**BOSTON, November 13.  
ONE DAY LATER FROM LONDON.**  
By the arrival at this port of the brig Eight Sous, Capt. Lyng, which left last Cowes Oct. 14th, Mr. Pophill of Merchants Hall has received London papers, to Oct. 11th, one day later than our files by the regular packets.  
The additional intelligence from the seat of war is unimportant, the principal details being the Turkish account of the operations before Scumla Aug. 26, which was received some days back by the Wizard at this port from Smyrna. The latest intelligence from the seat of war is contained in the Turkish Bulletin under date of September 2, and the Russian account from Schimnala to Sept. 10, which were received by previous arrivals.

The Turkish accounts of the operations in Asia received by the arrival is very different from the Russian. It is evident, that a stronger resistance has been made, even in that quarter, by the Turks, than was supposed. This news is not however to a later date, than before received. It is very evident from the whole appearance of the most recent news from the seat of war, that the Russians have failed in their avowed objects and that the advantage of the campaign, if advantage there be, is on the side of the Turks.

**England.**—It is stated, that the Quarter's Revenue, made up on the 10th Oct. 1828, was nearly the same as that of the corresponding quarter of the previous year. A very considerable deficit was apprehended.  
The panic which existed Oct. 9th amongst the speculators and jobbers in Consols, had in a considerable degree subsided Oct. 10th.  
The Public Ledger of Oct. 11th says—Our city correspondent concludes his article in our paper of to-day with these words—'In Marlborough an expected large arrival of Grain has, for the present, obstructed the advance in Wheat.'  
We most heartily congratulate the public on the advances of the "Enemy in grain"—we say enemy, because the term is softer than the usual appellation, are obstructed.

**Ireland.**—The Irish papers, since the proclamation has been issued by the government for putting down illegal meetings, give a more tranquil account of the state of Ireland.  
Letters from Messina dated Sept. 15, say, the Neapolitan government has sent out frigates to protect the trade and shipping against the Tripolitans.  
A letter from Smyrna, dated 3d Sept. mentions that an alarming fever prevailed there. Four out of five partners of the house of Wilkinson & Co. had died. The letter says—'there is something extremely awful in the malignancy of the fever.'  
A letter from Smyrna under date of Sept. 10, represents the enthusiasm of the Turks, to be carried to the highest pitch, and the valor of their troops in the present conflict with Russia, to be equal to their enthusiasm.  
The Sultan has established a new order, in commemoration of the Turkish successes, to be denominated the "order of valor," and medals have been struck bearing the inscription "For valor."

**Spain.**—We understand that private letters from Spain, among other information, state there is some prospect of the re-establishment of the Cortes, under certain limitations or modifications (National Gazettee.)

Flour speculations all back!—See the accounts by the packet ship New-York, below.

The N. York Journal of Commerce of Wednesday, in a 2d edition, states, that on the receipt of this news, in N. York. Flour fell immediately a dollar a barrel.  
The Baltimore Commercial Chronicle of Friday, states, that merchants who had got wind of the news by the New-York, by express, were contracting to deliver Flour (though they had none themselves) at 88 5/10!

A letter from a friend in Richmond, of Saturday's date, says—"On the receipt of the New-York's news here today, the Flour Market was prostrated. No price offered, and the general opinion among business men is, that before the close of the next week, flour will be down to 87. There are not 500 bbls here in first hands, though a good deal held on speculation, or contracted for. There is now no price at all for the article—buyers holding back, and holders not disposed at first to give

way more than 81 a 150 from this forenoon's price, (89 5/10) but no offers."

**Florida.**—This interesting and most valuable region, is now developing its own resources, and is proceeding in a rapid course of improvement. Six years have scarcely elapsed since the whole country from the Escambara river in the west, to the John's in the east, a distance of four hundred miles, was a vast wilderness, inhabited by savage tribes of savages. Four years ago the first legislative council assembled at Tallahassee, surrounded by Indians, since when such has been the tide of emigration, that it is thought the census of 1830 will entitle the territory to admission among the states. The salubrity of the climate, the fertility of the soil, and the valuable character of its products, are obvious and sufficient causes of this rapid progress. The culture of the sugar cane is extending far and wide, and in a few years this most important article of consumption will become the staple of the territory.

The chiefs of the Seminole nation held a meeting Oct. 19th, at which they unanimously agreed that a deputation should be sent to explore the country beyond the Mississippi river, if the Government of the United States will provide the means. Hicks, the Chief, proposes to head the deputation, and Jumper has since signified his intention to accompany it. It is proposed to start early in the ensuing spring.—Boston Patriot.

A meeting of Irishmen and their descendants friendly to the cause of civil and religious liberty in Ireland, was held at Norfolk, Va. on the 27th ult. Walter Heron, Esq. in the chair. 1000 sterling was raised by those present, and a bill for that amount remitted to the Hon. Daniel O'Connell, by the ship Tally Ho, which sailed from Norfolk on the 8th inst.—Boston Gaz.

A beautiful ship of 470 tons called the Madison, and intended for the Liverpool trade, was launched at Norfolk, she is owned by Mr. Steinback of Petersburg, Capt. Drummond of Hampton, and Capt. James Cornick, of Norfolk, who is its commandant her.

The French corvette brig Alcibiades, Capt. Garnier, arrived at Norfolk from Brest on the 12th inst.—16.

**Mr. Monroe.**—A letter received at New York on Saturday mentions, that Mr. Monroe had a relapse since his fall from his horse, and is dangerously ill.—Boston, November 19.]

**Going the whole Hog.**—Two gentlemen in Pawtucket, have bet a Hog on the result of the Presidential Election.

**A Hamlet in real life.**—We mentioned a few days ago, that a youth, named Dupuis, was to undergo his trial at Paris for the murder of a man named Presle, whom he had murdered in a paroxysm of indignation at the outrage offered to the memory of his father by the criminal connexion between his mother and the man whom he destroyed. This young man, who is represented by the French papers as possessing a mild and agreeable physiognomy, indicating timidity and want of resolution rather than the boldness of passion which he has evinced in the act for which he is to suffer, has undergone his trial, and been sentenced to hard labor for life. The evidence showed that he had gone to the house of his mother, after having vainly challenged her paramour to fight, and fired two pistols at his victim; after which he attempted, but without effect, to destroy himself. On his trial he maintained great composure, and expressed his satisfaction at what he had done—his father's memory and his own disgrace being avenged in the blood of the offender. His counsel, in the course of the defence, stated that the youth had acted under the influence of a dream, in which his father appeared to him, and commanded him to do justice to his memory upon the man who had fixed a stain upon it.—London paper.
