(Attached Sheet)

Referential matters about medical treatment and extermination of cow's disease

Cow's Influenza broke out and is now spreading all over the prefecture.

Therefore, in order to prevent and stamp it out completely, we are prohibiting cows and articles being in danger of spreading the disease to be brought from towns and villages where Influenza broke out to the other towns and villages in the prefecture. We are also prohibiting the import of such cows and articles from outside of the prefecture.

We are also disinfecting stalls where Influenza broke out and those near-by with Rozil to prevent spread of the disease.
