DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 77 5013

INSTRUCTIONS

1. Personnel going on field trips will complete Sections (1) through (6), inclusive, of this form, in triplicate. The original will be forwarded to the Deputy Chief, 24 hours before departure.

2. Upon return from field trip, Section (7), of duplicate copy will be completed and forwarded to Deputy Chief. Section (7) should include: estimate of success of meeting, conference or inspection, any changes from original schedule and reason thereof, any further remarks person preparing report desires to include.

3. Third copy will be retained in the Section for file.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

HEADQUARTERS
CHUGOKU CIVIL AFFAIRS REGION
APO 182

1 September 1950

SUBJECT: Field Trip Report - Hiroshima Ken, 28 - 30 August 1950

TO : Chief
Chugoku Civil Affairs Region
APO 182

1. Purpose:

To ascertain through spot-checks of Fishermen's Cooperatives the progress of fisheries programs and to attend the general meeting at the Yoshiwa Fishermen's Cooperative, Onomichi City.

2. Background:

O.D. #13, Civil Affairs Section, GHQ, SCAP, subject: "Fisheries", dated 12 April 1950 and information obtained on a previous field trip to Onomichi City.

3. Discussions:

Following is a summary by programs of information gathered at the Ikuchi Fishermen's Cooperative, Setoda-machi, Ikuchi-shima Island, Hiroshima-ken and the Hakosaki Fishermen's Cooperative, Habu-machi, Inno-shima Island, Hiroshima-ken.

a. Organization of Cooperatives and Financial Conditions

Assets of the old association have been transferred to the Ikuchi Cooperative. Neither the Hakosaki Cooperative nor any of the 4 other cooperatives on Inno-shima Island have received assets from the old association. According to a director of the Hakosaki Cooperative the Property Disposal Board, made up of 9 members is controlled by the Habu Cooperative which has five members on this Board. It appears that these five members from the Habu Cooperative are "bosses" and are overruling all suggestions brought up by other representatives of the Board. This problem is of much concern to the 4 other cooperatives as they are not allowed to use fishing rights of the old association. It is also interesting to note that the President of the Habu Cooperative has been arrested for black-marketing his cooperative member's oil allocations.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Both cooperatives visited were small in membership and capital stock however, the Ikuchi Cooperative President is very progressive and has the right idea of the principles of cooperative organizations. He expects to build an office and to start economic services for the members by the end of this year. Proper evaluation of the Hakosaki Cooperative could not be made because it was just organized on 23 June 1950 and is not registered as yet.

b. Fuel and Fishing Gear Supplies

At the two cooperatives oil shortages of from 50% to 70% were reported. The Hakosaki Cooperative complained of fishing gear shortages as they have not received any allocations since they were organized. Mr. Hada of the Hiroshima Kencho who accompanied this reporter will take up this matter with the Ken Materials Section.

c. Fishing Boat Insurance

None of the boats at either cooperative have insurance coverage. Cooperative officials claim they are doing everything possible to encourage subscriptions.

d. Fisheries Rights Reform

Interest in the Adjustment Committee elections and the reform is very high in this area mainly because of the effect it will have on their fishing operations in Shikoku waters. One candidate for the election was registered from the Habu Cooperative but was defeated. Members of the Ikuchi Cooperative supported candidates from Saizaki and Osaki-minami. Voting percentages were very high. Satisfaction in the caliber of the persons elected was expressed by both cooperative Presidents.

e. Problem at the Yoshiwa Cooperative, Onomichi City

In paragraph 3h. of field trip report of the undersigned dated 24 July 1950 the problem regarding a complaint that Mr. Genba, President of the Yoshiwa Cooperative is not a fisherman and should not be in office was reported. As a result it was suggested by this reporter that a debate between the two parties be held at a general membership meeting and then let the members decide. The meeting was called on 29 August 1950 with the undersigned, the Fisheries Section Chief of Hiroshima Kencho and representatives of the Onomichi City Office in attendance. The membership attendance was 384 of the total of 669 members or 57.4%. Short talks were given by the undersigned and the Ken Fisheries Section Chief explaining the urgency in settling this problem and what is defined in the cooperative law as a fishermen. A very wild debate for a period of nearly two hours

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

followed. After this, a vote by secret written ballot was taken. Outcome of the voting was, 204 considered Mr. Genba as a fisherman, 170 did not consider Mr. Genba as a fisherman and 10 votes were invalid. Results of the voting were so close that it is believed this problem will come up again in the near future. The opposition contend they will take the matter to court for settlement.

4. Conclusions:

None.

5. Recommendations:

It was recommended by this reporter that the Hiroshima Ken Fisheries Section assist the Cooperatives in Habu to complete the division of old association assets.

HEADQUARTERS
CHUGOKU CIVIL AFFAIRS REGION
APO 182

7 July 1950

SUBJECT: Field Trip Report - Hiroshima Kencho 27 and 28 June 1950

TO : Chief
Chugoku Civil Affairs Region
APO 182

1. Purpose of trip: To confer with Hiroshima Prefectural Officials on the status of fisheries programs in Hiroshima-ken.

2. Background: O.D. #13, Civil Affairs Section, GHQ, SCAP, subject: "Fisheries", dated 12 April 1950.

3. Discussions: Interviewed Mr. Hayashi, chief of the Aquatic Section, Mr. Murakami, i/c of fisheries rights and Mr. Hada, i/c of Fishermen's Cooperatives and obtained the following information:

a. Fishermen's Cooperatives - From the former 57 fishing associations, 106 new cooperatives have emerged to date. This includes 4 special type fishing cooperatives.28 old fishing associations (50%) have completed the transfer of their assets to the cooperatives except for the fishing rights. The Kencho is encouraging the completion of this phase of the program by 31 Aug 50. Six clerks from the prefectural office are travelling around to the fishing associations to help them out with any problems they are having in the transfer of assets. This eventually amounts to the prefecture clerks doing most of the paper work for the fishing association. The fixed assets are being utilized by the cooperatives and since no rent is being charged for their use, the cooperatives and fishing associations are in no particular hurry to transfer them because of the voluminous paper work involved and because fishing associations do not have sufficient qualified personnel to expedite it. No difficulties regarding the division of assets where more than one cooperative replaced the old fishing association have been reported.

Two rival prefectural cooperative federations were formed on 1 June 1950. Each is backed by a group of political factions in the prefectural assembly with one of their members as chairman of each federation. Mr. Hayashi opined that no action should be taken at present to amalgamate these federations as "the situation is very touchy" and since previous attempts by him were futile. The two groups of politicians are as follows:

File Index No. 9.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

* Democratic Liberal	Socialist Party
Prefectural Administrative	*Green Breeze Party
Deliberating Committee	Farm Labor Party

*Indicates chairman of each federation

b. Fisheries Rights Reform - The prefectural Aquatic Section has held numerous meetings with cooperative officials to explain sea-area boundaries and provisions of the new Fisheries Law. This information was reportedly passed on to fishermen at meetings on this subject held in each fishing village by the cooperatives. (All areas visited to date in Hiroshima-ken have accomplished this). All information material (pamphlets, posters) received from the Fisheries Agency in Tokyo have been disseminated to the fishermen. Numerous spot-reports have been made over the local radio station by Mr. Hayashi and a well planned and intergrated information program is in progress.

Three sea-areas have been designated in Hiroshima-ken with an estimated voter eligibility of 30,000 in the coming sea-area adjustment committee election. Listed below are these areas with the total number of fisheries rights in each:

Area	No. of Rights
Western	2498
Central	387
Eastern	613
Total	3498

No changes have been made by the Governor as to voter eligibility as yet and there is considerable doubt as to whether any changes will be made.

A special sea-area committee to be officially known as the Seto Inland Sea United Sea-Area Fisheries Adjustment Council is to be set up. This council will be composed of 1 member from each of the following 11 prefectures to be elected by members of the sea-area adjustment committees within each prefecture:

Hyogo	Ehime
Okayama	Kagawa
Hiroshima	Tokushima
Yamaguchi	Wakayama
Fukuoka	Osaka
Oita	

The principle objectives of this council are the same as those of the committees within each prefecture except that it will deal only with disputes between the prefectures mentioned above. According to the law, its' office is to be established in Kobe but attempts are being made by Hiroshima to have it established in Hiroshima city since it is closer to the center of their Z/R.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Listed below are the type number and ownership of rights in Hiroshima prefecture:

Type	Number	Ownership	Number
Exclusive Rights	171	Individual	- 1,228
Demarcated Rights	1,394	Fishing Assns.	- 2,251
Special Rights	1,048	City,town or village	- 15
Fixed Net Rights	885	1 Textile Factory	- 4(Demarcated)
Total	3,498	Total	3,498

Entry Rights - 176 (not included in total)

c. Fishing Boat Insurance - This insurance program started in 1939 based on Law #23 of 1937. It covers all types of boats and fishing with varying rates which are determined by the following:

(1) Tonnage
(2) Age of boat
(3) Fishing area (whether deep sea or coastal)
(4) Horsepower
(5) Type of fishery

The estimated yearly premium for a 6 year old, 2 ton (current value - ¥60,000) boat which operates in the Inland Sea area is ¥840. This example can be used as an average for fishing boats in this area. Coverages include complete loss and/or damages caused by natural phenomenon and towing charges in case of breakdown at sea. Maximum coverage is 80% of insured value of the boat.

Premiums are payable yearly and can be paid to the designated representative in each area (this can either be the cooperative or any designated individual). These premiums are forwarded to the Kencho who sends 90% to the Fisheries Agency in Tokyo and keeps 10% for overhead expenses, etc. When damages are claimed by individuals, 90% is paid from Tokyo and 10% by the prefecture.

The Prefectural Fishing Boat Insurance Association is physically a part of the Ken Aquatic Section. It is not a strong financial organization as can be presumed from its' name but is basically very weak. Designated agents in fishing areas can be almost any person or persons who may or may not receive compensation. This presents a very weak link in the chain. Cooperatives do not like to handle it because it is troublesome and "not worth their while".

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Hiroshima-ken has appropriated ¥270,000 in the 1960 Japanese Fiscal Year budget to further promulgate and encourage usage of this insurance. It is reportedly the first prefecture in Japan to give such financial support to the program.

Of a total number of 4,835 powered fishing boats in Hiroshima-ken only 258 or 5.33% carry insurance. Insurance coverage figures on non-powered boats were not available but is virtually nil.

4. Conclusions:

a. A bitter political battle may easily develop from the organization of two rival prefectural cooperative federations backed by political factions since they are so strongly opposed to each other at the present time. This is not in accordance with accepted concepts of the Fishermen's Cooperative Law.

b. All programs seem to be progressing satisfactorily with strong support from the prefectural government.

5. Recommendations:

That Civil Affairs keep "hands off" the problem mentioned in paragraph 3a. and 4a. above unless it develops into a detriment to the cooperative movement. Civil Affairs interception at this time may become involving.
