Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided into parts corresponding to the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

Information as to changes of copyright ownership is not included in the *Catalog*, but a search of the Copyright Office Assignments and Related Documents Indexes may be requested from the Register of Copyrights, and a fee for the search and report will be estimated at the statutory rate of \$3 per hour.

In the case of each registration listed, except for renewals, there has been deposited a copy or copies of the work in accordance with the provisions contained in sections 12, 13, 14, or 215 of Title 17 of the *United States Code*.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog* at \$20 a year, and for periods of one, two, or three years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Superintendent of Documents.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington, D.C. 20540.

Organization of Parts

Each part listed in the following table records all current registrations in the class or classes indicated by the alphabetical symbols. Renewal registrations are separately listed at the end of each related part. The first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for the purpose of statistical analysis. A zero immediately following the symbol, e.g., AF0, EF0, identifies a foreign work deposited under the waiver-of-fee provision (section 215 of Title 17 of the *United States Code*). Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

Introduction

PARTS 3-4 list dramas, dramatico-musicals, lectures, sermons, monologs, and radio, television, and recording scripts registered in classes C and D. Selected published dramas currently registered in class A are also included for the convenience of the user.

Arrangement is by title. Each work is described in a main entry which includes information pertinent to the copyright claim. References lead from variant titles, from distinctive subtitles, and from other titles associated with the work. Works for which the subsisting copyright has been renewed are listed separately in the Renewal Registrations section.

The Name Index to the names of authors, editors, claimants, etc. given in the main entries covers both currently registered works and renewal registrations, the latter being identified by the symbol (R).

For unpublished works currently registered, the main entry includes the following items of information if available and applicable:

- 1) Title.
- 2) Descriptive phrase indicating the character of the work; e.g., a play in three acts, a script for a television program.
- 3) Names of persons contributing to the work as given in either the copy or the application; e.g., author, editor, translator.

- 4) Series statement.
- 5) Information given in the application which relates to the registration of an earlier version of the work.
- 6) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation NM, if this information is given in the application and is not indicated elsewhere in the entry.
- 7) Copyright symbol ©.
- 8) Name of the copyright claimant.
- 9) Date on which the last of all the items required to complete registration (i.e., copy, application, and fee) was received in the Copyright Office.
- 10) Registration number.

For published works currently registered, the main entry includes the following items of information if available and applicable:

- 1) Title.
- 2) Names of persons or agencies contributing to the work (authors, editors, compilers, etc.).
- 3) Edition statement.
- 4) Place of publication for all foreign works; and for domestic works if given in an imprint on the work.
- 5) Name of the first-named publisher given in an imprint on the work.

- 6) Physical description, consisting of the number of pages or other terms descriptive of the work; unpagged works, and those with complicated or irregular paging are described as 1 v.; in the case of works issued in more than one volume, the number of volumes is given; the number of acts or scenes is also given.
- 7) Series statement.
- 8) Names of authors given in the application which do not appear elsewhere in the entry.
- 9) Name of the employer in the case of a work made for hire, if so named in the application.
- 10) Information contained in the application which relates to the registration of an earlier version of the work.
- 11) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation NM, if this information is given in the application and is not indicated elsewhere in the entry.
- 12) Copyright symbol ©.
- 13) Name of the copyright claimant.
- 14) Date of publication as given in the application.
- 15) Registration number.

For published works, whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application are given first, followed by the phrase "in notice" and the data given in the work; e.g.,

© Richard Roe; 12Apr63 (in notice: 1962); DP5000.

Works deposited in connection with copyright registration may be selected for inclusion in the collections of the Library of Congress. Library of Congress printed cards are available for many of the published works so selected. Orders for such cards or inquiries concerning them should be addressed to the Card Division, Library of Congress, Washington, D.C., 20540.

For renewal registrations, the main entry includes the following items of information if available and applicable:

- 2) Names of authors of renewable matter.
- 3) Edition statement.
- 4) Number of acts, scenes, or volumes.
- 5) Series statement.
- 6) Brief statement of the new matter on which the original copyright was claimed, preceded by the abbreviation NM, if available in the renewal application.
- 7) Copyright symbol ©.
- 8) Date of original copyright.
- 9) Original registration number.
- 10) Name of the renewal claimant followed by a statement in parentheses, usually abbreviated, giving the basis of the renewal claim as supplied by the applicant; e.g., "John Doe (NK)" indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided into parts corresponding to the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

Information as to changes of copyright ownership is not included in the *Catalog*, but a search of the Copyright Office Assignments and Related Documents Indexes may be requested from the Register of Copyrights, and a fee for the search and report will be estimated at the statutory rate of \$3 per hour.

In the case of each registration listed, except for renewals, there has been deposited a copy or copies of the work in accordance with the provisions contained in sections 12, 13, 14, or 215 of Title 17 of the *United States Code*.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog* at \$20 a year, and for periods of one, two, or three years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Superintendent of Documents.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington, D.C. 20540.

Organization of Parts

Each part listed in the following table records all current registrations in the class or classes indicated by the alphabetical symbols. Renewal registrations are separately listed at the end of each related part. The first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for the purpose of statistical analysis. A zero immediately following the symbol, e.g., AF0, EF0, identifies a foreign work deposited under the waiver-of-fee provision (section 215 of Title 17 of the *United States Code*). Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

- 7) Copyright symbol ©.
- 8) Name of the copyright claimant.
- 9) Date on which the last of all the items required to complete registration (i.e., copy, application, and fee) was received in the Copyright Office.
- 10) Registration number.

For published works currently registered, the main entry includes the following items of information if available and applicable:

- 1) Title.
