**Wiki Loves Monuments** is an international photo competition for cultural heritage, organised annually by the community of Wikipedia, the free encyclopaedia.

Rediscover the cultural, historical and scientific significance of your neighbourhood. Join the largest ever volunteer-driven effort for preserving the cultural heritage of humanity, and contribute to the world's premier source of free knowledge. Any support is welcome: from submitting a single picture or spreading the word, to becoming a partner or a sponsor.

This September, cultural heritage will be in the spotlight on Wikipedia – around the world, supported by Europa Nostra.
