

## WikiSkills Key Competencies

The relevant use of wikis in educational contexts would enable to develop a set Wiki Key Competences, which are resumed in the following table.

Creativity and innovation  - Elaborate, refine, analyse and Evaluate one's own ideas, - develop and communicate new ideas to others effectively, - Become open and responsive to new and diverse perspectives, - View failure as an opportunity to learn.  - Examine, analyse and evaluate ideas, arguments, and beliefs, and compare alternative points of view, - Present arguments.  Learning to learn  - Self-manage and reflect critically on learning processes, objects and purposes.  - Write, read and understand in mother tongue, - Write, read and understand in mother tongue, - Monitor the writing process (from drafting to proofreading) - Formulate arguments in a convincing manner.  - Interact effectively with others, - Read others' contributions with patience and honesty, - Work effectively in diverse teams, respecting social and cultural differences, - Guide and lead others (teachers roles), - Find where and how to contribute, and to put abilities at the service of a common objective.  Information literacy  - Access and evaluate information critically and effectively, - Manage information from a variety of sources, - Apply a fundamental understanding of the ethical and legal issues, - Know how to use the information creating or using the structure created in the wiki environment.  ICT literacy  - Access and evaluate ICT tools critically and competently.  Citizenship, local and global  - Contribute to the construction of common goods.	Key Wiki Competences (KWC)	Description
- Become open and responsive to new and diverse perspectives, - View failure as an opportunity to learn.  - Examine, analyse and evaluate ideas, arguments, and beliefs, and compare alternative points of view, - Present arguments.  - Self-manage and reflect critically on learning processes, objects and purposes Express with clarity and awareness of audience and purpose, - Write, read and understand in mother tongue, - Write, read and understand in additional language, - Monitor the writing process (from drafting to proofreading) - Formulate arguments in a convincing manner.  - Interact effectively with others, - Read others' contributions with patience and honesty, - Work effectively in diverse teams, respecting social and cultural differences, - Guide and lead others (teachers roles), - Find where and how to contribute, and to put abilities at the service of a common objective.  - Access and evaluate information critically and effectively, - Manage information from a variety of sources, - Apply a fundamental understanding of the ethical and legal issues, - Know how to use the information creating or using the structure created in the wiki environment.  ICT literacy - Access and evaluate ICT tools critically and competently.  - Display solidarity by contributing to the local or the wider community,	Creativity and innovation	- Elaborate, refine, analyse and Evaluate one's own ideas,
- Become open and responsive to new and diverse perspectives, - View failure as an opportunity to learn.  - Examine, analyse and evaluate ideas, arguments, and beliefs, and compare alternative points of view, - Present arguments.  - Self-manage and reflect critically on learning processes, objects and purposes Express with clarity and awareness of audience and purpose, - Write, read and understand in mother tongue, - Write, read and understand in additional language, - Monitor the writing process (from drafting to proofreading) - Formulate arguments in a convincing manner.  - Interact effectively with others, - Read others' contributions with patience and honesty, - Work effectively in diverse teams, respecting social and cultural differences, - Guide and lead others (teachers roles), - Find where and how to contribute, and to put abilities at the service of a common objective.  - Access and evaluate information critically and effectively, - Manage information from a variety of sources, - Apply a fundamental understanding of the ethical and legal issues, - Know how to use the information creating or using the structure created in the wiki environment.  ICT literacy - Access and evaluate ICT tools critically and competently.  Citizenship, local and - Display solidarity by contributing to the local or the wider community,		- develop and communicate new ideas to others effectively,
Critical thinking, problem solving, decision making  - Examine, analyse and evaluate ideas, arguments, and beliefs, and compare alternative points of view, - Present arguments.  - Self-manage and reflect critically on learning processes, objects and purposes Express with clarity and awareness of audience and purpose, - Write, read and understand in mother tongue, - Write, read and understand in additional language, - Monitor the writing process (from drafting to proofreading) - Formulate arguments in a convincing manner.  - Interact effectively with others, - Read others' contributions with patience and honesty, - Work effectively in diverse teams, respecting social and cultural differences, - Guide and lead others (teachers roles), - Find where and how to contribute, and to put abilities at the service of a common objective.  - Access and evaluate information critically and effectively, - Manage information from a variety of sources, - Apply a fundamental understanding of the ethical and legal issues, - Know how to use the information creating or using the structure created in the wiki environment.  ICT literacy - Access and evaluate ICT tools critically and competently.  Citizenship, local and - Examine, analyse and evaluate ic totols critically and competently.		- Become open and responsive to new and diverse perspectives,
alternative points of view, Present arguments.  Self-manage and reflect critically on learning processes, objects and purposes.  Express with clarity and awareness of audience and purpose, Write, read and understand in mother tongue, Write, read and understand in additional language, Monitor the writing process (from drafting to proofreading) Formulate arguments in a convincing manner.  Interact effectively with others, Read others' contributions with patience and honesty, Work effectively in diverse teams, respecting social and cultural differences, Guide and lead others (teachers roles), Find where and how to contribute, and to put abilities at the service of a common objective.  Access and evaluate information critically and effectively, Manage information from a variety of sources, Apply a fundamental understanding of the ethical and legal issues, Know how to use the information creating or using the structure created in the wiki environment.  ICT literacy Access and evaluate ICT tools critically and competently.  Citizenship, local and Display solidarity by contributing to the local or the wider community,		- View failure as an opportunity to learn.
alternative points of view, Present arguments.  Self-manage and reflect critically on learning processes, objects and purposes.  Express with clarity and awareness of audience and purpose, Write, read and understand in mother tongue, Write, read and understand in additional language, Monitor the writing process (from drafting to proofreading) Formulate arguments in a convincing manner.  Interact effectively with others, Read others' contributions with patience and honesty, Work effectively in diverse teams, respecting social and cultural differences, Guide and lead others (teachers roles), Find where and how to contribute, and to put abilities at the service of a common objective.  Access and evaluate information critically and effectively, Manage information from a variety of sources, Apply a fundamental understanding of the ethical and legal issues, Know how to use the information creating or using the structure created in the wiki environment.  ICT literacy Access and evaluate ICT tools critically and competently.  Display solidarity by contributing to the local or the wider community,	solving, decision making	
- Self-manage and reflect critically on learning processes, objects and purposes.  - Express with clarity and awareness of audience and purpose, - Write, read and understand in mother tongue, - Write, read and understand in additional language, - Monitor the writing process (from drafting to proofreading) - Formulate arguments in a convincing manner.  - Interact effectively with others, - Read others' contributions with patience and honesty, - Work effectively in diverse teams, respecting social and cultural differences, - Guide and lead others (teachers roles), - Find where and how to contribute, and to put abilities at the service of a common objective.  - Access and evaluate information critically and effectively, - Manage information from a variety of sources, - Apply a fundamental understanding of the ethical and legal issues, - Know how to use the information creating or using the structure created in the wiki environment.  ICT literacy - Access and evaluate ICT tools critically and competently.  Citizenship, local and - Self-manage and reflect critically on learning process, objects and purposes Write, read and understand in mother tongue, - Write, read and understand in additional language, - Monitor the writing prooffeading Formulate and understand in additional language, - Monitor the writing prooffeading Formulate and understand in additional language, - Monitor the writing prooffeading.		•
- Express with clarity and awareness of audience and purpose, - Write, read and understand in mother tongue, - Write, read and understand in additional language, - Monitor the writing process (from drafting to proofreading) - Formulate arguments in a convincing manner.  - Interact effectively with others, - Read others' contributions with patience and honesty, - Work effectively in diverse teams, respecting social and cultural differences, - Guide and lead others (teachers roles), - Find where and how to contribute, and to put abilities at the service of a common objective.  - Access and evaluate information critically and effectively, - Manage information from a variety of sources, - Apply a fundamental understanding of the ethical and legal issues, - Know how to use the information creating or using the structure created in the wiki environment.  ICT literacy - Access and evaluate ICT tools critically and competently Display solidarity by contributing to the local or the wider community,
