Date 18 January 1951

SUBJECT : Distribution of Test Films

TO : Shikoku Civil Affairs Region

Test films have been forwarded to your Region for the exclusive use of the Region Repair and Equipment Center in the repair and maintenance of 16mm motion picture projectors.

Control of the disposition of these test films should be as stringent as necessary to insure proper and authorized utilization.

Ultimately, these films will be worn out because of unavoidable wear and tear through ordinary use. In some instances test films will have been destroyed, lost or stolen through circumstance beyond physical or official control. Whichever the case, an all inclusive certified report signed by a Civil Affairs Officer must be submitted to the Educational Film Unit, Tokyo, together with the test film or films involved (circumstances allowing) as soon as possible. If the test film or films concerned are available from Educational Film Unit stock expeditious replacement will be made to your Region.

There were no instructions available for all of the test films shipped. Your attention is invited to the remarks included on the receipt covering subject films. However, a consolidation of all available instructions covering these test films will be prepared in the Japanese language and forwarded to your Region as soon as possible.

ATTENTION: All Concerned

This is a "Special Release" subject. As you know "Special Release" subjects are to be distributed expeditiously and priority utilization action is desired. However, in view of the fact that "Special Release" subjects contain material consistent with national or international current events or activities it is, without a doubt, unecessary to continue "Special Release action on designated CIE subjects indefinitely. Therefore, respectively request that the "Special Release " action desired for all applicable CIE subjects be terminated six weeks from the indicated release date. In this connection, further request that the wording, "Special Release", stamped on all CIE film cases containing prints of pertinent "Special Relese" CIE subjects be removed or covered with adhesive tape or paper, whichever is most practicable.
