

INDEX TO THE NEWS LETTER

Vol. 1, No. 1, November, 1925.

	Page
Foreword -----	1
Concrete pavement construction -----	3
Grooved longitudinal joint formed by machine in Delaware concrete pavements, by R. F. Eastham -----	6
Expansion joint construction in New Jersey, by J. E. Mincher and Guy H. Miller -----	10
Report of Joint Board on Interstate Highways submitted to Secretary, by E. W. James -----	12
Interstate traffic on Federal-aid highways, by J. Gordon McKay --	13
Allotment of Federal aid on alternate-type projects -----	17
Permissible amendments of forest road contracts limited -----	18
Highway research news -----	19
Concrete pavement station marker, by J. T. Voshell -----	22
Relative costs of steel bridge spans carrying wood and concrete floors, by O. L. Grover -----	23
The authority of surety company agents -----	24
Suspensions and decisions of the Comptroller General -----	25
Projects not to be reopened for maintenance work -----	26

Vol. 1, No. 2, December, 1925.

The President's attitude on Federal-aid road building -----	1
Status of Federal-aid road construction funds. November 30, 1925 -	3
Report of Joint Board on Interstate Highways, by E. W. James ----	4
Recent developments in snow removal -----	5
Rural road status survey - 1924 income -----	9
Rural road status survey - 1924 disbursements -----	10
No shortage of Federal-aid funds in Texas -----	11
Mileage of existing roads in State highway systems - 1924 -----	12
Mileage of rural roads not in State systems - 1924 -----	13
Maintenance of Federal-aid roads in cities, by L. E. Boykin ----	14
Gasoline tax rates by States -----	16
Standard forest road bridge plans -----	17
Willite patent held invalid by Federal Court -----	18
Statistical data on highway finances of United States -----	20
John R. Chamberlin -----	21

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. The text also mentions the need for regular audits to ensure the integrity of the financial data.

In the second section, the author details the various methods used for data collection and analysis. This includes the use of statistical software and manual calculations. The document highlights the challenges of handling large volumes of data and the importance of using appropriate sampling techniques.

The third part of the document focuses on the results of the study. It presents a series of tables and graphs that illustrate the trends and patterns in the data. The author concludes that the findings are significant and provide valuable insights into the subject matter.

The final section of the document discusses the implications of the study and offers recommendations for future research. It suggests that further investigation is needed to explore the underlying causes of the observed phenomena. The author also provides a list of references for those interested in pursuing this topic further.

In conclusion, this document provides a comprehensive overview of the research process, from the initial data collection to the final analysis and conclusions. It serves as a valuable resource for anyone interested in the field of data analysis and financial reporting.

Vol. 1, No. 5, March, 1926.

	Page
Your ally - The motor vehicle, Extracts from address by Pyke Johnson -----	1
Decision of the Comptroller General -----	9
Photograph of exhibit booth - A Question of Economics -----	10
Control of the Zig Zag River on the Mount Hood Loop in Oregon, by W. G. Peters -----	11
New project statement form increases length of projects -----	14
Graph showing reduction of overhead expenses in District 6 -----	15
Bureau calibrating brick rattler test for brick of various thicknesses -----	16
Research applied to bridge design -----	16
Estimated program of State and local highway expenditures - 1926-	17
Federal radio and telegraph service -----	18
Status of Federal-aid road construction funds - February 28, 1926-	20
Progress of Federal highway legislation -----	21
Road materials from Indian reservations must be purchased for outside use -----	22
Working drawings and specifications of United States highway signs ready -----	23
Photograph of exhibit booth - Traffic Regulation -----	24
Procedure necessary to secure Bureau exhibits -----	25
Bureau library moved to provide for necessary expansion -----	26

Vol. 1, No. 6, April, 1926.

Newcl pile-driver attachment for a steam shovel, by William Brewster -----	1
Photograph of exhibit booth - Milk Transportation -----	6
The National Sesqui-Centennial Exposition -----	7
Status of Federal-aid road construction funds - March 31, 1926 --	9
Rental of Government-owned equipment -----	10
International Road Congress and Exhibition -----	11
Maintenance costs -----	12
1925 gasoline taxes by States -----	13
1925 motor vehicle registrations by States -----	14
1925 motor vehicle registration fees by States -----	15
Recommendations considered by the Committee on Road Materials - A.S.T.M. -----	16
Progress of traffic test of paving brick -----	17
E. W. James, Chief of Division of Design now in Paris -----	19
Concrete tests being made by the New Jersey State Highway Department -----	20
Survey of State highway department testing material organizations	22
Latin-American delegates visit the United States -----	23
Progress of Federal highway legislation -----	24
Associated Press dispatch of February 19 incorrect -----	25

Vol. 1, No. 7, May, 1926.

	Page
Senator Phipps of Colorado on Federal highway aid -----	1
Two unusual Federal-aid projects -----	11
Facilities of State highway testing laboratories -----	12
United States highways signs ordered by 17 States -----	13
The trend of concrete pavement design -----	14
A locally assembled air compressor, by E. L. Brown-----	16
Status of Federal-aid road construction funds - April 30, 1926 ---	18
Tensile strength requirements for cement may be increased -----	19
Outdoor Advertising Association of America -----	20
June meeting of the Committee on Tests and Investigations - A.A.S.H.O. -----	22
Federal-aid road apportionments and appropriations to May 11, 1926-	23
Progress of Federal highway legislation -----	24
Maryland and Bureau cooperating in concrete curing experiment ----	26
Bureau making field studies of subgrade soils -----	27
Chart for maximum sight distances on horizontal curves -----	28
Chart for maximum sight distances on vertical curves -----	29

Vol. 1, No. 8, June, 1926.

President defines constructive economy -----	1
Ruling on Federal aid in cities not listed in 1920 census -----	2
The motor truck impact tests -----	3
Status of paving brick studies -----	4
Status of Federal-aid road construction funds, May 31, 1926 -----	5
Studies of effectiveness of various concrete-pavement curing methods -----	6
Check tests of materials -----	7
Research workers join the Bureau for the summer -----	8
State highway bonds sold during 1925 -----	9
Original logged record maps completed -----	10
Under-water bucket for placing concrete in bridge pier, by John D. Slye -----	11
Twelve junior highway engineers receive temporary appointments ---	13
Decision of the Comptroller General -----	14
Maintenance costs in New York State for 1925 -----	15
Bureau exhibit at the National Sesqui-Centennial Exposition -----	16
Thickened-edge designs submitted for Federal-aid projects by 39 States -----	17
Subsistence expenses of civilian employees -----	18
Progress of Federal highway legislation -----	19
Mileage of State highways built to grade and surfaced in 1925 ----	20
Existing mileage in State highway systems at end of 1925 -----	21

*[The text in this section is extremely faint and illegible due to the quality of the scan. It appears to be a multi-paragraph document with several lines of text per paragraph.]*

<u>Vol. 1, No. 9, July, 1926.</u>	Page
Field contributions wanted -----	1
Interesting Federal-aid bridge over Pearl River, Miss., completed, by James M. Angle ---	2
Status of Federal-aid road construction funds, June 30, 1926 -----	5
Research workers join the Bureau staff -----	6
Settlement of swamp foundation with explosives, by T. M. Keene ---	7
Apportionments and appropriations for forest road work as of June 30, 1926 -----	11
Forest road funds apportioned to States July 11, 1916 to June 30, 1926 -----	12
Wire-rope guard rail saves automobile from plunging off embankment, by Vernon M. Peirce----	13
Transportation surveys begun in New Hampshire and Vermont -----	15
Sketch on Federal-aid plans recalls pioneer roads of the Far West-	16
Issue of U. S. highway map withheld until after fall meeting of A.A.S.H.O., by E. W. James -----	17
C. N. Conner takes over earth road research work -----	17
Why rights of way acquired from railroads differ from other rights of way -----	18
Brief of minutes of Committee on Tests and Investigations of A.A.S.H.O. -----	20
Brief of the minutes of the 29th annual meeting of the A.S.T.M. --	22
Progress of Federal highway legislation -----	23

Vol. 1, No. 10, August, 1926.

I.C.C. holding hearings on motor vehicle traffic regulation -----	1
Status of Federal-aid road construction funds, July 31, 1926 -----	6
Delegates appointed to the Fifth International Road Congress -----	7
Distribution of surplus war material completed by the Bureau, by C. D. Curtiss -----	8
Henry R. Trumbower accepts chair at the University of Wisconsin --	9
Tabulated history of gasoline tax rates by States, by Henry R. Trumbower -----	10
National Parks roads motion picture in preparation -----	11
The time element as a factor in comparing bids and awarding contracts -----	12
Method of forming grooved longitudinal joints in California concrete pavements ----	13
Missouri designs core drill for concrete pavements -----	20
Boring machine used preparatory to sinking concrete piles -----	23

1. The first part of the document is a letter from the Secretary of the State to the Governor, dated 18th March 1877. It contains a report on the progress of the work done during the year, and a list of the names of the persons who have been appointed to various offices. The letter is signed by the Secretary, and is addressed to the Governor.

2. The second part of the document is a list of the names of the persons who have been appointed to various offices. The list is arranged in alphabetical order, and contains the names of the persons who have been appointed to the offices of Secretary, Treasurer, and other officers. The list is signed by the Secretary, and is addressed to the Governor.

3. The third part of the document is a list of the names of the persons who have been appointed to various offices. The list is arranged in alphabetical order, and contains the names of the persons who have been appointed to the offices of Secretary, Treasurer, and other officers. The list is signed by the Secretary, and is addressed to the Governor.

4. The fourth part of the document is a list of the names of the persons who have been appointed to various offices. The list is arranged in alphabetical order, and contains the names of the persons who have been appointed to the offices of Secretary, Treasurer, and other officers. The list is signed by the Secretary, and is addressed to the Governor.

5. The fifth part of the document is a list of the names of the persons who have been appointed to various offices. The list is arranged in alphabetical order, and contains the names of the persons who have been appointed to the offices of Secretary, Treasurer, and other officers. The list is signed by the Secretary, and is addressed to the Governor.

6. The sixth part of the document is a list of the names of the persons who have been appointed to various offices. The list is arranged in alphabetical order, and contains the names of the persons who have been appointed to the offices of Secretary, Treasurer, and other officers. The list is signed by the Secretary, and is addressed to the Governor.

7. The seventh part of the document is a list of the names of the persons who have been appointed to various offices. The list is arranged in alphabetical order, and contains the names of the persons who have been appointed to the offices of Secretary, Treasurer, and other officers. The list is signed by the Secretary, and is addressed to the Governor.

8. The eighth part of the document is a list of the names of the persons who have been appointed to various offices. The list is arranged in alphabetical order, and contains the names of the persons who have been appointed to the offices of Secretary, Treasurer, and other officers. The list is signed by the Secretary, and is addressed to the Governor.

9. The ninth part of the document is a list of the names of the persons who have been appointed to various offices. The list is arranged in alphabetical order, and contains the names of the persons who have been appointed to the offices of Secretary, Treasurer, and other officers. The list is signed by the Secretary, and is addressed to the Governor.

10. The tenth part of the document is a list of the names of the persons who have been appointed to various offices. The list is arranged in alphabetical order, and contains the names of the persons who have been appointed to the offices of Secretary, Treasurer, and other officers. The list is signed by the Secretary, and is addressed to the Governor.

<u>Vol. 2, No. 8, June 1927.</u>	Page
Composite concrete and wooden piling a unique feature of Oregon Federal-aid bridge - Compiled from reports submitted by R. E. Merrick of District 1 and C. R. McCullough, Bridge Engineer of the Oregon State Highway Department-----	1
Existing mileage of State roads at end of 1926-----	9
Existing mileage of State roads at end of 1925-----	10
Pureau exhibit on display at Reno, Nevada-----	11
W. H. Lynch made District Engineer of District 5-----	12
Status of current Federal-aid road work, as of May 31, 1927--	12
Present status of United States routes 40, 41, 51, 61, and 66, by F. W. Mills-----	13
Estimated 1927 State and local highway expenditures-----	26
Antivenin advocated as a North American snake-bite serum-----	27
New research project approved-----	29
John Milton Goodell-----	30

<u>Vol. 2, No. 9, July 1927.</u>	
Concrete cribbing used as retaining wall in Connecticut, by H. G. McKelvey-----	1
A unique contrivance for screening and loading gravel surfacing, by G. L. McLane-----	4
Status of current Federal-aid road work, June 30, 1927-----	6
Comments on the 1927 meeting of the A.S.T.M, by F. H. Jackson-----	7
Mileage of State roads built to grade and surfaced during 1926	9
Hawaiian concrete pavement built with rain sheds, by H. G. McKelvey-----	10
Status of United States routes 75 and 85, by F. W. Mills-----	13
Tests of high-strength cements made in Germany (From Der Bauingenieur, March 19, 1927, page 213). Translated and abstracted by C. S. Jarvis-----	18

<u>Vol. 2, No. 10, August 1927.</u>	
The effect of calcium chloride on Federal-aid pavements-----	1
State highway income for 1926-----	7
State highway disbursements for 1926-----	8
Gasoline tax rates by States, as of August 1, 1927-----	9
Digest of recent decisions of the U. S. Supreme Court relative to interstate motor vehicle traffic-----	10
Status of current Federal-aid road work, as of July 31, 1927--	17
Diatomaceous earth admixture proposed for Maryland concrete pavement test, by F. H. Jackson-----	18
Virginia demonstration road being extended for more extensive investigations on aggregate and curing, by C. A. Hogentogler-----	19
New research project approved-----	20
