NO. 71.

VOLUME 50.

VICTORIA, B. C., MONDAY, SEPTEMBER 26, 1910.

## UNIVERSITY IS TO BE LOCATED AT POINT GREY

### Commissioners' Report Is Made Public—Document Long Hidden From Public Gaze Bears Date of June 28

The report of the University Site Selection Commission appeared in the government local organ yesterday morning. It is dated in this city on June 28, Point Grey, near Vancouver, as mentioned in Saturday's Times, is to be the site of the University.

The report itself is very brief, reading as follows:

Victoria, June 28, 1910.  
To His Honor the Lieutenant-Governor-in-Council.

Sir:—The University Site Commission begs to submit the following report: In accordance with the provisions of the University Site Commission Act, 1910, your commissioners have visited and made careful examination of the several cities and rural districts suggested as suitable University sites, and have selected as the location for the University the vicinity of the city of Vancouver.

(Signed) R. C. WELDON, Chairman.  
G. DAUTE, C. C. JONES, O. D. SKELTON, WALTER C. MURRAY, Secretary.

Accompanying this is a lengthy memorandum also bearing the date June 28, in which is set out the reasons why the commissioners reached the above conclusion. The concluding item of the minutes of their several meetings in British Columbia reads as follows:

"Victoria, June 28, 1910.—The commission met and considered the draft of the report as revised. After long and careful discussion a vote was taken and the report as amended was adopted. The secretary was instructed to have the report signed and in due time to forward it to the provincial secretary. The commission adjourned sine die."

Notwithstanding that there was only one report, and that a complete and final one; notwithstanding that this report was rendered to the government the same day it was prepared, the government organ talks about an "interim" report and offers an explanation of the delay which occurred in making the findings of the commission public in the following terms:

"Very natural curiosity will be excited in consequence of the fact that both the report-in-chief and the accompanying communication to the departmental minister bear date of the 28th June—almost three months ago. In this connection the bald recital of a

few inconsequential facts will serve to make all clear.

"At the conclusion of the commission's sittings in this city on the day of the visit to and entertainment at William Head—Principal Murray, in his capacity as secretary to the commission, waited upon the Hon. Dr. Young and tendered him what has been referred to as an 'interim report,' addressed on the covering envelope to 'The Honorable H. E. Young, M. D., L.L.D., Minister of Education.'

"Accepting the commission secretary's explanation of the contents of the tendered communication, and noting that it was addressed to him personally, Hon. Dr. Young turned to Principal Murray with a suggestion that was at the same time a request: 'Permit me to seal this envelope and return it to you for the present.' He said in substance, 'Now you take charge of it, and when the commission is ready with its final report, you send it to me registered by post. Just at the present time local jealousies are excited and local interests run high, and there appears to me to be no advantage likely to accrue through presentation to the public of a report not final and conclusive, as such must only reopen the natural competition for the university site.'

"With this suggestion President Murray agreed. He took back with him the proffered report, which was returned as an enclosure with the report in-chief of the sealed envelope originally containing it.

"The concurrence of dates would now plainly indicate that the commissioners had in fact completed their labors ere they took their departure from this city. The report, with the accompanying enclosure, was only received in this city, by mail from Halifax, on Monday evening last. It was considered by the executive at the meeting of the ministers held here on Wednesday afternoon, and yesterday morning was laid before His Honor the Lieutenant-Governor, being with his acquiescence made public shortly afterwards.

In this connection it is interesting to relate that the Times in its issue of June 28th had the following in its news columns:

"Dean Weldon, of the British Columbia university site commission, was asked by the Times this afternoon and asked if he could approximate the date when the decision of that tribunal as to the site of the university would be made known.

"We will render our decision in a few weeks' time," said he. "Beyond that I don't think we can say more at the present time. We are leaving for the coast in a few days. We have had a most enjoyable time during our stay in the province."

The memorandum accompanying the report of the commissioners reads as follows:

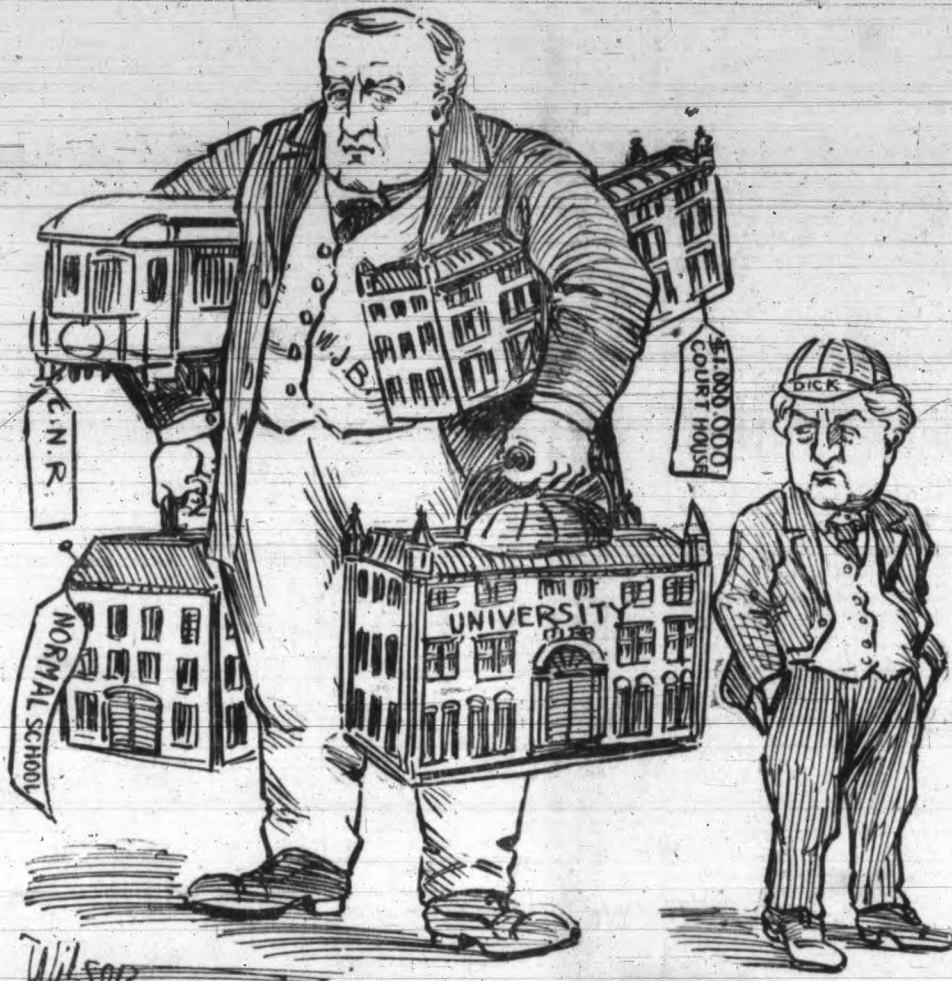

Victoria, B. C., June 28th, 1910.  
To His Honor H. E. Young, M. D., L.L.D., Minister of Education.

Sir:—The university site commission are strongly of the opinion that the university which would not be placed on a site which may in time be completely surrounded by a city. They respectfully suggest that not less than 250 acres be set apart for the university campus and 700 acres for experimental purposes in agricultural and forestry. This is exclusive of a forest reserve for forestry operations on a large scale.

"The commissioners are of the opinion that the most suitable site is at Point Grey unless the soil there and that of the Delta land adjacent are found to be unsuitable for the experimental work of the college of agriculture. Should Point Grey prove impossible, the commissioners suggest—first, a site along the shore west of North Vancouver, provided the tunnel and bridge are constructed; second, St. Mary's Hill, overlooking the Pitt, Fraser and Cooverloping rivers, provided residences are quitted for the students, Central Park, although conveniently situated, will probably be surrounded by the cities of Vancouver and New Westminster, and because of this and of the absence of existing scenic advantages, is undesirable.

While the commissioners are fully convinced that it is of the highest importance to have the facilities of the university doing work of university grade located together, they believe that the diverse conditions of agriculture in this province make it advisable to divide the work of agricultural education between the college of agriculture in the different centres. The college of agriculture should conduct researches, provide courses leading to a degree, supervise the extension work and schools of agriculture. These schools should be established in conjunction with the demonstration farms in typical centres, and should provide short courses (extending over the winter months) of two or three years, for the sons of farmers. Each school might specialize in one or more branches, such as horticulture, dairying, etc.

Similarly, technical evening schools might be opened in the different coal mining centres for the preparation of candidates for mining certificates, and in the metal mining districts for the assistance of prospectors and others. (Concluded on page 10.)

"A MAN WHO DOES THINGS."

## VERDICT IN THE CRIPPEN INQUEST

### JURY FINDS DENTIST GUILTY OF MURDER

#### There is Not Likely to Be Any Delay in Trial of the Accused Man

(Times Local Wire.)

London, Sept. 26.—The coroner's jury today returned a verdict declaring that Belle Elmore Crippen was murdered by her husband, Dr. H. H. Crippen, the American dentist.

The careful work of the authorities in building up a case from the ghastly relic found in the cellar of 29 Hilldrop Crescent, North London, whereby an identification satisfactory to a British jury was obtained, is a feature of the verdict. For many weeks Dr. Peppay, the government toxicologist, worked almost single-handed to gain sufficient evidence from the fragments to show that the remains were those of Mrs. Crippen.

This evidence was presented to the coroner's jury and convinced them of the identity of the murdered woman, in spite of the fact that the attorneys for Dr. Crippen brought experts to contradict the testimony.

The verdict is a distinct victory for the crown. With the corpus delicti established the government is relieved of the necessity of holding the trial of Crippen in abeyance and it is probable that when his case is reached on the calendar the authorities will be ready to proceed with the trial.

The summing-up of Coroner Schroeder partly favored Crippen, particularly with reference to the evidence regarding the sex of the victim. He also said: "It does not follow that because Dr. Crippen fled regarding his wife's death and fled to Canada that he killed her. Moreover, you must not consider Miss Leneve's connection with the case after that flight."

The jury, however, apparently was convinced that the body was that of Mrs. Crippen. The verdict added that the cause of death was poison by hyoscine.

## WOMAN KILLED ON RAILWAY CROSSING

### Becomes Bewildered and is Run Down by Slow Freight Train

(Special to the Times.)

St. Catharines, Sept. 25.—A level crossing fatality occurred on the track of the Niagara, St. Catharines and Toronto at Merriton on Saturday evening. Mrs. Ross, of Cypress River, Man., bewildered and hesitated and then plunged straight in front of a freight train, her mangled remains being hurled aside. The train was running at less than the prescribed speed and due warnings were given. No inquest will be held.

## KING'S MESSAGE TO QUEEN'S OWN

### WISHES REGIMENT SAFE JOURNEY

#### Sir Henry Pellatt Sends Reply on Behalf of the Toronto Riflemen

(Special to the Times.)

London, Sept. 26.—Col. Pellatt, of the Queen's Own Rifles, Toronto, received a telegram from the King as follows:

"To Pellatt, officers, non-commissioned officers, men, Queen's Own Canadian Rifles: 'The King wishes you all God speed and a safe return to Canada, and hopes you will carry back many pleasant recollections of practical experience in your association with the troops in the Mozhag, Country. His Majesty trusts those who have had the misfortune to be indisposed may soon be restored to health.'

"A. Bigge."

The following reply was dispatched: "Sir Arthur Bigge, Balmoral Castle, 'Sir Henry Pellatt, officers, non-commissioned officers and men of the Queen's Own Rifles, Canada, humbly thank His Gracious Majesty King for his kind wishes for their safe return to Canada, and assure His Majesty of their deep loyalty at all times. They return to Canada with most pleasant recollections of their visit to England. The officers who had misfortune to be indisposed are progressing favorably. His Majesty's kind inquiries after them are much appreciated.'"

## MUST STAND TRIAL ON MANSLAUGHTER CHARGE

### Frank Leland Committed in Connection With Death of Railway Fireman

(Special to the Times.)

Winnipeg, Sept. 25.—Magistrate McKinnon on Saturday afternoon committed Frank Leland for trial on a manslaughter charge in connection with the death of Fireman Pattison at Wood's Crossing, when the engine was overturned by being derailed at a switch. Engineer Elliott testified he did not see the switch open until within two or three car lengths. Signalman Upton stated that on his arrival the accident had occurred. He said, "Well, Frank, you've had some bad luck." Witness then explained the lights were not up as usual, it being Leland's duty to place them. He asked Leland to draw levers and he got on a speeder, and put out the lights himself, but when he went he found the points not turned. Returning he went to draw the levers, but was prevented and assaulted by Leland, and a struggle commenced, which was ended by people from the derailed train.

NEW REGENT OF PERSIA.

Tehran, Persia, Sept. 25.—The Majlis National Council has elected Nasir-ud-Din-Mulk, former premier and minister of finance, as regent.

## SECOND PROJECT FOR NEW THEATRE

### KLAW AND ERLANGER OFFER TO LEASE IT

#### Subscribe \$10,000—In Any Case They May Lease the Victoria Theatre

Marc Klaw, senior member of Klaw & Erlanger, New York, came over on Saturday afternoon from Seattle and returned to the Sound yesterday afternoon. While here he secured from the British America Trust Co., owners of the Victoria theatre property, an option on a three-year lease of the premises. In this he is acting for his own firm and for Charles Frohman, another of the leading theatrical managers of the east. They have until January 1, when E. R. Ricketts' lease expires, to take up the option.

But Mr. Klaw, seeing the possibilities of Victoria from the theatrical manager's point of view, and the limitations of the existing theatre, did more than this. Simon Leiser, ex-president of the Board of Trade, who took a deep interest in the promotion of the new theatre proposition when it was put before, took advantage of Mr. Klaw's presence here to interview him in regard to the erection of another theatre. Mr. Klaw thought very well of the project, and assured Mr. Leiser that if the project could be carried through his firm would subscribe \$10,000 and take a ten years' lease at five per cent. of a cost not to exceed \$125,000. In confirmation he handed the following letter to Mr. Leiser before leaving yesterday:

Empress Hotel, Victoria, B. C., 25th Sept. 1910. Simon Leiser, Esq.

Dear Sir:—Confirming our conversation yesterday, if you can carry through your project of building Citizens' theatre at a cost of not to exceed \$125,000, we will subscribe \$10,000 to the fund, and will take a ten years' lease of the theatre at five per cent. net of the above amount.

We believe Victoria would support a first-class theatre, run on first-class dignified lines, and would be very glad (Concluded on page 2.)

## CADETS FOR NAVAL COLLEGE AT HALIFAX

### The First General Competitive Examinations Will Be Held in November

(Special to the Times.)

Ottawa, Sept. 25.—The first general competitive examination for naval cadets entering the Canadian naval service will be held under the direction of the civil service commission on November 9th at Victoria, Vancouver and Nelson and eastern centres. Twenty executive cadets and ten engineering cadets will be admitted to the new naval college at Halifax and the examination will determine the eligibility for entrance.

## JUBILEE FAIR OPENS TO-MORROW AFTERNOON

### Exhibits Will All Be in Place This Evening—Arrangements are Much Ahead of Former Years—Creditable Displays.

Exhibitors have been busily engaged all day in arranging their displays for the jubilee exhibition, which opens tomorrow afternoon. All the accommodations for the various classes has been allotted and the richest show of the B. C. Agricultural Association promises to be the greatest in the history of that organization. All arrangements for the fair have been completed, and the exhibits will be placed by this evening in readiness for the opening.

The C. P. R. steamer Princess Ena arrived from Vancouver yesterday afternoon loaded with stock entered from the mainland. Included in the cargo was the exhibit from Delta, consisting of 117 head of horses, besides a large display of other stock. The farmers of Ladner will be among the largest exhibitors in the fair, they having entered in large number in every class of stock.

Nearly every district on the mainland is to be represented in the show, and the exhibitors expect to make a showing which will be of credit to their sections. The entries of Count de Roaldes from Olds, Alberta, taken over yesterday, included in his exhibit are some of the finest horses on the continent. The A. C. Ruby Co.'s exhibit of Salem, Ore., which has reached here, is an excellent one, including Belgians, hackneys and other breeds of horses for which this concern has gained great prominence.

The stock exhibit this year is the best and most complete, consisting of every class known that has been shown in this province. This morning the stock men were commenting in most favorable terms on the extensiveness of the display. They recognize that the work of awarding the prizes will be a most difficult task.

In the poultry hall the pick of the chicken and pet stock of this province is gathered together. The chickens are being exhibited in numbers, which are far in advance of last year. The contest for the prize in the pigeon display will be principally between the Victoria and Vancouver breeders. In the rabbit and canary exhibits the entries, which are away ahead of last year, have been made by local people.

A great deal of praise is due the committee of management for the able manner in which they have laid out the ground floor of the main hall. The tables have been arranged in a splendid manner and the displays will be shown to the best advantage. Streamers of various colors have been strung from the roof and rafters of the building, and the flags of the British Empire have been festively scattered throughout the hall. From the main entrance the building presents a fine appearance, and the capable manner in which this has been executed will surprise all patrons.

David Spencer occupies his old stand at the left hand of the main entrance. His allotted space has been elaborately decorated, and the exhibit is very attractive. Weller Bros. have added to their former space taken by them. They have five different apartments, and with these are furnished, parlor, dining-room, kitchen and pantry sets have been arranged.

The fruit exhibit, which will be in the main building, will be a credit to the fruit growers of this province. R. B. Denny, of the agricultural department of the provincial government, will give demonstrations in the proper method for the packing of fruit in the centre of the display during the fair. In the machinery hall, the largest exhibitors are Thom, Plimley & Co., which is showing a general display of bicycles, motor cycles, typewriters, and automobiles; E. G. Prior & Co., who is exhibiting farm implements; John Weston, who will show a number of his wagons and carts, and Phillips & Styles, who will exhibit launches and other materials in their line of business.

Work of decorating the horse show building has been completed and J. A. Robb and his committee deserve a great deal of praise for the effective manner in which they have carried out this work, which has proved to be no easy task. The colors of the club, red, green and gold, are much in evidence, as well as flags, streamers and rosettes. The ground has been covered with sawdust and sprinkled with a green spray, which gives it the appearance of grass. The lighting of the building this year is excellent and no one need bother about the complaint which was common last year of not being able to see.

Arrangements have been made with A. T. Goward, local manager of the B. C. Electric Company, to have a good car service provided. Every facility will be made for the carrying of those who visit the fair, and as Manager Goward realizes that there will be a large crowd he has announced that sufficient cars will be provided for the handling of the traffic. The public holiday has been set for Thursday afternoon, when all citizens will be afforded a chance to attend the show. On Tuesday the pupils of the public schools will have a holiday. The days during the course of the fair will be known as follows: Tuesday, Children's Day; Wednesday, Association Day; Thursday, Victoria Day; Friday, Agricultural Day; and Saturday, Mainland Day. Preparations for the opening of the fair by His Honor the Lieut. Governor at 2:30 o'clock to-morrow afternoon have been

completed. He will deliver his address declaring the fair opened from the steps of the main hall. Short addresses will also be given by Hon. Richard McBride, who takes a deep interest in the fair, and the minister for agriculture, Hon. W. J. Bowser.

Weather conditions for the fair promise to be fine. It was expected last evening, as the heavy rain descended, that the conditions would be unfavorable, but when the sun pierced the clouds this morning and shone so brightly things took a different aspect. The weather man announces that warm weather is likely to prevail all week. The rain last night proved very beneficial, not only laying the dust, but also took the chill out of the air.

The All O. B. Gross circus is now prepared for the opening and expects that all performances will be well patronized. Seating capacity has been provided for 1,500 people and the manager hopes to see all the space taken up at each show. It takes about two hours to see the entire show in which nearly 200 animals are introduced. There is something doing every minute at this great circus. The band of the circus gave a concert at Beacon Hill park yesterday afternoon, which was much enjoyed by the large numbers that attended.

Music at the fair will be provided by two bands from the circus, the Fifth Regiment band and Turner's orchestra, of this city. The music programme is now being arranged, and the committee states that it will surpass all others held by the association at any of its fairs. A vocal and instrumental programme will be given in the women's building by Fletcher Bros., who have secured the services of some of the best talent in Victoria. No effort has been spared to make this feature of the fair high-class in every detail. Selections will also be rendered on the gramophone and player-piano in the space allotted to the Messrs. Fletcher Bros.

Booths and lunch counters will be conducted at the fair by the W. C. T. U., King's Daughters and Daughters of Pitt. These will be located in different parts of the grounds. The restaurant this year will be run by James W. Robinson, who has had a great deal of experience in catering to large crowds.

Once again a Ferris wheel is to be situated on the fair grounds. This will be run by the circus company, and all those who had a ride in the last one that was here will, undoubtedly, have a trip this year. A merry-go-round will also be operated by Mr. Barnes.

MILL DESTROYED.

Vashon, Wash., Sept. 26.—The Scen mill and box factory is a smouldering heap of debris to-day as a result of a fire that broke out on the property located on this island last night. The plant employed 25 men. The loss will reach \$25,000 on which there is no insurance.

## YOUNG FRENCH AVIATOR KILLED

### FALLS 100 FEET WHEN AEROPLANE TURNS TURTLE

#### Birdman and Passenger Have Narrow Escape in Paris to Brussels Flight

(Times Local Wire.)

Paris, Sept. 26.—M. Poillott, a young French aviator, is dead at Chartres to-day, the result of an accident to his aeroplane while 100 feet in the air. Poillott was carrying a passenger when his craft turned over. It fell among a crowd of spectators. Poillott was killed instantly. His passenger received only a few minor bruises. Narrow Escape.

Paris, Sept. 25.—Aviator Loridan, who attempted to fly from Paris to Brussels carrying one passenger in his aeroplane, lost control of the machine at a great height and both men were hurled to the ground, miraculously escaping serious injury.

The accident occurred at St. Quentin, half way between Paris and the Belgian capital. Loridan was operating a biplane and when the machine capsize it fell like a plummet and was smashed and torn when it struck the ground. The aviator and his companion were removed from the wreckage, suffering only from shock and slight hurts.

Chavez in Critical Condition.

Domodossola, Sept. 26.—Fear that George Chavez, the aviator who flew across the Alps last week for the first time in history, and who fell with his machine near Domodossola, will not recover, was expressed today by physicians attending him. A consultation of physicians has been hastily called and Chavez's condition is reported critical.

When the accident occurred Chavez was believed to be fatally hurt. He was taken to a hospital and revived, and it was said he would recover. News of his rescue occasioned much regret as people here were enthusiastic over this feat.

OBITUARY RECORD

At the family residence, 2555 Government street, the death occurred this morning of Mary Grace Barr, relict of the late Rensselaer Barr. She was 70 years of age and was born in Scotland. A growth up family survive her.

The sympathy of the whole community goes out to Mr. and Mrs. H. G. Wilson, 2703 Blanchard street, in the bereavement which has just befallen them in the loss of their infant child, Elinor Birchard, who passed away last evening at the family residence. The funeral, which takes place at 10:30 o'clock to-morrow morning from the residence, will be private. Rev. W. Leslie Clay will officiate.

Mrs. Nichols, the beloved wife of William Nichols, passed away this morning at the St. Joseph's hospital, after a lingering illness. She was 49 years of age and was born in County Down, Ireland. There is left to mourn her loss three daughters and two sons, besides her husband. The remains are reposing at the Hanna parlors. They will be removed from there to the family residence, 222 Ontario street, on Wednesday morning, from where the funeral will take place in the afternoon at 2 o'clock.

There passed away this morning at the residence of his nephew, D. M. Robertson, road superintendent, Esquimaux road, William McKinnon, one of the old-timers of this city. Deceased, who was 78 years of age, was one of the pioneers of '58, having been attracted to this country by the reports circulated about the Cariboo mines. He was born in Edinburgh, Scotland. Mr. McKinnon had been ailing for many years, and about a week ago he was taken suddenly ill. The funeral will take place on Wednesday afternoon at 2:30 o'clock from the Victoria Undertaking Parlors, Yates street. Rev. Donald McRae will officiate.

One by one the old timers of this city are passing away, the last to cross the Great Divide being Jesse Mason, the first man to make bricks in Victoria. Deceased died at the residence of his daughter, Mrs. Thos. Earle, 1461 Fort street, on Saturday night. He came to this city in 1860 and shortly after his arrival commenced manufacturing bricks and was for a time able to meet the demands of the citizens. Mr. Mason was ripe in years, having reached his 82nd birthday, and was born in Kent, Eng. He was a member of the I. O. O. F. The funeral has been arranged to take place privately to-morrow afternoon at 2:30 o'clock, from the residence of his daughter. Interment will be made in Ross Bay cemetery.

Yesterday afternoon the remains of the late John Berryman were interred in Ross Bay cemetery. The funeral took place at 2:30 o'clock from the Knights of Pythias hall, Pandora street, where Rev. A. E. Roberts conducted appropriate services. At the graveside the last rites of the K. of P. order were conducted by Bro. C. W. Hutchison, assisted by Bros. H. Owen and W. Glover. There was a very large number of friends present, the members of the Fraternal Order of Eagles and the Pythians attending in a body. The casket was covered with beautiful floral offerings. The following acted as pallbearers: T. Roberts, C. B. Baxter and F. Cooke, representing the K. of P., and J. H. Popketh, G. W. Wood and J. Y. Wachter, of the Eagles.

FIREMEN'S DANCE.

The fire ladders are giving an invitation dance to-morrow evening at headquarters from 9 to 11. Miss Thain's orchestra will furnish the music, and those who attend may expect a most enjoyable time.

FIREMAN KILLED.

(Special to the Times.) Herbert Sank, Sept. 26.—A C. P. R. fireman is reported to have been killed by the bursting of the valve of an engine attached to a freight train four miles from Esquimaux.

SECOND PROJECT FOR NEW THEATRE

(Continued from page 1.)

to assume the management of such an enterprise. Very truly yours, (Signed) CHARLES FROHMAN, KLAU & ERLANKER.

Per MARC KLAU.

Mr. Leiser figures out that this should be the psychological moment for a revival of the citizens' theatre movement, and he will probably appear before the city council to-night in connection with the matter. He points out that there would be a fund of \$45,000, or more than one-third of the sum needed, to start with—\$15,000 from the Canadian Pacific, \$10,000 from the Grand Trunk Pacific, \$10,000 from the Canadian Northern, and \$10,000 from Klau & Erlanker.

Whether or not the two theatrical projects come to a successful issue there can be no doubt that one will, and in any case the probability is that Victoria will have two houses playing first-class road attractions.

Mr. Klau is in Vancouver to-day on his way to Seattle, and is accompanied by Arthur Haynes, of the British America Trust Company.

TRAGEDY FOLLOWS QUARREL.

Winnipeg, Sept. 26.—Samuel Trits this afternoon shot his wife fatally and then turned the revolver on himself, dying instantly. A quarrel was followed by the tragedy at the residence on Stephen street, Point Douglas.

FROST ON PRAIRIES.

Winnipeg, Sept. 26.—The first killing frost of this season occurred last night, extending throughout Manitoba and Saskatchewan.

STEAMER ON FIRE.

Tacoma, Wash., Sept. 26.—The steamer Sterritt, of the Merchant's Transportation Company, is burning off Brown's Point, just outside this harbor this afternoon and will likely be a total loss.

The crew, numbering about 20 men, escaped to shore in small boats. How the fire originated is not known, but it is believed that it caught in the cargo of hay.

The steamer was enveloped in flames with such suddenness that the men on board had barely time to push off and the engines left without waiting to shut off the engines. With flames shooting from almost every part of the hull, the Sterritt continued towards Seattle, running wild.

Tugs were dispatched from Tacoma and soon had overtaken the burning boat. It is thought her steam will soon die down and she will be beached.

PAIR JUDGES

- The judges selected to place the ribbons are as follows: Heavy horses—Thomas Mitchell, Exeter, Ont. Light horses—Alexander Innis, Clinton, Ont. Cattle, sheep and swine—J. E. Brethour, Ontario. Poultry—Wm. Coates, Vancouver. Horse show—Dr. Grenside, Guelph, Ont. Dairy products—Mr. Brojesen, Denmark. Fruit—Mr. Louis, Oregon. Flowers—Mr. Davis, Vancouver. Woman's work—Miss Ross, Vancouver.

**OBJECTS TO MAKING**

**STATEMENT IN PUBLIC**

Great Northwestern Telegraph Co. Official Before Railway Commission

Winnipeg, Sept. 26.—"We must have some one here who knows more about the Great Northwestern Telegraph Company than this witness," declared Judge Mabee Saturday when the investigation into telegraph rates was in progress. "We must know how much capital there was invested in the company. We must understand what its relation has been to the old Montreal company and the Dominion company. We must understand how much actual money was put in, not wind-and-water. We must know what the actual receipts from the various offices are. There is no other way in which we can determine whether the rates charged by the company are fair."

The telegraph official who was on the stand and who submitted the figures which the board was called on to consider was S. B. McMichael, assistant to the general manager of the G. N. W. Mr. McMichael supplied statistics intended to show that the charges made for telegraph service in and out of Winnipeg were not appreciably higher than the rates in and out of other large cities. He also indicated how large has been the increase in the cost of doing business in recent years.

Isaac Pitblado, who appeared for the Winnipeg board of trade, sought to learn from Mr. McMichael what the actual receipts of the Winnipeg office were for the last year, and what the expenses of the office were.

The official was exceedingly reluctant to produce this information. He stated that he could not obtain from the Winnipeg office a statement showing the receipts from that office for the past year, but that this could be obtained from Toronto.

"Will you get me that information?" said Mr. Pitblado.

"I submit to the commission that this is private information which should not be made public. I am prepared to submit the statement to the commission privately, but there are reasons why it should not be made public."

"My dear man," said Judge Mabee, "there are no companies doing business under a measure of government control and supervision which can have anything in their business of any kind of a confidential nature. If the commissioners cannot examine documents in public, we will not examine them behind a screen. That matter was settled permanently so far as this body is concerned in the case of express rates. The express company sought to have the press excluded. We decided that the press should not be excluded, and that all investigations should be made in public."

"What would you do," said Judge Mabee to the witness, "if the government sent you out to investigate the charges which some man was making for his goods. You go into his office and you see a vault. You ask what is in the vault. He replies that the contents of the vault cannot be seen; that the papers are of a confidential nature. What reply would you make to the government which sent you to make the investigation?"

When the witness professed to Mr. Pitblado that he was giving all the information in his power, Judge Mabee said, "No, you are not. You are hedging and fencing and refusing to give information. You give something with your right hand and then take it back with your left."

The witness stated that it would take two or three years to prepare the statistics for which the board asked, to which Mr. Pitblado replied that he knew that the telegraph companies would take this attitude and that he would ask for an interim telegraph rate in and out of the city pending the preparation of these figures. He explained that all he wanted to know at the present time was how much the telegraph companies were taking out of the west to make up for the alleged deficit in the east.

**MINERAL CLAIMS BONDED.**

Deal Completed For Property in Sheep Creek Gold Camp.

Nelson, Sept. 26.—Papers have just been signed here bonding the Davenport group of twelve mineral claims on Nugget mountain in the Sheep Creek gold camp for \$50,000, the payments to extend over two years, with the usual conditions as to development. The Davenport group is situated about 2,000 feet north of the Nugget mine, and consists of a number of separate mines.

The parties giving the bond are William Kennedy, of Salmo; Ed. Peters, of Ymir, and George H. Colwell, J. J. Malone and William Gosnell, of Nelson, while Joseph Leahy, James Vanhook and George Young, all of Salmo, figure in the deal as interested parties. The bondee is Alvo Von Alvensleben, of Vancouver, who was represented by Lemmie and Waggie of this city, his solicitors. James A. Ryan, of Salmo, and A. Heyman, of Vancouver, put through the deal.

The Davenport group is a recent consolidation of two groups staked last season and this, discoveries having been made both seasons. Some minor development has been done. A. T. Graham, of Stewart, arrived in the city on Thursday night to take charge of the development work for Mr. Alvensleben, and he has left for Salmo, accompanied by Mr. Peters, to lay out the work.

Another deal has also just been closed involving the Treadwell group of four mineral claims adjoining the Davenport group on the east. Messrs. Ryan and Heyman, who put through the Davenport deal, have given an option on the Treadwell group at \$20,000. The option is good for two years, subject to certain conditions. The option is given by William Kennedy, Ed. Peters and Annie R. Peters, the latter of Ymir.

**MANAGER APPOINTED.**

London, Sept. 26.—Herbert Burbridge, son of Richard Burbridge, appointed general manager of the sales shop side of Hudson's Bay business in Canada, sails October 7th. He is expected to inaugurate a vigorous campaign.

*Campbells*

**Exquisite New Gowns**

We have received during the past week the most beautiful gowns from noted modistes it has ever been our pleasure to show

**And Smart Tailored Suits**

entirely exclusive models, embracing many distinctive whims that are not shown elsewhere.

**The Picturesque and Social Aspects of Fashion**

The picturesque and social aspects of fashion have become almost exclusively confined to the aggrandisement of women. Great artists who, perhaps, have often "blushed unseen" have created fashions for her glorification. Modes of to-day are clearly significant of the freedom women now enjoy in the purely frivolous, as well as in the serious vocations of life. For fashion to-day is freed from trammels; its first essential is to be beautiful. The so-called leaders of fashion make it their business to aim at more individuality in dress, and they have reduced the cult to a fine art; to choose a style is to make it theirs. This establishment never fails from keeping in touch with the dictators of fashion. It is therefore easily understood that we have justly earned the title of "The Fashion Centre."

**Autumn Exposition**

Tuesday morning next marks the opening of the Victoria Exhibition, and our early autumn merchandise is attracting widespread attention. As usual, we are showing many advance novelties. Every one of our departments is showing new goods. Ladies naturally expect that "The Fashion Centre" should assume the right of leadership. A stroll through our various departments will give you an excellent idea of the styles that are in vogue this Autumn and Winter; this is particularly true of ready-to-wear garments.

*Campbells*

**REVELSTOKE PIONEER SLAIN BY BLACK HAND**

**Body Hidden in Underbrush by the Murderers Who Make Their Escape**

Revelstoke, Sept. 26.—Another crime has been added to the long chain credited to the Black Hand in Canada by the murder of Frank Julien on Wednesday morning. His body was found in thick underbrush along the Illicitwaet river.

Three Italians, apparently laborers, came to town on Wednesday and

struck up acquaintance with Mr. Julien. The victim recently purchased an acre of land, south of the Arrowhead railway branch, near the railway bridge. Strange Italians were here to get possession of land on which to settle. As no work was in sight they suggested to Julien that if he furnished axes they would give a few days' work on his land free.

In the evening the three strangers called at Julien's house, but were not seen by members of the household. Julien meeting them personally and discussing work for the following day. On Wednesday morning Julien left home about 8.30 for the scene of operations, was met by the three strangers and proceeded through the bush for the purpose of showing the land. No attention was paid to the strangers, who were seen by the family at a dis-

tance only. About two hours after Julien left home his daughter, Mrs. Damoer, noticed the three men who had been with her father returning up second street with bundles of blankets on their shoulders, apparently bound for the depot, but she paid no attention to them. When deceased left home he informed his daughter that he would not return till evening. Not returning in the evening his family thought he had stayed with friends.

On Thursday night, anxious over his long absence, they started to look for him, aided by different neighbors. No one saw him, his son-in-law, Damoer, and others searched till dark. Search was resumed Friday morning, resulting in the finding of the body by L. Cashate, who reported to the police.

The place where the murder was

committed was well concealed, a few hundred yards off the main road. Apparently showing the gang, as he supposed, land which they wished to buy, following a surveyor's line through the bush, the victim came where the brush was high and thick. The man behind him dealt him a blow on the top of the skull. The body was shot forward into a hole and struck again with the blade of an axe on the left side of the neck. The head was nearly severed. The murderers placed brush over the body. The axe was found 20 feet from the body.

Julien was an old-timer in this district. He was a terror to the Black Hand gang in British Columbia, and did more than any other man in the province to expose and unearth the gangs and their work. He was of much aid to the police. Many times he stated to friends that he expected to be caught by the gang.

Julien, when his son-in-law was nearly murdered a year ago, followed the criminals from point to point and landed them at Calgary. After trial they were sentenced to ten years.

Julien leaves a wife, five daughters and two sons.

**LADIES IN AIRSHIP.**

Boston, Sept. 26.—Lieutenant-Governor Louis A. Frothingham, Miss Eleanor Sears and Miss Dorothy Johnson were among the people who took air flights at the Harvard aviation field Saturday with Mr. Claude Grahame White, the English aviator. A crowd of 15,000 persons watched the exhibition.

**AEROPLANE FLIGHT.**

Chicago, Sept. 26.—Walter Brookins, aviator, will attempt a flight with a Wright Brothers' aeroplane from Chicago to Springfield, Illinois, next Thursday, in an effort to win a \$10,000 prize offered by the Chicago Record-Herald for such a feat.

The start of the 160-mile flight will be made from Washington park, on the south side. The aviator will try to land in the fair grounds at the state capital. Mr. Brookins will make trial flights on the lake front Tuesday and Wednesday.

**CHOLERA IN NAPLES.**

Naples, Sept. 26.—Asiatic cholera has appeared here. Friday fifty cases of cholera were reported, with many deaths and the report on Saturday places the number of cases at 100, with 22 deaths.

Several weeks ago it was reported that cholera was prevalent at Naples and precautionary measures were taken by the authorities.

At the same time a bacteriological

examination was made in various cases and it was given out that the disease was gastro enteritis, which is common here about this season of the year.

The authorities do not yet admit that the disease is cholera.

**REGISTRATION OF VOTERS**

As Monday, October 3rd, will be the last day on which application for registration will be received, all men of twenty-one years or over whose names were not on the list at the time of the last provincial election are urged to apply without delay to any one of the following: Harvey Combe, registrar of voters; J. Kingham, Lee & Fraser, A. B. McNeill, R. L. Drury and R. B. McMicking.

**THINGS WHICH HELP YOU CLEAN HOUSE**

Many things here which will give you great assistance in fall cleaning. Ammonia is the best thing for cleaning glass, leaving it very bright; Benzine for dry cleaning all grease spots from colored table cloths; Salts of Lemon for removing stains, etc. If there's anything you need for the renovating season we can supply it.

LOCATION OF THE UNIVERSITY.

Vancouver, or the neighborhood of Vancouver, has been selected by the Commission of Educationists appointed by the McBride government as the location for the University of British Columbia.

But while we shall loyally accept the decision of the commissioners, there are certain facts in connection with the report which seem to us to call for explanation.

Our readers will notice that two reports were turned in to the government and that each bears the date of June 28, 1910. We are told by a newspaper which appears to feel that explanation is due the public with reference to these reports that one of them was tendered to the Minister of Education by the secretary of the commission before the members of that body left for their homes after having, as they conceived, completed their work.

INTEREST IN FALL FAIR.

So great is the interest being taken in the Fall Fair that yesterday nearly three thousand people went out to the grounds to look around and see how the work is progressing.

of the university the vicinity of the city of Vancouver? If local jealousies were excited, would they not have been allayed all the sooner by making the report of the commissioners public immediately their work was done?

Again the commissioners, whose commission did not extend beyond indicating the neighborhood in which the university ought to be located, took the liberty of selecting Point Grey as the actual site for the institution. This action, taken in connection with what the Attorney-General of the province and his brother, Mr. Frank Bowser, are reported to have said with reference to the location of the university before the reports, "interim and auxiliary," were published, gives a still more sinister aspect to the matter.

The Attorney-General promised Vancouver the university, and, as our own special representative the Premier of the province would say, "he delivered the goods."

The representatives of Victoria, who have done so much for the city, have one more opportunity to redeem themselves—provided they do not feel called upon to resign in view of their pledges in respect of a certain railway contract.

ESQUIMALT DEVELOPMENTS.

The report published in Saturday's Times that the B. C. Marine Railway Company had applied to the Dominion government for a subsidy to build a three million dollar drydock at Esquimalt is one of great interest to Victorians.

It is the natural sequence of the movement recently reported in regard to the securing of the waterfront on Long Cove. It has been known for some time past that there were some arrangements being made for the establishment of large shipbuilding works at Esquimalt.

The Nelson Board of Trade have on foot a movement which theoretically will be a very different matter. The idea is to form a central exchange with offices in London, Eng., and Nelson for the sale of all the realty, timber lands and mines of East and West Kootenay.

FEWER BATTLESHIPS.

Theoretically the completion of the Panama canal will double the fighting strength of the American navy. The question has been discussed at great length, and President Taft has given his official sanction of that view by stating that when the Isthmian waterway is opened in 1915 it will be in order for the United States to cut its battleship programme in two.

surrounding district. Take the fruit exhibit as an instance. This year there are many new orchards in bearing which have never before borne fruit.

The product of some of them will make the older exhibitors take notice, and will materially add to the interest taken in the exhibition. It is also noticed that the newer arrivals in Victoria, those who have come here to make their homes since the last fall fair, are very actively interested in everything which pertains to the welfare of the city.

There is one thing to be said for Mr. Bowser. Now that he has got the university for Vancouver he will see that it is built. If the commissioners had favored Victoria, the Attorney-General, who has demonstrated that he is the "master of the administration" and as Finance Minister controls the money-bags, would have "held up" the scheme as long as he pleased, which would have been a long time.

William Mackenzie, on his return to Toronto a few days ago, said that business was good throughout the west. One thing he forgot to discuss was the Island extension of his railway.

The secretary of the Lord's Day Alliance has prevented a meeting of the Brotherhood of St. Andrew being held in a Montreal theatre on Sunday.

PRESS OPINIONS

Not a Fish Story. The golf story of the season comes from Newark where a player claims to have found his ball, after a tee shot, resting between the ears of a young hare, which was too frightened to move.

PETITION FOR RECALL OF SEATTLE'S MAYOR

Acting Chief Magistrate Will Bring Charges Before the Council. (Times Leased Wire.) Seattle, Wash., Sept. 26.—Seattle experienced a very decided arid sabbath yesterday.

PERSONAL

F. A. Richie, president of the Richie & Ramsay Coated Paper Co., Toronto, is at the Empress. Grand Trunk Pacific steamships now make night run to Vancouver, leaving here at midnight on Thursdays and Sundays.

GOLD ROBBERY.

Man Who is Reported to Have Confessed is Taken to Nono. Seattle, Wash., Sept. 26.—Special Federal Agent J. F. Warren returned to Nono on the steamer Victoria today, having in custody Marius Johnson who is said to have confessed his share in the robbing of the silver boxes of the Pioneer Gold Mining Company at Nono.

"OLD GUARD" LEADERS SEEK COMPROMISE

Republicans of New York Now Anxious to Arrange Terms With Roosevelt

(Times Leased Wire.)

Saratoga, N. Y., Sept. 26.—That the "Old Guard" New York Republican leaders have been defeated in admitting to-day in the plans being made for a conference with Col. Roosevelt asking a compromise. Col. Roosevelt will reach Saratoga late this afternoon.

The delegates now here admit they are here to fight and the leaders look grim and determined. There is no "tag-along" movement. "I came here to act as temporary chairman," he said. "I was invited to act by the state committee and I am prepared to perform my duties."

New York, Sept. 26.—Prepared to compromise if necessary, Col. Roosevelt started for Saratoga at 9:30 this morning. The colonel is inclined to disbelieve reports that he will not be able to control the convention when the matter of the primary plank comes up.

REV. W. M. ROCHESTER SUCCEEDS DR. MOORE

Selected as Secretary of the Lord's Day Alliance of Canada. Toronto, Sept. 26.—Rev. W. M. Rochester, B. A., who has been associate secretary of the Lord's Day Alliance of Canada for the four Western provinces, has been chosen by the sub-executive of the board of the Alliance to be general secretary, in succession to Rev. T. Albert Moore, D.D., who has been elected by the general conference of the department of temperance and moral reform.

Dr. Moore's resignation was accepted, to take effect on the 30th of November, and Mr. Rochester begins his new duties on the 1st of December. The filling of the vacancy caused by Mr. Rochester's promotion is left to the Western Provincial Lord's Day Alliance. It has been arranged to hold the next triennial meeting of the Lord's Day Alliance of Canada in Toronto early in December of this year.

Special Express Shipment of Parisian Novelties

IN ROBES AND DRESSES—ALL EXCLUSIVE STYLES

We are just in receipt of a shipment of Robes and Dresses in sequin, beaded net, crochet and silk braid. To say the least, they are elaborate; to even try and describe them would, we might say, be beyond our power; to appreciate their loveliness would necessitate a visit to the store.

## BE SURE AND Visit Our Exhibit At the Exhibition

### A Free Musical Recital Held Daily Upstairs in the Woman's Building

We have arranged with some of the very best talent in the city, both vocal and instrumental, and will hold a free Musical Recital during the Fair.

It will be something well worth making a special trip to the Fair to hear, as we are sparing no expense, and are using every effort to make the exhibit one which you will long remember.

Aside from this feature, a grand representation of

### Gerhard Heintzman Pianos

Specially imported for the occasion, will be seen showing the many new and beautiful designs of Canada's Premier Piano, in the latest finishes. There will also be shown

### The Behning Player Piano

This beautiful instrument can be played by anyone. No previous musical education or training is necessary. Young and old, and from a repertoire which includes the whole world of music.

A cordial invitation is extended to all.

## Fletcher Bros.

1231 GOVERNMENT STREET. PHONE 885.

There will be a special meeting of the Pioneers' Society at their hall this evening, when important business is to come up for discussion.

Don't forget the L. O. F. concert and dance on Thursday night in Broad Street hall. Admission 25 cents. Light refreshments served.

Chief Constable Stephenson, Nanaimo, has brought Donald Macdonald, Salmon River, to the provincial jail here to await trial at the Nanaimo fall assizes. Macdonald, a hunter and trapper, is charged with the murder of his partner, Frank Savage.

At this evening's meeting of the city council a by-law will be introduced authorizing the change of the name of Haultain street to Belmont avenue, this being because of the fact that there are other streets with names very similar to that of Haultain.

The following works of local improvement will be authorized at this evening's meeting of the city council: Macadamizing with bitumen, Vancouver street, between Queen's avenue and Bay street and constructing cement sidewalks with curbs, gutters and macadamizing Powell street between Michigan street and Toronto street and constructing permanent sidewalks with curbs and gutters, also expropriating property to make the street of a uniform width of 50 feet the cost of expropriation to be borne by the owners; paving Queen's avenue, between Quadra street and Cook street with asphalt and constructing permanent sidewalk on the north side from Quadra street to Chambers street and on the south side from Vancouver street to Chambers street; grading, draining and macadamizing Third street, from Mount Tolleme avenue westerly and constructing permanent walks on both sides of the thoroughfare.

Superintendent of Provincial Police F. S. Hussey has been informed by Sheriff Gosman, of Dillon, Mont., that the suspect held there and believed for some time to be Wm. Haney, the bandit who, with others, held up the C. P. R. express at Duck's station in June last year, and who a week later shot and killed Isaac Decker, special constable, is not Haney, but another criminal with a long record.

Edgar Fawcett, who has written much on old times in and about Victoria, and who has in contemplation a book dealing with the same subject, at a loss, now to account for the disappearance of a blank book containing the clippings of articles he had written from time to time and upon which he depended for material. Mr. Fawcett last saw this book about four months ago. He thinks that someone has borrowed it and neglected to return it. As it is of no value to anyone else he hopes to have it returned.

## THOMAS PLIMLEY

Opposite Spence's 1110 Government Street.

## WORK OF WOMEN'S COUNCIL IN TORONTO

President of That Body Spoke Before Local Council on Saturday

An interesting address was given on Saturday morning in the Alexandra Club rooms, by Mrs. Huettis, president of the Local Council of Women, Toronto, who was one of the ladies accompanying the Canadian Manufacturers' party.

Outlining the work accomplished during the past four years by the Women's Council, Toronto, the speaker stated that of the 43,000 pupils in the public schools, 5,000 were absent on an average every day. There was a transient officer, so no children were allowed to be out of school without a good excuse. The women believed that there was no good reason why there should be on every day of the year 5,000 sick children in the city. Trained nurses were appointed to visit the schools, and by their examination of the children and advice to the mothers a much better condition of the health of the children was brought about.

Ever this was not found sufficient, and in May last sixty women attended a meeting of the trustees, their object being to convince the board that it would not be right to give the whole of the work of inspecting into the hands of a young medical man. As a consequence, Dr. Helen McMurchy was appointed to work with Dr. Graham to conserve the health of Toronto children. Mentally defective children were removed to private schools where they could receive proper attention without interfering with the progress of others.

One night a number of Council women attended a picture show, taking care that the management of these should not know of their intention. They did not find one objectionable picture thrown on the canvas, but one little girl was found too young to sing and one man sang a suggestive song. Since then, more stringent measures had been adopted to keep little children from taking part in these entertainments.

An investigation at the isolation hospital showed that children had taken other diseases while there, and a plan for remedying this evil would soon be submitted.

The Council had also been instrumental in securing a bylaw for hastening the much-needed work of procuring a pure water supply. They believed that the loss due to the ravages of typhoid fever in one season was greater than the money needed to push the work to a more rapid completion.

The question of pure milk, always a vital one, had also been energetically dealt with, and with the best results. Sanitary conditions of the stables where cows were kept and milked had been looked into. Milk experts were engaged to test its purity and strength. Milk depots had been established and doctors had lectured to mothers on the importance to themselves and their children of a pure milk supply.

The unsanitary, over-crowded houses, found in many districts of Toronto, had been subjected to the search-light of energetic Council women, and as a result many of them had been pulled down and better ones erected. These houses were, as a rule, owned by people who lived luxurious lives from the high rentals received from them. The Council women had appealed for help from employers in erecting homes for working girls, of whom there were 40,000 in the city, \$50,000 was raised and one home built, and another proposed.

A good work had been accomplished in establishing playgrounds in Toronto. There were ten of these which had been opened within four years. The appointment of a good committee and young, energetic, and resourceful supervisors were always necessary adjuncts to the successful operation of these playgrounds. Mrs. Huettis advised that the matter be taken up in Victoria as soon as possible.

A hearty vote of thanks was tendered the speaker at the close of her interesting and instructive address.

### WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

THIRD RUGBY CLUB FORMED

WILL JOIN IN CITY SERIES THIS YEAR

Meeting of Secretaries of Local Fifteens Planned to Arrange Triangular Schedule

There will be a triangular Rugby schedule in Victoria this summer, the necessary third team having been successfully formed during the last few days, since publicity was given to the need through the sporting columns of the Times.

H. Grimason, who has been the prime mover in the formation of the third club, announced this morning that his efforts had been successful, and that his line-up was now almost complete, but he will still receive the names of new players wishing to join.

The new club is figured as strong enough to play the two city teams from which the Capitals were drawn last year. The Victoria Rugby Union will be applied to for admission, and a regular business meeting of the new team held for the election of its officers.

Mr. Grimason says his fifteen is strong, and will be able to take care of itself in the field this season. His early anticipations of a team have been fulfilled. In regard to the class of player available, however, he has done better than he expected, and will have on his list a number of English players who have recently come here to reside.

A meeting of secretaries of the three clubs, Victoria, Baye and the new one, will be called directly to arrange a schedule for the three-team league for this season.

SWIMMER'S FATAL BRAVADO.

As the steam trawler Dorando was returning to Grimsoy a fishing apprentice, in a spirit of bravado, said: "Watch me swim across the dock to Campbell's Jetty."

Dressed as he was in heavy sea clothes, he dived overboard, swam for about forty yards, and then sank and was drowned.

The dead youth, who was a powerful swimmer, is stated to be William Charles Shackle, aged nineteen, of Rothershithe.

BACHELORS GAIN A DRAW WITH BENEDICTS

Albion Cricketers Finish Season—Tunnard Makes Top Score and Gets Six Wickets

The Bachelors of the Albion cricket club on Saturday obtained a draw with the Benedicts of the same club. The latter, batting first, scored 106, and at the call of time the Bachelors had scored 84 for nine wickets. Tunnard, a married man, was top score with 33, and he upset six wickets of the single men. The scores were:

Table with 2 columns: Player Name and Score. Includes names like E. A. Duncan, R. C. Cooper, D. Hallam, etc.

Table with 2 columns: Player Name and Score. Includes names like H. A. Ismay, H. J. Anderson, A. H. Ackroyd, etc.

S. SGT. RICHARDSON WINS BY ONE POINT

Sgt. Major Caven, Winner of Spoon, Lacks Single to Win Leavell Gold Medal Also

At Clover Point on Saturday Sgt. Major Caven won the three-range shoot, 200, 500 and 600 yards, with a total of 98, but in the Leavell gold medal shoot was one point behind the score of Staff-Sergt. Richardson, who secured the medal with a total for both long and short ranges of 182.

Table with 2 columns: Player Name and Score. Includes names like Col. Serjt. Major Caven, Sgt. Carr, S. Sgt. Richardson, etc.

Table with 2 columns: Player Name and Score. Includes names like Gr. Stevens, Gr. Harness, Gr. T. Scott, etc.

RESULTS OF GAMES IN BASEBALL LEAGUES

AMERICAN

First Game. Boston 8 15 2 Detroit 5 13 4 Batteries—Collins, Hall and Carrigan; Summers, Louden, Works and Stanaage.

Second Game. Boston 2 2 1 Detroit 3 10 1 Batteries—Karger and Carrigan; Works, Donovan and Casey.

Philadelphia 4 9 1 Chicago 8 8 2 Batteries—Dygart and Livingston; White and Sullivan.

Philadelphia 2 14 1 Chicago 3 14 1

St. Louis 5 3 2 Brooklyn 4 7 2 Batteries—Steele and Phelps; Knitzer and Miller. (Ten innings.)

Vancouver 3 6 5 Tacoma 2 8 3 Batteries—Jensen and Lewis; McCammet and Byrnes.

Seattle, Wash., Sept. 26.—The cellar champions celebrated the end of the season yesterday by trimming the pennant winners in both games of a double header. In the first Young Rioridan, a Seattle boy, was tried out by the Indians. The score shows him up badly, but at that he pitched a good game considering his heartrending support. The feature of the game

was the number of double plays, five by Seattle and two by Spokane. The second looked like a walkaway for Seattle, when in the eighth the Indians, with the score 5 to 0 against them, fell on Chinault for six singles, which, with an error, netted six runs, putting the visitors one to the good, Zackert replaced Chinault. Seattle won in the eighth on two singles and a double. Scores:

First Game. Spokane 2 9 7 Seattle 9 9 1 Batteries—Riordan and Brooks; Hinkle and Hemenway.

Second Game. Spokane 6 12 2 Seattle 7 10 3 Batteries—Kratzberg and Brooks; Chinault, Zackert and Hemenway.

Tacoma 3 8 3 Vancouver 2 6 5 Batteries—Schmitz and Byrnes; Engle and Custer.

Tacoma 2 6 3 Vancouver 0 4 0 Batteries—Hall, McPadden and Blankenship; Erickson and Adams and Custer.

Vernon 1 10 2 Portland 1 4 4 Batteries—Macarbridge and Brown; Steen and Fisher.

Vernon 1 6 1 Portland 2 8 1 Batteries—Raleigh and Hogan; Gregg, Garrett, Boyce and Murray.

Los Angeles 0 7 3 Sacramento 1 10 1 Batteries—Delhi, Orendorf and Waring; Whalen and Lalonge.

Los Angeles 1 7 7 Sacramento 2 13 2 Batteries—Crizey and Orendorf; Waring, Arellanes and Lalonge.

Chicago 1 5 3 Philadelphia 3 8 1 Batteries—Walsh and Sullivan; Plank, Coombs and Livingston and Lapp.

Chicago 5 6 0 Philadelphia 2 2 5 Batteries—Lange and Payne; Coombs, Atkins and Lapp.

St. Louis 2 5 1 Washington 1 7 0 Batteries—Mitchell and Kuttler; Walker and Henry.

New York, Sept. 26.—Rochester won the pennant in the Eastern League, which closed yesterday. Newark was second. From a financial standpoint Rochester and Newark were most successful. Toronto finished fourth in the race and Montreal was fifth.

Windmills were invented by the Saracens, and none appeared in Europe until after the Crusades.

Cleveland, Ohio, Sept. 26.-As the result of a mysterious shooting in the home of Lawrence Distel here, Saturday Mrs. Martha Distel, 42, and Paul Mueller, a mail carrier, are dead. Distel's room, both shot through the heart. The police were summoned by the woman's husband, Distel was closely questioned but was not arrested. Statements were made by his young son and daughter. On the floor in one corner of the room in which the bodies were found was a .32-calibre revolver. All the chambers were empty. The bodies of the dead man and woman were found side by side on the floor. Distel was sleeping in a different part of the house. "I was sleeping when I heard the first shot," he told the police. "I ran to my wife's room and found her and Mueller dead on the floor. Then I called the police. My son and daughter grived in the room a moment after I did." Distel advanced the theory of a suicide compact. He said his wife sat on their porch until late last night and cheerfully discussed a proposed trip west. Genevieve Distel, the daughter, says she heard a man running away from the room after she was awakened by the shots. The theory of murder and suicide was advanced by the police this afternoon. The police believe that Mrs. Distel shot Mueller, then shot herself and tossed the pistol across the room where it was found. Coroner Boesger, who performed the autopsy, says this theory is impossible. The course of the bullets and the position of the wounds, he says, prove conclusively that neither Mueller or the woman fired the shots.

SEEK RELEASE OF BANKER. Petition and Letters on Behalf of J. R. Walsh Sent to President Taft. Washington, D. C., Sept. 26.-A move on the part of attorneys to secure the release of John R. Walsh, the aged Chicago banker, now serving a term in the federal prison at Fort Leavenworth for violation of the national banking laws, was begun Saturday. A motion petition was filed with the department of justice, asking President Taft to exercise clemency towards Walsh on the ground that the banker will soon be beyond the reach of human aid unless he is paroled. The petition itself contains 25 pages setting forth the case against Walsh. Accompanying the petition are thousands of letters asking the president to release Walsh. The letters are bound in 25 volumes, which will be forwarded to the president. The petition and letters set forth the fact that Walsh, who is 73 years old, is suffering from an incurable malady. All the living officers and directors of the "Walsh banks" have joined in the application for his release. The stockholders and every traceable depositor except one have signed the petition, all affirming that they did not lose a cent on discount of Walsh's alleged irregularities. When in Seattle. Enjoy your visit by stopping at the FAIRFIELD HOTEL, CORNER 8th AND MADISON STS. Table unexcelled. Popular prices. Headquarters for Victoria. T. S. BROPHY, Prop.

Imperial Bank of Canada. HEAD OFFICE, TORONTO. D. R. WILKIE, General Manager. CAPITAL AUTHORIZED \$10,000,000.00. CAPITAL PAID UP \$5,500,000.00. RESERVE FUND \$3,300,000.00. Victoria Branch, Corner Government and Yates Streets. J. S. GIBB, Manager. It's all in the Dust Bag. When you finish cleaning with the SANTO Vacuum Cleaner, all of the dust, dirt, grit, moths, and disease germs and other objectionable material is in the dust bag of the cleaner. You simply remove the cover of the machine, lift out the bag and empty its contents into the furnace, or scald it with boiling water. The SANTO is the simplest and most effective means of cleaning known. It does not matter how carefully you may clean by hand, you can go over your work immediately with the SANTO and the amount of extra dust and dirt it removes will amaze you. The SANTO is sold under a written guarantee bond which protects you fully. Verbal promises such as are given with other cleaners are in most cases worthless. The SANTO thoroughly renovates every article in your house. It makes your home really and truly dustless, clean and sanitary. It does away with the extra servant and keeps your home cleaner than you ever had it before, and at a cost of 10 cents per week. There are twenty different ways to use it. You will find it a daily necessity. FREE OFFER-We will clean a rug without cost to you. Your request on a postal or by telephone will bring our demonstrator. Send for a SANTO today and try it yourself. Hinton Electric Co. CITY OF VICTORIA. A complete list of Local Improvement Works, authorized by By-Law, from time to time, will be found posted on the Bulletin Board at the main entrance to the City Hall. Municipal Notice. The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable to construct permanent sidewalks of concrete on both sides of Collinson Street, between Cook Street and Trutch Street, and to construct curbs, gutters and boulevards (including maintenance) on said street, and that the said work shall be carried out in accordance with the provisions of the Local Improvement-General Bylaw and amendments thereto, and the City Engineer and City Assessor having reported to the council in accordance with the provisions of section 4 of said bylaw, upon each and every of said works of local improvement giving statements showing the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said works and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the council: NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the city assessor, City Hall, Douglas Street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the land or real property to be assessed for such improvement, and representing at least one-half of the value of the said land and real property, is presented to the Council within 15 days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by by-law in that behalf regulate and determine. WELLINGTON J. DOWLER, C. M. C. City Clerk's Office, Victoria, B. C., Sept. 25th, 1910. Police Clothing. TENDERS will be received by the undersigned up to 4 p. m. Thursday, September 29th, for the supplying of the following: 1 Sergeant's Winter Overcoat. 5 Constables' Winter Overcoats, same as samples in Purchasing Agent's office and to the satisfaction of the Police Commissioners. The lowest or any tender not necessarily accepted. WM. W. NORTHCOTT, Purchasing Agent. City Hall, Sept. 24, 1910. CIVIC NOTICE. Re Municipal Election, 1911. The attention of persons desiring to qualify as "Householders," or "Holders of Trade Licenses," to vote at the Municipal Election to be held on the 2nd Thursday of January, 1911, is drawn to Section 6 of the "Municipal Elections Act," which provides that "in the case of the holder of a trade license, or in the case of a householder, he or she, shall, during the month of October in each year, make, and cause to be delivered to the Clerk of the Municipality a Statutory Declaration made and subscribed before a Supreme or County Court Judge, Stipendiary or Police Magistrate, Commissioner for taking Affidavits in the Supreme Court, Justice of the Peace, or Notary Public, in form, and to the effect of Form 1 in the Schedule to the said Act in the case of the holder of a Trade License, and of Form 2 in said Schedule in the case of a householder." "HOUSEHOLDER" shall extend to and include any person of the full age of twenty-one years who occupies a dwelling, tenement, hotel or boarding house, who has been a resident in the Municipality from the first day of January of the current year, and who shall, unless exempted by the provisions of section (11) of Section 2 of Chapter 22 of the Statutes of 1906, being the "Municipal Clauses Act" as amended (which exempts certified efficient militiamen and persons over the age of 50 years from paying road tax), have paid directly to the Municipality all rates, taxes or assessments, which are not chargeable on land, which rates, taxes or assessments so paid shall amount to not less than two dollars, due to the Municipality for the current year, other than rates, taxes or license fees for dogs." Section 7 of the said Act further provides that "No declaration shall be accepted by the Clerk of a City Municipality, unless it be delivered within 48 hours after it is made." Section 13 further provides that "No person who is not a British subject shall have his name placed upon any Municipal List of Voters." Forms of Declaration may be obtained, and the necessary Declarations made, at

# FIT-REFORM SIZES

One reason for the constantly growing demand for Fit-Reform garments is the convenience of the Fit-Reform system of sizes.

Worked out on both mathematical and anatomical lines, this system enables every man to get Suits and Overcoats that fit as perfectly as if they had been made to his individual measurements by the Fit-Reform experts.

Select the Suit and Overcoat that appeal to your fancy, and we will guarantee that the fit will come up to your utmost expectation.

This certainty of satisfaction means much to the busy business man.

### SOCIAL AND PERSONAL

M. B. Carlin spent the week-end in Vancouver.

Mr. and Mrs. D. R. Ker and Miss Ker are week-end visitors in Vancouver.

Mrs. W. D. Allen and Mrs. H. G. Allen were hostesses of a very smart "at home" on Thursday evening.

Mr. and Mrs. Cole Owen have removed to Vancouver, where they will make their home in the future.

Mrs. A. Ellis, 1132 Pembroke street, will receive to-morrow and afterwards on the 1st and 14th of each month.

Mrs. Jenkins has returned from Winnipeg, whither she went with the deaf and dumb children of the province to place them in the institute there.

John P. Sweeney and Allan Clarke left on Saturday for a three days' hunting trip in Shawinigan Lake district.

Mrs. C. W. Bradshaw, Albany street, is receiving this afternoon and will be at home in the future on the fourth Monday of each month.

The engagement is announced of Mr. Thomas A. Cairns, deputy postmaster, and Miss Goddard, and their marriage will take place in October.

Sir Arthur and Lady Hazelrigg, with Miss Pelham Burn and Miss Roberts, who have been spending some time here, returned last night to the mainland.

The marriage of Mr. Edward Pedersen to Mrs. Elizabeth Jane Pasco took place at the Methodist parsonage, Johnson street, on September 24. Rev. T. E. Holling officiating.

Mrs. George Woodward, 61 Oswego street, who has undergone an operation at St. Joseph's hospital, is progressing favorably but will not be able to receive visitors for a few days.

Much sympathy is felt for Rev. W. Leslie Clay and Mrs. Clay in the serious illness of their son, who is suffering from a form of spinal meningitis and will not be out of danger for some time.

John Oliver, of the customs staff, has returned from the east, where he spent his holidays, seeing the Toronto exhibition and also visiting Guelph, London, Detroit and Saginaw City, where his sister resides.

The Vancouver Island Arts and Crafts Club have issued invitations to His Honor the Lieutenant-Governor and Mrs. Patterson to take afternoon and tea in the Woman's building during the opening ceremonies of the fair to-morrow.

Sir Joseph Bampfyde Fuller, K. C. S. L., of the Indian civil service, who was the first Lieutenant-Governor of Eastern Bengal and Assam, and has held other high offices, intends to spend the greater part of the week hunting on Vancouver Island.

At the marriage of Miss Erma G. Warwick and Mr. Herbert J. Pendray, which takes place on Wednesday at 7 p. m. in the Metropolitan Methodist church, the bride will be attended by Miss Blanche Richards as maid of honor, two bridesmaids, Misses Sara and Ada Spencer, and two little flower girls, Miss Ethel Bale and Miss Dorothy Pendray. Mr. Roy Pendray will be the best man. The ushers will

Platinum Diamond Set Jewelry

EXCLUSIVE DESIGNS

A most exquisite assortment of Rare Platinum Jewelry is to be seen here.

Many new and novel designs are shown in Pendants, Earrings, Finger Rings and Plaques.

When purchasing from us you are assured of getting an exclusive design, as we set all the stones ourselves, while another feature is that we are the only firm selling these in Victoria.

**Challoner & Mitchell**  
Co., Ltd.

JEWELLERS.  
307 Government St., Victoria, B. C.

Mr. Burt Richards, Tacoma; Mr. Victor Spencer, Vancouver; Mr. R. E. Boyne, Mr. E. Case and Mr. J. Woolcock.

Earl and Countess Bathurst left on Saturday afternoon for Ottawa, where they will spend some time before proceeding home. Earlier in the day they went out fishing with H. D. Helmcken, K. C., and both were successful in catching large cohoes. Afterwards they were taken through the Todd cannery at Esquimalt.

Henry L. Hartmann, Cook street, captain of the High School cadet corps for three years past, left yesterday afternoon for Seattle on his way to Chicago, where he will attend the courses of the Northwestern Dental College. He was given a send-off by the corps at an informal gathering at the High school when Lieut. Mulcahy and Principal Willis expressed their sense of the loss the corps sustains.

Mrs. J. McB. Smith gave a very smart tea on Saturday afternoon in honor of her daughter, Miss Ruby Smith, whose marriage will take place very quietly on October 5. The floral decorations were most effective. The reception hall was gay with garlands of autumn foliage, the drawing room, decorated by Mrs. G. E. Wilson, was very bright and pretty with quantities of yellow flowers and autumn foliage, and the tea-room, done by Mrs. Wolfenden, was very dainty and appropriate in a white and green scheme, carried out with white asters and similar. Miss Thain's orchestra was in attendance, and furnished a musical programme which was much enjoyed.

Wish I could lend you my experience for this important performance of getting a position. Then again, maybe it would make you too cranky and critical and you'd get along better without it. Here's hoping anyway.

But whatever kind of blank or prize you draw in the lottery, niece, be sure to write straight off quick about it to Your Absorbingly Interested Old Aunt.

*Ruth Cameron*

**HAIR SLAUGHTER**  
**KILLED BY NEGLIGENCE**

Hair must have nourishment or die. If it does not have proper nourishment it will lose its vitality, grow weak, and become an easy prey to the ravages of the vicious and destructive germs of dandruff.

Parisian Sage is a hair nourisher; it is the result of sincere study and experiment by one of the world's leading scientists.

It should be used regularly as a hair dressing by everyone with healthy hair, because it never fails to prevent dandruff, falling hair, or any scalp disease.

But Parisian Sage is not only a preventive it is a certain cure for dandruff; it stops itching of the scalp instantly; it makes hair grow thick and luxuriant. It is especially in demand by ladies, because it makes the hair beautiful, soft and fluffy. D. E. Campbell, the druggist, sells it under a positive guarantee to do all that is claimed for it, or money back, 50 cents for a large bottle.

**LOVE IN A MOTOR CAR.**

Tastefully Fitted Up Service Takes Berlin by Storm.

The honeymoon railway carriage has now lost its novelty, and the Berlin newspapers are heralding the arrival of golden-lined motor-cars for courting couples.

They are special cars for two only at special prices. That the tariff is not prohibitive, however, is proved by the fact that the demand has far exceeded the supply. The cars are tastefully furnished inside with mirrors and other fittings, and in front hang pretty baskets of fresh flowers.

The run of these cars has been so great that other taxi-cab owners have begun trying to clothe their cars with a like atmosphere of romance. They have hung flower-vases in front as a bait for lovers, and instructed the

drivers to replenish them with sweet-smelling exotics from time to time.

**AN ADVANCE FALL MODEL.**

Above cut shows one of the new fall models in coat suits. The skirt is one of the straight scant variety, while the coat reaches to knee depth. The latter, a double-breasted affair, buttons well to the left and has strapped side pockets ending in scroll design. The material used for this suit is a dark blue cloth, with inlaid collar of black and white striped velvet.

**OTHERS SAY SO**

Yes, others have come forward and admitted that we supply them with the best Milk and Cream they ever had.

Are we supplying you? If not, we respectfully solicit a trial order.

## The Evening Chit-Chat

BY RUTH CAMERON

Dear Niece Joan: Is it possible that in two or three weeks you will actually be through with that school and ready to begin earning that bread and butter in earnest?

Well, my child, let me give you one piece of advice as emphatically as I possibly can. Don't be too ready.

Of course, I know you are anxious to begin using all that newly acquired knowledge, but a few weeks or a month or two spent in resting and taking your time about getting a really good position, isn't going to send you to the poor farm.

And by the right position, I don't mean the one where you'll get the most money immediately. There are several things more important than your initial salary. One of them is the salary you can get later.

There are lots of places where the business simply can't pay a stenographer over a certain amount. I know a girl who went to one of these places eight years ago at ten dollars a week. She was a good stenographer and a very clever business woman. With her ability she ought to be getting at least twenty or twenty-five dollars a week now, but she's getting just fourteen.

Now, I learned a good deal about the details of the business and is almost invaluable to them, but they can't pay her more because the money simply isn't there. There wasn't a great deal of dictation so her stenography has gotten rusty, and the business details learned there wouldn't do her much good elsewhere, so I imagine if she took another position she would hardly get more than ten or twelve dollars.

That's the kind of place to keep out of, niece, no matter if the initial salary is pretty good.

I have two stenographers and one clerk working for me now, Joan, so maybe what I'm going to say next will sound rather queer; but I'm going to say it just the same. Don't get a place where you have to work for a woman. I don't like to go back on my sex, but honestly compels me to admit that women are usually about half as pleasant to work for as men. A man boss never thinks of being jealous, because no matter if you do three-quarters of his work, he's too conceited to even consider you as a rival, but a woman boss is perpetually afraid you're going to creep up on her, and she has to be perpetually showing her superiority. As you value your peace of mind and your chance of success don't get a position where you have to work for a woman.

Don't take a position without inspecting the material conditions under which you are to work. I know a girl who refused a good position with chances for advancement, for just one reason — artificial light. I think she did right. Obliging anyone to work by artificial light ought to be forbidden by law, just as making girls stand up all the time at their work is prohibited in some states. But as long as it isn't, make that your own law.

See what kind of a typewriter you're going to have. There's no worse handicap than a poor machine.

And last, if you are to work for one man, pick that man carefully. In some ways, a business man and stenographer is a closer relation than man and wife. It can't help but be. Many business men see their stenographers eight hours a day, their wives four.

Wish I could lend you my experience for this important performance of getting a position. Then again, maybe it would make you too cranky and critical and you'd get along better without it. Here's hoping anyway.

But whatever kind of blank or prize you draw in the lottery, niece, be sure to write straight off quick about it to Your Absorbingly Interested Old Aunt.

*Ruth Cameron*

**HAIR SLAUGHTER**  
**KILLED BY NEGLIGENCE**

Hair must have nourishment or die. If it does not have proper nourishment it will lose its vitality, grow weak, and become an easy prey to the ravages of the vicious and destructive germs of dandruff.

Parisian Sage is a hair nourisher; it is the result of sincere study and experiment by one of the world's leading scientists.

It should be used regularly as a hair dressing by everyone with healthy hair, because it never fails to prevent dandruff, falling hair, or any scalp disease.

But Parisian Sage is not only a preventive it is a certain cure for dandruff; it stops itching of the scalp instantly; it makes hair grow thick and luxuriant. It is especially in demand by ladies, because it makes the hair beautiful, soft and fluffy. D. E. Campbell, the druggist, sells it under a positive guarantee to do all that is claimed for it, or money back, 50 cents for a large bottle.

**LOVE IN A MOTOR CAR.**

Tastefully Fitted Up Service Takes Berlin by Storm.

The honeymoon railway carriage has now lost its novelty, and the Berlin newspapers are heralding the arrival of golden-lined motor-cars for courting couples.

They are special cars for two only at special prices. That the tariff is not prohibitive, however, is proved by the fact that the demand has far exceeded the supply. The cars are tastefully furnished inside with mirrors and other fittings, and in front hang pretty baskets of fresh flowers.

The run of these cars has been so great that other taxi-cab owners have begun trying to clothe their cars with a like atmosphere of romance. They have hung flower-vases in front as a bait for lovers, and instructed the

drivers to replenish them with sweet-smelling exotics from time to time.

READ THE DAILY TIMES

How to Decorate Your Home

A serious problem until you consider the one thing that makes your rooms lighter and brighter—gives harmonious and beautiful color-schemes that will set off furniture and pictures to greatest advantage.

HALL'S Sanitary Washable DISTEMPER

Sold in variety of shades—the most expensive is no higher in price than the cheapest. In conjunction with Hall's Distemper Friezes the most charming effects may be obtained.

The Drawing Room: Ideal shades would be the lovely lavender greys, sunshine reflecting yellows and creams or the delicate greens.

The Dining Room: Secure as cheerful surrounding as possible in rich, deep colorings. We have many splendid suggestions.

The Library: Choose a restful neutral color, say, dull olive green or brownish grey. The ceiling if in cream or faint grey will soften the light without darkening the room.

The Bedroom should be decorated in light and bright style; your favorite color easily chosen.

The Nursery: A greyish green is an exceptionally good shade for the children's eyes. Varnish the lower three feet to darken it and soften the light on the level of the eyes.

The Kitchen: Use one of the many light tints for the walls with darker shade of same color as dado; varnishing will give the desired darker shade and great resistance round sinks, etc., where wear and tear is heaviest.

Hall's Distemper is made in two qualities; the outside quality is weather resisting and can be used on wood, work, iron work, brick work, stonework, etc. Come in and ask us for Booklet giving useful hints on decorating. Mailed free on request.

Melrose Co. LIMITED 618 FORT STREET Telephone 406.

DECLINED TO COMMIT SUICIDE.

General Gagerin, an eminent officer of the German army, has just been involved in a painful scandal, the details of which have aroused indignation throughout Germany.

It is stated that some of his brother officers went to him and requested him to commit suicide, saying that self-destruction was the only way in which he could wipe out the stain of the character of the German Official Corps left by his failings.

REDHILL IN FOG A WHOLE WEEK

BANK LINER ARRIVED FROM ORIENT TO-DAY

Has 3,000 Tons of Cargo, Including Silk Shipments—Eleven Months From Home

Eighteen days from Yokohama with 3,000 tons of cargo for Victoria and Puget Sound the steamship Redhill, Capt. H. E. Dowell, arrived in port this morning. The Redhill, which is under charter to Andrew Weir & Co., and took the place of the Suverie on the Bank line, experienced fine weather on the trip across the Pacific until last Monday, when dense fog was encountered.

The Redhill brought a miscellaneous cargo, including valuable shipments of silk, containing 150 bales, one of which was landed here. The local cargo amounted to about 80 tons and was made up of curios, Oriental provisions and various foodstuffs considered delicacies by the Chinese and Japanese.

After discharging her local cargo the Redhill will leave for the Sound this evening. The steamship has been eleven months away from the Tyne and is now chartered for a voyage to the Orient. Leaving the Tyne she loaded at Hamburg, Antwerp and London for the Cape of Good Hope, the crew expecting to be home again in four months. From Cape Town the Redhill carried coal to Bombay and later loaded at Calcutta for Boston and New York via the Suez canal.

VESSELS COLLIDE IN THE ST. LAWRENCE

C. P. R. Steamer Montcalm and Collier Crown Prince Olaf Are Damaged

Quebec, Sept. 26.—Both the Canadian Pacific steamer Montcalm and the collier Crown Prince Olaf were badly damaged through coming into collision. The accident happened at a place called Channel Patch, located between thirty and forty miles below Quebec. The Montcalm, with a general cargo, while the Crown Prince Olaf was outward bound.

SINKS AFTER COLLISION.

Port Huron, Mich., Sept. 26.—The 7,000-ton steamer Dan H. Hanna, owned by the Pioneer Steamship Company of Cleveland, was sunk in the St. Clair river in the Canadian channel, opposite this city, Saturday night. The Hanna, up-bound with coal, collided with the Harvey H. Brown, and went to the bottom in shallow water. The Brown was badly damaged, but succeeded in docking at Sarnia. No one was injured.

The Osaka Shosen Kaisha announces that the steamship Canada Maru, which will be the last of the six vessels ordered for the Victoria and Puget Sound service, will arrive here on June 1st next year from Yokohama. The first of the O. S. K. liners to make this port will be the Tacoma Maru, which is due on October 6th.

FOG DELAYS STEAMER CHESLAKEE OFF COAST

New Union Vessel Named After Abandoned Indian Village on This Island

On her way to Vancouver from Bel- fast via River Plate, Callao and San Francisco, the little steamer Cheslakee, built for the Union S. S. Company, of Vancouver, for use on the logging camps' run, passed up last night, Capt. Starkey reported a foggy trip from the Columbia river, the Cheslakee having left San Francisco last Tuesday and made slow time on the last leg of the voyage.

Considerable work in the way of interior-fittings and equipment for passenger trade remains to be done on the steamer, which will not be placed in service for some time. "Cheslakee" the name given to the new steamer, has been a puzzle for many shipping men, who have never heard the word before, although acquainted with many Indian names. In the various shipping guides the steamer has been variously credited with "Cheslakee," "Cheslake," and "Cheslakey," while waterfront readers have contented themselves with the compromise of "Chesecake." In the valuable volume, "British Columbia Place Names," compiled by Capt. Walbram of the Dominion government marine and fisheries department, Cheslakee is given as the name of an Indian village which formerly existed on the Nimpkish river, Broughton strait, Vancouver island. The village was visited by Capt. Vancouver in 1792 and Cheslakee was mentioned in his journal and adopted on his chart. The Indian name of the place has since been known to be Whuk. The terraces where the houses stood can be seen on the west bank of the river, but the village has long since been abandoned by the Indians, who have removed to Alert Bay.

MOVEMENT OF VESSELS

(Times Leased Wire.) ON THE COAST. Seattle—Arrived: Steamer Tallac, from San Francisco; sailed: Steamer Alameda, for Valdez; steamer Prince Rupert, for Prince Rupert; steamer Buckman, for San Francisco; steamer Tampico, for San Francisco. San Francisco—Arrived: Steamer Spokane, from Victoria; steamer Fortuna, from Seattle; steamer Helene, from Newcastle, N. S. W.; ship Kinross-shire, from Newcastle, N. S. W.; ship Prince Robert, from Hamburg; sailed: Steamer Fair Oaks, for Seattle.

GENERAL

New York—Arrived: Steamer Baltic, from Liverpool; steamer Columbia, from Glasgow; steamer La Touraine, from Havre; steamer Kaiserin Augusta Victoria, from Hamburg. Montreal—Arrived: Steamer Laurentic, from Liverpool.

MARINE NOTES

After recharging beacons in the Gulf the D. G. S. Newington has returned to the marine and fisheries wharf. The British steamer Greystone Castle, bound to Vancouver from Antwerp, is reported arriving at San Francisco.

The steamer John L. Card, which arrived yesterday, brought over a shipment of hay and wheat from Seattle and a small steamboat consigned locally.

The new U. S. government life-saving station at Neah Bay, which was largely built by Indian labor, is now completed.

On her way to Hongkong via Japanese ports the N. Y. K. liner Tamba Maru is scheduled to leave here tomorrow afternoon.

The Australian steamship Hermine, which left for Boat Harbor to coal on Saturday afternoon, passed out at noon to-day to load coal at Gray's Harbor.

The Canadian-Australian liner Makura is scheduled to leave Sidney, N. S. W., to-day for this port. She will sail from Brisbane on the 29th and is due here October 19.

Considerable anxiety is felt in Seattle for the trading schooner Martha Wilkes, which cleared from Nome for Siberia several weeks ago and is now five weeks overdue. The vessel is owned by the Arctic Trading Co., of Siberia, and the general manager is M. Tallentire, of Seattle.

THROUGH WHIRLPOOL.

Ontario Man Claims to Have Made Trip Several Times. Niagara Falls, N. Y., Sept. 26.—Bobby Leach, of Niagara Falls, Ont., Saturday made a trip through the whirlpool rapids in a barrel, starting from the Old Maid of the Mist and landing at Centerville bridge. Except for a few scratches and bruises Leach, who claims to have made the trip several times before, was unhurt.

Leach entered the rapids at 3:57 and went through them in three minutes, riding the tremendous waves smoothly. The great waves caught the barrel and hurried it clear of the water, but it righted itself nicely and went on to the whirlpool without mishap. Five times the barrel circled the whirlpool, keeping close to the outer edge, away from the vortices. At the south end of the pool it was caught in an inshore eddy and floated in close enough to be caught with a pole at 5:05.

The only one of the barrel navigators to be killed in a similar trip was Maude Wilford, who suffocated in her barrel September 7th, 1907. She was in the whirlpool for five hours.

THE DELICIOUS FLAVOR OF Apollinaris Water COMBINED WITH ITS PERSISTENT EFFERVESCENCE And Valuable Digestive Qualities Accounts for its Ever Increasing Popularity

MAY SETTLE DISPUTE. Lockout in Cotton Mills Will Probably Be Averted.

Manchester, Eng., Sept. 26.—The dispute between the cotton manufacturers and their employees is now in a fair way of settlement. At a meeting of the Cardroom amalgamation it was decided to submit for arbitration the questions at issue, which threatened a lockout in the entire cotton trade on October 1st. For a long time there has been a dispute between the owners of the Fern mill at Oldham and their employees, because of a new arrangement of working conditions. A few days ago the Federation of Master Cotton Spinners decided to enforce a general lockout, affecting directly 150,000 operatives, unless the Fern mill question was settled. This decision followed the refusal of the employees to submit the matter to an arbitration committee.

FUNERAL PARTY DROWNED.

A sad accident occurred to a funeral party at Stainforth, near Doncaster, recently, resulting in the death of three women and a boy.

A party from Thorne had attended the funeral of William Barton, and were returning home when the driver of the vehicle got out to open two gates leading to a bridge over the river Don. The horse suddenly shied and rolled down an embankment with the vehicle and its occupants, four of whom were precipitated into the water and drowned.

## POULTRY MEN ORGANIZE PROVINCIAL BREEDERS FORM ASSOCIATION

### Laudable Aims of the New Body Outlined by the Executive

There has recently been organized an association for the benefit of the poultrymen of British Columbia. This British Columbia Poultry Association has been organized for the purpose of fostering poultry-raising throughout every part of British Columbia, and placing the industry on a more substantial working basis. Probably there has seldom been so much interest shown in poultry as within recent months. However, there is great room for improvement and the association is endeavoring to secure a larger membership in order that it may be more effective and accomplish more than it otherwise might.

Never before in the history of the production of eggs, flesh, and feathers has there been so much interest as within the past few months. Local poultry associations and poultrymen generally seem to be taking to the fact that there is a future before us. Undreamed of possibilities of the past are being realized at the present and even the most sanguine must be convinced that still better results may be obtained under improved methods.

The most successful poultrymen in all parts of the province have proved that, under proper conditions and with careful and efficient management, poultry raising is a paying proposition, a more profitable industry than many others, some of which have been "boomed" for years. Poultry associations and individual poultrymen have not been given the encouragement they deserve. Those engaged in the business of poultry-keeping have gone through dear experiences and have overcome many obstacles; they have had to work out their own salvation while the government stood aloof and the public were suspicious of possible profits.

But now they enter upon a new era with a broad and promising field. The British Columbia Poultry Association was organized for the benefit of every poultryman in the province; it was organized to strengthen the working power of the local associations; it was organized for the purpose of bringing the government into closer touch with the poultrymen in order that the government might be better able to understand and appreciate their needs. The work which will be taken up by the provincial association will be of a very broad character, and will cover every phase pertaining to the poultry industry. Its primary object is naturally that of education, to educate the public to adopt improved methods in poultry breeding in order that the returns for the money and labor expended in poultry keeping may be greater than under present conditions. The returns of the poultry keeper should be greater, and one object of the Provincial Poultry Association will be to aid all poultrymen in every possible way. It will seek to disseminate throughout the province a thorough knowledge of proper methods of rearing domestic fowl. Its chief aim will be to secure a more widespread interest in thoroughbred poultry. It is also expected that within a year or two it will hold a provincial poultry show, which should prove to be one of the largest and best in Canada.

The following questions will give some idea of the nature of the work undertaken by this new association:

1. About 50 per cent. of all poultry products come from the farm. How can this association interest the farmers who are now keeping scrub stock in standard-bred poultry?
2. How can we educate the farmer to produce and care for more and better poultry?
3. Do we need a standard for market poultry and eggs as well as a standard for exhibition stock?
4. What about the adoption of a utility standard—as applied to the production, judging and selling poultry meat and eggs?
5. What can this association do to encourage co-operation in the marketing of poultry products? What are some of the best methods to adopt?
6. Suggestions concerning the selling of cold storage eggs and poultry meat as fresh products. Imported eggs are also sold, as fresh eggs.
7. Cheaper and better grades of feed?
8. Suggestion re the arrangement of our annual poultry shows into a circuit which will allow of the securing of the most competent judges for all shows at a minimum expense.
9. Revision of prize lists. Why not adopt a "sliding scale," i.e., the prize money to be in proportion to the entries? Number of entries also controlled by number of exhibitors. Are cash prizes the means of stimulating healthy competition? Are not ribbons and cups of greater value in encouraging healthy competition, and will they not tend to more readily establish our annual poultry shows as educational and advertising features rather than as a present where birds compete for petty cash prizes?

Everyone interested in poultry should become a member of the Provincial Poultry Association. Membership may be secured by the payment of an annual fee of \$1, addressed to the secretary, M. A. Jull, Victoria, B. C.

There are three important reasons for becoming a member. 1. Those who join will help in building up the business of breeding, making better the business of producing pure-bred poultry.

## PILES

Dr. Chase's Ointment is a certain and guaranteed cure for every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. Sold at all drug stores. BATES & CO., Toronto.

**DR. CHASE'S OINTMENT.**

try, and increasing the demand for these products. 2. The association doubtless will lead to a movement to place poultry production on a more economical and better basis, and thus produce better conditions. 3. The publications of the association alone will much more than repay the cost, as from them the breeders will learn many new things helpful in their own lines of breeding.

There will shortly be published the first annual report of the association, which should be in the hands of all the poultrymen of the province. This will contain the proceedings of the convention which was held in August at the time of the Vancouver show, as well as many valuable articles from the leading poultry experts and authorities throughout America. It will also contain a directory of the poultry breeders of British Columbia. This directory will contain the names and addresses of all poultry breeders who are members, with the varieties and the breeds of fowl they are breeding. This directory alone should be worth much more than the annual membership fee, as in this way poultry breeders throughout the province will be brought into close touch with one another.

The Successful Poultryman is the official organ of the B. C. P. A. Membership for the director should be in not later than October 1st, as the report is then going to press, and any members who are desirous of having their breeds of fowl entered in the directory must do so before the 1st of October.

## PRIZE WINNERS AT DUNCAN SHOW

### Awards at the Annual Exhibition of Cowichan Agricultural Association

(Special Correspondence.)  
 Duncan, Sept. 24.—The annual fair of the Cowichan Agricultural Association which opened yesterday, was continued to-day. Prizes were awarded at the opening day as follows:

 Room 4 New Sylvester Building.

## DIRECT FROM ENGLAND

STOREKEEPERS' EXPENSES ABOLISHED. The "MIDDLEMAN'S" PROFIT CUT AWAY. Wearers can now import their own boots direct from England, thus saving all intermediate and unnecessary dealers' profits. By this means you can obtain your boots at the same price that the local storekeeper himself has to pay, and you keep the profit in your own pocket instead of putting it into his. Expressions of delight at the marvellous value of our goods are reaching us from all parts of Canada.

### ASTOUNDING SAMPLE OFFER

By England's Leading "Boots-by-Post" Experts  
 A GREAT OPPORTUNITY FOR CANADIAN RESIDENTS.

On receipt of Postal Order for value of goods and cost of postage, we will send a "Sample" pair of our famous "Footbags" boots direct from the factory at factory prices. Every pair is a triumph of the bootmaker's art, and a revelation in the matter of downright solid value.

#### OUR GUARANTEE.

Each pair of boots sent from our factory carries our guarantee—that every penny of your money shall be immediately returned if you are not fully satisfied that they are 50 per cent. better value than you can obtain locally.

#### Our 128-page BOOT CATALOGUE

will be sent free on receipt of 2d. to cover cost of postage only. This is far and away the best "Boots-by-Post" List published.

#### DESCRIPTIONS.

No. 1617.—BOX CALF BOOT, 8/6.—Splendid Box Calf Uppers, straight gaiters, no outside seam, unbreakable, laced back, toe-capped (as illus.), best lined, specially selected, hard wearing solid leather sole, sewn. Best make and finish throughout.

No. 1717.—GLACE KID BOOT, 8/6.—Exactly same style and quality as above, but slightly lighter in weight.

No. 1417.—BROWN WILLOW CALF BOOT, 8/6.—A magnificent boot. Rich nut brown shade and warranted real "Willow" calf.

(Amount necessary to remit \$2.50.)

The "Barratt" System of Sizes and Widths. Gentlemen's "Footbags" boots are made in eight different sizes: 6, 6 1/2, 7, 7 1/2, 8, 8 1/2, 9, 9 1/2, 10, 10 1/2 (size 12, 1/2 extra). Each size is made in four different widths: No. 3 (width for slender feet); No. 4 (medium); No. 5 (wide); No. 6 (extra wide).

Altogether you have 32 different sizes and widths to select from.

ADVERTISE IN THE TIMES

### Read This!

**It Will Save You \$200.00**

This beautiful new 5 room California bungalow, wide verandah, hall, parlor and dining room, fitted with beam ceilings, dining room with very fine built-in side-board, with bevel plate mirror, plate rails, burlapped walls, etc. Built-in window seats and closets in bedrooms; enamel bath tub, etc. Very fine electric fixtures, with switches, etc. Wood lift from basement. Complete with furnace; blinds, linoleum; light fixtures, kitchen range attached to hot water tank, etc. The lot has a 50-foot frontage running to point at rear 11 ft. 6 in. deep. One block from car and inside mile circle.

**PRICE, \$3,200**  
Arrange Terms.

### Read This!

**MUST BE SOLD! Reduced \$850**

This beautiful 8 roomed house, on two corner lots on wide part of Pandora, one block from cars, fine wide verandah, music room about 15x25 ft., beam ceilings of very finest cedar. Same finish in wide halls; fire-places, built-in cupboards, bins, drawers, wash tubs, etc; furnace in basement. This house was held at \$7,850 and has been cut down to only \$7,000 as it MUST BE SOLD as owner is leaving city.

**PRICE, \$7,000**

**See This House for \$5,500**

One hundred and fifty feet from Oak Bay Ave., commands very fine view. Splendidly large rooms. It is new. Can be bought on easy terms.

**\$2,100 Per Acre**

Will buy a 5-acre tract, 1 block from Oak Bay avenue and east of Foul Bay Road. This contains some rock, but of a level nature that will not prevent subdividing to advantage. It is offered on terms at this absurdly low price. Lots in adjoining block held at \$800 each.

**Half An Acre**

Of first class building lots, high and dry, with beautiful view of city. Only four minutes from car line, with frontage on two streets. Splendid opportunity for an investment. Will accept \$1,000 cash or \$1,200 on terms.

## Pemberton & Son

Cor. Fort and Broad Streets, Victoria

### Harbinger Avenue

A fine building site, on best part of the street, lot 50x148, high and dry with good view of mountains and straits; close to new school and car line. This street is shortly to be asphalted and boulevarded like Linden avenue, which is the next street West; cement sidewalks, sewer and so forth already on the street. If you are thinking of building or as a speculation it would certainly pay you to investigate this, as this lot will be worth \$2,000 by next Spring.

**PRICE \$1,500. ON EASY TERMS**

### NATIONAL REALTY CO.

Phone 1165. A. S. ASHWELL, Mgr. 1232 Government St.

### Bargain

**FIVE ROOM COTTAGE** and furniture; new and modern, with 2 lots facing on 2 streets and close to water, with good view, near carline.

**Price \$3,000**

Terms to Arrange.

This is a good buy, as house alone is worth \$3,000, therefore owner is giving the furniture away.

### ENGLISH LANGUAGE OFFICIAL IN CHINA

Natives From Different Provinces Use it as Medium of Conversation

The Prince Regent of China, by imperial decree, has made English the official language in all Chinese schools of "modern learning." The effect cannot but be far reaching in making English more than ever a lingua franca, a world language, and the indirect help to missions, which are themselves in a very real sense the original causes of the decree, must inevitably be very great also. The necessity of providing some standard medium for education in the sciences and the arts had long been pressing in China. A memorial of the ministry of education, in which the Prince Regent bade his decree, expressly recognizes the inadequacy of Chinese to render technical and scientific terms, notes the incongruities that have arisen through the rivalries of foreign trained instructors and says the time has come for uniformity. English, it continues, was the first of foreign languages introduced in China; it is most widely used there and in the world. Most imported text books are in English. "It is therefore proposed that in the different schools teaching technical and scientific subjects the English language be adopted. In the case of schools which do not now include foreign languages in the curriculum they must in the future be taught. The study of foreign languages is to be made compulsory in those schools where they are now optional. "In all provincial high schools (scientific and technical) already existing or established in the future the studies (with the exception of ethics, Chinese literature, history and geography) pertaining to science shall be taught in English. When the students are sent to Peking for final examination after graduation they shall be examined through the medium of the English language. "Even now it is not uncommon to hear two Chinamen from different provinces using English as the medium in conversation, for through the written language is alike throughout China the speech differs widely. The common knowledge of English may thus come in the future to play an important part in building up a national consciousness.

### BRIGHT'S DISEASE

Late estimates on the percentage of recoveries under the new emollient treatment for Bright's Disease are as follows: "Even now it is much weaker and crises may be expected in from five to ten days, probably not more than 10 per cent. to 20 per cent. recover. Where physicians aid with efforts to restrain fatal symptoms this percentage is increased. In cases where patients have from thirty to sixty days of life the efficiency is very much higher. "Where patients do not well until bed-ridden probably three-fourths recover. "And in cases that take the new emollient treatment on the appearance of the disease nearly all recover. Where physicians aid with efforts to restrain fatal symptoms this percentage is increased. In cases where patients have from thirty to sixty days of life the efficiency is very much higher. "Where patients do not well until bed-ridden probably three-fourths recover. "And in cases that take the new emollient treatment on the appearance of the disease nearly all recover. Where physicians aid with efforts to restrain fatal symptoms this percentage is increased. In cases where patients have from thirty to sixty days of life the efficiency is very much higher. "Where patients do not well until bed-ridden probably three-fourths recover. "And in cases that take the new emollient treatment on the appearance of the disease nearly all recover. Where physicians aid with efforts to restrain fatal symptoms this percentage is increased. In cases where patients have from thirty to sixty days of life the efficiency is very much higher. "Where patients do not well until bed-ridden probably three-fourths recover. "And in cases that take the new emollient treatment on the appearance of the disease nearly all recover. Where physicians aid with efforts to restrain fatal symptoms this percentage is increased. In cases where patients have from thirty to sixty days of life the efficiency is very much higher. "Where patients do not well until bed-ridden probably three-fourths recover. "And in cases that take the new emollient treatment on the appearance of the disease nearly all recover. Where physicians aid with efforts to restrain fatal symptoms this percentage is increased. In cases where patients have from thirty to sixty days of life the efficiency is very much higher. "Where patients do not well until bed-ridden probably three-fourths recover. "And in cases that take the new emollient treatment on the appearance of the disease nearly all recover. Where physicians aid with efforts to restrain fatal symptoms this percentage is increased. In cases where patients have from thirty to sixty days of life the efficiency is very much higher. "Where patients do not well until bed-ridden probably three-fourths recover. "And in cases that take the new emollient treatment on the appearance of the disease nearly all recover. NOTICE. IN THE ESTATE OF CAROLINE AGNES McDONALD, DECEASED. All persons having claims against the estate of the above named deceased are required to send particulars thereof, duly verified, to the undersigned on or before the last day of September, 1910.

BIG DEPOSITS OF ASBESTOS IN LARDEAU Splendid Specimens From Property on Poplar Creek Are Taken to Nelson Nelson, Sept. 24.—C. O. Woodrow, who is interested with E. W. Widdowson in the Asbestos mine on the west slope of Poplar creek in the Lardeau country, has brought into the city some exceptionally fine samples of almost pure asbestos. It was from this property that specimens won a diploma at the recent Vancouver fair and the Asbestol group is, incidentally, the only asbestos mine in Canada with the exception of a number of properties in Quebec.

ZINC ORE PRODUCTION. Nelson, Sept. 24.—At the last meeting of the city council Mayor Selous referred to the establishment of a zinc smelter at Nelson by French's Complex Ore Reduction Company. Mr. French had been introduced to him by Mr. Teetzel, government agent, and stated that the company wished a lease of six or twelve months of the old power station on Cottonwood creek. The process required, it seemed, direct current electricity, and therefore the current from the Bonington Falls power plants could not be used. Using water from the old flume Mr. French would install his own direct current generators and bear all expense himself.

RIGHT OF THE ROAD AROUSES DISCUSSION By-Law to Regulate Vehicular Traffic Comes Before Vancouver Commissioner Vancouver, Sept. 24.—The new by-law was proposed with a view to regulating vehicular traffic, received the consideration of the fire and police committee, several deputations attending to make suggestions as to the best way to effect a harmonious agreement with all parties concerned. The teamsters, the automobile association and the light rig owners, were represented, as were also the B. C. E. R., and in the case of the latter's application a few words were inserted in the clause which prohibits the impeding of street cars, the addition not to drive along or across the tracks impeding the cars, being made. Outside of this the by-law as drafted by the civic legal department, simply aroused discussion, no definite agreement satisfactory to the general driving fraternity being arrived at.

F. E. MITCHELL & CO. Real Estate, Timber, Mines, Northern B. C. Lands. Room 2, Foster Block. Phone 2529. ELLISON TOWNSITE LOTS. VICTORIA MONEY MAKERS. DOUGLAS ST., fine business lot with 6 room house; easy terms.....\$3,000. NEW 7-ROOM COTTAGE, off Richmond street; easy terms.....\$2,650. OAK BAY AVE., double corner.....\$2,650. LINDEN AVE., double corner.....\$3,500. LINDEN AVE., corner lot.....\$1,250. COOK ST., opposite Park.....\$1,550.

JOHNSON STREET, near Wharf St., for one lot about 32 x 124, price is.....\$16,000. YATES STREET, between Douglas and Blanchard—One lot 100 x 120, with two story brick building. Price.....\$70,000. CORNER LOT, on Government Street, close in, 90 x 120. Price.....\$50,000. ANOTHER CORNER LOT on Government Street, close to above, 60 x 120. Price.....\$30,000.

L. U. CONYERS & CO. 650 VIEW STREET. SECURE A HOME BEFORE PRICES ADVANCE. \$3500—FAIRFIELD ESTATE—Cosy new 6-roomed cottage, panel work in hall, well finished throughout, cement basement, gas installed, leaded lights, buffet in dining room. Terms, \$500 will handle this, balance very easy terms.

LAND REGISTRY ACT. In the matter of an application for a duplicate Certificate of Title to section 32, Claydon district. Notice is hereby given that it is my intention on the expiration of one month from the date of the first publication hereof to issue a Duplicate Certificate of Title to said lands issued to William Kershaw on the fifteenth day of November, 1894 and numbered 18840a.

NEW BRIDGE OVER FRASER. Vancouver, Sept. 24.—A new three span steel bridge now being built across the Fraser river at Cicco for the Canadian Pacific railway, will be completed within three weeks and opened for traffic. It parallels, and will replace, a cantilever bridge which has been in commission since the completion of the line. The new bridge was inspected a few days ago by P. F. Busted, general superintendent of the Pacific division. Mr. Busted inspected the various improvements which have been in progress all summer in the Kootenays, as well as along the main line, between Field and the coast. He found that very satisfactory progress is being made. Various railroads are being re-laid with heavier rails to accommodate the ever-increasing traffic. The yards at Field and Kamloops are being greatly enlarged and improved. New sidings are being built to Roger's Pass, as well as near Illiwillawet. The repairs to the old snowshed have been completed.

NEW SAWMILL. Merritt, Sept. 24.—Canford is to have a sawmill, constructed along the latest improved lines and with a capacity adequate to meet the growing demands of the different centres of building throughout the district. The new mill will cost in the neighborhood of \$25,000 and will be capable of cutting 40,000 feet of lumber daily. It will employ a large force of men and the plan of the company is to operate on the big scale.

PIONEER DEAD. New Westminster, Sept. 24.—The death occurred at Chilliwack of Alfred M. Nelson, a pioneer of British Columbia, at the age of 77 years. He is survived by his wife, Deceased was a member of the Masonic order, and a former resident of New Westminster.

HOTEL AND WAREHOUSE BURNED Prince Rupert, Sept. 24.—The other night fire was discovered in the warehouse of the cannery at Kasan and before daylight the entire plant, together with the hotel and the Heckman Trading Company store, was a mass of ashes. There is nothing to indicate the cause of the fire. Besides the buildings and machinery with a value of about fifty thousand dollars, a pack of thirty thousand cases of salmon with a value of a hundred thousand dollars, were destroyed within the space of a few hours. It is believed, however, that 30 per cent. of the pack may be salvaged as the fire did not burn the interior cases and these have been protected by a temporary shed built over them.

BRIDGING THE COLUMBIA. Nelson, Sept. 24.—J. E. Griffiths, provincial government engineer, was in trail recently for the purpose of making arrangements to take borings in connection with the bridge across the Columbia river there, the water having receded sufficiently to allow of this. Before borings can be taken, however, it will be necessary to string a three-quarter-inch cable across the river and also build a barge for accommodation of the machinery. It is expected that everything will be in readiness by the first week in October, and that the concrete foundations for the piers will be put in this winter.

Cowichan Lake Hotel (Formerly Price Bros.) Entirely Re-Arranged and Re-Furnished. All modern conveniences, hot and cold baths, open fire-places, new launch. Situated on the famous Cowichan Lake. Starting point for canoe trips down the Cowichan River. STAY FROM DUNCAN tri-weekly to May 1st; daily thereafter. RATE FROM \$2.50 UPWARD. J. B. GIRDWOOD, Manager.

NOTICE. Notice is hereby given that I intend to apply at the next sitting of the Board of License Commissioners of the City of Victoria for a transfer from me to J. A. Van Tassel, of the license to sell spirituous and fermented liquors by retail at the Colonial Hotel, situate at No. 201 Douglas street. Dated the 5th day of July, 1910. J. B. FOSTER.

REMOVAL NOTICE. The North Victoria branch of the Canadian Bank of Commerce are now occupying their new premises, corner Douglas and Bay Streets. A General Banking Business Conducted. H. R. REAVEN, Manager.

Uncle Walt The Poet Philosopher There lives a mighty giant within his noisome hall, and he is strong and pliant, and he is broad and tall; as dreadful as a dragon, he gurgles and he groans, and lifts his brimming flagon, there in his THE Hall of Bones. Alas, the floor is laden, with skeletons, all OGRE bare; and knight and winsome maiden, and sage were murdered there. The floor is always slipping with heart-blood, through the years; and from the roof is dripping a rain of bitter tears; no cheerful sound is wanted within that giant's den, and all the rooms are haunted by ghosts of tortured men. Among the dead are lying, some sleeping, some awake, poor creatures who are dying in chains they cannot break. And some misguided mortals outside have raised a din; they clamor at the portals: "Good giant, let us in!" And through the entrance alley, and to the place of groans, with grin and smirk and sadly, he leads them, 'mid the bones. There are, alas, forever, new faces at his door; they come to him and never shall leave his clutches more. And vultures wave their pinions about the bodies torn, throughout the dark dominions of old John Barleycorn.

PLAN TO NAME SCHOOLS. New Westminster, Sept. 24.—At a special meeting of the board of school trustees a proposal to name all the city schools after prominent educators was discussed and approved of, though without any definite action being taken, the matter being left over for further discussion on Monday. The name of Cecil Rhodes was suggested as a suitable one for the Sapperton school and

NOTICE OF SALE. Under instructions received from Mr. John Stock, the undersigned will receive tenders up to 12 o'clock on Friday, the 30th September, 1910, for the purchase of lots 25, 27 and lot 1 except 10 x 30 feet thereof of suburban lot 24, Esquimalt, near 218. These lots have a frontage of 66 feet on Crittle street with 20-foot frontage on Philyson street. The highest or any tenders will not necessarily be accepted. J. STUART YATES, September 19, 1910.

HOTEL Washington Annex SEATTLE A modern, homelike hotel. Absolutely fire-proof. 200 Rooms All Outside. The best of music supplied for receptions, dances, etc. Terms moderate. Small or large orchestras. WILFRED A. RUTLEY, Phone 21 and 1210.

**CHILDREN'S DAY IN FIRST PRESBYTERIAN**

Rev. Dr. Campbell Addresses the Scholars—An Interesting Service

Yesterday being Children's Day throughout the Presbyterian church, the Sunday school of First church assembled in the auditorium of the church, where the children with their parents carried out the service prepared by the General Assembly's Sunday committee. The service was interspersed with selections from the Presbyterian book of praise, which were well sung. The service was divided into three parts of responsive Scripture-reading: 1. The coming of the King; 2. the character of the King and, 3. the conquest of the King. The teachers sat with their respective classes in the centre of the church, the infant classes occupying the front seats.

Mr. Meston presided, and Rev. Dr. Campbell gave an address on the subjects of his subjects. He said in part: Sunday schools were established in the second century to give religious instruction to the children, in order to check the tendency of the heathen converts and their children from going back to heathenism. During the Dark Ages Sunday schools were neglected, but at the Reformation they were revived in Germany, Switzerland, Holland, Scotland and other countries of Europe. When religion declines the instruction of the children is neglected, and vice versa.

The King expects converted men and women to be the teachers in the Sunday school. He expects them to study the Bible, and how best to teach it, to take a deep interest in their pupils and keep in touch with them at their homes; to aim at their conversion by the use of the best means to that end, relying on the Holy Spirit to change the heart. There is no reason why every child should not be in the Kingdom before he is fifteen years of age, if pastor, parents and teachers are faithful. God wants this, and we can have it if we are faithful.

As the Sunday school supplements the work of parents in the home, the King expects parents to assist the teachers by instructing the children at home in the catechism, Bible and other lessons; to have family worship; to interest them in mission work, and direct the minds of their sons to the need of having more ministers and missionaries to spread the Gospel. The King expects parents to visit the Sunday school, and thus show an interest in the work of the teachers and encourage the children; also to take their children with them to church on Sabbath, and impress them with the fact that the church service as well as the Sunday school are for them. As it is now, pupils leave the Sunday school, but do not attend the church service, and that largely because not accustomed to attend church services.

Dr. Campbell concluded by stating to the boys and girls what the King expected of them, and urged them to be loyal and true to their teachers, parents and their King, the Lord Jesus.

**The Advance Man**

New Grand Theatre. For the fair week Mr. Jamieson has arranged for a vaudeville bill for the Grand of special attractions with Harry Van Fossen, the original one-man entertainer, heading the list in a budget of minstrelsy, song and dances. Fossen can carry a bill to success alone and keep an audience in an uproar of laughter for hours. J. Roger West and Ida Van Sichen, the musicians, have a long programme of music; the acrobats Rice and Prevost are to offer "Bumpy Bumps," a new falling and tumbling turn; Celeste will be seen on the loose wire in her European act; and Pistil and Cushing, than whom there are no better black face entertainers in the town; make the fifth act for the holiday week. The song, pictures and orchestral selections this week are made specially attractive.

Johnson-Jeffries Pictures. The management of the Victoria theatre has decided, in view of the importance of these pictures and from the fact that they will not come to Victoria again, to have two exhibitions here at the Victoria theatre, the first taking place at the matinee and the second night. Both exhibitions will be on the same day, next Wednesday.

These pictures, for which the proprietors paid Johnson, Jeffries and Rickard over \$100,000, are headed by the exhibition by the owners for the safe return from Victoria in the sum of \$10,000. The pictures will on each performance take two hours to show and measure about 11,000 feet in length.

The films portray first of all scenes from the fighting camps of the two principals, Johnson and Jeffries. Then there are pictures of Reno with his band of gamblers at their night-sittings, as the divorce city was on July 4 last. The films then show the crowds of ticket-sellers at the gate of the arena, and finally the public enters the ring with the crowd and the preliminary introductions before the fight are shown. Last of all comes the big battle for the world's championship and the supremacy fight between the white former champion and the present black champion. The whole of the fifteen rounds, including every detail of the fight, will be before patrons as clearly as they were to those who were in the Reno arena. The bright light of the sun on July 4 at Reno has helped to make the films among the most perfect ever taken.

"Charley's Aunt" By repeated special requests Huron L. Blyden has been called upon to present the greatest of all English comedies, "Charley's Aunt."

This well-known comedy was presented by the Huron L. Blyden Co. three weeks ago to capacity houses. Since this popular company has been in Victoria they have put on a number of well-known English and American comedies out of which the most popular play has been "Charley's Aunt."

A large number of the patrons of the

Victoria were unable to avail themselves of the opportunity of witnessing this ever popular comedy, and Mr. Blyden has received quite a number of letters from residents in this city asking him if it would not be possible to reproduce this play again, and be, as usual, being always willing to cater to the popular tastes, has decided to give "Charley's Aunt" another two productions on Monday and Tuesday next.

John Mason in "The Witching Hour." "The Witching Hour," by Augustus Thomas, in which John Mason will appear at Victoria theatre next Thursday, is a great play. It is not a lesson, a sermon, a treatise, a discourse, a debate or a clinical diagnosis; it is a drama. The word drama—of which the significance sometimes seems to have been forgotten or ignored—means something made, done, performed; something that occurs in action. That fact Mr. Thomas, in writing this play, distinctly and brilliantly exemplifies.

The action of "The Witching Hour" begins with its first line and ends only with the last one; so that, in its pivotal passages, it could be comprehended almost without the use of words. The subject of the play is the influence of mind upon mind, independent of the usual methods of communication, by means of the acknowledged senses. The subject is new to the stage, and the novel treatment of it by Mr. Thomas makes his drama one of engrossing interest.

The period of "The Witching Hour" is 1849; the action passes in two

rooms; one in Louisville, the other in Washington. The characters are distinct, individual, veritable. The pivotal incident is an unpremeditated, unintentional homicide. The situations are essentially dramatic; they occur in a sequence, each arising as a natural result of its predecessor, and the exposition of them is skillful and imaginative. The production is under the management of the Shuberts.

Viola Allen in "The White Sister." The most congenial role to which Viola Allen, America's distinguished emotional actress, has devoted her attention, is to be found in her newest play, "The White Sister," in which she will appear at the Victoria theatre on Saturday, October 1, accompanied by James O'Neill and the greatest supporting company ever organized, including Minna Gale and Henry Stafford. In this romantic drama Miss Allen assumes the characterization of a girl in a convent in Rome. To those who are familiar with her exceptionally appealing emotional power, there is promise of a newer and broader conception of this brilliant actress' interpretations. "The White Sister" offers opportunity for acting of the highest order, and yet the acting demanded is singularly popular in its appeal. There is interest in every scene, and every incident, every detail is fitted with nicety into the series of scenes which propel the story along. Miss Allen is, indeed, fortunate in securing such a part in such a play and the forthcoming performance
