TO : Kagoshima Local Finance Bureau

1. To complete your records, it may be noted at this time that electric motor No. 18-02-123 is in temporary emergency use by Takae Village where an irrigation dam was washed out by the flood and pumping operations were considered essential to save the rice crop.

2. Electric motor No. 18-02-238, likewise is in temporary emergency use at Kanbashi Sangyo Yugen Kaisha, Aira-cho, Kimotsuki-gun, where operations had been haulted by a fire, causing distress to many people in this small community which is seeking to rebuild itself after heavy damages by flood in typhoon.

HEADQUARTERS
KAGOSHIMA CIVIL AFFAIRS TEAM
KAGOSHIMA, KYUSHU, JAPAN

APO 970
26 October 1949

SUBJECT: Reparations Machines in Plant 18-02

TO: Kagoshima Local Finance Bureau

1. In reply to your letter KASHI-2-KAN-921, dated 20 October 1949, inquiring about reparations tool grinder No. 18-02-493, this headquarters notified Eighth Army that subject machine was missing on 2 February 1947. Request was made at that time for removal of the machine from the inventory list, and a SCAP indorsement dated 7 March verified the removal.

2. To complete your records, it may be noted at this time that electric motor No. 18-02-123 is in temporary emergency use by Takae Village where an irrigation dam was washed out by the flood and pumping operations were considered essential to save the rice crop.

3. Electric motor No. 18-02-238, likewise is in temporary emergency use at Kanbashi Sangyo Yugen Kaisha, Aira-cho, Kimotsuki-gun, where operations had been haulted by a fire, causing distress to many people in this small community which is seeking to rebuild itself after heavy damages by flood in typhoon.

26 September, 1949

SUBJECT: Request for Use of Reparations Building

TO : Kagoshima Civil Affairs Team

One of the two reparations warehouses in Izumi has been vacated by consolidating all machines stored into the other. A request for use of this vacant warehouse as a flour-mill is filed by Utono Shokuhin Kagaku Kogyosho; and this office has studied & recommend the use. Your kind consideration thereon is requested.

For an information, it is reported that these two warehouses were released to us on 28- July, 1948.

Petition for borrowing reparation good.

To: The Civic Affair Team.

From: Y. Kimoto Headman of Takae mura
Satsuma Gun.

We beg to give us a favor in borrowing a reparation good (Electric motor) for the sake of farmers in our village. In view of the facts experienced in past years, the farmers in this village used to suffer from the continuous dry weather soon after the flood damages inflicted. We have a water pump workable except a motor. we will very much appreciate if you help us to be able to borrow the following size motor.

15 HP or 20 HP Electric motor 1 set.

// 18-2-123 (20 HP motor) was shipped to Takae on 9 August '49.

SUBJECT: Custody, Control and Protective Maintenance of Japanese Aircraft Plants, Arsenals and Laboratories.

FROM: Kagoshima Local Finance Bureau

TO: Commanding Officer, Kagoshima Military Government Team

---

1. Reference is made to memorandum for the Imperial Japanese Government, dated 20 January 1946 (SCAPIN629), and memorandum for the Imperial Japanese Government, dated 28 May 1946 (SCAPIN987), both subject as above.

2. It is desired that permission be granted to move equipment and/or machinery of aircraft factories, Army and Navy arsenal and laboratories as taken into custody and control of the Supreme Commander for the Allied Powers.

3. The following information concerning the desired movement is submitted:
   (a) Owner of equipment and/or machinery: Japanese Government (22nd Naval Air Depot-Plant Code No.18-02)
   (b) Present use of equipment and/or machinery: Storage
   (c) Use intended for equipment and/or machinery after movement: Storage
   (d) Exact present location of equipment and/or machinery:
   1. Warehouse A Takefudanomoto, Takemoto, Izumi-cho, Izumi-gun
   2. Warehouse B Komatsu, Takemoto, Izumi-cho, Izumi-gun
   (e) Exact location to which movement of equipment and/or machinery is desired: Warehouse A, Takefudanomoto, Takemoto, Izumi-cho, Izumi-gun
   (f) Exact description of each type of equipment and/or machinery and number of item of each type to be moved are given in list attached.
   (g) If approval is granted, movement of this equipment and/or machinery will be accomplished between the following dates:
   FROM 15 September 1948
   TO 10 October 1948

4. The attached list of personal will perform the movement.

5. The proper rafeguarding and maintenace of this equipment and/or machinery is my personal responsibility.

Takashi, Takahira

21 January 1947

TO : Commanding Officer, Kagoshima Military Government Team

SUBJECT: Inventory Sheets, Receipt of.

1. This is to acknowledge receipt of the inventory sheets for a 25 HP motor and a lathe, code number of which are 18-2-476 and 18-2-477.

FOR THE GOVERNOR:

K. Yamakushi

K. YAMAKUSHI,
Chief of Commerce &
Industry Section

HEADQUARTERS
KAGOSHIMA MILITARY GOVERNMENT TEAM
KAGOSHIMA, KYUSHU, JAPAN

APO 929
20 January 1947

SUBJECT: Inventroy Sheets for newly-found machines

TO : The Governor, Kagoshima Prefecture

1. Enclosed herewith are the inventory sheets for a 25HP motor and a lathe belonging to the 22nd Naval Air Arsenal (Plant No. 18-2).

FOR THE COMMANDING OFFICER:

ROBERT V. DEXTER
1st Lt CAV
Adjutant

Incl:
Inventory Sheets 18-2-476 - 477

KAGOSHIMA
PREFECTURAL GOVERNMENT

15 November 1946

TO : Commanding Officer, Kagoshima Military Government Team

SUBJECT: Corrected Inventory Sheets, Receipt of.

1. The corrected inventory sheets for 27 machines of Plant No. 18-02 have been received from the Commanding Officer, Kagoshima Military Government Team.

FOR THE GOVERNOR:

S. Nakao

S. Nakao
Chief of Home Affairs

Civilian owned & printing machines used by 22ND Arsenal.

1. These machines were collected by Metal Scrap Co. for making them scrap. Later the Arsenal wanted them, and therefore lent & th. Arsenal.

2. As the original owners show the evidence that these are not the Arsenal's property, this office approved & return them to the owners.

Testimony 13 August, 1946

I testify that

the articles mentioned in the following are the property of Metal-Recollection Control Co. Ltd. The following facts are its reason.

Referring to these articles, on about February, last year, the Ex-22nd Naval Air Arsenals Authority carried them from ~~from~~ Kagoshima-Ken Branch of Metal-Recollection Control Co. Ltd. to his office for a view of his own use with only a warrant not concluding the sale contract.

And before the steps necessary for the sale contract was not yet finished between the both sides, there came the ~~defeat of Japan~~ Armistice.

And therefore I conclude that these articles are still in the property of Metal-Recollection Control Co. Ltd.

1. One set of printing machine, name-card printing machine, one set of accessory of printing machine (including a

And therefore I conclude that these articles are still in the property of Metal-Recollection Control Co. Ltd.

1. One set of printing machine, name-card printing machine, one set of accessory of printing machine (including a case of printing type) one set of line-drawing tools. All of them had come into the hand of Metal-Recollection Control Co. Ltd. who had gathered them by purchasing from Yoshii Printing Office, Uchinoura-cho, Kimotsuki-gun. Kagoshima-Ken.
2. Two sets of printing machines, two sets of line-drawing tools, one set of accessory of printing machine (including a case of printing type). All of them had come into the hand of Metal-Recollection Control Co. Ltd. who had gathered them by purchasing from Tsumagari Printing Office, Iwagawa-cho, Sou-gun, Kagoshima-Ken..
3. About 2 tons of printing type and its material. This had been in the hand of Metal-Recollection Control Co. Ltd., Hinokuchi-cho, Kagoshima-city.

Foreign Sec. No.63:

Kagoshima-Ken,

1 May, 1946.

To : Lt. Col. G. H. Scott, M. G. O.

From : Governor of Kagoshima-Ken.

Subject: Removal of Equipment from Arsenals.

Sir,

In reply to your esteemed note serial No.6143 dated the 22nd April, 1946, regarding the above mentioned subject, I beg to report you after careful investigation in every concern, that I have found there has been no removal of equipment from arsenals at all.

I remain, Sir,

Yours truly,

Governor of Kagoshima-Ken.

Secretary

S. Nakao.

25 March,1946.

NAI-CHO-SA-NO.201.

From : Numata Clerk Official, the Resident Official of Investigation Dep't. of Home Ministry.
To : The Chief of Investigation Dep't. of Home Ministry.
: The Chief of Osaka Branch Office of Home Ministry.
: The Chiefs of Dep'ts. and Bureaus of Maritime Transportation of Transportation Office.
Subject: Disposition of Materials promptly taken out of the Blocked Army or Naval Plants for Reparation.

1. When some of former Japanese army or naval plants and workshops were designated by G.H.Q. to be blocked for reparation, it was followed that the prefecture offices concerned were directed by the Central Japanese Office to do the urgent taking of materials from the above plants and workshops,within a certain period of time. The prefecture offices concerned have endeavored to do their best about it.

2. I, the Resident-Official who have had relations with the disposition of these materials,report herewith that my opinions on this matter are as follow;

Description.

1. It is very clearly mentioned in the record of conference held between G.H.Q. and Japanese Government that the blockage of army or naval plants is to be limited within the scope of the blockage of the machines they have within their precincts,not going far to the scope of materials and in spite of the favts that we did not think that the urgent taking of materials was the clear directive by G.H.Q.,that is to say,it went beyond the sphere of our wishful thinking,the Japanese Governmenthas directed the local Government offices to carry out this matter,though it was notified not by clear letter,but only by telling at a certain conference.

On the other hand, there seemed no such notification issued from G.H.Q.to the local M.G.O., so the local M.G.O. have issued no concrete directive of this kind to the Ken-Offices.

The situations were like above mentioned,and the Japanese Governmen part only did the undertaking of this kind in great confusion,which was followed the doing of the urgent taking of materials,giving birth to many evils.

After all, this matter can be said that it was another shameful stage of the Japanese doing held after the end of war when the Japnese military forces did the urgent release of their various properties.

Therefore, from now on, it is very important matter for us to go on our business according to the requests,opinons and recommendations of the M.G.O. each concerned on the point of the concrete real circumstances of the matter of this kind,because the practice of the directive is the responsibility of the M.G.O., even though it is issued by G.H.Q.

2. The means of the urgent taking of materials.

I had Companies, Works,even persons, taken part in this work, together with many normal taking organs for the purpose of making best use of the means of the urgent transport capacity. All of them

were under the controls of Ken-Offices concerned or the procurators designated by the above.

The strange matter has happened here that the normal taking organs have fallen far benind other companies or so in the point of arranging their organisations of the power of transport and labor.

Even when the time of the taking was coming on, their organisations were not completed, so that they could not find other way than to look on the urgent taking of materials by the hands of others with folded arms.

In spite of the facts of the above, when the situation came in the process of the distribution after the taking was done, the normal taking organs insisted too strongly upon their right of taking materials,saying that they have been given the right of taking them by the Central Japanese Office, not reflecting their own conducts by far idler than others who had done the excessively laborous work when the work was carried through.

As they were in the manner of not minding even the contacts with the Occupation Forces, not speak of ~~xxxxxx~~ the actual situation of the area where the works were done, so all persons who have concerned it scandalized them, even though they have been authorized by the Central Japanese Office as the normal taking organs.

3. The Distribution of materials.

In the consequence of that the ~~xxx~~ taking of materials were carried out in the above way, there was no wonder that some Ken authorities forced their way,just as to give the actual workers ~~xxxx~~ other than authorized the veral promise that they might be placed under the objects of consideration at the when materials would be distributed.

Hereupon, there has happened the complications among the Ken Offices,the normal taking organs and actual workers.

It is generally interpreted, in the one hand, that the change of distribution of materials goes beyond the power of the Governor of prefecture, because they are originally designated by the Central ~~x~~ Japanese Office and in the other hand, it is interpreted that the Chief of Investigation Dep't. of Home Ministry has entrusted the Resident-Officials of the Investigation Dep't. with this power by the notification NO.69 dated 19 Jan.

Under these circumstances, I, the ~~xxx~~ Resident-Official, did the ~~xxxxxx~~ distribution of materials according to the course of that;

the first; I called the responsible officials of the Ken-Offices concerned and other all persons who ~~xxx~~ have concerned it at a certain conference to sound all ~~xxxxx~~ opinions,

the second; I hold in estimation ~~xx~~ the veral promise that the Ken authorities had given to the actual workers when they directed them to take out materials hastily,

the third; I took into consideration the opinions and wishes of all persons who had attended the conference.

Thus,I have undertook the local settlement of this matter.

4. Advantage & disadvantage of the urgent taking of materials.

a. Advantage.

a-1. In the consequence of that some of the normal taking organs

Continued.

were stimulated by others, the work of taking was comperatively accelarated.

a-2. There were some significant element in doing so,when we thought that we might be occupied by the Allied Powers other than U.S.A.

B. Disadvantage.

b-1. We spent too much expediture out.

b-2. Perfect chaos reined in our work.

b-3. We wasted the valuable fuel of truck by the reason of that the transportation was extremely confused.

b-4. The chaos made the examination of the articles,esp. the confirmness of the quantity perplexing.

b-5. We ~~a~~ were forced to admit the ~~expenditure~~ exception to the distribution of materials.

In the end, it beared very much resembrance to the behaviours that the Japanese Military Forces did in a shameful manner, frightening at a kind of illusion when they disposed their properties at the end of war.

THE END.

2 Feb.,1946.

NAI-CHO-NO.162.

From : The Chief of Investigation Dep't.of Home Ministry.
To : Governor of Kagoshima-Ken.
Subject: Prompt Taking of Military Materials.

1) As we have come to do the prompt taking of military materials, basing on the Memorandum Concerning the Custody,Supervision and Integrity of the Japanese Aircraft Factories,Plants and Research Institutes dated 20 Jan.,1946., so in theplace where the important plants are situated, we are taking the concrete policies for it with the joint efforts between government and people.

2) The outline of the policy taken up in Tokyo is shown below. You can take it into consideration as an example for the making of your policy.

The outline of the policy of the taking of materials in Tokyo.

1) Tokyo-To Government will take out ~~the~~ promptly materials which former Japanese Army and Naval plants or research institutes have within their precincts between from Feb.1 to Feb.21, with the cooperations of the Ministry concerned and the Control Bodies.

2) On the occasion of the taking of the materials, the nine committees will be provided with every military organ of the above and the office (the organ) in charge of taking will becomes the chief of the members of the committee. Each committee of these nine will take the whole resposibility of the taking and the custody of materials each military organ concerned.

3) Each committee will provide with the department system each accumulated place of materials.

4)The organ that handles the most quantity of materials at one accumulated place of materials. The organs that handle materials will distribute these materials taken impartially according to the directive of Japanese Government.

5) The special distribution of staple foods will be given to the laborers who are engaged in the transportation fromthe necessity of the prompt taking of materials. (Already notified in another letter.)

6) The special distribution of oil necessary for transportation will be taken.

NOTE: The allotment of oil by prefecture is being planned in the Commerce & Industry Ministry, so it is expected that you get oil in the near future.

7) On the occasion of that the above policies are promptly taken, Home Ministry entreat the Occupation Forces to release materials that the Army and Naval plants have within their precincts.

THE END.

1 Feb.,1946.

OFFICIAL TELEGRAM.

From : The Chief of Agricultural Administration Dep't. of Agriculture & Forest Ministry.
To : Governor of Kagoshima-Ken.
Subject : Taking of Materials.

In order to obtain iron & steel and non-iron metallic materials being stored at the 22nd Naval Air Depot in your prefecture for the making of the agricultural instruments and the improvement of foods production,your prefecture office will take the special measures;

1. to carry it through to take them out of the above Depot by 20 Febrary.
2. to set in full motion the transport capacity in your prefecture for the above purpose.
3. to encourage the factories designated as the first degree and the Agricultural Instruments Control Union and so on to devote themselves to this work.

This is carried through by the reason of that there is the less promise of the distribution of material other than those of the above in the future,not speak of that this has been directed by the Occupation Forces.

THE END.

22 Jan.,1946.

21 SOU-KYOKU-NO.83.

From : The Chief of General Affs.Dep't. of Agriculture & Forest Ministry.
The Chief of Commerce Affs. Dep't. of Commerce & Industry Ministry.
The Chief of Investigation Dep't. of Home Ministry.
To : Governor of Kagoshima-Ken.
Subject: Taking of Materials among the Special Articles belonging to the Army Arms Supplies Depots & the Main Aerial Services of Navy.

1. References are made to both Home Ministry Memorandum CHO-NO.161. notified by the Chief of Investigation Dep't. of the above Ministry on 24 Nov., '45.,Subject: " Distribution of Materials among the Special Articles" and Agriculture & Forest Ministry Memorandum SOU-KYOKU-NO.1589. notified by the Chief of General Affs. Dep't. of the above Ministry on 10 Dec., '45., Subject: " Taking of Materials among the Special Articles ".

2. At the present time when no material wanted is distributed to the foods production business circles, the prompt taking of these materials is a burning problem for us exerting ourselves to improve the foods production to our satisfactory extent.

3. In view of the Article 2 of the above, we have arranged and despatched the Taking Team each local district in order to do the taking to perfection, together with the institution of the Taking Conference of the Special Articles in the Agriculture & Forest Ministry for improving the management of this matter.

You can find and understand the business in detail in the Enclosure Part 2.,and you, ~~taking note of it~~, are requested to do your best on the taking of them.

REMARKS: The list of the managers of the Taking Teams of the Special Articles is found in the Enclosure Part 1.,so you are instructed not to transfer them to other than designated.

The Enclosure, Part 1.

The list of the managers of the Taking Teams of the Special Articles each local district. (The portion which Kagoshima-Ken concerns.)

a. Iron & Steel.

Prefecture Concerned.	Where material is stored.	Manager of Dealers' Part.	Manager of Consumers' Part.
Kagoshima-Ken.	The 22nd Naval Air Depot.	'Nippon Tekko Kogyo Kabushiki Kaisha'.	'Bunmei Nouki Kabushiki Kaisha'.

b. Non-Iron Metal.

Prefecture Concerned.	Where material is stored.	Manager of Dealers' Part.	Manager of Consumers' Part.
Kagoshima-Ken.	The 22nd Naval Air Depot.	Kyushu Branch Office of Special Articles Dep't.of Metal Distribution Control Company.	'Nippon Chisso Kabushiki Kaisha.'

c. Other Materials.

Prefecture Concerned.	Where material is stored.	Manager.
Kagoshima-Ken.	The 22nd Naval Air Depot.	Kyushu Branch Office of 'Zenkoku Nogyo Kai'.

REMARKS:

a. On iron & steel: The Iron & Steel Control Association and 'Ataka' Industrial Company will take part in the Team, too.
b. On non-iron metal: The Metal Distribution Control Company will take part in the Team, too.
c. On other materials.: 'Zenkoku Nogyo Kai' will take part in the Team, too.

THE END.

The Enclosure,Part 2.

The Point of the Business of the Disposition of Materials among the Special Articles belonging to former Army Arms Supplies Depots and Main Aerial Services of Navy.

A: On Iron & Steel.

1. Application for release of iron & steel.
The application will be presented to the local Government office concerned under the name of the Iron & Steel Conference.

2. Confirmness of the quantity to be released.

2-a. The confirmness of the quantity, the examination of the quality and the measurement of the article, all these will be done by the hands of each Taking Team each district.

2-b. 'Ataka' Industrial Company will arrange the above and report the result to the Agriculture & Forest Ministry and the Iron & Steel Conference.

3. Distribution.
The Agriculture & Forest Ministry, basing on the above report of investigation, willproportion the quantity among the consumers and notify it to each consumer and 'Ataka' Industrial Company.

4. Forwarding & Custody.

4-a. 'Ataka' Industrial Company and each Taking Team are responsible for the forwarding of the articles proportioned like above mentioned to each consumer. (Of course, it is rightful that we, sometimes, make the consumers cooperated with them in the point of forwarding.) It is natural course of forwarding to send the articles directly to the consumers, but sometimes when necessary, they are once collected at the warehouses of Tokyo, Nagoya, Yahata and so on and forwarded from there to each consumer.

4-b. 'Ataka' Industrial Company is resposible for the custody of the articles till when they are delivered to each consumer.

5. Delivery of the Articles to the Consumers & Collection of the Payment for Them.

5-a. 'Ataka' Industrial Company will report to the Agriculture & Forest Ministry and the Iron & Steel Conference every decade of month the state of delivery of the articles to the consumers.

5-b. The above company will also collect the payments for the articles delivered and pay them to the Iron & Steel Conference.

6. Payment to the Nationa Treasury.
To the national treasury, the Iron & Steel Conference will pay the price of the articles delivered.

7. Distribution to the Iron & Steel Conference.
The articles to be distributed to the Iron & Steel Conference will be determined in another way.

B: On Non-Iron Metal.

1.Application for release of non-iron metal.
The application will be presented to the local Government office concerned under the name of the Metal Distribution Control Company.

2.Confirmness of the quantity to be released.
The confirmness of the quantity, the examination of the quality and the measurement of the article,all these will be done by the hands of each Taking Team each district.

_____Continued._____

3. Distribution.
The Agriculture & Forest Ministry , basing on the above report of investigation, will proportion the quantity among the consumers and notify it to each consumer and the Metal Distribution Control Company.
4. Forwarding & Custody.
4-a. The Metal Distribution Control Company and each Taking Team are responsible for the forwarding of the articles proportioed like above mentioned to each consumer. (It is, of course, rightful that we sometimes make the consumers cooperated with them in the point of forwarding.)
It is natural course of forwarding to send the articles directly to the consumers, but sometimes when necessary, they are once collected at the warehouses of Tokyo, Nagoya, Yahata and so on and forwarded from there to each consumer.
4-b. The Metal Distribution Control Company is responsible for the custody of the articles till when they are delivered to each consumer.
5. Collection of the payment for the articles delivered & Payment to the National treasury.
The Metal Distribution Control Company will collect the payment for the articles from the consumers and pay it to the national treasury.
6. Distribution to the Metal Distribution Control Company.
The articles to be distributed to the Metal Distribution Control Company will be determined in another way.

C: On other Materials.

1. In reference to other materials than iron & steel and non-iron metal materials, the 'Zenkoku Nogyo Kai ' will collect the whole of them.
2. The 'Zenkoku Nogyo Kai' will deliver them to each Article Distribution Control Organ that each of the materials concerns, with the exception of those which are necessary for the improvement of foods production.

1. Application for release of other materials.
The application will be presented to the local Government office concerned under the name of the 'Zenkoku Nogyo Kai'.
2. Confirmness of the quantity to be released.
The confirmness of the quantity, the examination of the quality and the measurement of the articles, all these will be done by the hands of the Taking Teams each district.
The 'Zenkoku Nogyo Kai will arrange the above and report the ~~investigation~~ result to the Agriculture & Forest Ministry.
3. Delivery of the articles to the consumers & the Article Distribution Control Organs.
The Agriculture & Forest Ministry, basing on the above report of investigation, will proportion the quantity among the consumers and the Article Distribution Control Organs and notify it to each consumer and the Article Distribution Control Organs.
4. Forwarding & Custody.
4-a. The 'Zenkoku Nogyo Kai' and each Taking Team are responsible for the forwarding of the articles proportioned like above mentioned.to each consumer. (Of ~~course~~ course, it is rightful that we ,sometimes,make the consumers cooperated with them in the point of forwarding.)

Continued.

It is natural course of forwarding that the delivery of the articles to each Article Distribution Control Organ is done at the place where the materials are stored.

4-b. The 'Zenkoku Nogyo Kai' is responsible for the custody of the articles till when they are delivered to each consumer and each Article Distribution Control organ.

5. Collection of the payment for articles delivered & Payment to the national treasury.

5-a. The 'Zenkoku Nogyo Kai' will collect the payment for the articles from the consumers and the Article Distribution Control Organs and pay them to the national treasury.

THE END.

of the matter of this kind, because the practice of the directive is the responsibility of the M.G.O. even though it is issued by GHQ.

2. The means of the urgent taking of materials.

I had Companies, Works, even persons, taken part in this work, together with many normal taking organs for the purpose of making best use of the means of the urgent transport capacity. All of them were under the controls of Ken Offices concerned or the procurators designated by the above.

The strange matter has happened here that the normal taking organs have fallen far behind other companies or so in the point of arranging their organizations of the power of transport and labor.

Even when the time of the taking was coming on, their organizations were not completed, so that they could not find other way than to look on the urgent taking of materials by the hands of others with folded arms.

In spite of the facts of the above, when the situation came in the process of the distribution after the taking was done, the normal taking organs insisted too strongly upon their right of taking materials, saying that they have been given the right of taking them by the Central Japanese Office, not reflecting their own conducts by far idler than others who had done the excessively laborous work when the work was carried through.

As they were in the manner of not minding even the contacts with the Occupation Forces, not speak of the actual situation of the area where the works were done, so all persons who have concerned it scandalized them, even though they have been authorized by the Central Japanese Office as the normal taking organs.

3. The Distribution of materials.

In the consequence of that the taking of materials were carried out in the above way, there was no wonder that some Ken authorities forced their way, just as to give the actual workers other than authorized the veral promise that they might be placed under the objects of consideration at the when materials would be distributed.

Hereupon, there has happened the complications among the Ken offices, the normal taking organs and actual workers.

It is generally interpreted, in the one hand, that the change of distribution of materials goes beyond the power of the Governor of prefecture, because they are originally designated by the Central Japanese Office and in the other hand, it is interpreted that the Chief of Investigation DEpt. of Home Ministry has entrusted the Resident-officials of the Investigation Dept. with this power by the notification No. 69 dated 19 January.

Under these circumstances, I, the Resident-official, did the distribution of materials according to the course of that;

the first; I called the responsible officials of the Ken offices concerned and other all persons who have concerned it at a certain conference to sound all opinions.

the second; I hold in estimation of the veral promise that the Ken authorities had given to teh actual workers when they directed them to take out materials hastily.

the third; I took into consideration the opinions and wishes of all persons who had attended the conference.
Thus, I have undertook the local settlement of this matter.

4. Advantage & disadvantage of the urgent taking of materials.

a. Advantage

a-1 In the consequence of that some of the normal taking organs were stimulated by others, the work of taking was comperatively accelarated.

a-2 There were some significant element in doing so, when we thought that we might be occupied by the Allied Powers other than USA.

b. Disadvantage

b-1 We spent too much expediture out.

b-2 Perfect chaos reined in our work.

b-3 We wasted the valuable fuel of truck by the reason of that the transportation was extremely confused.

b-4 The chaos made the examination of the articles, esp. the confirmness of the quantity perplexing.

b-5 We were forced to admit the exception to the distribution of materials.

In the end, it beared very much resembrance to the behaviours that the Japanese Military Forces did in a shameful manner, frightening at a kind of illusion when they disposed their properties at the end of war.
