PACKING MATERIAL.

For many years we have been using EXCELSIOR (not shingle toe from the sawmills, but a much finer and, we think, far superior article, being an off-grade from the regular excelsior factories), for our packing, and have found that shipments so packed reach destination in best condition, regardless of distance, either home shipments or exportations, and that for use in packing away stock in storage cellars it is FAR SUPERIOR to the best moss, does not HEAT under any conditions; no MOULD or FUNGUS; keeps stock damp, fresh and in best condition, and is far cheaper than moss.

For years we have been furnishing some of the leading nurseries of the United States with this material, and it has so pleased them that their orders have increased rapidly. It is dry and put up in good solid bales, averaging about 100 to 150 lbs. Parties ordering early and accepting shipment when material is ready, will be most certain of having their wants supplied. Order now for next fall and winter use.

Prices in small lots, 65c per bale, 50 bales \$25 00.

Prices in car-load lots quoted on application.

 We can now furnish one or two car loads for immediate shipment. Order quick and save disappointment.
