7546 ¼ Ounce \$1.50
each

10% Extra Value Given on Early Orders

DURING the spring months orders pour in on us at the rate of several thousand a day.

Naturally, we should like to have some of this business come in earlier, when we can give more particular attention to each individual order. It is worth our while to offer an inducement to our friends to order early.

That is the reason for the following offer:

With each dollar's worth of seed ordered during January or February we will include, entirely free, an extra 10¢ packet of any variety.

If your order is sent us in January or February and amounts to one dollar, you will be entitled to select in addition one regular 10c packet FREE. If your order amounts to two dollars, select two packets, and so on.

Whatever number of dollars your order amounts to, you may select an equal number of FREE 10c packets when you order in January or February.

This offer applies only to retail orders for vegetable and flower seeds. We cannot give any extra value for farm seeds, potatoes or bulbs.

If you can order in January or February, we shall appreciate your courtesy, and will gladly include the 10% extra value.

We hope you will find it convenient to do so, and assure you of our best attention at all times.

Faithfully yours,

W. ATLEE BURPEE CO.

W. ATLEE BURPEE CO.

Seed Growers PHILADELPHIA

The seeds and bulbs you order from Burpee are guaranteed as to vitality and purity to the full amount of the purchase price. You can have your money back any time within the year if you are not satisfied with the results from Burpee's Seeds. Success in gardening or farming depends largely upon cultivation, soil, and climatic conditions, and it is also recognized that a mistake may be made and it is, therefore, mutually agreed that in no case shall W. Atlee Burpee Co. be liable for more than the amount actually paid for the seed. We also guarantee the safe arrival of your seeds.

A Message

To Our Friends, Our Customers ~

IF you are interested in vegetables and flowers you will find much of interest and profit in BURPEE'S ANNUAL. It doubtless will help you, as in the past it has helped many others, to make a greater success in gardening.

It has been our aim for fifty years to be helpful. Now, after half a century, we are able to give better service and better value than ever before.

Alterations and additions have been made to the Burpee Buildings in Philadelphia. Additional ground has been purchased adjoining our original Fordhook Trial Grounds, so that we now own and operate more than 500 acres there. Many improvements have been made on our Sunnybrook Farm in New Jersey. At Floradale—the California Home of Flowers—we are cultivating a larger acreage for seed production than at any time in the past.

It is because of these exceptional facilities, and the fact that we do the largest mail order seed business in the world, that we are able to supply the highest quality seeds at the very moderate prices quoted in this catalog.

Our first aim in life, and our sole aim in business, is to furnish *good* seed at fair prices and to give *good* service.

A business that has no vision of the future or the object of which is mere money making would not be worthy of a life's work.

Walter Burpee

Founder of the Burpee Business

Faithfully yours,

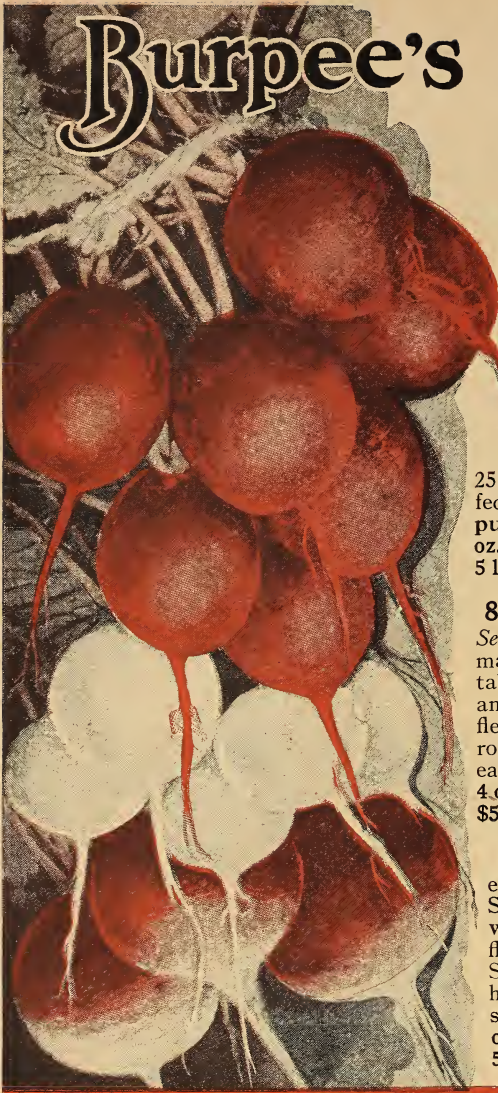

David Burpee

President

W. Atlee Burpee Jr.

Secretary-Treasurer

Burpee's Radishes

Collections of Radishes

These collections contain—Burpee's Rapid Red, Burpee's Hailstone, and Sparkler, described below.

- | | | |
|------|---|------------|
| 7015 | One packet each of the three varieties will be mailed to any address, postpaid, for . . . | 25¢ |
| 7016 | One ounce each of the three varieties will be mailed to any address, postpaid, for . . . | 50¢ |

878 Burpee's Rapid Red ☉

See illustration. These small, round, bright red radishes are not only most attractive, but are of the finest quality. They usually require 20 to 25 days to be ready for market. The roots are perfectly round, with thin, bright red skin. The flesh is pure white, crisp, and agreeably snappy. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; 1 lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00, postpaid.

879 Burpee's Hailstone ☉

See illustration. Burpee's Hailstone is the quickest maturing white radish on record. It is ready for the table in 15 to 25 days. The roots are perfectly round, an inch in diameter, with snowy white skin and flesh. The flesh is crisp and solid. No other white round variety can compare with Burpee's Hailstone in earliness and quality of the roots. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; 1 lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00, postpaid.

893 Sparkler ☉ *See illustration.* An excellent strain of the old Scarlet Turnip White Tip. Small round roots with bright scarlet top, a clear white base, and small, slender tap-root. The juicy flesh is pure white and of an agreeably snappy flavor. Sparkler is popular with many market growers and home gardeners who seek a choice radish for an early supply. Our strain is particularly fine. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; 1 lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

882 New Radish—Burpee's Relish

\$50.00 cash prize won by Mrs. Mollie A. Salmons, Dallas, Texas

“Burpee's Relish” has been finally selected by us as the best name for this outstanding new Radish.

Relishing are they indeed—these crisp, bright carmine radishes. A joy to the eye and a treat to the palate. Appetizing in

appearance, with pure white flesh. Regular in size and shape, forming superb round roots of surprising crispness and a delightful snappy radish flavor. A foremost variety which retains its good qualities until fully grown. Pkt. 15¢; oz. 35¢; 4 ozs. \$1.00; ½ lb. \$1.65; 1 lb. \$3.00; 2 lbs. \$5.60; 5 lbs. \$13.50; 10 lbs. \$25.50, postpaid.

Burpee's Beets

*Burpee's
Black Red
Ball*

121 Burpee's Black Red Ball Ⓞ

See illustration. Burpee's Black Red Ball is remarkable for its uniform shape, deep-colored flesh, and fine sweet flavor. The globe-shaped roots are smooth and free from any woody fiber. Both skin and flesh are of an unusually

deep rich red, this intensity of color being retained when cooked, making the beets most attractive for both canning and pickling. Although very early (quickly reaching a diameter of 2 inches), if left growing the larger roots retain their fine flavor and deep coloring. Excellent for the home garden, and one of the best varieties for market on account of its earliness.

Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00, postpaid.

119 Sunnybrook Burpee's Ⓞ

See illustration. This fine Burpee introduction is almost globular in form. The roots are of medium size and have a dull dark crimson

skin. The flesh is **deep crimson** throughout, fine grained, tender, and very sweet. The foliage is deep green with crimson veins and stalks. It is an ideal all-season variety, of uniform growth and very even size. Burpee's Sunnybrook is truly an exceptionally fine beet, suited for both the home garden and for market. Of compact growth, with comparatively few leaves.

Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00, postpaid.

*Burpee's
Sunnybrook*

*Burpee's Improved
Blood*

Beet Collections

These collections contain the three fine varieties offered on this page: Burpee's Black Red Ball, Burpee's Sunnybrook, and Burpee's Improved Blood.

7035 One packet each of the three fine varieties of table beets will be mailed postpaid to you for **25¢**

7036 One ounce each of the three fine varieties of table beets will be mailed postpaid to you for **50¢**

128 Improved Blood Burpee's Ⓞ

Smooth round roots of medium size, with dark red flesh retaining its deep color when cooked. The flavor is exceptionally fine and sweet. Burpee's Improved

Blood grows quickly and is easily stored for winter. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

Burpee's Sunnybrook Pepper.

The sweetest and most prolific of all Pimento Peppers. Burpee's New Sunnybrook Pepper can be eaten raw like an apple. A visitor to our Sunnybrook Farm in New Jersey tasted Sunnybrook Pepper right out of the fields and exclaimed: "My! it's as sweet as an apple."

Note the thickness of the sweet, tender flesh.

A full-size fruit of Burpee's Sunnybrook Pepper

833 Burpee's Sunnybrook

A most remarkable new Pepper for the home garden as well as for market. The plants grow 15 inches tall and measure about 22 inches in diameter. The branches, laden with clusters of fruits, bend down under the heavy weight of the Peppers.

The individual fruits run from 2½ to 3 inches in diameter and they are from 2 to 2¼ inches deep from the stem to the blossom-end. The skin is smooth, glossy, and of a brilliant scarlet. The flesh is unusually thick, and in well-developed fruits measures five-eighths of an inch in thickness, surpassing in that respect any other Pepper. The rich scarlet flesh is tender and outstandingly sweet and tasty. Pkt. 25¢; ½ oz. 50¢; oz. 85¢; 4 ozs. \$2.55; ½ lb. \$4.65; 1 lb. \$8.50; 2 lbs. \$15.80; 5 lbs. \$38.25, postpaid.

The stocky bushes of Burpee's Sunnybrook Pepper bear an enormous crop

Free Delivery

OF SEEDS AND BULBS BY MAIL

ALL SEEDS offered in this catalog in any quantity up to 10 pounds will be delivered to your door postpaid.

All Bulbs and Roots offered in this catalog will be sent to you postpaid except where quoted "By Express."

Where larger quantities are offered "By Express" at a reduced rate, we do not pay transportation charges. "By Express" means that the purchaser pays carrying charges either by freight or by express. Should you be in doubt as to the best method of transportation, we would suggest that you leave this to us, as we can give you the benefit of our wide shipping experience to all parts of the world.

Burpee's Seeds Grow

Fifty years ago when W. ATLEE BURPEE, the founder of the Burpee business, told his friends of his decision to sell seeds that were guaranteed to grow, they expressed great concern about the success of such an unusual step.

It was the firm belief in the honesty and fair judgment of those who till the soil that gave W. ATLEE BURPEE the courage to offer his seeds on a money-back guarantee. This principle of the founder has become the cornerstone of the Burpee Business of today.

Burpee GUARANTEE

We guarantee the vitality and purity of our seeds to the full amount of the purchase price. You can have your money back any time within the year if you are not satisfied with the results from Burpee's Seeds.

Even with Burpee Quality Seeds success in gardening or farming depends largely upon cultivation, soil, and weather conditions. It is therefore agreed that in no case shall W. ATLEE BURPEE Co. be liable for more than the amount actually paid for the seeds or bulbs.

We guarantee the safe arrival of your seeds, and we guarantee their quality to the full amount of the purchase price.

How to Order

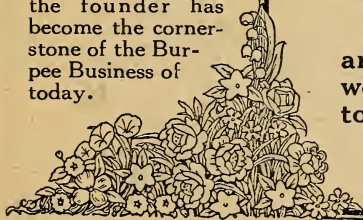

Please sign your Name and full Address on every letter and order you send us. Always write plainly. Be sure to order by the correct catalog number.

You run no risk in sending money with your order.

We do a strictly "cash with order" business and you can inquire of any bank or trust company, or of your neighbors, as to our responsibility.

Remit at our risk by Money Order, Draft, or Check.

Use registered letter if you send cash or stamps.

Gifts

We suggest for your friends

What a lovely gift a collection of seeds will make! Beautiful flowers or fresh wholesome vegetables will bring true enjoyment to your friends.

Young or old—boy or girl—all will love to watch the seed grow and gather a better understanding of the wonderful ways of nature.

The cost of the gift can be arranged to suit any pocketbook, and the final value will be many times the cost.

We especially recommend the collections of vegetables and flowers given in **BURPEE'S ANNUAL**.

We will send any collections of Seeds or Bulbs to your friends anywhere, carefully packed and postpaid.

Burpee's Prize Contest for 1926

Take, or have a friend of yours take, a photograph of your Burpee garden showing at least one member of your family, and enter it in our 1926 Picture Contest. The photograph should be distinct, and not larger than 9x12 inches. You may enter as many photos as you wish.

This Contest is open to everyone except employees of W. Atlee Burpee Co. and their families.

Send the photo to reach us not later than September 15, 1926. Write plainly on the reverse side, "For Prize Contest," and your name and address. Also give us the names of the people shown in the picture. The winning photos will become our property, with all rights for exclusive reproduction. Those which do not win will be returned postpaid after the Contest has been judged.

First Prize	\$100.00
Second Prize	50.00
Third Prize	25.00
10 Fourth Prizes	5.00 each
10 Fifth Prizes	2.00 each

The Contest opens on January 1, 1926, and closes on September 15, 1926. The prizes will be announced in BURPEE'S ANNUAL for 1927. In case of a tie, equal prizes will be given to tying contestants. If you did not intend to plant Burpee's Seeds this year, a free sample will be sent to you upon request so that you can enter this Contest.

The following well-known authorities will be the judges and their decision will be final.

Loring A. Schuler, Editor
The Country Gentleman, Philadelphia

Arthur H. Jenkins, Editor
The Farm Journal, Philadelphia

H. W. Collingwood, Editor
The Rural New Yorker, New York City

First Prize Letter

Having moved from the city, we planned a garden this spring. But neither of us knew anything of gardening, not even which seeds to buy. However, we sent for a BURPEE'S ANNUAL and ordered from it. . . The results were amazing. We've had ten-inch cymplings and twelve- and fifteen-inch cucumbers, besides quantities of melons, tomatoes, beans, peas and other goodies. And this on wretched sandy, rooty soil. The neighbors consider us "real dirt farmers" but we say it's "Burpee's Seeds and Directions."

MRS. JOHN D. LARSON,
Bowie, Md.

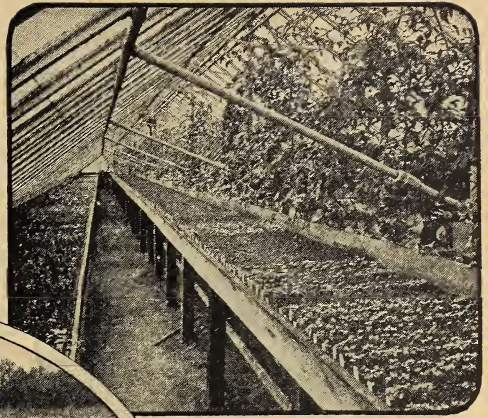

A reproduction of the photo which won the \$100.00 First Prize in our last year's photo contest. MR. and MRS. L. W. RUSH, of Ashtabula, Ohio, and their kiddies are harvesting vegetables grown from Burpee's Seeds.

Second Prize Letter

The results obtained from Burpee's seeds this year are: Freedom from debt, and from the worry of debt; more beauty about the yard and in the house. . . More variety in the diet of the man of the house; more nourishing lunches for the school children; needed elements for the meals of the run-about youngsters; a well-stocked larder of canned and dried vegetables to make the winter meals varied and attractive. Money enough to prepare an adequate layette for the prospective newcomer.

MRS. ERNEST P. HUNT,
Crescent Mills, Cal.

Burpee's Lawn Grass

The Fordhook Lawns, produced from the same Blend as the "Fordhook Finest" offered below

6145 Burpee's Fordhook Finest Lawn Grass

We pride ourselves on Fordhook Finest grass mixture, which, from yearly comparative trials at FORDHOOK FARMS, we know is *unsurpassed for first-class and permanent results*. This is due to the fact that we use only the very finest varieties of the most suitable grasses.

This seal, "The BURPEE SEAL OF QUALITY," is shown throughout the vegetable section of this catalog to denote varieties which have been introduced by

Burpee

The marked superiority of Fordhook Finest Lawn Grass was attested by the **Grand Prize** at the ST. LOUIS WORLD'S FAIR awarded to us for lawns. We were also awarded the **only Gold Medal** for lawns at THE LEWIS & CLARK EXPOSITION, Portland, Oregon. These were the highest awards and were obtained by no other American seedsmen. The seed from which these lawns were produced was exactly the same quality as is supplied regularly.

Fordhook Finest contains a well-balanced blend of various American and foreign fine-bladed and deep-rooting varieties, which have been proved by us to produce the best results under the varied conditions as to soils and climate met with in America. This special mixture will give a *green, smooth, velvety sod* with a thick bottom and free from such varieties of common grasses as produce clumps and knots on the lawn, which so frequently spoil the desired smooth and deep effect. Fordhook Finest Lawn Grass is composed entirely of the best re-cleaned seeds. It is free of all chaff and weighs 25 to 27 pounds per measured bushel. A small quantity of White Clover is included in Fordhook Finest Lawn Grass, but only sufficient to help thicken the bottom of the sod. One pound of seed is sufficient to sow a plot 20 by 20 (or 400) square feet. Eighty pounds per acre are sufficient for careful seeding, but it is much better to use 100 pounds per acre where it is desired to have a good close turf from the start. **Lb. 60¢; 2 lbs. \$1.10; 5 lbs. \$2.50; 10 lbs. \$4.75, postpaid.** By express or freight, the purchaser paying the transportation charges: 25 lbs. \$10.50; 50 lbs. \$20.00; 100 lbs. \$38.00; 250 lbs. \$90.00; 500 lbs. \$175.00.

The lawn, being always intended for a permanent feature, deserves careful preparation of the soil and diligent seeding. When you order your Grass Seed, ask for the Burpee Leaflet, "How to Establish a Lawn," which will be sent free upon request.

Lawn Grass—continued

6146 Sunny South Lawn

In the South and other dry locations the use of ordinary lawn grass seed does not always produce satisfactory lawns. We have prepared a special mixture that is especially suited for these hot dry locations, and with care and attention and regular watering Sunny South Lawn Mixture will produce satisfactory lawns under the most exacting conditions of weather and soil. Lb. 50¢; 2 lbs. 95¢; 5 lbs. \$2.35; 10 lbs. \$4.25, postpaid. By express or freight, 25 lbs. \$9.50; 50 lbs. \$18.00; 100 lbs. \$35.00; 250 lbs. \$85.00; 500 lbs. \$160.00.

6147 Golf Links

This mixture is composed exclusively of fine-bladed grasses which will withstand frequent close cutting and trampling, and is to be used for the fairways. It is free from weed seed and contains no white clover, the latter not being suitable for the closely cut golf lawn. It is sure to make a fine turf. Sow 100 lbs. per acre. Lb. 65¢; 2 lbs. \$1.20; 5 lbs. \$2.75; 10 lbs. \$5.00, postpaid. By express or freight, 25 lbs. \$10.75; 50 lbs. \$20.50; 100 lbs. \$40.00; 250 lbs. \$95.00; 500 lbs. \$185.00.

6158 Putting Greens

This is a mixture of various varieties of Bent grasses, with a preponderance of Creeping Bent. The Bent grasses have proven to be particularly suited for establishing putting greens, as they make a smooth even turf that will withstand frequent close cutting and intense trampling. The seed offered is of the highest grade. Lb. \$1.35; 2 lbs. \$2.55; 5 lbs. \$6.00; 10 lbs. \$11.75, postpaid. By express or freight, 25 lbs. \$27.00; 50 lbs. \$50.00; 100 lbs. \$95.00.

6149 Shady Nook

Many of our customers having fine shade trees on their lawns or shaded corners receiving but little sunlight have written us regarding the difficulty in securing a good growth of grass under the trees or in other heavily shaded locations. At their request we have made this mixture, which is composed entirely of choice, clean seed of the finest and most costly grasses, which have been found to thrive well in partly shaded locations, forming a close, thin-bladed turf. It is all clean, heavy seed, free from chaff, and a minimum quantity will give the best results. If you have had trouble with keeping a good green turf because of shade, give Shady Nook a trial. Sow 100 lbs. per acre. Lb. 65¢; 2 lbs. \$1.20; 5 lbs. \$2.75; 10 lbs. \$5.00, postpaid. By express or freight, 25 lbs. \$10.75; 50 lbs. \$20.50; 100 lbs. \$40.00; 250 lbs. \$95.00; 500 lbs. \$185.00.

6144 Terrace Sod

The terrace is oftentimes a source of a great deal of worry and trouble. This is largely due to the fact that the right grasses are not used in the making of the terrace sod.

We have prepared a Special Mixture containing only those grasses that are best adapted to embankments and terraces. These grasses are all deep-rooted or have strong spreading roots that hold the soil firmly and prevent washing away during heavy rains. Burpee's Special Terrace Sod will produce a rich, green, velvety sod, and will retain its emerald-green appearance throughout the entire season. Sow 80 to 100 lbs. per acre. Lb. 65¢; 2 lbs. \$1.20; 5 lbs. \$2.75; 10 lbs. \$5.00, postpaid. By express or freight, 25 lbs. \$10.75; 50 lbs. \$20.50; 100 lbs. \$40.00; 250 lbs. \$95.00; 500 lbs. \$185.00.

The results from Burpee's Seeds

are well described in the two prize-winning letters reprinted here:

Burpee's seeds have made a name for me in the market, and in competitions between gardeners, in Barbados. The following is record of what I have accomplished on half an acre of land planted with Burpee's Seeds. . . . Last season I won with Burpee's seeds the first Prizes for (1) the best Vegetable garden; (2) the best collection of vegetables; (3) the best collection of plants growing in Pots; (4) the Special Prize for excellent gardening, and (5) the Silver Cup for the best display of Vegetables.

The flower gardens of two friends for whom I reared Burpee's Seeds won first and second prize.

Burpee's seeds make gardening a pleasant and profitable recreation.

I am, Sirs,

Your well-pleased customer
Gladstone Smithwick
St. Thomas
Barbados, B. W. I.

Another prize-winner, MR. W. T. FOSTER, of Ogdensburg, N. Y., with a load of fresh, wholesome vegetables raised from Burpee's Seeds

"The Proof of the Pudding is in the Eating." The value of a seed is the product it creates. For forty years I have planted Burpee's seeds for four generations, grandfather, father, myself, and daughter. I have planted them in the frigid North and sunny South and I know they grow and produce the finest vegetables and flowers. They have won hundreds of prizes for me and the uniformity with which they do it season after season in competition with other seeds in my garden leaves no doubt of their superiority. It's Burpee's seeds exclusively now. Let others experiment.

A. C. Sheldon, Charlotte, N. C.

Planting Dates for Vegetables

See Planting Calendar for Flowers, page 104

The wide-awake gardener begins sowing early in the spring, and sows succession crops throughout the summer, until late in the fall. Succession crops are most important, since they provide fresh vegetables for fall and winter use, and a cellar full of stored vegetables is a good investment.

The dates apply to the vicinity of Philadelphia and localities with similar weather conditions, where the first light fall frosts occur about the middle of October and severe frosts around the first of November. The outdoor sowing season begins late in March or early in April, depending on the condition of the ground. In cooler sections sow correspondingly later in the spring and make the midsummer and fall sowings correspondingly earlier.

BURPEE'S MUSKMELON

The most suitable soil for melons is a warm, sandy loam, well worked and enriched with old compost. Sow the seed in slightly raised hills, 4 to 6 feet apart each way. Eight to 10 seeds are placed in each hill in a circle and are covered with an inch of fine soil. Melons thrive best on well-rotted compost, and a shovelful of old manure should be placed about 1/2 foot deep under each hill and firmly tramped down. The seed should be planted after the soil has warmed up and the weather is quite settled—about the middle of May. One ounce of seed for 40 to 50 hills; 2 to 5 pounds per acre.

557 Honey Ball Honey

Ball is an outstanding new melon, maturing a week later than Burpee's Netted Gem. It is a little larger than that famous variety, ball-shaped, and has **delicious green meat**. The skin is greenish white and slightly netted. Very prolific and of most delicious flavor. It is a cross between a Cantaloupe and a Honey Dew Melon, embodying the earliness of the Cantaloupe and the flavor of the Honey Dew. Pkt. 10¢; oz. 35¢; 4 ozs. \$1.00; 1/2 lb. \$1.65; lb. \$3.00; 2 lbs. \$5.60; 5 lbs. \$13.50; 10 lbs. \$25.50, postpaid.

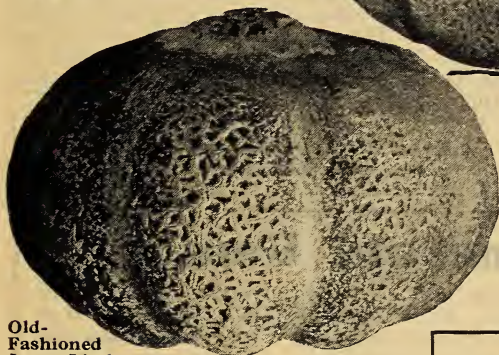

Burpee's Champion Market

566 See illustration. Burpee's Champion Market is grown extensively where large size melons are wanted.

Individual specimens range in weight from 4 to 5 1/2 pounds each.

They are of uniform size and shape. The flesh is thick, **light green** in color, and of very rich, sweet flavor. They are nearly round. The vines are vigorous, remarkably healthy, and very productive, bearing as many as 7 perfect melons on a single plant.

It is an excellent shipping variety. Pkt. 10¢; oz. 20¢; 4 oz. 40¢; 1/2 lb. 60¢; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00, postpaid.

Old-Fashioned
Jenny Lind

550 Jenny Lind

(Old-Fashioned) See illustration above. The melons are of a distinctly flattened type. They measure 3 1/2 to 4 1/2 inches in diameter by 2 1/4 to 3 inches high.

The skin is very heavily netted. The seed cavity is comparatively small, so that these little gems have an unusual amount of flesh, considering their size. The flesh is of a **beautiful light green color**. It is juicy yet crisp.

Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; 1/2 lb. 60¢; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00, postpaid.

555 Honey Dew Melon

Honey Dew requires a longer and warmer season than other melons. The fruits, with smooth, almost white rind, measure about 6 inches in diameter by 7 to 8 inches long. The **green flesh** is thick and has a peculiar sweet flavor somewhat like that of honey. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; 1/2 lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60; 10 lbs. \$12.00, postpaid.

554 Extra-Early Hackensack

This is a favorite melon in the New York markets. The vines are vigorous and quite resistant to disease. The handsome fruits are of uniform size and are borne with the greatest freedom. The flavor is **deliciously sweet**. The melons are of good size, and are heavily ribbed and netted; of attractive appearance. The flesh is a beautiful **light green**. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; 1/2 lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30; 10 lbs. \$9.60, postpaid.

546 Burpee's Matchless

The fruits are oval, averaging 6 inches in length from end to end and weighing about 2 pounds. The melons are well ribbed, the skin finely netted, and of a light greenish yellow when ripe. The flesh is **light green**, with a rich golden tint where it borders on the seed cavity. The flesh is firm and solid, yet it is **luscious** and of rich sugary flavor. Pkt. 10¢; oz. 30¢; 4 ozs. 85¢; 1/2 lb. \$1.25; lb. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10; 10 lbs. \$19.10, postpaid.

Burpee's Matchless
Muskmelon

Salmon-Flesh Melons

580 Salmon-Tint Pollock No. 10-25 ◉

This is an early melon of the solid netted type that is so desirable. Very small seed cavity, with *thick, luscious flesh of genuine salmon tint shading to green near the rind.* A splendid keeper that stands shipping particularly well and always arrives in excellent condition. It has been successful in the East, in the West, and in the South. It is a prolific yielder and has been pronounced by every one who has used it as the ultimate in salmon-fleshed melons. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30; 10 lbs. \$9.60, postpaid.

564 Bender's Surprise A most popular variety in the melon-growing district of Albany, N. Y. It is a delicious large melon with **beautiful salmon flesh.** It has good shipping and keeping qualities. The fruits are oblong, with light greenish yellow skin and a light netting. It is a selection from Surprise and closely related to the Irondequoit melon. It differs from the latter variety in being slightly later, less netted, more oblong, and more rounded at the ends. Bender's Surprise is a very prolific variety. Pkt. 10¢; oz. 25¢; 4 ozs. 75¢; ½ lb. \$1.15; lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00, postpaid.

584 Tip Top A large size main-crop variety, varying in shape from round to slightly oblong. The pale green skin is distinctly ribbed and slightly netted. The beautiful **deep salmon** flesh is sweet and spicy. It is an excellent late maturing variety, with thick flesh. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60; 10 lbs. \$12.00, postpaid.

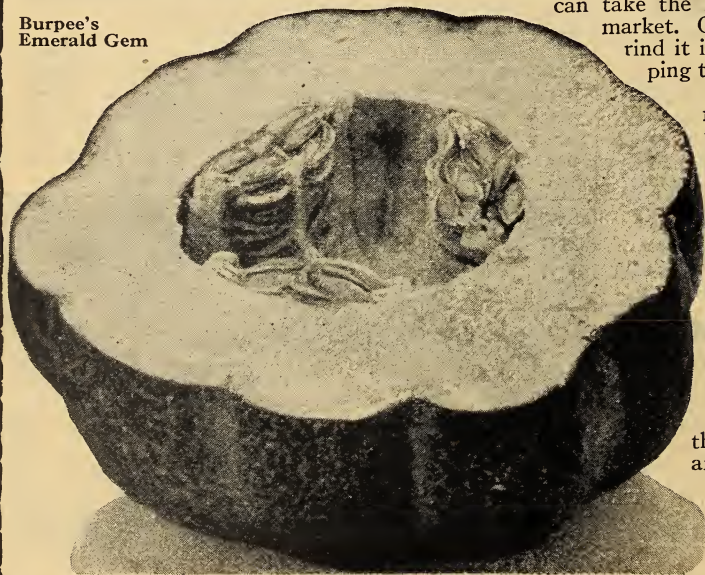

587 Banana Muskmelon This is a rather unusual melon in shape as well as in flavor. The fruits are of a typical **banana shape** and have a spicy, banana-like flavor. They grow from 15 to 20 inches in length, and from 4 to 6 inches in diameter. The salmon flesh is thick and of good flavor. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00, postpaid.

**Keep Burpee's Annual handy for
reference throughout the year**

575 Burpee's Emerald Gem ◉

This has long been acknowledged the most delicious in flavor. There are many growers who have had extensive opportunities to test this variety and who declare that it is **unequaled in sweetness.** Burpee's Emerald Gem is particularly valuable because it is **very early maturing** and can, therefore, be grown in many sections which are otherwise too cool to grow any muskmelons at all. It is primarily a garden variety, but is used extensively by market growers who can take the melons to a nearby market. On account of its thin rind it is not suited for shipping to distant markets.

Burpee's
Emerald Gem

Emerald Gem is **enormously productive.** If the fruits are gathered as soon as they ripen, the vines will continue bearing throughout the season. Burpee's Emerald Gem is of convenient size, with broad ribs. Of a most attractive rich dark green color. It is free from any netting and very smooth. The flesh is thicker than that of any other melon of the same size. The color is a **beautiful rich salmon,** ripening thoroughly close to the rind. The flavor is sweet and luscious. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30; 10 lbs. \$9.60, postpaid.

577 Osage or MILLER'S CREAM A very fine large melon of oblong shape with a distinct dark green skin with lighter bands between the ribs and a gray netting. The orange flesh is thick and firm, and the seed cavity is quite small. This is one of the very best-flavored melons in existence. It is a good home garden variety and stands shipping exceptionally well. The fruits are in great demand during midseason on all the best city markets. The flesh is fine-grained, free from fiber, and lusciously sweet. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60; 10 lbs. \$12.00, postpaid.

585 Burpee's Golden Eagle Ⓞ

A prolific variety with large fruits, 10 inches in length and 7 inches in diameter; heavily ribbed and netted. The thick flesh is rich salmon; sweet and melting. A melon of excellent quality. Pkt. 10¢; oz. 25¢; 4 ozs. 75¢; ½ lb. \$1.15; lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00, postpaid.

573 Milwaukee Market Ⓞ

The fruits are of medium size, with a fine heavy netting and fairly distinct ribs. They are inclined to be of oval shape and mature very early. The skin is tough yet thin and therefore the melons are well suited for shipping to distant markets. The good appearance of the fruits and their handy size—the average fruit weighing about 5 lbs.—insure quick sales. The flesh is bright salmon-pink and of excellent flavor. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60; 10 lbs. \$12.00, postpaid.

All Vegetable Seeds listed in Burpee's Annual up to 10 lbs. will be sent postpaid

578 Burpee's Spicy Ⓞ

This is most distinct, both in appearance and in its peculiarly rich sugary flavor. The rind is cream color, changing to a grayish yellow as the melons mature, when the skin also becomes slightly marked with a delicate white netting, like a cobweb. The melons run quite uniform, measuring from 8 to 10 inches in length by 6 to 7 inches in diameter, and are always firm. The juicy flesh is a deep rich salmon color, frequently 2 inches thick, entirely stringless, and exceptionally luscious in flavor—most tender and practically melting in the mouth. It is impossible to buy such a fine melon in every market. Pkt. 10¢; oz. 30¢; 4 ozs. 90¢; ½ lb. \$1.40; lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25; 10 lbs. \$21.25 postpaid.

Burpee's Spicy

A most delicious melon, sweet, and with a rich aroma

562 Montreal Green Nutmeg Ⓞ

(Burpee's) The fruits are almost round, flattened at the ends, and deeply and very regularly ribbed. The skin is rich green, covered with a dense netting. The flesh is remarkably thick, of a beautiful light green color, and the flavor is simply delicious. The fruits are 6½ inches in diameter and are very heavy, weighing on an average from 16 to 22 pounds. An excellent melon for all purposes. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30; 10 lbs. \$9.60, postpaid.

571 Hearts of Gold A midseason variety of exceptional merit. The fruits are of uniform shape and handy size. They are distinctly ribbed and covered with an attractive fine gray netting. The flesh is a beautiful salmon shade. It is very thick, ripens close to the rind, and is of delicious flavor. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 80¢; lb. \$1.35; 2 lbs. \$2.50; 5 lbs. \$5.95; 10 lbs. \$10.80, postpaid.

576 Burrell Gem The fruits are 6 to 7 inches long by 4½ to 5 inches in diameter, rather sharply sloping at the ends. Well ribbed and covered with a fine grayish netting. The skin is a rich dark green, contrasting strongly with the deep salmon-pink flesh; sweet and tender. The flesh is thick and firm, ripening close to the skin. It belongs to the Netted Gem type. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30; 10 lbs. \$9.60, postpaid.

574 Burpee's Fordhook This excellent salmon flesh melon is illustrated in color on page 21 and fully described on page 20. A foremost variety, with thick orange-yellow flesh and exceptionally fine and luscious flavor. Burpee's Fordhook Muskmelon is continuously gaining in popularity with both market growers, who find a ready market for it, and home gardeners, who appreciate its outstanding quality. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30; 10 lbs. \$9.60, postpaid.

574 Burpee's Fordhook This excellent salmon flesh melon is illustrated in color on page 21 and fully described on page 20. BURPEE'S SEEDS GROW

Grow plenty of Melons—They are delicious

Burpee's Watermelon

Rich, rather sandy soils produce the finest crops of watermelons, but a well-drained loam, especially with a southern exposure, is also suitable. Two shovelfuls of well-decomposed manure should be mixed with the soil of each hill. Watermelons should not be planted until the weather is quite warm. The plants grow vigorously and for this reason

the hills should be about 6 to 8 feet apart. Place 6 to 8 seeds edgewise, with the eyes downward, in a circle in each hill, and cover $\frac{1}{2}$ inch deep with fine soil. When the plants begin to vine, thin each hill to the best two plants so that there will be plenty of room for free development. One ounce will plant 20 to 25 hills; 4 to 5 pounds per acre.

Citron ☉

645 Colorado Preserving

This is a fine large-fruited strain of Citron for preserving. The flesh is solid and practically white. It makes delicious preserves.

Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; $\frac{1}{2}$ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30; 10 lbs. \$9.60, postpaid.

598 Burpee's Mammoth Ironclad

The fruits are very large, of oblong shape, and being extremely solid, they are unusually heavy. Grown under favorable conditions, they will quite often measure 2 feet in length. The skin is dark green marked with stripes of lighter green and mottled with a still lighter shade. The rind is thin but extraordinarily tough. The flesh is a beautiful bright red. It is unusually firm, crisp, and always free from strings. Of luscious flavor. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; $\frac{1}{2}$ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

596 Burpee's Cuban Queen ☉

This variety was first offered by us in 1881. The melons are of large size, oblong in form, and slightly tapering at the stem-end. The skin is striped light and dark green. Rind quite thin, but tough. The flesh is bright red and quite firm. It is luscious, juicy, and very sweet. It is a great favorite. A good keeper and fine shipper. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; $\frac{1}{2}$ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

633 Shaker Blue ☉

Sometimes called "White-Seeded Triumph," with melons as large as the Triumph, but of much better flavor and more handsome appearance. The fruits are 16 to 18 inches long by 12 to 15 inches in diameter. The skin is dark green, striped with light green. The flesh is rich red. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; $\frac{1}{2}$ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

601 Burpee's Sugar Stick ☉

A large melon of finest flavor. The vines are of strong vigorous growth, setting large melons in good numbers. The fruits measure from 20 inches to 2 feet in length, and weigh on an average about 30 pounds. The rind is thin but tough. The skin is light grayish green, with narrow darker green lines, giving a mottled effect of small half-inch squares. The flesh is deep rich red, with a broad solid heart.

Few melons can compare with Burpee's Sugar Stick in flavor. The solid crisp flesh is astonishingly sweet and tasty. It melts in the mouth like honey. A luscious variety that is grown quite extensively in the middle Southern States and stands shipping well. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; $\frac{1}{2}$ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

Burpee's
Sugar Stick

635 Irish Gray

The hard-shelled fruits are 18 inches long and 11 inches thick. The skin is a distinct gray-green color. The flesh is firm, crisp, and sweet. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; $\frac{1}{2}$ lb. 45¢; lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60, postpaid.

593 Baby Delight (Burpee's)

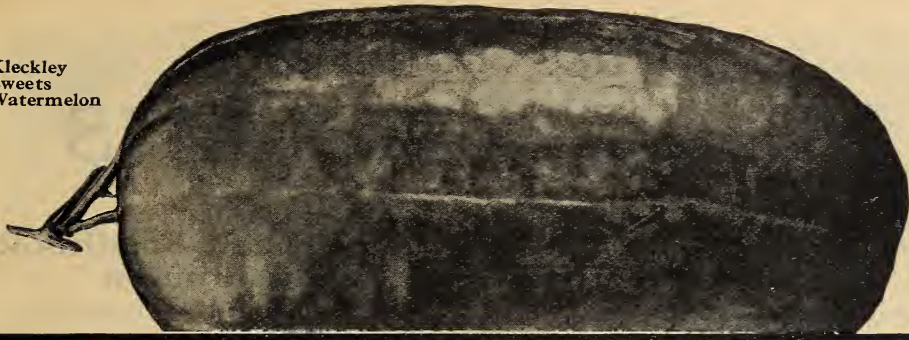

Small fruits weighing 3 to 6 pounds each, with dark green skin and rich carmine crystalline flesh of luscious sweetness. Enormously productive and excellent for the home garden. Pkt. 10¢; oz. 30¢; 4 ozs. 90¢; $\frac{1}{2}$ lb. \$1.40; lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25; 10 lbs. \$21.25, postpaid.

590 Cole's Early

This is a very early variety of medium size and nearly round form. The skin is dark green, striped with lighter green. Hardy and very prolific. The deep pink flesh is of excellent quality.

Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; $\frac{1}{2}$ lb. 45¢; lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60, postpaid.

Kleckley
Sweets
Watermelon

608 Kleckley Sweets (BURPEE'S) ©

This Burpee stock of Kleckley Sweets, which is grown from the originator's stock, is one of the finest strains of watermelon in existence. It is, without question, the most desirable variety to plant for home use or nearby markets. In some sections it is known as Monte Cristo.

The fruits are very attractive, oblong in form, and have a **dark green glossy skin**. The rind is unusually thin, with the flesh ripening close to it. The color of the flesh is a beautiful **bright scarlet**. The heart is broad and remarkably solid. The white seeds are placed close to the rind. The melons average 18 to 20 inches in length by 10 to 12 inches in diameter.

The melons are seldom found in the market because, on account of their thin rind, they are not suited for shipping. It is an excellent home garden variety and fine for local markets. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; 1 lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00, postpaid.

623 Stone Mountain

A new round watermelon showing slight ribs or lobes like a cantaloupe. The color of the smooth skin is light green. The flesh is a uniform beautiful **deep crimson** without any white hearts or stringiness. The average fruit weighs about 45 lbs. The rind is too tender to permit long distance shipping, but for the garden or local markets it has no equal. It is very prolific and exceptionally sweet. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; 1 lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60; 10 lbs. \$12.00, postpaid.

Luscious Golden-Sweet

644 © The rind is dark green with the **bright golden yellow flesh** extending very close to it. The firm meat is of a **luscious, sugary flavor**. The melons average about 20 pounds in weight. A delicious yellow-fleshed watermelon and unquestionably the best in its class. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; 1 lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

621 Perfection Watermelon ©

A Great and Important New Watermelon

This wonderful new watermelon combines the qualities of a good shipper with lusciousness.

Perfection grows to enormous size, the fruits weighing from 50 to 75 pounds. The rind is a glossy dark green, thin, but unusually tough, so that it makes a good shipping variety. The flesh is of a **dark red color**. It is sweet and free from fiber or strings, yet of firm texture. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; 1 lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60; 10 lbs. \$12.00, postpaid.

613 Tom Watson © A tough-rind shipping melon, superior to any other of its class. The melons measure 18 to 24 inches long by 10 to 12 inches in diameter, and weigh from 50 to 60 pounds. The dark green rind is tough but thin. The luscious deep red flesh extends to within ¾ inch of the green rind. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 45¢; 1 lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60, postpaid.

*You can rely on the
description given in
Burpee's Annual*

Four Famous BURPEE MELONS

544 Burpee's Netted Gem Muskmelon

THE *Original Rocky Ford*. The variety grown at Rocky Ford, Colorado, under the name of Rocky Ford, is the Netted Gem which Burpee had the distinction of originating and introducing in 1881. This is the most popular and finest of all green-fleshed melons. The vines are of strong, healthy growth, comparatively short, and branch freely. They set a large number of fruits close to the hill. The melons are even and regular in size and form, nearly round or slightly oval.

A pure Rocky Ford cantaloupe when ripe has a silver colored netting which is lace-like in appearance. The skin is green, turning to a peculiar gray color when the melon is fit for shipping. **The flesh is green and so sweet and luscious that it may be eaten close to the rind.** The melons have a small seed cavity, and the portion of the flesh immediately surrounding it is tinged with a beautiful golden yellow. The melons weigh about 1½ pounds each and are very firm and solid.

Burpee's Netted Gem has become the most widely known of all cantaloupes. Our stock of Netted Gem has been improved every year by careful single plant selection to insure the highest quality strain. It is a melon which is known for its good qualities by almost all housewives.

Burpee's Netted Gem occupies a foremost place on all markets, but it is fully as popular with home gardeners. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20, postpaid.

588 Burpee's Fordhook Early Watermelon

THIS is a most desirable melon which will ripen in sections which are otherwise too cool to grow a good crop of watermelons. It is an **extra early** variety which can withstand quite adverse weather conditions and a fairly cool climate.

The melons are large and slightly oval in shape. The rind is dark green, mottled with stripes of a still deeper color. The skin is thin and therefore the variety is not suited for long-distance shipping. It can, however, be brought to local markets in good condition. The average weight of the melon is about 25 pounds. Edible fruits can be grown in the astonishingly short time of 85 days. The flesh is a beautiful deep carmine-pink of luscious flavor. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00, postpaid.

574 Burpee's Fordhook Muskmelon

BURPEE'S Fordhook Muskmelon is a most delicious variety, suitable for both market and the home garden. The melons grow to handy size and are very attractive. They are of a **round-flat**, thick shape, well ribbed and heavily covered with a fine gray netting. The skin is thin yet most substantial, which insures the fruits reaching the market in good condition. "Fordhook" presents a most attractive appearance and for that reason sells very readily, even before its good eating qualities are realized by the buyer.

The flesh is very thick and of a **bright orange-salmon** shade, with only a small seed cavity. But the most outstanding characteristic of Burpee's Fordhook Muskmelon is its luscious, sweet flavor. The flesh is solid and fine-grained, and remains in good condition after the fruits have become quite yellow.

In certain melon-growing districts Burpee's Fordhook Muskmelon is now grown to the exclusion of all other varieties. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30; 10 lbs. \$9.60, postpaid.

611 Burpee's Halbert Honey Watermelon

BURPEE'S Halbert Honey is "the sweetest of all watermelons." The fruits are of handsome appearance and regular in form. They are long, measuring 18 to 20 inches in length and from 6 to 8 inches in diameter. The ends are blunt and there is no sign whatever of a neck. The color of the skin is a deep green, showing fine veins. The melons weigh about **35 pounds each**. The flesh is a beautiful crimson color, extending within less than half an inch of the rind.

Burpee's Halbert Honey is essentially a home garden variety because the thin skin does not stand long-distance shipping. It is, however, a variety which is planted extensively where the fruits can be marketed near by and do not have to stand the strain of long-distance shipping. In nearby markets it sells quickly because of its exceptionally **fine appearance** and good quality. The flesh is sweet and tasty, melting in the mouth like honey.

In season Burpee's Halbert Honey is medium-early, bearing its first fruits in about 90 days after planting. Similar to Kleckley Sweets, but enjoys even greater popularity in certain sections. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00, postpaid.

Burpee's Vegetable Fruits

1038 True Hubbard Squash

This is the well-known winter squash of strong, running growth. The fruits are large, olive-shaped, with a point at the blossom-end, and a short neck. Dark bronze-green skin with more or less light green markings toward the blossom-end. The thick flesh is orange-yellow, fine-grained, and dry. True Hubbard Squash is a great favorite. Its smooth, tasty flesh is of exceptional quality for pumpkin pie. The fruits should be picked with part of the stem attached before frost has touched them, and they will keep in perfect condition throughout the winter if stored dry and warm. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30, postpaid.

1032 Burpee's Fordhook Squash

This is a most delicious squash for both summer and winter use. The fruits are oblong, from 8 to 10 inches in length, and have a light straw-yellow skin. The plants make a sturdy vine growth and bear a tremendous crop of fine fruits of handy size. The flesh is thick, a beautiful light buttery yellow in color, and considered the finest in taste. It is sweet and buttery. Store the fruits in a frostproof, moderately warm room with part of the stem attached and they will keep for many months. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30, postpaid.

7152 Six of the Most Popular Vegetable Fruits

We have prepared a collection of the six fine vegetable fruits described on this page and shown in color on the opposite page. We will mail one packet each (value 65¢) to your door, 50¢ postpaid, for

861 Small Sugar Pumpkin

The fruits are of small size, averaging about 10 inches in diameter; of excellent keeping quality, flattened or slightly ribbed. The skin is deep orange-yellow. The flesh is rich orange, of excellent quality, meaty, and sweet. This should be more generally known, as it is really one of the best of all pumpkins for pies. There is no finer pumpkin for home use or market sale. The handy size appeals because there is no waste, as is often the case with large-fruited pumpkins. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

867 Golden Oblong Pumpkin

Unexcelled for its Delicious Flavor and Handy Size. Burpee's Golden Oblong combines remarkable hardiness with unusual productiveness. The oblong fruits measure 15 to 20 inches in length and 8 to 10 inches in diameter. The skin is rich orange-yellow and tough, making it a good winter keeper. The delicious flesh is bright golden yellow. Burpee's Golden Oblong makes a strong growth of vine and bears freely. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30; 10 lbs. \$9.60, postpaid.

Cucumbers

395 Burpee's Fordhook Pickling

Fordhook Pickling is a strong and vigorous grower, producing a greater length of vine and more fruit than any other variety. The fruits are of just the right proportion to give the most attractive pickles—either when used quite small or for dill pickles. The flesh is pure white, crisp, and very juicy. The skin is deep green and very thin. Pkt. 10¢; oz. 30¢; 4 ozs. 80¢; ½ lb. \$1.20; lb. \$2.00; 2 lbs. \$3.85; 5 lbs. \$9.30; 10 lbs. \$18.00, postpaid.

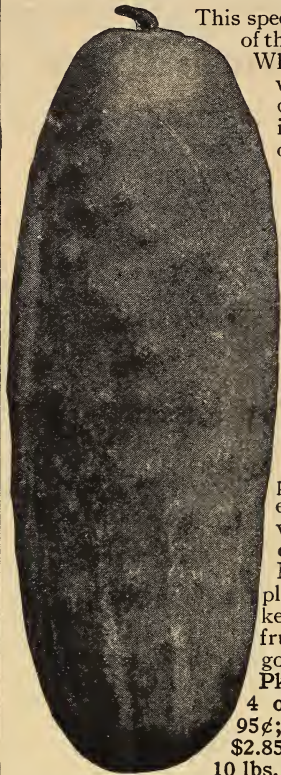

393 Burpee's Fordhook Famous

Burpee's Fordhook Famous is a handsome straight cucumber of immense size. The fruits average about 12 inches in length. They are thickest in the middle of the fruits, where they average from 2 to 3 inches across. The skin is a rich dark green set with the characteristic white spines. Fordhook Famous retains the beautiful deep green color until it is fully ripe. When overripe, it turns lighter until it becomes almost white.

The thick flesh is a beautiful greenish white. It is crisp, juicy, and of the most delicious flavor. Pkt. 15¢; oz. 35¢; 4 ozs. \$1.00; ½ lb. \$1.50; lb. \$2.50; 2 lbs. \$4.80; 5 lbs. \$11.60; 10 lbs. \$22.50, postpaid.

Burpee's Cucumbers

Burpee's Extra Early 379 White Spine

This special strain of the popular White Spine was introduced by Burpee in 1894. It is most desirable for its extreme earliness.

The cucumbers are perfectly cylindrical in shape, slightly pointed at the ends, and of the most handsome appearance. They are dark green and show no ridges, as many others do. A strong grower and profuse bearer, unequaled as a table variety for slicing or for pickling. Most valuable to plant for early market, as the handsome fruits command a good price.

Pkt. 10¢; oz. 30¢;
4 ozs. 65¢; 1/2 lb. 95¢; lb. \$1.50; 2 lbs. \$2.85; 5 lbs. \$6.75; 10 lbs. \$12.75, postpaid.

Cucumbers should be grown in every garden, to furnish both large fruits for slicing for the table and small young fruits for pickling. In most sections it will be best to make two sowings: one as early in the spring as the weather permits, to supply fruits for the table during the summer months, and a second about the last of June or first of July, to furnish fruits for fall use. This late sowing will also give the best supply of young fruits for pickling purposes: the cool fall months are the best time to put them up for winter use. One ounce is sufficient for 100 hills, and 1 to 2 pounds are needed to plant one acre.

381 Arlington White Spine The cucumbers are very regular in outline and uniform in size, averaging 7 to 8 inches in length; straight, and of a rich dark green color. The flesh is white, crisp, and solid, with comparatively few seeds. It is one of the earliest and most productive of all cucumbers. The fruits have well-rounded ends and they are thick throughout their entire length. A productive variety and fine for market. Pkt. 10¢; oz. 25¢; 4 ozs. 55¢; 1/2 lb. 80¢; lb. \$1.25; 2 lbs. \$2.35; 5 lbs. \$5.60; 10 lbs. \$10.60, postpaid.

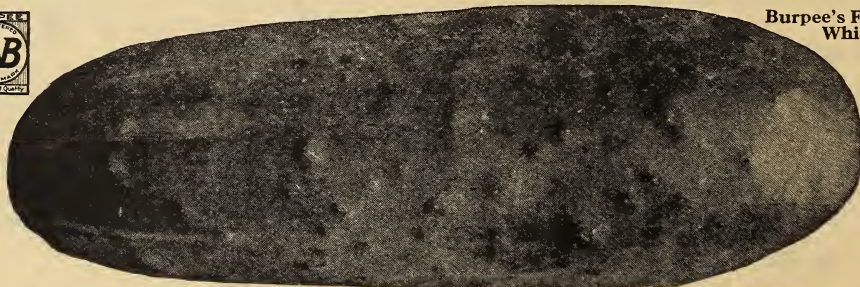

385 Extra-Long White Spine or EVERGREEN Smooth, round rich deep green fruits, 8 to 10 inches long, regular in size and form. A mid-season cucumber of cylindrical form, with a diameter of about 2 1/4 inches. Excellent quality. Pkt. 10¢; oz. 30¢; 4 ozs. 70¢; 1/2 lb. \$1.05; lb. \$1.75; 2 lbs. \$3.30; 5 lbs. \$7.85; 10 lbs. \$14.85, postpaid.

For nearly fifty years we have stated plainly that, when even partial failure of the crop is caused by the fault of the seed, we would refund the full price paid. This should convince even new customers that we have

Confidence in the quality
of Burpee's Seeds

383 Burpee's Fordhook White Spine

The fruits are nearly cylindrical in form, slightly pointed at the ends, perfectly smooth, and of deep, rich green color, marked with distinct white lines at the blossom-end. They are of extremely handsome and attractive appearance. The vines are vigorous in growth and enormously productive. The fruits retain their dark green coloring and crisp freshness a remarkably long time after picking. They grow about 10 inches long and are thick throughout, with well-rounded ends. The small young fruits are just of the right size for pickling. The fruits are excellent for slicing, with crisp, white flesh of delicious flavor. Pkt. 10¢; oz. 30¢; 4 ozs. 65¢; 1/2 lb. \$1.00; lb. \$1.65; 2 lbs. \$3.15; 5 lbs. \$7.40; 10 lbs. \$14.00, postpaid.

Burpee's Fordhook
White Spine

After you have ordered your seeds, we would consider it a great favor if you would lend this copy of Burpee's Annual to a friend or neighbor of yours who might be interested in gardening. We will be glad to mail you another copy of Burpee's Annual at any time.

400 Davis' Perfect ◉

See illustration. Within recent years this variety has gained considerably in favor. The fruits measure from 7 to 9 inches in length and their circumference is about 7 inches in the middle. They are slightly tapering at both ends, with a very rich dark green skin. The fruits are extremely handsome and sell very readily in the markets. The flesh is solid and of superb quality for slicing. It is thick, with a small seed cavity containing but few seeds.

Davis' Perfect has proven to be a fine all-around variety. It is grown extensively by home gardeners who do appreciate a really good cucumber. Market growers have quickly taken to it because they found that the public demanded cucumbers of this type and they could get a better price for it. Quite often the fruits are mistaken for hothouse grown because of their large size, rich color, smooth skin, and handsome, appealing appearance. Pkt. 10¢; oz. 30¢; 4 ozs. 70¢; 1/2 lb. \$1.05; lb. \$1.75; 2 lbs. \$3.30; 5 lbs. \$7.85; 10 lbs. \$14.85, postpaid.

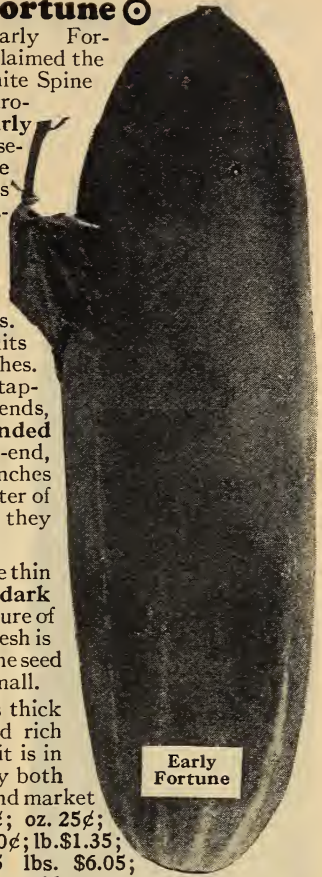

Davis' Perfect

401 Early Fortune ◉

See illustration. Early Fortune has been proclaimed the finest type of White Spine Cucumber ever introduced. It is an early variety and immensely productive. One of its best features is its disease resistance. The plants grow vigorously and the fruits are set very freely all along the vines. Fully grown fruits measure 9 inches. They are slightly tapering at both ends, with a well-rounded blossom and stem-end, measuring 2 1/2 inches across in the center of the fruits, where they are thickest.

The color of the thin skin is rich dark green. The texture of the pure white flesh is firm and crisp. The seed cavity is very small.

Because of its thick white flesh and rich dark green skin it is in great demand by both home gardeners and market growers. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; 1/2 lb. 90¢; lb. \$1.35; 2 lbs. \$2.55; 5 lbs. \$6.05; 10 lbs. \$11.45, postpaid.

Early Fortune

7006 Cucumber Collection

The three varieties included in this collection are of handsome appearance. They are of excellent quality.

One packet each of these three varieties, value 30¢, will be mailed to any address, postpaid, for 25¢

393 Burpee's Fordhook Famous ◉

This Immense and Handsome Cucumber—The Most Fleshly and Finest in Flavor of the White Spine Type—is illustrated on page 22

Burpee's Fordhook Famous makes perfectly straight fruits. They average about 12 inches in length, and grown under suitable conditions will reach 17 inches. They are thickest in the middle of the fruits, where they average from 2 to 3 inches across. The attractive fruits taper gently toward the ends, holding their thickness well until they run off into a round stem and blossom-end. The skin of the fruits is a beautiful rich dark green set with a number of the characteristic white spines. A most remarkable feature of Burpee's Fordhook Famous is the fact that it retains the beautiful deep green color of its skin until it is fully ripe. When overripe, it turns lighter until it becomes almost white, but it never turns yellow.

The vines make a tremendous growth. They are unusually vigorous, bearing an enormous crop. The foliage is rich dark green, quite resistant to diseases and insect attacks.

Burpee's Fordhook Famous is practically all flesh, containing but very few seeds. The thick flesh is a beautiful greenish white. It is crisp, juicy, and of the most delicious flavor. It is essentially a quality cucumber which is absolutely unequalled in every respect, both for market and for home use. Pkt. 15¢; oz. 35¢; 4 ozs. \$1.00; 1/2 lb. \$1.50; lb. \$2.50; 2 lbs. \$4.80; 5 lbs. \$11.60; 10 lbs. \$22.50, postpaid.

405 Burpee's Giant Pera Cucumber

Burpee's Giant Pera Cucumber is entirely distinct from any other cucumber on the market. Its main features are its **enormous size**, even shape, and smooth surface. The fruits attain a length of 15 inches and more. They are round, holding their thickness well from blossom to stem-end. The ends of the fruits are bluntly rounded.

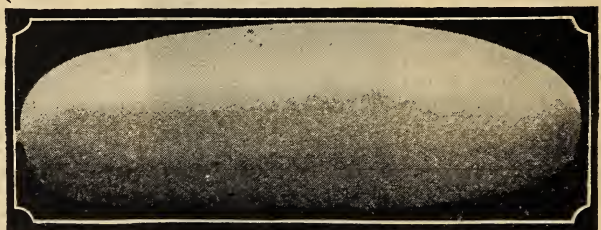

The skin of the fruits is smooth, of a light green color, and unusually thin for such a large fruit. **The flesh is very thick** and of the foremost quality. It is crisp, of an extremely mild flavor, and easily digested. The seed cavity is unusually small, producing but very few seeds. This variety always brings the highest price on the market because the fruits are outstandingly attractive. Pkt. 15¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.35; lb. \$2.25; 2 lbs. \$4.30; 5 lbs. \$10.45; 10 lbs. \$20.25, postpaid.

406 Japanese Climbing The cucumbers are from 10 to 12 inches in length. The skin is smooth, dark green, turning to brown, and netted when ripe. The flesh is pure white, crisp, and of mild flavor. Climbs easily on a trellis. Pkt. 10¢; oz. 25¢; 4 ozs. 55¢; ½ lb. 80¢; lb. \$1.25; 2 lbs. \$2.35; 5 lbs. \$5.60; 10 lbs. \$10.60, postpaid.

413 English Frame or TELEGRAPH The English forcing cucumbers are seldom grown out-of-doors, but possess special merit for forcing in the greenhouse. A vigorous grower and free bearer. The fruits of this special strain of "Rollison's Telegraph" measure from 18 to 24 inches in length and individual specimens have been grown which weighed over 10 pounds. The long green fruits contain only very few seeds and consequently the seed is expensive. Small pkt. 25¢; 5 pkts. for \$1.00; oz. \$3.50; 4 ozs. \$12.00, postpaid.

410 Burpee's White Wonder

The cucumbers are white from the time they begin to grow, and are very good, either for eating fresh or pickling.

The fruits are of fine quality, while the vigorous growth enables the vines to produce a large crop of fruits.

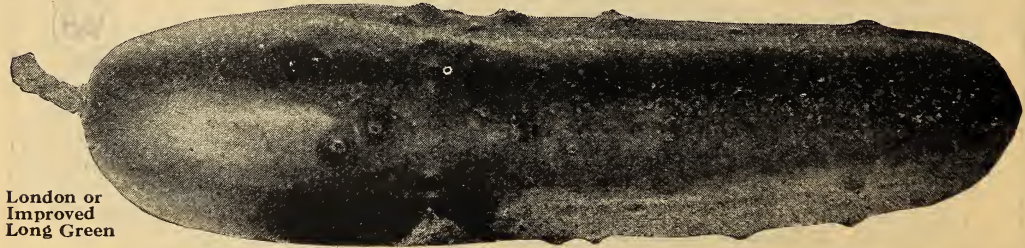

The cucumbers are borne profusely throughout the length of the vine, and are remarkably uniform in color, shape, and size. They average 8 inches long by 2½ inches thick. The pearly white skin is extremely thin but very tough. Pkt. 15¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.35; lb. \$2.25; 2 lbs. \$4.30; 5 lbs. \$10.45; 10 lbs. \$20.25, postpaid.

399 London or IMPROVED LONG GREEN (*Special Strain*)

A standard variety, 12 to 14 inches long, more or less warted. The young cucumbers make very fine pickles. The skin is rich green; flesh solid and crisp. It is a main-crop variety of excellent quality. Pkt. 10¢; oz. 30¢; 4 ozs. 80¢; ½ lb. \$1.20; lb. \$2.00; 2 lbs. \$3.85; 5 lbs. \$9.30; 10 lbs. \$18.00, postpaid.

Long Green

CUCUMBERS

for Pickling

The growing of cucumbers for pickles is a very important industry in certain sections of the United States. Cucumbers for pickles are usually planted in checks 6 x 6 feet or 6 x 3 feet apart, or in drills 6 feet apart. The time for planting pickling cucumbers varies according to the locality, but usually they are sown from June 1 until about July 1. The early plantings yield their first crop late in July and continue bearing until frost. The fruits for pickling are gathered when they are from 2½ to 5 inches in length.

371 Early Green Cluster The fruits are of chunky form and are most desirable for pickling. They are very prolific and frequently set in clusters of 2 and 3, borne in the center of the plant. If the fruits are kept gathered, the vines will continue long in bearing. Of excellent quality, with crisp, juicy white flesh; meaty and has a small seed-cavity. Pkt. 10¢; oz. 25¢; 4 ozs. 55¢; ½ lb. 80¢; lb. \$1.20; 2 lbs. \$2.30; 5 lbs. \$5.40; 10 lbs. \$10.20, postpaid.

409 West India Gherkin A very prolific, small-fruited variety, used exclusively for pickling. The fruits are very small, measuring 2 to 3 inches in length and about 1¼ inches thick. They are thick and rounded, closely covered with spines. The color of the skin is a bright light green and the flesh is pure white. This variety enjoys great popularity for pickling. Pkt. 10¢; oz. 30¢; 4 ozs. 80¢; ½ lb. \$1.20; lb. \$2.00; 2 lbs. \$3.85; 5 lbs. \$9.30; 10 lbs. \$18.00, postpaid.

375 Everbearing

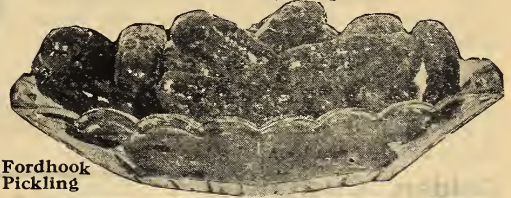

See illustration. This is an early and prolific variety. If the fruits are kept gathered, the vines will continue in bearing throughout the season.

The cucumbers are dark green in color, averaging from 4 to 5 inches in length by 1½ inches in diameter. They are meaty and crisp. It is an excellent variety to grow for small pickles. Pkt. 10¢; oz. 25¢; 4 ozs. 55¢; ½ lb. 80¢; lb. \$1.20; 2 lbs. \$2.30; 5 lbs. \$5.40; 10 lbs. \$10.20, postpaid.

Burpee's Fordhook Pickling

395 *See illustration.* This outstanding pickling cucumber is fully described on page 23 and is illustrated on page 22. A most desirable variety which deserves to be grown in the home garden as well as for market. Fully grown, the fruits are fine for slicing, measuring 8 inches long and 3 inches thick, and weighing 1½ lbs. each. It is a productive variety which will bear continuously if the cucumbers are picked before they have reached a fair size for pickling. Pkt. 10¢; oz. 30¢; 4 ozs. 80¢; ½ lb. \$1.20; lb. \$2.00; 2 lbs. \$3.85; 5 lbs. \$9.30; 10 lbs. \$18.00, postpaid.

Fordhook Pickling

369 Early Russian

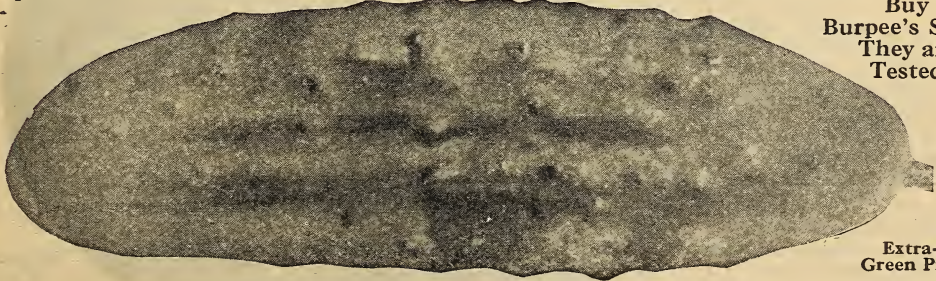

This is the earliest of all pickling cucumbers. The fruits are small, about 3 inches in length and 1½ inches in diameter. The plants are productive and the fruits are of excellent quality for pickling. Even though the fruits are small, the total weight of fruits per plant is remarkably large because the plants bear fruits continuously if the cucumbers are picked before they have reached nearly full size. Pkt. 10¢; oz. 25¢; 4 ozs. 55¢; ½ lb. 80¢; lb. \$1.20; 2 lbs. \$2.30; 5 lbs. \$5.40; 10 lbs. \$10.20, postpaid.

5 lbs. \$5.40; 10 lbs. \$10.20, postpaid.

377 Extra-Early Green Prolific or BOSTON PICKLING This is a prolific variety, widely grown for pickles. Fully developed fruits average 4 to 5 inches in length and, on account of their fine quality, they are quite often used for slicing; but it is grown chiefly for medium-sized pickles. If the fruits are gathered as soon as large enough, the vines will continue bearing throughout the season. Pkt. 10¢; oz. 25¢; 4 ozs. 55¢; ½ lb. 80¢; lb. \$1.25; 2 lbs. \$2.35; 5 lbs. \$5.60; 10 lbs. \$10.60, postpaid.

Burpee's Pumpkins

*Illustrated
in color on
page 22*

861 Small Sugar ☉ The fruits are of small size, averaging about 10 inches in diameter; of excellent keeping quality, flattened or slightly ribbed. The skin is deep orange-yellow. The flesh is rich orange, of excellent quality, meaty, and sweet. This should be more generally known, as it is really one of the best of all pumpkins for pies. There is no finer variety. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

Pumpkins can be grown easily among a crop of sweet or field corn or wherever there is ample room for the vines to spread. In the small garden they can be grown by planting the seed near a paling-fence or some low building over which the vines can run without interfering with other crops in the garden. In field culture it is best to make the hills 10 feet or more apart each way, so that the vines may have plenty of room to spread.

Wherever fruits are desired for exhibition purposes, a large hole should be made with a liberal quantity of well-rotted manure, and only one or two fruits should be allowed to set on each vine. Three or more seeds can be planted to a hill, but when the plants are well started they should be thinned out, leaving only the best plant standing in the hill. The fruits should be gathered with the stems attached to them and carefully stored in a warm, dry place before they are touched by frost. One ounce will plant 25 to 50 hills, according to size of seed; 4 pounds per acre.

865 Large Cheese See illustration. Large, round, flattened fruits, with creamy buff skin, averaging 2 feet in diameter. A fine variety for canning and of exceptional quality. The fruits are borne freely and the plants are remarkably disease resistant. When fully developed, the fruits measure 12 by 7 inches and weigh about 9 lbs. on the average. It has thick flesh of extra-fine quality, and will keep all winter. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

Large Cheese

*Perhaps you have a space
along the fence where
you can grow
pumpkins*

870 White Cushaw or JONATHAN

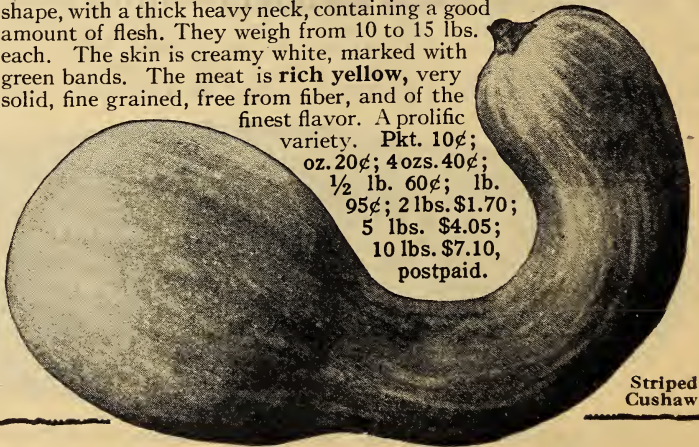

A popular variety of pumpkin with a crooked neck. The shell is an attractive creamy white and extremely strong, which makes the fruits suited for winter storing. The fruits measure about 2 feet in length, and the thick heavy neck is solidly filled with meat. The flesh is of superb quality. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

Golden Cushaw

874 This has the same shape as the White Cushaw listed above but the skin is of a golden yellow color. The fruits grow 2 feet in length and have a small seed cavity with a thick, meaty neck. The tender flesh is rich golden yellow. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30; 10 lbs. \$9.60, postpaid.

872 Striped Cushaw The fruits are of the typical crookneck

shape, with a thick heavy neck, containing a good amount of flesh. They weigh from 10 to 15 lbs. each. The skin is creamy white, marked with green bands. The meat is rich yellow, very solid, fine grained, free from fiber, and of the finest flavor. A prolific variety. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

Striped Cushaw

Grow plenty of Pumpkins and store them for winter and early spring use

867 Burpee's Golden Oblong ©

This variety is illustrated in color on page 22 and described on page 23. There is no finer pumpkin for pies than Burpee's Golden Oblong. The bright orange fruits measure 12 x 7 inches and weigh on the average 6 pounds. The flesh is exceptionally fine grained, dry, and sweet. The fruits are all flesh with a very small seed cavity. It takes about 115 days for the plants to bear mature fruits. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30; 10 lbs. \$9.60, postpaid.

863 Big Tom © or **IMPROVED LARGE FIELD** This is also sometimes called Connecticut Field. The vines make a strong, vigorous growth and are wonderfully prolific. The fruits will average 15 to 20 inches in diameter; they are round or slightly oval in form. Smooth, hard, reddish orange skin, slightly ribbed, with orange-yellow flesh.

The skin is tough and substantial, the flesh is dry, sweet, and excellent for canning. The fruits weigh about 25 lbs. each. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 45¢; lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60, postpaid.

The cost of the very best seeds is so small compared with the value of the resulting crop that sensible planters know they cannot afford to risk seed of doubtful pedigree and we know just as well that we cannot afford to risk our hard-earned reputation by selling stocks of uncertain character.

875 Genuine Mammoth © "Jumbo," or "King of the Mammoths." This is the very best genuine strain of the true Mammoth Pumpkin. The fruits grow to enormous size, measuring about 24 x 14 inches. The skin is bright lemon mottled with orange. The flesh is very thick, of a bright yellow color, fine grained, solid yet tender. It is of excellent quality for pies, and because of its heavy yield it is also used for stock feeding. On the farm it is usually grown in the cornfield and in the home garden the space along a fence will be a good place for it. Quite often the fruits show a netting similar to a muskmelon.

The average fruits weigh about 60 pounds, but with special care fruits weighing 100 pounds can be produced by allowing only one fruit on a vine to ripen. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60; 10 lbs. \$12.00, postpaid.

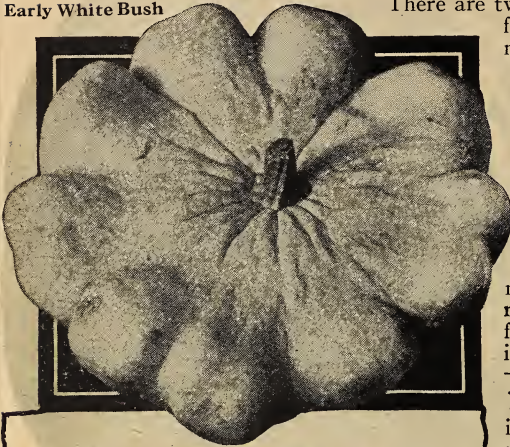

Why shouldn't they be happy with such a fine crop of Burpee Pumpkins?

"Good as Gold" © This mark (©), now called a bull's-eye, was used by the ancient alchemists to represent gold. We have used a bull's-eye (©) for many years to mark those varieties of Vegetables which we consider the very best of their class and most satisfactory for general cultivation throughout the country. If you are not posted as to the sorts most suitable for your own section, we recommend that you make your selection from those marked with a bull's-eye.

Summer Squash

Early White Bush

1010 Early White Bush ☉

Often called Patty Pan or Cymling. It is of dwarf bush growth and matures very early. The fruits measure 6 inches and more in diameter. They are flattened and have a scalloped edge. The skin is waxy white and the flesh is greenish white. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05, postpaid.

Burpee's Bush Fordhook

1034 Of true bush growth with short thick fruits of remarkable quality. They may be grown for both summer and winter use. The fruits are 6 to 8 inches long, slightly ridged, with a smooth, thin, light lemon-yellow skin. The flesh is sweet and delicious. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30, postpaid.

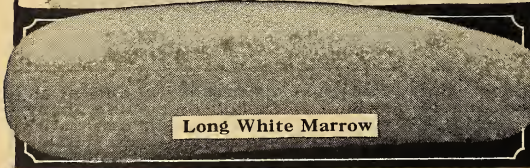

1032 Burpee's Fordhook ☉

This wonderful vining variety is illustrated in color on page 22 and described on page 23. It is a most outstanding variety for both summer and winter. Of most delicious buttery flavor. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30, postpaid.

1031 Long White Marrow ☉

or VEGETABLE MARROW Fine for summer and fall. Of bush type; oblong fruits, 9 inches long. Creamy white skin, white flesh. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30, postpaid.

Long White Marrow

There are two main types of squashes; namely, those planted for use in the young tender state during the summer months, and those having larger, hard-shelled fruits which are grown and stored for baking, making pies, etc., during the winter and early spring months. There is also another type, including Burpee's Bush Fordhook Squash and Burpee's Fordhook Squash, the fruits of which are excellent for use in the young state during the summer and which can be kept for baking and pies during the winter and early spring.

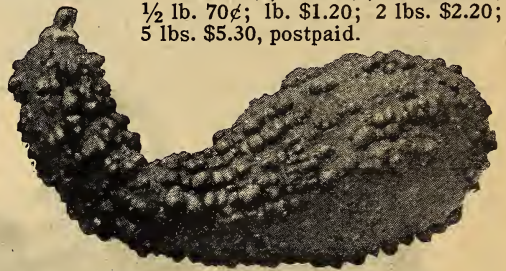

Squashes are tender plants and the seed cannot be sown until the weather is settled and the nights quite warm. Prepare the soil carefully and enrich with stable manure. Sow when the maples are in full leaf. One ounce will plant 25 to 50 hills, according to the size of the seed; 4 to 6 pounds per acre.

1014 Early Yellow Bush This is similar in growth to the Early White Bush and is often referred to as Yellow Patty Pan. The skin of the fruits is a uniform deep orange-yellow. Of excellent quality. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05, postpaid.

1030 Cocozelle Bush This is also known as Italian Vegetable Marrow. The oblong fruits measure 12 to 16 inches in length. The skin is deep green marbled with yellow and dark green stripes. The vines yield very heavily and the flesh is tasty. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 80¢; lb. \$1.35; 2 lbs. \$2.50; 5 lbs. \$5.95, postpaid.

1018 Golden Summer Crookneck

☉ Of true bush growth, very early-fruiting and productive. The skin is a beautiful deep orange and the flesh a rich shade of salmon-orange. Of delicious flavor. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30, postpaid.

1020 Giant Crookneck This strain is equally as early as the above, but the squashes grow to a larger size, measuring from 18 inches to 2 feet in length. Deep orange skin and salmon-orange flesh. It is a productive variety of excellent quality. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30, postpaid.

Burpee's Annual has been prepared to give you reliable and complete garden information. Keep it handy the whole year through and study it carefully throughout spring, summer, and fall.

Winter Squash

Squashes grow to perfection in a warm and rather light soil. When only a small plot is planted, it is best to spade two shovelfuls of well-rotted manure under each hill and plant the seed after the soil and weather have become warm and settled. In the vicinity of Philadelphia the second week of May is about the right time for sowing. Place 6 to 8 seeds in each hill and thin to the two strongest plants. One ounce for 10 hills; 3 to 4 pounds per acre.

1058 Mammoth Whale

This is the "Jumbo" of the Squash family. It is an unusually large-fruited sort. These squashes grow from 2½ to 3 feet in length, with a slight neck at the stem-end. The skin is dark olive-green, with thin stripes of a lighter tinge. The fruits frequently attain more than 100 pounds in weight. Flesh firm and solid; a beautiful orange-yellow color and of excellent quality. Pkt. 10¢; oz. 30¢; 4 ozs. 90¢; ½ lb. \$1.40; lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25, postpaid.

1048 Pie Squash or WINTER LUXURY PUMPKIN

This is of smooth, rounded form, with rather thin, tender skin. The thin skin is golden yellow, closely netted, like the netting found in some muskmelon varieties. The fruits grow to good size and look most attractive. The flesh is very thick, sweet, fine flavored, and excellent for pies. They will keep quite well in storage. The vines make a vigorous growth and bear the large fruits with the greatest freedom. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05, postpaid.

1035 Banana Squash

This is a favorite variety with many gardeners. The large fruits measure 2 to 3 feet in length and are quite thick. The tough shell, which serves as a good protection, is of a whitish green color. The flesh is fine grained, free from any hard fiber, mealy, and sweet. Banana Squash is easily grown and produces its heavy fruits in abundance. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60, postpaid.

1052 Delicious

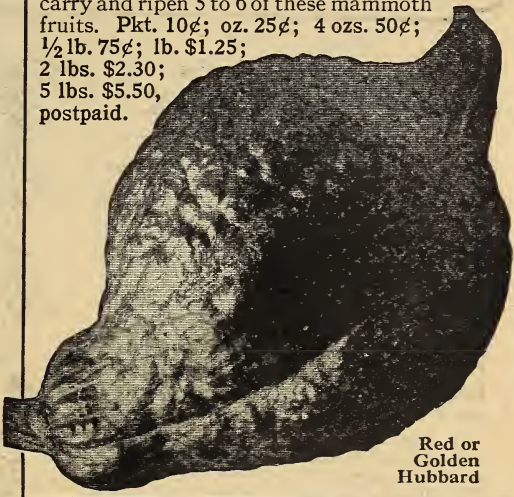

The squashes, weighing from 5 to 10 pounds, vary in both color and form, but are uniformly delicious in flavor and splendid winter keepers. The dark orange flesh is very thick and the quality is superb. They are mostly top-shaped and of dark green color. Some fruits show light green markings and stripes. Many consider this the finest in taste of all winter squashes. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50, postpaid.

Delicious

Red or Golden Hubbard

1042 The fruits are large, of the typical Hubbard shape, with a glossy, much warted, orange-yellow skin which turns to a beautiful salmon-red when fully ripe. They sometimes show creamy yellow stripes running toward the blossom-end. The thick flesh is sweet, rather dry. It is one of the best in quality. It also keeps well for a long time. The heavy vines usually carry and ripen 5 to 6 of these mammoth fruits. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50, postpaid.

Red or Golden Hubbard

1038 True Hubbard

See illustration on page 22 and full description on page 23. It is an excellent dark green variety with bright orange-yellow flesh. Of fine quality and a good winter keeper. Very productive and easily grown. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30, postpaid.

1040 Warted Hubbard

This is similar in size and quality to the well-known Hubbard, but the color of the skin is still deeper, almost a black-green, and more heavily warted. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50, postpaid.

1022 Blue Hubbard

This variety has been developed in New England. Rich blue-green skin and bright orange flesh of good taste; mealy and dry. It is of true Hubbard shape. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 80¢; lb. \$1.35; 2 lbs. \$2.50; 5 lbs. \$5.95, postpaid.

1036 Boston Marrow

A large-fruited, hard-shelled sort for winter use, having bright orange skin and deep yellow flesh. Vines of strong running growth, very productive; broad oval fruits. In shape it is quite similar to the Hubbard squash, reaching about the same size also. It is an excellent variety for canning or pies. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30, postpaid.

Burpee's Ready Made Gardens

It has been our aim for fifty years to supply American gardeners with the "Best Seeds That Grow" and give the best information on how to succeed with the seeds.

As an assistance to amateurs and to those who do not have the time to plan their own garden, we have planned and prepared for them a number of different size vegetable plots. For a number of years we have grown these gardens on Burpee's Fordhook Farms to make sure that every step in growing them was practical and accurate. The results of these extensive trials are offered in the four Ready Made Garden Collections listed on these two pages.

7001 Burpee's DOLLAR BOX of Vegetables

A Complete Garden, 20 x 30 Feet

This is a splendid collection for those who can have only a small garden and want to plant some easy-to-grow vegetables. It will help considerably to reduce the expense of the table; and you can seldom buy as good vegetables as you can raise in your own garden.

The box contains Sweet Corn — Beets — Carrots — Onions — Radishes — Turnips — Swiss Chard — Lettuce — Parsley — Cucumber — Beans. Altogether there are 15 packets of 13 different varieties of vegetables.

In addition to the seed in this collection, we will send the **Garden Plan**, which shows exactly how to plant. The instructions fully cover the time of sowing and caring for the crops throughout the season. Everything has been done to make the growing of this garden as easy as possible and yet produce a good quantity of vegetables from the small area. The collection will be mailed to you complete, postpaid, for

\$1.00

7002 Burpee's HOME GARDEN Collection

A Complete Garden, 25 x 50 Feet

This box contains enough seed to plant a complete garden with 17 different kinds of vegetables. All have been carefully selected and the garden has been proven to be thoroughly practical and economical.

The collection contains the following: Beets — Carrots — Onions — Parsnips — Radishes — Salsify — Turnips — Swiss Chard — Cabbage — Lettuce — Parsley — Beans — Pole Lima Beans — Sweet Corn — Cucumbers — Squash — Tomatoes.

Altogether there are 25 packets of 23 different varieties of vegetables. Of each kind we have given enough to provide the right quantities for the table. And of course there will be some for canning and storing for winter use.

This garden collection, together with the carefully prepared **Garden Plan** and three printed pages of planting instructions, will be mailed to any address, postpaid, for

\$2.00

The illustration shows some Ready Made Gardens on Fordhook

Suburban Garden Collection

The Suburban Garden Collection, with **40 varieties of 23 different vegetables**, gives a complete vegetable garden, **50 x 80 feet**. A garden plan with instructions makes the planting so easy that a child could succeed with it.

The garden contains Beans—Beets—Cabbage—Carrots—Cauliflower—Celery—Sweet Corn—Cucumbers—Egg Plant—Lettuce—Muskmelon—Onion—Parsley—Parsnip—Peas—Pepper—Radishes—Salsify—Spinach—Squash—Swiss Chard—Tomatoes—Turnips.

Those who have planted this garden before know just what pleasure it is to work with a good plan and definite instructions on **when to sow and how to cultivate** the crops. Whether you are a beginner or an experienced amateur, you will enjoy planting this ready made garden.

7005

Burpee's Suburban Garden Collection, together with a complete garden plan, will be mailed to your address, postpaid, for

\$5.00

Burpee's COUNTRY GARDEN Collection

A complete vegetable garden, **100 x 100 feet**, which will give a continuous supply of good things. Variety of vegetables is an important factor in the daily diet, and the garden has been laid out to provide variety in the right quantities.

Burpee's Country Garden Collection contains **52 varieties of 28 different vegetables**. There are plenty of Beans—Beets—Brussels Sprouts—Cabbage—Carrots—Cauliflower—Celery—Corn—Cucumbers—Egg Plant—Kohl-Rabi—Lettuce—Muskmelon—Okra—Onion—Parsley—Parsnip—Peas—Pepper—Pumpkin—Radishes—Salsify—Spinach—Squash—Swiss Chard—Tomatoes—Turnips—Watermelons.

Burpee's Country Garden Collection is the result of many seasons' careful work on Burpee's Fordhook Farms. For years we have been experimenting with growing this garden. The purpose of these experiments has been to provide the busy man or woman with plans which are thoroughly practical. The garden has been laid out to reduce the amount of work to a minimum and yet give as high a yield per square foot as is practical.

7010

Burpee's Country Garden Collection of Vegetables, together with a complete garden plan, will be delivered to you for

\$10.00

OKRA or GUMBO

This is used largely in the southern states, both as a vegetable dish and for soups, etc. It is becoming better known and more popular in the North. The pods should be gathered and eaten while still young and

tender, before the hard, woody fiber develops. In some sections the ripe seeds are roasted, ground, and used as a coffee substitute. Sow the seed after the nights have become quite warm and the weather is settled. Okra does best in a light, sandy, and warm soil. One ounce for 75 feet of row.

667 PERFECTED PERKINS' LONG-POD

See illustration. The pods are produced in great abundance, and when ready to use are from 4 to 5 inches in length. It is one of the best and a most sturdy grower. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60, postpaid.

666 KLECKLEY'S FAVORITE

The plants grow 2½ to 3 feet in height, are close-jointed, with ample foliage, and bear smooth white pods. This is a great favorite and because of its quick growth is suited for growing even in cooler sections. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 80¢; lb. \$1.35; 2 lbs. \$2.50; 5 lbs. \$5.95, postpaid.

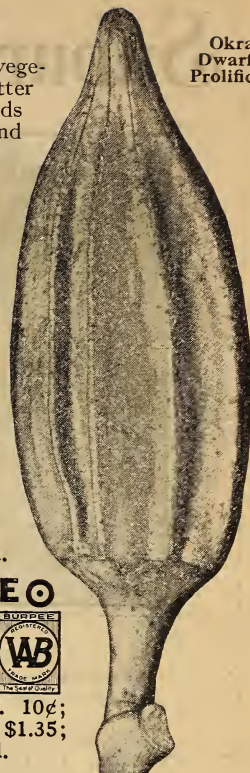

661 Dwarf Prolific See illustration. The plants make a dwarf and stocky growth. Matures early and yields a tremendous crop of pods. They are fiberless while young. It is a fine variety for both the home gardener who appreciates quality and the market grower who is interested in high yields. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50, postpaid.

663 White Velvet A tall-growing plant reaching a height of 3½ feet and bearing a large crop of long, smooth pods. Attractive velvety white skin. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50, postpaid.

6082 Burpee's Green Manuring Mixture

Seed Your Ground with this Green Manure Mixture

Burpee's Green Manuring Mixture will solve your manure problem. It will help you to supply organic matter and plant food to your soil. It contains a mixture of quick-growing plants and legumes which supply humus and valuable nitrogen to the soil.

Sow the seed during September or October, as soon as your garden has been cleared of the crops, or broadcast between the rows before your last crop has been removed. Rake in lightly. In the spring spade under and mix the green manure well with the subsoil.

The growing of a green manure crop not only adds organic matter and plant food to the soil, but the protection given by the plants prevents the washing away of valuable plant food during winter. It also holds the soil in place and prevents the surface soil from washing or blowing away.

This green manure mixture can be sown any time during the year. If sown during spring or early summer, the plants should be allowed to make a growth of about one foot before they are spaded under. Sow at the rate of one pound for 1,000 square feet. Lb. 50¢; 2 lbs. 95¢; 5 lbs. \$2.35; 10 lbs. \$4.25, postpaid. By express or freight, 25 lbs. \$9.50; 50 lbs. \$18.00; 100 lbs. \$35.00.

Keep BURPEE'S ANNUAL handy for reference throughout the year

Burpee's Egg Plant

In the vicinity of Philadelphia seed should be sown during March in a hotbed in light rich soil, or it may be started in a box in the sunny window of a warm room. Sow thinly, and when the young plants show 2 or 3 leaves, transplant to stand 3 inches apart each way; or, if growing indoors, set them in small flower-pots. Set the plants outdoors when the maple trees are in full leaf, in rich soil, 2 feet apart each way. Mulch the plants with strawy manure during the summer. One ounce for 1,000 to 1,500 plants; 4 ounces for transplanting one acre. We are growing our special strains of Egg Plants on Burpee's Sunnybrook Farm, New Jersey.

New York Improved Spineless

422 This is an entirely spineless strain of the large purple-fruited type. Our strain of this variety is especially fine. The plants are most productive, bearing oblong fruits which are a beautiful rich purple. The large plants bear 4 to 6 full-size fruits. It is an excellent variety for market and the home garden.

Pkt. 10¢; 1/2 oz. 25¢; oz. 45¢; 4 ozs. \$1.35; 1/2 lb. \$2.45; 1 lb. \$4.50; 2 lbs. \$8.35, postpaid.

428 Early Long Purple

This variety has long fruits 2 1/2 inches in diameter and from 6 to 8 inches in length. The fruits have a deep purplish black skin which runs evenly from the deep green calyx to the blossom end.

It is one of the earliest and most productive varieties of most excellent quality.

Pkt. 10¢; 1/2 oz. 25¢; oz. 45¢; 4 ozs. \$1.35; 1/2 lb. \$2.45; 1 lb. \$4.50; 2 lbs. \$8.35, postpaid.

423 Florida Highbush

In this variety the fruits are borne high up on the bushes and the sun does not blight the blossoms as is the case with many other sorts. The fruits are held above the ground and are therefore less likely to discolor. Of strong, vigorous growth, with large fruits of uniform size and dark purple color; similar in form to New York Improved Spineless, but not quite so dark in color. Grown extensively in the South, where it does very well. Pkt. 10¢; 1/2 oz. 25¢; oz. 40¢; 4 ozs. \$1.20; 1/2 lb. \$2.20; 1 lb. \$4.00; 2 lbs. \$7.45, postpaid.

The fruit shown in the illustration was grown by Mr. Kergassner, of Lexington, Ky., and was awarded the first premium at the Blue Grass Fair, Lexington, Ky., August, 1923. It weighed 6 pounds and had a circumference of 25 1/2 inches.

420 Burpee's Black Beauty

The Earliest and Best of all Large-Fruited Egg Plants

Burpee's Black Beauty Egg Plant is valuable alike to the market grower and to the home gardener. The fruits grow to enormous size and are ready for use 10 days to 2 weeks before any other variety. The plants grow into compact yet robust bushes, which branch freely near the ground. Under favorable conditions they bear continuously until frost.

The fruits are large and of the typical egg shape. They have a uniform rich purplish black skin, showing no lighter spots on any part of the fruits. The calyx is bright green, contrasting sharply with the dark, satiny skin of the fruits, which are entirely free from spines or thorns. Pkt. 15¢; 1/2 oz. 30¢; oz. 50¢; 4 ozs. \$1.50; 1/2 lb. \$2.75; 1 lb. \$5.00; 2 lbs. \$9.30, postpaid.

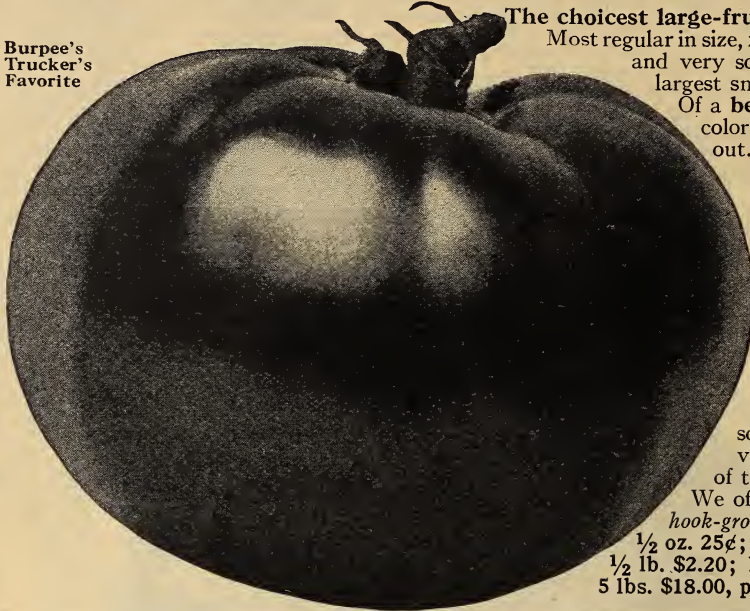

Burpee's Tomatoes

Tomatoes are one of our finest vegetables. Sow the seed in the hotbed or in shallow boxes about 6 weeks before the plants should be set in the garden or field. In the latitude of Philadelphia early March is about the right time for sowing. For a late crop sow the seed any time during April. One ounce of seed gives 3,000 to 4,500 plants; 2 to 3 ounces of seed per acre for transplanting. We have developed our special strains of Burpee Tomatoes on Burpee's Fordhook Farms in Pennsylvania and Burpee's Sunnybrook Farm in New Jersey, where we yearly grow many acres of our special stocks solely for the production of the highest quality tomato seed.

1112 Burpee's Trucker's Favorite

Burpee's
Trucker's
Favorite

The choicest large-fruited purple tomato. Most regular in size, form, and thick-meated and very solid, this is one of the largest smooth tomatoes grown. Of a beautiful purplish red color, well ripened throughout. The smooth, fleshy fruits always bring the highest prices at our Philadelphia markets. This is a main-crop variety, maturing the same season as the Matchless, and is equally as productive. As a dependable main-crop pink or purple sort, no variety in cultivation today is the equal of this Trucker's Favorite. We offer our special "Fordhook-grown" stock. Pkt. 10¢; 1/2 oz. 25¢; oz. 40¢; 4 ozs. \$1.20; 1/2 lb. \$2.20; lb. \$4.00; 2 lbs. \$7.45; 5 lbs. \$18.00, postpaid.

1107 June Pink A large pink-fruited variety of spreading growth. In size and shape it is very similar to Sunnybrook Earliana but differs in having a pink or purple skin. It is the best early pink tomato in existence. The purplish red flesh is solid, of fine texture, and slightly acid. Fruits flattened and slightly ribbed. Pkt. 10¢; 1/2 oz. 25¢; oz. 40¢; 4 ozs. \$1.15; 1/2 lb. \$2.05; lb. \$3.75; 2 lbs. \$6.95; 5 lbs. \$16.85, postpaid.

1067 Livingston's Globe The truly globe-shaped fruits are a fine purple-red and very attractive. The flesh is solid and the seed cavities rather small, with hardly any core. Very vigorous. *Fordhook-grown seed.* Pkt. 10¢; 1/2 oz. 25¢; oz. 45¢; 4 ozs. \$1.35; 1/2 lb. \$2.45; lb. \$4.50; 2 lbs. \$8.35; 5 lbs. \$20.25, postpaid.

1100 Sparks' Earliana The tomatoes are quite uniform in size, averaging 3 inches in diameter and from 2 to 2 1/2 inches in depth; they are fleshy and solid. Pkt. 10¢; 1/2 oz. 20¢; oz. 35¢; 4 ozs. \$1.00; 1/2 lb. \$1.65; lb. \$3.00; 2 lbs. \$5.60; 5 lbs. \$13.50, postpaid.

1093 Dwarf Stone ☉ Of typical dwarf growth. The tomatoes average 4 inches in diameter and 2 1/2 inches in depth. They are bright scarlet, quite smooth, firm, solid, and all flesh. A productive variety. Pkt. 10¢; 1/2 oz. 25¢; oz. 40¢; 4 ozs. \$1.20; 1/2 lb. \$2.20; lb. \$4.00; 2 lbs. \$7.45; 5 lbs. \$18.00, postpaid.

1074 Stone A late or main-crop variety, making a heavy growth and yielding a good crop. Large, smooth, solid fruits of a deep scarlet color. Pkt. 10¢; 1/2 oz. 25¢; oz. 40¢; 4 ozs. \$1.15; 1/2 lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75, postpaid.

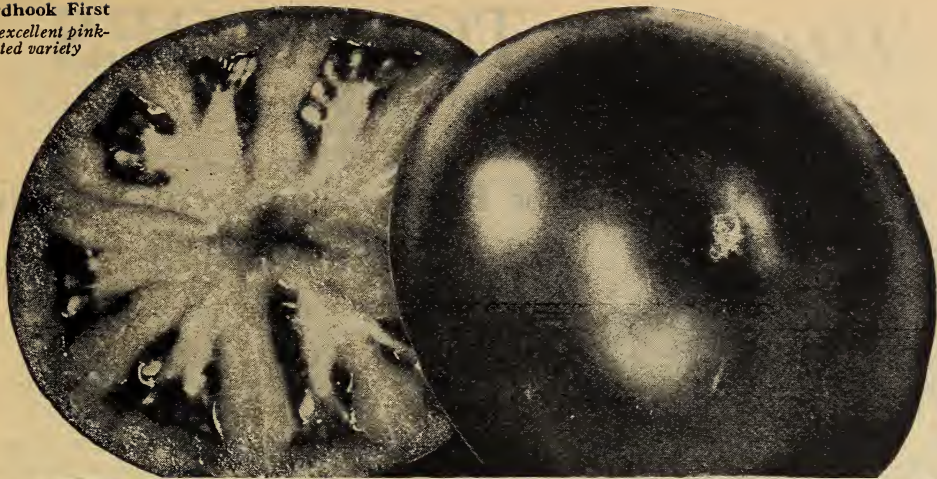

1087 John Baer An early and productive variety not unlike Chalk's Jewel in size, form, and color. A heavy yielder. Pkt. 10¢; 1/2 oz. 25¢; oz. 40¢; 4 ozs. \$1.15; 1/2 lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75, postpaid.

1081 Greater Baltimore A main-crop tomato with large scarlet-red fruits not unlike Matchless. Popular with canners. Pkt. 10¢; 1/2 oz. 25¢; oz. 40¢; 4 ozs. \$1.15; 1/2 lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75, postpaid.

1115 Beefsteak The largest of the bright red tomatoes and quite similar to Ponderosa, but of a scarlet red color. Pkt. 15¢; 1/2 oz. 35¢; oz. 60¢; 4 ozs. \$1.80; 1/2 lb. \$3.30; lb. \$6.00; 2 lbs. \$11.15; 5 lbs. \$27.00, postpaid.

1120 Bonny Best A selection of Chalk's Early Jewel maturing about a week earlier. The purplish-pink fruits are borne in clusters of from 3 to 5. They are somewhat smaller than Chalk's Early Jewel, single fruits weighing 5 ounces each. They are smooth, solid, meaty, juicy, and in every way very uniform. Pkt. 10¢; 1/2 oz. 25¢; oz. 40¢; 4 ozs. \$1.15; 1/2 lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75, postpaid.

Fordhook First
An excellent pink-fruited variety

1102 Fordhook First Tomato

Burpee's Fordhook First is a perfectly smooth solid tomato, of first-class appearance, maturing very early. The perfect uniformity of Fordhook First, with its smooth, thoroughly ripened fruits and its rich deep red-purple color, is really marvelous. We consider it the most outstanding early pink-fruited tomato in existence. The fruits grow to good size and are borne most prolifically all over the vines. The habit of the plant is strong and vigorous and the plants are therefore remarkably resistant to attacks of insects and diseases.

Fordhook First is particularly well adapted to moist or heavy soils, where the plants make their strongest growth and mature fruits which are 3 to 4 inches in diameter. These fruits are very fleshy and contain but few seeds. Their flavor is luscious and tasty. In the New England states it will ripen earlier than any other variety. Pkt. 10¢; ½ oz. 25¢; oz. 45¢; 4 ozs. \$1.35; ½ lb. \$2.45; lb. \$4.50; 2 lbs. \$8.35; 5 lbs. \$20.25, postpaid.

True Giant Ponderosa

1114 This is a tomato of immense size, with astonishingly solid meat and practically free from seeds, which, of course, makes the seed rather expensive, but it is well worth all it costs. The fruits are of handsome appearance, being uniformly large and smooth, and having a rich dark crimson skin. The flavor is deliciously sub-acid. Of value for market as well as for the home garden. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00; 2 lbs. \$11.15; 5 lbs. \$27.00, postpaid.

1066 Acme This is an old variety of medium size and spreading growth. The fruits are produced in clusters of from 3 to 5, somewhat flattened, and show a tendency to grow irregularly. The skin is an even purple-red color, and the flesh is dark red, fine in texture, and slightly acid. Pkt. 10¢; ½ oz. 20¢; oz. 35¢; 4 ozs. \$1.00; ½ lb. \$1.65; lb. \$3.00; 2 lbs. \$5.60; 5 lbs. \$13.50, postpaid.

1136 Golden Queen Yellow fruited tomatoes are not as widely grown as the red ones, even though they are preferred by some people on account of their flavor. A main-crop variety, bearing a large crop of smooth yellow fruits. Pkt. 10¢; ½ oz. 25¢; oz. 45¢; 4 ozs. \$1.35; ½ lb. \$2.45; lb. \$4.50; 2 lbs. \$8.35; 5 lbs. \$20.25, postpaid.

1101 Chalk's Early Jewel

The largest, smoothest, and finest-flavored extra-early bright red tomato! Within a week to 10 days as early as Sparks' Earliana, it is even a heavier cropper, with tomatoes of larger size and sweeter flavor, produced continuously throughout the season. Without question the best early home garden tomato. The bright scarlet fruits are smoothly round, very deep, and solidly meaty, with only a few quite small seed-cells. The fruits are of fine sweet flavor. Our special Fordhook-grown strain is unexcelled. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75, postpaid.

Burpee's TOMATOES

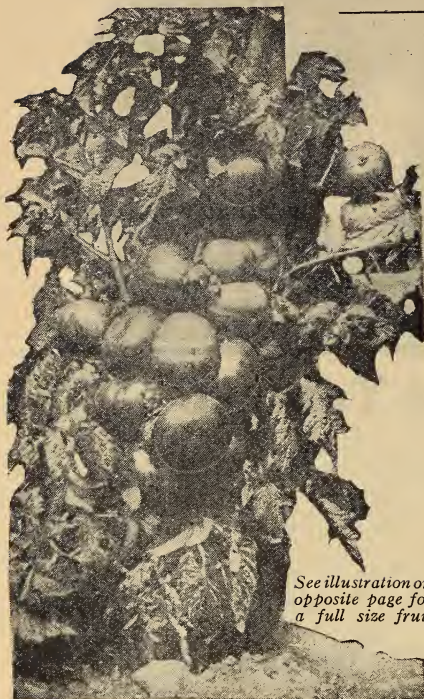

TWO SPLENDID VARIETIES

1095 Burpee's Dwarf Giant Tomato ⊙

BURPEE'S Dwarf Giant is the largest fruited of all dwarf varieties. Individual fruits weigh from 10 to 20 ounces each. They are quite smooth and of somewhat flattened type. The color of the skin is a rich purple-crimson and the depth of color is maintained evenly over the entire fruit.

Burpee's Dwarf Giant is the most meaty of all tomatoes known. The flesh is extremely firm and so thick that it might be described as "solid as a rock." The color of the flesh is a beautiful bright pinkish red. The seed cavity is extremely small and practically seedless.

The flesh is firm, fine grained, showing no trace whatever of a core. The flavor is particularly fine. The growth of the plants is distinct, with a short thick main stem, seldom growing more than 3 to 4 feet in height. The fruits are borne in clusters all along the vine. It is particularly suited for the home garden, because the compact bush growth permits closer planting and only short stakes are required to support the plants. In the field the close planting effects a larger yield per acre than do most other varieties of spreading growth. Pkt. 15¢; ½ oz. 40¢; oz. 75¢; 4 ozs. \$2.25; ½ lb. \$4.10; 1 lb. \$7.50; 2 lbs. \$13.95; 5 lbs. \$33.75, postpaid.

See illustration on opposite page for a full size fruit

Burpee's Dwarf Giant Tomato

1108 Burpee's Matchless Tomato ⊙

BURPEE'S Matchless Tomato is the best large-fruited smooth main-crop tomato in existence. Matchless is outstanding in every way. It is a strong vigorous grower, with thrifty vines, producing large handsome tomatoes on the entire length of the vines. The foliage is deep green and heavy. The fruits are a rich cardinal-red color.

The tomatoes are always of the largest size. They are perfectly smooth, with an even coloring running from the blossom-end to the stem-end. They are firm and solid and are noted for their long-keeping qualities. The fruits are free from any core and have an unusual amount of meat. The flavor is agreeable and tasty. Thousands of planters agree with us that there is no other scarlet-fruited tomato that can equal Burpee's Matchless.

Our special strain of Matchless is grown on Burpee's FORDHOOK FARMS. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.20; ½ lb. \$2.20; 1 lb. \$4.00; 2 lbs. \$7.45; 5 lbs. \$18.00, postpaid.

actual size ~*

1117 Burpee's New Self-Pruning Tomato ©

Slightly reduced in size

This new tomato is outstanding in many ways. It was given the name Self-Pruning because of its characteristic growth, which is of such a nature that the plants **do not require any pruning** at all as they form a limited number of side shoots close to the ground and branch but little on the upper part of the vines. The habit is distinct from the so-called dwarf or tree varieties, and also from the original tall long-jointed growth of the majority of tomatoes. The fruits are borne most profusely all along the vine. They are perfectly **smooth and solid**, and of handy size.

The color of the skin is a **bright pinkish red**. The flesh is of a bright pinkish red color. The fruits are juicy, **very fleshy**, and of a delightful sub-acid taste.

The plants make a strong vigorous growth and bear during midseason. They are excellent for the home garden and for market. Pkt. 15¢; 1/2 oz. 70¢; oz. \$1.20; 4 ozs. \$3.60; 1/2 lb. \$6.60; lb. \$12.00; 2 lbs. \$22.30; 5 lbs. \$54.00, postpaid.

Golden Dwarf Champion

1138 (Burpee's) This, in our opinion, is the very finest of all yellow-fruited tomatoes.

The plants make a vigorous growth of strictly bush habit. The foliage is very dark green, of the type commonly called Potato Leaf. The fruits are large, nearly round, and have a smooth skin. The color of the skin is bright lemon-yellow. The solid but juicy flesh is a light lemon color.

The eating qualities of this variety are superb because the fruits contain little acid. Pkt. 15¢; 1/2 oz. 35¢; oz. 65¢; 4 ozs. \$1.95; 1/2 lb. \$3.55; lb. \$6.50; 2 lbs. \$12.10; 5 lbs. \$29.25, postpaid.

1097 Burpee's Sunnybrook Earliana ©

The earliest of all red tomatoes. Compared with Spark's Earliana it produces a closer jointed and more compact vine, set quite as freely with **fine smooth tomatoes**, ready to market 5 days earlier! The entire crop can be gathered generally in about 3 weeks from the time the first fruit ripens. Sunnybrook Earliana is undoubtedly **the very best earliest scarlet-fruited tomato**. Gardeners who are seeking to have good smooth tomatoes "first on market" can find nothing equal to this variety. A very prolific strain for the gardener who wants a first-class early variety. Pkt. 10¢; 1/2 oz. 30¢; oz. 50¢; 4 ozs. \$1.50; 1/2 lb. \$2.75; lb. \$5.00; 2 lbs. \$9.30; 5 lbs. \$22.50, postpaid.

Natural size fruits

1134 Burpee's **WHOLE-SALAD** Tomato ©

A choice "Individual" Tomato. This unique variety bears an immense crop of solid, smooth, bright scarlet fruits.

Burpee's Whole-Salad Tomato is immensely productive and of excellent flavor

The vines are of vigorous growth. The fruits are borne in clusters along practically the entire vine. We have counted as many as 375 ripe and green tomatoes on a single plant at one time; they measure 2 to 2½ inches in diameter by 1½ to 1¾ inches from stem to blossom-end, and weigh 3 to 4 ounces each. They are solid, and of finest appearance. *Fordhook-grown seed.*

Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00; 2 lbs. \$11.15; 5 lbs. \$27.00, postpaid.

1104 Early Detroit A large early pink tomato of vigorous growth and producing smooth, nearly globe-shaped fruits, which are firm and of excellent quality. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.20; ½ lb. \$2.20; lb. \$4.00; 2 lbs. \$7.45; 5 lbs. \$18.00, postpaid.

1068 Gulf State Market A deep purplish pink variety of medium size and round form. It is unsurpassed as a shipping or market garden variety, maturing very early and bearing an enormous crop. Pkt. 10¢; ½ oz. 25¢; oz. 45¢; 4 ozs. \$1.35; ½ lb. \$2.45; lb. \$4.50; 2 lbs. \$8.35; 5 lbs. \$20.25, postpaid.

Natural size

SMALL-FRUITED TOMATOES

These are easily grown, immensely productive, and very delicious for preserves. The seed has all been grown on FORDHOOK FARMS and, like all Fordhook specialties, is the best that can be produced.

1137 Yellow Plum The fruits have the size and shape of a plum. The skin is a bright lemon-yellow. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00, postpaid.

1145 Yellow Cherry The small yellow fruits are borne in clusters, each averaging half an inch in diameter. Pkt. 10¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00, postpaid.

1151 Strawberry or HUSK TOMATO The small, sweet yellow fruits are each enclosed in a paper-like husk. Fine for preserves. Yields heavily throughout the entire season. Pkt. 10¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00, postpaid.

1147 Red Cherry See illustration. The attractive bright scarlet fruits are about the size of a cherry. They are borne in clusters. The plants bear heavily. Sweet in flavor and fine for marmalade. Pkt. 10¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00, postpaid.

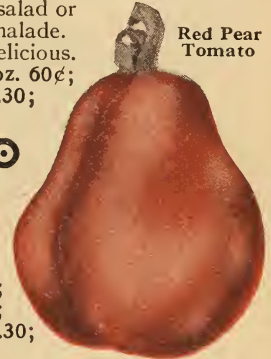

Red Cherry

1139 Yellow Pear An attractive small-fruited tomato. Enormously productive and the fruits make excellent salad or may be used for marmalade. They are sweet and delicious.

Pkt. 10¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00, postpaid.

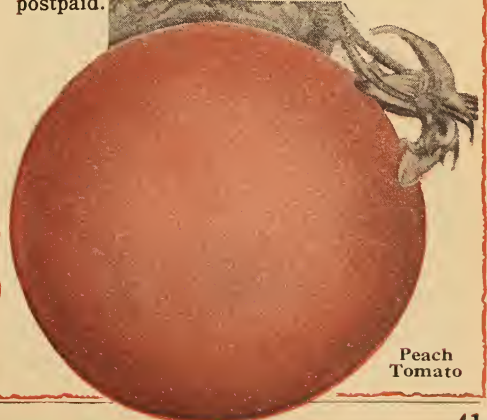

Red Pear Tomato

1149 Red Pear ©

See illustration. The fruit is bright red, of true pear shape. Rich and distinct in flavor. Fine for "tomato figs." Pkt. 10¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00, postpaid.

1141 Peach See illustration. The fruits average nearly 2 inches in diameter. The skin is covered with a light bloom or pubescence, as in a peach, and is of beautiful pinkish coloring. Pkt. 10¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00, postpaid.

Peach Tomato

Burpee's Peppers

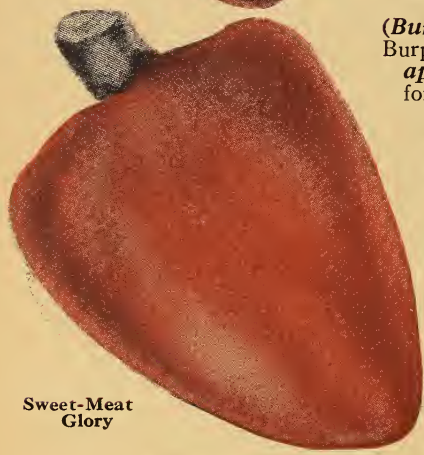

Although the pepper is at home in tropical and subtropical countries, it is grown successfully in nearly all parts of the United States. We are growing annually many acres of peppers for seed on BURPEE'S SUNNYBROOK FARM in New Jersey. It is a tender plant and cannot endure frost. The seed should be sown during February or March in a warm hotbed, or in boxes placed in the sunny window of a warm room. It requires plenty of moisture and warmth to germinate. The young plants are put out into small pots as soon as they can be handled. In the vicinity of Philadelphia the first week of May is about right for setting out the plants. One ounce will produce about 1,500 plants; 3 ounces for setting out one acre.

Large
Early
Neapolitan

818 **Large Early Neapolitan**

818 **☉** *Decidedly the Earliest of all Large Mild Red Peppers, and the Most Productive of all Large Peppers.* The fruits measure 4 inches long and 4½ inches in circumference. The strong, vigorous plants grow 2 feet tall by 18 inches across. They are heavily laden with large handsome fruits and bear continuously until frost. Single plants carry from 35 to 50 marketable fruits at one time. **Skin and flesh bright red**; mild as an apple. Fine for the home garden and market. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75, postpaid.

Sweet-Meat
Glory

820 **Sweet-Meat Glory** ☉

(Burpee's) This is the thickest fleshed of all peppers excepting Burpee's Sunnybrook. The solid meat is always "sweet as an apple." The fruits are rich crimson-scarlet in color. The form is very distinct, being of regular conical shape.

The peppers measure from 2 to 2¼ inches across at the stem-end and average 3 to 3½ inches in length. The smooth skin is entirely free from ridges. The firm flesh measures five-sixteenths inch in thickness.

The peppers are **never hot** in any part of the fruit, even the flesh around the seeds being sweet. The plants are 2 to 2½ feet in height and branching freely. The handy-size fruits are produced in the greatest abundance and the yield per plant is truly astonishing. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00; 2 lbs. \$9.30; 5 lbs. \$22.50, postpaid.

821 **Burpee's Ruby King** ☉

Burpee's Ruby King is a very productive variety, bearing a fine crop of fruits on strong and vigorous bushes which measure fully 2 feet in height. The fruits measure from 6 to 8 inches in length by 4 inches in diameter. The skin is glossy and of a **bright ruby-red** color, extending evenly from the stem to the blossom-end.

The shape of the fruits is blocky, somewhat tapering near the blossom-end. The fruits are **mild and very pleasant** in flavor. The flesh is **unusually thick** and may be eaten like an apple. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.20; ½ lb. \$2.20; lb. \$4.00; 2 lbs. \$7.45; 5 lbs. \$18.00, postpaid.

Burpee's
Ruby King

819 Burpee's Chinese Giant ◉

The Largest Mild Red Pepper. An Ideal Variety for the Home Garden

Chinese Giant makes a vigorous growth, developing into heavy and stubby bushes, seldom more than 2 feet in height. They are well branched and thickly set with enormous fruits. It is not unusual to find a half-dozen peppers growing so closely together that they will touch each other as if in a single bunch. The stems and side branches are stout and strong, carrying the heavy fruits above the ground.

Burpee's Chinese Giant Pepper is not only most productive but matures very early. Before the fruits ripen they are rich dark green, turning to a bright and brilliant scarlet-red when they reach maturity. The fruits are 4 to 5 inches broad and fully as long. The flesh is the thickest ever found in any of the large size peppers, being strictly mild and sweet. Pkt. 15¢; ½ oz. 35¢; oz. 65¢; 4 ozs. \$1.95; ½ lb. \$3.55; lb. \$6.50; 2 lbs. \$12.10; 5 lbs. \$29.25, postpaid.

Greatly reduced

823 Bull-Nose or IMPROVED LARGE BELL This standard variety grows 2 feet in height. It is prolific and ripens quite early. The fruits are rich scarlet, 3 inches in length and 2 inches in diameter. They are angular in shape. Occasionally a plant will produce hot fruits but usually they are sweet. It is a standard early variety and popular for pickling. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75, postpaid.

843 Golden Queen Of all yellow-fruited peppers, Golden Queen is the largest, most productive, and finest. The fruits are quite large, unusually meaty, and strictly mild. The skin is a bright and attractive glossy golden yellow. It is an excellent variety for home and market, producing the attractive and large fruits with astonishing freedom. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.20; ½ lb. \$2.20; lb. \$4.00; 2 lbs. \$7.45; 5 lbs. \$18.00, postpaid.

HOT PEPPERS The small-fruited varieties of peppers bear hot fruits. They are used extensively for seasoning and are also pickled in vinegar. They may be dried for winter use by hanging them up in the sun until completely dry.

854 Coral Gem Bouquet Compact bushes covered with small scarlet fruits. Very hot and pungent. Most desirable for the northern states because it matures early. A very productive variety. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00, postpaid.

837 Long Red Cayenne This is the true Cayenne pepper. The fruits are narrow, about ¼ inch thick and 3 inches long. They are borne in great abundance all over the bushes. The fruits are very hot. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50, postpaid.

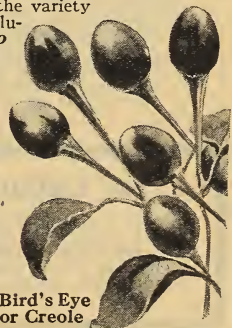

839 Red Chili The fruits measure 2 to 3 inches in length and are ¼ inch thick. Early and enormously productive. The fruits are fiery hot and are much used for pepper sauce. The plants make a spreading growth about 18 inches tall. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. \$1.00; ½ lb. \$1.65; lb. \$3.00, postpaid.

826 Ruby Giant Ruby Giant is a cross of the two famous Burpee varieties, Ruby King and Chinese Giant. It combines the wonderful size and vigorous growth of the Chinese Giant with the earliness and hardness of Ruby King. The fruits are of enormous size, with a brilliant scarlet skin. The flesh is deep scarlet, thick, sweet, and always mild. Ruby Giant is an excellent market and home garden variety because of its earliness and tremendous yield. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75, postpaid.

825 Sweet Mountain The plants are about 2 feet in height. The fruits are of good size and ripen early and evenly. It is in many respects similar to Bull Nose, but more elongated, the fruits measuring 6 inches long and 4 inches in diameter. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75, postpaid.

853 Bird's Eye or CREOLE See illustration. This is the smallest-fruited of all hot peppers and also the most pungent in taste. The fruits are of a miniature egg shape. Pkt. 10¢; ½ oz. 25¢; oz. 45¢; 4 ozs. \$1.35; ½ lb. \$2.45; lb. \$4.50, postpaid.

857 Tabasco This is the variety used exclusively for the famous Tabasco Sauce. Upright bushes, 3 to 4 feet tall. The fruits are 1 to 2 inches long and three-eighths of an inch thick. Extremely hot. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.20; ½ lb. \$2.20; lb. \$4.00, postpaid.

Remember, if you should forget our full name and address, it is sufficient to address letter, telegram, or cable to

Bird's Eye or Creole

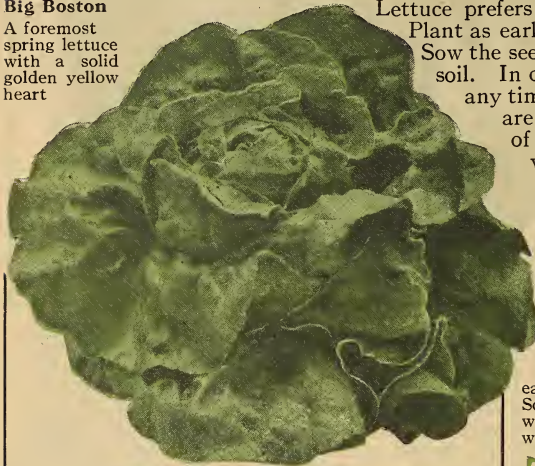

Greens & Salads

Greens and Salads are rightly called "Nature's Tonics." The American people are too much inclined to eat pastries and highly seasoned and concentrated meat-foods, which are rich in proteins and fats, but are almost entirely lacking in mineral salts. The importance of these mineral salts in the diet, although it has been only recently recognized, cannot be overestimated. The natural source of these essential salts is the Greens and Salads. They should

constitute a considerable portion of our food. The majority of the salad plants are easily grown. They are free from insect pests and are adapted to a wide range of soil and climate. They should be grown extensively in every garden. Most varieties can be sown as succession crops, and there is no month during the entire garden season that will not produce one or the other of these useful Greens and Salads. Plant to have Greens and Salads for two meals every day.

BURPEE'S LETTUCE

Big Boston
A foremost spring lettuce with a solid golden yellow heart

475 **Big Boston** ⊙

Big Boston grows to enormous size, well-grown heads measuring from 10 to 12 inches across. During the cool weather it heads particularly well, forming a **tightly folded heart** which consists of beautifully blanched, tender, and juicy leaves. The color of the heart is a **light golden yellow**. Big Boston is crisp, juicy, and distinctly buttery.

The solid heads have few outer leaves, and by reason of their solidity are well adapted for shipping to long distances. Pkt. 10¢; oz. 25¢; 4 ozs. 75¢; 1/2 lb. \$1.15; lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00, postpaid.

479 **Black-Seeded Big Boston**

This variety is almost identical with the White-Seeded Big Boston, as described above. In certain sections this Black-Seeded variety is preferred by gardeners, who have found that under their conditions the heads were even more tightly folded. The golden yellow heart is brittle and juicy. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; 1/2 lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60, postpaid.

7056 **Lettuce Collection**

This Lettuce Collection will fit nicely in many a garden to provide plenty of salads. It contains one packet each: **Burpee's Wayahead, Burpee's Brittle Ice, and Dwarf White Heart Cos.** Value 25¢, mailed to any address, postpaid, for

25¢

Lettuce prefers cool, moist weather and does best in rich soil.

Plant as early in the spring as the ground can be worked up. Sow the seed thinly in drills, and cover with 1/4 inch of fine soil. In cool sections of the country lettuce can be sown any time up to the middle of July. Where hot summers are usual, sow from early spring until the middle of May, making a planting every 10 days to provide a continuous supply until the hot weather sets in. For a fall crop make repeated sowings during the second and third weeks of July until August 1. One ounce of seed is sufficient for 600 feet of drill; 4 pounds per acre in drills.

Earliest and Forcing Lettuce

This type described on this and the following page is grown extensively as a forcing crop in the greenhouse during winter and in the frames early in spring and late in the fall. All the varieties of this class are excellent for early sowing in the home garden or grown for a fall supply. Sown out-of-doors in early spring or in late summer, they will develop well during the cool weather, but they cannot withstand the heat of summer.

485 **Grand Rapids** ⊙

This is a widely known variety which has proven popular for growing an extra early supply of bunch lettuce in the home garden. It is an excellent variety for greenhouse forcing to supply the winter markets. It does not form a folded head, but makes very compact bunches of light green leaves which are attractively fringed on the edges. Pkt. 10¢; oz. 25¢; 4 ozs. 65¢; 1/2 lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70, postpaid.

Grand Rapids

W. Atlee Burpee Co. Philadelphia

476 Burpee's **Wayahead** Lettuce ⊙

Wayahead in earliness and wayahead in quality

Wayahead certainly shows a wonderful combination of earliness, firm heading character, good appearance, and **fine quality**. Wayahead forms **tightly folded heads** with few light green outer leaves. The entire heart blanches to a **rich buttery yellow tint**. The heads are of medium size and mature very quickly.

It has proven to do well in almost any section of the country, but, like all lettuce, it develops to perfection during the cool growing season. We suggest repeated sowings a week to ten days apart during the spring. For fall use sow from the middle of July until August 1. Pkt. 15¢; oz. 30¢; 4 ozs. 90¢; ½ lb. \$1.40; lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25.

Burpee's
Wayahead
Lettuce

474 **Early May King** ⊙

See illustration. This is a well-known variety planted extensively by home gardeners for an early supply of quality lettuce. It is a standard variety with market growers who force early spring lettuce in frames.

The heads are of medium size, with few light green outer leaves which are slightly tinged with purplish red on the edges. The heart is well folded and blanches to a beautiful **light golden yellow**. In quality Early May King belongs to the very best, being juicy, brittle, and of a refreshing buttery flavor. Pkt. 10¢; oz. 25¢; 4 ozs. 65¢; ½ lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70, postpaid.

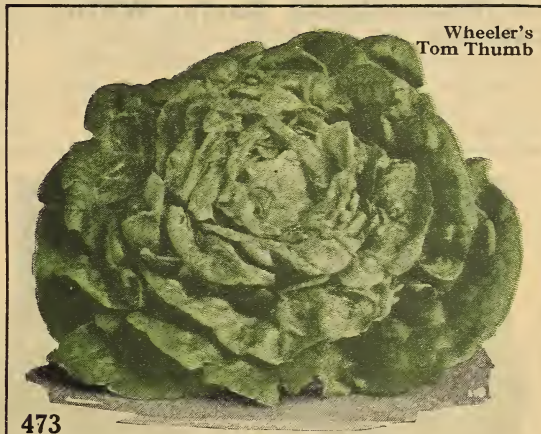

Early May King
*An excellent
spring lettuce*

484 Mignonette ⊙ The heads of Mignonette are of small size and exceptionally **tightly folded**. The plants can be set closely together in the row, so that they will outyield all other varieties in weight on a given area. The outer leaves are shaded with brown, but the trimmed head is bright green. The heart is beautifully blanched to a bright **golden yellow**. It remains in good condition for a long time. Pkt. 10¢; oz. 30¢; 4 ozs. 90¢; ½ lb. \$1.40; lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25, postpaid.

505 All Seasons ⊙ A large head with thick leaves of a bright green color. The globular well-folded heads have broad smooth outer leaves. The heart is a deep yellow color. Of a buttery flavor. It does well at any season. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60.

469 Black-Seeded Tennis Ball ⊙ or **SALAMANDER** This is exceptionally fine for growing during any season. It can be relied upon to make solid heads of superb quality when most other varieties fail. The heads are of large size and nearly round. The golden yellow heart is protected by broad crumpled outer leaves of a medium green color. A strong growing variety that is very popular everywhere. The large hearts are of fine flavor. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60.

Wheeler's
Tom Thumb

473

Wheeler's Tom Thumb ⊙

The fine small heads are neat, compact, and very tightly folded. The outer leaves are rich green. The heart is solid, juicy, and beautifully blanched to a light golden yellow. Will do well even during warm weather. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60.

BUTTERHEAD LETTUCE

This class of lettuce includes some of the most popular varieties. It is distinct, with rather thick leaves and a buttery appearance in the interior. This type is also known as Cabbage-Head, due to the fact that the heads are very tightly folded and the thick leaves resemble cabbage leaves. They grow to good size and

form round solid heads with the inner leaves blanched to a light golden yellow. They can stand a moderate amount of heat as long as they are provided with plenty of moisture. For this reason they are planted widely during the summer. Sown during mid-July, they mature in the fall.

Deacon

Grow plenty of Lettuce. It contains valuable health giving mineral salts

California Cream Butter

504 Deacon Ⓞ A very well-known variety with medium sized heads made up of thick, light green leaves. The heart blanches to a golden yellow and has a characteristic buttery appearance.

The heads are tightly folded and of delicious flavor. This is a foremost variety, adapted for both market and home growing, and does well even after the weather has become quite warm. Planted widely for late summer and fall use. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; 1/2 lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50, postpaid.

498 Philadelphia Early White Cabbage The heads of this fine Butterhead Lettuce are large, with a tightly folded heart which is blanched creamy white. Tender, crisp, and juicy. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; 1/2 lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60, postpaid.

508 California Cream Butter

A first quality variety for the home garden and for market. It is planted extensively in the South for shipping to the northern markets during winter. The heads are of large size and very solid. Of compact growth and nearly round form. The large thick outer leaves are dark glossy green lightly tinged with brown. The heart is blanched to a beautiful golden yellow. Tender, juicy, and crisp. Pkt. 10¢; oz. 25¢; 4 ozs. 65¢; 1/2 lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70.

511 Burpee's Hardhead

Well-folded heads which blanch to a beautiful golden yellow in the heart. The outer leaves are dark green, shaded with oily brown. It is a good home garden variety of remarkably fine flavor, always heading up well and giving a good yield of tasty salad. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; 1/2 lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60, postpaid.

Burpee's Butterhead

514 Ⓞ An outstanding variety on account of its quality. Burpee's Butterhead grows to immense size, yet the heads are solid right through to the very heart. The outer leaves are an attractive light green and they are quite tender.

Well-grown plants often measure 12 inches in diameter. The heart of Burpee's Butterhead is remarkably solid for so large a variety. It blanches to a beautiful light hue of golden yellow.

Burpee's Butterhead has proven its value in many sections of this country, adapting itself to widely different conditions. It is a fine market growers' variety. Pkt. 10¢; oz. 30¢; 4 ozs. 75¢; 1/2 lb. \$1.15; lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00, postpaid.

CRISP-HEAD LETTUCE

524 New York Improved See illustration.

New York Improved

This is also called "Los Angeles" and "Wonderful." The

heads are closely folded and of immense size. The inner portion is beautifully blanched and the outer leaves are a rich deep green. It is a foremost market-grower's variety and very popular with many home gardeners. Pkt. 10¢; oz. 30¢; 4 ozs. 90¢; 1/2 lb. \$1.40; 1 lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25, postpaid.

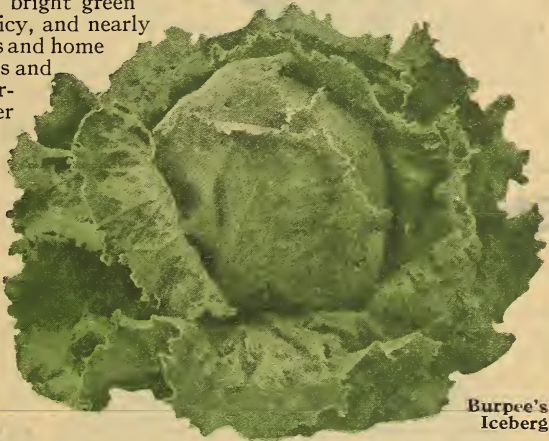

522 Hanson  A large sure header of a clear light green color. Excellent for mid-summer planting. Crisp, mild, tender, with a solid well-blanched heart. The large heads look very attractive. Pkt. 10¢; oz. 25¢; 4 ozs. 65¢; 1/2 lb. \$1.00; 1 lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70, postpaid.

528 Burpee's Brittle-Ice

A very fine variety of quick growth, with bright green leaves. The heart is extremely tender, juicy, and nearly white. Excellent for local markets and home use. Brittle-Ice retains its crispness and mild flavor to a greater degree during warm weather than any other

Crisp-Head variety. Pkt. 15¢; oz. 40¢; 4 ozs. \$1.15; 1/2 lb. \$1.80; 1 lb. \$3.25; 2 lbs. \$6.05; 5 lbs. \$14.60, postpaid.

Burpee's Iceberg

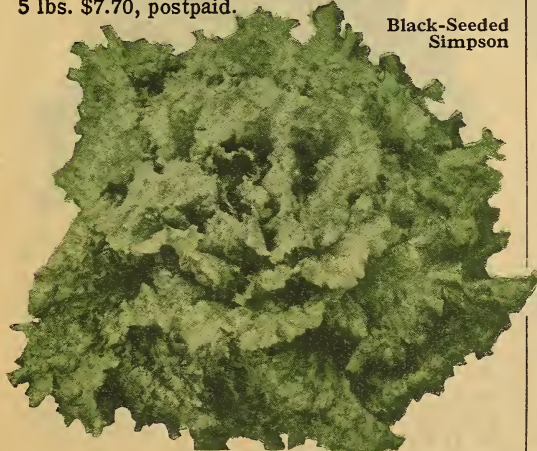

530 See illustration. A most popular variety of medium size. The heads are very compact and the heart blanches to a clear white. Burpee's Iceberg is a most delicious variety, the heart being crisp and juicy with few tender outer leaves. Pkt. 10¢; oz. 30¢; 4 ozs. 75¢; 1/2 lb. \$1.15; 1 lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00, postpaid.

Burpee's Iceberg

LOOSEHEAD CUTTING LETTUCE

493 Black-Seeded Simpson A non-heading variety of light green color. Early, crisp, and of exceptionally good flavor. Grown extensively for spring use. Pkt. 10¢; oz. 25¢; 4 ozs. 65¢; 1/2 lb. \$1.00; 1 lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70, postpaid.

Black-Seeded Simpson

490 Early Curled Simpson This fine loose heading variety is also known as "Silesia or White-Seeded Simpson." Large plants with light green leaves which are well crumpled and fringed at the edges. It forms a light bunch of leaves of excellent quality. Grows quickly and is very hardy. Tender, juicy, and of very good taste. Fine for spring and early summer use. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; 1/2 lb. 85¢; 1 lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60, postpaid.

497 Early Prize-Head Medium large plants composed of many curly leaves. The leaves are bright green shaded with light brown. One of the best home garden varieties, of quick growth and excellent flavor. It is strictly non-heading, but yields a good quantity of juicy leaves. Pkt. 10¢; oz. 30¢; 4 ozs. 75¢; 1/2 lb. \$1.15; 1 lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00, postpaid.

496 Burpee's Tomhannock

Large thick bunches of leaves. Medium green color tinged brown. It has a well-blanched heart and is very tasty. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; 1/2 lb. 85¢; 1 lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60, postpaid.

COS OR ROMAINE LETTUCE

Cos Lettuce, or "Salad Romaine," is much esteemed for its fresh crispness and mild flavor. It is grown widely in the northern states during late spring and early summer. Sow all during spring, and again the early part of July for a fall crop. Cos Lettuce thrives during cool moist weather.

537 Dwarf White Heart

See illustration. We believe that this is the most satisfactory of all Cos Lettuce varieties, suited to the various conditions met with in America. The plants make a distinct, strictly erect growth and measure about 10 inches tall. The heads are compact, with the outer leaves closely folded around the center, so that the plant will not necessarily require tying in order to blanch the heart. It is crisp, juicy, and has a refreshing snappy flavor. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60, postpaid.

This gives an excellent tasty salad

539 Paris White Cos—TRIANON, or

WHITE PARIS SELF-FOLDING A very widely grown variety that will form well-folded heads in seven to eight weeks after sowing. It makes a good strong growth and yields abundantly. The quality is excellent, being crisp and juicy, and agreeably snappy. In order to insure tender, well-blanching hearts the outer leaves should be gathered up and loosely tied together to exclude the light from the heart so that it will blanch thoroughly.

Pkt. 10¢; oz. 30¢; 4 ozs. 85¢; ½ lb. \$1.25; lb. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10.

ENDIVE

Endive is used largely as a salad plant and can be grown practically all the year around. The seed should be sown in the open ground beginning with the end of March and until early June. For a continuous supply of Endive make repeated sowings at intervals of from 3 to 4 weeks.

Before the plants are gathered they are blanched in order to make the leaves crisp and tender. Well-blanching leaves are practically free from the bitter taste of those not blanched. When the plants have reached good size, the leaves should be tied together to protect the heart against sunlight. In 20 to 25 days the heart will be blanched to a beautiful creamy white with a piquant and crisp flavor considered far superior to that of any other salad. Some gardeners blanch the plants by placing boards over the rows when the plants have reached their full size. One ounce for 500 feet of drill.

430 Green Curled Endive

or GIANT FRINGED OYSTER *See illustration.* The leaves are finely cut or lacinated, giving the plant a feathery effect. Rich green in color, but blanching to creamy white. It is perhaps the most widely grown variety of Endive. The plants make a sturdy growth and produce large circular bushes measuring often 15 inches or more in diameter if grown in a good rich garden soil. Grown chiefly for summer and fall use. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; lb. \$1.50, postpaid.

Green Curled Endive

432 White Curled

A beautiful variety, with leaves finely curled or mossed, but of an attractive light green color. Blanching easily and has a most delicious, crisp flavor. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; lb. \$1.50, postpaid.

Broad-Leaved Batavian Endive

436 Broad-Leaved Batavian

See illustration. The leaves are large and broad. Well-rounded heads, often measuring 16 inches across. It can be blanched, but is more generally used cooked like spinach or as flavoring for soups, stews, etc. Called Escarolle in the South. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; lb. \$1.50, postpaid.

Chinese or Celery Cabbage

Chinese Cabbage Pe-Tsai

A delicious new vegetable, more tender than ordinary cabbage

Greens are very wholesome

The most essential requirement for successfully raising Chinese cabbage is cool weather. Where the summers are warm, sowing must be delayed until early August. In the vicinity of Philadelphia, the first week of August is the best time. The plants develop quickly, forming **large, tightly folded** heads of tender leaves which are well blanched in the heart. **Chinese cabbage can be served as salad like lettuce** or, when cut, makes a delicious cole-slaw. Boiled, it is even more palatable than ordinary cabbage. Ask for our free Service Bulletin on "CHINESE CABBAGE," which gives complete cultural directions and a few excellent cooking recipes for this delicious vegetable. One ounce of seed is enough for 500 feet of drill.

212 Pe-Tsai A well-known variety with large leaves of a light green color and thick, pure white, tender stalks and heart. It differs from Wong Bok in making larger and narrower heads. Pe-Tsai matures a few days later than Wong Bok. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75, postpaid.

211 Wong Bok Wong Bok has impressed us most favorably. The rather short broad heads are composed of well-blanched, tightly folded leaves. The ribs are juicy and agreeably pungent. With us the plants make their best growth from early August sowings. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75, postpaid.

Red Cabbage

This is a class of cabbage which is steadily gaining in popularity, yet it is grown in a comparatively small way compared with the place it takes in European gardens. Red Cabbage may be used in similar ways as ordinary cabbage or may be prepared in various special ways. Its red color makes it particularly desirable for cole-slaw. If you never have grown Red Cabbage before, you should give it a trial. Its culture does not vary from the growing of ordinary cabbage.

216 Danish Round Red ⊙

(Burpee's) This is a favorite variety with those who like Red Cabbage. The heads grow to large size and are practically ball-shaped. They are as solid as a rock and of an intense, deep red color. The quality is superb, with tender, juicy leaves. Keeps well during the winter and early spring. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75, postpaid.

215 Large Red Drumhead or RED TARGE

The heads are of large size, measuring 7 to 8 inches in diameter. They are solid and keep for a long time. The leaves are deep red and keep their attractive color into the heart of the head. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.80; lb. \$3.25; 2 lbs. \$6.05; 5 lbs. \$14.60, postpaid.

Savoy Cabbage

209 Perfection Drumhead ⊙

See illustration. Perfection Drumhead Savoy is the best all-around Savoy. The plant is of strong growth, with a number of outer leaves growing closely about the firm head. The head grows to **large size** and is as round as a ball. It is extremely solid and consequently the heart is sweet and tender. Perfection Drumhead Savoy Cabbage is **of exceptionally fine flavor**. It is as easily grown as ordinary cabbage and grows to perfection on a rich sandy loam. Easily stored for winter use. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.10; ½ lb. \$1.65; lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35, postpaid.

Burpee's Cabbage

Cabbage succeeds best in cool moist climates, and in rather heavy friable loams with gravelly subsoil. Early cabbage is sown in the hotbed or in the house about the middle of February. Late cabbage for winter use is sown during June. One

ounce will produce about 2000 plants. If seeded outdoors, sow one ounce to 300 feet of drill. Two ounces sown in the hotbed will give sufficient plants to set out an acre; sow 6 ounces in the open seed-bed for planting out one acre.

168 Burpee's Extra-Early Jersey Wakefield ©

Long Island Grown Seed

Burpee's
Extra-Early
Jersey
Wakefield

See illustration. The plants are dwarf and compact and produce heads at a very early period. The heads are smaller and generally more slender than those of our regular strain. They are erect and conical in form, and remarkably uniform in shape and size of the heads, as well as in maturity.

We believe our "Special Stock" of Burpee's Extra-Early Jersey Wakefield to be the earliest maturing, most uniform, and finest bred strain of the variety in existence. It is planted by some of the largest market growers and is popular with home gardeners. The seed offered has been grown on Long Island from selected plants. Pkt. 15¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$2.05; lb. \$3.75; 2 lbs. \$6.95; 5 lbs. \$16.85, postpaid.

176 Enkhuizen Glory ©

See illustration. The heads are very solid, with but few outer leaves, and of such compact growth as to permit quite close planting, thus increasing the yield on a given area. They are of medium size (weighing from 6 to 8 pounds trimmed), round, tender, and of fine flavor. They keep well when put away, and consequently Enkhuizen Glory is valuable also for sowing later in the season for early winter use. Plants set out in midsummer will produce fine large heads of just the right size for winter storing. Our strain of this popular Dutch variety is exceptionally uniform. Pkt. 10¢; oz. 35¢; 4 ozs. 95¢; ½ lb. \$1.50; lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35, postpaid.

Reproduced from
a Fordhook
photograph

Enkhuizen
Glory

167 Early Jersey Wakefield ©

The heads are uniformly hard and solid. They are conical in form, generally pointed at the end, with but few outside leaves. The heart is solid and well blanched. An attractive and productive variety. Pkt. 10¢; oz. 35¢; 4 ozs. 95¢; ½ lb. \$1.50; lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35, postpaid.

165 Extra-Early Express Produces pointed, hard heads of good size with a rounded top even earlier than those of the Jersey Wakefield. Also sold as Lightning and under a number of other fancy names. The heads are firm. Pkt. 10¢; oz. 30¢; 4 ozs. 85¢; ½ lb. \$1.25; lb. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10, postpaid.

169 Charleston Also known as Large Wakefield. Produces larger heads than Early Jersey Wakefield, but is a week or two later in maturity. The heads are firm and solid. A heavy yielder, of fine quality. Grown extensively in the South, where it sells very readily. Pkt. 10¢; oz. 30¢; 4 ozs. 85¢; ½ lb. \$1.25; lb. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10, postpaid.

171 Early Winnigstadt © The heads are of the same size as the Jersey Wakefield, but more sharply pointed and not so early. The leaves are dark green, slightly glossy, and most tightly folded; the heads are the hardest of any early cabbage. Popular for winter use. This variety is used extensively in all cabbage-growing sections for cutting for *kraut*. Pkt. 10¢; oz. 30¢; 4 ozs. 85¢; ½ lb. \$1.25; lb. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10, postpaid.

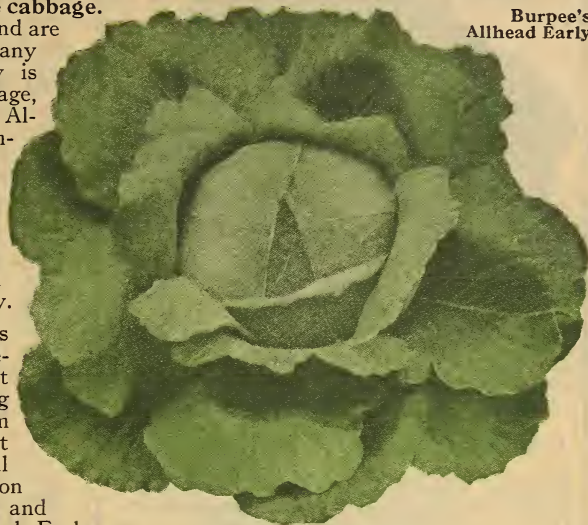

175 Golden Acre © Quite similar to the popular Copenhagen Market, but smaller and earlier. A uniform, tightly folded, and well-blanched head of superb quality. Pkt. 25¢; oz. 95¢; 4 ozs. \$3.40; ½ lb. \$6.50; lb. \$12.00; 2 lbs. \$22.30; 5 lbs. \$54.00, postpaid.

177 Burpee's Allhead Early Cabbage

See illustration. The earliest of all large cabbage. The deep flat heads are remarkably solid and are more uniform in color, form, and size than any other variety. Burpee's Allhead Early is really an all-the-year-round cabbage, being equally good for winter. Although it is usually grown for summer and fall use, if sown about July 10 (in the vicinity of Philadelphia), it will head up solidly before freezing weather sets in.

There is no American variety of cabbage better for summer, fall, or winter use than our special strain of Burpee's Allhead Early.

Burpee's Allhead Early Cabbage is highly recommended to home gardeners because of its good qualities. The compact growth of the plants permits close planting in the garden and therefore the yield from a given area will be very heavy. Market growers have found that the heads sell readily and always bring a good price on account of their attractive appearance and handy size. Sown late, Burpee's Allhead Early makes an excellent winter cabbage which will keep throughout the cool weather until late spring. It is also widely grown for saurkraut. Pkt. 10¢; oz. 35¢; 4 ozs. \$1.00; 1/2 lb. \$1.65; 1 lb. \$3.00; 2 lbs. \$5.60; 5 lbs. \$13.50, postpaid.

Burpee's Allhead Early

The Burpee Quality Cabbage has been famous for half a century

179 Early Stonehead (Burpee's)

See illustration. This distinct type (also called Volga) is especially adapted for cool locations. It generally matures shortly after our famous Allhead Early. The plants are of low growth, with spreading, saucer-like outer leaves, making a total diameter of 2 feet. The habit of the plant is compact and short stemmed.

The heads are deep through and smoothly rounded on the top, as distinct from the flat type. The outer leaves are thick and have a smooth surface. They are fairly narrow and grow upright around the head. The heads are exceptionally hard and solid, of great weight, and stand a long time before bursting. An excellent cabbage for early market. Pkt. 10¢; oz. 35¢; 4 ozs. 95¢; 1/2 lb. \$1.50; 1 lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35, postpaid.

Burpee's Early Stonehead

Fordhook Mainstay Early

180 See illustration. The beautiful little round heads are "solid as a rock," and weigh from 3 to 6 pounds—just the right size for family use. It comes to maturity rapidly, being ready for use about the same time as Burpee's Extra-Early Jersey Wakefield and Copenhagen Market.

Although early in maturing, it remains in perfect condition for many weeks without bursting. The heads when cut are snowy white, and the quality is particularly fine. It is an ideal variety for the home garden because of its handy size and is easily sold in the better markets where a quality variety is an essential. Pkt. 15¢; oz. 40¢; 4 ozs. \$1.20; 1/2 lb. \$2.20; 1 lb. \$4.00; 2 lbs. \$7.45; 5 lbs. \$18.00, postpaid.

You should eat cole slaw once a day

**EARLY
CABBAGE**

Burpee's
Fordhook
Forcing

**166 Burpee's
Fordhook Forcing**

A Wonderful New Early Cabbage Ⓞ

Burpee's Fordhook Forcing Cabbage forms small, perfectly round heads of unusual solidity. On account of the few small outer leaves the plants may be set as close as 8 inches so that the yield from a given area compares very favorably with larger varieties which cannot be planted as closely. It is a **first-early** variety, most admirably adapted for forcing in the hotbed or for the home garden, where space is an important factor.

Burpee's Fordhook Forcing Cabbage originated with our friend, Mr. Hartmann, of Copenhagen, Denmark. The small heads are extremely firm and mature in 6 to 7 weeks after setting in the field. Pkt. 20¢; oz. 60¢; 4 ozs. \$1.80; 1/2 lb. \$3.30; lb. \$6.00; 2 lbs. \$11.15; 5 lbs. \$27.00, postpaid.

185 Early Summer Large, solid, flattened heads of excellent quality; the outer foliage has a peculiar bluish-gray tinge. Matures early. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.10; 1/2 lb. \$1.65; lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35, postpaid.

187 Succession Ⓞ This popular second-early sort is about 10 days later than Early Summer. Very large, somewhat flattened heads. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.10; 1/2 lb. \$1.75; lb. \$3.00; 2 lbs. \$5.60; 5 lbs. \$13.50, postpaid.

174 Wisconsin Hollander This variety has been bred for resistance to the **Cabbage Yellows** and is valuable where the cabbage crop is likely to suffer from this disease. The heads are large, spreading, and have a remarkably solid heart. We have a fine strain of this. Pkt. 15¢; oz. 60¢; 4 ozs. \$1.80; 1/2 lb. \$3.30; lb. \$6.00; 2 lbs. \$11.15; 5 lbs. \$27.00, postpaid.

183 Early Dwarf Flat Dutch A well-known strain, popular for the summer; in our opinion this is not quite equal to Burpee's All-head Early. It is widely grown for sauerkraut. Pkt. 10¢; oz. 35¢; 4 ozs. \$1.00; 1/2 lb. \$1.50; lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25, postpaid.

189 All Seasons The heads are extremely hard and solid; round, flattened on top, and ready to market nearly as soon as Early Summer, but larger. It is called All Seasons because it is as good for winter as for early summer. Pkt. 10¢; oz. 35¢; 4 ozs. \$1.00; 1/2 lb. \$1.50; lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25, postpaid.

188 Stein's Flat Dutch Ⓞ or **ACME** This is a distinct strain of quick growth and early maturity. The fine solid heads measure 13 inches across and weigh from 10 to 12 pounds. They are carried on stems of medium length. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.10; 1/2 lb. \$1.65; lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35, postpaid.

178 Burpee's Copenhagen Market Ⓞ

Introduced to America by us 14 years ago, Copenhagen Market has become immensely popular with both market and home gardeners throughout the country. The heads are round in form, averaging about 8 pounds in weight. They are very solid, and have a small core. The plants are short-stemmed, the heads being produced almost on the surface

of the ground. It is ready for market fully as soon as Early Jersey Wakefield, and the heads, being larger, give a heavier yield per acre than that popular variety. Of excellent quality. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.20; 1/2 lb. \$2.20; lb. \$4.00; 2 lbs. \$7.45; 5 lbs. \$18.00, postpaid.

Late or Winter Cabbage

201 Burpee's Late Stonehead

The plants are of strong sturdy growth with a spreading circle of large, rounded, blue-green leaves. The big heads are "solid as a stone," and of excellent quality. It is a foremost storage variety and will keep in perfect condition throughout the winter until late spring.

Yields heavily. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.10; ½ lb. \$1.75; lb. \$3.00; 2 lbs. \$5.60; 5 lbs. \$13.50, postpaid.

199 Burpee's Short-Stem

Drumhead Uniformly solid and dwarf in growth. The plants have little outer foliage and the leaves are all folding in closely about the head. An excellent variety for late fall and winter. In some sections this is planted extensively for sauerkraut. Pkt. 10¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.35; lb. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10, postpaid.

194 Premium Flat Dutch This is an improved strain of the old Large Flat Dutch type, which has been a favorite in many cabbage growing sections as a late fall or winter variety, making large and much flattened heads of remarkable solidity. They are distinctly flattened and keep in excellent condition during winter storage. Excellent for shipping because of its solidity which insures the heads against damage. Pkt. 10¢; oz. 35¢; 4 ozs. \$1.00; ½ lb. \$1.50; lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25, postpaid.

Burpee's Surehead

195 Burpee's Surehead

See illustration. Burpee's Surehead is a most popular strain of the favorite Flat Dutch type of cabbage. The heads are very large, round, flattened at the top, and remarkably uniform. Extra hard, fine in texture, and weigh 10 to 15 pounds each.

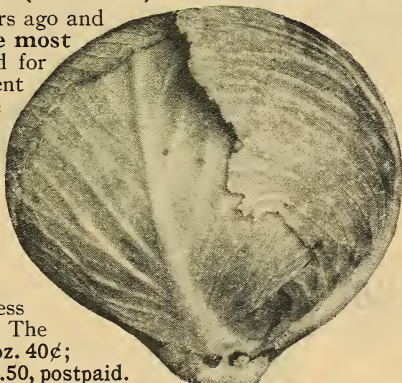

An excellent shipping variety as well as a first-class keeper. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.10; ½ lb. \$1.75; lb. \$3.00; 2 lbs. \$5.60; 5 lbs. \$13.50, postpaid.

203 True Danish Ballhead

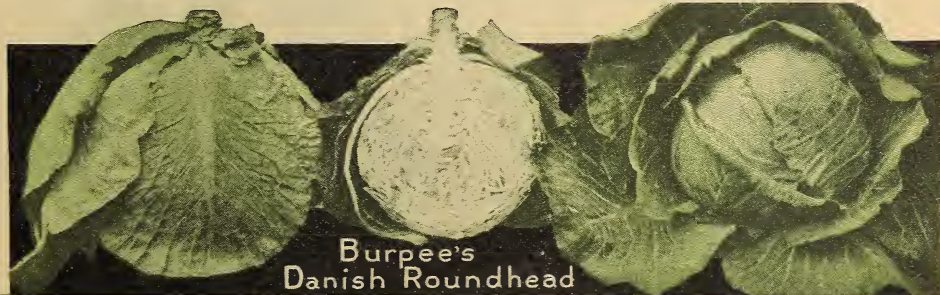

True Danish Ballhead

This famous cabbage was first introduced by us 39 years ago and our Danish-grown seed is absolutely unsurpassed! The most popular cabbage for winter. It is esteemed for winter use because of its great solidity and excellent keeping qualities. The magnificent heads are round, very hard, and solid; they keep in finest condition through the winter. Our strain of True Danish Ballhead is extra fine. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75, postpaid.

205 Danish Roundhead

(Short-Stem Ballhead) An early, short-stemmed type of the well-known and much prized Danish Ballhead Cabbage. Danish Roundhead has less outer foliage and is still more blight-resistant. The heads are unusually solid and heavy. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.10; ½ lb. \$1.75; lb. \$3.00; 2 lbs. \$5.60; 5 lbs. \$13.50, postpaid.

Burpee's Danish Roundhead

Burpee's Cauliflower

Cauliflower is grown in the same manner as cabbage, usually as a late fall crop, but when started early in the spring, excellent heads of the early dwarf varieties can be grown even in warmer sections. To make the best and largest heads, the plants need cool, moist weather, well-enriched soil, and thorough cultivation. Cauliflower is highly esteemed for its mild delicate flavor and the extreme tenderness of the solid white heads.

For an early crop start the seed indoors and set in the open about the end of April. For a main or fall crop, seed should be sown from June 1 to July 1 and the young plants set out during the latter part of July. In this locality (Philadelphia) the early dwarf varieties, such as Snowball, give best results also for the fall crop. Farther South the large late varieties are quite satisfactory for late or winter heading. One ounce will give from 1000 to 1500 good strong plants.

Burpee's
Dry Weather

245 Burpee's Dry Weather ©

See illustration. As compared with Burpee's Best Early, this produces equally solid, pure white heads, and is only about a week later.

The heads are considerably larger in size, with more foliage, and hence not so suitable for forcing because the plants require more space for free development and strong growth. Burpee's Dry Weather is especially adapted for growing in dry locations where nearly all other varieties fail to make good heads. Every year we receive new testimony from widely different sections of the country from customers who are growing this variety because of its **drought-resisting** quality. It is an excellent market and home garden variety which has proven to do well where other varieties cannot be grown successfully. Pkt. 20¢; 1/4 oz. \$1.25; 1/2 oz. \$1.85; oz. \$3.00; 4 ozs. \$9.00; 1/2 lb. \$16.50; lb. \$30.00, postpaid.

244 Burpee's Best Early ©

The Earliest and Best Quick-Growing Cauliflower

This grand strain was first introduced by us 39 years ago (1887), and has fully maintained all the merits then claimed for it. The plants are of strong growth, with erect, pointed, dark green leaves growing closely about the head. It is remarkable for both the extreme **earliness** and the **certainty**

with which the plants produce fine heads. In good soil the heads measure 8 to 10 inches across; they are **pure snowy white**, with very close, compact curd of extra-fine quality. Burpee's Best Early is an excellent market and home garden variety. It should be sown so that the heads will develop either during early summer or the late fall when the weather is cool.

Pkt. 15¢;
1/4 oz. \$1.20;
1/2 oz. \$1.75;
oz. \$2.80;

Burpee's Best
Early Cauliflower
Introduced by
Burpee

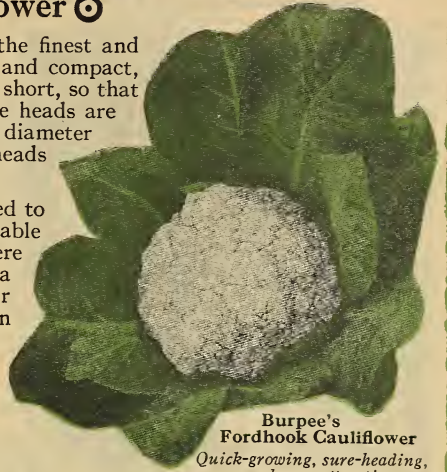

246 Burpee's **FORDHOOK** Cauliflower

A Marvelous New Early Cauliflower ☉

See illustration. This great novelty is undoubtedly the finest and best of all early cauliflowers. The plants are dwarf and compact, measuring about 16 inches in diameter. The stem is short, so that the head is produced quite close to the ground. The heads are **very firm and solid**. They measure 6 to 9 inches in diameter and are of the very finest quality. We have cut fine heads in 85 days after sowing the seed.

Burpee's Fordhook Cauliflower has never failed to form good heads in our trials, even in a most unfavorable season and when all other early varieties were almost a complete failure. All who value a **quick-growing and sure-heading** cauliflower of superb quality will find these requisites in our new Fordhook Cauliflower.

On account of its compact habit and small leaves, the plants may be set as closely as 12 to 15 inches in the row, leaving 2 feet between the rows. Pkt. 25¢; ¼ oz. \$1.45; ½ oz. \$2.20; oz. \$3.50; 4 ozs. \$10.00; ½ lb. \$19.25; lb. \$35.00, postpaid.

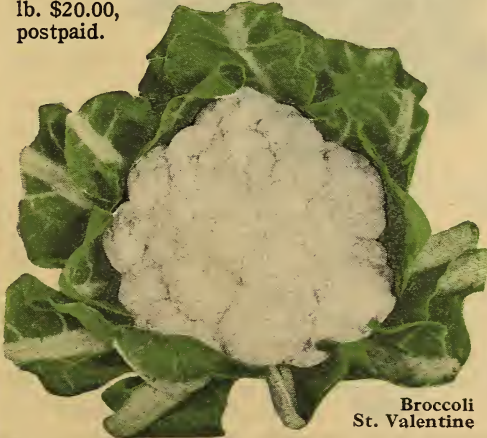

Burpee's
Fordhook Cauliflower
*Quick-growing, sure-heading,
and very attractive*

249 Extra-Early Dwarf Erfurt (Extra Selected) A very choice strain of the popular Erfurt type, and is remarkable for its reliability in heading. Of dwarf growth with a compact curd. Pkt. 15¢; ¼ oz. \$1.20; ½ oz. \$1.75; oz. \$2.80; 4 ozs. \$8.40; ½ lb. \$15.40; lb. \$28.00, postpaid.

BROCCOLI Winter Cauliflower

Broccoli is much hardier than cauliflower and requires a longer season to come to maturity. It is grown in certain southern and western states to mature as a late crop.

155 St. Valentine *See illustration.* Grown extensively in the Northwest for shipping to the eastern markets when the home-grown crop of cauliflower is exhausted. A large headed variety of good appearance and excellent quality. Pkt. 15¢; ¼ oz. 80¢; ½ oz. \$1.20; oz. \$2.00; 4 ozs. \$6.00; ½ lb. \$11.00; lb. \$20.00, postpaid.

Broccoli
St. Valentine

Cauliflower—
Veitch's
Autumn
Giant

258 Veitch's Autumn Giant
See illustration. A large late cauliflower producing quite compact white heads surrounded by a mass of large spreading leaves. Like all late varieties, it is not nearly so reliable as the earlier Erfurt type except in cool sections. Also known under the name of California Wonder. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 65¢; 4 ozs. \$1.95; ½ lb. \$3.55; lb. \$6.50, postpaid.

247 Early Snowball
Many market gardeners claim for **Early Snowball** first place for both early and late planting. It is a popular **extra-early** variety, of dwarf compact growth. Under favorable conditions nearly every plant will make a **fine solid** head of good size and well-rounded form. The heads are **pure white**, with a very close, compact curd of excellent quality. It is the best early variety for forcing, with short leaves, closely folding about the head. Pkt. 15¢; ¼ oz. \$1.20; ½ oz. \$1.75; oz. \$2.80; 4 ozs. \$8.40; ½ lb. \$15.40; lb. \$28.00, postpaid.

Burpee's Celery

Burpee's Golden Self-Blanching

262 Burpee's Golden Self-Blanching Celery

French-Grown Seed, Original Dwarf Strain. Although the first year from the French stock, as offered below, gives general satisfaction in the home garden, yet most of the extensive growers insist upon having the French-grown seed, even though it costs nearly double the price.

The plants make a uniform, dwarf, and compact growth, with quite thick, waxen yellow stalks of superior flavor. Crisp and nutty. Pkt. 25¢; 1/2 oz. 70¢; oz. \$1.20; 4 ozs. \$3.60; 1/2 lb. \$6.60; lb. \$12.00, postpaid.

260 Golden Self-Blanching

This is *American-grown* seed produced from dwarf French stock. It is of dwarf, compact growth, with **thick, solid**, heavily ribbed stalks which blanch easily to a **clear waxen yellow**. The stalks are crisp and solid, free from stringiness, and of most delicious flavor. Will give very satisfactory results and yield a good crop of heavy and brittle stalks. Pkt. 15¢; 1/2 oz. 45¢; oz. 80¢; 4 ozs. \$2.40; 1/2 lb. \$4.40; lb. \$8.00, postpaid.

For the earliest crop the seed should be sown in a hotbed during February or March. When the young plants are large enough and the trees are out in leaf, they are transplanted into the open. For the fall or main crop, seed may be sown in the open ground as early in the spring as the soil can be worked into good condition, and the plants should be set in the rows in July.

Celery requires a rich, well-manured soil, and plenty of moisture so that it can make a continuous growth. One ounce is sufficient for 600 feet of drill. One ounce sown in the seed-flat gives 8,000 to 10,000 good strong plants; two ounces are needed for planting one acre.

268 Golden Plume An outstanding new variety of Celery which has quickly become known because of its many good features. The plants are of strong growth and produce **thick and heavy stalks with a well-blanching solid heart**. It is considered by many gardeners the best early Celery. The plants mature very early and they are quite resistant to blight and rot. However, like most extra-early varieties, Golden Plume is not suited for storing. Pkt. 35¢; 1/2 oz. \$1.85; oz. \$3.50; 4 ozs. \$10.50; 1/2 lb. \$19.25; lb. \$35.00, postpaid.

264 Tall Golden Self-Blanching This new tall strain selected in France from Burpee's Golden Self-Blanching Celery differs from the original by making a decidedly **heavier and taller growth**. The foliage is also quite distinct and has been bred for disease resistance. The slender heart is well blanching. It is an extra-early variety which should be carefully tested by celery growers to determine its adaptability to their peculiar growing conditions and its market value. Because of their taller growth the plants require more labor if they are blanching with earth. Pkt. 25¢; 1/2 oz. 70¢; oz. \$1.20; 4 ozs. \$3.60; 1/2 lb. \$6.60; lb. \$12.00, postpaid.

267 Easy Blanching

Special Stock

Easy Blanching

A very fine mid-season variety that keeps its good qualities for many months after storing

The plants grow vigorously into a dwarf and compact plant, with light green foliage. It is a **second-early** variety, maturing right after Golden Self-Blanching.

The stalks are **thick and solid** and of extra fine quality. They are unusually meaty, pure white, heavy, and crisp. It is a valuable variety for fall use and keeps its good flavor and crispness well in storage for winter and early spring use. Easy Blanching has quickly become very popular with both home gardeners and market growers. Pkt. 15¢; 1/2 oz. 45¢; oz. 80¢; 4 ozs. \$2.40; 1/2 lb. \$4.40; lb. \$8.00, postpaid.

272 Burpee's **FORDHOOK** Celery

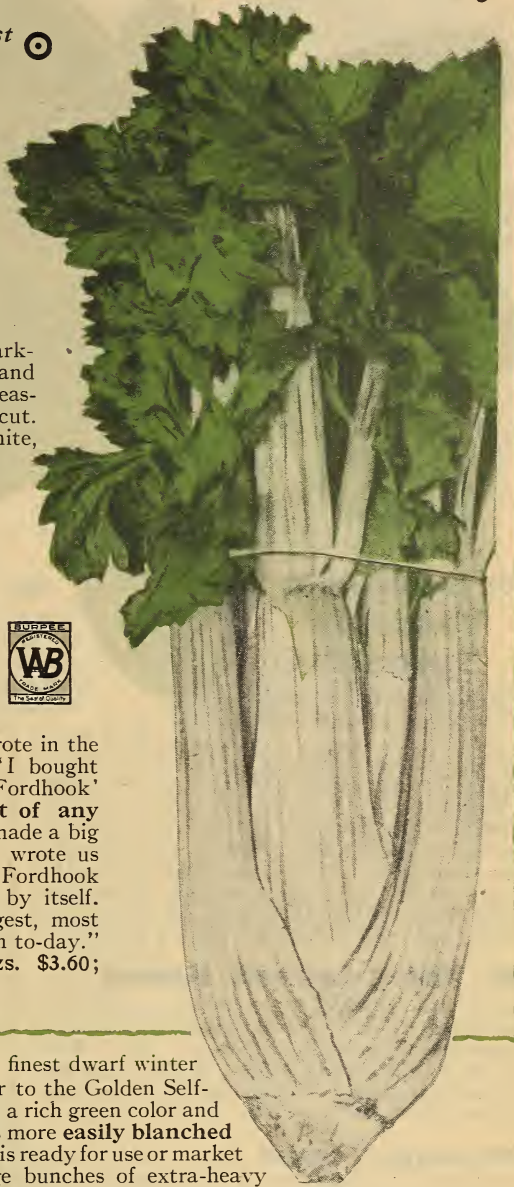

*The Largest, Most Solid, and Finest
Nut-Flavored Celery in Existence* ◉

Burpee's Fordhook Celery is a distinct and foremost variety for fall and winter storing. The plants make a dwarf, compact growth, averaging 15 to 18 inches long. Because of its **compact habit**, Burpee's Fordhook Celery is by far more **easily blanched** than the tall varieties. Although comparatively dwarf, the plants are so solid that they weigh fully two pounds.

Burpee's Fordhook Celery is of remarkably fine quality. The stalks are smooth and entirely free from stringy fibers. They measure **over one-half inch through** when cut. When properly blanched, they are pure white, the small tender heart showing a tinge of light buttery yellow. Burpee's Fordhook Celery has an unsurpassed crisp, nutty flavor. The plants will keep in perfect condition way into the following spring.

The excellent quality of our special strain of Burpee's Fordhook Celery is the direct result of the care we take every year in making single plant selections of the most perfect and true to type plants on Burpee's **FORDHOOK FARMS**.

A short time ago a Burpee customer wrote in the *Market Growers' Journal* as follows: "I bought my 'Giant Pascal' seed of . . . , and 'Fordhook' from Burpee Co. I like the latter **best of any kind** I have tried. The quality of it has made a big demand for it here." Another customer wrote us some time ago: "Just a word about your Fordhook Celery. Fordhook Celery is in a class by itself. It stands without a peer. It is the largest, most crisp, and sweetest flavored celery on earth to-day." Pkt. 25¢; ½ oz. 70¢; oz. \$1.20; 4 ozs. \$3.60; ½ lb. \$6.60; lb. \$12.00, postpaid.

275 Winter Queen This is one of the finest dwarf winter celeries we have ever grown, being quite similar to the Golden Self-Blanching in height and habit; but with leaves of a rich green color and resembling in this respect the Giant Pascal. It is more **easily blanched** than the latter because of its compact growth and is ready for use or market much earlier in the fall. The plants make large bunches of extra-heavy stalks with very **large hearts**; the stalks are all of even length and present a most handsome appearance when bunched. Pkt. 10¢; ½ oz. 20¢; oz. 35¢; 4 ozs. \$1.00; ½ lb. \$1.50; lb. \$2.50, postpaid.

282 Giant Pascal ◉ A well-known winter variety, with large bunches of broad, heavily ribbed stalks. A splendid keeper for winter use. The plants form very thick, broad leaf-stalks. The color is a rich dark green until earthed up, when the stalks blanch to a **golden yellow**. It is a compact growing variety of strong and vigorous habit and yields very heavily. The fully blanched stalks are of good quality, free from strings, and of a crisp, tender, and tasty nature. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.10; ½ lb. \$1.75; lb. \$3.00, postpaid.

266 White Plume This is the earliest and most **easily blanched** celery in cultivation, but does not keep well, so that it is grown exclusively for late summer as well as for early and late fall use. The plants grow rapidly and blanch easily during the summer months. The foliage is an attractive light green color and the stalks are pure white. The blanched stalks are crisp and have a delicious nutty flavor. It is an excellent home garden and early market sort. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.10; ½ lb. \$1.75; lb. \$3.00, postpaid.

BURPEE'S SPINACH

Burpee's
Victoria
Spinach

991 Burpee's Victoria Spinach ⊙

This is the best known variety of spinach. The foliage

is heavy, the broad, dark green leaves being slightly crumpled, rather pointed, and of the finest quality. It is a heavy yielder. It is grown extensively both by home gardeners and market growers for spring, early summer, and fall use. Stands quite some time before bolting to seed. Pkt. 10¢; oz. 15¢; 4 ozs. 25¢; 1/2 lb. 35¢; lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$8.00; 50 lbs. \$15.00; 100 lbs. \$27.50.

993 Thick-Leaved Round Produces large thick dark green leaves, somewhat crumpled. The plants yield a large crop of thick-textured and arrow-shaped leaves. Pkt. 10¢; oz. 15¢; 4 ozs. 25¢; 1/2 lb. 35¢; lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$8.00; 50 lbs. \$15.00; 100 lbs. \$27.50.

999 Savoy-Leaved The numerous leaves are curled and wrinkled. It is a very early and hardy variety, much planted for market and for canning. Makes a fine upright growth. Pkt. 10¢; oz. 15¢; 4 ozs. 20¢; 1/2 lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.75; 50 lbs. \$13.00; 100 lbs. \$25.00.

997 King of Denmark ⊙ This new variety of spinach impressed us very favorably when we tested it on Burpee's FORDHOOK FARMS. The plants form compact bushes with round, thick leaves which are rich dark green and much crumpled. Stands a long time. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; 1/2 lb. 40¢; lb. 65¢; 2 lbs. \$1.15; 5 lbs. \$2.60; 10 lbs. \$4.85, postpaid. By express, 25 lbs. \$10.50; 50 lbs. \$20.00; 100 lbs. \$37.50.

Spinach furnishes its rich green, fleshy leaves all during the spring and fall. Sow the seed very early in the spring and make succession sowings every 10 days until the end of April. A fine fall crop can be raised from seed sown August 1 to 15. In the South sow in September and October for wintering over. Spinach thrives in a well-cultivated and rich soil.

Astonishing results can be had by giving the young plants a careful top-dressing of nitrogenous fertilizer. One ounce for 100 feet of drill; 10 to 12 pounds are needed per acre for planting in drills.

1001 Prickly or WINTER

Very desirable for fall sowing and will live through the winter if protected with a light mulch of straw or hay. Pkt. 10¢; oz. 15¢; 4 ozs. 25¢; 1/2 lb. 35¢; lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$8.00; 50 lbs. \$15.00; 100 lbs. \$27.50.

990 Long Season ⊙ Short-stemmed dark green leaves; broad, pointed, of thick texture, and much crumpled. Stands a long time before bolting. Pkt. 10¢; oz. 15¢; 4 ozs. 25¢; 1/2 lb. 35¢; lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$8.00; 50 lbs. \$15.00; 100 lbs. \$27.50.

1005 New Zealand Spinach ⊙

The Hot Weather Spinach

(*Tetragonia expansa*) The plants will resist heat and make a strong growth during the summer. The plants will continue to grow until late fall, supplying all during summer and fall an abundance of rich green leaves which, according to culinary experts, are of better quality than ordinary spinach. It cannot stand frost like other spinach. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; 1/2 lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

SWISS CHARD

Burpee's
Fordhook Giant

Swiss Chard is grown much in the same way as beets. The seed should be sown during April or May, in drills 16 to 20 inches apart, and the seedlings thinned to stand from one to two feet apart in the row. Swiss Chard grows easily in any well-drained, fertile soil. The plants are quite hardy, and will yield throughout the summer and fall until severe frosts touch the foliage. The leaves are usually boiled in the same manner as spinach, which they resemble in flavor. The large white ribs are creamed like asparagus. Swiss Chard takes the place of spinach during the hot weather. One ounce for 100 feet of drill; 4 lbs. per acre in drills.

135 Burpee's Fordhook Giant

Burpee's Fordhook Giant is an outstanding new Swiss Chard. The rich blue-green leaves are much crinkled or savoyed, and when fully grown, average 10 inches in width by 2½ feet in length. The entire plant makes a magnificent bush, not quite 2½ feet in diameter.

The texture of the leaves is thick and fleshy, and their quality is highly appreciated when they are boiled. The stems or stalks are pearly white, and they measure 2½ inches in width. They are thick and succulent, and may be served as a separate dish in the same manner as asparagus.

Swiss Chard is one of the great health-giving greens. There is no more profitable vegetable for the home garden, as it will yield continuously until frost. Pkt. 20¢; oz. 45¢; 4 ozs. \$1.35; ½ lb. \$2.45; lb. \$4.50, postpaid.

136 Large-Ribbed White Large smooth leaves of thick texture grown mostly for the heavy main ribs, which, prepared like asparagus, make a delicious summer vegetable. The foliage is light green. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25, postpaid.

137 Lucullus A strong-growing Swiss Chard with extra-large leaves which are thick and heavily crumpled. It yields an enormous amount of greens, and has thick white stalks. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25, postpaid.

Burpee's
Fordhook
Fancy
Mustard
Most pop-
ular for
boiling
greens

647

Burpee's Fordhook Fancy

See illustration. The plants are of vigorous growth, and have beautiful dark green leaves which curve outward like fine ostrich plumes. Does well even during hot weather. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00, postpaid. By express, 25 lbs. \$22.50; 100 lbs. \$85.00.

MUSTARD

Mustard, freshly picked, serves the same purpose as spinach, and should be planted plentifully. It is of the easiest culture, and thrives in rich, moist soils. The cool growing season is best suited for its development. Sow the seed as early in the spring as the weather permits, and make succession sowings every ten days up to the time the weather becomes hot. For late fall use plant three or four times during August. Cook the freshly picked leaves like spinach, adding a small quantity of soda to the cooking water. Drain off and bring to a second boil in clear water. Add salt and butter before serving. Sow the seed thinly in rows about a foot apart. One ounce for 600 feet of drill; 25 pounds per acre broadcast.

655 Southern Giant Curled

The true curled-leaf variety so popular in the South for planting in the fall. Yields a heavy crop. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 45¢; lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60, postpaid. By express, 25 lbs. \$11.25; 100 lbs. \$44.00.

648 Burpee's Elephant Ear

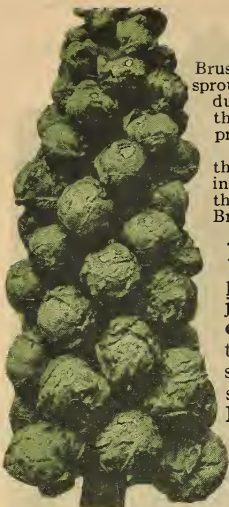

Produces numerous extra large leaves of heavy substance and of most appetizing pungency. The leaves attain a length of 18 inches to 2 feet. They are light green, with a white mid-rib. Pkt. 10¢; oz. 25¢; 4 oz. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00, postpaid. By express, 25 lbs. \$22.50; 100 lbs. \$85.00.

BRUSSELS SPROUTS

Brussels Sprouts are highly esteemed for boiling during the late fall and winter months. The sprouts resemble miniature cabbages, growing closely on the stalk of the plant, and are produced in abundance from tip to ground level. The plants are hardy, and in our section will live throughout the winter without protection. The quality and flavor of the sprouts are much improved by frost.

Seed should be sown thinly in drills early in June. When the young plants are 6 inches tall, they should be transplanted to rich soil, setting them in rows 3 to 4 feet apart, and keeping 18 inches to 2 feet of space between the plants in the row. When the young sprouts are well formed, the lower leaves should be stripped from the plant in order to admit light and air. Plant enough Brussels Sprouts to last all winter. One ounce will sow 500 feet of drill.

Brussels Sprouts—
Burpee's Danish Prize

162 Burpee's Danish Prize  See illustration. The plants are of strong robust growth. The stalks are large, thick, and close-jointed, so that the sprouts are set thickly on the stalk. The sprouts develop on nearly the entire length of the stalk at about the same time, consequently a very large crop can be gathered. Even the sprouts formed at the base of the stalk are tightly folded, and are as solid as those higher up. It is an excellent home garden and market variety. Pkt. 15¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$2.05; 1b. \$3.75, postpaid.

158 Long Island Improved This is a fine strain of sprouts grown extensively for the New York market, where they bring a good price, especially during the winter. The plants produce a large crop of tightly folded sprouts of delicious, sweet flavor. We offer the choicest Long Island grown seed. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.10; ½ lb. \$1.75; 1b. \$3.00, postpaid.

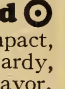

297 FRENCH ENDIVE

or Witloof Chicory. French Endive is used principally as a winter salad. Sow the seed in the open ground not later than June. Lift the roots in the fall. When wanted for forcing trim to an even length of 6 inches. Pack upright in a box in rows and a two-inch layer of soil at the bottom. Loosely cover with 6 inches of sand or light earth. After watering thoroughly, place the box near the heater of the cellar and keep moderately moist until the sprouts push through. Pkt. 10¢; oz. 30¢; 4 ozs. 80¢; ½ lb. \$1.20; 1b. \$2.00, postpaid.

KALE Sow the seed from early spring until the middle of August. Those sown up to the middle of July will give fully grown plants, and later plantings will furnish small, tender leaves. One ounce sows 500 feet of drill.

452 Tall Green Curled Scotch The stalks grow 3 feet tall, with narrow leaves finely curled and beautifully fringed. A very hardy variety, yielding a tremendous crop of deep green leaves. Pkt. 10¢; oz. 25¢; 4 ozs. 45¢; ½ lb. 65¢; 1b. \$1.00; 2 lbs. \$1.80; 5 lbs. \$4.00; 10 lbs. \$7.00, postpaid.

448 Dwarf Siberian This variety is particularly hardy and will live outdoors all winter long during as cold winters as we have them around Philadelphia. The leaves are large and broad. They cook very tender, and are delicious and tasty. Pkt. 10¢; oz. 25¢; 4 ozs. 45¢; ½ lb. 65¢; 1b. 90¢; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75, postpaid.

446 Dwarf Green Curled  See illustration. It is low growing, compact, with finely curled deep green leaves. A hardy, productive variety of most excellent flavor. Pkt. 10¢; oz. 25¢; 4 ozs. 45¢; ½ lb. 65¢; 1b. \$1.00; 2 lbs. \$1.80; 5 lbs. \$4.00; 10 lbs. \$7.00, postpaid.

Dwarf Green
Curled Kale

1 ARTICHOKE

Green Globe See illustration. The Globe Artichoke is a perennial, cultivated for its flower-heads, which are cooked like asparagus. Green Globe is the standard variety. It is considered a delicacy and demands a high price in all better city markets. Requires warm weather to grow to perfection and gives a high yield. Pkt. 15¢; ½ oz. 45¢; oz. 80¢; 4 ozs. \$2.40; ½ lb. \$4.40; 1b. \$8.00, postpaid.

Artichoke

7051 Four Boiling Greens

One packet each: SPINACH, Burpee's Victoria; SWISS CHARD, Lucullus; MUSTARD, Burpee's Fordhook Fancy; KALE, Dwarf Green Curled. They will be mailed, postpaid, for **25¢**

299 COLLARDS

Georgia The young plants of Collards cannot be distinguished from Cabbage. However, Collards continue to grow all throughout the season without forming any heads. The stems grow as much as 3 feet tall and carry a great quantity of large succulent leaves. Because the plant can stand a lot of hot weather it is grown extensively in the South in place of Cabbage where the latter does not develop on account of the heat. In the South they continue to grow all winter long and the tender tops are cooked like Cabbage which they resemble greatly in flavor; one ounce for 800 feet of drill. This is the chief southern variety for greens. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. \$1.00, postpaid.

LEEKS

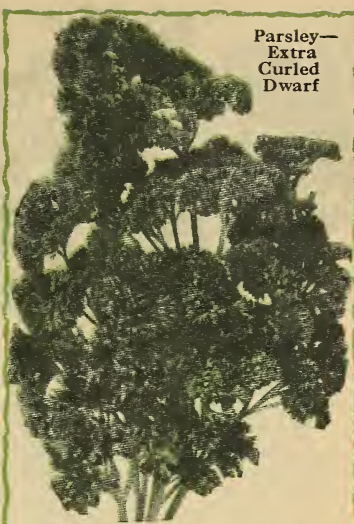

The long thick neck of leek is excellent for stews, soups, or creamed. Sow the seed early in March in a seed-box, or in the open as soon as the ground is fit. When transplanting, set the plants in furrows 4 to 5 inches deep and cultivate freely. Just before the plants have made their full growth hill the soil against the stems to blanch them. Leek belongs to the same vegetable family as the onion, but the plants are harder and may be left outdoors all winter. One ounce for 200 feet of drill.

461 Broad London or LARGE AMERICAN FLAG See illustration. This is a strong-growing variety, producing large thick stems which have a sweet flavor when properly blanched. The stems grow to enormous size and are sweet and delicious when cooked. Pkt. 10¢; oz. 30¢; 4 ozs. 85¢; ½ lb. \$1.25; lb. \$2.25, postpaid.

465 Long Mezieres The plants are of strong, vigorous growth, extremely hardy, with extra-long stems which blanch readily to a snowy whiteness, and have a delicious flavor. This is a French variety that has proven to grow well in our climate and yields a heavy crop of attractive plants. Pkt. 10¢; oz. 30¢; 4 ozs. 90¢; ½ lb. \$1.40; lb. \$2.50, postpaid.

Leeks—
Broad London

Parsley—
Extra
Curled
Dwarf

PARSLEY

The most widely grown and best known of all herbs. It is easily grown in the garden or in pots during winter. Parsley thrives well in either sun or shade and does not require any particular kind of soil. In the garden the seed is sown early in spring in shallow drills. The leaves are easily kept for winter use after drying them in a warm but shady place. They should be dried completely before they are placed in perfectly dry bottles which can be sealed to exclude all moisture. The leaves will keep almost indefinitely when prepared in this way, keeping their valued aromatic flavor remarkably well. Or the plants can be potted up late in the fall and, set in a kitchen window, will provide fresh leaves all winter long. Three or four pots full will be plenty to provide the table needs of an average family. One ounce for 250 feet of row.

717 Extra Curled Dwarf or EMERALD See illustration. The moss-like leaves, of handsome bright green color, are finely curled. For garnishing, this has no superior but just as useful for flavoring. We have a most excellent strain of this variety, with large, finely curled leaves. A strong grower. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 65¢; lb. \$1.10; 2 lbs. \$2.00; 5 lbs. \$4.80, postpaid.

714 Plain or Single Plain leaves of excellent flavor; grown very extensively for soup bunches. Yields an enormous quantity throughout the season, but does not look as attractive as the double. Lives through the winter with a protection of straw. Grown quite extensively for flavoring all kinds of dishes rather than garnishings. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. \$1.00, 2 lbs. \$1.80 5 lbs. \$4.00, postpaid.

721 Fern-Leaved This is most exquisite in form and color. The leaves are finely divided, resembling a small fern. The plants make a strong and sturdy growth. This variety is good for garnishing and flavoring. It may be grown as a border to a flower-bed because of its attractive appearance. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. \$1.00; 2 lbs. \$1.80; 5 lbs. \$4.00, postpaid.

Turnip-Rooted Parsley is listed on page 82.

Be sure to sign your full name and address on every letter sent us. Each year we receive several hundred letters which we are unable to answer because the name or full address is not given.

351 CORN SALAD

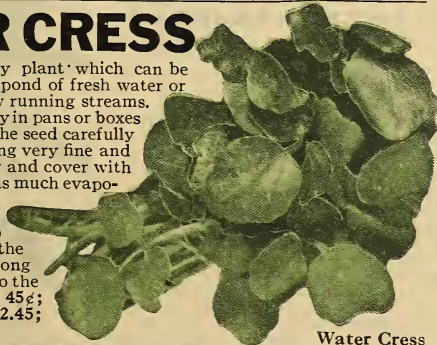

Corn Salad

Large Round-Leaved This is a hardy winter salad, the small leaves being served like lettuce. It is used also for garnishing. The seed should be sown thinly in drills early in the spring or during August, September, and October. It is quite hardy, but should be protected by a thin mulch of hay or straw. The young, tender leaves are particularly good during the early spring, before other greens can be had from the garden. Sow the seed thinly in rows, using one ounce for 120 feet of drill. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50, postpaid.

366 WATER CRESS

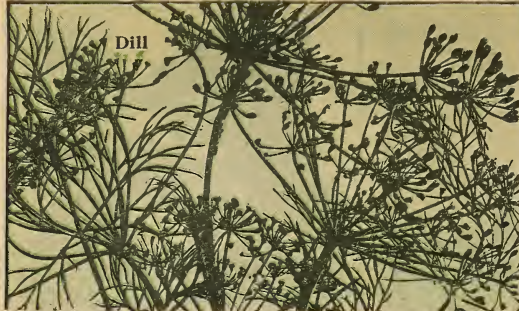

See illustration. A hardy plant which can be grown easily in a shallow pond of fresh water or along the edges of shallow running streams. Seed may be started readily in pans or boxes of very moist earth. Sow the seed carefully in shallow dishes containing very fine and rich soil. Water carefully and cover with a piece of glass to prevent as much evaporation as possible. Transplant the seedlings to shallow boxes and keep moist at all times. When the plants have made a strong growth they are set out into the pond. Pkt. 10¢; oz. 45¢; 4 ozs. \$1.35; ½ lb. \$2.45; lb. \$4.50, postpaid.

Water Cress

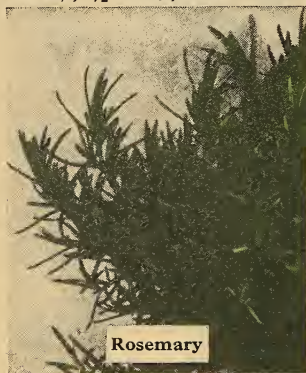

CRESS

364 Fine Curled (Pepper Grass) Grows very quickly from seed sown thinly in drills during the spring, summer, and fall months. It may be served alone like lettuce or used for garnishing and flavoring soups, meat dishes, or salads. Make repeated sowings every 10 days from early spring until early fall. Pkt. 10¢; oz. 15¢; 4 ozs. 35¢; ½ lb. 50¢; lb. 85¢, postpaid.

Dill

1319 Dill (*Anethum graveolens*) See illustration. Dill is a native of southern Europe. It is one of the most widely grown of all herbs. Sow the seed early in the spring in a warm sandy soil. The seeds are used in soups, sauces, and stews. The stems, leaves, and flower-heads are used in making the so-called dill pickles. Pkt. 10¢; oz. 25¢; 4 ozs. 45¢; ½ lb. 65¢; lb. \$1.00.

Rosemary

1329 ROSEMARY (*Rosmarinus officinalis*) See illustration. Perennial. The leaves are used for seasoning all kinds of dishes and for oil of rosemary. Pkt. 10¢; ½ oz. 25¢; oz. 45¢; 4 ozs. \$1.35; ½ lb. \$2.45; lb. \$4.50.

1335 SUMMER SAVORY (*Satureia hortensis*). An annual that must be sown every spring in a sunny location. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50.

1337 WINTER SAVORY (*Satureia montana*) A perennial variety which is hardy and grows vigorously. Excellent for flavoring soups, stews, and vegetables. Should be used sparingly. Pkt. 10¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

7120 Four Popular Kitchen Herbs

Every complete vegetable garden should include the four varieties of herbs given in this collection, since they are used extensively in flavoring, cooking, and pickling. The collection contains one packet each of

Dill
Sweet Marjoram
Sage

Summer Savory
Purchased separately, the four packets would cost 40¢. Mailed **35¢** postpaid for

HERBS

Pot herbs are a most desirable feature of the home garden. They may be gathered fresh for flavoring during the summer months, and the young stems and leaves can be gathered, tied in bunches, and dried for winter use. The seed of a few varieties can be used for flavoring. The latter varieties should be planted in drills or rows and threshed out when ripe.

1304 Anise (*Pimpinella anisum*) An annual plant grown widely for its aromatic seeds; native of Asia Minor, Greece, and Egypt. Used for garnishing and flavoring; the seeds have an aromatic flavor and are used in pastry. Prefers a warm, well-drained soil. Grows rapidly. Pkt. 10¢; ½ oz. 20¢; oz. 35¢; 4 ozs. \$1.00; ½ lb. \$1.50; lb. \$2.50.

1306 BALM (*Melissa officinalis*) The foliage is used for flavoring soups, stews, sauces, and dressings. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50.

Thyme

1341 THYME (*Thymus vulgaris*). See illustration. Perennial. Used extensively for flavoring soups, gravies, stews, sauces, dressings, etc. Pkt. 10¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

Sweet Marjoram

1327 SWEET MARJORAM (*Origanum marjoram*) See illustration. An annual which is easily grown from seed. The plants are used fresh or they are dried for winter use, cutting the stems just as the flowers begin to appear. They are used for seasoning soups, stews, dressings, sauces, and fillings. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50.

1321 Sweet Fennel (*Anethum feniculum*) A hardy perennial, indigenous to southern Europe. The plants are grown widely in Italy, where they are served as a separate dish. The leaves are also used extensively in sauces. Sometimes eaten raw as a salad. Sweet Fennel requires a rich and well-cultivated soil with good drainage. When they are about the size of a hen's egg, the stalks are half-way covered with soil to blanch them previous to harvesting. Pkt. 10¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.30; lb. \$2.20.

1323 Horehound (*Marrubium vulgare*) Perennial. Horehound, which was formerly widely used for flavoring and medicine, is now grown mostly for making candy. Also planted as bee-pasture. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50.

1326 True Lavender (*Lavandula vera*) Perennial. Mostly grown for the sweet-scented flowers which, when dried, are placed in the linen closet to impart their delicate perfume to the linen. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

1307 Sweet Basil (*Ocimum basilicum*) Annual. The leaves are used for flavoring soups, stews, etc. Essential in mock-turtle soup. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.15; ½ lb. \$1.90; lb. \$3.50.

1311 Borage (*Borago officinalis*) Annual. The young tender leaves are used as salad and are also added to lemonades and other cooling drinks. The leaves cut up are often used in cucumber salad. Pkt. 10¢; ½ oz. 20¢; oz. 35¢; 4 ozs. \$1.00; ½ lb. \$1.50; lb. \$2.50.

1313 Caraway (*Carum carvi*) Biennial. The seeds are used for flavoring bread, pastry, sauces, and other dishes. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 95¢; lb. \$1.50.

1315 Catnip or Catmint (*Nepeta cataria*) Perennial. The leaves are used for seasoning. Easily grown. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

1317 Coriander (*Coriandrum sativum*) A hardy perennial. The seeds have a strong aromatic flavor and are used in the manufacture of confectionery and pastry. Is easily grown. Pkt. 10¢; oz. 25¢; 4 ozs. 55¢; ½ lb. 80¢; lb. \$1.25.

Sage

1333 Sage (*Salvia officinalis*) See illustration. Perennial. The most extensively used of all herbs for seasoning. The plants will live for many years if they are properly taken care of. The leaves are used either green or dried. For winter, pick the leaves and dry them in an airy and shady place. Pkt. 10¢; ½ oz. 25¢; oz. 40¢.

For Parsley, see page 61

ASPARAGUS

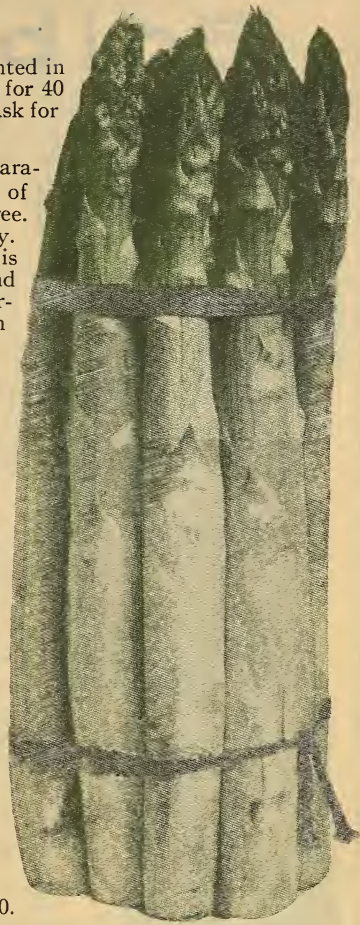

Asparagus grows better and produces earlier in the spring if planted in well-drained soil having a southern exposure. One ounce of seed for 40 feet of drill; 2 pounds of seed produce enough roots for 1 acre. Ask for our free leaflet, "HOW TO MAKE AN ASPARAGUS BED."

9 Mary Washington See illustration. This asparagus, which has been selected by the United States Department of Agriculture, Washington, D. C., has proven to be nearly rust free. The plants form large clean shoots which are thick and heavy. They are long and straight, with closely folded tips. The color is rich dark green, tinted darker at the tips. It is a heavy yielder and a long-lived producer of exceptionally fine flavor. The performance of the 15-year-old mother plant of Mary Washington, which is still growing in the trial grounds of the Department of Agriculture, is ample proof of the hardiness and longevity of this variety. Pkt. 10¢; oz. 25¢; 4 ozs. 75¢; ½ lb. \$1.15; lb. \$2.00, postpaid.

3 Barr's Mammoth The stalks are very large, with few scales; they retain their thickness up to the top and have close, round heads. Barr's Mammoth is considered one of the finest. Pkt. 10¢; oz. 15¢; 4 ozs. 35¢; ½ lb. 50¢; lb. 85¢; 5 lbs. \$3.75; 10 lbs. \$7.00, postpaid.

6 Giant Argenteuil Popular with French gardeners on account of its large thick green stalks. Heads slightly pointed, closely set with scales. It is a strong growing and productive variety, which brings a good price in all markets. Pkt. 10¢; oz. 15¢; 4 ozs. 35¢; ½ lb. 50¢; lb. 85¢; 5 lbs. \$3.75; 10 lbs. \$7.00, postpaid.

8 Palmetto Large, thick, dark green shoots with a distinctly pointed tip. The heavy stalks are produced very freely and make attractive bunches. Pkt. 10¢; oz. 15¢; 4 ozs. 35¢; ½ lb. 50¢; lb. 85¢; 5 lbs. \$3.75; 10 lbs. \$7.00, postpaid.

Mary Washington

ASPARAGUS ROOTS

We are offering both one-year-old and two-year-old roots. The two-year-olds planted in the spring will yield the following spring, but one-year-old plants should not be cut until the second spring.

9902 Barr's Mammoth One-year-old roots: 50 for 80¢; 100 for \$1.50, postpaid. By express: 1000 roots \$9.75; 5000 for \$45.00.

9903 Barr's Mammoth Two-year-old roots: 50 for \$1.20; 100 for \$2.15, postpaid. By express: 1000 roots \$12.00; 5000 for \$56.50.

9908 Giant Argenteuil One-year-old roots: A popular variety with slightly pointed heads. 50 for 80¢; 100 for \$1.50, postpaid. By express: 1000 roots \$9.75; 5000 for \$45.00.

9909 Giant Argenteuil Two-year-old roots: A heavy yielder with large, thick green stalks. 50 for \$1.20; 100 for \$2.15, postpaid. By express: 1000 roots \$12.00; 5000 for \$56.50.

9914 Palmetto One-year-old roots: A favorite variety with many home gardeners and market growers. 50 for 80¢; 100 for \$1.50, postpaid. By express: 1000 roots \$9.75; 5000 for \$45.00.

9915 Palmetto Two-year-old roots: The pointed shoots are large, thick, and of a dark green color. 50 for \$1.20; 100 for \$2.15, postpaid. By express: 1000 roots \$12.00; 5000 for \$56.50.

9912 Mary Washington One-year-old roots: We recommend this fine new Asparagus to everybody. 50 for \$1.30; 100 for \$2.30, postpaid. By express: 1000 roots \$13.00; 5000 for \$60.00.

9913 Mary Washington Two-year-old roots: For full description of this variety see above. 50 for \$1.60; 100 for \$3.00, postpaid. By express: 1000 roots \$15.00; 5000 for \$70.00.

RHUBARB

The seed should be sown in a shallow drill, using 1 ounce to 150 feet of row. When well started, thin to stand 10 to 12 inches apart. The stalks should not be gathered until the plants have had a full season's growth.

979 Myatt's Victoria The most popular variety; comes true and yields heavily. Pkt. 10¢; oz. 25¢; 4 ozs. 65¢; ½ lb. \$1.00; lb. \$1.75; 5 lbs. \$7.50, postpaid.

9982 RHUBARB ROOTS

Young roots of the Myatt's Victoria, which, if planted in good soil early in the spring, will make a strong growth and yield stalks for market the following spring. The plants increase in size every year and will with proper care last for many years. Two roots for 35¢; 5 for 75¢; 10 for \$1.25, postpaid. By express: 100 roots \$6.00; 500 for \$25.00.

MUSHROOMS

Mushrooms are easily grown and because they are wholesome and nutritious, they should be eaten more widely. A cellar or any room where the temperature does not fall below 40 degrees while the mushrooms are growing may be made to produce a good crop. In the country small beds may be made in the corner of the stable, or in the city, boxes may be prepared and set in the cellar. We have prepared a special leaflet, "BURPEE'S DIRECTIONS FOR MUSHROOM CULTURE," which will be sent free if you ask for it.

9930 American-Grown Pure Culture Runs freely and produces the finest mushrooms. 50¢ a brick; 5 bricks \$2.25; 10 bricks \$4.00, postpaid. By express, at purchaser's expense: Lb. 30¢; 10 lbs. for \$2.50.

9931 Pure Spore Culture A specially prepared culture of pure spawn which will yield an excellent strain of mushrooms. Per carton (sufficient for 40 square feet) \$1.30; 5 for \$6.00; 10 for \$11.00, postpaid.

Edible Seeds

Edible Seeds are most valuable from the viewpoint of their food content. Peas and beans are both legumes and have a very high content of protein. Sweet corn is rich in both starch and sugar. This group may be called the "Vegetable Beefsteak," because of the highly concentrated nature of the food it contains.

Burpee's Peas

The food value of Peas is exceedingly high, and the flavor, especially in the newer and improved varieties, is beyond comparison. To provide a continuous supply, the hardier round-seeded varieties are sown in spring as soon as the ground is fit. For later sowings the wrinkled-seeded kinds are preferred on account of their superior flavor, but they are less hardy. Succession sowings should be made at intervals of 10 to 14 days during the cool weather. One pound of seed will sow 120 feet of single row. In drills 100 to 150 pounds are required per acre.

739 Alaska Also called "Earliest of All." The vines grow 2½ feet tall, bearing well-filled, medium-sized pods. Matures practically the entire crop all at one time. Very popular. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

731 Burpee's Best Extra-Early ☉ This superb pedigree strain averages 18 to 24 inches in height. The pods are well filled, and the entire crop can generally be gathered in one picking. A few days later than Alaska, but decidedly finer in taste. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

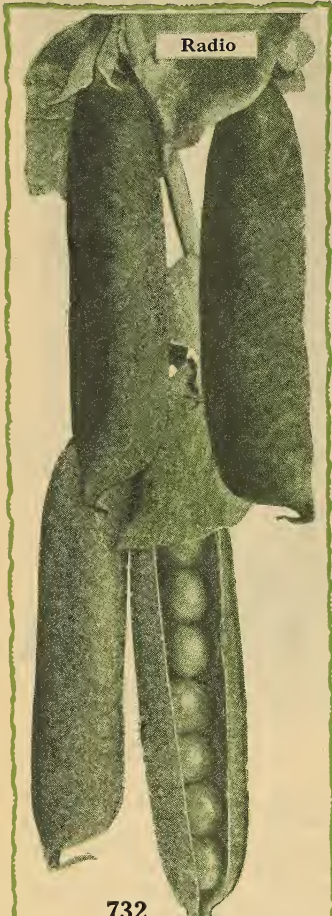

737 Prolific Extra-Early ☉ A large-podded extra early, bearing more pods to the plant than other strains of similar habit; 24 inches tall. The quality is very good. Pkt. 10¢; ½ lb. 25¢; lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. By express, 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

745 Extra-Early Gradus ☉ Also called "Prosperity" The plants grow about 2½ feet tall and bear an enormous crop of fine pods. The pods measure from ¾ to 4 inches in length. They are nearly straight and pointed at the tip, containing 6 to 8 large sweet peas. The quality of Gradus is particularly fine and it is considered the best early wrinkled pea in existence. It is a popular variety with market growers who demand quality. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

730 Market Surprise See illustration. Hardy and extremely early, producing the first picking in about 65 days from planting. The vines grow 2½ feet tall and bear a wonderful crop of large pods, well filled with luscious peas. Fine for market. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

746 Thos. Laxton ☉ This is a real rival to the famous Gradus. The pods are a richer green and square at the end. They mature about four days later than Gradus. In the opinion of experts it is even sweeter. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

760 World's Record An improved Gradus, slightly earlier and more dwarf; 2 feet tall, with pods 4 inches long, filled with 7 to 9 dark green peas. A heavy yielder of superb quality. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

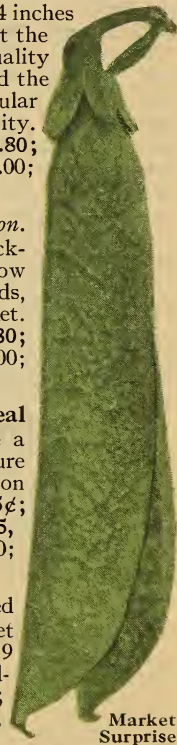

732

Radio ☉ See illustration. This new pea is earlier than any other strain of extra-earlies known to-day. It is also larger podded, more prolific, and of decidedly better quality.

The plants make a vigorous bush growth about 15 inches tall, loaded with the fine pods 6½ weeks after planting. An outstanding new variety which is most delicious when picked before the pods reach full size. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

Market Surprise

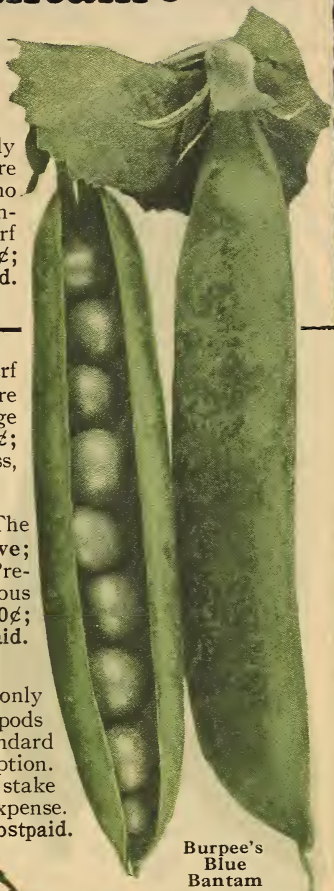

754 Burpee's Blue Bantam

The Best First-Early Dwarf Wrinkled Pea

Burpee's Blue Bantam is unequalled for its combination of extreme earliness, superb quality, and unusual productiveness. The dwarf vigorous vines average 15 inches in height and carry

really **enormous** crops of large, deep bluish green pods. The pods measure 4 to 4½ inches long and are tightly packed with 8 to 10 large, deep bluish green peas. There are thousands of Burpee customers who would grow no other variety of peas because they know that Burpee's Blue Bantam **cannot be excelled** in quality and yield by any other dwarf pea. Our special stock of this variety is extra fine. Pkt. 10¢; ½ lb. 35¢; 1 lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$7.00; 50 lbs. \$13.50; 100 lbs. \$26.00.

Burpee's Blue Bantam

764 Laxtonian This is an exceptionally fine pea of dwarf growth, 1½ feet tall. The pods are straight and pointed. They are deep green and measure 3¼ inches in length and contain 6 to 8 large luscious peas. Dwarfier and earlier than Gradus. Pkt. 10¢; ½ lb. 35¢; 1 lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$7.00; 50 lbs. \$13.50; 100 lbs. \$26.00.

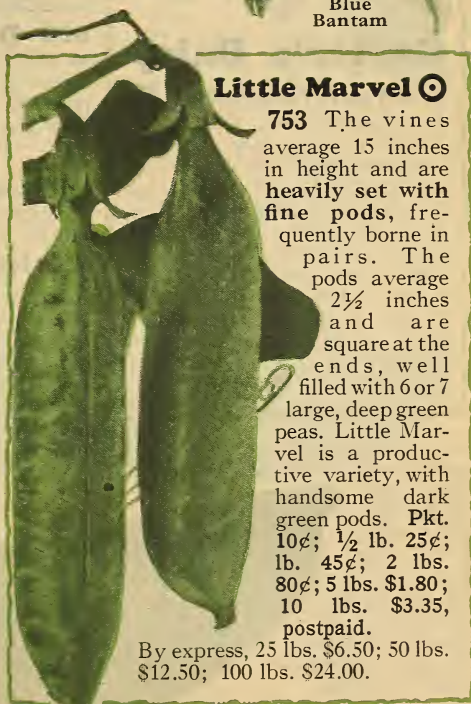

749 Premium Gem Of dwarf growth, maturing early. The vines grow from 12 to 15 inches in height, and are **very productive**; pods 2½ to 3 inches long, round, and well filled with large peas. Premium Gem is quite well known on account of its sweet and delicious flavor and heavy yield. We have a fine re-selected stock. Pkt. 10¢; ½ lb. 25¢; 1 lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

751 American Wonder An exceedingly dwarf variety, only 8 to 10 inches tall, and is a few days later than Alaska. The small pods are straight and filled with 6 to 8 large and luscious peas. It is a standard early variety which is grown for both market and home consumption. The dwarf habit of the plants appeals to those who do not care to stake their peas either for want of time or on account of the added expense. Pkt. 10¢; ½ lb. 25¢; 1 lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

742 Extra-Early Pilot The pods and peas are nearly as large as those of Gradus and are produced 3 days earlier. They can be planted much earlier than Gradus and, even though *not wrinkled*, the peas are almost equal in flavor. The vines grow 3 feet tall, bearing pods 3¾ inches long in great profusion. Excellent for the home garden and market. Pkt. 10¢; ½ lb. 25¢; 1 lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. By express, 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

792 Discovery An extremely prolific and most thoroughbred second-early wrinkled pea of superb quality. The pods are dark green, borne in pairs, 5 to 6 inches long, and filled with 9 or 10 large and sweet peas. A favorite variety with many gardeners. Pkt. 10¢; ½ lb. 35¢; 1 lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$6.75; 50 lbs. \$13.00; 100 lbs. \$25.00.

755 Nott's Excelsior Of compact, dwarf growth. The pods average 3 inches in length. They are well filled to the ends with peas of large size and unusually sweet flavor. It is a very highly bred variety. Excellent for market or the home garden. Pkt. 10¢; ½ lb. 25¢; 1 lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

Little Marvel

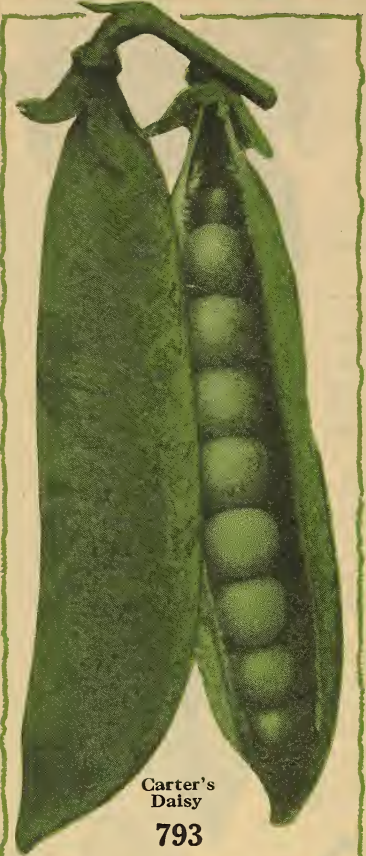

753 The vines average 15 inches in height and are **heavily set with fine pods**, frequently borne in pairs. The pods average 2½ inches and are square at the ends, well filled with 6 or 7 large, deep green peas. Little Marvel is a productive variety, with handsome dark green pods. Pkt. 10¢; ½ lb. 25¢; 1 lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid.

By express, 25 lbs. \$6.50; 50 lbs. \$12.50; 100 lbs. \$24.00.

Second Early and Main Crop Peas

Carter's
Daisy
793

Carter's Daisy

or DWARF TELEPHONE ☉

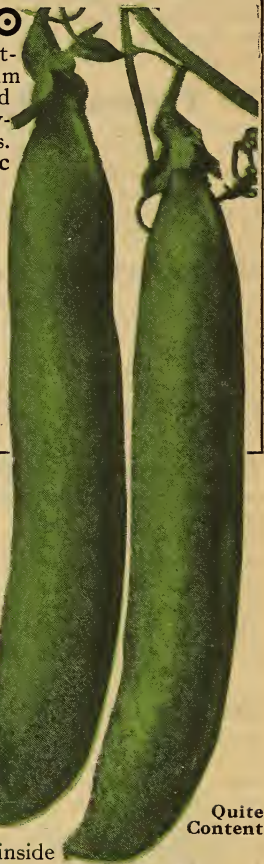

See illustration. The vines, though growing only about 18 inches in height, are very stout, and invariably bear a good crop of large, well-filled pods. The pods average 4 to 5 inches in length, containing 7 to 8 large light green peas. Of superb quality. Pkt. 10¢; ½ lb. 35¢; lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$7.00; 50 lbs. \$13.50; 100 lbs. \$26.00.

799 Champion of England The strong-growing and much branched vines measure 4 to 5 feet tall and they bear an immense crop of fine pods. The pods are borne in pairs and measure 3½ to 4 inches long. They are long, straight, nearly round, and square ended, and are crowded to capacity with 6 to 8 large peas. Champion of England is one of the richest and best flavored of all late maturing peas. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

786 British Wonder ☉ The vines grow 15 to 18 inches tall and produce an abundance of dark green peas of luscious flavor. A most reliable variety and a huge cropper. The pods measure 3 to 4 inches long. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

784 Quite Content ☉

See illustration. This is the largest-podded pea in existence. The haulm attains a height of 5½ to 6 feet and the vines are practically covered with handsome pods. The pods are truly **gigantic in size**, measuring from 5 to 6½ inches in length and closely filled with large luscious peas. One of the very best of the main-crop varieties and is grown extensively for market and home consumption, because of its quality and good yield. Pkt. 10¢; ½ lb. 35¢; lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$6.75; 50 lbs. \$13.00; 100 lbs. \$25.00.

800 Dwarf Champion

or JUNO This is a dwarf-growing strain of the Champion of England, producing a fine crop of delicious, large peas. The pods are 3½ inches long. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

815 Mammoth Melting Sugar ☉

See illustration below. This is the best known edible-podded pea. The vines reach a height of 6 to 7 feet. In contrast to other peas, this variety does not have the hard, membranous lining inside of the pod. **The whole pod is fleshy and tender.** The pods should be gathered when the seeds are just beginning to form. They are broken in pieces the same as string-beans and make a delicious dish. This pea deserves to be grown far more widely.

789 Potlatch or IMPROVED STRATAGEMA A favorite main-crop pea growing not more than 2 feet tall. The pods are borne in the greatest profusion. They measure 4 to 5 inches in length and are filled with 8 to 10 large size peas. The pods are dark green, slightly curved and pointed; the flavor of the peas is sweet and delicious. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

773 Telephone (Dark-Podded) This fine pea is grown extensively by market growers as well as in the home garden. The plants make a strong and sturdy growth, 4 to 5 feet tall. The fine straight pods are borne profusely all over the vine. They measure 4½ inches in length and are very uniform in shape and size. Each pod is filled to capacity with large peas of a most delicious flavor. They are sweet and tasty. Telephone is a standard main-crop pea and enjoys great popularity with home gardeners and market growers. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

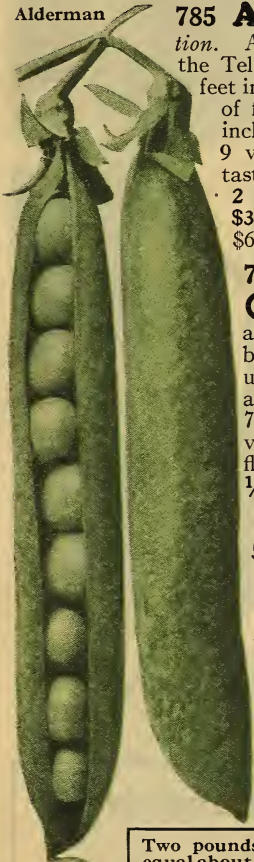

Alderman **785 Alderman** See illustration. Alderman is a dark-podded pea of the Telephone type. The plants grow 4 feet in height and bear an enormous crop of fine pods. The pods measure 4¾ inches in length and contain 8 or 9 very large peas each. Sweet and tasty. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

765 Burpee's Profusion The vines grow 3 feet in height and branch freely. The pods are borne in pairs; they measure 3½ inches in length, and are closely filled with 7 to 9 peas. A quality variety with fine large peas of superb flavor. Yields profusely. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

758 Senator Improved A prolific variety, growing 2½ feet in height, and bearing a fine crop of large pods. The pods measure 4 inches in length and are uniform in shape. They are filled with 8 large peas. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.50; 50 lbs. \$12.50; 100 lbs. \$24.00.

Boston Unrivaled

783 This is an excellent variety widely grown as a main crop. The plants are of extra strong growth, reaching a height of 4½ to 5 feet. The pods are borne all along the vine in the greatest profusion, yielding a tremendous crop throughout the season. The individual pods measure 4½ to 5 inches in length and they are nearly three-quarters of an inch broad. They are uniform in shape and have a smooth surface. Each pod is tightly packed with 8 large peas. The flavor of Boston Unrivaled is remarkably sweet and delicious. Belongs to the Telephone type, and has light green pods. Boston Unrivaled combines an unusual number of fine qualities. Its delicious flavor appeals greatly to the home gardener who appreciates the sweet and tasty flavor of the peas. The prolificness of the variety is an important point with the market grower. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

GREEN-POD BUSH BEANS

Beans are tender, and the seed cannot be sown until the weather is quite warm—about the time the maples are well out in leaf. In the vicinity of Philadelphia early May is about the right time for the first sowing of bush beans. A warm, well-drained sandy loam is best suited. Beans must be picked when young, and for a continuous supply they should be sown every 10 to 14 days up to August 10th. Where the summers are hot and dry, sow up to the end of May and again from July 15th to August 10th. Plant the seed in rows not less than 18 inches apart, cover with 2 inches of fine dirt, and firm the soil to assist germination. One pound of seed sown thinly fills a row 250 feet long; 90 pounds of seed are usually sown per acre.

Extra-
Early
Red
Valentine

14 Extra-Early Red Valentine

(Improved Round-Pod Strain) See illustration.

The plants are dwarf and compact in growth, 15 to 18 inches tall, and very prolific. They are **hardy and early maturing**. The pods are 4 inches long, sharply pointed, round, and very fleshy, being deeply saddle-backed and brittle, but show strings when nearly fully grown. Planted extensively by market gardeners and also a favorite variety for canning.—An outstanding variety of best quality. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

15 Black Valentine

Popular in the South on account of its blight-resisting quality. Matures early and is very productive, bearing long, round, straight pods. The pods are 6 inches long. They are very attractive but have strings. The color of the pods is dark green. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

11 Full Measure

The plant is of perfect bush growth, branching freely and bearing a good crop of pods. The plants are hardy and mature moderately early in the season. The fully round pods are very **fleshy, strictly stringless**, deep green in color, and measure nearly 6 inches in length.

The quality is excellent; fine grained and of good flavor. It comes into bearing about the same time as Burpee's Stringless Green Pod. We can highly recommend this variety for home use and market. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

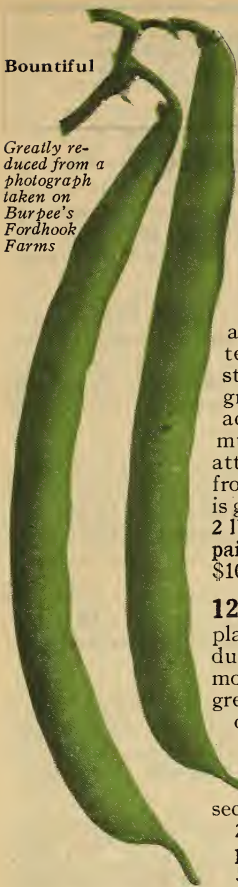

22 Burpee's Fordhook Favorite

A **white-seeded Stringless Green-Pod**. See illustration. The bushes grow 18 to 20 inches tall. They are vigorous and quite resistant to disease and attacks from insects. The plants bear a good crop of attractive beans. The plants will bear almost continuously if the pods are picked as soon as they have reached edible size. Fully grown pods measure 5½ to 6½ inches in length. They are nearly straight and measure ½ inch wide and ½ inch thick—so full and fleshy that they are practically round. They are **brittle, juicy, and entirely stringless at all stages of growth**. Burpee's Fordhook Favorite has quickly become a favorite with both market and home gardeners who value an attractive and high quality variety. The ripe seeds are pure white. Pkt. 15¢; ½ lb. 35¢; lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$6.50; 50 lbs. \$12.50; 100 lbs. \$24.00.

Burpee's
Fordhook
Favorite
Bush Bean

Bountiful

Greatly reduced from a photograph taken on Burpee's Fordhook Farms

13 Bountiful  See illustration. Of thrifty growth and very hardy. The stringless and tender flat green pods are produced very early in the season and the bushes continue to bear for a long time. They are most attractive and will remain in good condition for quite some time. Grown extensively for market. Pkt. 10¢; 1/2 lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

19 Refugee or 1000 to 1 The pods are fleshy and remarkably solid. Brittle in texture and mild in flavor, but with slight strings. Somewhat later than the other green-podded sorts, but widely grown on account of its productiveness. Refugee is much grown for canning. The pods are an attractive light green color; they measure from 5 to 5 1/2 inches in length. The quality is good. Pkt. 10¢; 1/2 lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

12 Tennessee Green-Pod A hardy plant of true bush type. Very large pods during midseason. The pods are flat, almost 7 inches long, straight, and of a dark green color. A tremendous cropper, but we do not recommend it for general garden use as the pods are stringy and unattractive. The flavor of the young beans is very good. Quite a favorite in some sections. Pkt. 10¢; 1/2 lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

23 Giant Stringless Green-Pod See illustration. The plants are of strong growth, making large and compact bushes, and bear a fine crop of pods. The pods are meaty, nearly round, brittle, and stringless. This variety is somewhat similar to Burpee's Stringless Green-Pod, but matures a few days later. The pods are straight, quite long, and rather slender. The color of the pods is lighter than Burpee's Stringless Green-Pod and they show deeper depressions between the beans. Giant Stringless Green-Pod is quite hardy. Pkt. 10¢; 1/2 lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

20 Keeney's Stringless Refugee

The round pods average 5 1/4 inches in length. They are smooth and present a most attractive appearance, being of a light green color. The pods are brittle and tender, absolutely stringless at all stages. The meat is thick and fleshy, of a particularly fine and mild flavor. Keeney's Stringless Refugee is an excellent market and home garden variety. Pkt. 10¢; 1/2 lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

POLE BEANS

Sow when the oak trees are in leaf, about the second week of May and not later than June 15. Set the poles 4 feet apart and place 8 to 10 beans around each; 1 pound of seed for 125 poles. Or the seed may be planted along a trellis, sowing 300 feet of row with 1 pound of seed.

Kentucky Wonder Pole Bean

The most popular Green-Podded Pole Bean

73 Burger's Stringless Green-Pod In some sections this is called White-Seeded Kentucky Wonder. Uniformly straight pods, 6 to 8 inches in length, rich green, and very meaty; **entirely stringless**. The white beans are fine for winter use. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.50; 50 lbs. \$12.50; 100 lbs. \$24.00.

74 White Creaseback The green pods are 6 inches long, perfectly round, deeply creased or saddle-backed. Solidly fleshy, entirely stringless, and of fine quality. The white seeds are fine for baking. Very hardy, very early, and quite productive. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.75; 50 lbs. \$11.00; 100 lbs. \$21.00.

75 Lazy Wife's The green pods measure from 4½ to 6 inches in length. They are broad and stringless. Each pod contains from 6 to 8 round white beans. Makes a strong growth. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.25; 50 lbs. \$12.00; 100 lbs. \$23.00.

78 McCaslan Of a rich dark green color; 10 inches long; rather flat and slightly curved. It is of good quality. White-seeded. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.75; 50 lbs. \$11.00; 100 lbs. \$21.00.

87 Scarlet Runner Of strong, quick growth, bearing large sprays of bright scarlet flowers. The pods are tender and tasty while young. Climbs well and is often grown for ornament. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.50; 50 lbs. \$12.50; 100 lbs. \$24.00.

91 Yard Long Long, slender, round pods, 2 feet or more in length. When young, they are tender; grown mostly as a curiosity. Pkt. 20¢; ½ lb. 70¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00, postpaid.

79 Golden Cluster Wax This is a leading Wax Pole variety which climbs well, is hardy, vigorous, and very productive. The pods are 6½ to 7½ inches long, perfectly straight and flat. The flesh is brittle and of fine quality. The pods are a **light waxy yellow** color and do not show any strings until they reach maturity. The white seeds may be dried for winter use. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.25; 50 lbs. \$12.00; 100 lbs. \$23.00.

80 Kentucky Wonder Wax A productive variety bearing a fine crop of long, thick, and almost straight pods of a very **light yellow** color. The pods are 8 to 9 inches long, brittle, thick, meaty, and of good quality, but show strings. It is a very early maturing variety. Pkt. 15¢; ½ lb. 35¢; lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$6.75; 50 lbs. \$13.00; 100 lbs. \$25.00.

83 Horticultural CRANBERRY or WREN'S EGG The beans when young are of excellent quality and make fine snapshorts. The pods are 5 to 6 inches long and stringless. The dried beans are grown extensively for winter use. They are large, of a light fawn color speckled with dull red. Highly recommended as a baking bean. The vines are strong and climb well. They bear an enormous crop of pods all over the vines. A great favorite with many gardeners. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$5.75; 50 lbs. \$11.00; 100 lbs. \$21.00.

72 Kentucky Wonder

or OLD HOMESTEAD An early and fairly productive variety that climbs well and bears a fine crop of **large pods**, 7 to 9 inches in length. They are thick and meaty, **tender, brittle**, and of good quality, showing slight strings as the pods reach full size. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

Quality is the first consideration in Burpee's Seeds. The best quality it is possible to produce—that is the rule with all Burpee's Seeds. While our prices may be slightly higher than those of some other houses, yet the quality of the seeds in every case warrants the prices charged. We aim always to excel in quality rather than to compete in price.

POLE LIMA BEANS

95 Burpee's Sunnybrook Pole Lima ⊙ Introduced by Burpee

The main features of this fine new pole lima bean are its **extreme earliness** and **tremendous prolificness**. The combination of these two valuable characteristics is sure to win a foremost place for the variety in the home garden as well as with the market grower. The long flower-spikes are produced in great abundance from the base of the plant to the very summit of the vine, in some instances even before the vines have taken hold of the pole. The individual spikes carry

from 5 to 10 pods of large size. Each pod is closely packed with 4, and often 5, large, thick, meaty, light green beans of the **finest quality**. It is considerably earlier in producing pods ready for picking than any other large-seeded pole lima, and has proven to be even as **early** as the Carolina or Sieva Bean.

The vines are of most vigorous growth, producing many lateral or side branches, all of which are literally **covered with the deep green pods** throughout the season.

One of the foremost lima bean growers in California assured us that, besides Burpee's Giant-Podded Pole Lima for late use, he **would grow no other variety but Burpee's Sunnybrook Pole Lima**. An unsolicited opinion like this from an authority on the subject speaks indeed well for this variety.

Another growing season has given us an opportunity to convince ourselves that this wonderful new pole lima bean lives up to the remarkable claims we made four years ago when we first introduced it to our friends and customers.

Pkt. 20¢; ½ lb. 40¢; lb. 60¢; 2 lbs. \$1.10; 5 lbs. \$2.40; 10 lbs. \$4.50, postpaid. By express, 25 lbs. \$8.00; 50 lbs. \$15.50; 100 lbs. \$30.00.

Burpee's
Sunnybrook
Pole Lima

"Good as Gold" ⊙ This mark (⊙), now called a **bull's-eye**, was used by the ancient alchemists to represent gold. We have used a **bull's-eye** (⊙) for many years to mark those varieties of Vegetables which we consider the very best of their class and most satisfactory for general cultivation throughout the country. If you are not posted as to the sorts most suitable for your own section, we recommend that you make your selection from those marked with a **bull's-eye**.

96 Early Leviathan ⊙

Early, hardy, and prolific. It will not only give large lima beans earlier than any other strain, excepting Burpee's Sunnybrook Pole Lima, but is also **extremely productive**, both early and throughout the season. It is a strong grower, clinging well to the poles, and is a sure cropper. The pods differ from those of other early pole limas in being straighter and longer. They are borne in large clusters and contain 3 or 4, and sometimes 5, large beans each. An excellent home garden and market variety. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.50; 50 lbs. \$12.50; 100 lbs. \$24.00.

99 King of the Garden

A strong grower and uniformly large podded. The pods frequently contain 4 or 5 big beans. These beans are of excellent quality, easily shelled, and of handsome appearance. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 85¢; 5 lbs. \$1.90; 10 lbs. \$3.60, postpaid. By express, 25 lbs. \$6.75; 50 lbs. \$13.00; 100 lbs. \$25.00.

101 Challenger or "POTATO" LIMA

Very productive, but later than the large flat sorts. The pods average 3 to 4 inches in length, containing 3 to 5 very thick beans of delicious flavor. An excellent variety for warm climates. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 85¢; 5 lbs. \$1.90; 10 lbs. \$3.60, postpaid. By express, 25 lbs. \$7.00; 50 lbs. \$13.50; 100 lbs. \$26.00.

103 Carolina or Sieva The "Butter Bean" of the South.

This variety is extremely popular throughout the South. It is well worth growing in the North because of its earliness, hardness, and wonderful productiveness. The vines grow quickly and mature a fine crop of the small but attractive pods quite early, continuing throughout the season until killed by frost. Slender vines with small shiny leaves. The dried beans are small and are grown extensively for winter shell use. One pound is required to plant about 150 poles. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$6.50; 50 lbs. \$12.50; 100 lbs. \$24.00.

BUSH LIMA BEANS

Lima Beans are a tender vegetable and the seed must not be planted until the nights have become quite warm—about the time the oak trees are in leaf. The middle of May is usually safe in the vicinity of Phila-

delphia. Stick the seed edgewise 6 to 12 inches apart in the row. As this encourages germination, thin the plants as they grow larger so that they have ample room to develop freely. Keep free from weeds at all times.

63 Burpee Improved Bush Lima

The pods are truly enormous in size, borne abundantly, and well filled with handsome beans which are both larger and thicker than those of the popular Burpee's Bush Lima—and fully 8 days earlier!

It differs from Burpee's Bush Lima in having much larger pods and in producing more beans. Both pods and beans are not only larger, but also considerably thicker. The growth is vigorous, with heavy foliage. Full-grown bushes measure 30 inches in height and 24 inches across the top. The pods are borne frequently in what might be called "clusters" of from 5 to 8. They measure 5 to 6 inches long by 1¼ inches wide, and the full size beans are of **luscious flavor**. They mature in 85 to 95 days from the date of sowing, but should not be planted before the soil has warmed up and the weather is quite settled. About the middle of May is right for planting in the vicinity of Philadelphia. Stick the beans eye down to get a good germination. Space by hand 5 inches apart in a furrow and cover with 2 inches of fine soil. One pound of seed sown in this way will suffice for a row 150 feet long.

Pkt. 15¢; ½ lb. 35¢; lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.10; 10 lbs. \$4.00, postpaid. By express, 25 lbs. \$7.00; 50 lbs. \$13.50; 100 lbs. \$26.00.

60 Burpee's Bush Lima This is the original Dwarf Large-seeded Bush Lima as first introduced exclusively by Burpee in 1890. The bushes grow 18 to 24 inches tall. They are of stout growth and always erect, yet branching so vigorously that each plant develops into a rounded bush from 2 to 3 feet in diameter. **It is an immense yielder.** The pods and beans, however, are not so large, nor are the bushes so prolific as those of the Burpee Improved Bush. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 85¢; 5 lbs. \$1.90; 10 lbs. \$3.60, postpaid. By express, 25 lbs. \$6.50; 50 lbs. \$12.50; 100 lbs. \$24.00.

68 Wood's Prolific or **IMPROVED HENDERSON BUSH LIMA** This variety belongs to the class of *Small Limas*. They are grown in the South under the name of "*Butter Beans*." These are hardy, maturing a week before Burpee's Bush Lima, and worth growing in the North. Of delicious sweet flavor. The plants are of true bush growth and bear tremendously. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 75¢; 5 lbs. \$1.70; 10 lbs. \$3.20, postpaid. By express, 25 lbs. \$5.75; 50 lbs. \$11.00; 100 lbs. \$21.00.

Burpee Improved Bush Lima Bean

Remember, if you should forget our full name and address, it is sufficient to address letter, telegram, or cable to
BURPEE, PHILADELPHIA

A bush of Burpee Improved Bush Lima showing how freely the pods are produced

66 Burpee's New PHILADELPHIA Bush Lima

The Earliest Maturing of all Lima Beans

Burpee's Philadelphia Bush Lima Bean is a most **meritorious** variety, first introduced exclusively by Burpee in 1925. It is the result of a cross between Burpee's Fordhook Bush Lima and Wood's Prolific, and embodies the good qualities of both parents. In season of maturity it is **decidedly earlier** than either of the parent varieties. The pods are ready for picking seven days ahead of Wood's Prolific and are of considerably larger size.

All extra-early varieties of Bush Limas hitherto introduced have small pods which usually contain but two or three beans, while our New Philadelphia Bush Lima produces pods which are comparatively **large**, flat, and nearly straight. The average pods measure $4\frac{3}{4}$ inches in length and $1\frac{1}{8}$ inches in width, containing four fair-sized flat beans of **excellent quality**. In color and general appearance the foliage is similar to Wood's Prolific, but slightly larger. The plants are of upright habit, **producing pods in the greatest abundance** well to the tip of the flower-spikes, which rise clear above the foliage.

The earlier pods, however, are set quite close to the ground and are borne in **clusters of six to eight**. Southern planters will find that it far surpasses the bush Sieva or "Butter Bean," as it matures its pods considerably earlier and bears a much heavier crop.

Burpee's Philadelphia Bush Lima is hardy and requires a comparatively short season, which is of the greatest importance to our northern customers who, due to the short season, require a very early variety. Whether grown for home use or for market, Burpee's New Philadelphia Bush Lima will be very satisfactory because of its earliness, immense yield, and its excellent quality.
Pkt. 20¢; $\frac{1}{2}$ lb. 45¢; lb. 75¢; 2 lbs. \$1.40; 5 lbs. \$3.35; 10 lbs. \$6.00, postpaid. By express, 25 lbs. \$9.25; 50 lbs. \$18.00; 100 lbs. \$35.00.

Five Famous BURPEE BEANS

33 Burpee's Brittle Wax ☉

The Most Popular of All Wax Bush Beans

Burpee's Brittle Wax is of superb quality, and is conceded the "Best of All." The bushes are remarkably hardy and very prolific. The pods are handsome, round, extremely fleshy, and **always stringless and tender.** They measure about 7 inches in length and are slightly curved. Burpee's Brittle Wax has everywhere made a record with its superb quality, extreme earliness, and great productiveness. The pods retain their rich yellow color after cooking. Pkt. 15¢; ½ lb. 35¢; lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$6.50; 50 lbs. \$12.50; 100 lbs. \$24.00.

55 Burpee's White Wax (Stringless) ☉

An exceptionally fine white-seeded, flat-podded wax bean of really choice quality! The pods are tender, and the plants continue to bear for a long period. The pods are straight, of a bright lemon-yellow color, brittle, meaty, and entirely stringless at all stages of growth. The seeds, being large and pure white, are also desirable as shell beans. Pkt. 15¢; ½ lb. 35¢; lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$6.50; 50 lbs. \$12.50; 100 lbs. \$24.00.

10 Burpee's Stringless Green-Pod ☉

The Finest Green-Pod Bush Bean in Cultivation

This famous snap bean is unequaled. The plants are medium large, of somewhat spreading growth, with dark green foliage, and always of strictly bush form. The pods are medium in length, slightly curved, and are so thick, even when quite young, as to be double-barreled. The pods are attractive **rich green.** Burpee's Stringless Green-Pod is enormously productive and combines this feature with hardiness and extreme earliness. **The pods, even when fully grown, are meaty and juicy, lacking the faintest signs of any strings.** They are tender and brittle, of very fine texture and delicate flavor. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

65 Burpee's Fordhook Bush Lima ☉

The plants average 20 to 30 inches in height by 20 to 24 inches across the top. The **strong, erect bushes** withstand both whipping rains and high winds to a remarkable degree and bear very early.

The pods measure from 4 to 5½ inches long by 1½ to 1¾ inches wide and are as much as ¾ inch thick. Each pod contains 4 or 5 magnificent large beans.

Burpee's Fordhook Bush Lima is immensely productive. The flavor of the beans is sweet and delicious. Pkt. 15¢; ½ lb. 35¢; lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.10; 10 lbs. \$4.00, postpaid. By express, 25 lbs. \$7.00; 50 lbs. \$13.50; 100 lbs. \$26.00.

98 Burpee's Giant-Podded Pole Lima ☉

Burpee's Giant-Podded Pole Lima is the largest of all Pole Limas. The pods measure from 7 to 8¾ inches in length with a width of 1½ to nearly 2 inches. The beans are **extra large.** They are invariably of superb flavor. They easily attain a height of from 10 to 12 feet. The pods are produced most abundantly until the vines are killed by severe frost. They are **borne in clusters** of from 4 to 8. Pkt. 15¢; ½ lb. 35¢; lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.10; 10 lbs. \$4.00, postpaid. By express, 25 lbs. \$7.00; 50 lbs. \$13.50; 100 lbs. \$26.00.

Three Grand Burpee Varieties of SWEET CORN

316 Burpee's Delicious

Illustrated in color on the opposite page

BURPEE'S DELICIOUS is so named because the most outstanding characteristic is its delicious flavor. Being a chance sport from the famous Burpee's Golden Bantam, it has inherited the delicious buttery taste which heretofore was not present in any other variety.

Burpee's Delicious originated with our good friend, Dr. Herbert Hoffman, of Merchantville, N. J., who discovered it, during the fall of 1916, among his patch of Burpee's Golden Bantam Corn and quickly recognized the immense value any corn which carried the Golden Bantam flavor would have.

Burpee's Delicious makes a strong and vigorous growth, 5 to 7 feet tall, and each stalk carries two fine ears measuring close to 8 inches. The kernels are broad and deep. They are pearly white, with fine thin skin enclosing the rich delicious pulp.

Pkt. 15¢; ½ lb. 45¢; lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60, postpaid. By express, 25 lbs. \$8.50; 50 lbs. \$16.50; 100 lbs. \$32.00.

325 Burpee's Sunnybrook

Illustrated in color on the opposite page

BURPEE'S SUNNYBROOK Sweet Corn originated from the same plant as Burpee's Delicious and consequently it resembles it in many ways. However, the ears are a trifle smaller and the kernels are even broader, and it matures a few days earlier.

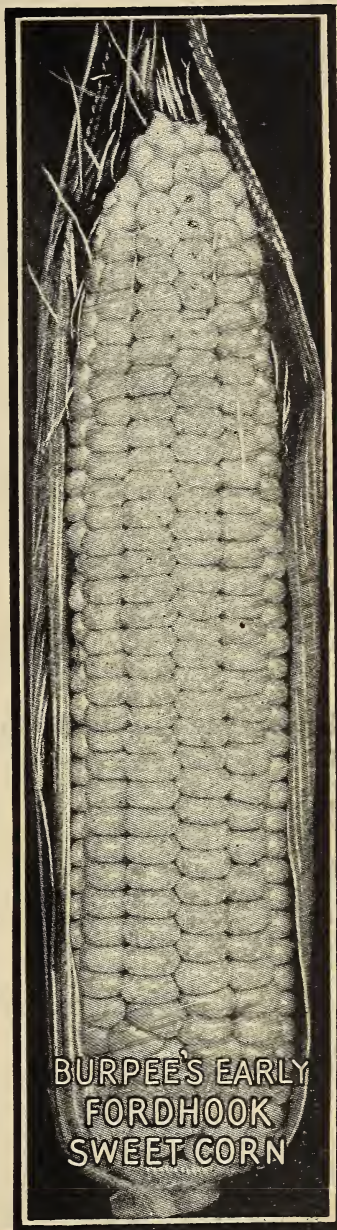

The ears of Burpee's Sunnybrook are of attractive appearance and of handy size for corn on the cob. The kernels are a **bright golden yellow**. They are broad and deep, and therefore extremely meaty. The rows and kernels are set closely together around a small cob. Of a luscious sweet and buttery flavor, greatly resembling that of Golden Bantam. The thick and tightly folded husk is an important feature with the variety because the corn ear worm seems to find it difficult to work its way into the ears. Pkt. 15¢; ½ lb. 45¢; lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60, postpaid. By express, 25 lbs. \$8.50; 50 lbs. \$16.50; 100 lbs. \$32.00.

305 Burpee's Early Fordhook

This is one of the largest-eared extra-earlies, the ears averaging 6 to 7 inches in length. Both the grains and cob are pure white. The ears are 8-rowed, with quite small cob and deep grains.

They mature a few days earlier than Golden Bantam. Early Fordhook has a most delicate and tasty flavor. It is a superb variety for both the home gardener and the market grower who appreciate an early and productive variety of quality. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$5.75; 50 lbs. \$10.25; 100 lbs. \$19.50.

301 Burpee's
Golden Bantam

America's Favorite Sweet Corn ◉

Illustrated on the Front Cover. Golden Bantam is the sweetest and choicest of all Sweet Corn, and remember, Golden Bantam is Burpee's. The most discriminating class of people demands Golden Bantam because of its **rich, sweet, and buttery flavor.**

The ears grow 5 to 6 inches long, a handy size to be eaten from the cob. The **golden yellow** kernels are broad, deep, and exceptionally meaty; they have a thin tender skin. The plants grow 4 to 5 feet tall and usually carry two ears each.

Our special stock is unexcelled and we guarantee Golden Bantam only when it is purchased directly from us. Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express, 25 lbs. \$5.75; 50 lbs. \$10.25; 100 lbs. \$19.50.

314 Burpee's Sweet Orange ◉

A most desirable midseason variety, growing from 6 to 7 feet in height. The ears are 6 to 7 inches in length, with 12 or 14 rows of deep, rather slender grains of light canary-yellow. Lusciously sweet kernels. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

Burpee's Earliest Catawba ◉

302 The plants grow from 4 to 4½ feet tall. The entire plant—stalks, tassels, and leaves—is shaded with red. The ears are from 6 to 7 inches long. When ready for the table, the grains are pearly white, slightly flushed with rose-pink. The dry seeds are rich purple. Tender, sweet, and juicy. Pkt. 10¢; ½ lb. 35¢; lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$6.50; 50 lbs. \$12.50; 100 lbs. \$24.00.

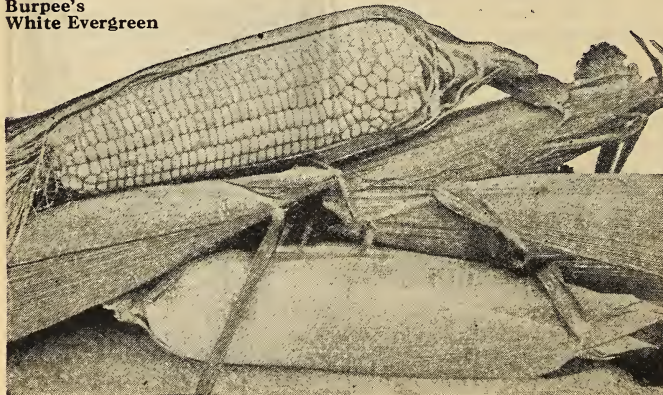

340 **Black Mexican** A medium-early variety, growing about 6 feet in height; ears 8 inches long, well filled with 8 rows of large, rather flat grains, which are a bluish purple, of deliciously sweet flavor. A hardy and sturdy variety. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

329 **Golden Giant** A cross between Burpee's Golden Bantam and Burpee's Howling Mob. It matures about a week after Golden Bantam. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

335 **Stowell's Evergreen** The ears are 8 to 9 inches long and usually have 16 or 18 rows of kernels. The grains are long and slender, entirely free from glaze. Pkt. 10¢; ½ lb. 25¢; lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. By express, 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

333 Burpee's White Evergreen ◉

Burpee's
 White Evergreen

See illustration. Burpee's White Evergreen is the most widely grown and the finest of all mid-season varieties for the home garden or canning. The large grains are closely set in rows around a small cob and they are very deep.

The most valuable feature of Burpee's White Evergreen is the extreme whiteness of the kernels. The flavor is remarkably sweet. Excellent for the home garden, the market, and for canning. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

310 Burpee's Howling Mob Sweet Corn ©

See illustration. When this new sweet corn was first introduced at market by the originator, it became so popular that crowds gathered about his stand—really, a mob howling for this delicious corn—and so it was named "Howling Mob." Howling Mob is one of the best flavored and most tender of all second-early white sweet corns. Ears of Howling Mob measure from 7 to 9 inches in length and they are closely set with 12 or 14 rows of large, pearly white grains.

Howling Mob is a strong-growing and sturdy variety, usually carrying two ears to a stalk. *It is very productive and, without question, the earliest white sweet corn of really high quality.* It is easily grown, and yields a fine crop of handsome ears. It matures right after Golden Bantam and makes a perfect succession to it.

Pkt. 10¢; ½ lb. 25¢; 1 lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

337 Country Gentleman © A very productive midseason variety, with large ears and irregularly arranged, slender, deep grains. The ears are 7 to 8 inches long. Often referred to as Shoe Peg Sweet Corn. Of very fine quality. Pkt. 10¢; ½ lb. 25¢; 1 lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

313 Early Minnesota A standard early variety of strong growth with 8-rowed ears about 8 inches long. The kernels are very broad, sweet, and tender. Fine for market. Pkt. 10¢; ½ lb. 25¢; 1 lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. By express, 25 lbs. \$4.25; 50 lbs. \$8.00; 100 lbs. \$15.00.

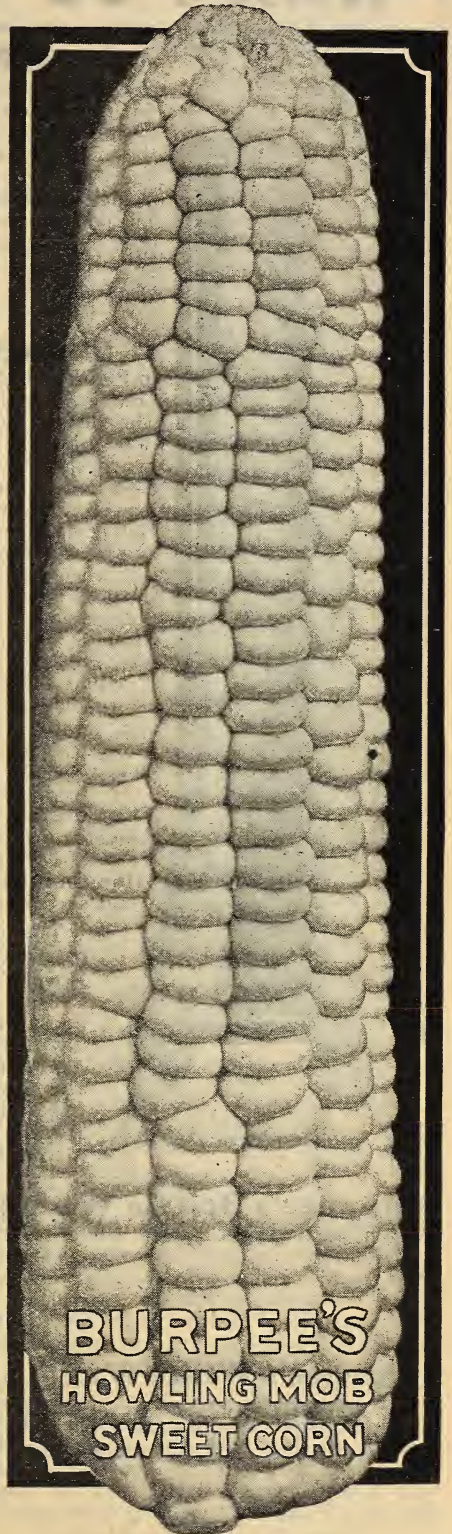

315 Crosby's Early © Twelve-rowed. A second-early variety. Ears 7 inches long, with 10 or 12 rows of fine grains. The grains are square, white, and sweet. Pkt. 10¢; ½ lb. 25¢; 1 lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. By express, 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

345 Extra-Early Adams This is not a sweet or sugar corn, and the distinction should be kept carefully in mind by gardeners. Used in some sections for extra-early planting. Of good flavor; quite sweet and tender when young. Pkt. 10¢; ½ lb. 20¢; 1 lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid. By express, 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

POP CORN The seed should be sown in rows 3 feet apart, about the time beans can be planted. Cover the seed 2 to 3 inches deep with fine soil, and thin the plants to stand 10 to 12 inches apart in the row. One ounce will sow 40 feet of row; 4 pounds per acre in hills.

355 White Rice Bears 3 or 4 small but attractive ears on a stalk. The pearly white grains are pointed, resembling rice kernels in shape. An easily grown and prolific variety. Pkt. 10¢; ½ lb. 25¢; 1 lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. By express, 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

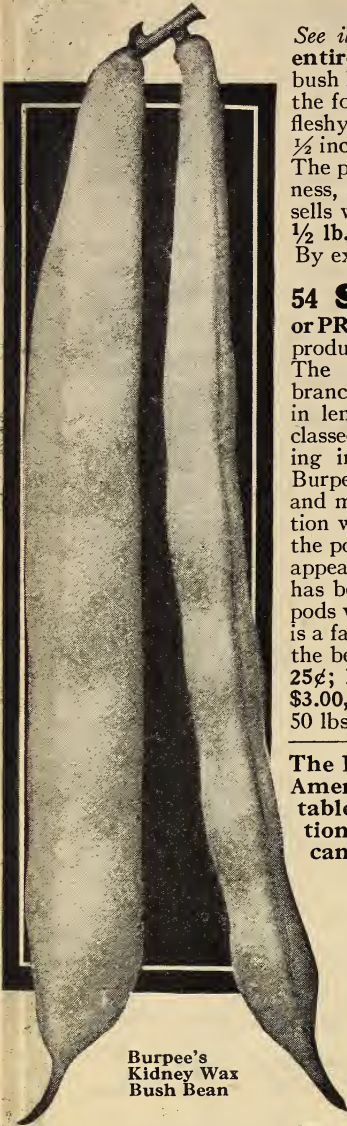

353 Queen's Golden © The stalks grow 6 feet tall, with large ears produced in abundance. It pops perfectly white. Pkt. 10¢; ½ lb. 25¢; 1 lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. By express, 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

WAX-POD BUSH BEANS

44 Burpee's Kidney Wax ⊙

See illustration. Robust in growth and most prolific, with long pods, **entirely stringless**, fleshy, and of **fine quality**. The plants are of erect bush habit, reaching 18 to 20 inches in height. Even during wet summers the foliage is entirely free from blight, and the pods free from rust. The fleshy pods are flattened in form, from 6 to 7 inches in length, $\frac{1}{2}$ inch broad, and $\frac{3}{8}$ inch thick; the color is rich lemon-yellow. The pods are remarkable for their meatiness, fine flavor, brittleness, and absolute freedom from strings. Burpee's Kidney Wax sells well on account of its good appearance and fine quality. Pkt. 15¢; $\frac{1}{2}$ lb. 35¢; 1 lb. 55¢; 2 lbs. \$1.00; 5 lbs. \$2.20; 10 lbs. \$4.10, postpaid. By express, 25 lbs. \$7.00; 50 lbs. \$13.50; 100 lbs. \$26.00.

Burpee's
Kidney Wax
Bush Bean

54 Stringless Refugee Wax ⊙

or PROFUSION WAX See illustration. A vigorous, productive, resistant sort, of good quality. The plants are dwarf, with runner-like branches. The pods measure $4\frac{1}{2}$ to 5 inches in length and are gracefully curved. It is classed as a **medium-early** variety, coming into bearing about a week later than Burpee's Kidney Wax. The beans are fleshy and meaty, being **nearly round** in cross-section when ready for the table. The color of the pods is a bright light yellow of attractive appearance. Our stock of this fine variety has been grown very carefully and produces pods which are entirely free from strings. It is a favorite variety for canners' use. One of the best wax crop varieties. Pkt. 10¢; $\frac{1}{2}$ lb. 25¢; 1 lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

Stringless
Refugee Wax

The House of Burpee has introduced in America more outstanding new vegetables which are now in general cultivation than have any three other American seed houses combined.

The very finest Wax Beans in existence are Burpee varieties. Burpee's Brittle Wax, Burpee's Kidney Wax, Burpee's White Wax, and Burpee's Saddleback Wax are all universally grown throughout America, because they represent the finest in the world. The best green-podded Bush Bean, Burpee's Stringless Green-pod, is also a Burpee introduction.

33 Burpee's Brittle Wax ⊙

This fine Burpee variety is perhaps better known than any other Wax Bean in existence. Its fleshy round pods are **entirely stringless**. They are of a bright golden yellow color and exceptionally meaty. For full description of Burpee's Brittle Wax see page 74, and for an illustration in color refer to page 75. Pkt. 15¢; $\frac{1}{2}$ lb. 35¢; 1 lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$6.50; 50 lbs. \$12.50; 100 lbs. \$24.00.

55 Burpee's White Wax ⊙

(Stringless) A full description of this outstanding Wax Bean and an illustration in color are given on pages 74 and 75. Burpee's White Wax is entirely stringless and of attractive appearance. The pods are of medium length and very meaty. In cross-section they are thick-flat. A **heavy yielder** which is sure to find a ready sale in any market and an excellent home garden variety. It is a midseason variety and coming into bearing a week later than the extra-early varieties, like Burpee's Brittle Wax and Burpee's Kidney Wax. Pkt. 15¢; $\frac{1}{2}$ lb. 35¢; 1 lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express, 25 lbs. \$6.50; 50 lbs. \$12.50; 100 lbs. \$24.00.

Rustproof Golden Wax

41 Rustproof Golden Wax *See illustration.*

Of typical bush growth, 10 to 12 inches tall, producing a good crop of straight pods. Stringless, brittle, of lemon-yellow color, slightly tinged green. The variety has proven to be **practically free from rust** except when grown under decidedly unfavorable conditions. It is of extra-early maturity and the pods are thick-flat in cross-section. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid.

By express, purchaser paying transportation charges: 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

49 Surecrop Stringless Wax ☉

A most prolific cropper of superlative quality. The handsome **rich yellow pods** are slightly curved, averaging 6 to 7 inches in length, almost round, ½ inch wide, very meaty and sweet, and perfectly stringless at all stages. The habit of the plant is free branching, but sturdy and upright, every branch carrying a **heavy crop** of the magnificent pods. Valuable for its productiveness and disease-resisting qualities.

It is classed as an early variety and has proven to be a quick seller because of its many good points.

Pkt. 10¢; ½ lb. 25¢; lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid.

By express or freight, 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

51 Hodson Wax

Enormously productive and very hardy, but lacks brittleness and shows signs of strings. The pods are large, **golden yellow**, uniform in size, and almost straight. It is a favorite variety for market because the beans are of attractive appearance and the yield of pods is most astonishing. The pods measure 6 to 6½ inches in length and stand shipping very well. Pkt. 10¢; ½ lb. 25¢;

lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid.

By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

Pencil-Pod Black Wax
Described below

SHELL BEANS

These are grown to use as dried beans during winter. The small-seeded varieties, like Robust Pea Bean, are sown at the rate of 30 to 45 pounds per acre. The larger seeded varieties require 60 to 75 pounds per acre; one pound for 150 to 200 feet of row.

26 Dwarf Horticultural Stringless

Used for both snap and green-shell purposes. The pods are 4½ to 5 inches long, and thick-flat. The round seeds are light buff spotted with deep red. The young pods are strictly stringless. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

25 Robust Pea Bean or IMPROVED

WHITE NAVY A much improved strain of the popular small white baking bean. Very highly recommended on account of its heavy yielding and disease-resistant qualities. Pkt. 10¢; ½ lb. 25¢; lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. By express, 25 lbs. \$5.25; 50 lbs. \$10.00; 100 lbs. \$19.00.

28 Red Kidney

Of dwarf growth and very hardy. The pods are 5½ to 6 inches long, produced in great numbers on strictly dwarf bushes. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

29 White Marrowfat

The plants make a dwarf growth but show a tendency to form a few runners. The pods are large, flat, and straight, with 5 to 7 pure white seeds in each pod. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

Dwarf Horticultural

48 Pencil-Pod Black Wax ☉

See illustration. A very fine wax bean of true bush growth bearing an **enormous crop** of pods. The beans measure 6 to 7 inches in length and they are nearly straight or slightly curved. It is an early maturing variety, of a bright golden yellow color. The flesh is brittle, solid, and always free from strings. Pkt. 10¢; ½ lb. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

Burpee's Saddleback Wax ☉

50 The plants are of strong bushy growth, 15 inches in height; extremely productive. The pods are long, nearly straight, and well rounded. They are always stringless, **rich golden yellow**, and the flesh between the beans is solid meat without any open spaces. Pkt. 15¢; ½ lb. 40¢; lb. 60¢; 2 lbs. \$1.10; 5 lbs. \$2.40; 10 lbs. \$4.50, postpaid. By express, at purchaser's expense, 25 lbs. \$7.50; 50 lbs. \$14.50; 100 lbs. \$28.00.

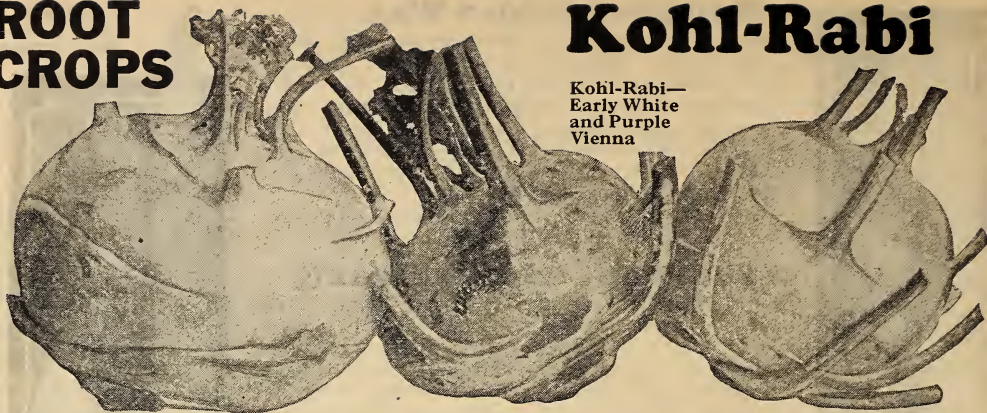

Burpee's Seeds Are Tested

ROOT CROPS

Kohl-Rabi

Kohl-Rabi—
Early White
and Purple
Vienna

293 Celeriac

Turnip - Rooted Celery The edible portion is the large, swollen root, which is highly valued for boiling or for flavoring soups, stews, and other dishes. Since the seed requires 3 to 4 weeks to germinate, keep the sowing moist and moderately warm until the young seedlings appear above ground. When large enough to be handled, transplant the seedlings into the garden to stand 8 to 10 inches apart each way. Pkt. 10¢; oz. 35¢; 4 ozs. \$1.00; ½ lb. \$1.50; lb. \$2.50, postpaid.

Sow the seed thinly in rows early in the spring, covering ½ to 1 inch with fine soil. For a continuous supply sow every 2 weeks up to the middle of July. Kohl-rabi is most tender when not more than 2 inches in diameter. It succeeds well in a rich loamy soil and responds to thorough cultivation. It may be grown between the rows of late cabbage. One ounce for 300 feet of row; 4 to 5 pounds per acre in drills.

456 Early White Vienna A very select extra-early, short-topped strain. The flavor of the young roots when they are 2 to 3 inches in diameter is distinctly sweet. The flesh is firm but cooks very tender, retaining a desirable amount of crispness. This variety is considered the finest of all, resembling cauliflower in its delicate and tasty flavor. Easily grown, yielding a large crop of uniform roots. Pkt. 10¢; oz. 30¢; 4 ozs. 85¢; ½ lb. \$1.25; lb. \$2.25, postpaid.

457 Early Purple Vienna The swollen stem and leaves are of a purplish color and the flesh is an attractive light green. Matures a few days later than White Vienna, but otherwise resembles it in tenderness and fine quality. Our strain is extra selected for early maturity. Pkt. 10¢; oz. 30¢; 4 ozs. 85¢; ½ lb. \$1.25; lb. \$2.25, postpaid.

Chicory

295 Large-Rooted or COFFEE Chicory roots are roasted and ground as a coffee substitute or adulterant. Sow thinly in early spring, in rows not less than 18 inches apart. They are hardy and may be left outdoors. One ounce of seed for 200 feet of row; 4 pounds per acre. The roots are quite thick and straight, often 14 inches long and about 2 inches thick. This is the variety grown mostly for the manufacture of "Coffee Chicory" because of its yield and size. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; lb. \$1.50, postpaid.

Witloof Chicory is listed on page 60.

Horse-Radish

This is a **hardy plant**, thriving best in a cool, moist spot. The small sets or roots are planted each spring to furnish large, straight, smooth roots for use the following season. The roots can be left in the garden, because they are hardy, until needed for use and, when grated, make an appetizing relish.

9924 Common Horse-Radish

Small roots for planting: 6 for 25¢; 12 for 35¢; 100 for \$2.25, postpaid. By express, freight, or parcel post, transportation charges paid by purchaser: 100 for \$1.75; 200 for \$3.00; 500 for \$6.75; 1000 for \$12.50.

9926 Maliner Kren or BOHEMIAN

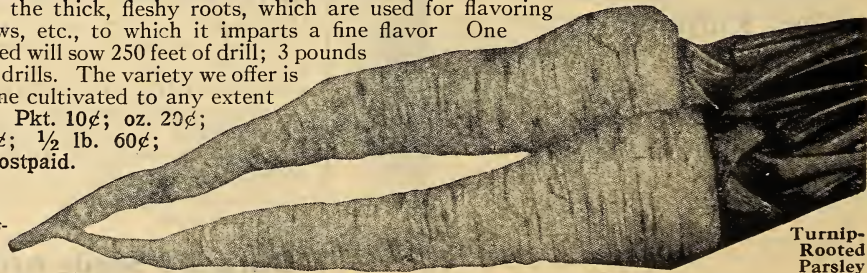

HORSE RADISH The plants are vigorous and the roots grow to large size. Of quick, strong growth, yielding heavily. We offer **SMALL ROOTS**, ready for planting: 6 for 30¢; 12 for 45¢; 100 for \$2.70, postpaid. By express, 50 roots for \$1.15; 100 for \$2.10; 200 for \$3.60; 500 for \$8.10; 1000 for \$15.00.

723 Turnip-Rooted Parsley

This can be used much in the same way as the ordinary parsley, but is grown mostly for the thick, fleshy roots, which are used for flavoring soups, stews, etc., to which it imparts a fine flavor. One ounce of seed will sow 250 feet of drill; 3 pounds per acre in drills. The variety we offer is the only one cultivated to any extent anywhere. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. \$1.00, postpaid.

For other Parsley varieties see page 61.

Turnip-Rooted Parsley

ROOT CROPS

Parsnips

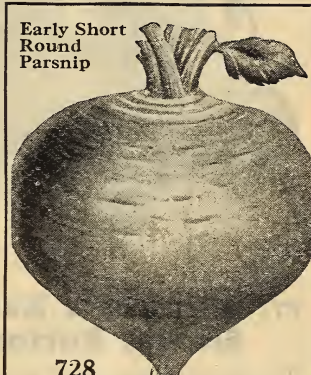

Guernsey Parsnips

Parsnips are of the easiest culture and require a full season to come to maturity. Seed of the long varieties should be sown early in spring up to May 15. Early Short Round matures quicker and gives a full crop planted as late as June 1. The roots may be left outdoors all winter, or they may be stored in a cool, well-ventilated cellar, packed in boxes filled with slightly moist soil. Grow plenty of parsnips for winter storing. They are very nutritious. One ounce for 300 feet of row. Sown at the rate of 4 to 6 pounds per acre.

725 Guernsey  See illustration. The roots are medium long, with a broad shoulder, gradually tapering downward. The white skin is smooth and attractive. It is considered the best and most productive of the long parsnips. The fine-grained, tender, sweet flesh makes it essentially a table variety, but it is also grown for cattle-feeding on account of its immense yield. Pkt. 10¢; oz. 15¢; 4 ozs. 35¢; 1/2 lb. 50¢; lb. 85¢; 2 lbs. \$1.55; 5 lbs. \$3.60, postpaid.

727 Long Smooth Hollow Crown Long Smooth grows longer than the preceding variety, but does not have so broad a shoulder. The roots are long and tapering, requiring a deeply worked soil to develop to perfection. It is a widely known variety, growing 15 inches in length and 3 inches in diameter at the shoulder. Pkt. 10¢; oz. 15¢; 4 ozs. 35¢; 1/2 lb. 50¢; lb. 85¢; 2 lbs. \$1.55; 5 lbs. \$3.60, postpaid.

Early Short Round Parsnip

728
Early Short Round

This is the earliest of all parsnips. It will give a good yield when sown as late as June, and will make a succession crop to early maturing vegetables. The roots often measure 5 to 6 inches across and 3 to 4 inches deep. Of fine sweet flavor. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; 1/2 lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05, postpaid.

Burpee—The World's Largest Mail Order Seed House, growing steadily from year to year, is one result of your confidence in us and our confidence in you. No business can be successful unless transactions are mutually profitable. Each season we strive to render better service.

Sandwich Island Mammoth Salsify

Salsify—Oyster Plant

This plant is grown largely for fall and winter use and is highly esteemed for the fine flavor of the roots. The popular name, Oyster Plant, has been given to Salsify because the roots have an oyster-like flavor. The plant is a native of Europe, making a heavy growth of grass-like foliage and a long fleshy root, measuring 6 to 8 inches in length and as much as 1 inch in diameter. Salsify seed requires 3 to 4 days to germinate.

The roots require a full season to come to maturity and should be sown as early in the spring as the weather permits, but not later than May 15. Sow the seed thinly in shallow drills, not less than 15 inches apart. As the roots are hardy, they may be left in the ground during winter, or may be dug and stored in a cool cellar after cutting off the leaves. One ounce will sow 120 feet of row; 8 to 10 pounds per acre in drills.

983 Sandwich Island Mammoth  See illustration. This grows uniformly to an extra-large size, averaging fully double the size and weight of roots of the old variety. The roots, notwithstanding their extra-large size, are of very superior quality and delicate in flavor. It is a great improvement on the ordinary type, producing shorter and better shaped roots with almost white flesh and of fine flavor. The roots are easily stored for winter. Seed grown on Burpee's Floradale Farms in California. Pkt. 10¢; oz. 30¢; 4 ozs. 85¢; 1/2 lb. \$1.25; lb. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10, postpaid.

Every well-balanced vegetable garden must contain Root Crops, Greens and Salads, Edible Seeds, and Vegetable Fruits

Burpee's Radishes

There are three distinct classes of radishes—Spring Radishes, Summer Radishes, and Winter Radishes. Every complete garden should include some of each class.

The Spring Radishes can be grown almost all the year around, and are important as a forcing crop during winter. They mature in the open in from 25 to 40 days, depending on the variety and the weather. They develop best during the cool season. Light sandy soil, rich in organic matter, is

essential to produce crisp and tender radishes. Plant as early in the spring as possible, and make succession plantings every 10 days. Where the summers are hot, sow until the middle of May, then stop, but make three more sowings during August. Sow the seed thinly in shallow drills and cover with about one-quarter inch of fine soil. One ounce is sufficient for 100 feet of drill; 8 to 10 pounds of seed are needed to sow one acre planted in drills.

877 Burpee's Earliest Scarlet Button

The radishes are round in shape and have a bright scarlet skin. They grow very quickly and we have frequently had them ready for use in twenty to twenty-five days after sowing the seed. In contrast to the bright scarlet skin, which is thin and tender, the flesh is pure white. It is crisp, juicy, tender, and of a mild flavor. On account of the small top, which is just enough to shade the roots, it is well suited for growing during winter under glass.

Burpee's Earliest Scarlet Button is a variety which is extensively planted by market growers all over the country as they find it a quick grower and sure yielder. Home gardeners everywhere are also planting this variety for a first early crop and for succession. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00, postpaid.

Crimson Giant Globe

886 An attractive bright red radish, ready to market in from 4 to 5 weeks. This radish is a deep globe in form; 2 inches in depth; 1½ inches in diameter, with thin, tender skin of deep crimson. The flesh is white, crisp, and of mild flavor. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00, postpaid.

Other radishes are listed on page 2

907 French Breakfast Radish

French Breakfast is a beautiful radish of true oblong or olive shape. The color of the skin is bright rose-scarlet, shading to clear white in the lower portion. The flesh is white, firm, and crisp; juicy, mildly pungent, and tender. An excellent variety for the spring garden. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

909 Bright Breakfast

Similar to the French Breakfast, but the scarlet skin is still brighter in color and forms a sharp contrast to the clear white tip. The roots are typical olive shaped and are strikingly uniform in shape as well as size. The white flesh is firm and crisp, yet tender and juicy, with a snappy flavor. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00, postpaid.

905 Burpee's Earliest White

Our special strain produces handsome roots of a uniform olive shape. The skin is thin, tender, and of a pure white color. The flesh is pure white and crisp, with a snappy flavor but not at all strong. It is equally as good for growing in the hotbed as for outdoor sowing in the garden during the spring or the fall. The average time required to raise edible roots is about 20 days under favorable conditions. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00, postpaid.

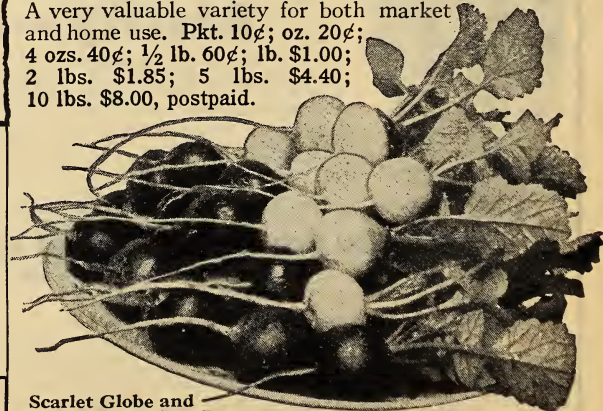

883 Scarlet Globe

See illustration below. This well-known and highly bred variety forms attractive, medium-sized, globe-shaped roots. They are ready for table use in four to five weeks from outdoor spring sowing. The color of the skin is a bright shining scarlet throughout. The quality is superb and it is therefore grown for both home and market. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00, postpaid.

899 Philadelphia White Box

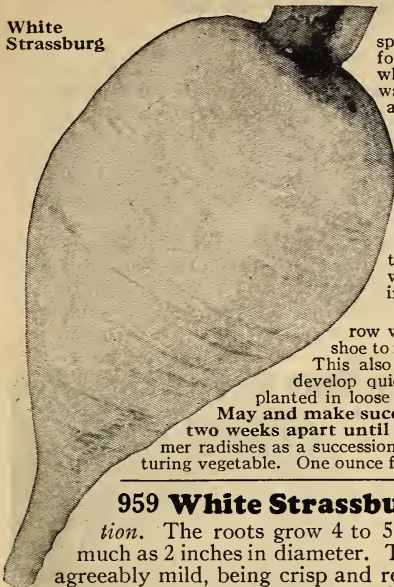

See illustration below. An early variety. The radishes grow 1½ inches in diameter, with a thin, pure paper-white skin. The flesh is crisp, snappy, and juicy. A very valuable variety for both market and home use. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00, postpaid.

Scarlet Globe and Philadelphia White Box

SUMMER RADISHES

White Strassburg

The summer radishes are, in contrast to the spring varieties, adapted for summer sowing even where the weather is quite warm. They grow well in a rich, firm, and cool soil.

The roots should be eaten as soon as they have reached edible size. For this reason make succession sowings every week or 10 days to provide a continuous supply. Sow thinly in rows and cover with not more than 1/2 inch of fine soil.

Firm the soil above the row with the full sole of the shoe to insure good germination. This also encourages the root to develop quicker and better than if planted in loose soil. **Begin sowing in May and make succession sowings one to two weeks apart until August 15.** Plant summer radishes as a succession crop to some early maturing vegetable. One ounce for 100 feet.

959 White Strassburg

See illustration. The roots grow 4 to 5 inches long and as much as 2 inches in diameter. The flesh is white and agreeably mild, being crisp and refreshing.

Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; 1/2 lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

951 Chartiers

or SHEPHERD Attractive roots of bright crimson tipped with white. The flesh is white, crisp, and of fine flavor. Easily grown and very delicious.

Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; 1/2 lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

953 Long White Vienna

or LADY FINGER An excellent variety, growing to good size without becoming pithy or tough. The flesh is pure icy white, juicy, and agreeably snappy. It does best on rich and moist soil.

Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; 1/2 lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

WINTER RADISHES

Winter radishes require cool weather at the finish of their growing season, though they may be started during hot weather. **Make your first planting the middle of June, a second the middle of July, and a third the middle of August.** Sow thinly in rows not less than 15 inches apart, and thin out to stand 6 inches apart in the row. Radishes must grow quickly to develop quality, and a rich, firm, and well-drained soil is essential. Apply water during dry weather and keep free of weeds at all times. Winter radishes are easily stored in any frost-proof cellar. One ounce of seed is needed for 100 feet of row.

963 White Chinese

or CELESTIAL An outstanding variety, growing to enormous size. The roots are cylindrical and grow 12 to 15 inches long, with a diameter of 5 inches. The flesh is **crisp, juicy, and tender.** Agreeably mild in flavor. A widely grown variety.

Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; 1/2 lb. 65¢; lb. \$1.10; 2 lbs. \$2.00; 5 lbs. \$4.80; 10 lbs. \$8.80, postpaid.

967 Chinese Rose

or SCARLET CHINA Of medium size, 4 to 5 inches long. Skin deep rose. **Flesh pure white, firm, and compact.** Free from any hard fiber or strings.

Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; 1/2 lb. 70¢; lb. \$1.20; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20, postpaid.

971 Long Black Spanish

The roots measure 7 to 10 inches long and are 2 to 3 inches thick. The skin is black and the flesh pure white. It is **extremely firm** and the roots will keep in perfect condition all winter long.

Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; 1/2 lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30; 10 lbs. \$9.60, postpaid.

LONG SPRING RADISHES

928 Early Long Scarlet

Short Top Grown in light rich soil outdoors, the roots mature in from 4 to 5 weeks and they measure close to 6 inches in length. The flesh has an agreeably pungent taste and is **crisp and juicy.**

Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; 1/2 lb. 60¢; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00, postpaid.

936 Long Cardinal or LONG BRIGHTEST SCARLET

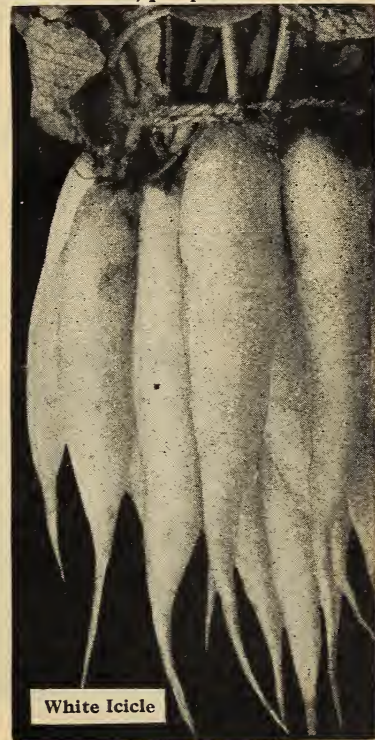

The crisp, tender radishes grow quickly and are exceedingly attractive when bunched for market.

Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; 1/2 lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30; 10 lbs. \$9.60, postpaid.

938 White Icicle

See illustration. White Icicle is the finest of all the long varieties and is claimed to be the finest of all radishes. The roots are **crisp and tender**, even when fully developed, and they have an agreeably snappy flavor. The roots grow to **good size**, 5 inches long, and are the shape of an icicle. They are straight and free from any side roots.

Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; 1/2 lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

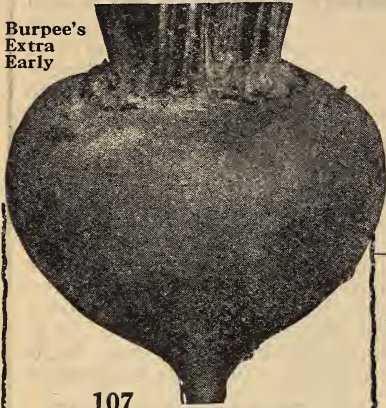

White Icicle

BURPEE'S BEETS

These are of universal culture and it is important to make frequent sowings in order that a constant supply of tender young roots may be had throughout the season. Seed may be sown as **early in the spring** as the ground can be worked into good condition. **Sowings should be made for succession at least once a month up to the first of July**, at which time we recommend making a large sowing to produce a supply of well-grown roots for winter use. If the roots are gathered with the approach of cold weather and kept in a cool cellar packed in slightly moist earth, they remain in perfect condition throughout the winter until spring.

Burpee's
Extra
Early

107

Burpee's Extra-Early

This is very early and of excellent quality. The roots are somewhat flattened, **smooth**, and regular. The flesh, in alternate rings of light and dark pink, is particularly tender and sweet. This is considered the finest earliest beet with very small tops. It is well adapted for hot-house forcing. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 95¢; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10, postpaid.

The seed should be sown thinly in drills from ½ to 1 inch in depth, leaving 12 inches or more between the rows, to admit cultivation. When well started, thin the plants to stand 3 to 4 inches apart in the row. One ounce will sow 100 feet of drill; 4 to 6 pounds are needed per acre in drills.

109 Extra-Early Flat Egyptian

See illustration. This variety is one of the earliest of all beets and produces roots which grow about 2 inches in diameter. These roots are distinctly flat and have a smooth surface. It is usually somewhat smaller than Crosby's Egyptian and of a **very dark red** color.

The foliage is sparse and consequently the leaf crown is small. The flesh is sweet and tender and free from any hard fiber. The color of the flesh is dark purplish red zoned with a lighter red shade. Because of its attractive shape and color it is grown widely both for home use and for market.

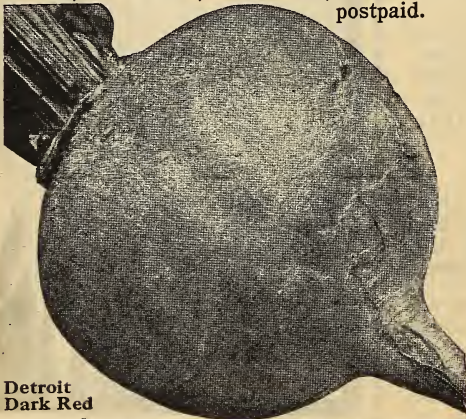

Pkt. 10¢; oz. 15¢; 4 ozs. 35¢; ½ lb. 50¢; lb. 85¢; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35, postpaid.

Extra-Early Flat
Egyptian

115 Detroit Dark Red

See illustration. The roots are globular or ovoid. They are smooth and have but little tops. The skin is blood-red and the flesh dark red, zoned with a lighter shade. The flesh is tender and the flavor decidedly sweet. Excellent for the home garden and for market. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 90¢; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75, postpaid.

Detroit
Dark Red

111 Crosby's Egyptian This variety is grown extensively by the leading market growers because it is one of the earliest to be ready for market. The skin is smooth and of a dark red color. The foliage is rather sparse and erect. The roots are almost round, with a small tap-root and a very small crown of leaves. The flesh of the beets is **deep blood-red**, with slightly lighter zonings. The texture is crisp and free from fibers. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 90¢; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75, postpaid.

113 Edmand's Early A well-known second-early beet, excellent for the home garden, market, or for canning. The foliage is sparse and of an erect growth. The roots are nearly round in shape. The skin is a deep blackish red and the flesh is purplish red, with little zoning of a lighter color. It is a good keeper of quick growth and may be kept in perfect condition throughout the winter until late spring. Pkt. 10¢; oz. 15¢; 4 ozs. 35¢; ½ lb. 50¢; lb. 85¢; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35, postpaid.

Burpee's Black Red Ball, Burpee's Sunnybrook, and Burpee's Improved Blood Beets are offered on page 3

Burpee's New Half-Long ⊙

134 This is, without exception, the finest strain of a half-long beet we have ever seen in our Ford-hook trial grounds. When cut, the flesh is deep maroon-red, approaching black, and is free from zoning. The flesh is finely grained, smooth,

free from hard fiber, and of sweet flavor. Like other intermediate varieties, Burpee's New Half-Long is particularly fine for winter storing. The roots are

uniform in size, with a broad shoulder, and quite thick throughout their entire length. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00, postpaid.

131 Long Smooth Blood-Red

The roots are almost 12 inches long, and 1½ to 2 inches in diameter. The skin is smooth and uniform, and dark red in color. The flesh is blackish red. Of very fine quality. Pkt. 10¢; oz. 15¢; 4 ozs. 35¢; ½ lb. 50¢; lb. 85¢; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35, postpaid.

125 Early Wonder

A selection from Crosby's Egyptian but a few days later. The small-top roots are nearly globe shaped and uniform in size. The skin is a fine deep red and the flesh is also a rich dark color, with very little zoning. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00, postpaid.

SUGAR BEETS

Sugar beets are grown extensively for the purpose of extracting the sugar and also for stock feeding. They are highly nutritious and easily stored for winter. The seed should be sown thinly in drills 2 to 3 feet apart and covered 1 to 1½ inches deep. The seed may be sown any time during April, May, or June. One ounce sows 100 feet of drill. Five pounds per acre in drills. Sown broadcast, 15 to 20 pounds per acre are needed for a good stand.

Burpee's Danish Improved ⊙

139 Of thick oval form; very productive. Rich in sugar and most desirable for stock feeding. Bright green foliage; leaf-stalks and skin shaded pink. The roots are easily harvested and keep a long time. We have an excellent stock of this standard variety, yielding very highly. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 40¢; lb. 65¢; 2 lbs. \$1.15; 5 lbs. \$2.60; 10 lbs. \$4.85, postpaid.

143 Wanzleben ⊙

The roots are 7 to 8 inches long. They can be grown as close as 5 inches apart in the row and 2 feet between the rows. Smooth, with a broad shoulder gradually tapering toward the base. An enormous yielder, grown extensively in many sections for sugar. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 40¢; lb. 65¢; 2 lbs. \$1.15; 5 lbs. \$2.60; 10 lbs. \$4.85, postpaid.

145 Giant Half-Sugar Rose ⊙

The roots average 10 to 12 inches, and the outline is that of a broad, thick wedge. The upper portion is bright rose outside, the lower third being white. The flesh is pure white, firm, and very rich in sugar. It yields a tremendous crop. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 40¢; lb. 65¢; 2 lbs. \$1.15; 5 lbs. \$2.60; 10 lbs. \$4.85, postpaid.

Burpee's
Columbia

Burpee's
Columbia is
an excellent
garden beet for
winter storing

117 Burpee's Columbia ⊙

A superb main-crop garden beet. The roots are of neat turnip shape, growing 3 to 4 inches in diameter, with a thick shoulder, but quickly tapering in the lower portion. The skin of the roots is smooth and entirely free from small rootlets. The flesh is a beautiful deep blood-red. It is tender and of the richest flavor. The roots can be used early in the season when only partially grown. Burpee's Columbia retains its choice quality and absolute freedom from woodiness until the beets have reached their full size. The foliage is comparatively small, of a rich bronze color. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 90¢; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75, postpaid.

MANGELS

For Stock Feeding

These require the same soil and climatic conditions as sugar beets and are sown any time up to June 15. Mangel-Wurzels are very valuable for stock feeding, particularly in sections where it is too cool to grow a good crop of corn. One ounce sows 100 feet of drill; 5 pounds per acre in drills. Sown broadcast, 15 to 20 pounds per acre.

151 Mammoth Prize Long Red ⊙

This is the heaviest cropping and largest of all mangels. The roots grow from ½ to ⅔ above the surface and are frequently 2 feet or more in length by 6 inches in diameter. Skin bright red; flesh white, veined pink. They are easily harvested. Pkt. 10¢; oz. 15¢; 4 ozs. 25¢; ½ lb. 40¢; lb. 60¢; 2 lbs. \$1.10; 5 lbs. \$2.40; 10 lbs. \$4.50, postpaid.

147 Golden Tankard ⊙

A smooth, yellow-fleshed mangel; yields large crops on good land and is easily harvested. The roots are heavy and solid, of a typical tankard shape. The flesh is firm and the roots are excellent keepers. A widely grown variety for stock feeding. Pkt. 10¢; oz. 15¢; 4 ozs. 25¢; ½ lb. 40¢; lb. 60¢; 2 lbs. \$1.10; 5 lbs. \$2.40; 10 lbs. \$4.50, postpaid.

BURPEE'S CARROTS

Sow the seed thinly in shallow drills **early in the spring** and make succession sowings every 2 weeks up to the early part of July. When the plants are well started, thin out the small early sorts to 2 inches apart in the row, and large late varieties from 3 to 4 inches. They should be sown in rich mellow soil, deeply worked, and receive constant cultivation during growth to insure smooth, straight roots. **For winter storing sow a long row about the middle of June** which will make full size roots before cold weather sets in. One ounce of carrot seed will sow 250 feet of drill; 2½ pounds per acre.

Amsterdam Forcing

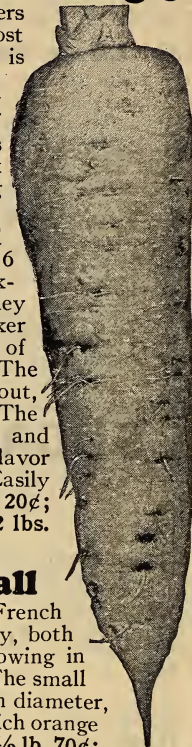

218 See illustration. This fine variety is unsurpassed. The foliage is very sparse and averages only 6 inches in height. The straight roots are attractive, of a **bright orange-red** color, with a blunt end and very small tap-root. They are uniform, growing about 4 inches long by 1¼ inches in diameter; the flesh is crisp and sweet, without stringiness, and the small core is very tender. The flesh is bright salmon-red. Amsterdam Forcing is an excellent table variety, combining quality with good appearance and productiveness. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; ½ lb. 85¢; 1b. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60, postpaid.

225 Danvers Half-Long

See illustration. Of all carrots, Danvers Half-Long has proven to be the most popular variety in America. It is planted on a large scale by market growers, as the fine roots find a ready sale everywhere, besides being one of the **very best** for table use. It is now planted extensively for stock feeding on account of its high yielding qualities and food value.

The roots are uniform in size and shape. They usually measure 5 to 6 inches in length and hold their thickness well down to the tip, where they are bluntly pointed. They are thicker near the crown, reaching a diameter of 2 to 2½ inches when fully grown. The flesh is a **rich orange** color throughout, with a large, well-defined core. The texture of the roots is fine-grained and free from any woody fiber. The flavor is remarkably sweet and tender. Easily stored for winter use. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; 1b. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05, postpaid.

Danvers Half-Long

217 Early Golden Ball

This variety is also known as French Forcing. This is an excellent variety, both for forcing in coldframes and for sowing in the garden for the earliest supply. The small roots are round in form, 1½ inches in diameter, smooth, tender, and of fine flavor. Rich orange flesh. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; 1b. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05, postpaid.

221 Chantenay or MODEL See illustration. This is a well-known and widely planted variety. The roots grow quickly and are of excellent table quality. When fully developed, they measure about 6 inches in length and 2½ inches in diameter at the shoulder. They gently taper evenly throughout the broad root and abruptly turn into a fine thin root at the bottom. Chantenay is popular because of its productiveness and quality. Because of its yield it is grown not only for table use but also for stock feeding. The flesh is a beautiful **deep golden orange** color. The texture is tender and fine grained. The roots mature medium early and are excellent for winter storing. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; 1b. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50, postpaid.

The varieties **Short Horn, Burpee's Oxheart, Half-Long Nantes** are described on page 92 and illustrated on page 93

Chantenay or Model

Carrots contain vitamin. They are wholesome and nutritious

229 Burpee's Improved Long Orange Carrot

The roots are uniform in size and form; smooth, and free from small rootlets, penetrating the soil very deeply. Of gradually tapering shape, holding their thickness well throughout the length; rich deep orange coloring. This is a **good keeper**, of fine quality for winter use, but it is also grown extensively for stock feeding on account of yielding enormous crops. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40, postpaid.

Burpee's
Improved
Long
Orange

231 St. Valery  or NEW RED INTERMEDIATE Roots very smooth and regular in growth; of large size, from 10 to 12 inches in length, and 2 to 3 inches in diameter at the top, tapering gradually throughout. The flesh is a rich, deep orange-red, free from hard core. Highly nutritious and very productive. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30, postpaid.

St.
Valery

Carrots for Stock Feeding

These keep well when stored for winter use and form an extremely wholesome addition to the winter rations of stock. They yield heavily on productive soils. **Plant the seed from May 10 to June 20.** Sow thinly in drills 3 feet apart, using 4 pounds of seed to the acre. Thin to stand 6 inches apart in the row.

238 Large White Belgian Our strain of this variety forms its roots entirely under ground. The roots will average 2 inches in diameter at the shoulder and a foot or more in length. The diameter is almost even throughout the entire length, the roots tapering gradually toward the base. Flesh and skin **pure white**, tinged with green on the upper portion, near the shoulder of the root. It does best in rich, deep soils. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 45¢; lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.20, postpaid.

240 Large Yellow Belgian This is similar to the preceding in growth and form, but the skin is of a pale orange color. The flesh is light orange. The roots are produced entirely under ground. They are fully as long and as thick as the preceding variety. Many farmers prefer the orange fleshed carrots to those with white flesh and they are said to be most nutritious. A very productive variety, doing best on deep and fertile soil. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 45¢; lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.20, postpaid.

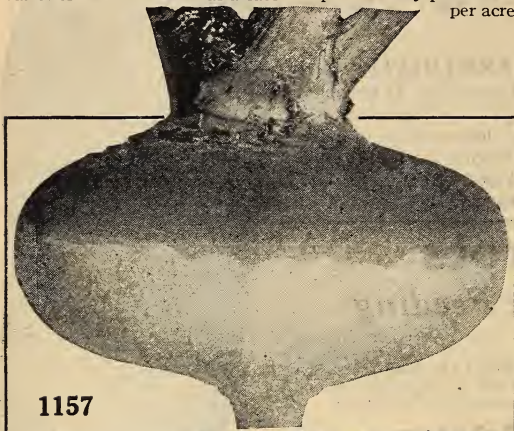

235 Improved Short White  The most productive and most easily harvested. Improved Short White is very popular. It is the best of the white varieties and is used wholly for stock feeding. The roots grow about 8 inches in length, measuring 3 inches at the top, and gradually tapering throughout their length. Smooth white skin, free from small rootlets. **Flesh solid, white, crisp**, rich, and nutritious. Sown in rich, heavily fertilized soils the roots grow to enormous size, often measuring 12 inches long. We have reports of this variety yielding **20 tons per acre**. The high food value of carrots and the immense yields realized from this variety should be sufficient reason to grow this variety extensively for stock feeding. The roots are sure to yield heavily on any good productive soil. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 45¢; lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.20, postpaid.

Improved Short
White Carrot

BURPEE'S TURNIPS

Turnips develop best during cool weather, and in the vicinity of Philadelphia a fine crop can be grown from seed sown early in the spring. But turnips are most important as a fall crop. For fall or winter use sow the seed between the middle of July and August 20 in rows not less than 18 inches apart, and cover with $\frac{1}{2}$ to $\frac{3}{4}$ inch of fine soil. The most popular method, however, is to broadcast the seed either between the rows of corn or in the cultivated orchard. The early white varieties are often sown as a catch crop after early potatoes. One ounce will sow 400 feet of drill. In drills, 1 to 2 pounds per acre. Sown broadcast, 2 to 4 pounds of seed are needed per acre.

1157

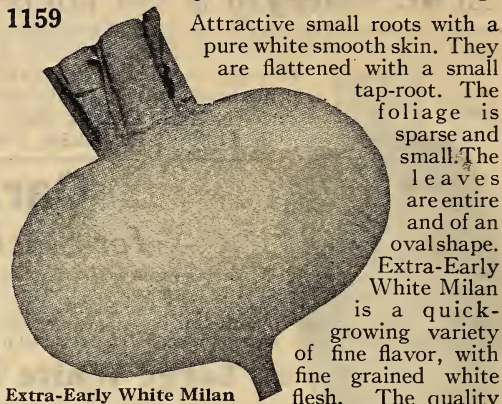

Early Red- or Purple-Top Strap-Leaf

This is surpassed in earliness only by the Milan. The roots are quite flat, 4 to 6 inches in diameter. The upper portion of the root is of a deep purplish red, the lower portion clear milky white. The roots grow quickly and are remarkably uniform in size, shape, and coloring. This is slower to run to seed than most other turnips.

The flesh is fine grained, sweet, and tender. It is grown extensively for fall use and winter storing because the roots keep in perfect condition all winter. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; $\frac{1}{2}$ lb. 45¢; lb. 70¢; 2 lbs. \$1.25; 5 lbs. \$2.80; 10 lbs. \$5.25, postpaid.

Extra-Early White Milan

1159

Attractive small roots with a pure white smooth skin. They are flattened with a small tap-root. The foliage is sparse and small. The leaves are entire and of an oval shape. Extra-Early White Milan is a quick-growing variety of fine flavor, with fine grained white flesh. The quality is superb. The roots grow to medium size and find a ready sale on any market because of their handy size, good appearance, and quality. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; $\frac{1}{2}$ lb. 60¢; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00, postpaid.

Extra-Early White Milan

Extra-Early Purple-Top Milan

1161 This splendid new strap-leaved turnip is the earliest in cultivation. The bulbs are flat, of medium size, smooth, with crisp white flesh of excellent flavor. The upper portion of the bulb is a rich purple, but the lower half is pure white. It is well adapted for early forcing. One of the most popular of all early turnips because it is of superb quality. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; $\frac{1}{2}$ lb. 60¢; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00, postpaid.

1177 Seven Top The variety Seven Top turnip is entirely distinct from all others, as it does not produce any edible roots. It is grown extensively in our southern states for the leaves, which are cooked like spinach and make a delicious green. This is considered one of the finest greens in existence and quite often referred to as turnip tops.

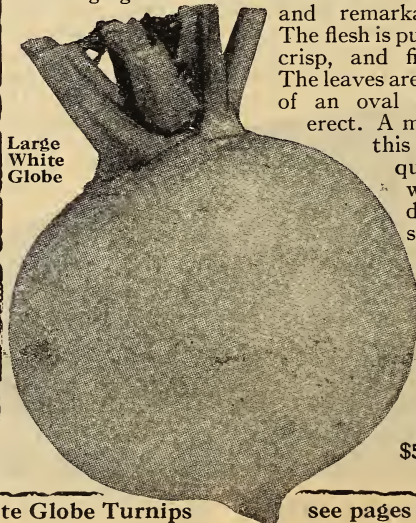

The leaves are large, extremely tender, and they are borne very freely. Within late years the value of this fine green seems to have been realized also in the North, as the demand for it in that section has steadily increased with every year. Pkt. 10¢; oz. 25¢; 4 ozs. 60¢; $\frac{1}{2}$ lb. 85¢; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60; 10 lbs. \$12.00, postpaid.

The cost of the very best seeds is so small compared with the value of the resulting crops that sensible planters know they cannot afford to risk seed of doubtful pedigree—and we know just as well that we cannot afford to risk our hard-earned reputation by selling stocks of uncertain character.

1167 Large White Globe Strap-Leaf

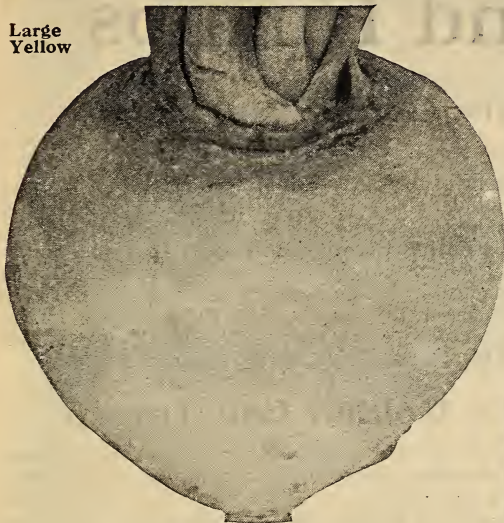

A large ball-shaped turnip, of uniform size and shape, averaging 6 inches in diameter. The skin is white and remarkably smooth. The flesh is pure white, firm, crisp, and finely grained. The leaves are very long and of an oval shape, rather erect. A main feature of this variety is the quickness with which the roots develop to full size. A heavy yielder and of excellent quality. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; $\frac{1}{2}$ lb. 45¢; lb. 70¢; 2 lbs. \$1.25; 5 lbs. \$2.80; 10 lbs. \$5.25, postpaid.

Large White Globe

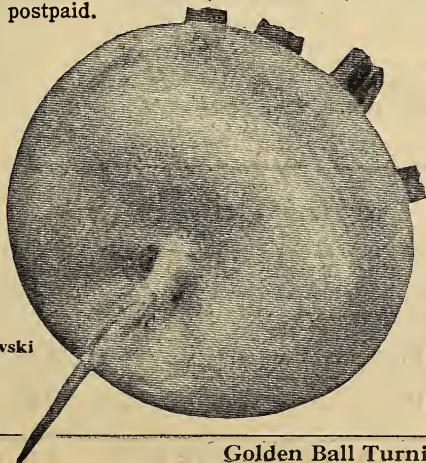

TURNIPS YELLOW-FLESHED

Large
Yellow

1179 Large Yellow or **AMBER GLOBE** *See illustration.* A beautiful variety of large size and regular shape. The roots are almost round in outline. They are smooth and form a single tap-root, free from any objectionable side-roots. The skin is even and smooth, of a pale amber color. The beautiful **creamy yellow** flesh looks very attractive and is fine grained and free from hard fiber. The flavor is sweet and delicious. Easily stored for winter. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 45¢; lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60, postpaid.

1185 Petrowski *See illustration.* This is a very early maturing turnip of excellent quality. The roots are flat and are indented at the top and bottom. They are smooth and of a rich orange-yellow color. The flesh is a beautiful **light orange**, and is particularly **sweet**, fine-grained, and extremely tender. Petrowski is an excellent quick-maturing turnip for early spring sowing, but just as important for winter storing from seed sown early in August. Of very fine quality. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 40¢; lb. 65¢; 2 lbs. \$1.15; 5 lbs. \$2.60; 10 lbs. \$4.85, postpaid.

Petrowski

RUTABAGAS WINTER TURNIPS

Also called Swedes, Swedish Turnips, or Russian Turnips. Rutabagas are more solid, of firmer flesh, and therefore keep later into spring than turnips. They require about 4 weeks longer in which to mature than common turnips, and at this latitude, Philadelphia, seed should be sown from the first to the middle of July to make large roots for winter keeping. One ounce for 400 feet of drill; 1 to 2 pounds per acre in drills; 3 to 5 pounds per acre broadcast.

Burpee's
Purple-Top
Yellow
Rutabaga

Burpee's Purple-Top Yellow

1191 *See illustration.* Produces large, smooth, globe-shaped roots with rich purplish coloring in the upper portion and a deep yellow below the soil. Productive and will keep in fine condition until quite late in the spring. Flesh rich yellow, fine-grained, and very sweet. A good home garden variety and excellent for winter market. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 45¢; lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60, postpaid.

1196 White-Fleshed Neckless

The skin and flesh are white. The roots are large and solid. Their shape is elongated and the skin smooth and even. Of choice quality and grown extensively for table use as well as for cattle feeding. A splendid keeper. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 40¢; lb. 65¢; 2 lbs. \$1.15; 5 lbs. \$2.60; 10 lbs. \$4.85, postpaid.

Golden Neckless Winter Turnip is described and illustrated in color on the following pages—92 and 93

Burpee's Carrots and Turnips

Carrot Collections

An assortment of the three varieties of carrots described below and illustrated on the opposite page. These collections will be mailed to you postpaid.

7059	One packet each (value 30¢)	25¢
7060	One ounce each (value 65¢)	50¢

Carrots

226 Half-Long Nantes ⊙

A handsome half-long variety, almost perfectly cylindrical, blunt-ended, and with a very small tap-root. The roots measure 6 inches long and 1½ inches thick. The flesh is fine grained and smooth, free from any hard fiber or core. Of superb quality. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.20; 2 lbs. \$2.20; 5 lbs. \$5.30, postpaid.

219 Short Horn ⊙

or EARLY SCARLET HORN The most popular of all early sorts for market or home. The roots measure 1½ inches in diameter and 3 inches in length. They are a rich deep orange color, fine grained, and of sweet flavor. Pkt. 10¢; oz. 25¢; 4 ozs. 50¢; ½ lb. 75¢; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50, postpaid.

223 Burpee's Oxheart ⊙

The first edible roots measure ¾ inch across when they are pulled to make room for the remaining ones. Fully grown roots of Burpee's Oxheart measure 2½ inches in diameter at the top, and from 3 to 4 inches in length. They are free from hard core or fiber, and are sweet and tender. Burpee's Oxheart is an exceptionally fine carrot. Pkt. 10¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 70¢; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05, postpaid.

1194 Golden Neckless ⊙ Winter Turnip

This is a favorite winter turnip with attractive roots of almost globular shape. They are inclined to grow slightly top-shaped as they increase in size. The flesh is finely grained and of a beautiful creamy yellow color. It is solid and of excellent quality. Golden Neckless has a very small neck and yields heavily. The roots are easily stored and keep well throughout the winter until the following spring. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 40¢; lb. 65¢; 2 lbs. \$1.15; 5 lbs. \$2.60; 10 lbs. \$4.85, postpaid.

1183 Golden Ball Turnip

This fine variety is also known under the name of Orange Jelly. Gardeners who prefer the yellow-fleshed turnip will be pleased with this variety. The roots are perfectly globe shaped and have bright creamy yellow skin. They are smooth, regular in shape and size, and of very attractive appearance. The flesh has a pale amber tint and is remarkably fine grained. Golden Ball is a quality turnip with smooth mealy flesh, free from woodiness and hard fiber. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 45¢; lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60, postpaid.

1169 White Egg Turnip ⊙

White Egg Turnip is an old favorite with both home gardeners and market growers. It combines all desirable qualities. The appearance is attractive, the roots being a typical egg-shape. The skin is thin and almost white. The flesh is pure white, mealy, fine grained, and entirely free from any hard fiber or woody substance. When prepared for the table the roots are tender, crisp, and of fine, sweet flavor. It is an excellent variety for winter storing. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; ½ lb. 60¢; lb. 90¢; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75, postpaid.

1163 Purple-Top White Globe ⊙

This is a well-known turnip, also sold under the name of Red Top White Globe. The roots grow to good size, measuring 6 inches and more in diameter. They are nearly round in shape and show a rich purplish red color on the upper part of the roots which extends above the surface. The lower portion is creamy white. The flesh is white, firm, crisp, and of remarkably mild flavor. Pkt. 10¢; oz. 15¢; 4 ozs. 30¢; ½ lb. 45¢; lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60, postpaid.

Turnip Collections

The collections include the three turnips and the one winter turnip described above and illustrated in color on the opposite page. All four varieties will be sent to your door postpaid.

Burpee's ONIONS

Onions rank as one of the foremost vegetables in American gardens. They are highly praised for their tonic qualities, and doctors everywhere are advocating the use of them in the diet because they are wholesome and nutritious.

A good well-drained soil, reasonably fertile and well pulverized, will give the best crops. Cover the seed lightly and thin the seedlings when they are 3 to 4 inches tall so that they will have room to develop freely. When the bulbs have reached maturity, bend down the tops to hasten ripening before the onions are harvested. One ounce of seed for 200 feet of drill; 4 to 5 pounds per acre.

687 Red Wethersfield ©

This well-known variety forms very solid bulbs of good keeping qualities. Continued selection over a period of many years has given us a small-necked sure ripening strain which comes true to shape, size, and color. Though well flattened, the large onions are thick through. The outer skin is a deep rich purple-red, smooth and glossy, and the flesh is white, lightly tinged with pinkish rose near the skin. The magnificent, large, solid onions are as mild in flavor as many varieties with skin of a lighter color. Red Wethersfield is a reliable and productive variety, enjoying great popularity with both market growers and home gardeners. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.20; ½ lb. \$2.35; 1 lb. \$4.50; 2 lbs. \$8.90; 5 lbs. \$22.00; 10 lbs. \$43.50.

693 Australian Brown ©

(Burpee's) Here is an onion of foremost value for both the home gardener and the market grower. It combines many fine characteristics. Even though the bulbs mature early they are excellent keepers and may be stored all through the winter for spring use. Burpee's Australian Brown is a sure and heavy yielder of medium size. The fine onions vary slightly in color, some being lighter, others darker. The bulbs are somewhat flattened and mature a few days earlier than the Danvers varieties. The skin is thin, of a bright reddish brown color. The flesh is always crisp, mild, solid, and juicy. Pkt. 10¢; oz. 35¢; 4 ozs. \$1.15; ½ lb. \$2.15; 1 lb. \$4.00; 2 lbs. \$7.90; 5 lbs. \$19.50; 10 lbs. \$38.50.

Onion Collections

In the collections offered below we have included the three onions described on this page and pictured in color opposite. All three varieties are of the highest quality.

7025 One packet each of Prizetaker, Australian Brown, and Red Wethersfield, 25¢ mailed, postpaid, for

7026 One ounce each of Prizetaker, Australian Brown, and Red Wethersfield will be mailed to you, postpaid, for \$1.00

681 Prizetaker Onion ©

Prizetaker is a superb Onion that has been appropriately named, because under good cultivation the onions grow to enormous size and, being very attractive, they usually carry off the highest prizes when exhibited. Prizetaker is an onion that has proven to do well in all sections of the country under varied conditions of climate and soil. It is popular with both the market grower and the home gardener because of its great size and heavy weight.

The illustration on the opposite page has been reproduced from an actual size photograph taken on Burpee's Fordhook Farms. The particular onion shown measured 4¼ inches in diameter and 4 inches in height. The bulbs, being exceptionally solid, weigh as much as 4 pounds each.

Like all first-class varieties, our special stock of Prizetaker has a thin neck which insures thorough ripening and which is of first importance if the onions are intended for storing. The skin is bright yellow slightly shaded with light brown, and even though quite thin and tender, it affords plenty of protection. The flesh is pure white, solid, crisp, juicy, and mild.

An outstanding feature of Prizetaker is the mildness of its flavor. While not a typical winter onion, the bulbs can be stored for quite some time if they are permitted to ripen thoroughly before being placed in storage. In order to raise large onions, Prizetaker must be sown early in the spring because it requires a long season to reach maturity. Our strain of this variety has been

carefully selected so that the onions will be uniform, of large size, regular in shape, and show an even color. Onions with these qualities usually bring an extra fancy price. Pkt. 10¢; oz. 50¢; 4 ozs. \$1.75; ½ lb. \$3.25; 1 lb. \$6.00; 2 lbs. \$11.90; 5 lbs. \$29.50; 10 lbs. \$58.50, postpaid.

Burpee's Gigantic Gibraltar

711

Burpee's Gigantic Gibraltar produces bulbs of enormous size, from seeds sown right in the row early in the spring. The bulbs are in every way attractive, growing to perfectly globular form, fully as large as the Prize-Takers, which they resemble somewhat in form and color.

The skin of Burpee's Gigantic Gibraltar Onion is of a pleasing light straw color, and extends evenly over the whole onion. The flesh is pure white and astonishingly sweet. It is mild and tasty, and the texture is brittle, tender, and juicy. The onions mature very evenly. The foliage of the onion is deep green and has a decidedly glossy surface. It seems to withstand to a marked degree long spells of dry weather and the attacks of insect enemies and diseases.

We know of no finer onion for late summer, fall, and early winter use than Burpee's Gigantic Gibraltar. The onions may be kept for quite some time, but they should not be depended upon for storing for any length of time. Pkt. 10¢; oz. 45¢; 4 ozs. \$1.35; 1/2 lb. \$2.60; lb. \$5.00; 2 lbs. \$9.90; 5 lbs. \$24.50; 10 lbs. \$48.50, postpaid.

697 White Portugal

As now grown, the Philadelphia White Silver-skin, so extensively used for sets, is identical with White Portugal. The bulbs grow to good size, ripening early and quite evenly. The flesh is mild and sweet, the thin skin a clear silvery white. The bulbs are of handsome appearance. They are large, of flat shape, firm, and fine grained. Sown 25 pounds to the acre, it makes a most desirable pickling size. Pkt. 15¢; oz. 60¢; 4 ozs. \$1.85; 1/2 lb. \$3.60; lb. \$7.00; 2 lbs. \$13.90; 5 lbs. \$34.50; 10 lbs. \$68.50, postpaid.

Southport Yellow Globe

680 (Burpee's Special Connecticut-Grown Stock) See illustration below. Our strain of this variety has been closely selected from slender-necked plants which will always form solid bulbs. They mature evenly and are always of the true globe shape. The color of the skin is a bright golden yellow. The flesh is pure white, mild, solid, and juicy. Our special stocks have been grown from the finest onions, specially selected to produce the crops of seed now offered. They are exclusively Connecticut-grown and represent the highest development in this type. Southport Yellow Globe is a particularly desirable strain for market. It is a splendid keeper. Pkt. 15¢; oz. 70¢; 4 ozs. \$2.20; 1/2 lb. \$4.15; lb. \$8.00; 2 lbs. \$15.90; 5 lbs. \$39.50; 10 lbs. \$78.50, postpaid.

Southport White Globe

696 (Burpee's Special Connecticut-Grown Stock) The seed we offer has been grown from the finest selected mother bulbs. Every care has been used to keep this special stock of Southport White Globe up to the highest possible standard. The large bulbs have a pure paper white skin which gives them a very attractive appearance. The flesh is also pure white, sweet, juicy, and of a most delightful mild flavor. It always brings a good price in the market. Pkt. 15¢; oz. 75¢; 4 ozs. \$2.55; 1/2 lb. \$4.65; lb. \$9.00; 2 lbs. \$17.90; 5 lbs. \$44.50; 10 lbs. \$88.50, postpaid.

Southport Red Globe

690 (Burpee's Special Connecticut-Grown Stock) In some sections the Southport Red Globe is a most favorite color of this popular type. Our special stock of this variety has been selected with the utmost care so that the gardener can depend upon onions which are large and even in size. They mature early and ripen with a thin neck which is important in considering the keeping qualities. The skin is a bright and rich crimson. The flesh is white, slightly tinted with light rose near the skin. The flavor is mild and tasty. Pkt. 15¢; oz. 65¢; 4 ozs. \$2.05; 1/2 lb. \$3.90; lb. \$7.50; 2 lbs. \$14.90; 5 lbs. \$37.00; 10 lbs. \$73.50, postpaid.

Globe

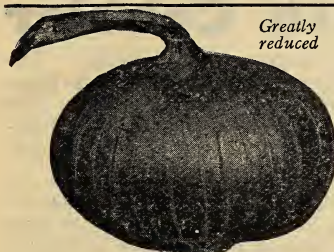

707 Burpee's Mammoth Silver King

Introduced by Burpee in 1884, it quickly became a popular sort for market in many localities. The large bulbs are flattened and quite thick through. Fully grown, they measure 5 to 7 inches in diameter and weigh 2 to 3 pounds each. The skin is clear white and the flesh is snow-white, sweet, and tender. A good yielder of excellent quality.

The bulbs after they are properly ripened can be kept in good condition for quite some time. They should be used reasonably early as it is not a winter storing variety. Pkt. 10¢; oz. 35¢; 4 ozs. \$1.15; ½ lb. \$2.15; lb. \$4.00; 2 lbs. \$7.90; 5 lbs. \$19.50; 10 lbs. \$38.50, postpaid.

Flat Yellow Danvers

669 Flat Yellow Danvers A good onion, both for the home garden and for market, combining sureness in ripening with large yield. It ripens more surely, as well as earlier, in most locations than do the globe-shaped varieties. The thin-necked, flattened bulbs are quite thick through. The skin is a light golden yellow, smooth, and attractive. The neck of the bulbs is small. The flesh is solid, pure white in color, and astonishingly crisp. The flavor is mild and sweet. The bulbs ripen evenly. Pkt. 10¢; oz. 45¢; 4 ozs. \$1.35; ½ lb. \$2.60; lb. \$5.00; 2 lbs. \$9.90; 5 lbs. \$24.50; 10 lbs. \$48.50, postpaid.

671 Yellow Globe Danvers

This is an old favorite—the standard variety for winter use in the eastern markets. It produces well-ripened bulbs, averaging 2 inches in diameter and nearly globe-shaped. The skin is a light golden brown or pale yellow, and the flesh is pure white, crisp, and mild in flavor. Pkt. 10¢; oz. 55¢; 4 ozs. \$1.75; ½ lb. \$3.35; lb. \$6.50; 2 lbs. \$12.90; 5 lbs. \$32.00; 10 lbs. \$63.50, postpaid.

682 Sweet Spanish (*Special Riverside Strain*) A very large globe-shaped light yellow onion with small top, and an exceptionally fine shipper. It is a Spanish variety which has quickly become very popular in many sections of this country. Pkt. 15¢; oz. 60¢; 4 ozs. \$1.85; ½ lb. \$3.60; lb. \$7.00; 2 lbs. \$13.90; 5 lbs. \$34.50; 10 lbs. \$68.50, postpaid.

672 Ebenezer or "Japanese"

The Onions are not unlike Yellow Globe Danvers in shape and size but are superior in flavor and keep longer. They are firm, solid, have a thin skin, and are agreeably mild. While large onions can be readily raised from seed, most people plant, however, to produce small sets for the following season. Pkt. 15¢; oz. 70¢; 4 ozs. \$2.20; ½ lb. \$4.15; lb. \$8.00; 2 lbs. \$15.90; 5 lbs. \$39.50; 10 lbs. \$78.50, postpaid.

701 Earliest White Queen

Also known in the South as White Pearl. This is the best of all for small pickles and the earliest ripening onion in cultivation. The bulbs, of a pure paper-white, are generally very small, averaging only 1½ inches in diameter. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.20; ½ lb. \$2.35; lb. \$4.50; 2 lbs. \$8.90; 5 lbs. \$22.00; 10 lbs. \$43.50, postpaid.

ONION SETS

We handle sets of the very best quality which should not be confused with the cheap unreliable kinds so often offered for sale. Prices vary with the market—please write for quotations on large quantities.

9940 White Sets Grown from our choice strain of the Philadelphia White Silverskin seed. A dependable variety. Lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.40, postpaid. By express or freight, 100 lbs. \$24.00.

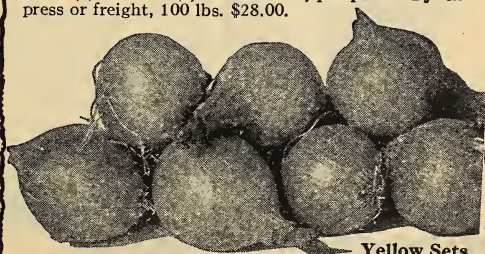

9937 Yellow Sets Handsome, well-ripened bulbs of small size. Lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.40, postpaid. By express, 100 lbs. \$24.00.

9942 White Multiplier Produces a large cluster of small to medium-sized onions from a single bulb. Lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80, postpaid. By express or freight, 100 lbs. \$32.00.

9938 Yellow Potato Light brown skin; mild white flesh. Lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60, postpaid. By express or freight, 100 lbs. \$28.00.

9935 Egyptian or PERENNIAL TREE These come up year after year. The bottoms divide, making several irregularly shaped onions that are sweet and tender. Egyptian Onion Sets cannot be supplied after March 15th. Lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60, postpaid. By express or freight, 100 lbs. \$28.00.

9945 Ebenezer or "Japanese" Sets This is a fine, popular variety, the onions being very slow in running to seed, even in unfavorable seasons. Lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60, postpaid. By express or freight, 100 lbs. \$28.00.

Yellow Sets

9975 Burpee's Gold Coin Potato

Burpee's Gold Coin Potato
A foremost main-crop variety; very hardy, vigorous, and extremely productive

This well-known variety was introduced by us in 1903. It has become extremely popular because it is the hardiest, most vigorous in growth, most productive, and the best table potato maturing as a **main crop** and for winter storing. These are strong claims, but absolutely true.

The tubers are slightly oblong, rather broad, and quite thick through. They grow about 4 inches in length and $2\frac{3}{4}$ inches wide. The eyes are small and shallow. The smooth, glossy skin is a light golden tint and the flesh is pure white, dry, and floury. Even when freshly dug the roots will cook mealy. Unsurpassed in good rich flavor.

Lb. 35¢; 3 lbs. 90¢; 5 lbs. \$1.35, postpaid. By express, at purchaser's expense: $\frac{1}{2}$ bushel (30 lbs. net) \$3.00; 1 bushel (60 lbs. net) \$5.75; bag (150 lbs. net) \$13.00.

Green Mountain

9958 Maine-Grown Stock. This excellent variety is grown to the exclusion of all other varieties in certain potato-growing sections of this country. It is perhaps the best-known late potato in every market. The tubers grow to **large size** and are of a broad, oval form. The ends are also broad and thick. There are few eyes which are shallow and comparatively small.

The skin of the tubers is a dull cream or light russet, frequently with brown splashes toward the seed end. Extra-Select Green Mountain produces a strong and healthy growth of vines and the tubers are produced most freely. The potatoes are uniform in size and shape, and are excellent winter keepers. The flowers are white.

Lb. 35¢; 3 lbs. 90¢; 5 lbs. \$1.35, postpaid. By express or freight, at purchaser's expense: $\frac{1}{2}$ bushel (30 lbs. net) \$3.00; 1 bushel (60 lbs. net) \$5.75; bag (150 lbs. net) \$12.50.

9960 Irish Cobbler

One of the best **extra-early** varieties. The shape of the tubers is nearly round. Quite often the larger tubers are distinctly pear-shaped. The skin is smooth, of a yellowish white color, changing to dull olive-green with a faint tinge of blue.

The blossoms are pink with white tips at the petals. In quality Irish Cobbler is excellent. The skin is thin, and being smooth, looks very attractive. The flesh is **pure white** and of excellent cooking quality. Irish Cobbler is an extremely heavy yielder.

The origin of Irish Cobbler is not known, yet its outstanding qualities are known almost everywhere where potatoes are grown, and in many sections it is grown to the exclusion of almost all other varieties. The eyes of the tubers are good. The finely netted russet skin, the handy size, the good shape, and excellent cooking qualities have created a good market demand for it.

Lb. 35¢; 3 lbs. 90¢; 5 lbs. \$1.35, postpaid. By express or freight, at purchaser's expense: $\frac{1}{2}$ bushel (30 lbs. net) \$3.00; 1 bushel (60 lbs. net) \$5.75; bag (150 lbs. net) \$12.50.

Plant Quality
Potato Seed

9946 Burpee's Extra-Early

This remarkably **early** potato has proven to be from 10 days to 2 weeks earlier than most other so-called early potatoes. One of the main features of Burpee's Extra-Early is its enormous productiveness. The potatoes are of uniformly large size. They run evenly and produce hardly any culls at all. They are oblong, very smooth, with few shallow eyes. The skin is pale brown. The flesh is pure white, remarkably fine, and of fine quality. Lb. 35¢; 3 lbs. 90¢; 5 lbs. \$1.35, postpaid. By express or freight, at purchaser's expense: $\frac{1}{2}$ bushel (30 lbs. net) \$3.00; 1 bushel (60 lbs. net) \$5.75; bag (150 lbs. net) \$12.50.

Most gardeners
plant 10 to 12
bushels of pota-
toes per acre

MAINE-GROWN POTATOES

FARM SEEDS

The farmer of today is fully aware that it pays him in dollars and cents to use seeds of known quality only. He knows that good seed is the first requirement for a good crop. Cheap seeds waste the time, labor, and fertilizer that have been used in preparation for the crop, and no after-care in cultivation can bring profitable returns. Complete tests, including all our varieties and many samples from various other sources, enable us to keep in the lead and to offer to our customers seeds of known quality.

Root Crops are one of the most important classes of all farm seeds, yet they are greatly neglected in many sections of this country. Their high food value makes them very desirable for stock-feeding all the year round. They are easily stored throughout the winter. **Mangel Wurzels and Sugar Beets are listed on page 87; Carrots for Stock Feeding, on page 89; Turnips and Rutabagas, on pages 90 to 92.**

6005 BROOM CORN Improved Evergreen The brush is firm and of good length, and when properly cured, retains its light green coloring. Sow thinly in drills 4 feet apart when the trees are in leaf, thinning out to stand one foot apart in the row. Planted in hills, 6 to 8 lbs. are needed per acre. Sown in drills, 10 lbs. per acre. Pkt. (2 ozs.) 10¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express or freight, purchaser paying transportation charges, 100 lbs. \$20.00.

BUCKWHEAT 6007 Japanese Buckwheat grain is always in good demand for flour, and it is an excellent crop for rotation or for the renovation of land in poor condition.

Japanese Buckwheat is considered the heaviest yielder. It requires only a short growing season and will mature in 10 to 12 weeks after the date of sowing. It thrives where the weather is quite cool but is sensitive to extremely hot, dry weather.

Sow the seed after all danger of frost has passed, but in time to mature before late frosts are expected. If planted in drills, sow 25 lbs. per acre. Broadcasting requires 50 lbs. of seed per acre, and for a heavy cover crop in orchard sow 75 lbs. per acre. While Buckwheat does not require a specially prepared seed-bed, it will thrive best if the ground has been prepared thoroughly. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid. By express, 100 lbs. \$7.00.

6010 CANADA FIELD PEAS Field peas require a moderate temperature and do best on a loamy soil. They should be sown as soon as all danger of frost has passed, and will be ready for hay in 75 to 100 days after sowing. The seed matures in 90 to 120 days. When peas and oats are sown together, 120 pounds of peas and 40 pounds of oats per acre are recommended. Sown alone, 120 to 180 pounds of seed are used for one acre. They make an excellent pasture for hogs and sheep. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid. By express, 100 lbs. \$10.00.

6013 CHUFAS or EARTH ALMONDS Used extensively in warm, dry sections for hay, and the roots for fattening hogs and poultry. Sow at the rate of 15 pounds per acre. Pkt. (1 oz.) 10¢; 4 ozs. 25¢; lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 100 lbs. \$20.00.

6047 KAFFIR CORN The stout stalks grow stiffly erect, from 6 to 10 feet in height, according to location and richness of the soil. The stalks and blades cure into good fodder and are also desirable to furnish green forage during the summer months. On good land Kaffir Corn will yield 50 bushels per acre. The seeds are used for feeding both stock and poultry. Sow in drills 3 to 6 lbs. per acre. For fodder sow 10 to 12 lbs. per acre. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.25; 10 lbs. \$2.40, postpaid. By express or freight, purchaser paying for transportation, 100 lbs. \$11.00.

MILLET 6050 Hungarian Millet (*Panicum Germanicum*) Seed can be sown early in July. To make the best hay it should be cut before the seeds become hard. Sow at the rate of 50 pounds to the acre. Lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid. By express or freight, 100 lbs. \$10.00.

6049 Golden Millet (*Chatochloa*) This is the favorite variety for planting on good land to produce a large crop of hay or forage during the summer months; of strong growth. Sow 50 pounds to the acre. Lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid. By express, 100 lbs. \$10.00.

6052 Pearl Millet (*Pencillaria*) Sown in drills 4 feet apart and cultivated like corn, the plants attain a height of 8 to 10 feet, with slender stalks and narrow long-bladed leaves. It should be cut while young; 8 to 10 lbs. per acre. Lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid. By express, 100 lbs. \$14.00.

6051 Japanese Millet (*Panicum crus-galli*) Japanese Millet, also called Japanese Barnyard Millet, has gained quite a reputation as a valuable forage crop. The forage is tender and highly relished. Furthermore, it is a fine ensilage and hay crop. Yields 20 tons per acre. Japanese Millet does best on rather rich, retentive soils, but it will not endure drought, though it grows rapidly during the warm summer months. Sow in spring, about the time corn is planted; broadcast at the rate of 12 to 14 pounds per acre. Lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid. By express or freight, the purchaser paying transportation charges, 100 lbs. \$10.00.

Sugar Cane

SUGAR CANE

6073 Early Orange

Sugar Cane or Sorghum is desirable for planting either for feeding green or making into ensilage. Sometimes it is planted in a mixture with cow-peas, soybeans, or other legumes. The tender stalks are filled with rich, sweet sap. The plants branch freely and will sprout out a second time if not cut too close in the green state. Sow 10 to 12 pounds to the acre when planted in drills; broadcasted 40 lbs. are used per acre. Yields a large quantity of fodder. Pkt. (4 ozs.) 10¢; lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. By express, 100 lbs. \$20.00.

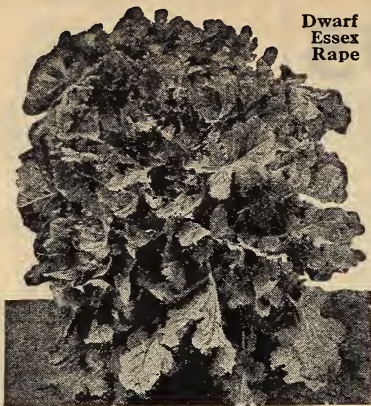

COW PEAS

Used for forage, hay, pasture, green manure and green feed. The seed should be sown about 2 weeks after corn planting, but not later than 90 days before the first killing frost. If the seed is broadcasted, 60 to 120 pounds are needed to sow 1 acre. Sown in drills, 75 pounds of seed are required per acre; if planted for seed in rows 3 feet apart, 15 to 20 pounds of seed suffice for an acre. Quite often it is planted between corn with the last cultivation, using 45 pounds per acre.

6016 New Era A small-seeded variety with bluish seeds, forming compact bushes. It is the earliest to mature, requiring about 75 days in which to produce ripe seed-pods. On account of its neat growth it is easily handled. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid. By express, 100 lbs. \$11.00.

6017 Whippoorwill Probably more than half of the acreage planted in the United States is devoted to this variety. It ripens early, and if planted by mid-May, the crop can be harvested in time to plant winter grain in the fall. Fine for forage, hay, pasture, and green manure. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid. By express, 100 lbs. \$11.00.

Prices fluctuate according to the market and we therefore reserve the right to change them without notice

**Dwarf
Essex
Rape**

TRUE DWARF ESSEX RAPE

6066 This is grown largely as a fattening food for sheep in the autumn. It is also especially desirable for pasturing hogs during the summer months. In the northern states seed may be sown at any time from early spring until the end of August, but in the warm southern states it should not be sown until September or October for winter pasturing. Sow 8 pounds per acre broadcast and harrow in lightly, or 4 to 5 pounds in drills 15 inches apart. Dwarf Essex is the leading variety, yielding an immense crop.

Pkt. (2 ozs.) 10¢; lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.50; 10 lbs. \$2.75, postpaid.
By express, 100 lbs. \$12.00.

TOBACCO

1345 Connecticut Seed Leaf
A handsome leaf of choice texture and delightful flavor. Ripens uniformly.

1347 Lancaster County Broadleaf A well-known productive variety much grown in some sections.

1349 Havana Grown from imported seed. Of excellent quality.

1351 Bonanza A White Burley cross on Yellow Oronoko, possessing the qualities of both blended. A very productive variety of excellent quality. Good for both sandy and clay soils.

1353 General Grant Matures as far north as Duluth, Minn. A strong and sturdy grower of quick growth.

1355 Sterling One of the earliest and best. Produces a very good yield.

1357 White Burley Improved
Yields plentifully. A long, medium broad, tapering leaf. Grown for pipe and chewing tobacco. In many ways superior to the old White Burley.

1359 Long Leaf Gooch Improved Very large, long, and wide leaves. Medium heavy. Fine for sandy soil.

1361 Yellow Oronoko, Improved Medium long leaf, rather wide and blunt pointed. For all kinds of soil.

1363 Sweet Oronoko Very old and still most popular. A long narrow leaf with a prominent mid-rib.

Any of the above:

Pkt. 10¢; oz. 45¢; 4 ozs. \$1.35;
½ lb. \$2.45; lb. \$4.50, postpaid.

SOY BEANS These do well even on poor soils. They are grown extensively in the corn belt. Sow the seed any time after all danger of frost has passed—about the time corn is planted. Plant 2 inches deep. If intended for hay, the crop should be cut any time from the setting of the seed until the leaves begin to turn yellow. Soy Beans are often planted with corn or sorghum for silage. If planted in rows 2 to 3 feet apart, 20 to 30 pounds of seed are needed per acre. For broadcasting use 60 to 90 pounds per acre.

6069 Mammoth Yellow A late variety, requiring 140 days in which to mature seed. Usually grown for hay or green manure; ready for cutting in 120 days. Pkt. (4 ozs.) 10¢; lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.50; 10 lbs. \$2.75, postpaid. By express, 100 lbs. \$10.00.

6071 Black Wilson Medium size, black seed. Considered the best all-around variety for the North. Matures seeds in 125 days and is ready for cutting in 110 days. A pure seed-producer. Pkt. (4 ozs.) 10¢; lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.50; 10 lbs. \$2.75, postpaid. By express, 100 lbs. \$10.00.

6075 SUNFLOWER Mammoth Single heads measure 12 to 22 inches in diameter, and contain an immense quantity of seed, highly valued as food for fowls. They eat it greedily, fatten well on it, and attain a bright, lustrous plumage and strong, healthy condition. It is the best egg-producing food known for poultry. Every farmer should plant some of the seed on an odd piece of ground any time from early spring up to the middle of July; 12 lbs. of seed per acre for drills 20 inches apart; 5 lbs. of seed per acre in drills 36 inches apart. Pkt. (1 oz.) 10¢; ½ lb. 20¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.25; 10 lbs. \$2.40, postpaid. By express or freight, 100 lbs. \$15.00.

OATS Oats is convenient as a crop to follow corn, and the grain and straw are both very useful. All the oats north of the Cotton Belt is spring-sown. In the South it is usually fall-sown.

6060 White Tartar King This variety has yielded as high as 40 bushels per acre. It makes a good growth, with stiff, strong straw, 3 feet in height, setting heavy, plump white grains borne in close, compact, branching heads, free from smut. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.25; 10 lbs. \$2.40, postpaid. By express or freight, 100 lbs. \$10.00.

6055 Swedish Select The culms are erect, medium large, and stiff. The panicles are medium, rather broad, stiff, and erect. Grains practically white, plump, and short-pointed. The awns are very numerous in the panicle and are black at the base. A very good yielder. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.25; 10 lbs. \$2.40, postpaid. By express or freight, 100 lbs. \$10.00.

PEANUTS Peanuts are cultivated primarily for their seed, which is used as human food, but the herbage is saved mostly for hay. Sometimes the whole crop is used for pasturing hogs. Plant the seed in rows 28 to 36 inches apart late in the spring, after the ground has thoroughly warmed up; 50 pounds of pods are needed per acre, placing the seeds 9 to 12 inches apart in the row.

6062 Mammoth Bush (Burpee's) The plants produce a large quantity of nuts, adapted for culture in more northerly locations where the late varieties do not mature, especially in light or sandy soils. Pkt. (10 pods) 10¢; ½ lb. 35¢; lb. 50¢; 2 lbs. 95¢; 5 lbs. \$2.25; 10 lbs. \$4.00, postpaid. By express or freight, 100 lbs. \$25.00.

6064 Spanish This is an excellent forage plant for light land in hot, dry seasons. The tops are cut and cured for hay just before frost. The plants also set a large crop of the small nuts, which make an excellent fattening food for hogs. Pkt. 10¢; ½ lb. 20¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.25; 10 lbs. \$2.40, postpaid. By express or freight, purchaser paying for transportation, 100 lbs. \$14.00.

6087 SPRING WHEAT Marquis
Marquis Wheat is beardless, with 2 or 3 short awns on the top, as usually found on beardless wheats. A good spring variety, growing 36 to 48 inches, according to season. The heads are short but very thick and plump, carried on stiff, strong straw. The kernels are very broad and heavy, ripening in from 98 to 120 days. This is, therefore, one of the earliest varieties, so much wanted, since it escapes summer droughts and fall rains. It is particularly adapted to the spring wheat area, which includes Minnesota, Pennsylvania, New York, the eastern part of North and South Dakota, and Northern Wisconsin. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.25; 10 lbs. \$2.40, postpaid. By express or freight, purchaser paying for transportation, 100 lbs. \$9.00.

6077 TEOSINTE (*Euchlana mexicana*) The seed should not be sown until all danger of frost has passed. Yields two or more good cuttings in a season. Drill the seed thinly in rows 4 feet apart, leaving the plants one foot apart in the row. The forage is exceedingly tender and is greedily eaten by horses as well as cattle and sheep. It is planted extensively in southern sections for fodder, green feed, and silage. It is a coarse annual grass growing 6 to 12 feet tall. Six pounds per acre. Planted in hills 4 to 5 feet apart, 3 pounds per acre. Pkt. 10¢; lb. 65¢; 2 lbs. \$1.20; 5 lbs. \$2.75; 10 lbs. \$5.00, postpaid. By express or freight, 100 lbs. \$40.00.

BURPEE'S FIELD CORN

These varieties have all been grown especially for seed. The seed has been well cured and is true to name and type. As all farmers know, corn has for years stood with wheat as one of the most profitable of all farm crops. Much has been written and said regarding the improving of standard varieties, but yet there are planters who are planting unproductive varieties that have been in their families for years. Grown for ears, 14 lbs. of seed per acre are planted in hills. For silage, 16 to 18 lbs. per acre are planted in rows. For soiling use 50 to 100 lbs. per acre, broadcasted or planted thickly with a grain drill.

Burpee's Golden Beauty

6020 Canada Yellow Flint

The hardest and earliest in maturity and can be grown satisfactorily much farther north than the dent corns. Our strain is of an improved type, producing long, well-filled ears with 8 rows of quite large grains. It is much more productive than the ordinary strains of flint corn, and retains to the fullest extent the early ripening and hardy qualities. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid. By express or freight, at purchaser's expense, 25 lbs. \$2.25; 50 lbs. \$4.25; 100 lbs. \$8.00.

6022 Chester County Mammoth

The ears are of extra-large size, containing from 14 to 18 rows of medium-sized, deep yellow grains which are rich and nutritious, making excellent meal when ground. It is one of the best yellow varieties for good land in this latitude and the South, but cannot be relied upon to mature sufficiently early farther north than Pennsylvania. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid. By express or freight, at purchaser's expense, 25 lbs. \$2.75; 50 lbs. \$5.25; 100 lbs. \$10.00.

6023 Cloud's Yellow Dent

In the East this is one of the most popular varieties of Yellow Dent Corn. We have been very fortunate in securing some from one of the best growers in the East, a man who has done a great deal of hybridizing and who has developed a particularly valuable strain, a very fine lot of this splendid 120-day corn. In sections where the season will permit, Cloud's Yellow Dent is one of the heaviest yielders, and by reason of the type of growth is valuable alike for silage or feeding-corn. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid.

By express or freight, at purchaser's expense, 25 lbs. \$2.25; 50 lbs. \$4.00; 100 lbs. \$7.50.

6025 Luce's Favorite

Luce's Favorite is a hybrid between the Yellow Flint and Early Golden Dent. It is in all respects like a flint variety with a slight dent. The ears are large and produced two to a plant. The plants are strong and vigorous, producing a large quantity of foliage, which makes the variety especially valuable for ensilage. A very heavy cropper. It matures in 100 days. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid. By express or freight, at purchaser's expense, 25 lbs. \$2.25; 50 lbs. \$4.25; 100 lbs. \$8.00.

6029 Johnson County White

A large-eared variety for heavy soils, used extensively for ensilage. Throughout the eastern part of the South and the entire Central West, Johnson County White has been found to be an excellent feeding corn. We have a particularly fine stock. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid.

By express or freight, at purchaser's expense, 25 lbs. \$2.50; 50 lbs. \$4.50; 100 lbs. \$8.50.

6042 Hundred Day Bristol

A select early-maturing strain of White Cap Dent. Grows 6 to 7 feet in height, with abundant foliage. Ears of handsome appearance, 8 to 10 inches in length and well filled, having 16 to 18 rows. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid.

By express or freight, at purchaser's expense, 25 lbs. \$2.50; 50 lbs. \$4.50; 100 lbs. \$8.50.

6028 Hickory King

This has the largest grains with the smallest cob of any white corn. Of strong growth, the stalks take a firm hold in the ground. It yields splendid crops on light soil and is the most productive white field corn for the South. Not safe to be grown north of Pennsylvania. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid.

By express or freight, at purchaser's expense, 25 lbs. \$2.25; 50 lbs. \$4.25; 100 lbs. \$8.00.

6026 Burpee's Golden Beauty

See illustration. This most popular variety produces the largest yellow grains of any field corn now known. The ears are perfect in form and grow to remarkable size, well filled to the extreme tip with 10 to 14 regular rows of bright golden grains. Cobs unusually small for so large an ear, the grains are of such a size that when the ear is broken in half they will equal in length the diameter of the cob. At FORDHOOK FARMS it requires a season of 110 to 120 days to mature a crop.

By reason of an unusually strong root system the plants are solidly anchored in the soil and will endure heavy rain and wind storms. Pkt. (4 ozs.) 12¢; lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid.

By express or freight, at purchaser's expense, 25 lbs. \$2.50; 50 lbs. \$4.75; 100 lbs. \$9.00.

6030 New Sussex White

Sussex White is adapted to light sandy soils and will give a good yield on land that is too poor to grow any other variety. A very early crop of fair-sized ears with broad, white, dent kernels and lots of fodder. Excellent for replanting, because it makes a quick growth. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid.

By express or freight, at purchaser's expense, 25 lbs. \$2.25; 50 lbs. \$4.25; 100 lbs. \$8.00.

6032 Improved Leaming

On good land the stalks grow tall, often producing 2 good ears to a stalk. The ears are long, with small red cob well filled with grains of medium size, and a rich golden color. It ripens in from 100 to 110 days. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid.

By express or freight, at purchaser's expense, 25 lbs. \$2.25; 50 lbs. \$4.25; 100 lbs. \$8.00.

6039 Eureka Ensilage

This variety is a careful selection from the old Southern Prolific Corn, and originated in Virginia. The variety has been selected for increased foliage and larger ears. Does not mature ears as far north as Philadelphia, but makes a large growth of fodder for ensilage. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid.

By express or freight, at purchaser's expense, 25 lbs. \$2.25; 50 lbs. \$4.00; 100 lbs. \$7.50.

6040 American Wonder

This is a wonderful new white dent corn. Excellent for ensilage. Grows 12 to 15 feet tall and bears as many as 4 large ears on a stalk. Pkt. (4 ozs.) 12¢; lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. By express or freight, at purchaser's expense, 25 lbs. \$2.50; 50 lbs. \$4.75; 100 lbs. \$9.00.

6045 Sugar Corn for Green Fodder

Sown at the rate of 80 to 100 lbs. per acre in drills 4 feet apart, it makes splendid stalks 6 to 8 feet in height, which are of the finest quality for feeding green, cutting for ensilage, or curing for fodder. Pkt. (4 ozs.) 10¢; lb. 30¢; 2 lbs. 55¢; 5 lbs. \$1.20; 10 lbs. \$2.25, postpaid. By express or freight, at purchaser's expense, 25 lbs. \$2.75; 50 lbs. \$5.25; 100 lbs. \$10.00.

Prices quoted by Express or Freight do not include forwarding charges

BURPEE-QUALITY GRASS SEED

Orchard Grass

6131 Orchard Grass (*Dactylis glomerata*) This is one of the most desirable pasture grasses for stock and for producing large crops of hay. It succeeds well in quite shady places, hence the name, Orchard Grass. Tall growing; nutritious; 25 to 30 lbs. to the acre. Lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. By express or freight, 100 lbs. \$24.00.

Timothy

6139 Timothy (*Phleum pratense*) Of easiest culture, and with us it is usually sown in connection with winter grain in the fall, to which a seeding of clover is added early in the spring. Plants grow 25 to 40 inches tall; 20 to 30 lbs. to the acre. Lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express or freight, at purchaser's expense, 100 lbs. \$16.00.

Nothing is more important to the farmer than that the grass seed he sows be pure and clean. The seed should also be plump, heavy, and well ripened, so as to insure a good stand. First-class, thoroughly re-cleaned seed, even though considerably more costly in the beginning, is really much cheaper in the end than the light, chaffy grades generally sold at much lower prices, even if the latter is free from weed seeds. Heavy, plump seed, germinating better, will produce a much greater number of strong plants.

Where large quantities are desired or SPECIAL MIXTURES are wanted for different soils, we will be pleased to advise as to the proper varieties and prices.

Write for Prices on Large Quantities

6114 Bermuda Grass (*Cynodon dactylon*) Bermuda Grass is adapted to hot and dry locations in the South, making good lawns and pasturage on the sandy soils of the Gulf States. A well-kept Bermuda lawn is indeed beautiful during summer. Where Bermuda Grass does well it cannot be excelled for pasturing and makes a continuous growth even during the hottest weather. Sow 5 to 7 lbs. per acre. Lb. 85¢; 2 lbs. \$1.60; 5 lbs. \$3.75; 10 lbs. \$7.00, postpaid. By express or freight, 100 lbs. \$60.00.

6126 Canada Blue Grass (*Poa compressa*) This is quite similar to the Kentucky Blue Grass and is used for pasture on sandy soils in the far North. Lb. 65¢; 2 lbs. \$1.20; 5 lbs. \$2.75; 10 lbs. \$5.00, postpaid. By express or freight, 100 lbs. \$35.00.

6115 Creeping Bent (*Agrostis stolonifera*) A valuable low-growing variety. Lb. \$1.35; 2 lbs. \$2.55; 5 lbs. \$6.00; 10 lbs. \$11.75, postpaid. By express, 25 lbs. \$27.00; 50 lbs. \$50.00; 100 lbs. \$95.00.

6117 Crested Dogtail (*Cynosurus aristatus*) For pasture mixtures. Lb. 65¢; 2 lbs. \$1.20; 5 lbs. \$2.75; 10 lbs. \$5.00, postpaid. Express, 100 lbs. \$40.00.

6119 English Rye Grass (*Lolium perenne*) A valuable grass for pasture and meadows where quick results are wanted. Lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. Express, 100 lbs. \$24.00.

6121 Hard Fescue (*Festuca duriuscula*) For lawns on light soils. Does well in a fairly dry and shady place. Lb. 55¢; 2 lbs. \$1.00; 5 lbs. \$2.20; 10 lbs. \$4.20, postpaid. By express or freight, at purchaser's expense, 100 lbs. \$35.00.

6125 Italian Rye Grass (*Lolium italicum*) Used for quick pastures. Lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. Express, 100 lbs. \$24.00.

6127 Kentucky Blue Grass (*Poa pratensis*) Although this is preëminently a pasture grass, it is frequently used in making lawns. When Kentucky Blue Grass is used for lawn purposes, the seed is generally sown at the rate of 30 to 40 lbs. to the acre. If White Dutch Clover is desired, add ½ pound clover to every 15 lbs. of grass seed. Lb. 75¢; 2 lbs. \$1.35; 5 lbs. \$3.25; 10 lbs. \$6.00, postpaid. By express or freight, 100 lbs. \$45.00.

6129 Meadow Fescue (*Festuca pratensis*) For pasture mixtures. Lb. 50¢; 2 lbs. 90¢; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. Express, 100 lbs. \$26.00.

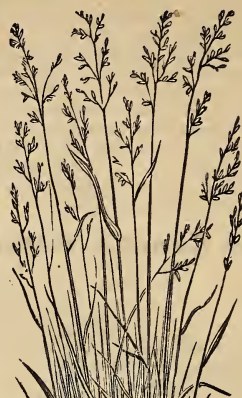

6134 Red or Chewing Fescue (*Festuca rubra*) Fine for hay. Lb. 65¢; 2 lbs. \$1.20; 5 lbs. \$2.75; 10 lbs. \$5.00, postpaid. By express or freight, 100 lbs. \$40.00.

6135 Rough-Stalked Meadow Grass (*Poa trivialis*) Lb. 95¢; 2 lbs. \$1.80; 5 lbs. \$4.25; 10 lbs. \$8.00, postpaid. By express or freight, 100 lbs. \$64.00.

6137 Sheep's Fescue (*Festuca ovina*) Does well on light soil. Lb. 65¢; 2 lbs. \$1.20; 5 lbs. \$2.75; 10 lbs. \$5.00, postpaid. By express or freight, 100 lbs. \$35.00.

6138 Sudan Grass (*Andropogon sorghum*) Sow early in May, and the crop should be ready for the first cutting in July. Yields as high as 5 tons per acre. For broadcast sowings use 18 to 25 lbs. per acre. Sown in rows 2 feet apart, plant 4 to 6 lbs. per acre. Lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. Express, 100 lbs. \$11.00.

6141 Wood Meadow Grass (*Poa nemoralis*). For shady places. Lb. 95¢; 2 lbs. \$1.80; 5 lbs. \$4.25; 10 lbs. \$8.00, postpaid. Express, 100 lbs. \$64.00.

6133 Red Top Grass

(*Agrostis vulgaris*) This is a most valuable variety to sow with timothy and clover to form a close sward for pasturage. Sown alone, 10 lbs. per acre. Red Top is particularly valuable on land too wet for timothy, and will thrive even on land too wet for cultivation. A broadcast seeding over the unplowed area will usually establish the grass. Extra fancy. Lb. 65¢; 2 lbs. \$1.20; 5 lbs. \$2.75; 10 lbs. \$5.00, postpaid. By express or freight, 100 lbs. \$40.00.

Grass Mixtures

Our special mixtures for pasture, meadow, and hay field are all composed of heavy, plump, and full-of-vitality seeds. They are composed of the best grasses suited for their particular purposes. We are sure that our mixtures will give entire satisfaction.

6143 Permanent Pasture A special mixture of the best grasses and clovers for establishing a permanent pasture. Contains heavy, full-of-vitality seed. 40 lbs. per acre. Lb. 45¢; 2 lbs. 80¢; 5 lbs. \$1.80; 10 lbs. \$3.35, postpaid. By express or freight, purchaser paying transportation charges, 100 lbs. \$24.00.

6148 Meadow or Hay Field A special mixture of grasses and clovers in suitable proportions for the average soil to produce a large crop of hay and aftermath for pasture; 35 lbs. per acre. Lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express or freight, 100 lbs. \$23.00.

6150 Special Lowland Meadow A mixture of grasses and clovers adapted for moist or slightly sour lands, for cutting or pasturing; 35 lbs. per acre. Lb. 40¢; 2 lbs. 70¢; 5 lbs. \$1.60; 10 lbs. \$3.00, postpaid. By express, 100 lbs. \$24.00.

ALFALFA AND CLOVERS

Prices for clover seed fluctuate
Write for prices on large quantities

6100a Alfalfa, Montana-Grown or Grimm Type This is a strain selected for hardiness. It has proved valuable where ordinary alfalfa suffers from severe winter weather. Our strain is particularly fine. Lb. 75¢; 2 lbs. \$1.40; 5 lbs. \$3.25; 10 lbs. \$6.00, postpaid. By express or freight, the purchaser paying for transportation, 100 lbs. \$50.00.

6101 Alsike or Hybrid Clover (*Trifolium hybridum*) A long-lived perennial and very hardy, thriving equally well on wet or dry soils. Does especially well in cool climates with abundant moisture. It endures both cold and heat better than Red Clover. Sow at the rate of 8 to 12 pounds to the acre. Lb. 50¢; 2 lbs. 95¢; 5 lbs. \$2.25; 10 lbs. \$4.00, postpaid. By express or freight, at purchaser's expense, 100 lbs. \$33.00.

6103 Sweet Clover, White Blossom (*Melilotus alba*) Biennial. Also known as *Bokhara Clover*. Plants grow 4 feet during the first season and 6 to 12 feet the second year. Will do on any kind of soil, including the very poorest. A fine bee food and used for pasturage, hay, green manure, sowing, and ensilage; 20 to 30 pounds per acre sown broadcast; 15 to 25 pounds per acre in drills. It is also known as Bee Clover, Honey Clover, and Melilot. Lb. 45¢; 2 lbs. 85¢; 5 lbs. \$2.00; 10 lbs. \$3.50, postpaid. By express, 100 lbs. \$18.00.

6105 Crimson or Italian Clover (*Trifolium incarnatum*) An annual variety providing large crops of green forage or, if cut while in bloom, will make excellent hay. It is for use as a green manure and cover crop that this plant is most highly esteemed. Seed should be sown early in August or September; 20 to 30 pounds per acre broadcast; 12 to 15 pounds per acre in drills. Often sown in the orchard, as it withstands shade well. Lb. 40¢; 2 lbs. 75¢; 5 lbs. \$1.75; 10 lbs. \$3.25, postpaid. By express or freight, 100 lbs. \$18.00.

6107 Mammoth or Pea-Vine (*Trifolium pratense perenne*) Also known as *Sapling Clover*; this grows much taller than Red Medium, with larger, leafier stalks; 8 to 12 pounds of seed per acre. Lb. 55¢; 2 lbs. \$1.05; 5 lbs. \$2.50; 10 lbs. \$4.75, postpaid. By express or freight, at purchaser's expense, 100 lbs. \$38.00.

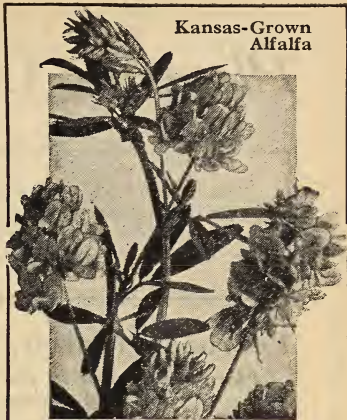

6109 Red Medium (*Trifolium pratense*) See illustration. This is the common red clover so largely grown; 8 to 12 pounds per acre. Lb. 55¢; 2 lbs. \$1.05; 5 lbs. \$2.50; 10 lbs. \$4.75, postpaid. By express or freight, 100 lbs. \$36.00.

6113 White Dutch Clover (*Trifolium repens*) Also called *Trefoil*. This thrives in almost every soil and climate, succeeding equally well on heavy moist land and dry sandy hillsides. A very useful pasture plant; 9 to 12 pounds per acre if sown alone. Pkt. (4 ozs.) 30¢; lb. 80¢; 2 lbs. \$1.55; 5 lbs. \$3.75; 10 lbs. \$7.00, postpaid. By express or freight, at purchaser's expense, 100 lbs. \$60.00.

6112 Hubam NEW ANNUAL WHITE SWEET CLOVER. Hubam is a variety that has received more attention during late years than any other plant discovered. In contrast to the biennial Sweet Clover, Hubam Clover is an annual and grows from 5 to 7 feet tall within 4 to 7 months. It has set a record which is unequalled by any other forage crop. It is extremely drought-resistant and will grow on soils too poor for any other crops. Sow in cultivated rows at the rate of 3 to 4 pounds per acre, or broadcast 12 pounds per acre. It yields from 5 to 8 bushels of good seed per acre. Being hardy, it may be planted early in the spring in a firm seed-bed. Lb. 65¢; 2 lbs. \$1.20; 5 lbs. \$2.75; 10 lbs. \$5.00, postpaid. By express or freight, at purchaser's expense, 100 lbs. \$40.00.

Red Medium Clover

Kansas-Grown Alfalfa

6100 Alfalfa Kansas-Grown

(*Medicago sativa*) See illustration. This strongly resembles clover in habit of growth and feeding value, but withstands drought much better. It ranks as the third most important forage crop in America. It is a perennial plant on well-drained soils, so that when once established, it will continue to produce large yields for over 20 years when properly cared for.

Alfalfa succeeds in almost any kind of soil. Deep soils are particularly suitable on account of alfalfa's great root development. Liming the soil increases the yield, and good drainage is essential for a good stand. Under ordinary conditions the roots penetrate the soil to a depth of 6 feet. According to the climate, the seed should be sown in the spring, late summer, or early fall. In the colder sections spring seeding is most successful. Sow the seed 1/2 to 1 inch deep.

Sow 25 to 35 pounds per acre broadcast; 15 to 25 pounds per acre in drills. Alfalfa is a very important crop and, before planting, write to your Agricultural Experiment Station for free literature on Alfalfa.

This seed has been produced in a section where alfalfa grows to perfection. We offer heavy, well-ripened seed which is sure to give a good stand. Lb. 50¢; 2 lbs. 95¢; 5 lbs. \$2.25; 10 lbs. \$4.00, postpaid. By express or freight, at purchaser's expense, 100 lbs. \$30.00.

Hardy or Winter Vetch

VETCH 6079 Spring Vetch VICIA SATIVA—COMMON VETCH, or TARES

Strictly an annual, sown in the South during September and October, and one of the most valuable of our field crops for use as a green manure or grown for hay. Also grown to furnish early spring pasture. Frequently sown with oats, using 60 pounds of Vetch with 40 pounds of oats per acre, or alone at the rate of 60 to 100 pounds to the acre broadcast. Lb. 35¢; 2 lbs. 65¢; 5 lbs. \$1.50; 10 lbs. \$2.75, postpaid. By express or freight, 100 lbs. \$12.00.

6080 Winter Vetch VICIA VILLOSA—HAIRY, SAND VETCH See illustration. A hardy, pea-like plant which grows vigorously during the late fall and early spring months, remaining green all winter; 40 to 60 pounds per acre, or 20 to 25 pounds of Vetch with the usual quantity of grain. Lb. 40¢; 2 lbs. 75¢; 5 lbs. \$1.75; 10 lbs. \$3.25, postpaid. By express or freight, at purchaser's expense, 100 lbs. \$17.00.

Planting Calendar for FLOWERS

The best time to start a flower-bed is early in the spring, as most seeds germinate best during the moist spring weather. Early sowings also give earlier and longer seasons of bloom, but with just a little extra care any one can have a fine display in the flower garden from plantings made as late as June 1.

Plant During APRIL in the Garden

April is the biggest month for sowing outdoors. As soon as the danger of frost has passed and the ground has dried out sufficiently, spade your garden, and with a rake make the surface fine, smooth, and even. Sow thinly.

Plant During JUNE in the Garden

It is still time to make a garden during June and nearly all flowers listed for April and May planting will give good results if sown now. During the warm June weather seeds will germinate quickly. This month is ideal for sowing perennial seeds in a special seed-bed, so that the plants will be of good size for setting in the permanent place the latter part of August or September. You can still start your lawn during June providing you can water it regularly during the hot summer months.

Plant During Summer and Fall

A garden can still be started in July by choosing quick-growing Annuals, such as Sweet Alyssum, Ageratum, California Poppies, Larkspur, Petunias, Phlox, and others. Of course, care must be taken to water them while the weather remains dry.

August and September are good months to start perennials for next year's blooming. In many sections September is ideal for starting a lawn. The planting of Dutch Bulbs, such as Tulips, Hyacinths, Narcissus, and others, should be taken care of during late September and October. Write for a free copy of our Bulb Catalog published in August.

Color Collections of FLOWERS

While all colors in nature blend, many gardeners prefer combinations of certain shades to suit their particular tastes. We have prepared a number of color collections of easily grown and free-blooming annuals which will enable any one to work out a color scheme that will be effective and pleasing to one's particular fancy.

7682 Six Pure White Flowers

This assortment contains six easily grown and free-blooming annuals which will make a fine show for many months. The collection contains one packet each:

**Baby's Breath, White
Candytuft, Giant White
Cosmos, Early Flowering White
Phlox, Burpee's Giant White
Sweet Alyssum, Little Gem
Vinca, Pure White**

Purchased separately, this collection would cost 60¢. The six packets will be mailed to your door, **50¢** postpaid, for

7684 The Golden Garden

Yellow, Gold, and Orange

These shades are particularly attractive and combine well with blue and lavender shades. The collection contains one packet each:

**Bartonia, Gold Star
Calendula, Orange King
Calliopsis, Tall Mixed
Golden African Daisy
Santa Barbara Poppy
Zinnia, Giant Golden Yellow**

A wonderful collection which is sure to make a fine display for many months. It will be mailed to your door, postpaid, for **50¢**

7686 Shades of Pink

A collection which is sure to please those who are attracted by soft and pleasing shades. The collection contains one packet each:

**Aster, Crego's Giant Shell-Pink
Chinese Woolflower, Pink
Larkspur, Exquisite
Poppy, Burpee's Shrimp Pink
Snapdragon, Shell-Pink
Zinnia, Giant Flesh-Pink**

Whether used alone or in combination with other colors, this collection of six packets is magnificent. Mailed to your door, postpaid, for **50¢**

7688 Shades of Rose

An assortment of six beautiful rose flowers which will bloom for a long time and yield plenty of blossoms for cutting. One packet each:

**Lupinus, Large Rose
Petunia, Rosy Morn
Rose of Heaven
Statice Suworowii
Strawflower, Rose Queen
Zinnia, Giant Rose**

We will mail this collection to your door, postpaid, for **50¢**

7690 Scarlet Flowers

Where a bright and rich effect is wanted, this collection will fill the need. Planted alone or combined with contrasting shades, it will give an effective and showy garden. One packet each:

**California Poppy, Fire Flame
Chinese Pink, Fire Flame
Cockscomb, Tall Scarlet
Phlox, Scarlet
Poppy, Fire Dragon
Scarlet Sage**

We will mail this collection of six scarlet flowers to your door, postpaid, for **50¢**

7692 Crimson Flowers

Lovers of the deep rich shades will welcome this assortment which contains six of the best annuals with rich crimson blooms. One packet each:

**Aster, Crimson King
Calliopsis, Crimson King
Candytuft, Dark Crimson
Cosmos, Double Crimson King
Crimson Flax
Strawflower, Fire Ball**

We presume that many of our customers would plant this alongside a lighter shade for contrast. Mailed, postpaid, for **50¢**

7694 Beautiful Blue Flowers

Blue has always been a great favorite and we feel sure that many gardeners will like this splendid assortment of six blue-flowered annuals. One packet each:

**Cynoglossum amabile
Cornflower, Double Blue
Forget-Me-Not alpestris, Blue
Larkspur, Dark Blue
Love-in-a-Mist, Miss Jekyll
Phacelia campanularia**

This collection is well suited for planting together with the white and scarlet collections, to represent our national colors. All six packets will be **50¢** mailed, postpaid, for

7696 Lavender Shades

The shade that greatly appeals to both young and old. All the varieties included will not only give a garden display, but will also serve splendidly for cut-flowers. One packet each:

**Ageratum, Tom Thumb Blue
Aster, Royal Lavender
Blue Lace Flower
Salvia farinacea
Scabiosa, Azure Fairy
Stocks, Cote D'Azure**

The soft shades represented in these flowers will make a garden that is restful and pleasing. Mailed, **50¢** postpaid, for

A New Burpee Flower

Complete success with the flower garden depends largely upon the proper selection of the flowers which are suitable for growing under the particular conditions. We all know that some flowers do better in the sun—others can stand quite a good amount of shade. There are others which prefer dry soil, while still others make their best display in soils that are fairly moist. Some make good cut-flowers, others are suited for beds, etc. We have prepared the collections on these two pages to make it easy for our friends to grow the flowers which are suited to their garden.

7670 Annual Flowers for Spring Blooming

Most gardeners are anxious to have flowers as early in the spring as possible. By selecting the right varieties and starting early, a fine display can be had from the middle of May on. For extra-early blooms it is essential to sow the seed early in the spring. Our collection of six packets of spring-flowering annuals will give a wonderful show, and we suggest sowing thinly so that the plants can develop freely. The assortment contains:

Bartonia, Gold Star
Calliopsis, Mixed
Clarkia, Finest Double Mixed
Phacelia campanularia
Poppies, Fordhook Hybrids
Sweet Alyssum, Lilac Queen

Purchased separately, these six packets would cost 60¢. Mailed, postpaid, for... **50¢**

7680 Annual Flowers for Fall Blooming

All the varieties in this collection begin blooming during late summer and last until frost. Besides making a good garden display, they will yield fine cut-flowers. One packet each:

African Marigold, Tall Double Mixed
Aster, American Late Branching
Celosia, Burpee's Magnificent Mixed
Cosmos, Early Flowering Mixed
Flowering Tobacco—Nicotiana
Sunflower, Chrysanthemum-Flowered

This assortment, containing six packets of Annuals for Fall Blooming, will give a fine display for many weeks. Mailed, postpaid, for... **50¢**

7660 The Border Collection

The border is suitable for the largest as well as the smallest garden. The six varieties in this collection are all of dwarf compact growth. One packet each:

Alyssum, Little Gem
California Poppy, Sunset Mixture
Dusty Miller, Centaurea
Lobelia, Crystal Palace
Oxalis valdiviensis
Phlox, Fine Dwarf Mixed

These six varieties are not hard to grow. They will be mailed to you, postpaid, for... **50¢**

7664 Collection of Bedding Flowers

An assortment adaptable for beds or borders of medium height. It gives a showy display from mid-summer until frost. One packet each:

Chinese Woolflower, Crimson
Petunia, Enchantress Mixture
Phlox, Fordhook Finest Mixed
Torenia Fournieri
Vinca, Mixed
Zinnias, Giant Mammoth

All the six packets of Bedding Flowers, value 70¢, will be mailed to your door, postpaid, for... **50¢**

7668 Long-Stemmed Flowers for Cutting

The beautiful annuals which make up this collection have been selected because of their excellent qualities for cutting. They all have long stems and showy flowers which will last a long time in water.

Calliopsis, Golden Wave
Celosia, Magnificent Mixed
Cornflowers, Double Mixed
Cosmos, Double Crested, Mixed
Santa Barbara Poppy, Hunnemannia
Snapdragon, Giant Mixed

This collection of Cut-Flowers, containing six packets, will be mailed, postpaid, for... **50¢**

Everlasting Flowers for Winter

There are several kinds of flowers known as the Everlastings, which are easy to grow and when cut and dried in the fall will last indefinitely. The flowers should be cut with long stems attached, hung up in a cool, shady, and airy place with the heads down, until dry.

See **Everlasting Flowers**, page 131
Strawflowers, page 132
Statice, page 132
Ornamental Grasses, page 131
Celosias, pages 168-169.

Any number of the collections listed on these two pages could be combined to make a beautiful large garden, which would furnish cut-flowers and everlastings, and serve for garden display during spring, summer, and fall. All the seed is of the highest quality.

Collection for Every Purpose

7652 The Rock Garden

A rock garden is not only interesting, but it lends a charming touch to any garden. There are many places in corners or steep slopes where a rock garden would serve well to firm the soil and add variety to the landscape. Our collection of six packets contains the following: **Virginian Stocks, Golden African Daisy, Sweet Alyssum, Sand Verbena, Portulaca, Double Mixed, and Ice Plant.** Mailed, postpaid, for **50¢**

7655 Porch Box Collection

The planting of porch boxes not only lends charm to the outside appearance of the house, but also adds considerably to the cozy appearance of the inside. The four varieties we offer will plant quite a few boxes. One packet each:

**Impatiens
Maurandya, Mixed
Petunia, Balcony Mixed
Vinca, Mixed**

The best arrangement can be had by planting the Petunias in the front and the Maurandya in the back to climb up a trellis made of thin, short sticks, with the Vinca and Impatiens in the center of the box. The collection of four packets, value 60¢, will give a **50¢** fine and continuous show. Mailed, postpaid,

7674 Flowers for the Semi-Shade

We feel sure that this assortment will be greatly welcomed by gardeners who have semi-shaded parts in their garden which heretofore have not given as good a display as they should. One packet each:

**Clarkia, Finest Double Mixed
Evening Primrose, *Oenothera*
Forget-Me-Not *semperflorens*
Godetia, Finest Mixed
Mimulus tigrinus
Snapdragon, Fancy Mixed**

The six packets of Flowers for the Semi-shade, value 75¢, will be mailed, postpaid, for **50¢**

7676 Flowers for Dry Soil

Gardens in which the soil shows inclinations to dry out easily will give a good effect if planted with this collection because the plants selected have proven to give a good display under such conditions. One packet each:

**California Poppy, Mixed
Cynoglossum, Hound's Tongue
Ice Plant, Mesembryanthemum
Morning Glories, Dwarf Mixed
Phlox, Fordhook Finest Mixed
Portulaca, Double Mixed**

This assortment of six Flowers for Dry Soil will give a number of beds or perhaps a fine border. It will be mailed, postpaid, **50¢** for

7662 Annual Hedge Flowers

There is a distinct need for this collection, not only because of its usefulness in hiding unsightly fences and undesirable views, but also because the tall strong growth of the hedge adds a feature to the garden. The varieties included in this collection make a tall and upright growth and they may be used to good advantage to form a background to all kinds of borders. The collection contains one packet each:

**Ornamental Rainbow Corn
Kochia *tricophylla*
Spider Plant, Giant Rose
Sunflower, Chrysanthemum-Flowered
Flowering Tobacco, *Nicotiana*
Amaranthus *salicifolius***

The six packets of Annual Hedge Flowers would cost 60¢ if purchased separately. They will be **50¢** mailed, postpaid, to your door for

7410 Burpee's Dollar Flower Collection

Here is a general purpose collection of 16 packets of easily grown annuals, useful for beds, borders, and cut-flowers, and blooming during spring, summer, and fall. It contains easily grown annuals which adapt themselves to many different kinds of soil and climatic variations. One packet each:

**Sweet Alyssum, Little Gem
Aster, Fordhook Favorites
Calendula, Double Mixed
California Poppies, Sunset Mixture
Calliopsis, Tall Mixed
Celosia, Magnificent Mixed
Centaurea *cyanus*, Double Blue
Cosmos, Early Flowering Mixed
Dianthus, Fordhook Favorites
Four O'Clock, Tall Mixed
Larkspur, Tall Double Mixed
Marigold, African Double Mixed
Petunia, Hybrid Mixed
Phlox, Fordhook Finest Mixed
Poppy, Double Carnation-Flowered
Zinnia, Giant Mammoth Mixed**

This collection, value \$1.60, will make a wonderful garden. It will be mailed to you, **\$1.00** postpaid, for

The large number of gardeners who year after year are planting Burpee's Seeds is convincing proof of the quality of Burpee's Seeds. You can rest assured that Burpee Quality Flower Seeds are worth all they cost.

The collections offered on these pages contain the best seeds obtainable. Because they are made up in advance of our busy selling season, we cannot make any changes in the assortments.

Tall Nasturtiums

Moonlight
Exquisite
straw-yellow

These ever-popular free-flowering annuals are of the easiest culture, growing vigorously and blooming freely even in the poorest soils. They may be had in a great variety of colors and shades to suit any taste and with foliage of many different types. The tall Nasturtiums are particularly fine for massive beds or broad borders, or may be easily made to climb low fences or wire netting. They are particularly showy when planted at the top of a steep slope and allowed to trail down the bank. Equally beautiful effects can be created by planting them in large beds or borders on level ground.

The culture of Nasturtiums is very easy. Any ordinary garden soil which is reasonably fertile and not too moist will produce excellent results. The plants do well in either a sunny or semi-shaded location. During dry seasons the flowers do not reach their full size and in this case a thorough watering is of great benefit.

Sow the seed the latter part of April where they are to bloom. Place the individual seeds by hand 3 inches apart and cover with about an inch of fine soil. The young seedlings appear in about two weeks and when they begin to crowd one another they should be thinned to leave 18 to 24 inches between the plants in the row.

3061 Butterfly (Burpee's) A strong grower with large rich green foliage bearing a profusion of long-stemmed flowers. The flowers are large and well proportioned. They are light lemon-yellow, attractively marked on the three broad lower petals with a blotch of rich terra-cotta-red. The two upper petals are marked in shades of bright red. The color contrast is distinct and charming. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

3067 DUNNETT'S ORANGE See illustration. A most beautiful variety of rich deep orange marked with deep crimson blotches. A free and continuous bloomer, well suited for growing as bed or border. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

3069 FORDHOOK FASHION See illustration. This variety occupies a foremost place among the tall Nasturtiums on account of its outstanding and pleasing color. The flowers are rich cherry-rose overlaid with deep veinings of old rose. The individual blooms are of exceptional size. The petals are well rounded and overlap one another, forming a beautifully shaped flower.

The deep blue-green foliage forms an attractive and contrasting background to the long-stemmed flowers. We consider this one of the most showy and most useful of all tall Nasturtiums in existence. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

3072 Golden-Leaved Scarlet This variety is grown extensively because the fine golden yellow foliage adds a feature to the garden. It is a strong grower, of fine habit, sending forth a great number of long-stemmed blooms. The color of the flower is deep velvety maroon, creating a sharp contrast to the light golden yellow foliage. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

3078 MIDNIGHT See illustration. The name Midnight refers to the dark color of the flowers. They are deep brownish red and of a soft velvety texture. This is a quaint color, yet beautiful and of striking appearance, resembling polished mahogany. The foliage is very large and of a rich deep green color. The long-stemmed flowers are borne profusely. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

3080 MOONLIGHT (Burpee's) See illustration. Moonlight is a particularly lovely variety which will appeal to gardeners who prefer the light and dainty shades. It is an exquisite light straw-yellow flower of unusual size and remarkably fine form, borne on a long stem. Blooms freely from midsummer until killed by frost. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

3092 TALL SCARLET See illustration. The radiance of this color makes it particularly desirable. The blooms are a brilliant scarlet. The flowers are of wonderful size and compact, rounded form. They are borne on long stems held above the rich deep green foliage. Tall Scarlet shows up well alongside of lighter shades. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

3096 Sunlight (Burpee's) In few other flowers do we find such a magnificent yellow as in the Nasturtiums, and Sunlight is in our opinion the most outstanding clear rich golden yellow. In size of flower, strong habit, and freedom of bloom Sunlight is a fine companion to all the other varieties. Flowers are excellent for cutting as they are borne on long stems. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

3097 TWILIGHT (Burpee's) See illustration. This is a delicate salmon suffused with rosy salmon. It is a shade that contrasts well with either light or dark shades. The flowers are of excellent form and always of large size. The plants are vigorous, strong growing, and free blooming. Twilight deserves a place in every garden. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

3101 Ruby A beautiful variety with large flowers of rich deep rosy red. Some flowers are of a somewhat lighter shade, showing a decided rose hue, but they are all very beautiful. It is a very free and continuous bloomer. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

If you have any uncultivated slopes or waste places around the home, Nasturtiums could be used to good advantage for transforming them into spots of beauty. Just sow the seed thinly in the spring and cover with an inch of soil. Let the plants take care of themselves.

How to Grow Nasturtiums

We have a very interesting leaflet which will tell you all about how to grow Nasturtiums. If you are interested in a copy, ask for it on your order. It will be sent free.

Midnight

to the garden. It is a strong grower, of fine habit, sending forth a great number of long-stemmed blooms. The color of the flower is deep velvety maroon, creating a sharp contrast to the light golden yellow foliage. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

Sunlight Collection of Tall Nasturtiums

This assortment will give a wonderful display of four of the finest colors of Nasturtiums found in the tall type. They can be planted in beds or borders and will make a colorful showing all during summer and fall. The collection contains the following free-flowering and handsome tall varieties:

Moonlight, Fordhook Fashion,
Sunlight, and Tall Scarlet

7533 One packet each of these Four Grand Tall Nasturtiums 25¢

7534 One ounce each of these Four Grand Tall Nasturtiums 60¢

3060 Burpee's Tall Ornamental-Leaved The flowers are of many bright colors, in charming contrast to the handsomely variegated foliage. Each leaf is in a different degree beautifully marked with yellow, white, and green, so that the plants would be worthy of culture almost for the foliage alone. Easily grown, blooming freely and continuously. A showy and free-flowering variety. Pkt. 10¢; oz. 15¢; 4 ozs. 40¢; lb. \$1.45.

3145 Tom Pouce Trailing, Mixed This is a distinct class, often referred to as Dwarf Indian Cress (*Tropaeolum minus*). It blooms freely all during the summer and fall. The plants produce running stems which are set closely with small neat leaves and produce pretty little flowers in wonderful profusion. Noteworthy among the colors are some very fine orange-yellow, scarlet, and carmine shades, some of them attractively striped and variegated. This is valuable as a trailer for baskets and vases or in the rock garden. Grown in pots for blooming in the house either during summer or winter. Pkt. 10¢; oz. 25¢; 4 ozs. 70¢.

3168 Tall Ivy-Leaved, Mixed The plants are of running growth, with star-like, pointed leaves of rich green veined with white, having a marked resemblance to the foliage of the hardy English Ivy. The flowers are quite distinct in having narrow petals standing well apart and giving the whole an attractive, star-like appearance. Our mixture contains a wide range of brilliant and rich colors. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

Nasturtiums for Pickling

This is considered quite a delicacy by many gardeners. The tender young seeds with a portion of the stem attached are picked while green and when about half grown. They are gone over and placed in a jar, then covered with cider vinegar that has been brought to a boil and is still warm. They will give tasty and delicate

pickles which can be served with other dishes, adding variety to the menu. While all varieties can be used for this purpose, we particularly recommend our two mixtures: No. 3110 Tall Fordhook Favorites, described above, and No. 2354 Burpee's Gorgeous Dwarf Mixed, listed on the next page of this catalog

Nasturtiums for Pickling

3110 Tall Fordhook Favorites

No garden is complete without Nasturtiums, and those who do not have sufficient space to grow separate varieties usually order some of this fine mixture which will make a good display even when many other flowers fail to show up satisfactorily. We have included in this special blend all of the best Giant-Flowering varieties in many colors and with both light and dark green foliage. We feel sure that our friends will be delighted with this special mixture. Pkt. 10¢; oz. 15¢; 4 ozs. 40¢; lb. \$1.45.

Lobb's
Climbing
Nasturtiums
Mixed

3143 Lobb's Climbing, Mixed

See illustration. Both foliage and flowers of this fine type are slightly larger than those of the tall Nasturtiums, but the wonderful profusion of blooms and intense brilliancy of colors make it particularly desirable. Our mixture is composed of the finest and most distinct varieties in this grand free-flowering type. Easily trained on trellises and excellent for large beds or borders. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

Dwarf Nasturtiums

The Dwarf Nasturtiums are of neat, compact growth, and are splendid for borders. They are very fine for cut-flowers, and the more they are cut, the more they bloom. They commence to flower in early summer and continue until frost, never failing to give abundant satisfaction. The Burpee Leaflet, "HOW TO GROW NASTURTiums," gives full cultural directions and contains interesting information on the various types. Ask for a free copy when you order your Nasturtium seed.

2300 Aurora This is an outstanding variety, with bright chrome-yellow flowers attractively veined with purplish carmine. The color contrast is particularly striking. The bushes are well-rounded, and have rich deep green foliage. The blooms are borne profusely on long stems and are excellent for cutting. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

2302 Dwarf Beauty The large flowers are glowing orange with suffused scarlet markings. A very attractive and striking combination of intense colors. Blooms freely and continuously. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

2313 Cloth of Gold The name Cloth of Gold has been given to this variety because of its bright golden foliage. The plants make fine round bushes and bear large, brilliant scarlet flowers on long stems above the foliage. The contrast between the yellow leaves and the rich scarlet flowers is striking yet pleasing. It is a profuse bloomer, excellent for beds and borders. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

2315 Cherry-Rose (*Caruleum roseum*) The flowers are of an unusual and distinct shade. They are rich cherry-rose and always of the largest size. A very showy and free blooming variety. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

2324 Empress of India This variety shows a fine contrast between the rich salmon-scarlet flowers and the deep purplish green leaves. One of the finest for beds or borders and most valuable as a cut-flower because of its rich color. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

2333 King of Tom Thumbs In brightness of color this is most outstanding. The blooms are intense pure scarlet. They are of largest size and well-rounded form. In freedom of bloom and fine habit, King of Tom Thumbs takes second place to none. A most popular variety with many gardeners. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

2335 King Theodore A most attractive variety, with deep bluish green foliage. The habit of the plant is compact and lends itself particularly well for beds or borders. The flowers are rich velvety crimson. They are large, of fine round form, being borne on long stems and therefore valuable for cutting. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

Burpee's Gorgeous, Mixed

2354 We take great pride in this mixture of Dwarf Nasturtiums which is composed of the very finest large-flowering Dwarf Nasturtiums in existence. Varieties with both light and dark foliage have been included because of the added effect. The color range of the flowers is magnificent, taking all shades we offer. A bed of these Nasturtiums in full bloom makes a gorgeous display. Those who do not have space to grow the separate varieties will be pleased with this mixture, whether grown for garden display or for cutting. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; lb. \$1.45.

Dwarf Ornamental-Leaved

All the leaves in this type are showily spotted or variegated in contrasting shades of white and green, many of the leaves looking as if powdered with a white frost. This type is fine enough to be grown for its beautiful foliage alone yet the flowers are always of good size and fine form.

2272 Queen of Tom Thumbs Neatly rounded bushes with beautifully variegated and marbled leaves of silvery white. The flowers are a rich purplish crimson and are shown to the greatest advantage against the background of the bright foliage. Blooms freely and makes wonderful beds and borders. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

2262 Burpee's Dwarf Crystal Queen The dense bushes of beautifully spotted leaves carry an abundance of light straw-colored flowers of a delicate lemon tint. Most attractive. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

2264 Orange-Scarlet This rich shade of scarlet stands out well from the green and white variegated foliage. Blooms profusely. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

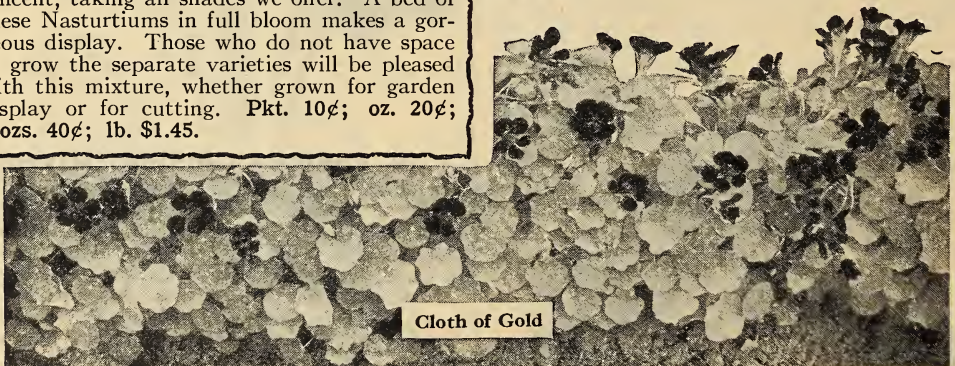

2266 Golden Yellow A true rich golden yellow that looks well with the frosted leaves. The flowers are of large size. They are borne profusely on fine long stems. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

2276 Ornamental-Leaved, Mixed A complete mixture of Dwarf Ornamental-Leaved Nasturtiums, including in addition to the four colors offered above, a number of other fine shades all having variegated foliage. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; lb. \$1.45.

2284 Dwarf Ivy-Leaved, Mixed This is a mixture of many bright and distinct colors, representing various shades of yellow and red. The plants, even when not in bloom, are most attractive, with ivy-like light green foliage of true dwarf growth, making well-rounded and compact bushes which are well suited for borders. Blooms freely and continuously. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; lb. \$1.45.

2295 Mixed David Burpee Type In this type of Nasturtiums the leaves are distinctly waved and curled on the edges. They are a bright green color. The plants form perfectly rounded bushes, growing 12 inches tall. The colors of the flowers include all the shades found in other types. It is a particularly fine variety for the small garden because the plants are of neat habit and never grow out of bounds. In larger gardens it finds its place where a compact and distinct border of dwarf habit is wanted. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

2367 Finest Lilliput, Mixed The Lilliput Nasturtiums are the smallest of all. They bear a large number of small, gaily colored flowers. They are light and deep yellow, scarlet, crimson, and orange. The flowers are borne throughout the summer and fall. The plants make short vines from 15 to 24 inches in length. Both the leaves and the flowers are of miniature size. This type is used extensively for window and porch boxes where its graceful habit gives a maximum effect and does not interfere with other plants in the box. Pkt. 10¢; oz. 20¢; 4 ozs. 40¢; lb. \$1.45.

DWARF NASTURTIUMS

Four of the Most Popular Varieties

2329 Golden King *Illustrated in color.* This is a very fine rich glowing orange-yellow which blends well with the dark purplish green foliage. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

2339 Dwarf Pearl *See color illustration.* The large flowers are light lemon-yellow shading to a faint Primrose. This is one of the most attractive light shades in existence. Free flowering. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

2350 Vesuvius *Illustrated in color.* An exceptionally popular variety with immense blooms of exquisite texture and artistic proportions. Carried on long stems. The color is a fine salmon-rose beautifully marked with salmon-orange veins. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

2360 Golden Midnight *Illustrated in color.* An outstanding variety with light golden yellow foliage and rich dark red blooms of large size. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

Collections of Four of the Best Nasturtiums

The four varieties of dwarf Nasturtiums included in these collections will prove a source of pleasure and beauty. The colors are all distinct and very attractive. The collections contain: Golden King, Dwarf Pearl, Vesuvius, and Golden Midnight.

7530 One packet each of these four easily grown dwarf Nasturtiums (value 40¢) will be mailed postpaid for **25¢**

7527 One ounce each of the four easily grown dwarf Nasturtiums (value 80¢) will be mailed postpaid for **60¢**

Golden King
A free-flowering variety of sturdy growth

Nasturtiums are excellent for cut-flowers as well as for garden display

VESUVIUS

DWARF PEARL

GOLDEN MIDNIGHT

Burpee's Verbenas

Pure White

VERBENAS thrive in almost any situation and in all good garden soils. They make attractive borders and beds, blooming profusely from June until October.

Sow the seed during February and March indoors, and set out during May. The seeds require as long as 3 weeks to germinate and the soil must be kept moderately moist until the young seedlings push through the soil.

2791 Pure White (Sea Foam) A wonderful variety with large and well-rounded flower-heads of the purest white, composed of large individual blooms. It blooms profusely. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢.

2778 Burbank's Mayflower

A strain in which the flowers are of extra-large size, mostly shades of pink, and more fragrant than in any other strain. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢.

2786 Mammoth Pink Shades

A most appealing variety of strong growth. The blooms are borne freely in handsome clusters. Includes all intermediate shades from light shell-pink to deep rose-pink. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

Scarlet Defiance

Mammoth Pink Shades

Mammoth Blue Shades

2788 Mammoth Blue Shades

Very large flower-heads in varying shades of bright blue and purple, all very beautiful. The effect of the various hues in the garden is particularly attractive. The individual flowers are of large size, growing to the size of a quarter under favorable conditions. Pkt. 15¢; 1/8 oz. 50¢; 1/4 oz. 75¢; 1/2 oz. \$1.20.

2789 Scarlet Defiance

Scarlet Defiance is a great favorite with many gardeners because of its rich and brilliant color. The large, well-rounded flower-heads are an intense and fiery scarlet. Most wonderful effects can be created in the garden with this brilliant color. For contrast it should be planted together with a contrasting white or light shade. Pkt. 10¢; 1/8 oz. 40¢; 1/4 oz. 60¢; 1/2 oz. 95¢.

2795 Yellow (Lutea)

(Lutea) This is an appealing bright lemon-yellow variety. The flower-heads are not quite as large as in other varieties but they are massive and solid, composed of good size blooms. It is a free-blooming and sturdy variety, which will make an attractive bed or border. Pkt. 10¢; 1/8 oz. 40¢; 1/4 oz. 60¢; 1/2 oz. 95¢.

2776 FORDHOOK FAMOUS

This Mammoth Verbena produces magnificent trusses in a wide range of colors. Some individual blossoms are larger than a silver quarter. The colors are rich and varied, embracing all the brighter shades. Well adapted for borders or porch boxes. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

7820 Verbena Collection

We will mail one packet each of the four free-flowering varieties illustrated: Mammoth Blue Shades, Pure White, Scarlet Defiance, and Mammoth Pink Shades (value 45¢), postpaid, for **35¢**

CALIFORNIA POPPIES

ORANGE KING

VESUVIUS

2050 Orange King See illustration. The flowers are large and well formed. They are an intense shade of rich orange with more of a salmon-orange tint toward the margin of the broad petals. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

2054 Vesuvius See illustration. This is one of the most brilliant of the California Poppies. The color is a scintillating scarlet with a silky sheen. The rich yellow stamens form a showy color contrast. Blooms very profusely. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

ROSE CARDINAL

2053 Rose Cardinal See illustration. Soft creamy white flowers with the outside of the petals shaded satiny rose-pink. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

2066 CRIMSON-CARMINE A very outstanding flower of rich crimson-carmine color. Flowers freely and continuously. Pkt. 15¢; ¼ oz. 40¢.

2055 SUNSET MIXTURE A well-balanced blend of all these bright colors. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢; oz. 50¢.

2046 DOUGLASSII A distinct species with small yellow flowers. Blooms very early. Pkt. 10¢; ¼ oz. 25¢.

Eschscholtzia The California Poppy is one of our most showy and free flowering annuals. It blooms early and where the weather does not get too warm during the summer continues to flower freely until frost. The plants are particularly well adapted for beds or borders. They are of compact, bushy habit, growing about 12 inches tall. The flowers are Poppy-like, carried on long stems and set against the finely divided, Poppy-green foliage.

Sow the seed early in April where the plants are to bloom, preparing the soil thoroughly, and later thin the seedlings to stand 4 inches apart. They do best in a dry, sandy soil where they can get the full sun during the daytime.

2042 PURE WHITE (Alba) A lovely variety of compact growth, flowering freely and continuously. The flowers are pearly white. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

GOLDEN WEST

2049 Golden West See illustration. Bright yellow flowers with a large blotch of deep orange at the base of each petal. A beautiful well-shaped flower. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢.

2065 BAILET GIRL A bright carmine variety with the inside of the petals creamy white. The flower-petals are attractively crinkled and fluted. Pkt. 15¢; ¼ oz. 45¢; ½ oz. 70¢; oz. \$1.10.

2047 FIRE FLAME Large and well-formed flowers of a brilliant orange-scarlet. This is a particularly bright and showy variety. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

2052 ROSE QUEEN This is a lovely flower of fine form and of a particularly good color. Scintillating and silky rich rose-pink. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

2061 PURPLE GLOW An entirely new shade of bright rich purple. Very beautiful and free blooming. Pkt. 15¢; ¼ oz. 50¢.

2067 Double Gold Cup See illustration. The fine semi-double flowers are borne very freely all over the plant. They are a brilliant orange-yellow color. Pkt. 10¢; ¼ oz. 30¢.

2059 GOLD CUP Bright golden yellow blooms shaded with orange. A large, well-formed flower with a silky sheen. Pkt. 10¢; ¼ oz. 30¢.

2044 Burbank's Rose Crimson See illustration. An attractive clear rose crimson, a color rare among Eschscholtzia. It is a brilliant shade with a most pleasing effect. Pkt. 10¢; ¼ oz. 30¢.

PRIMROSE QUEEN

GEISHA

2043 Primrose Queen See illustration. In contrast to the many rich shades found among the California Poppies, Primrose Queen is a lovely soft shade of bright Primrose. It is a new variety and extremely pretty. The large flowers are borne freely and continuously. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢.

2048 The Geisha See illustration. The Geisha is quite distinct from most California Poppies as the petals are decidedly fluted and crinkled. The color is rich golden yellow with plaits of orange-red on the inside of the petals and the outside is bright orange-red. The silky gloss of the petals makes the flowers scintillate in the bright sunlight. Pkt. 15¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

DOUBLE GOLD CUP

BURBANK'S ROSE CRIMSON

Collections of California Poppies

These collections of California Poppies will make a fine display planted either in beds or borders. They include Burbank's Rose Crimson, Rose Cardinal, The Geisha, and Double Gold Cup.

7735 This collection contains one packet each of the four bright colors of California Poppies. Value 45¢, for **35¢**

7736 This collection contains ¼ oz. each of the four bright colors of California Poppies. Value \$1.25, for **\$1.00**

Golden African Daisy

2038 (*Dimorphotheca aurantiaca*) See illustration. This beautiful new and extremely showy annual was discovered in South Africa. On account of its easy culture, free-blooming habit, and bright appearance, it is rapidly becoming a great favorite. Start the seed indoors in March and set out the end of April, or sow in the open the middle of April. It is an extremely showy variety of easiest culture. The hardy plants are of neat branching habit. They grow 12 to 15 inches tall and flower profusely. The Marguerite-like blossoms, $2\frac{1}{2}$ to $2\frac{3}{4}$ inches in diameter, are of a peculiarly rich glossy orange-gold. Its strikingly brilliant coloring is rendered even more conspicuous by the dark-colored disc surrounded by a black zone. Sow the seed in the open ground in a sunny location. The plants bloom continuously during summer and fall. Pkt. 10¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢; oz. 95¢.

AFRICAN DAISY HYBRIDS

African Daisy Hybrids

2033 (*Dimorphotheca aurantiaca hybrida*) See illustration above. These Hybrids of the Golden African Daisy are indeed magnificent in every way. The colors represented include white, red, blush-white tints, sulphur, lemon-yellow, golden yellow, golden orange, reddish yellow changing to light salmon-rose, light and deep salmon, light and deep orange-salmon, and many other shades. Many of the flowers are self colored, others are attractively zoned in the center in either lighter or darker shades. Some white flowers have a bright sulphur-yellow zone around a black disc in the center. Some salmon flowers show a circle of deep salmon-red. The combination of colors is most varied, so that hardly two plants will be found bearing flowers of the same shading.

The blooms measure $2\frac{1}{2}$ to $2\frac{3}{4}$ inches in diameter and they have a fine silky gloss. They love the full sun but close up during dull rainy days and in the evening. The seedlings started indoors must be transplanted to the open while they are still very small, as larger plants do not transplant well. For the home garden the best method is to sow right outdoors about the middle of April when the maples are coming into leaf. Pkt. 10¢; $\frac{1}{4}$ oz. 40¢.

GOLDEN AFRICAN DAISY

Annual Chrysanthemum—Painted Daisies

The Annual Chrysanthemums do best where the weather remains reasonably cool during the summer. They are easily grown. The flowers appear within ten weeks after the seeds are sown, if planted early in the spring as soon as the ground can be prepared. Blooms continuously from June until September. For fall blooming, sow during June and thin to stand 12 to 15 inches apart in the row.

1896 FINEST MIXED This comprises the seed of all the Single Painted Daisies or Annual Chrysanthemums listed and many other fine shades. They all give a lovely display for many weeks during the summer and fall. Pkt. 10¢; $\frac{1}{4}$ oz. 25¢; $\frac{1}{2}$ oz. 40¢.

CHAMELEON

W.E. GLADSTONE

NORTHERN STAR

THE SULTAN

BURRIDGEANUM

EASTERN STAR

1897 BURRIDGEANUM The flowers are pure white, each petal having a zone of rich brownish red and an inner zone of yellow surrounding a dark mahogany-brown disc. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢.

1898 EASTERN STAR A lovely shade of Primrose with a brown disc. The plants grow 12 to 18 inches tall. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢.

1899 NORTHERN STAR Large pure white petals with a canary-yellow zone around a dark brown eye. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢.

1901 CHAMELEON Clear yellow petals and a dark disc in the center. The flowers have the peculiar habit of changing color from the time they open until they are fully expanded. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢; $\frac{1}{2}$ oz. 55¢.

1902 W. E. GLADSTONE The flowers are large, well formed, and of a rich velvety crimson shade. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢; $\frac{1}{2}$ oz. 55¢.

1905 THE SULTAN Wallflower-red with a sulphur-yellow zone and a brown disc. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢.

1894 DOUBLE WHITE This is a lovely and very free-flowering Chrysanthemum of strictly annual habit. The flowers are fully double, $2\frac{1}{2}$ inches in diameter, and are borne on fine long stems. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢; $\frac{1}{2}$ oz. 55¢.

1895 DOUBLE YELLOW This is a fine companion to the Double White with rich golden yellow flowers. A striking color. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢.

1903 CORONARIUM, DOUBLE MIXED A very fine garden variety including a wide range of colors such as white, rose, sulphur-yellow, golden yellow, orange, red, and maroon; 18 inches tall. Pkt. 10¢; $\frac{1}{4}$ oz. 25¢; $\frac{1}{2}$ oz. 40¢.

1904 SNOWBALL (*Inodorum plenissimum*) Beautiful double white flowers which are very fine for cutting. It is a hardy variety, often persisting through the winter and blooming again the second year. Pkt. 10¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢.

7721 Collection of Single Chrysanthemums

This collection contains one packet each of the six varieties of Chrysanthemums illustrated in color (value 60¢), 50¢ mailed, postpaid, for

SUNFLOWER—*Helianthus*

These are all hardy annuals of the easiest culture. They grow quickly and reach a large size, according to the variety. Sunflowers are very fine for planting in clumps or as a background to tall borders. They may be used to good advantage for hedges to separate or close off the view. They form a very decorative background and many people grow them because they attract birds to the garden. Sunflowers do well in almost any kind of soil, either dry or moist, rich or poor, sandy, stony, or heavy. The best plants are produced in a richly manured soil containing plenty of humus and moisture. An airy location is essential. During severe, dry weather the plants should be watered thoroughly, but care should be taken that the stems are not splashed with water and dirt which would induce decay.

Sow the seed early in April, when the maples are coming into leaf, where the plants are to bloom, and cover with an inch of fine soil. Thin the young plants when they are about two inches tall to stand two feet or more apart in the row.

2767 Many-Flowered Double (*Helianthus flore pleno multiflora*) The plants grow about 5 feet tall, with a thick single stalk which carries at each leaf-joint a fine double flower of mammoth size on a short stem. The blooms are thick and very substantial, with small petals closely crowded together so that the flowers are always fully double. It is of particular value for the background because of its height. Planted in a single or double row, the stately plants make a decidedly attractive tall hedge for hiding unsightly places. Pkt. 10¢; ½ oz. 30¢.

2765 Double Chrysanthemum-Flowered Sunflower See illustration. We consider this the very best of all Sunflowers in existence. The blooms are fully double and resemble Giant Chrysanthemums. They are composed of a large number of fine-pointed petals which lie close together and form a big disc on strong sturdy stems nearly 7 feet tall. The bright golden yellow flowers turn toward the sun in the morning and follow it toward the West every evening. The flowers measure 6 to 8 inches in diameter. Blooms throughout late summer and fall. It is excellent for the background of borders or hedges. Pkt. 10¢; ½ oz. 35¢; oz. 55¢.

2760 Miniature (*Helianthus cucumerifolius*) A very free-blooming, bushy Sunflower growing 3 feet tall. The plants are covered with hundreds of small single flowers measuring about three inches in diameter. The broad long petals are a bright yellow color. The disc in the center is small. The plants make a pyramidal growth and the flowers stand out sharply from the bright green foliage. It is an excellent variety for cut-flowers because of its graceful habit and long stems. Pkt. 10¢; ½ oz. 30¢.

7571 Collection of Sunflowers

Even in a fairly small garden there should be room enough to plant the three beautiful varieties of Sunflowers assembled in this collection. All three are illustrated in color on this page. **Double Chrysanthemum-Flowered, Red Sunflower, and Miniature** (value 30¢), will be mailed to your door, postpaid, for **25¢**

SANTA BARBARA POPPY

2112 (*Hunnemannia fumaricaefolia*) The magnificent golden yellow flowers are borne erect on long stiff stems. They make a beautiful display for many weeks. Santa Barbara Poppy is also highly valued for cut-flowers, which will keep for a number of days in water. They should be cut early in the morning. The blooms are borne profusely from the early part of July until frost. The compact habit of the plants makes them well suited for planting in beds or borders. They also look well in mixed plantings.

The flowers of *Hunnemannia* are borne from June until September. Plant outdoors when the maples are coming into leaf or start indoors during February or March and keep growing until weather conditions are settled for setting out. The Santa Barbara Poppy requires a porous, sandy soil which contains plenty of lime. Grows 2 feet tall and is exceedingly showy.

Santa Barbara Poppy is one of our prettiest annuals. It is sometimes called Bush Eschscholtzia or Giant Tulip Poppy. It does resemble in many respects the tall, large-flowered Eschscholtzia. The name Yellow Tulip Poppy was taken from the resemblance of the flower to a Tulip. The foliage also is not unlike that of Poppies. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢.

RED SUNFLOWER

2762 Red Sunflower See illustration.

The flowers are borne very freely on fine strong stems 5 to 6 feet long. The blooms are of rounded form having large long ray petals and a small disc. The colors of the flowers vary greatly. Some are chestnut-red, others mahogany-brown. There are also combinations of rose, pink, yellow, and brown. There are no two plants with flowers exactly alike. Pkt. 10¢; ½ oz. 30¢; oz. 45¢.

SUNFLOWER SINGLE STELLA

2756 Single Stella See illustration.

A lovely variety of free-branching, bushy growth 3 to 4 feet tall. The beautiful single flowers are a pure golden yellow color surrounding a small black disc in the center. The blooms measure 3 to 4 inches in diameter and are borne on long stems. Pkt. 10¢; ½ oz. 30¢.

SANTA BARBARA POPPY

PORTULACA—Moss Rose

A beautiful hardy annual, unsurpassed in brilliancy by any other annual in cultivation. The plants are low-growing and creep along the ground. They thrive well in almost any location, even in a dry sunny place among stones, and can withstand the hottest summer weather. They like the full sunlight, but the finest flowers are produced the latter part of August and in September, when there are heavy dews at night. This is particularly true of the double varieties.

Portulaca seed is rather small and care should be taken that it is not sown too deeply. Sow the seed very thinly, barely covering it from view early in the spring. Thin the young plants to stand 12 inches apart.

2653 DOUBLE ORANGE See illustration. A fine shade of orange. The flowers are large and perfectly double. Blooms freely. Pkt. 15¢; 1/16 oz. 45¢; 1/8 oz. 70¢.

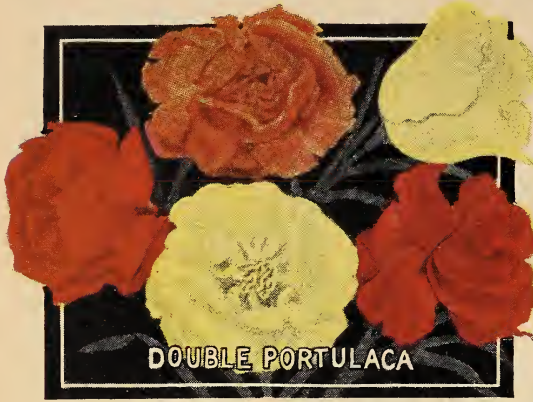

2655 DOUBLE RED See illustration. The bright red flowers are large and full. A very gorgeous and free blooming variety, which blooms freely even during the hottest weather. Pkt. 15¢; 1/16 oz. 45¢; 1/8 oz. 70¢.

2657 DOUBLE WHITE Pure white flowers. Large and fully double, showing their rich yellow stamens as the flowers age and expand. Blooms freely. Pkt. 15¢; 1/16 oz. 45¢; 1/8 oz. 70¢; 1/4 oz. \$1.10.

2659 DOUBLE MIXED Is unsurpassed for brilliancy. A wide range of colors. Pkt. 10¢; 1/16 oz. 30¢; 1/8 oz. 45¢.

2662 GIANT-FLOWERED PARANA The color is quite distinct—bright tyrian-rose, making a most effective display. The large single flowers are borne profusely till October. Pkt. 10¢; 1/16 oz. 40¢; 1/8 oz. 60¢; 1/4 oz. 95¢.

2652 SINGLE MIXED A complete mixture, including orange, white, red, salmon, buff, and other rich and delicate shades in the proper proportions. Pkt. 10¢; 1/16 oz. 25¢; 1/8 oz. 40¢; 1/4 oz. 60¢.

7805 Portulaca Collection

This collection contains one packet each: Double Orange, Double Red, and Double White (value 45¢). They will make a nice bed or border. They will be mailed, postpaid, to your door for **30¢**

1567 Mexican or Prickly Poppy — Argemone hybrida grandiflora

This is a most interesting hardy annual, growing into well-branched plants measuring 2 1/4 to 3 feet tall. The bushy plants carry an abundance of light green leaves with a white mid-rib. The margin of the leaves is set with fine spines, which account for the name Prickly Poppy.

The flowers greatly resemble Single Shirley Poppies in shape. They come in various shades of yellow, including light cream, canary-yellow, and rich golden yellow. The flowers are large and measure 3 to 3 1/2 inches in diameter. Argemone does best if planted in a warm moist soil. The plants look exceptionally well in mixed beds or borders. A warm sunny exposure and plenty of fresh air are needed by the plants to develop into free-flowering bushes.

Sow the seed thinly outdoors when the maples are coming into leaf and cover with fine soil, or start indoors in boxes containing fine soil. Set into the garden after all danger of frost is over. Pkt. 10¢; 1/4 oz. 35¢; 1/2 oz. 55¢.

GAILLARDIA—Blanket Flower

The annual Gaillardias are exceptionally fine for beds, borders, and for cutting. They are most showy, with their large flowers of bright colors; 15 inches tall.

Gaillardias do best if planted in a porous, rather sandy soil, and where they will receive plenty of sunlight. Sow the seed thinly when the maples are coming into leaf, covering with 1/4 inch of fine soil, or start the seed indoors the middle of March.

2084 SINGLE, FINE MIXED A wide range of colors, including yellow, scarlet, crimson, and mahogany. Wonderful in beds or borders or for cut-flowers. Pkt. 10¢; 1/4 oz. 25¢; 1/2 oz. 40¢.

2081 THE BRIDE See illustration. The flowers are very double. They are a fine creamy white shade, very large, and free blooming. Pkt. 10¢; 1/4 oz. 35¢.

2082 DOUBLE YELLOW See illustration. This is a most outstanding bright sulphur-yellow color. The large flowers are borne on long stems. Pkt. 10¢; 1/4 oz. 35¢; 1/2 oz. 55¢.

2083 DOUBLE RED See illustration. A very fine companion to Double Yellow with bright rich red flowers, always fully double. Pkt. 10¢; 1/4 oz. 35¢.

2086 DOUBLE MIXED (Pida Lorenziana) The large double flowers are variously and gayly colored. Pkt. 10¢; 1/4 oz. 25¢; 1/2 oz. 40¢.

7480 Gaillardia Collection
One packet each: The Bride, Double Yellow, and Double Red, postpaid, for **25¢**

SWEET SULTAN

The finely fringed flowers have a delightful fragrance. The plants grow 20 to 24 inches tall and are fine for borders or for cutting, lasting a long time. The thistle-like flowers are borne freely.

2752 YELLOW (Centaurea suavolens) See illustration. The beautiful yellow flowers are agreeably sweet scented. They are borne in the greatest profusion on fine long stems; 18 inches tall. Pkt. 10¢; 1/4 oz. 30¢; 1/2 oz. 45¢.

2754 FINEST MIXED A very beautiful and complete mixture of yellow, white, pink, lilac, and purple. Pkt. 10¢; 1/4 oz. 25¢; 1/2 oz. 40¢; oz. 60¢.

Centaurea or Cornflower

These are of the easiest culture and thrive well in any ordinary garden soil. They do best if sown as early in the spring as the ground can be worked into a fine loose condition. In a sunny and airy location they will bloom from June until frost. They may be grown for garden decoration and are admirably adapted for cut-flowers.

Double Cornflower Dainty double flowers of the Cyanus type. They are very attractive and bloom profusely from June until frost. The plants grow 15 to 24 inches tall and make a fine show in the garden, besides yielding excellent cut-flowers.

1880 WHITE See illustration. Pure white flowers borne very profusely on fine long and sturdy stems. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢.

1877 MAUVE This is a lovely shade of bright pinkish mauve. Free blooming with fine double flowers. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢.

1879 PURPLE A most attractive dark purple. The large double flowers are carried on long stems. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

1881 RED The rich red blooms are borne freely on fine long stems. A really fine color, always double. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢.

1886 ROSE This shade of bright rose is particularly attractive. It goes well with the white and blue. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢.

1887 BLUE See illustration. The most popular color of all the double Cornflowers. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

1885 DOUBLE, MIXED A complete mixture of the above and other fine double Cornflowers. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

Double Blue and Double White Cornflower

7722 Cornflower Collection

This collection contains one packet of Double White, Double Red, Double Rose, and Double Blue Cornflower. This collection will give a fine bed or a showy border. Purchased separately, these four fine colors of Cornflowers would cost 40¢. It will be mailed to any address, postpaid, for

25¢

Dusty Millers

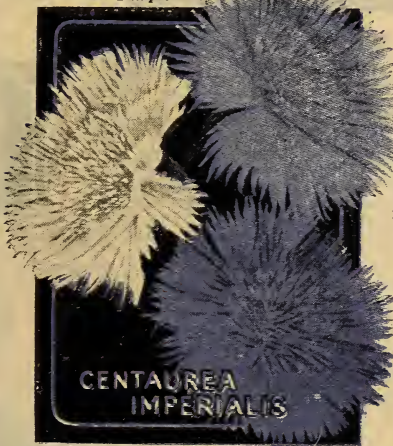

These Dusty Millers are sometimes classed as Cinerarias. They are extremely showy, with their silvery white leaves. The plants grow 8 to 12 inches tall and lend themselves particularly well for borders to taller growing Annuals or Perennials. The seed can be sown right outdoors when the maple leaves expand or they can be started indoors in pots or boxes during March. Transplant the seedlings to stand 8 inches apart in the row.

1889 CANDIDISSIMA (*Cineraria*) Dwarf and neatly compact plants formed by thick silvery white leaves. Fine for bedding or borders. Bears attractive golden yellow flowers. Pkt. 10¢; ¼ oz. 60¢; ½ oz. 90¢.

1891 GYMNOCARPA Finely cut leaves of silvery white. Bright yellow flowers. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢.

Centaurea Imperialis

Pure White, Lilac, and Dark Purple

These magnificent Centaureas are easily grown and should be planted for garden display as well as cut-flowers. The plants grow quickly to a height of two feet and bear a profusion of large thistle-like flowers. The blooms are carried on fine long stems which makes them excellent for cutting.

1869 PURE WHITE See illustration. Very dainty flowers. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢.

1870 LILAC See illustration. A beautiful shade of delicate and pleasing lilac; of large size. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

1875 ROSE An attractive color. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢.

1871 DARK PURPLE See illustration. A rich color. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

1888 MARGUERITE A waxy white flower of large size and beautiful double form. The flowers are borne on long stems. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

1876 FINEST MIXED All colors. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢.

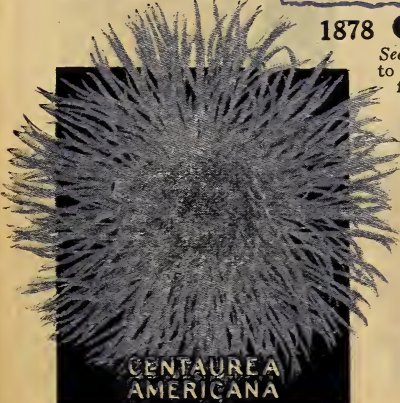

1878 Centaurea Americana

See illustration. This variety of Centaurea deserves to be grown more extensively because of its many fine features. It is the most robust growing of all the Centaureas and even when not in flower the plants are showy, with large, attractive leaves.

The plants will grow 3 feet tall, and where conditions are particularly suitable they will average 3½ feet in height. They are in full bloom during July and August. The flowers have quite some resemblance to those of thistles, with their delicate feathery petals. They are large, measuring 4 to 5 inches across when fully open.

The color is a beautiful light lilac-blue. Centaurea Americana does best in a fairly rich but well-drained soil and where it receives plenty of sun all day long. Sow when the maples are in leaf and after all danger of frost has passed. Thin or transplant the young seedlings to stand 2 feet apart. Pkt. 10¢; ¼ oz. 50¢; ½ oz. 75¢; oz. \$1.20.

Burpee's Flower Seeds are known as the standard. We grow yearly many acres of our carefully selected strains on Burpee's FLORADALE FARMS in California, Burpee's FORDHOOK FARMS in Pennsylvania, and Burpee's SUNNYBROOK FARM in New Jersey. All flower seeds sold by Burpee are carefully tested in the famous Fordhook Trial Grounds. It will be worthwhile to plant Burpee's Tested Seeds.

BURPEE'S POPPIES

Poppies are very easily grown and should be included in every garden because of their gorgeous colors. Sow the seed thinly in drills or broadcast early in the spring where the plants are to bloom. Barely cover the small seeds from view, and thin the young plants to stand far enough apart to develop freely.

2628 AMERICAN LEGION Bright scarlet-red blooms, most brilliant in full sunshine. A free and continuous bloomer. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢.

2630 SHIRLEY DOUBLE HYBRIDS This beautiful strain produces large double and semi-double flowers in a wonderful range of colors. Pkt. 10¢; ¼ oz. 20¢.

Wild Rose

2623 Wild Rose See illustration. A free-flowering single Shirley Poppy of a beautiful wild rose color. Grows 12 inches tall. Pkt. 10¢; ¼ oz. 30¢.

2629 Tulip Poppy See illustration. The open cup-shaped flowers are an intense shade of rich red not unlike a Tulip in shape and color. A profuse bloomer growing about a foot tall. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

IMPROVED SHIRLEY POPPIES

2618 Improved Shirley See illustration. This is an improved strain of the old-fashioned Shirley Poppies. The flowers are of exquisite texture and very large. Upon opening they appear like wrinkled tissue paper with a silky sheen. The range of colors is particularly noteworthy in this variety. There are, in addition to pure white, some excellent shades of rose, pink, carmine, crimson, and salmon. The flowers are borne profusely and continuously throughout the spring and early summer, as long as the weather remains reasonably cool. If the flowers are picked when they begin to open up early in the morning, they will last remarkably long as cut-flowers. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢.

2625 Burbank's Silver Lining See illustration. The single flowers are rich scarlet spotted with black at the base of each petal. Each spot appears to be covered with a shield of white tissue paper. Very unique; 15 to 18 inches tall and blooms very freely. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

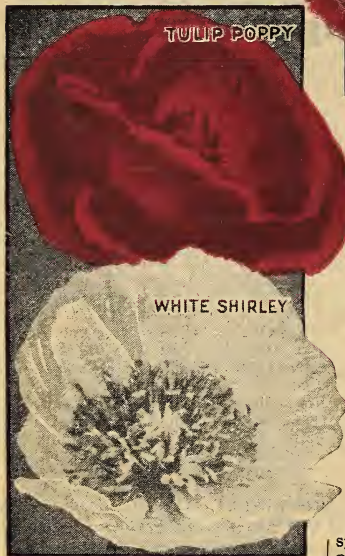

SILVER LINING

DANISH FLAG

2633 Danish Flag See illustration. Most striking rich red flowers with a white spot at the base of each petal, forming a distinct white cross on red ground. It is a most showy variety, with large, well-formed flowers carried on substantial stems 15 inches long. The name Danish Flag was given because of its resemblance to the flag of that nation. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢; oz. 50¢.

TULIP POPPY

WHITE SHIRLEY

2622 White Shirley See illustration. An exquisite free-flowering variety with single and semi-double flowers carried gracefully on fine stems 12 inches long. The flower petals are pure white and have a satiny wrinkled finish. Pkt. 10¢; ¼ oz. 20¢.

2624 FIRE DRAGON This beautiful variety bears large single flowers of a rich deep scarlet color. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

2631 Fordhook Hybrid This is a wonderful annual Poppy, blooming profusely in any kind of soil. The flowers are semi-double and double. They come in an amazing range of bright colors. There are beautiful white, pink, rose, salmon, scarlet, and crimson shades. Many of the flowers are delicately edged with white; other light ones have edges of deeper red. We have received many testimonials from Burpee customers everywhere who have expressed the greatest admiration for the beautiful colors of these flowers. Pkt. 10¢; ¼ oz. 35¢.

7542 Collection of Single Poppies

One packet each: Wild Rose, Tulip Poppy, Danish Flag, and Burbank's Silver Lining. The collection (value 40¢) will be mailed postpaid for **25¢**

2644 Double Peony-Flowered Poppies See illustration. This is a very beautiful large-flowered strain of Annual Poppies. The blooms are borne very profusely and resemble in form a small Peony.

**POPPY
DOUBLE PEONY-FLOWERED**

The colors include white, various shades of rose, salmon, light yellow, shades of scarlet and crimson, and some variegated blooms. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢.

CARDINAL
2632 Enormous* double Cardinal-scarlet flowers borne on long, strong stems. Pkt. 10¢; ¼ oz. 20¢.

2636 FORDHOOK FAIRY POPPIES See illustration. These lovely Poppies make a wonderful display when planted in beds or borders. They are of strong growth and bear finely laciniated, very double flowers. The petals are fringed and attractively twisted. The blooms are carried upright on strong stems 18 to 24 inches tall. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢.

2640 Snowdrift

See illustration. A most impressive Poppy with round, ball-shaped flowers which are fully double and made up of innumerable thin petals. The flowers measure 3 inches across. They are carried on a fine long stem and last quite some time as cut-flowers. Snowdrift is particularly fine for the garden because the plants make a strong and sturdy growth. Pkt. 10¢; ¼ oz. 20¢.

SNOWDRIFT

2639 Burpee's Shrimp Pink See illustration. Burpee's Shrimp Pink is an outstandingly beautiful variety. If you ever

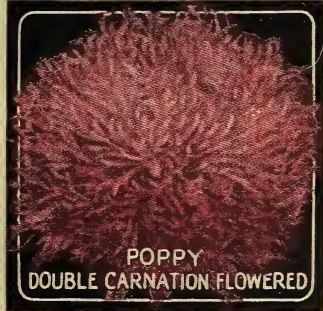

give it a trial we feel sure that you will not do without it in the future. The plants make a strong sturdy growth, about 2 to 2½ feet in height. The flowers are in full bloom during June from seeds sown early in April. The illustration of Burpee's Shrimp Pink does not convey the tremendous size of the flower. Individual blooms measuring 5 inches across are by no means rare. The color of the flowers is a soft rosy pink shading lighter toward the end of the petals. The blooms are fully double and exquisitely fringed. If young blooms are cut early in the morning, they will last a few days in water. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

**BURPEE'S
SHRIMP PINK**

2642 Double Carnation Flowered, Mixed See illustration. The Double Carnation Flowered Poppies are one of the most widely grown type of Annual Poppies.

Truly, they are outstanding in many ways and they deserve particular attention because of the wide range of brilliant colors found among them. The colors include white, crimson, scarlet, rose, lilac, light yellow, steel-blue, steel-gray, and mahogany-black. Others again show striking combinations, such as zinnabar scarlet and white, deep crimson and black, scarlet and deep purple and many others; 2½ feet tall. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢.

**POPPY
DOUBLE CARNATION-FLOWERED**

BURPEE'S FAIRY BLUSH

2634 Burpee's Fairy Blush See illustration. Burpee's Fairy Blush is truly an exquisite variety. The flowers are not only extremely large, but they are always fully double and well rounded. The flower petals are closely crowded together into a fine thick ball and have attractively fringed edges, giving the whole flower a loose, artistic appearance. The petals are a lovely rosy cream shade, gradually turning to white toward the inner part of the flower. The plants grow 18 to 24 inches tall, and are very showy. Pkt. 10¢; ¼ oz. 20¢.

**7554 Collection of
Double Poppies**

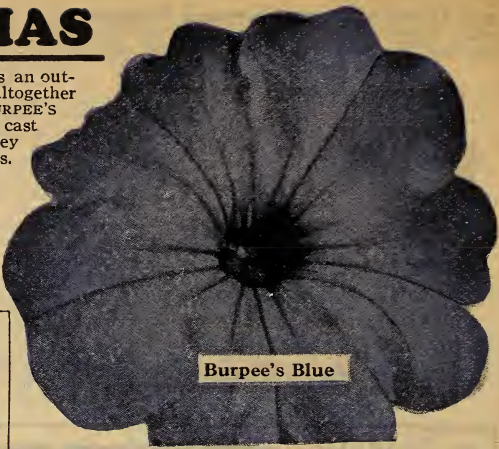

One packet each of: Double Peony-Flowered, Fordhook Fairy, Burpee's Fairy Blush, and Double Carnation Flowered. Value 40¢. They will be mailed, postpaid, for **30¢**

2638 THE MIKADO The brilliant contrast of the crimson-scarlet stripes against the white background is very striking and appeals to most gardeners. Very double; about 2 feet tall. Pkt. 10¢; ¼ oz. 20¢.
2637 GIANT ORCHID POPPY A tall-growing variety with immense flowers of a rich Cattleya-orchid shade. Pkt. 10¢; ¼ oz. 35¢.
2627 SOMNIFERUM (White Opium Poppy) Gigantic, single white flowers borne on stems 3 to 4 feet tall. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢.

BURPEE'S PETUNIAS

2563 Burpee's Blue See illustration. This is an outstanding new Petunia altogether different from other so-called "Blues" introduced heretofore. BURPEE'S BLUE is a rich clear ultramarine-blue free from any purplish cast or pink tint. The flowers measure $2\frac{1}{2}$ to $3\frac{1}{2}$ inches in diameter. They are borne with the greatest freedom on strong and vigorous plants.

BURPEE'S NEW BLUE PETUNIA is a wonderful variety for bedding or for growing in window or porch boxes. Without exception all visitors to our farms during the past season greatly admired this unique new color and the freedom with which the plants bloom. We have been growing the seed on Burpee's FORDHOOK FARMS, starting with single plant selections, which accounts for its excellency and trueness to color. Pkt. 25¢; $\frac{1}{32}$ oz. 75¢; $\frac{1}{16}$ oz. \$1.15.

Burpee's Blue

Balcony Blue

A lovely deep blue Petunia of trailing habit

Balcony White

BALCONY PETUNIAS

For window or porch boxes, dry banks, terraces, or among rockwork, the Balcony Petunias may be depended upon to supply an unsurpassed floral effect throughout the summer until frost. The seed may be started indoors and the plants set out after the weather has become warm, or it may be sown thinly in a well-prepared seed-bed about the middle of April. Balcony Petunias grow vigorously and are most profuse bloomers. The flowers are quite large—close to 3 inches in diameter.

2553 Balcony Blue See illustration. The flowers open up as a purplish blue, turning to a most beautiful violet-blue color when they fully expand. Makes a fine show in balcony or window boxes. Pkt. 15¢; $\frac{1}{16}$ oz. 65¢; $\frac{1}{8}$ oz. \$1.00.

2555 Balcony White See illustration. A magnificent pure white. The flowers are not only very large, but are borne profusely all over the long hanging branches. Blooms continuously until frost. Pkt. 15¢; $\frac{1}{16}$ oz. 65¢; $\frac{1}{8}$ oz. \$1.00.

2557 Balcony Rose Lovely bright rose flowers with a contrasting white throat. A profuse and continuous bloomer. Pkt. 15¢; $\frac{1}{16}$ oz. 65¢; $\frac{1}{8}$ oz. \$1.00; $\frac{1}{4}$ oz. \$1.55.

2570 Balcony Petunias, Mixed This mixture contains the three fine varieties described above. Pkt. 15¢; $\frac{1}{16}$ oz. 65¢; $\frac{1}{8}$ oz. \$1.00; $\frac{1}{4}$ oz. \$1.55.

7825 Collection of Balcony Petunias

This collection contains one packet each of Balcony Blue, Balcony White, and Balcony Rose. 35¢

It will be mailed to any address, postpaid, for

2569 Fluffy Ruffles Petunia

See illustration. This is a truly Giant variety, with as large or perhaps even larger flowers than the other Giant Petunias listed on pages 121 and 122. We have been growing the seed of this wonderful variety on our FLORADALE FARMS in California and believe it is one of the best Petunias we have ever seen. The large flowers are particularly attractive on account of the finely fringed and ruffled edges. The color range includes some exquisite lavender and purple shades. There are also many tones of pink, rose, and red represented. Practically all the flowers are variegated or blotched with white. Like all other Giant Petunias, the seed should be started indoors in boxes filled with finesoil. Perhaps the best method of watering the seedlings is to place the pan or pot in a large receptacle containing water and let the moisture soak up until it reaches the surface. Pkt. 35¢; $\frac{1}{128}$ oz. 85¢; $\frac{1}{64}$ oz. \$1.25; $\frac{1}{32}$ oz. \$2.05.

Fluffy Ruffles

NEW GIANT PETUNIAS

It is marvelous to see what expert plant breeders have done with the old-fashioned, small-flowered Petunia which was grown by our grandparents many years ago. They have grown to a size which makes it hard to believe that they actually originated from the old type. The Giant Petunias we offer are all of immense size and heavy texture. There are some varieties which have plain edges, some fluted, and some waved edges. Again there are others which are fringed or laciniated in a most artistic manner. The range of colors will be found so complete that those who prefer certain colors will find a shade suited to their taste. The flowers of some varieties are nearly round. In others they show distinct laps, and there are some varieties in which the flowers are distinctly five-petaled, even though the fringing and waving caused by the mass of substance very often hides this effect.

These large-flowered Giant Petunias require a trifle more care to grow than the ordinary type. The very small and expensive seed should be planted carefully indoors in boxes or pans. Water the soil before sowing and barely cover the seed with fine sandy dry soil, carefully sifted.

A sunny window in a moderately warm room should be chosen for the seed boxes. Keep moderately moist at all times. Set the plants out in the open, 12 inches apart, the latter part of May, when the maple trees are in full leaf.

2532 Giant Blue and White See illustration. A most outstanding variety, with large, well-waved flowers. The blooms are strikingly marked with irregular blotches of deep blue on a pure white ground. No two flowers, even on the same plant, are marked alike. Some of them show decidedly more blue than white, others again show comparatively few blotches of blue. Blooms freely and continuously from mid-summer until fall. Pkt. 35¢; 1/128 oz. \$1.35; 1/64 oz. \$2.00; 1/32 oz. \$3.25.

2537 White Beauty See illustration. A distinctly beautiful Giant variety with well-waved edges. The blooms are pure white, attractively veined with light apple-green in the throat. There are also a few lines of bright copper-carmine. Pkt. 25¢; 1/128 oz. \$1.00; 1/64 oz. \$1.50; 1/32 oz. \$2.40.

2542 Fancy The immense flowers are of most artistic form. They are well expanded and have a finely frilled or ruffled edge. The color of the blooms is soft lilac shaded with deeper lilac, heavily veined with deep carmine-purple. The fine artistic network of these veins greatly enhances the beauty of the flower. Pkt. 25¢; 1/128 oz. \$1.00; 1/64 oz. \$1.50; 1/32 oz. \$2.40.

2536 Portland Beauty Portland Beauty is a most beautiful flower. The blooms are deeply lobed and much waved, being finely and irregularly fringed on the edges. The color of the blooms is a deep tyrian-rose shaded with carmine and heavily veined with purplish black. The veining is most prominent in the throat, gradually disappearing as it approaches the edges. It is a strong grower, blooming freely and continuously from mid-summer until frost. Pkt. 25¢; 1/128 oz. \$1.00; 1/64 oz. \$1.50; 1/32 oz. \$2.40.

7698 Collection of Giant Petunias

The beautiful colors found in the Giant Petunias may be combined well into beds or borders and we have made up a special collection of five varieties. These are: **White Ruffled Monster**, **Scarlet Beauty**, **Charm**, **Elk's Purple**, and **Pink Glory**. We will mail one packet each of these five glorious varieties, all belonging to the Giant class, postpaid, to any address for **\$1.00**

ELK'S PURPLE

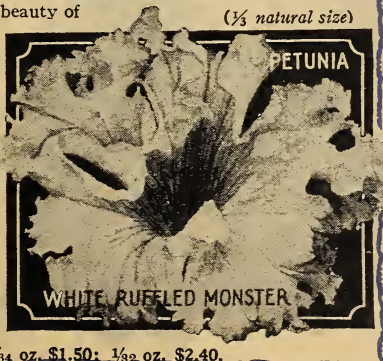

2539 Elk's Purple

See illustration. A most outstanding variety, with immense flowers of rich deep Elk's purple. The texture of the petals is substantial and of velvety appearance. The blooms are enormously large and heavy. They are most attractively waved, forming, with their large lobes, a fine five-fingered star. The velvety black veins add much to the beauty of the magnificent flowers. Elk's Purple is not only a strong grower, but also a very profuse bloomer. Pkt. 35¢; 1/128 oz. \$1.35; 1/64 oz. \$2.00.

(1/3 natural size)

2530 White Ruffled Monster See illustration. No description could convey the beauty of

this flower. It is of mammoth size and so much waved that it appears almost double. The edges are beautifully waved and crinkled. Contrasting with the pure white, there are some beautiful light green veins which run from the throat toward the margin. The effect of this combination is particularly attractive. White Ruffled Monster deserves a place in every garden. It looks well if planted in beds and also shows up to good advantage if grown in hanging baskets or porch-boxes. It is of strong growth and blooms most profusely. Pkt. 25¢; 1/128 oz. \$1.00; 1/64 oz. \$1.50; 1/32 oz. \$2.40.

2535 Lilac Beauty See illustration.

The texture of the petals is heavy and in keeping with their large size. The color is a charming soft lilac-blue which shades into a fine violet-blue near the margin. The beauty of this variety is greatly enhanced by the deep violet-blue veins which run from the tube toward the outer margin, forming a most artistic lace-like pattern. These veins are quite distinct, yet they are delicate and greatly increase the beauty of the flowers. Pkt. 35¢; 1/128 oz. \$1.35; 1/64 oz. \$2.00; 1/32 oz. \$3.25.

GIANT PETUNIAS—Continued

2528 Charm See illustration. Charm is a beautiful variety with bright rose-pink flowers shading lighter toward the throat. The flowers are large and deeply lobed. They are beautifully waved and have an exquisite fringe. The lemon-yellow throat shows some light apple-green veins. Pkt. 25¢; $\frac{1}{128}$ oz. \$1.00.

2534 Apple Blossom A most beautiful tint of apple-blossom pink. Large and well-waved blooms with most exquisitely fringed edges. Pkt. 25¢; $\frac{1}{128}$ oz. \$1.00; $\frac{1}{64}$ oz. \$1.50; $\frac{1}{32}$ oz. \$2.40.

2541 Scarlet Beauty See illustration. Scarlet Beauty represents one of the highest types among the Giant Petunias. There is so much substance to the flowers that the petals caused by the deep lobes overlap each other. The lace-like fringe adds to the good appearance of this variety. The color is a brilliant velvety scarlet, shading to a luminous rose, with an attractive pattern of deep purplish crimson veins. Pkt. 25¢; $\frac{1}{128}$ oz. \$1.00; $\frac{1}{64}$ oz. \$1.50.

2529 Pink Glory See illustration. Pink Glory is of vigorous growth, branching freely near the ground and making a strong spreading bush. The foliage is thick and of a dark green color. The flowers are large, of heavy texture, well waved, and of a most exquisite, luminous pink color. The large open throat is pure white, finely marked with lemon-yellow veins. The contrast of the light throat with the bright pink corolla is most striking. Pkt. 35¢; $\frac{1}{128}$ oz. \$1.50; $\frac{1}{64}$ oz. \$2.25.

DOUBLE PETUNIA

2574

Fordhook Fancy Fringed

This strain of carefully hand-pollinated seed will yield a large percentage of plants having double, finely fringed flowers. Our strain embraces a splendid variety of colors in many beautiful combinations, including delicate mauve, porcelain-blue, snowy white, rich garnet-red, and many dark velvety shades. Start the seed indoors in shallow boxes, barely covering it from view. Seed very costly. Small pkt. 35¢; $\frac{1}{128}$ oz. \$1.65; $\frac{1}{64}$ oz. \$2.45; $\frac{1}{32}$ oz. \$3.95.

2567 BURPEE'S DEFIANCE PETUNIA

We have been growing this strain of Defiance Petunias for many years on both our FORDHOOK FARMS in Pennsylvania and our FLORADALE FARMS in California. Every year we have selected the largest and most beautifully marked plants for stock seed. This selection, which has been going on for over twenty years, has given us a strain of Giant Petunias which we believe is unequalled. We know of no other mixed type of Giant Petunias which produces as large flowers and includes as wide a range of beautiful colors.

The shades found in Burpee's Defiance Petunia are indescribably rich and varied. Many of the flowers are self-colors, others again shade to white in the throat. The attractively mottled, striped, blotched, and veined flowers deserve particular mention. Burpee's Defiance Petunias have been further selected for strong healthy growth and free blooming qualities. We can highly recommend this strain for beds, borders, or porch boxes. Pkt. 25¢; $\frac{1}{128}$ oz. 85¢; $\frac{1}{64}$ oz. \$1.25; $\frac{1}{32}$ oz. \$2.05; $\frac{1}{16}$ oz. \$3.90.

Dwarf Petunias This beautiful type is particularly well suited for beds or borders. The plants form neat round bushes which are covered with many bright flowers. Excellent for beds and borders or porch and window boxes. Start the seed in the open as soon as the ground can be prepared.

2550 ADONIS See illustration. Adonis is a very lovely variety with small flowers borne in such profusion that the plants are completely covered from midsummer until cut down by frost. It is one of the brightest of all small-flowering Petunias. Whether planted in beds or borders, it is extremely showy and looks neat and clean throughout the season. The flowers are a soft carmine-rose with a contrasting white throat. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢.

2554 INIMITABLE See illustration. A very fine companion to the other small-flowered Petunias. The flowers are white, attractively starred and striped with a contrasting rich crimson shade. A very profuse bloomer and strong grower. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

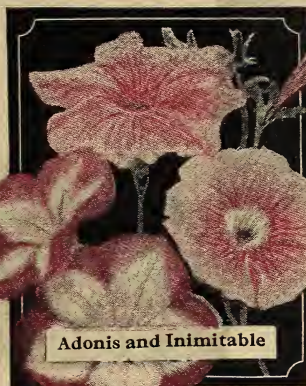

2556 ENCHANTRESS MIXTURE This is a mixture which will make a delightful showing. It includes all the fine dwarf and compact bedding varieties. From midsummer until fall the plants are covered with their gaily colored flowers, giving a display which words fail to describe. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

Brilliant Rose and Snowball

2552 BRILLIANT ROSE. See illustration. A particularly attractive shade of rich rose. A most satisfactory free-blooming variety that makes a fine show. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

2559 SNOWBALL See illustration. Neat and compact bushes of bright green leaves covered with a mass of small star-shaped white flowers. Blooms borne freely from early summer till frost. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

Adonis and Inimitable

Bedding Petunias

The Bedding Petunias are of a spreading growth, and much used for beds or in broad and irregular borders. They bloom freely and grow luxuriantly even under adverse conditions. Recommended for porch and window boxes to hang over the edges.

2560 ROSY MORN See illustration. The throat is silvery white, shading to soft rose-pink toward the edges. Pkt. 10¢; 1/16 oz. 40¢; 1/8 oz. 60¢; 1/4 oz. 95¢; 1/2 oz. \$1.40.

2561 GENERAL DODDS The large and well-shaped crimson flowers are borne freely and continuously until late in fall. Pkt. 10¢; 1/16 oz. 40¢; 1/8 oz. 60¢.

2558 HOWARD'S STAR See illustration. The flowers are attractively marked with a distinct five-pointed white star on purplish crimson ground. Blooms continuously. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢.

Rosy Morn

General Dodds

**Burpee's
Seeds
Grow**

Howard's Star

2571 Grandiflora

Mixed The flowers are large, well expanded, and of fine, heavy texture. Their size is considerably larger than the dwarf and bedding Petunias. They are used extensively for bedding because they flower very freely and make a fine display from early summer until cut down by frost late in the fall. The color range is beautiful, including many bright shades. Pkt. 15¢; 1/8 oz. 45¢; 1/16 oz. 70¢; 1/8 oz. \$1.10.

2538 ROSE OF HEAVEN This is a recent addition to the bedding class of Petunias. The flowers are perhaps a trifle larger than those of other varieties, and they are borne continuously from midsummer until fall. The color is a brilliant and luminous carmine-rose, strong enough to take the eye, yet soft enough to appeal. Pkt. 10¢; 1/16 oz. 40¢; 1/8 oz. 60¢.

2565 HYBRIDA, MIXED This mixture includes all four varieties described under the Bedding Petunias and a large number of others belonging to the same class. All of the varieties are very beautiful. Only strong-growing and free-flowering kinds have been added to the mixture. This Bedding type is excellent for larger beds or irregular borders because the plants make more of a bedding growth than the dwarf Petunias described above. We suggest sowing the seed of this mixture in quantity, even though a good effect can be created with small beds or short borders. Pkt. 10¢; 1/16 oz. 25¢; 1/8 oz. 40¢; 1/4 oz. 60¢; 1/2 oz. 95¢.

ROSE OF HEAVEN

7537 Petunia Collection

One packet each of General Dodds, Rosy Morn, and Howard's Star. These three packets will be mailed to your door, postpaid, for **25¢**

Lobelia tenuior

2155 TENUIOR See illustration. It forms a bush of upright, compact growth, 8 to 12 inches in height. The beautiful ultramarine-blue flowers are thrown quite above the plant on erect, wire-like stems. The flowers are fully four times larger than the dwarf type, blooming from June until frost. A very fine variety for smaller beds or borders. It does particularly well where the weather does not get excessively hot during the summer. Pkt. 15¢; 1/8 oz. 50¢; 1/4 oz. 75¢; 1/2 oz. \$1.20.

Lobelia The annual Lobelias are plants of dwarf growth, 4 to 6 inches in height, covered with numerous small, star-like flowers. The compact varieties are very pretty when grown as an edging for flower-beds or in formal beds. The gracilis varieties are of spreading growth and make fine house plants during the winter besides their use for a broad irregular border. They are grown extensively in hanging baskets or in porch boxes, where they can hang gracefully over the edges.

The seed should be sown in boxes filled with fine soil and placed in a warm sunny window, or in shallow drills outdoors when the trees are starting out in leaf, barely covering the seed from view. The plants will bloom continuously from June until frost. The soil should be sandy and porous to provide complete drainage.

2146 GRACILIS, BLUE A dwarf spreading variety with slender stems. It is an excellent variety for the low border, where it will make a mass of slender creeping stems covered with beautiful blue flowers. Grown extensively in porch boxes or hanging baskets to trail over the edges. Pkt. 10¢; 1/8 oz. 40¢.

2145 CRYSTAL PALACE (*Erinus compacta*) See illustration. A most attractive border-plant of small compact growth, covered with deep azure-blue flowers. Because the plants never grow out of bounds and produce their attractive flowers continuously, they are universally used where a compact dwarf border or bedding plant is wanted. Pkt. 10¢; 1/8 oz. 45¢; 1/4 oz. 70¢; 1/2 oz. \$1.10.

2151 WHITE GEM The plants make a compact dwarf growth about 6 inches tall. The flowers are a fine paper-white. Pkt. 10¢; 1/8 oz. 40¢.

2147 FINEST MIXED A carefully blended mixture of the best varieties with white, pink, and blue flowers. Pkt. 10¢; 1/8 oz. 40¢.

Crystal Palace

"Love-in-a-Mist"—

Nigella This is one of our prettiest old-fashioned annuals. It will grow well even under adverse weather conditions and withstands considerable heat and drought. Fine for the border, beds, or cutting.

Sow in April or May in light soil and thin to stand 10 inches apart. The plants grow 12 to 15 inches tall. Love-in-a-Mist is a very quick growing annual, blooming 8 to 10 weeks after sowing.

2382 DAMASCENA, DOUBLE MIXED Attractive blue and pure white flowers. Easily grown and sure to bloom anywhere. Pkt. 10¢; 1/4 oz. 20¢; 1/2 oz. 30¢; oz. 50¢.

2383 MISS JEKYLL See illustration. The double flowers are a deep rich blue, contrasting well with the dainty light green foliage. Pkt. 10¢; 1/4 oz. 25¢; 1/2 oz. 40¢.

Nigella—Miss Jekyll

**Four O'clock
Marvel-of-Peru**

The flowers remain closed until about 4 o'clock in the afternoon, when they all open together and the plants become a glowing bank of vivid coloring, filling the air with their delightful fragrance. Sow early in the spring.

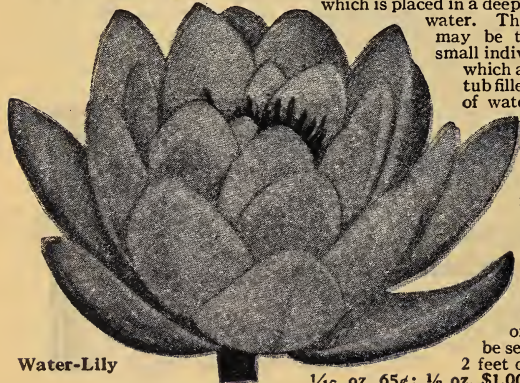

2196 TALL MIXED The colors include red, yellow, yellow striped red, white striped red, also some with three and even four colors in one flower; 2 1/2 feet tall. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; lb. \$1.90.

2198 TALL VARIEGATED - LEAVED Brilliant flowers, in red, yellow, white, and variegated colors, forming a fine contrast to the golden-hued foliage; 2 to 2 1/2 feet tall. Makes a superb hedge. Pkt. 10¢; oz. 25¢; 4 ozs. 70¢; lb. \$2.40.

2200 TOM THUMB, MIXED Compact plants, with variegated golden foliage and numerous brilliant flowers. Height, 18 inches. Because of its compact bushy growth it is particularly fine for borders. Pkt. 10¢; oz. 30¢; 4 ozs. 85¢; lb. \$2.90.

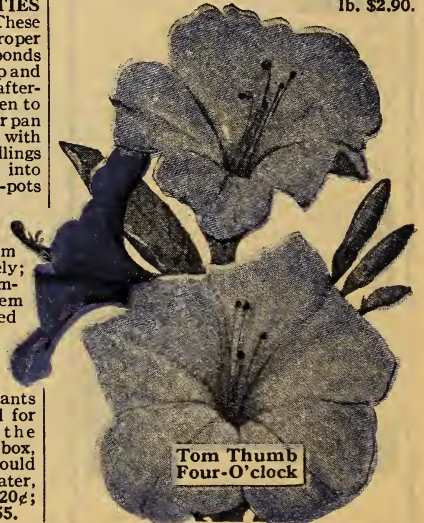

2385 Water-Lily MIXED, TENDER VARIETIES (*Nymphaea*). See illustration. These

showy Water-Lilies can be grown from seed, but success depends on proper planting and the right care of the seedlings. Water-Lilies can be grown in ponds or large tubs sunk part way into the lawn. Take a dish about 3 inches deep and fill the bottom with 1 inch of fine rich soil. Sow the seed and cover firmly, afterward adding about 1 inch of clear water. The greatest care must be taken to prevent the washing of the soil; or the seed may be sown in a shallow flower pan which is placed in a deep saucer filled with water. The young seedlings may be transplanted into small individual flower-pots which are set into a tub filled with 2 feet of water, submerged completely; or a number of them can be planted in a large tub where they are allowed to bloom.

Water-Lily

1/16 oz. 65¢; 1/8 oz. \$1.00; 1/4 oz. \$1.55.

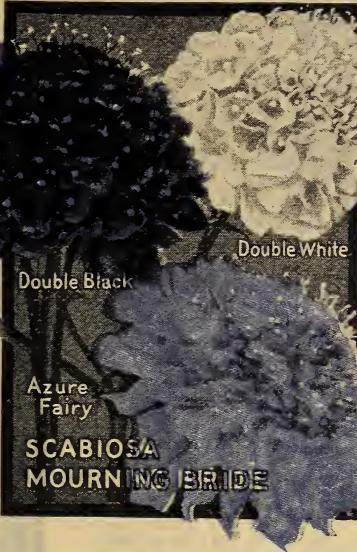

Tom Thumb Four-O'clock

SCABIOSA—Mourning Bride

Quite hardy plants, flowering freely in cool locations all during the summer and fall. The seed should be sown thinly in shallow drills early in spring when the trees are starting out in leaf. When well started, thin out or transplant to stand 6 inches apart. The plants form compact rounded bushes with dark green foliage, 8 to 10 inches in height. The flowers are borne above the foliage on tall, slender, but quite stiff stems nearly 2 feet in height, and are of fine, rounded, full-centered form. The dwarf variety listed grows altogether 12 inches tall.

2701 Azure Fairy
See illustration. This magnificent Scabiosa bears an abundance of perfectly double, long-stemmed flowers that come uniformly in a lovely sky-blue color. The outer petals are particularly broad and the flowers are very large. Blooms freely and continuously during late summer and fall. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

2703 Double Black See illustration. Elegant deep black-purple flowers with white pistils. It is an outstanding variety and blooms very freely for many weeks. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

2704 DOUBLE RED This is indeed a most desirable shade of rich red. The flowers are large and double. They are borne freely on long stems. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

2705 Double White
See illustration. Charming double white flowers, gracefully carried on long slender stems. An excellent variety. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

2706 DOUBLE ROSE A delicate yet rich shade of rose blending well with the other colors of Scabiosas. The flowers are borne on fine long stems. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

2707 LARGE-FLOWERED DOUBLE, MIXED This is a complete mixture of all the finest colors. Of tall growth and very free flowering. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

2699 DWARF DOUBLE, MIXED The plants are of dwarf compact growth, crowned by a wealth of brightly colored flowers. Excellent for beds or borders. Pkt. 10¢; ¼ oz. 30¢.

7755 Scabiosa Collection

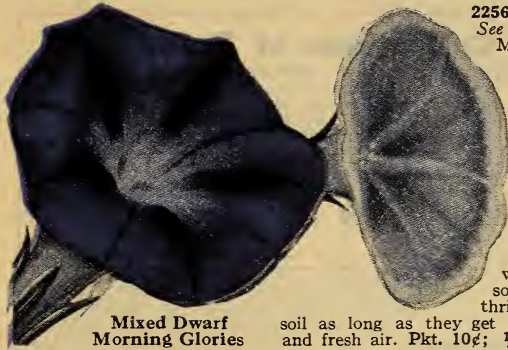

We have included in this collection one packet each of the three fine varieties of Scabiosa illustrated: **Double Black, Azure Fairy, and Double White.** They will give plenty of flowers. Value 30¢, mailed to any address, 25¢ postpaid, for

1928 Rainbow Corn

See illustration. A stately plant growing 5 to 6 feet tall, with broad and long leaves which are superbly striped with red, rose, yellow, white, and bronze. Plant the seeds early in the spring. Excellent for background planting, for hiding unsightly corners, or separating the vegetable from the flower garden. Of fine tropical appearance. Pkt. 10¢; oz. 25¢; 4 ozs. 70¢.

Dwarf Morning Glories

2256 MIXED COLORS
See illustration. Dwarf Morning Glories are valuable for beds or borders. The plants grow 10 to 12 inches tall.

This mixture contains many self-colors in blue, rose, and purple and also striped and flaked varieties.

Sow the seed when the maples are coming into leaf, covering with ½ inch of fine soil. The plants will thrive in almost any soil as long as they get plenty of sunshine and fresh air. Pkt. 10¢; ½ oz. 15¢; oz. 25¢.

Anthemis 1513 ARABICA

Where a free and continuous blooming annual is wanted for a sunny location and dry soil, Anthemis will fill the place very well. It is a native of Spain and the Northern Coast of Africa, but grows well in our climate, blooming profusely from July until frost. The flowers are a brilliant golden orange-yellow. They are daisy-like and are borne close to the stem. Anthemis is easily grown and should be sown outdoors when the maples are coming into leaf. Or the seed can be started indoors during March. Set in the open 12 inches apart when the maples are in full leaf. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢.

Sanvitalia 2693 PRO-CUMBENS

fl. pl. See illustration. A lovely free-blooming annual producing a wealth of flowers about ten weeks after the seed is sown. The plants are of compact, dwarf growth, with branches measuring 8 to 10 inches long. It is particularly suited for making beds or dwarf borders to other flowers or the lawn. As a pot-plant it will bloom freely for many months. The flowers are fully double, not unlike a small Zinnia in appearance. They are a bright orange-yellow color. Sow the seed thinly in rows outdoors when the maples are coming into leaf, or start indoors during March. Pkt. 10¢; ½ oz. 25¢; ¼ oz. 40¢.

BURPEE'S PHLOX

Phlox is one of the easiest grown and most satisfactory of all summer-flowering annuals. Whether sown en masse or as a single border, the brilliant colors found among Phlox always make a good impression. One of the most valuable characteristics of this annual is its free blooming habit. But in order to have good stocky plants the seedlings should be thinned to stand not less than 6 inches apart in the row. The plants grow 15 inches tall.

Usually the seed is sown outdoors when the maples are coming into leaf. Sow thinly and cover with a quarter inch of fine soil. When the young plants are about an inch or two tall, they should be carefully thinned to allow 4 to 6 inches of space between the plants so that they can develop freely. For extra-early flowers the seed can be sown indoors in pans or boxes. The seedlings are transplanted once before being put out in the open garden, about the end of May. Phlox is also fine as a pot-plant, but the dwarf varieties are usually preferred for this purpose because of their stockier habit.

We have been growing our special strain of Annual Phlox on Burpee's Fordhook Farms in Pennsylvania, and visitors always greatly admire the large fields of brilliant colors.

SCARLET

2592 SCARLET See illustration. Scarlet is a very taking variety, which is particularly brilliant when seen in the full sun. It is an intense rich scarlet. The large, well-formed flowers make up into magnificent big heads which completely cover the plants. When planted beside Burpee's Giant White, the color is seen at its best. In order to have well-developed plants sow the seed thinly. Thin the young plants to stand 6 inches apart in the row. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢.

2599 SPLENDENS See illustration. The contrast created by the small white eye and the bright rich red petals is most striking and attractive. It is an excellent variety for either bedding or potting, blooming freely and continuously for many weeks. The white eye helps considerably to bring out the richness of the flower. Large, well-rounded heads on long stems. Whether planted alone or with some white or light shades, Splendens always makes a fine show. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢.

SPLENDENS

BURPEE'S GIANT WHITE

2583 BURPEE'S GIANT WHITE See illustration. This is perhaps the largest flower of all the annual Phlox. The heads are made up of large individual blooms and form a massive cover of pure white over the rich green foliage. It is a strong grower and sturdy bloomer, seen at its best if contrasted with a deep red shade. Because of its free-blooming habit it makes a very fine display if planted in a double row, as a border to larger beds, or as an edging to the lawn. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢; oz. \$1.10.

Annual Phlox is as fine a cut-flower as it is a bedding plant

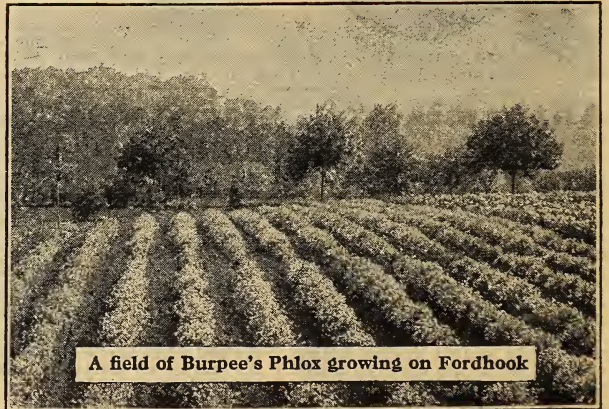

This fine annual is a great Burpee Specialty

Collections of Phlox

We have included in these collections the following four fine varieties of annual Phlox, which will make a beautiful show whether planted as a bed or border, or used for the window or porch box: **Rose Star, Brilliant, Burpee's Giant White, and Fordhook Crimson.**

7564 One packet each of these four free-flowering varieties (value 40¢) will be mailed to you, postpaid, for **30¢**

7565 One-eighth ounce each of these four beautiful Phlox (value \$1.25) will be mailed to you, postpaid, for **75¢**

A field of Burpee's Phlox growing on Fordhook

2606 FORDHOOK LILAC This is an entirely new shade among the annual Phlox. The color is a soft bright lilac, accentuated by a white eye in the center. Fordhook Lilac is a very free and continuous bloomer, with large flowers borne in handsome clusters. The plants are of stocky growth and flower most profusely all during late spring and summer, and way into the fall if they are given plenty of space to develop. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

Ruby
A very fine
ruby-red

2585 RUBY See illustration. This dark shade is most attractive. It stands out strongly from the light green foliage. Like all other Burpee strains, the individual flowers are very large, combining into flower-heads of immense size. The color of the blooms is a deep maroon or blood-red. It is in combination with other more brightly colored or light varieties that Ruby finds its place. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢; oz. \$1.10.

2581 Fordhook Finest Mixed

We are offering a blend of all the varieties of annual Phlox described on these two pages, and we have added a few other large-flowered varieties which we feel deserve a place in the mixture. It will make a fine display of brilliant colors, and the well-rounded, closely formed flower-heads with their long stems will make fine cut-flowers. Grow plenty of this annual Phlox either in the border or in large, solid beds. Pkt. 10¢; 1/8 oz. 25¢; 1/4 oz. 40¢; 1/2 oz. 60¢; oz. 95¢.

2601 VIOLET Careful selection has given us a greatly improved shade in this popular color. The flowers are large and of a uniform bright violet. A free and continuous bloomer, bearing a mass of bold heavy flower-heads. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

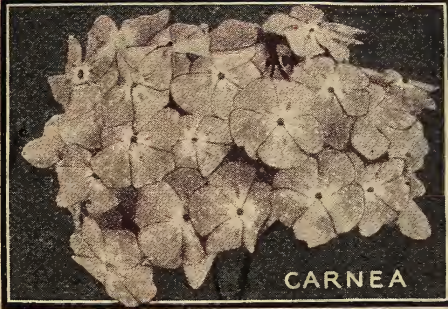

2603 PRIMROSE Our strain of this variety has been carefully selected to produce large flowers of a rich deep Primrose shade. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢.

2590 FORDHOOK CRIMSON See illustration. A magnificent and beautiful shade of rich crimson which looks particularly well if seen in full sunlight. The individual flowers are large and make up into well-rounded massive heads during blooming season. The plants are covered with flowers so that hardly any foliage is visible. For contrast, it should be planted together with lighter shades. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢; oz. \$1.30.

2591 APRICOT A truly glorious shade of bright chamois-rose with a fine white star in the center. Those who like the lighter and more delicate colors in their garden should plant Apricot. A strong-growing and profuse-blooming variety with fine large flower trusses. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

ROSE STAR

CARNEA

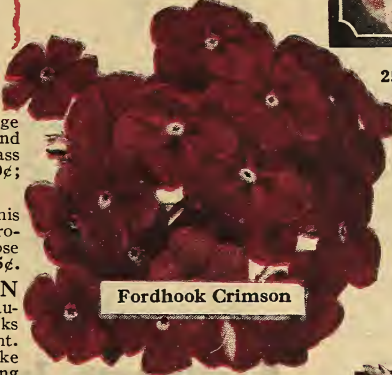

2589 CARNEA See illustration. A lovely and most beautiful light shade of pink overlaid with soft salmon, with bright apricot markings around a white eye. It is a pleasing, cheerful variety which blooms freely and continuously for many weeks. The habit of the plant is stocky and strong and the blooms are borne in clusters held above the foliage. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢; oz. \$1.10.

BRILLIANT

2587 BRILLIANT See illustration. The flowers are a brilliant rich shade of bright pink of varying intensity, contrasting sharply with the red eye in the center. The combination is very beautiful. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢.

2607 STARRED AND FRINGED See illustration. The flowers are either starred or fantastically fringed. Many bright shades, usually with a distinct white border. Excellent for cutting. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢; oz. \$1.10.

Fordhook Crimson

DWARF PHLOX

The flower stems of this type average 5 to 6 inches in height and are covered with heavy trusses composed of large individual blooms. Excellent for small beds and borders, or for growing in pots or boxes for display during spring, summer, and fall.

2609 FIREBALL A bright, luminous shade of fiery scarlet. It blooms so freely that it completely hides the foliage. Pkt. 15¢; 1/8 oz. 50¢; 1/4 oz. 75¢; 1/2 oz. \$1.20.

2610 DWARF PINK A fine counterpart to both Fireball and Snowball, with lovely bright pink flowers of immense size borne in big trusses. The individual flowers are fully as large as the blooms of the tall strains. Pkt. 15¢; 1/8 oz. 50¢; 1/4 oz. 75¢; 1/2 oz. \$1.20.

2611 SNOWBALL The effect this pure snow-white variety gives in beds or borders is wonderful. It deserves to be grown as a pot-plant because the flowers are of mammoth size and exquisite wax-like texture. Pkt. 15¢; 1/8 oz. 50¢; 1/4 oz. 75¢; 1/2 oz. \$1.20.

2613 DWARF MIXED This is a mixture of a large number of colors, including the three listed separately above. The plants are of compact growth with mammoth heads. Pkt. 15¢; 1/8 oz. 45¢; 1/4 oz. 70¢; 1/2 oz. \$1.10.

**PHLOX
STARRED AND FRINGED**

A most interesting and unusual variety

Lupines Hirsutus,
Large Blue and
Large White

Lupines

Sow the latter part of April, when the maples are in leaf and the nights have become moderately warm and all danger of frost has passed. Cover the seeds with $\frac{1}{4}$ to $\frac{1}{2}$ inch of fine soil and press down firmly to bring the seed in close contact with the soil. When the plants are about 3 inches tall, thin to stand 12 to 18 inches apart in the row. They bloom from June until August.

2158 SUBCARNOSUS (The Deep Blue Texan Lupine) Lovely long spikes closely set with large flowers of a rich deep blue with a deep carmine-purple blotch and a white keel. It blooms profusely during June, July, and August; 12 to 18 inches tall. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.10.

2159 HIRSUTUS, LARGE BLUE See illustration. Beautiful clear blue flowers, set closely on long spikes; 20 to 24 inches tall. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.10.

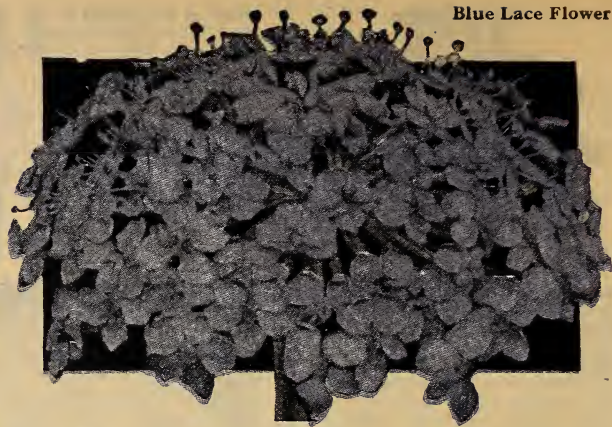

2160 HIRSUTUS, LARGE ROSE The flowers are a fine soft rose, shading to white. A dainty combination of colors forming beautiful long spikes. It is a free bloomer. Pkt. 10¢; oz. 40¢; 4 ozs. \$1.10.

2161 HIRSUTUS, LARGE WHITE See illustration. Clear snow-white flowers, borne above the attractive light green leaves. A most beautiful cut-flower; 24 inches tall. Pkt. 10¢; oz. 40¢.

2162 MIXED This mixture contains a well-balanced assortment of the varieties listed above and some other fine annual Lupines. Pkt. 10¢; oz. 25¢; 4 ozs. 70¢.

Lupine Collection

7815 This is a wonderful collection of these easily grown and free-blooming annuals. After you have once grown Lupines you will never do without them in your garden. The assortment contains one packet each of four fine varieties: Subcarnosus, Large Blue, Large Rose, and Large White. This fine collection (value 40¢) will be mailed, postpaid, for **25¢**

Blue Lace Flower

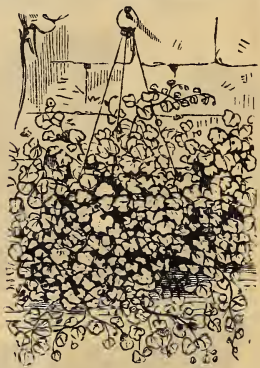

2774 Blue Lace Flower (Didiscus cœrulea)

See illustration. Blue Lace Flower, or Queen Anne's Lace Flower, as it is often called, grows into an upright, very-much branched plant 2 feet tall. The main stem branches quite close to the ground and each one of the many side stems carries an umbel of light sky-blue flowers which spreads out in umbrella-like fashion. Blue Lace Flower is a most attractive, easily grown annual, with its beautiful delicate lace-like flower-heads.

The plants bloom freely in the open from June until September. The flower-heads measure over $2\frac{1}{2}$ inches across on well-grown plants. The best plants are raised in a sandy, porous soil and in a sunny location. An excess of moisture is sure to spoil the good results, and if water is given during dry weather, care should be taken to prevent the splashing of the stems or foliage.

Sow the seed thinly when the maples are coming into leaf, in a well-prepared bed, covering the seed with $\frac{1}{4}$ inch of fine soil. The young plants will come above ground in from 2 to 3 weeks after planting, and when the seedlings are about 3 inches tall they should be thinned to stand 10 to 12 inches apart.

For early blooms sow the seed indoors in a shallow pan about the middle of March and set the plants into the garden about the middle of May, when the nights are quite warm. Pkt. 10¢; $\frac{1}{8}$ oz. 40¢; $\frac{1}{4}$ oz. 60¢.

Kenilworth Ivy

2131 (Linaria cymbalaria) A well-known trailing plant which will seed itself from year to year and is most useful for covering rock-work or stumps because of its attractive bright green foliage. The small flowers are borne on long stems held above the foliage. They are bright lilac with yellow throat. It can be sown in boxes or hanging baskets any time of the year to which it adds a touch of gracefulness. Kenilworth Ivy thrives in a stony location, particularly when shaded during part of the day. In sunny exposures the leaves are smaller and less numerous, but the flowers are borne more abundantly. It may be sown broadcast and as thinly as possible, merely raking the surface lightly afterward to cover the seeds. Pkt. 10¢; $\frac{1}{4}$ oz. 45¢; $\frac{1}{2}$ oz. 70¢; oz. \$1.10.

2078 Erysimum

PEROFSKIANUM This lovely and easily grown annual is native of the Caucasus Mountains and has proven to do well in climates met with in most sections of our country.

The seed should be sown any time during spring. Being perfectly hardy, the first opportunity should be taken to sow the seed outdoors, thinly, in rows, when the ground is in good condition. The flowers are borne profusely 8 to 10 weeks after the seed is sown and the plants continue blooming for 2 months and even longer. The single flowers are borne in small heads. They are a vivid brilliant orange-yellow color. Few annuals are as easily grown and make such a wonderful and showy display. Choose a sunny place where the plants can get plenty of fresh air. A light sandy soil containing a good quantity of lime will give the best results. When the seedlings are large enough to be handled, thin to stand 6 inches apart in the row.

The seed can also be sown late in the fall and the plants will then come into bloom much earlier. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢; $\frac{1}{2}$ oz. 55¢; oz. 85¢.

While in nature all colors harmonize, many gardeners prefer certain combinations. Fine displays can be made with white and red, yellow and blue, or orange and purple. To help the Burpee friends in planting a garden to suit their particular taste of colors, we have prepared a number of color collections of flowers which are given on page 105 of BURPEE'S ANNUAL.

BURPEE'S BALSAM

Of easy culture, fine for the garden or for pots. Choose a moderately heavy soil and a sunny location. When in full bloom, give plenty of water. The individual flowers frequently measure 2½ inches across. They are fully double, with broad reflexed petals. The plants form symmetric, well-branched, erect bushes, the branches being almost covered with the magnificent double flowers. Sow in the open the latter part of April or early May, or sow indoors early in April and set out to stand 12 inches apart the middle of May. Height, 2 feet.

1741 CHAMOIS-ROSE A most appealing color of bright rose overlaid with a rich maize shade. Pkt. 10¢; ¼ oz. 35¢.

1743 PURE PINK A magnificent flower of elegant form and rich pink color. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

1747 GLORY We feel sure that this fine novelty will become very popular. The flowers are very large and double. The color is a rich fiery rose-pink. Pkt. 15¢; ¼ oz. 65¢; ½ oz. \$1.00; oz. \$1.55.

1748 Royal Purple See illustration. This is a very popular variety with bright purple flowers. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

1750 SHINING SCARLET A magnificent flower of fully double form and a rich fiery scarlet color. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢.

1751 TEA ROSE Lovely creamy white flowers of unusual beauty. The flowers are of excellent form and immense size. It is a continuous bloomer. Pkt. 25¢; ¼ oz. \$1.25.

1754 Pure White As with many other flowers, the white is always in great demand. Pkt. 10¢; ¼ oz. 35¢.

1764 FASCINATION Heavy spikes of bright chamois-rose. A highly attractive variety. Pkt. 15¢; ¼ oz. 65¢; ½ oz. \$1.00; oz. \$1.55.

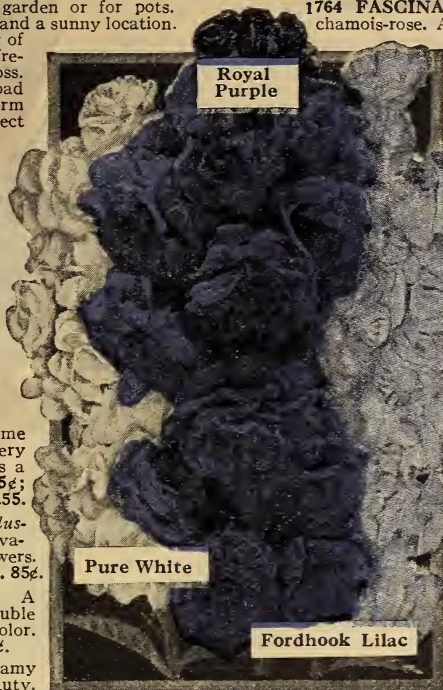

1766 Fordhook Lilac See illustration. An appealing shade of bright lilac. Blooms continuously. Pkt. 15¢; ¼ oz. 65¢; ½ oz. \$1.00; oz. \$1.55.

BURPEE'S "EXQUISITE"

1742 This variety has been very appropriately named because the colors represented in the flowers are truly exquisite. It is extremely free flowering, and is an outstanding variety because of its fine sturdy habit and profusion of blooms. The flowers are a fine creamy buff, attractively suffused with a warm shade of deep apricot. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢.

1761 FORDHOOK FANCY The petals exhibit tones of soft and rich salmon-pink. A striking and free-blooming variety which never fails to attract attention. Of strong sturdy growth and of good habit. Pkt. 10¢; ¼ oz. 45¢; ½ oz. 70¢; oz. \$1.10.

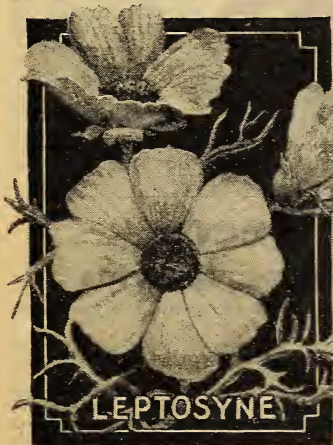

1762 FORDHOOK TRICOLOR The ground color is white, irregularly striped with rich blood-red, and shaded with soft pink. This combination is of most attractive appearance. Pkt. 10¢; ¼ oz. 45¢; ½ oz. 70¢.

7800 Balsam Collection We will mail one packet each of the 3 varieties of Balsam illustrated: **Pure White, Fordhook Lilac, and Royal Purple** (value 35¢), to your door, postpaid, for **25¢**

1759 Mixed Defiance A well-balanced mixture of all the above remarkable colors. This will give a wonderful showy bed or border because of its wide color range and uniform height. The large flowers are very double. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

It has been the aim of the House of Burpee to supply American gardeners with the best quality seeds obtainable. To this end we have established the FORDHOOK FARMS in Pennsylvania, the FLORADALE FARMS in California, and the SUNNYBROOK FARM in New Jersey. In addition to growing superior seeds, we have endeavored to make BURPEE'S ANNUAL a complete garden guide, full of valuable hints on how to grow both vegetables and flowers. The descriptions have been written from our own observations on the Burpee Farms. As a further aid to planters of Burpee's Seeds, we have published a large number of interesting leaflets on "How to Grow," for which see page 14. These leaflets are FREE to Burpee customers. Ask for them when you order your seeds.

2133 Leptosyne Stillmani

See illustration. A lovely annual and particularly valuable because it blooms early, profusely, and continuously for many months. The flowers are of fine size and of a pure golden yellow color. They are borne on long stems on plants which grow about 20 inches tall. For extra-early flowering the seed should be started indoors during March and the young plants set into the open the middle of April. If sown right outdoors, the early part of April, when the ground can be brought into condition for sowing, it will bloom from July on. If sown in July, a fine display of flowers will be had during the late fall. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

2128 Leptosiphon

See illustration. A neatly grown annual, growing from 8 to 10 inches tall. It is suited for sunny places in borders, small beds, or can be grown as a pot-plant. The blooms appear 8 to 10 weeks after planting. They come in various shades of cream, yellow, orange, carmine, brown, lilac, and purple. Sow the seed thinly outdoors about the middle of April, which corresponds with the time the maples are coming into leaf. Thin to stand 3 to 4 inches apart in the row. Choose a sandy soil and a sunny position for your patch of Leptosiphon. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

Canna Seed

Canna

Indian Shot Very showy plants, having large tropical foliage surmounted by handsome spikes of blooms in many glowing colors. Fine plants can be easily raised from seed started in pots indoors during March and set in the open during May. To encourage quick germination of the large hard seed, it is advisable to clip a small part of the outer seed coat with a sharp penknife. Filing away part of the hard shell, but just enough to make a small hole in the hard coat, will serve the same purpose, or soak the seed in tepid water for a day or two previous to planting out. The roots must be lifted in the fall and stored in dry soil in a cool but frost-proof place.

1845 LARGE-FLOWERING, MIXED See illustration. Seed saved from the newest and best varieties, which will produce strong sturdy plants with large flowers. The range of colors includes various shades of red, yellow, and spotted variegations. Pkt. 10¢; 1/2 oz. 25¢; oz. 40¢.

Canna Roots are listed on pages 208 to 210.

Dahlia Seed

Dahlias can easily be grown from

seed, and if started early the plants will bloom freely the first year. Start the seed indoors in pots or boxes during March and keep growing until the maples are out in full leaf and all danger of frost has passed. Then transplant the seedlings to the garden, choosing a sunny location. They produce their flowers in great abundance from August until frost. If sown outdoors during April, many of the plants will also bloom the first year. Lift the roots in the fall after the first light frost has touched the foliage, cut off the stems about 6 inches above the roots, and store the roots in a frost-proof cellar or room, packed in dry sand or soil.

1953 LARGE-FLOWERED DOUBLE A wonderful assortment of many bright and rich colors. Large and double. Pkt. 15¢; 1/8 oz. 55¢; 1/4 oz. 80¢; 1/2 oz. \$1.30.

1956 POMPON, MIXED Blooms freely from late summer until frost, producing small, ball-shaped flowers in many colors. Pkt. 15¢; 1/8 oz. 55¢; 1/4 oz. 80¢; 1/2 oz. \$1.30.

1952 Decorative, Mixed A large-flowering strain with double or semi-double flowers borne on long stems. This has been saved from the very finest varieties. Pkt. 15¢; 1/8 oz. 55¢; 1/4 oz. 80¢; 1/2 oz. \$1.30.

Decorative Dahlia

1964 CACTUS-FLOWERED, MIXED This type is well known. Flowers of large size; many colors. Pkt. 20¢; 1/8 oz. 75¢; 1/4 oz. \$1.15.

1966 COLLARETTE, MIXED The blooms are similar to the single Dahlia, but each flower has a row or collar of fluted florets surrounding the yellow stamens in the center. A free-flowering strain with blooms of medium size borne on long stems and of artistic appeal. Pkt. 10¢; 1/8 oz. 45¢; 1/4 oz. 70¢.

1968 SUPERB SINGLE, MIXED Within late years the large-flowered single Dahlias have become very popular and our seed is saved from the finest blooms. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1965 PEONY-FLOWERED, MIXED The flowers are generally semi-double, and the petals are curled and twisted

in a most pleasing manner. The Peony-flowered Dahlias are very free-flowering and come in an unusually large number of fine colors. Pkt. 15¢; 1/8 oz. 55¢; 1/4 oz. 80¢.
Dahlia Roots are listed on pages 216 to 224

Tritoma

EARLY HYBRID

3893 This is an entirely new strain of the popular *Poker Plant*.

If seed is started in a warm place during February or March, the plants will flower freely the first year. With a mulch of leaves or rough litter during winter they are perfectly hardy and begin blooming in May the second season, continuing to flower freely until frost. Two- or three-year-old plants frequently bear 18 to 25 fully expanded spikes at one time. Height, 3 feet. Pkt. 15¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

Tritoma Roots, page 201

Burpee's Fordhook Hybrids

Gladioli Seed

2090 Burpee's Fordhook Hybrids

Planted early in good soil, many of the plants flower freely the first year from seed!

The flowers frequently measure 4 to 5 inches in diameter, and range in color from creamy white, lemon, clear yellow, and soft salmon-pink, to bright red and deepest crimson; and there are also lovely light lavender or sky-blue shades.

Fordhook Hybrids have created a sensation wherever shown. They have set the Gladioli world talking and marveling at their unequalled beauty. Amateur and professional alike agree that this distinct new race is unique in blooming the first year from seed, size of flower, rare colors, shading, and marking. It originated on Burpee's FORDHOOK FARMS. Pkt. 15¢; 1/4 oz. 50¢; 1/2 oz. 75¢; oz. \$1.20.

Gladioli Bulbs are listed on pages 204 to 207

EVERLASTING FLOWERS

The Everlasting Flowers have within recent years again become very popular. They were great favorites with our grandparents, who grew them for garden decoration and winter bouquets. They are easily grown and bloom freely and continuously during summer and fall, requiring no special kind of soil or care. Any good garden soil, even those which are rather heavy, are suited.

Sow the seed when the maples are coming into leaf and cover thinly with fine soil, pressing the surface of the bed firmly to bring the seed in close contact with the soil. Thin the plants from time to time to give them plenty of space to develop freely.

2854 Everlastings

Mixed Our mixture of Everlastings includes all the four fine varieties described on this page and a number of others which are showy and easily grown. We are sure that this mixture will give a fine show and plenty of cut-flowers for winter bouquets. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

RHODANTHE

2850 Rhodanthe MIXED

See illustration. Dainty flowers carried on graceful slender stems. The blooms come in white, pink, and red shades. Rhodanthe is easily grown and blooms ten weeks after the seed is sown. It does best in a loose sandy soil which contains humus. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

GLOBE AMARANTH

2838 Globe Amaranth

(*Gomphrena*) MIXED See illustration. Grows 2 feet tall and blooms profusely. A mixture of white, pink, lilac, and bronze-yellow shades. The button-shaped flowers measure ½ to ¾ inch in diameter. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢.

ACROCLINIUM

2833 Acroclinium

MIXED. See illustration. The beautiful straw-like flowers come in white and pink shades. Grows 15 to 18 inches tall and blooms freely. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

XERANTHEMUM

2852 Xeranthemum

MIXED See illustration. The plants grow 2 feet tall, producing double flowers measuring 1½ inches in diameter. Easily dried for winter bouquets. Grows readily from seed sown early in the spring. The flowers are very graceful and come in rose, white, and purple. Free-flowering. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

7728 Collection of Four Everlastings

Contains one packet each of **Acroclinium**, **Globe Amaranth**, **Rhodanthe**, and **Xeranthemum** (value 40¢), postpaid to you, for **25¢**

ORNAMENTAL GRASSES

Ornamental Grasses should be grown for garden decoration and for winter bouquets. For winter use it is very important that the stalks are cut early in the morning while they are still wet with dew. They are then placed in a cool, dry, and airy room in their natural position until they are perfectly dry.

2881 Fountain Grass (*Pennisetum Ruppelii*) See illustration. Long feathery purplish plumes which look very attractive in the border or in bouquets. Does best in a light rich soil where it is exposed to the sun and can get plenty of water. It looks particularly well if used as a border to Cannas, Salvia, and other taller flowers, also as an edging to pools and streams. Pkt. 10¢; ½ oz. 35¢; ¼ oz. 55¢.

FOUNTAIN GRASS

2858 Cloud Grass

(*Agrostis nebulosa*) The Cloud Grass blooms from July until September. The reddish green flower-heads form a much branched, feathery top. A bed of this has the appearance of a cloud resting lightly on the ground, and the faintest breeze sways the flowers backward and forward.

Sow outdoors when the maples are coming into leaf, in a sunny or semi-shaded position. Thin to stand 3 to 5 inches apart. Pkt. 10¢; ½ oz. 35¢; ¼ oz. 55¢.

2863 Quaking Grass (*Brizia maxima*) See illustration. The stems grow 12 to 15 inches tall and carry interestingly shaped flowers. Pkt. 10¢; ½ oz. 20¢; ¼ oz. 30¢; ½ oz. 50¢.

2868 Job's Tears (*Coix lachryma*) An interesting, vigorous grass, grown for its large seeds, which are used for beads; 3 feet tall. Pkt. 10¢; ½ oz. 20¢.

QUAKING GRASS

2870 Hardy Pampas Grass

(*Erianthus Ravenae*) A beautiful hardy grass. Tall, purplish violet flower-heads turning to silky gray as they mature; 2-6 feet tall. Pkt. 10¢; ½ oz. 20¢; ¼ oz. 30¢.

2883 Plume Grass (*Trycholœna rosea*) An attractive grass with pale pink plumes. Suitable for borders or winter bouquets; 2 feet tall. Pkt. 10¢; ½ oz. 20¢; ¼ oz. 30¢; ½ oz. 50¢; oz. 75¢.

7547 Collection of Four Ornamental Grasses

One packet each of **Cloud Grass**, **Quaking Grass**, **Fountain Grass**, and **Plume Grass** (value 40¢), postpaid to you, for **25¢**

STRAWFLOWERS

Strawflowers, known under the botanical name *Helichrysum*, are easy to grow and do well under the most varied conditions of weather and soil met with in America. They do best if planted where they get sunlight all day long. A porous and moderately moist soil which is fairly rich produces the finest plants and largest flowers.

Sow the seed outdoors when the maples are coming into leaf in rows 12 inches apart, and cover with $\frac{1}{4}$ inch of fine soil. The seeds will germinate in about 2 weeks after planting, and when the young plants are about 2 inches tall it is best to thin them so that they will stand 10 to 12 inches apart in the row. For extra-early flowering the seeds can be started indoors in shallow boxes about the end of March or early in April. The plants make a strong upright growth from 2 to 3 feet tall and bloom profusely during late summer and fall.

Strawflowers are in great demand not only for the fine effect they give in beds and borders, and as cut-flowers, but also because they can be dried for winter bouquets. Cut the flowers early in the morning while the dew is still on them, and hang them heads down in a cool, shady, and airy place until thoroughly dry.

2840 Fire Ball Fire Ball is a popular variety mainly because of the richness and brightness of its blooms. They are an intense and vivid crimson. The flowers are large and well formed. The brilliancy of the color is retained well in the dried flowers. Pkt. 10¢; $\frac{1}{8}$ oz. 25¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢.

2841 Copper King A rather unusual color among flowers—rich coppery brown with a metallic luster. Of strong growth and very free flowering. Pkt. 10¢; $\frac{1}{8}$ oz. 25¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢.

2842 Golden Ball A well-named variety since the flowers are of almost ball shape and of a rich golden yellow color. They are borne profusely on strong robust plants. Particularly fine. Pkt. 10¢; $\frac{1}{8}$ oz. 25¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢.

2844 Snowball Snowball is a favorite on account of its pure white flowers. Is grown extensively by those who make a business of growing Strawflowers for winter bouquets. The reason for this is that Snowball is most easily dyed to any desired color. The blooms are of largest size and quite double. Pkt. 10¢; $\frac{1}{8}$ oz. 30¢; $\frac{1}{4}$ oz. 45¢; $\frac{1}{2}$ oz. 70¢.

2847 Rose Queen The color of this distinct variety is a bright and cheerful rose, a shade that is always greatly admired. Rose Queen deserves a place in every garden. The blooms are of remarkable size and good form. The petals are large, well expanded, and lie closely together, forming a double flower which never shows a yellow center until it has passed its prime. But even then it is very beautiful, as the yellow center gives a fine color contrast. Pkt. 10¢; $\frac{1}{8}$ oz. 30¢; $\frac{1}{4}$ oz. 45¢; $\frac{1}{2}$ oz. 70¢.

2848 Salmon Queen The lovers of delicate shades will appreciate this fine variety because of the soft salmon color of the flowers. A robust, free-flowering variety. Pkt. 10¢; $\frac{1}{8}$ oz. 25¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢.

2849 Violet Queen As the name implies, this variety has violet flowers. The color is rich and intense. Violet Queen is a variety of recent introduction, but it has quickly become one of the most favorite of all Strawflowers. The dried blooms show up particularly rich and life-like. Pkt. 10¢; $\frac{1}{8}$ oz. 25¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢.

2846 Mixed Includes the seven fine colors described. Those who have not room enough to grow the separate colors will get a fine display from this mixture. Pkt. 10¢; $\frac{1}{8}$ oz. 25¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢.

The long-stemmed blooms of Strawflowers are easily arranged into artistic bunches

Collections of Strawflowers

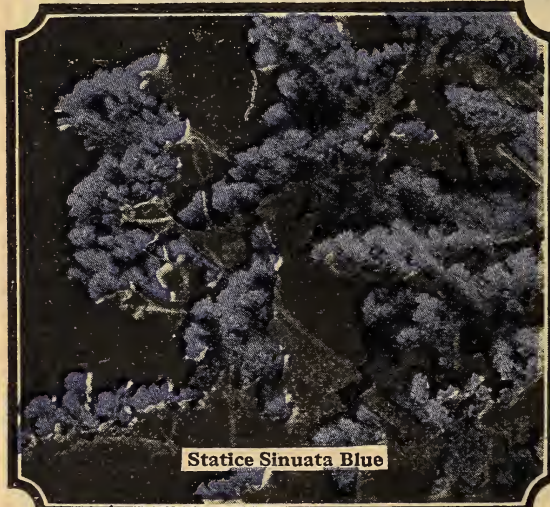

These collections contain the following six beautiful Strawflowers illustrated on the opposite page: Fire Ball, Golden Ball, Snowball, Rose Queen, Salmon Queen, and Violet Queen.

No. 7615 We will mail one packet each of the six fine Strawflowers illustrated in color (value 60¢), postpaid, for **50¢**

No. 7616 We will mail $\frac{1}{8}$ oz. each of these six fine Strawflowers illustrated in color (value \$1.60), postpaid, for **\$1.00**

STATICE Statice, also called Sea Pink, is extremely showy, with large clusters of blooms carried on graceful stems. The plants are easily grown from seed and do well in almost any kind of soil. The flowers may be cut and treated like Everlastings, drying them in a cool and shady place, hung up on the stems to keep their natural position.

Statice does best in well-drained rich soil which contains plenty of lime. They prefer a sunny and open location, but are rather susceptible to an excess of moisture. Sow the seed thinly indoors during February or March and transplant, with a ball of earth adhering to the roots, into the open when the maples are in full leaf. Before sowing pick the seed clusters apart to free the thorny hard hulls from the thin long brown seeds. Sow both in case some of the seeds were left in the hulls, and cover with $\frac{1}{4}$ inch fine soil.

Statice Sinuata Blue

2710 BONDUELLI The plants grow 18 to 20 inches tall and bloom profusely from July to October. The small flowers are borne in attractive clusters. They are a rich lemon-yellow in color. Pkt. 10¢; $\frac{1}{4}$ oz. 25¢.

2712 SUWOROWII This is the best deep rose-colored Statice in existence. The blooms are a bright rosy red. The small flowers are borne in attractive spikes, covering the plants all during summer and fall. The plants are strong and robust, growing over 2 feet in height. Pkt. 15¢; $\frac{1}{4}$ oz. 45¢; $\frac{1}{2}$ oz. 70¢; oz. \$1.10.

2711 SINUATA BLUE See illustration. The plants grow 1 to 2 feet tall and the attractive blue flowers are carried in long racemes. They are borne most profusely from midsummer until fall and give a fine display. Pkt. 10¢; $\frac{1}{4}$ oz. 25¢; $\frac{1}{2}$ oz. 40¢; oz. 60¢.

2715 SINUATA ROSE This is an excellent light rose-colored variety, which in general characteristics of habit and growth is identical with the blue described above. A free and continuous bloomer which should be planted either for garden decoration or for winter bouquets. Pkt. 10¢; $\frac{1}{4}$ oz. 25¢; $\frac{1}{2}$ oz. 40¢.

All flowers described on this page are easily dried for winter bouquets.

Burpee's
NEW DAHLIA FLOWERED
Zinnias

Burpee's New Dahlia-Flowered ZINNIAS

Our Special Burpee Strains of Dahlia-Flowered Zinnias which we have developed from single plant selections on Fordhook Farms

Dahlia-Flowered Zinnias are of very recent origin yet they quickly became known because of their many outstanding features. The flowers are of immense size. They are made up of a large number of small petals which stand well apart, adding greatly to the grace and looseness of the blooms. This is a decided improvement over the Giant Mammoth type which many gardeners consider stiff in effect. The plants make a strong growth and form a compact, well-rounded bush about 2 feet tall. The flowers are borne on long sturdy stems above the foliage from midsummer until frost.

Sow the seed outdoors thinly in rows when the maples are coming into leaf and thin or transplant to stand 2 feet apart. Or the seed may be started indoors during March in a box filled with fine sandy soil. The seedlings are ready to go into the garden when the maples are in full leaf.

The first six varieties are shown in the picture on the opposite page

2899 Buttercup This is an immense flower of fully double form, borne freely on fine long stems. The color is an attractive deep creamy yellow. It is a most showy variety. Pkt. 25¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

2894 Dream A very attractive variety with large flowers of a distinct shade of deep lavender, changing to a purple tint as they age. The blooms are large and of fine form. They are borne freely on strong and sturdy plants. Pkt. 25¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

2898 Golden State Rich golden yellow shading to bright orange as the flowers reach their full size. The blooms are large and of true Dahlia form. They are borne on fine long stems. Pkt. 25¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

2891 Illumination This variety resembles Exquisite but the flowers are uniform, deep tyrian rose instead of having a duo-tone effect. It is a truly magnificent flower of large size and always fully double. Pkt. 25¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

2900 Polar Bear This is decidedly the best of all white Zinnias. The flowers are of great size, made up of a large number of small petals. The color is pure paper white. Polar Bear does not have to take second place when it comes to size, good form, and free blooming qualities. Pkt. 25¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

Scarlet Flame

2904 Scarlet Flame has been appropriately named, as indeed the color of the flowers in bright sunlight appear like flames of fire. Closer examination will show that they are a rich orange-scarlet of dazzling brightness. Scarlet Flame will always attract attention because of its scorching color. Pkt. 25¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

2901 CANARY BIRD A lovely shade of bright Primrose. The flowers are very large and hold their color well until they have passed their prime. Pkt. 25¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

2892 CRIMSON MONARCH

One of the best of the Dahlia-Flowered Zinnias with flowers of immense size. They are a bright and attractive shade of crimson-scarlet. The blooms are of perfect form and are borne in great profusion. Pkt. 25¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

2896 EXQUISITE The flowers resemble an exquisite, large Decorative Dahlia. The color is a pleasing shade of rich rose with deeper rose in the center. Pkt. 25¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

2893 GIANT ATTRACTION A bright spectrum red color. Beautiful when the buds open and does not lose any of its brightness until past full bloom. Of very large size and good form. Pkt. 25¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

2889 OLD ROSE The flowers are a lovely shade of real old rose. It is a magnificent flower of extreme size and a close rival to Exquisite in color effect. The blooms are heavy and substantial. Pkt. 25¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

2897 ORIOLE This variety seems to be particularly popular with all classes of gardeners. A bright glistening orange shaded with liquid gold. As the flowers age they show a coppery cast, but the effect is beautiful at all times. Of good form. Pkt. 25¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

2834 DAHLIA-FLOWERED ZINNIA, MIXED This is a complete mixture of the Dahlia-Flowered Zinnias described on this page. It also contains a number of other fine colors not yet introduced. Pkt. 15¢; 1/4 oz. 50¢; 1/2 oz. 75¢; oz. \$1.20.

A life-size flower of Exquisite

Color Collections of Dahlia-Flowered Zinnias

The vase of flowers shown on the opposite page contains the following six varieties of Dahlia-Flowered Zinnias: Buttercup, Dream, Golden State, Illumination, Polar Bear, and Scarlet Flame. We are offering these six colors in special collections at greatly reduced prices.

7543 This contains one packet each of the six varieties of Zinnias (value \$1.50). **\$1.00**
Mailed postpaid to any address for

7544 This contains 1/16 oz. each of the six beautiful Dahlia-Flowered Zinnias illustrated (value \$3.60), postpaid, for **\$3.00**

Burpee's Giant Mammoth Zinnias

This old garden favorite has been greatly improved, and the fine strain of Giant Mammoth varieties offered below is truly marvelous in size, form, and brilliancy of colors. Sow the seed outdoors when the maple buds are bursting, or start indoors early in March. Thin or transplant to give each plant 2 feet of space to develop freely. They are easy to grow and do well almost everywhere.

2822 GIANT GOLDEN YELLOW A magnificent variety of strong upright growth. The plants branch freely near the ground and send forth a large number of strong stems. The end of each branch is crowned with a large double flower. The color is a shining bright golden yellow. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

2824 GIANT PRIMROSE A lovely free-flowering variety of mammoth size. The blooms are fully double and of artistic formation. The color is light lemon-yellow, deepening toward the center, giving a most pleasing combination. A strong and sturdy grower which is suited for beds, borders, or mixed plantings. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢.

2825 GIANT SCARLET This is a particularly rich and striking shade of bright orange-scarlet. The flowers are always of immense size and fully double. The bushes are strong growing and profuse blooming. Giant Scarlet is very beautiful. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

2827 GIANT WHITE See illustration. Our strain of Giant White Zinnia is particularly fine. Continued selections on Burpee's FORDHOOK FARMS have given us a large-flowered, fully double variety with pure white flowers. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

2829 GIANT PURPLE Here is a color which is always in great demand. It is a rich and impressive shade of light purple. The blooms are immense in size and of massive appearance. They are always fully double and of compact form. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

Giant Rose, Giant Golden Yellow, Giant Scarlet, Giant Purple, Giant White, and Giant Primrose are all illustrated in color on the inside front cover, opposite the first page of the book.

2814 GIANT FLESH-PINK See illustration. This lovely light shade deserves particular mention because of its attractiveness; best described as soft flesh-pink. A wonderful flower of large size and exquisite form. Blooms very freely. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

2828 GIANT CRIMSON See illustration. The flowers are of mammoth size, well-rounded form, massive, and always double to the very center. The color is a rich deep crimson. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

2830 GIANT CANARY-YELLOW This is a variety which should be included in every collection of Zinnias because of its fine size, remarkably massive formation, and bright canary-yellow color. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢.

2821 GIANT ROSE Beautiful rose flowers of perfect form. It has been greatly admired by all who have seen it growing for the past season on our FORDHOOK FARMS. It is a wonderful new color. The plants grow vigorously and bloom profusely. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

2890 GIANT BURNT ORANGE This is a quite recent addition to the Giant class of Zinnias and it is indeed a most outstanding color. The blooms are an appealing shade of burnt orange overcast with a bronze sheen which is more pronounced in the center of the blooms. Of enormous size. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

2813 Burpee's Giant Mammoth, Mixed. We pride ourselves with this fine mixture of Burpee's Giant Mammoth Zinnias, which we know from careful tests is unequalled by any other strain in the world. It includes all the colors listed, and is sure to give a magnificent display. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

7582 Four Giant Mammoth Zinnias

The collection we are offering contains the following four Giant Mammoth Zinnias: **Giant Flesh-Pink, Giant White, Giant Crimson,** and **Giant Burnt Orange.**

One pkt. each of the four (value 40¢) will be **35¢** mailed, postpaid, for

2812 Burpee's New Cactus-Flowered Zinnia

Distinct in form from all other Zinnias, as the petals are so quilled that they become almost tubular. They are straight, radiating from the center of the flowers, which thus greatly resemble a fine-petaled Cactus Dahlia. As the back of the petals is of a distinct color, and as they incurve to form the tube, it gives the flower a bi-colored appearance.

The colors range through varying shades of yellow, orange, pink, and rose to scarlet and crimson. The flowers are borne in great abundance; on well-grown plants they will average 4 to 5 inches in diameter. An excellent variety for cut-flowers. Burpee's Cactus-Flowered Zinnias have created a sensation within the short time since their introduction. Pkt. 15¢; ¼ oz. 60¢; ½ oz. 90¢; oz. \$1.45.

2808 Picotee—Golden Pheasant

The flowers are of immense size, and form a well-rounded compact flower. The bushes are strong growing, reaching a height of 2 to 3 feet during the growing season. They are covered with fine large blooms and make a splendid display. The ground color of the blooms is a bright golden yellow slightly shaded with buff. Nearly every flower shows a touch of deep crimson-carmine at the tips of the petals, which adds greatly to the charming effect of the flower. Very easily grown. Pkt. 15¢; ¼ oz. 60¢; ½ oz. 90¢.

2832 Picotee Mixed This mixture of Picotee Zinnias includes a remarkably wide range of colors. The large, massive blooms come in many shades of pink, yellow, orange, and rose. Nearly all the flowers are attractively tipped with rich mahogany-brown at the end of each petal. The darker flowers are picoteed with a contrasting light shade. Pkt. 10¢; ¼ oz. 45¢; ½ oz. 70¢; oz. \$1.10.

NEW ZINNIA—WARRIOR

2835 This is a distinct new variety which is very appealing. The growth is bushy and compact, somewhat taller than the dwarf varieties of Zinnias listed to the right, but not as tall as the Giant and Dahlia-Flowered Zinnias. The size of the flower also falls between the two classes. The full, well-rounded bushes are most attractive for growing in beds or borders and the flower-stems are plenty long enough for cutting.

The color of the blooms is a most showy deep red-maroon. Those who admire the darker and unusual colors should give the variety a place in their garden. We have been developing this new color on our FORDHOOK FARMS and know that it comes perfectly true. Pkt. 15¢; ¼ oz. 35¢; ½ oz. 55¢; ¾ oz. 85¢.

Warrior

Curled and
Crested
Zinnia

2820 Burpee's Curled and Crested

The petals are elegantly twisted and curled, giving the flower a most attractive, crested-like appearance. The plant grows 18 inches tall by 2 to 2½ feet in diameter and blooms freely until killed by severe frost. The colors range from white through many shades of yellow, rose-pink, and salmon, to deepest crimson. Pkt. 10¢; ¼ oz. 35¢.

DWARF ZINNIAS

Dwarf Snowball

Dwarf Fireball

Dwarf Salmon Rose

This type is wonderfully adapted to beds or borders. The plants are compact and are covered with a multitude of flowers all during summer and fall. Well-grown plants measure 12 inches in height and 15 inches in diameter. The flowers are of perfectly rounded form, carried upright on fine long stems.

2817 Dwarf Fireball (*Zinnia pumila coccinea plena*) Double flowers of a fiery scarlet. Free-flowering compact plants. Suitable for dwarf beds or borders. Pkt. 10¢; ¼ oz. 45¢; ½ oz. 70¢; oz. \$1.10.

2819 Dwarf Snowball Very double Dahlia-like flowers of the purest snow-white. Beautiful for beds or borders as the plants are all the same height. Pkt. 10¢; ¼ oz. 45¢; ½ oz. 70¢; oz. \$1.10.

2818 Dwarf Salmon Rose A beautiful shade of soft salmon-rose; large flowers borne in great profusion. Pkt. 10¢; ¼ oz. 45¢; ½ oz. 70¢; oz. \$1.10.

2815 POMPON, MIXED The petals form a symmetric smooth cone. Colors range from pure white to the deepest crimson. A small-flowered free-blooming variety. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

2826 MEXICANA Dwarf and compact plants averaging 9 inches in height and 2 feet in diameter, the whole becoming a complete mass of double flowers, ranging in color from yellow to brown, nearly all of which are perfectly double. The flowers measure 1¼ inches in diameter. Makes an excellent border or dwarf bed. Pkt. 10¢; ¼ oz. 45¢; ½ oz. 70¢; oz. \$1.10.

7580 Collection of Dwarf Zinnias

This collection contains one packet each of Dwarf Snowball, Dwarf Fireball, and Dwarf Salmon Rose. It will be mailed to you for 25¢

Larkspur

or Hardy Larkspurs in this respect. When the young plants are well started, thin out or transplant to stand 6 to 12 inches apart. Very showy and easily cultivated. The plants do best in cool and moist ground. Larkspurs are admirably adapted for beds or borders, but they are also very useful for cutting. Easily grown for winter blooming in the greenhouse.

Tall Double This type of Larkspur produces tall spikes, averaging 30 inches in height, closely set with finely petaled double flowers. The individual blooms are an inch or more in diameter. The plants make a strong growth and produce the magnificent spikes in great profusion. Sow the seed when the maples come into leaf.

2125 WHITE See illustration. Pure snow-white elegant flowers set closely on long and stately spikes. The light green foliage is also attractive. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢.

2127 SKY-BLUE See illustration. Beautiful sky-blue. The spikes are large and compact. Blooms freely and continuously in cool sections. It is a most popular variety on account of its rich color. Grown extensively for cutting and for winter blooming. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

2135 LILAC A rich shade of lilac. The flowers are large and, being closely set on the flower-stem, make an attractive and heavy spike. Always very double. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢.

2136 FLESH-PINK A delicate shade of clear flesh-pink. It combines well with the richer shades of Larkspur. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

Quick-growing and free-flowering annuals which produce stiffy erect spikes of beautiful flowers in great profusion. They are strictly annuals, being distinct from *Delphinium*

Sky-Blue

White Dark Blue

2139 DARK BLUE See illustration. Dark blue flowers of large size, set so closely on the stem as to form a solid spike of color. Blooms freely and continuously for many weeks. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢.

2121 RED The plants average 30 inches in height and carry many large and compact flower-spikes. The color is a pleasing rosy red, which is comparatively new and is considered a worthwhile addition. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

2140 EXQUISITE A most appealing bright pink with large blooms closely set on fine spikes. An exquisite variety. Pkt. 15¢; ¼ oz. 50¢; ½ oz. 75¢.

2123 ROSE The plants are of fine, strong upright growth bearing long spikes closely set with bright rose flowers. This color is particularly attractive and deserves to be grown in every garden. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

2138 LUSTROUS CARMINE The brightness and luster of this variety contrast well with the fine light green foliage. The color is rich and intense and the flowers are always fully double. A most beautiful variety, with large strong spikes. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

2124 MIXED This fine mixture comprises all the above and other fine shades of the tall annual Larkspur. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

2122 DWARF ROCKET, DOUBLE MIXED These dwarf Larkspurs make neat little plants about a foot tall. They are grown mostly in beds or in borders. The plants send up numerous flower-spikes which are thickly set with finely petaled double flowers. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢.

Larkspur Collection

This collection contains the following four fine varieties of Larkspur: White, Dark Blue, Lustrous Carmine, and Sky-Blue.

No. 7750 One packet each of the four Larkspurs **25¢**

No. 7751 ¼ oz. each of the four Larkspurs **\$1.00**

Flowering Tobacco—Nicotiana

Fine for bedding, or for planting as a background in borders for lower growing plants. Sow the seed indoors in a box filled with fine sandy soil and barely cover them from view. Water carefully with a fine spray and keep in a light warm place. When the young seedlings are about 2 inches tall, transplant to another box, setting them 4 inches apart each way. After the nights have become quite warm set the plants 4 feet apart in the garden. The stately plants bloom from midsummer on.

2371 AFFINIS Splendid pure white Bouvardia-like flowers on long terminal tubes. The attractive flowers are very fragrant. Fine for solid beds, borders, or mixed with other annuals or perennials. It blooms very freely all during July and August and makes a magnificent show. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

2372 AFFINIS—NEW HYBRIDS The plants average 3 feet in height, are pyramidal in form, and bloom profusely. The flowers are of large size and have a delicious fragrance. In color they range through creamy white and rose tints to bright red and crimson. Very good for the background of borders. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢.

2375 SYLVESTRIS See illustration. The plants make a large pyramidal growth of dark green leaves; 3 feet across and 3 to 4 feet in height. The tall leaf-stalks are thickly set with magnificent large clusters of long slender fragrant flowers of snowy whiteness. This is the most showy of all and is used extensively for large beds, bordered with Scarlet Sage, Cannas, or other showy plants. The fragrance is particularly noticeable during warm summer nights. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

Forget-Me-Not

(Myosotis) These succeed best in cool moist soils, blooming most freely during the spring and fall months. They will flower also as a house plant in a cool room. The seed should be sown thinly in shallow drills early in the spring, and when well started, may be thinned out or transplanted to stand 6 inches apart. They will spread quickly and cover the entire space. Planted in a single row around a bed or along the garden walks, they make a beautiful border. Most varieties bloom freely the first season and still more profusely the second spring.

2074 SEMPER FLORENS This lovely Forget-Me-Not is of the ever-blooming type. The flowers are a lovely bright sky-blue color. They are borne early and continuously throughout the season. It is particularly well suited for beds and borders because of its compact stocky habit. It will do well in almost any kind of soil but makes its best show if planted where it will not suffer from lack of moisture. The soil should be fairly rich and quite porous. Pkt. 15¢; ¼ oz. 85¢; ½ oz. \$1.25; oz. \$2.05.

2068 PALUSTRIS This is the Marsh Forget-Me-Not, with its attractive bright blue flowers. The foliage is heavy, of a dark green color. Blooms very freely and grows to perfection in cool, moist locations. The stems creep along the ground, turning upward after a distance and forming a large bush about 10 inches tall. If planted along streams or ponds among other plants, they grow almost twice as tall in search for light and air. The flowers are borne freely from May until October. This variety is also suited for shady places providing the plants do not suffer from want of moisture. While the plants are dwarfier in the shade, they grow stockier and bloom more freely and longer. Pkt. 15¢; ¼ oz. 85¢; ½ oz. \$1.25.

2072 ALPESTRIS, WHITE Pure white flowers. Otherwise identical to Alpestris, Blue. Blooms freely and continuously from May until October. It is worthy of a place in every flower garden. Pkt. 10¢; ¼ oz. 40¢; ½ oz. 60¢.

2071 ALPESTRIS, ROSE Quite a good shade of rose, a color rather rare among Forget-Me-Nots. Pkt. 10¢; ¼ oz. 40¢; ½ oz. 60¢; oz. 95¢.

2070 ALPESTRIS, BLUE See illustration. Dwarf, free-flowering bushes. Excellent for beds or borders. Light blue flowers standing out sharply from the rich green foliage. They do best in the semi-shade, where it is fairly moist. Pkt. 10¢; ¼ oz. 40¢; ½ oz. 60¢; oz. 95¢.

Forget-Me-Not, Alpestris, Blue

1566 Blue-Eyed African Daisy

(*Arctotis grandis*) See illustration.

The Blue-Eyed African Daisy is a native of South Africa. Yet it is easily grown under widely different conditions of climate and soil. The plants can withstand hot, dry weather better than many other annuals. They make a strong robust growth about 2 feet tall, and are most attractive on account of their silvery white, deeply cut foliage. The daisy-like flowers measure 2½ inches across. They are silvery white with a sky-blue eye surrounded by a narrow yellow zone. The under side of the flower-petals is an attractive lilac-blue. The blooms are borne on long stems above the foliage, making a magnificent display.

Blue-Eyed African Daisy

The Blue-Eyed African Daisy is an excellent plant for either beds or borders, and it can be grown successfully in pots.

Sow the seed thinly and cover with ¼ inch of fine soil when the maples are in full leaf. Thin the seedlings when about 2 inches tall to stand 8 inches apart. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

1793 Browallia

MIXED (*B. elata*) See illustration. Browallias are excellent for planting in mixed borders or porch boxes. They are particularly well suited for pot culture and require a porous, sandy loam-soil. If placed in a sunny yet sheltered position, they make a wonderful display with their profusion of bright blue blooms.

Sow the seed thinly when the maples are coming into leaf, covering with ¼ inch of fine soil. Thin or transplant the seedlings to stand 8 inches apart. Pkt. 10¢; ¼ oz. 45¢; ½ oz. 70¢.

1900 Cynoglossum Hound's Tongue

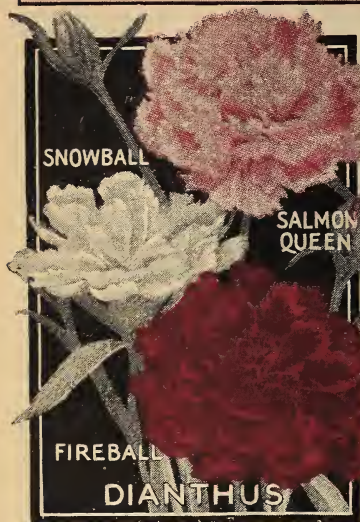

(*Calestinum*) This easily grown annual deserves to be grown quite extensively on account of its wide range of adaptation, easy culture, and attractiveness. It thrives in a dry sunny location where few other flowers will make a show and blooms continuously from June until September. No special care is required to create attractive beds or borders with it.

Sow the seed during April or May, covering it with ¼ inch of fine soil. When plants are about 2 inches tall thin to stand 6 inches apart. The plants will soon bear a mass of bright blue Forget-Me-Not-like flowers. Pkt. 10¢; ¼ oz. 40¢; ½ oz. 60¢.

The quality of Burpee's Seeds is protected by the careful tests made on Burpee's Fordhook Farms near Doylestown, Pa. Every variety of flower seeds sold by Burpee is tested twice. First the vitality is ascertained by tests made in the greenhouse and later the quality is proven by tests made outdoors. It is our aim to supply Burpee's customers with the best seeds possible and it is also our aim to supply Burpee customers with the best information on how to grow. The planting directions given in Burpee's Annual are supplemented by the Burpee Leaflets. A complete list of Burpee Leaflets is given on page 14.

Old-Fashioned Pinks Annual Dianthus

SNOWBALL

SALMON QUEEN

FIREBALL

DIANTHUS

The popular Chinese and Japanese Pinks are also well known under their botanical name *Dianthus*, but usually just called Old-fashioned Pinks. Few flowers can equal these in beauty and profusion of blooms. They are easily grown and do well in almost any kind of soil and location. They make their finest display in a fairly heavy and fertile soil, developing into handsome plants which are simply covered with blooms all during late summer and fall. Height, 12 inches. Sow the seed in the open ground when the maples are coming into leaf. Cover the seed with $\frac{1}{4}$ inch of fine soil.

2015 Salmon Queen See illustration. The large double flowers are an attractive bright salmon shade. They are borne with the greatest freedom on stems 8 inches long and are excellent for cutting as well as for bedding. Salmon Queen is particularly attractive because of its outstanding color. It harmonizes well with both Snowball and Fireball, described below. Pkt. 15¢; $\frac{1}{4}$ oz. 60¢; $\frac{1}{2}$ oz. 90¢; oz. \$1.40.

2001 Snowball See illustration. Snowball lends itself particularly well for beds or borders because of its compact, sturdy growth. The plants are well rounded and bloom profusely for many weeks during late summer and early fall. The flowers are fully double, with beautifully fringed edges and of a pure white color. They grow about 10 inches tall. Pkt. 10¢; $\frac{1}{4}$ oz. 50¢; $\frac{1}{2}$ oz. 75¢; oz. \$1.20.

1999 Fireball See illustration. An excellent counterpiece to Snowball, listed above, with fully double flowers of a fiery and most brilliant scarlet. The plants are of compact growth and even height. They bloom freely and profusely. Pkt. 10¢; $\frac{1}{4}$ oz. 50¢; $\frac{1}{2}$ oz. 75¢.

1996 Mourning Cloak Large double flowers of a dark mahogany—almost black—edged with white and shaded red. This lends itself well for borders and cut-flowers, blooming freely and continuously. Of compact growth; 12 inches tall. Pkt. 10¢; $\frac{1}{4}$ oz. 45¢; $\frac{1}{2}$ oz. 70¢.

HEDDEWIGII, SINGLE, MIXED 1989 The individual flowers are 2 to 3 inches in diameter. They are borne very profusely and make a wonderful show planted in beds or borders. The range of colors includes many shades of pink, rose, and also pure white, and many marked with rose and red centers or edges. Pkt. 10¢; $\frac{1}{4}$ oz. 25¢; $\frac{1}{2}$ oz. 40¢; oz. 60¢.

Mirabilis

2014 Mirabilis The flowers are single, with extra-large, deeply fringed petals, measuring $2\frac{1}{2}$ to 3 inches across. The fringed edges are feathery. The flowers range from pure white to richest crimson, both in rich self-colors and in ringed and marked petals. A profuse blooming strain. Pkt. 10¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢.

Double Heddewigii

1981 Double Chinese Pinks (*Dianthus Chinensis flore pleno*). Handsome clusters of small double flowers of all colors, mostly edged with white. A strong-growing mixture, unexcelled for beds, borders, or for cutting. Planted in spring, they bloom profusely during late summer and fall until cut down by frost. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢; $\frac{1}{2}$ oz. 55¢.

2016 VESUVIUS Vesuvius is a bright and showy single variety. The flowers are of medium size and the edges of the petals are very attractively fringed and lacinated. The color is an intense rich vermilion-red. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢; $\frac{1}{2}$ oz. 55¢; oz. 85¢.

2021 LACINIATUS, DOUBLE MIXED Those who prefer the double varieties of Annual Pinks will greatly admire this strain, which is composed of a large number of brilliant colors. The flowers are very large and double and the edges of the petals are exquisitely fringed and lacinated. Comes in white, pink, rose, red, and maroon shades, with white edges and variegated. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢; $\frac{1}{2}$ oz. 55¢.

2032 FORDHOOK FAVORITES Old-fashioned Pinks

We have composed a special blend of all the finest Single and Double varieties of Old-Fashioned Pinks listed on this page and have added a few other varieties, which look well in mixture, to compose a blend which will make a showy bed or border in any garden. The ease with which the Old-Fashioned Pinks are grown should prompt every gardener to include at least a short row of them, planted either as part of a border or in a bed. Pkt. 10¢; $\frac{1}{4}$ oz. 25¢; $\frac{1}{2}$ oz. 40¢; oz. 60¢.

7725 Collection of Pinks

In almost every garden there will be enough room to include this remarkable collection of Chinese Pinks. It contains 4 pkts.—one each of the four fine varieties illustrated—Salmon Queen, Snowball, Fireball, and Mourning Cloak. We will mail this collection of showy and free-flowering Annual Pinks (value 45¢) to any address, postpaid, for **25¢**

BURPEE'S COSMOS

Early Flowering

This new strain of early flowering Cosmos is very valuable for cooler sections as it will be in full bloom two weeks before the late flowering varieties open up. The flowers are of enormous size, measuring 3 inches or more in diameter. The plants grow 5 to 6 feet tall and are covered with magnificent flowers during the fall until frost.

- 1937 CRIMSON** A rich shade. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢.
1939 ROSE A delicate rose. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢.
1941 WHITE Beautiful white. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢.
1942 MIXTURE Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

7730 Collection of Early Flowering Cosmos

This collection contains one packet each of **Crimson, Rose, and White**, which are illustrated in color. The three packets (value 30¢) will be mailed, post-paid, to any address for **25¢**

Early Flowering Cosmos

White, Crimson, and Rose

Late Flowering

The late flowering strain of Cosmos has flowers of immense size, measuring close to 4 inches in diameter. The plants begin blooming ten days to two weeks after the early flowering varieties, and make a most magnificent show in any garden until cut down by frost. They are best suited to locations where the first heavy frost does not occur until after the latter part of October. The plants grow into well-rounded bushes, 5 to 6 feet tall.

- 1944 GIANT CRIMSON** The fine crimson flowers are of marvelous size. They are borne profusely on fine long stems until frost. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢; oz. 50¢.
1932 LADY LENOX Lovely shell-pink flowers 3½ to 4½ inches across. This is a particularly popular color and gives an excellent cut-flower. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢.
1933 WHITE LADY LENOX A clear waxy white form of the above. The blooms are well rounded, composed of broad, well-expanded petals. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢.
1947 GIANTS, MIXED This mixture is very fine, including the proper proportion of the three varieties described above. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢; oz. 50¢.

Double Crested Cosmos

In these varieties the flowers are large, but in place of the yellow center they have a double center which stands up like a cushion. The outer row or crest is made up of broad ray petals. This is the best of all Cosmos for cut-flowers as the blooms last a long time in water.

- 1946 CRIMSON KING** A rich and most attractive shade of crimson. The plants are a mass of blooms during the fall. Pkt. 15¢; ¼ oz. 75¢; ½ oz. \$1.15.
1948 PINK BEAUTY This is a particularly delicate and pleasing shade of light pink. The flowers are of large size, with a row of broad outer petals and a thick tufted cushion in the center. Pkt. 15¢; ¼ oz. 75¢; ½ oz. \$1.15.
1949 WHITE QUEEN A lovely variety with pure waxy white petals. The center of the blooms is also pure white. Pkt. 15¢; ¼ oz. 75¢; ½ oz. \$1.15.
1950 DOUBLE CRESTED, MIXED A well-balanced mixture of the three double varieties offered above. Pkt. 10¢; ¼ oz. 60¢; ½ oz. 90¢; oz. \$1.45.

7731 Double Crested Cosmos Collection

All the three colors, **Crimson King, Pink Beauty, and White Queen**, are included in this collection. The three varieties are illustrated in color to the right. They will bloom freely throughout the fall. Purchased separately the collection would cost 45¢; mailed postpaid for **35¢**

Double Crested Cosmos— Pink Beauty White Queen

Crimson King

Crimson Ray and White Ray

Early Flowering Double Cosmos

A lovely new Early Flowering Double Cosmos with fine double flowers of large size. Blooms freely at the same time as the Early Flowering single varieties, but lasts considerably longer as a cut-flower.

- 1960 DOUBLE PINK** An excellent shade of bright pure pink. The blooms are borne profusely on long stems. Pkt. 20¢; ¼ oz. 85¢; ½ oz. \$1.25.
1961 DOUBLE CRIMSON The deep red flowers are large and fully double. They are carried on long stems. Pkt. 20¢; ¼ oz. 85¢; ½ oz. \$1.25.
1962 DOUBLE WHITE A lovely companion to the other two colors, with large, double, pure white flowers. Pkt. 20¢; ¼ oz. 85¢.
1963 DOUBLE MIXED Contains the right proportion of the three colors offered above. Pkt. 15¢; ¼ oz. 65¢; ½ oz. \$1.00.

Ray-Flowering Cosmos

This is quite a unique departure from the ordinary Cosmos. The blooms are borne most freely with a greatly increased number of petals, but instead of having flat expanded petals, these are fluted in an irregular and most artistic manner. They are most valuable for cut-flowers, as they are easily arranged into loose and airy bouquets.

- 1929 BURPEE'S CRIMSON RAY** The petals are narrow, fluted, star-like, and of a brilliant crimson color. The flowers are produced with the greatest profusion. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢.
1931 BURPEE'S WHITE RAY This is a true companion to Crimson Ray, with a large number of irregularly arranged narrow petals of a pure waxy white. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢.

Cosmos is a Showy Flower for Fall

2755 Annual Sweet William

See illustration. This is an entirely new type of Sweet William which we are sure will become very popular as soon as it is better known. In contrast to the ordinary Sweet William, this new Annual Sweet William will bloom freely the first year from seed. It is strictly an annual and dies down the first winter. Everyone who grows it is bound to be pleased with its wide range of attractive colors. Includes self-colors, starred, mottled, and eyed varieties. Height, 15 inches. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

2810 Wild Flower Garden

This is a complete mixture of easily grown annuals which have proven to do well and bloom freely under widely different conditions of soil and weather. The Wild Flower Garden Mixture includes a wide range of varieties and colors. It is sure to give a fine display with a minimum of care. If sown thinly either in rows or broadcasted, the seeds will make a fine solid bed which yields flowers from early in the spring until fall. Pkt. 10¢; oz. 30¢; 4 ozs. 75¢; 1/2 lb. \$1.40; lb. \$2.50.

2380 Nemophila—Baby's Eyes

This lovely little annual deserves to be grown in every garden. The plants grow 6 to 8 inches tall and are of a beautiful sky-blue color. Sow the seed early in the spring as soon as the ground can be prepared and thin the plants to stand 4 to 6 inches apart when they are large enough to be handled. Nemophila does well in a moderately rich soil in a sunny location. The plants are very attractive if planted as a border. Blooms freely for from three to four weeks. Pkt. 10¢; 1/8 oz. 20¢; 1/4 oz. 30¢.

Stocks

Beauty of Nice

This wonderful type produces plants about 24 inches tall, sometimes growing as tall as 36 inches, each bearing 6 to 8 fully developed flower-stalks. Our seed produces a high percentage of double flowers, which are carried on long spikes and are sweet scented.

While fine Stocks can be raised from seeds sown outdoors when the maple leaves are expanding, the finest plants are raised from seeds sown indoors and transplanted into the garden.

Start the seeds indoors during March, sowing thinly and covering lightly with fine soil or sand. Water carefully to prevent washing away of the seed. After the sprouts come through the ground permit them to get plenty of fresh air and keep moderately moist so that the plants will be stocky and strong. Transplant the seedlings to the garden when the maples are in full leaf, choosing a soil which is rich but does not contain any fresh manure. Set the plants about 4 to 6 inches apart, because later on those which show single flowers should be carefully pulled out.

- 2731 MONT BLANC Beautiful spikes of great length, with large white flowers. Pkt. 10¢; 1/8 oz. 50¢; 1/4 oz. 75¢.
- 2732 MONTE CARLO The fine double flowers are clear canary-yellow. Pkt. 10¢; 1/8 oz. 50¢; 1/4 oz. 75¢.
- 2734 BEAUTY OF NICE A most popular shell-pink with spikes of enormous size. Pkt. 10¢; 1/8 oz. 50¢; 1/4 oz. 75¢.
- 2738 MONACO One of the richest. A bright crimson color of rare beauty. Pkt. 10¢; 1/8 oz. 50¢; 1/4 oz. 75¢.
- 2740 COTE D'AZURE Most attractive delicate light violet flowers. Pkt. 10¢; 1/8 oz. 50¢; 1/4 oz. 75¢.
- 2741 SUMMERNIGHT Bright violet flowers of good size on long stems. Pkt. 10¢; 1/8 oz. 50¢; 1/4 oz. 75¢.
- 2743 BEAUTY OF NICE MIXTURE This remarkable blend contains all colors. Pkt. 10¢; 1/8 oz. 40¢; 1/4 oz. 60¢.
- 2744 PRINCESS ALICE—CUT AND COME AGAIN Beautiful pure white double flowers borne on fine strong stems. Of branching growth, 18 inches tall. Pkt. 10¢; 1/8 oz. 50¢.

7700 Collection of Ten Weeks Stocks

One packet each, Pure White, Light Blue, and Purple, will be 25¢ mailed, postpaid, for

Ten Weeks Stocks

The plants of the large flowering Ten Weeks Stocks make a bushy growth from 15 to 18 inches tall. They are suitable for borders, florists' designs, or for pot culture. The sweet-scented flowers are borne profusely.

- 2718 PURE WHITE A pure, clear white. The lovely spikes are set with the fine double blooms. Pkt. 10¢; 1/8 oz. 50¢.
- 2719 CANARY-YELLOW Bright canary-yellow flowers borne on fine stems. Pkt. 10¢; 1/8 oz. 50¢; 1/4 oz. 75¢.
- 2721 BRIGHT PINK A fine rich pink color. This is one of the most popular varieties. Pkt. 10¢; 1/8 oz. 50¢.
- 2723 BLOOD-RED Large, deep red flowers on long spikes. Pkt. 10¢; 1/8 oz. 50¢.
- 2725 LIGHT BLUE A fine sky-blue tint which stands out sharply from the rich green foliage. Long heavy spikes. Pkt. 10¢; 1/8 oz. 50¢.
- 2727 PURPLE The large purple flowers are borne on long stems. Pkt. 10¢; 1/8 oz. 50¢.
- 2730 TEN WEEKS, MIXED Comprises the above separate varieties and many other fine colors belonging to this popular class. Pkt. 10¢; 1/8 oz. 40¢; 1/4 oz. 60¢; 1/2 oz. 95¢.

Virginian Stocks

2809 MIXED (*Malcolmia maritima*) An early-blooming annual, largely grown for edgings and borders. The plants are 6 inches in height and bloom continuously during cool weather. Shades of red, rose, and white. Pkt. 10¢; 1/2 oz. 25¢.

Ageratum

Ageratum is easily raised, grows quickly, and flowers most profusely. The dwarf varieties are used extensively for planting in borders or solid beds. They are also grown as pot-plants for fall and winter blooming. The tall varieties are fine for larger beds or taller borders and are most useful for cutting. The blooms retain their beautiful rich coloring for a long time after cutting and are therefore exceptionally valuable for bouquets.

Sow the seed during March or April indoors and transplant to the open when the maples are in full leaf. Or sow outdoors when the maple buds begin to burst. Barely cover the seed and thin to stand 6 to 12 inches apart.

1505 MEXICANUM, BLUE A fine variety, growing into showy plants 2 feet tall. The plants branch freely close to the ground and are covered all during summer and fall with clusters of bright azure blue flowers.

It is a fine variety to be grown during any time of the year. In addition to making a grand display in the garden, it is a fine pot-plant for either summer or winter blooming and shows up well in porch or in window boxes. Pkt. 10¢; 1/8 oz. 25¢; 1/4 oz. 40¢; 1/2 oz. 60¢.

1506 MEXICANUM, WHITE The habit of growth is the same as in the blue variety, but the flowers are white in color. A vigorous and profuse bloomer, covered with beautiful flower-clusters. It should be planted extensively because of the long flowering period, freedom of bloom, and strong growth. Pkt. 10¢; 1/8 oz. 25¢; 1/4 oz. 40¢; 1/2 oz. 60¢.

1508 TOM THUMB, BLUE See illustration. A foremost bedding variety, forming compact little bushes 9 to 12 inches tall. The plants are simply covered with fine blue flowers during the summer and fall. As a pot-plant it is unsurpassed, as it makes a compact growth, blooming freely and continuously. Pkt. 10¢; 1/8 oz. 25¢; 1/4 oz. 40¢; 1/2 oz. 60¢.

1509 TOM THUMB, WHITE See illustration. A fine companion to the Tom Thumb, Blue. Flowers from midsummer until frost. Pkt. 10¢; 1/8 oz. 25¢; 1/4 oz. 40¢; 1/2 oz. 60¢.

Tom Thumb, Blue and White

1790 Swan River Daisy

(*Brachycome iberidifolia*) See illustration. An attractive small annual growing about a foot tall. The plants form compact little bushes branching close to the ground and bearing small Cineraria- or Daisy-like flowers on the end of each branch. The color of the flowers is bright blue.

The plants thrive in a fairly rich, porous soil, where they get plenty of sunshine. They are well suited for dwarf borders and for filling in open spaces in the perennial or annual flower-bed. Sow the seed thinly and barely cover from view when the maples are in leaf, or start indoors the middle of March and transplant to the garden the latter part of May. Swan River Daisy makes a lovely low border to taller growing annuals or perennials. Pkt. 10¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

Swan River Daisy—Lovely clear blue flowers

Burpee's
Seeds Grow

TORENIA FOURNIERI

Excellent for
beds and
borders

Torenia Torenias are native to Cochinchina. They are very free-blooming annuals, growing from 8 to 12 inches tall. The plants are easily grown and make a fine display in beds or borders. They may also be used as pot-plants for window or porch display.

Start the seed indoors about the middle of March, covering firmly with 1/4 inch of fine soil. The seeds will germinate in 2 to 3 weeks, and as soon as the young plants push through the ground they should be given a place near the window, where they can get plenty of light. Keep the seedlings moderately moist and transplant to individual pots or boxes when they are from 1 to 2 inches tall.

The plants are ready to go into the garden when the maples are in full leaf and the plants are perhaps 3 or 4 inches tall.

2770 FOURNIERI See illustration. Lovely velvety blue flowers, with three large spots of darkest blue and a bright yellow throat. The plants are compact, growing 6 to 8 inches tall. They bloom freely during summer and fall. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢.

2772 WHITE WINGS (*Fournieri alba*) Ivory-white, delicately tinted rose at the throat. A very attractive and free-flowering variety which makes a fine show in beds, borders, porch boxes, and pots. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢.

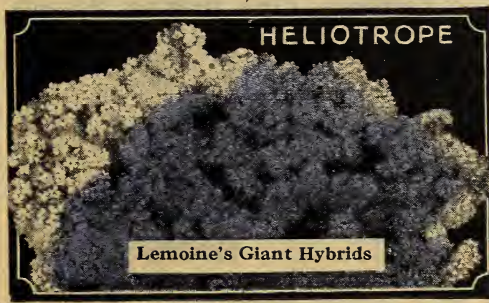

Heliotrope

Everyone loves the delightful fragrance and beauty of the Heliotrope, but few know that it can be raised from seed as easily as the Verbena. To insure a long period of bloom, the seed should be sown indoors during February and the plants set out in rich, well-prepared soil when the maples are in full leaf. They thrive in a sunny location and need plenty of water while in bloom. To encourage a bushy growth, pinch back the young main shoots.

2109 LEMOINE'S GIANT HYBRIDS, MIXED See illustration. Flower-heads of great size and immense beauty, measuring 6 to 12 inches across. Their fragrance is delightful and pronounced. The colors range from white through shades of blue and violet. Our Special Fordhook-grown strain is unexcelled in size and fragrance. Pkt. 10¢; 1/8 oz. 50¢; 1/4 oz. 75¢; 1/2 oz. \$1.20.

2100 BLACK KING A very dark purple. Black King is the nearest approach to black. The flower trusses are of largest size, covering the whole plant. Pkt. 15¢; 1/8 oz. 60¢; 1/4 oz. 90¢.

2104 LADY IN WHITE This, with its white flowers, forms a good contrast to Black King. The flowers are delightfully fragrant. Pkt. 15¢; 1/8 oz. 60¢; 1/4 oz. 90¢.

HELIOTROPE

Lemoine's Giant Hybrids

VINCA — Periwinkle

These are very bright annuals which should be included in every garden. They are most attractive, with their dark green glossy leaves and their beautiful large flowers. The compact plants grow 15 inches tall. They are excellent for beds, borders, and window-boxes. The flowers measure 1½ inches across. Sow the seed thinly after the trees are out in leaf and thin out to 6 inches.

2796 ROSE See illustration. Fine rose-colored Phlox-like flowers, blooming profusely throughout the summer and fall until frost. Easily grown and very showy in the garden, the porch box, or as a cut-flower. Pkt. 10¢; ¼ oz. 40¢; ½ oz. 60¢.

2798 WHITE WITH ROSE EYE See illustration. A truly beautiful flower with large white petals and a rose eye. Blooms freely and continuously from midsummer until late fall. Pkt. 10¢; ¼ oz. 40¢; ½ oz. 60¢; oz. 95¢.

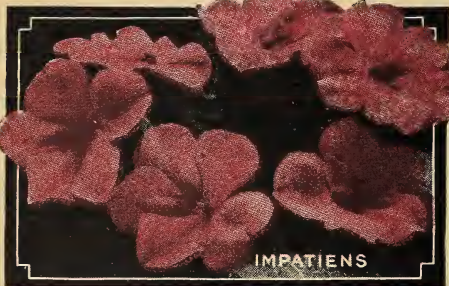

2799 PURE WHITE See illustration. Clear pure white. Very effective in masses or borders along walks. Free flowering, with large handsome blooms carried on fine long stems. Makes a sturdy growth. Pkt. 10¢; ¼ oz. 40¢; ½ oz. 60¢.

2801 MIXED The above three varieties in a well-balanced mixture. It gives most charming effects in the border or bed and lasts for many weeks until killed by frost. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢.

7810 Vinca Collection

This collection contains the three fine varieties, Rose, White with Rose Eye, and Pure White. Will make a fine bed or border. Mailed, postpaid, to your door for **25¢**

2117 Impatiens LARGE-FLOWERING HYBRIDS

See illustration. Impatiens can be had in bloom any time of the year. The plants grow 1 to 2 feet tall. Includes a wide range of colors — white, flesh-pink, pink, rose, salmon, orange, carmine, crimson, and violet shades.

Impatiens thrives in a sunny or semi-shaded exposure. Sow the seed indoors the middle of March or outdoors when the maples are in full leaf. Thin to stand 12 inches apart. Pkt. 20¢; ½ oz. 60¢; 1/16 oz. 90¢; ¼ oz. \$1.45.

Burning Bush — Kochia

This most popular ornamental annual is also known as Summer Cypress. It is very quick growing, and may be sown when the trees are coming out in leaf. Thin the young plants to stand 3 feet apart.

2118 TRICO-PHYLLA Early in the fall the whole plant turns to bright scarlet. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢; oz. 50¢.

2119 GIANT CHRISTMAS See illustration. This new variety remains light green until quite late in the fall, and then turns to a most beautiful deep crimson — purple. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢; oz. 50¢.

Burning Bush

Bedding Begonias

BEGONIA GRACILIS ALBA

BEGONIA BURPEE'S VULCAN

Begonias may be had in bloom any time of the year. Start the seed indoors in boxes containing fine sandy soil. Barely cover the very small seeds from view and water with a very fine spray. Set in the open by the middle of May.

1772 DUCHESSE OF EDINBURGH Crystalline-white beautifully margined with a broad border of carmine-rose. Pkt. 20¢; ¼ oz. 75¢; ½ oz. \$1.15; 1/16 oz. \$1.80.

1774 GRACILIS ALBA See illustration. The bushy plants are literally covered with white flowers. The foliage and stems are an attractive light green. Pkt. 20¢; ¼ oz. 75¢; ½ oz. \$1.15; 1/16 oz. \$1.80.

1780 BURPEE'S VULCAN See illustration. Most intense fiery scarlet color. Both the foliage and the stems are of an exceedingly dark bronzy red shade. Pkt. 15¢; ¼ oz. 75¢; ½ oz. \$1.15.

1776 GRACILIS PRIMA DONNA The plants are of compact bushy habit, averaging 9 to 12 inches in height. The flowers are rich coral-pink. It is a free and continuous flowering variety. Pkt. 20¢; ¼ oz. 85¢; ½ oz. \$1.25.

1781 SEMPERFLORENS ALBA The plants are covered with pure white flowers of a crystalline texture. Pkt. 10¢; ¼ oz. 60¢; ½ oz. 90¢; 1/16 oz. \$1.45; 1/8 oz. \$2.15.

1778 VERNON Flowers deep red, magnificently set off by bronze-purple foliage. Pkt. 10¢; ¼ oz. 60¢; ½ oz. 90¢.

1784 BURPEE'S SPECIAL MIXTURE This mixture comprises a wide range of shades of pink, red, also blush and white. Pkt. 10¢; ¼ oz. 50¢; ½ oz. 75¢; 1/16 oz. \$1.20; 1/8 oz. \$1.80.

1782 Fordhook Pink Bedding Begonia

See illustration. No other bedding Begonia makes such a magnificent display as our new Fordhook Pink. It is the most free-flowering Begonia we have ever seen. The compact bushy plants are completely covered with large and heavy trusses of flowers. The individual blooms are large and well formed. The color is a bright rich pink which actually glows in bright sunlight. Excellent for beds, pots, or porch boxes. Pkt. 50¢.

BEGONIA FORDHOOK PINK

SCARLET SAGE or SALVIA

The well-known Scarlet Sage is a handsome flowering plant of branching, bush-like growth, 2½ feet in height. To have Salvia splendens in bloom early in summer, the seed should be sown in March, in boxes of light rich soil, placed in a warm, sunny window, and when the young plants are well started, they should be set in pots and kept growing rapidly until the nights are warm and the trees well out in leaf. Then they should be planted 18 to 24 inches apart in the flower-bed. Plant Patens, a blue-flowering Sage, 1 foot apart. Salvia farinacea is illustrated on the next page.

2689 Splendens (*Large-Flowering Scarlet Sage*) See illustration. This is by far the largest flowering variety of Scarlet Sage. Well-grown plants measure 4 feet across and 3 to 4 feet tall. Of all fall-blooming annuals, Scarlet Sage is, without question, the richest and most impressive in color—a scorching scarlet of unsurpassed brilliancy. Our Fordhook strain is particularly free blooming and makes large well-rounded plants. Pkt. 10¢; ¼ oz. 50¢; ¼ oz. 75¢; ½ oz. \$1.20.

2687 DARK BLOOD-RED (*Salvia splendens atrosanguinea*). This is the same type of growth and flower as the original Scarlet Sage, but the large spikes of flowers are distinctly richer and more intensely glowing in color but have smaller individual flowers. Pkt. 10¢; ¼ oz. 60¢; ¼ oz. 90¢; ½ oz. \$1.45.

2691 AMERICA or GLOBE OF FIRE The dwarf plants are of compact rounded growth. Each spike is closely set with mammoth size flowers of the most brilliant scarlet. It begins to bloom early in the season and continues until cut down by frost. Excellent for beds or borders. Pkt. 20¢; ¼ oz. 65¢; ¼ oz. \$1.00.

2685 ZURICH The plants are of neatly rounded form and only 18 inches tall. Erect spikes of bright scarlet flowers. A useful bedding variety. Pkt. 15¢; ¼ oz. 65¢; ¼ oz. \$1.00.

2683 PATENS A tender perennial variety, bearing large, broad, tubular-lipped flowers of a most superb rich blue coloring. Also known as Blue Sage. Pkt. 20¢; ¼ oz. \$1.00; ¼ oz. \$1.50.

2681 FARINACEA This lovely variety of Sage is illustrated on the next page. The fine bright blue flowers are borne on long graceful stems; 2 feet tall. Pkt. 10¢; ¼ oz. 60¢; ¼ oz. 90¢; ½ oz. \$1.45.

Salvia splendens
Large-Flowering
Scarlet Sage

Godetia

A charming annual of easy culture, forming compact bushes about a foot tall and flowering profusely all summer long where the weather remains reasonably cool. It is a plant which grows to perfection in cool locations. The plants are well suited for beds or borders. Sow the seed thinly from March to July in a loose porous garden soil. Cover with ¼ inch of fine soil.

2087 DUCHESS OF ALBANY The pure white flowers are borne profusely all during the summer and fall. They are of large size and have a satiny finish. Of compact growth. Pkt. 10¢; ¼ oz. 20¢; ¼ oz. 30¢; ½ oz. 50¢.

2089 CATTLEYA Lovers of delicate shades will appreciate this wonderful Godetia. The flowers are borne most profusely. The color is a lovely soft Cattleya-orchid shade—a lavender-pink with a silky sheen. A most remarkable variety. Pkt. 10¢; ¼ oz. 20¢; ¼ oz. 30¢.

2094 GLORIOSA Of compact growth, with brilliant, intense dark red flowers which have a lustrous silky sheen. Pkt. 10¢; ¼ oz. 20¢; ¼ oz. 30¢; ½ oz. 50¢.

2097 LADY SATIN-ROSE A very fine variety with brilliant crimson-red flowers shading into a lovely soft rose. Blooms freely and continuously throughout the summer and fall. Pkt. 10¢; ¼ oz. 20¢; ¼ oz. 30¢; ½ oz. 50¢.

2088 MIXED A grand mixture, including some lovely shades of rose, carmine, pink, Cattleya-blue, pure white, and other fine colors. Pkt. 10¢; ¼ oz. 20¢; ¼ oz. 30¢; ½ oz. 50¢.

Crimson Flax

2137 (*Linum grandiflorum rubrum*) See illustration. This is a very pretty dwarf annual growing 8 to 12 inches tall.

The rich crimson flowers last only a day, but they are borne continuously until frost. They thrive in a moderately rich soil and a sunny situation. Sow the seed thinly during April or early May and thin to stand 6 inches apart.

Pkt. 10¢;
¼ oz. 15¢;
¼ oz. 25¢;
oz. 40¢.

CRIMSON
FLAX

SCHIZANTHUS-BUTTERFLY FLOWER

Schizanthus— Butterfly Flower

2694 WISETONENSIS See illustration. Innumerable butterfly-like blooms which range in color from pure white through shades of cream and pink to crimson and mauve. Many of the flowers are beautifully marked.

Sown in February or March in rich soil, transplanted in the garden early in May when the maples are in full leaf, they will form large compact bushes over 2 feet tall, completely covered with beautiful small flowers. If the seed is sown in pots early in the fall, the plants will quickly grow into compact rounded bushes. Kept in a cool greenhouse, they will bloom freely during winter. Sow outdoors the end of April. The location may be sunny or semi-shaded. Pkt. 10¢; ¼ oz. 25¢; ¼ oz. 40¢.

Spider Plant—Cleome

The plants make a quick growth, 4 to 5 feet tall. They are most attractive and useful for planting in the border, to separate the vegetables from the flower garden, or to hide unsightly walls or fences.

The plants thrive in a warm sunny location and in soil which is moderately rich and sandy. The Spider Plant does well in pots in the house. The habit of the plants is bush-like and well rounded, with a profusion of flowers borne freely from July until frost.

The blooms are most curious in construction, with long, feathery petals standing far apart. The long, narrow, protruding stamens add to the quaintness of the flowers. After the flowers drop off they are succeeded by long seed-pods on slender stems, giving the effect of a many-legged spider with a bunch of flowers at the top.

1909 GIANT ROSE See illustration. The flowers are a delicate rose. They are borne continuously during summer and fall until cut down by frost. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

1910 GIANT WHITE The large flower-heads are pure white. Spider Plant is considered an excellent honey food for bees. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

Salvia Farinacea

Salvia Farinacea

2681 Mealy Sage

See illustration. Mealy Sage is a native of Texas, but this improved, large-flowering strain grows well under most varied conditions of weather and soil. It will make a fine show wherever the Scarlet Sage thrives. The plants grow 2 to 3 feet tall and are of bushy habit. The name Mealy Sage was given to the plant on account of the mealy, bluish white calices which set off the darker corollas. The flowers are bright blue, and they are clustered all along the fine long strong stem, giving a graceful and impressive spike.

The plants are remarkably free flowering and give a fine appearance when in full bloom. They begin to flower during mid-summer and remain in bloom until killed by frost.

Sow the seed indoors in February or March, covering with ¼ inch of fine soil. Keep the sowing moist until the young plants appear, which will be in about 2 weeks. When the seedlings are about an inch tall, transplant them into another box, giving them plenty of fresh air and light, and set them in the open during April. Pkt. 10¢; ¼ oz. 60¢; ½ oz. 90¢; 1 oz. \$1.45.

Other Salvias on previous page

SPIDER PLANT

Angel's Trumpet is an excellent specimen plant for the lawn

Angel's Trumpet

1979 Angel's Trumpet

(Datura) MIXED See illustration. A large strong-growing plant which is well suited for planting alone or in groups in the center of the lawn. It is also fine for background planting because of its strong growth. Our mixture includes white, pink, yellow, and purple shades. The plants grow 3 to 4 feet tall and bloom profusely from June until October.

Angel's Trumpet received its name from the large trumpet-shaped flowers which have a heavy, sweet odor. The fragrance is too intense to keep the plants in living rooms or bedrooms.

Sow the seed indoors during March and set in the open when the maples are in full leaf and the nights quite warm, or sow outdoors the middle of May. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢; oz. 50¢.

2578 Phacelia CAMPANULARIA

See illustration below. This is one of the most charming early annuals in cultivation. It is unexcelled for beds or borders. Phacelia is easily grown and does particularly well if planted in a sunny location. Since the plants are quite hardy, the seed can be sown the latter part of March or early in April and throughout the spring. The plants thrive in any kind of soil, and can stand quite some dry weather. If sown early in April, they will begin flowering in June, and make attractive, compact bushes 6 to 9 inches tall. The bright blue, bell-shaped flowers are set against rich green leaves. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; 1 oz. 85¢.

2579 GLOXINIODES A very bright, free-flowering Phacelia of compact growth. The plants grow about 12 inches tall and begin blooming 10 weeks after the seed is sown. The flowers are bell-shaped and of a deep rich blue color. Pkt. 10¢; ¼ oz. 35¢.

Phacelia Campanularia

2677 **Salpiglossis—Velvet Flower**

See illustration. Salpiglossis succeeds best in a rich loamy soil and in a sunny or semi-shaded location. Sow the seed thinly when the maples are coming into leaf, and cover with $\frac{1}{4}$ inch of fine soil. The seedlings will appear about 2 weeks later and should be thinned to stand not less than 6 inches apart. If planted in beds, 12 inches should be left between the plants.

Salpiglossis is a most attractive and easily grown annual, with large funnel-shaped flowers of most varied coloring. The texture of the blooms is velvety and the colors are rich and gay; deep blue, rose, violet, light yellow, and reddish bronze. All the flowers are attractively veined with either lighter or deeper shades. Pkt. 10¢; $\frac{1}{8}$ oz. 25¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢.

Asperula 1568 AZUREA SETOSA (Oriental Woodruff)

See illustration. The Oriental Woodruff is a native of Asia Minor and the Caucasus Mountains. It is one of the best quick-flowering annuals we have, blooming freely during June and July. The plants make an upright, bushy growth, 8 to 12 inches tall. The flowers are borne in neat little clusters. The individual blooms are funnel-shaped. They are clustered together into small flower-heads. The color of the blooms is a rich bright azure-blue.

Asperula is a wonderfully free bloomer, well suited for planting either in beds or borders. Sow the seed early in April where the plants are to bloom, covering very thinly with fine soil. The young seedlings will appear in 2 or 3 weeks' time, and when they are about 2 inches tall, they should be thinned to stand 4 to 5 inches apart in the row. If planted in beds, the rows should be 10 to 12 inches apart. Asperula develops to perfection and blooms most freely if planted in a sunny location where the soil is a porous sandy loam containing plenty of lime. Asperula deserves a place in every garden. Pkt. 10¢; $\frac{1}{2}$ oz. 25¢; oz. 40¢.

Gilia A wonderful free-flowering annual and a native of California. The plants grow 15 to 24 inches tall and begin to bloom 10 to 12 weeks after the seed is sown in the open ground. The flowers are carried on fine long stems which are covered with attractive narrow-leaved feathery foliage. The blooms are borne very profusely in thick round balls. They are admirably adapted for beds or borders, and also make good cut-flowers. Because of their free-blooming habit they deserve a place in every garden. They are easily grown in a fairly rich but moderately moist soil. A location where the plants receive plenty of fresh air should be chosen.

Sow the seed thinly where the plants are to bloom early in April, as soon as the ground can be worked into fine condition. They can be sown any time to the middle of June and still make a good show in the garden. Thin the plants to stand 5 to 6 inches apart in the row.

2095 CAPITATA BLUE A most charming bright blue color. It is an attractive annual which deserves to be grown far more widely because of its showiness and easy culture. The blooms are borne on long stems and as cut-flowers last a number of days in water. Pkt. 10¢; $\frac{1}{8}$ oz. 25¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢; oz. 95¢.

2096 CAPITATA WHITE This is a lovely variety, the flowers of which are a fine white color. Blooms freely and continuously. Pkt. 10¢; $\frac{1}{8}$ oz. 25¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢; oz. 95¢.

The illustration shows the wonderful display a Burpee customer created with just a few packets of Burpee's seeds. The garden contains in the foreground Sweet Alyssum bordering the garden walk, with Fordhook Hybrid Poppies to the right.

We are always glad to hear of the success of our customers and appreciate any photos showing the results from Burpee's Seeds

2040 Bush Dolichos (Burpee's)

The plants average only 10 inches in height and have large, bean-like leaves. The individual flowers quite often measure an inch across and are pure snowy white, maturing into creamy white pods. The magnificent flower-spikes are borne profusely and grow from 10 to 15 inches above the foliage. Sow the seed after the maples are in full leaf and when the nights are quite warm and thin or transplant to stand 2 to 3 feet apart. Pkt. 15¢; oz. 40¢; 4 ozs. \$1.10.

For Climbing Dolichos, see page 175

Candytuft

These belong among the most useful of hardy annuals. The plants bear neat clusters of flowers in great profusion. A most attractive border and cut-flower, blooming profusely in cool weather. Sow as early in the spring as the ground can be prepared.

Candytuft develops to perfection in locations where the summers do not get too hot. They thrive in a sandy loam soil, exposed to full sunlight, and where good drainage prevents excessive moisture in the soil. They will grow vigorously and bloom continuously; 12 inches tall.

1816 GIANT HYACINTH-FLOWERED See illustration. Most desirable for cut-flower purposes, producing very large, elongated heads of pure white florets. Also very pretty in borders. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢.

1819 LITTLE PRINCE Of dwarf habit. Pure white. Hyacinth-like flower-heads. Pkt. 10¢; ¼ oz. 30¢.

1826 UMBELLATA, DARK CRIMSON See illustration. A large-flowered variety of clear crimson color. Makes a wonderful display. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢.

1829 UMBELLATA, LILAC A pretty shade of soft lilac. Large heavy flower-heads. Pkt. 10¢; ¼ oz. 25¢.

1830 UMBELLATA, MIXED The above and many others in mixture. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

DARK CRIMSON

GIANT HYACINTH-FLOWERED

CANDYTUFT

7830 Candytuft Collection

The three varieties of Candytuft included in this collection bloom profusely and make a fine display in the garden or as cut-flowers. One packet each: **Giant Hyacinth-Flowered; Umbellata, Dark Crimson; and Umbellata, Lilac.** The collection (value 30¢) will be mailed to your door, postpaid, for **25¢**

Lavatera

The Lavatera is a splendid annual for cool locations. The plants average 2 feet in height, branching freely and flowering most profusely from July until fall. Sow the seed outdoors after the weather has become settled, covering thinly with fine soil. Choose a loose sandy soil of a porous nature.

2129 PURITY See illustration. Beautiful pure white flowers. The blooms measure 3 inches in diameter. The flowers are borne continuously from July until frost; 2 feet tall. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

2130 LOVELINESS See illustration. The flowers are an exquisite shade of soft pink, with a rich rose or carmine suffusion. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

LAVATERA

SAND VERBENA

1501 Sand Verbena (Abronia umbellata)

See illustration. A rapidly growing trailing annual which is excellent for growing in baskets, the rockery, or in the open border. The trailing stems quite often reach a length of 3 to 5 feet. They throw up numerous flower-spikes all during the summer and fall. The blooms are borne in clusters not unlike Verbenas. They are of an attractive rosy lilac color. They are native of California, where they are called the Wild Verbena or Sand Verbena. The flowers are quite fragrant, and the seed is best sown in the open after all danger of frost has passed. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

1503 Abutilon

MIXED (Flowering Maple) The Flowering Maple received its name from the similarity of its foliage to the Sugar Maple. It is an attractive plant for either garden decoration or pot-culture. The plants grow rapidly from seed sown in the house any time during the early spring. They make their best growth in a fertile, porous soil to which has been added a quantity of well-rotted manure.

The plants can be set into the garden when the maples are in leaf and the nights have become quite warm. To encourage strong, well-branched plants it is advisable to transplant two or three times. During time of drought plenty of water should be given, particularly when the plants are in full bloom.

If taken up in the fall before frost potted, and cut back, the plants will bloom freely all winter. Pkt. 20¢; ¼ oz. 55¢; ½ oz. 80¢; 1 oz. \$1.30.

ABUTILON FLOWERING MAPLE

NEMESIS

Nemesis 2379 LARGE FLOWERING, MIXED

This new large-flowering strain comes in the most glorious shades, including yellow, orange, cherry-red, crimson, scarlet, rose-pink, and white. Sow early in the spring, barely covering the small seed. Pkt. 15¢; ¼ oz. 50¢.

Buy your Seeds by Mail from Burpee in Philadelphia

BURPEE'S SNAPDRAGONS

Snapdragons, or Antirrhinum, are a most important and popular flower in American gardens. Their popularity is well deserved because they are easily grown and make a wonderful display, either in beds or as cut-flowers. There are three distinct types of Snapdragons.

The half-dwarf type described below is very popular for beds or borders. The plants grow about 15 inches tall and the bushes are of well-rounded form, bearing a profusion of fine, long-stemmed flower-spikes. Each flower-stem is set closely with individual flowers. The dwarf Snapdragons are used mostly for edgings. The new Giant Snapdragons are listed and illustrated on the next two pages.

Snapdragons are easily grown in ordinary garden soil. They do best in a sunny or semi-shaded position, where the plants can get plenty of fresh air. For early blooming sow the seed indoors during March or April, and transplant the small seedlings when they are about two inches tall to either pots or boxes. They are ready to go into the garden by the end of April. If sown right in the open, the seed should be covered very thinly with fine soil and pressed in firmly with a smooth board. Snapdragons require plenty of room if strong, robust plants are wanted, and the seedlings should therefore be thinned or transplanted to stand not less than 12 inches apart in the row.

Half-Dwarf Snapdragons

1707 Brilliant Crimson See illustration. Brilliant Crimson is a truly fine Half-Dwarf Snapdragon. The plants are of compact growth and exceptionally free blooming. The flower-spikes are a rich bright crimson. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

1533 BRILLIANT ROSE Very effective bright rose flowers. The blooms are of largest size and perfect form, carried on long strong stems. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

1517 CLIMAX A truly lovely flower of a golden rich orange shade with a contrasting golden yellow lip. Blooms freely and continuously. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

1550 COTTAGE MAID An old favorite with large rich pink flowers having a bright yellow lip. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

1535 DAINTY QUEEN The flowers on different plants vary slightly, but they all are beautiful shades of bright salmon-buff. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

1515 EMPRESS A most impressive variety, with large well-formed flowers of rich velvety maroon. Magnificent flowers borne on long stems. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

1516 ENCHANTRESS This variety is of recent introduction, but it has gained quickly in popularity because of its outstanding features. The plants are of true half-dwarf growth and form a compact, well-rounded bush. The flowers are carried on fine long spikes which are closely set from top to bottom with bright almond blossom pink flowers. A free-blooming variety. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

1708 FASCINATION A delicate and attractive light rose-pink with a touch of fine lemon-yellow on the lip. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

1553 FIREBRAND This is one of the greatest of all varieties. The flowers are rich deep scarlet with a distinct fiery glow. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

1518 GLORIA This is an outstanding large-flowered variety of a fine shade of rich deep rose. Long-stemmed and free-flowering. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

1519 GOLDEN MONARCH There always is a great demand for yellow Snapdragons. Golden Monarch is perhaps the best among the Half-Dwarf Snapdragons, not only as far as color is concerned, but also in habit of growth and free-blooming character. The individual flowers are large and well formed. The color is an intense golden yellow, which does not fade with age. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

1536 HAWLMARK SALMON Large well-formed flowers borne on massive spikes. The blooms are bronzy salmon shaded with yellow on the lip. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

1538 NELROSE A grand variety and always in great demand. The flowers are a beautiful rich silvery pink. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢.

1551 MAUVE BEAUTY This is the only variety of this color. A bright shade of soft rosy mauve. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢.

1540 PHILADELPHIA PINK This ranks among the best of all half-dwarf varieties. Large heavy spikes covered with rich silver-pink flowers. Pkt. 25¢; 1/16 oz. 85¢; 1/8 oz. \$1.25.

1542 PRIMA DONNA The immense flowers are a rich shade of bright terra-cotta. A very charming color. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

1544 Purity See illustration. There is no other half-dwarf white Snapdragon which can compare in purity of color with this wonderful new variety. Purity has large flowers of a pure glistening white. There are no traces of yellow or pink tones, neither does it run toward a bluish white. It is as outstanding in habit of growth and freedom of blooms as it is in color. The plants are vigorous, growing into a well-rounded bush and sending forth a large number of stout, closely set flower-spikes. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

1546 SCARLET KING The large, bold flowers are closely set on a fine long stem. They are an intense flaming scarlet color. Pkt. 15¢; 1/16 oz. 60¢.

1534 SHELL-PINK A great favorite with many. The flowers are a delicate soft shell-pink. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

Burpee's
Seeds World

1709 SILVER-PINK This is another popular

variety with bright silvery pink flowers. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

1554 SPARKLER Rich dark rose flowers attractively marked with white blotches. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

1552 THE FAWN The combination of salmon, buff, and chamois shades gives a wonderful effect. Pkt. 10¢; 1/16 oz. 35¢.

1541 VELVET GEM Large flowers of deep blackish maroon. The foliage is shaded crimson-lake. Pkt. 10¢; 1/16 oz. 35¢.

1539 VICTORY A color very popular among Snapdragons. Rich terra-cotta shading to bright yellow on the lip. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

1549 Half-Dwarf, Fancy Mixed This is a complete mixture of all the half-dwarf Snapdragons listed on this page. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

1558 Tall Mixed A mixture of all colors belonging to the old-fashioned tall type, which grows to a height of 3 feet. Long spikes set with many fair-sized flowers. Pkt. 10¢; 1/16 oz. 30¢; 1/8 oz. 45¢.

1557 Dwarf Mixed The plants grow about 8 inches tall and are covered with fine stocky flower-spikes, including a wide range of colors. Pkt. 10¢; 1/16 oz. 30¢; 1/8 oz. 45¢.

7523 Collection of Snapdragons

This collection contains one packet each of the following fine six varieties: Golden Monarch, Philadelphia Pink, Purity, Mauve Beauty, Empress, and Victory. Value 95¢. It will be mailed, postpaid, 50¢ to any address for

Crimson

NEW GIANT SNAPDRAGONS

To appreciate the wonderful beauty of these new Giant Snapdragons they must be seen. Words fail to adequately describe the glorious colors found in this class. They are a recent development and within a few years have become extremely popular. While this class would deserve growing for its beautiful colors alone, it outclasses all other Snapdragons in size of blooms and strong habit. Well-grown plants make spikes 3 to 4 feet tall, each spike being closely set with large, well-formed flowers.

The individual blooms measure fully twice the size of the regular varieties of Snapdragons and the plants are extremely free blooming, making a beautiful show in the garden, whether used for beds or planted with other annuals. The foliage is substantial and withstands diseases, insect attacks,

and quite unfavorable weather conditions to a marked degree.

The hardiness and sturdiness of the plants make it easy for anyone to succeed with them, providing the proper care is taken in sowing the small seeds carefully and just lightly covering them. For best results we would suggest that the seeds be started indoors in boxes filled with fine soil. The plants should be reset as soon as they are large enough to be handled. They are ready to go into the garden when the maples are in full bloom. The long spikes are particularly fine for cut-flowers, lasting a long time in water. They should be cut when the first flowers begin to open. For a continuous blooming season it is very important to cut the flowers as soon as they begin to open.

1705 Apple Blossom

A truly magnificent variety with well-shaped flowers of immense size. The blooms are closely set upon a fine sturdy spike of great length. The color of the flowers is a delicate apple-blossom pink. A touch of light yellow on the lip of the flower adds greatly to its beauty. Pkt. 25¢; 1/16 oz. 85¢.

1721 Canary Bird

See illustration in color. The flowers are a bright canary-yellow touched with golden yellow on the lip. Canary Bird is a free and continuous bloomer, combining all the wonderful characteristics by which this class is identified. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

1699 Carmine - Rose

The introduction of this variety adds one of the very brightest shades to the class of Giant Snapdragons. The habit of the plants is very vigorous and the flower-stems are borne most profusely. The color of the individual blooms is a shining bright carmine-rose with just a touch of yellow on the lips. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

1714 Crusader *Illustrated in color.*

A magnificent variety which has been greatly admired by all who have seen it growing on our farms during the past two seasons. The flowers are very large and borne on spikes of great length. The color is a bright velvety reddish maroon with a cast of crimson. It is one of the very best. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

1700 Defiance Here is a color which will no doubt become very popular because it represents one of the brightest shades found among the Giant Snapdragons. The mammoth blooms are a scorching fiery red. The lip shows a spot of yellow, adding greatly to the brightness of the flower. Pkt. 25¢; 1/16 oz. 85¢; 1/8 oz. \$1.25; 1/4 oz. \$2.05.

1706 Fire Flame The spikes of Fire Flame are long and closely set with large blooms. The plants make a sturdy growth and flower freely and continuously. The color of the blooms is a bright fiery red with a suffusion of deep orange and scarlet. A bright and showy variety for any garden. Pkt. 25¢; 1/16 oz. 85¢; 1/8 oz. \$1.25; 1/4 oz. \$2.05.

1715 Fordhook Rose See color illustration on opposite page. The color of this beautiful novelty is a combination of rose, pink, and yellow, delightfully blended and creating a most charming harmony. The large flowers are borne profusely on stout stems of great length. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.35; 1/2 oz. \$2.15.

1712 Maralda The well-formed and mammoth size flowers are bright copper-carmine with a bright golden yellow lip. Very large, well-formed flowers. Pkt. 20¢; 1/16 oz. 75¢; 1/8 oz. \$1.15.

1713 Orchid *Illustrated in color.* The flowers are a beautiful mauve-pink, not unlike the shade of Cattleya-Orchid. The tube is a somewhat darker shade of mauve and there is just a touch of yellow on the lip. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45; 1/2 oz. \$2.15.

The Giant Snapdragons are excellent cut-flowers

1702 Ruby *Illustrated in color.*

Ruby gives us a distinct shade of deep ruby-red. While quite dark, it is a bright shade with a glow all its own. The texture of the flower is velvety and decidedly pleasing. The tube is shaded with deep purple-carmine. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

1716 Snowflake

This is a superb flower with individual blooms of large size and good form. The massive spikes are covered almost from top to bottom with the magnificent flowers. The color is a warm creamy white with just a touch of pale yellow on the lip. It is a lovely flower. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

1717 Sunshine

Sunshine is a distinct and truly glorious variety that is sure to please all lovers of Snapdragons. It is a bright and rich yellow, showing a touch of pink in the tube. Of strong growth and extremely free flowering. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

1701 Sunnybrook *Illustrated in color on the opposite page.*

For richness and brightness in color Sunnybrook claims a foremost place. It is an immense well-formed flower. The color is a blend of deep golden yellow, salmon, and light orange. The large and pronounced golden yellow lip adds greatly to the bright effect of this fine variety. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

1723 Superb The flowers are a pleasing combination of soft golden yellow, delicately suffused with bright chamois-rose. It is a variety of great beauty with stems of immense size closely set with the attractive blooms. Pkt. 20¢; 1/16 oz. 75¢; 1/8 oz. \$1.15; 1/4 oz. \$1.80.

1704 Wildfire The name Wildfire implies the radiance and glow of the wonderfully bright flowers. Contrasting with the large bright golden yellow lip is a glowing shade of bright scarlet. The white tube helps to bring out the richness of the color. The flower-spikes are immense. They carry the large flowers set closely together and form a solid spike of colors. Another feature that will greatly appeal to the lover of Snapdragons is the free-blooming habit. Pkt. 20¢; 1/16 oz. 75¢; 1/8 oz. \$1.15; 1/4 oz. \$1.80.

1718 Wallflower This has been very appropriately named Wallflower because the rich deep coppery crimson color of the blooms resembles a shade which is found most freely among the Wallflowers. Even though it is a comparatively dark shade, the blooms carry a bright sheen which illuminates the whole flower and gives it life and vivacity. Pkt. 20¢; 1/16 oz. 75¢; 1/8 oz. \$1.15.

1719 Giant Mixed

This mixture contains all the fine varieties of new Giant Snapdragons listed on this page. There are included also a number of other shades which are not yet sufficiently fixed to offer in separate colors. We feel sure that lovers of Snapdragons will be delighted with this special blend, which may be used for planting a colorful bed or border. Pkt. 15¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

Burpee's American Beauty ASTERS

This new American Beauty Type of Asters was first introduced by Burpee in 1917. The flowers begin to bloom about the time the Royal Asters have passed their prime and before the King Asters appear. The late varieties of Burpee's American Beauty Asters begin blooming after the American Late Branching Asters are practically finished.

The plants make a rounded bush $2\frac{1}{2}$ to 3 feet tall and branch closely to the ground. The long strong side branches carry immense flowers which measure 4 to 5 inches in diameter. These wonderful blooms are invaluable as cut-flowers. The late varieties fill in the season between the late Asters and early Chrysanthemums, when comparatively few good cut-flowers can be had.

1646 Purple *Illustrated in color on the opposite page.* A rich and strong color. Blooms freely. Pkt. 15¢; $\frac{1}{8}$ oz. 60¢; $\frac{1}{4}$ oz. 90¢.

1647 Shell-Pink *See color illustration.* A delicate shell-pink. Pkt. 15¢; $\frac{1}{8}$ oz. 60¢; $\frac{1}{4}$ oz. 90¢.

1648 Crimson *Illustrated in color on the opposite page.* A lovely large and well-formed flower. The color is a brilliant crimson. Pkt. 15¢; $\frac{1}{8}$ oz. 60¢; $\frac{1}{4}$ oz. 90¢.

1650 Charm *Illustrated in color.* This is as fine a lavender Aster as anybody could wish. Pkt. 15¢; $\frac{1}{8}$ oz. 60¢; $\frac{1}{4}$ oz. 90¢.

1651 Snowball *See illustration.* Immense pure white flowers carried on long heavy stems. They are always fully double. Pkt. 15¢; $\frac{1}{8}$ oz. 60¢; $\frac{1}{4}$ oz. 90¢; $\frac{1}{2}$ oz. \$1.45.

1649 Famous *Illustrated in color on the opposite page.* A wonderful bloomer. The color is a bright and cheerful rose. Pkt. 15¢; $\frac{1}{8}$ oz. 60¢; $\frac{1}{4}$ oz. 90¢; $\frac{1}{2}$ oz. \$1.45.

1645 Carmine-Rose The large flowers are a rich carmine-rose color. They are borne on long stems. Pkt. 15¢; $\frac{1}{8}$ oz. 60¢; $\frac{1}{4}$ oz. 90¢.

1653 Beauty Mixed This is a fine mixture of the above. Pkt. 15¢; $\frac{1}{8}$ oz. 60¢; $\frac{1}{4}$ oz. 90¢.

1629 September Beauty (Late) Delicate soft shell-pink—a beautiful color with a great appeal. Pkt. 10¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 70¢.

1632 Lavender Beauty (Late) The large flowers are an attractive clear lavender. They are perfectly double. Pkt. 10¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 70¢; $\frac{1}{2}$ oz. \$1.10.

1626 White Beauty (Late) This fine variety is fully double and of enormous size. Fine for cut-flowers. Pure white. Pkt. 10¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 70¢; $\frac{1}{2}$ oz. \$1.10.

1627 Crimson Beauty (Late) This shade is beautiful. It is a very bright rich crimson. The long-stemmed flowers are always of the largest size and fully double. Pkt. 10¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 70¢; $\frac{1}{2}$ oz. \$1.10.

1633 American Beauty (Late) Bright rosy carmine, the shade of the world-famous American Beauty Rose. Of largest size. Pkt. 10¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 70¢.

1634 Purple Beauty (Late) Wonderful rich purple flowers of unusual size on long stems. Pkt. 10¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 70¢.

1657 The Rose (Late) This is a beautiful flower of a bright rich rose color. Immense blooms on long stems borne most profusely. Pkt. 10¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 70¢.

1658 Peach-Blossom Beauty (Late) The lover of delicate shades will like this handsome flower of a bright peach-blossom shade. Pkt. 10¢; $\frac{1}{8}$ oz. 45¢.

1659 Happiness (Late) A real good clear blue. Happiness will become a great favorite because of its appealing color, large size, and wonderful form. Pkt. 10¢; $\frac{1}{8}$ oz. 45¢.

Beauty Mixed (Late) 1661 This mixture contains the proper proportion of all the fine colors belonging to the late Beauty Aster class. Pkt. 10¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 70¢; $\frac{1}{2}$ oz. \$1.10; oz. \$2.00.

Beauty Aster Collections

These collections contain the new beautiful American Beauty Asters illustrated on the opposite page. They all belong to the early-flowering type and will give a mass of blooms for garden display or cutting during the late summer and early fall.

Crego's Giant Asters

Greatly reduced
from a photograph
taken on Burpee's
Fordhook Farms

1612 GIANT WHITE The pure white flowers grow to large size. They are always fully double and never show a yellow center until they have passed their prime. The white is a particularly favorite variety for both garden display and cutting. It is a free and continuous bloomer, carrying the magnificent flowers on long, strong stems.
Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

A single plant of Giant Shell-Pink

1614 Crego's Giant Mixed We have taken great care to include in this mixture the proper proportion of the various colors we offer on this page. The plants make a fine bushy growth and bear a magnificent crop of blooms. Fine for the garden or cutting. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

7770 Collection of Crego's Giant Asters

The collection contains the following three free-flowering varieties: Shell-Pink, Giant Lavender, and Giant Crimson. It will be mailed, postpaid, to your address for **25¢**

Few annuals can compare with Asters in popularity. They are easily grown and do well under widely different conditions of climate and soil. The show they will make in the garden or as cut-flowers is outstandingly rich and impressive.

The Crego's Giant Asters are one of the prettiest types we have. The flowers are large, measuring 4 to 5 inches in diameter and about 2 1/2 inches thick. They are fully double and are composed of long graceful petals which are attractively curled and twisted. The peculiar arrangement of the petals gives them an artistic appearance not unlike a Chrysanthemum.

In the garden Crego's Giant Asters are valuable because they form a well-rounded, compact plant about 2 to 2 1/2 feet tall. They are classed as a midseason type, filling in the season between the early and late Asters. On our Fordhook Farms they bloom all during August and the early part of September. The flowers are carried on long, strong stems, so that they are suited for cutting. They last a long time and always bring a good price as cut-flowers, but they do not ship particularly well.

1606 Giant Shell-Pink A lovely shell-pink Aster of great size and beautiful form. The blooms are large, fully rounded, and the shaggy arrangement of the petals is exquisite. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢.

1607 Giant Azure Blue A beautiful shade of deep sky blue with just a faint hue of pink. It is an excellent free-blooming variety, carrying its large double flowers on fine long stems. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1608 Giant Purple This is an outstanding and lovely color which looks well in solid beds or grouped together with contrasting lighter shades. The heavy blooms are of a rich deep purple color. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢.

1609 Giant Lavender This is a particularly pleasing shade of silvery lavender. It is an exquisite color which may be used alone or in combination with white or shell-pink. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1610 Giant Rose-Pink Those who prefer bright shades will be much pleased with this variety which has magnificent flowers of a deep rose-pink shade. The blooms are of large size and perfect form. They are always fully double. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1611 Giant Crimson This is a striking color, rather rare among our fall blooming plants. It is a brilliant crimson which goes well with the massiveness of the well-formed flowers. The blooms are carried on fine long stems and make excellent cut-flowers. Produces a wealth of fine blooms. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1613 Giant Dark Blue See illustration. Here is a shade which lends itself well to many combinations. It may be planted alone in solid beds or combined with any other shade of Asters offered in this class. The flowers are not only very large, but the interesting and artistic shag-giness of the petals makes them very desirable. It is an excellent variety for cutting. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

Crego's Giant
Dark Blue

Burpee's Royal Asters

Aster—
Royal Lavender

THE Royal Asters are of comparatively recent introduction. They represent a most valuable branching type, blooming during midseason. The flowers come in after the Queen of the Markets have passed and for many weeks are the main type of Asters found in the cut-flower markets. It is their long blooming season and excellent habit which has given them this foremost place.

The magnificently shaped double flowers are much larger than the Queen of the Markets. In fact there are few other Asters which grow to such large size. The form of the flowers is nearly ball shaped, with broad petals which incurve toward the center.

The blooms are borne abundantly on long, strong stems. The habit of the plants assures them a place in the home garden, where they are wanted for beds or borders. The bushes grow 2 feet tall and branch freely near the ground, so that all the flowers can be cut with long stems.

1636 Royal Lavender See illustration. The color is a clear bright shade of lavender. It is a flower of large size and will stay fully double throughout the blooming season. The well-rounded flowers are carried on long and substantial stems. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢.

1637 Royal Pink This is a color which is quite often combined with Royal Lavender because of the appealing color contrast the two varieties give. The flowers are large and fully double. The color is a rich pure pink. It is a handsome variety, blooming freely for many weeks. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1639 Royal White Like most white Asters, Royal White is planted most extensively by both home gardeners and those who grow Asters for the cut-flower market. It is a well-shaped, fully double flower, composed of thick, substantial petals. This accounts for its fine lasting qualities for cutting. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

Collection of Royal Asters

7786 The three colors included in this Collection will make a fine bed or border. They harmonize wonderfully well and are all of large size and well-rounded double form.

The collection contains one packet each: Royal Lavender, Royal Pink, and Royal White, **25¢** mailed to any address, postpaid, for

1638 Royal Purple For those who love the deeper shades in our autumn-flowering plants, Royal Purple will be very welcome. It is a handsome flower, borne on exceptionally long stems. The color is a deep shade of rich blue-purple. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1641 Royal Rose A lovely variety with large, well-developed flowers of a bright luminous rose color. The flowers are borne on sturdy and strong plants. Blooms freely and continuously. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1642 Royal Asters Mixed This mixture of Royal Asters includes the proper proportion of all the fine varieties listed above. It is a grand mixture which is sure to please. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

Burpee's Royal Asters growing at Skagway, Alaska

New "California Giants" Asters

This is an entirely new type of Asters, which combines the wonderful habit of the American Beauty Asters with large flowers shaped like in the Crego type.

The plants make a strong upright growth, reaching a height of two feet. They branch close to the ground and form a well-rounded bush which carries a large flower on the end of each stem. The stems are not only very long, which is of foremost importance for cutting, but they are

strong and substantial. The flowers are extremely large, measuring nearly five inches in diameter. The petals are whorled and curled, giving a most artistic shaggy flower not unlike a giant Chrysanthemum.

The plants begin to bloom during midseason and continue to produce full-sized flowers until frost. This type is exceptionally fine for cutting, lasting a long time in water.

Peach Blossom
Greatly reduced

1670 Peach Blossom This is a charming shade, somewhat similar to peach blossoms. It is a cream-pink of great beauty. The large, well-formed flowers make up into most artistic bunches. The artistic and fine arrangement of the flower-petals, the unusual size of the blooms, and their long stems combine into a most valuable variety. Pkt. 25¢; 1/8 oz. 80¢; 1/4 oz. \$1.20; 1/2 oz. \$1.90.

1671 Light Blue A shade of silvery blue of great beauty. This color is a great favorite with both young and old. Its quiet and pleasing effect makes it fit in almost any color scheme. The flowers are borne profusely and are always of largest size. Pkt. 25¢; 1/8 oz. 80¢; 1/4 oz. \$1.20.

1672 Deep Rose Here is a particularly attractive color which makes a fine display in the garden and is well suited for cutting. It blooms very freely. Pkt. 25¢; 1/8 oz. 80¢; 1/4 oz. \$1.20; 1/2 oz. \$1.90.

1673 Dark Purple A rich shade of bluish purple. Blooms freely and continuously from midseason until frost. Pkt. 25¢; 1/8 oz. 80¢; 1/4 oz. \$1.20.

1674 CALIFORNIA GIANTS, MIXED This mixture contains the proper balance of the four colors described above. It will make a magnificent bed. Pkt. 25¢; 1/8 oz. 80¢; 1/4 oz. \$1.20; 1/2 oz. \$1.90.

7768 Collection of California Giants Asters

We will mail one packet each of the four varieties, Peach Blossom, Light Blue, Deep Rose, and Dark Purple (value \$1.00), for **75¢**

King Asters

Aster—Lavender King
Reduced from a Fordhook
photograph

The flowers are of large size and good substance, with long, narrow petals which fold so much as to make them appear quilled. In season they follow the Royal Asters and reach their prime just before the American Late Branching Asters commence to bloom. The plants are about 2 feet tall and very erect. The King Asters are a most valuable class. They are distinct in form and give a good variation. They should be grown plentifully because they make a fine display if planted in solid beds or borders. Because of their long strong stems they are admirably adapted for cutting purposes and last a long time in water.

1615 Crimson King A beautiful well-formed flower of clear crimson color. The petals are artistically quilled and last a long time as cut-flowers. The blooms are borne on long stems. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1615a Lavender King See illustration. The narrow pointed petals of this variety are an exquisite shade of rich clear lavender. It is one of the best of all King Asters with large flowers. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1616 Pink King The handsome flowers are borne on long and strong stems. They are a beautiful clear shade of rich pink. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1617 Rose King Its richness and purity of color have earned great popularity for this variety. The flowers are double and of large size. They are carried on fine long stems. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1618 White King White King is always in great demand. It is a large substantial flower with artistically formed, pure white petals. An excellent cut-flower, but just as beautiful if grown in the border or in beds. The flowers are always double. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1619 Violet King Here is a color which will appeal to all those who like the deeper shades. It is a deep bluish purple with a radiance all its own. The flowers are always of the largest size and they are carried gracefully on long stems. Looks best alongside a lighter shade. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1621 King Asters, Mixed This mixture is composed of all of the above six colors and we have taken great care to include the proper proportion of each to give a good color harmony. Whether grown for a garden display or for cut-flowers, it will give entire satisfaction on account of its freedom of blooms and fine range of bright colors. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

7774 Collection of King Asters

We have selected three outstanding colors in this class and are offering them at a reduced price in this collection. One packet each of Lavender King, Rose King, and Violet King will be sent to any address, postpaid, for **25¢**

American Late Branching Asters

THIS class of Asters blooms profusely during the late fall months. It is a most important type with American gardeners because of its strong growth, which makes it desirable not only for beds and borders, but particularly for cutting. The flowers are of enormous size. They are nearly round in form and practically never show yellow centers. The season of bloom follows closely the Crego and King Asters. The bushes grow from 2 to 3 feet tall. They branch freely and bear a large number of fine blooms. It is a main season variety which will bloom freely even in our northern states and Canada. This type is unsurpassed for cutting because the plants branch close to the ground so that all the flowers can be cut with long stems.

1571 Azure-Blue Lovely deep azure-blue flowers of massive size and fully rounded form. A strong grower and free bloomer, carrying the flowers on fine long stems. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1573 Crimson The richness of this color makes it particularly desirable. The blooms are a bright luminous dark crimson, of enormous size and superb form. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1574 Dark Blue The large round blooms are deep blue with a faint shading of violet. The flowers are carried on long stems and are of large size. Blooms very freely. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1575 Lavender Here is a shade that will appeal to all Aster lovers. It is a clear light lavender of exquisite beauty. The strong, free-blooming bushes make a fine display. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1578 Lavender-Pink The flowers are a most exquisite shade upon opening. They are a delicate blush-white, changing to a soft lavender-pink as they expand fully. In size Lavender-Pink takes second place to none. The blooms are fully double and are carried on fine long stems, making them excellent for cutting. We have a fine strain of this variety. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1576 Invincible Pink See illustration. The wonderful color of this variety has made it very popular. It is a distinct and bright shade of deep rose-pink, with a glory all its own. The warmth and richness of the color are equally pronounced whether shown in the garden or exhibited as cut-flowers. The blooms are immense and borne very freely. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1579 Mary Semple or Shell-Pink This lovely shell-pink variety is so widely known that it does not need any recommendation. Our strain is particularly fine, with immense double flowers borne on long stems. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1581 Purple A shade that is always greatly admired because of its richness. The blooms are large and ball shaped. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1584 ROSE-PINK The flowers are of enormous size and the color is a soft and attractive rose-pink. We can highly recommend this variety because of its very fine qualities. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1586 WHITE This is perhaps the most popular of all the American Late Branching Asters. It is grown extensively for cutting because the large double white flowers measure 4 inches in diameter and are carried on long strong stems. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢; oz. \$1.40.

Invincible
Pink

1588 American Late Branching, Mixed

This is a favorite mixture with many gardeners who desire a gay and showy bed during the fall season. Because this type branches close to the ground the flowers can be cut on very long stems. It includes all the different colors described and we have taken great care to make it harmonious and pleasing. It is composed entirely of first class seed. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

7783 Collection of American Late Branching Asters

It is impossible to describe the beautiful display this collection will give during the late fall. It includes one packet each of the following three fine American Late Branching Asters: **Azure-Blue, Invincible Pink, and White.** Mailed to any address, **25¢** postpaid, for

Comet Asters

THIS European type of Asters enjoys great popularity in this country. The general appearance of the flowers is similar to the favorite Crego Asters. The blooms are not as high in the center, however. In habit of growth the plants are strictly upright, with the blooms facing upward. This is a fine class of Asters for bedding because the plants are of even height and compact growth. They bloom about the same time as the Crego Asters. Plants measure 12 to 15 inches tall and they are practically covered with flowers.

1665 Giant White See illustration. The large flowers are pure white. The individual flower petals are long. They are artistically curled at the ends and of a rather loose arrangement. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1667 Giant Mixed This is a wonderful assortment of colors. In addition to the shades of rose, pink, lavender, purple, red, and crimson, the mixture contains some fine striped varieties. They are all fully double until the flowers begin to decline. Their upright habit and free flowering character make them well suited for solid beds or borders. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

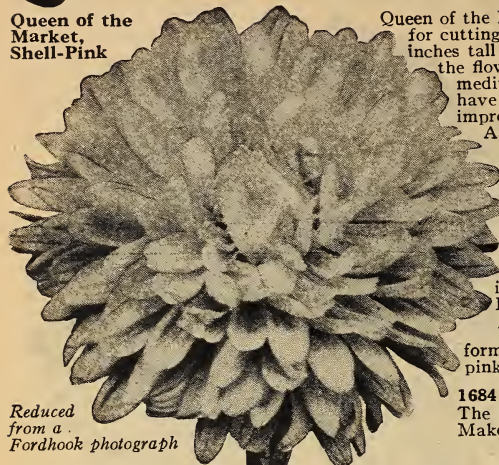

To make it easy for you to start your flower garden right we have prepared a "Planting Calendar for Flowers," which is shown on page 104 of this catalog

Queen of the Market Asters

Queen of the Market, Shell-Pink

Reduced from a Fordhook photograph

Queen of the Market Asters are a most valuable type for bedding as well as for cutting, as they are the first to come into bloom. The plants grow 15 inches tall and they branch freely near the ground, giving long stems to the flowers. The blooms are well rounded and double. They are of medium size, measuring 3 inches and more in diameter. Since we have been producing the seed in America this type has been greatly improved as to doubleness of the flowers. The Queen of the Market Asters are very popular with florists for early cutting.

1680 Crimson A very fine shade of rich crimson. The flowers are fully double and borne on fine long stems. It is a very free bloomer. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1681 Lavender A bright and artistic shade of rich lavender. Very large. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1682 Shell-Pink See illustration. This is a color which is in greatest demand when the first Asters appear on the market. It is a delicate shell-pink. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢.

1683 Rose-Pink The flowers are large and of excellent form. They are borne profusely. The color is a striking rich rose-pink. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1684 Purple A most attractive dark shade of bright purple. The flowers are of large size, and borne freely on long stems. Makes a fine show. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1686 Dark Blue This is a rich shade of navy blue with large flowers borne in the greatest freedom on fine stems. Looks its best alongside of white. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢.

1687 White Queen of the Market White is the most popular of all early Asters. It is an extremely free bloomer, bearing large sized pure white blooms on fine strong stems. The flowers are fully double. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢.

1688 Light Blue This silvery shade of light blue deserves particular attention. It is a delicate and charming shade of light sky-blue. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1689 Queen of the Market, Mixed This mixture contains the right proportion of the 8 colors listed above. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

7777 Collection of Queen of the Market Asters

The three colors we have selected for this collection will make a beautiful display either in beds, borders, or as cut-flowers. The collection contains one packet each of **Crimson, Shell-Pink, and White**. Mailed to any address, postpaid, **25¢**

Daybreak Asters

fully that a bed of them is just a mass of color during August and September.

Daybreak Asters are used extensively for bedding purposes, and truly no other American Aster is as well suited for this purpose. The bushy habit makes them suitable for growing in porch boxes or individual pots.

A plant of Aster Daybreak, showing the compact bushy habit

The bushes grow from 18 to 20 inches tall and they are very much branched. The blooms are ball shaped and double. The flowers measure 2 1/2 inches in diameter and are borne so profusely as to completely hide the rich green foliage.

1599 Purity or White Daybreak The flowers are a glistening pure white and they are borne in such profusion as to completely hide the rich green foliage. Pkt. 10¢; 1/8 oz. 40¢; 1/4 oz. 60¢; 1/2 oz. 95¢.

1591 Bluebird This variety has been appropriately named because the flowers are a charming shade of clear azure-blue. Pkt. 10¢; 1/8 oz. 40¢; 1/4 oz. 60¢; 1/2 oz. 95¢.

1593 Lavender In contrast to Bluebird this variety is of a true lavender shade. Of compact dwarf habit, bearing a mass of flowers. Pkt. 10¢; 1/8 oz. 40¢; 1/4 oz. 60¢.

1597 Daybreak See illustration. The blooms are large, well formed, and fully double. They are an attractive delicate silvery pink. Pkt. 10¢; 1/8 oz. 40¢; 1/4 oz. 60¢; 1/2 oz. 95¢.

1601 Rose The bushy plants are a great sight when in full bloom and the foliage is practically hidden by the large bright rose flowers. Blooms very freely and continuously. Pkt. 10¢; 1/8 oz. 40¢; 1/4 oz. 60¢; 1/2 oz. 95¢.

1603 Salmon This variety is not quite fixed, yet we believe it is worth growing on account of its exceptional orange-salmon color. Pkt. 10¢; 1/8 oz. 40¢; 1/4 oz. 60¢; 1/2 oz. 95¢.

7780 Collection of Daybreak Asters

The three packets in this collection will give a nice bed or border to the lawn or flower-bed. We will mail one full-size packet each of the following, **Daybreak, Purity, and Rose**, to any address, postpaid, for **25¢**

1605 Daybreak Mixed A complete mixture of all colors listed and a few others. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1624 America Similar to Daybreak except that the plants grow somewhat taller and bear larger flowers. The color of the petals is a silvery pink. Pkt. 10¢; 1/8 oz. 40¢; 1/4 oz. 60¢; 1/2 oz. 95¢.

Improved American Asters

The varieties below are all of American origin and are the "cream" of the many distinct sorts originated in America. The lover of Asters should have every one of them in his collection. They represent the highest development in Asters and will give entire satisfaction.

Pink Mikado
or Rochester

1590 Crimson Giant The plants are vigorous, of upright branching growth, with strong stems 18 inches long, carrying fine double bright crimson flowers 4 inches in diameter; 24 inches tall. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1620 Pink Mikado or Rochester See illustration. This superb variety is a branching type of the Giant Comet. The double flowers average from 3 1/2 to 5 inches in diameter. The color is a charming shade of silvery lavender-pink. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1622 White Mikado See illustration. The large, pure white flowers measure from 4 to 5 inches across, the long petals being artistically curled and twisted. The plants are of branching habit, 18 to 24 inches tall, and bloom very freely. Fine for cutting. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢.

1630 Peerless Pink The plants grow 24 to 30 inches tall. The fine double flowers are of large size. The color is a wonderful shade of rich pink which lightens up under artificial light. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1623 Peerless White Similar in growth and habit to Peerless Pink. The enormous flowers are pure snow-white and very double. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

1631 Sensation The flowers are of a brilliant cardinal shade. The plant is of branching habit, attaining a height of 18 to 24 inches, and the flowers are borne on long stems. It is a most outstanding color. Pkt. 10¢; 1/8 oz. 35¢; 1/4 oz. 55¢.

1635 Lavender Gem One of the finest feathery flowers in the beautiful Comet type. The coloring is silvery white when first opening, changing to the most delicate shade of lavender. Fine for bedding. Pkt. 15¢; 1/8 oz. 45¢; 1/4 oz. 70¢; 1/2 oz. \$1.10.

1643 Heart of France Beautiful deep red flowers of excellent size and perfect formation. The blooms are borne on long and strong stems. The plants grow about 24 inches tall. Excellent for beds, borders, or for cutting. Pkt. 15¢; 1/8 oz. 50¢; 1/4 oz. 75¢; 1/2 oz. \$1.20.

1734 Ball's White This is an excellent midseason Aster which has become a favorite with many who grow Asters for cutting. The flowers are well rounded, of large size, very double, and of pure white color. A sturdy, well-branched grower of medium height. Pkt. 15¢; 1/8 oz. 60¢; 1/4 oz. 90¢; 1/2 oz. \$1.45.

1711 Burpee's Aurora A new Aster with very large flowers, measuring 4 to 5 inches in diameter. The petals are exquisitely curled and twisted, not unlike the Japanese Chrysanthemum. The coloring of the long-stemmed flowers is most unique, being a bright shade of royal blue, each petal having a broad stripe of pure white in the center. Of sturdy growth and always fully double. Pkt. 25¢.

1725 Dwarf Bouquet Asters

This is a European variety of Bedding Asters which is grown extensively in this country, where a dwarf bed or border of even height is desired. The plants make a compact rounded growth, 8 to 10 inches in height. They are covered during early fall with a mass of flowers. The individual blooms measure 2 inches and more in diameter. They are fully double and the color range includes white, pink, rose, light blue, deep blue, purple, carmine, crimson, and some intermediate shades. Their well-rounded dwarf growth makes them suitable for growing in pots and in porch or window boxes. Pkt. 15¢; 1/8 oz. 50¢; 1/4 oz. 75¢; 1/2 oz. \$1.20.

1728 Single Asters, Mixed

See illustration. Within late years the Single Asters have gained very much in favor with flower lovers. Almost forgotten for many years, their beauty has suddenly been realized again and they are now grown extensively for cut-flowers because they make up into most artistic bouquets. The plants are of fine strong habit, growing 2 feet and more in height, and bloom most profusely for a long time. The color range includes all the typical Aster colors such as white, rose, pink, light and dark shades of blue, as well as purple and crimson. Our mixture includes the right proportion of each color. Those who prefer flowers with an unusual artistic appeal should not overlook this type. Pkt. 10¢; 1/8 oz. 25¢; 1/4 oz. 40¢; 1/2 oz. 60¢.

1735 Fordhook Favorite Asters

We pride ourselves on our Fordhook Favorite mixture of Asters because we know from comparative trials made every year on our Fordhook Farms that there is no other mixture of Asters which can compare with them. It includes all the various types and colors of double Asters we offer. Those who wish to have a continuous supply of Asters from midsummer until frost and do not care to sow seed of the separate classes, will find that this mixture will suit their purpose well. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

FLOWERS FOR THE HOUSE

Most of us, no matter where we live, city or country, suburb or apartment house, have the opportunity to grow and enjoy flowers right in our home. With the proper selection of the varieties to be grown and the right methods of culture we can have a fine display during the whole year.

To grow flowers in the house during summer in porch or window boxes and during winter in the window of the living room is neither difficult nor expensive. However, there are certain conditions which must be fulfilled for the plants to grow, such as the proper amount of sunlight, good healthy fresh air, and sufficient warmth.

In addition to the varieties on the following pages, many annuals make satisfactory pot-plants for the house. The most popular ones for summer and winter blooming are Ageratum, Alyssum, Calendula, Canary-Bird Vine, Candytuft, Celosia, Annual Chrysanthemum, Cockscorn, Golden African Daisy (*Dimorphotheca*), Gypsophila, Kenilworth Ivy, Lace Flower, Larkspur, Lobelia, Lupinus, Marigold,

Maurandya, Mignonette, Moonflower, Oxalis, Petunias, Schizanthus, Stevia, Thunbergia, Verbena, and Woolflower. There are also many bulbs which can be grown indoors in summer and winter. Among the bulbs and roots which are suited for growing in pots are Hardy Phlox, Lilies, Calladium, Calla, Funkia, Oxalis, Ranunculus, Amaryllis, Tuberosus-Rooted Begonias, Anemone, Lily-of-the-Valley, and Gloxinias.

While, of course, the typical house plants do best in the greenhouse, they can be raised satisfactorily if similar conditions can be maintained in some room of the house. Where a sun parlor is available it may easily be used as a conservatory for plants. To be sure of success one should acquaint himself fully with cultural directions for the various varieties. When you order your seed, ask for a free copy of the Burpee leaflet, "HOW TO GROW FLOWERS IN THE HOUSE," which tells explicitly how to grow and care for them.

Cyclamen

Rose of Marienthal

Salmon-rose

3929 ROSE OF MARIENTHAL See illustration. A fine shade of rose overlaid with bright salmon. The blooms are large, well formed, and carried on long stems above the foliage. Pkt. (10 seeds) 30¢; 100 seeds \$1.50; 1000 seeds \$12.00.

3930 GIANT PURE WHITE Pure white flowers, of mammoth size. Pkt. (10 seeds) 30¢; 100 seeds \$1.50; 1000 seeds \$12.00.

3934 GIANT DARK BLOOD-RED Rich deep ox-blood-red flowers. A most impressive flower of immense size. Pkt. (10 seeds) 30¢; 100 seeds \$1.50; 1000 seeds \$12.00.

3924 LARGE-FLOWERED GIGANTEUM, MIXED A large and free-flowering strain. It includes a wide range of beautiful colors. While of large size and fine habit, it does not compare with the named varieties of the Zehlendorf strain. Pkt. (15 seeds) 25¢; 100 seeds \$1.25; 1000 seeds \$11.00.

Cineraria

Cyclamen

We are offering the famous Wandsbek strain of Cyclamen which represents the highest degree of perfection in this wonderful flower. The plants are bushy, of strong growth, and wonderfully free blooming. The individual flowers are of immense size and artistic form. Cyclamen should be sown thinly in a well-prepared soil composed of sand, leaf mold, and garden loam. Cover the seeds very thinly and keep at a temperature of from 60 to 65 degrees. Water regularly but not in excess and keep the pot covered with a piece of paper until the plants appear, which will take as long as four weeks. Repeated repotting and the proper amount of fresh air are essential to keep the plants growing.

3925 BRIGHT ROSE A beautiful clear bright rose flower of exceptionally fine form and immense size. A very fine color of the true Zehlendorf strain. Very free blooming. Pkt. (10 seeds) 30¢; 100 seeds \$1.50; 1000 seeds \$12.00.

3926 GLORY OF WANDSBEK This is a most outstanding variety with bright salmon-red flowers. Of strong growth. It is a color that is always greatly admired. Pkt. (10 seeds) 30¢; 100 seeds \$1.50; 1000 seeds \$12.00.

3927 PEARL OF ZEHLENDORF

See illustration. A popular variety with bright salmon-pink flowers, excellent habit, and profuse blooming. Considered one of the best colors in Cyclamens. Pkt. (10 seeds) 30¢; 100 seeds \$1.50; 1000 seeds \$12.00.

3935 GIANT WHITE WITH CARMINE EYE A large massive white flower with a rich carmine eye. The large blooms practically cover the whole plant and stand out sharply from the deep green foliage. Pkt. (10 seeds) 30¢; 100 seeds \$1.50; 1000 seeds \$12.00.

Large salmon-pink flowers

The Zehlendorf strain represents the very best Cyclamens in existence

Pearl of Zehlendorf

Cineraria

Cinerarias are truly beautiful, with their bright colors and delicate fragrance. If plants are wanted for blooming around Christmas time, the seed should be sown during April. For blooming during early spring, June or July sowing should be made.

Sow the seed in shallow pans or boxes containing a fine, fairly sandy soil. Sow the small seeds thinly and barely cover with very fine soil which should be carefully run through a small meshed sieve. Keep shaded and moist until the seedlings appear. Transplant as soon as they are large enough to be handled.

3920 HYBRIDA GRANDIFLORA See illustration. This large-flowered strain of Cineraria is unsurpassed in size of flowers. Contains a wide range of beautiful colors, some with a large white eye. Pkt. 35¢; 1/128 oz. 90¢; 1/64 oz. \$1.35.

ASPARAGUS

This pretty foliage plant is quite well known under the name Asparagus Fern. It is grown extensively in pots, but is just as useful for cutting. An admirable house-plant for summer or winter. Grows freely and quickly and should be placed near a sunny window. Sow seed indoors in pots or boxes any time during the year.

3900 PLUMOSUS NANUS A graceful foliage plant with fern-like leaves of a rich green color. The leaves are very finely divided and very useful for cutting. Excellent pot-plant. Pkt. (25 seeds) 20¢; 100 seeds 50¢; 300 seeds \$1.40.

3902 SPRENGERI (Emerald Feather) This variety is well known under the name "Asparagus Fern" and makes a magnificent pot-plant, with its long, drooping branches; grown extensively for cutting. Gives grace and airy effect to bouquets. Pkt. (25 seeds) 10¢; 100 seeds 25¢; 300 seeds 65¢.

Tuberous-Rooted Begonias

Single Begonia

These Tuberous-Rooted Begonias are very much prized for their gigantic blooms which sometimes reach a diameter of 6 inches. They come in many beautiful shades and there is a single as well as a double strain. The seeds are very small and care must be taken in sowing them.

Sow the seed very thinly in a box containing light sandy soil which has been watered just before sowing. Cover with a pane of glass to maintain an even degree of humidity and moisture. Transplant the seedlings once or twice after they are large enough to be handled.

3905 SINGLE MIXED See illustration. Our strain of this variety contains a large number of brilliant and showy colors. The flowers are all very large. The plants are of stocky and sturdy habit and will bloom freely for many weeks. Pkt. 25¢; 1/128 oz. 90¢; 1/64 oz. \$1.35; 1/32 oz. \$2.15.

3907 DOUBLE MIXED See illustration. We are very proud of our strain of Double Mixed Tuberous-Rooted Begonias, which we know from careful tests represent the highest development in this class, with a wonderful assortment of beautiful colors. In addition to white there are some lovely shades of pink and rose. Also some extra fine deep scarlet and crimson flowers. The lovely salmon shades deserve particular mention. Pkt. 40¢; 1/128 oz. \$1.35.

Double Begonia

Smilax

3991 MYRSIPHYL-LUM ASPARAGOIDES

See illustration. This popular Boston Smilax is a most desirable window vine of graceful growth. The slender stems are covered with small glossy green leaves. Sow the seed any time during January, February, or March, and cover with a quarter inch of fine soil. When they are large enough to be handled transplant the seedlings into the hanging baskets or window boxes. Pkt. 10¢; 1/4 oz. 30¢; 1/2 oz. 45¢; oz. 70¢.

Calceolaria 3913 HYBRIDS

See illustration. A most interesting and beautiful pot-plant for the greenhouse. It is a native of Peru, which, with proper care, will grow into fine large bushes with many showy pocket-like flowers of various colors. Some of the flowers are beautifully spotted and tigered; others are self-colored in yellow or red. They are greatly admired. Sow the very small seeds carefully in a box containing a rather sandy leaf-mold mixture. Moisten the soil before sowing and cover with a pane of glass to prevent too rapid evaporation. Transplant and keep growing in a moist air registering 42 to 48 degrees Fahrenheit. Pkt. 30¢; 1/128 oz. \$1.15.

CALCEOLARIA

Fuchsia

3928 SINGLE AND DOUBLE MIXED

See illustration.

Fuchsias or

Lady's Ear Drops succeed best as pot-plants. In the South, however, they are hardy enough to live outdoors the whole year. During the hot summer months they grow best in a cool shaded location, such as in a shaded porch or veranda. They can also be grown in a bed of good rich soil where it is reasonably shady.

Sow the seed during February or March in boxes containing a rather sandy garden loam to which has been added some leaf mold. Cover the seed lightly and keep moist and shaded until the seedlings appear. Transplant repeatedly and give water freely, but not in excess, all during the summer. Fresh air, plenty of light, and a cool temperature are necessary to raise good Fuchsias. Pkt. (15 seeds) 30¢; 50 seeds 90¢.

A most profuse blooming plant for beds and pots

SMILAX

How to Grow Flowers in the House

This is the title of a Burpee leaflet which will give you many valuable hints on how to grow flowers in the house.

Carnation 3915 PERPETUAL OR TREE, MIXED See illustration.

This is our special Floradale strain of this variety. It is noted for its excellent large flowers and wide range of clear colors. The flowers are always double and the calyces do not split. In many sections of the country this makes a very fine plant for outdoors; but it is when grown in the greenhouse that the flowers develop to their best. While most gardeners rely on cuttings for their stock, there are many who find it interesting and remunerative to start with seed.

Sow the seed thinly indoors in boxes or pans any time during the spring. Transplant the seedlings as soon as they can be handled, and when the plants are about 2 inches tall set them in their permanent place either in the greenhouse or the garden. Pkt. 15¢; 1/8 oz. 50¢; 1/4 oz. 75¢; 1/2 oz. \$1.20.

Perpetual or Tree Carnation

Geranium

FLORADALE FANCY GERANIUM

3937 FLORADALE FANCY See illustration. We have a particularly fine strain of Geraniums which we have developed on Burpee's FLORADALE FARMS in California. The plants make a sturdy, well-branched, strong growth with rich dark green foliage. The flowers are borne with the greatest freedom in immense trusses, nearly covering the plants when in full bloom. Each flower-head is made up of large well-expanded individual blooms with bright petals. Quite often the single flowers measure $1\frac{1}{2}$ inches

in diameter. Particular attention has been paid to the range of colors. The shades run from pure white to blush-pink, rose, salmon, scarlet, crimson, and reddish maroon.

Geraniums are easily grown and make splendid subjects for beds, borders, or pot-plants. Sow the seed thinly in a box containing fine soil and cover lightly. Keep fairly warm and moist until the seeds germinate. A place near the window protected against draft is most suitable. Transplant to the open when the maples are in full leaf. Pkt. 20¢; $\frac{1}{16}$ oz. 35¢; $\frac{1}{8}$ oz. 55¢; $\frac{1}{4}$ oz. 85¢.

Streptocarpus

3999 NEW HYBRIDS See illustration.

This is a typical greenhouse plant which will grow well and bloom freely if given the proper conditions. In the conservatory, where conditions of humidity, temperature, and light can be controlled, as well as in the greenhouse, they will produce handsome plants of great beauty. The tubular flowers are borne on slender but strong stems above the crown of rich deep green foliage. Because the seeds are very small, great care must be taken in sowing. Choose a soil which contains plenty of sand and leaf mold, watering thoroughly before sowing. Barely cover the small seeds from view with additional dry soil, applying it carefully through a fine sieve to give a very thin cover. Place a pane of glass over the pan to keep the moisture in and take all precautions to prevent the drying out of the soil. Water is best applied by placing the pan into a pail of water long enough for it to absorb all the moisture it can hold. When the young plants appear transplant carefully and keep growing in a cool and semi-shaded place. Pkt. 25¢; $\frac{1}{128}$ oz. 85¢.

Gloxinia

3955 GIANT FLOWERED, MIXED See

illustration. Gloxinias are splendid pot-plants, growing best in the greenhouse or the conservatory, where heat and moisture can be regulated to suit the plants. They are showy, free flowering, and do well in shaded locations. The flowers measure 4 inches in diameter and are borne with the greatest freedom, surrounded by rich dark green velvety leaves.

They are showy, free flowering, and do well in shaded locations. The flowers measure 4 inches in diameter and are borne with the greatest freedom, surrounded by rich dark green velvety leaves. Sow the seed thinly and carefully in a box containing fine soil, to which has been added a good amount of leaf mold. Apply water and cover with a pane of glass to prevent excessive evaporation. The greatest care must be taken in keeping the soil moist. Transplant the seedlings as soon as they can be handled, and keep growing vigorously. Pkt. 40¢; $\frac{1}{128}$ oz. \$1.10; $\frac{1}{64}$ oz. \$1.65; $\frac{1}{32}$ oz. \$2.65.

Gloxinia

Mimulus—Monkey Flower

Lovely little plants with light green foliage and attractive tubular flowers. The blooms are most showy, including a range of brilliant colors, many of the flowers being spotted with a contrasting shade. It is an excellent plant for pots and baskets, and may be used to good advantage as a cut-flower. Sow the small seed thinly in a well-prepared seed-box. Keep moderately moist and thoroughly cool until the young plants appear. Transplant once or twice and keep growing in a rich soil and a semi-shaded location near the window but not exposed to the direct rays of the sun.

2242 TIGRINUM GRANDIFLORA

See illustration. The plants make a compact growth and bear enormous large blooms. These are tigred and spotted with red, orange, pink, and purple shades in a most attractive manner. Pkt. 20¢; $\frac{1}{16}$ oz. 60¢.

2244 MOSCHATUS (Musk Plant)

This variety received the name Musk Plant because the leaves have a scent not unlike musk. The flowers are borne very freely and they are of a bright yellow color. Excellent for growing in shaded places. Pkt. 20¢; $\frac{1}{16}$ oz. 60¢; $\frac{1}{8}$ oz. 90¢.

MIMULUS

Dracaena

2035 INDIVISA

See illustration.

The Dracaenas

are valued as

house plants but

they may be set

into the open garden, used for the center of flower-

beds during summer and fall. Choose a loam soil

which contains plenty of humus and keep the plants

growing in pots just large enough to accom-

modate the root system. It is the nature of the

seeds to germinate very irregularly, some of them

sprouting very quickly whereas others will lie for

many weeks before starting into growth. Sow

the seed in a seed-box and cover with one-quarter

inch of fine soil. Keep moderately moist and

thoroughly warm at all times until the seedlings

appear. They are then transplanted into individ-

ual pots. If properly taken care of, Dracaena

will last for many years. Plants should be kept

growing at all times. During winter give them

a place near the window where they will receive

plenty of light but no draft. Pkt. 10¢; $\frac{1}{4}$ oz. 25¢.

Dracaena makes a fine addition to any porch box or flower urn

Large-Flowered Primrose

3988 *Primula Obconica*, Large Flowered, Mixed See illustration. The large-flowered Primrose is an excellent pot flower for fall, winter, and spring blooming. Our strain of large-flowered Primrose is particularly attractive. It embraces a wide range of colors, including white, pink, rose, and red. The flowers are carried in large clusters on long, strong stems, and are now being used quite extensively for cut-flowers, lasting a number of days in water. The individual flowers are very large and showy.

Sow the seed any time from January until May, using a rich, light, sandy soil. Barely cover the seed from view and give shade by placing a piece of cardboard over the seed-pan or box. Keep moderately moist at all times and take off the cardboard cover for an hour or two every afternoon for ventilation. Transplant repeatedly when the plants are large enough to handle. Pkt. 25¢; 1/128 oz. 50¢; 3/64 oz. 75¢; 1/32 oz. \$1.20.

3989 GIGANTEA KERMESINA As a pot-plant this variety is outstandingly attractive. The plants make a bushy, compact growth, sending forth a large number of flower-stems each carrying a large head of rich deep carmine blooms. The individual flowers are also very large. Pkt. 30¢; 1/128 oz. 60¢.

Large-Flowered Primrose

Chinese Primrose

Primula Sinensis Fimbriata The Chinese Primrose is the brightest and most free-flowering of all pot-plants for growing in the house during the winter months.

Sow the seed any time from March until early August in seed-pans or seed-flats, preferably using a soil composed of equal parts of fibrous garden loam, leaf mold, and fine, washed sand. Cover the seeds very lightly and keep evenly moist until they sprout. Placing a pane of glass over the pan will help considerably to give a good stand of plants, as the surface of the soil must never be allowed to dry out.

Keep the plants growing vigorously and water regularly but not in excess. Transplant the seedlings as soon as they have formed their first true leaves. Keep the plants in a light place where the temperature can be kept comparatively cool. During the mid-day, shade should be given. Repot two or three times as the plants grow larger.

3969 ALBA MAGNIFICA See illustration. Flowers are pure white with bright yellow eye. The plants are stocky and free-flowering. Pkt. 30¢; 1/128 oz. 60¢; 3/64 oz. 90¢; 1/32 oz. \$1.45.

3971 BLUE A most beautiful and rich shade of bright lavender-blue. Pkt. 30¢; 1/128 oz. 60¢; 3/64 oz. 90¢; 1/32 oz. \$1.45.

3973 CRIMSON VELVET A very rich color of a velvety texture. The flowers stand out well from the rich green foliage. The plants are vigorous and bloom profusely. Pkt. 30¢; 1/128 oz. 60¢; 3/64 oz. 90¢; 1/32 oz. \$1.45.

3975 ROSY MORN The finely fringed flowers are of a beautiful carmine-rose. A very free bloomer with large flowers borne in handsome clusters. Pkt. 30¢; 1/128 oz. 60¢; 3/64 oz. 90¢; 1/32 oz. \$1.45.

3977 BRIGHT RED (*Coccinea*) The most brilliant red of all Primulas. The flowers are large, borne in magnificent clusters held erect above the foliage. Pkt. 30¢; 1/128 oz. 60¢; 3/64 oz. 90¢; 1/32 oz. \$1.45.

3984 LARGE-FLOWERING FRINGED, MIXED Embracing all the best colors of the large-flowering Chinese Primroses. A free-flowering strain. Pkt. 25¢; 1/128 oz. 55¢; 3/64 oz. 80¢; 1/32 oz. \$1.30.

3986 FILICIFOLIA, MIXED A splendid mixture of fern-leaved Primulas with large flowers in a complete assortment of colors. Pkt. 25¢; 1/128 oz. 55¢; 3/64 oz. 80¢; 1/32 oz. \$1.30.

Chinese Primrose
Alba magnifica

Baby Primrose

3987 *Primula Malacoides* See illustration. Within late years the Baby Primroses have gained greatly in popularity. In fact they are grown more widely now than all other Primroses together. The plants make a big bush of dark-green, attractive leaves from which rise long slender stems that bear a profusion of bright lavender-pink flowers. The plants are easily grown and can be kept in full bloom for many weeks. For fall, winter, and spring blooming sow the seed any time from January until June. Preferably use a mixture of equal parts of good garden loam, compost soil, leaf mold, and sand. Barely cover the fine seeds from view and keep shaded and moist until the seeds germinate. Pkt. 25¢; 1/128 oz. 50¢; 3/64 oz. 75¢; 1/32 oz. \$1.20.

Baby Primrose
(Primula malacoides)

A lovely pot-plant for winter and spring blooming

7655 Porch Box Collection

Growing plants in porch boxes is very easy, takes little time, and adds a beautiful touch to any home. Our collection contains: **Balcony Petunias, Mixed; Mixed Vincas; Mixed Maurandya; and Impatiens.** The Balcony Petunias should be planted toward the front so that the plants can hang over the edge. The Maurandya may also be planted near the front, but it would perhaps make the best show if planted toward the back part of the box, where a trellis, 2 or 3 feet high, made out of thin sticks should be provided for the plants to climb up on. The rest of the box should be planted alternately with Vinca and Impatiens.

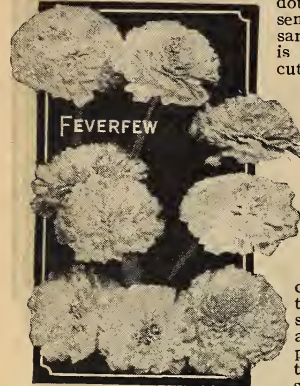

Allow plenty of room between the plants so that they can grow vigorously. The collection of four packets (value 60¢) **50¢** will be mailed, postpaid, to any address for

Annual Flowers—Continued

2064 Feverfew

(*Chrysanthemum parthenium* fl. pl.) See illustration. Small, fully double flowers greatly resembling a button Chrysanthemum. The foliage is deep green and finely cut, forming a distinct background to the pure white flowers. The plants grow from 12 to 15 inches tall, branching freely close to the ground, with each stem crowned with a cluster of the small, double, pure white flowers.

Sow the seed thinly when the maples are coming into leaf, and thin or transplant to stand 12 to 18 inches apart when the young plants are about 3 inches tall. They do best in a sunny location. Pkt. 10¢; ¼ oz. 35¢.

FEVERFEW

2039 Diascia

BARBARÆ See illustration. This is a lovely annual of dwarf growth and excellent habit. The flower-spikes grow 12 to 18 inches in height, depending on the condition of the soil and weather. Diascia has become quite well known within late years and it is now seen in many gardens. The graceful flower-spikes carry a large number of elegantly shaped blooms. Each individual flower is carried on a fine slender stem and has two prominent spurs on the back. The blooms measure close to an inch in diameter. The variety *Barbare*, which we offer, is most outstanding because of its lovely rose-pink flowers, having an even cast of salmon which lightens the color considerably. The yellow throat is attractively dotted with bright apple green and this effect adds greatly to its beauty. Diascia is easily grown in any kind of soil. Pkt. 15¢; 1/16 oz. 45¢; 1/8 oz. 70¢.

Diascia

The Burpee standard in seeds is the highest it is possible to attain today, and yet we aim for still further betterment. PROGRESS is our watchword. Planters throughout the world, whether gardening for pleasure or profit, soon learn that "the best is the cheapest." Burpee's Seeds are tested and guaranteed. You may get as good, but you cannot get better seeds at any price.

SENECIO

2697 Senecio

ELEGANS, DOUBLE MIXED

Senecio is a native of South Africa. It does exceptionally well in most sections of the United States. The plants grow 2 feet tall and bloom freely from July to October. They are of upright growth and well branched. The flowers are borne in clusters and come in many colors, including purple, flesh, copper, lilac, red, and white. They are suitable for beds and borders, thriving in a moderately heavy garden soil where they receive plenty of sun and air. Sow outdoors during April and thin to stand 8 inches apart. Pkt. 15¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

2709 Sensitive Plant

(*Mimosa pudica*)

The plant is most interesting. When subjected to a strong draft, or touched, the leaves fold up and droop. After a short period of rest they regain their original position. The flowers are small, and carried on the ends of the stems they form ball-shaped, feathery heads of a light rose color.

Sensitive plant is easily grown and the best time to sow the seed is the latter part of March or early April, either in a hotbed or in pots. Transplant the seedlings into individual pots as soon as they are large enough to be handled. Give them plenty of room.

A sandy garden loam will give good results with an addition of a little leafmold and well-rotted manure will show a good effect by stronger growth. Place the pots in a warm sunny window where they will have plenty of air but are not subjected to drafts. Water regularly, but not in excess. Pkt. 10¢; ¼ oz. 30¢; 1/2 oz. 45¢; oz. 70¢.

Sensitive Plant

7410 BURPEE'S DOLLAR FLOWER GARDEN

Burpee's Dollar Flower Garden is a favorite collection of 16 easily grown annuals. It will make an attractive show and give a profusion of blooms during spring, summer, and fall.

Those of our friends who do not care to take the time to make their own selection and yet want an attractive flower garden will find this collection most suitable for their needs. We have taken great care in selecting the right varieties to provide flowers for every season.

The seed in this collection is of the usual high Burpee quality, and we are able to offer it at a greatly reduced price only because the collections are made up in advance of our selling season. For this reason we cannot make any changes in the varieties which it contains.

Castor Oil Bean—Ricinus

These are semi-tropical and tropical plants grown largely for their picturesque appearance. The plants grow from 8 to 10 feet in height and bear immense leaves. The plant is surmounted by large flower-spikes and brilliantly colored seed-pods. While the plants develop to enormous proportions in warmer climates, they have proven to grow well even where the summers are short and only moderately warm.

The large seed should be sown in boxes indoors during March and the young plants potted up until the middle or end of May, to be set out not before the maples are in full leaf. The seed can be sown right in the flower-bed about the middle of May. Because of their strong and spreading growth the plants should be set not less than 5 feet apart. As individual plants set in the center of the lawn they make a most impressive appearance.

2670 RED SPIRE Rich bronzy green foliage and brilliant rosy crimson seed-pods; 6 feet tall. A new variety of magnificent habit. Pkt. 10¢; oz. 30¢; 4 ozs. 85¢; lb. \$2.90.

Zanzibarensis

Ricinus cambodgensis

2671 Zanzibarensis See illustration. This is the tallest of all the Castor Oil Beans, with leaves measuring 2½ feet across. The leaves are lobed and they are of rich green shades. The heavy stems are either red or green. The plants will grow from 12 to 14 feet in height and form a perfect pyramid of foliage, presenting a beautiful tropical appearance. May be grown as a house-plant in large pots. Pkt. 10¢; oz. 25¢; 4 ozs. 70¢; lb. \$2.40.

2663 CAMBODGENSIS See illustration. The plants grow from 8 to 10 feet tall and have immense, palm-like leaves, measuring over 2½ feet in diameter. They are lobed and of a rich bronzy red color. The stems are also of a deep maroon shade. The large spiny fruit capsules are almost black. It is a most showy variety. Pkt. 10¢; oz. 25¢; 4 ozs. 70¢; ½ lb. \$1.30; lb. \$2.40.

2665 SANGUINEUS The plants are magnificently large, growing 8 to 10 feet in height. The foliage is very deep rich green and the stems and fruits are scarlet-red. It is a strong grower with attractively lobed leaves of truly immense size. Pkt. 10¢; oz. 25¢; 4 ozs. 70¢; ½ lb. \$1.30; lb. \$2.40.

2669 MIXED A mixture of all the best varieties of Castor Oil Beans. Pkt. 10¢; oz. 20¢; 4 ozs. 55¢; ½ lb. \$1.00; lb. \$1.90.

Oxalis

June until frost. Fine for growing in pots or baskets during winter. Oxalis tropæoloides

Small free-flowering plants with clover-like leaves and thickly starred with small bright flowers from June until frost. Sow the seed in the spring where the plants are to bloom, covering thinly with fine soil. The plants do best in a moderately rich, well-drained soil, and in a sunny situation.

2392 TROPÆLOIDES (*Corniculata atropurpurea*) See illustration. The golden yellow flowers contrast well with the dark brown-purple shamrock-shaped leaves. Pkt. 15¢; ½ oz. 60¢; ¼ oz. 90¢.

2394 VALDIVIENSIS Bright lemon-yellow flowers. Easily grown in pots or in pans for winter blooming. Makes a beautiful dwarf border. Pkt. 15¢; ½ oz. 60¢; ¼ oz. 90¢.

2713 Stevia

SERRATA (*Piqueria trinerva*) See illustration. Stevia is a native of Mexico, but it develops to perfection almost everywhere. The plants flower freely from July until October, but they may be planted to bloom almost any time of the year. In the garden Stevia makes a very attractive show, with its small white flowers bunched together in well-shaped heads and carried on long stems. The flowers are agreeably fragrant. In addition to making a good display in the garden they may be grown in pots for bouquets. A good rich garden soil is particularly suitable for Stevia. The plants delight in a warm sunny location. Sow the seed thinly outdoors when the maples are in leaf. Pkt. 15¢; ½ oz. 50¢; ¼ oz. 75¢; ½ oz. \$1.20.

Stevia serrata

Euphorbia marginata

Euphorbia

These are especially valuable for the showy variegation of the leaves. Plant the seed early in May when the maple leaves are opening. The plants do best in a dry, sandy soil and a warm location. When the plants are about 2 inches tall carefully thin or transplant them to stand 15 inches apart in the row. The color contrast is most apparent where the plants receive the full sun all day long. The variegation of the leaves begins to develop during July and increases in beauty throughout the season until the late fall.

2058 MARGINATA (*Snow on the Mountain*) See illustration. Of open, free-branching growth; 3 feet in height. The large dark green leaves are marked with broad bands of snow-white. Pkt. 10¢; ¼ oz. 25¢.

2060 HETEROPHYLLA (*Mexican Fire-Plant*) This plant is somewhat similar to the Poinsettia and produces large bracts of brilliant scarlet leaves on the top of each spike. Grows quickly to a height of 2½ to 3 feet from seed sown in the open early in May. Pkt. 15¢; ¼ oz. 45¢; ½ oz. 70¢; oz. \$1.10.

Mignonette

Mignonette is a native of Egypt. It is one of the most delicately scented of all flowers. The plants grow rapidly from seed sown in the open ground early in spring. Mignonette should be planted in light sandy soil, since the fragrance of flowers grown in heavy soil is not nearly as intense. The long blossom spikes are produced abundantly during the cool moist weather of early spring and late fall.

Mignonette can be had in flower almost any time of the year. For winter blooming sow the seed in pots or the open border during July, where the plants receive plenty of light and air. Reset 4 to 6 plants in a 5-inch pot during September and place in a cool room. They will begin blooming in November, and with proper care will remain in flower until the following March. For a garden display sow the seed when the maples are coming into leaf. They do well in a shady place providing they have plenty of fresh air and are not kept too wet.

2218 Goliath See illustration. The plants are of robust growth, in candelabra-like form. The broad, massive spikes are closely set with large, coppery red florets. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢.

2232 FORDHOOK FINEST, MIXED We have made a selection of the finest types of Mignonette, which we offer in this special mixture. All the varieties included have long heavy spikes closely set with the fine fragrant blooms. The habit of the plants is compact and bushy. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

2226 White Pearl See illustration. This is the best white Mignonette we have ever grown or seen anywhere. Very large, sweet-scented trusses. The heads are thick and heavy. A strong grower and profuse bloomer for making a bed, a border, or for cutting. Pkt. 10¢; ¼ oz. 40¢; ½ oz. 60¢; oz. 95¢.

2229 RED MONSTER This impressed us as the best outdoor Mignonette we have ever seen. Of neat, robust growth, the plants are crowned with broad massive heads of large, rich red florets, which are most delightfully fragrant. Pkt. 10¢; ¼ oz. 40¢; ½ oz. 60¢; oz. 95¢.

2213 GIANT-FLOWERED MACHET Large florets of a gray color. A great improvement on the old variety Machet. This fine variety does well in any garden soil and blooms freely all summer. The flower-spikes are massive and compact, and have a delightful fragrance. It is easily grown during winter in pots and is also used extensively for cut-flowers. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

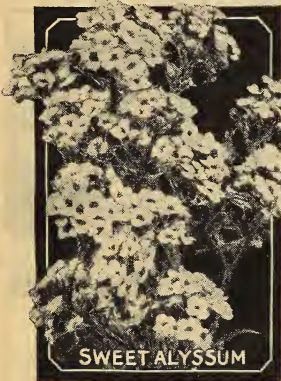

2217 Golden Sunset A magnificent golden yellow Mignonette. The large trusses are distinctly sweet scented. They are a bright and distinct golden yellow shade. In our opinion this is one of the most lovely varieties of Mignonette. It is easily grown and begins to bloom early in July. The spikes are borne continuously until frost. An excellent variety for cutting. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

Mignonette
Goliath

MIGNONETTE
WHITE PEARL

SWEET ALYSSUM

Sweet Alyssum

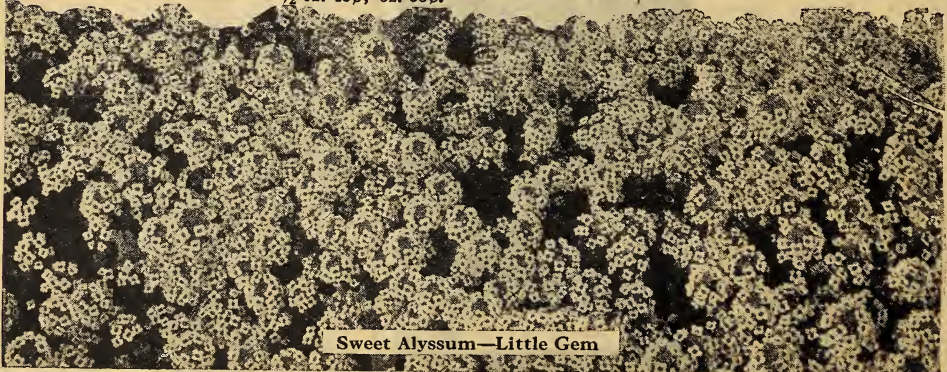

A free-flowering annual of quick growth, beginning to bloom early in the spring and continuing throughout the season. Sweet Alyssum is an excellent border plant, as it is of close, compact habit and uniform in height. It is also desirable for hanging baskets or vases, trailing over the sides and producing a profusion of fragrant blooms. It does well in almost any kind of soil and is used extensively in rock gardens or for pot culture. Prefers a sunny location and a soil which has good drainage.

Sow the seed thinly early in the spring in shallow drills where the plants are to bloom, covering lightly with fine soil. Thin the young plants to stand 4 inches apart.

1520 SWEET ALYSSUM (Maritimum) See illustration. A low-growing and spreading variety with pure white flowers. It is fine for porch boxes, hanging baskets, or borders. Comes into flower quickly and blooms continuously. Pkt. 10¢; ½ oz. 25¢; oz. 40¢.

1523 LILAC QUEEN Beautiful soft lilac flowers changing to white as they age. It is a free and continuous bloomer of dwarf, creeping habit. Fine for borders to the lawn or flower-beds. Pkt. 10¢; ½ oz. 40¢; oz. 60¢.

1524 Little Gem See illustration. The plants are of dwarf compact habit, growing about 4 to 5 inches tall. It is one of the quickest growing dwarf border plants and will bloom continuously from early spring until late fall where the summers are not excessively hot. If sown in pots, it may be kept blooming continuously throughout the summer and fall. Sown during early fall the plants will flower all winter long in the house. Pkt. 10¢; ½ oz. 40¢; oz. 60¢.

Sweet Alyssum—Little Gem

2698 **Silene—Catchfly**

(*Silene pendula*, Mixed) The Catchfly is an easily grown annual, forming compact bushes from 6 to 10 inches tall. The plants are covered with blooms from June until frost. The range of colors found in our strain of *Silene* comprises exquisite shades of salmon, rose, and carmine. There are also plenty of plants with waxy white flowers, adding to the color contrast.

Sow the seed outdoors during the latter part of March or early April, as soon as the ground can be brought into a fine loose condition. Sow where the plants are to bloom, and when the seedlings are 2 inches tall thin to stand about 8 inches apart in the row. Any average garden soil is suited to grow free-blooming, showy plants, but they do best if not given too much care. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢.

SILENE-CATCHFLY

Burpee Quality Flower Seeds

To furnish American gardeners with the best flower seeds the world produces has been our aim for 50 years. To this end we have established the Burpee Farms in Pennsylvania, New Jersey, and California.

Fordhook Farms are known for their excellent strains of Zinnias, Phlox, Petunias, Poppies, Salvia, Snapdragons, Balsam, Calliopsis.

Burpee's Sunnybrook Farm in New Jersey contributes the warm weather plants, including Morning Glories, Moonflowers, Sunflowers, Dolichos, Cardinal Flower, etc.

Burpee Floradale Farms, with their ideal weather conditions, produce almost all flower seeds of the choicest quality. Of course the Burpee Sweet Peas occupy first place at Floradale. But there are also Geraniums, Golden African Daisy, Blue Eyed African Daisy, Zinnias, Verbena, Snapdragons, and many others.

2116 **Ice Plant** (*Mesembryanthemum crystallinum*)

The plant received its name from the interesting appearance of the leaves, which look as if covered with a coating of thin ice. The thick fleshy leaves are covered on the surface with large cells filled with sap and it is this construction of the leaves which gives the whole plant an icy appearance. Ice Plant is an interesting trailing plant for rock gardens and hanging baskets. It is grown for its foliage because the flowers are comparatively small. They are borne close to the stem and are either white or of a pinkish tint. During dull days they are closed but they open up on warm sunny days.

The seed may be sown thinly indoors during March or April and the plants should be set into the open after all danger of frost has passed. A well-drained, dry, freshly dug but well-settled soil should be chosen. If sown outdoors, sow very thinly, merely pressing the seed into the surface with a smooth board. The plants do best where they stand rather dry and receive plenty of sunshine. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢.

Baby's Breath—Gypsophila

A quick growing annual with myriads of small, open, bell-shaped flowers. Does well in any soil and an open situation. Fine for planting along walls and sunny slopes. The plants grow 10 to 15 inches tall and are excellent for bunching with other flowers. Sow the seed the latter part of April.

2091 Elegans, White
The plants are covered with small, star-shaped, pure white flowers on dainty stems. Very graceful. Pkt. 10¢; oz. 25¢; 4 ozs. 70¢; lb. \$2.40.

2093 Elegans, Rose
Similar to Elegans White, but the flowers are a fine rose. A profuse bloomer that mixes well with other annuals. Pkt. 10¢; oz. 25¢; 4 ozs. 70¢; lb. \$2.40.

White Baby's Breath

1848 **Carnation—Marguerite**

into a stiffy erect bush, 12 to 15 inches tall. The sturdy and compact growth makes this variety particularly suited for growing in the open garden because the plants do not require any supports. Another most outstanding character is the fact that the plants will bloom four months after the seed is sown, whereas other Carnations require two or three times as long. Sown early, the plants will bloom during the late summer and early fall and by repeated sowings they may be had in bloom all winter long if grown in the conservatory or in the greenhouse.

The seed we offer produces about 80 percent fully double flowers. The individual blooms are large, well rounded, and composed of large broad petals attractively serrated on the edges. The range of colors is particularly pleasing. There are plenty of whites, lovely rose and pink shades, salmon, deep red, maroon, scarlet, and dark blood shades.

Sow the seed thinly outdoors as soon as the ground can be prepared and when the plants are large enough thin or transplant to stand 12 inches apart in the row. Carnations do best if planted in a moderately heavy loam soil where they may receive an even quantity of moisture at all times. Pkt. 10¢; ¼ oz. 50¢; ½ oz. 75¢; oz. \$1.20.

An excellent type of carnation which grows

CARNATION MARGUERITE

Grow More Flowers

There is not a home that couldn't be made more beautiful than it is now by adding some flowers. Flowers will give a touch of beauty far more impressive than the finest furniture or the most expensive pictures, yet everyone of us can well afford them. Grow plenty of flowers for garden display and to give you cut-flowers throughout the spring, summer, and fall. Beautify the general appearance of your home by adding porch and window boxes to it and provide other flowers to be grown in pots for flower-stands on the porch or indoors.

BURPEE'S CELOSIAS

A very interesting class of annuals with strikingly showy flowers of lasting qualities. All the various types of Celosias are well adapted for beds or borders. The long-stemmed varieties are particularly fine for cut-flowers, lasting in water from 10 to 14 days. If the flowers are cut with long stems and are quickly dried in the shade, they will last for years just like Everlastings. Celosias require a fairly rich soil, containing plenty of well-rotted manure. The ground should be prepared deeply and contain plenty of

sand to provide drainage. A warm sunny location is essential. During the summer apply plenty of water but be sure that it is not too cold.

Sow the seed outdoors where the plants are to bloom, when the maples are coming into leaf, and cover with $\frac{3}{4}$ inch of fine soil. The seeds can also be sown indoors during March, but usually plants which have been transplanted do not grow as vigorously nor as large as those which are sown where they are to bloom, although they bloom earlier.

Chinese Woolflower The 'Chinese Woolflowers

represent a recent addition to this fine class of annuals. The name Woolflower has been given to the plant because the flower-heads resemble a large loose ball of wool. It ranks perhaps highest among the Celosias as a cut-flower. The flower-heads are borne on long stems and practically cover the plant during the blooming season, which lasts from midsummer until frost. In the garden a bed or border of Chinese Woolflower makes a most vivid show. Even a short row of them will yield a continuous supply of blooms for cutting. Of easiest culture, requiring rich soil, plenty of moisture, and lots of warm weather to grow to perfection. For best results sow the seed where the plants are wanted to bloom.

CHINESE WOOLFLOWER

1859 CRIMSON See illustration on the next page. A magnificent variety with the large flower-heads borne in the greatest profusion from midsummer until frost. The color is a rich and intense shade of bright crimson. Few flowers make as magnificent a display for such a long time as this bright variety. Pkt. 15¢; $\frac{1}{8}$ oz. 50¢; $\frac{1}{4}$ oz. 75¢; $\frac{1}{2}$ oz. \$1.20.

1868 PINK Illustrated on the next page. This is a delicate and most appealing shade of bright pink. The glossy surface of the flower-heads has a silky, straw-like appearance. Pkt. 15¢; $\frac{1}{8}$ oz. 50¢; $\frac{1}{4}$ oz. 75¢; $\frac{1}{2}$ oz. \$1.20.

1867 YELLOW Illustrated on the next page. This is a lovely shade of bright soft yellow which blends well with the other two colors we are offering. If planted between the Crimson or Pink variety, it adds much contrast. Pkt. 10¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 70¢; $\frac{1}{2}$ oz. \$1.10.

Burpee's Magnificent Plumed Celosias

(*Celosia plumosa*) The plants are of broad rounded form, from 2 to 3 feet tall. Each branch or stalk ends in a large pointed head of richly colored bloom which later broadens to a loose, plummy head of the most brilliant color. To secure the finest and largest heads sow the seed thinly outdoors the end of April, where the plants are to bloom. When they are 2 inches tall, thin to stand 18 inches apart.

1860 CARMINE The flower-heads are a rich carmine-crimson. Pkt. 10¢; $\frac{1}{8}$ oz. 25¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢.

1861 GOLDEN YELLOW See illustration on the next page. The large flowers are an intense shade of rich yellow. Of enormous size. Pkt. 10¢; $\frac{1}{8}$ oz. 25¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢.

1862 ORANGE-RED See illustration on the next page. This is a magnificent shade of reddish orange. A pure, strong color. Pkt. 10¢; $\frac{1}{8}$ oz. 25¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢.

1863 REDDISH PLUM Illustrated in color on the opposite page. The large flowers are plum color, shading to red. Matches the brighter shades of red very well. Pkt. 10¢; $\frac{1}{8}$ oz. 25¢; $\frac{1}{4}$ oz. 40¢; $\frac{1}{2}$ oz. 60¢.

1865 CRIMSON-SCARLET A most brilliant and fiery crimson-scarlet that simply dazzles the eye. Blooms profusely. Pkt. 10¢; $\frac{1}{8}$ oz. 25¢; $\frac{1}{4}$ oz. 40¢.

1864 MIXED This fine mixture contains all the above colors of Burpee's Magnificent Plumed Celosias, properly blended. Pkt. 10¢; $\frac{1}{8}$ oz. 20¢; $\frac{1}{4}$ oz. 30¢; $\frac{1}{2}$ oz. 50¢.

1856 Chrysanthemum-Flowered Celosia

(*Celosia chrysanthaeflora*) See illustration. A tall-growing strain of Celosia, bearing immense rounded heads of flowers which resemble the Giant Chrysanthemums in size and general appearance. These giant heads make a very fine show in the garden. They look best if planted along with some lower growing annuals or may be placed in the perennial bed. This strain includes a number of bright shades, such as yellow, pink, red, and plum-purple. It makes its best growth if the seed is sown where the plants are to bloom. Pkt. 35¢; $\frac{1}{16}$ oz. \$1.00; $\frac{1}{8}$ oz. \$1.50.

CHRYSANTHEMUM FLOWERED CELOSIA

1866 Celosia Spicata

See illustration. The light lilac-pink flowers are borne in elongated heads carried on long and substantial flower-stems. The plants are of upright growth, so that the flowers can be cut with long stems attached. It makes a fine addition to mixed bouquets of annuals or perennials, or may be used for a display in the mixed border. Easily dried for winter bouquets. Pkt. 10¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 70¢.

CELOSIA SPICATA

Cockscomb A class of very showy plants of unusual appearance. The flowers form a tremendous head or comb, which has a velvety touch. Grows 15 to 18 inches tall and is in good demand as a cut-flower.

1913 TALL ROSE See illustration on the opposite page. A fine color. The plants carry their large well-developed flower-heads on thick substantial stems; 15 to 18 inches tall. Pkt. 15¢; $\frac{1}{8}$ oz. 50¢; $\frac{1}{4}$ oz. 75¢.

1914 TALL YELLOW Illustrated on the next page. Thick substantial combs of a bright yellow shade. Pkt. 15¢; $\frac{1}{8}$ oz. 50¢; $\frac{1}{4}$ oz. 75¢.

1915 TALL SCARLET See next page for illustration. A particularly bright and showy variety. Pkt. 15¢; $\frac{1}{8}$ oz. 50¢; $\frac{1}{4}$ oz. 75¢.

1917 TALL MIXED This is a mixture of many fine colors, including the above. Pkt. 10¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 70¢; $\frac{1}{2}$ oz. \$1.10.

1912 GIANT EMPRESS Of dwarf compact growth, about 10 inches tall, with thick heavy combs of deep purple and red. The stems and foliage are bronzy red. Pkt. 15¢; $\frac{1}{8}$ oz. 50¢; $\frac{1}{4}$ oz. 75¢; $\frac{1}{2}$ oz. \$1.20.

Burpee's Celosias

Whether your garden is large or small, Celosias will fit well into it, and with their bright and showy colors will give a display which is unequalled by any other annual. Celosias will serve both as bedding or border plants. They will, from midsummer until fall, give a wealth of cut-flowers which will last nearly two weeks in water. The stately spikes or combs can also be dried for winter bouquets. The glorious colors of these easily grown annuals have made them very popular.

Collections of Chinese Woolflower

These collections contain the three fine distinct varieties of Chinese Woolflower illustrated to the right and fully described on the previous page. The rich colors can be planted together in one bed because they blend beautifully.

7517 One packet each of the three beautiful varieties (value 40¢) will be mailed to your door, postpaid, for **25¢**

7519 1/8 oz. each of the three glorious varieties (value \$1.45) will be mailed to your door, postpaid, for **\$1.00**

Collections of Plumed Celosias

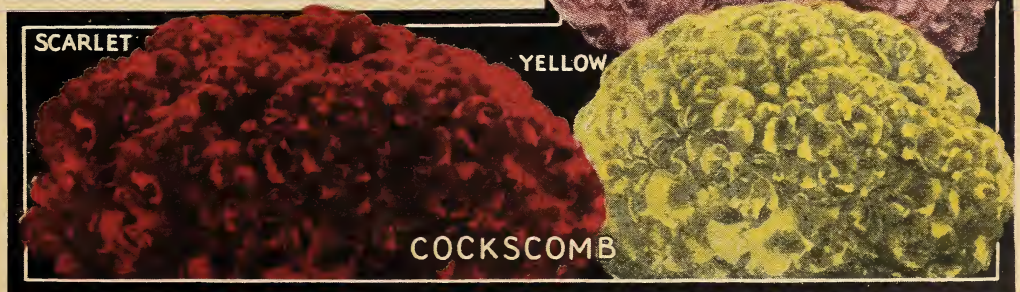

The three varieties illustrated: Orange Red, Golden Yellow, and Reddish Plum.

7515 One packet each (value 30¢) will be mailed to your door, postpaid, for **25¢**

7516 1/8 oz. each of the three varieties (value 75¢), postpaid, to your door for **50¢**

7551 Cockscomb Collection

One packet each of the three Tall Cockscombs illustrated below and described on the previous page: Scarlet, Rose, and Yellow. Truly a wonderful assortment of colors (value 45¢), mailed postpaid to your door for **25¢**

CALLIOPSIS—Golden Wave

A half-hardy annual of quick growth, doing well in almost any location, and blooming throughout the season. It is exceedingly showy and of easiest culture. Particularly pretty for cut-flowers. Sow the seed early in the spring when the maples are starting out in leaf. Sown as late as July 1 the plants will bloom freely during the fall until frost.

1813 Tall Mixed Contains a great number of large- and small-flowering varieties, ranging in color from golden yellow to orange, bronze, and brown. Many of the flowers are tigered and spotted. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

1814 Dwarf Mixed A very free-flowering mixture of dwarf growth, 6 to 8 inches tall, with beautiful large flowers in shades of yellow, orange, and mahogany. Pkt. 10¢; ¼ oz. 25¢.

1810 Crimson King See illustration. A most free-flowering and showy variety, with bright crimson blooms of large size. Pkt. 10¢; ¼ oz. 25¢.

1812 Tinctoria Attractive plants growing 1 to 3 feet tall. The petals are bright yellow shading to dark purple at the base. Very free flowering. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢.

1808 Tiger Flower (*Calliopsis radiata*) A unique small-flowered variety of Calliopsis with attractive star-shaped flowers of a rich mahogany red color, beautifully spotted with a brilliant yellow. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢.

1809 Golden Wave (*Drummondii*) See illustration. Bright yellow flowers with a dark brown center. Blooms 10 to 12 weeks after sowing and continuously during summer and fall. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

7520 Calliopsis Collection The collection contains one packet each of **Golden Wave, Tinctoria, Crimson King, and Tiger Flower.** These four packets (value 40¢) will give a fine display. Mailed to any address, postpaid, for **25¢**

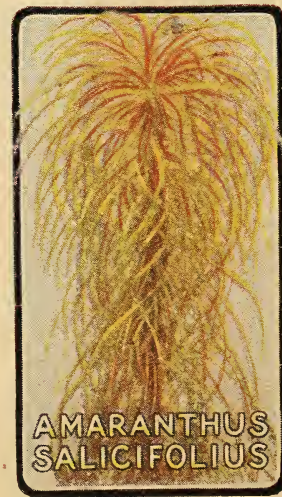

Amaranthus

The Amaranth is an annual grown extensively for its colored foliage and showy flower clusters. The plants thrive in a hot and sunny location and make their tallest growth in rich soil; but in poorer soils the coloring of the foliage is decidedly brighter.

Sow the seed in the open after the maples are in full leaf or start indoors to be set out when all danger of frost has passed.

1527 TRICOLOR SPLENDENS (*Joseph's Coat*) The plants grow 3 to 5 feet tall and have beautiful variegated foliage. The large attractive flower-heads are a bright crimson color. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

1528 SALICIFOLIUS See illustration. A graceful grower, 3 feet tall. The leaves are 5 to 8 inches long and ¼ inch wide. They are a bronzy green changing to orange-red shaded with gold. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

1767 Bartonia—Gold Star

AUREA See illustration. A very attractive hardy annual with stems growing 12 to 18 inches tall. The leaves are covered with a mass of soft white hairs, giving the whole plant a downy appearance. The flowers measure 2½ inches across. They are a bright yellow with a distinct orange-yellow tint near the base of the petals. Toward evening they give off a delicate perfume.

The beauty of the flower is enhanced by a thick bunch of yellow stamens covering the center of the flowers. They open up as the sun nears the horizon, remaining open all night long.

It thrives anywhere and blooms continuously throughout summer and fall. Pkt. 10¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

2120 Lantana FINEST MIXED

See illustration. This well-known shrubby plant, with clusters of Verbena-like flowers, makes a splendid display the first season sown from seed. They thrive in a sunny, open location and in rich, porous soil. The plants flower freely throughout the entire summer and can be potted for winter blooming. Yellow, orange, red, and pink shades. Height, 18 inches. The seeds require 4 weeks to germinate and the sowing should be kept moderately moist until the seedlings break through the ground. Lantanas are used extensively for porch or window boxes, as well as for beds and borders, because of their showy appearance. Pkt. 10¢; ¼ oz. 20¢; ½ oz. 30¢; oz. 50¢.

Burpee's Annual will make it easy and convenient for you to buy your seeds by mail direct from Burpee—The Largest Mail Order Seed House in the World.

Coleus Coleus is very highly valued on account of its brilliantly colored foliage. It may be planted outdoors in well-prepared beds or may be grown as pot plants. The plants are easily grown and can be had in good condition throughout the winter. They do not develop their best coloring unless they have a sunny position. If the plants show a tendency to grow too tall, the center tips should be pinched out. The culture of Coleus is very easy and a moderately rich soil which contains plenty of humus and also a good quantity of sand will give good results. Grown in the open the soil should not be too rich. During the summer months the plants should be watered regularly.

Start the seed indoors in boxes during February or March, covering with one-quarter inch of fine soil. As soon as the plants are about one-half inch tall transplant to small pots. Set in the open when the trees are in full leaf and the nights are quite warm. Where a solid mass of color is desired, set the plants 10 inches apart each way. Where large specimen plants are the object, set the plants two feet apart each way. Mixed in the border Coleus adds greatly to the attractive display.

1921 Burpee's Sunset (Fordhook Special) See illustration. The leaves are extremely large, and the colors, variegations, and markings are rich and brilliant. The diversity of shades and combinations of colors are wonderful—seldom is it possible to find two plants alike. We have measured leaves 10 to 13 inches long by 9 to 12 inches broad. We have developed this special large-leaved strain on Burpee's Fordhook Farms and are continually improving it. Pkt. 15¢; 1/32 oz. 50¢; 1/16 oz. 75¢; 1/8 oz. \$1.20.

1927 MIXED COLEUS This fine mixture of Coleus contains a wonderful assortment of different types and different colors. The plants are all of tall, strong-growing habit, and the leaves are exceptionally bright in color. It does not compare with Burpee's Sunset but will make quite a show. Pkt. 15¢; 1/32 oz. 45¢; 1/16 oz. 70¢; 1/8 oz. \$1.10.

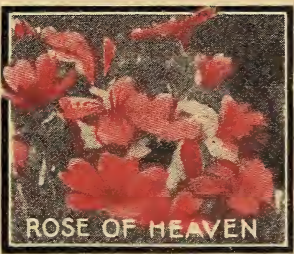

COLEUS
BURPEE'S SUNSET

Burpee Quality Flower Seeds are the best that it is possible to grow. We yearly produce many kinds of flower seeds on Burpee's Fordhook Farms in Pennsylvania, Burpee's Sunnybrook Farm in New Jersey, and Burpee's Floradale Farms, the California Home of Flowers.

1514 Rose of Heaven—Agrostemma

See illustration. The plants grow 12 to 15 inches tall and begin blooming 10 weeks after the seeds are sown, making a wonderful display from June until frost. The flowers are borne in great profusion. They measure 1 to 1 1/2 inches in diameter and are of a bright rich rose color.

Sow the seed thinly early in the spring, and cover with 1/4 inch of fine soil. Carefully thin to stand 4 inches apart so that they will have sufficient room to develop freely. Pkt. 10¢; 1/2 oz. 25¢; oz. 40¢.

ROSE OF HEAVEN

Clarkia 1906 FINEST DOUBLE MIXED

See illustration. Clarkia is one of our easiest grown annuals, developing to perfection in a cool climate. The plants grow quickly and are in full bloom from 5 to 6 weeks after planting. The mixture we offer is composed entirely of double varieties. The plants make a branching growth and bloom very freely. The flowers are borne on long stems and are very fine for cutting. Clarkias, on account of their bright colors, are excellent for mass planting. The mixture contains rosy purple, rose, salmon, white, and many other delicate shades in a complete and harmonious assortment. Sow the seed thinly and barely cover from view early in the spring. When the plants are about an inch tall thin to stand 4 to 5 inches apart. Pkt. 10¢; 1/4 oz. 35¢; 1/2 oz. 55¢; oz. 85¢.

CLARKIA

The cost of the very best seed is so small compared with the value of the resulting crop that sensible planters know they cannot risk seeds of doubtful pedigree—and we know just as well that we cannot afford to risk our hard-earned reputation by selling seeds of uncertain character.

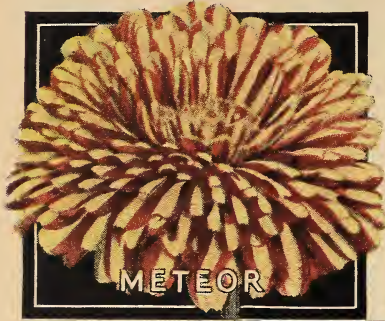

EVENING PRIMROSE

Evening Primrose 2388 MIXED

(*Enothera Lamarckiana*) See illustration. Evening Primrose is a very showy annual, but if sown in the fall will behave like a biennial, blooming the following season. The plants grow 2 to 2 1/2 feet tall. They bloom profusely from June until September. The plants make an upright well-branched growth and the flowers remain closed during the heat of the day, opening upon the approach of twilight. Our Mixture of Evening Primrose includes a wide range of colors, such as yellow, white, lilac, rose, light and deep purple. The plants do well in a sunny location and in a fairly dry soil which contains plenty of lime.

Sow the seed thinly early in the spring when the maples are coming into leaf and cover with one-quarter inch of fine soil. When the seedlings are about an inch tall carefully thin them or transplant so that they will stand 12 inches apart in the row. Evening Primrose, because they do well in even poor soil providing they get plenty of sun, are very fine for naturalizing on hills or for planting in mixed borders. They also make good pot-plants. Pkt. 10¢; 1/4 oz. 25¢.

CALENDULA—Scotch Marigold

METEOR

1806 Meteor See illustration. Meteor is an excellent variety with large flowers. The individual petals are arranged shingle-like, curving inward in the center. Grown under average conditions the flowers never show an open center except after they have passed their prime. The bushes make a fine compact growth about 15 to 18 inches tall.

The rich green foliage forms a fine background to the gaily colored flowers.

Each individual flower petal has broad, showy stripes of brilliant orange set against a creamy white ground. This combination of color is most charming and unusual. Meteor is very free-blooming and lasts a long time in water. Pkt. 10¢; ½ oz. 30¢; oz. 45¢.

1802 Orange King See illustration. Orange King is perhaps the best known of all Calendulas. It is a magnificent flower, growing to enormous size, and is outstanding because of its rich orange-yellow color. The flowers are well rounded and fully double to the center. They are made up of enormous broad substantial petals. Our improved strain of Orange King is particularly free flowering. The long-stemmed blooms are very fine for cutting, lasting a long time in water. Pkt. 10¢; ½ oz. 35¢; oz. 55¢; 4 ozs. \$1.55.

LEMON QUEEN

1800 Lemon Queen See illustration. A lovely companion to Orange King, with flowers of equally large size. The color is an intense rich lemon-yellow of great brilliancy. Blooms very freely and is by far the best lemon Calendula in existence. Pkt. 10¢; ½ oz. 35¢; oz. 55¢; 4 ozs. \$1.55.

ORANGE KING

7717 Collection of Calendula

Our collection contains the three varieties **Orange King**, **Meteor**, and **Lemon Queen**. These are easily grown and make a showy display for many weeks. They are also lovely as cut-flowers. The three packets will be 25¢ mailed, postpaid, for

LEGION OF HONOR

MARIGOLD Marigolds have been favorites with gardeners everywhere for many years. The gardens of our grandparents would not have been complete without them. For edging and low borders the dwarf varieties are unexcelled, and **Legion of Honor**, illustrated to the left and described on the opposite page, is one of the finest. Both **Lemon Ball** and **Orange Ball**, illustrated below, are fully described on the next page. They are of tall, strong growth and exceptionally fine for mixed beds or tall borders.

7710 Marigold Collection

This collection contains one packet each of **Legion of Honor**, **Lemon Ball**, and **Orange Ball** Marigold. 25¢ It will be mailed, postpaid, to any address for

LEMON BALL

ORANGE BALL

CALENDULA—Scotch Marigold

These are easily grown annuals, retaining their fresh appearance even during the hottest weather. Contrary to most other plants, Calendula can be transplanted up to the time the flowers begin to open. Even though they prefer a sunny and rather dry soil, they do well under widely different conditions, requiring little care to grow to perfection. They grow well and bloom freely even if planted between stones or trash heaps, whether located in the sun or in the shade. If the seed is sown at intervals of 4 to 6 weeks, flowers may be had all the year around provided of course that for winter blooming the plants are taken up in the fall, planted in pots, and placed in the house near a sunny window. They respond quickly to a thorough watering during periods of drought.

Sow the seed outdoors when the maples are coming into leaf, covering firmly with $\frac{1}{4}$ inch of fine soil. Thin or transplant the seedlings to stand 6 to 8 inches apart. For extra-early blooming, sow the seed indoors about the middle of March and transplant to the garden when the maples are in leaf. Calendulas are also grown extensively for winter blooming in the greenhouse. The seeds usually germinate in 8 to 10 days.

Double Calendulas

1797 Orange Ball (*Ball's Special Strain*) This is a very fine double Calendula of magnificent size. It is of the same color as Orange King and resembles it closely in all other respects. This strain has a reputation among florists, who grow it for winter blooming in greenhouses. Also excellent for the garden. Pkt. 25¢; $\frac{1}{2}$ oz. \$2.20; oz. \$3.50.

1803 Royal Trianon An odd yet very pleasing flower. The petals are sulphur-yellow, shading to brown in the center, each petal being tipped with mahogany. The combination of these shades is very beautiful. A free-flowering variety with large blooms. Pkt. 10¢; $\frac{1}{2}$ oz. 30¢.

1799 Favorite The flower petals are regularly placed like shingles. They are creamy white on the base and with contrasting mahogany-brown tips. The compact plants bloom very freely and the flowers being long stemmed are fine for cutting. Pkt. 10¢; $\frac{1}{2}$ oz. 30¢; oz. 45¢.

1805 Double Calendula, Mixed See illustration. A complete mixture of all the varieties of Calendulas we offer. They will make a fine display in any garden, whether planted as a border, bed, or with other annuals. Easily grown, free blooming. Pkt. 10¢; $\frac{1}{2}$ oz. 20¢; oz. 30¢.

MARIGOLD—Tagetes

There are two classes of Marigolds usually grown in the garden. These are Tall African and Dwarf French. The Tall African varieties grow 2 $\frac{1}{2}$ to 3 feet tall. The Dwarf French varieties are of more compact growth, forming ball-like bushes 12 to 15 inches in height. This class is particularly fine for borders, blooming from July until frost. Marigolds are easily grown and should be sown in shallow drills in the open garden early in the spring, after all danger of frost is over. Marigolds can be grown to perfection in a dry and sunny location.

Tall African

2172 El Dorado See illustration. Bears a profusion of double flowers of enormous size. The color of the flowers is a rich and bright golden yellow. Pkt. 10¢; $\frac{1}{4}$ oz. 30¢; $\frac{1}{2}$ oz. 45¢; oz. 70¢.

2176 Lemon-Ball See illustration on opposite page. Extra large, round, double flowers of a clear canary-yellow. Large round plants with attractive dark green foliage; covered with flowers from July until frost. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢; $\frac{1}{2}$ oz. 55¢.

Orange-Ball

2178 See illustration on opposite page. Enormous double flowers of intense rich orange. The flowers are produced in great profusion from July until cut down by frost. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢; $\frac{1}{2}$ oz. 55¢; oz. 85¢.

2170 African Double, Mixed

A well-balanced mixture of strong growing and large-flowering Marigolds and a few others which deserve a place in the mixture. Pkt. 10¢; $\frac{1}{4}$ oz. 25¢; $\frac{1}{2}$ oz. 40¢; oz. 60¢.

Marigold—El Dorado

Dwarf French

Double Pulchra

2183 Golden yellow with deep velvety brown center. Pkt. 10¢; $\frac{1}{4}$ oz. 30¢; $\frac{1}{2}$ oz. 45¢.

2185 Dwarf Orange-Ball

A rich shade of orange. Pkt. 10¢; $\frac{1}{4}$ oz. 35¢; $\frac{1}{2}$ oz. 55¢.

2187 Compact Gold

Striped Mahogany flowers, striped with gold. Pkt. 10¢; $\frac{1}{4}$ oz. 30¢; $\frac{1}{2}$ oz. 45¢.

2190 French Double, Mixed

A complete mixture of Dwarf French Marigolds. Pkt. 10¢; $\frac{1}{4}$ oz. 25¢; $\frac{1}{2}$ oz. 40¢.

2194 Legion of Honor

See illustration on opposite page. A lovely variety with single flowers borne profusely and continuously. The blooms are rich golden yellow, marked with shining crimson-brown. Pkt. 10¢; $\frac{1}{4}$ oz. 30¢; $\frac{1}{2}$ oz. 45¢; oz. 70¢.

CLIMBING FLOWERS

Morning Glories

Morning Glories are most useful on account of their quick

growth. They will grow 15 feet tall and bear thousands of flowers of both brilliantly rich and soft delicate shades. The Japanese and the Brazilian Morning Glories are less hardy and should not be sown until the trees are in leaf.

3019 WHITE Large, pure waxy white flowers. Pkt. 10¢; ½ oz. 20¢; oz. 30¢.

3017 ROSE A rich warm shade of bright rose. Pkt. 10¢; ½ oz. 20¢; oz. 30¢.

3011 DARK RED A beautiful and rich shade of red. The vines are completely covered with the brilliant and large flowers. Pkt. 10¢; ½ oz. 20¢; oz. 30¢.

3013 LIGHT BLUE Large flowers of a delicate light blue. Makes an immense growth and blooms freely and continuously. Pkt. 10¢; ½ oz. 20¢; oz. 30¢.

3009 DARK BLUE Rich and impressive, with light purple creases. Excellent for porches or garden-houses. Free flowering. Pkt. 10¢; ½ oz. 20¢; oz. 30¢.

3020 AIRY FAIRY An attractive delicate blush-rose of charming beauty. The vines are literally covered with flowers. Pkt. 10¢; ½ oz. 20¢; oz. 30¢.

3025 RUBY QUEEN TASSEL A beautiful double variety with lovely ruby-red flowers. Makes a magnificent sight. Pkt. 10¢; ½ oz. 30¢; oz. 45¢.

3026 DOUBLE WHITE TASSEL Double fringed flowers; white, with delicate purple markings. Very pretty. Pkt. 10¢; ½ oz. 30¢; oz. 45¢.

3027 SNOW FAIRY Attractive semi-double flowers; pure white. Impressive free-blooming variety. Pkt. 10¢; ½ oz. 30¢; oz. 45¢.

2962 BRAZILIAN MORNING GLORY (*Ipomœa setosa*) The rose-colored flowers measure 3 inches across with a five-pointed star of satiny pink. Pkt. 10¢; ½ oz. 25¢; oz. 40¢.

2968 FUCHSIA-FLOWERED Gracefully slender vines with small light rose-pink flowers carried on thin wiry stems. Pkt. 10¢; ½ oz. 25¢; oz. 40¢.

Fine Mixed Morning Glories

3021 Fine Mixed See illustration. This is a mixture of all the varieties listed and some other fine colors of this beautiful free-flowering type. Pkt. 10¢; ½ oz. 15¢; oz. 25¢.

3024 ROCHESTER Very large flowers of a beautiful light blue with a broad edge of silvery white. An early and free bloomer. Pkt. 10¢; ½ oz. 30¢; oz. 45¢.

3028 Japanese, Mixed See illustration. This is a particularly attractive variety of Morning Glories with large, deeply lobed leaves. The flowers are considerably larger than the ordinary strains. Start the seed indoors in boxes during April or sow outdoors when the nights have become quite warm. Pkt. 10¢; ½ oz. 20¢; oz. 30¢.

JAPANESE MORNING GLORIES

Moonflower

These beautiful climbers grow rapidly, and will reach a height of 20 to 30 feet in a single season. The foliage is large, dense, and luxuriant, affording splendid shade for porches. Plant the seed ½ inch deep in rich soil in spring when the maple trees are well out in leaf. For the northern states seed should be started indoors the middle of March. To help the germination of the hard seeds, file or chip a small hole in the stony seed-coat but keep away from the scar because the germ is hidden closely beneath it.

2991 SKY-BLUE See illustration. Of strong vigorous growth. Large sky-blue flowers in September. The flowers measure nearly 4 inches across and are unsurprisingly beautiful—of the softest cerulean blue, shading to white at the throat. Pkt. 15¢; ½ oz. 45¢; oz. 70¢.

2985 NEW CROSS-BRED See illustration. Of great value for the North, as it is in full bloom one month before the White-Seeded. The flowers are 4 to 6 inches across, pure white, and very numerous. Pkt. 10¢; ½ oz. 30¢; oz. 45¢.

2983 WHITE-SEDED The vines bear thousands of immense white flowers, many measuring 6 inches across. Very beautiful. Pkt. 10¢; ½ oz. 30¢; oz. 45¢.

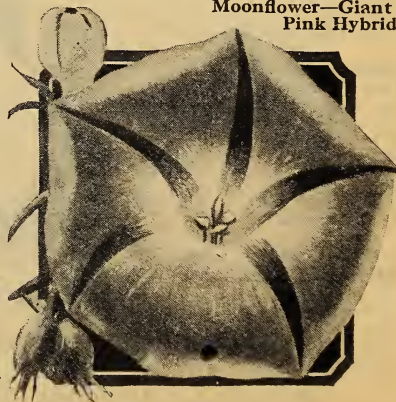

GIANT PINK HYBRID

2986 See illustration. A beautiful new color with flowers of enormous size. Large leaves of a sub-tropical appearance. Very fine. Pkt. 10¢; ½ oz. 30¢; oz. 45¢.

2987 EARLY - BLOOMING SKY-BLUE (*Ipomœa grandiflora rubro-cerulea*) The plants grow quickly and climb well. The beautiful sky-blue flowers, measuring 5 to 6 inches across, are borne in very great numbers. Pkt. 15¢; ½ oz. 65¢; oz. \$1.00.

2989 MOONFLOWER, MIXED A mixture of all varieties of Moonflower listed and some other good ones. Pkt. 10¢; ½ oz. 30¢; oz. 45¢.

Moonflower—Giant Pink Hybrid

Sky-Blue

New Cross-Bred

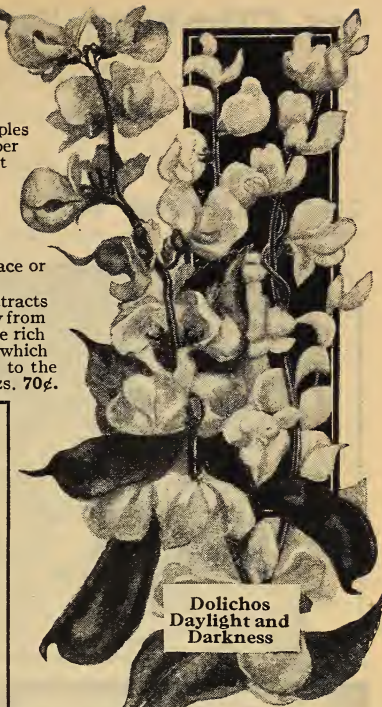

Dolichos—Hyacinth Bean

The two varieties of Dolichos are by far the most showy and useful for any gardener. They are of remarkably strong and sturdy growth, quickly growing to a height of 8 to 10 feet. The broad leaves afford good shade and make a fine screen to the porch or garden house.

Plant the seed after the weather has become quite warm and when the maples are out in full leaf. The plants produce a wealth of flowers during September and October. The seed may also be started indoors during early April and set out in the open late in May.

2927 DARKNESS See illustration. The color of the stems and leaves of Darkness is a purplish red. It mixes well with other climbers and produces a good variety. The numerous long spikes of pea-like flowers are deep reddish maroon, not unlike Wisteria. The blooms are followed by beautiful metallic purple seed-pods. Sow the seed one inch deep when the maples are in leaf. Space or thin to stand 8 inches apart. Pkt. 10¢; oz. 25¢; 4 ozs. 70¢.

2929 DAYLIGHT See illustration. A climber of rapid growth that always attracts attention. The vines grow quickly to a height of 8 to 10 feet and bloom profusely from base to summit. The large pure white flower-spikes stand out boldly from the rich green foliage. As the flowers drop they are succeeded by broad white pods which remain fresh for a long time and add to the appearance. Pkt. 10¢; oz. 25¢; 4 ozs. 70¢.

Dolichos Daylight and Darkness

KUDZU VINE

2974 Kudzu Vine

(*Pueraria thunbergiana*) See illustration. This is a perennial climber which yearly starts new shoots from the crown of the roots. One of the most rapid growing of all climbers, providing a dense screen of large, rich green leaves.

The purple flowers are borne in clusters and resemble Wisteria. Well-grown vines attain a height of 40 to 50 feet in a single season. The seed should be started indoors in March and the young plants set out early in May. Protect the roots with straw during severe freezing. Blooms only where the summers are very warm, but it is grown in cooler sections for its attractive dense foliage. Pkt. 10¢; 1/4 oz. 35¢; 1/2 oz. 55¢; oz. 85¢.

The well-known perennial climber, **Boston Ivy**, is listed in the perennial section of this catalog, page 194. **Lathyrus**, another perennial climber, is listed on page 196.

For climbers grown from bulbs see **Apios Tuberosa**, **Cinnamon Vine**, and **Ma-deira Vine**, page 201.

Cypress Vine, Scarlet

Cypress Vine

A slender climber of quick growth, having small, finely divided dark green foliage. The vines are thickly starred with small, brightly colored flowers. Very desirable for small ornamental trellises or wire supports. Cypress Vine requires a warm sunny situation to grow luxuriantly. The soil best suited should be fairly sandy, contain a fair amount of humus, and be rich in lime. It may be grown in porch or window boxes to climb up on a trellis. The seed should be sown when the trees are starting out in leaf, or farther North may be started in boxes in March to be planted in the garden when the trees are out in leaf and the nights have become quite warm.

2919 SCARLET See illustration. Intensely rich scarlet flowers borne with the greatest profusion from June until killed by frost. A free climber and profuse bloomer. Pkt. 10¢; 1/2 oz. 30¢; oz. 45¢.

2921 WHITE Pure paper-white; rich green finely divided foliage. This variety is most showy and makes a fine screen for the porch or balcony, blooming freely. Pkt. 10¢; 1/2 oz. 30¢; oz. 45¢.

Cardinal Climber

2912 (*Ipomœa cardinalis*)

See illustration. An easily grown climber developing to perfection in sandy loam soil.

The leaves resemble those of a fine Japanese Maple. They cover the vines completely and give good shade, admitting, however, plenty of air when planted on the porch.

The brilliant scarlet flowers are borne profusely. Pkt. 15¢; 1/8 oz. 45¢; 1/4 oz. 70¢; 1/2 oz. \$1.10.

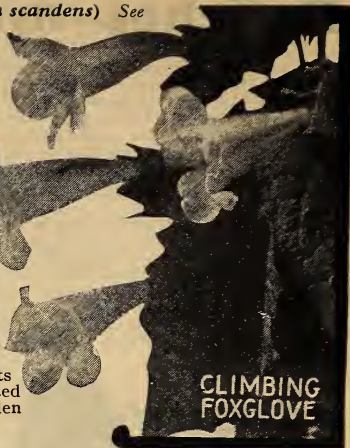

Cardinal Climber

7560 Collection of Climbers

There is a need for climbers in almost every garden and our collection will serve well to provide shade for the porch and garden house or for hiding unsightly fences or walls. It contains one packet each; *Cobœa scandens*, *Japanese Morning Glories*, *Cypress Vine—Scarlet*, *Dolichos—Darkness*. All of these varieties are easily grown in any ordinary garden soil under average conditions. They will be mailed (value 40¢), postpaid, for **30¢**

2975 Climbing Foxglove (*Lophospermum scandens*) See illustration.

A beautiful annual Mexican climber and one of our finest trailing annuals. The graceful flowers are of large size and resemble Foxgloves in shape. They are of a rich rosy purple color. The foliage is of a velvety texture. Blooms continuously from July on and is fine for outdoor or indoor culture. Start the seed indoors during April in a box containing good garden soil and cover thinly with fine soil, or sow outdoors when the maple leaves are expanding. Under favorable conditions the vines grow 10 feet tall. The flowers are borne with unusual profusion from July until frost. Pkt. 15¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

CLIMBING FOXGLOVE

2906 Balloon Vine "Love in a Puff" See illustration.

A graceful annual climber, growing quickly 5 to 10 feet tall. The foliage is light green, and the small flowers are a whitish green color. These inconspicuous blooms are followed by attractive balloon-shaped seed-pods of an inch or more in diameter. Sow the seed when the maples are in full leaf, covering with 1/2 inch of fine soil. It does best in a light sandy soil and a sunny exposure. Because of its rapid and free growth it is planted widely to cover fences, garden houses, and arches. Pkt. 10¢; 1/2 oz. 25¢; oz. 40¢.

BALLOON VINE

2913 Cobaea Scandens (Cup and Saucer Vine) See illustration.

Of very rapid growth, 10 to 20 feet tall. In our northern climate the seed should be started indoors and the plants set out when the nights have become quite warm. The young flowers are light green, changing to rose-purple as they open up fully. They are quite large, borne on long stems and of bell shape. In warmer sections it will live outdoors for many years. To encourage an even and quick germination press the flat seeds edgewise into the soil so that the upper edge comes even with the soil surface. It is a good climber for covering tall unsightly fences or garden houses where plenty of shade is wanted. Equally as fine for providing shade for the porch. Pkt. 10¢; 1/4 oz. 25¢; 1/2 oz. 40¢; oz. 60¢.

COBAEA SCANDENS

2911 Canary Bird Flower (*Tropaeolum peregrinum*)

See illustration. The flowers are a rich golden yellow, very bright and attractive, with their fringed flower petals. The foliage is delicate with finely divided five-lobed leaves of a bright light green color. It succeeds best in rather cool locations, but exposed to the full sun. It will bloom freely and continuously throughout the summer and fall. Pkt. 10¢; 1/2 oz. 30¢; oz. 45¢.

CANARY BIRD FLOWER

2979 Maurandya FINEST MIXED A graceful, rather delicate annual climber from Mexico.

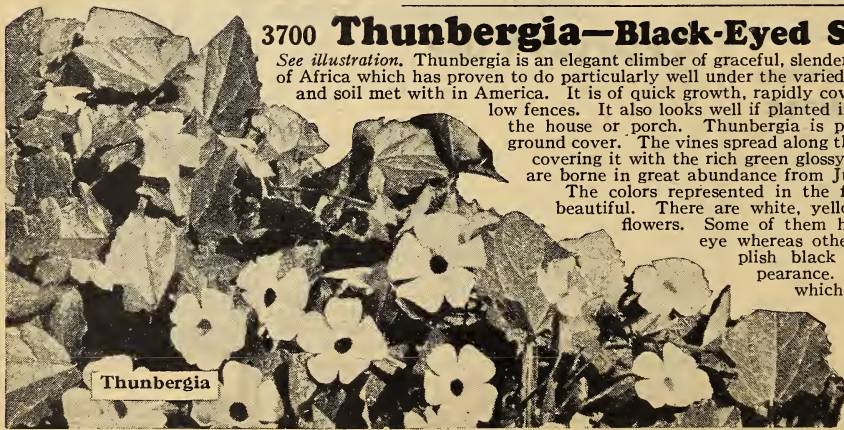

Fine for baskets and vases in sheltered positions. Elegant alike in flower and foliage. Blue, white, and mauve in mixture. It is a profuse bloomer, with smooth, glossy, ivy-shaped leaves, attaining a height of from 5 to 6 feet when grown in the open. During March start the seed indoors in pots and set out when the weather is quite warm. Blooms continuously from July on. They thrive in a rich sandy soil to which has been added some leaf mold. Pkt. 15¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢; 1/2 oz. \$1.30.

3700 Thunbergia—Black-Eyed Susan Vine

See illustration. Thunbergia is an elegant climber of graceful, slender habit. It is a native of Africa which has proven to do particularly well under the varied conditions of climate and soil met with in America. It is of quick growth, rapidly covering wire trellises or low fences. It also looks well if planted in hanging baskets for the house or porch. Thunbergia is particularly fine for a ground cover. The vines spread along the ground, completely covering it with the rich green glossy foliage. The blooms are borne in great abundance from June until October.

The colors represented in the flowers are strikingly beautiful. There are white, yellow, and deep orange flowers. Some of them have a distinct white eye whereas others have a deep purplish black eye of velvety appearance. It is the latter flowers which have suggested the name Black-Eyed Susan Vine.

Sow the seed indoors in March or April or outdoors the middle of May. Pkt. 10¢; 1/4 oz. 40¢; 1/2 oz. 60¢; oz. 95¢.

Thunbergia

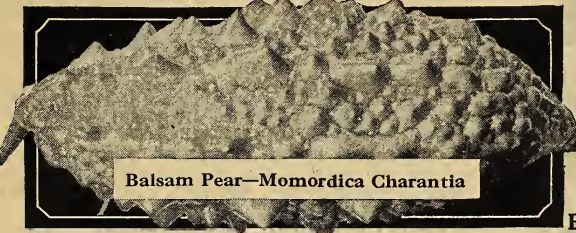

Momordica These are very interesting annual climbers, with smooth, shining foliage, brought to us from India. The flowers are cream with brown spots. They are grown mainly for their peculiar large fruits which follow the flower during late summer and early fall. Does best in a warm location and requires light rich soil and plenty of moisture. Sow indoors during March and set out during May. Or sow outdoors when the maples are in full leaf and the nights have become quite warm. Cover the seed with ½

inch of fine soil. Both varieties offered below are quick growing climbers reaching a length of 15 to 20 feet. They are useful for covering stumps or rock-work. They will climb fairly well if given a support and tied up when the plants begin to show runners. The derivation of the name Momordica is very interesting. It was taken from the Latin word "momordi," which is translated into English, "I have eaten," referring thereby to the appearance of the seed which looks as if the edge of it had been nibbled by some animal.

2993 Balsam Apple (Balsamina) See illustration. Attractive rich creamy yellow flowers followed by small fruits about the size of a lemon. The unripe fruits are green and show small pointed knobs arranged in rows. When the fruits are ripe they turn to a bright golden yellow color. The pulp of the fruit is blood-red and contains large black seeds. Fine for trellises or low fences. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

2995 Balsam Pear (Charantia) See illustration. Rapid growing vines with lobed light green leaves and beautiful fruits of a rich golden yellow color, which when ripe open up, disclosing the seeds encased in a carmine covering. Pkt. 10¢; ¼ oz. 30¢; ½ oz. 45¢; oz. 70¢.

2948 SUGAR TROUGH The shell, when dried, is thick and hard, extremely light, but very durable. The fine fruits are ornamental. Pkt. 10¢; ½ oz. 25¢.

2938 DISHCLOTH or LUFFA The fruits should be allowed to hang on the vines until well ripened, when the skin can be removed and the fibrous or sponge-like interior taken out, cleaned and dried. This makes a fine dishcloth or can be used for bathing in place of a sponge. It is easily grown and climbs readily, giving fineshade to garden houses. Pkt. 10¢; ½ oz. 25¢.

2953 GOURDS, Fine Mixed A most interesting mixture of Ornamental Gourds. It includes large- and small-fruited kinds, ranging from small, apple-shaped fruit to long and large club-shaped and crook-necked forms. Pkt. 10¢; ½ oz. 25¢; oz. 40¢.

Ornamental Gourds

The seed should be sown in rich soil when the trees are well out in leaf and at sufficient distance for the large varieties to have ample room in which to run, the vines frequently attaining 20 to 30 feet in length.

2935 Nest-Egg See illustration. This is a small white-fruited variety, the fruits resembling hens' eggs. When properly dried, these fruits are light and durable. As they do not crack and are not affected by cold or wet weather, they make the best nest-eggs. Pkt. 10¢; ½ oz. 25¢; oz. 40¢.

2937 Dipper See illustration. A well-known variety. Grown on the ground, the stems are curved, but when climbing, they grow straight. If hollowed out when ripe, the bowl will hold 2 to 3 pints of water. Fruits very freely and makes a sturdy growth. Pkt. 10¢; ½ oz. 25¢; oz. 40¢.

2933 Spoon Gourd See illustration. Small fruits with slender necks 4 to 5 inches long, brilliantly marked in green and orange with white on light green stripes. By slicing off a portion on the side of the bowl and drying the shell, a spoon may be made. The fruit will be found quite useful also in darning stockings and glove-fingers, and the dry fruits with the seeds left in make fine rattles for the baby. It is a strong grower and produces many fruits. Pkt. 10¢; ½ oz. 25¢; oz. 40¢.

2960 Japanese Variegated Hop

(*Humulus japonicus variegatus*) See illustration. Where an attractive climber is desired that will stand rough usage and make a dense shady mass, there is nothing better than Japanese Hop. It is grown for its foliage, since the greenish flowers are rather small. The leaves are strikingly variegated; the first color is bright deep green, distinctly marked and blotched with silvery white, tinged with yellow; now and then a leaf will be almost snow-white, and another one almost pure green. A strong grower—20 to 30 feet in two to three months' time; not injured by heat or insects. Sow the seed when the maples are coming into leaf, covering with ½ inch of fine soil. Late sown seed quite often germinates extremely slowly. Pkt. 10¢; ½ oz. 35¢; oz. 55¢.

Climbers are extremely useful and attractive. They may be planted to give shade to the porch or garden houses. Again, they may be used for covering stumps and fences, to hide some unsightly places, or to separate one part of the garden from another

Burpee's Seeds Grow

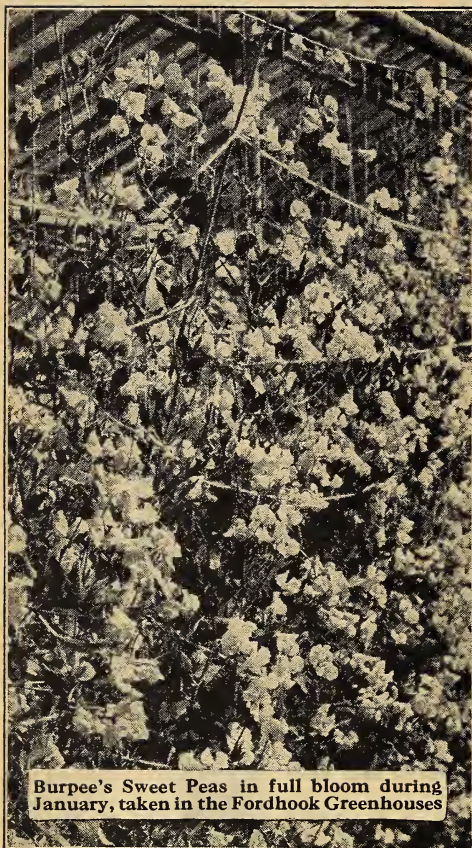

All flower seeds will be sent postpaid

Burpee's Sweet Peas

The Early or Winter-Flowering Varieties

These splendid Sweet Peas were, with a few exceptions, all introduced by Burpee. They are valuable to florists for greenhouse culture and are also adaptable to outdoor planting in warmer climates, such as certain sections of our own southern states, Australia, and South Africa. They do well in many sections where the summer-flowering varieties cannot be grown successfully. In cooler climates they are of value because they bloom a week or ten days sooner than the summer-flowering varieties. This is a decided advantage where early blooms are an important consideration.

Burpee's Sweet Peas in full bloom during January, taken in the Fordhook Greenhouses

White

3391 Burpee's White Star A first-class black-seeded white Sweet Pea. Of large size. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

3381 Milkmaid Although black-seeded, the color is glistening white except that the young flowers sometimes show a tinge of color. Of largest size and substantial texture. Awarded Certificate of Merit. Being black-seeded, the seeds germinate readily and surely. Pkt. 20¢; ½ oz. 80¢; oz. \$1.50; 4 ozs. \$4.50; ½ lb. \$8.25; lb. \$15.00.

3326 Snowflake This excellent white-flowered variety bears a profusion of large, well-waved blooms, carried gracefully full on a stem. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

3392 Snowstorm Improved This is by far the finest of all white winter-flowering varieties. The flowers are extra-large and of fine form. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

Cream

3342 Canary Bird This is a splendid rich deep cream or primrose-colored self. The flowers are of great size, beautifully waved, and long-stemmed. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

Light Pink

3376 Loveliness The entire flower is suffused soft pink, picoteed with rose-pink. It is a lovely large well-shaped flower of great size. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3382 Peach Blossom A pale Amaranth-pink which deepens somewhat toward the edges. Well waved and always bringing 4 large flowers to a stem. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3318 Miss Louise Gude The color of this lovely variety is a charming shell-pink throughout. The flowers are large and well formed. Carried four on a stem of great length. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

Cream-Pink

3348 Daybreak A pleasing shade of rich rose-pink on cream ground, lightly suffused with salmon. Very exquisite. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3332 SUNLIGHT (Burpee Novelty) Sunlight is bright rose-pink on cream ground. The standard is an intense pink with a slightly richer tone in the wings. There is a distinct creamy blotch at the base of the standard which, together with the creamy keel, intensifies the sunlight effect. A most admirable flower. Pkt. (25 seeds) 25¢; ½ oz. \$1.30; oz. \$2.50; 4 ozs. \$7.50; ½ lb. \$13.75; lb. \$25.00.

3394 Sunburst Improved A strong-growing rich salmon-pink with large well-waved flowers borne on long stems. It is free blooming. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

Deep Pink

3351 Enchantress A bright rose-pink, becoming deeper toward the edges of the petals and lighter in the center. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

3343 Cheerful Rich Begonia-pink. The standard is broad and well waved. The wings are also much frilled. It makes a beautiful bunch. Pkt. 15¢; ½ oz. 45¢; oz. 80¢; 4 ozs. \$2.40; ½ lb. \$4.40; lb. \$8.00.

3314 Pink Profusion (Burpee Novelty) A sparkling shade of rich pink which must be seen to be appreciated. The flowers are large, well formed, with both the standard and the wings attractively waved and crinkled. Pink Profusion was awarded three Silver Medals and a Certificate of Merit. Pkt. (25 seeds) 25¢; ½ oz. \$1.30; oz. \$2.50; 4 ozs. \$7.50; ½ lb. \$13.75; lb. \$25.00.

3389 Rose Queen A most pleasing shade of rich pink with a suffusion of rose. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3337 Zvolanek's Rose One of the best in the deep pink class. The flowers are large. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

Rose

3305 Chevalier A true rose color with just a suspicion of yellow toward the base. The flowers are of extreme size. Pkt. 15¢; ½ oz. 45¢; oz. 80¢; 4 ozs. \$2.40; ½ lb. \$4.40; lb. \$8.00.

3350 Penrose This is a most outstanding new shade of rose. As the flowers first open they are a pure clear rose, changing to somewhat more of a rose-pink as they become fully developed. It is an exquisite shade. Pkt. 20¢; ½ oz. 80¢; oz. \$1.50; 4 ozs. \$4.50; ½ lb. \$8.25; lb. \$15.00.

3387 Rosebud Bright shining rose with a suffusion of glistening bronze. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

Salmon

3369 Mrs. Kerr (Burpee's) The Best Early Flowering salmon Sweet Pea in existence. Large, well-waved blooms carried gracefully on long stems. The demand for this unusual shade in the cut-flower market is always strong and it usually brings a fancy price. Pkt. 15¢; ½ oz. 45¢; oz. 80¢; 4 ozs. \$2.40; ½ lb. \$4.40; lb. \$8.00.

Orange

3336 Burpee's Orange The most outstanding orange Sweet Pea. It is a clear, pure orange self. Pkt. 15¢; ½ oz. 45¢; oz. 80¢; 4 ozs. \$2.40; ½ lb. \$4.40; lb. \$8.00.

3360 Flamingo The broad and well-waved standard is light orange with a suffusion of bright salmon. The wings are orange-pink. Pkt. 15¢; ½ oz. 40¢; oz. 70¢; 4 ozs. \$2.10; ½ lb. \$3.90; lb. \$7.00.

Orange-Scarlet

3366 Glitters Glitters and scintillates, with a fire-like sheen radiating over the flowers. The standard is a bright fiery orange, and the wings are deep orange. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

3310 Grenadier The large flowers are a rich Poppy-scarlet. Borne profusely on long stems. Pkt. 15¢; ½ oz. 45¢; oz. 80¢; 4 ozs. \$2.40; ½ lb. \$4.40; lb. \$8.00.

3317 Miss Spokane Miss Spokane is a bright peach-red with wings shaded scarlet, blending into a bunch effect of rich orange-scarlet. This outstanding and free-blooming variety received two Certificates of Merit. Pkt. 15¢; ½ oz. 45¢; oz. 80¢; 4 ozs. \$2.40; ½ lb. \$4.40; lb. \$8.00.

Cerise

3359 Fire King The color is scorching fire-red or cerise-scarlet. It has a glory all its own. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3370 Gorgeous A charming soft salmon-cerise self. The flowers are of great size, and generally borne in threes and fours on very long stout stems. Excellent for growing under glass or outdoors. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3373 Illumination Glowing salmon-cerise, with a suspicion of orange suffusion. A wonderful color. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

Crimson

3374 Early King The finest early-flowering crimson. The flowers are of great size. A strong grower and tremendous bloomer, with long-stemmed flowers of great size borne freely in fours. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

Lavender

3375 Lavender King A rich true deep lavender throughout. The fragrant flowers are of large size and beautifully waved form. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3312 Harmony A very beautiful clear lavender of vigorous growth; free blooming. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

3385 Princess Color a lovely shade of soft lavender suffused mauve. Attractively waved. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

3324 Quaker Lady A light Lobelia-violet with flowers of remarkable size and exquisite form. Awarded Certificate of Merit. Makes a strong growth and blooms freely. Pkt. 15¢; ½ oz. 45¢; oz. 80¢; 4 ozs. \$2.40; ½ lb. \$4.40; lb. \$8.00.

Blue

3338 Blue Bird This is a charming shade of blue, somewhat similar to Wedgwood. Large, and exquisitely waved. Pkt. 15¢; ½ oz. 45¢; oz. 80¢; 4 ozs. \$2.40; ½ lb. \$4.40; lb. \$8.00.

3341 Mrs. Warren G. Harding (Burpee's) A beautiful shade of silvery blue. The flowers are of exquisite texture, large, well waved, and artistically displayed in fours on a long stem. Pkt. 15¢; ½ oz. 45¢; oz. 80¢; 4 ozs. \$2.40; ½ lb. \$4.40; lb. \$8.00.

3396 True Blue A charming shade of true blue; a color much in demand. Of great size, excellent form, free blooming, long stemmed, and heavy texture. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

Dark Blue

3340 Blue Jacket The heavy and substantial flowers are a rich dark navy-blue self. Free flowering. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

Mauve and Purple

3367 Glorious A charming shade of warm rose-purple. Of great size, borne on long stems. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3380 Mauve Beauty A pleasing shade of rosy mauve. The flowers are of large size. They are well waved and artistically arranged in fours on a fine long stem. Mauve Beauty blooms very freely. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

Art Shades

3354 King Tut A deep shade of rich rose heavily flushed with rose-pink. The reverse of the petals is a fine shade of rich rose-pink. An attractive and showy art shade. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

Bicolor

3347 Columbia The standard is a rich rose-pink; wings a fine delicate creamy rose. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3333 Gilda Gray (Burpee Novelty, 1926) An exquisite novelty with a charm all its own. The standard is a lovely shade of salmon-cerise overlying a bright pink. The wings are Hermosa-pink. The bunch effect is an iridescent pink. Blooms freely and continuously, bearing mammoth size blooms on substantial stems. Pkt. (25 seeds) 25¢; ½ oz. \$1.30; oz. \$2.50; 4 ozs. \$7.50; ½ lb. \$13.75; lb. \$25.00.

3361 Fordhook Pink and White Bright rosy pink standard with creamy white wings, lightly suffused rose. A most popular variety of extreme size and exquisitely waved and frilled. A free grower and an extremely profuse bloomer. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3398 Yarrowa Bright rose-pink on clear cream. Large, well waved, and free blooming. This old standby is of Australian origin. Many of the best varieties have been evolved from it by crossing it with the best summer-flowering varieties. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

Striped

3335 Aurora White, artistically flaked rich orange-scarlet. An Australian variety. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

3372 Harlequin Light Heliotrope ground striped and flaked deep chocolate and claret. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

3400 Sunrise Mixture This is a carefully composed blend of the finest of the many named varieties of Early Flowering Spencers. It contains the proper proportions of the various colors and is sure to give a fine display for many weeks. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3401 Mixture of Light Shades In contrast to our Sunrise Mixture, this Special Mixture contains only light shades—such as white, cream, light pink, cream-pink, salmon, picotee, rose, light cerise, lavender, etc., which some of our customers prefer. It will make a wonderful display. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.20; ½ lb. \$2.20; lb. \$4.00.

Fordhook Collections of Six Early Flowering Sweet Peas

The Early or Winter Flowering type of Sweet Peas is most valuable for our southern states, Australia, and South Africa. They are found everywhere growing in the greenhouse during the winter and are of value in our northern states where early flowers are wanted. The collections contain the following six varieties:

Snowstorm Improved Large pure white.

Loveliness Light pink with a deep pink edge.

Rose Queen Rich pink, suffused with rose.

Glitters Fiery orange standard, wings deep orange.

Lavender King Lovely rich deep lavender.

Glorious Charming warm rosy purple.

7350—One packet each of these Six Fine Early Flowering Sweet Peas, value 90¢, will be sent postpaid to any address for. **50¢**

7351—One-half ounce each of these Six Fine Early Flowering Sweet Peas, value \$1.90, will be sent postpaid to any address for **\$1.25**

Burpee's Sweet Peas

The Summer Flowering Varieties

*The vase contains
a bunch of
Burpee's
Giant White*

BURPEE'S SWEET PEAS are world famous. They are grown on Burpee's Floradale Farms—the California Home of Flowers. The mild climate of central California and the rich fertile soil of the Lompoc Valley combine to form ideal conditions to produce Sweet Pea seed of the highest quality. Every year we are growing a large acreage of the very finest varieties, and are constantly improving on existing sorts, as well as creating new colors. All Burpee's Sweet Peas are carefully tested on Burpee's Fordhook Farms in Pennsylvania. Many of the new and glorious colors originated from crosses made on Burpee's Fordhook Farms.

We recommend the **Summer Flowering varieties** for general outdoor growing throughout the United States, except in certain sections of the extreme South, where Sweet Peas flower during the winter and where the Early Flowering type gives best results. Many Sweet Pea lovers plant a short row of the Early Flowering kinds to get the advantage of early blooms, depending on the Summer Flowering varieties for their principal crop from outdoor plantings during either spring or fall.

Six of Burpee's Best Orchid Flowered Sweet Peas

The six Sweet Peas in these collections are **illustrated on the back cover** of this catalog. The varieties included are all of the highest quality. They are large flowering, free blooming, and of exquisite texture. The plants make a remarkably strong growth.

The assortments contain the following:
Honor Bright, Rose-pink on cream
Wonderful, Bright scarlet
Floradale Purple, Warm rosy purple
Sapphire, Bright mid-blue
Sunset, Soft rich rose
Giant White, Glistening pure white

One packet each

of these six varieties, enough to plant 20 feet of row, will be mailed, postpaid, for **50¢**

Order Collection No. 7330

One-half ounce each

of the six varieties, enough for 75 feet of row, will be mailed, postpaid, for **\$1.25**

7341 One-half ounce each of the twelve beautiful Sweet Peas, postpaid, for.. **\$3.00**

7342 One ounce each of the twelve free-flowering Sweet Peas, postpaid, for.. **\$5.00**

Miss Dorothy Louise Scheidler, of Greensburg, Indiana, with her Burpee Sweet Peas

Sixteen Popular SWEET PEAS

These collections of Sixteen Popular Sweet Peas have become great sellers, no doubt because the fine selection of colors appeals to those who want a good color range of standard, large-flowering and free-blooming Sweet Peas without being particular if they are of recent introduction.

It is impossible to describe the beautiful show these 16 varieties will give in the garden. The range of color includes everything from pure white to deep maroon. All the seed in these collections is of the usual high Burpee quality. It has all been produced on Burpee's Floradale Farms in California, where the best Sweet Pea seed in the world is grown. The assortments contain:

- Edna May Improved** White
- Floradale Fairy Improved** Cream
- Lilac-Pink** Lilac, pink, and cream
- Daisybud** Apple-blossom-pink
- Improved Margaret Atlee** Pink and cream
- Hercules** A lovely deep rose-pink
- Hawlmarm Pink** A bright pink
- George Herbert** Rosy carmine
- Hawlmarm Cerise** Rose-cerise
- Brilliant** Glistening deep cerise
- Barbara** A lovely soft salmon shade
- George Shawyer** Bright orange
- Orchid Improved** Cattleya lavender
- New Wedgwood** Bright blue
- Warrior** Reddish maroon shaded bronze
- Senator** Claret stripes on Heliotrope

A fine crop of Burpee's Sweet Peas in Skagway, Alaska, grown by our good friend Mr. Walker

Summer Flowering Sweet Peas

Burpee's Sweet Peas on Floradale Farms, California

White

3435 Constance Hinton A well-known black-seeded, white-flowered variety. The blooms are of large size and come at times with a blush tinge. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3467 Edna May Improved (16) A large flowering white variety of exquisite form, carried in fours on long substantial stems. An old favorite. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. \$1.05; ½ lb. \$1.95; lb. \$3.50.

3475 Burpee's Giant White (B) *Illustrated in color on the Back Cover.* A gigantic flower of exquisite form and pure color. Giant White is black-seeded and has been awarded two Certificates of Merit. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. \$1.05; ½ lb. \$1.95; lb. \$3.50.

3555 King White Improved (12) Remarkable for the glistening purity of its whiteness and the perfect finish of the flower. Of gigantic proportions. Strong and very free-flowering. This is the finest white-seeded white variety, altogether free from any color. Of exquisite form. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

Cream

3405 Champagne An extremely deep colored primrose self, having a pronounced yellow tone when the flowers are young. The very large blooms are beautifully frilled and borne usually four on a stem. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3419 Daffodil (12) An outstanding new Sweet Pea of a rich deep cream color. A vigorous variety, with long stems carrying four well-formed flowers. The blooms are exquisitely frilled and beautifully waved. Pkt. 15¢; ½ oz. 45¢; oz. 80¢; 4 ozs. \$2.40; ½ lb. \$4.40; lb. \$8.00.

3454 Floradale Fairy Improved (16) An advance over all other cream-colored Sweet Peas. The standard and wings are large, much waved, and of wax-like texture. The color is a most charming and intense rich deep cream. The flowers are of largest size. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3506 Ivory Picture (New) A flower of great size, strong constitution, and exquisite texture, combining a rich old ivory tint. It is a seedling of the variety Picture, and has the latter's strength and vigor. Pkt. 35¢.

3508 Matchless A new cream variety with frilled and waved standard and wings. The blooms are of extra large size and are borne freely. It is a strong grower. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

Blush

3449 Elegance Delicate and beautiful in color, robust and free in growth and habit, this charming Sweet Pea is destined to become a general favorite with all growers. The blooms of immense size are borne freely in four-flowered sprays. The color is blush-lilac, or white faintly suffused with a pinkish lilac which is most artistic. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3497 Burpee's Lilac-Pink (16) A new shade, representing a charming combination of salmon, amber, and pale lilac on cream ground. The standard is suffused with salmon-pink. A strong grower with large flowers produced freely in fours on fine long stems. Pkt. 15¢; ½ oz. 40¢; oz. 75¢; 4 ozs. \$2.25; ½ lb. \$4.15; lb. \$7.50.

3583 Valentine This is a newer variety of great merit. The plants make a strong, vigorous growth and bear large flowers of a most pleasing shade of light pink. Beautifully waved and well placed on the long stout stems. It is unsurpassed for cutting or exhibition and is one of the best of this color. Of artistic proportions. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.75; lb. \$3.00.

Picotee

3408 Annie Ireland In this beautiful picotee variety we have a fine edge of rose-carmine on the silvery white petals. The flower is of good size and elegant form. First class in every way, with a long stem. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3433 Cherub One of the most attractive of all picotee varieties. A deep rich cream, charmingly edged with bright rose. Very large and free-flowering, with plenty of four-flowered sprays. Of exquisite texture. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. \$1.05; ½ lb. \$1.95; lb. \$3.50.

3440 Dainty A beautiful standard variety in this most charming class. The flowers are large, well frilled, and have a beautiful distinct pink edge on a white ground. It makes up into very pretty bunches. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

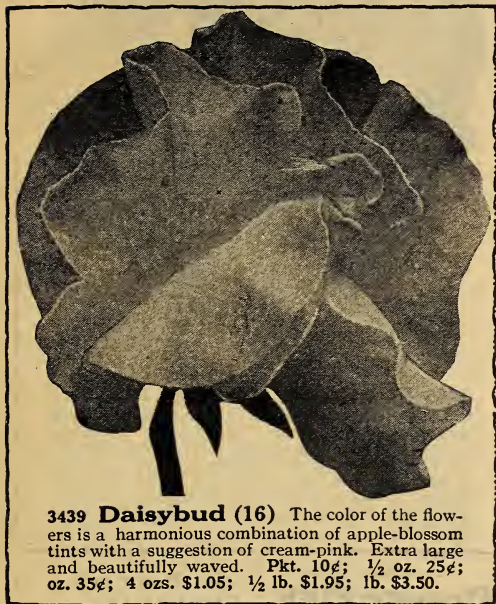

3445 Youth This is an outstanding picotee variety. The large size, good stem, and free-blooming habit of the plant makes it a most desirable variety. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

Light Pink

3441 Dainty Maid A beautiful soft yet rich blush-pink on a white ground. We consider this the finest and certainly the largest blush-pink Sweet Pea in existence. Of great size, with 4 substantial flowers carried on a long, strong stem. Pkt. 25¢.

3519 Miss Philadelphia (S) *Illustrated in color on page 189.* An entirely new shade of pink, several tones deeper than that fine old variety Valentine, yet not so rich in color as Hercules. It is a pleasing shade of rose-lane-pink suffused pale amber and salmon. Flowers of enormous size and exquisite, waved form. Pkt. 25¢; ½ oz. \$1.10; oz. \$2.00; 4 ozs. \$6.00; ½ lb. \$11.00; lb. \$20.00.

3595 Supreme This ranks as one of the best clear pinks; soft, delicate, and of exquisite texture. Yet it is of great size and perfect form. An English novelty which impressed us very much. Pkt. 25¢; ½ oz. 80¢; oz. \$1.50; 4 ozs. \$4.50; ½ lb. \$8.25; lb. \$15.00.

3439 Daisybud (16) The color of the flowers is a harmonious combination of apple-blossom tints with a suggestion of cream-pink. Extra large and beautifully waved. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. \$1.05; ½ lb. \$1.95; lb. \$3.50.

Cream-Pink

3426 Bridesmaid This is a magnificent cream-pink variety of immense size and rich coloring, being a pleasing shade of clear pink on a buff or ivory-cream ground. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3428 Caress Immense well-formed flowers. The color is soft rich shell-pink, deeply suffused with cream-buff. A lovely shade and of magnificent size. The large handsome flowers are carried on long stems. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3415 Comrade This new Sweet Pea was given an Award of Merit at the Royal Show, Newcastle, England. The color is a lovely cream-pink with a delicate maize-apricot tinge. Very vigorous. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

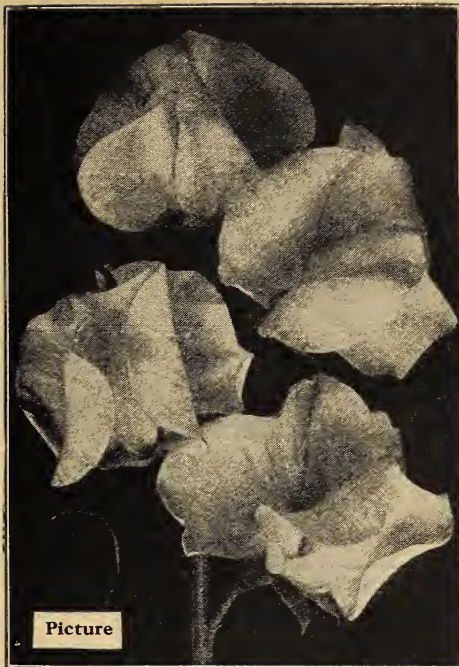

3453 Faerie Queen A warm cream color with a ray of apricot-salmon through the center. The wings are a rich deep shade of pink and cream. Pkt. 25¢; ½ oz. 50¢; oz. 90¢; 4 ozs. \$2.70; ½ lb. \$4.95; lb. \$9.50.

3481 Burpee's Honor Bright (B) *Illustrated in color on the Back Cover.* This is a beautiful new variety of exceptional merit. The color is a deep rose-pink on cream ground. The flowers are enormous in size and of very refined, well-waved form. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.20; ½ lb. \$2.20; lb. \$4.00.

3499 Improved Margaret Atlee (16) A rich glowing rose-pink on cream ground with a subtle suffusion of salmon and amber overlying the whole flower. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3525 Magnet (New) A cream-pink of remarkable richness and exquisite texture, being exceptionally bright. Large, beautifully waved. Awarded a Gold Medal. Pkt. 25¢.

3514 Mary Pickford (New) A very large flower, combining extreme size with exquisite texture. The color is a dainty, appealing cream-pink with a soft suffusion of salmon. Sure to become a great favorite. Pkt. 25¢.

3548 Picture (12) The flowers are well waved and frilled. The color is a blend of cream and pink shades, having a deeper flush on the wings. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3535 Miss California (New) This exquisite California novelty is a charming iridescent tone of cream-pink with a salmon and orange hue. Very large. Pkt. 25¢; ½ oz. 80¢; oz. \$1.50; 4 ozs. \$4.50; ½ lb. \$8.25; lb. \$15.00.

3556 Radiance This beautiful Burpee Novelty is a pleasing and appealing shade of La France pink, which deepens in the center and the edges of the standard to eosine-pink. A magnificent variety. Pkt. 15¢; ½ oz. 40¢; oz. 75¢; 4 ozs. \$2.25; ½ lb. \$4.15; lb. \$7.50.

3448 Burpee's Sunshine (S) *Illustrated in color on page 189.* This great Burpee introduction is a pleasing shade of Hermosa-pink with a blotch of deep purple at the base of the standard. The reverse of the standard is flushed with yellowish amber. The large flowers are well waved, borne freely on a fine long stem. Pkt. 25¢; ½ oz. 60¢; oz. \$1.10; 4 ozs. \$3.30; ½ lb. \$6.25; lb. \$12.00.

Deep Pink

3478 Hebe A rich clear pink self with a very broad and prominent standard. Makes a vigorous growth and blooms profusely. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3484 Hercules (16) This is a magnificent deep rose-pink. The standard is of enormous size and the whole flower is of excellent form. An old favorite. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3553 Pink Perfection More evenly colored than Hawlmark Pink, and so worthy of its name. It is a rich pure shade of bright, warm, salmon-pink. The flowers are very large and exquisitely frilled. Pkt. 25¢; ½ oz. 80¢; oz. \$1.50; 4 ozs. \$4.50; ½ lb. \$8.25; lb. \$15.00.

3443 Royal Pink (New) A distinct, pure pink color illuminated with a shrimp-pink sheen and enriched with veinings of deep rose. Royal Pink is a great flower of artistic form and boldness. A strong grower, suited for both garden decoration and exhibition. Pkt. 35¢.

3477 Hawlmark Pink (16) The color is a beautiful shade of rich rose-pink, shaded with salmon. The wings are bright rose-pink, while the standard is somewhat lighter in color and slightly toned with salmon. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3503 Hawlmark Salmon-Pink (12) A rich deep pink, attractively tinted with salmon and orange. The plants produce flowers of the largest size and finest form. It is a free and continuous bloomer. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

Rose

3472 George Herbert (16) The flowers are a most magnificent rich rosy carmine. They are very large and graceful. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3463 Empire This is a lovely clear cerise-pink with a suffusion of rose permeating the whole flower. It is a flower of great substance, full of life and luster. Empire is bound to become a very great favorite. Pkt. 25¢; ½ oz. \$1.10; oz. \$2.00; 4 ozs. \$6.00; ½ lb. \$11.00; lb. \$20.00.

3561 Renown (12) A new English variety with large flowers of a clear crimson-rose color. Blooms freely and carries 4 large blooms on a stem. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3577 Sunset (B) Illustrated in color on the Back Cover. A beautiful shade of soft rich rose, the base of the flower being lightened with a glowing yellow suffusion. Large, beautifully frilled, and very graceful. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

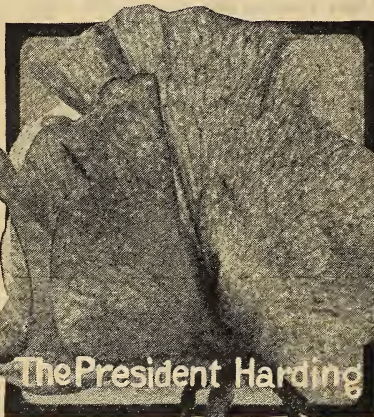

Salmon

3416 Barbara (16) A superb salmon-colored self that makes a telling bunch either for exhibition or for table decoration. To preserve the color the plants require shading against strong sun during midday. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3494 Liberty A glowing salmon with an orange cast perfectly distinct from other salmon varieties. It is a vigorous grower and blooms very freely, producing four-flowered sprays in the greatest abundance. For best results shade should be given. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. \$1.05; ½ lb. \$1.95; lb. \$3.50.

3551 The President Harding (12)

Named by the late President Harding's special permission. This is an entirely new shade in Sweet Peas, which is best described as peach-red. It is a magnificent and pleasing color. The blooms are exquisite in every way. They are bold and massive, yet well proportioned, and artistically waved. The President Harding Sweet Pea has been awarded the highest honors in both America and England. Pkt. 15¢; ½ oz. 50¢; oz. 90¢; 4 ozs. \$2.70; ½ lb. \$4.95; lb. \$9.00.

The picture shows the splendid form of this outstanding variety

Orange

3430 Crusader (New) A bright orange with a salmon sheen, the wings showing a cast of rose. The bunch effect of this lovely variety is glistening orange. Pkt. 25¢.

3451 Gold Crest (New) Picture the glow of a sun-ripened orange and a rich tint of salmon combined into a shade of molten gold, and you will have a color not unlike that found in Gold Crest. This outstanding color is nearly sun-proof. The flowers grow to enormous size. Pkt. 35¢.

3542 Guinea Gold The color may be described as glowing orange, shaded gold, which immediately attracts attention. This grand variety was given an Award of Merit by the National Sweet Pea Society. Pkt. 25¢; ½ oz. \$1.30; oz. \$2.50; 4 ozs. \$7.50; ½ lb. \$13.75; lb. \$25.00.

3580 Tangerine This is the improved stock of this fine tangerine-orange shade. The flowers are of great size, beautifully waved, and well placed. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.20; ½ lb. \$2.20; lb. \$4.00.

Greatly reduced from a Fordhook photograph

Fordhook Orange is an outstanding Sweet Pea. It was raised by us on Burpee's Fordhook Farms

3465 Fordhook Orange (S) Illustrated in color on page 189. Fordhook Orange is unsurpassed in its color. The blooms are bright orange which can stand quite a lot of sun without scalding. The flowers are large, artistically placed in fours on good long stems, and borne very profusely. A well-waved flower of a great color. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

Orange-Pink

3579 Burpee's Electric (12) There is a richness and live effect immediately attracts. The standard is a lovely shade of rich orange-red suffused salmon, and the wings are deep rose suffused with orange. A first-class exhibition flower of remarkable size and exquisite form. It is a profuse bloomer. Pkt. 25¢; ½ oz. 80¢; oz. \$1.50; 4 ozs. \$4.50; ½ lb. \$8.25; lb. \$15.00.

3469 George Shawyer (16) An English introduction of much distinction. The flowers are very large and are borne freely in fours on long stems. The standard is a fine shade of bright orange-salmon and the wings are tinted with rose. The flowers are of perfect formation and beautifully waved. They make most charming bunches. Pkt. 15¢; ½ oz. 35¢; oz. 65¢; 4 ozs. \$1.85; ½ lb. \$3.45; lb. \$6.25.

Orange-Scarlet

3468 Flambeau Pure scarlet overlaid with a bright orange-scarlet sheen. Extremely bright and glowing, a color that is always telling either in the garden or as a cut flower. The large flowers are beautifully frilled and invariably borne 4 on a stem. It is an outstanding variety, blooming profusely. A foremost exhibition flower. Pkt. 25¢; ½ oz. 80¢; oz. \$1.50; 4 ozs. \$4.50; ½ lb. \$8.25; lb. \$15.00.

3470 Gloriosa (12) This is an outstanding new English variety with large, well-formed flowers of a bright and glowing orange-scarlet self. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3531 Mammoth A blazing orange-scarlet, surpassing anything ever offered in this class before. It is a rich and gorgeous color. Awarded a Certificate of Merit by the National Sweet Pea Society of Great Britain. Pkt. 25¢; ½ oz. 80¢; oz. \$1.50; 4 ozs. \$4.50; ½ lb. \$8.25; lb. \$15.00.

3585 Sensation A really worthwhile addition to the orange-scarlet class. The flowers are of immense size and excellent form. They are borne freely. The color is a dazzling scarlet of a startling richness. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. \$1.05; ½ lb. \$1.95; lb. \$3.50.

Scarlet-Cerise

3446 **Peggy** (New)

This outstanding orange-scarlet variety is a scintillating combination of brilliant cerise flushed with bright orange. A glorious shade that will delight the lover of clear, bright, and decisive colors. The flower is of great size, beautifully outlined, full of substance, and well placed on the stem. Its showy, large, well-formed flowers rank among the best for exhibition and garden decoration. Pkt. 35¢.

A full size flower of **Royal Scot** reproduced from a Fordhook photograph

3570 **Royal Scot** See illustration. A brilliant, lustrous orange-scarlet with a deep cerise sheen. The plants are strong growing and free blooming. Because of its appealing color and free-blooming habit Royal Scot has become a favorite for both garden decoration and cutting. The excellent flowers are of substantial texture. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3436 **2. L. O.** (New) A new English Sweet Pea which has been awarded the First Prize by The National Sweet Pea Society of Great Britain. It also received a Silver Medal from the Scottish National Sweet Pea Society. "2. L. O." is distinct. It is without doubt the best scarlet ever raised, and no previous introduction ever received so much praise by the English press. It is a glowing color and combines size, good form, and length of stem with free-blooming habit. The large, well-waved flowers are perfectly sunproof. They are artistically arranged in fours. Pkt. 50¢.

3592 **Wonderful (B)** Illustrated in color on the Back Cover. A real scarlet sweet pea which never fades nor burns, keeping its bright luster after cutting. A strong growing variety of excellent form and extreme size. Blooms freely and continuously. Easily arranged into attractive bunches which will keep a long time. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

3558 **Grenadier** See illustration below. A color that is bound to attract attention. It is a bright Geranium-red with a vivacity and richness that is startling both in sunlight and under artificial illumination. A strong sturdy grower with exquisite flowers borne in fours on long stems. Pkt. 25¢; ½ oz. 80¢; oz. \$1.50; 4 ozs. \$4.50; ½ lb. \$8.25; lb. \$15.00.

Grenadier
from a Fordhook photograph

Light Cerise

3444 **Doris** This is a strong grower, with an abundance of flowers. The blooms are perfectly sun-proof and retain their color until the end. Valuable alike for exhibition and cutting, with its fine blooms of rich cherry-pink. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3511 **Glory** A particularly bright glowing salmon-cerise. The flowers are of enormous size and great substance. They are massive and most graceful, with well-waved standard and wings. A free-blooming variety which will make a wonderful display. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3502 **Hawmark Cerise (16)** This is an outstanding variety, with large flowers of glowing rose-cerise on cream ground. The blooms are large and charmingly waved. It received an Award of Merit from the National Sweet Pea Society of Great Britain a few years ago. Pkt. 10¢; ½ oz. 30¢; oz. 45¢; 4 ozs. \$1.25; ½ lb. \$2.35; lb. \$4.25.

3483 **Hope** Undoubtedly the finest light cerise self. The color has also been described as soft rose. The long-stemmed sprays carry 4 flowers each and make up into very artistic bunches. An exquisite cut-flower. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

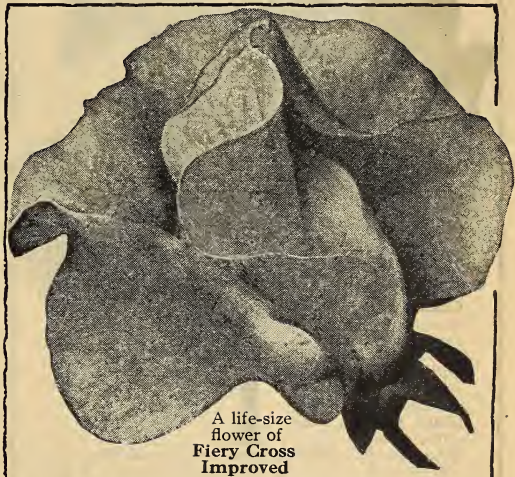

3568 **Royal Cherry** The color is a bright salmon-cerise which becomes deeper as it reaches the edge of the standard, where it becomes a clearly defined deep rose. Of strong constitution and blooming very freely. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3573 **Sincerity** A unique, pleasing shade of bright glowing cerise. The large flowers are produced 4 on a stem. The heavy vines bear a profusion of blooms. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

Deep Cerise

3418 **Brilliant (16)** A brilliant cherry-cerise with large flowers borne freely in fours on strong stems. The blooms are of great substance and, being placed gracefully, make attractive bunches. As a garden flower it is showy and rich. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.10; ½ lb. \$2.05; lb. \$3.75.

3423 **Charming** A first-class exhibition flower of remarkable size and ideal form. The color is a bright glowing cerise. The flowers are borne on very long stout stems with four-flowered sprays predominating. Of vigorous growth and free blooming. It makes up into attractive bunches because the flower-stems are long and graceful. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. \$1.05; ½ lb. \$1.95; lb. \$3.50.

A life-size
flower of
**Fiery Cross
Improved**

3458 **Fiery Cross Improved**

The standard is a scorching deep cherry-red with an orange-scarlet suffusion. It scintillates and glitters in the bright sunlight with a fire-like sheen that radiates over the entire flower. The wings are rich cherry-orange, harmonizing with the standard. Burpee's Fiery Cross is a most outstanding variety. It created a sensation when first exhibited by us and its introduction was eagerly awaited by all Sweet Pea enthusiasts. The demand for it has steadily increased with every year and most planters of Sweet Peas include Fiery Cross each year because of its outstanding qualities. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. \$1.05; ½ lb. \$1.95; lb. \$3.50.

Scarlet

3522 Mrs. C. P. Tomlin This is now a leader in the scarlet class, remarkable for its richness and substance. The color is scarlet, with just a touch of fiery red in it. The flowers are of large size and always of the most refined well-waved Spencer form. It is valuable because it does not scorch nor fade in bright sunlight. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3586 Scarlet Glow (12) Rich glowing scarlet-red, retaining its deep color after cutting. The habit of the plant is sturdy and vigorous and the flowers are of large size and attractively waved. The flowers are substantial and the color carries a glow which greatly adds to the beautiful effect whether seen in daylight or under artificial illumination. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

Crimson

3461 Crimson King (S)

Illustrated in color on page 189. This fine variety is of American origin and surpasses all other crimson sweet peas. It is a flower of mammoth size and artistic proportions. The standard and wings are both much waved and crimped. The color is a rich true crimson of great appeal. Usually 4 of these fine flowers are carried on a long strong stem. Blooms profusely and continuously. Pkt. 10¢; ½ oz. 30¢; oz. 45¢; 4 ozs. \$1.35; ½ lb. \$2.50; lb. \$4.50.

3488 King Edward This is the old standby in the crimson class, with large, well-waved and substantial flowers of a deep rich crimson shade. King Edward even though it was introduced many years ago ranks today still as one of the best crimson Sweet Peas in existence. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

From a Ford-hook photograph

3429

Charity A magnificent flower in size as well as form. The blooms are rich brilliant crimson which does not burn in the sun. The plants make a vigorous growth and bloom freely. Charity makes a magnificent bunch and is well suited for exhibition, carrying 4 well-formed flowers on a stem. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

The varieties included in the various Sweet Pea collections have been indicated in our full list of Sweet Peas by using the following marks after their name:

- B** = Six of the Best Sweet Peas offered on the back cover and page 180
- S** = Six Superb Sweet Peas, pages 188 and 189
- 12** = Twelve of the Best Sweet Peas, page 181
- 16** = Sixteen Popular Sweet Peas, page 181

Lavender

3414 Austin Frederick Improved A flower of immense size, beautifully placed on very long stiff stems, with fours predominating. The color is a most pleasing shade of lavender, the standard being a slightly deeper tone. The bunch effect is beautiful. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

A life-size flower of Powerscourt

3543 Powerscourt A pure lavender self with flowers of mammoth size, yet refined and well placed on long stems. Of vigorous and free-flowering habit, always carrying 4 flowers on a stem. We recommend this as one of the best of all lavenders. It received an Award of Merit from the National Sweet Pea Society of Great Britain. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3476 Hawmark Lavender (12) There is nothing quite so pure in lavenders as this fine variety. Of exquisite form, with broadly expanded standard and large spreading wings. Blooms freely. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3505 Mermaid (New) Rich true lavender with a faint blue sheen, carrying 4 and sometimes even 5 blooms on a long, strong stem. The flowers are beautifully waved and quite often the standard is double, thereby adding greatly to the artistic proportions of the sprays. Pkt. 25¢.

3540 Orchid Improved (16) This is quite an improvement on the variety Orchid. The flowers are not only larger but they are decidedly more waved at the edges. The color is a clear Cattleya-lavender. It is the best lavender-pink. A strong grower and exceedingly free bloomer. Orchid Improved is a most popular variety. It is a pleasing and impressive shade of lavender, with just sufficient pink to give it warmth and softness. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3596 Wembley Wembley is a great Sweet Pea of a delightful shade of lavender. A touch of plumbago-blue and a silver sheen overlying the deeper tints create a delicate and most charming flower. It is a strong grower with fine flowers of perfect form. Pkt. 25¢; ½ oz. 80¢; oz. \$1.50; 4 ozs. \$4.50; ½ lb. \$8.25; lb. \$15.00.

Light Blue

3409 Celeste A splendid addition to the blue section. Color rich bright blue, quite distinct from all others of this shade. The flowers are larger than we usually find among the blues. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3417 Colne Valley A giant lavender-blue self, exquisitely frilled, and borne in fours on fine stems. A vigorous grower and free bloomer. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.20; ½ lb. \$2.20; lb. \$4.00.

3552 Sky (S) Burpee Novelty for 1926. *Illustrated in color on page 189.* A decided advance in the lavender-blue class. The color is bright and clear, combining purity with warmth of color. The flowers of Sky are large, exquisitely waved, and beautifully outlined. Almost a self color, it shows a slightly deeper tone of blue in the wings. A magnificent Sweet Pea of graceful form, with 4 blooms on a fine, long stem. Pkt. 25¢; ½ oz. \$1.10; oz. \$2.00; 4 ozs. \$6.00; ½ lb. \$11.00; lb. \$20.00.

Blue

3412 Blue Bird A fine blue variety of extremely bright color. Very vigorous and free flowering, the large flowers being produced on long stout stems, usually in fours. They are much waved and of artistic proportions. Pkt. 25¢; ½ oz. 65¢; oz. \$1.20; 4 ozs. \$3.60; ½ lb. \$6.60; lb. \$12.00.

3424 Bluestone (12) Bluestone is a distinct and striking variety, with a standard of a pleasing shade of aniline-blue flushed bluish violet, and the wings of bright aniline-blue. A large flower of an exquisite shade. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. \$1.05; ½ lb. \$1.95; lb. \$3.50.

3466 Fordhook Blue (S) *Illustrated in color on page 189.* A variety of outstanding merit, being a rich azure or light violet-blue color. In freedom of bloom, strong growth, and exquisite form it takes a place among the very best. The flowers are large. Pkt. 25¢; ½ oz. 60¢; oz. \$1.10; 4 ozs. \$3.30; ½ lb. \$6.25; lb. \$12.00.

3529 Mrs. Tom Jones Bright Delphinium-blue. The flowers are very large and of great substance, beautifully waved, and usually borne four on a stem of great length. A first-class rich blue. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3538 New Wedgwood (16) The flowers are a bright Delphinium-blue. They are very large, of heavy substance, and beautifully waved; borne with the greatest freedom, invariably in fours, on a stem of great length. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3584 Sapphire (B) *Illustrated in color on the Back Cover.* We consider this one of the best blues in existence. It might be described as bright Delphinium-blue. A very large, charmingly formed flower, carried in fours on very long stiff stems. Pkt. 15¢; ½ oz. 35¢; oz. 65¢; 4 ozs. \$1.95; ½ lb. \$3.60; lb. \$6.50.

Dark Blue

3486a Jack Cornwell A very fine, dark blue of enormous size and excellent form. Vigorous,

bearing 4 well-waved flowers on a long stem. Lovers of the rich and intense shades should include this variety in their plantings. It gives good variety to the color scheme. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

The picture shows the graceful spike of **Commander Godsall**. Reduced from a **Fordhook** Photograph

3434 Commander Godsall *See illustration.* The color is an attractive shade of deep violet-blue. The flowers are large, of heavy substance, and attractively waved and fluted; borne in fours on long stems. A free bloomer. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

Mauve and Purple

3492 King Mauve

This is a pleasing shade of rosy mauve and a flower of great size and good form. Fine long stems bearing 4 flowers each. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3457 Floradale Purple (B) *Illustrated in color on the Back Cover.* This is a warm rich shade of rosy purple. The standard has a decided luster. Strong and vigorous in habit with 4 large, elegantly waved blooms borne on a long strong stem. We consider this the best purple. Awarded two Certificates of Merit. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3569 Royal Purple The color is a warm rich purple, the younger flowers being slightly softer in tone. A lovely flower. Grows freely and blooms profusely. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

Maroon

3420 Black Bess (New)

Lovers of the dark shades will surely appreciate the color value represented in this new variety. It is a tint of deep wine-red with a satiny ebony sheen. Superbly fragrant, carrying four, five, and at times even six blooms on a long stem. Pkt. 35¢.

3479 Hawlmark Maroon A large well-waved flower of rich reddish maroon with a glistening sheen of polished mahogany. It blooms freely. Award of Merit from the Royal Horticultural Society of Great Britain. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3557 Ravenswing (12) A striking variety of an intense shade of blackish maroon. In fact, it is one of the darkest of all Sweet Peas yet introduced. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3576 The Sultan The Sultan is the darkest Sweet Pea ever introduced. It is a rich black velvety maroon with a glossy sheen. A large well-waved flower. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3591 Warrior (16) The color is a rich reddish maroon flushed with bronze. Lovers of dark shades will appreciate this fine color. A strong grower and free bloomer. Pkt. 10¢; ½ oz. 20¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

Bicolor

3574 Sparkler *See illustration.* The color is a charming combination of rose and cream, the standard being bright rose; wings a lovely shade of rosy cream. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

Striped

3406 America The ground color is ivory-white, distinctly striped with brilliant crimson-red. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3496 Loyalty This is a lovely violet-blue flake on white ground. Flowers of largest size and excellent form. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3532 Mrs. W. J. Unwin The brightest and best of all the flaked varieties. The ground color is white, beautifully flaked rich orange-scarlet. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3572 Senator (16) The color is a varying combination of deep chocolate and claret striped and flaked on light Heliotrope. A strong grower. Pkt. 10¢; ½ oz. 20¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

Burpee's Sweet Peas in Mixtures

We have always taken great pride in our mixtures of Sweet Peas and have made them as good as we know how. The color scheme and general effect have been studied carefully. Each color class is represented in the proper proportion so that the mixtures will give a harmonious and colorful blend.

3599 The Burpee Blend

This popular mixture is planted each year by thousands of our customers who like to have a showy row of the finest mixed Sweet Peas. The Burpee Blend contains the cream of the very finest named Orchid varieties. It is the very best blend possible to produce today and will surely delight all who want a grand variety of bright and showy colors.

Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 75¢; ½ lb. \$1.40; lb. \$2.50.

3600 Mixture of Light Shades

Some of our customers do not care for the deeper colors in Sweet Peas and we have therefore prepared this special mixture which contains only the lighter shades, such as white, cream, pink, salmon, lavender, etc. Pkt. 10¢; ½ oz. 25¢; oz. 35¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3601 Burpee Novelty Mixture

This mixture is composed of the latest and very finest varieties of recent introduction. It also contains a number of new seedlings from our California workshop of Sweet Peas—FLORADALE FARMS. All the leading colors and shades are represented in their proper proportions. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.20; ½ lb. \$2.20; lb. \$4.00.

Burpee's Sweet Peas used for an attractive table decoration. This picture, sent by MRS. FRED MCELMON, of Bellingham, Wash., was awarded a prize in our Photo Contest

Six Superb New Sweet Peas

3552 Sky

Burpee Novelty for 1926

This is a fine sky-blue which looks particularly bright and harmonious when bunched. The flowers are large, exquisitely waved, and artistically placed on a strong stem. It is a sturdy grower and free bloomer. Pkt. (15 seeds) 25¢; ½ oz. \$1.10; oz. \$2.00; 4 ozs. \$6.00.

3465 Fordhook Orange

A bright and glowing orange which can stand quite a lot of sun without scalding. The standard is well expanded and of the right proportion to the large, well-shaped wings. Of exquisite texture. Pkt. 15¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3448 Sunshine (Burpee's)

The flowers are a pleasing shade of Hermosa-pink with a blotch of deep primrose at the base of the standard. The reverse of the standard is flushed with yellowish amber. A glorious flower. Pkt. 25¢; ½ oz. 60¢; oz. \$1.10; 4 ozs. \$3.30; ½ lb. \$6.25; lb. \$12.00.

3466 Fordhook Blue

This shade of blue is entirely new in Sweet Peas. It is a rich azure or light violet-blue, a color which is well suited for all kinds of decoration. The flowers are carried in fours on long stems. Pkt. 25¢; ½ oz. 60¢; oz. \$1.10; 4 ozs. \$3.30; ½ lb. \$6.25; lb. \$12.00.

3519 Miss Philadelphia

Burpee Novelty for 1926

Miss Philadelphia is an entirely new shade of pink. It is a pleasing shade of rosolane-pink, attractively suffused with pale amber and salmon. The color becomes somewhat lighter toward the base. Very beautiful. Pkt. (15 seeds) 25¢; ½ oz. \$1.10; oz. \$2.00; 4 ozs. \$6.00.

3461 Crimson King

Crimson King, by virtue of its brightness, deserves a place in every garden. It surpasses all other crimson Sweet Peas in existence. The flowers are of mammoth size and artistic proportions. Pkt. 10¢; ½ oz. 30¢; oz. 45¢; 4 ozs. \$1.35; ½ lb. \$2.50; lb. \$4.50.

VICTORIA

LORD
BALTIMORE

PRESIDENT
CARNOT

IMPERIAL BLUE

COPYRIGHT 1923, BY W. ATLEE BURPEE & CO., PHILADELPHIA, PA.

Burpee's Pansies

OUR strains of Pansies are recognized for size and texture of the flowers, strong compact growth, and free-blooming character. Grown under favorable conditions, the plants will bloom for a long time. The varieties we list are all standards in their color classes and come true to name.

Pansies are easily grown and bloom profusely for many months. Sow the seed indoors early in March or outdoors as early as the ground can be prepared into a fine loose condition. If sown during August, the plants will begin blooming very early the following spring.

2423 GOLDEN QUEEN See illustration. The petals are a pure golden yellow. The flowers are borne profusely and are most attractive either in beds or borders. The beautiful flowers combine large size with good form and exquisite coloring. Pkt. 10¢; 1/16 oz. 45¢; 1/8 oz. 70¢.

2449 HORTENSE ROSE See illustration. A delicate and appealing variety. Each petal is blotched with rose, varying in shade but all delicately beautiful. In some flowers the three lower petals have a distinct canary-yellow edge, whereas the upper ones show a narrow white margin. A sturdy variety. Pkt. 15¢; 1/16 oz. 50¢.

2431 IMPERIAL BLUE See illustration. The blooms are a bright ultramarine-blue with a large blotch of deeper blue on the three lower petals. Remarkable for its freedom of blooms, large size, exquisite form, and outstanding color. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢.

2447 LORD BALTIMORE See illustration. Each petal has a shining blotch of deep maroon-black and a bright outer band of a most intensely rich golden yellow. The veins of the petal carry the color of the deep blotch into the margin. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢.

2445 PRESIDENT CARNOT See illustration. The flowers are unusually large and of such heavy substance that they are attractively waved and crinkled. The contrast of the large dark purple blotch and the broad pure white border is most attractive. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢; 1/4 oz. \$1.20.

2437 VICTORIA See illustration. Pleasing deep wine-red, a shade which combines well with almost all other colors found among the Pansies. An outstanding color and of large size. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢.

2433 Andromeda The three lower petals have large blotches of deep mauve with the veins radiating into a broad band of light mauve. The two upper petals are somewhat lighter in color. The combination of shades is harmonious and beautiful. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢.

2443 Black King This is a unique variety, with deep purplish black flowers of soft velvety texture. The large flowers are borne freely. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢; 1/4 oz. \$1.20.

2422 Cardinal This magnificent variety belongs to the Cassier race, having flowers that have a well-defined dark blotch on the three lower petals. Bright cardinal-red, shaded with a rich tone of bright mahogany. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢.

2427 Celestial Light sky-blue in the two upper petals. In the two lower petals the color shades from a light sky-blue on the margin into a deep ultramarine-blue with a rich blue-black spot at the base. The rich blue color radiates into the surrounding area. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢; 1/2 oz. \$1.25.

2424 Fire King The lower petals have a broad band of bright golden yellow shaded with orange. Each of the petals has a large blotch of deep mahogany-red, shaded with purplish black in the center. The two upper petals are copper-brown with a narrow edge of bright golden yellow. Fire King is a showy and free-flowering variety. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢; 1/4 oz. \$1.20; 1/2 oz. \$1.80.

2450 Giant Bridesmaid The color of the flower varies somewhat but represents a fine range of apple blossom shadings or lovely rose on a white ground. Pkt. 20¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45; 1/2 oz. \$2.55.

2441 Golden Bronze The three lower petals each have a large radiating blotch of a rich black-brown. The outer part of the petals is a golden bronze color. This rich color follows the veins toward the margin of the petals. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢.

2429 Lord Beaconsfield The petals are a bright deep ultramarine-blue shaded with violet. On the two upper petals this rich deep velvety color softens gradually until it reaches the edge of the petals, which are almost white. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢.

2451 Madame Perret The lower petals are usually canary-yellow, white, or rose-pink, marked with purple or crimson. The upper petals are either self-colored in bright red and deep purple or outlined with white. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢; 1/2 oz. \$1.25.

2442 Meteor Mahogany purple and red and silver. The lower petals have a canary-yellow and white variety. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢; 1/2 oz. \$1.25.

2430 Peacock A beautiful violet-blue shade with an opalescence of light blue and a narrow crimson margin brought out by a thin white edge. The colors are as iridescent as the eye in peacock feathers. It is a charming variety. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢; 1/2 oz. \$1.25.

2435 Royal Purple The flowers are uniform deep rich royal purple. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢.

2421 Snow Queen Large pure white flowers. It is by far the best of all white Pansies in existence, making most attractive beds or borders. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢; 1/2 oz. \$1.25.

2457 Trimardeau or Giant Mixed
A complete mixture of all the Giant Flowered varieties offered on this page. A strong growing and free-flowering strain which will produce large blossoms for a long time. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢; 1/4 oz. \$1.20.

PANSY COLLECTIONS

These collections contain the six varieties of Giant-Flowered Pansies illustrated in color on the opposite page: Golden Queen, Hortense Rose, Imperial Blue, Lord Baltimore, President Carnot, and that fine variety, Victoria.

Burpee's Pansies—Continued

Orchid-Flowered Pansies

2417 This distinct and beautiful strain of Pansies will appeal to those who prefer delicate tints and soft shades of color. The flowers are all of fine form and good size. They bloom freely from spring until late in the fall. The unique colorings include shades of chamois, terra-cotta, pink, lilac, rose, and orange. The name "Orchid-Flowered" has been given to this because these delicate shades, together with the finely ruffled edges, are not unlike Orchids. Pkt. 20¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

2463 Giant Ruffled Masterpiece The truly giant-sized flowers are of most striking character. The petals have so much substance that they are heavily ruffled, giving them the effect of a double flower. The colors are mainly rich dark shades, bordered, blotched, or marked in ray-like veinings with contrasting colors. It blooms freely and continuously as long as the weather remains cool. Pkt. 20¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45; 1/2 oz. \$2.55.

2500 Mastodon Pansies Immense and well-shaped flowers with thick and well-waved petals. This includes everything from pure white to deep mahogany. The very fine lavender, rose, cerise, and light blue shades deserve special mention. This mixture is particularly fine for the greenhouses or for frames, but it will do just as well out in the open. The blooms are borne most profusely. Pkt. 20¢; 1/16 oz. 60¢; 1/8 oz. 90¢; 1/4 oz. \$1.45.

2453 Auricula-Flowered This is a fine strain of exquisite shades resembling the Auricula Primroses. The flowers vary greatly, but they are all beautiful. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢.

2460 Cassier's Giant The flowers of this fine strain are of very large size. The three lower petals, and sometimes all five petals, have each a dark, well-defined blotch. Pkt. 20¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

2461 Bugnot The Bugnot type of Pansies is most attractive. It differs from the Cassier's type in that the blotches on the petals are not well defined but radiate into the margin of the flowers. It is a unique and beautiful strain, which has always been a favorite. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢; 1/4 oz. \$1.20; 1/2 oz. \$1.80; 3/4 oz. \$2.90.

2459 Paris Improved Blotched This is another very fine large-flowered strain of Pansies which blooms profusely and continuously. Each petal is marked with a well-defined large dark blotch and the texture of the petals is quite thick and heavy. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢; 1/4 oz. \$1.20.

2455 Striped Mixed This variety produces a large number of blooms with attractively striped flowers. The blooms are most beautiful if observed closely, with color combinations of orange, rose, purple, and salmon in one flower. Again, softer combinations, such as golden yellow, lemon-yellow, copper, and old rose are found. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢; 1/2 oz. \$1.25.

2420 Extra Fine Bedding Pansies These are valuable for making beds where the size of the individual flowers does not count so much. They bloom profusely and combine a remarkably large number of colors. They are of stocky growth, and bloom freely all during spring, summer, and fall. Pkt. 10¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢.

Burpee Blend of Giant Fancy Pansies

2513 For the lover of fine Pansies, this blend cannot be surpassed. It contains the largest and most beautiful of all blotched Pansies that have been developed after many years of careful and close selection. The Burpee Blend contains only well-formed, expanded flowers of uniform large size with an unusual range of colors and markings. The texture of the blooms is heavy and thick, so that the blooms are well waved and crinkled on the edges. The large flowers are borne upon long stiff stems which make them admirably suited for cutting.

In selecting the Burpee Blend, we have paid particular attention to include only compact, rounded plants of sturdy habit and profuse blooming qualities. Not only do the plants bloom profusely, but they also bloom continuously throughout the spring, summer, and fall, and where the weather remains cool the flowers will not decrease in size during the late season. The seed of Burpee's Blend is necessarily expensive but it is well worth all it costs.

Pkt. 25¢; 1/16 oz. 85¢; 1/8 oz. \$1.25; 1/4 oz. \$2.05; 1/2 oz. \$3.40.

Perennial Flowers

Perennials are the chief standby of the old-fashioned gardens. They require little attention and respond generously to increased care and thorough cultivation. After once being established, they will not only last many years, but also increase in beauty with every season. The seed of perennials may be sown indoors in boxes during February, March, or April, and the young plants set out in their permanent place when 3 to 4 inches tall. Most gardeners sow right out in the open any time during April, May, June, or July. Ask for a free copy of the Burpee Leaflet, "PERENNIALS FROM SEED," which gives complete cultural directions for growing the finest perennials.

HOLLYHOCKS

inches in diameter. Hollyhocks should be sown any time from early spring until early August. The magnificent flower-spikes make a wonderful display during June and July.

Single Hollyhocks

The single varieties of Hollyhocks enjoy great popularity on account of their large flowers and artistic appearance.

- 3813 SINGLE WHITE
- 3825 SINGLE CRIMSON
- 3824 SINGLE APRICOT
- 3827 SINGLE PINK

Any of the above:
Pkt. 15¢; 1/8 oz. 40¢;
1/4 oz. 60¢; 1/2 oz. 95¢.

3828 SINGLE MIXED The single varieties flower more continuously than the double. A complete mixture of all colors. Pkt. 10¢; 1/8 oz. 25¢; 1/4 oz. 40¢.

3826 ALLEGHENY The edges of the flower-petals are finely fringed and curled. Single and semi-double flowers of large size, including many colors. Pkt. 10¢; 1/8 oz. 25¢; 1/4 oz. 40¢.

Here is a perennial that indeed needs little description as it has been a great favorite for many years. Of strong habit, growing 6 to 8 feet in height. The flowers measure 3 to 4

Double Hollyhocks

3814 LIGHT PINK A most attractive color. Pkt. 15¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

3815 MAROON Large mahogany-brown flowers. Pkt. 15¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

3816 ROSE See illustration. A beautiful pure rose. Pkt. 15¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

3817 SCARLET See illustration. The vivid scarlet blooms are set closely on the spikes. Pkt. 15¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

3818 YELLOW An exquisite and fine deep yellow. Pkt. 15¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

3819 WHITE See illustration. Exquisite wax-like petals. Pkt. 15¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

3820 SALMON-PINK Large and fully double flowers. Pkt. 15¢; 1/8 oz. 45¢; 1/4 oz. 70¢.

3823 CRIMSON A deep rich crimson shade. Pkt. 15¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

3822 DOUBLE MIXED HOLLYHOCKS All the above colors and some other shades in a well-balanced mixture. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢;

Foxglove (*Digitalis*) 3787

FINE MIXED See illustration. Beautiful tall spikes of white, pink, rose, yellow, and purple; 4 feet tall. Pkt. 10¢; 1/16 oz. 25¢; 1/8 oz. 40¢.

3789 WHITE Pure white flowers marked with yellow. Pkt. 10¢; 1/16 oz. 30¢.

3786 YELLOW Large bells of a rich deep yellow color. Pkt. 10¢; 1/16 oz. 30¢.

3788 ROSE Bright. Pkt. 10¢; 1/16 oz. 30¢.

3790 PURPLE Very large and bearing many beautiful flower-spikes. Pkt. 10¢; 1/16 oz. 30¢.

7843 Collection of Double Hollyhocks

One packet each of the three fine varieties illustrated in color. 25¢
They will be mailed, postpaid, for

Chrysanthemum

3750 FORDHOOK EARLY-FLOWERING See illustration. Single and semi-double flowers measuring 3 inches across. A glorious mixture of all colors, blooming during the late fall. Pkt. 25¢; 1/32 oz. 60¢; 1/16 oz. 90¢; 1/8 oz. \$1.55.

Dianthus

These are very popular because they are easy to grow and bloom freely for many weeks. They are valued for rock gardens.

3783 PLUMARIUS (Perennial or Pheasant-Eye Pink) See illustration. Thick tufts of fine leaves, many small, star-like, rich rose flowers. Delicately scented. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢.

3785 SCOTICUS, fl. pl. (Paisley or Florists' Pink) A very pretty double variety of Perennial Pinks. Blooms during June; one foot tall. Pkt. 15¢; 1/8 oz. 40¢; 1/4 oz. 60¢.

Anchusa 3710
ITALICA
Dropmore Variety (Alkanet or Bugloss) See illustration. One of our finest blue-flowered plants, growing 4 feet tall. Magnificent spikes from June on. Does well in almost any kind of soil and in a sunny location. An excellent plant for the background to hide fences or walls. Pkt. 19¢; 1/8 oz. 25¢; 1/4 oz. 40¢.

Globe Thistle A tall thistle-like perennial

Globe Thistle
3793 (*Echinops sphaerocephalus*) See illustration. A stately border plant with thistle-like foliage and large ball-shaped flower-heads. The flowers are blue, changing to white. Blooms from July to September. Height, 6 to 8 feet. Pkt. 10¢; 1/4 oz. 25¢; 1/2 oz. 40¢; oz. 60¢.

Boston Ivy 3708 (*Ampelopsis Veitchii*) The favorite hardy climber with large five-lobed leaves turning to a bright red color late in the fall. It easily clings to walls of wood, brick, or stone without needing any aid. Pkt. 10¢; 1/4 oz. 25¢; 1/2 oz. 40¢; oz. 60¢.

Arabis 3720 ALPINA One of the very earliest of all perennials to come into bloom. The pure white blooms are produced in such great profusion that within a short time they completely cover the foliage and appear like a mass of snow. They are excellent for the rock garden, where they thrive luxuriantly, or for borders to other perennials, and make a very attractive display planted in masses somewhere in the corner of the garden. Pkt. 10¢; 1/4 oz. 25¢; 1/2 oz. 40¢.

Achillea 3702 PTARMICA, fl. pl. The Pearl (*Milfoil; Yarrow*) Small double white flowers borne in great profusion; 2 feet tall. Grows well in any kind of soil even if partly shaded. Blooms freely during July and August and is very fine for the foreground of shrubs and for borders. An excellent perennial for cutting. Pkt. 15¢; 1/16 oz. 65¢; 1/8 oz. \$1.00; 1/4 oz. \$1.55.

Sweet Rocket
3872 MIXED (*Hesperis matronalis*) The plants grow 2 feet tall and are surmounted by large panicles of white and purple flowers. Pkt. 10¢; 1/4 oz. 25¢.

Chinese Lantern Plant

3856 (*Physalis Franchetti*) The Chinese Lantern Plant is grown for its showy scarlet-red seed pods which are easily dried-for winter bouquets. The plants are perfectly hardy, blooming during June and July. The flowers are white. The lantern-like seed-pods develop late during the summer. Any ordinary garden soil is suited and a sunny or semi-shaded location may be chosen. Pkt. 15¢; 1/8 oz. 35¢; 1/4 oz. 55¢; 1/2 oz. 85¢.

Chinese Lantern Plant

Coreopsis 3768
GRANDIFLORA See illustration. The color of the fine blooms is a most intense golden yellow. The petals are broad and open. The plants bloom freely and will make a fine display all during the late spring and summer. Coreopsis thrives in a rich, moderately moist soil even in a semi-shaded location. It is exceptionally fine for cutting. Pkt. 10¢; 1/4 oz. 30¢; 1/2 oz. 45¢; oz. 70¢.

Centaurea 3763 MONTANA (*Hardy Cornflower*) Grows 2 feet tall and has large, showy, thistle-like blue flowers. Blooms very freely from the end of April until late June and is perfectly hardy. They thrive in sandy loam soil and a partly shaded location. A sturdy growing and free blooming variety which makes a fine display in the mixed border, and will produce long-stemmed cut-flowers during the late spring and summer. Pkt. 10¢; 1/4 oz. 30¢; 1/2 oz. 45¢; oz. 70¢.

Delphinium Perennial Larkspur

Easily grown from seed sown any time from early in the spring until the forepart of August. They delight in fairly rich soil, but are rather susceptible to an excess of water.

3776 FORMOSUM This makes a strong and sturdy plant with flower-spikes 3 to 4 feet in length and set closely with rich deep blue flowers. Pkt. 20¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

3772 BELLADONNA SEED-LINGS Large solid spikes of light and deep blue flowers of various hues. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢.

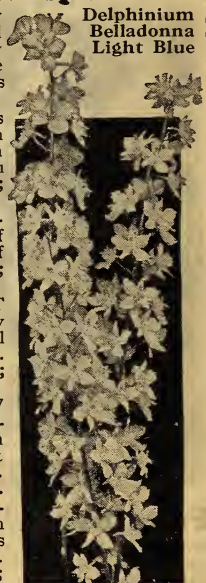

3774 BELLADONNA, LIGHT BLUE See illustration. A lovely light blue. Makes wonderful long spikes; 3 to 4 feet tall. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢; 1/4 oz. \$1.20.

3773 SULPHUR-YELLOW (*Zalil*) A wonderful hardy Delphinium. Long spikes, 2 feet in length, set closely with bright sulphur-yellow flowers. Pkt. 20¢; 1/16 oz. 80¢; 1/8 oz. \$1.20.

3778 CHOICE MIXED Beautiful long spikes, ranging from almost white through the various shades of blue to rich royal purple. Pkt. 10¢; 1/16 oz. 25¢; 1/8 oz. 40¢; 1/4 oz. 60¢.

3775 COMPACT WHITE The pure white flowers are borne closely, set on spikes measuring 12 to 15 inches tall. Pkt. 10¢; 1/16 oz. 30¢; 1/8 oz. 45¢; 1/4 oz. 70¢.

3777 COMPACT BLUE The flowers are a rich sky-blue. Very profuse blooming. Pkt. 10¢; 1/16 oz. 30¢; 1/8 oz. 45¢; 1/4 oz. 70¢.

Delphinium Belladonna Light Blue

GOLD DUST

Gold Dust 3706 (*Alyssum saxatile*) See illustration. The plants are of low-growing, spreading growth and not more than 5 inches in height. Early in the spring the tufts are covered with thousands of small golden yellow flowers. Pkt. 10¢; ¼ oz. 30¢.

Cheiranthus ALLIONII 3765 Lovely orange-yellow flowers borne in great profusion during May. A neat little border plant, 12 inches tall, and fine for cutting. Pkt. 10¢; ¼ oz. 45¢; ½ oz. 70¢.

Erigeron 3797 SPECIOSUS SUPERBUS (Fleabane) Single Daisy-like mauve-colored flowers produced in abundance throughout the summer. Grows 2 feet tall and is suited for mixed beds, borders, or rock gardens. Pkt. 15¢; ⅙ oz. 40¢; ⅓ oz. 60¢.

Gaillardia 3805 GRANDIENNIAL HYBRIDS (Blanket Flower) Beautiful large flowers with yellow tips and crimson centers. Excellent for cutting. The plants grow 2 feet tall and thrive where they get the full sun. Blooms freely and continuously during late spring and summer. Pkt. 10¢; ⅙ oz. 25¢; ¼ oz. 40¢; ½ oz. 60¢.

Geum 3806 COCCINEUM Mrs. Bradshaw A pretty perennial of low growth sending up flower-stems 2 feet tall. The flowers are double and measure 2 inches in diameter. They are a most intense orange-scarlet. They do best in a moderately dry soil and in an airy and sunny location. Excellent for the rock garden. Pkt. 15¢; ⅙ oz. 45¢; ⅓ oz. 70¢.

3804 LADY STRATHEDEN The grand double flowers are a magnificent golden yellow; 2 feet tall. It is a handsome variety for mixed beds or borders. Very free blooming. Pkt. 20¢; ⅙ oz. 65¢; ⅓ oz. \$1.00; ¼ oz. \$1.55.

Helenium AUTUMNALE SUPERBUM 3809 (*Sneezewort*) A free and continuous-flowering plant with spreading heads of Daisy-like golden yellow flowers. Grows 8 feet tall and blooms during summer and fall. Pkt. 15¢; ⅙ oz. 40¢; ⅓ oz. 60¢.

Heuchera 3811 SANGUINEA HYBRIDS The foliage is dwarf and compact, above which rise numerous graceful flower-spikes. The colors range from white and pink to rose and crimson. The spikes grow 12 inches tall. A very fine plant for the rock garden, growing most freely in loose, rich soil. The plants bloom profusely from May until July. Pkt. 25¢; ⅙ oz. 65¢; ⅓ oz. \$1.00.

LOBELIA 3843 CARDINALIS (Indian Pink or Cardinal Flower) Thrives best in moist and slightly shaded positions. The flowers are rich crimson borne on fine long stems. The foliage is bright green. Height, 2 to 4 feet. Pkt. 15¢; ⅓ oz. 60¢; ⅙ oz. 90¢; ⅓ oz. \$1.45.

Lythrum 3838 ROSEUM SUPERBUM (Loosestrife) Fine long heads of rich purplish red flowers from early July until late September; 2 to 4 feet tall. Pkt. 15¢; ⅙ oz. 50¢.

Platycodon

Platycodon 3857

GRANDIFLORUM MARIESII (Chinese Bellflower) See illustration. The bell-shaped rich blue flowers are borne profusely during the summer and early fall. It blooms freely and is perfectly hardy. Pkt. 15¢; ⅙ oz. 25¢; ⅓ oz. 40¢.

Lupinus, White

Lupines These are truly beautiful, blooming the second season after sowing. They thrive in any ordinary garden soil and make a wonderful display.

3844 WHITE See illustration. Beautiful pure white flower-spikes; much used as cut-flowers. Free blooming, lasting long after cutting. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢; oz. 60¢.

3844a ROSE A fine rich shade of rose. An excellent cut-flower. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢.

3845 BLUE Bright blue flowers borne freely during June. A most popular variety. Pkt. 10¢; ¼ oz. 25¢.

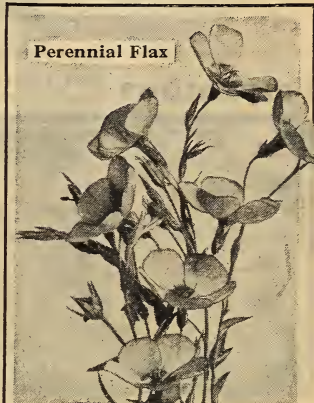

3846 MOERHEIMI Rose and white flowers in a beautiful blend on long graceful spikes. Pkt. 15¢; ¼ oz. 35¢; ½ oz. 55¢; oz. 85¢.

ICELAND POPPIES

Iceland Poppy 3849

MIXED NUDICAULE (Papaver) See illustration. The flowers are produced on fine stiff stems 18 inches long, and come in white, yellow, and orange shades. They bloom most profusely during spring, summer, and fall. Pkt. 15¢; ⅙ oz. 30¢; ¼ oz. 45¢.

Perennial Flax

Perennial Flax 3841

(*Linum perenne sibiricum*) See illustration. A rich blue-flowered Flax. The attractive flowers last only a day, but they are borne continuously from July on; 15 inches tall. Pkt. 10¢; ¼ oz. 25¢; ½ oz. 40¢.

Lychnis 3853

CHALCEDONICA See illustration. Corymbs of small, intensely bright scarlet flowers; 2 feet tall. A beautiful free and continuous bloomer. Pkt. 10¢; ⅙ oz. 25¢; ¼ oz. 40¢.

3846a VISCARIA SPLENDENS (Maitese Cross; Ragged Robin) A fine border plant with deep red flowers. Blooms during June and July. Pkt. 10¢; ⅙ oz. 25¢; ¼ oz. 40¢.

Pyrethrum

3870 ROSEUM, Mixed (Insect Powder Plant) See illustration. A fine showy plant bearing a profusion of large daisy-like flowers. The color range has been greatly improved within late years and our strain includes some lovely shades of rose, pink, and red, also white. Pyrethrum is perfectly hardy and makes a well-rounded plant about 2 feet tall. The flowers are excellent for cutting because of their long stems, and they last a long time in water. Blooms during May and June. Pkt. 15¢; 1/4 oz. 40¢.

3868 GOLDEN FEATHER (Pyrenthem aureum) This variety of Pyrethrum has rich yellow foliage. The bushes grow about 6 inches tall. The flowers are small and of a pure white color. Fine for borders. Pkt. 10¢; 1/4 oz. 35¢; 1/4 oz. 55¢.

Lathyrus (Perennial Peas) These Perennial Peas, although lacking fragrance, are very valuable because they will last almost indefinitely. The vines grow from 8 to 10 feet long.

3837 GIANT WHITE PEARL See illustration. Bears large clusters of beautiful pearly white flowers. A very free bloomer which will make a fine show for many weeks. Pkt. 15¢; 1/4 oz. 35¢; 1/2 oz. 55¢; oz. 85¢.

3833 PINK BEAUTY See illustration. A particularly fine and rich shade of rose-pink. It is a strong grower and free bloomer. Pkt. 15¢; 1/4 oz. 30¢; 1/2 oz. 45¢; oz. 70¢.

3835 RED or PURPLE Reddish purple flowers similar to the color of Wisteria. Blooms freely during June and July. Pkt. 10¢; 1/4 oz. 25¢; 1/2 oz. 40¢; oz. 60¢.

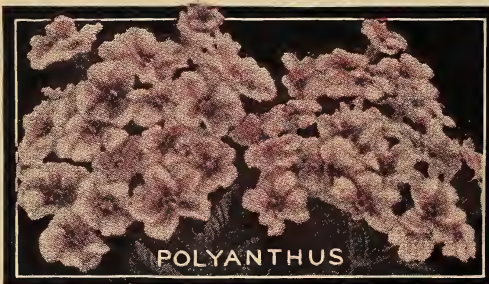

3839 MIXED All three colors in mixture, properly blended. Pkt. 10¢; 1/4 oz. 25¢; 1/2 oz. 40¢; oz. 60¢.

Giant Pearl and Pink Beauty

Polyanthus 3859 LARGE FLOWERING, MIXED See illustration.

Charming early spring-flowering plants. Perfectly hardy and most effective for beds or masses. They belong to the Primrose family. The range of colors includes many fine shades and combinations of white, yellow, rose, red, and violet, also salmon, copper-brown, orange, scarlet, lilac, and mahogany-red. Pkt. 15¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

POLYANTHUS

Perfectly hardy and most effective for beds or masses. They belong to the Primrose family. The range of colors includes many fine shades and combinations of white, yellow, rose, red, and violet, also salmon, copper-brown, orange, scarlet, lilac, and mahogany-red. Pkt. 15¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

HIBISCUS

Burpee's Seeds are Guaranteed

Burpee's Seeds are guaranteed to grow and give entire satisfaction. Our careful method of growing seeds and our careful tests make it possible for us to offer this liberal guarantee to all those who purchase seeds directly from Burpee in Philadelphia. Whether you purchase vegetable seeds, flower seeds, farm seeds, or bulbs from Burpee, the Burpee Guarantee insures you to the full amount of the purchase price.

Hibiscus 3812 GIANT MALLOW MARVELS See illustration. The plants are perfectly hardy and bear their enormous blooms on long canes measuring 4 to 6 feet in height. The flowers are of gigantic size. They range in color from pure white through various shades of pink and rose to deep rich crimson. The plants thrive well in a marshy place, but make fine showy plants even where the soil is comparatively dry. A sunny location should be given the preference when planting and where the soil is moist hot weather does not harm the plants. Blooms from June on. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

Sun Rose 3801 (Helianthemum mutabile) See illustration. Excellent for low beds or borders and useful in the rock garden. Blooms during May and June in many shades of rose, pink, and also white. Hardy and a free bloomer. Plant in a sunny spot in the garden where the soil is moderately rich and moist. This showy little perennial is well suited for raising in pots or boxes. The flowers are single and semi-double. Pkt. 10¢; 1/16 oz. 25¢; 1/8 oz. 40¢.

7610 Perennial Garden Collection

This fine assortment will give a complete perennial garden. It contains one packet each: Delphinium, Belladonna Seedlings; Double Mixed Hollyhocks; Coreopsis grandiflora; Fine Mixed Foxgloves; Choice Mixed Oriental Poppies; and Shasta Daisy. This collection of 6 packets (value 65¢) will be mailed, postpaid, for **50¢**

Sun Rose

Sweet William These are excellent for border plants and should be included in every garden. They are grown from seed sown right in the open about the middle of April, but they can be sown as late as the end of June.

- 3886 PINK BEAUTY** Beautiful salmon-pink. Very double and free-blooming. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢.
- 3890 SCARLET BEAUTY** Attractive rich scarlet. Very double. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.
- 3892 DOUBLE, MIXED** Fine double flowers in a great variety of colors. Pkt. 10¢; 1/8 oz. 25¢; 1/4 oz. 40¢.
- 3884 PERFECTION SINGLE, MIXED** A splendid strain of all colors. Pkt. 10¢; 1/8 oz. 25¢; 1/4 oz. 40¢.

Scarlet Beauty

Pink Beauty

Shell Flower 3764 (*Chelone Barbata*) Long flower-spikes closely set with rich, coral-red blooms. Blooms most freely in a moderately moist but well-drained soil and a sunny or semi-shaded location. The plants are in full bloom from June until September. Pkt. 10¢; 1/16 oz. 25¢; 1/8 oz. 40¢.

Rudbeckia 3873 PURPUREA

See illustration. A most handsome variety, with large rosy purple flowers borne freely from July till October. The center of the blooms is like a solid cushion of purplish black.

Pkt. 15¢; 1/8 oz. 50¢; 1/4 oz. 75¢; 1/2 oz. \$1.20.

3874 SPECIOSA (Cone Flower)

An easily grown perennial of sturdy habit thriving in almost any kind of soil. They grow most luxuriantly in a loam soil where there is never a lack of moisture. The petals of the flowers are a rich brilliant yellow and the center is deep purplish brown. Blooms from midsummer until fall.

Pkt. 15¢; 1/8 oz. 50¢; 1/4 oz. 75¢.

Rudbeckia purpurea

Primula 3861 AURICULA This is a well-known Primula; many bright colors, including yellow, orange, copper, brown, and other pastel shades, borne in clusters on fine long stems. Excellent for dwarf borders or beds. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢.

3865 VULGARIS (English Primrose) Large, rich yellow flowers; blooms very early. Pkt. 15¢; 1/16 oz. 65¢.

Hardy Gloxinia

Hardy Gloxinia

3831 (Incarvillea Delavayi)

The flowers are produced in clusters on long stems and are shaped like a Gloxinia. They are a lovely shade of bright rose. They grow best in a soil containing leaf mold.

The plants are hardy in the South, but in the North the roots should be lifted before severe frost sets in and stored like Dahlias in a cool but frostproof cellar. Pkt. 15¢; 1/16 oz. 50¢; 1/8 oz. 75¢; 1/4 oz. \$1.20.

Oriental Poppy

Oriental Poppy

3851 ORIENTALE See illustration. This is the most showy of all the perennial Poppies. The immense rich scarlet-red flowers are borne profusely during late May and June. They are carried on long heavy stems and are excellent for cutting. Sow the seed where the plants are to bloom, as they do not transplant very satisfactorily. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢.

3847 CHOICEST MIXED This fine mixture of Oriental Poppies is composed of a large number of bright shades of scarlet, red, pink, bright pink, blush, and white. The blooms are immense, carried upright on long and strong stems. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢.

Stocks 3880

EMPEROR or PERPETUAL

These fine Stocks will live outdoors for several years if protected during winter. Our mixture contains a wide range of colors, including white, pink, rose, red, maroon, light blue, lilac, purple, and many intermediate shades. This type of Stocks can be sown any time up to the latter part of June in the open and will bloom the following spring. Where severe snowless winters occur the plants should be covered with a fairly thick layer of straw or strawy manure. This cover must be lifted early in the spring before it gets warm. Pkt. 20¢; 1/8 oz. 45¢; 1/4 oz. 70¢; 1/2 oz. \$1.10.

Wallflower

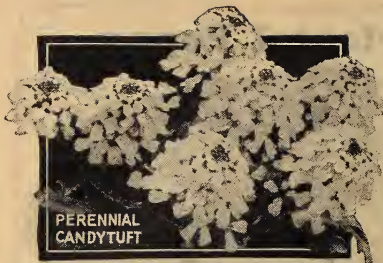

Wallflowers thrive where the weather remains fairly cool during the summer. They are most beautiful for beds, borders, and also for cutting. Raised in pots they will bloom freely and can be taken into the house when fall frosts are expected. Wallflowers are highly valued for their exquisite fragrance. Sow any time from early spring until August. Protect during severe weather.

3894 FINE DOUBLE, MIXED See illustration. The spikes are closely set with double flowers of many shades, including chocolate-brown, orange, purple, crimson, bright red, and many other fine colors. Pkt. 15¢; 1/16 oz. 45¢; 1/8 oz. 70¢; 1/4 oz. \$1.10.

3897 EXTRA-EARLY PARISIAN Single golden yellow flowers, borne in great profusion during spring. An excellent border plant which never fails to attract attention. Lasts a long time in water. The blooms are sweet scented. Pkt. 10¢; 1/16 oz. 25¢; 1/8 oz. 40¢.

Wallflower

PERENNIAL
CANDYTUFT

Perennial Candytuft

3829 (*Iberis sempervirens*) This is a favorite perennial, bearing handsome trusses of pure white flowers. The plants are of dwarf growth, not more than 12 inches tall, and are wonderfully adapted for edging or rockwork. The plants bloom freely and make a solid bed of white flowers during late April, May, and June. Pkt. 15¢; 1/8 oz. 50¢; 1/4 oz. 75¢; 1/2 oz. \$1.20.

SNOW IN SUMMER

Snow-in-Summer 3767 (*Cerastium tomentosum*) A charming creeping plant, with silvery foliage and white flowers. When in full bloom and massed together they appear like a bed of snow. A free and continuous bloomer, producing its attractive star-shaped flowers during the month of June. Excellent for beds and borders. Pkt. 15¢; 1/8 oz. 35¢.

FLORADALE DAISY

3771 Floradale Daisy

The fine pure white flowers are of large size, and the many fine loose petals remind one of a semi-double Chrysanthemum. Rounded bushes, 2 feet tall. Excellent for cutting. Pkt. 25¢; 1/16 oz. 85¢; 1/8 oz. \$1.25.

Shasta Daisy 3770 (*Chrysanthemum maximum*) Our many friends would be surprised to see the enormous size of these large-flowering Shasta Daisies. The plants grow vigorously and are perfectly hardy. The large white flowers are borne in the greatest profusion. Shasta Daisies are easily grown. They make a fine display even in poor soils which are quite dry. Plant plenty of them for cutting. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

Pentstemon

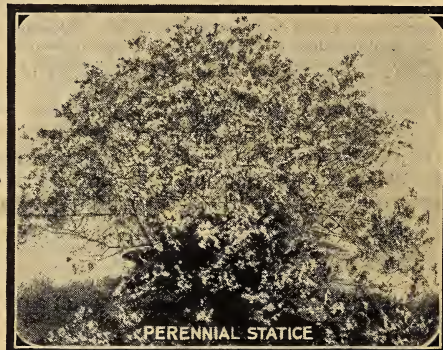

Burpee's
Seeds
Grow

Pentstemon 3854

FLORADALE See illustration. Contains many beautiful shades. The flowers average 1 1/2 inches in diameter, and the spikes grow 18 inches long. They are thickly set with flowers. Blooms freely and continuously. Pkt. 15¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢.

Lilium Regale

3840 (*Royal Lily*) The plants grow 4 to 6 feet tall, bearing immense blooms. They are canary-yellow shaded with pink. It is a stately and most beautiful Lily, which is quite easily raised from seed. Pkt. 25¢; 1/16 oz. 75¢; 1/8 oz. \$1.15; 1/4 oz. \$1.80.

PERENNIAL STATICE

Statice 3879 **LATIFOLIA** (*Sea Lavender*) A lovely quaint, hardy perennial. Masses of clear mauve flowers; easily dried for winter; 15 inches tall. Pkt. 15¢; 1/8 oz. 40¢; 1/4 oz. 60¢.

Violas or Tufted Pansies 3896 **FINEST MIXED** (*Viola cornuta*) A grand mixture of all colors. Pkt. 10¢; 1/16 oz. 30¢; 1/8 oz. 45¢.

Perennial Baby's Breath (*Gypsophila paniculata*) 3807 Tiny white flowers are borne on slender stems. The plants bloom very profusely. Pkt. 10¢; 1/4 oz. 30¢; 1/2 oz. 45¢; oz. 70¢.

3799 DOUBLE BABY'S BREATH The small double white flowers are borne most profusely. This is a decided improvement on the single variety, because of its great showiness. Attractive in the garden; extremely valuable for cutting. Pkt. 25¢; 1/16 oz. 60¢; 1/8 oz. 90¢.

Saponaria 3875 **OCYMOIDES** (*Rock Soapwort*) Beautiful rose-colored flowers blooming from June until late in September. Of creeping habit and excellent for borders or dwarf beds; 6 inches tall. Pkt. 10¢; 1/8 oz. 25¢; 1/4 oz. 40¢; 1/2 oz. 60¢.

Scabiosa 3876 **CAUCASICA** (*Pincushion Flower*) The color is a pleasing light blue. After once being established, they will last for many years; 2 feet tall. Pkt. 15¢; 1/16 oz. 35¢; 1/8 oz. 55¢; 1/4 oz. 85¢.

Stokesia 3882 **CYANEA** (*Cornflower Aster*) A lovely hardy plant producing an abundance of handsome lavender flowers and blooming all summer. Pkt. 15¢; 1/8 oz. 30¢; 1/4 oz. 45¢; 1/2 oz. 70¢.

Veronica 3893a **SPICATA MIXED** (*Speedwell*) Bright blue, pink, and white flower-spikes borne most profusely during August; 18 inches tall. Pkt. 10¢; 1/16 oz. 25¢; 1/8 oz. 40¢; 1/4 oz. 60¢; 1/2 oz. 95¢.

Plume Poppy

Plume Poppy 3732 (*Bocconia cordata*) Grows 6 feet tall, with handsome foliage. Flowers creamy buff, borne in large panicles. Pkt. 10¢; 1/4 oz. 30¢; 1/2 oz. 45¢; oz. 70¢.

Valerian 3898 (*Centranthus COCCINEA*) The bright red flower-heads have a spicy fragrance. Pkt. 10¢; 1/8 oz. 25¢; 1/4 oz. 40¢; 1/2 oz. 60¢.

3899 WHITE A white-flowered variety. Pkt. 10¢; 1/8 oz. 25¢; 1/4 oz. 40¢.

Aquilegia CÆRULEA 3714

(The Rocky Mountain Columbine) The long-spurred flowers are blue and white. Blooms during May and June. Pkt. 10¢; 1/8 oz. 45¢; 1/4 oz. 70¢.

3716 LONG-SPURRED HYBRIDS The flowers range from pure white and yellow to deep blue, through all shades of pink and red, with combinations of white and pink, white and blue, etc. Blooms in June. Pkt. 15¢; 1/8 oz. 60¢; 1/4 oz. 90¢; 1/2 oz. \$1.45.

3718 SKINNERI The flowers are a vivid scarlet, tipped with yellow. About 80 per cent true. Blooms early in May. Pkt. 15¢; 1/8 oz. 70¢; 1/4 oz. \$1.05; 1/2 oz. \$1.70.

3715 PINK SHADES A lovely strain with large flowers in many bright shades of pink. Blooms profusely. Pkt. 20¢; 1/8 oz. 75¢; 1/4 oz. \$1.15.

Bellis—Double English Daisy

These are indispensable for cool shady places. They bloom very early in the spring and are fine for beds.

3724 LONGFELLOW Extra-large double flowers of dark rose. They are wonderful for beds or borders, and where the weather remains reasonably cool will bloom almost all the year round. Pkt. 15¢; 1/8 oz. 55¢.

3725 SNOWBALL See illustration. A free-blooming strain with beautiful double white flowers. Pkt. 15¢; 1/8 oz. 55¢.

3726 DOUBLE MIXED White and various shades of rose and red in mixture. Pkt. 10¢; 1/8 oz. 45¢; 1/4 oz. 60¢.

3727 DOUBLE QUILLED, MIXED Large flowers with tubular petals. Very free flowering. White, rose, and red shades. Pkt. 15¢; 1/8 oz. 50¢; 1/4 oz. 75¢; 1/2 oz. \$1.20.

Agrostemma 3704 MIXED Beautiful white, rose, and rich crimson flowers. Blooms during May, June, and July; 2 feet tall. Pkt. 10¢; 1/4 oz. 25¢.

Carnation Perennial Carnations are adapted to a wide range of soil and climate. They are easily grown and make a showy display. Our strain of Chabaud Carnations is particularly fine. They will bloom the first year if the seed is sown early in the spring. The long-stemmed flowers are excellent for cutting, lasting a long time in water. Sow the seed thinly in the open ground early in the spring or start indoors during February, March, or April in light sandy soil. The plants make compact bushes 2 to 3 feet tall and bear a mass of large double flowers during July and August.

3751 CHABAUD, WHITE Large well-rounded flowers of pure white color. Pkt. 20¢; 1/8 oz. 50¢; 1/4 oz. 75¢.

3752 CHABAUD, ROSE A lovely soft rose color. Always fully double. Pkt. 20¢; 1/8 oz. 50¢; 1/4 oz. 75¢.

3753 CHABAUD, SCARLET The flaming scarlet flowers are most impressive. Of large size. Pkt. 20¢; 1/8 oz. 50¢; 1/4 oz. 75¢.

3754 CHABAUD, CRIMSON-MAROON A deep shade of crimson with a garnet-maroon cast. Pkt. 20¢; 1/8 oz. 50¢.

3756 CHABAUD, MIXED This mixture includes the above and other fine colors. Pkt. 15¢; 1/8 oz. 45¢.

3755 DOUBLE MIXED A fine strain of perennial Carnations with large flowers of many bright colors. Pkt. 15¢; 1/8 oz. 40¢.

3757 EARLY DWARF VIENNA, MIXED The plants are dwarf and compact, making a fine display in the border or garden. All colors mixed. Pkt. 15¢; 1/8 oz. 35¢; 1/4 oz. 55¢.

3915 PERPETUAL OR TREE MIXED Immense flowers in all colors. Grown extensively for winter blooming in the greenhouse, also suited for outdoor culture where weather is favorable for the growth of carnations. Pkt. 15¢; 1/8 oz. 50¢; 1/4 oz. 75¢.

Tunica Saxifraga

3889 This lovely hardy perennial is a relative of the hardy Pinks, which it resembles in many ways. The plants grow about one foot tall and bloom profusely from June till September. Tunica is an excellent hardy perennial for the rock garden. The plants make a spreading growth and form thick tufts which are covered with small delicate rose blooms. Toward the center of the petals show fine pencil markings of rich red. It does best in a sunny location and in fairly dry porous soil. Pkt. 10¢; 1/8 oz. 25¢; 1/4 oz. 40¢; 1/2 oz. 60¢.

Campanula (Bellflowers) The Campanulas are easily grown and make a wonderful show during the latter part of May and early June.

3733 SINGLE MIXED White, pink, rose, blue, and purple shades. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢.

3734 DOUBLE MIXED The flowers are fully double and come in a wide range of bright colors; of strong growth and blooms freely. Pkt. 10¢; 1/8 oz. 30¢; 1/4 oz. 45¢.

3735 CALYCANThEMA, BLUE The blue Cup-and-Saucer Canterbury Bell. A very free bloomer; fine for cutting. It is a most popular variety. Pkt. 15¢; 1/8 oz. 40¢.

3737 CALYCANThEMA, ROSE The rose Cup-and-Saucer Canterbury Bell, bearing fine rose flowers. Pkt. 15¢; 1/8 oz. 40¢; 1/4 oz. 60¢.

3739 CALYCANThEMA, WHITE The white Cup-and-Saucer Canterbury Bell. Pkt. 15¢; 1/8 oz. 50¢.

3741 CALYCANThEMA, MIXED The proper mixture of the three varieties listed and a few other fine shades. Pkt. 15¢; 1/8 oz. 40¢.

3743 CARPATICA, BLUE (Carpathian Harebell) Rich blue. Excellent for rockeries; 12 inches tall. Pkt. 15¢; 1/8 oz. 35¢.

3744 CARPATICA, WHITE A pure white-flowered form of the above. Pkt. 15¢; 1/8 oz. 35¢; 1/4 oz. 55¢.

3746 PERSICIFOLIA, MIXED (Peach Bells) Beautiful bell-shaped flowers in blue and white. Pkt. 20¢; 1/8 oz. 65¢; 1/4 oz. \$1.00.

3747 PYRAMIDALIS BLUE (Chimney Bellflower) Rich blue saucer-shaped flowers borne on long stems. Pkt. 15¢; 1/8 oz. 35¢.

3745 PYRAMIDALIS, WHITE Pure white flowers, on thin, wiry stems. Pkt. 15¢; 1/8 oz. 35¢; 1/4 oz. 55¢.

BURPEE'S BULBS

The bulbs which we offer on the following pages have been grown with as much care as Burpee's Seeds. Most bulbs add a touch to the garden which cannot be created by any other flowers. Some of our most popular flowers are grown from bulbs. Just think of Dahlias, Gladioli, and Lilies. Yet there are many other flowers grown from bulbs which

deserve to be grown just as widely. As a rule, it is easier to grow flowering plants from bulbs than it is from seed. There are flowers grown from bulbs for almost every purpose. Many of them are excellent for garden displays; others are used extensively for pot-plants, and there are also a number of quick-growing climbers.

Tuberous-Rooted Begonias

Begonias do best if kept in the semi-shade. They prefer plenty of moisture, warm weather, and humidity. If grown in pots in the house, they should be protected against the strong mid-day sun. The soil best suited to Begonias is a rich sandy loam to which has been added plenty of well-rotted manure and leafmold. Plant the bulbs in pots or pans, so that the top of the bulb is just barely visible.

8802 Single Rose See illustration. A pure shining rose color. The flowers are large and well expanded. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50.

8805 Single Pink The superlative flowers are a lovely soft pink shade. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50.

8806 Single Orange This is a particularly popular color. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50.

8807 Single Scarlet The richness of the flowers is very particularly striking and effective. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50.

8810 Single White Beautiful waxy white petals, rich green foliage. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50.

8813 Single Yellow This is a bright and showy golden yellow color. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50.

8816 Single, Mixed This mixture contains a complete assortment of all the colors listed. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50.

8821 Double Rose A fine shade of bright rose. Very free blooming. 40¢ each; 3 for \$1.05; 6 for \$2.00; 12 for \$3.90.

8824 Double Pink The double bright pink flowers are borne profusely. 40¢ each; 3 for \$1.05; 6 for \$2.00; 12 for \$3.90.

8825 Double Orange This is a particularly attractive shade of orange. 40¢ each; 3 for \$1.05; 6 for \$2.00; 12 for \$3.90.

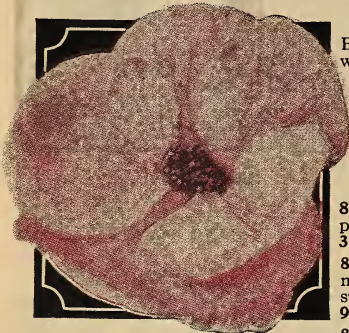

8827 Double Scarlet See illustration. A very impressive variety. 40¢ each; 3 for \$1.05; 6 for \$2.00; 12 for \$3.90.

8829 Double White The large well-formed flowers are of crystalline texture. 40¢ each; 3 for \$1.05; 6 for \$2.00; 12 for \$3.90.

8830 Double Yellow This is a striking shade of yellow. Large, fully double flowers. 40¢ each; 3 for \$1.05; 6 for \$2.00; 12 for \$3.90.

8833 Double Mixed A complete mixture of all these beautiful colors. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50.

8836 Frilled and Crested, Mixed The flowers are attractively frilled and ruffled on the edges. All colors mixed. 40¢ each; 3 for \$1.05; 6 for \$2.00; 12 for \$3.90.

Begonia, Single Rose

Begonia, Double Scarlet

RANUNCULUS

Ranunculus

8980 French Mixed See illustration. Ranunculus is easily grown and the bulbs should be planted outdoors after all danger of frost has passed. They do best in a loamy soil. Plant the bulbs 8 to 10 inches apart and cover with 2 inches of fine soil. The flowers are fully double and include a wide range of colors. Some of the flowers are attractively striped and variegated. Ranunculus may also be grown in pots or boxes in the house. They should be placed in a cool room as they flower most freely if kept at a temperature around 45 degrees. The flowers measure 2 inches across and they are carried on stems 8 to 12 inches long. 3 for 25¢; 6 for 45¢; 12 for 85¢; 25 for \$1.60; 50 for \$3.10; 100 for \$6.00, postpaid.

All Bulbs will be sent Postpaid except where quoted "By Express"

Montbretias

8963 MIXED See illustration. Montbretias are easily grown and their long graceful flower-stems add much to any garden. They are also highly valued for cut-flowers and can be grown in flower-pots in the house. Montbretia bulbs are quite hardy and should be planted early in the spring, choosing a warm, sunny location. A sandy loam with good drainage, to which has been added some well-rotted stable manure, will give the finest flowers. When the plants come into flower, plenty of water should be given to help the free development of the flower-spikes. Our mixture contains many bright shades of yellow and orange. 15¢ each; 3 for 40¢; 6 for 75¢; 12 for \$1.40; 25 for \$2.75; 50 for \$5.35; 100 for \$10.50; 500 for \$50.00, postpaid.

MONTBRETIA

Anemone 8909 St. Brigid *See illustration.* These beautiful Anemones are much valued for garden display and for cut-flowers. They embrace a remarkable range of fine colors, including pink, rose, purple, lavender, violet, scarlet, crimson, and many intermediate shades, besides pure white. Most of the flowers have a white zone at the base of each petal. St. Brigid Anemones are easily grown and will bloom freely if planted either in the spring or during the fall. They are perfectly hardy and may also be planted in pots or pans for blooming in the house. Cover the bulbs 2 to 3 inches deep with fine soil so that the plants will have 6 inches of space to develop freely. It is necessary to firm the soil around the bulbs in order to get a satisfactory growth. This may be done by treading the soil down firmly over the planting. Anemones do best in a porous, well-drained, moist, and shaded soil. If grown in the house, they should be kept reasonably cool as otherwise they will not flower freely. St. Brigid Anemone grows 6 to 12 inches tall, each flower-stem carrying a large bloom measuring nearly 2 inches in diameter. There are single, semi-double, and double flowers represented in our strain. 3 for 25¢; 6 for 45¢; 12 for 85¢; 25 for \$1.65; 50 for \$3.10; 100 for \$6.00; 500 for \$28.50, postpaid.

THREE FINE CLIMBERS

Grown from Bulbs

8912 Apios Tuberosa (*Tuberous-Rooted Wisteria*) This is a beautiful free-flowering climbing plant, grown from bulbs. If given support, the plants will grow from 6 to 8 feet tall, producing a large number of flower clusters. The color of the fragrant flowers is a purplish brown not unlike the Wisteria. Perfectly hardy and may be left in the ground over winter. Choose a moist, partially shaded place. 15¢ each; 3 for 40¢; 6 for 75¢; 12 for \$1.40; 25 for \$2.75, postpaid.

8922 Cinnamon Vine (*Dioscorea batatas*) This hardy climber is a native of China but is easily grown in all sections of the country. The plants make a vigorous growth from 10 to 15 feet tall. The foliage is a shining rich green. The vines bear a profusion of small white flowers which have a delicate fragrance. Cinnamon Vine does best in a rich, deeply cultivated and porous soil. 3 for 25¢; 6 for 45¢; 12 for 85¢; 25 for \$1.65, postpaid.

8961 Madeira Vine (*Boussingaultia*) A fine perennial climber attaining a height of 15 feet. Blooms during September. The leaves are a bright dark shiny green. The small flowers are white, borne in attractive small spikes. Choose a sunny, airy place which is fairly dry and porous. The bulbs will live over winter outdoors if they are covered securely. 20¢ each; 3 for 55¢; 6 for \$1.00; 12 for \$1.90; 25 for \$3.75, postpaid.

Tritoma

Tritoma

8986 Pfitzeri (*Ever-blooming Red-hot Poker Plant*) Grows from 4 to 6 feet tall. The flowers measure 12 to 15 inches long by 4 inches in diameter. They are a dazzling scarlet, the lower half of the flower being tinged with rich orange. A clump makes a striking show. If the roots are covered during severe winter weather, they will live safely from year to year. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50, postpaid.

8984 Early Perpetual-Flowering Although this superb new type will flower from seed the first year, we have grown at FORDHOOK FARMS a supply of strong roots, anticipating a demand from planters who want strong, free-blooming plants the very first year. Makes a great show. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50; 25 for \$6.90, postpaid.

Delphinium—Hardy Larkspur

All of us know the long and beautiful spikes of the Hardy Larkspur which make such a wonderful display during the summer months and early fall. A planting of Delphinium roots will give a quicker effect than can be had from seed. Allow plenty of room for each plant so that they can develop freely. Plant about four feet apart and just lightly cover the top of the roots with an inch of fine soil. In sections where the winters are severe or where the weather alternates between thawing and freezing, a cover of long straw or straw manure should be placed over the plants to prevent injury by frost.

8931 Belladonna This is one of the best known varieties, with massive spikes set closely with lovely light blue flowers. The spikes grow 4 to 6 feet tall and are produced freely throughout the entire summer. 25¢ each; 3 for 70¢; 6 for \$1.35; 12 for \$2.45; 25 for \$4.75; 50 for \$9.40, postpaid.

8932 Bellamosa This is a lovely counterpart to Belladonna with most attractive dark blue flowers. The long spikes are heavy and massive. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75; 50 for \$9.40, postpaid.

Burpee's Bulbs are sold under the same liberal guarantee as Burpee's Seeds. If you are not satisfied with the results from Burpee's Bulbs, you can have your money back any time within the year

BEARDED IRIS

Loreley

The Bearded or Flag Iris comprises the various classes of Iris Germanica and other species, all being of tall, strong growth and doing well in a fairly dry, well-drained location. They are of easiest culture, blooming freely in any average soil. They are perfectly hardy and present a beautiful sight when in full bloom. The flowers are borne on long, strong stems above the foliage. They make good cut-flowers, lasting a long time in water.

Ten Beautiful Bearded Iris

These collections contain the following fine ten varieties: Alcazar, Caprice, Pallida Dalmatica, El Dorado, Isolene, Jeanne d'Arc, Lohengrin, Monsignor, Parisensis, and Sherwin Wright.

9850—One each.....	(10 roots)	\$2.50
9851—Three each.....	(30 roots)	7.00
9852—Six each.....	(60 roots)	13.00
9853—Twelve each.....	(120 roots)	25.00

8503 Alcazar The standard is a soft bluish violet overlaid with a bright sheen of bronze. The falls are blackish violet marked with white. A very attractive variety with large flowers of substantial texture and borne on long stems. 40¢ each; 3 for \$1.05; 6 for \$1.95; 12 for \$3.75; 50 for \$14.25; 100 for \$28.00.

8505 Caprice A lovely soft rosy red with a somewhat deeper shade in the falls. Grows vigorously and blooms freely. It is an unusual and artistic color. 30¢ each; 3 for 80¢; 6 for \$1.40; 12 for \$2.55; 50 for \$9.75; 100 for \$19.00.

8522 Pallida Dalmatica The king of all Iris, with uniformly large flowers borne on stems 4 feet tall. The standard is an exquisite shade of soft lavender. The falls are clear deep lavender, widely grown because of its showiness. 35¢ each; 3 for 90¢; 6 for \$1.65; 12 for \$3.10; 50 for \$11.75; 100 for \$23.00.

8507 El Dorado A remarkably fine flower. The standard is Heliotrope, shaded yellowish bronze. The falls are bronze overlaid with a metallic blue. The combination of colors is quaint and pleasing. The free-blooming habit has made it a great favorite. 25¢ each; 3 for 65¢; 6 for \$1.20; 12 for \$2.20; 50 for \$8.45; 100 for \$16.50.

8513 Isolene The standard is brownish lavender marked with bronze. The falls are light purple with a sheen of bronze and striped with golden brown at the base. Very beautiful, free-flowering, and hardy. 35¢ each; 3 for 90¢; 6 for \$1.65; 12 for \$3.10; 50 for \$11.75; 100 for \$23.00.

8510 Jeanne D'Arc The ground color of both the standard and falls is pure white and the edges show a delicate penciling of light blue. It is indeed a lovely flower, carried on long and stocky stems. 30¢ each; 3 for 85¢; 6 for \$1.45; 12 for \$2.75; 50 for \$10.25; 100 for \$20.00.

8512 Lohengrin This bright variety is almost a self color, both the standard and falls being a uniform shade of Cattleya-rose. A profuse bloomer of excellent size and substantial texture. The plants grow quickly, are hardy, and produce a wealth of flowers from early in the season until late and therefore very popular. 30¢ each; 3 for 80¢; 6 for \$1.40; 12 for \$2.55; 50 for \$9.75; 100 for \$19.00.

8520 Monsignor The standard is crimson dotted with lavender, the inner petals being ivory-white. The falls are rich crimson edged bright lavender. Lovers of Iris will appreciate the charming color combinations found in this variety. A sturdy grower, free bloomer, and entirely hardy. 30¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 50 for \$9.15; 100 for \$18.00.

8521 Parisensis The fine blue standard harmonizes well with the deeper blue falls. The flowers are large and are borne very early. While the quaint and odd shades are quite popular, this lovely combination of blue shades seems to enjoy still greater favor. It is truly a magnificent flower, and well-grown plants present a mass of color all during the late spring and summer. It is a sturdy and free-blooming variety of outstanding beauty. 30¢ each; 3 for 75¢; 6 for \$1.35; 12 for \$2.50; 50 for \$9.45; 100 for \$18.50.

8530 Sherwin Wright This is a most vigorous-growing variety, of excellent habit, bearing large flowers of a pure golden yellow color. 30¢ each; 3 for 80¢; 6 for \$1.40; 12 for \$2.55; 50 for \$9.75; 100 for \$19.00.

8529 Bearded Iris, Mixed Our mixture of Bearded Iris comprises a wonderful assortment of bright and glorious colors, including the above and many other fine shades. 6 for 40¢; 12 for 70¢; 50 for \$2.60; 100 for \$5.00.

8514 Loreley See illustration. Large flowers with light yellow standard and ultramarine-blue falls. Veined with creamy white and bordered with sulphur-yellow. It is a strong grower and profuse bloomer. 25¢ each; 3 for 60¢; 6 for \$1.10; 12 for \$2.00; 50 for \$7.75; 100 for \$15.00.

8508 Albert Victor Soft blue standard with beautiful lavender falls. A well-formed and large-flowered variety carrying its blooms on long and substantial stems. A profuse bloomer. 25¢ each; 3 for 60¢; 6 for \$1.10; 12 for \$2.00; 50 for \$7.75; 100 for \$15.00.

8501 Beethoven Bright blue standard, deep royal purple falls. The combination of these two shades is charming. A free-blooming Iris with large flowers of substantial texture. 25¢ each; 3 for 60¢; 6 for \$1.10; 12 for \$2.00; 50 for \$7.75; 100 for \$15.00.

8531 Fairy A lovely variety with large flowers carried on fine long stems. White suffused soft blue. 25¢ each; 3 for 60¢; 6 for \$1.10; 12 for \$2.00; 50 for \$7.75.

8511 Florentina Alba Large, perfectly white flowers produced in the greatest profusion from early in the season until late. It is a most desirable flower, of elegant shape. Fragrant; 2 feet tall. 25¢ each; 3 for 55¢; 6 for \$1.00; 12 for \$1.90; 50 for \$7.30; 100 for \$14.00.

8532 Her Majesty The standard is lovely rose-pink and the falls are bright crimson tinged with a deeper shade of crimson. This unusual color combination will appeal to those who want something out of the ordinary. 25¢ each; 3 for 65¢; 6 for \$1.20; 12 for \$2.25; 50 for \$8.60.

8533 Nibelungen The standard is a quaint shade of olive-green and the falls are a combination of yellow, purple, and white. Large flowered and free blooming. 25¢ each; 3 for 60¢; 6 for \$1.15; 12 for \$2.15; 50 for \$8.15.

8524 Queen of the May Beautiful soft rosy lilac. This is almost a pink—a color of great beauty. 25¢ each; 3 for 65¢; 6 for \$1.20; 12 for \$2.20; 50 for \$8.45.

Eight Standard Bearded Iris

Albert Victor, Beethoven, Fairy, Florentina Alba, Her Majesty, Loreley, Nibelungen, Queen of the May

9860—One each.....	(8 roots)	\$1.50
9861—Three each.....	(24 roots)	4.00
9862—Six each.....	(48 roots)	7.50
9863—Twelve each....	(96 roots)	14.00

JAPANESE IRIS

Japanese Iris are entirely hardy and are grown extensively for their truly glorious flowers, which are of refined form and remarkable coloring. The Japanese Iris thrive best in cool moist situations and for that reason are used extensively for planting alongside of ponds and streams. They bloom profusely all during June and July. They are easily grown but develop to perfection if planted in rich soil where the plants will not suffer from want of moisture.

8536 Gei-Sho-I A large-flowered variety with 8 to 10 petals to a flower. It makes a bright showing with its rich purple blooms, with white veins radiating from the yellow center and a small white halo. The standards are white tipped with purple. A showy and free-blooming variety. 50¢ each; 3 for \$1.35; 6 for \$2.60; 12 for \$5.05.

8549 Indo The flowers have broad and wavy petals of great size. The color is a rich dark blue showing slight veins of yellow which adds considerably to the brightness of this strong grower. 50¢ each; 3 for \$1.35; 6 for \$2.60; 12 for \$5.05.

8539 Iso-No-Nami A strong and sturdy grower with three large petals. They are white, attractively veined with bright violet. 50¢ each; 3 for \$1.35; 6 for \$2.60; 12 for \$5.05.

8541 Koko-No-Iro A six-petaled flower of a rich royal purple with a few light veins and a golden yellow center. The white standards are tipped with rich purple. Magnificent flowers borne on long stems. 50¢ each; 3 for \$1.35; 6 for \$2.60; 12 for \$5.05.

8542 Kumo-No-Obi A charming and graceful variety with fine lavender-blue flowers. It is a strong and sturdy grower. 50¢ each; 3 for \$1.35; 6 for \$2.60; 12 for \$5.05.

8548 Seedlings of Japanese Iris We believe this is the finest mixture of Japanese Iris ever offered. It contains all the named varieties listed and some very fine seedlings of unusual coloring. 3 for 40¢; 6 for 75¢; 12 for \$1.40; 25 for \$2.75; 50 for \$5.35; 100 for \$10.50.

Japanese Iris are admirably adapted for planting along streams or ponds

Collections of Japanese Iris

These collections contain the five named varieties of beautiful free-blooming hardy Japanese Iris described above. They will be mailed postpaid.

- 9854—One each. (5 roots), \$1.90
- 9855—Three each. (15 roots), 5.25
- 9856—Six each. (30 roots), 10.00

Siberian Iris The Siberian Iris make compact plants with dark green leaves which are 1 to 2 feet long. The flower-stems are slender and very graceful. They are fine for cutting.

8551 Blue King Clear blue flowers. Borne in great abundance. 20¢ each; 3 for 55¢; 6 for \$1.00; 12 for \$1.90; 25 for \$3.75; 50 for \$7.35.

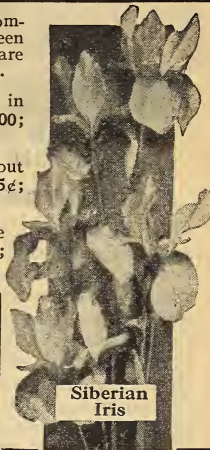

8555 Purple Rich purple flowers which stand out sharply from the bright green leaves. 20¢ each; 3 for 55¢; 6 for \$1.00; 12 for \$1.90; 25 for \$3.75; 50 for \$7.35.

8559 Snow Queen Pure snow-white flowers, borne on slender stems. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.50; 25 for \$4.90; 50 for \$9.65.

Collections of Siberian Iris

These collections contain the three varieties described: **Blue King, Purple, and Snow Queen.**

- 9857—One each. (3 roots), \$0.50
- 9858—Three each. (9 roots), 1.35
- 9859—Six each. (18 roots), 2.50

Siberian Iris

Fairy Lilies (Zephyranthes) These are easily grown, producing beautiful Lily-like flowers plentifully all summer long. The best way is to plant several bulbs in a box or flower-pot, as they can then be taken into the cellar during winter. They can also be planted in the open ground in the spring and lifted in the fall.

8926 Rose The large flowers are star-shaped, and of a rose-pink shade. 18¢ each; 3 for 50¢; 6 for 90¢; 12 for \$1.70; 25 for \$3.25.

8928 White (Candida) Pure white, Lily-like flowers. The blooms measure 2 inches across. 15¢ each; 3 for 40¢; 6 for 75¢; 12 for \$1.40; 25 for \$2.75.

Bulbs Shipped Separately from Seed

Due to the different packing required for Bulbs to reach our customers in first-class condition, we are sending the bulbs separately from the seed, directly from our Bulb Department.

Long-Spurred Hybrids

AQUILEGIA

Aquilegia

8900 Long Spurred Hybrids (Columbine) See illustration.

This is one of the loveliest early spring-flowering perennials in existence. The plants send forth, early in the spring, a large number of delicate but strong flower-spikes which carry the quaintly artistic flowers. The colors of our hybrids are particularly noteworthy. Many are self colored in pink and light blue, but others again combine blue with white, rose, pink, and red. Others combine yellow shades with contrasting pink and blue tints.

The plants make a fine display in the garden and make lovely cut flowers. Aquilegia is easily grown and does best in a sandy loam-soil either in the full sun or in a semi-shaded location. 30¢ each; 3 for 85¢; 6 for \$1.60; 12 for \$3.05; 25 for \$6.00; 50 for \$11.90.

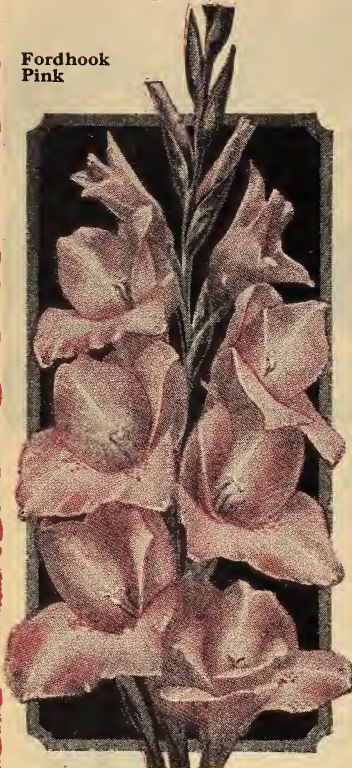

GLADFLOWERS

Registered U. S. Patent Office

Burpee's Improved Gladioli

Every flower-garden, however small, should contain some Gladflowers. They make attractive displays, either planted in masses or set in bunches of three or four amid beds of annuals and perennials. As cut-flowers they last remarkably long in water and develop perfect flowers from every bud on the spike. Plant the bulbs after the trees are out in leaf and the nights have become fairly warm.

Fordhook
Pink

8310

Fordhook Pink

Fordhook Pink is an extremely early bloomer of sturdy habit, producing its flowers on stiff stems which are always strong and erect. The flowers are a most pleasing shade of clear pink, shading softer in the throat, where we find a small creamy blotch. It is, however, almost a self-color throughout. The flowers are of great substance, averaging $4\frac{1}{4}$ inches in diameter, and last well when cut.

Fordhook Pink is distinct and outstanding from all others in this class. It is difficult to adequately describe its extreme beauty. The flowers have a sparkling and glistening luster that immediately attracts attention. The blooms are well placed and open widely, reflexing very slightly as they age. 25¢ each; 3 for 65¢; 6 for \$1.25; 12 for \$2.40, postpaid.

8303 America A well-known standard variety with beautiful lavender-pink flowers. The blooms are of largest size, closely set on a strong substantial stem 2 to 3 feet long. America is widely grown for garden display and cutting because of its showiness. 3 for 25¢; 6 for 45¢; 12 for 85¢; 25 for \$1.60; 50 for \$3.10; 100 for \$6.00.

8300 Anna Eberius A comparatively new variety which we feel sure will become very popular as soon as it is better known. The well-shaped, expanded blooms are a rich deep velvety purple, and the throat shows an even deeper shade of color. Free blooming, with long, massive spikes. 3 for 40¢; 6 for 75¢; 12 for \$1.40; 25 for \$2.75; 50 for \$5.35; 100 for \$10.50.

8307 Baron Hulot The flowers are of good size and closely set on a strong spike. This is perhaps the best of all dark blue shades. The rich dark violet color of the flower makes up for the slightly smaller size of this variety. It is a good grower and free bloomer. 3 for 45¢; 6 for 80¢; 12 for \$1.55; 25 for \$3.00; 50 for \$5.85; 100 for \$11.50.

8308 Bluebird This has impressed us as one of the best mid-blues we have ever seen. The flowers are of large size, well expanded, and of massive appearance. They are closely set on a long substantial spike. 3 for 40¢; 6 for 75¢; 12 for \$1.40; 25 for \$2.75; 50 for \$5.35; 100 for \$10.50.

8371 Crimson Gem (Burpee's) This fine Burpee introduction has deep crimson flowers showing a bright orange suffusion. The throat is marked with yellow and attractively feathered and splashed on the three lower petals. An outstanding variety which we feel sure will become popular for garden display and cutting. It is one of the most showy of all Gladflowers. Each 35¢; 3 for \$1.00; 6 for \$1.90; 12 for \$3.65.

8302 E. J. Shaylor This is an extra-large flower of a pure deep rose-pink shade. Its massive appearance is enhanced by the lovely, ruffled edges of the petals. A strong grower which is in great demand as a cut-flower because it makes long heavy spikes. 3 for 40¢; 6 for 75¢; 12 for \$1.40; 25 for \$2.75; 50 for \$5.35; 100 for \$10.50.

8309 Evelyn Kirtland An outstanding variety of luminous coral-pink shaded with deep pink on the lower petals. The strong spikes carry a solid mass of these large, substantial flowers. It is an appealing color combined with a strong and excellent habit of growth. 3 for 30¢; 6 for 55¢; 12 for \$1.05; 25 for \$2.00; 50 for \$3.95; 100 for \$7.75.

8315 Flora This magnificent tall grower carries large flowers of a clear light yellow color. It is a shade which will add to any collection of Gladflowers and is useful either for garden decoration or for cutting. 3 for 35¢; 6 for 65¢; 12 for \$1.25; 25 for \$2.45; 50 for \$4.85; 100 for \$9.50.

8306 Cowee's Scarlet This variety has quickly gained great popularity and it is one of the most brilliant shades we have ever seen in Gladflowers. The color is a most intense flaming scarlet-red which goes well with the massive, substantial flowers. It is a strong grower and profuse bloomer. Each 60¢; 3 for \$1.60; 6 for \$3.05; 12 for \$6.00.

8333 Europa We have added this fine Gladflower to our list because of its exceptional qualities. The blooms are pure white and are therefore much in demand for cut-flowers. The spikes are strong and sturdy, carrying large flowers closely set together. There's always a strong demand for good white Gladflowers. Each 20¢; 3 for 55¢; 6 for \$1.05; 12 for \$2.00.

8317 Golden Measure Tall and robust in growth, quite often producing two full-size flower-stems from a single bulb. The color of the blooms is a bright rich golden yellow which combines well with the red and pink varieties. Each 20¢; 3 for 55¢; 6 for \$1.00; 12 for \$1.90.

8329 Mrs. F. C. Peters A beautiful shade of rosy lilac with a contrasting crimson blotch in the throat and bordered with white on the lower petals. The combination of colors is not unlike an Orchid. Of large size, with fully expanded flowers all along a strong sturdy stem. Each 45¢; 3 for \$1.20; 6 for \$2.30; 12 for \$4.50.

8343 Purple Glory The large spikes carry enormous flowers of a deep purplish maroon shade. When seen under certain conditions of light, the flowers appear almost black. The edges of the petals are beautifully ruffled, adding greatly to the artistic appearance of the long, sturdy spikes. Each 45¢; 3 for \$1.20; 6 for \$2.30; 12 for \$4.50.

Six Outstanding Gladflowers

These collections contain the following six varieties described on this page: Cowee's Scarlet, Europa, Fordhook Pink, Golden Measure, Mrs. F. C. Peters, and Purple Glory. They will be mailed, postpaid.

9836	One each (6 bulbs)	\$1.75
9837	Three each (18 bulbs)	4.50
9838	Six each (36 bulbs)	8.50

Burpee's Fordhook Hybrid Gladflowers

8368 Burpee's Fordhook Hybrids are truly the finest Gladflowers any one could secure anywhere. They include almost every shade of creamy white, pink, salmon-pink, blush, rose, lavender-pink, bright red, scarlet, and crimson. Many of the flowers are self-colored; others have large or small blotches of contrasting colors in the throat. Again others are delicately marked or penciled in the throat. 3 for 25¢; 6 for 45¢; 12 for 80¢; 25 for \$1.50; 50 for \$2.75; 100 for \$5.00, postpaid. By express, 100 for \$4.50; 1000 for \$42.00; 3000 for \$115.00.

Halley

8377 Fordhook Mauve A most attractive tone of bright light mauve shading to white in the throat. It is a large, substantial flower, well rounded and of strong texture. Makes a sturdy growth and furnishes long, strong spikes set closely with fine blooms. An excellent cut-flower. 25¢ each; 3 for 65¢; 6 for \$1.25; 12 for \$2.40.

8379 Fordhook Rose This is another outstanding Burpee introduction with large flowers of a beautiful carmine-rose shade suffused with mauve and feathered and flaked in the throat. Grows freely, blooms profusely, and is excellent for garden display or cutting. 35¢ each; 3 for \$1.00; 6 for \$1.90; 12 for \$3.65.

8381 Fordhook Scarlet Fordhook Scarlet is outstanding in many ways. It is a bright orange-scarlet color with a contrasting yellow throat and a small carmine blotch on the lower petals. The flower-spikes are large and substantial, with the blooms set closely together. 25¢ each; 3 for 65¢; 6 for \$1.25; 12 for \$2.40.

8320 Kunderdi Glory A well-known variety among Gladflower lovers because of the attractive ruffling and fluting of the flower-petals. The color is an exquisite shade of cream-pink with a neat crimson stripe in the center. Makes a massive spike. 3 for 40¢; 6 for 75¢; 12 for \$1.40; 25 for \$2.75; 50 for \$5.35; 100 for \$10.50.

Burpee's New Primulinus Hybrids

The blooms are distinct in their pleasing form and arrangement. Although the individual flowers are not large, they carry an air of grace altogether different from the stiff effect of other types.

8391 Adorable Beautiful white flowers with a delicate flush of pink in the lower petals. 3 for 35¢; 6 for 65¢; 12 for \$1.25; 25 for \$2.45; 50 for \$4.85; 100 for \$9.50.

8394 Alice Tiplady This beautiful variety is very large and of a striking orange-yellow color. It has been a great prize winner wherever exhibited. 3 for 40¢; 6 for 75¢; 12 for \$1.40; 25 for \$2.75; 50 for \$5.35; 100 for \$10.50.

8390 Fire Queen Orange-vermilion with yellow in the throat. 3 for 35¢; 6 for 65¢; 12 for \$1.25; 25 for \$2.45; 50 for \$4.85; 100 for \$9.50.

8395 Orange Beauty A brilliant orange of startling richness. The showy flowers are carried on long stems. 3 for 35¢; 6 for 65¢; 12 for \$1.25; 25 for \$2.45; 50 for \$4.85; 100 for \$9.50.

8393 Maiden's Blush Well-shaped flowers of a beautiful shell-pink. A free and continuous bloomer. 3 for 35¢; 6 for 65¢; 12 for \$1.25; 25 for \$2.45; 50 for \$4.85; 100 for \$9.50.

8397 Souvenir An outstanding rich golden-yellow of artistic habit. One of the best of the Primulinus type. 3 for 45¢; 6 for 80¢; 12 for \$1.55; 25 for \$3.00; 50 for \$5.85; 100 for \$11.00.

8399 Primulinus Hybrids, Mixed All the above fine colors. 3 for 18¢; 6 for 30¢; 12 for 55¢; 25 for \$1.00; 50 for \$1.90; 100 for \$3.75.

9835 Primulinus Collection

This collection contains 3 bulbs each of the six fine named Primulinus Hybrids (value \$1.75 \$2.25). Mailed to your door, for **\$1.75**

8314 Halley See illustration. This is one of the earliest Gladflowers. It is a magnificent, sturdy grower with long strong spikes solidly set with well-expanded flowers of a pure rose shade with a white blotch in the center. 3 for 25¢; 6 for 45¢; 12 for 85¢; 25 for \$1.60; 50 for \$3.10; 100 for \$6.00.

8322 Le Marechal Foch An early-flowering, strong-growing variety with deep rose-pink flowers. The flower-spikes are heavy, carrying the solid mass of bold, substantial blooms. An excellent variety for garden display and cut-flowers. 3 for 35¢; 6 for 65¢; 12 for \$1.25; 25 for \$2.45; 50 for \$4.85; 100 for \$9.50.

8384 Lemon Beauty (Burpee's) This Burpee variety is a charming shade of cream flushed with mauve. The combination of colors is quaint and artistic. Lemon Beauty is a sturdy grower of medium height showing some carmine feathering in the wide-open throat. It is a most favorite delicate shade. 35¢ each; 3 for \$1.00; 6 for \$1.90; 12 for \$3.65.

8372 Loveliness (Burpee's) A well-known Gladflower with lovely salmon-pink flowers having a touch of yellow in the throat. The lower petals show an attractive penciled design in the throat. Strong growing and very showy. 35¢ each; 3 for \$1.00; 6 for \$1.90; 12 for \$3.65.

8324 Mrs. Dr. Norton A charming variety with large flowers which are nearly white with a faint suffusion of soft pink. The lower petals are flushed a sulphur-yellow and attractively dotted with pink. 3 for 35¢; 6 for 65¢; 12 for \$1.25; 25 for \$2.45; 50 for \$4.85; 100 for \$9.50.

8325 Mrs. Francis King This well-known variety produces magnificent flowers of a pleasing light scarlet color. The long artistic spikes make a wonderful show whether used in the garden or in the house as cut-flowers. 3 for 25¢; 6 for 45¢; 12 for 85¢; 25 for \$1.60; 50 for \$3.10; 100 for \$6.00.

8327 Mrs. Frank Pendleton, Jr. A lovely salmon-pink showing contrasting bright red blotches in the throat. This is one of the most beautiful of all Gladflowers and enjoys great popularity everywhere. The blooms are large, exquisitely shaped, and set closely on long stems. 3 for 30¢; 6 for 55¢; 12 for \$1.05; 25 for \$2.00; 50 for \$3.95; 100 for \$7.75.

8336 Niagara A delightful cream shade blending to canary-yellow on the lower petals. This is a flower much in demand for cutting because of its pleasing shade and strong, sturdy stems. 3 for 35¢; 6 for 65¢; 12 for \$1.25; 25 for \$2.45; 50 for \$4.85; 100 for \$9.50.

8340 Prince of Wales A large, tall growing variety with heavy blooms of bright coral-pink. The massive spikes are particularly handsome and artistic. 3 for 30¢; 6 for 55¢; 12 for \$1.05; 25 for \$2.00; 50 for \$3.95; 100 for \$7.75.

Burpee's Gladflowers

8341 Princepine Rich carmine-red flowers with deeper shadings in the throat and a white blotch on the lower petals. Well-shaped blooms carried on strong, heavy spikes. Princepine is an excellent and well-known cut-flower which makes a bright, showy bunch. 3 for 30¢; 6 for 55¢; 12 for \$1.05; 25 for \$2.00; 50 for \$3.95; 100 for \$7.75.

8385 Rajah A Burpee variety with large flowers borne on strong stems. The color is a quaint rosy mauve with deeper blotches on the three lower petals. Rich and outstanding in every way. A strong sturdy spike set with large blooms. 25¢ each; 3 for 65¢; 6 for \$1.25; 12 for \$2.40.

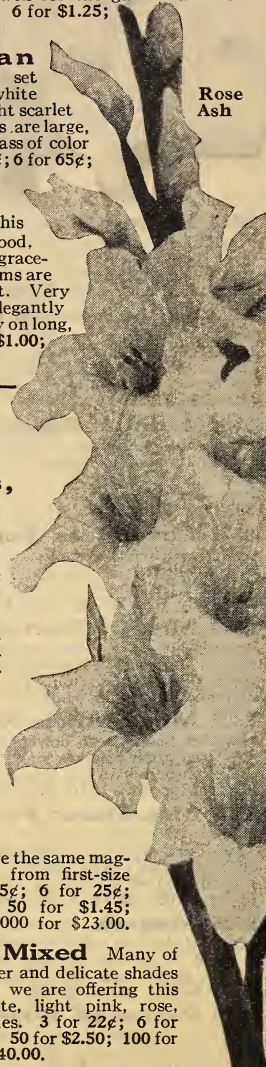

8344 Rose Ash See illustration. This has been named Rose Ash because of its quaint color. The blooms are a soft light rose suffused with an elusive combination of gray, blue and yellow, combining into an iridescent gray. The magnificent, tall spikes carry the large flowers gracefully placed, with many of them open at one time. 20¢ each; 3 for 55¢; 6 for \$1.05; 12 for \$2.00.

8386 Rose Marie A Burpee introduction with rose-pink blooms attractively suffused with bright salmon and streaked with white, running into a primrose throat. The combination is odd and artistic. The flowers are large, well-formed, and borne on massive spikes. It is a showy variety of strong, stocky habit, suited well for the garden and for cutting. 25¢ each; 3 for 65¢; 6 for \$1.25; 12 for \$2.40.

8349 Willy Wigman Heavy, compact flower-spikes set closely with large, creamy white blooms. Each flower has a bright scarlet blotch in the throat. The blooms are large, well rounded, and form a solid mass of color on a substantial spike. 3 for 35¢; 6 for 65¢; 12 for \$1.25; 25 for \$2.45; 50 for \$4.85; 100 for \$9.50.

8387 Woodpecker This variety contains Primulinus blood, and the flowers show clearly the graceful habit of this type. The blooms are deep mauve with a yellow throat. Very distinct and outstanding. Elegantly shaped flowers carried artistically on long, wiry stems. 35¢ each; 3 for \$1.00; 6 for \$1.90; 12 for \$3.65.

Rose Ash

Gladflower Mixtures

8360 Gladflowers, Mixed First size bulbs.

This mixture is composed of a well-balanced assortment of the leading colors found in the Gladioli. It includes the varieties offered and others which deserve a place in a complete mixture. 3 for 18¢; 6 for 35¢; 12 for 60¢; 25 for \$1.10; 50 for \$2.10; 100 for \$3.75. By express, 1000 for \$28.00.

8361 Gladflowers, Mixed Second size bulbs.

The colors and varieties in this mixture are the same as the above but the bulbs are slightly smaller in size. Planted early the bulbs are sure to bloom the first season and the flower-spikes are the same magnificent size as those grown from first-size bulbs offered above. 3 for 15¢; 6 for 25¢; 12 for 40¢; 25 for 75¢; 50 for \$1.45; 100 for \$2.75. By express, 1000 for \$23.00.

8364 Light Shades, Mixed Many of our customers prefer the lighter and delicate shades of Gladflowers and for those we are offering this mixture, which contains white, light pink, rose, lavender and other light shades. 3 for 22¢; 6 for 40¢; 12 for 70¢; 25 for \$1.30; 50 for \$2.50; 100 for \$4.75. By express, 1000 for \$40.00.

Six of the Best Gladflowers

These varieties are illustrated in color on the opposite page

8345 Schwaben

This is the beautiful yellow variety shown at the left of the picture. The flowers are a delicate yellow with a distinct crimson blotch on each of the three lower petals. A free bloomer, with elegant, large flowers on a strong stem. 3 for 35¢; 6 for 65¢; 12 for \$1.25; 25 for \$2.45; 50 for \$4.85; 100 for \$9.50.

8347 War

Note the beautiful deep red color of War shown beside the yellow variety Schwaben. War is a leader in color as well as in stately, graceful, and free-blooming character. 3 for 35¢; 6 for 65¢; 12 for \$1.25; 25 for \$2.45; 50 for \$4.85; 100 for \$9.50.

8337 Panama

This is shown between the deep red and the white varieties. It is a bright pink with large flowers of heavy texture. A profuse bloomer, excellent for the garden or cutting. 3 for 30¢; 6 for 55¢; 12 for \$1.05; 25 for \$2.00; 50 for \$3.95; 100 for \$7.75.

8339 Peace

The beautiful white flowers of Peace add greatly to the color combination of the six varieties pictured on the opposite page. The throat shows a touch of faint yellow and some attractive lilac penciling. 3 for 30¢; 6 for 55¢; 12 for \$1.05; 25 for \$2.00; 50 for \$3.95; 100 for \$7.75.

8321 Herada

Herada appears next to Peace in the illustration. It is a fine strong spike closely set with blooms of a clear mauve color. A very lovely flower. 3 for 35¢; 6 for 65¢; 12 for \$1.25; 25 for \$2.45; 50 for \$4.85; 100 for \$9.50.

8313 Gretchen Zang

The picture does not fully convey the beauty of this outstanding variety. It is the flower shown at the right. The blooms are rich bright pink blending into bright scarlet in the throat. An artistic, gracefully arranged flower borne on long stems. 3 for 35¢; 6 for 65¢; 12 for \$1.25; 25 for \$2.45; 50 for \$4.85; 100 for \$9.50.

Collections of Six of the Best Gladflowers

These collections contain the six free-blooming showy Gladflowers pictured on the opposite page and described above.

9832 Three each of the 6 varieties (18 bulbs), value \$2.00, postpaid, for **\$1.50**

9833 Six each of the six varieties (36 bulbs), value \$3.70, postpaid, for **\$2.75**

9834 Twelve each of the six fine varieties (72 bulbs), value \$7.10, postpaid, for **\$5.00**

Burpee's Gladflowers

IMPROVED GLADIOLI
GROWN BY BURPEE

Burpee's Cannas

Olympic

Yellow King Humbert

Eureka

Rosea Gigantea

Gladiator

Fiery Cross

Burpee's CANNAS

8417 Olympic

This is a very showy, strong-growing variety. The plants attain a height of 4½ feet. The flowers are not only large, but form massive heads which stand out sharply from the rich dark green foliage. The color of the flowers is best described as **rich oriental red** shading lighter toward the center of the petals, and showing carmine markings in the throat. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75, postpaid.

8456 Rosea Gigantea

A Canna which is widely known because of its many good features. It is the largest pink Canna in existence, with tremendous flower-heads composed of large-petaled, substantial blooms. The color is a **rich rose-pink** shading to rich carmine-pink, contrasting well with the bright green leaves. Rosea Gigantea is a free and continuous bloomer, growing about 3½ feet tall. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75, postpaid.

8426 Gladiator

Gladiator is justly a very popular variety with all Canna lovers. It makes a wonderful bright showing, whether planted in large beds or sunny borders. Individual plants set among annuals or perennials add greatly to their bright effect. Gladiator is a flower of immense size and showy color. The substantial blooms are **rich yellow**, attractively marked with **bright crimson**. The plants grow 4½ feet tall. 30¢ each; 3 for 85¢; 6 for \$1.60; 12 for \$3.05; 25 for \$6.00.

8410 Burpee's Fiery Cross

The most gorgeous red Canna ever offered. When we introduced this variety in 1918 we could think of no better name than Fiery Cross, because of its flaming color. It is most outstanding—a **vivid scarlet** shading to crimson. Whether seen in bright sunlight or in the shade, its rich bright color will always attract attention. The flower-heads are 15 to 18 inches in length and carry from 15 to 20 open blooms. The substance of the petals is strong, so that the flowers will not wilt even in the brightest sun. Height, 5 to 6 feet. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50; 25 for \$6.90.

Collections of Six Excellent Cannas

Cannas are easily grown and are among our most showy plants. They thrive under almost any conditions and will grow into stately, attractive plants without much care. To grow the best Cannas, spade the soil deeply and make it very rich. Plant the tubers about 1½ feet apart and cover with four inches of fine soil.

The six varieties offered in these collections and **illustrated on the opposite page** will come into bloom during mid-season and make a showy display continuously until killed by frost.

9844 One root each of the six free-blooming Cannas (value \$1.70), postpaid, for... **\$1.35**

9845 Three roots each of the six beautiful varieties (value \$4.75) mailed for... **\$3.50**

9846 Six roots each of the six beautiful varieties (value \$8.90) delivered, prepaid, for **\$6.00**

8421 Eureka

Eureka is a beautiful **creamy white** Canna with large bold flowers borne on plants 4½ feet tall. The individual petals are heavy and substantial. It is a strong and sturdy variety, with rich green foliage. 30¢ each; 3 for 85¢; 6 for \$1.60; 12 for \$3.05; 25 for \$6.00, postpaid.

8437 Yellow King Humbert

A popular and well-known variety because of the showy effect it will give in the garden. The flowers are bright yellow marked with contrasting crimson dots. A free and continuous bloomer. Grows 4½ feet tall. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75, postpaid.

Canna
Eureka

Rose and Pink—Green Foliage

Hungaria

8447 Hungaria An extra-large flower-truss of heavy substance, borne on a substantial stem. The color is a magnificent rose-pink. The plants grow 3 to 3½ feet tall and are used extensively for planting in the foreground. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75.

8444 City of Portland This is an excellent Canna. The color is a glowing shade of pink. The plants make a sturdy upright growth. Height, 3½ feet. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75.

Bronze and Dark-Leaved

Dr. E. Ackerknecht

8473 Dr. E. Ackerknecht This beautiful Canna is a light carmine, suffused with deep carmine. A free bloomer with bronze foliage. Height, 4 feet. 30¢ each; 3 for 85¢; 6 for \$1.60; 12 for \$3.05; 25 for \$6.00.

8478 King Humbert The large, heart-shaped leaves are purple-madder-brown over bronze. The Orchid-like flowers are a bright orange-scarlet tinted rose. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75.

8486 Wyoming Rich orange-colored blossoms; purple-bronze foliage. A most remarkable Canna. 20¢ each; 3 for 55¢; 6 for \$1.00; 12 for \$1.90; 25 for \$3.75.

8480 Nokomis The color of the blooms is a vivid crimson with a rich silky sheen. Height, 5 feet. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75.

Shades of Red—Green Foliage

8405 Dragon A remarkably rich color, best described as deep ox-blood. A free-blooming variety, with large massive blooms. Height, 3 feet. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75.

8419 Wintzer's Colossal The color is a striking vivid scarlet that retains its brilliancy over a long period. Height, 5 feet. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75.

8464 Gladioflora This is a bright variety, with bold and well-shaped blooms on massive and heavy stems. A rich bright crimson changing to carmine-rose edged with a distinct border of gold. Very striking. Height, 3 feet. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75.

Meteor

8415 Meteor This is truly a beautiful Canna. The habit of the plant is strong and vigorous, growing 5 feet tall. The blooms are borne in the greatest profusion and the flower-trusses are of enormous size. They are massive and carried erectly on a fine strong stem. The color is a rich blood-red. Meteor is a magnificent, showy, and free blooming variety. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75.

Yellow and Orange—Green Foliage

8433 Orange Bedder Particularly attractive bright orange, with just enough scarlet suffusion to intensify the whole to a dazzling mass. Height, 4 feet. 20¢ each; 3 for 55¢; 6 for \$1.00; 12 for \$1.90; 25 for \$3.75.

8425 Cheerfulness This is a most attractive variety, with deep orange flowers having a golden border and carmine markings in the throat. A strong grower and most profuse bloomer. Height, 3½ feet. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75.

8428 Golden Gate The blooms are borne in the greatest profusion and the flower-trusses are of enormous size. The buds open as pure gold and as the flowers expand they become richly rayed with orange-crimson; 4 feet tall. 20¢ each; 3 for 55¢; 6 for \$1.00; 12 for \$1.90; 25 for \$3.75.

Variegated—Green Foliage

8462 Gaiety Scarlet-orange mottled with carmine and edged with clear yellow. Valued for the center of Canna beds because of its height and showy color. Height, 5 feet. 30¢ each; 3 for 85¢; 6 for \$1.60; 12 for \$3.05; 25 for \$6.00.

8469 Souv. de Antoine Crozy A rich red with a broad border of yellow. The color contrast is most distinct and striking. Height, 3 feet. 20¢ each; 3 for 55¢; 6 for \$1.00; 12 for \$1.90; 25 for \$3.75.

8495 Fordhook Trial Ground Mixture A mixture of all the varieties offered by us. 14¢ each; 3 for 37¢; 6 for 70¢; 12 for \$1.30; 25 for \$2.50.

W. Atlee Burpee Co. Philadelphia

Gloxinias

These showy plants are easily grown in pots for summer or winter blooming. They make a glorious display and bloom for a long time. Plant the bulbs in small individual pots. The soil best suited should contain plenty of leafmold, some sand, and well-rotted manure. Place the pots in a warm window and keep moderately moist but do not water in excess. When the roots become crowded in the first pot, the plants should be transplanted into larger ones. Protect against direct strong sunlight. Just before the plants come into bloom an application of very weak liquid manure is of great benefit.

The plants may be grown for many years if, after flowering, the stems are carefully cut off close to the base, and during winter time the plants are watered very sparingly. The plant is a native of Brazil and makes well-rounded bushes about 10 inches tall.

Depending on the time of planting the bulbs may be had in bloom any month of the year.

8855 Pure White This is a very beautiful variety, with large trumpet-shaped flowers. The blooms are borne on strong stems but held above the foliage. Each flower-stem carries as many as 6 blooms. The rich green foliage has a velvety texture. 50¢ each; 3 for \$1.40; 6 for \$2.70; 12 for \$5.25, postpaid.

Gloxinia

8860 Red Here is a color which is very much valued for either winter or summer blooming. It is a rich intense red of great vivacity. The flowers are large and well formed. The texture of the flowers is soft velvety.

It is a free-blooming variety which will make an excellent show as a pot-plant, no matter what season of the year. 50¢ each; 3 for \$1.40; 6 for \$2.70; 12 for \$5.25, postpaid.

8864 Lilac It is a beautiful soft lilac color with a velvety sheen. Lilac is a strong grower and profuse bloomer. The flowers are carried on substantial stems above the foliage. 50¢ each; 3 for \$1.40; 6 for \$2.70; 12 for \$5.25, postpaid.

8866 Purple This color is decidedly darker than any of the others which we are offering. The contrasting richness and depth of the color usually draw the greatest admiration. The velvety finish of the flowers also adds to their beauty. 50¢ each; 3 for \$1.40; 6 for \$2.70; 12 for \$5.25, postpaid.

8875 Mixed We have included in this mixture a large number of colors. Some of the bulbs will produce white flowers which are attractively dotted with pink or red. Again, others are white with a broad edge of delicate pink. Some are rich purple with a broad white seam. 45¢ each; 3 for \$1.20; 6 for \$2.30; 12 for \$4.50; 25 for \$8.90, postpaid.

Calla

8919 Ethiopica This is the ever-popular and well-known White Calla. Easy of culture, its wonderfully beautiful pure white blossoms are very pretty as pot-plants or for cut-

Calla Ethiopica

flowers. Suitable for outdoor culture in warm sections only. This variety is also known as Lily of the Nile. 35¢ each; 3 for \$1.00; 6 for \$1.90; 12 for \$3.70; 25 for \$7.25, postpaid.

Elliottiana 8918 (Yellow Calla) Beautiful pure golden yellow flowers, 4

to 5 inches broad. The leaves are attractively marked with white spots. Easily grown. 35¢ each; 3 for \$1.00; 6 for \$1.90; 12 for \$3.70; 25 for \$7.25, postpaid.

8924 Evening Star (*Coopeia pedunculata*) This is a tender plant, looking somewhat like the Fairy Lily, but begins to open in the evening, remaining open until the petals fall. The flowers have a delicate fragrance and measure about 2 inches across. They are waxy white tinged with red on the outside; easily grown and very showy. Blooms from June until September. Fine for the garden or pots. 10¢ each; 3 for 27¢; 6 for 50¢; 12 for 95¢, postpaid.

All Bulbs Will Be Sent Postpaid except where quoted "by express." Bulbs are very easily grown and give a quick display with only little care. We are sure you will be satisfied with the results from Burpee's Quality Bulbs

Funkia (True Day Lily) 8930

Subcordata See illustration.

The beautiful flowers are large and pure white. The plants are perfectly hardy and well suited for borders. The blooms are very fragrant; makes an excellent bed or border in semi-shaded places. 30¢ each; 3 for 85¢; 6 for \$1.60; 12 for \$3.05; 25 for \$6.00, postpaid.

8933 Undulata Variegata (Variegated Day Lily) Attractive green leaves with a fine white border. Light lilac flowers during August; 2 feet tall. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75, postpaid.

Funkia subcordata

Oxalis

Oxalis is desirable for borders, pot culture, and hanging baskets. The plants are of dwarf, compact growth and bloom profusely from June until frost. Plant the bulbs in May after all danger of frost has passed and lift again before severe frost enters the soil in the fall.

8970 Deppei Pure white flowers. Bright green leaves with a purple band.

8975 Shamrock (Deppei Rosea) The flowers are bright rose; the leaves are attractive rich green.

8972 Lasiandra

Rosy crimson flowers in crowded umbels. The leaves are composed of from 5 to 10 oblong leaflets and look very ornamental. Any of the above: 6 for 15¢; 12 for 25¢; 25 for 45¢; 50 for 85¢; 100 for \$1.60, postpaid.

OXALIS SHAMROCK

Lilies

Lilies are of the easiest culture, and the varieties listed below are all perfectly hardy. After once being planted, they will increase in beauty and size with each succeeding year. Lilies do best on a well-drained sandy soil, which should be fairly rich, and the plants should be given plenty of water during periods of drought. In order to grow Lilies to large size the bulbs should be planted deeply.

8619 Golden Banded Lily of Japan

(Auratum) This is also known as the Golden-Rayed and the Queen of Lilies. It is a magnificent variety, growing 3 to 6 feet tall. Each stem carries from 2 to 15 flowers. The individual blooms measure 6 to 10 inches in diameter. They are deliciously fragrant. The petals are pure white, attractively spotted with bright crimson, and a yellow band running along the midrib. Quite hardy and lasting many years, blooming during July and August. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50, postpaid.

8631 Royal Lily *(Regale)* This is one of the most beautiful of all Lilies, combining hardiness with unusual tints in the flowers. The blooms are borne in clusters and measure 4 to 6 inches in length. They are almost as broad and have a sweet fragrance. The inside of the flowers is a bright canary-yellow in the throat, shading to blush-white toward the edges. Quite often there is a pink suffusion throughout the bloom. The outside is white, tinged with yellow at the base, and has a purple midrib. Blooms profusely during July and early August. 70¢ each; 3 for \$1.95; 6 for \$3.75; 12 for \$7.40, postpaid.

8634 Show Lily *(Speciosum rubrum)* An attractive variety, growing 2 to 4 feet in height. The large flowers are white, suffused rose-pink in the center, and spotted blood-red with a green stripe at the base. Blooms during late August and September. As easily grown as the Crimson Show Lily. Of strong growth, free blooming, and persisting almost indefinitely where conditions are favorable. 30¢ each; 3 for 85¢; 6 for \$1.60; 12 for \$3.05, postpaid.

8638 Swamp Lily *(Superbum)* A native of America, bearing as many as 40 flowers in a cluster. The color is a brilliant orange-scarlet, shaded yellow and spotted purplish brown at the base. A most magnificent and showy variety, which prefers moist soil. Blooms from late July to early September. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45, postpaid.

8644 Turk's Cap Lily *(Batemannia)* A Japanese variety, with fine large flowers borne in clusters composed of as many as 12 flowers. They are pale orange-red or apricot, sometimes tinged with pink. It is an excellent garden variety for beds or for borders. Blooms during late July and August. 50¢ each; 3 for \$1.35; 6 for \$2.65; 12 for \$5.20, postpaid.

8653 Yellow Japanese Lily *(Hansonii)* Also known as Golden Turk's Cap Lily and as Japanese Turk's Cap Lily. Stately plants from 3 to 5 feet tall with large clusters of blooms. Of a bright golden-yellow color, spotted with purplish brown. The anthers are orange-red. Blooms during June and early July. 75¢ each; 3 for \$2.05; 6 for \$3.95; 12 for \$7.80, postpaid.

8603 Canadian Lily *(Canadense)* This fine lily is known under the names Meadow Lily and Wild Yellow Lily. The bright orange-yellow flowers are spotted with purplish black and bloom profusely during late June and July. The anthers are rich red. The blooms are borne in clusters, each flower measuring 2 to 3 inches in length. Of graceful habit and easily grown. 30¢ each; 3 for 85¢; 6 for \$1.60; 12 for \$3.05, postpaid.

8607 Crimson Show Lily *(Speciosum Melpomene)* The flowers are of a rich carmine-crimson spotted with blood-red and narrowly edged with white. It bears its flowers in clusters of from 2 to 10. The flowers are 4 to 6 inches in diameter. Fragrant, blooming during August and September. One of the most beautiful and satisfactory of all Lilies of robust growth, permanent, and fine for the garden or pots; 2 to 4 feet tall. 50¢ each; 3 for \$1.35; 6 for \$2.65; 12 for \$5.20, postpaid.

8610 Double Tiger Lily *(Tigrinum flore pleno)* The double flowers are borne in large clusters. They are bright salmon-red with contrasting purplish black spots. Blooms during August and September. This is the only double Lily in existence which is worth while cultivating. Very hardy, permanent, easily grown, and exceedingly beautiful. 45¢ each; 3 for \$1.20; 6 for \$2.30; 12 for \$4.50, postpaid.

8612 Easter Lily *(Longiflorum giganteum)* Beautiful pure waxy white blooms, tinged green at the base, in clusters of from 2 to 10. The anthers are yellow. The flowers measure 4 to 6 inches in length and are almost as broad. Delicately fragrant, blooming during July and early August; 1 to 3 feet tall. 50¢ each; 3 for \$1.35; 6 for \$2.65; 12 for \$5.20, postpaid.

8616 Giant Tiger Lily *(Tigrinum fortunei giganteum)* This is a very popular variety, growing 2 to 4 feet tall. The flowers are borne in clusters of from 2 to 15 and they measure 3 to 5 inches in diameter. They are bright salmon-red, spotted with purplish black. One of the hardiest and most easily grown, blooming during August and September. It is sometimes found wild in Maine and northern New York and has escaped cultivation, proving thereby its adaptation to the conditions found in those sections. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50, postpaid.

Burpee's Lilies Bloom

Yellow Show Lily

Six Beautiful Lilies

These collections contain the following six free-flowering and showy varieties: **Crimson Show Lily, Easter Lily, Giant Tiger Lily, Show Lily, Turk's Cap Lily, and Yellow Japanese Lily.** Will be mailed postpaid.

No. 9825	No. 9826	No. 9827
One bulb each	Three bulbs each	Six bulbs each
(6 bulbs) for \$2.50	(18 bulbs) for \$7.50	(36 bulbs) for \$12.00

8654 Yellow Show Lily *(Henryi)* A most magnificent Lily with bright orange-yellow flowers slightly spotted reddish brown. The blooms come in clusters of from 2 to 20 and make a beautiful display during August and September. 65¢ each; 3 for \$1.75; 6 for \$3.35; 12 for \$6.55, postpaid.

**Hyacinthus
candicans**

8949 **Ismene—Peruvian Daffodil**

These bulbs are native to the West Indies, Florida, and north to the Carolinas. They, however, have proven to be well adapted for growing in all sections of the country. Sometimes they are called Cuban Lilies. The Peruvian Daffodil is a very handsome flower and deserves to be grown as widely as the Gladiolus. They thrive in a porous sandy soil and the only condition which they do not like is an excess of moisture. Ismene is a tender bulb and cannot stay outdoors in our climate during the winter. The bulbs should be dug up in the autumn after the first light frost has touched the foliage and stored in a dry, frostproof cellar in the same way as Gladioli. Ismene is a sacred flower with the Peruvian Indians, who, every year, hold religious services with dancing and feasting in honor of it. The flowers are pure snow-white and not unlike an Amaryllis in form. They have a delightful fragrance. The flowers are produced in 4 to 6 weeks after planting and each stem carries a large number of fine blooms. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45, postpaid.

Hyacinthus

8947 CANDICANS This variety of Hyacinthus is quite different from the kind which is planted in the fall for spring blooming. It grows into a stately plant nearly 4 feet tall and produces a lot of dark green Yucca-like leaves, producing a strong heavy stem bearing on its branches pendent pure white flowers. Well-grown plants quite often carry as many as 60 blooms each. Because of their strong growth the plants should be set not closer than 2 feet apart so that they can develop freely. On our Fordhook Farms in Doylestown, Pa., Hyacinthus candicans has proven to be quite hardy, growing stronger and blooming more profusely each year. 20¢ each; 3 for 55¢; 6 for \$1.00; 12 for \$1.90; 25 for \$3.75, postpaid.

If you have a shaded spot in your garden where other flowers fail to thrive plant Lily-of-the-Valley—they love the shade.

Lily-of-the-Valley

Lily-of-the-Valley

8955 Few flowers are as well known and as much appreciated as the Lily-of-the-Valley. After once being planted in a suitable place they will increase in number and will produce their graceful and sweetly scented blooms every spring for an almost indefinite time. The roots can also be taken up and planted in pots for indoor blooming. We offer strong, field-grown clumps of this ever-popular old favorite. These clumps must not be confused with the Lily-of-the-Valley pips that are used for forcing by florists. These clumps are intended for garden growing and will give immediate effect. 55¢ each; 3 for \$1.45; 6 for \$2.80; 12 for \$5.50; 25 for \$10.90, postpaid.

Hemerocallis

These are easily grown hardy plants which will thrive even in poor soil. After once being planted they will increase in size and beauty. They are perfectly hardy but when the plants crowd together too much they should be replanted, as otherwise they will not bloom as freely.

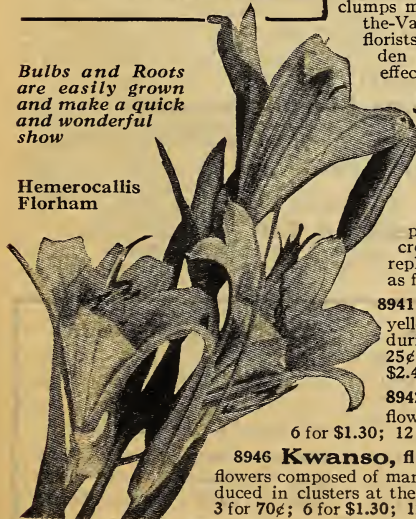

8941 Flava (Lemon Lily) Deep lemon-yellow flowers, blooming most profusely during June and July; 2 to 3 feet tall. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75; 50 for \$9.40, postpaid.

8942 Florham Rich golden yellow flowers; 3 to 4 feet tall. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75, postpaid.

8946 Kwanso, fl. pl. This double orange Lily has large flowers composed of many flower-petals. The blooms are produced in clusters at the tops of the stately stems. 25¢ each; 3 for 70¢; 6 for \$1.30; 12 for \$2.45; 25 for \$4.75, postpaid.

Bulbs and Roots are easily grown and make a quick and wonderful show

**Hemerocallis
Florham**

**Tuberose
Excelsior Pearl**

Tuberose

The beauty of Tuberoses and their exquisite fragrance should secure them a place in every garden. Plant the bulbs after all danger of frost has passed. Tuberoses delight in a light sandy loam which holds a good amount of plant food. They love warm weather, but at the same time they need plenty of moisture. Cover the bulbs with an inch of fine soil.

8988 Excelsior Pearl

The Excelsior strain of Dwarf Pearl Tuberose has been improved in dwarf habit of growth, extreme doubleness of the large flowers, and in very early flowering. The bulbs are sure to bloom. 3 for 20¢; 6 for 35¢; 12 for 65¢; 50 for \$2.45; 100 for \$4.75, postpaid.

8989 Excelsior Mammoth Size

These mammoth size bulbs produce flowers of immense size carried on long and substantial stems. Very free blooming. 3 for 25¢; 6 for 45¢; 12 for 85¢; 50 for \$3.20; 100 for \$6.25, postpaid.

Because bulbs require a different type of packing, they are sent separately from the seed

PEONIES

What looks prettier than a well-grown Peony plant covered with a mass of gigantic flowers? The Peony comes into bloom at that time of the year which makes it an extremely desirable flower for use in connection with our national holiday, Memorial Day. With ordinary care the plants will bear their massive, fully double flowers in great profusion from year to year. Plant the roots during August, September, or early October in a bed well prepared and enriched with plenty of well-rotted manure. Cover the crowns with not more than 2 inches of good soil. The flowers, when cut, will last a long time in water. Most varieties as soon as they begin to open up are exquisitely scented and those offered below are the best in their color classes. Write for a free copy of the Burpee leaflet on "Peonies."

Felix Crousse—
ruby-red

Mons. Jules Elie—
soft lilac-rose

8709 Felix Crousse See illustration. Large globular flowers of a dazzling ruby-red. Of strong habit; medium height. It blooms freely and is the best red Peony. Felix Crousse has proven to do well almost everywhere. It is an excellent cut-flower, lasting a long time in water. \$1.00 each; 3 for \$2.85; 6 for \$5.50; 12 for \$10.80.

8717 Mons. Jules Elie See illustration. The flowers are a fine shade of soft lilac-rose. The collar is somewhat lighter and is tinted with bright amber-yellow near the base. It has proven to be one of the most popular of all Peonies. The flowers are large and are borne profusely on strong compact plants. Fragrant. \$1.00 each; 3 for \$2.85; 6 for \$5.50; 12 for \$10.80.

8718 Rubra Superba Very large and double flowers of a dark velvety crimson color. It is the best one of this shade for late flowering. Blooms profusely. 70¢ each; 3 for \$1.95; 6 for \$3.75; 12 for \$7.30.

8723 Sarah Bernhardt The fragrant flowers are a bright apple-blossom-pink. The flowers are remarkably large and always fully double. It is a free bloomer. \$2.25 each; 3 for \$6.40; 6 for \$12.35; 12 for \$24.25.

8725 Solange Fine double flowers of a beautiful shade of blush-white with a salmon center. Very large. \$6.50 each; 3 for \$18.50; 6 for \$35.75; 12 for \$70.00.

8710 Therese A midseason variety of the rose type. The color is rich silky satiny pink. Makes a strong, sturdy growth. \$6.00 each; 3 for \$17.10; 6 for \$33.00; 12 for \$64.50.

8724 Venus A lovely flesh-pink tinted with bright salmon. A strong grower, blooming most profusely. \$1.25 each; 3 for \$3.55; 6 for \$6.90; 12 for \$13.50.

8729 Walter Faxon Of semi-rose type. Large globular flowers of bright rose-pink shaded with salmon. \$6.50 each; 3 for \$18.50; 6 for \$35.75; 12 for \$70.00.

8700 Baroness Schroeder A beautiful delicate flesh, changing to white. Of immense size and great substance. A lovely variety which grows vigorously and blooms profusely. \$2.00 each; 3 for \$5.70; 6 for \$11.00.

8704 Delicatissima A widely known variety of extra fine habit. The flowers are a beautiful soft flesh tone, changing to blush-white as they fully expand. The well-formed double blooms are agreeably sweet-scented. 75¢ each; 3 for \$2.15; 6 for \$4.10; 12 for \$8.00.

8705 Duchess De Nemours Pure white crown with sulphur-white collar. A strong vigorous grower of medium height. The fragrant flowers are borne during midseason. This is a great old favorite with many gardeners. 60¢ each; 3 for \$1.70; 6 for \$3.20; 12 for \$6.15.

8706 Edulis Superba Large loose flowers of an attractive deep rose-pink. Early, vigorous, and free blooming. The lovely flowers have a charming fragrance. 60¢ each; 3 for \$1.70; 6 for \$3.20; 12 for \$6.15.

8713 Festiva Maxima Large globular flowers. Pure white, with the center flecked crimson. The flowers have a fine fragrance. A tall, strong, and vigorous grower. Blooms very early and is used extensively for cut-flowers. 75¢ each; 3 for \$2.15; 6 for \$4.10; 12 for \$8.00.

8720 Karl Rosenfield Very large globular flowers, of a brilliant dark crimson. Makes a wonderful show. \$2.00 each; 3 for \$5.70; 6 for \$11.00; 12 for \$21.50.

8714 Madame De Verneville The flowers are white with carmine spots, showing a tinge of blush-pink when they first open. A sturdy and strong plant with many blooms. A standard variety sure to bloom freely. 75¢ each; 3 for \$2.15; 6 for \$4.10; 12 for \$8.00.

8719 Milton Hill Very large round flowers which are always fully double. The color is a fine light lilac-rose of great beauty. A wonderful free-flowering variety. \$3.75 each; 3 for \$10.70; 6 for \$20.60; 12 for \$40.25.

8715 Modeste Guerin A most remarkable variety, blooming during midseason. The flowers are well rounded and fully double through the center. The color is a lovely pink throughout. The blooms are borne on strong stems and they are delightfully fragrant. 70¢ each; 3 for \$1.95; 6 for \$3.75; 12 for \$7.30.

8716 Mons. Martin Cahuzac Large well-formed flowers. Purple-red shaded with metallic maroon. \$4.00 each; 3 for \$11.40; 6 for \$22.00; 12 for \$43.00.

8726 Primevere Large full blooms. The outer petals are sulphur-white with the center sulphur-yellow. \$4.00 each; 3 for \$11.40; 6 for \$22.00; 12 for \$43.00.

8721 President Taft A beautiful variety of bright Hydrangea-pink. Large double flowers; fragrant. \$2.00 each; 3 for \$5.70; 6 for \$11.00; 12 for \$21.50.

Three Bright Peonies

The collections contain the following three free-flowering varieties: Baroness Schroeder, Karl Rosenfield, and Venus. We pay transportation charges.

9872—One each (3 roots) \$4.00
9873—Three each (9 roots) \$11.50

Ten Beautiful Peonies

This collection contains the ten varieties offered in the two other collections. It is a wonderful assortment of all the best colors.

9895—One each (10 roots) \$7.75
9896—Three each (30 roots) \$22.00
9897—Six each (60 roots) \$42.50

Hardy Phlox

The Hardy Phlox is easily grown and thrives well even under adverse conditions of weather and soil. Hardy Phlox may be used to good advantage in front of shrubbery or among other perennials.

8747 Bacchante The flower-heads are of enormous size, and the individual flowers are also of remarkably large size. The color is tyrian-rose with a crimson-carmine eye. 25¢ each; 3 for 70¢; 6 for \$1.35; 12 for \$2.55; 25 for \$5.00; 50 for \$9.90.

8751 Beacon A magnificent flower of brilliant cherry-red, easily grown, and free blooming, with immense flower-heads carried on strong upright stems. 35¢ each; 3 for \$1.00; 6 for \$1.95; 12 for \$3.80; 25 for \$7.50; 50 for \$14.90.

8748 Bridesmaid The plants are of strong growth and very free blooming. The flowers are white with a distinct crimson eye. 25¢ each; 3 for 70¢; 6 for \$1.35; 12 for \$2.55; 25 for \$5.00; 50 for \$9.90.

8757 Elizabeth Campbell See illustration. A most popular variety with large flower-heads. The petals are light salmon enlivened by a pinkish tint toward the center. 35¢ each; 3 for \$1.00; 6 for \$1.95; 12 for \$3.80; 25 for \$7.50; 50 for \$14.90.

8766 Jules Sandeau This excellent variety is of dwarf habit, with large trusses of pure pink flowers. Very free blooming and attractive. 25¢ each; 3 for 70¢; 6 for \$1.35; 12 for \$2.55; 25 for \$5.00; 50 for \$9.90.

8772 L'Esperance A beautiful variety with lovely lavender-pink flowers with a white center. Heavy flower trusses borne on strong stems. 25¢ each; 3 for 70¢; 6 for \$1.35; 12 for \$2.55; 25 for \$5.00; 50 for \$9.90.

Collections of Hardy Phlox

These collections contain the following nine varieties: **Bacchante, Bridesmaid, L'Esperance, Mrs. William Jenkins, Professor Virchow, Rheinlander, R. P. Struthers, Thor, and Widar.**

9875—One each.....	(9 roots),	\$2.00
9876—Three each.....	(27 roots),	5.50
9877—Six each.....	(54 roots),	10.00

Caladium—Elephant's Ear

Caladiums are highly valued because of their ornamental leaves. They do best where the plants receive an average amount of sunshine, water, and humidity. If grown in the greenhouse, they look their best. Caladiums are native to the tropical swamps of Brazil and will thrive best in rich soil containing plenty of humus. They are easily grown in any ordinary garden soil. They should be watered regularly, but not in excess and the water should never be sprinkled on the leaves.

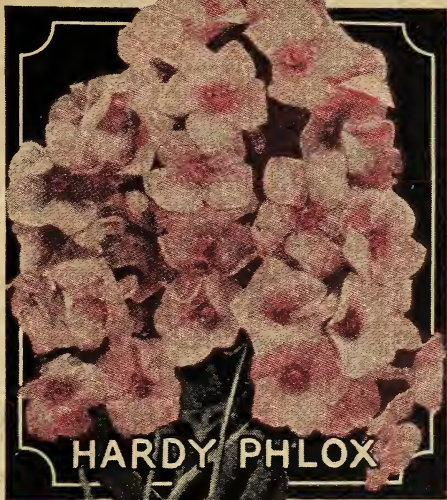

Start the bulbs in pots indoors during March and keep in a warm window but shade against the mid-day sun. When the weather outdoors has become perfectly settled and about the time the maples are in full leaf, transplant them to the open.

8914 Esculentum This is the well-known Elephant's Ear, which is so effective if planted singly or in masses in either the border or in the bed; 3 feet tall. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50.

The Fancy-Leaved Caladiums are excellent pot-plants for the conservatory or warm rooms

8915 Fancy Leaved See illustration. The leaves show a remarkable range of color, mostly shades of red and green in beautiful variegations. Fine for the greenhouse or conservatory, or for planting outdoors in a sheltered and shaded bed. 35¢ each; 3 for 95¢; 6 for \$1.80; 12 for \$3.50.

8774 Mrs. William Jenkins Fine flower-heads composed of large, pure snow-white blooms. The plants grow 3 feet tall and bloom very freely. 25¢ each; 3 for 70¢; 6 for \$1.35; 12 for \$2.55; 25 for \$5.00; 50 for \$9.90.

Elizabeth Campbell

8776 Rheinlander The beautiful carmine-pink flowers always attract attention. Rheinlander is a strong grower, with massive flower-heads, standing out sharply from the rich green foliage. 35¢ each; 3 for \$1.00; 6 for \$1.95; 12 for \$3.80; 25 for \$7.50; 50 for \$14.90.

8777 R. P. Struthers This is one of the best among the richly colored varieties, with bright rosy carmine blooms having a claret-red eye. Its habit is strong and sturdy. 25¢ each; 3 for 70¢; 6 for \$1.35; 12 for \$2.55; 25 for \$5.00; 50 for \$9.90.

8784 Thor The blooms are a rich salmon-pink with a deep crimson eye. The color combination is beautiful and the flowers are borne freely. 35¢ each; 3 for \$1.00; 6 for \$1.95; 12 for \$3.80; 25 for \$7.50; 50 for \$14.90.

8792 Widar Light reddish violet with a large white center. A showy variety with large trusses. 25¢ each; 3 for 70¢; 6 for \$1.35; 12 for \$2.55; 25 for \$5.00; 50 for \$9.90.

Amaryllis

These wonderfully showy plants are easily grown. They thrive in the window of a cool room and may be set, pot and all, into the garden after the nights have become quite warm. Plant a number of bulbs together in a large pot as they grow more satisfactorily if planted in this way. Cover the neck of the bulb with 3 inches of fine soil and keep the plants dry until the sprouts appear. Then water regularly but not in excess. The leaves usually appear after the flowers have finished blooming.

8903 Johnsoni This is the Giant Amaryllis, with large trumpet-shaped crimson flowers marked with broad white stripes. 75¢ each; 3 for \$2.10; 6 for \$4.10; 12 for \$8.05.

8906 Giant Mixed (Hippeastrum) See illustration. This mixture contains a remarkably fine assortment of glorious shades. All the flowers are of immense size. 65¢ each; 3 for \$1.80; 6 for \$3.45; 12 for \$6.75.

Amaryllis Johnsoni

Peony-Flowered Dahlias

This class of Dahlias has quickly come to the foreground within the last ten years. They were formerly looked down upon on account of being only semi-double, but their decidedly artistic effect, combined with some wonderful colors and immense size of blooms, has now given them a place ahead of almost all other classes. The inner petals are usually curved or twisted, sometimes covering all of the center. The outer petals are either flat or more or less irregular.

8214 Dainty Queen The flowers are borne on long wiry stems and literally cover the flowers from early in the season until frost. The blooms are quite large, with loosely arranged petals. The color of the flowers is a pleasing shade of rosy lavender gradually shading to white toward the yellow center of the flowers. An excellent variety for garden display and for cutting. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8205 Autumn Beauty One of the first to bloom and also one of the most free and continuous bloomers. The color is a pleasing shade of yellow and buff with a suffusion of light rose. 75¢ each; 3 for \$1.90; 6 for \$3.70.

8207 Berth von Heemstead A very fine variety which originated in Holland. The large flowers are yellow attractively suffused with bronze. Blooms freely and continuously. 35¢ each; 3 for 90¢; 6 for \$1.75.

8208 Canada Immense flowers with pure white petals of heavy texture and extremely free blooming. Strong and sturdy plants, giving a fine garden display and good cut-flowers. 35¢ each; 3 for 90¢; 6 for \$1.75.

8210 Cleopatra The artistic blooms are a lovely shade of yellow with tangerine on the reverse. Blooms very profusely. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8213 Coppersmith Here is another Burpee introduction which is well known because of its free blooming habit and fine color. The flowers are well formed, of large size, and carried on wiry strong stems. The color of the blooms is a pleasing shade of light copper with a scintillating metallic suffusion of bronze. The reverse of the petals is rich reddish bronze, adding greatly to the richness of the color effect. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8215 Dreamlight A large flower of pale old rose with a gleam of yellow at the base. Flowers of large size borne profusely. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

Six Peony-Flowered Dahlias

These collections contain the following six varieties: **Autumn Beauty**—Yellow, buff, and rose; **Berth von Heemstead**—Bronze and yellow; **Coppersmith**—Reddish bronze; **Fordhook Cerise**—Cherry-red; **Fordhook White**—White; and **Rosalia Styles**—Pink and white.

9812—One each of the six for **\$2.75**

9813—Three each of the six for **\$7.50**

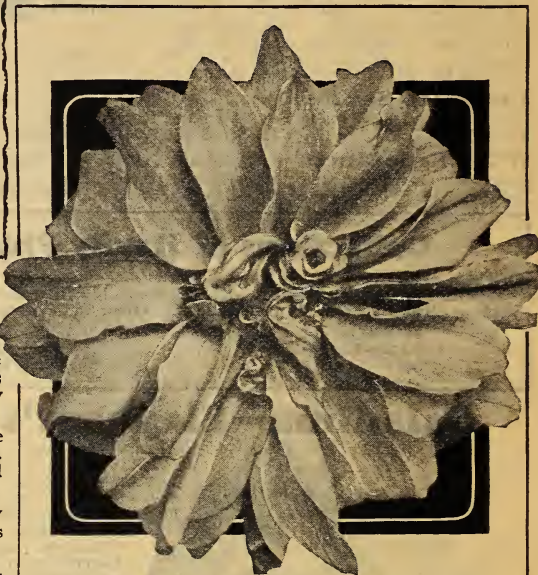

8220 Fordhook Beauty Fordhook Beauty has indeed been well named. The well-formed flowers are borne in such profusion that the plants are a mass of color all during the Dahlia season. The stems are wiry and otherwise particularly suited to give Fordhook Beauty a place among the best Dahlias for cutting. The color of the blooms is a beautiful autumn tint combining salmon and amber with a bronzy red suffusion which adds a glow to the whole flower. A magnificent flower. 75¢ each; 3 for \$1.90; 6 for \$3.70.

8222 Fordhook Cerise Of wiry, stiff growth and perfectly upright habit. The color is a brilliant shade of rich cerise, with just a suspicion of orange toward the base of the petals. The inner petals incurve artistically. An early bloomer. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8237 Fordhook White This is not only a most profuse bloomer, but one of the earliest to open its blooms, continuing until way late into the season. The large pure white flowers show but a small center. They are carried on long wiry stems. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8252 Mme. Von Bystein The large blooms are a soft tint of mauve, shading lighter toward the outer edges of the petals. Blooms freely. 25¢ each; 3 for 70¢; 6 for \$1.30.

8258 Mrs. Jessie Seal Of magnificent form and immense size. The flowers are a beautiful shade of old rose with salmon suffusion. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8259 Mrs. John Gribbel Elegant flowers of arich salmon-pink shade, heavily flushed with amber and salmon. Blooms early, continuously, and remarkably freely. 40¢ each; 3 for \$1.05; 6 for \$2.00.

8229 Fordhook Lilac (Burpee, 1923). A flower of great size and exquisite form. The color is a clear shade of lilac; the inner petals are numerous and twist gracefully over the center. Blooms early and freely. It is a fine strong grower. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8263 Orient A charming combination of orange-scarlet flaked with bright yellow. A striking flower for the garden or bouquets. 30¢ each; 3 for 85¢; 6 for \$1.60.

8264 Pacific Glow A pleasing shade of light pink, having a bright glowing sheen all over the flower. The flowers are borne on long wiry stems. Blooms early, freely, and continuously. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8268 Rosalia Styles Rose-pink flushed white, with lighter colored center. Of immense size and fine form. A fine free bloomer. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

Cactus and Hybrid Cactus Dahlias

In the Cactus Dahlias the flowers are fully double, with the floral rays long, narrow, incurved or twisted. This type is very valuable, since the blooms last exceptionally long as cut flowers.

The Hybrid Cactus Dahlias are fully double, with decidedly shorter petals as compared with the true Cactus Dahlias. The petals are broad, flat, incurved, or twisted. Both types are very showy.

8000 Ambassador A delicate buff-yellow shaded with a salmon-pink suffusion. The well-shaped flowers are large and substantial. Ambassador is a free bloomer. The long-stemmed blooms are carried above the healthy green foliage. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

8002 Attraction (H. C.) This is a lovely Hybrid Cactus variety of large size and elegant form. The flowers are a bright lilac-rose. You will like the well-rounded blooms with their long strong stems, as they are fine for cut flowers. 75¢ each; 3 for \$1.90; 6 for \$3.70.

8029 E. M. Dane A soft pale tint of lovely pink, shading to creamy white in the center. This is a beautiful flower of excellent form and very good size. The plants make a fine sturdy growth and produce long-stemmed blooms in the greatest profusion. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

8001 Adelaide C. Wingate (H. C.) See illustration. The flowers are a glowing rose-pink, gradually shading to rich yellow in the center. It is a contrasting yet harmonious combination. Because of its excellent size and fine form it is grown extensively for cutting. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8006 Cigarette (H. C.) The combination of colors is most striking. The petals are a lovely cream-white tipped with brilliant orange not unlike the color scheme found in a lighted cigarette. The blooms are large, well-shaped, fully double, and long stemmed. An excellent garden and exhibition variety. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

7901 Cinderella (H. C.) A combination of pale salmon shaded with fawn-pink and showing a tan cast in the center of the flower. It is a strong grower of good size. \$4.00 each; 3 for \$11.00.

8022 Gladys Sherwood (H. C.) This is another outstanding Dahlia with pure white flowers belonging to the Hybrid Cactus type. Of fine form, free blooming, and strong growing. Because of its pure white color it is much in demand for all kinds of decorations. Its free-blooming habit and strong growth make it fine for garden display. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8023 Glory of Wilts This is considered one of the best yellow Cactus Dahlias in existence. The color is rich, the flowers are large, and the stems extra long. 35¢ each; 3 for 90¢; 6 for \$1.75.

7905 Mrs. J. M. Root (H. C.) See illustration. An enormous canary-yellow Hybrid Cactus variety. This is one of the largest Dahlias in existence with long broad slightly twisted petals of heavy substance. The massive blooms are carried on strong stems well above the foliage. Mrs. J. M. Root has quickly become very popular with Dahlia lovers. It is an outstanding variety and it has attracted much attention wherever it has been exhibited. \$7.50 each; 3 for \$20.00; 6 for \$37.50.

8081 Esther R. Holmes (H. C.) This is a very fine bright orchid-pink variety, with flowers of artistic form. The blooms are carried on long stiff stems held upright above the foliage. It is a free and continuous bloomer. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

8021 George Walters (H. C.) A combination of salmon-pink which gradually flows into a bright yellow at the base of the petals. It makes a showy flower. This is a splendid variety since it produces large flowers in great abundance. 75¢ each; 3 for \$1.90; 6 for \$3.70.

7900 Butterfly (H. C.) Lovely peach-red flowers suffused with bright yellow. It is an excellent garden variety highly recommended for cutting and decoration. The flowers are of medium size but they are produced most freely. \$5.00 each; 3 for \$14.00; 6 for \$25.00.

8037 Lolita Velasco See illustration. A variety much valued because of its pure white flowers. It combines large size, excellent form, free-blooming habit, and good cutting qualities with a fine long stem. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

7902 Jean Chazot (H. C.) An artistic combination of Nasturtium-red and gold, tipped with golden yellow, combining into one of the finest autumn shades found among Dahlias. The good sized and gracefully formed flowers are borne profusely. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8039 Kalif (H. C.) Large, well-formed flowers of pure scarlet color. A free bloomer borne on fine long stems. Kalif is one of the best known of all Hybrid Cactus Dahlias. It owes its popularity, no doubt, to the richness and brilliancy of the flowers. Kalif never fails to attract attention. 75¢ each; 3 for \$1.90; 6 for \$3.70.

8040 Kathryn Donges (H. C.) Light yellow shading somewhat paler toward the tips of the petals. The mammoth flowers are borne on long heavy stems. \$1.50 each; 3 for \$3.80.

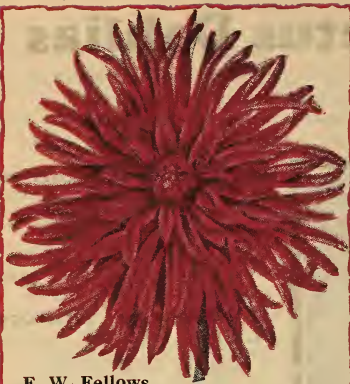

Six Popular Cactus Dahlias

These collections contain six distinct colors of the Cactus and Hybrid Cactus type. They include the following varieties: **Attraction**—Bright lilac-rose; **Glory of Wilts**—Rich yellow; **Libelle**—Aster-purple; **George Walters**—Salmon-pink; **Pierrot**—Amber and white; **La Favorita**—Reddish salmon.

9815—One each of the six Popular Cactus Dahlias, mailed, postpaid, for . . . **\$3.00**

9816—Three each of the six Popular Cactus Dahlias, postpaid, for . . . **\$8.00**

Cactus Dahlias—continued

F. W. Fellows

8019 F. W. Fellows See illustration. Burning orange-scarlet flowers of good size and attractive form. Blooms freely and continuously until frost. 50¢ each; 3 for \$1.30.

MARJORIE CASTLETON

8044 Marjorie Castleton See illustration. The blooms are a bright shade of soft rosy pink tinted with lilac toward the center and tips of the petals. The flowers are quite large and borne in the greatest profusion. 35¢ each; 3 for 90¢; 6 for \$1.75.

8054 Siskiyow (H. C.) The combination of bright pink with a hue of mauve gives a most attractive Orchid shade. The huge flowers are carried on long stems and are lovely for cutting. It is a free and continuous bloomer. \$5.00 each; 3 for \$14.00; 6 for \$25.00.

8057 Skagerrak (H. C.) A showy and artistic Hybrid Cactus Dahlia which combines size with good form and a rich color. The well-shaped blooms are rich clear yellow. A strong grower with massive blooms carried on long heavy stems. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8070 Sophy Morey The flowers are white flushed with pale lilac on the center petals. It is a massive flower of extreme size with long, pointed, incurved petals. 65¢ each; 3 for \$1.75; 6 for \$3.35.

Mrs. W. E. Estes

8058 Mrs. W. E. Estes (H. C.) See illustration. Pure white flowers of immense size and massive appearance. \$1.00 each; 3 for \$2.70.

7903 Lady Faire (H. C.) The color is a lovely shade of Phlox pink, a color which is also known as light rosolane-purple. A sturdy and free grower with flowers borne abundantly on stout stems. Lady Faire is an exhibition variety with first-class qualities. A splendid keeper. \$10.00 each; 3 for \$27.00.

8041 La Favorita (H. C.) A beautiful Hybrid Cactus variety with flowers of a brilliant salmon; shading from dark reddish salmon in the center to salmon-pink at the tips. The well-shaped blooms grow to mammoth size and they are borne profusely on long substantial stems. La Favorita has indeed become a popular favorite with many Dahlia fans because it combines so many valuable characters. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8038 Libelle Here is an unusual shade, a bright Aster purple. A free-blooming variety of good size and heavy substance. The long-stemmed flowers are excellent for cutting. It is a showy variety which blooms freely from early in the season until frost. 35¢ each; 3 for 90¢; 6 for \$1.75.

7904 MacGregor (H. C.) A well-shaped, large-sized flower of bright spectrum red color. The sturdy plants bear a profusion of long-stemmed blooms. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

8053 Mariposa (H. C.) A well-formed flower of a delightful shade of pink shading deeper toward the center. Grows sturdily and blooms freely. Excellent for the garden and exhibition. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

8049 Mrs. A. C. James The large flowers are rich salmon-buff with a suffusion of bright yellow. A free-flowering and very showy variety, fine for garden decoration or cutting. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8050 Mrs. Edna Spencer (H. C.) An exquisite variety of a charming shade of Orchid-pink. The lovely texture of the petals adds greatly to the value of this free-flowering variety. The plants make a strong and sturdy growth. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8051 Mrs. Ethel F. T. Smith (H. C.) The white petals are shaded with soft lemon-yellow. This is a heavy substantial flower of large size and artistic proportions. 65¢ each; 3 for \$1.75.

8062 Papillon (H. C.) A glowing shade of old rose flushed with a sheen of bright gold. The combination is striking and appealing. Papillon is an outstanding variety of good strong growth bearing a magnificent display of glorious flowers. \$2.50 each; 3 for \$6.50; 6 for \$12.50.

8063 Pierrot The color is deep amber tipped with pure white and sometimes showing a cast of bright yellow. A striking variety that never fails to attract attention. 75¢ each; 3 for \$1.90.

8064 Red Cross (H. C.) This combines an intense bright red shade with glowing yellow. The color contrast is striking and beautiful. The large flowers are borne freely on strong stems. Excellent for the garden and for cutting. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

SEÑORITA

8060 Senorita (H.C.) See illustration. The massive flowers are deep crimson shaded with metallic maroon. Senorita is outstanding in many ways. Few Dahlias show such a strong robust growth as this mammoth variety. The texture of the petals is thick and substantial. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

8078 U. S. A. (H. C.) An early and continuous bloomer of a glowing deep orange shade. The flowers are of splendid form, enormous size, and borne on substantial stems. \$1.50 each; 3 for \$3.80.

8065 Yellow King Splendid flowers of a clear light yellow shade attractively tinted with apple green at the tips of the petals. The strong sturdy plants bloom freely. 40¢ each; 3 for \$1.05.

Five Best Cactus Dahlias

These collections contain the following five varieties: Adelaide C. Wingate; Ambassador; Lolita Velasco; Mariposa; and Senorita.

9803 One each..... (5 roots), \$6.00
9804 Three each..... (15 roots), \$16.00

Pompon Dahlias

A lovely type of small, perfectly ball-shaped Dahlias of unique appearance. The plants grow into neat little bushes, well adapted for beds or borders. The plants are borne on fine stems and suited for cutting.

8273 Adrienne Crimson flowers tipped with a contrasting yellow. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8274 Bacchus Bright crimson-scarlet. A profuse bloomer. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8280 Blumerick Buff, overlaid with rose. A lovely flower. 50¢ each; 3 for \$1.30; 6 for \$2.50.

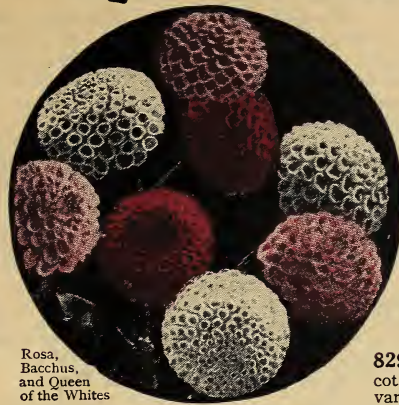

8282 Eleganta The flowers are a lovely deep pink shade. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8286 Jessica A combination of amber and salmon, tinted red. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8281 Kleine Domittea Bright golden terra-cotta flowers borne profusely. 35¢ each; 3 for 90¢; 6 for \$1.75.

8285 Neatness The flowers are pale salmon with a cream center. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8287 Nerissa A most attractive variety with soft pink flowers, tinted silver. 50¢ each; 3 for \$1.30; 6 for \$2.50.

Rosa, Bacchus, and Queen of the Whites

7976 Petite John Lovely flowers of a bright lavender-rose. 25¢ each; 3 for 70¢; 6 for \$1.30.

8275 Phoebe A fine shade of orange and red. Blooms freely. 75¢ each; 3 for \$1.90; 6 for \$3.70.

8288 Queen of the Whites The best white Pompon Dahlia in existence. A continuous bloomer of strong growth. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8289 Rosa The well-formed double flowers are a deep rich rose. Blooms freely and continuously. 50¢ each; 3 for \$1.30; 6 for \$2.50.

7975 Rosalia The fully double flowers are yellow, edged crimson. 25¢ each; 3 for 70¢; 6 for \$1.30.

8293 Sunny Daybreak Apricot, edged red. A particularly striking variety. 75¢ each; 3 for \$1.90; 6 for \$3.70.

8290 Thorbe Canary-yellow with lavender tips. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8291 Vivid The compact, fully double flowers are borne freely on long stems. They are a glowing bright scarlet. An early, free, and continuous bloomer. 50¢ each; 3 for \$1.30; 6 for \$2.50.

Bargain Collections of Giant Dahlias

This is your opportunity to get a collection of some very fine named Dahlias at a real bargain price. We have included in these collections only large-blooming and free-flowering varieties.

9818 Six named Giant-Flowered Dahlias, our choice, for \$1.50

9819 Twelve named Giant-Flowered Dahlias, our choice, for \$2.75

Collarette Dahlias

Maurice Revoire

The Collarette Dahlias deserve to be grown extensively on account of their attractive appearance. They are free blooming and excellent as cut-flowers. The flower has a distinct collar of irregularly arranged petals between the yellow center and outer ray petals.

8085 Frogmore The petals are orange-scarlet tipped with yellow. The collar is vivid canary-yellow. 35¢ each; 3 for 90¢; 6 for \$1.75.

8087 Maurice Revoire Deep crimson with white collar. The contrast is very artistic. 35¢ each; 3 for 90¢; 6 for \$1.75.

8091 Queen Anne Glowing scarlet, tipped with yellow. The collar is rich yellow. 35¢ each; 3 for 90¢; 6 for \$1.75.

Star Dahlias

STAR DAHLIAS

The Star Dahlias have gained great popularity recently. While the flowers are rather small, they are borne on long stems and are admirably adapted for cutting. Because of the compact habit of the plants they are excellent for borders. They are literally covered with blooms all during the fall.

8294 Crawley Star This resembles a large crimson Cosmos. Blooms early, freely, and continuously. 75¢ each; 3 for \$1.90; 6 for \$3.70.

8295 Morning Star Rich carmine center shading off to pale lake. The blooms are carried on long stems. Of compact growth and free flowering. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8296 Northern Star Deep satiny rose flowers with a small yellow center. This makes up into artistic bouquets. The flowers are borne on long stems. 75¢ each; 3 for \$1.90; 6 for \$3.70.

8298 Scarlet Star Bright shining scarlet flowers. 75¢ each; 3 for \$1.90; 6 for \$3.70.

8299 White Star Well-rounded, pure white flowers borne profusely on long and wiry stems. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8292 Surprise Mixture This mixture includes a fine assortment of all types of both large and small flowered varieties. We plant every year for trial a large assortment of Dahlias in addition to those we have listed in the catalog and many of these roots are added to this mixture to give as wide a range of colors and types as possible. Of course, all roots are unlabeled and we can therefore offer them at a real bargain price. 3 for 50¢; 6 for 95¢; 12 for \$1.75.

Decorative Dahlias

The flowers are full to the center throughout the season. They are thick but not ball-shaped, with broad, flat, somewhat loosely arranged petals. The points are broad or rounded; the tips may be straight or turned down and in some varieties the margins are slightly rolled back. Within recent years this type of Dahlia has been enriched with quite a number of outstanding novelties. Whether used for garden display or for cut-flowers they always give the greatest satisfaction.

Champagne

8104 Champagne See illustration. Here is a variety that has quickly become very well known because of its many outstanding features. The color is distinct and most appealing. It is a lovely shade of dull gold with a hue of iridescent chamois. The flowers are large and well formed. They are carried on long stems. A profuse bloomer. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

Faith Garibaldi

7931 Faith Garibaldi See illustration. If you want size, substance, and graceful habit combined with strong stems, Faith Garibaldi, with its large rose-pink flowers, will give you a very fine variety for both garden decoration and cutting. It is a free and continuous bloomer which will last nearly a week in the house. \$7.50 each; 3 for \$20.00; 6 for \$37.50.

7930 Eastern Star Clear yellow with a bright sheen of buff and orange. Large flowers of splendid shape, held upright on fine strong stems. Lovers of clear colors will like this fine Decorative Dahlia which embodies good size, excellent form, and free-blooming habit with a remarkable color. \$10.00 each; 3 for \$27.00; 6 for \$50.00.

The prices quoted for Dahlias are for strong, vigorous planting tubers, guaranteed to grow and to bloom. All Dahlias will be sent postpaid.

7926 Aibonita A lovely variety with large flowers of immense size. The color of the blooms is a bright glowing pink shading to rich golden yellow in the center. The strong and sturdy plants bloom profusely. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

7927 Alex. Waldie The flowers of this variety are large and well formed. They are carried on fine long stems. A cream ground color overlaid with pale salmon-pink. A strong and sturdy variety bearing profusely. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8100 Al. Koran The beautiful combination of yellow, gold, orange, and amber tints is harmonious and pleasing. The flowers are large with beautifully waved petals. A strong grower and free blooming. The handsome flowers are carried upright on fine, long stems. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

8101 Amun Ra This is a beautiful rich yet pleasing autumn tint shading from orange to golden amber. A lovely substantial flower of large size carried on long, heavy stems. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

7928 A. R. Johnson The large flowers are a rich golden apricot shade. They are substantial and borne on long stems of good upright growth. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8185 The Bashful Giant Truly a Giant variety with mammoth size blooms which gracefully hang their heads. The color is apricot shaded yellow. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

7929 Dr. Marshall A. Howe Immense flowers measuring nearly 9 inches across. The color is a lovely shade of light pink, deepening to richer pink toward the edges of the petals. Of strong and robust growth. \$4.00 each; 3 for \$11.00; 6 for \$21.00.

8105 Cheerful This Burpee introduction is free blooming and of strong growth, with large blooms carried upright on fine long stems. The flowers are a lovely bright shade of buff-yellow suffused with copper-brown. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8095 E. T. Bedford Here is a fine exhibition variety with large well-shaped flowers carried on fine long stems. The purple color has a glistening silvery sheen which adds greatly to its brightness. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

7934 Fordhook Profusion An exceptionally free and continuous bloomer with coral-red flowers shading to orange at the base of the petals. The strong growing plants bear excellent, long-stemmed cut-flowers. \$10.00 each; 3 for \$27.00.

The illustrations of Dahlias are all greatly reduced in size from photographs taken on Burpee's Fordhook Farms in Pennsylvania

El Dorado

8120 El Dorado See illustration. Just think of a combination of liquid gold with a deeper shading of orange-gold near the base of the petals. These are the colors found in this lovely variety. The large, well-formed flowers are carried on long strong stems. A showy and appealing variety. \$4.00 each; 3 for \$11.00; 6 for \$21.00.

Burpee's Dahlias have been awarded many Gold Medals and other highest honors during the last ten years

Golden Glory

7935 Golden Glory

Soft orange, bright cadmium yellow, and a bronze suffusion blending into a glorious autumn shade. Of great size, borne on stiffy erect stems of great length. \$10.00 each; 3 for \$27.00.

8155 Millionaire A flower of mammoth size and perfect proportions. The heavy, substantial petals are bright lavender shading to white. Millionaire is a robust and strong growing variety, producing exhibition flowers in great abundance and lending itself just as well for garden decoration. 65¢ each; 3 for \$1.75; 6 for \$3.35.

8111 Dr. Tevis A delightful shade of salmon-rose suffused with old gold, shading to a golden apricot. The blending of these charming tones creates an appealing flower. 75¢ each; 3 for \$1.90; 6 for \$3.70.

8140 Jack Rose This old favorite has uniform, compact flowers of a deep ruby-red color. It blooms early, freely, and continuously. An old favorite which still enjoys great popularity. 35¢ each; 3 for 90¢; 6 for \$1.75.

Our fields of Dahlias during blooming season present a spectacle which is not easily forgotten.

We wish that all our customers and friends could see the glorious display of the many acres of Dahlias we grow every year on Burpee's Fordhook Farms in Pennsylvania.

Kitty Dunlap

Greatly reduced

8137 Kitty Dunlap See illustration. This is a shade which is a great favorite, being the color of the American Beauty Rose. The large flowers are well shaped and substantial. They are carried on long, strong stems. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

Bulbs Shipped Separately from Seed

Bulbs require different kind of packing than seeds and they will be shipped separately from seed. We guarantee that they will reach you safely and give entire satisfaction.

8121 Geo. K. Mower An extra fine variety of a pleasing shade of bronze overlaid with salmon-pink. The flower petals are of heavy substance and combine into a massive well-rounded flower that is supported by a firm, solid, and long stem. 65¢ each; 3 for \$1.75; 6 for \$3.35.

7936 Halvella A comparatively new variety combining size, substance, and stiffy erect stems with a beautiful shade of mallow-pink enlivened by a golden sheen. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

8136 Insulinde Another one of these lovely autumn shades combining orange, buff, and golden orange, into a scintillating mass of color. The reverse of the petals is shaded golden rose. A great flower. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8145 Jersey's Pride This glorious flower combines various shades of yellow, amber, and pink into a marvelous blend. The blooms are not only very large but are also of good form and strong substance. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8133 Liberty Bond A lovely blend of buff, bronze, and salmon. The graceful habit of the blooms, the large size, and the exquisite coloring make it a great favorite. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8113 Earle Williams (Doolittle) The large blooms are borne on long stems above the foliage. They are rich crimson, strikingly tipped with white at the end of the petals. This variety belongs to the Decorative type and was raised by a well-known Dahlia specialist whose creations have stood the test of popular favor. A remarkable variety. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

7937 Margaret Masson See illustration below. This is a splendid new variety which embodies all the good qualities one could desire in a first-class Dahlia. Of large size, gracefully carried on perfect stems and extremely free flowering. The lovely silvery rose-pink shade will insure great popularity for it. \$5.00 each; 3 for \$14.00; 6 for \$25.00.

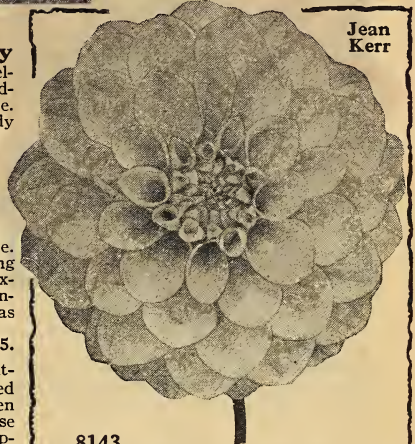

Greatly reduced

Margaret Masson

8146 Judge Marean Dahlia lovers have proven their admiration for this great flower, as it has become one of the best known varieties. The immense blooms are of heavy substance, borne freely, and carried on long stems. The color is opalescent, combining salmon, pink, red, orange, and yellow into a glowing autumn shade. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8128 Lady Betty A fine competitor to the many delicate shades found in this class of Dahlias. The substantial flowers are creamy white with a bright suffusion of pink. A strong grower and free bloomer, carrying its large flowers on strong stems. It is a real giant Dahlia of excellent form and substantial texture. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

Jean Kerr

8143

Jean Kerr This is the most valuable of all white Decorative Dahlias. The medium-sized blooms are carried on long, strong stems well above the foliage. Blooms very early and exceedingly freely until killed by frost. Of compact growth. 60¢ each; 3 for \$1.60; 6 for \$3.00.

7938 Miss Bridgeton One of the best newer varieties with handsome flowers of a pleasing shade of light pink showing a warm violet suffusion. Free flowering. \$2.50 each; 3 for \$6.50; 6 for \$12.50.

8158 Mrs. Carl Salbach A well-formed Decorative Dahlia of remarkable size. The flowers are a beautiful shade of glowing pink. They are borne on fine, long stems and are held well above the foliage. 75¢ each; 3 for \$1.90; 6 for \$3.70.

7939 Mrs. E. L. Lindsay The attractive flowers are of remarkable size. The color is a gorgeous combination of bright scarlet and gold. Large, well-formed, borne profusely on heavy, sturdy plants. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

8116 California Superba

See illustration. The immense flowers are a lovely rich pink shading to white in the center. The heavy thick stems support the flowers well and hold them above the deep green foliage. \$3.00 each; 3 for \$8.00; 6 for \$15.00.

8161 Mrs. I. De Ver Warner Artistic, well-shaped flowers of truly immense size. The color is a superb shade of mauve-pink. Perhaps no other Dahlia has found as many lovers as this outstanding Decorative variety. It is a really fine flower which will last a long time. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

7940 Mrs. G. W. Elkins, Jr. Very large ornamental flowers borne on long stems. The iridescence of old gold, salmon, and pink, together with the rosy pink reflex, is truly splendid. One of the best Dahlias in existence. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

8124 Mrs. John Scheepers The large, well-formed blooms are bright canary-yellow with a suffusion of pink on the outer petals. The combination and blending of these two shades is very pretty. An outstanding color, both in daylight and under artificial illumination. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

8163 Mrs. Louisa Finger A large pure white flower with a distinct cast of light yellow in the center. The flowers are of great size and good form. Mrs. Louisa Finger ranks high both as a cut flower and as a Dahlia for garden display. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

7944 Robert Treat The color of the American Beauty Rose, a shade which is very popular with almost every flower lover. The exceptionally fine blooms are very large and well formed. It blooms freely and makes an excellent cut flower. \$5.00 each; 3 for \$14.00; 6 for \$25.00.

8186 Rosa Nell A clear bright rose of elegant form and large size. It is a great favorite for cutting because the mammoth blooms are long stemmed. 75¢ each; 3 for \$1.90; 6 for \$3.70.

7941 Mr. Crowley Sparkling salmon-pink flowers shaded with bright yellow. A most beautiful variety with large flowers carried on long stems. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

7942 Mr. C. H. Dresselhuys The beautiful pink flowers are carried above the foliage on strong stems, dominating the whole plant in their great profusion. It is a well-formed flower of heavy texture. 75¢ each; 3 for \$1.90; 6 for \$3.70.

8169 Patrick O'Mara A gold medal variety with beautiful flowers combining a magnificent orange-buff with lovely rose-pink. Patrick O'Mara has for years been considered as one of the best autumn shades in existence and no collection of best Dahlias is complete without it. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8171 Paul Michael Deep orange-buff with shadings of old rose on the reverse of the petals. A flower of large size and picturesque appearance. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

8173 Porthos Sparkling deep red flowers of magnificent size and fine form. They are produced on long stems carried above the deep green foliage. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8177 Princess Pat Enchanting old rose flowers which combine great size, length of stem, and good form. The growth of the plants is strong, insuring them great popularity for garden use. Also much grown for cutting. 65¢ each; 3 for \$1.75; 6 for \$3.35.

8184 Queen Mary Lovely cerise-pink with a silvery beam. The flowers are large, well shaped, and of good substance. The gorgeous long-stemmed flowers are much in demand for bouquets. A remarkable variety. 35¢ each; 3 for 90¢; 6 for \$1.75.

Five Best Decorative Dahlias

Here is a collection of five exceptionally fine Dahlias. **Cheerful**—buff-yellow and terra-cotta; **Insulinde**—golden orange; **Kitty Dundap**—bright rose; **Sunnybrook**—butter-yellow; **Wizard of Oz**—iridescent salmon-pink.

9807 One each (5 tubers), postpaid, for **\$6.00**
9808 Three each (15 tubers), postpaid, for **\$16.00**

Tommy Atkins *Greatly reduced*

8098 Tommy Atkins See illustration. Intense flaming scarlet flowers with a glistening metallic sheen. The lovely blooms are well proportioned and of largest size. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

7945 Sagamore Bright amber-gold, with just a ray of warm salmon-rose and orange-buff. It is one of those lovely autumn shades which enjoys great popularity particularly with the ladies. A strong grower of sturdy, upright habit, bearing flowers of uniformly large size. \$7.50 each; 3 for \$20.00; 6 for \$37.50.

8189 Sequoia Gigantea Bright buttercup-yellow with a beam of red cast evenly over the whole flower. Sequoia Gigantea must be seen to be appreciated. It is a mammoth flower of exquisite texture and rich coloring. As an exhibition flower it is superb and as a garden variety it ranks among the best. Every Dahlia lover should include this in his collection. It has been appropriately named Sequoia Gigantea, which is the botanical name for the California Giant Redwood trees. Truly a giant of magnificent growth and lovely "Redwood" color. 75¢ each; 3 for \$1.90; 6 for \$3.70.

8192 Shudow's Lavender A picturesque flower with beautiful, light lavender blooms having a gleam of silver. This is a strong grower and blooms profusely. Shudow's Lavender is very popular because it represents a comparatively rare shade among Dahlias. A giant flower of massive appearance made up of thick substantial petals. \$2.50 each; 3 for \$6.50; 6 for \$12.50.

Burpee's Dahlias are grown on Burpee's Fordhook Farms in Pennsylvania

7946 Snowdrift Glistening silver-white blooms carried on long, stiff stems. A free bloomer, good for garden or exhibition. Makes a fine, sturdy plant. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

7947 St. Francis A quiet shade of soft cream blended harmoniously on the outer petals with glowing pink. A large, full flower which blooms early and continuously. \$2.50 each; 3 for \$6.50.

8194 Stunner Outstanding, clear canary-yellow blooms of very large size. It is a flower of excellent form, borne on plants of sturdy, upright habit. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8182 Sunnybrook Here is a particularly striking variety with rich butter-yellow flowers of impressive size and exceptionally fine form. The growth of the plants is sturdy and the flowers are borne profusely on long stems well above the foliage. Excellent for the garden and for cutting. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8195 Susan Coe The quaint but pleasing array of rose-pink, changing to yellow in the center, and suffused with lilac on the outer petals, is most striking. The flowers are of immense size and borne on long, stiff stems. It is in every way a first-class variety. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

7948 Susan G. Tevis A splendid shade of lilac with a bluish cast. This is an early and free-blooming variety with large flowers. A strong grower. \$2.50 each; 3 for \$6.50; 6 for \$12.50.

8179 Tryphinnie See illustration. A lovely shade of bright shell-pink with lighter tips. An artistic flower, borne profusely on long, substantial stems. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

TRYPHINNIE

ROOKWOOD

8178 Rookwood See illustration. A sparkling shade, best described as bright cerise-rose. The mammoth-size flowers are superb for exhibition or garden decoration. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

7943 Red Bird

Scintillating red with a beam of orange-red toward the base of the petals. An outstanding novelty which blooms from early until late. This is a handsome and graceful flower, carried on magnificent sturdy stems. \$10.00 each; 3 for \$27.00; 6 for \$50.00.

REDBIRD

8188 Venus A pleasing shade of creamy white with a charming suffusion of lavender. Large and well-formed flowers of great appeal. A sturdy plant and free bloomer. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8190 Ysleta A brilliant blend of salmon, orange, and beautiful iridescent copper shades. A truly glorious flower of refined form and excellent size. Ysleta must be seen to be appreciated. Of great value for the garden and for cutting. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8199 Wizard of Oz The combination of amber, pink, and salmon represents a lovely autumn tint. This is a flower which embodies size, good form, length of stem, and free-blooming habit. Wizard of Oz has for years ranked as one of the most desirable Dahlias for both exhibition and garden use. \$2.50 each; 3 for \$6.50; 6 for \$12.50.

Six Popular Decorative Dahlias

These collections contain the following six attractive and free blooming Decorative Dahlias. They will be sent postpaid.

L. Kramer Peacock—White
Minnie Burgle—Brilliant red
Mrs. C. H. Breck—Yellow and carmine
Mrs. J. Harrison Dick—Yellow
Quaker Maid—Amaranth-pink
Sylvia—A lovely bright silvery pink

9805 One each of these six
Decorative Dahlias for **\$2.00**

9806 Three each of these six
Decorative Dahlias for **\$5.50**

8131 L. Kramer Peacock An ideal Dahlia for garden and cutting, which is in great demand because of its many good characteristics. Like all pure white Dahlias, it enjoys great popularity. 35¢ each; 3 for 90¢; 6 for \$1.75.

8156 Minnie Burgle While not new, this variety has held its own ever since it was introduced. Those who love bright rich colors will be delighted with it. The blooms are brilliant red with a bright glistening sheen. 50¢ each; 3 for \$1.30; 6 for \$2.50.

8160 Mrs. C. H. Breck This lovely Decorative variety has flowers of unique appearance. The color is rich yellow attractively suffused with bright carmine, creating a showy and artistic color contrast. 35¢ each; 3 for 90¢; 6 for \$1.75.

8162 Mrs. J. Harrison Dick A foremost Decorative Dahlia which is well known as it has been exhibited widely. The flowers are clear bright yellow showing a soft touch of pink on the outer petals. Blooms are well rounded. They are carried on long stems. 75¢ each; 3 for \$1.90; 6 for \$3.70.

8183 Quaker Maid This is a lovely yet dainty shade of Amaranth-pink toning into a lighter shade of bright pink toward the tips of the petals. \$1.00 each; 3 for \$2.70; 6 for \$5.25.

8193 Sylvia A lovely flower of large size, being an enchanting shade of pink becoming lighter toward the center. It is a strong grower and profuse bloomer. 35¢ each; 3 for 90¢; 6 for \$1.75.

Six of the best NEW DAHLIAS

All illustrated on the opposite page

8017 Francis Lobdell

An immense flower belonging to the Hybrid-Cactus type. The blooms are large and well rounded with broad petals having attractively twisted tips. The color is bright mallow-pink at the tips of the petals, shading to white toward the base. The center of the flowers is nearly white. A strong grower and profuse bloomer. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

8130 Jersey's Beauty

This is considered the finest pink Dahlia ever introduced. The color is a lovely rose-pink. The blooms are large, well rounded, and of artistic proportions. Jersey's Beauty has created a sensation. Wherever exhibited it has received the highest honors. The firm and massive blooms are borne profusely on strong, heavy stems. \$2.50 each; 3 for \$6.50; 6 for \$12.50.

8005 Daddy Butler

A great variety of the Hybrid-Cactus type. The blooms are most outstanding because they are extremely large and of massive formation. However, it is its rich, bright color that has given Daddy Butler its outstanding place wherever Dahlias are wanted for cutting or garden decoration. The blooms are a bright, luminous shade of rosy carmine. They are borne with the greatest freedom on long stems. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

8147 La Mascotte

A most attractive Decorative Dahlia combining good form, large size, and free-blooming habit with artistic coloring. The petals are silvery white with a violet-red reverse. This color combination is very pleasing. The flowers are well rounded, carried above the foliage on long substantial stems which make La Mascotte a foremost variety for cutting. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

8152 Marion Christine

Here is a flower which has proven to be very popular. It has received favorable attention whenever exhibited. The blooms combine fine, rounded form, good size and substance, with a lovely shade of salmon-pink toning to light yellow near the tips of the petals. There is also a warm ray of rich red toward the base of the individual petals. A strong grower. \$1.50 each; 3 for \$3.80; 6 for \$6.90.

8154 Mephistopheles

This is usually classed as a Decorative variety, even though at times the flowers show characteristics not unlike those found in the Hybrid-Cactus type. The blooms are magnificent rich ruby-red with golden yellow tips. It is a lovely variety in every way, valued not only because of its tremendous size but also because of its free-blooming habit and lasting qualities. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

Collections of Six of the Best New Dahlias

These collections contain the six varieties described above and illustrated on the opposite page.

9814 One each of the six large and free-blooming Dahlias pictured in color on the opposite page, postpaid, for **\$8.50**

9817 Three each of the six beautiful free-flowering Dahlias, altogether 18 tubers, will be mailed, postpaid, for **\$24.00**
