TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I-Civil Service Commission

PART 18-WAR SERVICE REGULATIONS

RECRUITMENT AND PLACEMENT

Section 18.4 Recruitment and placement issued as amended, on September 26, 1942 (7 F.R. 7723), October 27, 1942 (7 F.R. 8841) and on February 2, 1943 (8 F.R. 1703) is amended to read as follows:

§ 18.4 Recruitment and placement-Procedure in filling vacancies. (a)

(5) Applications for employment in any position in the Government service subject to these regulations, whether by original appointment or transfer, filed with any department or agency of the executive branch of the Government, shall be promptly transmitted to the Commission or its representatives. A person calling at any department or agency located at Washington, D. C., in connection with obtaining employment shall not be asked to complete an application by such department or agency, except as may be provided for under subparagraph (4) of this paragraph, or except when the person is presently employed or has been formerly employed in the Federal service, and the appointing officer of the department or agency submits an immediate recommendation for the transfer or reemployment of such person. Under the latter circumstances, an application may be taken and forwarded to the Commission, together with C. S. C. Standard Form No. 46, Request for Transfer or Reinstatement.

By the United States Civil Service Commission.

Chapter III-Bituminous Coal Division [Docket No. A-1818]

-MINIMUM PRICE SCHEDULE, PART 330-DISTRICT NO. 10

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 10 for establishment of price classifications and minimum prices for Mine Index No. 1082.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices, for the coals of Belle Valley Mine, Mine Index No. 1082 of C. G. Stiehl (Belle Valley Coal Company); and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the aboveentitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 330.4 (Price groups) is amended by adding thereto Supplement R-I, and § 330.10 (Special prices-(a) (2) Railroad locomotive fuel prices) is amended by adding thereto Supplement R-II, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the rules and regulations governing practice and procedure before (Continued on next page)

PART 330-MINIMUM PRICE SCHEDULE, DISTRICT NO. 10

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 10, for establishment of price classifications and minimum prices for Mine Index No. 1617.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the Schoper No. 2 Mine, Mine Index No. 1617, of Standard Coal Mining and Converters Corporation; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the aboveentitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 330.4 (Price groups) is amended by adding thereto Supplement R-I, § 330.10 (Special prices—(a) (2) Railroad locomotive fuel prices) is amended by adding thereto Supplement R-II, and § 330.25 (General prices in cents per net ton for shipment into all market areas) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the rules and regulations governing practice and procedure before the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

The original petition in this matter requests that no exceptions be allowed with respect to locomotive fuel sold to off-line railroads. Nevertheless, since railroad locomotive fuel Price Exceptions 1-B, 2-B, and 3-A in \S 330.10 (a) (3) in Schedule of Effective Minimum Prices for District No. 10 for All Ship-

PART 933-COPPER

[Limitation Order L-106, as Amended March 4, 1943]

Section 933.9 *Limitation Order L-106* is amended in its entirety to read as follows:

The fulfillment of requirements for the defense of the United States having created a shortage in the supply of copper and copper base alloy products entering into the production of automotive parts and components thereof, for defense, for private account and for export; the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 933.9 Limitation Order L-106—(a) Applicability of regulations. This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(b) *Definitions*. For the purposes of this order:

(1) "Passenger automobile" means any passenger vehicle, including station wagons and taxicabs, propelled by an internal combustion engine and having a seating capacity of less than eleven (11) persons.

(2) "Light motor truck" means a complete motor truck or truck-tractor with a maximum gross vehicle weight rating of less than 9,000 pounds, as authorized by the manufacturer thereof, or the chassis therefor.
(3) "Medium and/or heavy motor

(3) "Medium and/or heavy motor truck" means a complete motor truck or truck-tractor with a maximum gross vehicle weight rating of 9,000 pounds or more, as authorized by the manufacturer thereof, or the chassis therefor.

thereof, or the chassis therefor. (4) "Truck trailer" means a complete semi-trailer or full trailer for the transportation of property or persons, or the chassis therefor.

(5) "Passenger carrier" means a complete motor coach for passenger transportation, having a seating capacity of not less than eleven (11) persons.

(6) "Motorized fire equipment" means the chassis of a passenger automobile, light, medium or heavy motor truck, truck-tractor or trailer, used for the transportation of fire-fighting personnel or equipment.

(7) "Off-the-highway motor vehicle" means a motor truck, truck-tractor and/or trailer, operating off the public highway, normally on rubber tires and specially designed to transport materials, property or equipment on mining, construction, logging or petroleum development projects.

(8) "Copper" means unalloyed copper metal, including unalloyed copper metal produced from scrap.

(9) "Copper base alloy" means any alloy metal in the composition of which the percentage of copper metal by weight equals or exceeds forty percent (40%)of the total weight of the alloy. It shall include alloy metal produced from scrap.

(10) "Copper products" means products made of copper, fabricated to the extent that they are plate, sheet, strip, rolls, coils, wire, rod, bar, tube, tubing, pipe, extrusions, ingots, castings, forgings, powder or anodes, or fabricated to any greater extent.

(11) "Copper base alloy products" means products made of copper base alloy, fabricated to the extent that they are plate, sheet, strip, rolls, coils, wire, rod, bar, tube, tubing, pipe, extrusions, ingots, castings, forgings, powder or anodes or fabricated to any greater extent.

odes, or fabricated to any greater extent. (12) "Less critical material" means material essential to the War Program, the supplies of which are less critical according to the Material Substitutions and Supply List issued periodically by the Conservation Division of the War Production Board.

(13) "Automotive part" or "parts" means parts entering into the production of, or as replacement parts for, passenger automobiles, light motor trucks, medium and/or heavy motor trucks, truck trailers, passenger carriers, motorized fire equipment and off-the-highway motor vehicles (including components entering into such parts).

(14) "Producer" means any individual, partnership, association, corporation or other organization engaged in the production of automotive parts.

(c) General restrictions. (1) No producer shall use any copper products or copper base alloy products in the production of automotive parts other than in the following:

(i) Radiators. Water courses and tanks of copper alloy containing not more than seventy-one (71) per cent copper.

(ii) Cooling system control devices. Thermostat bellows of copper alloy containing not more than eighty-five (85) per cent copper; seats and valves for thermostats and pressure type radiator sealing caps of copper alloy containing not more than seventy-four (74) per cent copper.
 (iii) Electrical equipment. Only parts

(iii) Electrical equipment. Only parts functioning as electrical conductors in the following assemblies: coils; distributors; generators; instruments; lamp bulbs; starting motors; signaling devices; switches; wiring (including bulk or spooled primary wire, spark plug wire, battery cable and magnet wire); battery terminals of copper alloy containing not more than seventy-one per cent (71%) copper; solenoids, relays and regulators (non-current carrying parts for solenoids, relays and regulators which must be nonmagnetic may be made from copper alloy containing not more than 71% copper); electric motors for windshield wipers and defrosters; electric motors for heaters for passenger carriers and trucks only; electric motors for ventilators for passenger carriers, trucks and truck trailers only; refrigeration units for trucks and truck trailers only. Heavy duty truck and bus type brush holders.

(iv) Tubing, tube fittings and actuating parts. For pneumatic and electro-pneumatic systems in motor trucks, truck trailers, passenger carriers, motorized fire equipment and off-the-highway motor vehicles only, such as brake systems, gauges, door operating mechanisms, air steering mechanisms, air gear shift mechanisms, air clutch and winch control mechanisms, air operated gasoline throttle control, windshield wipers, interlocks, heating and ventilating controls, signal horns and directional signals, where condensation and corrosion make substitution of less critical material impractical. Inserts (or ferrules) for brake, oil and fuel line tube fittings only, where less critical material is impractical.

(v) Bearings, bushings, thrust washers and similar parts which require oil, grease or water lubrication: Provided, That the use of Copper or Copper Base Alloy shall be reduced by substitution of steel-backed for solid-bronze bushings in all cases where load characteristics and diameter, length or wall thickness, make such substitution practicable.

(vi) Carluretor and fuel pump parts. Those parts having metering, seating, filtering or anti-friction characteristics such as jets, nozzles, seats, metering rods, floats, screens, springs and bearings; drill plugs, where non-corrosive metal is required to facilitate removal for cleaning.

(vii) Plating. For parts in connection with carburizing steel; where substituted for solid copper and copper base alloys; for protection from corrosion due to electrolysis where other material cannot be used, as in hydraulic brake parts which come in contact with brake fluid.

with brake fluid. (viii) Gaskets. Spark plug gaskets (internal only); washers or solid gaskets where proper sealing is not possible with the use of less critical material; water hole grommets for gaskets where size prohibits the use of less critical material from a manufacturing standpoint, or where design provides insufficient sealing with less critical material.

(ix) Transmissions, including synchromesh, fluid coupling, hydromatic and pneumatic types. Fluid coupling seal bellows, transmission gear synchronizer cones, thrust washers, thrust plates and rivets.

washers, thrust plates and rivets. (x) Brazing materials. For joining functional parts of multiple-plece construction.

(xi) Powdered copper. For briquetted bearings.
(xii) Used as a minor alloying element in alloys other than copper base alloys. In

alloys other than copper base alloys. In ferrous alloys; bearing metals; zinc die castings for carburetors and fuel pumps; aluminum alloys for pistons.

num alloys for pistons. (xili) Clutch facings and brake linings. Only in the form of grindings or brass chips for medium and heavy motor trucks, truck trailers, passenger carriers, motorized fire equipment and off-the-highway motor vehicles; except that in clutch facings for such vehicles, copper in the form of wire may be used only where a less critical material is impractical.

(Xiv) Speedometers, tachometers, heat indicators and oil gauges. Frames, capillaries,

bulbs, bushings, bearings, magnet cups, reset pawls, springs, speed cups, sectors, gears, shoes, links, washers, pins, bourdon tubes. (xv) Miscellaneous. Tire inner tube valve parts; small stampings in door locks, keys and lock tumblers; fuel filter screens.

(2) Whenever copper products or copper base alloy products are used in the production of any Automotive Part, as permitted by paragraph (c) (1) above, such copper products or copper base alloy products shall be reduced to the minimum practical gauge, size and grade of copper or copper base alloy product necessary for the proper operation of the part. No producer may use copper products or copper base alloy products in the production of any automotive part, as permitted by paragraph (c) (1) above, where the use of any less critical material is practicable.

(3) Whenever Limitation Order L-158, as amended, or Conservation Order M-9-c, as amended, or any other order of the War Production Board, imposes limitations upon the manufacture, sale or delivery of automotive parts more restrictive than provided in this order, the provisions of such other order shall apply.

(d) Army and Navy exemptions. The prohibitions and restrictions contained in this order shall not apply to the use of Copper Products or Copper Base Alloy Products in the manufacture of automotive parts produced under contracts or orders for delivery to, or for the account of, the Army or Navy of the United States where such use is required by the specifications (including performance specifications) of the prime contract.

(e) *Records*. All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, material specifications, purchases, production and sales.

(f) Audit and inspection. All records required to be kept by this order shall upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(g) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as the Board shall from time to time require.

(h) Violations. Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance by the Director General for Operations.

(i) Appeals. Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(j) Communications. All communications concerning this order shall be addressed to: War Production Board, Automotive Division, Washington, D. C., Ref: L-106.

(k) Effective date. This amended order shall take effect March 10, 1943.

Issued this 4th day of March 1943. CURTIS E. CALDER,

Director General for Operations.

PART 933-COPPER

[General Preference Order M-9-a as Amended March 4, 1943]

Whereas the national defense requirements have created a shortage of copper, copper base alloys and products thereof, as hereinafter defined, for defense, for private account, and for export, and it is necessary in public interest and to promote the defense of the United States, to conserve the supply and direct the distribution thereof: Now, therefore, it is hereby ordered:

§ 933.2 General Preference Order M-9-a-(a) Definitions. For the purpose of this order:

(1) "Copper" means copper metal which has been refined by any process of electrolysis or fire refining to a grade and in a form suitable for fabrication, such as cathodes, wire bars, ingot bars, ingots, cakes, billets, wedge bars or other refined shapes, or copper shot or other forms produced by a refiner.

(2) "Copper base alloy" means any alloy in the composition of which the percentage of copper metal by weight equals or exceeds 40% of the total weight of the alloy.

(3) "Refiner" means any person who produces copper, as hereinbefore defined, from copper-bearing material or scrap by any process of electrolysis or fire refining; "refiner" also includes any person who has such copper produced for him under toll agreement.

(4) "Dealer" means one who receives physical delivery of copper and sells or holds the same for sale without change in form.

(5) "Brass mill product" means sheet,
wire, rod or tube made from copper or
copper base alloy.
(6) "Wire mill product" means bare

(6) "Wire mill product" means bare or insulated wire or cable for electrical conduction made from copper or copper base alloy.

(7) "Warehouse" means any industrial supplier, mill supplier, plumbing supply house, or other person engaged in the business of distributing brass mill products or wire mill products to industry or trade.

(b) Allocation of copper—(1) Deliveries of copper by dealers or refiners. No delivery of copper shall be made by any dealer or refiner except upon presentation by the person requesting the delivery of an allocation certificate duly issued by the Director General for Operations (hereinafter called the Director); except that notwithstanding the foregoing, copper of foreign origin imported under bond or drawback agreement may be reexported by a refiner pursuant to an export license duly issued by the Office of Export Control, Board of Economic Warfare.

(2) Applications for allocations. All persons who require copper shall make application on Form PD-59 to the Copper Division, War Production Board, for allocation certificates entitling them to specified amounts of copper to be delivered to them by refiners or dealers.

(3) Basis of allocation. Allocation of copper will be made by the Director to assure the satisfaction of the most essential requirements. After the satisfaction of such requirements, the residual supply may be allocated by the Director for other necessary uses to the extent possible.

(4) Acceptance of delivery. No person shall accept the delivery of any copper if he has reason to believe such delivery would be in violation of this order.

(c) Deliveries of brass mill products or wire mill products. Except as expressly authorized or directed by the Director:

(1) No brass mill or wire mill shall fill any order which has not been approved on a Form PD-59D.

(2) No warehouse shall deliver or cause to be delivered from his stocks any brass mill product or wire mill product except as permitted by Controlled Materials Plan Regulation No. 4.

(3) No person shall accept the delivery of any brass mill product or wire mill product if he has reason to believe such delivery would be in violation of this order.

(d) Deliveries of foundry products or copper base alloy ingots. Deliveries of foundry products and copper base alloy ingots shall be made only in accordance with the provisions of Supplementary Copper Order No. M-9-b.

(e) Toll agreements. (1) No person shall process any copper, brass mill product, or wire mill product acquired prior to July 1, 1942, under any existing or future toll agreement, conversion agreement, or other form of agreement by which title remains vested in a person other than the one processing the material, or which agreement is contingent upon repurchase of such materials in any quantities equivalent or otherwise by the person delivering the material, unless and until such an agreement shall have been approved by the Director. Any person desiring to have such an agreement approved must file with the War Production Board, a statement setting forth the names of the parties to such agreement, the material involved as to kind and grade (except copper scrap for which provision is made under Supplementary Copper Order No. M-9-b), the form of the same, the estimated tonnage involved, the estimated rate of delivery, the length of time such agreement or other similar agreement has been in force, the duration of the agreement, the purpose for which the copper, copper base alloy or copper product is to be used, and any other pertinent data that would justify such approval.

(2) All refiners who are parties to toll agreements for the refining of copper (who have not already filed the information with the Director) must file with the War Production Board, a statement setting forth the names of the parties to such agreement, the material involved, whether blister, scrap or in other form, the estimated tonnage involved, the estimated rate of delivery, and the duration of the contract. A like statement must be filed with reference to any new agreement or amendment to existing or new agreements within ten days after the effective date of such new agreement or amendment respectively.

(f) Addressing of communications. All applications, statements, or other communications filed pursuant to this order or concerning the subject matter hereof should be addressed War Production Board, Ref: M-9-a, Washington, D. C.

(g) Violations. Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 4th day of March 1943. CURTIS E. CALDER,

Director General for Operations.

PART 1115-FUEL OIL

[Revocation of Preference Rating Exclusion Order M-144]

Section 1115.2 Preference Rating Exclusion Order M-144 hereby is revoked as of this 3d day of March 1943.

PART 3026-PETROLEUM PRODUCTS

[Preference Rating Exclusion Order M-201]

The fulfillment of the requirements for the defense of the United States has created a shortage in certain petroleum products which will result, in certain areas, in a shortage in the supply of such petroleum products for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3026.1 Preference Rating Exclusion Order M-201—(a) Applicability of priorities regulations. This order and all transactions affected thereby are subject to the applicable provisions of any priorities regulation issued by the War Pro-

duction Board, as amended from time to time.

(b) Definitions. (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency or any organized group of persons, whether incorporated or not.

(2) "Petroleum" means petroleum, petroleum products and associated hydrocarbons, including, but not limited to, natural gas.

(3) "Restricted products" means those products of petroleum which may from time to time be specified in Exhibit "A" hereof and which are not excepted, in whole or in part, from the provisions of this order by Exhibit "B" hereof.

(c) Exclusion of restricted products from certain provisions of priorities regulations and orders. (1) Notwithstanding the provisions of any regulation, order, direction or certificate heretofore issued by the Director General for Operations or the Director of Industry Operations of the War Production Board or the Director of Priorities of the Office of Production Management, deliveries of restricted products may be made by any person to any person for any purpose without regard to any preference rating assigned to the purchase, sale or delivery of such restricted products. No person shall require the application of a preference rating assigned by any regulation, order, direction or certificate to the purchase, sale or delivery of restricted products and, except as provided in paragraph (c) (2) hereof, no such purchase, sale or delivery of restricted products shall be deemed to bear any preference rating whatsoever.

(2) No preference rating shall be assigned to any purchase, sale or delivery of restricted products (other than to a purchase, sale or delivery of fuel oil for use in ocean-going vessels) by any regulation, order, direction or certificate hereafter issued by or under the authority of the Director General for Operations, except by or pursuant to a regulation or order hereafter issued by the Director General for Operations specifically assigning the rating and excepting the transaction from the provisions of this order.

(d) *Excepted products*. The provisions of this order do not apply to any product of petroleum specified in Exhibit "B" hereof.

(e) Applications and communications. Applications for a specific assignment of a preference rating and exception from the provisions of this order shall be made on Form PD-1A accompanied by a letter in triplicate stating the reasons for such exception. Any such application shall be addressed to the Petroleum Administration for War, South Interior Building, Washington, D. C., Ref: M-201. All communications concerning this order shall be similarly addressed. (f) Violations. Any person who wil-

(f) Violations. Any person who wilfully violates any provision of this order or who wilfully furnishes false information to the Director General for Operations in connection with this order is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Director General for Operations.

(g) § 1115.2 Preference Rating Exclusion Order M-144 is hereby revoked.

Issued this 3d day of March 1943.

CURTIS E. CALDER, Director General for Operations.

EXHIBIT A

The following are specified restricted products:

(1) Liquefied petroleum gas: propane, propylene, butanes, butenes, or any combination or dilution thereof commonly known as liquefied petroleum gas.

(2) Aviation gasoline: any liquid fuel (including components thereof), except Diesel fuel, used for aircraft propulsion which meets current provisional or permanent United States Army or Navy specifications for aircraft fuels.

(3) Motor fuel: any liquid fuel (including components thereof) suitable for use in the propulsion of motor vehicles or motor boats.

(4) Lubricating oil: any finished or unfinished, distilled or residual liquid fraction of petroleum used for lubrication which does not contain in excess of 50% (by weight) of additives or blending compounds.

(5) Fuel oil: any liquid petroleum product commonly known as fuel oil, including grades No. 1, 2, 3, 4, 5, or 6, Bunker "C" fuel oil, Diesel fuel, kerosene, range oil, gas oil and any other liquid petroleum product used for the same purpose as the above designated grades.

(6) Lubricating grease: any lubricant manufactured from petroleum and a soap, organic salt or ester of any fatty oil or fatty acid.

(7) Asphalt: asphalt of petroleum origin and all asphaltic products of petroleum origin, including read oils.

EXHIBIT B

The following are specified excepted products:

(None, as of March 3, 1943.)

PART 3123—FLOOR FINISHING AND FLOOR MAINTENANCE MACHINES AND INDUSTRIAL VACUUM CLEANERS

[Limitation Order L-222, as Amended March 1, 1943¹]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply for defense, for private account and for export of the materials used in the manufacture of floor finishing and floor maintenance machines and industrial vacuum cleaners; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3123.1 Limitation Order L-222—(a) Definitions. For the purpose of this order: (1) "Floor finishing or floor maintenance machines" means any motorized or hand-powered mechanical device, designed for the purpose of floor finishing or maintenance. The term includes, but is not limited to, the types of machines on List A attached to this order as amended from time to time, and excludes independent motor-operated vacuum producing units, floor sanding machines and machines specifically designed for the manipulation of wet cement.

(2) "Floor finishing" and "floor maintenance" include, but are not limited to, the operations of grinding, staining, sealing, scraping, oiling, waxing or polishing floors or decks, and the collection and removal of dust, grime, oil, reclaimable materials or refuse from floors or decks, either separately or in conjunction with the operations of washing, scraping, sterilizing and wiping floors or decks.

(3) "Floor sanding machines" means machines used for the smoothing of floors or decks, other than stone or tile floors, by the use of abrasives such as, but not limited to, sandpaper and steel wool.

(4) "Vacuum cleaners" means machines in which a combination of a motor operated vacuum producer (stationary or portable), an air impeller line, and a portable tool with attachments is used for the collection and removal by suction of dust, oil, reclaimable materials or refuse, in either the wet or dry state.

(5) "Industrial vacuum cleaners" means all vacuum cleaners other than those designed primarily for household use, exclusive of motor-operated vacuum producing units incorporated in floor sanding, floor finishing or floor maintenance machines.
(6) "Blowers" means machines in

(6) "Blowers" means machines in which a combination of a motor operated air pressure producer, an air impeller line, and a portable tool with attachments is used for the removal of dust, materials or refuse by air pressure. (7) "New machines" means machines which have neither been used nor sold, rented or lent for the purpose of being used for floor sanding, floor finishing, floor maintenance or vacuum cleaning, and also machines which have been used solely for demonstration or trial loans

(8) "Supplies" means replaceable items, such as, but not limited to, polishing brushes, cleaning brushes, sanding drums and discs, stones, hoses and bags, which are expended in the operations of floor sanding, floor finishing, floor maintenance, and vacuum cleaning.
(9) "Manufacturer" means any per-

(9) "Manufacturer" means any person engaged in the fabrication or assembly of new floor sanding machines, new floor finishing or floor maintenance machines, or new industrial vacuum cleaners, or of parts designed specifically for such machines, and includes wholesaling or retailing subsidiaries or divisions of such a person.

(10) "Distributor" means any person engaged in the business of selling, renting or lending new floor sanding machines, new floor finishing or floor maintenance machines, or new industrial vacuum cleaners, other than a manufacturer,

(b) Restrictions on production—(1) Floor sanding machines. No manufacturer shall fabricate or assemble any new floor sanding machines or parts for such new machines except as follows:

(i) On and before January 15, 1943, but not thereafter, a manufacturer may start to fabricate parts, for the assembly of new floor sanding machines, from materials which are still in the form in which he received them, provided that the materials which he starts to fabricate can be fabricated into parts and can be assembled into new floor sanding machines -within the time limits set by paragraphs (b) (1) (ii) and (b) (1) (iii) of this order.

(ii) On and before March 15, 1943, but not thereafter, a manufacturer may fabricate parts for the assembly of new floor sanding machines.

(iii) On and before March 15, 1943, but not thereafter, a manufacturer may assemble new floor sanding machines.

(2) Floor finishing or floor maintenance machines. No manufacturer shall fabricate or assemble any new floor finishing or floor maintenance machines or parts for such new machines, except as follows:

(i) On and before February 15, 1943, but not thereafter, a manufacturer may start to fabricate parts, for the assembly of new floor finishing or floor maintenance machines, from materials which are still in the form in which he received them, provided that the materials which he starts to fabricate can be fabricated into parts and can be assembled into new floor finishing or floor maintenance machines within the time limits sets by paragraphs (b) (2) (ii) and (b) (2) (iii) of this order.

(ii) On and before March 15, 1943, but not thereafter, a manufacturer may fabricate parts for the assembly of new floor finishing or floor maintenance machines.

(iii) On and before April 15, 1943, but not thereafter, a manufacturer may assemble new floor finishing or floor maintenance machines.

(3) Industrial vacuum cleaners. No manufacturer shall fabricate any parts for new industrial vacuum cleaners except as follows:

(i) On and before March 1, 1943, but not thereafter, a manufacturer may start to fabricate parts, for the assembly of new industrial vacuum cleaners, from materials which are still in the form in which he received them, provided that the materials which he starts to fabricate can be fabricated into parts within the time limit set by paragraph (b) (3) (ii) of this order.

(ii) On and before June 1, 1943, but not thereafter, a manufacturer may fabricate parts for the assembly of new industrial vacuum cleaners, provided that if the Director General for Operations shall fix a production quota for such manufacturer, the number of machines for the assembly of which such manufacturer fabricates parts shall not exceed such production quota. Whenever production quotas are assigned by the Director General for Operations, he will take

into consideration the number of machines already completed and the number of machines needed to be completed to meet, but not to exceed, the total requirements for such machines as determined by the Standard Products Committee.

(4) Repair parts other than supplies.
(i) During the calendar quarter commencing January 1, 1943, and during any calendar quarter thereafter, no manufacturer shall fabricate repair parts having an aggregate manufacturing cost in excess of two per cent of that manufacturer's billed sales of new floor sanding machines, new floor finishing and floor maintenance machines, and new industrial vacuum cleaners during the calendar year of 1941.

(5) Supplies. Except as otherwise specifically provided, the restrictions of paragraph (b) of this order shall not apply to supplies other than suction attachments used in the conversion of portable industrial blowers to industrial vacuum cleaners.

(6) Special quotas. Notwithstanding the restrictions of paragraph (b) of this order, the Director General for Operations may from time to time specifically authorize one or more manufacturers to commence fabrication, to fabricate, or to assemble specified quantities of machines, repair parts and supplies of any type restricted by paragraph (b), or to perform any combination of the foregoing operations.

(c) Restrictions on transfer. (1) No manufacturer or distributor shall sell, rent, lend or deliver any of the following types of new machines without authorization on Form PD-722:

 (i) Drum type floor sanding machines making an eight-inch path or wider.
 (ii) Disc type floor sanding machines

making a twelve-inch path or wider. (iii) Drum type floor finishing or floor

maintenance machines making an eightinch path or wider.

(iv) Disc type floor finishing or floor maintenance machines making a twelveinch path or wider.

(v) Industrial vacuum cleaners.

Such authorizations shall expire thirty days after the date of their issuance unless served in the interim upon the supplier named therein. Within five days after their expiration, all expired authorization forms shall be returned for cancellation to the War Production Board, Service Equipment Division, Washington, D. C., Ref: L-222. (2) Nothing in this paragraph shall

(2) Nothing in this paragraph shall be construed to prohibit the sale, rental, loan, or delivery of new machines from one manufacturer or distributor to fill an order, or part of an order received by the latter for such machines if the filling of the order has been authorized on Form PD-722.

(d) Procedure for authorization. All persons making application for the au-

thorization required by paragraph (c) hereof shall make such application on Form PD-722.

(e) Applicability of other orders and priorities regulations. (1) This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board as amended from time to time.

(2) Nothing in this order shall be construed to permit the production of any machines whose production is prevented by any other orders or regulations of the War Production Board, including § 1174.1 *Limitation Order L-91*, and § 1176.1 Conservation Order M-126, as amended from time to time.

(f) *Records*. All persons to whom this order applies shall keep and preserve for not less than two years accurate and complete records concerning inventories, production, sales, leases, and rentals.

(g) Audit and inspection. All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(h) *Reports.* (1) All persons affected by this order shall execute and file with the War Production Board such reports and answers to questionnaires as the War Production Board shall from time to time request.

(2) On or before January 28, 1943, for the month of December, and on or before the 15th day of each month thereafter for the preceding month, each manufacturer or distributor of new floor sanding machines, new floor finishing or floor maintenance machines, or new industrial vacuum cleaners shall file a monthly report on Form PD-723.

(i) Violations. Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(j) Appeals. Any appeal from this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(k) Communications. All reports to be filed hereunder, or communications concerning this order, should be addressed to: War Production Board, Service Equipment Division, Washington, D. C., Ref: L-222.

Issued this 1st day of March 1943.

PART 3178—INTERNAL COMBUSTION AIR-COOLED ENGINES

[Limitation Order L-254]

The fulfillment of requirements for the defense of the United States having created a shortage of critical materials entering into the manufacture of internal combustion air-cooled engines for defense, for private account, and for export, the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3178.1 Limitation Order L-254-(a) Applicability of regulations. This order and all transactions affected thereby are subject to the provisions of applicable regulations of the War Production Board, as amended from time to time.

(b) Definitions. For the purposes of this order:

(1) "Air-cooled engine" means an internal combustion air-cooled engine, except air-cooled aircraft propulsion engines and air-cooled engines of two or more cylinders which are an integral part of the structure of motorcycles.

(2) "Basic engine model" means an engine manufactured by any of the producers enumerated in Schedule A, as the same may be amended from time to time by the Director General for Operations, as listed by model designation under the name of each producer, specifying the number of cylinders and the piston displacement in cubic inches for each such model.

(3) "Engine parts" means any part produced to be used in the assembly or maintenance of an air-cooled engine, including specified engine parts.

(4) "Specified engine part" means an engine part enumerated in paragraph 3 of Schedule B to this order, as the same may be amended from time to time by the Director General for Operations.

(5) "Producer" means any individual, partnership, association, corporation, or other form of business enterprise engaged in the manufacture or assembly of air-cooled engines, specified engine parts or engine parts.

(c) Limitations on production of aircooled engines. On and after March 15, 1943, no producer shall manufacture or assemble any air-cooled engine except

FEDERAL REGISTER, Friday, March 5, 1943

a basic engine model, enumerated in Schedule A, in which the specified engine parts conform to the Standard Specifications prescribed in Schedule B, or shall manufacture any specified engine parts which do not conform to said specifications.

(d) Exemptions as to production, existing inventories, and engine parts. (1) Notwithstanding the provisions of paragraph (c), producers may manufacture, assemble and deliver air-cooled engines produced pursuant to contracts entered into prior to March 15, 1943.

(2) Nothing in this order shall prohibit a producer from using in the production of air-cooled engines existing inventories of engine parts or specified engine parts, which, on March 15, 1943, have been completely fabricated or processed to the point where other use is impracticable.

(3) Nothing in this order shall prohibit a producer from manufacturing engine parts, including specified engine parts, for the maintenance and repair of air-cooled engines.

(e) *Records*. All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production, and sales of air-cooled engines and engine parts.

(f) Reports. All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as the Board may require from time to time.

(g) Violations. Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

(h) Appeals. Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(i) Communications. All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Automotive Division, Washington, D. C. Ref.: Order L-254.

Issued this 4th day of March 1943. CURTIS E. CALDER,

Director General for Operations.

STANDARD SPECIFICATIONS FOR AIR - COOLED ENGINES, SPECIFIED ENGINE PARTS, AND ENGINE PARTS

1. Painting and plating for air-cooled engines, specified engine parts, and engine parts. (a) Rust, grease, oil and other foreign matter should be thoroughly removed from all surfaces to be painted or plated so that the metal exhibits excellent adhesion characteristics.

(b) All exposed surfaces shall be painted with a single coat of rust-inhibiting primer and one cross-coat of semi-gloss olive drab enamel that shall have a dry film thickness of 1.0 to 1.5 mils. The primer and the enamel shall conform to Ordnance Tentative Specification TAC-ES-NO. 680a dated November 20, 1942, Class 101 and Class 440 respectively. For application, the primer and the enamel should be reduced with a thinner as specified in paragraph C-6b of the above-mentioned specification.

(c) Parts which will be exposed to the elements and which cannot be painted after assembly must receive a single coat of rustinhibiting primer previous to assembly. Ferrous bolts and nuts, if not painted, shall be corrosion-proofed by any method approved by the producer. Bolt heads and nuts which

will be exposed to the elements need not be so treated if they are painted in the final finishing.

(d) All zinc base die castings which will be exposed to the elements must be dichromated.
(e) Copper and brass parts need not be painted or otherwise protected.
(f) The foregoing Painting and Plating Specifications are not applicable to air-cooled

(f) The foregoing Painting and Plating Specifications are not applicable to air-cooled engines produced for civilian uses. These shall be finished to meet the produce^{*}'s commercial standards.

a. A minimum performance requirements.
(a) Air-cooled engines upon delivery shall develop at least eighty-five per cent (85%) of the producer's published brake horse-power, corrected for standard conditions of atmospheric pressure and temperature.
(b) Test methods to establish the requirements.

(b) Test methods to establish the requirement of paragraph (a) above may be determined by the producer.

3. Specified engine parts—(a) Air cleaners. A producer shall equip any one basic engine model produced by him with but one model of air cleaner which must be of the oil-bath type.

(b) Automatic chokes. Automatic chokes shall be used on carburetors only where remote control equipment is specified.

(c) Carburetors. A producer shall equip any one basic engine model produced by him with but one model of suction feed and one model of float feed carburetor.

model of float feed carburetor. (d) Removable caps and plugs. All gasoline tank caps, oil filler caps and drain plugs shall be fastened to the engine by a chain or equivalent fastening.

(e) Gasoline tanks. A producer shall equip any one basic engine model produced by him with one size of gasoline tank assembly and fittings, conforming to the following specifications:

Horsepower of engine	Capacity of tank	Specified gauge
² 3 to 1 ³ 2 1 ³ 4 to 5 6 to 10 11 to 19 20 to 32	Ots. 4 5 8 24 38	Not less than #24 Terne Plate. Not less than #24 Terne Plate. Not less than #24 Terne Plate. Not less than #20 Terne Plate. Not less than #20 Terne Plate.

but one model of muffler. (g) Spark plugs. All spark plugs used on basic engine models shall be either of the

following sizes: 14 millimeters.

18 millimeters.

(h) Starters. Rope starters shall be used on all single and twin cylinder basic engine models, except where remote control is speci-

fied, or the engine is to be used on a scooter. 4. Manuals describing parts and maintenance of air-cooled engines. (a) All manuals describing engine parts and maintenance, furnished with basic engine models, shall be published only in one size, six inches in width by nine inches in length, and shall be properly indexed.

(b) Illustrations in such manuals shall be reproduced from either line drawings or photographs, exploded when necessary to illustrate either the isometric or plan view. Producers may select whichever method is best suited to their facilities, but only one method shall be used.

(c) Each assembly or sub-assembly best serviceable as a unit shall be listed or illustrated. Such assemblies and sub-assemblies shall be held to the lowest practical number. Individual parts shall be listed where practical repair procedure requires the use of individual parts

PART 3208-CRITICAL COMMON COM-PONENTS

[General Scheduling Order M-293]

Corrections

The table in the schedule under General Scheduling Order M-293, appear-ing on page 2472 of the issue for Saturday, February 27, 1943, is corrected as follows:

In item 3b, under Aircraft Production Board, etc., the second entry under Ceramic was omitted and should read:

Short reach shielded type.

The form of item 3a, under General Industrial Equipment Division, should be:

a. Speed changers:

1. Enclosed units (excluding ship propulsion)

Worm gear speed reducers__ Helical and/or herringbone speed reducers_____

2. Industrial gears (unmounted). Worm and worm wheels_____

In columns 2 and 3, item 7a under General Industrial Equipment Division, footnotes "3" should read "4"

In item 11, under General Industrial Equipment Division, "PD-900" should be inserted in column 1.

The reading of item 1, under Safety and Technical Equipment Division, should read:

1. Extinguishers, carbon dioxide

The form of item 2b, under Tools Division, should be:

- b. Metal cutting tools_ Machine broachers, flat and spline, Threading chasers, die heads, and
 - collapsible taps. High speed taper shank drills, 1" diameter and larger.

Ground gear hobs, 48 pitch and finer.

Ground multiple thread milling cutters or hobs.

Maximum Price Regulation 121 is amended in the following respects:

1. Section 1340.248 (a) (2) is amended to read as follows:

(2) "Miscellaneous solid fuels" or "miscellaneous solid fuel" means anthracite other than that produced in the State of Pennsylvania; semianthracite; lignite; all coke, including low temperature coke and petroleum coke (except by-product foundry and blast furnace coke, and beehive oven furnace coke produced in the State of Pennsylvania); briquettes made from coke or coal; packaged coal; and sea coal used for foundry facings.

2. Section 1340.249 (d) (4) is added to read as follows:

(4) A producer of briquettes or packaged coal made from bituminous coal, in computing the maximum prices for the sale of such briquettes or packaged coal under paragraphs (a), (b) or (c) of this section or under any order issued prior to March 1, 1943 granting an adjustment. may add to the prices determined under those paragraphs or established by such order the difference between (i) the cost of the last purchase of such coal in the year 1942 and (ii) the current cost of such coal: Provided, That the amount so added shall not be more than the difference between (iii) the maximum price for such bituminous coal on May 18, 1942, and (iv) the maximum price for such coal at the time of the computation.

This amendment shall become effective this 3d day of March 1943.

has been filed with the Division of the Federal Register.*

Rationing Order No. 3 is amended in the following respects:

1. Section 1407.85 (c) is amended to read as follows:

(c) There shall not be included in the computation of the sugar base any sugar used in products which were delivered to the Army or Navy or to any of the persons or agencies enumerated on April 21, 1942, in paragraph (b) of § 1407.183.

2. Section 1407.182 is amended to read as follows:

§ 1407.182 Deliveries of sugar to exempt agencies. (a) The Army, Navy, Marine Corps, or Coast Guard of the United States and the Food Distribution Administration, Maritime Commission, War Shipping Administration and Office of Lend-Lease Administration are known as exempt agencies for the purpose of General Ration Order 3B and are authorized to open one or more exempt accounts under the provisions of General Ration Order 3B. In addition, the Army Exchange Service, to the extent it acquires sugar for export to a foreign country or a territory or possession of the United States other than the District of Columbia, and Ships' Service Departments Afloat, are exempt agencies under this order and General Ration Order 3B. Sugar may be delivered to and accepted by these agencies only in exchange for a check of weight value equal to the amount of sugar delivered except that sugar may be delivered by one exempt agency to another exempt agency without the exchange of stamps, certificates, or checks.

(b) An exempt agency shall issue a check in the proper amount to the person making delivery at the time of delivery or as soon as practicable thereafter.

(c) If, for any reason, a check cannot be used when sugar is delivered to an agency listed in paragraph (a), an emergency acknowledgment shall be given to the person making the delivery at the time of delivery instead of a check. This acknowledgment may be in any form but shall set forth the name of the agency, the name and address of the activity within the agency to which the sugar is to be delivered, the name and address of the activity to which the emergency acknowledgment must be sent for replacement by a check, the weight value of the check to be issued for the delivery, and date of delivery. The acknowledgment must be signed by an authorized officer or employee of the agency, and must state his official title or rank. A person to whom such an acknowledgment is given may not change it at a Board or use it to acquire sugar but shall send it to the agency activity designated thereon, and the agency shall issue to him a check equal in weight value to the sugar delivered in exchange for the acknowledgment.

^{*}Copies may be obtained from the Office of Price Administration.

3. Section 1407.183 is amended to read as follows:

§ 1407.183 Deliveries of sugar to certain persons and agencies. (a) A registering unit which at any time after registration delivers sugar to any of the persons or agencies enumerated in paragraph (b) and (c) except those agencies which are also listed in § 1407.182 (a) as exempt agencies, or delivers sugar to and for consumption in any territory or possession of the United States other than the District of Columbia, or delivers sugar to any ocean-going vessel operating in foreign, coastwise, or intercoastal trade as ship stores for consumption aboard such vessel, may deliver such sugar without receiving stamps or certificates therefor. If certificates, stamps or emergency acknowledgments were not received, the registering unit may apply to the Board for a certificate in weight value equal to the amount of sugar de-The application shall be made livered. on OPA Form No. R-315, which shall be accompanied by receipts, bills of lading, and such other detailed evidence including affidavits as substantiates such deliveries, and in the case of a delivery to a vessel as aforesaid the application must be accompanied by a statement signed by the Collector of Customs or his deputy authorizing the owner of the vessel or his agent to take delivery of sugar as ship stores in an amount equal to that for which application is being made. In a proper case the board shall grant the application.

(b) The persons and agencies included within the provisions of this section are the Army, Navy, Marine Corps, or Coast Guard of the United States, and the Food Distribution Administration, Maritime Commission, War Shipping Administration and any government agency or other person when such government agency or person, in one transaction, acquires sugar or products containing sugar for export to and consumption or use in any foreign country, or in any territory or possession of the United States, other than the District of Columbia, and when such sugar or products containing sugar so acquired in such transaction exceeds the value of \$25.00.

(c) The following persons and agencies are also included within the provisions of this section: Panama Canal, Coast and Geodetic Survey, Civil Aeronautics Authority, National Advisory Committee for Aeronautics, Veterans Administration and Office of Scientific Research and Development.

4. Section 1407.184a is added to read as follows:

§ 1407.184a Deliveries of sugar to Army Exchanges, Post Exchanges, Ships' Service Departments Ashore and similar agencies. (a) Sugar may be delivered to and accepted by Army Exchanges, Post Exchanges of the Marine Corps and Ships' Service Departments Ashore of the Navy and Coast Guard, and other similar activities designated by the respective exempt agencies, only in ex-

change for checks equal in weight value to the sugar delivered. Army Exchanges, Post Exchanges and Ships' Service Departments Ashore, and similar designated activities, are authorized to open accounts, but may not open exempt accounts of the type described in General Ration Order 3B. Certificates to be deposited by Army Exchanges, Post Ex-changes, Ships' Service Departments Ashore and similar designated activities to establish ration credits shall be issued to them in accordance with arrangements between the Office of Price Administration and the Army Exchange Service of the United States War Department, the Bureau of Naval Personnel of the Navy Department, the Marine Corps, and the Coast Guard. (The issuance of certificates to establish ration credits for Army Exchanges, Post Exchanges, Ships' Service Departments Ashore and similar designated activities for the delivery of sugar for institutional use is governed by General Ration Order 5.)

(b) Ration credits may be transferred by check without the delivery of sugar between accounts maintained for Army Exchanges, between accounts maintained for Post Exchanges of the Marine Corps, between accounts maintained for Ships' Service Departments Ashore of the Navy, and between accounts maintained for Ships' Service Departments Ashore of the Coast Guard.

(c) During March 1943, Army Exchanges, Post Exchanges, Ships' Service Departments Ashore and similar designated activities, may, if checks are unavailable, use emergency acknowledgments to acquire sugar, in the way described in § 1407.182 (c). An emergency acknowledgment given under this section may not be used by the person to whom it was given to acquire sugar, but must be exchanged for a check at the agency activity designated thereon.

5. Section 1407.185 is amended to read as follows:

§ 1407.185 Products containing sugar delivered to Army Exchanges and similar (a) The Army Exchange agencies. Service of the United States War Department is authorized to issue checks to replace sugar in products delivered to Army Exchanges on or after July 15, 1942. Each check shall be issued to the registering unit which used sugar in the production, manufacture or processing of the products thus delivered or of materials used therein. The weight value of the check thus issued to a registering unit shall not exceed the amount of sugar used by such registering unit in such products or materials.

(b) The Bureau of Naval Personnel of the Navy Department is authorized to issue checks to replace sugar in products delivered to Ships' Service Departments Ashore at Navy or Coast Guard stations. The United States Marine Corps is authorized to issue checks to replace sugar in products delivered to Post Exchanges at Marine Corps barracks or Marine Corps bases. Such authorizations shall apply with respect to products delivered

on or after December 7, 1942. Each check shall be issued to the registering unit which used sugar in the production, manufacture or processing of the products thus delivered or of materials used therein. The weight value of a check thus issued to a registering unit shall not exceed the amount of sugar used by such registering unit in such products or materials.

(c) The total weight value of checks issued by any agency pursuant to this section, in any period specified by the Office of Price Administration, shall not exceed the amount allocated, for the purposes of this section, by the Office of Price Administration to such agency for such period.

6. Section 1407.185a is added to read as follows:

§ 1407.185a Deliveries of sugar by Army Exchanges, Post Exchanges, Ships' Service Departments Ashore. (a) Army Exchanges, Post Exchanges, Ships' Service Departments Ashore, Sales Commissaries, Commissary Stores, and any other activity of the Army, Navy, Marine Corps or Coast Guard and the Food Distribution Administration may deliver sugar only upon the receipt of stamps, certificates or checks in the same way that retailers or wholesalers are permitted to make deliveries of sugar under this order. However, they are not required to register as retailers or wholesalers.

(b) All stamps, certificates or checks so received by Army Exchanges, Post Exchanges, Ships' Service Departments Ashore, Sales Commissaries, Commissary Stores or any other activity of the Army, Navy, Marine Corps or Coast Guard or by the Food Distribution Administration, shall be deposited in the accounts maintained for such agencies.

This amendment shall become effective March 2, 1943.

TITLE 49-TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

Service Order 1121

PART 95-CAR SERVICE

FREE TIME ON CERTAIN FRUITS AND VEGE-TABLES

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 3d day of March, A. D. 1943.

It appearing that certain shippers of fresh or green fruits or vegetables in refrigerator cars have been moving cars from one point of delivery within the switching limits of a city or town to other points of delivery within such limits, and thereby delaying the unloading and increasing the free time for unloading under the demurrage rules; in the opinion of the Commission an emergency exists requiring immediate action to prevent shortage of railroad equipment and congestion of traffic: It is ordered, That:

§ 95.305 Free time on fresh or green fruits or vegetables in refrigerator cars. (a) The maximum free time allowed at destination on any refrigerator car loaded with fresh or green fruits or vegetables as defined in Service Order No. 70, as amended, shall be 48 hours, computed from the first 7:00 a.m. after the first notice and placement on any hold or inspection track or unloading track, or constructive placement on an otherthan-public-delivery track, until car is unloaded, provided that the time between receipt of an order to move a car from one location to another and placement of the car at the new location shall not be counted against the car, except that any period of time between 7:00 a.m. of the day an order to move a car is received and the hour such order is received shall be counted as one day. The provisions of this order shall apply whether the car is reconsigned or re-shipped to other points within the switching limits of the destination. For purposes of this order the destination shall be any point of railroad delivery within the switching limits of the city or town at which the car is unloaded. The operation of all rules relating to free time in demurrage tariffs (other than port demurrage tariffs) insofar as the provisions thereof are inconsistent with this order are suspended, except the provision for eliminating Sundays and legal holidays in computing free time. This order shall not affect demurrage rule No. 8 of Agent B. T. Jones' I.C.C. 3722, or similar rules in other demurrage tariffs, relating to the cancelation or refunding

of demurrage under emergency conditions. Nothing in this order shall be construed to amend or modify the provisions of Service Order No. 70, as amended. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17))

(b) Each of said railroads, on or before the effective date of this section, and upon not less than one day's notice to the Commission and to the public, shall file and post a supplement to each of its tariffs affected hereby, substantially in the form authorized in Rule 9 (k) of Tariff Circular No. 20, announcing the suspension of the operation of any of the provisions therein.

It is jurther ordered, That this order shall become effective March 10, 1943, and shall remain in force until further order of the Commission; that copies of this order and direction shall be served upon all common carriers by railroad subject to the Interstate Commerce Act and upon the Association of American Railroads, Car Service Division; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director Division of the Federal Register, The National Archives.

By the Commission, Division 3.

PART 95-CAR SERVICE

DEMURRAGE CHARGES ON FLAT CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 3d day of March, A. D. 1943.

It appearing, that, due to the existing state of war, an emergency exists which, in the opinion of the Commission, requires immediate action to prevent delay and shortage of railroad equipment and congestion of traffic: *It is ordered*, That:

§ 95.501 Demurrage charges on flat cars. (a) After expiration of the free time allowed, the demurrage charges on heavy duty flat cars of 151,000 pounds or over marked capacity shall be \$2.20 per car per day or fraction thereof for the first two days, \$5.50 for the third day, and \$15.00 per car per day for each succeeding day or fraction thereof, these cars not to be included in an average agreement. After expiration of the free time allowed, the demurrage charges on all other flat cars shall be \$2.20 per car per day or fraction thereof for the first two days, \$5.50 for the third day, and \$11.00 per car per day for each succeeding day or fraction thereof, these cars when held for loading or unloading to be included in the patrons' average agreement if one is in effect, but the \$5.50 per day and \$11.00 per day charges may not be offset or reduced by credits earned on other cars. The operation of all rules in

Agent B. T. Jones' I. C. C. 3722, or similar demurrage tariffs (other than port demurrage tariffs), insofar as the provisions thereof are inconsistent with this order, are suspended except to the extent that such rules exempt private cars from demurrage while on the tracks of the owner or lessee. This order shall not affect demurrage rule No. 8 of Agent B. T. Jones' L. C. C. 3722, or similar rules in other demurrage tariffs, relating to the cancelation or refunding of demurrage under emergency conditions. This order shall not apply to special type cars of AAR mechanical designations "LF" or "LFA". (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17))

(b) Each of said railroads, on or before the effective date of this section, and upon not less than one day's notice to the Commission and to the public, shall file and post a supplement to each of its tariffs affected hereby, substantially in the form authorized in Rule 9 (k) of Tariff Circular No. 20, announcing the suspension of the operation of any of the provisions therein.

It is further ordered, That this order shall become effective March 10, 1943, and shall remain in force until further order of the Commission; that copies of this order and direction shall be served upon all common carriers by railroad subject to the Interstate Commerce Act and upon the Association of American Railroads, Car Service Division; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register, The National Archives.

Bituminous Coal Division.

[Docket No. B-368]

SOUTHWEST COAL SALES

NOTICE OF AND ORDER FOR HEARING

In the matter of Thos. S. Laser, an individual, operating as Southwest Coal Sales, registered distributor, Registration No. 5414.

The Bituminous Coal Division (the "Division") finds it necessary in the proper administration of the Bituminous Coal Act of 1937 (the "Act") and the Bituminous Coal Code (the "Code") promulgated thereunder to determine:

A. Whether Thos. S. Laser, a Registered Distributor, Registration No. 5414 operating as Southwest Coal Sales (hereinafter sometimes referred to as the "Distributor") whose address is 1002 Foshay Tower, Minneapolis, Minnesota, has violated any provisions of section

4 II (i) of the Act, the Marketing Rules and Regulations, pertinent orders of the Division, and the Distributor's Agreement (the "Agreement") dated August 4, 1939, filed by said Thos. S. Laser in connection with his application for registration and more particularly whether said Distributor:

1. Accepted and retained commissions, while acting as subsales agent for the Rainbow Coal Company, a Code Member located in District No. 14, on approximately 5,076.65 net tons of various sizes of coal produced at said Code Member's Rainbow Mine (Mine Index No. 3184) and sold to various purchasers during the period October 18, 1940, to October 29, 1941, inclusive, in excess of the commissions provided in the sub-agency contract between the Distributor and said Code Member, no modification of said sub-agency contract having been reduced to writing and filed with the Statistical Bureau as required by Rule 4 of section II of the Marketing Rules and Regulations, resulting in violations of paragraph (e) of the Agreement.

2. Accepted and retained commissions, while acting as sub-sales agent for the Harding Coal Company, a Code Member, located in District No. 14, on approximately 5,611.90 net tons of various sizes of coal produced at said Code Member's Harding Mine (Mine Index No. 47) and sold to various purchasers during the period November 20, 1940, to November 14, 1941, inclusive, in excess of the commissions provided in the subagency contract between the Distributor and said Code Member, no modification of said sub-agency contract having been reduced to writing and filed with the Statistical Bureau, as required by Rule 4 of section II of the Marketing Rules and Regulations, resulting in violations of paragraph (e) of the Agreement. 3. Purchased for resale and resold,

3. Purchased for resale and resold, during the period November 19, 1940, to January 7, 1942, inclusive, to various purchasers in St. Paul and Minneapolis, Minnesota, and Huron, South Dakota, approximately 782.35 net tons of various sizes of coal produced at their respective mines by Watson Coal Company, Mine Index No. 117, Crescent Coal Company, Mine Index No. 131, J. M. Bates Coal Company, Mine Index No. 103 and Smokeless Coal Company, Mine Index No. 90, and accepted and retained discounts thereon in excess of the maximum distributors' discounts prescribed by Order of the Division issued in General Docket No. 12 on June 19, 1940, Prescribing Due and Reasonable Maximum Discounts, resulting in violations of paragraph (a) of the Agreement.

4. Granted 2 per cent discounts from effective minimum prices to the purchasers of approximately 436.25 net tons of coal produced at their respective mines by Crescent Coal Company, Mine Index No. 131, Carbon Coal Company, Mine Index No. 16, Smokeless Coal Company, Mine Index No. 90, New Union Coal Company, Mine Index No. 77 and Rainbow Coal Company, Mine Index No. 184, purchased for resale from said producers and resold to S. Brand Coal Co. and A. A. Carlstrom & Son, both of St. Paul, Minnesota, during the period October 21, 1940 to July 7, 1941, which discounts were prohibited by section 4 II (i) 4 of the Act and Rule 4 of section XIII of the Marketing Rules and Regulations, resulting in violations of paragraphs (b), (c) and (e) of the Agreement.

5. Granted adjustments for alleged substandard quality or preparation to various purchasers during the period November 14, 1940 to July 21, 1941, inclusive, which adjustments had the effect of reducing the sales prices below the effective minima, on approximately 481.50 net tons of various sizes of coal produced at their respective mines by said Carbon Coal Company, Crescent Coal Company, New Union Coal Company, Rainbow Coal Company and by Paris Purity Coal Company, Mine Index No. 43, without reporting such adjustments to the Statistical Bureau as required by section X of the Marketing Rules and Regulations, resulting in violations of paragraphs (b) and (e) of the Agreement.

6. Granted discounts from the effective minimum prices during the period October 8 to November 7, 1940, inclusive, to the Pittsburg Coal Company of Wisconsin (a non-registered distributor at that time) on approximately 297.15 net tons of coal produced at their respective mines by said Rainbow Coal Company, New Union Coal Company, Carbon Coal Company and by Boyd Excelsior Coal Company, Mine Index No. 13, which had the effect of reducing the sales prices on said coal below the effective minima, resulting in violations of paragraph (b) of the Agreement.

7. Prepaid freight charges, during the period August 27 to October 15, 1941, inclusive, on approximately 155.90 net tons of coal produced by the said Harding Coal Company, and by Boyd-Sicard Coal Company, Mine Index No. 14, and sold to Allen Edwards Fuel Company, Minneapolis, Minnesota, which prepayment of freight was prohibited by Rule 1 (J), section VII of the Marketing Rules and Regulations, resulting in violations of paragraph (e) of the Agreement.

8. During the period October 1, 1940, to December 27, 1941, while acting as subsales agent of the said Harding Coal Company, (a Code Member) sold to various purchasers approximately 8080.45 net tons of various sizes of coal produced by said Code Member and failed to file copies of the invoices, spot orders, commitments, and contracts, relating to said coal as required by Rule 3 of section V and Rule 7 of section VI of the Marketing Rules and Regulations, resulting in violations of paragraph (e) of the Agreement.

9. During the period October 7, 1940, to December 31, 1941, while acting as sub-sales agent for the said Rainbow Coal Company (a Code Member), sold to various purchasers approximately 11,866.15 net tons of various sizes of coal produced by said Code Member and failed to file copies of the invoices, spot orders, commitments, and contracts, relating to said coal as required by Rule 3 of section V and Rule 7 of section VI of the Marketing Rules and Regulations, resulting in violations of paragraph (e) of the Agreement.

No. 45----3

B. Whether the registration of said Thos. S. Laser, Registered Distributor, Registration No. 5414 should be revoked or suspended or other appropriate order entered.

It is, therefore, ordered, That a hearing pursuant to Section 304.14 of the Rules and Regulations for the Registration of Distributors, to determine whether the aforementioned Thos. S. Laser has committed violations in the respects heretofore described and whether the registration of said Distributor, should be revoked or suspended, or other appropriate penalties imposed be held at 10 a. m., Room 428, United States Post Office, Minneapolis, Minnesota, April 14, 1943.

It is further ordered, That D. C. Mc-Curtain, or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Distributor and to all persons and entities having an interest in such proceeding.

Notice is hereby given that answer setting forth the position of said Distributor with reference to the matters hereinbefore described, shall be filed with the Bituminous Coal Division at its Washington Office or with any one of the field offices of the Division, within twenty (20) days after date of service hereof on said Distributor, and that failure to file an answer herein within such period, unless the presiding officer shall otherwise order, shall be deemed to be an admission by said Distributor so failing of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

Notice is also hereby given that any application or applications pursuant to section 301.132 of the Rules of Practice and Procedure for the Division for the disposition of this proceeding without formal hearing must be filed not later than fifteen (15) days after receipt by said Distributor of this Notice of and Order for hearing.

All persons are hereby notified that the hearing the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: March 3, 1943.

[Docket Nos. A-1730, A-1741; A-1730, Part II, A-1869]

DISTRICT BOARD 7

MEMORANDUM OPINION, ETC

In the matter of the petition of District Board No. 7 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 7—Dockets Nos. A-1730, A-1741.

In the matter of the petition of District Board No. 7 for a change in the territorial boundary between districts Nos. 7 and 8, in Nicholas County, West Virginia—Dockets Nos. A-1730, Part II, A-1869.

Memorandum opinion and order reopening dockets Nos. A-1730 and A-1741, severing docket No. A-1730, Part II, consolidating dockets Nos. A-1730, Part II, and A-1869 and notice of and order for hearing.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was duly filed with the Division in Docket No. A-1730, by District Board No. 7, requesting, among other things, that minimum prices and price classifications be established for the coals produced at the Imperial No. 2 Mine, Mine Index No. 322, of Imperial Smokeless Coal Company. This petition was consolidated with that filed by this party in Docket No. A-1741, and temporary and conditionally final relief was granted in such consolidated matter, by an order issued therein on December 7. 1942, which became final on February 5, 1943.

A petition of intervention was filed in this consolidated matter by District Board No. 8, requesting that the relief prayed for with respect to the said Imperial No. 2 Mine be denied and that the temporary relief granted by said crder dated December 7, 1942, be modified, with respect to the said Imperial No. 2 Mine, by granting temporary and conditionally final relief establishing price classifications and minimum prices for this mine in the Schedules of Effective Minimum Prices for District No. 8 for All Shipments Except Truck and For Truck Shipment.

In support of its requests, District Board 8 alleged in its petition of intervention that the establishment of price classifications and minimum prices for the coals of the Imperial No. 2 Mine would be ineffectual for the reason that this mine is located in District No. 8.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937 was filed with the Division by District Board No. 7, requesting that the boundaries and limits of District No. 7 be altered to include within District No. 7 that part of Nicholas County, West Virginia, lying south and east of the Gauley River and west of Panther Creek (extended from the head thereof on a line due south to the Greenbrier County line). This petition was assigned Docket No. A-1869.

In this petition it is alleged that the production of low volatile coals in Nicholas County, West Virginia, has resulted in a pattern of distribution and in competitive relationships, which should be reflected in the coordinated effective minimum f. o. b. mine prices for these coals. The petitioner requested that this result should be accomplished by a redesignation of the boundaries and limits of District No. 7 as described above.

District Board No. 3 has intervened generally in this matter.

It appears from the allegations contained in the petition of intervention filed in consolidated Dockets Nos. A-1730 and A-1741 by District Board No. 8, and in the original petition and petition of intervention filed in Docket No. A-1869 by District Boards Nos. 7 and 3, respectively, that these matters raise similar issues upon which the interested parties should have an opportunity to be heard, and that these matters should be consolidated for purposes of hearing.

Therefore, it is ordered, That that portion of consolidated Dockets Nos. A-1730 and A-1741 relating to the coals produced by Imperial Smokeless Coal Company, at the Imperial No. 2 Mine, Mine Index No. 322, be and the same hereby is, reopened for further hearing, and that said reopened portion of Dockets Nos. A-1730 and A-1741, be, and the same hereby is, severed from said consolidated Dockets Nos. A-1730 and A-1741, and designated as Docket No. A-1730, Part II.

It is further ordered, That said Docket No. A-1730, Part II, and Docket No. A-1869 be, and the same hereby are consolidated for the purposes of hearing.

It is further ordered, That a hearing in Dockets Nos. A-1730, Part II, and A-1869 under the applicable provisions of said Act and the rules of the Division be held on March 25, 1943, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, Washington, D. C. On such day the Chief of the Records Section will advise as to the room where such hearing will be held.

It is further ordered, That Travis Williams, or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before March 20, 1943.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of these petitions.

The matter concerned herewith is in regard to the petition of intervention filed in Dockets Nos. A-1730 and A-1741 by District Board No. 8, that portion of the original petition filed in Docket No. A.-. 1730 which has been designated as Docket No. A-1730, Part II, and the original petition and petition of intervention filed in Docket No. A-1869 by District Eoards Nos. 7 and 3, respectively, which relate (1) to the establishment of price classifications and minimum prices for shipment by both rail and truck for the coals produced by Imperial Smokeless Coal Company, at the Imperial No. 2 Mine, Mine Index No. 322, and (2) to the request that the boundaries and limits of District No. 7 be altered to include within District No. 7 that part of Nicholas County, West Virginia, lying south and east of the Gauley River and west of Panther Creek (extended from the head thereof on a line due south to the Greenbrier County line).

NORTH AMERICAN COMPANY

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 2nd day of March 1943.

The North American Company, a registered holding company, has filed a declaration pursuant to section 12 (d) of the Public Utility Holding Company Act of 1935 and Rule U-43 of the General Rules and Regulations promulgated thereunder, regarding a proposal to pay a dividend on its common stock in the common capital stock of The Detroit Edison Company having a par value of \$20 per share, owned by The North American Company, at the rate of one share of such stock of The Detroit Edison Company on each fifty shares of the out-standing common stock of The North American Company. In lieu of certifi-cates for fractions of shares of stock of The Detroit Edison Company, cash will be paid at the rate of 38 cents for each 1/50th of a share of such stock of The Detroit Edison Company, this rate being based on the approximate market price of \$19.00 per share as of February 11. 1943, the date the proposed dividend was declared.

Said declaration having been filed on the 12th day of February 1943, and notice of filing having been duly given in the manner and form prescribed by Rule U-23 under said Act by the issuance of a "Notice Regarding Filing Subject to Rule U-23" on February 18, 1943 and of an "Amended Notice Regarding Filing Subject to Rule U-23" on February 23, 1943, and the Commission not having received a request for hearing with respect to said declaration within the period specified in such amended notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that the requirements of section 12 (d) and Rule U-43 are satisfied and that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers to permit said declaration to become effective;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said Act and subject to the terms and conditions prescribed in Rule U-24 that said declaration be and the same is hereby permitted to become effective forthwith.

COMMUNITY GAS AND POWER COMPANY, ET AL.

NOTICE AND ORDER SPECIFYING CERTAIN IS-SUES TO BE CONSIDERED AT RECONVENED HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania on the 2nd day of March, A. D. 1943.

In the matter of Community Gas and Power Company, American Gas and Power Company, and the subsidiary companies thereof, respondents.

The Commission by order dated September 24, 1942 having instituted proceedings against Community Gas and Power Company, American Gas and Power Company and the subsidiary companies thereof under sections 11 (b) (1), 11 (b) (2), 12 (c), 12 (f), 13, 15 and 20 (a) of the Public Utility Holding Company Act of 1935; hearings having been held thereon from time to time, and the trial examiner having directed that said hearings be reconvened on March 9, 1943 at 10 o'clock A. M., E. W. T. at the offices of the Commission, 18th and Locust Streets, Philadelphia, Pennsylvania; and

It appearing appropriate at this time to consider what action should be taken by the Commission pursuant to sections 11 (b) (1), 11 (b) (2), 12 (c) and 13 of said Act on the basis of the record already adduced and to be adduced at such reconvened hearing:

It is ordered, That without limiting the scope of issues to be considered in said proceedings, evidence will be adduced and consideration will be given at the reconvening of the hearing to the following issues:

1. Whether the Commission should enter forthwith an order pursuant to section 11 (b) (1) of said Act requiring that Community Gas and Power Company and American Gas and Power Company shall sever the relationships of each of them with Birmingham Gas Company, Savannah Gas Company, Jacksonville Gas Company, Bangor Gas Company, Lowell Gas Light Company, and American Utilities Associates, by disposing or causing the disposition of their direct and indirect ownership, control and holdings of securities issued and properties owned, controlled or operated by each of the companies above listed.

2. Whether the Commission should enter forthwith an order pursuant to section 11 (b) (2) of said Act requiring that the existence of Community Gas and Power Company be terminated and that said company be dissolved.

3. Whether the Commission should enter forthwith an order pursuant to section 11 (b) (2) of said Act requiring that the existence of American Utilities Associates be terminated and that American Utilities Associates be dissolved.

4. Whether the Commission should enter forthwith an order pursuant to section 11 (b) (2) of said Act requiring that American Gas and Power Company change its present corporate structure consisting of secured debentures, indebtedness owed to subsidiary companies, and common stock, by eliminating such secured debentures and such indebtedness and setting up a corporate structure consisting of one class of stock, namely common stock.

5. Whether the Commission should enter forthwith an order pursuant to section 12 (c) of said Act requiring that American Gas and Power Company shall not acquire, retire or redeem any of its outstanding debentures except pursuant to a declaration notifying the Commission of the proposed transactions, which has become effective in accordance with the procedure specified in Rule U-23, and pursuant to the order of the Commission with respect to such declaration under the applicable provisions of said Act, and that in accordance with Rule U-100, the exemptions provided by Rule U-24 (b) (4) and (5) be withdrawn as applied to such transactions.

6. Whether the Commission should enter forthwith an order pursuant to section 13 of said Act, rescinding as of a date sixty days after the entry of said rescinding order, the order of the Commission dated November 19, 1938, which granted approval of Public Utilities Management Corporation as a mutual service company, and requiring that after sixty days from the entry of said rescinding order, unless pursuant to further order of the Commission, Public Utilities Management Corporation shall make no charges to and receive no payments from Minneapolis Gas Light Company, Birmingham Gas Company, Savannah Gas Company, Jacksonville Gas Company, St. Augustine Gas Company, Lowell Gas Light Company, and Bangor Gas Company, or any of them, except for services rendered prior to said date.

Notice of the issues thus to be considered is hereby given to the respondents, to all other persons participating in said proceedings, and to any other person whose participation in said proceedings may be in the public interest or for the protection of investors and consumers.

By the Commission.
