry. It is the computing industry, as contrasted to the computer industry, the hardware industry. To me it was a great example of the way government can empower individuals and families to improve their lives.

It is a lesson I will never forget. The education I got through the GI bill set the foundation for me to build that business. When I look at what happened with ADP and the number of people it has put together, 33,000 employees, processing paychecks for 33 million people across our country and others.

When I was finishing my 30th year in business, I thought there were other things I ought to try to do to help pay back what I thought was a unique opportunity. I wanted to make sure that it continued to exist for others, as well. I came to the Senate. I ran in 1982 and was elected then. I brought what was a fairly unique perspective because there weren't, at that time, as there are now, so many businesspeople who came from not having had an elective office experience but came in fresh from the business to the Senate.

When I got here, my goals were to try again to permit people to think independently, to make sure that the rights and the freedoms we enjoyed would be protected, to make sure there would be an opportunity for those who could learn without having, necessarily, the financing to do it. That is what the GI bill taught me. It has been my hope that people would understand that these opportunities must continue to exist. That is why we have these discussions about investing in education, making sure children have the appropriate nutrition, and that people can count on getting their health protected when they have a problem, or at least making certain as they grow and mature that they know they don't have to worry about an illness wiping out not only their assets but also demolishing their health.

Just so everybody knows, I am going to take some time here. Therefore, it may take a little time for me to do the whole story. I see the majority leader either looking at me so anxious to hear the whole story that he wanted to ask me what it was.

Mr. LOTT. Mr. President, if the distinguished Senator from New Jersey would yield, perhaps that is a good point. Yes, I would like to hear the story uninterrupted. If the Senator would allow us to do a little bit of leadership business—one of which, or both of which I know the Senator would be very interested in—I ask, with the agreement of the Senator from New Jersey, that his statement appear in the RECORD as if uninterrupted, and the exchange with Senator DASCHLE, our colloquy, appear after his remarks.

Mr. LAUTENBERG. I am happy to cooperate because I have a sense that

the subject to be included in their remarks is one with which I have intense fascination.

I am happy to yield to the distinguished leaders.

The PRESIDING OFFICER. Is it the majority leader's intention the Senator from New Jersey will hold the floor, following the business?

Mr. LOTT. That would be my request.

The PRESIDING OFFICER. Yes.

Mr. LOTT. I yield to Senator DASCHLE.

THE OMNIBUS APPROPRIATIONS BILL

The PRESIDING OFFICER. The Democratic leader.

Mr. DASCHLE. Mr. President, although there are a lot of good things in the bill we are about to debate, there is one glaring omission—legislation to provide Amtrak with the authority to issue tax credit bonds for capital improvements. This bonding authority is critical to Amtrak's future and to the economic health of the northeast and many other areas of the country.

I have discussed this issue with members of my caucus. We had a very spirited discussion in our caucus this morning, and I know how strongly they support Amtrak and this legislation. We are very disappointed this provision was not included in this otherwise praiseworthy legislation. Amtrak supporters will not give up on passing it. In order to help them secure enactment of this important measure next year, the majority leader and I have discussed and agreed on how best to proceed. I yield the floor to allow the majority leader to describe what that understanding is at this time.

The PRESIDING OFFICER. The majority leader.

Mr. LOTT. Mr. President, I thank the Democratic leader for his fine work on this issue. I know there is a lot of passion, a lot of support for Amtrak. But let me remind my colleagues, I am one of those supporters. I have been an active supporter of the national rail passenger system and was very much involved a couple of years ago when we passed the Amtrak legislation. I had some strong opposition on our side of the aisle. I think we need it.

Now, I must confess one of the reasons I think we need it is I want us to have good service, not just in the northeast but I also would like to have access from my own State of Mississippi to be able to get to Atlanta and Washington and Boston, and we are the beneficiaries of Amtrak service. I think we have to do it. I have pledged if it can't run efficiently, if it cannot run without going into debt, at some point we may want to say we just can't do that and decide what is going to be the successor program.

But I also think it is guaranteed and doomed to failure if we don't give it an opportunity to succeed. If you don't have modern equipment, if you don't

have the new fast trains, if you don't have a rapid rail system, it will not work.

So I support this legislation. I want to commit to our colleagues here that I will join with Senator DASCHLE in cosponsoring this legislation next year. We will work together to get the appropriate hearings in the Finance Committee and hopefully in the Commerce Committee, too—even though this bill is under the Finance subcommittee jurisdiction because of the tax aspects of it—but the Amtrak part of it, of course, would fall under Commerce. I am on both committees and Senator DASCHLE will probably be on the Finance Committee, too. We will work with the ranking member and the chairman to get hearings and move this legislation.

I cannot guarantee we will have the votes or that it will not be filibustered or that we can break a filibuster, but I think it is the right thing to do. I might just add, the chairman of the Amtrak board, Governor Tommy Thompson of Wisconsin, has been very actively involved. He supports this legislation. He has called me personally about this legislation. He really cares about it.

When we talk about bipartisanship, transportation is an issue on which we have been able to work together in a bipartisan way, whether it is roads, AIR-21, TEA-21, Amtrak, rapid rail system. We can do it again.

Maybe we can improve on this bill. We talked about that in an exchange yesterday. Maybe there are some things we can do, some tweaks that would make it better and resolve some of the concerns. And we will try to do that. I am prepared to make that commitment. I believe we can do it early next year. I am not talking about having it languish; I am trying to get movement on it in the first 3 months, 6 months of the session, so those who have reservations can offer amendments and we will vote on them. Hopefully, we can get it done, and I commit to do that.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. BYRD. Mr. President, I have long been a supporter of Amtrak. I was chairman of the Appropriations Subcommittee on Transportation before my friend, Mr. LAUTENBERG, swore to support and defend the Constitution of the United States against all enemies of the United States, foreign and domestic. I was for it then. I am for it now. We had some problems in connection with putting this measure into this bill. I don't need to go into those problems here.

But I want to assure Mr. BIDEN and I want to assure Mr. LAUTENBERG, and assure both leaders, that I will do anything I can next year to support this legislation. I am a cosponsor of the bill, and I will do my best to help enact it at the earliest possible date in the coming Congress. Like the distinguished majority leader, I can't guarantee anything except that I will do

my best to be helpful. Certainly on the Appropriations Committee, if there is an appropriations item, as always, I will support it. Amtrak comes to West Virginia. It comes 3 days a week. I wish it came more often.

But I support Amtrak as much as anybody in this Chamber. We don't have large airports in West Virginia; all we have is highways. We certainly are grateful for and certainly very supportive of the limited amount of rail transportation we have. We used to have the Hilltopper; we used to have the Mountaineer in West Virginia. I have been a supporter of the Cardinal longer than I can remember.

So Senators may be reassured that I shall do everything I can within my power next year to be helpful.

The principal cosponsors, Mr. LAUTENBERG and Mr. BIDEN, made a strong case for the importance of this vital legislation. It will be a central part of our efforts to ensure that our Amtrak system not only is maintained but is also able to make necessary improvements in the future to ensure its continued success.

I thank all Senators.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Mr. President, I have been here, not as many years by far as most everyone on this floor right now, but it is not often that you see the two leaders and our longtime leader Senator BYRD, stand and say they will support a piece of legislation. I have never seen it happen before. I think this is to show the intensity of the feelings of the people who support this legislation, led by Senator JOE BIDEN. So I am really pleased it appears at this stage that the three leaders, Senator LOTT, Senator DASCHLE, and Senator BYRD, have agreed to do this.

I was at lunch today with Senator HOLLINGS, who is the ranking Democrat on the committee of jurisdiction that may have something to do with this, the Commerce Committee. He said he will do everything he can to move this matter along. I know I will. Senator SPECTER, on the other side of the aisle, said he would do anything possible to move this along. This is a rare occasion in the Senate that you see this much support for a piece of legislation.

Mr. LOTT. Mr. President, if I could ask my colleagues to defer just a moment, Senator DASCHLE and I would like to get one more unanimous consent agreement in. Then I would like to yield to the Senators who are on their feet.

Mr. LAUTENBERG. Mr. President, may I, with all due respect, remind the majority leader and the President that I yielded time based on the fact that I would recover the floor.

Mr. LOTT. There is no question about it. I thought perhaps the Senator would want to comment, too, on what has just transpired. But I do want to include in the RECORD the fact that Senator STEVENS also has assured our

colleagues, and has reminded me again, he also commits, as chairman of the Appropriations Committee, his continued support for Amtrak.

Mr. LAUTENBERG. I thank the majority leader.

UNANIMOUS CONSENT AGREEMENT

Mr. LOTT. With that, I do understand the Senate will shortly receive from the House the appropriations bill containing the final appropriations measures. I ask unanimous consent that notwithstanding receipt of the papers, the Senate proceed to vote immediately on adoption of the conference report and, following passage, there be 40 minutes of explanation to be equally divided between the two leaders, with 20 minutes additional under the control of Senator BYRD, 45 minutes under the control of Senator GRAHAM of Florida, and 10 minutes of Senator LOTT's time to be controlled by Senator SPECTER.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. BIDEN. Mr. President, I want to, before the majority leader leaves the floor, thank him.

Mr. LOTT. Mr. President, if I could confirm, the unanimous consent was agreed to?

Mr. DASCHLE. Reserving the right to object.

The PRESIDING OFFICER. No objection was heard. I recognized the Senator from Delaware thinking he wished to object.

Is there objection?

Mr. BIDEN. No, I beg your pardon, I do not wish to object or seek recognition.

The PRESIDING OFFICER. Under parliamentary procedure, the Senator from New Jersey has the floor. He yielded it to the majority leader and the Democratic leader for the conduct of certain items of business. Following that point, Senators seeking to speak will have to receive the approval or approbation of the Senator from New Jersey.

Mr. BIDEN. Mr. President, I ask the Senator to yield me a very brief time.

Mr. LAUTENBERG. Mr. President, I thank the Chair for that recollection. I will be happy to yield to our friend from Delaware.

Mr. BIDEN. Before the majority leader leaves the floor, I want to personally thank him. I want to thank the minority leader, the Democratic leader, and I guess most of all I want to thank Senator BYRD and Senator STEVENS as well.

I have been here for 28 years. I have never once come to the floor to threaten to engage in an extended debate on a matter. I did that this morning in our caucus. I am not suggesting my colleagues responded because I did that. I am suggesting that I believed my colleagues who are on their feet felt extremely strongly about what was about to happen; that is, Amtrak cannot make it through the year 2001 and

meet the obligation that has been imposed upon it without being brought up to speed, figuratively and literally, in terms of equipment, track, and the like.

When this proposal that had 56 cosponsors and passed in another vehicle with 60-some votes and with 260-some votes in the House was not going to be included in this omnibus bill, I must tell my colleagues, I was very upset.

In light of the fact that the leadership of the Appropriations Committee of the Senate as a whole and of the Commerce Committee, at least on one side of the Commerce Committee, have indicated to me they will introduce and move rapidly, as best they can, funding for Amtrak—I will not take the time to go into what it all does and what it means—then that is good enough for me. I will withdraw any attempt to delay consideration of this final bill.

Also, I know Senator MOYNIHAN and Senator LAUTENBERG are leaving. Senator LAUTENBERG has been Mr. Amtrak. Senator LAUTENBERG, since he has been here, in large part because of his disposition and in no small part because of the particular position of authority he occupied on the Appropriations Committee, has been—I ride a train every day and people say to me: You know, JOE, thanks for defending Amtrak.

I say: No, don't thank me, call Senator LAUTENBERG. I literally say that because it is true.

Also on the floor is a Senator who is Mr. Transportation. He has given us all a lesson, as only he can, for the past 18 years on the necessity of Amtrak not merely in the Northeast corridor, but there is no alternative in this Nation to not have a mass transit interstate system.

I want everybody to understand—again, I will put something in the RECORD; I won't take the time now—this is not just parochially important to the Senators from Delaware, New Jersey, Vermont, Massachusetts, all of whom are on the floor. This is important to Florida; it is important to the Southeast corridor; it is important to Oregon, Washington, Nevada. This is the only alternative we have.

It seems to me, after discussion with the men I have named today—the distinguished Senator from West Virginia, the Senator from Mississippi, the Senator from North Dakota, and others—that we are all singing from the same hymnal now. There seems to be for the first time in my recollection, I say to my friend from New York who is standing, a genuine acknowledgment that there is no transportation scheme in America that will serve America without a major component of it being a rapid transit interstate system for passengers.

I am looking forward to this being the first bipartisan effort next year. I sincerely hope the incoming President will understand our regional needs.

I conclude by saying I thought federalism was about one section of the

Nation helping other sections of the Nation that, in fact, had needs but needed additional assistance. There would be no water flowing in Arizona were it not for the people of Massachusetts, the people of New York, the people of New Jersey, Delaware, and other States subsidizing that water extensively to the tune of probably somewhere above \$16 billion over time, and we should do that.

Mr. MOYNIHAN. The Arizona project.

Mr. BIDEN. We should do that. I get the feeling—maybe because it is the Christmas season and I want to believe it—there is a growing recognition that rail service in our neck of the woods, as well as other parts of the country, are as essential to our interests as water is to the far west. It is as essential.

I thank my colleagues for their commitment and absolutely close by saying to Senator BYRD that I appreciate the fact that he understands, maybe better than anyone in this place, when another colleague cares about an issue that he believes is absolutely indispensable for his region. I thank him for acknowledging that.

I thank him for his—it is no new commitment; he has always been committed to Amtrak—acknowledgment of that and for his continued pledge of commitment to Amtrak. With this combination of the majority leader, the Democratic leader, the chairman of the Appropriations Committee, the ranking member of the Appropriations Committee, and the ranking member of the Commerce Committee, if we cannot get it done, then shame on us.

I thank all of my colleagues. Sorry to have taken so much time, but as my colleagues said all day, this is a big, big, big deal to me personally, to my State, and I think to the Nation.

I yield the floor.

The PRESIDING OFFICER. Under the current situation, the Senator from New Jersey has the floor. He has yielded to the majority leader and the Democratic leader to conduct business. If they are through with their business, the Senator from New Jersey is recognized.

Mr. LOTT. Mr. President, with their indulgence, we do have a couple more consent requests, plus we may need to modify the earlier agreement.

Mr. LAUTENBERG. Mr. President, I am happy to yield to the majority leader for conducting further business provided, of course, that the recognition continues. I thank the Presiding Officer for being so careful in his statement.

PROVIDING FOR SINE DIE ADJOURNMENT OF THE SECOND SESSION OF THE 106TH CONGRESS

Mr. LOTT. Mr. President, I ask unanimous consent that the Senate now proceed to the adjournment resolution calling for a sine die adjournment of the 106th Congress just received from the House.

The PRESIDING OFFICER. The clerk will report the concurrent resolution by title.

The legislative clerk read as follows:

A concurrent resolution (H. Con. Res. 446) providing for the sine die adjournment of the second session of the One Hundred Sixth Congress.

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mr. LOTT. Mr. President, I ask unanimous consent that the concurrent resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The concurrent resolution (H. Con. Res. 446) was agreed to, as follows:

H. CON. RES. 446

Resolved by the House of Representatives (the Senate concurring). That when the House adjourns on the legislative day of Friday, December 15, 2000, Saturday, December 16, 2000, or Sunday, December 17, 2000, on a motion offered pursuant to this concurrent resolution by its Majority Leader or his designee, it shall stand adjourned sine die, or until noon on the second day after Members are notified to reassemble pursuant to section 2 of this concurrent resolution; and that when the Senate adjourns on Friday, December 15, 2000, Saturday, December 16, 2000, or Sunday, December 17, 2000, on a motion offered pursuant to this concurrent resolution by its Majority Leader or his designee, it shall stand adjourned sine die, or until noon on the second day after Members are notified to reassemble pursuant to section 2 of this concurrent resolution.

SEC. 2. The Speaker of the House and the Majority Leader of the Senate, acting jointly after consultation with the Minority Leader of the House and the Minority Leader of the Senate, shall notify the Members of the House and Senate, respectively, to reassemble whenever, in their opinion, the public interest shall warrant it.

MAKING FURTHER CONTINUING APPROPRIATIONS FOR THE FISCAL YEAR 2001

Mr. LOTT. Mr. President, I ask unanimous consent that the Senate proceed to the technical continuing resolution, H.J. Res. 133.

The PRESIDING OFFICER. The clerk will report the joint resolution by title.

The legislative clerk read as follows:

A joint resolution (H.J. Res. 133) making further continuing appropriations for the fiscal year 2001, and for other purposes.

There being no objection, the Senate proceeded to consider the joint resolution.

Mr. LOTT. Mr. President, I ask unanimous consent that the resolution be read the third time and passed and the motion to reconsider be laid upon the table, all without intervening action, motion, or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The joint resolution (H.J. Res. 133) was read the third time and passed.

Mr. LOTT. Mr. President, I have one further clarification. It seems there is an objection, notwithstanding the re-

ceipt of the papers, that we have a vote and then go to debate, but we are working on an arrangement that will allow us to proceed with debate and get some certainty about how the vote will be dispensed with. We should be able to get that clarified in a few minutes. I would hate to ask the Senator to yield again in a few minutes, but in view of the importance of the issue, I might do that. For now, that is all the business Senator DASCHLE and I have.

The PRESIDING OFFICER. Under the previous order, the Senator from New Jersey has the floor.

Mr. LAUTENBERG. I thank the Chair. I yield 3 minutes to the Senator from Massachusetts, again with it understood that I retain the floor.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator from Massachusetts.

Mr. KERRY. Mr. President, I thank the Senator from New Jersey. He is very gracious in doing so. I know he wants to make some important comments that summarize his 18 years of work and commitment on this issue. He is generous to allow us to intervene.

I join in thanking the majority leader and the minority leader, Senator DASCHLE, Senator REID, particularly Senator BYRD and Senator STEVENS for responding to the request of a number of us from our region. I thank Senator BIDEN and Senator LAUTENBERG for their leadership again on this issue.

There was a lot of passion in our caucus earlier this afternoon, and the minority leader listened to all of us very carefully. Our caucus, I must say, was united in its commitment to the notion that those of us who cared about this issue needed to have some kind of response on the floor that indicated where we will go. I am grateful for this response.

The commitment on the floor openly, as it has been given, to proceed as we will proceed, particularly from the distinguished ranking member of the Appropriations Committee and the chairman, is as good a commitment as one can get in the Senate.

We have 56 sponsors of this legislation today in the Senate. With the new Senators coming in, I am absolutely confident we will have more than 60 sponsors of this legislation. I look forward to building on the legacy of Senator MOYNIHAN and Senator LAUTENBERG and completing what is absolutely essential for this country, which is a rail system of which the Nation can be proud.

I am very grateful to all those who have made this effort. I particularly say about the Senator from New Jersey and the Senator from New York, the two of them will be so missed with respect to their leadership and the vision they have expressed with respect to transportation issues as a whole, but particularly for those of us in the Northeast, what voices they have been in the Senate with respect to their vision for how we can more inexpensively and capably move people from here to

there and increase the productivity of our country. I pledge, along with my other colleagues, to build on their example and on that vision. The day will come when we will all have a better transportation network as a consequence of their leadership.

Mr. President, I know that every member of the Congress is anxious to end this session and get back to our states. We all have work to do and families waiting to celebrate the holidays. However, my colleagues Senator LAUTENBERG and Senator BIDEN are right to be angry and frustrated with this legislation.

There is a small but extremely significant item missing from this legislation—the High-Speed Rail Investment Act. The Act would allow Amtrak to sell \$10 billion in bonds over the next decade and provide tax credits to bondholders in lieu of interest payments. Amtrak would use this money to upgrade existing rail lines to high-speed rail capability. The Joint Committee on Taxation estimates that the bill would cost just \$95 million over 2 years. Over 5 years, the bill would still cost only \$762 million.

The High-Speed Rail Investment Act has 56 co-sponsors in the Senate. This is not a partisan issue. It is not a regional issue. It is not an urban issue. The High-Speed Rail Investment Act has the support of the National Governors Association, the U.S. Conference of Mayors and the National Conference of State Legislatures. Nineteen newspapers, from the New York Times and Providence Journal, to the Houston Chronicle and Seattle Post Intelligencer, have called for the enactment of this legislation.

Let me explain why so many people and organizations support this legislation:

It is in our national interest to construct a national infrastructure that is truly intermodal. Rail transportation helps alleviate the stress placed on our environment by air and highway transportation. It is a sad fact that America's rail transportation, and its lack of a national high-speed rail system, lags well behind rail transportation in most other nations—we spend less, per capita, on rail transportation than Estonia, Myanmar, and Botswana.

There is a compelling need to invest in high-speed rail. Our highways and skyways are overburdened. Intercity passenger miles have increased 80 percent since 1988, but only 5.5 percent of that has come from increased rail travel. Meanwhile, our congested skies have become even more crowded. The result, predictably, is that air travel delays are up 58 percent since 1995.

In the air travel industry, bad weather in one part of the country very often results in delays in other parts of the country. There is consumer demand for more flights. But we know that our skyways and air traffic control systems are finite and that the system is overloaded.

Amtrak ridership is on the rise. More than 22.5 million passengers rode Am-

trak in Fiscal Year 2000, a million more than the previous year. FY 2000 was the fourth consecutive year that ridership has increased. We should welcome that increased use and support it by giving Amtrak the resources it needs to provide high-quality, dependable service.

High-Speed Rail Investment Act is critical to the future of Amtrak. For half the cost of constructing the new Woodrow Wilson Bridge linking Maryland and Virginia, we can create 10 high-speed rail corridors in 28 states. For the cost of the St. Louis Airport expansion, we can improve intercity transportation in 28 states. In October we passed a \$58 billion transportation appropriations bill for this fiscal year. What we are talking about today is an additional \$95 million over the next two years, which will leverage \$2 billion in funding. This is a sound investment.

There is an alarming misconception among some members of this body and around the country that Amtrak is a money pit, where taxpayer dollars simply disappear. Nothing could be further from the truth. In fact, the federal government has invested \$380 billion in our highways and \$160 billion in airports since Amtrak was created. By contrast, the federal government has spent only \$23 billion on Amtrak. We have spent just 4 percent of our transportation budget on rail transportation in the last 30 years.

Those who criticize Amtrak for not "turning a profit" employ a double standard—a double standard that is misleading, unfair and unwise. Between 1985-1995, this country spent \$17 billion more on federal highways than it raised through the federal gas tax and highway trust fund. During the same period, the nation spent \$30 billion more on aviation expenditures than it received through the aviation trust fund. By their misguided logic, there can be only one solution: since neither of those trust funds operated at cost, we should eliminate these programs. That's nonsense. So why are we failing to adequately invest in rail transportation?

Mr. President, high-speed rail is a viable transportation alternative. There is a large and growing demand for rail service in the Northeast Corridor. Amtrak captures almost 70 percent of the business rail and air travel market between Washington and New York and 30 percent of the market share between New York and Boston. High-speed rail will undoubtedly increase that market share.

These new trains, like the Acela Express that debuted in the Northeast this year, currently run at an average of only 82 miles per hour, but with track improvements, will run at 130 miles per hour.

As a Nation, we have recognized the importance of having the very best communication system, and ours is the envy of the world. That investment is one of reasons our economy is the strongest in the world. And we should

do the same for our transportation system. It should be equally modern and must be fully intermodal. And in order to do that, we must invest in rail transportation, invest in Amtrak and be certain to include this inexpensive legislation in the last bill of the 106th Congress.

Mr. LAUTENBERG. Mr. President, before I yield, and I will continue to do so throughout the night, I say to my friends, my colleagues from Massachusetts and Delaware, that I am grateful for their comments. I am sure we will see, and I am particularly grateful to the majority leader and Democratic leader, an Amtrak bill on the floor early in the next session. I am sorry I will not be here, but in the meanwhile, I will yield to the majority leader.

Mr. LOTT. Mr. President, again I thank the Senator.

UNANIMOUS CONSENT AGREEMENT VITIATED

Mr. LOTT. Mr. President, I ask unanimous consent that the earliest unanimous consent which was agreed to with regard to the time for handling the appropriations conference report be vitiating.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS CONSENT AGREEMENT

Mr. LOTT. Mr. President, I ask unanimous consent that notwithstanding the receipt of the papers, the Senate now proceed to the debate relative to the appropriations conference report and that there be up to 40 minutes for explanation to be divided between the two leaders, with 45 additional minutes under the control of Senator GRAHAM of Florida, an additional 20 minutes under the control of Senator BYRD, and an additional 10 minutes under the control of Senator SPECTER. I further ask unanimous consent that once the Senate receives the conference report, the conference report be considered agreed to and the motion to reconsider be laid upon the table, all this immediately after the remarks of the Senator from New Jersey, Mr. LAUTENBERG.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LOTT. I thank Senator LAUTENBERG. I yield the floor.

The PRESIDING OFFICER. The Senator from New Jersey.

Mr. LAUTENBERG. Mr. President, I ask unanimous consent to yield up to 5 minutes to the Senator from New York.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMTRAK

Mr. MOYNIHAN. Mr. President, I will not require more than a few moments to thank my friend from New Jersey and express confidence in the Senators

from Massachusetts and Delaware who have just spoken, to thank the distinguished chairman of the Appropriations Committee and my revered friend, the ranking member, the Senator from West Virginia, and the majority leader.

May I say, sir—something we often lose sight of—this is a national issue and ought to be addressed by the Congress. We are the only major industrial state in the world that has not sought to recreate and revivify its rail system in the last generation.

The Committee on Environment and Public Works in the last 20 years has turned to this. In 1989, we passed the Intermodal Surface Transportation Efficiency Act, calling for just such measures—later the Transportation Efficiency Act. We created financial instruments and the possibility of investments to be involved.

We can do this. We are on the verge of it. To miss it at this moment would be to miss a moment in history for which I think we will not be happy. But I am so confident, from what I have heard today, that I leave the Senate yet more proud of having been here 24 years, thanking all—thanking particularly the Presiding Officer for his friendship and leadership in so many important matters.

I yield the floor with great satisfaction of what has just transpired. If this is the kind of mode we enter into in January, there is much to expect from the 107th.

Thanks to my friend from New Jersey.

Mr. LAUTENBERG. Mr. President, I thank the Senator from New York.

The majority leader made a private statement to me, which I will state publicly. He said, as we ready for my departure, bipartisanship is breaking out all over. And I am not quite sure how that is meant. But I yield up to 3 minutes to the Senator from Pennsylvania, with the understanding I retain the floor.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator from Pennsylvania.

Mr. SPECTER. I thank the distinguished Senator from New Jersey for yielding to me. I compliment him for his leadership on Amtrak generally and especially on this current plan for financing.

I support Amtrak and believe the proposal to provide this additional funding is very much in the national interest. I think it is a very salutary thing, as some have already commented, that we have people extending their hands across the aisle on a matter of great national importance.

The Senator from Delaware, I think, characterized the situation very aptly when he talked about federalism; and that is, one region helping another region.

There is no doubt that those of us who live in the eastern corridor—and I am a beneficiary of Amtrak. It is 1 hour and 37 civilized minutes from

Washington, DC, to 30th Street Station in Philadelphia. But it is more than my convenience; it is the infrastructure of the country.

I think this is very good for the country that we are going to be moving ahead with this legislation next year, and a very good sign for the 107th Congress that hands are being extended across the aisle to show bipartisanship. If this carries forward in the next year generally, it will be very good for the American people.

I, again, thank my colleague from New Jersey.

Mr. LAUTENBERG. I thank the Senator from Pennsylvania for not only his comments but for his help. He is someone we counted on to work so closely with us, to bring seriously a bipartisan aspect to the protection that we are looking for to make sure that Amtrak—the national goal for rail-roading all across this country—will be able to continue.

It is obvious to me, as we have listened to the comments, that unless these investments are made now, or very soon, we will be unable to fulfill the objectives of having Amtrak as a self-sufficient entity operating with its operating budget met by the revenues that it derives. The funds that we will be able to get from this proposed bond issue will enable it to make the capital investment it so desperately needs.

SERVING IN THE SENATE

Mr. LAUTENBERG. Mr. President, one of the things I wanted to do, as I tried to plan my Senate objectives, was to make sure the children of our country were as protected as they could be by legislation that we developed in the Congress.

Under Republican leadership, when President Reagan was the President in 1984—Elizabeth Dole was the Secretary of Transportation—we were able to write a bill and create a law that made the 21-year-old drinking age the minimum drinking age for serving liquor across the country. Since that time, 17,000 families have been spared the need to mourn the loss of a child.

Mr. President, 17,000 youngsters, that is enough to fill a large arena. If one looked at the number of young people who would fill that arena, you would say: My Lord, are we lucky that these children have lived and will survive to their adulthood and through their full life because we were able to restrict their access to alcohol.

Therefore, it was appropriate, toward the later days of my career, that we were able to add another item of protection by lowering the blood-alcohol level to .08, a standard which will save an additional 500 to 700 lives a year. President Clinton recently signed that into law, as well. So I am pleased with the fact we were able to get that done. My team and I worked very hard to make that happen. It took several years for it to be accomplished, but accomplished it was.

A large part of that accomplishment, I must say, was because of our distinguished friend and leader—I think they would have a reference in totalitarian governments, but I mean it in the kindest way—as a leader for life, that Senator BYRD has brought to us, not only with his knowledge, his understanding of the process, but he is virtually the historian of the Senate. The thing that has always amazed me is he can do it virtually from memory, and bring us all to our senses about how we conduct ourselves and how we process legislation. I am not only so delighted and honored to have been able to serve with him as a mentor but as a friend as well.

We learn on a continuing basis in this place that Senator BYRD is someone to whom we can always turn, not only to understand his thinking on issues, and the decisions that he provides, but also his leadership.

We saw it manifest again this day because he wanted to help us out of the dilemma with which we were struggling, to find a way to get Amtrak the strength and resources that it needs, but reminding us at this moment there were so many things in front of us that it was not the time, but nevertheless was helpful in his reassurance that he, too, would help process this early in the next Congress. I just am sorry I will not be here to see the day when that takes place.

But I am grateful for the friendship and guidance that the distinguished senior Senator from West Virginia has given me, and all of us, over these many years.

Mr. BYRD. Mr. President, will the distinguished Senator yield?

Mr. LAUTENBERG. I am happy to yield to the Senator from West Virginia.

Mr. BYRD. Mr. President, I thank the distinguished Senator for his remarks. I shall miss him. We shall all miss him. He has served on the Appropriations Committee, and served well, served as chairman of the Transportation Appropriations Subcommittee, and served well.

He has the highest interests of the Nation always at heart. He has been a very capable Senator. He is never one to forget his obligations, his responsibilities, his duties to the people who have sent him here. I have considered it to be a great honor and high privilege to serve with the Senator. I shall miss him. I am sure he will continue to serve his country in some way.

But I do hope the Senator will come back and visit with us from time to time. May the Creator of the universe, Father of all of us, watch over and guide FRANK LAUTENBERG and his family. He is so proud of his family. He often speaks of his children, his grandchildren. I know they love him. He will always be in our recollection. May heavenly angels always attend him in whatever he endeavors.

I thank the Senator.

Mr. LAUTENBERG. Mr. President, I thank the Senator from West Virginia.

All of us look to him for his guidance and wisdom.

I have said about Senator BYRD in the past that he is a model for what a computer might do, and he does it without all of the transistors and switches and chips, and all of that. If anyone doubts Senator BYRD's capacity, let them attend one of his lectures on the kings of England or the development of government in the Roman Empire. One will be astounded. I have always felt a little bit like a student when I listened to Senator BYRD. I thank him for his warm comments.

Mr. MCCAIN. Mr. President, will the Senator from New Jersey yield to me for a question of him?

Mr. LAUTENBERG. I am happy to yield to our colleague from Arizona.

Mr. MCCAIN. First of all, I thank the Senator from New Jersey for his advocacy and his strong and heartfelt support about the need for a viable railway system in the Northeast and around America. There has been no one in this body who has been more committed to that proposition than the Senator from New Jersey. I congratulate him. As I said before, we will miss him very much in this body.

I would like to make one additional comment, if I may, to the Senator from New Jersey.

We will go through a regular process next year to bring up an authorization bill for Amtrak which would then be followed by appropriations.

I objected to an appropriation this year because it was \$10 billion over 10 years stuck into an appropriations bill for which there had never been a hearing. I hope the Senator from New Jersey can understand that.

The second point is, I urge the Senator from New Jersey to consider that we have to make a fundamental choice about the national rail system in America—not just an east coast rail system but a national rail system.

There are many countries in the world, including European countries, that regularly subsidize their railway systems. I understand that. I don't dispute it. Perhaps that decision has to be made in the United States of America and in the Congress of the United States with the cooperation of the administration.

I remind the Senator from New Jersey that a few short years ago the decision was made to make Amtrak completely independent. Maybe that was not a wise decision.

Last year, Amtrak lost, I think, 900 million and some dollars, and will lose another \$900 million, or so.

I think we need to make a fundamental decision: Is it a high enough national priority?

I am not prepared to make a decision yet that the taxpayers of America should subsidize a rail system for America. I think the Senator from New Jersey would agree with me that the west coast needs one probably almost as much as the east coast does.

We need to make a fundamental decision about what the Government's role

will be in a national railway system, and then we need to decide to what degree it is subsidized.

I think a strong argument can be made by anyone who has tried to fly to Newark, or to LaGuardia, or Kennedy lately that they recognize the difficulties in relying simply on air transportation. I think an argument can be made. But I think it deserves full debate and discussion.

I thank the Senator from New Jersey. I understand his disappointment on this issue. But I would like to make a personal commitment that his spirit will live on, and we will fully examine and fully ventilate this issue and try to come up with a proposal that will satisfy the needs of his constituents and Americans all over this country. Again, I say that with profound admiration and respect for the Senator from New Jersey.

Could I make one final comment? I hope to get a recorded vote on this bill. I will be recorded as voting against it for the usual reasons, and will have a statement included in the RECORD.

I thank the Senator from New Jersey.

Mr. LAUTENBERG. Mr. President, I thank the Senator from Arizona for his laudatory comments. It is nice to hear that one will be missed. We haven't discussed the degree, but nevertheless being missed counts.

I wish to say one thing in response to the thoughtful statement of the Senator from Arizona about Amtrak and a national railroad. I am glad that he did it because I misunderstood. Frankly, perhaps it is something I thought I heard the Senator from Arizona say in times past about the fact that he would resist advancing resources to Amtrak. I think it was described in terms of a "cash guzzler," if I am correct in that recognition. But I am glad to hear the Senator from Arizona.

Let it not ever be mistaken that Senator JOHN MCCAIN and I have had some differences on the floor and off the floor, but the fact is that I believe there is mutual respect. Certainly, I respect him for his contributions to America and for his contributions to this body.

If anyone has any doubts about JOHN MCCAIN's capacity to deliver a message, one only need to look at the recent election to see that with very limited resources JOHN MCCAIN was able to influence the direction of policy that we are going to be witnessing in the next administration.

But I also hope that Senator JOHN MCCAIN, the Senator from Arizona, and the Senator from Wisconsin, Mr. FEINGOLD, will be able to accomplish something that has been lingering over this place. It is overdue. It has been talked about forever, and it has never been accomplished. The reason I made a decision to leave this body that I love dearly was because I didn't want to go out and raise that money.

The Senator from Arizona and the Senator from Wisconsin, Mr. FEINGOLD,

have done a masterful job in working inch by inch to get to the place where we examine as a proposal for the near future, I hope, how we ought to finance Senate races. I think the moment is near at hand. I hope that examination, frankly, obviously without my participation, will be taken. I will be encouraging you from the sidelines.

Mr. LOTT. Mr. President, will the Senator yield again?

Mr. LAUTENBERG. Boy, I could really carve out a few chips if I were going to remain here. I am happy to yield, provided I recover the floor.

Mr. LOTT. I thank the Senator.

EXECUTIVE CALENDAR

EXECUTIVE NOMINATIONS

Mr. LOTT. Mr. President, I now have a list of Executive nominations which have been cleared on both sides.

We have been working on this for several days. A number of these nominations were running the risk of not being confirmed, or possibly having recess appointments, which we would like to avoid. This list includes Executive calendar nominations and nominations to be discharged from several committees and confirmed.

In executive session, I ask unanimous consent that the nominations I send to the desk be confirmed, the motions to reconsider be laid upon the table, the President be immediately notified of the Senate's action, and the Senate then resume legislative session.

PN1220 Foreign Service nominations (104) beginning Guy Edgar Olson, and ending Deborah Anne Bolton, which nominations were received by the Senate and appeared in the Congressional Record of September 7, 2000.

Mr. LOTT. I thank Senator DASCHLE, Senator HARKIN, Senator MACK, Senator HELMS, and a number of others who have worked to get this list cleared.

RECESS APPOINTMENTS

Mr. LOTT. Mr. President, one note on these nominations and appointments:

I understand that United States Presidents have for years had the ability to recess appoint nominations. I know of many instances going back at least to the 1950s. I also understand that many majority leaders—including Senator BYRD and Senator Mitchell—have had words of caution for Presidents of the United States when they were majority leader with respect to recess appointments. I know that this majority leader, as well as Senator BYRD, are very much concerned about recess appointments—especially appointments to the Federal judiciary—during a period of time after we adjourn sine die, or at the beginning, frankly, of the year right as we go into the new administration. Congress has seen this area to continue to erode. I think we need to deal very aggressively with it. The Vacancy Act that Senator BYRD has worked on is something about which we need to be very serious. I hope this administration will heed these words of caution and understand the concerns of the whole Senate.

I yield the floor.

Mr. BYRD. Mr. President, will the Senator yield?

Mr. LOTT. I would be glad to yield the floor before we return it to Senator LAUTENBERG, if I might.

The PRESIDING OFFICER. The Senator from New Jersey has the floor.

Mr. LAUTENBERG. Mr. President, you do that job perfectly with diligence, for the record.

I am happy to yield. In fact, I would be afraid not to yield to our distinguished Senator, my friend from West Virginia.

Mr. BYRD. Mr. President, I thank the distinguished Senator. I will not speak long.

Mr. President, the distinguished majority leader has made reference to recess appointments. Let me read what is in the Constitution. I read from section 2 of article II of the Constitution:

The President shall have Power to fill up all Vacancies that may happen during the Recess of the Senate, by granting Commissions which shall expire at the End of their next Session.

Having been the majority leader in the Senate earlier in my years here, I have been very careful to caution Presidents not to make recess appointments during the recess of the Senate unless there is indeed an emergency that arises.

That is the purpose of this. That provision in the United States Constitution is not put in there to enable any President, Republican or Democrat, to play games with the Senate, or to attempt to do a one-upmanship simply because the Senate is out of session.

I hope that Presidents, Democratic and Republican, will be very careful in filling a vacancy that "may happen" during a recess. That is the way the Constitution reads.

I hope there is no effort to take advantage of those words by appointing someone to fill vacancies that have been in existence for some time. I especially hope that no administration will attempt to fill a Federal judgeship during the recess of the Senate. After all, a Federal judgeship is an appointment for life. That is not an appointment just until the end of the next session. Federal judgeships are, through the Constitution, for life tenure if they conduct themselves appropriately while in office.

I want to say this: I am opposed to judgeship appointments during a recess. I hope that any President will proceed very cautiously and not attempt to take advantage of the situation by appointing judgeships during the recess of the Senate.

How long will this Senate be in recess?

Mr. LOTT. I say to the Senator from West Virginia, I believe we will be in recess slightly over 2 weeks, probably 17 days, until the new Congress comes in on January 23.

Mr. BYRD. I can only see through my own eyes, but I don't consider that to be too long a time to await the appointment of a Federal judgeship or any other office, unless it should be Secretary of Defense or perhaps Secretary of State. But it is certain that there is no need to fill judgeships during this 2 weeks, or whatever it is. We will be back here. I will not support any administration, Democratic or Republican, that attempts to fill Federal judgeships while the Senate is in recess. I think that is playing politics.

We all play politics some, but we are fooling around a little too deeply with the fountain of politics. I hope we don't poison that well by attempting to pull a fast one here. Is that what the Senator is talking about?

Mr. LOTT. I understand, of course, that is a possibility. We have not been notified of any recess appointments or any Federal judicial appointment during this recess period. However, I note it has been done in the past, and there has been some suggestion it could occur during the next 6 weeks before the next Inauguration.

I want to check on exactly what would be the situation. I understand even a Federal judge's term would expire, depending on when it happened, at the end of the Congress, but there would be tremendous pressure then to reappoint that person. I agree with the Senator that any appointment of a Federal judge during a recess should be opposed, regardless of who they are or whether it is Republican or Democrat. I commit myself now to remember that when there is a Republican administration, as well as a Democratic administration.

I do know there were Federal judges back in the early 1950s appointed by President Eisenhower. That was a mistake then, and it would be one now. I understand that could be contemplated. This word of caution on your behalf and on mine on behalf of the Senate, hopefully, will cause that not to happen.

Mr. BYRD. Mr. President, if the distinguished majority leader will yield further.

Mr. LOTT. I am happy to yield to the Senator.

Mr. BYRD. I presume to offer the majority leader a suggestion, what I would do if I were in his place. I would write to the President and urge that no such recess appointment be made, and put it in writing, make a record of it. Furthermore, if I were the majority leader, I would talk with the administration.

Mr. LOTT. I appreciate that.

Mr. BYRD. I am not trying to tell the Senator what to do, but this is a serious thing with me. As for the politics of it, I am not talking Democratic politics or Republican. But there is such a thing as comity between the executive branch and the legislative branch. There is such a thing as the Constitution, and I happen to hold a copy in my hand right now. There is also such a thing as the prerogatives of the Senate. I try to defend those prerogatives.

The Senator made a comment about recess appointments. I hope he will get some assurance. If there is any doubt in his mind—any doubt—that this administration or any other is going to try to make a recess appointment, especially of a Federal judgeship, while the Senate is out for these two or three weeks. I hope the Senator will get a commitment out of the administration, if he can, that that will not happen.

That is going pretty far, in my judgment—to appoint a Federal judge for

life "during good behavior." I don't know whether there have been judges appointed during a recess of the Senate in the face of this provision which I have just read, to wit:

The President shall have power to fill up all vacancies that may happen during recess of the Senate by granting commissions which shall expire at the end of their next session.

That is all I have to say. I have been concerned about that, I say to the distinguished majority leader. I have worked with the distinguished Senator from Tennessee, Mr. THOMPSON, and his committee, and a former Senator, who was the ranking member of that committee, John Glenn. We hammered out some legislation. I was concerned about the fact that the administration was appointing people who stayed in those positions for a year, for 2 years, for longer than 2 years, so we hammered out legislation and passed it in the Senate—the Vacancies Act.

About 6 months ago, I asked Senator THOMPSON how the law was working. He indicated he would get back to me in answering my question at some point.

I just happened to be here on this floor, during the comments of the majority leader and I can't stress too greatly my concern about recess appointments of Federal judges.

I hope the majority leader, if he will pardon my presumptuousness, will try to get some understanding with the administration about that. That is the way I always did when I was majority leader: I got some understanding.

Mr. LOTT. Mr. President, I say to the distinguished Senator from West Virginia, that is very good counsel. I will do that on a personal basis. I will also follow an example that I believe has been carried out in the past by Senator BYRD, maybe even by Senator Dole: In writing, get an understanding or some clarification. I will do that letter, and it will include this colloquy which just occurred.

I thank the Senator for his comments, and I yield the floor.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will now resume legislative session.

The Senator from New Jersey.

Mr. LAUTENBERG. Mr. President, I suspect you are getting weary of issuing that statement.

Mr. President, just because I want to talk about 18 years of service doesn't mean I have to take 18 hours to do it. I will try to consolidate it.

I have been talking about things that meant so much to me in the Senate and about the honor given when one is elected to this office. Too often it is denigrated in the heat of battle for victory in elections and again criticism of government and the bureaucrats, and so forth. It gets to a point where I must say I am very defensive, particularly for the staff who give so much of themselves to make things happen.

Part of the work we have done over these years has proven to be of benefit. I hope I will be forgiven for taking some minutes to talk about things that can happen. I am proud of the work I did on gun safety, especially the law which takes guns away from domestic violence offenders who abuse their wives and their children. I am disappointed that more wasn't done to close the gun show loophole which permits people to buy weapons without any identification. I hope in the 107th Congress, with the new Members on both sides of the aisle, people who come here with good credentials, with those who have been here in the past from the 106th Congress, we will pass that law.

Tobacco. Often when I am on an airplane, I am thanked by flight attendants and passengers for writing the ban on smoking in airplanes. It was a move that changed our country's cultural attitude on smoking. The tobacco industry has to understand that. I hope scientists have seen signs of understanding and cooperation that will lead them to work with us, through the FAA, to try to come to some kind of reconciliation of the position they are in where smoking brings so much damage and costs to our society. They are beginning to know that, and I hope they come up with something to permit citizens to avoid the poisons, the addiction that results from cigarette smoking.

The Superfund is another program on which I worked fairly diligently for a long time without success, so far, in terms of getting it reauthorized, as it should be with a tax income that has those responsible, who could be responsible for that pollution, pay for the cleanups. We missed passing a bipartisan brownfields bill this year and hope that will take place next year.

As we have reviewed tonight, transportation is one of my deepest interests. In working the bill to maintain our mass transit system, highways, airports, and ports have been a top priority for me as chairman and ranking member of the Appropriations Transportation Subcommittee. I believe we will face a serious transportation crunch in the future, as discussed, unless we develop high-speed rail wherever we can throughout this country. That is why this passage of the High Speed Rail Investment Act is so critical. And, once again, I thank the leaders for agreeing. I include the chairman of the Appropriations Committee, Senator STEVENS, and the ranking member, Senator BYRD, for their willingness to cooperate getting that Amtrak bill in place next year.

Also, I am delighted to have served with our friend, Senator CONNIE MACK from Florida, who is also in the process of retiring from the Senate. He and I worked very hard to get passage of a bill that punishes those who would commit terrorist acts and to help the victims of terrorism. We came to a conclusion, before we left on our last

break, that we will have these people receive compensation directed at having those nations that support terrorism pay for it. We are trying to get an understanding that, no matter what you do, if you support terrorism or you commit an act of terrorism, you are going to have to pay for it, and pay severely.

I am proud of the work, also, I was able to do on the Budget Committee, especially the 1997 balanced budget agreement that laid the foundation for some of the surpluses we are now enjoying. I must say, when I walked across the lawn with the President of the United States and watched him sign that bill, I thought it was a moment I only wished my parents could have seen.

I have served with many great men and women in the Senate. I have respect for all of them. I cannot name them all at this time, but I do want to mention some of the special ones. I worked with great majority and minority leaders. When I came here in 1983, Senator Howard Baker was the majority leader. I found him to be one of the most honorable people I have met. His word was his bond, and he taught me some early lessons when I asked him for a letter confirming a statement he had made to me, a promise he had made to me about a piece of legislation. So I said: May I have a letter to that effect? He said: If you need a letter from me, we are all in trouble.

I was startled for a moment. But I could see then that Senator Howard Baker was a man of his word, as I have seen with other leaders on both sides.

Senator ROBERT BYRD was minority leader when I came; later in the 1980s, Senator George Mitchell, Senator Bob Dole, distinguished leaders of our two parties. In the 1990s, I had the privilege to work under the stewardship of Senator TRENT LOTT and my good friend Senator TOM DASCHLE, among the very good people who served in leadership roles. It is not an easy place to manage. I don't know whether there is ever going to be a school of hard knocks that is going to teach people how to run the Senate. But I think it has to be learning under fire with an occasional singing here and there.

As a long-time member of the Appropriations Committee, I served under terrific leadership: Senator Hatfield, Senator Stennis, Senator STEVENS, and Senator BYRD. I don't think anyone of either party would quibble with my opinion that our friend Senator BYRD has been one of the great Senators in the history of this Republic.

I have served for almost 16 years on the Senate Environment and Public Works Committee. That committee was led by extraordinary leadership, Senators such as Bob Stafford, Lloyd Bentsen, Quentin Burdick, John Chafee, PAT MOYNIHAN; and BOB SMITH has taken over the reins there. MAX BAUCUS is the ranking member, and their leadership has been excellent. We worked hard to get things done. The

funny thing is, it seemed that a spirit of bipartisanship just emerged without it being put into a record book or a program design. It just worked that way.

I served on the Budget Committee. I did see Senator PETE DOMENICI here. I did that for 16 years. I worked with the best. PETE DOMENICI is an outstanding chairman. We disagree on some of the policy things, but I wanted Senator DOMENICI to know how much I respected his work as chairman of the Budget Committee. I finally got his attention.

Senator DOMENICI and I had some disagreements—we had many agreements. But above all, we maintained respect for one another. That even developed, if I might describe it, as affection for one another, a respect for the turn our lives have taken and the problems we both would like to solve in our society.

We had Jim Exon, Jim Sasser, Senator STEVENS, we had some really good people—Lawton Chiles—who worked to chair these committees. There are others who left us with a memory of some greatness: People such as TED KENNEDY, PAT MOYNIHAN, fighters such as Howard Metzenbaum, Dale Bumpers, statesmen such as JOE BIDEN, Lloyd Bentsen, and my colleague Bill Bradley; and American heroes such as DANNY INOUE, Bob Dole, BOB KERREY, and John Glenn—people who paid, in many cases, steep prices for their service to country.

We worked with Presidents from both parties. Despite our differences, I was able to get things done with Presidents Reagan and Bush. Particularly with President Reagan, as I noted, I was able to get the legislation in place that raised the legal drinking age to 21. President Bush signed my legislation to ban smoking on all domestic airlines. I don't know whether that says something about the old saw that divided leadership in the various parts of government maybe produces good results. I wish I could have tried it all my way, but it did not get to work. But the system does work.

I cannot leave this place with any criticism of the place not working or so forth. Sometimes the work goes slower than you would like. Sometimes it is more painful than you would like. But the fact is, this institution of government does work, and the people across the country have to know that, even as we looked at this kind of torturous process that followed the election we just completed. We are on to a new Presidency. We are on to the hope for the next century, for the next administration at least, that America will be able to continue to enforce its leadership in the world, not only militarily or functionally, but morally as well.

So, Mr. President, it has been quite a go that I have had, to use the expression. I worked very hard for my State. I love New Jersey. I was born there. We have had Members in Congress there from both parties, and we worked together on a variety of joint Federal and

State matters such as transportation, health care, and welfare. We had Governors such as Tom Kean, Jim Florio, and the present Governor Christine Todd Whitman. We were able to put politics aside and work together for the good of the people of the State of New Jersey. I am deeply grateful to the people of New Jersey. I thank them for putting their trust in me by sending me to the U.S. Senate for three terms. I hope I have made good on their trust and did the job they elected me to do.

I welcome JOHN CORZINE, who is going to take this seat in the 107th Congress. He is a terrific fellow. He is going to do an excellent job, in my view. I was pleased to work with him in the election and, as a matter of fact, through these past couple of weeks as well, to see if I could be of help to him as he gets himself established, ready to take on the assignments of the Senate as Senator from New Jersey.

I also extend my thanks to President Bill Clinton and Vice President AL GORE. Their leadership in the past 8 years has resulted in unprecedented growth and prosperity for our country. For that I am grateful. Their leadership also helped us solve some of the problems that beset the world, whether it was in Kosovo or Ireland, where division and torment and violence existed for so many years. It is working its way slowly to a peaceful coexistence between the parties there. President Clinton deserves enormous credit for that and our intervention in Kosovo to stop the killing and abuse of people there.

We look at the Clinton years as years of good government, of good accomplishment, to say President Clinton and Vice President GORE will be remembered for the good things they brought to this country.

I thank my staff, perhaps the most loyal anyone could have, and many of them are here tonight and have stayed with me, as they say, to the end. Many of them have their own concerns, their own families, their own futures, their own careers to look after, but they stuck by, and we continued to get things accomplished—even this, though it is my last active day as a Senator, though I will be a Senator until January 3. My staff and I are showing we are still fighting to get things done.

I was pleased with the outcome for Amtrak. Our people have worked long hours with great energy. They are talented, professional, bright, skilled people who are totally committed to our common view of public service. Whether it was in my personal office, State offices, Budget or Appropriations Committees, my people made enormous contributions day in and day out, and my service has been enriched and made more effective by their contribution.

I have had some great people on the staff over the years who have dedicated their time and energy to advance our agenda. They have been outstanding public servants, anonymously serving the public interest, not elected but just

as dedicated as anyone who has been elected to office.

I want to take a few minutes to name for the RECORD people such as Eve Lubalin, my first legislative director, who served for many years as my chief of staff and campaign manager as well. She worked on so many of our accomplishments in 17 years in my office.

Mitchell Oster worked on my 1982 campaign and later was my legislative director. He was an excellent, smart, aggressive staffer.

A friend of mine who worked with me as a press secretary and State director is Jim McQueeney.

James Carville and Paul Begala managed my campaign in 1988. I hope that was part of the propulsion that led them to the lofty positions they had in campaign logistics and successes.

Karin Elkis has been on my staff since 1983.

Bruce King is the staff director of the Senate Budget Committee.

Sandy Lurie, my current chief of staff, has been on the staff for 10 years and has been involved in so many of my initiatives.

Maggie Moran is my State director.

Dan Katz, my outstanding legislative director, has helped me with so many public health issues.

Tom Dosh has worked for me for 18 years, skillfully running the administrative and financial management side of all my offices.

And my long-time assistant Eleanor Popeck has worked for me for over 35 years. She was with me as an assistant when I ran ADP and has worked in my Washington office and Newark office as well. She is an outstanding public servant. Her contributions have been significant.

Peter Rogoff has worked with me on the Appropriations Transportation Subcommittee for over 10 years and has assisted me with so many major transportation accomplishments.

There are many others over the years, and I wish I had time to mention them all. That would be disagreeable with some of the people in the Chamber. I ask unanimous consent to print in the RECORD a list of my key staffers over the years.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Mr. LAUTENBERG. Finally, Mr. President, this is not a day without emotion. Eighteen years of my life have been spent here, 18 of the most satisfying years one could imagine. Couple that with some 3 years in the Army, and I have served the Government for 20 years.

I have enjoyed it all. It has been an incredible learning experience for me, but I owe a special thanks to four people: My four children, Ellen, Nan, Lisa, and Josh. I asked them in the early stages what they thought about my running for office. I was chairman of a very large company, and life was pretty good. They all agreed that it was something I ought to do. We did not realize at the time what kind of an interference with normal family life it would be. It has taken lots of time away from our enjoyment of doing things together.

I came to the Senate because I love them so dearly that I wanted to make sure their lives would be safer and fuller. How was that to be accomplished? It was not by earning more assets and resources. I knew my children and my grandchildren could never be as safe as I would like them to be unless everybody's children were as safe as they should be by getting rid of violence in the streets, in the communities, in the neighborhoods, in the schools.

How does one do that? I could not single my kids out and say, OK, let's make sure they are safe and protected. No, I had to say all people's children have to be safe and protected, and that is what I have tried to do here.

That was my inspiration. That outlined the goals I set for myself. That is why I wanted to raise the drinking age, lower the blood alcohol content, get guns out of people's houses, reduce smoking in public areas, make sure toxic chemicals were known throughout the communities in the Right To Know Act, and make sure terrorists did not run freely through our society or through the world chasing American citizens, abusing them, killing them.

I tried. I have not accomplished all of those things, but a lot of them have been accomplished. I wanted the highways to be safer and the skyways to be

safer because of the belief I had that people around the country would share my view on that.

Now the pictures are off the wall, the furniture is moved out, the day is closing for the end of my Senate service. I will acknowledge that it was more than skills and knowledge that brought me here. Some of that was the pure good fortune of the people of New Jersey electing me the first time I went out to run for office. They did not know me from anybody else, but they looked at the record my company had and how we built it from nothing to something important. They looked at my service as commissioner of the Port Authority of New Jersey and New York that controls the bridges, tunnels, terminals, and buildings in New York that was an appointed post. People looked at me and said: Well, we don't know this guy, but it looks like he has done some things correctly. They saw pictures of my family. They know how devoted I am to them. I also was chairman of one of the largest charities of the world for 3 years. They entrusted me with this seat, the New Jersey seat, that I occupied for 18 years. I always refrain from calling it "my seat" because it is not; I filled it for a while.

In closing, I thank the occupant of the chair for the opportunities we have had to share common goals and for his decency in reviewing those with me and having an open mind on many of the issues. I thank my friend from Nevada who stands as the guardsman of the floor in his assignment for the Democrats as the whip, and I note the respect I felt for him when I saw how arduously he worked to protect his State from becoming a nuclear dump, even when we struggled to find a place to put that material—and we do have to find a place. The fact of the matter is, if we defend the interests of our States in concert with the interests of our country, we will have done our jobs correctly.

I hope the legacy I leave will create a brighter future for the people who sent me here, for my eight wonderful grandchildren, and for all of those I took the oath to serve.

Mr. President, I yield the floor.

REMINISCENCE AND FAREWELL

Mr. MOYNIHAN. Mr. President, on this last day of the 106th Congress I would ask to be allowed a moment of reminiscence and farewell.

Come January 3—*deo voluntus*, as the Brothers used to teach us—I will have served four terms in the United States Senate, a near quarter century. In our long history only one other New Yorker, our beloved Jacob K. Javits, has served four terms. I had the fortune of joining the Finance Committee from the outset, and served for a period as chairman, the first New Yorker since before the Civil War. I was also, at one point, chair of Environment and Public Works. I have been on Rules and Administration for the longest while,

and for a period was also on Foreign Relations. Senators will know that it would be most unusual for someone to serve on both Finance and Foreign Relations at the same time. An account of how this came about may be of interest.

The elections of 1986 returned a Democratic majority to the Senate and the Democratic Steering Committee, of which I was then a member, began its biannual task of filling Democratic vacancies in the various standing committees. There are four "Super A" committees as we term them. In order of creation they are Foreign Relations, Finance, Armed Services and Appropriations. With the rarest exceptions, under our caucus rules a Senator may only serve on one of these four.

There were three vacancies on Foreign Relations. In years past these would have been snapped up. Foreign Relations was a committee of great prestige and daunting tasks. Of a sudden however, no one seemed interested. The Senate was already experiencing what the eminent statesman James Schlesinger describes in the current issue of *The National Interest* as "the loss of interest in foreign policy by the general public" (p. 110). Two newly-elected Senators were more or less persuaded to take seats. At length the Steering Committee turned to me, as a former ambassador. I remained on Finance.

And so I served six years under the chairmanship of the incomparable Claiborne Pell of Rhode Island. I treasure the experience—the signing and ratification of the Strategic Arms Reduction Treaty (START I), the final days of the Cold War. But I continue to be puzzled and troubled by our inattention to foreign affairs. To be sure, the clearest achievement of this Congress has been in the field of foreign trade, with major enactments regarding Africa, the Caribbean, and China. These, however, have been the province of the Finance Committee, and it was with great difficulty and at most partial success did Chairman BILL ROTH and I make the connection between world trade and world peace. This would have been self-evident at mid-century. I remark, and I believe there is a case, that any short list of events that led to the Second World War would include the aftermath of the Smoot-Hawley Tariff of 1930. Indeed, in the course of the ceremony at which the President signed the measure naming possible permanent normal trade relations with China in connection with its admission to the World Trade Organization, I observed that the 1944 Bretton Woods Conference, which conceived the World Bank, the International Monetary Fund and anticipated an international trade organization, opened on the day I joined the Navy. For certain there was no connection, but my point was simply that in the midst of war the Allies were looking to a lasting peace that might follow, and this very much included the absence of trade wars.

But again, how to account for the falling-off of congressional involvement in foreign affairs. I offer the thought that the failure of our intelligence, in the large sense of term, to foresee—forsooth to conceive!—the collapse of the Soviet Union has brought forth a psychology of denial and avoidance. We would as soon not think too much about all, thank you very much.

I have recounted elsewhere the 1992 hearings of the Foreign Relations Committee on the START I Treaty. Our superb negotiators had mastered every mind-numbing detail of this epic agreement. With one exception. They had negotiated the treaty with a sovereign nation, the Union of Soviet Socialist Republics. Now they brought to us a treaty signed with four quite different nations: Russia, Ukraine, Belarus, and Kazakhstan. When asked when this new set of signatories was agreed to, the Committee was informed that this had just recently taken place at a meeting in Lisbon. An observer might well have wondered if this was the scenario of a Humphrey Bogart movie. The negotiators were admirably frank. The Soviet Union had broken up in December 1991. Few, if any, at their "end of the street" had predicted the collapse. Let me correct the record: None had.

As to the record, I would cite the 1991 article in *Foreign Affairs* by the estimable Stansfield Turner. The Admiral had served as Director of Central Intelligence and knew the record. He was blunt, as an admiral ought. I cite a passage in *Secrecy*:

[Turner wrote,] "We should not gloss over the enormity of this failure to forecast the magnitude of the Soviet crisis. We know now that there were many Soviet academics, economists and political thinkers, other than those officially presented to us by the Soviet government, who understood long before 1980 that the Soviet economic system was broken and that it was only a matter of time before someone had to try and repair it, as had Khrushchev. Yet I never heard a suggestion from the CIA, or the intelligence arms of the departments of defense or state, that numerous Soviets recognized a growing systemic economic problem." Turner acknowledged the "revisionist rumblings" claiming that the CIA had in fact seen the collapse coming, but he dismissed them: "If some individual CIA analysts were more prescient than the corporate view, their ideas were filtered out in the bureaucratic process; and it is the corporate view that counts because that is what reaches the president and his advisors. On this one, the corporate view missed by a mile. Why were so many of us insensitive to the inevitable?"

Just as striking is the experience of General George Lee Butler, Commander of the U.S. Strategic Command (STRATCOM) from 1990 to 1994. Again to cite from *Secrecy*.

As the one responsible for drafting the overall U.S. strategy for nuclear

war, Butler had studied the Soviet Union with an intensity and level of detail matched by few others in the West. He had studied the footage of the military parades and the Kremlin, had scrutinized the deployments of Soviet missiles and other armaments: "In all, he thought of the Soviet Union as a fearsome garrison state seeking global domination and preparing for certain conflict with the West. The only reasonable posture for the United States, he told colleagues, was to keep thousands of American nuclear weapons at the ready so that if war broke out, Washington could destroy as much of the Soviet nuclear arsenal as possible. It was the harrowing but hallowed logic of nuclear deterrence." But Butler began having doubts about this picture, upon which so much of U.S. foreign policy was based, by the time of his first visit to the Soviet Union, on December 4, 1988. When he landed at Sheremetyevo Airport, on the outskirts of Moscow, he thought at first that the uneven, pockmarked runway was an open field. The taxiways were still covered with snow from a storm two days earlier, and dozens of the runway lights were broken. Riding into downtown Moscow in an official motorcade, Butler noticed the roads were ragged, the massive government buildings crumbling. He was astonished when the gearshift in his car snapped off in his driver's hand. After pouring over thousands of satellite photos and thirty years' worth of classified reports, Butler had expected to find a modern, functional industrialized country; what he found instead was "severe economic deprivation." Even more telling was "the sense of defeat in the eyes of the people. . . . It all came crashing home to me that I really had been dealing with a caricature all those years."

General Butler was right. More than he might have known. This fall former National Security Advisor Zbigniew Brzezinski estimated that the economy of "Russia is one-tenth the size of America and its industrial plant is about three times older than the OECD average." The population has dropped from 151 million in 1990 to 146 million in 1999. Infant mortality is devastating. Far from overwhelming the West, it is problematic as to whether Russia can maintain a presence east of the Ural Mountains. If you consider that the empire of the Czars once extended to San Francisco we can judge the calamity brought about by sixty-some years of Marxist-Leninism.

And yet we did not judge. To say again, the United States government had no sense of what was coming, not the least preparation for the implosion of 1991.

In 1919, John Reed, a Harvard graduate, and later a Soviet agent wrote *Ten Days that Shook the World*, his celebrated account of the Russian Revolution, as it would come to be known, in October 1917. In no time these events acquired mythic dimension for intel-

lectuals and others the world over. At Harvard, Daniel Bell would patiently guide students through the facts that there were two Russian Revolutions; the first democratic, the second in effect totalitarian. But this was lost on all but a few.

It would appear that the Soviet collapse was so sudden, we were so unprepared for it, that we really have yet to absorb the magnitude of the event. It was, after all, the largest peaceful revolution in history. Not a drop of blood was shed as a five hundred year old empire broke up into some twelve nations, Azerbaijan, Armenia, Belarus, Georgia, Kazakhstan, the Kyrgyz Republic, Moldova, Russia, Tajikistan, Turkmenistan, Uzbekistan and Ukraine, whilst formerly independent nations absorbed into the Soviet Bloc, Poland, the Czech Republic, Lithuania, Latvia, Estonia et al., regained their independence. In the aftermath there has been no book, no movie, no posters, no legend.

To the contrary, weak Russia grows steadily weaker—possibly to the point of instability, as shown in the miserable events in Chechnya. We see a government of former agents of the intelligence services and the secret police. We see continued efforts at increasing armament. Witness the sinking of the nuclear submarine Kursk. We see the return of the red flag. We see little engagement with the West, much less the East where China looms with perhaps ten times the population and far more economic strength.

And the United States? Apart from a few perfunctory measures, and one serious, the Nunn-Lugar program, almost no response. To the contrary, at this moment we have, as we must assume, some 6,000 nuclear weapons targeted on Russia, a number disproportionate at the height of the Cold War, and near to lunacy in the aftermath. When, as Senator LUGAR estimates, the Russian defense budget has declined to \$5 billion a year.

What is more, other than the highest echelon of the Pentagon, no doubt some elements of the intelligence community, possibly the Department of State, no American knows what the targeting plan is. In particular, Members of Congress, possibly with very few exceptions, do not know. Are they refused information? Just recently, our esteemed colleague, J. ROBERT KERREY of Nebraska, wrote the Secretary of Defense, William S. Cohen, a former colleague of ours, to set forth the facts of this insane situation.

There are signs that an open debate concerning nuclear weapons may be afoot. In *The Washington Post* recently, we learn of the response to a proposal by Stephen M. Younger, associate director of Los Alamos National Laboratory and head of its nuclear weapons work, proposing a great reduction in the number of massive weapons now in our arsenal in favor of smaller devices intended to deal with much smaller engagements than those envi-

sioned during the Cold War. The *Post* reports that we now have some 7,982 warheads linked to nine different delivery systems, ICBMs, SLBMs and bombers. These are scheduled to decline to 3,500, half on Trident II submarines, under the Start II agreement. Younger argues that still fewer are needed. Any one of which would wipe out any large city on earth. It appears that other experts believe that a few dozen to several hundred of today's high-yield warheads would suffice to manage the standoff with Russia or China. There is, perhaps more urgently, the matter of nuclear weapons in what are for some reason still called Third World nations, a relic of Cold War usage. Nuclear standoff has settled into the South Asian subcontinent. The prospect that an "Islamic Bomb" will migrate westwards from Pakistan is real enough. It may be happening at this moment. The more then do we need open debate. The more urgent then is Senator KERREY's assertion that Congress be involved. His profound observation that "Sometimes secrecy produces its opposite; less safety and security."

I have remarked on how little notice has been taken of the Russian revolution of 1989-91. By contrast, the "information revolution" has become a fixture of our vocabulary and our pronouncements on the widest range of subjects, and at times would seem to dominate political discourse. It might do well to make a connection as Francis Fukuyama does in the current issue of *Commentary*. In his review of a new book by George Gilder with the suggestive title *Telecom: How Infinite Bandwidth Will Revolutionize Our World*, Fukuyama makes the connection.

Why, then, do those convinced that the revolution is already triumphant shake their heads so sadly at those of us who "just don't get it?" True, people want to feel good about themselves, and it helps to believe that one is contributing to some higher social purpose while pursuing self-enrichment. But it must also be conceded that the information-technology revolution really does have more going for it than previous advances in, say, steam or internal combustion (or, one suspects, than the coming revolution in biotechnology).

The mechanization of production in the 19th and early 20th centuries rewarded large-scale organization, routinization, uniformity, and centralization. Many of the great works of imagination that accompanied this process, from Charlie Chaplin's *Modern Times* to Aldous Huxley's *Brave New World*, depicted individuals subsumed by huge machines, often of a political nature. Not so the information revolution, which usually punishes excessively large scale, distributes information and hence power to much larger groups of people, and rewards intelligence, risk, creativity and education rather than obedience and regimentation. Although

one would not wish to push this too far, it is probably no accident that the Soviet Union and other totalitarian regimes did not survive the transition into the information age.

Is it possible to hope that we might give some serious thought to the possible connection? And to ask ourselves just how we measure up in this regard?

That said, is it not extraordinary and worrying that of a sudden we find ourselves in a state of great agitation concerning security matters all across our government, from our nuclear laboratories at home to embassies abroad to the topmost reaches of government? The late Lars-Erik Nelson described it as "spy panic." In the process the possibility emerges that our national security will be compromised to a degree unimaginable by mere espionage. The possibility is that we could grievously degrade the most important institutions of foreign and defense policy—our capacity for invention and innovation—through our own actions.

Take the matter of the loss, and evident return in clouded circumstances of two hard drives containing sensitive nuclear information from the Nuclear Energy Search Team at Los Alamos National Laboratory. This June, Secretary of Energy Bill Richardson asked two of our wisest statesmen, the Honorable Howard H. Baker, Jr., and the Honorable Lee H. Hamilton, to enquire into the matter. Here are the Key Findings of their report of September 25th.

While it is unclear what happened to the missing hard drives at Los Alamos National Laboratory, it is clear that there was a security lapse and that the consequences of the loss of the data on the hard drives would be extremely damaging to the national security.

Among the known consequences of the hard-drive incident, the most worrisome is the devastating effect on the morale and productivity of LANL, which plays a critical national-security role for the Nation.

The current negative climate is incompatible with the performance of good science. A perfect security system at a national laboratory is of no use if the laboratory can no longer generate the cutting-edge technology that needs to be protected from improper disclosure.

It is critical to reverse the demoralization at LANL before it further undermines the ability of that institution both to continue to make its vital contributions to our national security, and to protect the sensitive national-security information that is critical to the fulfillment of its responsibilities.

Urgent action should be taken to ensure that Los Alamos National Laboratory gets back to work in a reformed security structure that will allow the work there to be successfully sustained over the long term.

Almost alone among commentators, Lars-Erik Nelson pursued the matter, describing the interviews Senator Baker and Representative Hamilton had with lab personnel.

They now report that "the combined effects of the Wen Ho Lee affair, the recent fire at [Los Alamos] and the continuing swirl around the hard-drive episode have devastated morale and productivity at [Los Alamos]."

The employees we met expressed fear and deep concern over the . . . yellow crime-scene tape in their workspace, the interrogation of their colleagues by . . . federal prosecutors before a grand jury and the resort of some of their colleagues to taking a second mortgage on their homes to pay for attorney fees.

There is no denying that Lee and whoever misplaced the computer drives committed serious breaches of security. But the resulting threat to our safety is only theoretical; the damage to morale, productivity and recruitment is real.

Employees were furious at being forced to take routine lie-detector tests, a requirement imposed on them by a panicky Secretary of Energy. . . .

Obviously, there is a need for security in government. A Los Alamos employee gave Baker and Hamilton an obvious, easy solution. Unfortunately, it will be the one most likely to be adopted: "The safest and most secure way to do work is not to do any work at all."

In the course of the Commission on Protecting and Reducing Government Secrecy (of which more later), a Commission member, then-Director of Central Intelligence John M. Deutch, revealed to the American people the extraordinary work of the VENONA project, an enterprise of the Army Security Agency during and after World War II. During the war the agency began to copy KGB traffic from and to the United States. On December 20, 1946, Meredith K. Gardner—I am happy to say still with us, buoyant and brilliant as ever—"broke" the first. Dated 2 December 1944, it was a list of the principal nuclear scientists at Los Alamos. Bethe, Bohr, Fermi, Newman, Rossi, Kistiakowsky, Segre, Taylor, Penney, Compton, Lawrence and so on. The Soviets knew, and in time stole essentials of the early atom bomb. But what they could not do, was to slow down or deter the work of these great men, who would take us further into the age of the hydrogen bomb. Next, their successors to yet more mind-bending feats. The Soviets could not stop them. Would it not be the final triumph of the defunct Cold War if we stopped them ourselves?

Do not dismiss this thought. If you happen to know a professor of physics, enquire as to how many "post-docs" are interested in weapons research, given the present atmosphere. To work at one-third the salary available elsewhere, and take lie detector tests.

And then there is intelligence. Nelson quotes a "former top intelligence official" who told him, "If you're not taking secrets home, you're not doing your job." And yet here we are harassing John M. Deutch, a scientist of the greatest achievement, a public servant of epic ability for—working at

home after dinner. Would it be too far-fetched to ask when will the next Provost of the Massachusetts Institute of Technology choose to leave the banks of the Charles River for the swamps of the Potomac?

Now I don't doubt that, as opposed to an intelligence official, there are ambassadors who don't take their work home at night. Over the years the United States has created a number of postings with just that attraction. But these are few. The great, overwhelming number of our ambassadors and their embassy associates are exceptional persons who have gone in harm's way to serve their country. I was ambassador to India at the time our ambassador to Sudan and an aide were abducted from a reception by Islamic terrorists, spirited away and murdered. Some days later the Egyptian envoy in New Delhi asked to see me. He had a message from then-Egyptian President Anwar Sadat to tell me that their intelligence sources reported I would be next. It is a not uncommon occurrence. But nothing so common as taking work home, or working in a—usually heavily armored—embassy limousine. Ask any former ambassador to Israel. Our embassy in Tel Aviv is an hour's drive from the capital in Jerusalem. The drive up and back is routinely used to dictate memoranda of conversation, type them on a laptop. Whatever. This fall, the superbly qualified, many would say indispensable ambassador to Israel, Martin S. Indyk, was stripped of his security clearances for just such actions. I cite Al Kamen's account in *The Washington Post*.

Just the other day, ambassador to Israel Martin S. Indyk was deep into the State Department doghouse for "suspected violations" of security regulations. His security clearance was suspended, so he couldn't handle classified materials. He needed an escort while in the State Department building. The department's diplomatic security folks wanted him to stay in this country until their investigation was completed.

At a White House briefing Monday, a reporter asked if Indyk could "function as ambassador? Do we have a functioning ambassador?"

"Not at the moment," press secretary Jake Siewert said.

Allow me to cite a report by the redoubtable Jane Perlez, who was just recently reporting from Pyongyang on the psychotic security measures in the capital of North Korea. Eerily similar antics were to be encountered on September 30, Ms. Perlez reported:

STATE DEPT. UNFREEZES HUNDREDS OF PROMOTIONS AFTER DELAY FOR SECURITY REVIEW

WASHINGTON, Sept. 29.—A continuing security crackdown at the State Department led to the freezing of promotions for more than 200 senior officials, pending a review of their security records, department officials said today.

The director general of the Foreign Service, Marc Grossman, said he was assessing the promotion files for security violations

before sending the promotions to the White House, which then dispatches them to Congress for approval.

The release of the list was delayed after the suspension of the security clearance of one of the department's most senior officials, Martin S. Indyk, ambassador to Israel, and a sudden vigilance by Secretary of State Madeleine K. Albright, who is under pressure from Congress on security problems.

This evening, the department said that "under 10" officials had been barred from promotions after Mr. Grossman's review of 400 candidates. The nearly 400 people included 200 midlevel officials, whose promotions were released today after a weeklong delay.

As word of the latest action spread through the department, an assistant secretary of state complained at a senior staff meeting this week that management faced "rage" in the building and increasingly demoralized employees, according to several accounts of the session.

Others, as well as diplomats abroad, complained of a poisonous atmosphere in the department created, in part, by security officials who grilled junior Foreign Service officers about their superiors. One senior official said the obsession with security had created a "monster" out of the bureau of diplomatic security, which Congress generously finances to the detriment of other areas of the department.

In a yet more eerie analogy, one department employee described the situation as a "security jihad."

It doesn't stop. It accelerates! Just this month The Washington Post reported the resignation of senior diplomats, the suspension of another, the firing of a further two over security matters.

J. Stapleton Roy, one of the nation's two most senior foreign service officers and a three-time U.S. ambassador, has resigned in protest after Secretary of State Madeleine K. Albright suspended his deputy without pay and fired two other long-time State Department officials over a missing top-secret laptop computer. . . .

The departure of Roy and the reassignment of [Donald] Keyser will rob the department of two of its top China experts. The son of a missionary, Roy grew up in China, returned to the United States to go to Princeton University, then joined the foreign service. He later served as ambassador to China, Indonesia and Singapore. Keyser had served in Beijing three times, had been the State Department's director of Chinese and Mongolian affairs, and most recently held the rank of ambassador as a special negotiator for conflicts in Nagorno-Karabakh and former Soviet republics.

"That's a lot of brainpower suddenly removed from the State Department," said William C. McCahill, a recently retired foreign service officer who served as the deputy chief of mission in Beijing. "Keyser is a brilliant analyst and a person of great intellectual honesty and rigor. Stape is the kind of person you want in INR, someone who can think beyond today and tomorrow, who can think beyond established policy."—The Washington Post, December 5, 2000.

With some hesitation I would call to mind the purge of the "China hands" from the Department of State during the McCarthy era. As our Commission established with finality, there was indeed a Soviet attack on American diplomacy and nuclear development during and after World War II. There were early and major successes. The design of the first atom bomb. But not much else, and for not much longer. The real

damage—the parallels are eerie—to American security came from the disinclination of the intelligence community—then largely in the Army—to share information with "civilians." Specifically, documents obtained from the F.B.I. indicate that President Truman was never told of the Army Signals Security Agency's decryptings of Soviet cables during and after the war. He thought the whole business of Communist spying was a "red herring." In 1953 he termed Whittaker Chambers and Elizabeth Bentley "a crook and a louse." American diplomacy and the Department of State in particular were for years haunted by charges they could readily have dealt with had they but known what their own government knew. And who issued the instruction that the President was not to be told? General Omar N. Bradley whom the President had made Chairman of the Joint Chiefs of Staff. (Admittedly it is hard to prove a negative.) But I was reassured by an article in the Summer edition of the "Bulletin" of the CIA's Center for the Study of Intelligence. In it, Deputy CIA historian Michael Warner votes with the judgment I offered earlier in my book "Secrecy."

What might it be that Secretary Albright needs to know today but has not been told? A generation hence we might learn. If, that is, the current secrecy regime goes unaltered.

For the moment, however, I have further distressing news for Ambassador Stapleton if he should have occasion to return to the Department of State main building for one or another reason. I have just received a copy of a letter sent to David G. Carpenter, Assistant Secretary of State for the Bureau of Diplomatic Security. Another recently retired Ambassador, a statesman of large achievement and impeccable reputation recently called at Main State, to use their term. He was frisked at the entrance. He was allowed into the building, but assigned an "escort," who accompanied wherever he went. Including, the ambassador writes, "the men's room."

It is difficult not to agree with the Ambassador's assessment that "the 'escort' policy is insulting and totally out of proportion to any desired enhancement of security." But then so is so much of security policy as it has evolved over the past sixty years.

What is to be done? Surely we must search for a pattern in all this. Our Commission proposed a simple, direct formation. Secrecy is a form of regulation.

In the previous Congress, legislation was prepared to embody the essentials of the Commission recommendations. All classified materials would bear the name and position of the person assigning the classification and the date, subject to review, that the classification would expire. It is not generally realized, but apart from atomic matters, under the Atomic Energy Act of 1954 and a few other areas there is no law stipulating what is to be classified Con-

fidential, Secret, Top Secret—and there are numerous higher designations. It is simply a matter of judgement for anyone who has a rubber stamp handy. Our bill was unanimously reported from the Committee on Governmental Affairs, under the fine chairmanship of Senator FRED THOMPSON, with the full support of the then-ranking Committee member, our revered John Glenn. But nothing came of it. The assorted government agencies, covertly if you like, simply smothered it. The bureaucracy triumphed once more. Thomas Jefferson's dictum that "An informed citizenry is vital to the functioning of a democratic society" gave way before the self-perpetuating interests of bureaucracy.

I am pleased to report that this year's Intelligence Authorization bill, which is now at the White House awaiting President Clinton's signature, includes the Public Interest Declassification Act. The measure establishes a nine-member "Public Interest Declassification Board" of "nationally recognized experts" who will advise the President and pertinent executive branch agencies on which national security documents should be declassified first. Five members of the Board will be appointed by the President and four members will be appointed by the Senate and the House.

The Board's main purpose will be to help determine declassification priorities. This is especially important during a time of Congress' continual slashing of the declassification budgets. In addition to the routine systematic work required by President Clinton's Executive Order 12958, the intelligence community is also required to process Freedom of Information Act requests, Privacy Act requests, and special searches levied primarily by members of Congress and the administration.

There is a need to bring order to this increasingly chaotic process. This Board may just provide the necessary guidance and will help determine how our finite declassification resources can best be allocated among all these competing demands.

My hope is that the Board will be a voice within the executive branch urging restraint in matters of secrecy. I have tried to lay out the organizational dynamics which produce ever larger and more intrusive secrecy regimes. I have sought to suggest how damaging this can be to true national security interests. But this is a modest achievement given the great hopes with which our Commission concluded its work. I fear that rationality is but a weak foil to the irrational. In the end we shall need character as well as conviction. We need public persons the stature of George P. Shultz, who when in 1986 learned of plans to begin giving lie detector tests for State Department employees, calmly announced that the day that program began would be the day he submitted his resignation as Secretary of State. And so of course it

did not begin. And yet with him gone, the bureaucratic imperative reappears.

And so Mr. President, I conclude my remarks, thanking all my fellow Senators present and past for untold courtesies over these many years.

RETIREMENT OF SENATOR DANIEL PATRICK MOYNIHAN

Mr. LEVIN. Mr. President, it saddens me to note that the Senate will soon lose one of its most visionary and accomplished members, a great American, Senator DANIEL PATRICK MOYNIHAN.

It boggles the mind just to think of all of the important positions that PAT MOYNIHAN has held, including cabinet or subcabinet posts under four presidents: John Kennedy, Lyndon Johnson, Richard Nixon, and Gerald Ford. He served as Ambassador to India in the 1970's and then as U.S. Ambassador to the United Nations. He came to the United States Senate in 1977 already a scholar, author and public official of great distinction and renown. In the 24 years he has spend here, he has only greatly expanded his enormous reputation and body of work. PAT MOYNIHAN is a Senator's Senator. Over the years, he has earned the respect of every member of the Senate.

PAT MOYNIHAN is a person who has shown tremendous vision throughout his life. He has shown foresight about the importance of a strong family and about the importance of strong communities in America. He raised the critical important of these basic values and concerns about the deterioration of these family values, long before others. He has shown great foresight about our Constitution. One of the highlights for me in my service in the Senate was joining Senator MOYNIHAN and Senator ROBERT BYRD in fighting against the line item veto as a violation of our Constitution. And, he has shown great foresight about the world and the role of the United States in international affairs. His work at the United Nations and in the Senate, as a former Chairman of the Senate Select Committee on Intelligence, and as Chairman of the Finance Committee have been marked by his perceptive, analytical, and worldly view on trade, foreign policy, and intelligence matters. Long before others, Senator MOYNIHAN was speaking of the economic and ultimately military weaknesses of the Soviet Union and predicting its collapse.

It is virtually impossible to list all of PAT MOYNIHAN's accomplishments in the U.S. Senate. Among the most lasting, however, will be his efforts on behalf of architectural excellence in the nation's capital. He was a crucial force behind the return to greatness of the Pennsylvania Avenue corridor between the U.S. Capital and the White House, the restoration of Washington's beautiful, elegant, and historic Union Station, and the construction of the Thurgood Marshall Judiciary Building here on Capitol Hill.

The author or editor of eighteen books, Senator MOYNIHAN has been at the forefront of the national debate on issues ranging from welfare reform, to tax policy to international relations. His most recent book, written in 1998, "Secrecy: The American Experience" expands on the report of the Commission on Protecting and Reducing Government Secrecy of which he was the Chairman. This is a fascinating and provocative review of the history of the development of secrecy in the government since World War I and argument for an "era of openness".

At home in New York, in a state which is known for its rough and tumble politics, he has shown leadership again and again, demonstrating the power of intellect and the ability to rise above the fray. That has been a wonderful contribution not just to New York but to all of America.

As they leave the Senate family, which will never forget their huge contribution, we salute PAT and Elizabeth MOYNIHAN.

Mr. WARNER. Mr. President, in the 211-year history of the United States Senate, the State of New York has one of the richest and most storied legacies.

Since 1789, New York has sent to the Senate 63 Senators. I have had the distinct privilege of serving with four of them, most memorably, Senator DANIEL PATRICK MOYNIHAN.

When the people of New York elected PAT MOYNIHAN to represent them nearly 25 years ago, they sent to Washington a uniquely gifted and talented man. Those are the reasons, Senator MOYNIHAN is one of only two, out of 63 Senators from New York, to have been elected to four consecutive terms in the United States Senate.

Senator MOYNIHAN began his service to this nation more than 50 years ago when he served in the United States Navy from 1944-1947—and he never stopped being "Mr. Public Servant." He served one governor, New York's Averell Harriman, and four United States Presidents: two Democrats, Presidents Kennedy and Johnson, and two Republicans, Presidents Nixon and Ford.

What a record. PAT MOYNIHAN has given more than three quarters of his life to his nation and his state. This country, the United States Senate, and New York are joyously thankful.

He has been a leader in so many areas that it challenges one to list them all. But his impact on public architecture, monuments for future generations, are the hallmarks which this quiet gentleman reveres.

For over fifteen years now, I have had the privilege of serving with PAT on the Senate's Environment and Public Works Committee. I have been fortunate to work closely with him and observe his tireless effort and commitment to maintaining the architectural integrity of our great public institutions.

Some 40 years ago, the Kennedy Administration made the decision to re-

vive Pennsylvania Avenue and restore the Federal Triangle. It was an extraordinary stroke of fortune that PAT MOYNIHAN, a deputy to Labor Secretary Goldberg who played a primary role in the effort, had the responsibility to draft a report that contained core ideas for redevelopment. The Federal Triangle, including the Ronald Reagan Building, and the Judiciary Building—to mention just a few—are dramatic evidence of his contributions that will live for years to come in the foundation of these magnificent buildings.

I cannot resist the temptation to recall that Senator MOYNIHAN was fond of noting that it was Treasury Secretary Andrew Mellon who initially championed the idea of reviving the Federal Triangle and establishing it as an international trade and cultural center. It took a man of PAT MOYNIHAN's talent, character and foresight to pick up and finish that vision, started in the early 1930s, in such a grand manner.

I would be remiss were I not to take a minute to thank Senator MOYNIHAN for his leadership and the personal courtesies he extended to me, as he took the initiative to name the departmental auditorium at the Commerce Department building, the Andrew Mellon Auditorium. It truly is a remarkable structure and aptly named.

Over 200 years ago, Pierre L'Enfant, as he laid plans for the new United States capital, could only hope that a man like Senator MOYNIHAN would one day work with such compassion and perseverance to keep alive the true spirit and design envisioned in the original blueprints of George Washington's federal city.

One of the most rewarding assignments in my own career in public service, has been the opportunity to serve with Senator MOYNIHAN as a member of the Smithsonian's Board of Regents. The talented men and women who have served on the Board are unquestionably committed to the arts and preserving this nation's cultural heritage. And I am certain, that all of them who have served with him would agree that PAT MOYNIHAN's leadership and guiding wisdom have been indispensable.

Beyond the physical monuments to his achievements, I will always remember PAT MOYNIHAN for his humor, his intellect, his grace, his eloquence, and his humility.

All of us here, before we cast the first vote, before we discharge the first responsibility, take the oath of office. We solemnly commit "to support and defend the constitution. . . ." "Against all enemies. . . ." we commit "to bear true faith and allegiance" and we undertake "to faithfully discharge" our duty. Senator MOYNIHAN was a man of his word and here in the Senate he has always been true to his principles and true to his oath.

PAT MOYNIHAN has been a giant in the Senate for some time. I only hope that the years ahead give him the time he has always wanted to do those things he has never quite had the time to do.

The Senate and the nation know Senator MOYNIHAN as a true patriot, a gentleman, and a statesman. His legacy is a remarkable gift we will benefit from for years to come.

In closing, I would like to submit for the RECORD two articles that appeared in the Washington Post—one, written by George Will and the other by Benjamin Forgery. I ask to have printed in the RECORD these articles, so all citizens can read of the enormous contributions Senator MOYNIHAN has made to this institution, his home State of New York, and, indeed, this country.

The Nation's Capital—in the words that Navy men and women understand—bids you a final "Well done, Sir. We salute you as the L'Enfant of this century."

There being no objection, the material ordered to be printed in the RECORD, as follows:

[From the Washington Post, Sept. 17, 2000]

FAREWELL, MR. MOYNIHAN

(By George F. Will)

When this Congress ends, so will one of the broadest and deepest public careers in American history. Daniel Patrick Moynihan—participant in John Kennedy's New Frontier, member of Lyndon Johnson's White House staff, Richard Nixon's domestic policy adviser, Gerald Ford's ambassador to India and the United Nations, four-term senator—will walk from the Senate and political life, leaving both better for his having been in them, and leaving all who observe them bereft of the rare example of a public intellectual's life lived well—adventurously, bravely and leavened by wit.

The intellectual polarities of his life have been belief in government's ameliorative powers—and in William Butler Yeats's deflation of expectations for politics:

Parnell came down the road, he said to a cheering man:

Ireland shall get her freedom and you will still break stone.

Having served four presidents, Moynihan wrote that he did not remember ever having heard at a Cabinet meeting "a serious discussion of political ideas—one concerned with how men, rather than markets, behave." Regarding the complexities of behavior, Moynihan has stressed the importance of ethnicity—the Balkans, the Bronx, come to that. Moynihan knew how wrong Marx was in asserting the lost saliency of pre-industrial factors, such as ethnicity and religion, in the modern age.

His gift for decorous disruptions was apparent early, when, during a 1965 audience with Pope Paul VI, at a time when the Church was reconsidering its doctrine of the collective guilt of Jews for Christ's crucifixion, Moynihan, a Catholic, shattered protocol by addressing the pope: "Holy Father, we hope you will not forget our friends the Jews." Later, an unsettled member of the audience, the bishop of Chicago, said, "We need a drink." Moynihan said, "If they're going to behave like a Medieval court, they must expect us to take an opportunity to petition him."

During his U.N. service he decided that U.S. foreign policy elites were "decent people, utterly unprepared for their work" because "they had only one idea, and that was wrong." It was that the bad behavior of other nations was usually a reaction to America's worse behavior. He has been a liberal traditionalist, keeper of Woodrow Wilson's crusade for lawful rather than normless dealings among nations.

"Everyone," says Moynihan the social scientist, "is entitled to his own opinion but not his own facts." When in 1993 the Clinton administration's Goals 2000 asserted that by 2000 America's high school graduation rate would be 90 percent and American students would lead the world in mathematics and science achievements, Moynihan acidly compared these goals to the old Soviet grain production quotas. Of the projected 2000 outcome, Moynihan said: "That will not happen." It didn't.

Moynihan has written much while occupying the dark and bloody ground where social science and policymaking intersect. Knowing that the two institutions that most shape individuals are the family and the state, he knows that when the former weakens, the latter strengthens. And family structure is "the principal conduit of class structure." Hence Moynihan's interest in government measures to strengthen families.

Moynihan understands that incantations praising minimalist government are America's "civic religion, avowed but not constraining." Government grows because of the ineluctable bargaining process among interest groups that favor government outlays that benefit them. And government grows because knowledge does, and knowledge often grows because of government.

Knowledge, says Moynihan, is a form of capital, much of it formed by government investment in education. And knowledge begets government. He says: Behold California's Imperial Valley, unchanged since "the receding of the Ice Age." Only God can make an artichoke, but government—specifically, the Bureau of Reclamation—made the valley a cornucopia. Time was, hospitals' biggest expense was clean linen. Then came technologies—diagnostic, therapeutic, pharmacological—that improved health, increased costs and expanded government.

"Not long ago," Moynihan has written, "it could be agreed that politics was the business of who gets what, when, where, how. It is now more than that. It has become a process that also deliberately seeks to effect such outcomes as who thinks what, who acts when, who lives where, who feels how." Moynihan appreciates the pertinence of political philosopher Michael Oakshott's cautionary words: "To try to do something which is inherently impossible is always a corrupting enterprise."

The 14-year-old Moynihan was shining shoes on Central Park West when he heard about Pearl Harbor. In the subsequent six decades he has been more conversant with, and more involved in, more of the nation's transforming controversies than anyone else. Who will do what he has done for the intellectual nutritiousness of public life? The nation is not apt to see his like again, never having seen it before him.

MOYNIHAN'S LEGACY IS WRITTEN IN STONE

(By Benjamin Forgey)

Sen. Daniel Patrick Moynihan, on the edge of retirement as the 106th Congress argues its way to a finish, tells the story whenever he feels the audience is right. And why not? It is a true-life Washington legend.

Time: Summer 1961. Place: The White House. Scene: A Cabinet meeting with President John F. Kennedy. The nation's chief policymakers are busily deliberating foreign affairs but pause, Moynihan says, "when the next-most-important issue in government comes up—which, of course, is office space."

That line always gets a laugh. Moynihan knows Washington and knows what people think about Washington—one-liners at the expense of the bureaucracy never miss. But

what comes afterward is the true beginning of the legend.

The president appoints Labor Secretary Arthur J. Goldberg to co-chair "something with the unpromising title of Ad Hoc Committee on Federal Office Space." To Moynihan, then Goldberg's 34-year-old deputy, falls the duty of finding out exactly how much space is needed, and writing the report.

It is far-fetched to imagine a 15-page committee report about government office space having much significance for even 38 minutes after being written. This one, completed in the spring of 1962, has had a far-reaching impact across 38 years, for it contained, improbably, the genesis of a plan to redevelop Pennsylvania Avenue.

The opportunistic idea was Goldberg's—he had decided to try to do something about the avenue when surveying its fragmented, decaying north side from a slow-moving limousine during Kennedy's inaugural parade. But the brilliant words were Moynihan's.

He vividly sketched the "scene of desolation" on the northern side, opposite the impressive classic revival buildings of the 1930s Federal Triangle. He sensitively summarized the avenue's history, showing a rare understanding of the crucial role assigned to it in Pierre Charles L'Enfant's 1791 plan—"symbolizing," Moynihan wrote, "at once the separation of powers and the fundamental unity in the American Government."

Above all, Moynihan showed that he understood cities. The avenue's poor state meant that private capital soon would begin the process of tearing down and building anew. The opportunity had arisen, he wrote, "to design and construct what would, in effect, be a new avenue," and the federal government had a historic duty "to maintain standards of buildings and architecture in the nation's capital."

Moynihan's vision was humane and, for its time, exceptionally urbane. "Care should be taken," he admonished, "not to line the north side with a solid phalanx of public and private office buildings which close down completely at night and on weekends. . . . Pennsylvania Avenue should be lively, friendly, and inviting, as well as dignified and impressive."

More than any other American politician of the second half of the 20th century, Moynihan has engaged the issue of architecture, urban design and infrastructure. He has used his intellectual prowess, political skills and sheer power to establish meaningful rules, to save historic buildings, to improve federal architecture, to get buildings built. Washington has been the great beneficiary of these involvements—most dramatically on the section of the great boulevard linking the Capitol and the White House.

There is a sense in which the rebuilding of Pennsylvania Avenue became Moynihan's destiny. Partly by chance, partly by design, he has been around to persuade, push and prod a vision into reality. And, for the last 10 years, he has been able to watch it happen with his wife, Elizabeth, from their apartment above the Navy Memorial and Market Square, on the avenue between Ninth and Seventh Streets NW.

Soon after the report was published, Goldberg was appointed to the Supreme Court. Moynihan thus inherited responsibility for shepherding the avenue dream in the Kennedy administration. He became great pals with Nathaniel Owings, the celebrated architect Kennedy chose to come up with a plan. The pair would walk the avenue in the evenings and talk excitedly of its past and future while sitting, recalls Moynihan, on "those nice, strong benches next to the National Archives."

Then, after Kennedy was assassinated, Moynihan helped keep the project alive during the Lyndon Johnson presidency—nothing

had been built. He had the enthusiastic collaboration of White House counsel Harry McPherson Jr., and an invaluable plug from Jacqueline Kennedy, who "saved the undertaking in a farewell call on President Johnson," Moynihan recalls. Thereafter, he says, Johnson "took Mrs. Kennedy's wishes as something of a command."

Moynihan admits that, as much as he liked and admired Nat Owings, he did not care for Owings's formidable first plan. It was a "terrible plan," he now says, though he did not say so at the time. The young politician was perhaps a bit in awe of the elder Great Architect—lots of people were. The firm that Owings had started in the 1930s—Skidmore, Owings & Merrill—was by then world-renowned.

How flawed was that first plan? Well, typical of its time, it called for massive demolitions—including the National Press Club building and the Willard and Washington hotels. These were to be replaced by an impressively bloated National Square or by massive buildings all in a row.

Fortunately, time was not kind to this vision. We can judge how lucky we are by pondering the one building that actually got built: the FBI headquarters, that odd-looking, off-putting giant facing the avenue between Ninth and 10th streets NW.

It is possible that, even then, Moynihan suspected he was in this for the long haul. As it happened, he left Washington in 1965 but was backed by 1969—shockingly, to his liberal-Democrat colleagues—as top urban affairs adviser to Republican President Richard Nixon.

Once again, Moynihan had lots to say about Pennsylvania Avenue. It is no coincidence that during Nixon's first term the avenue plan was given real teeth in the 1972 legislation creating the Pennsylvania Avenue Development Corp. And it was a very different, less destructive plan—much more in keeping with Moynihan's original admonishment to be "lively, friendly and inviting."

Nothing much got built during the '70s, but the PADC was quietly preparing the groundwork. By the time building got started in the early '80s, Moynihan was back in town, this time as a senator from New York. Since then, he has been there tirelessly for the avenue—out front or behind the scenes, in large matters or small.

How large? The Ronald Reagan Building and International Trade Center—the big mixed-use federal building at Pennsylvania and 13th Street NW—is one of his enthusiasms. Back in the Kennedy years, Moynihan's Labor Department office in the Federal Triangle had looked out on parking lot of "surpassing ugliness." He never forgot, and that lot is where the Reagan Building stands.

How small? Moynihan never forgot, either, that the Ariel Rios Building, at 13th Street, had been left incomplete when work on the Federal Triangle ceased; its brick sidewalk was left exposed "just like an amputated limb," in the words of J. Carter Brown, chairman of the federal Commission of Fine Arts. Moynihan, Brown believes, was the "eminence grise who was able to shake the General Services Administration by the lapels and get that thing finished."

But if in one way or another Moynihan had a hand in practically everything that was built—or saved—on this crucial stretch of Pennsylvania Avenue, he also worked for Washington in other ways. He helped mightily to preserve and find new uses for three of Washington's most notable historic structures—the Old Patent Office (now housing two Smithsonian museums), the Old Post Office (a mixed-use building because of a law Moynihan pushed through) and the Old Pension Building (now the National Building Museum).

Just about single-handedly did Moynihan arrange for the construction of the distinguished U.S. Judiciary Building next to Union Station. He was a crucial negotiator in the brilliant deal by which New York and Washington each get a share of the National Museum of the American Indian. Moynihan fought to get cars off Frederick Law Olmsted's Capitol grounds. He continues to wage an enlightened campaign for reasonableness about security in federal buildings. The list could go on.

Of course, it isn't simply Washington that has benefited. As might be expected, Moynihan's own state has profited immensely as well.

The new Penn Station—a complex, ongoing project involving federal, state and city bureaucracies and private enterprise—is just the latest of dozens of important examples. There's much talk of calling it "Moynihan Station" because he was its "guiding light and soul," says chief architect David Childs.

Nor is it just Washington and New York. It is the nation. Two examples of many: The Intermodal Surface Transportation and Efficiency Act of 1991 and its successor, the Transportation Equity Act for the 21st Century ("Ice Tea" and "Tea 21" for short), are Moynihan bills through and through and through. By encouraging mass transit and loosening the highway lobby's decades-old stranglehold on the nation's transportation policy, these laws do the country an estimable service.

And then there are his "Guiding Principles of Federal Architecture." They are straightforward and smart: There should be no official style; the architecture should embody the "finest contemporary American architectural thought." Regional characteristics should be kept in mind. Sites should be selected with care. Landscape architecture also is important.

The principles take us back to that committee report of 38 years ago. Nobody asked for a Pennsylvania Avenue plan and no one asked for architectural guidelines. Moynihan simply invented them and attached them to the report, and they have functioned as a beacon for high-quality federal architecture ever since.

Moynihan's act is almost impossible to follow. In the phrase of Rep. Earl Blumenauer (D-Oregon), another architecture fan, Moynihan possesses "a bundle of qualities" seldom found in a single politician: a good eye, a first-rate mind, a passion for the subject, lots of power, long experience, a certain flamboyance, a canny sense of timing.

Nor is there likely to be another politician alive whose favorite quotation is Thomas Jefferson's statement: "Design activity and political thought are indivisible."

Mr. CONRAD. Mr. President, today, I wish to pay tribute to the very distinguished Senator from New York, who will be retiring at the end of this Congressional session.

Senator MOYNIHAN, as his recent biography makes clear, has been an intellectual giant in the Senate and throughout his service to our nation. The breadth of his interests—and his knowledge—is extraordinary. From questions about the architecture and urban development of Washington, D.C. to the problems created by single parent families to the workings of the International Labor Organization, Senator MOYNIHAN has thought deeply and designed policy answers. I don't think there's a Senator who hasn't learned something from Senator MOYNIHAN's vast stock of personal experience, un-

derstanding of history, and ability to draw parallels between seemingly unrelated topics to enlighten our understanding of both.

I have had the particular pleasure of serving with Senator MOYNIHAN on the Finance Committee for eight years. As Chairman and as ranking member of the Finance Committee, Senator MOYNIHAN has been a true leader. Starting in 1993, when I took Senator Bentsen's seat on the Committee and Senator MOYNIHAN claimed his chairmanship, Chairman MOYNIHAN successfully guided the 1993 economic plan through the committee and the Senate. That budget, which I was proud to help shape and support, laid the foundation for our current record economic expansion. That same year, we worked together to expose the shortcomings of the North American Free Trade Agreement.

After Republicans took control of the Senate in the 1994 election, Senator MOYNIHAN was a fierce critic of their excessive budget proposals. We joined in opposing shortsighted proposals to have Medicare "wither on the vine," turn Medicaid into a block grant, and destroy welfare rather than reforming it. Senator MOYNIHAN was, as always, an especially passionate defender of teaching hospitals, warning that the plan to slash spending for Medicare's graduate medical education would threaten medical research in this country—a fear that has proved well-founded as teaching hospitals have struggled to survive the much smaller changes enacted as part of the compromise Balanced Budget Act that emerged in 1997.

The Finance Committee—and the Senate—will not be the same without him. Who else will be able to gently tutor witnesses on the importance of the grain trade in upstate New York in the early nineteenth century to a current debate about health care policy? Who else will call for the Boskin and Secrecy Commissions of the future? And who else will educate his colleagues on the inequitable distribution of federal spending and taxation among the various states?

Mr. President, I will miss PAT MOYNIHAN. But I have no doubt that he will continue to be part of the debate. As Senator MOYNIHAN retires to his beloved farm in upstate New York, I join my colleagues in looking forward to more and more insightful treaties on new and complicated policy issues.

RETIREMENT OF SENATOR J. ROBERT KERREY

Mr. LEVIN. Mr. President, when the Senate adjourns Senator BOB KERREY will be retiring from the Senate.

BOB KERREY served his beloved state of Nebraska as a highly popular and successful governor from 1982 to 1987. As governor, he was widely credited for his efforts to balance the budget and for educational and welfare reform. In 1988, he was elected to the Senate. But, BOB KERREY established himself as a man of great courage and intellect long

before he was elected governor or entered the U.S. Senate. He was an American hero long before he became a Senate hero. Now he's both. Time and time again, he earned his reputation as one of the most courageous members of this body by taking on the toughest issues around—from entitlements to health care, and speaking his mind no matter what. He took on sacred cows where others feared to act. He did so with tremendous dash and daring, with a wonderful youthfulness and enthusiasm. His speeches against amending the First Amendment of our Constitution relative to flag burning, for instance, have been speeches which I have often used as a resource back home to prove that the most courageous among us—those that have put their lives on the line for this country—also believe in its Constitution with great passion and believe we must not reduce its protections of our freedoms in response to the behavior of a few misguided or extreme individuals.

As a member of the Senate Finance Committee and the Senate Agriculture Committee, BOB has earned a reputation as a proponent of tax reform, Medicare and Social Security reform, and as a tireless advocate for the nations' farmers.

The Senate will sorely miss Senator BOB KERREY's wise and experienced voice on national security matters. And, I will deeply miss his presence, although I trust that we will see him often and that his new role at the New School University will not keep him from weighing in on public policy issues that so need his special touch.

I have often thought, only half in jest, that Senator KERREY should be awarded a second Congressional Medal of Honor for his many brave stands in the Senate to match the one he won in war. It has truly been a privilege to serve with BOB KERREY and I will miss the noble passion and purpose he has brought to so many causes.

Mr. CONRAD. Mr. President, I rise today to pay tribute to my good friend Senator BOB KERREY. I have mixed emotions knowing that the United States Senate, the State of Nebraska, and the nation are losing a valued public servant at a time when we can ill afford to lose a person of such great talent. I am saddened thinking about the loss of his valued presence in this chamber. But, I also recognize that my friend is leaving by his own choice to take on the challenges of a new adventure as president of the New School University of New York City. New challenges and new accomplishments are about to be added to his already legendary list of achievements that include Medal of Honor recipient, entrepreneur, governor, and Senator.

I smile as I think about the good company my colleague has been at the Senate Committee on Agriculture. I always felt as if the hearing room brightened up a notch when Senator KERREY entered the room. I appreciated greatly the fact that we never failed to share a

few light moments together, even as we worked to help the farmers and ranchers we represent. His collegial approach crossed the aisle, too. Senator KERREY moved landmark agricultural legislation to passage with hard work and the respect he garnered from his colleagues on both sides of the aisle, as he did this session with the crop insurance reform bill.

We also served together on the Senate Finance Committee, where Senator CONRAD has been an absolute bulldog on the issue of entitlement reform. Senator KERREY headed up the bipartisan entitlement commission and served on the Medicare Commission. He was a particularly active participant in the centrist coalition, which worked to find common ground on budget issues during the partisan stalemate in 1995 and 1996—an effort that helped produce the 1997 Balanced Budget Act. On these very difficult issues, Senator KERREY has always been willing to consider policies that make sense for the long term even when these policies carry a high political price in the short term. He was a leader in insisting that the Senate version of the Balanced Budget Act contain long term Medicare reforms as well as short term fixes. Yet throughout these discussions, Senator KERREY has also been a strong defender of the most vulnerable among us—from children in low income families struggling to get by with cash assistance, food stamps and Medicaid to rural seniors who depend on adequate Medicare reimbursement to maintain health care in their local community.

All of us will miss his keen intellect, his insight and his candor. We will miss his terrific sense of humor. We will miss his positive attitude. We will miss the unique perspective he brings to every discussion. We will miss his integrity and his courage. But most of all, we will miss the boundless enthusiasm he brings to public service. There is no question the Senate will soon be made poorer by his departure, and there is no doubt Senator KERREY will make the university community he now joins richer by bringing these wonderful attributes to his new position.

We thank you Senator KERREY for your service to the United States Senate.

And I thank you for your friendship.

Mr. WARNER. Mr. President, I rise today to pay tribute to Senator ROBERT KERREY of Nebraska. As Undersecretary, then Secretary of Navy for over five years during the war in Vietnam, I learned first hand the courage and sacrifice of the men and women of the armed forces who served our Nation.

Lieutenant, USN, BOB KERREY earned our nation's highest recognition for his valor and unwavering leadership during that conflict. Those same extraordinary personal attributes BOB KERREY brought to the Senate.

Serving with BOB is a reward all Senators will cherish. Though the challenges of education will be his next call

to duty, I predict he will someday soon be back in public office. Enjoy this respite, my friend, but harken to the bugle-call in years to come for another career to strengthen our nation with your "brand" of leadership.

I shall miss our vigorous floor debates, our trips abroad to visit our troops, our moments of levity as two old bachelors.

As we sailors say, "well done sir"!

RETIREMENT OF SENATOR SLADE GORTON

Mr. LEVIN. Mr. President, as this session of Congress ends, Senator SLADE GORTON of Washington will leave the Senate. Senator GORTON has long been a leader among the Republicans and a thoughtful voice in the Senate.

Senator GORTON, a hard-worker, has served not only on the Senate Appropriations Committee, where he chairs the Interior Appropriations Subcommittee, but on the Budget Committee, the Commerce, Science and Transportation Committee, the Energy and Natural Resources Committee, and the Indian Affairs Committee. He has carried an impressive workload.

In addition, SLADE GORTON, a former Attorney General in the State of Washington, earned a reputation as a tough proponent of fighting violent crime, particularly international terrorism.

While proud of his conservative credentials, SLADE GORTON was often willing to reach across party lines to work with Democrats on issues like consumer affairs and an increase in the minimum wage.

I admired SLADE GORTON's work along with Senator Joe LIEBERMAN to fashion a sensible, balanced and expeditious way to consider the impeachment resolution sent to the Senate by the House of Representatives in 1998. While the plan was ultimately not adopted by the Senate, the careful and judicious effort to put such a plan forward reflected SLADE's commitment to the dignity of the United States Senate.

As this year winds to an end, I know that I am joined by my colleagues in the Senate in wishing SLADE GORTON and his wife, Sally, their three children and seven grandchildren, the very best in the years ahead.

Mr. CONRAD. Mr. President, I rise today to add my voice to those paying tribute to Senator SLADE GORTON upon his departure from the Senate.

I have had the privilege of serving with Senator GORTON on the Senate Budget Committee for the past eight years. During this time, Senator GORTON has fought hard for the principles he believes in: a stable economy and a balanced budget. He has made a significant contribution to bringing fiscal discipline to our nation. As part of that effort, in 1996 Senator GORTON and I, as part of the Centrist Coalition, worked with many other Senators to forge a compromise budget resolution that balanced fiscal responsibility with our nation's discretionary spending needs.

Senator GORTON can be proud of his contribution to ending the deficits of the 1980s and early 1990s.

Senator GORTON has been a leader in the Senate by focusing on the high-tech revolution that has dramatically changed our economy. He has fought to ensure that we are teaching the next generation of high-tech workers in our schools and has fought to keep our high-tech sector the best-trained in the world. He has also been a champion of providing tax incentives for companies to conduct the basic research and development that has helped fuel the dramatic growth of the high-tech industry in recent years.

Finally, let me recognize the work Senator GORTON has done as Chairman of the Interior Appropriations Subcommittee. Every year he has had a difficult task developing a spending bill for the Interior Department and related agencies. He has also helped other Senators to meet needs in their own states, and I appreciate all of Senator GORTON's help over the years to meet particular needs in North Dakota. Even when Senator GORTON could not meet all the requests his colleagues presented, he was always fair in his consideration of each Senator's needs.

Senator GORTON's dedication to the long-term health of our economy, his work for the high-tech sector, and his leadership on the Interior Appropriations Subcommittee are but just a few examples of his work that have produced clear results not only in Washington state, but also for our entire nation. He will be missed here in the Senate, and I wish him all the best in his future endeavors.

Mr. WARNER. Mr. President, I rise to pay tribute to a genuine leader in the United States Senate, my colleague and friend—Senator SLADE GORTON.

We have served together over his entire 18 year career in the Senate. Of the 23 men and women who have served the State of Washington in the Senate, SLADE has earned a ranking commensurate with those classic giants Senator Henry "Scoop" Jackson and Senator Warren Magnuson.

SLADE has served the State of Washington with distinction, but he has also served the nation, exceptionally well. Beginning with his service in the United States Army in 1946, SLADE has served his state and the country for nearly 40 years in a number of elected offices.

He has fought for balanced budgets, tax relief, and health care reforms. We served together on the Armed Services Committee, and I, as Ranking Member, was the beneficiary of his wise and steadfast counsel.

SLADE, you are a valued friend. I wish you and your wife Sally well in the years ahead.

THE RETIREMENT OF SENATOR FRANK LAUTENBERG

Mr. THURMOND. Mr. President, I rise today to pay tribute to a fine indi-

vidual and distinguished colleague upon his retirement. At the close of the 106th Congress, Senator FRANK LAUTENBERG will step down from his position as a United States Senator after 18 years of dutiful service to the people of New Jersey and the citizens of the United States of America.

Senator LAUTENBERG has truly lived the American Dream. The son of immigrants, Senator LAUTENBERG, was born in the hard working town of Paterson, New Jersey in 1924. During his childhood his family moved some twelve times in search of employment, and his father spent a majority of his time working in the Paterson silk mills.

After his high school graduation, Senator LAUTENBERG answered his country's call to duty when he enlisted and served in the Army Signal Corps in Europe during World War II. Following his military service, he enrolled in Columbia University on the G.I. Bill, and graduated with a degree in economics in 1949.

Senator LAUTENBERG then began a very successful business career. He and two of his childhood friends founded Automatic Data Processing (ADP), ADP, a payroll services company, developed into one of the largest computer service companies in the world.

FRANK LAUTENBERG worked very hard to achieve success in the business world. Many individuals would have simply stepped away to a more relaxing and slow paced life, but not Senator LAUTENBERG. Throughout his tenure, FRANK LAUTENBERG has exhibited the characteristics of patriotism, hard work, and service to others that define great Americans.

In 1982, he decided to begin a new career in public service, and for the past 18 years he has represented the people of New Jersey in the United States Senate. Senator LAUTENBERG wanted to give back to the state and Nation that gave him the opportunity to rise to great heights, and he has worked diligently to make America a better country for her citizens and future generations.

It has been a pleasure working alongside Senator LAUTENBERG, especially on such issues as reducing alcohol abuse. We shall miss him in the Senate chamber, and I wish Senator FRANK LAUTENBERG and his entire family health, happiness, and continued success.

Mr. LEAHY. Mr. President, one of the greatest pleasures of being a Senator is working with fellow-members like FRANK LAUTENBERG. Few Senators have brought more dedication and experience to their service in this body.

I will never forget how excited my father was to meet Senator LAUTENBERG when he first came here almost 18 years ago. My father of proud Irish descent followed FRANK's first campaign. There was a wonderful connection between the two of them, and I am forever grateful to Senator LAUTENBERG for the lovely letter of condolence that he sent me when my father passed

away. FRANK LAUTENBERG is first and foremost a good friend.

Of course, Senator LAUTENBERG is also a skilled legislator. We served together for years on the Appropriations Committee. Recently, the committee debated an amendment to the Defense bill that would lead to the withdrawal of U.S. troops to Kosovo. A veteran of the European theater in World War II and the builder of a data processing empire, Senator LAUTENBERG understood that democratic stability could come only through a long-term and patient investment in peace.

What made Senator LAUTENBERG's argument so effective was not just the ideas he possessed but the way he delivered them. He has a rhetorical force that I have always admired, and I think that this ability to marry sound ideas with effective speech-making is what makes him such a stellar member.

Of course, Senator LAUTENBERG had a number of legislative accomplishments. He helped make our democracy more transparent, opposing confusing smoke and mirrors as a Chairman and Ranking Member of the Senate Budget Committee. He promoted international justice, fervently urging the prosecution of war criminals. Senator LAUTENBERG understood that reconciliation and economic growth could not come until these perpetrators are held responsible and punished for their actions. At home, Senator LAUTENBERG laid the foundation for our strong economic growth of the last decade. Amtrak and commercial aviation had no greater friend than Senator LAUTENBERG, who confidently chaired the Senate Appropriations Subcommittee on Transportation. And he has improved the public's health, encouraging restrictions on tobacco use and ensuring the cleanup of hazardous waste sites.

In his 18 years here, Senator LAUTENBERG had an impact that goes beyond his important votes and the bills he sponsored. Through his experience and knowledge, he was steadfast advocate for freedom, fairness, and responsibility. He kept these ideal on an unalterable course, and we are all in his debt for it.

Mr. CONRAD. Mr. President, before Congress adjourns for the year, I wanted to take a moment to pay tribute to Senator FRANK LAUTENBERG of New Jersey, who is retiring this year.

Senator LAUTENBERG served our nation in World War II, and later became a successful businessman. He helped to found a payroll services company, Automatic Data Processing (ADP), and built it into one of the largest computing services companies in the world.

In 1982 FRANK LAUTENBERG launched a new career, in public service, when he was elected to the United States Senate. He has represented his state well. FRANK LAUTENBERG has been a leader on budget issues, a good friend to the environment, and an accomplished legislator in the areas of transportation and health care.

I have served on the Senate Budget Committee with FRANK LAUTENBERG since 1987; he became Ranking Member of the Committee in 1997. Senator LAUTENBERG played a key role in the 1997 negotiations on the bipartisan Balanced Budget Act, which completed the work of balancing the federal budget. That legislation provided important resources for education and health care, while cutting taxes for millions of Americans.

Senator LAUTENBERG has also been a good friend to the environment, serving as the top Democrat on the Environment and Public Works Committee's Subcommittee on Superfund. Throughout his time in the Senate, Senator LAUTENBERG has fought to improve the Superfund program, and has worked for legislation preventing pollution, and ensuring clear water and clean air.

Senator LAUTENBERG's accomplishments in the area of transportation are impressive. He serves as the top Democrat on the Appropriations Committee's Subcommittee on Transportation. Senator LAUTENBERG authored laws establishing the legal drinking age at 21, and was successful just this year in encouraging states to reduce legal blood alcohol limits to .08. He worked successfully to ban smoking on airplanes, and has championed funding for Amtrak and mass transit.

Senator LAUTENBERG has also worked for some time on health care, including tobacco policy issues. He is a nationally recognized leader in the fight to protect our young people from the health consequences of cigarettes. In 1997, I was extremely fortunate that Senator LAUTENBERG was chosen to co-chair the Senate Democratic Task Force on Tobacco. Senator LAUTENBERG was a particularly strong proponent of provisions on second-hand smoke and the so-called "look-back" enforcement mechanism to reduce youth smoking rates.

FRANK LAUTENBERG's dedication and expertise on many issues will be missed greatly in the United States Senate, even as New Jersey natives welcome him home. I will miss my good friend and colleague.

RETIREMENT OF SENATOR WILLIAM ROTH

Mr. LEVIN. Mr. President, I want to join my colleagues in bidding good wishes and God speed to Senator WILLIAM ROTH, the distinguished senior senator of Delaware. I have served with Senator ROTH for most of my career on the Governmental Affairs Committee. For a significant period of that time, Senator ROTH chaired that committee and its Permanent Subcommittee on Investigations.

Senator ROTH proved an able and dedicated advocate of government reform, guiding our committee through oversight hearings and investigations into how our Federal programs were or were not working. He also spearheaded

a number of key efforts—many of which were successful—to change our laws to reduce opportunities for waste, fraud and abuse.

When I sat in my seat on the dais of the Governmental Affairs Committee, I often heard Senator ROTH argue passionately and convincingly for the enhancement of the M, or management responsibilities, in OMB, the Office of Management and Budget. As much as anyone in this body, Senator ROTH truly cared about the efficiency and effectiveness of government programs. He has my deep respect and the gratitude of all of us for his efforts in this area.

In addition, Senator ROTH distinguished himself as a gentleman in a chamber that has sometimes lost its gentlemanly manner. Senator ROTH could be tough, there's no doubt about that, on issues about which he cared, as well he should be, but he was always civil.

We will miss his gentlemanly ways and his guiding hand on the important but not-always-so-visible issues of government management. I wish him well and hope he enjoys an active but less hectic life which he so clearly deserves.

Mr. WARNER. Mr. President, I rise to pay tribute to a man I have worked with my entire Senate career: Senator BILL ROTH. He is a true friend and gentleman, as well as a superb legislator whose contributions to the nation are many.

Senator ROTH will likely be best remembered as the co-author of the famous Kemp-Roth tax cuts, initiated during President Reagan's tenure and for the Roth IRAs which have made it possible for millions around the country to invest taxable income that can be withdrawn tax-free in their retirement.

Senator ROTH has represented Delaware for 29 years, making him the longest serving Senator in our "First State's" storied history.

Senator ROTH is a decorated veteran of World War II, and began his Congressional service in 1966. He has served his country for almost 40 years. We all are indebted to him for his remarkable service.

I wish Senator ROTH and his wife, Jane, well and hope that they will cherish the years to come in the same way they have those that have past.

BILL ROTH's gentlemanly nature, his quietness and his humility were his hallmarks and strength.

Mr. CONRAD. Mr. President, when this Congress finishes its work it will also mark the end of a particularly distinguished 30-year career in this body. I rise to pay tribute to my chairman on the Finance Committee and my friend, BILL ROTH.

No Senator could hope to serve under a more thoughtful and considerate Chairman than those of us on the Finance Committee have experienced over the last five years. BILL is a true gentleman who works as hard as any Senator I know to make sure that

issues under his control have the broadest possible consensus. He has consistently reached out to members on our side of the aisle in order to make law in a way that honors the Senate's best traditions.

Like BILL, I represent a small state. He knows, as I know, what a special responsibility that is. People in a small state expect to have a personal relationship with their Senators, and I know from the times I have taken short vacations in his beautiful state the deep affection BILL inspires all over Delaware.

I am grateful for the opportunity I have had to work so closely with him on the important tax, health, and trade issues we deal with in the Finance Committee. BILL has a natural appreciation for the strong roles agriculture and tourism play in the economy of my state of North Dakota because they are such important components of Delaware's economy as well. He knows instinctively the value of looking for common ground.

Even as he leaves the Senate, however, one thing will set BILL apart. Many Senators are well known among the public at large, but very few have their names become household words. Senator ROTH earned his membership in that tiny elite. BILL's deep commitment to retirement security and savings led directly to the establishment of the Roth IRA, a retirement savings vehicle that will give savers decades from now a reason to be grateful to our beloved colleague from Delaware.

When we consider the departure of Senator ROTH in conjunction with the simultaneous retirement of the Senator from New York, the Committee on Finance is losing more than half a century of institutional memory and experience. That is a loss not only for our committee, but for the country as well.

We wish BILL ROTH all the best as he leaves us, but he will be greatly missed by his many friends and colleagues in the Senate.

RETIREMENT OF SENATOR CONNIE MACK

Mr. LEVIN. Mr. President, I want to pay tribute today to a colleague and good friend who will be leaving the Senate when the 106th Congress adjourns sine die, CONNIE MACK, the junior senator from Florida.

I have served with CONNIE MACK on the Senate Select Committee on Intelligence where, on the important issues of national security it considers, he can be counted upon to set partisanship aside, roll up his sleeves and get to work.

In the United States Senate we are called upon to work with colleagues of many differing points of view. While CONNIE MACK has served as a key member of the Republican leadership as Republican Conference Chairman, and he and I often disagree on the issues before the Senate, it has always been a pleasure to deal with him. Always an

able advocate for his point of view, he is a willing listener, open to compromise and when an opponent, always gracious, reasonable and fair.

CONNIE MACK has made a name for himself in the Senate on public housing and health care issues, particularly his efforts to make FDA-approved drugs available for other uses, especially in the fight against cancer. He and his wife, Priscilla, both cancer survivors, have been inspirational in their dedication to delivering the message to all Americans that early detection of cancer is a life-saver.

CONNIE MACK and I have shared a special bond, one of those inside jokes which create strong personal ties. Whenever I hear of someone making a great speech, I shall smile inwardly, think of CONNIE and miss his warm smile and the kind word he has for all of his Senate colleagues. I hope that in the years ahead, CONNIE and Priscilla will visit often.

Mr. CONRAD. Mr. President, I want to pay a tribute to my friend and colleague from the State of Florida who has decided to leave the Senate after a distinguished 12-year career here. It has been my pleasure to work with Senator MACK during that time on a number of important issues.

He has always been willing to reach across the aisle when bipartisan cooperation can make the difference. As colleagues on the Finance Committee, we have cosponsored each other's bills on such varied subjects as benefits for retired coal miners, fairer treatment for real estate under the Internal Revenue Code, and keeping gray market cigarettes out of the U.S. market. Senator MACK has been a generous, thoughtful, and constructive member of our committee, and we will miss his presence there every much.

Year in and year out, I am constantly impressed with the energy, intelligence, and commitment that CONNIE MACK brings to the challenging job of representing such a large and diverse State. Floridians have been privileged to have the benefit of his effective advocacy for their concerns.

I am confident that a man with public policy interests over as wide a range as CONNIE has shown during his tenure in the body is still going to be checking in with his old friends in the Senate to let us know what he's thinking. I hope we will see him often in the coming years.

I am happy to join my colleagues in wishing only the best for CONNIE and Priscilla as they move on to the next chapter in their lives.

Mr. WARNER. Mr. President, I rise today to pay tribute to Senator CONNIE MACK of Florida. There are many ways to discern the character of a Senator. CONNIE MACK has made his mark with strong leadership coupled with an unusual quality of gentleness. A true gentleman of the Senate. Senatorial courtesy was his hallmark. He loved this institution; it loved him.

One unique, but subtle mannerism reveals the inner security of this great

man—how he handled the gavel. The gavel is that symbol of authority so coveted by all Senators. As we all know, a gavel consists of two parts: the relatively small handle to hold, and the large hammer-like head to strike the blow. Senate Chairmen love the sharp "bang" connoting authority and decision.

Senator MACK is the only Senator, the only Chairman, whom I have observed in my 22 years of service who simply used the hammer head for the grip and conveyed his authority by gently tapping the end of the handle.

"May we have order, please." Immediately following was always quiet acceptance.

This symbolized to me how this elegant man commanded the great respect of all in the Senate. As with the gavel, his voice was always firm, and always with the soft tone of confidence.

We wish him well, together with his wife and family, as they accept life's next challenge.

RETIREMENT OF SENATOR RICHARD BRYAN

Mr. THURMOND. Mr. President, I rise today to recognize the selfless and noteworthy service of our esteemed colleague from Nevada, Senator RICHARD BRYAN. At the close of the 106th Congress, Senator BRYAN will retire from public service, and will end the final chapter in a most glorious and dedicated career as a servant of the people.

Even at an early age, RICHARD BRYAN displayed the leadership, sense of caring, and charisma that make for a successful public servant. Throughout his education he served as the president of many of his classes, including as the student body president his senior year at the University of Nevada-Reno.

After graduating, Senator BRYAN was commissioned a Second Lieutenant in the United States Army and served his country on active duty from 1959 to 1960. He then entered the University of California, Hastings College of Law, and graduated with honors in 1963.

Senator BRYAN returned home to Nevada and began a career in public service that would, to the benefit of the citizens of Nevada, span more than three decades. From 1964 to 1978, he served as a Deputy District Attorney, a Public Defender, a State Assemblyman, and a State Senator. In 1978, Senator BRYAN won his first state wide election when the people elected him Attorney General. Four years later RICHARD BRYAN became Nevada's 26th Governor. After two terms as Governor, in 1988, he won election to the United States Senate. Richard BRYAN is the only Nevanadan to have served as the state's Attorney General, Governor, and United States Senator.

Clearly, Senator RICHARD BRYAN has always kept in mind the best interests of the people of Nevada and they have consistently asked him to represent these concerns. Additionally, over the

last twelve years, Senator BRYAN has become one of the Nation's leading consumer advocates. His deep concern for the consumer was evident by his successful campaign to require the installation of passenger side air bags in all cars sold in the United States. Many lives have been saved because of Senator BRYAN's promotion of this legislation.

It has been a pleasure getting to know Senator RICHARD BRYAN these past twelve years, and I wish he, and his fine wife Bonnie, the best of luck in the future. I know they will enjoy all the benefits of retirement, especially the opportunity to spend more time with their family.

Mr. CONRAD. Mr. President, I would like to recognize the leadership and accomplishments of an esteemed colleague who will be retiring at the end of this term. Senator RICHARD BRYAN has served in the Congress as a representative of Nevada for more than a decade. During his tenure, he has been a tireless advocate of a wide range of legislative reform activities.

Throughout his career, Senator BRYAN has fought for improving natural resources, enhancing the quality of the nation's classrooms, and protecting privacy on the Internet. Senator BRYAN has also been nationally recognized for his efforts on behalf of consumers.

As the former Chairman of the Senate Consumer Affair Subcommittee, Senator BRYAN was responsible for enacting laws to give consumers new powers to correct errors found on their credit reports and led the fight against telemarketing fraud. Perhaps most notably, DICK BRYAN was a champion of 1993 legislation that required air bags be installed in every new car sold in the U.S. These are important accomplishments that benefit consumers across the nation.

As colleagues on the Finance Committee, we have fought to address the challenges facing Social Security and Medicare. Just this year, we worked closely to develop a proposal to provide prescription drug coverage for all Medicare beneficiaries. I am proud to say that this proposal would provide much needed drug coverage to millions of seniors citizens and disabled individuals.

I have also had the opportunity to work with Senator BRYAN to address a very important priority for the nation—balancing the federal budget. We enjoy federal budget surpluses today because of the efforts of members like Senator BRYAN who supported measures to cut government waste and get our fiscal house in order.

For these and many other reasons, I have been honored to serve with DICK BRYAN. I would like to join my colleagues in wishing the Senator and his family the best in the future and in paying tribute to DICK BRYAN's lifelong commitment to public service. I wish him well.

SENATOR CHARLES S. ROBB

Mrs. BOXER. Mr. President, today I wish to pay tribute to my colleague from Virginia, Senator CHUCK ROBB, who will leave the Senate in January after 12 years of exemplary service to his state as a member of this body.

As others have noted, CHUCK ROBB has had a long and distinguished career in public service. He served his country for 34 years in the Marine Corps and reserves, and he is a highly decorated combat veteran. He was a widely popular governor of Virginia, who increased the state's education budget by \$1 billion, and appointed many women and minorities to top government jobs. And he has now served two terms as a United States Senator, where he has been praised for his leadership on national security, education, and the budget.

But I would like to note several aspects of CHUCK ROBB's Senate tenure that may not be quite as familiar, but for which I will always remember him and be grateful to him. The fact is that he was a hero on many issues: civil rights, human rights, and a woman's right to choose.

Time and time and time again, even in the most difficult and politically charged debates, Senator ROBB was steadfast in his support for the precious right of women to control their own bodies without interference from government.

He led the fight in the Senate to bring justice to African-American farmers throughout the nation who had been discriminated against by the Department of Agriculture. His legislation helped lead to the largest civil rights settlement in our history.

And then, in February 1993, he delivered a powerful and moving speech on the floor of the Senate, the message of which was that all of God's children, regardless of sexual orientation, should be treated equally in the military.

I will always remember Senator ROBB's eloquent words:

The issue should be not what kind of person you are but what kind of soldier, sailor, airman, or marine you are. . . . I would suggest to you, Mr. President, morale is in the heart of each service person. The threat to morale comes not from the orientation of a few but from the closed minds of many.

I was deeply touched by these words of tolerance and understanding, particularly because they came from one who had served so gallantly in the Marine Corps.

So I salute you and I thank you, CHUCK, and send you my very best wishes as you move on to new challenges.

Mr. President, I ask unanimous consent that the full text of the statement be printed in the RECORD.

There being no objection, the material ordered to be printed in the RECORD, as follows:

FAMILY AND MEDICAL LEAVE ACT OF 1993
(Senate—February 4, 1993)

Mr. MITCHELL. Mr. President, I yield 5 minutes to the Senator from Virginia.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. ROBB. Mr. President, I thank the chair.

What is it that makes an excellent soldier? I submit to you that it five basic virtues: Devotion to duty; loyalty to country, commanders, and comrades; skill in military arts; personal integrity; and courage. If you have these qualities, you can be an excellent soldier, whether your name of Manursky or Jefferson, Goldberg or Nguyen, Warner, Dole, Kerrey, or McCain.

A number of Americans who have these qualities, however, are being excluded from serving their country in the military for reasons beyond fitness or performance.

People have told me for some time that they cannot understand how someone who thinks of himself as a gung-ho marine can march to the music of a drummer that I do not hear.

Mr. President, the drummer I hear plays the Marine Corps Hymn. It still gives me a chill, and I still stand when it is played. I certainly do not want to detract in any way from the military's effectiveness or performance.

Because of that, I cannot stand by and let a policy that I consider less than perfect keep our services from attracting the best and most competent people. The issue should be not what kind of person you are but what kind of soldier, sailor, airman, or marine you are.

As a former marine who considers his 34-plus years in uniform and in the reserve to be the proudest affiliation of my life, I well understand those who argue the importance of maintaining morale and good discipline in the ranks.

But I would suggest to you, Mr. President, morale is in the heart of each service person. The threat to morale comes not from the orientation of a few but from the closed minds of many. President Truman recognized that when he ordered the services to be integrated by race despite the racial animosity of many then in service.

Do some of today's soldiers fear what they do not understand? Certainly, they do. Obviously. But should America's policy be guided by fear, or should be work to overcome prejudice by showing that merit and behavior, not orientations, are what counts in the military?

I have spent a great deal of time discussing this with a number of friends, including the Chairman of the Joint Chiefs, Gen. Colin Powell. Some think that I am simply on the wrong side of this issue, and I understand this and other objections to the proposal.

General Powell recently drew a difference between discrimination based on sexuality, which he called a behavior, and that based on race, which he called a benign characteristic. But I submit to you that race is obvious, until and unless it is expressed in conduct. And if that sexuality is expressed, it is no longer benign. Then it will run into the existing regulations of the Uniform Code of Military Justice.

The code offers sufficient protections against much of the conduct that supporters of this amendment fear. And it can certainly be expanded to prevent breaches of decorum or good order.

The specter of drill sergeants dancing together is unsettling, to say the least, Mr. President. But some of the amendment's supporters fail to note it is just the kind of behavior already prohibited by the Uniform Code, as is almost all of the conduct presented as a concern by those who are in favor of this particular amendment.

The President is the Commander in Chief of the Armed Services, and he sets the goals. Just as many military men were given the goal of ejecting Iraqi forces from Kuwait,

and led the plan and implemented that goal, I believe that the military should also be cast with making the President's goal a reality.

As a former military commander, I can tell you that if a goal of truly equal access to military service is to be reached, I believe that the military itself will have to come to terms with it.

That will best be done if given the proper role of implementing the President's directive. The hearings announced actually last year by the distinguished chairman of the Armed Services Committee will add information and understanding to that process and will let us fulfill the Congress' proper role of ensuring that readiness is maintained while achieving the President's goal. But I ask we not let fear govern our actions. While we may not perfectly understand what motivates individual sexuality, we cannot allow that lack of understanding to block deserving patriotic Americans from service.

Mr. President, I hope that my colleagues will oppose the amendment offered by my distinguished and very respected colleague, the Republican leader, in this particular instance.

I yield the floor.

• Mr. FEINGOLD. Mr. President, I rise today to pay tribute to CHUCK ROBB, a friend and colleague whom I deeply admire. Throughout our service together in the U.S. Senate, I have observed Senator ROBB's unfailing commitment to principle. CHUCK ROBB served his country courageously in Vietnam, and he served the Commonwealth of Virginia just as courageously in the U.S. Senate. Time and again, he voted his conscience, despite pressures to the contrary. Senator ROBB let principle, not politics, be his guide during his service in the body. His conduct should give every American faith that legislators can conduct themselves in a way that does honor to our democracy.

Senator ROBB opposed the flag desecration constitutional amendment, opposed the Defense of Marriage Act, and supported spending cuts while opposing the politically popular tax cuts. He did what he thought was in the best interest of Virginians and the nation, and I thank him for that. The Senate is a better place for Senator ROBB's service, and I join my colleagues in wishing him and his family all the best as he moves on to new endeavors. •

Mr. CONRAD. Mr. President, I would like to recognize the leadership and accomplishments of a respected colleague who will be departing at the end of this term. Senator CHUCK ROBB has served in the Senate as a representative of Virginia for more than a decade. During his tenure, he has been a strong advocate for a wide range of important legislative reform activities.

During his time in the Senate, Senator ROBB has fought to strengthen national security, maintain fiscal responsibility, and protect the environment. He has also been widely recognized for his longstanding commitment to improving education.

As a former Governor of Virginia, Senator ROBB was instrumental in increasing resources for schools. Building on these efforts, he spearheaded efforts to help states and localities build and

renovate schools, promoted legislation to put 100,000 new teachers in the classroom, fought for school safety initiatives, and championed measures to wire schools to the Internet. These are important efforts that have benefited children and teachers across the nation.

As colleagues on the Finance Committee, we have fought to address the challenges facing Social Security and Medicare. Just this year, we worked closely to develop a proposal to provide prescription drug coverage for all Medicare beneficiaries. I am proud to say that this proposal would provide much needed drug coverage to millions of seniors citizens and disabled individuals.

I would also like to note that I am proud to have worked with a colleague with such a distinguished military background. Senator ROBB served our nation for more than 34 years, during which time he received national honors for his leadership and commitment to serving our nation.

For these and many other reasons, I have been honored to serve with CHUCK ROBB. I would like to join my colleagues in wishing him and his family all the best in the future.

RETIREMENT OF SENATOR JOHN ASHCROFT

Mr. LEVIN. Mr. President, as we conclude the 107th Congress, we will be saying goodbye to our colleague and friend, Senator JOHN ASHCROFT of Missouri.

A former two-term Governor, JOHN ASHCROFT has earned a reputation in the Senate for his principled pursuit of conservative issues. He is also recognized as a strong proponent of the wide use of the internet by federal agencies as a way to make the government more responsive and accountable. As a leader in the term-limits movement, he carried out the innovative online petition drive.

Senator ASHCROFT served on the Senate Foreign Relations Committee, as well as the Commerce and Judiciary Committees. He established himself as a leader among Republicans on a range of issues from term limits to tax reform and welfare reform. While in many instances I have found myself on the opposite side of issues from John, I have always respected his intellect, his integrity, his principled positions and his ability to disagree without being disagreeable.

Since 1995, JOHN ASHCROFT and I have co-chaired the Senate Auto Caucus. In this capacity, we have worked together to provide Senators with up to date information on issues affecting the automotive industry and its employees. Through the Auto Caucus we organized informational briefings to give Senators and their staff and opportunity to better understand the auto industry's remarkable progress as well as the challenges it faces. The Caucus provides a forum for Senators to exchange

ideas on issues affecting the industry such as transportation, environment, trade, technology and health care.

Working together with Senator ASHCROFT's, we were able to increase membership in the Auto Caucus from six Senators to twenty-eight. The Auto Caucus played a leadership role in pressing the Administration to negotiate market opening trade agreements with Japan and Korea in the automotive sector and continues to weigh in on and monitor those agreements. In addition, the Caucus hosts meetings between Senators and Automotive CEOs, provides timely briefings on US-Japan and US-Korea automotive trade negotiations, and encourages the Administration to fight to open markets to U.S. vehicles and auto parts.

Last year, Senator ASHCROFT and I worked together to urge the National Highway Traffic Safety Administration to use an unbelted 25 mph barrier test instead of a 30 mph test to design air bags that will help better protect children, teenagers and small adults. Our work on this very complicated and controversial issue brought the Administration and Auto industry together to reach a result that will increase automobile safety.

We also worked together to continue the moratorium on unfair and ineffective increases in Corporate Average Fuel Economy standards and worked toward a compromise in the Senate to ensure that a National Academy of Sciences study of the effectiveness and impacts of CAFE standards will include the effect of those standards on motor vehicle safety as well as discriminatory impacts of those standards on the U.S. auto industry.

Also, we have worked together in the past to ensure that environmental regulations recognize and reinforce the voluntary environmental improvements and technological achievements of the automobile industry.

Not only will JOHN's contribution be missed in debate on the Senate floor, but his voice will be sorely missed, I suspect, by the "Singing Senators", the wonderful quartet in which he has joined with Senators LOTT, CRAIG and JEFFORDS. My wife and family, join me in wishing the best in the years ahead for JOHN, his loving wife (and co-author), Janet, and their family.

Mr. CONRAD. Mr. President, I rise today to pay tribute to Senator JOHN ASHCROFT as he prepares to leave the Senate.

For the past six years, Senator ASHCROFT has done important work as a member of the Commerce, Judiciary, and Foreign Relations Committees in the United States Senate. For example, Senator ASHCROFT has focused on reforming our nation's use of agricultural sanctions during foreign trade disputes. We share a common vision that we must not use food as a weapon in our disputes with other nations, and Senator ASHCROFT has made a high priority of changing this policy. His work is important both domestically and

internationally, and he can be proud of his contributions.

I also appreciate Senator ASHCROFT's recent work with Senator DORGAN, Senator BOND, and me on the Dakota Water Resources Act. This legislation is critical for the economic future of North Dakota, and I greatly appreciate the constructive role Senator ASHCROFT played in representing the interests of his state. During discussions on this bill he was a tenacious advocate for his state's interests. His diligence in representing his state's interests, coupled with his willingness to gain an understanding of the water needs of my state, ultimately helped us reach a compromise acceptable to both states. The people of Missouri can be proud of his work fighting for their interests.

More generally, Senator ASHCROFT has been a man of his word who served his state and his country with distinction. I join my colleagues on both sides of the aisle in wishing him well in his future endeavors.

Mr. WARNER. Mr. President, I rise to pay tribute to a colleague and friend who will be greatly missed by the United States Senate—Senator JOHN ASHCROFT.

Senator ASHCROFT, served Missouri and the nation with distinction.

In the Senate, he was a leader in passage of landmark welfare reform legislation, authoring the Charitable Choice provision. He fought for lower taxes, a strong national defense, greater local control of education, and enhanced law enforcement.

A popular, former two term governor of his home state, JOHN brought a real "can-do" sense of purpose to his work in the Senate. I have always felt that those who come to the Senate with experience as governor, have especially valuable experience that the entire nation benefits from.

There is a term used throughout the 211 year history of the Senate called "Senatorial courtesy." JOHN won the admiration of his colleagues in many ways, especially his caring tradition of writing wonderful personal notes—not by computer—but always taking time to write them by hand.

We wish you, your wife and family well as you take on your new challenges.

RETIREMENT OF SENATOR ROD GRAMS

Mr. LEVIN. Mr. President, as this session of Congress comes to an end, I want to speak about my friend and colleague from the State of Minnesota, Senator ROD GRAMS.

A former television news personality, ROD GRAMS, in his term in the House of Representatives and in the Senate, quickly established himself as a proponent of assistance to farmers and as an advocate for the establishment of a national nuclear waste repository.

As a member of the Senate Foreign Relations Committee, he has been an

opponent of international agricultural sanctions and a strong supporter of vigorous foreign trade. He supported IMF funding, trade with China and review of the U.S.-Cuba relationship.

He joined the bipartisan effort to enact strong brownfields cleanup legislation. ROD GRAMS earned a reputation as a strong supporter of tax relief, favoring elimination of the marriage penalty and other tax cut proposals.

While ROD GRAMS and I have disagreed on a number of issues, I respect the commitment which he has brought to policy debate. Where we disagreed, I found ROD GRAMS to be a straight-talking and agreeable adversary. I wish him and his family well in the future.

Mr. CONRAD. Mr. President, for the past six years, I have had the privilege of serving in the Senate with ROD GRAMS, a colleague who has distinguished himself on a number of important issues including budget, tax policy, and agriculture. He has served Minnesota with distinction as a member of the Senate Foreign Relations Committee, the Senate Committee on Banking, Housing, and Urban Affairs, the Senate Budget committee, and the Joint Economic Committee.

On a national level, Senator GRAMS is perhaps best known for his "Families First" plan, first discussed as part of the 1994 Republican budget alternative. This plan included a \$500 per-child tax credit, a recommendation that eventually became part of the 1997 Balanced Budget Act.

On a more parochial level, I have worked closely with Senator GRAMS on issues affecting our farm communities, and in 1997 to help our states recover from the disastrous floods along the Red River Valley. Communities along the Red River were devastated by this 500 year flood which disrupted business and forced thousands of families from their homes.

Senator GRAMS worked closely with delegations from North Dakota and South Dakota to make certain that the urgent needs of so many families and communities were met. He played an important role in ensuring bipartisan support and passage of the disaster relief legislation that was so critical for our states at that time. I know that many North Dakota families and businesses are very grateful for his support.

I extend my best wishes to Senator GRAMS, and his family, and my appreciation for his support on critical agricultural, budget, and disaster issues that we have worked together on in committee and on the Senator floor together.

TRIBUTE TO SENATOR SPENCER ABRAHAM

Mr. CONRAD. Mr. President, I rise today to pay tribute and recognize the accomplishments of a colleague, Senator SPENCER ABRAHAM of Michigan. Since joining the Senate in 1995, he has served with honesty, dedication, and integrity.

As members of the Budget Committee, I had the opportunity to work with Senator ABRAHAM on a number of important issues. A fiscal conservative, Senator ABRAHAM work to balance the federal budget and cut government waste. He has also been a champion of keeping our Social Security dollars locked away. This is an interest in which Senator ABRAHAM and I share a keen interest.

Most recently, Senator ABRAHAM was the lead sponsor of the American Competitiveness in the 21st Century Act, legislation that will help ensure our nation's continued growth and leadership in information technology (IT). The bill authorized visas for 195,000 high-tech professionals to work in the U.S. to meet the growing demand for skilled IT workers throughout our economy. During consideration of the bill, I was pleased to work with Senator ABRAHAM and his staff to include in the legislation long-term initiatives to ensure that Americans of all ages are trained to fill critical IT positions in our Information Age economy.

During his time in the Senate, Senator ABRAHAM also worked to curb unfunded mandates, stiffen sentences for cocaine dealers, and advocated stronger privacy protections for consumers on the Internet. His work has been thoughtful and our nation is a better place because of his efforts.

Mr. President, it has been a pleasure to serve in the Senate with SPENCE. I have the utmost respect for my friend and colleague from Michigan, and appreciate all of his contributions to the United States Senate and our nation. I would like to join with my colleagues in wishing the Senator and his family the best in the future.

Mr. WARNER. Mr. President, I rise today to recognize the accomplishments of my colleague and friend, Senator SPENCER ABRAHAM from Michigan.

Senator ABRAHAM began his service in government in Washington, DC in 1990, when he had the honor of serving in President Bush's Administration as Deputy Chief to Vice President Dan Quayle. In 1993, SPENCER ABRAHAM returned to Michigan to run for the United States Senate seat vacated by Senator Don Riegle who was retiring. Senator ABRAHAM won that Senate seat in 1994 and became the first Michigan Republican elected to the United States Senate in 22 years.

I have had the pleasure of working with Senator ABRAHAM on a number of issues including high technology and immigration over the last six years. Not only is Senator ABRAHAM a colleague of mine, SPENCE and his family are friends as well.

SPENCE ABRAHAM is a dedicated public servant, and he has represented the state of Michigan well in the United States Senate. During the past six years, Senator ABRAHAM took the lead in the Senate on high tech issues and immigration. He has been a strong supporter of tax cuts. Senator ABRAHAM has also played a prominent role in

trying to protect our Social Security Trust Fund—having fought hard for a Social Security Lock Box.

The Senate is going to miss SPENCER ABRAHAM's leadership. And, those of us who know him well are going to miss his friendship in the Senate.

NATIONAL INSTITUTE OF BIOMEDICAL IMAGING AND ENGINEERING ESTABLISHMENT ACT

Mr. LOTT. Mr. President, I ask unanimous consent that the Senate proceed to H.R. 1795, which is at the desk, having been received from the House.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 1795) to amend the Public Health Service Act to establish the National Institute of Biomedical Imaging and Bioengineering.

There being no objection, the Senate proceeded to consider the bill.

Mr. KENNEDY. Mr. President, many of us have worked throughout this Congress to bring greater fairness to our immigration laws. The Legal Immigration Family Equity Act and its amendments are a constructive compromise worked out between members of both parties to address a number of the injustices in current law that have harshly affected many immigrant families. Included in the final legislative package are three provisions that will provide long overdue relief to valued members of our communities and their families.

First, the legislation includes the partial restoration of section 245(i) for individuals who are physically present in the U.S. by the date the legislation is enacted into law. Spouses, children, parents and siblings of permanent residents or U.S. citizens will now be able to adjust their status in the U.S. and avoid needless separation from their loved ones. Similarly, persons who benefit from employer-based petitions will also be helped by the restoration of section 245(i).

Second, this legislation will benefit many of the "late amnesty" class members who have been in legal limbo for close to 15 years. Their spouses and children will be able to remain in the United States until they become eligible for permanent residence.

Finally, this legislation provides desperately needed technical corrections that will benefit persons eligible for relief under the Nicaraguan Adjustment and Central American Relief Act and the Haitian Refugee Immigrant Fairness Act.

Because these provisions were developed outside the usual committee process, they are not accompanied by committee reports on the background and purpose of the provisions. Therefore, as the chairman and the ranking member of the Subcommittee on Immigration, Senator ABRAHAM and I are submitting a detailed memorandum explaining the provisions, which I ask unanimous consent be printed in the RECORD at the closing of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

[See Exhibit 2.]

Mr. KENNEDY. Our action today is a significant step in the right direction, but this legislation is far from perfect. Critical pieces are missing.

We must continue to work for full parity for Central Americans, Haitians, and Liberians. It is unjust to treat refugees fleeing repression by left-wing dictators better than those fleeing repression by right-wing dictators. Congress must create a fair, uniform set of procedures for all of these refugees.

We also must continue to work for relief for permanent residents unfairly affected by the 1996 immigration law. The 1996 law contains some of the harshest provisions that Congress has enacted in many years. Their scope is sweeping. They hurt thousands of immigrants. They have taken immigrants away from their U.S. citizen families, without giving them even an opportunity to have their day in court. Next year, Congress must pass new legislation to correct the harsh provisions of these unfair laws.

It is also unfortunate that the legislation does not include far-reaching agreement on agricultural farmworkers. Senator GRAHAM, Congressman BERMAN, and many others worked skillfully to achieve this agreement. They proposed an excellent compromise that would have benefitted both the agricultural workers and the farm owners.

These further reforms deserve high priority by the next Congress, and I look forward to working with my colleagues and with the administration of President-elect Bush to enact them into law.

EXHIBIT 1

JOINT MEMORANDUM CONCERNING THE LEGAL IMMIGRATION FAMILY EQUITY ACT OF 2000 AND THE LIFE ACT AMENDMENTS OF 2000.

The pending legislation contains certain immigration provisions worked out between members of both parties to further address certain issues addressed in the first instance in the Legal Immigration Family Equity Act of 2000, or LIFE Act, which is contained in the Commerce Justice State Appropriations bill being transmitted to the President. Because both the original LIFE ACT and this legislation were developed outside the ordinary Committee process, they were not accompanied by the usual reports elaborating on the background and purpose of their provisions. This memorandum is accordingly submitted on behalf of the Chairman and Ranking Member of the Subcommittee on Immigration of the Senate Committee on the Judiciary to provide such elaboration in somewhat abbreviated form.

The original LIFE Act sought to address two problems. First, it sought to provide a new mechanism to address the problem created by the long backlog of immigrant visa applications for spouses and minor children of lawful permanent residents, who are currently having to wait many years for a visa to become available to them. Right now, many of these individuals are even precluded from visiting their spouse or parent in the United States on account of an administrative interpretation that the filing of their petition cases doubt on the bona fides of

their applications for visitors visas, indicating that instead they are intending immigrants.

The LIFE Act creates a new temporary "V" visa under which these spouses (and their children) can come to the United States and wait for their visa here, if their immigrant visa petitions have been pending for more than three years. It also expands the criteria for "K" visas to include spouses and minor children of U.S. citizens. The purpose of the "V" and "K" visas is to provide a speedy mechanism by which family members may be reunited. We expect the Department of State and the INS to work together to create a process in keeping with the temporary nature of the visa that does not require potential beneficiaries to wait for months before their visas are approved. Like the existing Finance visa, the new "K" visa is not intended to be a prerequisite for the admission of citizen spouses, but a speedy mechanism for the spouses and minor children of U.S. citizens to obtain their immigrant visas in the U.S., rather than wait for long periods of time outside the U.S.

Second, the LIFE Act sought to correct past administrative mistakes that resulted in the wrongful denial of adjustment of status to hundreds of thousands of persons who should have qualified for permanent residence under the Immigration Reform and Control Act of 1986. It directs the Immigration and Naturalization Service (INS) to adjudicate the applications of individuals in two class action lawsuits on the merits, rather than continuing to litigate whether they were timely filed.

The LIFE Act Amendments make three significant additions to the provisions in the LIFE Act. First, they delete the LIFE Act's special mechanism for "V" and "K" visa holders to adjust to lawful permanent residence, and instead add a new provision modifying section 245(i), a mechanism by which anyone eligible for an immigrant visa and for whom a visa is currently available can adjust his or her status to that of lawful permanent residence in the U.S., rather than have to return abroad for consular processing. That mechanism was reauthorized in 1996, but only for individuals who were beneficiaries of immigrant visa petitions or labor certification applications filed by January 14, 1998. The LIFE amendments move the date by which such petitions or applications must be filed forward in time to April 30, 2001.

They also add a new requirement that for all beneficiaries whose application was filed after January 14, 1998, the principal beneficiary must have been physically present in the U.S. on the date of enactment of the LIFE Act Amendments of 2000. The function of this last requirement is to make sure that the renewed availability of section 245(i) does not operate to encourage anyone to violate our immigration laws. Accordingly, it should be interpreted with common sense.

It may be difficult for an individual physically present on the day of enactment to establish his or her presence on that precise date to qualify for 245(i). The Immigration and Naturalization Service (INS) should therefore be flexible in the types of evidence it will accept to establish physical presence on the day of enactment. For example, the kind of evidence of physical presence INS ordinarily accepts demonstrating that the applicant has been physically present during a reasonable period preceding that date, accompanied by an affidavit or declaration that the person was present on the date itself, should ordinarily suffice. We also note that this new requirement is applicable only to principal applicants for 245(i), and not to derivatives, who continue to be allowed to "follow to join" if they otherwise qualify.

In order to ensure that persons who may benefit from this provision are aware of this legislation, we strongly encourage the INS to conduct a broad outreach program within the immigrant communities. Additionally, to ensure that all potentially eligible persons have an opportunity to qualify for 245(i), if necessary the INS should accept petitions and applications before the April 30, 2001 sunset date that do not contain all necessary supporting documents, and allow additional documents to be filed after the deadline.

Second, the legislation adds the members of a third class action law suit, Zambrano v. INS, to those covered by the LIFE Act's provisions concerning adjustment of status under the Immigration Reform and Control Act of 1986 (IRCA). We note that persons eligible for adjustment pursuant to the combined LIFE provisions include everyone who has "filed with the Attorney General a written claim of class membership", that is all registered class members, not only those who have been issued employment authorization pursuant to a screening that did not reliably distinguish between potentially meritorious and non-meritorious applications.

We understand that several other class action lawsuits are still pending in the federal courts challenging other INS interpretations of the 1986 adjustment provisions. The precise posture of one of these cases, Perales v. Thornburgh, came to our attention after the legislation had been finalized. We understand that a class of about 200 identified plaintiffs in Perales challenged the same regulation whose illegality the INS has conceded in Zambrano. We would encourage the Attorney General to provide a just resolution for the Perales class members in light of the legislation enacted today.

Other cases that have come to our attention, such as Proyecto San Pablo v. INS, and Immigrant Assistance Project v. INS, are in a different posture from those addressed by the LIFE Act and these amendments, in that they do not involve regulations that INS has conceded were illegal. At the same time, however, it is now almost 2001, that is, almost 15 years after the enactment of IRCA, and these cases remain unresolved. We encourage the plaintiffs and the Attorney General to explore the possibility of settling these cases and bringing to an end the years of bitter and costly litigation. Nothing in this legislation is intended to preclude this option, or to preclude the Attorney General from resolving any other IRCA adjustment applications on the merits.

In that connection, we also note that when the 1986 legalization program was enacted, the Attorney General, pursuant to section 245A of the INA, was authorized to work in conjunction with voluntary organizations and other qualified State, local and community organizations to broadly disseminate information about the legalization program. The INS helped provide funding to these organizations to assist with the outreach effort, as well as with the preparation and submission of the applications for adjustment of status. A similar outreach campaign should be conducted to disseminate information about the opportunity to apply for adjustment of status under this Act. As noted above, almost 15 years have elapsed since the original legalization program was enacted, therefore the need to publicize the resolution of these issues reached by the LIFE Act and amendments thereto is critical to ensure that eligible persons are notified and have an opportunity to obtain the benefits of this Act. Moreover, nothing in the Act should be construed to preclude the Attorney General from providing funding to organizations qualified and experienced in the preparation and submission of adjustment applications.

Third, the amendments clarify that the spouses and unmarried children of the beneficiaries of Section 1104 of the LIFE Act are eligible for the Family Unity provisions of the Immigration Act of 1990. By enacting this provision, our objective is to ensure that these family members are treated in the same manner as the family members of those who adjusted their status under IRCA.

In addition, the amendments address two, more technical issues. Section 1104 LIFE Act applicants, as well as beneficiaries under the Nicaraguan Adjustment and Central American Relief Act (NACARA) and the Haitian Refugee Immigrant Fairness Act (HRIFA) are made eligible for certain waivers of grounds of inadmissibility. These waivers are ordinarily available only to persons who are outside the U.S. The amendments to the LIFE Act allow the covered individuals to apply for these waivers in the U.S.

Finally, the LIFE amendments clarify that section 241(a)(5) of the INA which bars anyone who has been ordered removed and who subsequently reenters the U.S. from obtaining any relief under the INA. Because adjustment under section 245A, NACARA, and HRIFA is not "relief under" the Act, LIFE amendments specify that this bar does not apply to LIFE section 1104 beneficiaries, or NACARA or HRIFA applicants.

Mr. LOTT. Mr. President, I ask unanimous consent that the bill be advanced to third reading and passed and the motion to reconsider be laid upon the table, all without intervening action, motion, or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 1795) was read the third time and passed.

Mr. LOTT. Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. LOTT. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LOTT. Mr. President, Senator DASCHLE is here. We have a few resolutions we can offer at this point.

THANKING THE PRESIDENT PRO TEMPORE

Mr. LOTT. Mr. President, I send a resolution to the desk on behalf of myself and Senator DASCHLE and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 388) tendering the thanks of the Senate to the President pro tempore for the courteous, dignified, and impartial manner in which he has presided over the deliberations of the Senate.

There being no objection, the Senate proceeded to consider the resolution.

Mr. LOTT. Mr. President, I ask unanimous consent that the resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 388) was agreed to, as follows:

S. RES. 388

Resolved, That the thanks of the Senate are hereby tendered to the Honorable Strom Thurmond, President pro tempore of the Senate, for the courteous, dignified, and impartial manner in which he has presided over its deliberations during the second session of the One Hundred Sixth Congress.

Mr. LOTT. Let me note, Mr. President, that the distinguished Senator from South Carolina, Senator STROM THURMOND, has been very diligent in his duties over the past 2 years. No matter what hour of the day the Senate came in, Senator THURMOND was in the chair and recognized the Chaplain and called on a Senator to lead the Pledge of Allegiance. On a few occasions, I even suggested a substitute could fill in, but on rare occasions did that ever happen.

He has set a tremendous example for all of us in the Senate. He continues the tradition that Senator BYRD of West Virginia also exhibited when he was President pro tempore. So I am sincere when I say we extend our appreciation to Senator THURMOND for his diligence as our President pro tempore.

Mr. DASCHLE addressed the Chair.

The PRESIDING OFFICER. The Democratic leader.

Mr. DASCHLE. Mr. President, I associate myself with the remarks of the distinguished majority leader.

I have admired the distinguished President pro tempore for a lot of reasons. But his diligence in opening the session every day, and his willingness to be as prompt as he always is, is something admired on both sides of the aisle.

So for all of his effort, for all of his service, for his willingness to serve as he has, we thank him.

I thank the majority leader for yielding.

THANKING THE VICE PRESIDENT

Mr. LOTT. Mr. President, I send a resolution to the desk on behalf of myself and Senator DASCHLE and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 389) tendering the thanks of the Senate to the Vice President for the courteous, dignified, and impartial manner in which he has presided over the deliberations of the Senate.

There being no objection, the Senate proceeded to consider the resolution.

Mr. LOTT. Mr. President, I ask unanimous consent that the resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 389) was agreed to, as follows:

S. RES. 389

Resolved, That the thanks of the Senate are hereby tendered to the Honorable Al Gore,

Vice President of the United States and President of the Senate, for the courteous, dignified, and impartial manner in which he has presided over its deliberations during the second session of the One Hundred Sixth Congress.

Mr. LOTT. Mr. President, let me note that the Vice President, AL GORE, a former Member of this body, served the Senate. I served with him here. I served with him in the House. He has served his country so well for a long time. He, probably more than most Vice Presidents, did spend time up here. On a few occasions, he did have to come and break ties. Generally, I did not like that, but he was prepared to do that.

He served his country so well, and a simple resolution of this nature is not adequate to express the appreciation of the Senate and of our Nation.

Mr. DASCHLE addressed the Chair.

The PRESIDING OFFICER. The Democratic leader.

Mr. DASCHLE. I will have more to say about that matter at another time. But let me also, again, associate myself with the remarks of the majority leader, except to say I was delighted he was there in the chair to break those tie votes on occasion.

He has served his country well in so many roles over the years, including his years in the Senate, both as a Senator and as the President of the Senate. We congratulate him and thank him for his work, as well.

COMMENDING THE EXEMPLARY LEADERSHIP OF THE DEMOCRATIC LEADER

Mr. LOTT. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 390) to commend the exemplary leadership of the Democratic Leader.

There being no objection, the Senate proceeded to consider the resolution.

Mr. LOTT. Mr. President, I ask unanimous consent that the resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 390) was agreed to, as follows:

S. RES. 390

Resolved, That the thanks of the Senate are hereby tendered to the distinguished Democratic Leader, the Senator from South Dakota, the Honorable Thomas A. Daschle, for his exemplary leadership and the cooperative and dedicated manner in which he has performed his leadership responsibilities in the conduct of Senate business during the second session of the 106th Congress.

Mr. LOTT. Mr. President, I could go on for quite some time about my colleague from South Dakota. He does a magnificent job as the Democratic leader. He is thoughtful. He is accessible. He is tenacious. He is committed. He is courteous. And while, as leaders

of our respective parties in the Senate, we sometimes disagree and sometimes even clash publicly—it has been rare—we have a very good working relationship. When the day is done and we have conversations, they are quite often personal and very kind. I appreciate his courtesies. I look forward to working with him in the next Congress.

It is going to surely test us in every way, every day, but I hope and pray we will be up to the task. I will certainly try to fulfill that new, challenging role. And I know I can count on my friend and partner to do his part on the other side of the aisle.

So I am delighted to be able to offer this resolution of commendation to Senator DASCHLE.

Mr. DASCHLE addressed the Chair.

The PRESIDING OFFICER. The Democratic leader.

COMMENDING THE EXEMPLARY LEADERSHIP OF THE MAJORITY LEADER

Mr. DASCHLE. Mr. President, I have a resolution at the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 391) to commend the exemplary leadership of the Majority Leader.

There being no objection, the Senate proceeded to consider the resolution.

Mr. DASCHLE. Mr. President, this resolution is offered in the most heartfelt and sincere way. These last 2 years have been very difficult. There have been times when it has tested all of us. But no one has been more tested than the majority leader. No one has been called upon to lead in more arduous circumstances, on more occasions, than the majority leader. And as he has just noted, there have been times when we have had our differences. But I have always admired him for his remarkable ability to put aside those differences, to come to my office, to invite me to his, to talk in the most affable and personal way when the day is done. I admire that and many other of his remarkable talents. We are fortunate to have his leadership. We are fortunate to have his service to this country. And I am fortunate to have his friendship.

So I congratulate him on his successful tenure as majority leader. And as he noted, our times in the future will become even more arduous, even more tested. I look forward to taking on those challenges with the same degree of enthusiasm, the same degree of willingness, to work in a partnership that I hope we can continually demonstrate. So I thank him. I wish him well and look forward to our service together in the next 2 years.

Mr. REID. Mr. President, the American public, the people from South Dakota, the people from Mississippi, do not know how hard these two men

work for their States and their country. They probably have some idea because they are both so popular in their respective States, but from someone who sits and watches these two men every day we are in session—and many of the days we are not in session—I am in awe as to the work they do and the difficult situations they get us out of.

If someone had said this morning at 10 o'clock that we would be in the position we are in today—being able to go home for Christmas—I would have laughed at them. I thought it was impossible for us to do that. But these two men, working together, were able to put together a package of about \$500 billion involving the most important things this country deals with on a daily basis. They did this. They did it alone. There were others on the outside helping a little bit, but this is just an example.

But I have been able, from my perspective here for 2 years, to watch them, and I am tremendously impressed. I want this RECORD spread with the fact that these resolutions do not in any way connote the really good work they do. On paper it says they did a good job, but it takes someone who works with these two gentlemen on a daily basis to see the sacrifices they make for their States and for the country.

Their families should be so proud of what they do. The people of their States should be so proud of what they do. And I, speaking on behalf of Americans, after this bitter election, say here are examples of everything that is good about the American political system—Senators DASCHLE and LOTT.

The PRESIDING OFFICER. Is there further debate on the resolution?

Without objection, the resolution is agreed to.

The resolution (S. Res. 391) was agreed to, as follows:

S. RES. 391

Resolved, That the thanks of the Senate are hereby tendered to the distinguished Majority Leader, the Senator from Mississippi, the Honorable Trent Lott, for his exemplary leadership and the cooperative and dedicated manner in which he has performed his leadership responsibilities in the conduct of Senate business during the second session of the 106th Congress.

Mr. LOTT. I appreciate very much the kind remarks of Senator DASCHLE and also our good friend, Senator REID of Nevada. He has been very generous, and we appreciate it. He makes our jobs easier. Sometimes when we are out there having meetings or taking incoming shots from various places, in a quiet, humble, self-effacing, diligent way, HARRY REID is out there finding a solution. I sincerely appreciate the work he has given us and the entire institution over the last year. I enjoy working with him very much.

I am very proud, too, while we have big States, very important States, the little States of Nevada, Mississippi, and South Dakota are hanging in there. We are glad to be able to fill these positions of responsibility.

So I thank them both very sincerely.

THANKING SENATE STAFF

Mr. LOTT. Mr. President, I send another resolution to the desk on behalf of myself and Senator DASCHLE and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 392) tendering the thanks of the Senate to the Senate Staff for the courteous, dignified, and impartial manner in which they have assisted the deliberations of the Senate.

There being no objection, the Senate proceeded to consider the resolution.

Mr. LOTT. Mr. President, I ask unanimous consent that the resolution be agreed to and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 392) was agreed to, as follows:

S. RES. 392

Resolved, That the thanks of the Senate are hereby tendered to the Secretary of the Senate, the Sergeant at Arms of the Senate, the Secretary for the Majority, the Secretary for the Minority, and the floor staff of the two parties for the courteous, dignified, and impartial manner in which they have assisted the deliberations of the Senate during the second session of the One Hundred Sixth Congress.

Mr. LOTT. Mr. President, I want to just expound a bit on this resolution. We are deeply indebted to these staff members, including those at the table in front of us. They are so efficient. They are so informed. They save us many times from ourselves. They are here early. They are here late. And, of course, all of the clerks, the Parliamentarians, and the representatives who are here do a magnificent job. We do not always say we appreciate it enough, but we do. We could not make it without them.

This resolution is the very least we could do to say we appreciate them.

Mr. DASCHLE addressed the Chair.

The PRESIDING OFFICER. The Democratic leader.

Mr. DASCHLE. Mr. President, again, I want to identify myself with the remarks of the majority leader. These staff are the best there could be. I thank them, on behalf of the entire Senate, for their hard work, for their professionalism, for the level of commitment they make each and every time they come to work. I thank them for what they do. There are so many ways we ought to stop throughout the year and express ourselves in as heartfelt a way as we can, but at least now at the end of this Congress, we ought to say—with an exclamation point—thank you.

Thank you for what you do. Thank you for who you are. Thank you for what you give each and every day.

Mr. REID addressed the Chair.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Mr. President, I ask unanimous consent that I be added as a cosponsor to each of these resolutions that have just been offered: S. Res. 388, S. Res. 389, S. Res. 390, S. Res. 391, and S. Res. 392.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator from Nevada will be added as a cosponsor to the resolutions.

Mr. LOTT. Mr. President, those are all of the resolutions we have at this time.

I know the distinguished Senator from Alaska, the chairman of the Appropriations Committee, will probably have some remarks about the bill we have been working on for so long now.

We have a few other items.

CONGRATULATING SENATOR STEVENS AND SENATOR BYRD

Mr. LOTT. Mr. President, let me take this occasion to thank the distinguished chairman of the Appropriations Committee and, in his absence, Senator BYRD for his cooperation with Senator STEVENS. They work together as a team every day. They do an incredible job. They have one of the toughest jobs in the Congress.

I have been working in budget processes now directly for I guess about 20 years. When I was in the House as the whip, I sometimes reluctantly became a participant in those budget renegotiations. They were never easy. But I don't think I have ever seen more fire, lightning, and thunder than we had on this bill, when you compare it to bills of the past that were relatively small in size and various parts.

It was very tough. Everything was fought over so aggressively. Things didn't get in, such as Amtrak, and things got in, such as Medicare adjustments. But we found a way to make it happen. We found it very hard to let go. But the Senator from Alaska hung in there. I know he was working at 2

o'clock this morning, and I know he was back at the office today at 6:30. I talked to him sometime between 6:30 and 8 o'clock this morning. The amazing thing was he was sweet and charming and pleasant.

Is this the deed? Is this what we have here?

Mr. MOYNIHAN. I dare not ask a World War II pilot veteran to lift this or the rules on ergonomics might be contradicted.

But I congratulate you, sir.

Mr. LOTT. It probably violates the rules of ergonomics, I would like to say, if that is the package.

Finally, all of us learned in the last 2 days more than we ever wanted to know about the Steller sea lion. What is it, and what are they? Whatever they are, I am sure they are beautiful, and I know they appreciate the effort of the Senator from Alaska. I know about 10,000 Alaskans appreciate the fact that their jobs will not be wiped out almost instantly.

The administration was very tough, but they were protecting the Endangered Species Act. I don't know quite how Senator STEVENS found common ground. But he did. Thank goodness for all of the persistence. He is affectionately known as "The Tasmanian Devil." But today he did this job without his Tasmanian necktie.

While we get very testy with each other sometimes, we still really appreciate the work that is done.

Senator STEVENS, congratulations, and I look forward to someday being able to know all that is in the bill.

The PRESIDING OFFICER (Mr. ABRAHAM). The Democratic leader.

Mr. DASCHLE. Mr. President, this will be the last time, because I know others want to speak.

I, too, want to congratulate the chairman and ranking member. This has been a really difficult experience. He knows it. No one knows it better than he because he had to experience it

as late as 3:30 last night and as early as 6:30 this morning. We know because of a very intense debate we had within our caucus. It would not have happened without his leadership. It would not have happened without his persistence and the work of his staff—and the staff whom both the majority leader and I have been fortunate to have serve with us as we have attempted to put this package together.

I congratulate him. I thank him. I also congratulate the people of Alaska for the kind of representation they sent to Washington in the person of TED STEVENS.

I yield the floor.

Mr. LOTT. I yield the floor.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. STEVENS. Mr. President, I know others are going to take the floor.

While the two leaders are here, I thank each of them for their comments. Nothing is done in the Senate without the concurrence of the leadership. I know full well the help they have given us in the past days and weeks which led to the final solution. I will be speaking about that later.

I thank the Senator from Mississippi and also my friend, the Senator from South Dakota, for their help and for the sincere comments they made today. They are very welcome, as far as I am concerned, and I am humbled by them. I thank them very much.

I yield the floor.

The PRESIDING OFFICER. The Senator from Florida.

Mr. GRAHAM. Mr. President, I appreciate the positive remarks that have just been made about our leadership and those who have supported them throughout these difficult 2 years, and look forward at an appropriate time to hearing the comments of the chairman of the Appropriations Committee on this legislation.

EXTENSIONS OF REMARKS

EXPRESSING SORROW OF THE HOUSE AT THE DEATH OF THE HONORABLE JULIAN C. DIXON, MEMBER OF CONGRESS FROM THE STATE OF CALIFORNIA

SPEECH OF
HON. CORRINE BROWN
OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 8, 2000

Ms. BROWN of Florida. Mr. Speaker, I have served with Congressman JULIAN DIXON for the past eight years. I was saddened by the news early Friday morning, December 8, 2000, that JULIAN DIXON is no longer with us. My heartfelt condolences go out to his beloved wife Bettye and son Cary. He will be missed by our colleagues of this United States Congress.

When I thought of JULIAN, I thought of him as an officer and gentleman. JULIAN was an officer. As an officer, he was honorable, noble, trustworthy, and a quiet commander. As a gentleman, he was a man of chivalrous and genuine qualities.

Service was the guiding principle of his life. He was the eminent expression of congenial relationships, and yes character and temperament changed with every activity he was involved with. Lives touched by Representative DIXON became engaged and thereafter empathetic, kindly and honorable.

He worked hard for his constituents of California. He never tired of spreading princely qualities to everyone he met. Yes, he was a consensus builder. He will be missed.

With Representative DIXON, it was never about winning, but it was truly about how you managed the hand you were dealt.

He was an officer. He was a gentleman. He was my colleague.

EXPRESSING SORROW OF THE HOUSE AT THE DEATH OF THE HONORABLE JULIAN C. DIXON, MEMBER OF CONGRESS FROM THE STATE OF CALIFORNIA

SPEECH OF
HON. JAMES A. TRAFICANT, JR.
OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, December 8, 2000

Mr. TRAFICANT. Mr. Speaker, today, I was deeply saddened to hear of the passing of JULIAN C. DIXON.

Mr. DIXON was a great member of Congress, and is to be commended for his accomplishments as the fifth ranking Democrat on the Appropriations Committee and as the ranking member on the House Permanent Select Committee on Intelligence.

He was well-known for his commitment to our nation's civil rights and for the instrumental role he played in minimizing the effects of natural disasters that struck his community. His

leadership in the bipartisan effort to secure federal support for the Alameda Corridor project in Los Angeles and in obtaining federal funds for communities hard hit by cuts in defense spending are to also be commended.

JULIAN C. DIXON will be sorely missed on Capitol Hill. I extend my deepest sympathy to his family.

OSHA ERGO-NONSENSE

HON. DOUG BEREUTER

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. BEREUTER. Mr. Speaker, this Member highly commends this December 14, 2000, editorial from the Norfolk Daily News expressing strong concern regarding the new Occupational Safety and Health Administration (OSHA) regulation on ergonomics.

ERGO-NONSENSE

NEW OSHA WORKPLACE REGULATION ISN'T BASED ON A COMPLETED STUDY

The U.S. Occupational Safety and Health Administration calls its new regulation the "Ergonomics Program Standard." The National Federation of Independent Businesses has a different description: "Ergo-nonsense."

"Scheduled to take effect on Jan. 16, 2001, it is, without question, the most burdensome, expensive and intrusive regulation ever to be imposed on the small-business community," said Jack Faris, federation president.

We would have to agree. Ostensibly designed to help prevent repetitive motion injuries, like carpal tunnel syndrome, the new regulation will require employers to alter the workplace in order to do so. It's a noble intent.

But the regulation assumes that employers aren't already doing everything possible to take care of the health and well-being of employees. The regulation also doesn't have a scientific basis, seeing as how the National Academy of Science's study on ergonomics isn't even completed yet.

It's also curious how this 1,688-page regulation was able to be introduced and published in about a year's time, when, on average, it takes OSHA four years to do so with other regulations.

Because President Clinton allowed the regulation to move forward, it now will take legal action to stop it. That's not a sure thing, so business owners everywhere had better start preparing for their own version of "ergo-nonsense."

HONORING ELIZABETH MARQUARDT

HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Ms. WOOLSEY. Mr. Speaker, today I recognize Elizabeth Marquardt. Elizabeth Marquardt

has served for 22 years as a Governing Member of the Petaluma California School Board, the longest term in its history. Her vision, intelligence, and dedication has impacted the lives of hundreds of thousands of Petaluma students.

During her tenure Elizabeth was instrumental in raising money for schools and co-founding the Petaluma Educational Foundation. From sorting through the budget challenges following the passage of California Proposition 13 to hiring three superintendents, she has given generously her time and energy. Elizabeth has accomplished this while fostering a friendly, cooperative atmosphere that has helped board members work together to reach decisions that are best for the children of Petaluma.

It is my great pleasure to pay tribute to Elizabeth Marquardt. I am very proud to represent such a remarkable woman.

TRIBUTE TO MARIA MAGDA O'KEEFE

HON. BILL PASCHELL, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. PASCHELL. Mr. Speaker, I would like to call to your attention the deeds of a person I am proud to call my friend, Maria Magda O'Keefe of Paterson, New Jersey, who was recognized on Thursday, November 9, 2000 on the occasion of the 25th Anniversary of the Hispanic Multi Purpose Service Center. It is only appropriate that she be honored as she retires from the Paterson City Council, for she has a long history of caring, generosity and commitment to others.

Maria was recognized for her many years of leadership in Paterson, which I have been honored to represent in Congress since 1997, and so it is only fitting that these words are immortalized in the annals of this greatest of all freely elected bodies.

Councilwoman Magda has a varied educational background and has studied in a multitude of fields. The State of New Jersey Department of Law and Public Safety, Division of Consumer Affairs certified her as a Social Worker. Also, the National Association of Forensic Counselors certified her to be a Domestic Violence Counselor. In addition, she is a Registered Nurse having earned her diploma at the Hospital de Damas in San German, Puerto Rico. She is a graduate of Central High School in Santurce, Puerto Rico. Also, she studied Health Education at Columbia University in New York and Cosmetology at the Master Headdresser Academy in Passaic, New Jersey.

Maria has always been an active and involved leader. One of her most important accomplishments was her founding of the Hispanic Multi Purpose Service Center (HMPSC) in Paterson. She is currently the Executive Director of the center. The HMPSC is a highly

respected agency that provides free social, educational and recreation services to the residents of Paterson and Passaic County.

This remarkable woman is a trailblazer for Latino elected officials in Passaic County. In her political career she has set many important milestones. In 1989, she became the first Hispanic Woman to be elected as the President of the Paterson City Council. Her vision and leadership has made it easier for all Hispanic Americans to seek and win elected office.

On the Council and in her daily life Maria remained devoted to the City of Paterson and the Hispanic community. She has served as Deputy Mayor of the city, as well as the Administrator of the Mayor's Office Division of Planning. In addition, she was a coordinator of the city's service programs for the Hispanic community and the nutritional programs for the city's Hispanic senior citizens.

Known for a questioning mind and an ability to get things done, Councilwoman Magda has served her community in a variety of positions. She was the Commissioner of the Board of Social Services and the Board of Health in Paterson. She was also a member of the Board of St. Joseph's Hospital and Medical Center in Paterson. She has served as a liaison between the Paterson City Hall and the community at-large. She was a member of Women in Government, the Paterson Chamber of Commerce, the Columbia University Health Panel and the Boy Scouts of America Board of Directors. In addition, she has served as Chairperson of the Paterson Great Falls Committee, and in 1976, she was the President of the Puerto Rican Parade.

Councilwoman Magda continually touches the lives of the people around her. She has received a myriad of awards including recognition from the United States Department of Defense, the Irish Culture Society, the New Jersey State Assembly and the Italiana Society.

Maria Magda O'Keefe was born on July 22, 1938. She has three siblings. Maria has two wonderful children Debra Ann Martinez and John Mitchell Morales. She has four grandchildren and one great granddaughter.

Mr. Speaker, as a former mayor of Paterson that has worked with Maria for many years, I can say that I can think of no elected official who works harder or cares more about her constituents. Perhaps the greatest tribute to her is the unwavering faith of the voters of Paterson. They have demonstrated this by electing her time and again to her position.

Mr. Speaker, I ask that you join our colleagues, Maria's family and friends, the City of Paterson, the State of New Jersey and me in recognizing the outstanding and invaluable service to the community of Maria Magda O'Keefe.

IN HONOR OF THE HONORABLE
JOLENE MOLITORIS

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. KUCINICH. Mr. Speaker, today I rise to honor a distinguished public servant and a truly remarkable woman, the current Administrator of the Federal Railroad Administration (FRA), Jolene Molitoris.

A true champion of railroad safety, Jolene Molitoris was appointed by the President of the United States William J. Clinton, to be the first female Administrator of the Federal Railroad Administration in 1993. In her tireless effort to improve safety in the United States and around the world, Administrator Molitoris established zero tolerance for any safety hazard as the industry standard. In addition, she created partnerships with rail labor and management, achieving historic increases in all safety categories. As a testament to the outstanding leadership of Administrator Molitoris, the FRA began its transformation from a traditional regulatory agency into a result and consumer-focused organization.

Under Administrator Molitoris' management (1993-1999), the public enjoyed the safest seven-year period in history. During this period there was a 43-percent reduction in employee injuries and fatalities and a 30-percent reduction in grade crossing injuries and deaths.

Throughout her years of public service, Administrator Molitoris has received many honors, including being named by Railway Age Magazine as one of the 16 most respected and admired "Great Railroaders of the 20th Century." In 1999, Administrator Molitoris received three awards: the Ellis Island Medal of Honor awarded by the National Ethnic Coalition of Organizations Foundation, Inc; and the Jolene M. Molitoris Golden Spike Award created by the Indiana High Speed Rail Association. Also, in 1999, the New Jersey Division of the Polish American Congress honored Administrator Molitoris as their Millennium Woman of the Year.

On a personal note, I have had the wonderful opportunity to work with Jolene Molitoris on a great many initiatives. I have great respect and admiration for her public service career. She is a person of solid integrity who possesses a true desire to serve the public's best interest. She is an individual of tremendous talent and her leadership of the FRA will be long remembered.

I ask my colleagues to join me in rising to honor this truly remarkable public servant for her distinguished years of service, and her dedication to making our Nation's railways safer.

TAX CREDITS WITHOUT HEALTH
INSURANCE REFORM WON'T
WORK! CHECK OUT THE FACTS
ON EHEALTHINSURANCE.COM

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. STARK. Mr. Speaker, books, toys, flowers, clothes and insurance? Now you can shop for just about anything on the web, including insurance. I recently window-shopped for insurance using ehealthinsurance.com; the same program Republican health care staffers received a briefing on last week.

My window-shopping included looking at available health insurance options in Florida, Montana, Louisiana and Georgia through the eyes of people who were 25, 35, 45, 55 and 60, both married and single.

The data reiterated our findings from March, which proved that in order to help the uninsured we cannot simply give them refundable

tax credits; the tax credits have to be coupled with major insurance reform.

Many people who are uninsured are working poor and may not qualify for Medicaid; therefore if the tax credit does not cover almost the entire cost of insurance they will still not be able to afford it.

The results also proved that with age, tax credit becomes even more useless because health insurance prices rapidly increase as one ages. For example, a 25 year old low income couple in Billings, Montana could initially get by with a \$316.00 credit per month, but by the time the couple reached age 60 they would need \$1,032.00 per month to sustain the same plan from the same insurance company.

Shopping on the web is like shopping at wholesale; it allows us to buy books, clothes and the like at prices that most people can afford. The same thing cannot be said about insurance: without insurance market reform, health insurance will remain unaffordable for tens of millions.

TRIBUTE TO THE 75TH ANNIVERSARY OF ALPHA PHI OMEGA

HON. ROB PORTMAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. PORTMAN. Mr. Speaker, today I pay tribute to the 75th Anniversary of the founding of Alpha Phi Omega National Service Fraternity.

On December 16, 1925, Frank Horton formed Alpha Phi Omega with a group of students at Lafayette College in Easton, Pennsylvania. Horton's service in World War I, and his subsequent introduction to the Scout Oath and Law, helped to inspire him to found the fraternity as a way to encourage young people to help others and to bring about a better, more peaceful world.

Alpha Phi Omega members are united by the principles of leadership, friendship and service. These principles are designed to aid fraternity members in discovering and developing their leadership abilities, not only by making last friendships, but also by planning and providing helpful service to others.

Since its founding, Alpha Phi Omega has chartered chapters at more than 700 campuses nationwide, and more than 300,000 Americans have been inducted into the organization. The fraternity is proud to count Members of Congress and even Presidents of the United States among its many distinguished alumni. Today, Alpha Phi Omega is active on about 350 campuses, large and small, with 18,000 current members throughout the country.

For its members, Alpha Phi Omega is much more than an extracurricular activity. It is a way for members to make their campuses, their communities and their world a better place for all of us. Alpha Phi Omega begins as a college experience, but its members have made it a lifetime commitment to turning Frank Reed Horton's noble ideal of a better and more peaceful world into a reality.

I commend Alpha Phi Omega National Service Fraternity for a successful first 75 years,

and I would like to thank my friend and constituent, Mr. Ed Richter of Franklin, Ohio, for bringing this significant milestone to my attention. Mr. Richter currently serves as National Service/Communication Program Director for the organization.

I join my colleagues in wishing continued success to Alpha Phi Omega and its distinguished members and alumni.

THANKS TO MY CONGRESSIONAL
AND SUBCOMMITTEE STAFFS

HON. JOHN EDWARD PORTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. PORTER. Mr. Speaker, I want to pay tribute to the best Congressional staff in America: mine. My outstanding Chief of Staff, Ginny Hotaling, and my staff at home: Linda Maneck, with nineteen years of experience, Ed Kelly, with fourteen years, Carol Joy Cunningham, Dee Jay Kweder, eighteen years with me and five with my predecessor, Bob McClory, Mary Jane Partridge and Nancy Johnson, and my Press Secretary, Linda Mae Carlstone, now in her second tour in that position—all have done superior work in serving me and our constituents. In Washington, my acclaimed Administrative Assistant, Katharine Fisher, my Office Manager, Jerri Lohman, with me for twenty years, my Legislative Director, Spencer Pearlman, the Executive Director of the Human Rights Caucus, Jeanette Windon, my Scheduler Jori Frahler, Mike Liles, Eric Rasmussen, and David Fabrycky—they have also been incredibly responsive to the challenges of a very active and demanding office, and I can never thank each of these wonderful individuals enough.

My subcommittee staff is also simply the best on the Hill. Its exemplary Clerk, Tony McCann, and his colleagues: Carol Murphy, Susan Firth, Francine Salvador, and our detailees, Jeff Kenyon and Tom Kelly, have been knowledgeable, hard working and loyal. It has been a real privilege to work with them and with their predecessors, Bob Knisley, Sue Quantius, and Mike Myers, and I hope we can remain close in the years ahead.

IN HONOR OF WARREN-CENTER-
LINE STERLING HEIGHTS CHAM-
BER OF COMMERCE HALL OF
FAME RECOGNITION BANQUET
HONOREES TARIK DAUD, MARK
STEENBERGH, AND GERALD
ELSON

HON. DAVID E. BONIOR

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. BONIOR. Mr. Speaker, I rise today not only as a member of the United States House of Representatives but also as a member of the Honorary Committee for the Warren-Center Line-Sterling Heights Hall of Fame Banquet. This is the event's first year, and I am proud to be a part of honoring three exceptional individuals for their commitment to the betterment of their business and civic environments—Mayor Mark Steenbergh, Gerald

Elson, and Tarik Daoud. One simply needs to view the landscape to see the tangible evidence of the impact these individuals have had on the economic environment there.

Since Warren Mayor Mark Steenbergh became mayor of Warren, taxes are down, property values are up, and businesses are racing to take root in the city. Mayor Steenbergh's vision of a better Warren is evidence in the hard work and dedication to prosperity that he has put into the city. To many, the closing of the TACOM headquarters on Van Dyke spelled doom for the City of Warren. Mayor Steenbergh did Warren residents proud with his commitment to working with state and local officials to build a successful industrial park on the site. The crown jewel of Warren will shine in 2002, when the new Warren Community Center opens its doors. As Mayor of Macomb County's largest city, Mark Steenbergh is friend to all those who live and work in the Warren community.

Working his way up from design engineer, to his present position of Vice President of General Motors and GM of Operations for the North American Car Group, Gerald Elson personifies the hard working attitude of Western Macomb. His meteoric rise from the small town of Merrill, Michigan outside Saginaw to one of the highest ranking officials at the top company on Fortune Magazine's Global 500 shows proof of his brilliant ingenuity and business sense. In this capacity, and as Chairperson for the GM Warren County Relations Committee, Elson has served as the architect of General Motor's commitment to the City of Warren. Nowhere else in the world is the economy so reliant upon the auto industry as it is in Michigan, and Elson's committee to keeping GM on top makes him invaluable to the community's neighborhoods and business environment.

Community leader, business owner, and philanthropist, Tarik Daoud has been a part of the Macomb County Community since 1964. As owner of Al Long Ford in Warren, Daoud has recently been named a finalist for the 2000 Time Magazine Quality Dealer Award. This distinguished honor comes as a result of Daoud's tradition of exceptional performance not only as a car dealer, but also to the community. Daoud sits on numerous Boards including Salvation Army and the Warren YWCA, in addition to his work with the International Visitor Council, which hosts foreign visitors to the Metro Area. Tarik Daoud has earned his reputation and respect throughout the community not only for his success as a businessman, but also for his education and charitable contributions.

Please join me in thanking the Chamber of Commerce, and congratulating these three outstanding individuals for their devotion to their work and the betterment of our communities.

REMEMBERING THE FORGOTTEN
OF THE FORGOTTEN WAR: AFRI-
CAN AMERICANS IN KOREA

HON. CORRINE BROWN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Ms. BROWN of Florida. Mr. Speaker, September 13–16, 2000 marked the 30th anniver-

sary of the Congressional Black Caucus Foundation (CBCF) Legislative Conference, the most significant socio-political gathering in the country to discuss issues of importance to the African American community. On September 15, 2000 Representative SANFORD BISHOP, Jr. (D-GA) and I convened, in conjunction with the 50th anniversary of the Korean War Commemoration, another well attended, although highly emotional, 12th Annual Veterans Braintrust forum entitled: "Remembering the Forgotten of the Forgotten War: African Americans in Korea."

For the past several years my distinguished friend and colleague SANFORD BISHOP, Jr. and I have hosted the Annual Veterans Braintrust during the Congressional Black Caucus Foundation Legislative Conference because we both care a great deal about the well-being of America's veterans. Nevertheless, this year I was overwhelmed to be in the room with so many true heroes, and spoke for all my colleagues in thanking them for their service to this great nation. It makes me very proud that the Veterans Braintrust is one of the best attended forums during the Annual Congressional Black Caucus Legislative Conference. This year's event was particularly important because of the limited time we have to set the record straight on the sacrifices and service of African Americans during the Korean War. Because throughout the Korean War, African American soldiers were waging a war on two fronts. They fought gallantly beside their comrades in the most trying conditions, while battling the bigotry and racism that were still prevalent in the United States military. These same veterans continued their fight against racism at home by joining the grassroots of the Civil Rights Movement. Although Korea is known as the "Forgotten War," we told them that we will never forget, and we won't let our colleagues in Congress forget about the brave men and women who made the freedom we enjoy today possible.

Congressman SANFORD BISHOP, Jr., reaffirmed that the Veterans Braintrust is an event which has become one of the traditional highlights of the Congressional Black Caucus Foundation's annual legislative conference, adding that this is a family affair which brings veterans and their families together from throughout the country, and gives us an opportunity to discuss issues of critical concern to us all. To our distinguished panelist, he said, it is because of Korean War veterans, both men and women who have answered the call of duty that we have the strongest military in the world and praised their unselfishness in risking their lives to protect our freedom. Today is their day. African American Korean war veterans are finally receiving the recognition that they truly deserve. With that said, BISHOP introduced our keynote speaker, The Honorable Louis Caldera, Secretary of the Army.

Secretary Caldera began by stating, that this forum was aptly named. "Remembering the Forgotten of the Forgotten War." For many African Americans and for many reasons, Korea truly was the Forgotten War. It came on the heels of an exhausting World War II in which our Army literally led the effort to save the world from tyranny. Americans had expected to enjoy the fruits of this exhausting effort for some time. They had enough of war. But less than five years after V-J Day, they found themselves being asked once again to

sacrifice their sons and daughters to help defend freedom in a nation few had ever even heard of. But if Korea is the Forgotten War, then truly the African American soldiers who served in that conflict are the "Forgotten of the Forgotten War," as the title of this forum suggests. They had been set apart and marginalized as a fighting force long before the beginning of the conflict. But by war's end they were integrated into units throughout the Army and involved in the thickest of the fighting. The tremendous contributions our soldiers made in that war have never been fully recognized. And particularly the contributions of our Korean veterans were not recognized in the way we hailed the return of our World War II veterans and certainly even less was made of the service and contributions of our African American veterans who were not fully recognized. Those who were overlooked included men like Congressman CHARLES RANGEL and Congressman JOHN CONYERS, senior Members of the House, founding members of the Congressional Black Caucus, and decorated veterans of that war. Then Sergeant RANGEL was awarded the Bronze Star with "V" while he served with the 503d Field Artillery Battalion. And 2d

Of course there were tens of thousands of other African Americans who served bravely in the Korean War whose actions we must also commemorate and remember. I can tell you that I'm looking forward to next July 23, 2001, when we will lay a memorial wreath in a ceremony at Arlington National Cemetery to pay tribute to the soldiers of the 24th Infantry Regiment and other African American soldiers who bravely fought and fell in that war. They gave their lives for freedom at Yechon, at the Han River, at Kunu-Ri and on many other battlefields where their blood now consecrates that land.

Although there are many lessons that we have learned from our involvement in the Korean War. One of the most important lessons that Korea taught us was that segregation has no place in a modern military (or our society), but especially in the U.S. Armed Forces. We learned that the Army fights best when it is unified. We learned that leadership and bravery and courage knows no color boundary. Until Korea, the Army had reflected America's long and tragic history of racial discrimination by maintaining segregated units. It was costly, irrational, and an inefficient way to do business. It cost us in terms of the combat effectiveness of those segregated units. There were places where soldiers and leaders did not trust each other, held each other in disregard, and were rotated quickly through units where they did not invest time in bringing out the best in their men. The result was an Army where certain units were maligned and their reputations impugned because of unfounded rumors, innuendo and the adverse impacts of a self-defeating policy.

President Truman's historic integration order of 1948 said the Armed Forces were officially integrated. But at the start of the Korean War, they were still segregated. Once we were thrown into that war we had no choice, in the wake of early setbacks, exacerbated by readiness shortcomings, our military leadership was forced to send African American troops to fight side-by-side with white soldiers at the front

lines. As Lt. Gen. Julius Becton, one of our Army's most senior leaders and a personal role model when I was a young officer recently recalled that as a young African American officer serving in the early days of the Korean War, the question was put to him, where should we send the replacements who had started to come over to fill the thinning ranks? The idea of sending black soldiers to black units and white soldiers to white units and not putting a white soldier under command of a black officer all of a sudden had no relevancy. They refused to accept that kind of thinking and said "we're going to send these soldiers where they are needed." And so they sent the soldiers to the units where they were taking the highest casualties. As General Becton now puts it "Korea was what broke the eggshell to make the omelet to make integration a reality." Because all of a sudden soldiers were fighting side by side for their well-being, depending on each other, drinking from the same cup, giving blood to one another to save each other's lives and it made all the difference. Today, at a time when diversity is increasing rapidly, the Army is taking full advantage of the trail of opportunity that was first blazed by these African American soldiers. African Americans still comprise 29% of the enlisted ranks and fully 11% of our officer corps. We could not be the world's best land power force without these soldiers and without their leadership. They are integral to all we do, and of the future of this great Army, from our peacekeeping operations in the Balkans to our deterrence Mission on the Korea Peninsula, to the Persian Gulf. In the coming years, when America will need to draw even more on the diversity of her communities to meet the new challenges of the 21st century, we will continue to count on young African American men and women to shoulder the heavy burden of our nation's security. Thank you very much. God bless you and God bless our Korean War veterans.

In addition, the Secretary of Labor paid a very special tribute to Korean War veterans bravery and helped honor those African Americans who served in the Korean War. The Secretary of Labor reminded each of us that the Korean War occurred at a time when African-Americans served in segregated units, and many of those units were in heavy combat. However, the success of the integration of the military enabled African American veterans to return home and become key participants in the success of America's workplace. Lastly, the Secretary asked that all Americans remember the loyalty and valor of African American soldiers who fought bravely in the Korean War, brought change at home, and helped build a bridge to better, and more diverse workplaces.

Next, a poem written and read by SFC Laurence Hogan, USAR, Ret., called "Korea—The Dying Game," dedicated to the men of the 31st Infantry Regiment, 7th Infantry (Bayonet) Division, who fought on Pork Chop Hill, set the tone for hearing a lot about the trials and triumphs of African American Korean war military luminaries like Col. Daniel "Chappie" James, Jr. (and later the first U.S. Air Force African American four-star General) who flew many combat missions during the Korean War and flew missions in Vietnam, as well as com-

bat members of the infantry, artillery, engineers and ranger airborne organizations.

Dr. Edwin R. Parson, noted Psychologist and recent recipient of the NAACP's Jesse Brown Leadership Award moderated our distinguished Korean war panelists Sgt. Eddie Dixon, National Historian, 24th Infantry Regimental Combat Team (RCT) Association; Dr. William Hammond, Author and Historian, US Army Center of Military History; Sgt. Maj. Samuel Gilliam, USA, Ret., Member of the 503d Field Artillery Battalion; Mr. Theodore "Ted" Hudson, Sr., 7th Marines, 1st Marine Division; CSM Samuel Jenkins, USA, Ret., President, 24th Infantry Regiment Combat Team Association; Col. Charles E. McGee, USAF, Ret., President of the Tuskegee Airmen Association, Inc.; Mr. Curtis "KoJo" Morrow, "G" Company, 1st Platoon, 1st Squad, 24th Infantry RCT; Maj. James "Big Jim" Queen, USA, Ret., Executive Officer, 2d Ranger Infantry Company (Airborne), and commentator Dr. William Ball, Professor of Political Science & University Scholar, from the University of Vermont.

Dr. Parson opened by asking and attempting to answer the question, "Why and how did America forget our Korean war veterans?" In his professional experience as a psychologist he was not sure what America's historical lack of memory for the Korean War and its warriors was due to. But, to forget such noble and heroic exploits by these veterans so completely tells an astonishing story of not only national amnesia, but also societal insensitivity. Moreover, many people believe that when it comes to African American contributions for fighting our nation's wars at home and abroad America has always had a bad memory. It had a bad memory in forgetting the 33d US Colored Troops during the Civil War, and showed this same tendency in the forgetting of that war, as noted by Dr. Harvey Black, an African American surgeon in the Army of Northern Virginia. So, American amnesia for the sacrifices of Black Americans who served in the Armed Forces, beginning with the Revolutionary War, War of 1812, Civil War, Indian Campaigns, Spanish-American War, through World War I and II to Korea and Vietnam is by now legendary. Forgetting Korea and its veterans may thus be said to be no exception. It's a tradition. But, despite our nation's historic forgetfulness, we are here today honoring all Korean War veterans. As we believe that this special tribute to our African American war veterans aims to make memory a friend, not foe. To turn off the fear and face our past with renewed courage, like the courage so powerfully and memorably demonstrated by our veterans in places like Inchon, Pusan, Bloody Peak, Old Baldy, Hill 200, Triangle Hill, Hill 440, Hill 666 (or Gung Ho Hill), the Chosin Reservoir, Yalu, Chorwan Valley, Munsan-ni, Kumpchon, Taejon, and other places where war's violence was met by them with the liberating force of sacrifice and valor.

Later that evening, with the gracious assistance of the 50th Anniversary of the Korean War Commemoration Committee, and underwriting by Quality Support, Inc., an SBA 8(a) Vietnam Veteran Owned Firm, we honored

those who made the freedom we enjoy today possible. Those brave men and women who laid their lives on the line for a country that too often treated them as second class citizens. The invocation was given by Rev. Nathaniel Nicholson, 24th Infantry Regiment Silver Star winner; opening remarks by Mr. Wayne Gatewood, Jr., President & CEO, Quality Support, Inc.; with my brief introductory remarks for our keynote speaker and awards presenter the champion of America's veterans at the Department of Veterans Affairs, Acting Secretary Hershel Gober with Ron Armstead, Executive Director, CBC Veterans' Braintrust as announcer.

Secretary Gober thanked everyone for their warm welcome and especially thanked the Veterans Braintrust of the Congressional Black Caucus for arranging this event to honor some of our nation's most distinguished veterans—our African American veterans of the Korean War. He applauded the Veterans Braintrust of the Congressional Black Caucus for having worked hand-in-hand with the Department of Veterans Affairs as an advocate for minority veterans. And our Department is proud of our long association with this important group. It is a true partnership, and our nation's veterans have seen real benefits from it.

In addition, he stated, fifty years ago, in response to an invasion by foreign troops, the United States and fifteen other nations sent troops to fight for the Korean Republic. It was the first time in history an international organization sent an international army to preserve democracy, and to fight for the freedom of another nation. 6.8 million Americans served in our military on active duty during the Korean War era; 1.8 million of them in the theater of operations. Nearly 37,000 Americans died; more than 92,000 were wounded. The fates of as many as 8,000 more men have never been accounted for. But thanks to their service and their sacrifices, Korea stands today a free nation, with people proud of their freedom, and grateful to the men and women from the United States who came to stand and fight with them in their hour of crisis. Among the 1.8 million men and women who fought in the Korean War there were more than 100,000 African Americans. Black personnel made up 13% of the total military strength in Korea. Americans of African descent have always served our nation with distinction; from Crispus Attucks at Bunker Hill, to the 54th Massachusetts Volunteer Infantry during the Civil War, to the Tuskegee Airmen of World War II. But before 1948, they fought, when they were allowed to fight, in segregated units—denied the opportunity to show their abilities in an integrated setting. However, after President Truman's 1948 executive order and the armed forces compliance forced by the requirements of war African American soldiers, sailors, airmen and marines were quick to show they were every bit the equal of any soldier in combat, anywhere.

Fifty years after the Korea was began, we know that America is best defended by an armed force that is truly representative of all of our nation's diversity. And it is also best defended by an armed force that is recruited, trained, and led in accordance with our nation's highest ideals—the ideals black veterans fought for in Korea. That knowledge may be the most important legacy that black Korean

war veterans have given us. VA is proud to serve the heroes of the Korean war, and of all wars.

The 50th Anniversary of the Korean War Commemorative Awards went to the following (partial list of) brave African American men and women LTC Mary Ellen Anderson, USA, Ret., Mr. Lonnie Ashe, Lt. Gen. Julius Becton, Jr., USA, Ret., Mr. Francis Brown, First Sergeant George Bussey, Sr., USA, Ret., Ens. Jesse L. Brown, USN (Posthumous), Mr. Nathaniel Brunson, Maj. TRIBUTE TO THE LATE DR.
SAMUEL F. PETRAGLIA

HON. JAMES A. TRAFICANT, JR.

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. TRAFICANT. Mr. Speaker, today, I was deeply saddened to hear of the passing of my dear friend, Dr. Samuel F. Petraglia.

Dr. Petraglia, a decorated World War II veteran, was a family physician for forty-two years and an upstanding citizen of the community. He was the first Italian doctor to establish a practice in Poland, Ohio.

Dr. Petraglia was a very dedicated physician who never refused to treat a patient because they were unable to afford his services. He was also one of the few remaining physicians willing to make house calls to patients who were incapacitated.

Dr. Petraglia served on the staff of St. Elizabeth Health Care Center and the adjunct staff of Northeast Ohio Universities College of Medicine. I send my deepest regrets and sympathy to his wife and to his family. May God bless them.

HONORING KEITH WOODS

HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Ms. WOOLSEY. Mr. Speaker, today I recognize Keith Woods. Keith Woods has left the Santa Rosa Chamber of Commerce where he served with distinction—and flair—for 13 years. During his tenure, Mr. Woods made the Chamber into one of the most active in the state with a broad diversity of programs including classes, a speaker series, connections with the Convention and Visitors Bureau, and the creation of the popular Wednesday Night Market.

Keith's strong leadership in the business community and his well-known sense of humor have earned him a national reputation. He is known for the quick quips and insightful jabs that at various times run the gamut from self-depreciation to stinging sarcasm. He is Santa Rosa's toastmaster as well as the city's master of the roast.

He has also been honored three times by the California Association of Chambers of Commerce, including an award for Executive Director of the Year. Even beyond California's borders, Mr. Woods has had an impact, spreading the word at national chamber events about the importance of community involvement.

With Keith Woods at the helm of the Santa Rosa Chamber, there was always excitement, enthusiasm and new ideas in the business community. Thanks to Keith, it was never simply "business as usual." It is my great pleasure to pay tribute to Keith. I am very proud to be representing him.

TRIBUTE TO PASSAIC VALLEY
REGIONAL HIGH SCHOOL**HON. BILL PASCRELL, JR.**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. PASCRELL. Mr. Speaker, I would like to call your attention to the storied history of an important school in my district, Passaic Valley Regional High School in the Township of Little Falls, New Jersey. Saturday, September 16, 2000 marked the 60th anniversary of this fine institution of learning. It is only fitting that this school be honored, for it has a long history of caring and commitment to its students and the community at-large.

Passaic Valley Regional High School was recognized for its many years of leadership in Little Falls, which I have been honored to represent in Congress since 1997, and so it is only appropriate that these words are immortalized in the annals of his greatest of all freely elected bodies.

Passaic Valley Regional High School opened its doors on September 16, 1940, to some 610 students from Totowa, West Paterson and Little Falls, New Jersey. The school is governed by the Passaic Valley Regional High School, District #1 Board of Education which is composed of nine Board members from the three towns.

As a school committed to the development of well-rounded students, Passaic Valley has

added many other programs to augment its strong academic curriculum. These include a wide range of athletic, musical and literary activities, which are designed to stimulate and encourage the individual growth of each student.

It should be noted that the remarkable success of the Passaic Valley Regional High School is due to its community support. The Passaic Valley Regional High School, District #1 Board of Education, school administration, teachers and friends of the school have aided and fostered its growth and development. Thanks to the help of these individuals and the collective of their efforts this school is now a stellar force in the community.

I applaud the many outstanding and invaluable contributions that this school has given to the community. Education is one of the cornerstones of our culture. This wonderful school has added much to the rich history of the State of New Jersey, and we all should be proud that we are able to celebrate a day in its honor.

Mr. Speaker, as a former educator in New Jersey, I can say that I can think of no other school or faculty that works harder or care more about the students. Perhaps the greatest tribute Passaic Valley Regional High School is success of its former students. Alumni from this prestigious high school have risen to prominence in a variety of fields.

Mr. Speaker, I ask that you join our colleagues, the Township of Little Falls, Passaic County, the State of New Jersey, the students, teachers, staff, Principal, Passaic Valley Regional High School, District #1 Board of Education, Superintendent and me in recognizing the outstanding and invaluable service to the community and the 6th anniversary of Passaic Valley Regional High School.

NORTH COAST HEALTH MINISTRY

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. KUCINICH. Mr. Speaker, I rise today to recognize North Coast Health Ministry for their exemplary work in helping the uninsured and underinsured access health care services. As a volunteer organization, it fills an important need in my district for thousands of working families.

North Coast Health Ministry operates clinics that are staffed by physicians, nurses and other staff who volunteer their time and services to provide comprehensive health care services. Started in 1986, NCHM has established relationships with health care professionals and three local hospitals to treat referred patients when they need additional care and treatment, including surgery and recovery.

Since its inception, it has linked with other free clinics in the area to establish the Ohio Association of Free Clinics. This expanded network improves access to health care for the working poor throughout the state. Through the determination and initiative of the NCHM, the Ohio Association was recently awarded a \$600,000 grant to continue and expand its services.

I ask my colleagues to rise in recognizing the exemplary efforts of the North Coast Health Ministry and the many volunteers who

have contributed to it. I commend them for their kind works and congratulate them on their grant.

REPUBLICANS GIVE \$200 MILLION
GIFT TO DRUG INDUSTRY**HON. FORTNEY PETE STARK**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. STARK. Mr. Speaker, the Medicare bill before us gives a \$200 million gift to the nation's drug manufacturers—undoubtedly a pay-off for the industry's massive, \$80 million contribution to the Republicans and Governor Bush.

In section 429, as passed by the House, and in the versions of the bill circulating as late as December 12, Medicare was prohibited from either increasing or decreasing the rates of reimbursement for drugs. This section blocked an effort by the Justice Department, the HHS Office of the Inspector General and Medicare to save the taxpayer hundreds of millions of dollars a year in overpayments. CBO scored the blockage as costing about \$200 million. To offset the cost, the original bill, as passed by the House, also blocked drug companies from increasing their charges to Medicare.

Sometime between December 12th and last evening, someone in the Speaker's office or the Senate Majority Leader's office dropped the word "increase"—thus allowing the drug companies and doctors who profiteer from huge mark-ups on drugs to continue to rip-off patients and taxpayers. The bill before us now only blocks the cuts in reimbursement that had been recommended by the Department of Justice.

What a travesty. Senator McCAIN is right: it is way way past time for campaign finance reform.

TRIBUTE TO THE HONORABLE
DEIDRA HAIR**HON. ROB PORTMAN**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. PORTMAN. Mr. Speaker, today I pay tribute to a distinguished friend, Judge Deidra Hair, who will step down from her service on the Hamilton County Common Pleas Court on December 31, 2000.

In 1995, the Hamilton County Common Pleas Court was founded as Ohio's first drug court. Judge Hair, who helped to establish the drug court, has tirelessly handled about 1,500 cases each year. Her court has become a model across Ohio, and since 1995, ten additional courts in Ohio have been crafted in its likeness.

The goal of the drug court is to rehabilitate substance abusers and keep them out of court and out of prison. Those arrested on drug abuse charges or those who commit a non-violent felony under the influence of drugs may have their case heard by the drug court. Using strict criteria, the court may accept applicants who do not have a violent criminal background and who have committed a low-

level felony that does not require prison time. If accepted, they must plead guilty and enter drug rehabilitation. The goal is to break the cycle of addiction, so the court selects those who are most likely to be helped.

I have been privileged to observe the drug court and to attend an inspiring graduation ceremony for participants who have successfully completed this program. Through that, I've seen firsthand the good work that drug rehabilitation can do.

Judge Hair has literally helped to turn hundreds of lives around in the Cincinnati community, and she will be dearly missed when she steps down from the Hamilton County Common Pleas Court. All of us in the Cincinnati area wish her the very best in her future endeavors.

U.S. SUPREME COURT PREVENTED JUDICIAL INTERVENTION IN THE ELECTION

HON. JOHN EDWARD PORTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. PORTER. Mr. Speaker, the decision of the U.S. Supreme Court was consistent with common sense and the need to bring finality to a process which, in my judgment, should never have started. By that, I mean the judicial involvement in the election decision.

Before the onset of technology, in the distant past when paper ballots were used in elections, the standards for a valid vote were clear and universally observed. To vote, you placed an "X" in the box by the candidate's name. If you used a check mark or other mark or placed your "X" outside of the box, your vote for that office was invalid and, in the absence of fraud, was not counted.

Voting machines were meant to speed the process of voting and counting the votes cast. But they also have standards. If you do not punch the card in the manner specified, indicating your intended vote, the machine will not count it. If you can't understand the instructions or make a mistake as you vote, you can ask for help or a new ballot. The machine is impartial. It counts all properly cast votes. It does not count those not properly cast, nor should it. Unless there is a challenge to the workings of the machine in counting the vote, or other irregularity or fraud alleged, the count of the voting machine should be the certified or final count in the election.

The judicial challenges in Florida by the Gore campaign were based principally upon the cards that the machine did not count. The Gore contention was not that the machines did not count correctly, but that votes not properly cast by the voter should be counted by hand—somehow by having county election officials divine the voters' intentions. It is fascinating that the standards to do this were never established in two decisions by the Florida Supreme Court. Telling county election officials simply to use their best judgment was clearly unconstitutional, as the U.S. Supreme Court just ruled, since it violates the equal protection clause. It is also plainly an open invitation to manipulation of the results and fraud.

Fortunately, this episode will result in introducing new technologies for voting designed to foreclose any attempt to go outside the ma-

chine result in future elections. Once again, perhaps, technology will save us from ourselves. But let's leave this difficult process with several clear understandings. First, votes have to meet some minimum standard and voters have to take the responsibility for their own actions. More than two hundred years ago our new country placed its future on the judgment of individual people, not dictators or kings. But with rights come responsibilities. One is to meet minimum standard of preparation and execution to cast a valid vote.

Second, we should have learned that the judiciary, in the absence of alleged fraud, should not intervene in the political process. For most of our history this has been an unstated part of the separation of powers. The first decision of the Florida Supreme Court should have upheld the Secretary of State's certification. Unfortunately, their desire to intervene in the absence of alleged fraud necessitated not one but two trips to the U.S. Supreme Court. It is instructive that the court in Washington did not itself intervene but prevented the Florida court from doing so.

Finally, it is a testament to the founders of this great Republic that all of us are sufficiently imbued with the rule of law that we sat patiently through this long process and believed that it would be resolved as fairly as is humanly possible within that rule. We did not take to the streets, take the law into our own hands, or threaten to overthrow our system. It is not perfect, and we are not perfect, but we know it is the best system that humankind has ever devised.

IN HONOR OF THE RETIREMENT OF BARBARA B. ASWAD

HON. DAVID E. BONIOR

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. BONIOR. Mr. Speaker, today I rise to honor one of our country's great scholar-educators, Dr. Barbara B. Aswad of Wayne State University. Dr. Aswad is retiring from Wayne State after 30 years as a professor of Middle Eastern Cultural Anthropology. Her research has focused on peasant culture, women and family studies, and urban anthropology.

Professor Aswad has conducted field studies in Arab villages and Turkish towns in the Middle East as well as in Arab-American communities here in the United States. She is a Fulbright Scholar and has published three books and 32 scholarly articles and chapters in books on Middle Eastern social organization. In 1991 she was elected President of the Middle East Studies Association of North America, the professional association for professors of Middle Eastern disciplines. Dr. Aswad was also a recipient of the prestigious Alumni Faculty Service Award for her service to Wayne State.

In addition to her many contributions to academic research and lengthy service in professional organizations, Dr. Aswad must be recognized for her dedication to her students, her department, and the Arab-American Community. She is widely respected by her peers not only as a fine educator, but as a wonderful person as well.

While Wayne State University may be losing a faculty member, ACCESS and other organi-

zations that Dr. Aswad is so dedicated to will still have a strong voice in our community. Please join me in wishing Dr. Barbara Aswad all the best in her retirement from Wayne State University.

AFRICA AND THE NEXT ADMINISTRATION

HON. FRANK R. WOLF

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. WOLF. Mr. Speaker, I want to share with you an outstanding speech by Ambassador Richard T. McCormack titled: The Challenges and Opportunities in Africa. In this speech, Ambassador McCormack's analysis and insight into the the problems and predicaments facing Africa are astute. I am hopeful that Ambassador McCormack's voice on Africa will be heard by both the next Congress and the next Administration.

PRESENTATION TO THE CENTER FOR THE STUDY OF THE PRESIDENCY

THE CHALLENGES AND OPPORTUNITIES IN AFRICA

Every year my work for American companies, investment firms, and think tanks results in a tremendous amount of global travel. I have learned that there is simply no substitute for seeing local circumstances with your own eyes and talking face-to-face with leaders who are struggling to cope with their problems.

Last May I visited China and met with top Chinese leaders to discuss concerns about WTO issues. In June, I visited Bulgaria and the Czech Republic to consult with elected leaders and central bankers concerning economic opportunities and dilemmas. Earlier that year I discussed with central bankers in Europe problems involving the Euro and potential vulnerabilities in the international derivative markets. And I have continued to monitor Japan's ongoing banking and growth problems with close contacts in Japan.

But our chairman was aware of another extensive trip I took this summer to Africa at the request of friends. He suggested that I share with you tonight some of the observations and conclusions from this consultation with Presidents, central bankers, key officials from the African development bank, leaders at the Organization of African Unity, aspiring political leaders, and hundreds of ordinary citizens.

One of the reasons that I agreed to make this trip was my long standing interest in Africa beginning with my Ph.D. dissertation about Kenya many decades ago. I took this trip not because Africa is strategically important to the United States, but rather because there are hundreds of millions of people often in desperate circumstances in that part of the world. These people need our understanding and assistance if they are not to undergo catastrophe on a scale that has not been seen since the plagues and wars of Europe during the Middle Ages.

Furthermore, I knew that Africa has produced a number of leaders who have the right policy instincts and who care about their people, but who need support in implementing their visions.

So what I am going to do in the next few minutes is offer some snap shots of what I saw and heard on this trip to give you some sense of what is happening in parts of Africa today. Then I plan to list some suggestions that could help deal with some of the regional problems.

BENIN

Benin was the first country on the agenda. It is a small county in West Africa led by a remarkable man, President Kerekou. This veteran African leader had for many years followed a Marxist path, but realized at one point the bankruptcy of this approach and voluntarily left office. Years later, he ran for the Presidency on a very different platform and won overwhelmingly.

Benin, of course, was one of the great slave exporting countries in the 17th and 18th centuries. One Sunday morning during a recent trip to Washington, President Kerekou visited one of the largest predominately black churches. To the astonishment of the people, he begged forgiveness on behalf of his ancestors for having participated in the enslavement of their ancestors. I am told that there was hardly a dry eye in the church when the old gentleman finished his plea.

In Benin, there were two kinds of tribes. Some of the coastal tribes were the predators, and many of the tribes in the interior were the prey. The animosity between these two ethnic groups continues to this day to poison political and social life in Benin and elsewhere in West Africa. For the past several years, President Kerekou has organized reconciliation ceremonies to try to heal these wounds. And he has made considerable progress.

Indeed, so great is his stature as a regional moral leader that one of the other neighboring presidents I visited told me that he would happily lay on the ground and let Kerekou walk on him, so great was his respect for his distinguished neighbor.

IVORY COAST

In the Ivory Coast, I had two meetings with President Guei, whose name has recently been on the front pages of many American newspapers due to controversies surrounding the recent presidential election in the Ivory Coast. Indeed since our conversations, President Guei has fled into exile.

But in my meetings with him, it was obvious that he was an exhausted man with no evident ideas on how to deal with his country's multiple problems. He was surrounded by layers of bodyguards to foil assassination attempts. Within weeks of our visit, another coup attempt resulted in a narrow escape for the President and the death of a number of his guards.

I asked friends how he came to be President and was told a story which was largely confirmed later by the American embassy.

It seems that there were several hundred soldiers from Ivory Coast who had been sent on a peace keeping mission to a neighboring country. They had been promised a bonus for this dangerous assignment. When they completed their work and returned home, they applied to the Defense Ministry for their due bonuses, which

They then were told that the Ministry could not give them the bonuses, ostensibly because they were out of funds. The soldiers were told that they would possibly be paid next year.

The men were furious and took to the streets with their guns, firing into the air. Suddenly crowds of people emerged, cheering on the soldiers and thinking that they were part of the coup to remove the increasingly tyrannical incumbent President. The soldiers then moved to take over the television station and sought a replacement President. They realized that unless they found a new President, they would face the wrath of the incumbent as soon as they returned to their homes and barracks.

They first approached the Minister of Sports, who declined the honor. They then went to the farm of a retired general, Mr.

Guei, and offered him the Presidency. He too declined. The soldiers then threatened to kill many members of the existing government unless General Guei became the President. Then, holding General Guei's wife hostage on the farm, they escorted the General to the television station. At the station, he announced that he would be the new interim President, but said that he would only hold the job long enough to organize new elections.

After a few months, however, members of General Guei's family discovered that they had an amazing talent for business, hitherto unknown. Somehow, contracts materialized along with a host of other benefits. They were reported to have pressed General Guei to stand for a full term in the upcoming elections. Since the General lacked much in the way of charisma or ideas for dealing with the nation's problems, some of the General's advisors and associates crafted an election procedure that disqualified most of the more popular potential opponents on one pretext or another. One relatively weak opponent remained, however.

Shortly after I left the country, riots broke out between the various factions. General Guei lost the election and was forced to flee the country. But it is not clear what will happen next in Ivory Coast. There are great tensions in the country, where there seems to be as many as 60 tribes and language groups, divisions between Christians, Muslims, and Animists. There is also ill will between the native Ivorians and the more recent immigrants who are attracted by the relative prosperity and stability of the country in past decades. No one thinks that politics are yet settled.

NIGERIA

Nigeria was the next stop. From all the reports, the current President of Nigeria is an honest man with the interests of his people at heart. But there are a number of problems.

One of these is a culture of corruption which took root in part of the society and body politic in years past. A substantial percentage of Nigerian oil production is said to be officially unaccounted for. As you travel around chaotic Lagos, you frequently see warnings on buildings and fences against land scams.

The old agricultural base of the economy was neglected when oil became such a critical part of the economy. This contributed to over urbanization and drained the economy in other ways as well. During times of low oil prices, the lack of a more balanced economy is acutely felt. It also contributes to the high unemployment rate.

Airport security has been a persistent problem in recent years, particularly the smaller domestic airport in Lagos. Even my Nigerian hosts were alarmed as we ran the gauntlet of muggers and panhandlers between the parking lot and the actual terminal building. This, of course, also alarms potential foreign investors and tourists.

The new capital, Abuja, shows the signs of efforts of city planners to avoid the chaotic growth of Lagos. And Nigerians take justifiable pride in some of the new federal buildings. The most conspicuous feature of the local press, however, were articles about the struggle between the President and the new parliament over a self appropriation of \$40,000 to each member of Parliament for furnishings for their private residences. The President felt that this was excessive, particularly during a period of budgetary stringency.

Great tensions between Muslim and Christian regions of the country are building again. These tensions have deep historic roots, but have recently worsened due to a

campaign to impose Islamic law in areas of mixed populations with Muslim majorities.

You also hear the frequently expressed wish that the President would reach out to include more people in his inner circle, particularly younger people with recognized technical skills.

ETHIOPIA

Ethiopia was a country that I toured extensively when I wrote my Ph.D. dissertation, but I had not visited this country for several decades. I was interested in seeing what 20 years of communist rule and war had wrought in Haile Selassie's ancient kingdom.

My first visit was to the American embassy to seek a briefing on economic and political conditions in this country. To my dismay, the senior political and economic counselor who had served there for three years was unable to tell me even the rate of inflation. It was an extremely depressing visit. Fortunately, in my hotel, I discovered an old friend, a senior IMF official who was consulting with the Ethiopian government. So I did receive an outstanding economic briefing.

I also met with many of the key leaders in Ethiopia, who had just completed a successful defensive war against Eritrea, their neighbor to the north, and who were struggling to get the economy back on track. Many of these people are honest, but a Marxist education is not always the best preparation for organizing an efficient market economy.

In Addis Ababa, we saw a world class hotel, but which is surrounded on all sides by dire poverty. Large numbers of maimed veterans of past wars, street urchins, the aged, and women with babies beg at every opportunity. It is heart rending to see such scenes, and they are poison for the tourist industry, which could become a massive source of jobs and foreign exchange.

Famine stalks the land in part of Ethiopia, even as one drives by vast well watered and fertile agricultural lands which could produce much higher yields with modern agricultural techniques. Unclear land tenure policies, a reaction to the vast feudal holdings of the Imperial era, prevent ownership and consolidation which are necessary to introduce modern farming on an efficient scale.

KENYA

Many years ago I lived in Nairobi, Kenya. When I revisited this capital city, I found it virtually unrecognizable, swollen like many other African cities by weaknesses in the rural economy and the high birth rates. Drought and electrical shortages have caused famine and blackouts. I also saw the scars from the recent bombings of the American embassy. A large distant fortified replacement facility was rising in an isolated area far from the heart of the city. Yet another bunker-like "Festung Amerika", seeking to foil terrorist bombers, will be the inevitable final result.

I met with a number of able and prominent political leaders who were hoping to rise to power in the elections scheduled within the next two years. There was an awareness of the real cost of corruption to the national economy.

Kenya's agriculture is in crisis. Drought is only part of the problem. Kenyan farmers are compelled to sell their coffee, the country's main foreign exchange earner, to the government marketing board. This board has not yet paid the farmers for last year's crop, creating acute hardships and vast resentment. Such farmers are not in a position to make expensive outlays for fertilizer and other needed materials, guaranteeing a smaller crop next year to a country with a foreign exchange shortage and high unemployment.

One bright spot, though, is the vast game parks of Kenya which are a source of great local pride and considerable tourist revenue. During a visit, we actually observed a group in Masai with spears trying to run down a lion, which no doubt has been stalking their cattle. The drought had brought both the cattle and the Masai into the normally forbidden game park.

SOUTH AFRICA

In South Africa, the legacy of decades of apartheid has contributed to tension which are experienced at every hand. Johannesburg, once a vibrant city, has become an urban fortress with electrified fences and military concertina wire surrounding every affluent home and neighborhood. Private security services are one of the few booming businesses. Hotels are being built near the airport because much of the downtown area is no longer safe for visitors. Rural farmers find themselves sometimes virtually under siege. Perhaps as many as 50% of South Africans are unemployed. More than 20% are HIV positive and doomed unless medical assistance can be provided. Many of these stricken young men and women are deeply angry, contributing to the crime and violence. Educated young people are leaving the country in droves, moving to New Zealand, Australia, and elsewhere, and taking with them skills and talents which are desperately needed in South Africa itself.

Tension has arisen between former President Mandella and his successor. His successor is under great pressure to find jobs for black Africans. There is reluctance to confront the AIDS problem with the urgency that is needed. Land seizures supported by President Mugabe in Zimbabwe are putting growing pressures on South African leaders to follow similar policies. In Zimbabwe, such policies have proven catastrophic both for modern agriculture, the national economy itself, and for social peace. But it is not clear how long South African leaders can resist pressures to begin similar policies. There is great apprehension among the commercial farming communities.

Leaders of the South African government greatly resent unfavorable reports about conditions in South Africa since they desperately want to attract foreign investment to create jobs and support the currency. But the truth of the matter is that potential foreign investors always inquire of local contacts about true local conditions.

There is talk in South Africa, strongly opposed by the government, about breaking up the country into zones where racial and tribal concentrations exist. Unless stability is created, the growing anarchy could eventually lead to just such a result.

If the deterioration in South Africa leads to anarchy, civil war, and economic collapse, all neighboring countries with important commercial relationships with South Africa will also suffer. But the reverse is also true. If the South African economy can be stabilized and revived, growth and talent in South Africa will spread gradually throughout the southern region. So the stakes are very high. It is also important to remember that the earlier constructive action takes place, the easier it will be to achieve results.

Concerning South Africa, there are parts of the political class in other parts of the world which viewed their task as finished, once apartheid has been crushed and Mr. Mandella installed in office with a mission to reconcile the nation. But the truth of the matter is that Mr. Mandella is out of office. Many elites from socialist traditions

The complexities and dilemmas inherent in this situation have caused many people who were involved in the anti-apartheid struggle from Western countries to avert their eyes from the growing unrest in large parts of South Africa. It would be an historic tragedy if the elimination of apartheid only ushered in a new era of economic and political misery, and eventually a new one-party perpetuating misfortune on all citizens, black and white. This would be a collective failure for all of us.

CONGO

Reports on developments in former Zaire, now the Congo, are even more unsettling. These reports estimate that more than two million people have been killed in the war that has been raging throughout the country during the past two years. Here too there is talk about the possible breakup of this vast, potentially rich nation that has deteriorated steadily since 1960. Indeed, 70% of the modern hard surfaced roads built by Belgian colonists in Congo have reverted to bush and jungle and are unusable today.

Some of the world's richest mineral deposits are unworked due to violence, lack of mining machinery, collapsed transportation infrastructure, and poor maintenance of mines and facilities.

Revenues from some of the still working mining operations are being diverted to finance foreign troops defending the regime in Kinshasa against other foreign troops who are penetrating other parts of the country where a spill over from earlier wars had created intolerable conditions for neighboring countries.

Many African leaders have worked hard to bring peace to this wretched country and its 50 million people, but one agreement after another has not been implemented. And the war and killing continue.

WHAT TO DO?

1. It is important to understand that there is no magic wand that can, at a stroke, erase the legacy of decades of misrule, mistakes, injustice, poverty, and violence that have impacted parts of Africa. Many statistics are unreliable, particularly those which quantify bad news. But this knowledge should not paralyze us or prevent us from taking steps that can, in fact, mitigate some of the problems in the region and build a foundation for later growth and development. Furthermore, there are now a number

2. While there are generic problems in sub-Saharan Africa, such as the AIDS crisis and other public health problems of equal concern, each country in sub-Saharan Africa is truly unique in tribal composition, politics, history, traditions, resource base, religion, culture, and all the other factors that contribute to diversity. Without a detailed knowledge of these unique factors, it is difficult for even well-intentioned outsiders to contribute effectively in finding solutions to the problems. In the United States, for example, most parts of Africa lack an informed constituency of sufficient size to serve as a buffer against the mistakes that sometimes occur when policy issues in Washington become a compromise between a junior desk officer at the State Department, and a well-paid, politically connected lobbyist representing the incumbent ruler. Fortunately, America possesses talent and knowledge in depth about most parts of Africa. Some of our experts are in the academic world, some at the World Bank, some are retired diplomats, some sophisticated journalists, and so on. What is needed is an organized con-

sultative process where these experts can be brought together to address the problems of individual African countries. Had such a process existed, it seems doubtful to me that the American government would have thrown its support behind Mr. Kabila, for example, and events in Sierra Leone would have evolved differently. When we make mistakes of this kind, not only do we lose credibility, but we also impose heavier burdens on a region that is already staggering. We owe it to the people of Africa either to send in a varsity team or get off the playing field.

3. Economic development cannot take place where armies are contesting the ground. Prevention and resolution of these conflicts requires a more effective effort. From the American point of view, the first line of defense in preventing conflict is a vigilant, active, well-connected and supported United States Embassy. It also requires in Washington a back-up chain of command which actually reads the reports from the field and is prepared to act on them in a timely manner. This does not mean dispatching the 82nd airborne division every time the fire bell rings. It does mean rapid and effective coordination with allies and regional powers and organizations, not to mention forceful, private representations to potential malefactors. It is a lot easier to stop a conflict before it is unleashed, than to try to halt one, once blood flows and popular passions rise.

In recent years pan Africa and sub regional African organizations have shown themselves willing to fill part of the vacuum left by former colonial powers' increasing reluctance to engage directly in the affairs of their former subject peoples. Greater international support for the peacekeeping operations, including regional and sub-regional organizations therefore is needed. Similarly when America deploys its prestigious, heavy hitters in diplomatic peace making missions, such efforts need to be supported, first of all, by our own government. Undoubtedly, the United Nations can play a large role in the future in this context if adequately led and supported.

4. Conflicting commercial ambitions by companies and individuals in various African countries have sometimes produced foreign diplomatic support for individual leaders or potential leaders who are viewed as friends. ELF Petroleum's objectives and the multiple rival interests in the diamond industry are some of the many examples of this.

Even where such interests are not directly involved, paranoia about the potential of such sponsorship is helping to prevent advanced countries from working together effectively to support development in Africa. Covert support for this or that potential leader is assumed. The recent election in the Ivory Coast was a case in point, where riots were mobilized by one group to protest alleged French attempts to interfere in the election process.

Yet it is absolutely clear that advanced countries could accomplish much more in Africa by working together than by allowing divisions over conflicting commercial agendas to poison cooperation.

There are a number of highly able African leaders who care about the interests of their peoples, but who sometimes do not have the in depth, local talent needed to craft development strategies that could command wide support.

There is an urgent need for such strategies in sub-Saharan Africa. The best of African

talent needs to be engaged with that from cooperating multilateral organizations and individual countries to produce as realistic and comprehensive market based development plan for each country in sub-Saharan Africa.

At its peak, the mineral riches of one province in Congo provided 25% of the GNP of that country. Once peace comes, a high priority should be given to a plan to restore the power and transportation infrastructure to allow these minerals to play their earlier role in the local and global economy.

By the same token, unwise policies, such as the current efforts of President Mugabe to demagogue the issues involved in the commercial farming sector of his country, need to be more strongly discouraged by those in a position to deploy carrots and sticks. Everywhere in Africa there is a need for more intensive commercial farming, which has more than proven its potential in the latter part of the 20th century. The solid results achieved by efficient commercial farmers both in feeding local people and in providing desperately needed jobs and foreign exchange through exports is something that should not be ignored.

5. Delivery of health services is another area where more cost effective distribution systems are needed in some countries. A recent World Bank report suggested that of each \$100 appropriated for medicines by national budgets in Africa, only \$12 worth of such medicines reach patients. The rest of the money is lost through a combination of spoilage, corruption, and other apparent consequences of gross mismanagement.

The cost of commercially available treatment of HIV positive individuals or those with AIDS is about \$15,000/person. This is the approximate cost of educating 100 primary school students for an entire year. Offers by the United States to provide loans to impoverished African countries to allow them to purchase greater quantities of commercially available drugs to prolong the useful lives of the HIV positive will not find many willing takers among governments with unlimited pressing needs and limited resources.

Prevention is obviously the most important first line of defense against this scourge. Senegal does an effective job in this regard, and its HIV positive population is merely 1.8% by comparison with other countries with rates in excess of 20% and growing. Uganda is also now successfully lowering the infected number of their citizens through effective anti-AIDS information campaigns. But the Senegal and Uganda information programs should be put on the road and marketed in all the African countries.

Brazil has successfully begun to attack its own HIV problem with generic drugs produced at a fraction of the \$15,000 commercial rate. It did so by simply expropriating the technology and subsidizing the production and dissemination of the drugs.

Clearly, it is in the interest of all that current market-based incentives for research and development of anti-AIDS drugs should continue and intensify. Companies which are successful should be rewarded for their success. The franchises for distribution of HIV/AIDS medicines in Africa should be purchased by donor governments and multilateral health agencies.

Even if not all the millions now infected can be treated with anti-AIDS medicines due to cost factors and distribution complexities, at least the scarcest talent in the country, educated at vast cost, can be treated and their productive lives greatly extended.

6. Better education programs are clearly part of the answer to Africa's multiple prob-

lems. But today, less than 2% more women are being educated than was the case during the colonial period. Educational costs are unnecessarily high in some places because of unionized work forces that extract high salaries and benefits. In some places, governments cannot afford to field the number of highly paid teachers who are needed to address the requirements of Africa's children.

American children were educated in the 19th century with very simple structures and facilities. This is an area where friends of Africa in the developed world could perhaps usefully contribute more in talent, funds, and advice. Schools are also

7. Leadership. During the Cold War, the United States mounted an extensive effort to identify and support able, young people from many parts of the world. Large numbers were brought to the United States as visitors and hundreds of thousands were educated here. The AIDS scourge is decapitating large numbers of people, including the educated elites in Africa, and a massive effort to replace these vitally needed technical and leadership groups is urgently needed. This will have to be a shared task among many countries that are friends of Africa.

CONCLUSION

This presentation is by no means an attempt at a comprehensive look at Africa's current problems. Those interested in digging deeper into the details should begin by reading some of the useful publications that the World Bank has recently sponsored and examine the writings of other experts on Africa.

Rather this speech is an effort to point out some of the things that I saw myself on a recent tour of part of the continent and some of the conclusions that I reached.

It is intended as an appeal to parts of the policy community who normally have responsibilities far beyond this one isolated region. We all need to look again at what is happening in sub-Saharan Africa and reconsider our overall priorities.

There is plenty of evidence that when the broader policy community focuses its attention on a problem of this kind that it can greatly strengthen the local leadership classes that ultimately bear responsibility for implementing solutions.

In years past, non-profit organizations, scholars, journalists, retired diplomats, and politicians, as well as individuals working within governmental and multilateral organizations have made major contributions in Africa. River blindness, for example, has been almost eliminated from many parts of Africa. New strains of crops have turned some famine prone areas into food-exporting regions. Reconciliation efforts far from the eyes of the public have brought old enemies together. But when governments put their shoulders to the wheel with imagination, resources, and leadership, they can accomplish things that are far beyond what individuals can do.

There is both a need and an opportunity for collective international action in Africa today. The recent debt relief effort needs to be supplemented by programs that deal with other aspects of the continent's urgent needs.

Sometimes even a relatively modest effort in an area which is under-served can yield a disproportionately positive impact on the lives of a great many human beings. The opportunities now in Africa are great for this kind of commitment. I hope that some of you will take up the challenge. Leadership, imagination, and resources are urgently needed in this part of the world.

TRIBUTE TO ANTONIO MEUCCI

HON. BILL PASCHELL, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. PASCHELL. Mr. Speaker, Alexander Graham Bell is the man most commonly given full credit for the invention of the telephone. The courts awarded him one of the most valuable patents in American history, a patent that made him a millionaire and became the foundation for one of America's largest corporations. Certainly, the telephone has become a tool of modern communications so fundamental that many of today's business and social activities would be inconceivable in its absence. However, Bell's claim that he solely engineered the telephone was hotly disputed by a number of other inventors, one of which I wish to speak of here today. My motive is not to disparage or discredit the legend of Mr. Bell's findings, but rather to tell the story of Antonio Meucci, an Italian immigrant little known for his far-reaching contributions to our society.

Antonio Meucci was born in San Frediano, near Florence, in April 1808. He studied design and mechanical engineering at Florence's Academy of Fine Arts and then worked in the

Teatro della Pergola and various other theaters as a stage technician until 1835. From there he accepted a job as a scenic designer and stage technician at the Teatro Tacon in Havana, Cuba.

Fascinated by technical research of any kind, Meucci read every scientific missive he could acquire. He spent a great deal of his spare time in Havana on research and he soon gained notoriety for his creative and productive mind. His purported inventions included a new method of galvanizing metal, which was applied to military equipment for the Cuban government. He continued his work in the theater, but science had become his indomitable passion.

One day, in his home, Meucci heard an exclamation of a friend, who was in another room of the house, over a piece of copper wire running between them. He realized immediately that he had something that was more important than any discovery he had ever made. With that realization also came the understanding that to succeed as an inventor, he would need an environment that truly fostered his inquisitive mind and vibrant spirit. He would come to America, to explore this new communication possibility.

He left Cuba for New York in 1850, settling in the Clifton section of Staten Island, a few miles from New York City. Though poor finances and limited English plagued Meucci, he worked tirelessly in his endeavor to bring long distance communication to a practical stage.

In 1855, when his wife became partially paralyzed, Meucci set up a telephone system which joined several rooms of his house with his workshop in another building nearby. This was the first such installation anywhere. In 1860, when the instrument had become practical, Meucci organized a demonstration to attract financial backing in which a singer's voice was clearly heard by spectators a considerable distance away. A description of the apparatus was soon published in one of New York's Italian newspapers and the report with a model of the invention were taken to Italy with the goal of arranging production there. Unfortunately, the promises of financial support, which were so forthcoming after the original demonstration, never materialized.

Antonio Meucci refused to let this set back destroy his vision. Though the years that followed brought increasing poverty, he continued to produce new designs and specifications. Unable to raise the sum for a definitive patent, Meucci filed a caveat, or notice of intent, that was a preliminary description of his invention with the U.S. Patent Office. His telegrafo was registered on December 28, 1871 with the requirement that he file for converting it into a patent in 1874. Fate would deal Meucci a cruel blow, however, as he fell victim to a near fatal boat explosion. While he lay in hospital, destitute and ill, Meucci allowed the provisional patent to lapse.

Two years after the expiration of Meucci's caveat, Bell took out a patent for his voice transmitting electrical device, which he called the telephone. It is possible that sometimes several inventors have the same idea at the same time. In this case, however, what has mattered is not who had the idea for the telephone first, but who first turned the idea into a viable commercial enterprise. As we all know, it was Bell who succeeded in that respect.

For too long Antonio Meucci has been only a footnote in our history books. At many local libraries, a search for Meucci in the card catalogue yields nothing. His legacy deserves more. Remember that a federal court in the 1880's found that Meucci's ideas were significant to the invention of the telephone and the Secretary of State at the time issued a public statement that "there exists sufficient proof to give priority to Meucci in the invention of the telephone."

Mr. Speaker, many people from many different nations have contributed to the greatness of America. Antonio Meucci was indeed one such person. He is an example of someone who worked for the benefit of all. It is fitting that his efforts are recognized here today.

IN HONOR OF TOM SHORT

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. KUCINICH. Mr. Speaker, President Thomas Short of IATSE, the International Alliance of Theatrical and Stage Employees, ranks as one of the City of Cleveland's favorite sons. Cleveland is proud of his strong, disciplined, patient leadership which has earned him the gratitude of the rank and file of the IATSE, the appreciation of all international labor leaders, and the respect of those who sit across the table from his I/A team.

As a member of the labor committee of the United States Congress and as a member belonging to IATSE Local 660 (when you are in politics it is always good to have another trade) I know first hand the powerful and positive impact Tom Short has had in protecting and advancing the economical, social, and political rights of working men and women. President Short achieves success for his members through making the use of principle, a practical and pragmatic goal.

As a veteran of both labor and politics, I am aware of the challenges which confront my brothers and sisters in the entertainment world. Surely this, the most dynamic of all industries, with so many exceptional individuals blessed with depth of talent and breadth of vision—surely you can call upon the limitless reservation of spiritual and creative energies always available to you, to design an environment of benevolence and co-operation where all are winners in the collective bargaining process.

Over thirty years ago, when I began my career in public service, I worked closely with Tom Short's father, Adrian, who led Cleveland's stage hand union. Adrian Short introduced me back then to his sons, Dale, a labor leader in his own right, and Tom, our honoree.

How very proud your father would be of this well deserved moment of grace, Tom, for you embody every dream he had—in your quest to elevate the dignity of all working people.

THANKS TO THOSE WHO HELP KEEP THE CAPITOL FUNCTIONING II

HON. JOHN EDWARD PORTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. PORTER. Mr. Speaker, earlier this year, on October 24, I rose to thank all of the people that make this great institution work. I wish I could have mentioned all of our extended support staff by name. Peggy Sampson has been with the Republican staff almost as long as I've been in Congress. She does a fantastic job playing Mother Superior to all our pages, watching over them, helping to educate them, and generally herding them. This has become an infinitely more complex job when Republicans became the House majority, with the right to name so many more pages on our side. But Peggy not only does her job and does it in exemplary fashion, but she also helps the cloakroom staff in so many ways. She has been and is absolutely invaluable and irreplaceable. I also want to mention the garage attendants who are so friendly and helpful to all of us: Tommy, Dennis, Scotty and so many others are always there on the job and make our tour here safer and more enjoyable.

TRIBUTE TO FATHER JAMES E. HOFF

HON. ROB PORTMAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. PORTMAN. Mr. Speaker, I rise today to recognize Father James Hoff, a friend, educator and community leader, who will step down from his service as President of Xavier University on December 31, 2000.

Over the past ten years, Father Hoff has led Xavier to great new heights. In 1992, he began Xavier 2000 which led to the Century Campaign, the most ambitious fundraising campaign in the school's history, raising the endowment from \$24 million to \$89 million. He has also significantly strengthened the university's curriculum, advanced the quality of its faculty and created a more unified, attractive campus.

Perhaps most telling of Father Hoff's work is the success of Xavier's students. In the 1990's, the average high-school grade-point average of its incoming students rose from 2.9 to 3.49 for the current class. And, in 1998, the school ranked first in the nation for student-athlete graduation rates (100 percent).

In 1995, Xavier was recognized for the first time by U.S. News and World Report as one of "America's Best Colleges," placing fifteenth among Midwest schools. In its 2001 ranking, Xavier climbed to seventh among regional institutions in the Midwest. Xavier has also received recognition from Money magazine and the John Templeton Honor Roll.

Although Father Hoff surely deserves much of the credit, he is modest and quick to recognize Xavier's faculty and staff, Board of Trustees, administration and students—all of whom have helped to raise the level of excellence at the school.

He says his greatest accomplishment during his tenure is defining the school's mission: "to

prepare students intellectually, morally and spiritually to take their places in a rapidly changing global society and to work for the betterment of that society." He certainly has done that, and all of us in the Cincinnati area thank him for his vision and goodwill. We look forward to his continued leadership in our area.

RECOGNITION OF THE RETIREMENT OF PAUL SELDENRIGHT

HON. DAVID E. BONIOR

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. BONIOR. Mr. Speaker, today I rise to honor a good friend of mine, Michigan State AFL-CIO COPE Director Paul Seldenright upon his retirement. Paul Seldenright has been standing up for working men and women for over 40 years, beginning in 1960 as a steelworker in Trenton. Every day during that 40 years, the working families of Michigan have had a champion in Paul. The political battles Paul has fought in Lansing and in the State of Michigan have had a direct impact on the standard of living for the working people in our State.

Paul's interest in politics led him to the position of chairman of his local PAC in 1962. In 1973, after associating himself with several successful political campaigns in Michigan, he began working for the Michigan AFL-CIO. He is a member of the A. Philip Randolph Institute as well as the Coalition of Labor Union Women and a lifetime member of the NAACP.

I want it to be known that Paul Seldenright has dedicated his life to the betterment of the working men and women of the State of Michigan. While I know Paul's retirement is well-deserved, his passion for politics and his dedication to working families will not let retirement take him from the causes he believes in and has fought for all his life.

Please join me in honoring the career of one of Michigan's working heroes as Paul completes his final days as Michigan State AFL-CIO COPE Director. Paul, we wish you all the best.

THE ARMENIAN GENOCIDE

HON. JOE KNOLLENBERG

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, December 15, 2000

Mr. KNOLLENBERG. Mr. Speaker, in the closing days of the 106th Congress, I rise today to add perspective to the issue of the Armenian Genocide. Like many, I was deeply disappointed that the House did not consider H. Res. 596, the Armenian Genocide Resolution.

As my colleagues are well aware, the resolution was not considered because the Republic of Turkey decided to turn a sense of the House Resolution about the extensive U.S. record on the Armenian Genocide into a litmus test of its relationship with the United States. In an effort to stop the resolution, Turkey made repeated threats. In fact, many newspaper articles covering the progress of H. Res. 596 cited Turkey's numerous threats should this body move forward.

These threats were not only directed at the United States, but also at Armenia and Armenians living in Turkey. In Istanbul, Turkey, people threw rocks at the windows of the Armenian Church of Samatia, an Armenian priest was subjected to physical attacks, another priest was arrested for referencing the Armenian Genocide, True Path Party leader Tansu Ciller called for the deportation of 30,000 Armenians, military activities increased along the border, and this shocking list goes on.

I regret that the Republic of Turkey opted to use coercion to make its case. However, it is even more regrettable that the United States succumbed to such tactics. I believe that we must remain vigilant in the face of threats and those who continue to deny the Armenian Genocide.

While the resolution was aborted in Congress, internationally the pace of Genocide affirmation continued. During November alone, despite Turkish threats, the European Parliament, along with France and Italy, all adopted resolutions affirming the Armenian Genocide. In addition, Pope John Paul II recognized the Armenian Genocide. Today I am submitting copies of these documents for the record.

Many experts have called for a dialogue between Turkey and Armenia on this subject. In fact, on October 3rd, the State Department offered to broker a dialogue between these two countries. While Armenia has repeatedly agreed, Turkey has refused. During his address at the Assembly of Turkish-American Associations in Washington, DC last month, Anthony Blinken, U.S. National Security Council European Director, indicated that Turkey had the responsibility to take the first step to start a dialogue with Armenia. Blinken said "as a small, landlocked country suffering from economic problems, Armenia sees Turkey as offering a fist, not a hand."

I agree with Mr. Blinken on this point. From Armenia's perspective, Turkey's ongoing hostile actions and continued violations of international human rights laws and treaties represent a significant security threat. Turkey's defense spending is the highest of any NATO country as a percentage of its Gross National Product (GNP) and over the next 25 years Turkey plans to spend \$150 billion modernizing its armed forces—against whom is unclear. Armenia simply does not have the resources to defend its own borders, especially given Turkey's military superiority and defense spending. Turkey's blockade, refusal to establish normal relations, military superiority, refusal to acknowledge the Armenian Genocide, and complete solidarity with Azerbaijan's demands regarding the Nagorno Karabagh conflict has only served to reinforce Armenia's view and has forced Armenia to rely on third parties to buttress its security capacity. As my colleagues know, Armenians faced genocide at the beginning of the 20th Century and the Armenians of Nagorno Karabagh suffered another attack during the end of the 20th Century. It is incumbent on us to ensure that Armenians and others around the world are not subjected to genocide in the 21st Century.

I would like to point out to my colleagues that since gaining its independence Armenia has consistently reached out and sought to normalize relations with Turkey only to be rebuffed at every step. Last year, when Turkey suffered a devastating earthquake, Armenia was one of the first countries to offer assist-

ance. Armenia, having endured a major earthquake years before, has developed an expertise in earthquake response and recovery. Despite Armenia's offer, Turkey initially rejected assistance. In fact, it was reported that Turkey's Minister of Health, Osman Durmus, rejected offers of blood from Armenia because he didn't want Turkish blood mixed with theirs. More recently, Armenia offered earthquake assistance to Azerbaijan. To date, Azerbaijan has not accepted Armenia's offer. Finally, Armenia's President, Robert Kocharian has proposed the creation of a regional security system that will facilitate long-term peace and regional cooperation. President Kocharian stated, "the creation of such a system will allow the states of the region to cast away the current concerns and to overcome the atmosphere of distrust. It will allow [the settlement of] the current conflicts, to avoid the emergence of new dividing lines, to establish long-term peace, and to think about prospects of development and [a] prosperous future." Turkey did not take President Kocharian up on his offer.

Time and time again, Armenia has shown its willingness to normalize relations with its neighbors. However, Armenia's offers have fallen on deaf ears. In my view, if Congress is unwilling to recognize and affirm the U.S. record in response to the Armenian Genocide, why would Turkey feel any obligation to enter into a dialogue with its weaker neighbor Armenia when it has successfully silenced the United States? It is my hope that we can continue to work on these important human rights issues during the 107th Congress and create an atmosphere in the Caucasus region whereby the security of all countries is not at issue and people can exchange views without the fear of retribution.

ITALIAN RESOLUTION

The Italian Chamber of Deputies has observed that on November 15, 2000 the European Parliament approved by a large majority a proposal deriving from the Periodic Review on the progress made by Turkey towards admission to the European Community, a review completed by the European Commission in 1999. The Turkish government has been encouraged to intensify its efforts towards democratization, especially in the fields of criminal law reform, independence of the judiciary, freedom of expression, and the rights of minorities.

The Italian Chamber of Deputies has also observed that the recent resolution deals with questions concerning the Armenian people in three paragraphs of particular significance: "we urge recognition of the genocide inflicted upon the Armenian minority [within the Ottoman Empire] committed before the creation of the modern Republic of Turkey (paragraph 10); improvement of relations with Turkey's neighbors in the Caucasus, as proposed by the Turkish government itself (paragraph 20;" and, in support of the suggestion put forward in paragraph 21 by the Hon. D. Cohn-Bendit, President of the Bipartisan Parliamentary Commission on UE-Turkish relations, "invites the Turkish government to open negotiations with the Republic of Armenia, restore diplomatic relations and trade between the two countries, placing an end to the blockade currently in place."

The Chamber of Deputies therefore urges the Italian Government, in concordance with the proposals described above, to pursue energetically the easing of all tensions between peoples and minorities in that area, [i.e. the Caucasus], in order to create, with due observance of the territorial integrity of the

two states, pacific coexistence and respect for human rights, thereby expediting a more rapid integration of Turkey within the European Community.

International Affirmation of the Armenian Genocide—Resolutions and Declarations—Vatican City, November 10, 2000, Joint Communiqué of Pope John Paul II and Catholicos Karekin II

His Holiness Pope John Paul II, Bishop of Rome, and His Holiness Karekin II, Supreme Patriarch and Catholicos of All Armenians, give thanks to the Lord and Saviour Jesus Christ, for enabling them to meet together on the occasion of the Jubilee of the Year 2000 and on the threshold of the 1700th anniversary of the proclamation of Christianity as the state religion of Armenia.

They also give thanks in the Holy Spirit that the fraternal relations between the See of Rome and the See of Etchmiadzin have further developed and deepened in recent years. This progress finds its expression in their present personal meeting and particularly in the gift of a relic of Saint Gregory the Illuminator, the holy missionary who converted the king of Armenia (301 A.D.) and established the line of Catholicos of the Armenian Church. The present meeting builds upon the previous encounters between Pope Paul VI and Catholicos Vasken I (1970) and upon the two meetings between Pope John Paul II and Catholicos Karekin I (1996 and 1999). Pope John Paul II and Catholicos Karekin II now continue to look forward to a possible meeting in Armenia. On the present occasion, they wish to state together the following.

Together we confess our faith in the Triune God and in one Lord Jesus Christ, the only Son of God, who became man for our salvation. We also believe in One, Catholic, Apostolic and Holy Church. The Church, as the Body of Christ, indeed, is one and unique. This is our common faith, based on the teachings of the Apostles and the Fathers of the Church. We acknowledge furthermore that both the Catholic Church and the Armenian Church have true sacraments, above all—by apostolic succession of bishops—the priesthood and the Eucharist. We continue to pray for full and visible communion between us. The liturgical celebration we preside over together, the sign of peace we exchange and the blessing we give together in the name of our Lord Jesus Christ, testify that we are brothers in the episcopacy. Together we are jointly responsible for what is our common mission: to teach the apostolic faith and to witness to the love of Christ for all human beings, especially those living in difficult circumstances.

The Catholic Church and the Armenian Church share a long history of mutual respect, considering their various theological, liturgical and canonical traditions as complementary, rather than conflicting. Today, too, we have much to receive from one another. For the Armenian Church, the vast resources of Catholic learning can become a treasure and source of inspiration, through the exchange of scholars and students, through common translations and academic initiatives, through different forms of theological dialogue. Likewise for the Catholic Church, the steadfast, patient faith of a martyred nation like America can become a source of spiritual strength, particularly through common prayer. It is our firm desire to see these many forms of mutual exchanged and rapprochement between us improved and intensified.

As we embark upon the third millennium, we look back on the past and forward to the

future. As to the past, we thank God for the many blessings we have received from his infinite bounty, for the holy witness given by so many saints and martyrs, for the spiritual and cultural heritage bequeathed by our ancestors. Many times, however, both the Catholic Church and the Armenian Church have lived through dark and difficult periods. Christian faith was contested by atheistic and materialistic ideologies; Christian witness was opposed by totalitarian and violent regimes; Christian love was suffocated by individualism and the pursuit of personal interest. Leaders of nations no longer feared God, nor did they feel ashamed before humankind. For both of us, the 20th century was marked by extreme violence. The Armenian genocide, which began the century, was a prologue to horrors that would follow. Two world wars, countless regional conflicts and deliberately organized campaigns of extermination took the lives of millions of faithful. Nevertheless, without diminishing the horror of these events and their consequences, there may be a kind of divine challenge in them, if in response Christians are persuaded to join together in deeper friendship in the cause of Christian truth and love.

We now look to the future with hope and confidence. At this juncture in history, we see new horizons for us Christians and for the world. Both in the East and West, after having experienced the deadly consequences of godless regimes and lifestyles, many people are yearning for the knowledge of truth and the way of salvation. Together, guided by charity and respect for freedom, we seek to answer their desire, so as to bring them to the sources of authentic life and true happiness. We seek the intercession of the Apostles Peter and Paul, Thaddeus and Bartholomew, of Saint Gregory the Illuminator and all Sainly Pastors of the Catholic Church and the Armenian Church, and pray the Lord to guide our communities so that, with one voice, we may give witness to the Lord and proclaim the truth of salvation. We also pray that around the world, wherever members of the Armenian and the Catholic Church live side by side, all ordained ministers, religious and faithful will “help to carry one another’s burdens, and in this way obey the law of Christ” (Gal 6:2). May they mutually sustain and assist one another, in full respect of their particular identities and ecclesiastical traditions, avoiding to prevail one over another: “so then, as often as we have the chance, we should do good to everyone, and especially to those who belong to our family in the faith” (Gal 6:10).

Finally, we seek the intercession of the Holy Mother of God for the sake of peace. May the Lord grant wisdom to the leaders of nations, so that justice and peace may prevail throughout the world. In these days in particular, we pray for peace in the Middle East. May all the children of Abraham grow in mutual respect and find appropriate ways for living peacefully together in this sacred part of the world.

9. TURKEY’S PROGRESS TOWARDS ACCESSION
EUROPEAN PARLIAMENT RESOLUTION ON THE 1999
REGULAR REPORT FROM THE COMMISSION ON
TURKEY’S PROGRESS TOWARDS ACCESSION
(COM(1999) 513-C5-0036/2000-2000/2014(COS))

The European Parliament,

—having regard to Turkey’s application for accession to the European Union,

—having regard to its resolution of 3 December 1998 on the European Strategy for Turkey,

—having regard to the 1999 Regular Report from the Commission on Turkey’s progress

towards accession (COM(1999) 513-C5-0036/2000),

—having regard to its resolution of 2 December 1999 on the implementation of measures to intensify the EC-Turkey customs union,

—having regard to Council Regulation (EC) No 764/2000 of 10 April 2000 regarding the implementation of measures to intensify the EC-Turkey Customs Union,

—having regard to its resolution of 6 September 2000 on measures to promote economic and social development in Turkey,

—having regard to its resolution of 7 September 2000 on the Turkish bombardment of northern Iraq,

—having regard to Rule 47(1) of the rules of Procedure,

—having regard to the report of the Committee on Foreign Affairs, Human Rights, Common Security and Defence Policy (A5-0297/2000),

A. recalling the decision taken on 13 December 1999 by the European Council meeting in Helsinki to grant Turkey the status of candidate country for accession to the European Union and to establish an accession partnership and a single financial framework with a view to helping Turkey’s application to progress in accordance with the Copenhagen Criteria,

B. whereas, following the granting to Turkey of candidate country status, the Union must now, by common agreement with the Turkish Government, devise and implement in an appropriate manner a credible comprehensive strategy with a view to accession,

C. whereas accession negotiations cannot begin until Turkey complies with the Copenhagen criteria,

D. whereas a climate of mutual trust should be created between Turkey and the European Union so that Turkey does not perceive the Union as an “exclusive Christian club” but as a community of shared values which embrace, in particular, tolerance for other religions and cultures, and whereas no formal cultural or religious conditions are attached to accession to the European Union,

E. whereas a clear and detailed programme will be an effective encouragement to accelerate reform in favour of protection of human rights and democracy, and will greatly strengthen the hand of those in the Turkish government, parliament, and civil society institutions who are keen to establish full respect for basic rights in their country,

F. noting the legislative changes carried out along the path towards democratisation since the 1995 constitutional reform and the establishment in the Turkish Grand National Assembly of the Conciliation Committee, which is responsible for reforming the constitution,

G. welcoming the signature by Turkey on 15 August and 8 September 2000 of four important UN conventions, on political, civil, social and cultural rights respectively, which must be ratified as soon as possible so that human rights and democratic pluralism may be guaranteed in that country,

H. emphasising that, despite the progress already achieved along the path towards democratisation, human rights and the situation of minorities must continue to be improved by the implementation of those conventions,

I. whereas, according to Lord Russell-Johnston, President of the Parliamentary Assembly of the Council of Europe, the confirmation by Ankara of the sentence imposed on former Prime Minister Necmettin Erbakan is not in conformity with the principles of democratic pluralism,

J. whereas Resolution 1250 of the UN Security Council called on the Turkish and Greek Cypriot communities to begin negotiations in the autumn of 1999, and whereas no progress in that direction has been recorded, despite the encouraging contacts made under the aegis of the UN Secretary-General in December 1999 and in January 2000; regretting, on the contrary, the violation of the military status quo by Turkish occupation forces in the village of Strovilia since 1 July 2000,

K. whereas the judgment of the European Court of Human Rights in "Loizidou v. Turkey" (No 15318/89), handed down on 28 July 1998 and ruling in favour of the plaintiff, has still not been implemented,

L. whereas the election to the Presidency of the Republic of Mr. Sezer, who has demonstrated his commitment to the rule of law, will make it easier for the necessary reforms to be successfully completed,

M. noting Turkey's place in the economy of Europe—it had a GDP of USD 185 billion in 1999—and the links already established between Turkey and the European Union, with

N. whereas, in December 1999, the package of economic reforms demanded by the IMF with a view to introducing budgetary austerity and to curbing galloping inflation was approved by the Turkish Parliament,

O. encouraging the Turkish Government, on the one hand, to commit itself to carrying out structural reforms which, ranging from dismantling state subsidies to reorganizing pensions and accelerating privatisation, must therefore strengthen the bases of a free market economy accessible to all and, on the other, to continue its efforts to adopt Community legislation,

P. recognizing Turkey's important geostrategic position, having regard to its role within the Atlantic Alliance and its status of WEU associate member, but noting that geopolitical and strategic considerations must not be the decisive factors in negotiations about accession,

Q. welcoming the fact that Turkey has signalled its intention to commit military capabilities under the common European security and defense policy,

R. regretting and unequivocally condemning the recent incursion by the Turkish Air Force into Iraqi airspace when Kendakor was bombed on 15 August 2000,

S. endorsing the view set out in the Commission report that Turkey has undertaken a significant process of self-evaluation as regards the level of harmonisation of its legislation with the *acquis communautaire* and that it is the only candidate country to have joined the Customs Union,

T. welcoming the decision taken in this spirit on 5 July 2000 by the Turkish Parliament to include in the eighth five-year development plan the principles governing transposition of the *acquis communautaire* and to establish a Secretariat for the European Union responsible for coordinating the work required for such transposition,

U. emphasizing, however, that a sustained effort is still needed to push through the current reform of the Turkish Civil Code, with particular regard to parental and women's rights,

V. expressing its concern about the bill seeking to make it possible to dismiss civil servants on ideological or religious grounds,

I. Welcomes the resumption of institutional activities and political dialogue in the

Association Council, which met on 11 April after being suspended for three years, and welcomes in particular the recent implementation of the Association Council's conclusions with the initiation of an analytical review of the *acquis communautaire* through the establishment of eight subcommittees entrusted with the task of setting priorities for incorporation of the *acquis*; notes with satisfaction that the first meetings of three of those subcommittees have been successful and trusts that the remaining subcommittees' meetings will be held by the end of this year;

2. Encourages the Turkish Government to step up its efforts to achieve democratisation, with particular regard to reform of the Penal Code, independence of the judiciary, freedom of expression, the rights of minorities and the separation of powers, and especially the impact of the role of the army on Turkish political life;

3. Calls on the Turkish Government and Parliament to ratify and implement the UN conventions on political, civil, social and cultural rights which it signed recently;

4. Encourages in this respect the Turkish Parliament and Government to incorporate in the government programme the report drawn up by the Secretariat of the Turkish Supreme Coordination Council for Human Rights; welcomes the Turkish Council of Ministers' adoption of this report on 21 September 2000 as a "reference and working document"; and calls for the section on cultural rights to be reinserted into the report, with specific measures to protect the rights of minorities being added thereto;

5. Looks forward to the early abolition of the State Security Courts and welcomes the adoption of the law suspending the prosecution of, and penalties imposed on, press and broadcasting offences;

6. Calls, initially, for an amnesty with a view to achieving a reform of the Penal Code in the medium term so that it complies with the universal principle of freedom of expression;

7. Views the recent decision by the Constitutional Court on the law offering a reprieve to those who have committed press offences as a step that reinforces the rule of law; encourages the competent authorities to take this opportunity to continue their reforms in this direction, knowing that this process will logically lead them to a fundamental reconsideration of Article 312 of the Penal Code;

8. Calls, after the many promises made to this effect, for the death penalty to be abolished as soon as possible as part of the reform of the Penal Code and, pending such abolition, for the current moratorium on executions to be maintained;

9. Recalls the importance it attaches to recognition of the basic rights of the cultural, linguistic and religious groups in Turkey, who make up the country's multi-faceted population;

10. Calls, therefore, on the Turkish Government and the Turkish Grand National Assembly to give fresh support to the Armenian minority, as an important part of Turkish society, in particular by public recognition of the genocide which that minority suffered before the establishment of the modern state of Turkey;

11. Notes the decisions taken on 30 November 1999 to lift the state of emergency in the

Province of Siirt and on 26 June 2000 in the Province of Van, and calls on the Turkish Government to lift the state of emergency in the other provinces of the south-eastern region as well; calls for a specific solution to be found for the Kurdish people, encompassing the requisite political, economic and social responses;

12. Urges the Turkish Government genuinely to redirect its policy with a view to improving the human rights situation of all its citizens, including those belonging to groups whose roots go back deep into the country's past, by putting an end to the political, social and

13. Demands the release of Leyla Zana, winner of the European Parliament Sakharov Prize, and of the former MPs of Kurdish origin imprisoned because of the views they hold;

14. Welcomes the Turkish Government's adoption in September 2000 of an action plan which aims to restore economic balance with a view to resolving regional disparities by committing appropriate resources, and to promote the reopening of hamlets and the reconstruction of villages so that their inhabitants may return to them, together with other measures aimed at boosting investment in the south-east;

15. Welcomes the decisions taken by the Helsinki European Council to set up a single financial framework, based on an appropriate level of resources, and an accession partnership; calls on the Council and Commission to implement those two decisions as soon as possible and to reassess the amount of the European Union's financial assistance to Turkey, which should meet the needs of the pre-accession strategy on the basis of previous European Council conclusions with particular reference to the issue of human rights as well as the issues referred to in paragraphs 4 and 9(a) of the Helsinki conclusions;

16. Calls on the European Council, in accordance with the provisions of the European Union's political dialogue with the associated countries, to take note of the Turkish Government's request to be involved in one way or another in the process of developing the common foreign and security policy and welcomes Turkey's determination to contribute to improving European capabilities within the framework of the common European security and defence policy; considers that any such contribution has to be preceded by a clearly stated policy of respect for the territorial integrity of Member States;

17. Welcomes the start of negotiations on confidence-building measures agreed on 31 October 2000 by the foreign ministers of both Turkey and Greece;

18. Calls on the Turkish Government, in accordance with Resolution 1250 of the UN Security Council, to contribute towards the creation, without preconditions, of a climate conducive to negotiations between the Greek and Turkish Cypriot communities, with a view to reaching a negotiated, comprehensive, just and lasting settlement which complies with the relevant UN Security Council resolutions and the recommendations of the UN General Assembly, as reaffirmed by the European Council; hopes that this will be possible during the fifth round of proximity

talks which will begin on 10 November 2000 and that those talks will result in bilateral negotiations, under the aegis of the UN, which will enable substantial progress to be made;

19. Calls on the Turkish Government to withdraw its occupation forces from northern Cyprus;

20. Calls on the Turkish Government, as it has proposed, to improve its relations with all its neighbours in the Caucasus within the framework of a Stability Pact for the region;

21. Calls in this connection on the Turkish Government to launch a dialogue with Armenia aimed in particular at re-establishing normal diplomatic and trade relations between the two countries and lifting the current blockade;

22. Calls on the Turkish Government, in cooperation with the Commission, to pursue its efforts with a view to enhancing the implementation of the pre-accession strategy as regards the incorporation of the *acquis communautaire*, notably by improving the situation in fields such as the single market, agriculture, transport, the environment and administrative organisation;

23. Welcomes the Turkish Government's recent statement that the reform process, which covers the amendments to the Turkish Penal and Civil Codes, including parental and women's rights, would be stepped up during the coming year;

24. Calls on the Turkish Government to comply with previous and future decisions of the European Court of Human Rights and to consider the proposals made by the Council of Europe with regard to the training of judges and police officers;

25. Reminds Turkey also of the commitments it has given within the Council of Europe and calls on it to transpose Council of Europe instruments in particular so as to permit more effective monitoring of the application of political measures that are part of the accession partnership;

26. Takes the view that Turkey does not currently meet all the Copenhagen political criteria and reiterates its proposal for the setting up of discussion forums, consisting of eminent politicians from the European Union and Turkey as well as representatives of civil society, in order to promote political

dialogue and help Turkey progress along the path towards accession; welcomes the initiative taken by the former President of Turkey, Mr. Demirel, to establish a Europe-Turkey Foundation, which might also be involved in those forums;

27. Calls on the Commission to devise and implement additional programmes in the field of education, given the exceptionally high proportion of the population (50%) under 25, in order to help foster understanding of the basic principles of the shared values of Europe;

28. Calls on the Council and the Commission to find ways to improve the effectiveness of MEDA Programmes for democracy in Turkey with a view to strengthening civil society there, consolidating the democratic system and supporting free and independent media in that country;

29. Instructs its President to forward this resolution to the Commission, the Council, the governments and parliaments of the Member States and to the Turkish Government and Grand National Assembly.
