“Rules of Order”-ing

This list cancels all previous quotations, and the terms and conditions shown will carry for Spring, 1929, in all offers to the trade.

The prices printed in this list are based upon present market conditions, and are for immediate acceptance, subject to change without notice and stock being unsold. All goods are offered f. o. b. West Grove, Penna.; **packing extra** at cost or **free for cash with order. 250 of a kind are offered at the 1,000 rate and 25 of a kind at the 100 rate.**

Orders are booked with the understanding that they shall become void should injury befall the stock from flood, error in count, drought, fire, or other causes beyond our control.

Shipments travel at purchaser's risk and in the absence of definite instructions from the buyer, stock will be forwarded according to our best judgment without assuming responsibility.

Claims, if any, must be made immediately on receipt of goods.

Terms cash, except to those with established credit, who may make special arrangements for payment.

Every effort is made to keep varieties true to name and, on proper proof, any not true will be promptly replaced; but the success of the grower is not guaranteed. In event of untrue stock, our liability must be limited to invoice value at time of shipment.

Copy of Pennsylvania State Certificate of Inspection on all orders.

Correspondence from prospective buyers is invited, but all communications should be written on printed business stationery so that trade prices can be granted to only those individuals or firms actually entitled to receive them.

The plant names used in this list conform, for the most part, with “Standardized Plant Names,” adopted by The American Joint Committee on Horticultural Nomenclature.

Member American Association of Nurserymen, Eastern Nurserymen's Association, Pennsylvania Nurserymen's Association, etc.

WHOLESALE PRICE-LIST

SPRING, 1929

☸ CANNAS

You can get more display for less money, and attract more trade, with these Cannas, than by any other means we know of.

A recognized authority indicates that Cannas are becoming more popular as bedders each year and that by handling them and pushing their sale florists can make "a nice piece of change." Take your own case, for example. Aren't there lots and lots of public, as well as private, places near you that would use up several benches of nice potted Cannas? You think of them now, don't you? And if you have the plants ready for this trade you'll get the profits in your community instead of having them go to an outsider—chances are you need the money more than he does, anyway.

Begin right—get your dormant roots from the right place and start them at the right time. You've probably heard of ☸ Cannas all your life—isn't that a pretty sure sign that they're a mighty good brand to tie to? The Cannas marked, on the following pages, with a (☸) swastica were produced and introduced by us. The fact that these varieties still continue in favor throughout the nursery trade seems ample evidence of our high standard.

The (☸) swastica means "good luck." It's yours if you order at once!

MONEY-MAKERS!

Try these four popular ☸ CANNAS on your office grounds, and watch your income jump! Per 100

☸ Mrs. Pierre S. duPont. The pink, page 4 . . .	\$50.00
☸ Palm Beach. Tinted, page 5	15.00
☸ King Midas. "The Gold Canna," page 5	18.00
☸ The President. Easily best red	6.00

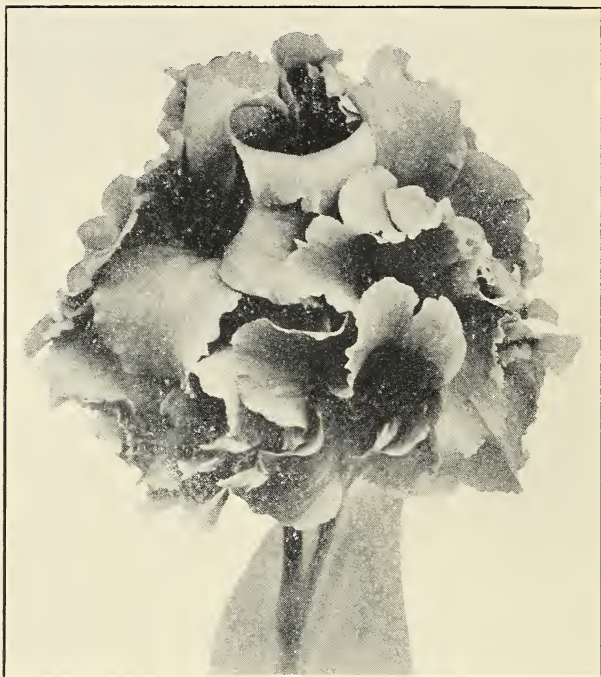

Special Offer!

25 each of these 4 leaders, 100 in all, plump 2 to 3 eye roots

\$17⁵⁰

(You make practically \$5 "right off the bat"!)

☩ CANNAS

☩ CANNA Mrs. Pierre S. duPont

Plump 2 to 3 eye dormant roots, well-kept in peat, \$50 per hundred, except orders for 250 up, for delivery before February 15, may be had for \$35 per hundred.

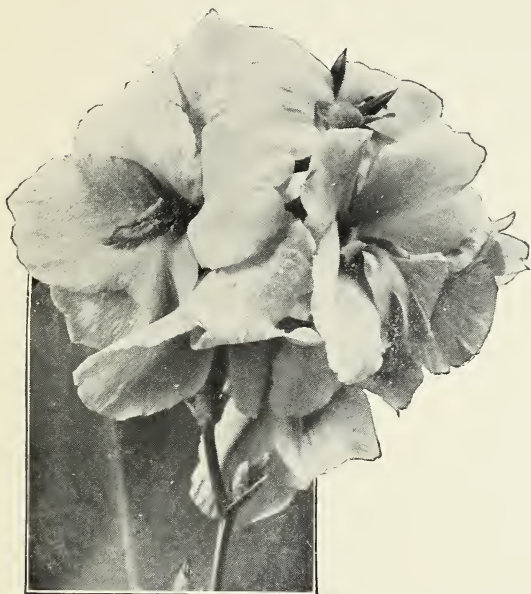

Ruffled, like a silk taffeta gown, are the flowers of this new-world beauty—who made her debut in 1921—the first of an entirely new family of Cannas, a genuine blue-blood, almost orchid-like and of incomparable beauty. Add to these distinguishing features a luscious watermelon pink color that women adore, and bountiful blooms bouquet-like on stately stems, and you have a flower dear to the most imaginative. But it's not a mere picture—it's a real Canna that's been making real money for real go-getters for the past seven years. It sold originally at \$10 per plant—you can get 2 to 3 eye roots now for only 50c. apiece. Popular demand did that!

Decide to-day that you want to be among the elect this year—that you want to take advantage of this Canna which, we consider, is the finest to be had anywhere, regardless of price. There wasn't enough stock last year—don't wait—have your order booked to-day!

SPRING, 1929

☸ CANNAS

☸ Palm Beach (3½ to 4 ft.)

Broad, long-petaled flowers of maize-yellow, with a faint blush of pearly pink. Really a rival of the daintiest orchids. The throat and lower petal are soft buff-yellow, shaded with apricot, producing a harmony of delicate shades. Steadily gaining popularity. Sales last Spring double the year before. Put it up to Palm Beach to push up your profits!

Plump 2 to 3 eye roots, \$15 per 100; 250 up \$13 per 100.

Gold Canna KING MIDAS

“His touch wrought gold”

(5 ft.)

☸ KING MIDAS is in yellow Cannas what THE PRESIDENT is in reds: an outstanding attention-getter, easy to handle, irresistible in full flower, a good keeper and a sure-fire money-maker. Even the glittering golden color of KING MIDAS suggests money, gold money.

All summer long His Majesty holds high, on stems as straight as an arrow, glorious trusses of gamboge-yellow flowers. A true aristocrat KING MIDAS is, and the leading brilliant pure yellow Canna to date.

Get behind KING MIDAS—start to-day and your tomorrow's profits will be assured!

Plump 2 to 3 eye roots, \$18 per 100; 250 up \$15 per 100.

Lining-Out Evergreens

Our famous 2¼-in. pot plants

250 of a kind at 1,000 rate

Stock rooted Winter 1927 and grown in 2¼-in. pots since early Spring, 1928—not stuff started after your order is received.

Ever hear the word “well-rootedness?” If it’s new to you perhaps you have yet to experience in your plantings of Evergreens the solid satisfaction of rows unbroken and stands 100% in favor of your bank account. Nurserymen who have seen the light do not count such results extraordinary. *They know that the root’s the reason.*

Think this way—these famous young Evergreens become vigorously rooted in 2¼ in. pots brim-full of rich soil, and when set to your nursery the pot balls protect the plants till they get well-set to grow for you. Finally, don’t forget, this material is produced and offered by an established firm—if you’re wise that means to you the difference between failure and success!

Pencil out your list now, from this page and mail it in to-day for Spring delivery!

★ ROSES

Hug on to Hugonis

“Golden Shrub-Rose of China.”

Was there ever a Novelty so popular, and such a **pronounced profit-builder**, as this Golden Shrub-Rose of China? Dependability, usefulness, to say nothing of beauty—are these the reasons for its stupendous success?

Hugonis has proved hardy everywhere in the United States, a Shrub-Rose of countless uses—splendid for specimens, popular in shrubbery plantings, handsome for hedges. Still more in its favor, it's beautiful!—great golden hollyhock-like flowers of clear yellow on maroon-colored canes in May. Such a dazzling display in front of your place, or on the properties of some of your best clients, cannot but make selling easy for you—and think of the money coming in!

Decide now—hug on to Hugonis!
