This is a buyer's market and we have made our prices accordingly.

The Peach trees are standing in the nursery rows. We will freshly dig your order at shipping time.

Freshly dug trees always give the best results and aid in getting "repeat" orders.

The quality of our peach trees is extra fine and the trees will be properly graded by experienced men at digging time.

Visit our twenty seven year old bearing commercial Elberta peach orchard on our "Home Farm" at Berlin, which is the oldest bearing Commercial Peach Orchard in America.

TRUE TO NAME APPLE TREES

Harrison Grown Apple Trees are known to be dependable from coast to coast.

ONE YEAR OLD BUDDED APPLE TREES

Budded on French Apple Seedlings.

Harrisons' method of fresh digging and shipping the same day of nursery stock enables you to supply your customers with trees, evergreens and plants that are full of vigor and life.

It costs us more money to freshly dig all orders at shipping time than compared with the old method of digging solid blocks of nursery stock in the fall and early winter and packing the products in the storage cellars ready for spring shipments. But through actual experience with thousands of customers throughout the United States and foreign countries, we have found that the trade is better satisfied with freshly dug nursery products than storage stock. Therefore, it is a pleasure for us to spend additional money in fresh digging orders because satisfied customers are the greatest asset of any business. This is another reason why Harrison' Grown Nursery Products give superior results.

1½ to 1¾ in. caliper -----	@ 1.10
1¾ to 2 in. caliper -----	@ 1.50
2 to 2½ in. caliper -----	@ 2.00

We are told that we have the largest supply of the finest quality American Elms in the United States.

The Elms are young, vigorous and have straight smooth stems, well branched and properly headed. Our soil produces a very large fibrous root system. These Elms are grown especially for street, park and highway plantings.

Park Commissions, Highway Commissions and City Foresters are cordially invited to come to Berlin and make their personal selections and tag the trees with their own seals in the nursery rows. We will dig while here, or whenever you desire.

BLACK ASH (*Fraxinus nigra*)

Evergreens

Our Climate and Soil With Our Growing Methods
Produce America's Finest Evergreens

Our evergreens have been properly transplanted several times with ample space between each plant to allow the natural and correct development.

Our evergreens are broad at the base and well proportioned.

Our evergreens have been properly sheared to produce attractive compact plants.

Our soil is ideal for evergreens and insu es a good, firm natural ball of earth.

All evergreens will be balled and burlapped, that is, carefully dug with the proper amount of soil about the roots and wrapped in burlap which is securely sewed. These prices include this service.

We grade liberally.
