Report on Fuel Oil and Kerosene Received

Oita Prefecture

21 May to 31 May, 1946

No.1 - Amount received:

Kind	Amount received	Source
Fuel oil	64.180 Kl.	-
Kerosene	2.217	-
Total	66.397 Kl.	

No.2 - Amount used:

Used by Orgns	Fuel Oil	Kerosene	Total
For Farming	22.542	-	22.542 K.l.
For Forestry	11.760	1.902	13.662
For Irrigation & Drainage	-	-	-
For Agricultural Engineering Works	2.447	1.345	3.792
For Rice or Barley Cleaning	.054	-	.054
For Aquatic Products	50.000	-	50.000

GENERAL HEADQUARTERS
United States Army Forces, Pacific.

AG 463.7 (12 Mar 46) GD.

APO 500
12 March, 1946.

SUBJECT: Sale of Petroleum to Japanese Government.

TO : Commanding General, Eighth Army, APO 343.

1. It is desired that during the second quarter of 1946 you release to the Japanese Government bulk products monthly in quantities and at points as shown below:

a. Navy Special Fuel Oil	April	May	June
Yokosuka	25140 bbls (4000 KL)	25140 bbls (4000 KL)	31425 bbls (5000 KL)
Kobe	18855 bbls (3000 KL)	25140 bbls (4000 KL)	25140 bbls (4000 KL)
Sasebo	44000 bbls (7000 KL)	56565 bbls (9000 KL)	62850 bbls (10000 KL)
b. Kerosene			
Yokosuka	12570 bbls (2000 KL)		25140 bbls (4000 KL)
Nagasaki/Saitozaki	31425 bbls (5000 KL)	31425 bbls (5000 KL)	25140 bbls (4000 KL)
c. Range Fuel			
Yokosuka			18855 bbls (3000 KL)
Saitozaki			12570 bbls (2000 KL)

d. Within the total quantities "a", "b" and "c" above, authority is granted to vary the releases at any point or during any month not to exceed ten percent of the quantity specified.

4. Quantitative receipts will show gross barrels, temperature and net barrels at 60°F. Temperature of oil will be taken at the beginning and completion of each delivery. The average of the two readings will be used to determine the multiplier for correcting the volume of petroleum to 60°F. Group 0 table will be used for Navy Special Fuel Oil, Group 2 for kerosene and Group 3 for range fuel.

AG 463.7 (12 Mar 46) GD

2. Delivery of the petroleum will be taken by the Sekiyu Haikyu Tosei K. Kaisha (Petroleum Distribution Control Company) at United States Operated bulk shore storage depots or at ship-side as arranged locally. Each agent of this company authorized to accept delivery and execute quantitative receipts can be identified by Power of Attorney, which has been issued by Mr. H. Horie, President, The Petroleum Distribution Company.

3. The United States Navy has been notified of the quantities of Navy Special Fuel Oil required under the terms of this directive. It is desired that your headquarters coordinate the schedule of individual deliveries with the appropriate Naval Commanders. Details of the procedure for future overall procurement from the Navy will be covered in separate correspondence concerning the reassignment of petroleum responsibilities in Japan and Korea. (Reference Occupation Instruction 7/4).

4. The theater bulk petroleum slate has allowed for importation of range fuel and kerosene in sufficient quantities to permit the supply of the Japanese Government requirements during the second quarter of 1946. The future importation requirements for civilian use will be notified to your headquarters for inclusion in your monthly slate reports. As in paragraph 3 above details will be advised separately.

5. It will not be required that the oil be cleared through Japanese customs in transit from delivery point to storage point.

6. Request that you:

a. Make the necessary arrangement for the Petroleum Distribution Control Company to use Japanese owned:

(1) Transportation equipment to accept these deliveries.
(2) Storage facilities not required by the United States Forces.

b. Obtain proper quantitative receipts signed by an authorized agent of the Petroleum Distribution Control Company and forward them in triplicate, weekly, to Commander-in-Chief, United States Army Forces, Pacific, Maintain in the form of a log Forces, Pacific, a record of all deliveries.

BY Command of General MacARTHUR:

MEMORANDUM: Delivery of American Fuel Oil & Kerosene

TO : CO, 29th Military Government Company, Hq & Hq Company
CO, 37th Military Government Company, Hq & Hq Company
CO, 92nd Military Government Company, Hq & Hq Company
CO, 93rd Military Government Company, Hq & Hq Company

1. The Fukuoka Branch of the Petrolium Distribution Company reports that 11,445 KL of American Fuel oil was turned over to them by 31 January 1946, of which 3,138 Kl has been delivered to the prefectures in the 95th Military Government Group area. Of the amount released, 4783 Kl was unloaded at Hakata on 15th of January, 4893 Kl at Nagasaki on 8th of February, and 1,769 was expected to reach Shimonoseki around 22 of February. The boat carrying the latter shipment broke down enroute and had to be towed to its final destination.

2. The following is the schedule for deliveries of fuel oil for both January and February, and the amount actually delivered in January.

(In Kl)

Name Ken	Schedule of Monthly Delivery of American Fuel Oil (Jan.&Feb.'46)	Delivered in January		
		Fishing	Other	Total
Fukuoka	1456	50	1,397	1447
Nagasaki	773	27	354	381
Oita	479	36	7	43
Yamaguchi	880	805	229	*1034
Saga	359	3	102	105
Kumamoto	68	3	22	25
Miyazaki	74	15	63	78
Kagoshima	100	13	12	25
Total	4,189	952	2,186	3138

*Believed to include some Jap Fuel Oil.

3. No delivery of American Kerosene supplies is expected to be made to the Kens before March.

004.

7 Feb. 1946

To: Colonel Berkeley, Commanding Officer, 6th Marine Regiment.

MG

From: Prefectural Governor of Fukucka.

Subject: Re the Condition of Rationing of Petroleum.

1. Compared to the quantity of the petroleum needed for a year in this prefecture the supplied quantity is so small and of a low rate as denoted in the following inventory for latest one year.

ITEM	QUANTITY NEEDED	QUANTITY SUPPLIED	RATE
Gasoline	16,650 K.L.	1.084 K.L.	6.5%
Kerosene	11.780 "	1.835 "	15.5%
Light oil	14.976 "	1.300 "	8.7%
Fuel oil	76.068 "	11.238 "	15 %
Lubricant oil	26.460 "	2.671 "	1 %

2. Petroleum has been and is delivered under the planned delivering System of the Central Government (Comercial and Industrial Department). The following inventory shows the goods actually supplied within the latest one year compared with the expected quantity.

ITEM	QUANTITY ALLOTTED	QUANTITY FRESHLY SUPPLIED	RATE
Gasoline	1.548 K.L.	1.091 K.L.	70%
Kerosene	1.932 "	1.835 "	94%
Light oil	1.625 "	1.300 "	80%
Fuel oil	17.289 "	11.238 "	65%
Lubricant oil	4.110 "	2.671 "	64%

3. The definite number can not be stated especially concerning the local districts due to the nature of the Petroleum Delivery System. It is the fact that we have no military demand now, the domestic stocks thereof, however, being limited, the increase of supply cannot be expected without the import from abroad. The import of fuel oil has recently been permitted through the offices of the Allied authorities, and the fuel oil of 4.800 K.L. has been supplied to Fukuoka Branch of the Petroleum Delivery Controlling Co. Ltd.

/s/ Shimsaki Noda
Prefectural Governor of Fukuoka

7 Feb. 1946.

Subject: Coal-mine labour status in Kyushu after the cessation of war.

To: Colonel Berkeley Commanding Officer 6th Marine Regiment.

From: Prefectural Governor of Fukuoka.

At the very time of the cessation of war coal-mines in Kyushu were very much complicated in their labour system, nearly one-half of labourers thereof being Koreans, labour service parties, workmen from other factories and Chinese. They lost their zeal in labour with the cessation of War and hastened home, thus showing tendency of decrease of labourers since last August, which resulted at last in labour shortage and remarkable decrease of coal production. Accordingly Prefectural Governments and coal-mine authorities made strenuous efforts to surpass this labour crisis. But Coal-mine labour question was brought to a standstill due to the uneasiness of life of the people at large caused by the critical food shortage which ensued from the crushing defeat of Japan.

Since last November, however, the Japanese government has placed the greatest stress on coal production, temproarily surpassing labour shortage crisis by resorting to short term labour aid party system. With the recent uneasiness of people's life in urban areas, the unemployed and war calamity sufferers have come to take zeal in coal-mine labour. These proselytes, however, being inexperienced and unskilled, the authorities concerned are endeavouring with the greatest vehemence to improve them in their skill and ability as coal-miners with an ardent view to promoting coal production hereafter.

/s/ Shunsaki Noda

Prefectural Governor of Fukuoka

93rd HEADQUARTERS & HEADQUARERS DETACHMENT
MILITARY GOVERNMENT GROUP
OITA DETACHMENT

31 January, 1946

SUBJECT: Status of Fishing Fuel Supply

1. This date conferred with Mr. Hikoichi Mori, Chief of the Provisions and Aquatic Section and Mr. Tatsuya Asakuma, Technician in the Fishery Department, concerning the availability of fuel oil for fishing boats of Oita Ken. The following information was furnished:

a. A special oil allocation of 83 kilo tons was given Oita Ken for the month of December 1945, and an allocation of 5-8% of this figure for lubricating oil was granted by the Tokyo Fisheries Bureau. However, none of this oil was received, and arrangements were made whereby the Fisheries Department is borrowing oil against this amount from the Oil Control Association, Oita. When borrowing capacity has been reached there will be very little fuel oil that can be obtained from other sources, and power boat fishing will reach a minimum.

b. There has been no allotment of fuel oil for the month January, 1946.

2. It is planned, but not as yet operative, that oil will be distributed in accordance to size and number of fishing boats and size of catch. An extra allotment is planned for those craft that have a catch over the quota established.

3. The expected monthly return in fish for the 83 kilo tons of fuel oil allocated in December is as follows:

60,000 kan - For shipment to Osaka
30,000 " - For shipment to Kobe
114,190 " - Distribution in Oita Ken

4. The figures in the paragraph above were established by the Fishery Department, Tokyo. This leaves very little fish for distribution within the Ken and tends to abet black market practices. The ken, itself, in peace time used an average of 200,000 kan of fish monthly, and before the war imported an average of 6,000,000 kan yearly from other kens.

5. At the present time there is a serious situation existing within the Ken, for no fish are to be found in the legal market.

FILE MEMORANDUM

SUBJECT: Status of Fishing Fuel Supply

1. This date conferred with Mr. Hasegawa concerning the availability of fuel oil for fishing boats of Kumamoto Ken. Mr. Hasegawa furnished the following information:

a. There is no fuel oil available at present for distribution by the Ken Fisheries Section, as none has been recently allocated by the Tokyo Fisheries Bureau.

b. No American fuel oil has been allocated to this ken as yet, although Fukuoka, Nagasaki, and Saga Kens have received initial allotments. The reason given is that the latter prefectures have a higher priority for such allocations as are possible at present.

c. Kumamoto Ken will receive allocations of American fuel oil beginning in February.

2. Mr. Hasegawa does not believe that the present absence of fuel for allocation is serious for the following reasons:

a. Power fishing boats are still operating on fuel already allocated or on fuel procured from sources other than the prefectural allotments.

b. Fishing is very poor in Kumamoto Ken waters at present due to the northward migration of sardine, which normally make up 70% of the total catch for this ken. This is born out by the attached analysis of weekly fishing reports.
